2. In the opinion of a physician, who shall be duly licensed to practice medicine in the Commonwealth and board-eligible or board-certified in the field of neurology, neurosurgery, or critical care medicine, when based on the

ordinary standards of medical practice, there is irreversible cessation of all functions of the entire brain, including the brain stem, and, in the opinion of such physician, based on the ordinary standards of medical practice and considering the irreversible cessation of all functions of the entire brain, including the brain stem, and the patient's medical record, further attempts at resuscitation or continued supportive maintenance would not be successful in restoring such functions, and, in such event, death shall be deemed to have occurred at the time when all such functions have ceased.

B. A registered nurse ~~or a~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* may pronounce death if the following criteria are satisfied: (i) the nurse is employed by or the physician assistant *or nurse practitioner who is not an autonomous nurse practitioner* works at (a) a home care organization as defined in § 32.1-162.7, (b) a hospice as defined in § 32.1-162.1, (c) a hospital or nursing home as defined in § 32.1-123, including state-operated hospitals for the purposes of this section, (d) the Department of Corrections, or (e) a continuing care retirement community registered with the State Corporation Commission pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2; (ii) the nurse ~~or~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* is directly involved in the care of the patient; (iii) the patient's death has occurred; (iv) the patient is under the care of a physician *or autonomous nurse practitioner* when his death occurs; (v) the patient's death has been anticipated; and (vi) the physician *or autonomous nurse practitioner* is unable to be present within a reasonable period of time to determine death; ~~and (vii) there is a valid Do Not Resuscitate Order pursuant to § 54.1-2987-1 for the patient who has died.~~ The nurse ~~or~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* shall inform the patient's attending and consulting ~~physicians~~ *physician or autonomous nurse practitioner* of the patient's death as soon as practicable.

The nurse ~~or~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* shall have the authority to pronounce death in accordance with such procedural regulations, if any, as may be promulgated by the Board of Medicine; however, if the circumstances of the death are not anticipated or the death requires an investigation by the Office of the Chief Medical Examiner, ~~the such~~ nurse ~~or~~, physician assistant, *or nurse practitioner* shall notify the Office of the Chief Medical Examiner of the death and the body shall not be released to the funeral director.

This subsection shall not authorize a nurse ~~or~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* to determine the cause of death. Determination of cause of death shall continue to be the responsibility of the attending physician *or autonomous nurse practitioner*, except as provided in § 32.1-263. Further, this subsection shall not be construed to impose any obligation to carry out the functions of this subsection.

This subsection shall not relieve any registered nurse ~~or~~, physician assistant, *or nurse practitioner who is not an autonomous nurse practitioner* from any civil or criminal liability that might otherwise be incurred for failure to follow statutes or Board of Nursing or Board of Medicine regulations.

C. The alternative definitions of death provided in subdivisions A 1 and 2 may be utilized for all purposes in the Commonwealth, including the trial of civil and criminal cases.

F. All alcoholic beverages sold in government stores, except for tasting samples pursuant to subsection G sold in government stores established by the Board on a distiller's licensed premises, shall be in closed containers, sealed and affixed with labels prescribed by the Board.

G. No alcoholic beverages shall be consumed in a government store by any person unless it is part of an organized tasting event conducted by (i) an employee of a manufacturer of distilled spirits or farm winery or (ii) an authorized representative of a manufacturer of distilled spirits or farm winery with a permit issued by the Board pursuant to subdivision A 14 of § 4.1-212, at which the samples of alcoholic beverages provided to any consumer do not exceed the limits for spirits or wine set forth in subdivision A 5 of § 4.1-201.1. No sample may be consumed by any individual to whom alcoholic beverages may not lawfully be sold pursuant to § 4.1-304.

Notwithstanding the provision of this subsection to the contrary, an agent of the Board appointed pursuant to subsection D may give samples of spirits, beer, wine, or cider to persons to whom alcoholic beverages may be lawfully sold for on-premises consumption, provided that (i) the spirits, beer, wine, or cider samples are manufactured within the same licensed premises or on contiguous premises of such agent licensed as a distillery, brewery, or winery; (ii) no single sample shall exceed four ounces of beer, two ounces of wine or cider, or one-half ounce of spirits, unless served as a mixed beverage, in which case a single sample of spirits may contain up to one and one-half ounces of spirits; (iii) no more than 12 ounces of beer, five ounces of wine, or three ounces of spirits shall be given or sold to any person per day; and (iv) in the case of spirits samples, a method is used to track the consumption of each consumer. Nothing in this paragraph shall prohibit such agent from serving samples of spirits as part of a mixed beverage. Such mixed beverage samples may contain spirits or vermouth not manufactured on the licensed premises or on contiguous premises of the licensed distillery, provided that at least 75 percent of the alcohol used in such samples is manufactured on the licensed premises or on contiguous premises of the licensed distillery. An agent of the Board appointed pursuant to subsection D may keep on the licensed premises no more than 10 varieties of spirits or vermouth not manufactured on the licensed premises or on contiguous premises of the licensed distillery. Any spirits or vermouth used in such samples that are not manufactured on the licensed premises or on contiguous premises of the licensed distillery shall be purchased from the Board.

The Board shall establish guidelines governing tasting events conducted pursuant to this subsection.

Any case fee charged to a licensed distiller by the Board for moving spirits from the production and bailment area to the tasting area of a government store established by the Board on the distiller's licensed premises shall be waived if such spirits are moved by employees of the licensed distiller.

H. With respect to purchases by licensees at government stores, the Authority shall (i) accept in payment for any purchase or series of purchases cash, electronic fund transfer, credit or debit card, or check payable to the Authority, in the exact amount of any such purchase or series of purchases and (ii) provide notice to licensees on Board policies relating to the assignment of government stores from which licensees may purchase products and any procedure for the licensee to elect to make purchases from an alternative government store.

I. With respect to purchases by consumers at government stores, the Authority shall accept cash in payment for any purchase or series of purchases. The Board may adopt regulations which provide for accepting a credit card or debit card as payment. Such regulations may provide for the collection, where appropriate, of related fees, penalties, and service charges for the use of a credit card or debit card by any consumer.

J. Before the Authority implements any increase in the markup on distilled spirits or any change to the markup formula for distilled spirits pursuant to § 4.1-235 that would result in an increase in the retail price of distilled spirits sold to the public, the Authority shall (i) provide at least 45 days' public notice before such a price increase takes effect; (ii) provide the opportunity for submission of written comments regarding the proposed price increase; (iii) conduct a public meeting for the purpose of receiving verbal comment regarding the proposed price increase; and (iv) consider any written or verbal comments before implementing such a price increase.

CHAPTER 197

An Act to amend and reenact §§ 54.1-2957, as it is currently effective and as it shall become effective, and 54.1-2957.01 of the Code of Virginia, relating to clinical nurse specialist; practice agreement.

[H 285]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 54.1-2957, as it is currently effective and as it shall become effective, and 54.1-2957.01 of the Code of Virginia are amended and reenacted as follows:

§ 54.1-2957. (Effective until July 1, 2022) Licensure and practice of nurse practitioners.

A. As used in this section, "clinical experience" means the postgraduate delivery of health care directly to patients pursuant to a practice agreement with a patient care team physician.

B. The Board of Medicine and the Board of Nursing shall jointly prescribe the regulations governing the licensure of nurse practitioners. It is unlawful for a person to practice as a nurse practitioner in the Commonwealth unless he holds such a joint license.

C. Every nurse practitioner other than a certified nurse midwife, certified registered nurse anesthetist, or clinical nurse specialist or a nurse practitioner who meets the requirements of subsection I shall maintain appropriate collaboration and consultation, as evidenced in a written or electronic practice agreement, with at least one patient care team physician. A nurse practitioner who meets the requirements of subsection I may practice without a written or electronic practice agreement. A certified nurse midwife shall practice pursuant to subsection H. A nurse practitioner who is licensed by the Boards of Medicine and Nursing as a clinical nurse specialist shall practice pursuant to subsection J. A certified registered nurse anesthetist shall practice under the supervision of a licensed doctor of medicine, osteopathy, podiatry, or dentistry. A nurse practitioner who is appointed as a medical examiner pursuant to § 32.1-282 shall practice in collaboration with a licensed doctor of medicine or osteopathic medicine who has been appointed to serve as a medical examiner pursuant to § 32.1-282. Collaboration and consultation among nurse practitioners and patient care team physicians may be provided through telemedicine as described in § 38.2-3418.16.

Physicians on patient care teams may require that a nurse practitioner be covered by a professional liability insurance policy with limits equal to the current limitation on damages set forth in § 8.01-581.15.

Service on a patient care team by a patient care team member shall not, by the existence of such service alone, establish or create liability for the actions or inactions of other team members.

D. The Boards of Medicine and Nursing shall jointly promulgate regulations specifying collaboration and consultation among physicians and nurse practitioners working as part of patient care teams that shall include the development of, and periodic review and revision of, a written or electronic practice agreement; guidelines for availability and ongoing communications that define consultation among the collaborating parties and the patient; and periodic joint evaluation of the services delivered. Practice agreements shall include provisions for (i) periodic review of health records, which may include visits to the site where health care is delivered, in the manner and at the frequency determined by the nurse practitioner and the patient care team physician and (ii) input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. For nurse practitioners providing care to patients within a hospital or health care system, the practice agreement may be included as part of documents delineating the nurse practitioner's clinical privileges or the electronic or written delineation of duties and responsibilities in collaboration and consultation with a patient care team physician.

E. The Boards of Medicine and Nursing may issue a license by endorsement to an applicant to practice as a nurse practitioner if the applicant has been licensed as a nurse practitioner under the laws of another state and, pursuant to regulations of the Boards, the applicant meets the qualifications for licensure required of nurse practitioners in the

Commonwealth. A nurse practitioner to whom a license is issued by endorsement may practice without a practice agreement with a patient care team physician pursuant to subsection I if such application provides an attestation to the Boards that the applicant has completed the equivalent of at least two years of full-time clinical experience, as determined by the Boards, in accordance with the laws of the state in which the nurse practitioner was licensed.

F. Pending the outcome of the next National Specialty Examination, the Boards may jointly grant temporary licensure to nurse practitioners.

G. In the event a physician who is serving as a patient care team physician dies, becomes disabled, retires from active practice, surrenders his license or has it suspended or revoked by the Board, or relocates his practice such that he is no longer able to serve, and a nurse practitioner is unable to enter into a new practice agreement with another patient care team physician, the nurse practitioner may continue to practice upon notification to the designee or his alternate of the Boards and receipt of such notification. Such nurse practitioner may continue to treat patients without a patient care team physician for an initial period not to exceed 60 days, provided the nurse practitioner continues to prescribe only those drugs previously authorized by the practice agreement with such physician and to have access to appropriate input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. The designee or his alternate of the Boards shall grant permission for the nurse practitioner to continue practice under this subsection for another 60 days, provided the nurse practitioner provides evidence of efforts made to secure another patient care team physician and of access to physician input.

H. Every certified nurse midwife shall practice in accordance with regulations adopted by the Boards and consistent with the Standards for the Practice of Midwifery set by the American College of Nurse-Midwives governing such practice. A certified nurse midwife who has practiced fewer than 1,000 hours shall practice in consultation with a certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or a licensed physician, in accordance with a practice agreement. Such practice agreement shall address the availability of the certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or the licensed physician for routine and urgent consultation on patient care. Evidence of the practice agreement shall be maintained by the certified nurse midwife and provided to the Boards upon request. A certified nurse midwife who has completed 1,000 hours of practice as a certified nurse midwife may practice without a practice agreement upon receipt by the certified nurse midwife of an attestation from the certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or the licensed physician with whom the certified nurse midwife has entered into a practice agreement stating (i) that such certified nurse midwife or licensed physician has provided consultation to the certified nurse midwife pursuant to a practice agreement meeting the requirements of this section and (ii) the period of time for which such certified nurse midwife or licensed physician practiced in collaboration and consultation with the certified nurse midwife pursuant to the practice agreement. A certified nurse midwife authorized to practice without a practice agreement shall consult and collaborate with and refer patients to such other health care providers as may be appropriate for the care of the patient.

I. A nurse practitioner, other than a nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife, certified registered nurse anesthetist, or clinical nurse specialist, who has completed the equivalent of at least two years of full-time clinical experience as a licensed nurse practitioner, as determined by the Boards, may practice in the practice category in which he is certified and licensed without a written or electronic practice agreement upon receipt by the nurse practitioner of an attestation from the patient care team physician stating (i) that the patient care team physician has served as a patient care team physician on a patient care team with the nurse practitioner pursuant to a practice agreement meeting the requirements of this section and § 54.1-2957.01; (ii) that while a party to such practice agreement, the patient care team physician routinely practiced with a patient population and in a practice area included within the category for which the nurse practitioner was certified and licensed; and (iii) the period of time for which the patient care team physician practiced with the nurse practitioner under such a practice agreement. A copy of such attestation shall be submitted to the Boards together with a fee established by the Boards. Upon receipt of such attestation and verification that a nurse practitioner satisfies the requirements of this subsection, the Boards shall issue to the nurse practitioner a new license that includes a designation indicating that the nurse practitioner is authorized to practice without a practice agreement. In the event that a nurse practitioner is unable to obtain the attestation required by this subsection, the Boards may accept other evidence demonstrating that the applicant has met the requirements of this subsection in accordance with regulations adopted by the Boards.

A nurse practitioner authorized to practice without a practice agreement pursuant to this subsection shall (a) only practice within the scope of his clinical and professional training and limits of his knowledge and experience and consistent with the applicable standards of care, (b) consult and collaborate with other health care providers based on the clinical conditions of the patient to whom health care is provided, and (c) establish a plan for referral of complex medical cases and emergencies to physicians or other appropriate health care providers.

A nurse practitioner practicing without a practice agreement pursuant to this subsection shall obtain and maintain coverage by or shall be *the* named insured on a professional liability insurance policy with limits equal to the current limitation on damages set forth in § 8.01-581.15.

J. ~~Nurse practitioners~~ *A nurse practitioner licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist who does not prescribe controlled substances or devices may practice in the practice category in which he is certified and licensed without a written or electronic practice agreement. Such nurse practitioner shall (i) only practice within the scope of his clinical and professional training and limits of his knowledge and experience and consistent with the*

applicable standards of care, (ii) consult and collaborate with other health care providers based on the clinical condition of the patient to whom health care is provided, and (iii) establish a plan for referral of complex medical cases and emergencies to physicians or other appropriate health care providers.

A nurse practitioner licensed by the Boards in the category of clinical nurse specialist who prescribes controlled substances or devices shall practice in consultation with a licensed physician in accordance with a practice agreement between the nurse practitioner and the licensed physician. Such practice agreement shall address the availability of the physician for routine and urgent consultation on patient care. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. The practice of clinical nurse specialists shall be consistent with the standards of care for the profession and with applicable laws and regulations.

§ 54.1-2957. (Effective July 1, 2022) Licensure and practice of nurse practitioners.

A. As used in this section, "clinical experience" means the postgraduate delivery of health care directly to patients pursuant to a practice agreement with a patient care team physician.

A nurse practitioner who is appointed as a medical examiner pursuant to § 32.1-282 shall practice in collaboration with a licensed doctor of medicine or osteopathic medicine who has been appointed to serve as a medical examiner pursuant to § 32.1-282. Collaboration and consultation among nurse practitioners and patient care team physicians may be provided through telemedicine as described in § 38.2-3418.16.

Physicians on patient care teams may require that a nurse practitioner be covered by a professional liability insurance policy with limits equal to the current limitation on damages set forth in § 8.01-581.15.

Service on a patient care team by a patient care team member shall not, by the existence of such service alone, establish or create liability for the actions or inactions of other team members.

D. The Boards of Medicine and Nursing shall jointly promulgate regulations specifying collaboration and consultation among physicians and nurse practitioners working as part of patient care teams that shall include the development of, and periodic review and revision of, a written or electronic practice agreement; guidelines for availability and ongoing communications that define consultation among the collaborating parties and the patient; and periodic joint evaluation of the services delivered. Practice agreements shall include provisions for (i) periodic review of health records, which may include visits to the site where health care is delivered, in the manner and at the frequency determined by the nurse practitioner and the patient care team physician and (ii) input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. For nurse practitioners providing care to patients within a hospital or health care system, the practice agreement may be included as part of documents delineating the nurse practitioner's clinical privileges or the electronic or written delineation of duties and responsibilities in collaboration and consultation with a patient care team physician.

E. The Boards of Medicine and Nursing may issue a license by endorsement to an applicant to practice as a nurse practitioner if the applicant has been licensed as a nurse practitioner under the laws of another state and, pursuant to regulations of the Boards, the applicant meets the qualifications for licensure required of nurse practitioners in the Commonwealth. A nurse practitioner to whom a license is issued by endorsement may practice without a practice agreement with a patient care team physician pursuant to subsection I if such application provides an attestation to the Boards that the applicant has completed the equivalent of at least five years of full-time clinical experience, as determined by the Boards, in accordance with the laws of the state in which the nurse practitioner was licensed.

F. Pending the outcome of the next National Specialty Examination, the Boards may jointly grant temporary licensure to nurse practitioners.

G. In the event a physician who is serving as a patient care team physician dies, becomes disabled, retires from active practice, surrenders his license or has it suspended or revoked by the Board, or relocates his practice such that he is no longer able to serve, and a nurse practitioner is unable to enter into a new practice agreement with another patient care team physician, the nurse practitioner may continue to practice upon notification to the designee or his alternate of the Boards and receipt of such notification. Such nurse practitioner may continue to treat patients without a patient care team physician for an initial period not to exceed 60 days, provided the nurse practitioner continues to prescribe only those drugs previously authorized by the practice agreement with such physician and to have access to appropriate input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. The designee or his alternate of the Boards shall grant permission for the nurse practitioner to continue practice under this subsection for another 60 days,

provided the nurse practitioner provides evidence of efforts made to secure another patient care team physician and of access to physician input.

H. Every certified nurse midwife shall practice in accordance with regulations adopted by the Boards and consistent with the Standards for the Practice of Midwifery set by the American College of Nurse-Midwives governing such practice. A certified nurse midwife who has practiced fewer than 1,000 hours shall practice in consultation with a certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or a licensed physician, in accordance with a practice agreement. Such practice agreement shall address the availability of the certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or the licensed physician for routine and urgent consultation on patient care. Evidence of the practice agreement shall be maintained by the certified nurse midwife and provided to the Boards upon request. A certified nurse midwife who has completed 1,000 hours of practice as a certified nurse midwife may practice without a practice agreement upon receipt by the certified nurse midwife of an attestation from the certified nurse midwife who has practiced for at least two years prior to entering into the practice agreement or the licensed physician with whom the certified nurse midwife has entered into a practice agreement stating (i) that such certified nurse midwife or licensed physician has provided consultation to the certified nurse midwife pursuant to a practice agreement meeting the requirements of this section and (ii) the period of time for which such certified nurse midwife or licensed physician practiced in collaboration and consultation with the certified nurse midwife pursuant to the practice agreement. A certified nurse midwife authorized to practice without a practice agreement shall consult and collaborate with and refer patients to such other health care providers as may be appropriate for the care of the patient.

I. A nurse practitioner, other than a nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife, certified registered nurse anesthetist, or clinical nurse specialist, who has completed the equivalent of at least five years of full-time clinical experience as a licensed nurse practitioner, as determined by the Boards, may practice in the practice category in which he is certified and licensed without a written or electronic practice agreement upon receipt by the nurse practitioner of an attestation from the patient care team physician stating (i) that the patient care team physician has served as a patient care team physician on a patient care team with the nurse practitioner pursuant to a practice agreement meeting the requirements of this section and § 54.1-2957.01; (ii) that while a party to such practice agreement, the patient care team physician routinely practiced with a patient population and in a practice area included within the category for which the nurse practitioner was certified and licensed; and (iii) the period of time for which the patient care team physician practiced with the nurse practitioner under such a practice agreement. A copy of such attestation shall be submitted to the Boards together with a fee established by the Boards. Upon receipt of such attestation and verification that a nurse practitioner satisfies the requirements of this subsection, the Boards shall issue to the nurse practitioner a new license that includes a designation indicating that the nurse practitioner is authorized to practice without a practice agreement. Such practice agreement shall address the availability of the physician for routine and urgent consultation on patient care. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. The practice of clinical nurse specialists shall be consistent with the standards of care for the profession and with applicable laws and regulations.

§ 54.1-2957.01. Prescription of certain controlled substances and devices by licensed nurse practitioners.

In accordance with the provisions of this section and pursuant to the requirements of Chapter 33 (§ 54.1-3300 et seq.), a licensed nurse practitioner shall have the authority to prescribe Schedule II through Schedule VI controlled substances and devices as set forth in Chapter 34 (§ 54.1-3400 et seq.).

B. A nurse practitioner who does not meet the requirements for practice without a written or electronic practice agreement set forth in subsection I of § 54.1-2957 shall prescribe controlled substances or devices only if such prescribing is

authorized by a written or electronic practice agreement entered into by the nurse practitioner and a patient care team physician *or, if the nurse practitioner is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, the nurse practitioner and a licensed physician*. Such nurse practitioner shall provide to the Boards of Medicine and Nursing such evidence as the Boards may jointly require that the nurse practitioner has entered into and is, at the time of writing a prescription, a party to a written or electronic practice agreement with a patient care team physician, *or, if the nurse practitioner is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, a licensed physician*, that clearly states the prescriptive practices of the nurse practitioner. Such written or electronic practice agreements shall include the controlled substances the nurse practitioner is or is not authorized to prescribe and may restrict such prescriptive authority as described in the practice agreement. Evidence of a practice agreement shall be maintained by a nurse practitioner pursuant to § 54.1-2957. Practice agreements authorizing a nurse practitioner to prescribe controlled substances or devices pursuant to this section either shall be signed by the patient care team physician, *or, if the nurse practitioner is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, a licensed physician*, or shall clearly state the name of the patient care team physician, *or, if the nurse practitioner is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, the name of the licensed physician*, who has entered into the practice agreement with the nurse practitioner.

C. The Boards of Medicine and Nursing shall promulgate regulations governing the prescriptive authority of nurse practitioners as are deemed reasonable and necessary to ensure an appropriate standard of care for patients. Such regulations shall include requirements as may be necessary to ensure continued nurse practitioner competency, which may include continuing education, testing, or any other requirement, and shall address the need to promote ethical practice, an appropriate standard of care, patient safety, the use of new pharmaceuticals, and appropriate communication with patients.

D. This section shall not limit the functions and procedures of certified registered nurse anesthetists or of any nurse practitioners which are otherwise authorized by law or regulation.

E. The following restrictions shall apply to any nurse practitioner authorized to prescribe drugs and devices pursuant to this section:

1. The nurse practitioner shall disclose to the patient at the initial encounter that he is a licensed nurse practitioner. Any party to a practice agreement shall disclose, upon request of a patient or his legal representative, the name of the patient care team physician, *or, if the nurse practitioner is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, the name of the licensed physician*, and information regarding how to contact the patient care team physician *or licensed physician*.

F. This section shall not prohibit a licensed nurse practitioner from administering controlled substances in compliance with the definition of "administer" in § 54.1-3401 or from receiving and dispensing manufacturers' professional samples of controlled substances in compliance with the provisions of this section.

G. Notwithstanding any provision of law or regulation to the contrary, a nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife ~~or clinical nurse specialist~~ and holding a license for prescriptive authority may prescribe Schedules II through VI controlled substances. However, if the nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife ~~or clinical nurse specialist~~ is required, pursuant to subsection H ~~or J~~ of § 54.1-2957, to practice pursuant to a practice agreement, such prescribing shall also be in accordance with any prescriptive authority included in such practice agreement.

H. Notwithstanding any provision of law or regulation to the contrary, a nurse practitioner licensed by the Boards of Medicine and Nursing as a certified registered nurse anesthetist shall have the authority to prescribe Schedule II through Schedule VI controlled substances and devices in accordance with the requirements for practice set forth in subsection C of § 54.1-2957 to a patient requiring anesthesia, as part of the periprocedural care of such patient. CHAPTER 198

An Act to amend and reenact § 54.1-2972 of the Code of Virginia, relating to licensed practical nurses; authority to pronounce death.

[S 169]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2972 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-2972. When person deemed medically and legally dead; determination of death; nurses', licensed practical nurses', or physician assistants' authority to pronounce death under certain circumstances.

A. A person shall be medically and legally dead if:

1. In the opinion of a physician duly authorized to practice medicine in the Commonwealth, based on the ordinary standards of medical practice, there is the absence of spontaneous respiratory and spontaneous cardiac functions and, because of the disease or condition that directly or indirectly caused these functions to cease, or because of the passage of time since these functions ceased, attempts at resuscitation would not, in the opinion of such physician, be successful in restoring spontaneous life-sustaining functions, and, in such event, death shall be deemed to have occurred at the time these functions ceased; or

2. In the opinion of a physician, who shall be duly licensed to practice medicine in the Commonwealth and board-eligible or board-certified in the field of neurology, neurosurgery, or critical care medicine, when based on the ordinary standards of medical practice, there is irreversible cessation of all functions of the entire brain, including the brain stem, and, in the opinion of such physician, based on the ordinary standards of medical practice and considering the irreversible cessation of all functions of the entire brain, including the brain stem, and the patient's medical record, further attempts at resuscitation or continued supportive maintenance would not be successful in restoring such functions, and, in such event, death shall be deemed to have occurred at the time when all such functions have ceased.

B. A registered nurse or a physician assistant may pronounce death if the following criteria are satisfied: (i) the nurse is employed by or the physician assistant works at (a) a home care organization as defined in § 32.1-162.7, (b) a hospice as defined in § 32.1-162.1, (c) a hospital or nursing home as defined in § 32.1-123, including state-operated hospitals for the purposes of this section, (d) the Department of Corrections, or (e) a continuing care retirement community registered with the State Corporation Commission pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2; (ii) the nurse or physician assistant is directly involved in the care of the patient; (iii) the patient's death has occurred; (iv) the patient is under the care of a physician when his death occurs; (v) the patient's death has been anticipated; (vi) the physician is unable to be present within a reasonable period of time to determine death; and (vii) there is a valid Do Not Resuscitate Order pursuant to § 54.1-2987.1 for the patient who has died. *A licensed practical nurse may pronounce death for a patient in hospice pursuant to a valid Do Not Resuscitate Order issued in accordance with § 54.1-2987.1.* The nurse, *licensed practical nurse*, or physician assistant shall inform the patient's attending and consulting physicians of the patient's death as soon as practicable.

The nurse, *licensed practical nurse*, or physician assistant shall have the authority to pronounce death in accordance with such procedural regulations, if any, as may be promulgated by the Board of Medicine; however, if the circumstances of the death are not anticipated or the death requires an investigation by the Office of the Chief Medical Examiner, the nurse, *licensed practical nurse*, or physician assistant shall notify the Office of the Chief Medical Examiner of the death and the body shall not be released to the funeral director.

This subsection shall not authorize a nurse, *licensed practical nurse*, or physician assistant to determine the cause of death. Determination of cause of death shall continue to be the responsibility of the attending physician, except as provided in § 32.1-263. Further, this subsection shall not be construed to impose any obligation to carry out the functions of this subsection.

This subsection shall not relieve any registered nurse, *licensed practical nurse*, or physician assistant from any civil or criminal liability that might otherwise be incurred for failure to follow statutes or Board of Nursing or Board of Medicine regulations.

C. The alternative definitions of death provided in subdivisions A 1 and 2 may be utilized for all purposes in the Commonwealth, including the trial of civil and criminal cases.

§ 58.1-1812. Assessment of omitted taxes by the Department of Taxation.

A. If the Tax Commissioner ascertains that any person has failed to make a proper return or to pay in full any proper tax, he shall assess the taxes prescribed by law, adding to the taxes so assessed the penalty prescribed by law, if any, for the failure to file a return (if a return was required by law but not filed within the time prescribed by law) and the penalty or penalties prescribed by law for the failure to pay the taxes and penalty or penalties within the time prescribed by law. If no penalty is so prescribed, he shall assess a penalty of ~~5~~ five percent of the tax due, or if the failure to pay in full was fraudulent, a penalty of 100 percent of the tax due. In addition thereto, interest on the outstanding tax and penalty shall be charged at the rate established under § 58.1-15 for the period between the due date and the date of full payment.

Except as otherwise provided by law, the amount of tax shall be assessed within three years after the return was filed, whether such return was filed on or after the date prescribed, and no proceeding in court without assessment shall be begun for the collection of such tax after the expiration of such period. A return of tax filed before the last day prescribed by law for the timely filing thereof shall be considered as filed on the last day. A return of recordation tax shall be considered as having been filed on the date of recordation. If no return is filed, the tax may be assessed within six years of the date such return was due. If a false or fraudulent return is filed with intent to evade the payment of tax, an assessment may be made at any time.

Upon such assessment, the Department of Taxation shall send a bill therefor to the taxpayer and the taxes, penalties, and interest shall be remitted to the Department of Taxation within ~~thirty~~ 30 days from the date of such bill. *Effective January 1, 2023, such bill and notice of assessment shall identify the date the initial return or payment was received by the Department, any payment amounts received, and an explanation of the taxes, penalties, and interest related to such assessment on such taxpayer.* If such taxes, penalties, and interest are not paid within such ~~thirty~~ 30 days, interest at the rate provided herein shall accrue thereon from the date of such assessment until payment.

CHAPTER 203

An Act to amend and reenact § 58.1-439 of the Code of Virginia, relating to income tax; major business facility job tax credit; sunset.

[S 185]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-439 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-439. Major business facility job tax credit.

A. For taxable years beginning on and after January 1, 1995, but before July 1, ~~2022~~ 2025, a taxpayer shall be allowed a credit against the taxes imposed by Articles 2 (§ 58.1-320 et seq.), 6 (§ 58.1-360 et seq.), and 10 (§ 58.1-400 et seq.) of Chapter 3; Chapter 12 (§ 58.1-1200 et seq.); Article 1 (§ 58.1-2500 et seq.) of Chapter 25; or Article 2 (§ 58.1-2620 et seq.) of Chapter 26 as set forth in this section.

B. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

C. A "major business facility" is a company that satisfies the following criteria:

1. Subject to the provisions of subsections K or L, the establishment or expansion of the company shall result in the creation of at least 50 jobs for qualified full-time employees; the first such 50 jobs shall be referred to as the "threshold amount"; and

2. The company is engaged in any business in the Commonwealth, except a retail trade business if such trade is the principal activity of an individual facility in the Commonwealth. Examples of types of major business facilities that are eligible for the credit provided under this section include, but are not limited to, a headquarters, or portion of such a facility, where company employees are physically employed, and where the majority of the company's financial, personnel, legal or planning functions are handled either on a regional or national basis. A company primarily engaged in the Commonwealth in the business of manufacturing or mining; agriculture, forestry or fishing; transportation or communications; or a public utility subject to the corporation income tax shall be deemed to have established or expanded a major business facility in the Commonwealth if it meets the requirements of subdivision 1 during a single taxable year and such facilities are not retail establishments. A major business facility shall also include facilities that perform central management or administrative activities, whether operated as a separate trade or business, or as a separate support operation of another business. Central management or administrative activities include, but are not limited to, general management; accounting; computing; tabulating; purchasing; transportation or shipping; engineering and systems planning; advertising; technical sales and support operations; central administrative offices and warehouses; research, development and testing laboratories; computer-programming, data-processing and other computer-related services facilities; and legal, financial, insurance, and real estate services. The terms used in this subdivision to refer to various types of businesses shall have the same meanings as those terms are commonly defined in the Standard Industrial Classification Manual.

D. For purposes of this section, the "credit year" is the first taxable year following the taxable year in which the major business facility commenced or expanded operations.

E. The Department of Taxation shall make all determinations as to the classification of a major business facility in accordance with the provisions of this section.

F. A "qualified full-time employee" means an employee filling a new, permanent full-time position in a major business facility in the Commonwealth. A "new, permanent full-time position" is a job of an indefinite duration, created by the company as a result of the establishment or expansion of a major business facility in the Commonwealth, requiring a minimum of 35 hours of an employee's time a week for the entire normal year of the company's operations, which "normal year" shall consist of at least 48 weeks, or a position of indefinite duration which requires a minimum of 35 hours of an employee's time a week for the portion of the taxable year in which the employee was initially hired for, or transferred to, the major business facility in the Commonwealth. Seasonal or temporary positions, or a job created when a job function is shifted from an existing location in the Commonwealth to the new major business facility and positions in building and grounds maintenance, security, and other such positions which are ancillary to the principal activities performed by the employees at a major business facility shall not qualify as new, permanent full-time positions.

G. For any major business facility, the amount of credit earned pursuant to this section shall be equal to \$1,000 per qualified full-time employee, over the threshold amount, employed during the credit year. The credit shall be allowed ratably, with one-third of the credit amount allowed annually for three years beginning with the credit year. However, for taxable years beginning on or after January 1, 2009, one-half of the credit amount shall be allowed each year for two years. The portion of the \$1,000 credit earned with respect to any qualified full-time employee who is employed in the Commonwealth for less than 12 full months during the credit year will be determined by multiplying the credit amount by a fraction, the numerator of which is the number of full months that the qualified full-time employee worked for the major business facility in the Commonwealth during the credit year, and the denominator of which is 12. A separate credit year and a three-year allowance period shall exist for each distinct major business facility of a single taxpayer, except for credits allowed for taxable years beginning on or after January 1, 2009, when a two-year allowance period shall exist for each distinct major business facility of a single taxpayer.

H. The amount of credit allowed pursuant to this section shall not exceed the tax imposed for such taxable year. Any credit not usable for the taxable year the credit was allowed may be, to the extent usable, carried over for the next 10 succeeding taxable years. No credit shall be carried back to a preceding taxable year. In the event that a taxpayer who is subject to the tax limitation imposed pursuant to this subsection is allowed another credit pursuant to any other section of the Code of Virginia, or has a credit carryover from a preceding taxable year, such taxpayer shall be considered to have first utilized any credit allowed which does not have a carryover provision, and then any credit which is carried forward from a preceding taxable year, prior to the utilization of any credit allowed pursuant to this section.

I. No credit shall be earned pursuant to this section for any employee (i) for whom a credit under this section was previously earned by a related party as defined by Internal Revenue Code § 267(b) or a trade or business under common control as defined by Internal Revenue Code § 52(b); (ii) who was previously employed in the same job function in Virginia by a related party as defined by Internal Revenue Code § 267(b) or a trade or business under common control as defined by Internal Revenue Code § 52(b); (iii) whose job function was previously performed at a different location in Virginia by an employee of the taxpayer, a related party as defined by Internal Revenue Code § 267(b), or a trade or business under common control as defined by Internal Revenue Code § 52(b); or (iv) whose job function previously qualified for a credit under this section at a different major business facility on behalf of the taxpayer, a related party as defined by Internal Revenue Code § 267(b), or a trade or business under common control as defined by Internal Revenue Code § 52(b).

J. Subject to the provisions of subsections K or L, recapture of this credit, under the following circumstances, shall be accomplished by increasing the tax in any of the five years succeeding the taxable year in which a credit has been earned pursuant to this section if the number of qualified full-time employees decreases below the average number of qualified full-time employees employed during the credit year. Such tax increase amount shall be determined by (i) recomputing the credit which would have been earned for the original credit year using the decreased number of qualified full-time employees and (ii) subtracting such recomputed credit from the amount of credit previously earned. In the event that the average number of qualifying full-time employees employed at a major business facility falls below the threshold amount in any of the five taxable years succeeding the credit year, all credits earned with respect to such major business facility shall be recaptured. No credit amount will be recaptured more than once pursuant to this subsection. Any recapture pursuant to this section shall reduce credits earned but not yet allowed, and credits allowed but carried forward, before the taxpayer's tax liability may be increased.

K. In the event that a major business facility is located in an economically distressed area or in an enterprise zone as defined in Chapter 49 (§ 59.1-538 et seq.) of Title 59.1 during a credit year, the threshold amount required to qualify for a credit pursuant to this section and to avoid full recapture shall be reduced from 50 to 25 for purposes of subdivision C 1 and subsection J. An area shall qualify as economically distressed if it is a city or county with an unemployment rate for the preceding year of at least 0.5 percent higher than the average statewide unemployment rate for such year. The Virginia Economic Development Partnership shall identify and publish a list of all economically distressed areas at least annually.

L. For taxable years beginning on or after January 1, 2004, but before January 1, 2006, in the event that a major business facility is located in a severely economically distressed area, the threshold amount required to qualify for a credit pursuant to this section and to avoid full recapture shall be reduced from 100 to 25 for purposes of subdivision C 1 and subsection J. However, the total amount of credit allowable under this subsection shall not exceed \$100,000 in aggregate. An area shall qualify as severely economically distressed if it is a city or county with an unemployment rate for the preceding year of at least twice the average statewide unemployment rate for such year. The Virginia Economic Development Partnership shall identify and publish a list of all severely economically distressed areas at least annually.

M. The Tax Commissioner shall promulgate regulations, in accordance with the Administrative Process Act (§ 2.2-4000 et seq.), relating to (i) the computation, carryover, and recapture of the credit provided under this section; (ii) defining criteria for (a) a major business facility, (b) qualifying full-time employees at such facility, and (c) economically distressed areas; and (iii) the computation, carryover, recapture, and redemption of the credit by affiliated companies pursuant to subsection S.

N. The provisions of this section shall apply only in instances where an announcement of intent to establish or expand a major business facility is made on or after January 1, 1994. An announcement of intent to establish or expand a major business facility includes, but is not limited to, a press conference or extensive press coverage, providing information with respect to the impact of the project on the economy of the area where the major business facility is to be established or expanded and the Commonwealth as a whole.

O. The credit allowed pursuant to this section shall be granted to the person who pays taxes for the qualified full-time employees pursuant to Chapter 5 (§ 60.2-500 et seq.) of Title 60.2.

P. No person shall claim a credit allowed pursuant to this section and the credit allowed pursuant to § 58.1-439.2. Any qualified business firm receiving an enterprise zone job creation grant under § 59.1-547 shall not be eligible to receive a major business facility job tax credit pursuant to this section for any job used to qualify for the enterprise zone job creation grant.

Q. No person operating a business in the Commonwealth pursuant to Chapter 29 (§ 59.1-364 et seq.) of Title 59.1 shall claim a credit pursuant to this section.

R. Notwithstanding subsection O, a taxpayer may, for the purpose of determining the number of qualified full-time employees at a major business facility, include the employees of a contractor or a subcontractor if such employees are permanently assigned to the taxpayer's major business facility. If the taxpayer includes the employees of a contractor or subcontractor in its total of qualified full-time employees, it shall enter into a contractual agreement with the contractor or subcontractor prohibiting the contractor or subcontractor from also claiming these employees in order to receive a credit given under this section. The taxpayer shall provide evidence satisfactory to the Department of Taxation that it has entered into such a contract.

S. For purposes of satisfying the criteria of subdivision C 1, two or more affiliated companies may elect to aggregate the number of jobs created for qualified full-time employees as the result of the establishment or expansion by the individual companies in order to qualify for the credit allowed pursuant to this section. For purposes of this subsection, "affiliated companies" means two or more companies related to each other such that (i) one company owns at least 80 percent of the voting power of the other or others or (ii) at least 80 percent of the voting power of two or more companies is owned by the same interests.

T. The General Assembly of Virginia finds that modern business infrastructure allows businesses to locate their administrative or manufacturing facilities with minimal regard to the location of markets or the transportation of raw materials and finished goods, and that the economic vitality of the Commonwealth would be enhanced if such facilities were established in Virginia. Accordingly, the provisions of this section targeting the credit to major business facilities and limiting the credit to those companies which establish a major business facility in Virginia are integral to the purpose of the credit earned pursuant to this section and shall not be deemed severable.

U. For taxable years beginning on and after January 1, 2019, and notwithstanding the provisions of § 58.1-3 or any other provision of law, the Department of Taxation, in consultation with the Virginia Economic Development Partnership, shall publish the following information by November 1 of each year for the 12-month period ending on the preceding December 31:

1. The location of sites used for major business facilities for which a credit was claimed;
2. The North American Industry Classification System codes used for the major business facilities for which a credit was claimed;
3. The number of qualified full time employees for whom a credit was claimed; and
4. The total cost to the Commonwealth's general fund of the credits claimed.

Such information shall be published by the Department, regardless of how few taxpayers claimed the tax credit, in a manner that prevents the identification of particular taxpayers, reports, returns, or items.

CHAPTER 205

An Act to amend and reenact § 22.1-253.13:2 of the Code of Virginia, relating to school counselors; staffing ratios; flexibility.

[H 829]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:**1. That § 22.1-253.13:2 of the Code of Virginia is amended and reenacted as follows:****§ 22.1-253.13:2. Standard 2. Instructional, administrative, and support personnel.**

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors *or certain other licensed individuals as set forth in subdivision H 4*, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. (Effective until July 1, 2022) Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.

D. (Effective July 1, 2022) Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual

language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement

purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. CHAPTER 206

An Act to amend and reenact § 8.01-380 of the Code of Virginia, relating to nonsuits; appeals from judgment of a general district court; emergency.

[H 782]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-380 of the Code of Virginia is amended and reenacted as follows:

§ 8.01-380. Dismissal of action by nonsuit; fees and costs.

A. A party shall not be allowed to suffer a nonsuit as to any cause of action or claim, or any other party to the proceeding, unless he does so before a motion to strike the evidence has been sustained or before the jury retires from the bar or before the action has been submitted to the court for decision. After a nonsuit no new proceeding on the same cause of action or against the same party shall be had in any court other than that in which the nonsuit was taken, unless that court is without jurisdiction, or not a proper venue, or other good cause is shown for proceeding in another court, or when such new proceeding is instituted in a federal court. If after a nonsuit an improper venue is chosen, the court shall not dismiss the matter but shall transfer it to the proper venue upon motion of any party.

B. Only one nonsuit may be taken to a cause of action or against the same party to the proceeding, as a matter of right, although the court may allow additional nonsuits upon reasonable notice to counsel of record for all defendants and upon a reasonable attempt to notify any party not represented by counsel, or counsel may stipulate to additional nonsuits. The court, in the event additional nonsuits are allowed, may assess costs and reasonable attorney fees against the nonsuiting party. When suffering a nonsuit, a party shall inform the court if the cause of action has been previously nonsuited. Any order effecting a subsequent nonsuit shall reflect all prior nonsuits and shall include language that reflects the date of any previous nonsuit together with the court in which any previous nonsuit was taken.

C. If notice to take a nonsuit of right is given to the opposing party within seven days of trial or during trial, the court in its discretion may assess against the nonsuiting party reasonable witness fees and travel costs of expert witnesses scheduled to appear at trial, which are actually incurred by the opposing party, solely by reason of the failure to give notice at least seven days prior to trial. The court shall have the authority to determine the reasonableness of expert witness fees and travel costs. Invoices, receipts, or confirmation of payment shall be admissible to prove reasonableness without the need to offer testimony to support the authenticity or reasonableness of such documents, and may, in the court's discretion, satisfy the reasonableness requirement under this subsection. Nothing herein shall preclude any party from offering additional evidence or testimony to support or rebut the reasonableness requirement.

D. A party shall not be allowed to nonsuit a cause of action, without the consent of the adverse party who has filed a counterclaim, cross claim or third-party claim which arises out of the same transaction or occurrence as the claim of the party desiring to nonsuit unless the counterclaim, cross claim or third-party claim can remain pending for independent adjudication by the court.

E. A voluntary nonsuit taken pursuant to this section is subject to the tolling provisions of subdivision E 3 of § 8.01-229.

F. Upon the timely perfection of an appeal from a judgment of a general district court, pursuant to § 16.1-106, a party may suffer a nonsuit as otherwise set forth in this section, and such nonsuit shall annul the judgment of the general district court.

2. That an emergency exists and this act is in force from its passage.

B. Local governments have the initiative for planning and for implementing the provisions of this article, and the Commonwealth shall act primarily in a supportive role by providing oversight for local governmental programs, by establishing criteria as required by this article, and by providing those resources necessary to carry out and enforce the provisions of this article.

C. *Each local government in Tidewater Virginia shall publish on its website the elements and criteria adopted to implement its local plan as required by this article, including those elements and criteria required by 9VAC25-830-60 for local programs.*

§ 65.2-603. Duty to furnish medical attention, etc., and vocational rehabilitation; effect of refusal of employee to accept.

A. Pursuant to this section:

1. As long as necessary after an accident, the employer shall furnish or cause to be furnished, free of charge to the injured employee, a physician chosen by the injured employee from a panel of at least three physicians selected by the employer and such other necessary medical attention. Where such accident results in the amputation or loss of use of an arm, hand, leg, or foot or the enucleation of an eye or the loss of any natural teeth or loss of hearing, the employer shall furnish prosthetic or orthotic appliances, as well as wheelchairs, *scooters*, walkers, canes, or crutches, proper fitting and maintenance thereof, and training in the use thereof, as the nature of the injury may require.

In awards entered for incapacity for work, under this title, upon determination by the treating physician and the Commission that the same is medically necessary, the Commission may:

a. Require that the employer either (i) furnish and maintain modifications to or equipment for the employee's automobile or (ii) if there is a loss of function to either or both feet, legs, hands, or arms and if the Commission determines that modifications to or equipment for the employee's automobile pursuant to clause (i) are not technically feasible, will not render the automobile operable by the employee, or will cost more than is available for such purpose after payment for any items provided under subdivision b, order that the balance of funds available under the aggregate cap of ~~\$42,000~~ \$55,000 be applied towards the purchase by the employee of a suitable automobile or to furnish or maintain modifications to such automobile; and

b. Require that the employer furnish and maintain bedside lifts, adjustable beds, and modification of the employee's principal home consisting of ramps, handrails, ~~or any appliances prescribed by the treating physician~~ and doorway alterations, ~~or any appliances prescribed by the treating physician~~, except for appliances or medical equipment required to be furnished by the employer pursuant to subdivision A 1.

The aggregate cost of all such items and modifications required to be furnished pursuant to subdivisions a and b on account of any one accident shall not exceed ~~\$42,000~~ \$55,000. *This limit shall be increased on an annual basis at the same rate as provided in subsection C of § 65.2-709.*

The employee shall accept the attending physician, unless otherwise ordered by the Commission, and in addition, such surgical and hospital service and supplies as may be deemed necessary by the attending physician or the Commission.

2. The employer shall repair, if repairable, or replace dentures, artificial limbs, or other prosthetic or orthotic devices damaged in an accident otherwise compensable under workers' compensation, and furnish proper fitting thereof.

3. The employer shall also furnish or cause to be furnished, at the direction of the Commission, reasonable and necessary vocational rehabilitation services; however, the employer shall not be required to furnish, or cause to be furnished, services under this subdivision to any injured employee not eligible for lawful employment.

In the event a dispute arises, any party may request a hearing and seek the approval of the Commission for the proposed services. Such services shall take into account the employee's preinjury job and wage classifications; his age, aptitude, and level of education; the likelihood of success in the new vocation; and the relative costs and benefits to be derived from such services.

B. The unjustified refusal of the employee to accept such medical service or vocational rehabilitation services when provided by the employer shall bar the employee from further compensation until such refusal ceases and no compensation shall at any time be paid for the period of suspension unless, in the opinion of the Commission, the circumstances justified the refusal. In any such case the Commission may order a change in the medical or hospital service or vocational rehabilitation services.

C. If in an emergency or on account of the employer's failure to provide the medical care during the period herein specified, or for other good reasons, a physician other than provided by the employer is called to treat the injured employee, during such period, the reasonable cost of such service shall be paid by the employer if ordered so to do by the Commission.

D. As used in this section and in § 65.2-604, the terms "medical attention," "medical service," "medical care," and "medical report" shall be deemed to include chiropractic service or treatment and, where appropriate, a chiropractic treatment report.

Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall be approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests. If the Commission determines that an energy efficiency program or portfolio of programs is not in the public interest, its final order shall include all work product and analysis conducted by the Commission's staff in relation to that program, including testimony relied upon by the Commission's staff, that has bearing upon the Commission's decision. If the Commission reduces the proposed budget for a program or portfolio of programs, its final order shall include an analysis of the impact such budget reduction has upon the cost-effectiveness of such program or portfolio of programs. An order by the Commission (a) finding that a program or portfolio of programs is not in the public interest or (b) reducing the proposed budget for any program or portfolio of programs shall adhere to existing protocols for extraordinarily sensitive information. In addition, an energy efficiency program may be deemed to be "in the public interest" if the program (1) provides measurable and verifiable energy savings to low-income customers or elderly customers or (2) is a pilot program of limited

CHAPTER 217

An Act to amend and reenact § 44-146.19 of the Code of Virginia, relating to powers and duties of political subdivisions; emergency management assessment.

[S 60]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 44-146.19 of the Code of Virginia is amended and reenacted as follows:

§ 44-146.19. Powers and duties of political subdivisions.

A. Each political subdivision within the Commonwealth shall be within the jurisdiction of and served by the Department of Emergency Management and be responsible for local disaster mitigation, preparedness, response, and recovery. Each political subdivision shall maintain in accordance with state disaster preparedness plans and programs an agency of emergency management which, except as otherwise provided under this chapter, has jurisdiction over and services the entire political subdivision.

B. Each political subdivision shall have a director of emergency management who, after the term of the person presently serving in this capacity has expired and in the absence of an executive order by the Governor, shall be the following:

1. In the case of a city, the mayor or city manager, who shall appoint a coordinator of emergency management with consent of council;

2. In the case of a county, a member of the board of supervisors selected by the board or the chief administrative officer for the county, who shall appoint a coordinator of emergency management with the consent of the governing body;

3. A coordinator of emergency management shall be appointed by the council of any town to ensure integration of its organization into the county emergency management organization;

4. In the case of the Towns of Chincoteague and West Point and of towns with a population in excess of 5,000 having an emergency management organization separate from that of the county, the mayor or town manager shall appoint a coordinator of emergency services with consent of council;

5. In Smyth County and in York County, the chief administrative officer for the county shall appoint a director of emergency management, with the consent of the governing body, who shall appoint a coordinator of emergency management with the consent of the governing body.

C. Whenever the Governor has declared a state of emergency, each political subdivision within the disaster area may, under the supervision and control of the Governor or his designated representative, control, restrict, allocate, or regulate the use, sale, production, and distribution of food, fuel, clothing, and other commodities, materials, goods, services, and resource systems which fall only within the boundaries of that jurisdiction and which do not impact systems affecting adjoining or other political subdivisions, enter into contracts and incur obligations necessary to combat such threatened or actual disaster, protect the health and safety of persons and property, and provide emergency assistance to the victims of such disaster. In exercising the powers vested under this section, under the supervision and control of the Governor, the political subdivision may proceed without regard to time-consuming procedures and formalities prescribed by law (except mandatory constitutional requirements) pertaining to the performance of public work, entering into contracts, incurring of obligations, employment of temporary workers, rental of equipment, purchase of supplies and materials, levying of taxes, and appropriation and expenditure of public funds.

D. The director of each local organization for emergency management may, in collaboration with (i) other public and private agencies within the Commonwealth or (ii) other states or localities within other states, develop or cause to be developed mutual aid arrangements for reciprocal assistance in case of a disaster too great to be dealt with unassisted. Such arrangements shall be consistent with state plans and programs and it shall be the duty of each local organization for emergency management to render assistance in accordance with the provisions of such mutual aid arrangements. Except where a mutual aid arrangement for reciprocal assistance exists between localities, no locality shall prohibit another locality from providing emergency medical services across local boundaries solely on the basis of financial considerations.

E. Each local and interjurisdictional agency shall prepare and keep current a local or interjurisdictional emergency operations plan for its area. The plan shall include, but not be limited to, responsibilities of all local agencies and shall establish a chain of command, and a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § 19.2-11.01. The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those individuals determined to be victims, and the plan shall also contain current contact information for both agencies. Such plan shall also contain provisions to ensure that the plan is applied equitably and that the needs of minority and vulnerable communities are met during emergencies. Every four years, each local and interjurisdictional agency shall conduct a comprehensive review and revision of its emergency operations plan to ensure that the plan remains current, and the revised plan shall be formally adopted by the locality's governing body. In the case of an interjurisdictional agency, the plan shall be formally adopted by the governing body of each of the localities encompassed by the agency. Each political subdivision having a nuclear power station or other nuclear facility within 10 miles of its boundaries shall, if so directed by the Department of Emergency Management, prepare and keep current an appropriate emergency plan for its area for response to nuclear accidents at such station or facility.

F. All political subdivisions shall provide (i) an annually updated emergency management assessment and (ii) data related to emergency sheltering capabilities, including emergency shelter locations, evacuation zones, capacity by person, medical needs capacity, current wind rating, standards compliance, backup power, and lead agency for staffing, to the State Coordinator of Emergency Management on or before ~~May~~ August 1 of each year.

G. By July 1, 2005, all localities with a population greater than 50,000 shall establish an alert and warning plan for the dissemination of adequate and timely warning to the public in the event of an emergency or threatened disaster. The governing body of the locality, in consultation with its local emergency management organization, shall amend its local emergency operations plan that may include rules for the operation of its alert and warning system, to include sirens, Emergency Alert System (EAS), NOAA Weather Radios, or other personal notification systems, amateur radio operators, or any combination thereof.

H. Localities that have established an agency of emergency management shall have authority to require the review of, and suggest amendments to, the emergency plans of nursing homes, assisted living facilities, adult day care centers, and child day care centers that are located within the locality.

The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer of the vaccination, that each certified nursing facility and nursing home provide or arrange for the administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal vaccination, in accordance with the most recent recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. D. The accrued *defined benefit* liability contribution for any employer for any period shall be determined as a percentage, equal to the accrued liability contribution rate, of the total compensation of the members during the period.

E. The accrued *defined benefit* liability contribution rate for any employer shall be a percentage of the total annual compensation of the members, determined so that a continuation of annual contributions by the employer at the same percentage of total annual compensation over a period of ~~40~~ years *determined by the Board consistent with recognized actuarial principles and the Retirement System funding policy* will be sufficient to amortize the unfunded accrued liability with respect to the employer.

F. The unfunded *defined benefit* accrued liability with respect to any employer as of any valuation date shall be determined as the excess of the *actuarial accrued liability over the sum of assets of the Retirement System as of the valuation date, as follows*: (i) the then present value of the benefits to be provided under the ~~retirement system~~ *Retirement System* in the future to members and former members over (ii) the sum of the assets of the ~~retirement system~~ *Retirement System*

§ 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

A. As used in this subsection, "attend" includes participation in educational programs and courses at a site remote from the school with the permission of the school and in conformity with applicable requirements.

Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, cause such child to attend a public school or a private,

denominational, or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board of Education and approved by the division superintendent, or provide for home instruction of such child as described in § 22.1-254.1.

As prescribed in the regulations of the Board of Education, the requirements of this section may also be satisfied by causing a child to attend an alternative program of study or work/study offered by a public, private, denominational, or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by causing the child to attend any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian, or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § 22.1-253.13:1 and in § 22.1-254.01. The requirements of this section shall not apply to (a) any person 16 through 18 years of age who is housed in an adult correctional facility when such person is actively pursuing the achievement of a passing score on a high school equivalency examination approved by the Board of Education but is not enrolled in an individual student alternative education plan pursuant to subsection E, and (b) any child who has obtained a high school diploma or its equivalent, a certificate of completion, or has achieved a passing score on a high school equivalency examination approved by the Board of Education, or who has otherwise complied with compulsory school attendance requirements as set forth in this article.

2. On the recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides and for such period of time as the court deems appropriate, any pupil who, together with his parents, is opposed to attendance at a school by reason of concern for such pupil's health, as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

C. Each local school board shall develop policies for excusing students who are absent by reason of observance of a religious holiday. Such policies shall ensure that a student shall not be deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, for any which he missed by reason of such absence, if the absence is verified in a manner acceptable to the school board.

D. A school board may excuse from attendance at school:

1. On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any pupil who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at such school; or

2. On recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides, any pupil who, in the judgment of such court, cannot benefit from education at such school.

E. Local school boards may allow the requirements of subsection A to be met under the following conditions:

For a student who is at least 16 years of age, there shall be a meeting of the student, the student's parents, and the principal or his designee of the school in which the student is enrolled in which an individual student alternative education plan shall be developed in conformity with guidelines prescribed by the Board, which plan must include:

The juvenile and domestic relations district court of the county or city in which a pupil resides or in which charges are pending against a pupil, or any court in which charges are pending against a pupil, may require the pupil who has been charged with (i) a crime that resulted in or could have resulted in injury to others, (ii) a violation of Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2, or (iii) any offense related to possession or distribution of any Schedule I, II, or III controlled substances to attend an alternative education program, including, but not limited to, night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

As used in this subsection, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

H. Within one calendar month of the opening of school, each school board shall send to the parents or guardian of each student enrolled in the division a copy of the compulsory school attendance law and the enforcement procedures and policies established by the school board.

I. The provisions of this article shall not apply to:

The distances specified in subdivisions 3 and 4 shall be measured or determined from the child's residence to the entrance to the school grounds or to the school bus stop nearest the entrance to the residence of such children by the nearest practical routes which are usable for walking or riding. 1. Advise the Department, the Department for the Deaf and Hard-of-Hearing, and the Department of Behavioral Health and Developmental Services or its contractor on the content and administration of the existing instrument used to assess the development of children who are deaf or hard of hearing in order to ensure the appropriate use of such instrument for the assessment of the language and literacy development of children from birth to age five who are deaf or hard of hearing; and

The work group shall develop a summary of its activities and recommendations for establishing the number of required private guardian visits per year, the frequency with which they should occur, whether they should be in-person or virtual, the resources needed to carry out the work group's recommendations, and any other parameters that should be incorporated into a new visitation requirement. If the respondent is between 17 and a half and 21 years of age and has an Individualized Education Plan (IEP) and transition plan, the guardian ad litem shall review such IEP and transition plan and include the results of his review in the report required by clause ~~(iv)~~ (v).

(vi) consideration of proper residential placement of the respondent. *The report shall also contain an explanation by the guardian ad litem as to any (a) decision not to recommend the appointment of counsel for the respondent, (b) determination that a less restrictive alternative to guardianship or conservatorship is not advisable, and (c) determination that appointment of a limited guardian or conservator is not appropriate.*

D. A health care provider and local school division shall disclose or make available to the guardian ad litem, upon request, any information, records, and reports concerning the respondent that the guardian ad litem determines necessary to perform his duties under this section.

CHAPTER 252

An Act to amend and reenact § 58.1-439.12:04 of the Code of Virginia, relating to tax credit for participating landlords.

[H 402]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-439.12:04 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-439.12:04. Tax credit for participating landlords.

A. As used in this section, unless the context clearly shows otherwise, the term or phrase:

"Dwelling unit" means an individual housing unit in an apartment building, an individual housing unit in multifamily residential housing, a single-family residence, or any similar individual housing unit.

"Eligible census tract" means a census tract in Virginia in which less than 10 percent of the residents live below the poverty level, as defined by the United States government and determined by the most recent United States census.

~~"Eligible housing area" means an eligible census tract in (i) the Richmond Metropolitan Statistical Area, (ii) the Washington-Arlington-Alexandria Metropolitan Statistical Area, or (iii) the Virginia Beach-Norfolk-Newport News Metropolitan Statistical Area.~~

"Housing authority" means a housing authority created under Article 1 (§ 36-1 et seq.) of Chapter 1 of Title 36 or other government agency that is authorized by the United States government under the United States Housing Act of 1937 (42 U.S.C. § 1437 et seq.) to administer a housing choice voucher program, or the authorized agent of such a housing authority that is authorized to act upon that authority's behalf. The term shall also include the Virginia Housing Development Authority.

"Housing choice voucher" means tenant-based assistance by a housing authority pursuant to 42 U.S.C. § 1437f et seq.

"Participating landlord" means any person engaged in the business of the rental of dwelling units who is (i) subject to the Virginia Residential Landlord and Tenant Act (§ 55.1-1200 et seq.) and (ii) performing obligations under a contract with a housing authority relating to the rental of qualified housing units.

"Qualified housing unit" means a dwelling unit that is located in an eligible ~~housing area~~ census tract for which a portion of the rent is paid by a housing authority, which payment is pursuant to a housing choice voucher program.

B. For taxable years beginning on or after January 1, 2010, but before January 1, 2025, a participating landlord renting a qualified housing unit shall be eligible for a credit against the tax levied pursuant to § 58.1-320 or 58.1-400 in an amount equal to 10 percent of the fair market value of the rent for the unit, computed for that portion of the taxable year in which the unit was rented by such landlord to a tenant participating in a housing choice voucher program. The Department of Housing and Community Development shall administer and issue the tax credit under this section. If (i) the same parcel of real property contains four or more dwelling units and (ii) the total number of qualified housing units on the parcel in the relevant taxable year exceeds 25 percent of the total dwelling units on the parcel, then the tax credit under this section shall apply only to a limited number of qualified housing units with regard to such parcel of real property, with the limited number being equal to 25 percent of the total dwelling units on such parcel of real property in the taxable year.

C. The Department of Housing and Community Development shall issue tax credits under this section on a fiscal year basis. The maximum amount of tax credits that may be issued under this section in each fiscal year shall be \$250,000.

D. Participating landlords shall apply to the Department of Housing and Community Development for tax credits under this section. The Department of Housing and Community Development shall determine the credit amount allowable to the participating landlord for the taxable year and shall also determine the fair market value of the rent for the qualified housing unit based on the fair market rent approved by the United States Department of Housing and Urban Development as the basis for the tenant-based assistance provided through the housing choice voucher program for the qualified housing unit. In issuing tax credits under this section, the Department of Housing and Community Development shall provide a written certification to the participating landlord, which certification shall report the amount of the tax credit approved by the Department. The participating landlord shall attach the certification to the applicable income tax return.

E. The Board of Housing and Community Development shall establish and issue guidelines for purposes of implementing the provisions of this section. The guidelines shall provide for the allocation of tax credits among participating landlords requesting credits. The guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.).

F. In no case shall the amount of credit taken by a participating landlord for any taxable year exceed the total amount of tax imposed by this chapter for the taxable year. If the amount of credit issued by the Department of Housing and Community Development for a taxable year exceeds the landlord's tax liability imposed by this chapter for such taxable year, then the amount that exceeds the tax liability may be carried over for credit against the income taxes of the participating landlord in the next five taxable years or until the total amount of the tax credit issued has been taken, whichever is sooner. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership or interest in such business entities.

G. In the event that the amount of the qualified requests for tax credits for participating landlords in the fiscal year exceeds \$250,000, the Department of Housing and Community Development shall pro rate the tax credits among the qualified applicants.

CHAPTER 254

An Act to amend and reenact § 24.2-706 of the Code of Virginia, relating to absentee ballots; materials included; information on proposed constitutional amendments and referenda.

[H 439]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-706 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-706. Duty of general registrar on receipt of application; statement of voter.

A. On receipt of an application for an absentee ballot, the general registrar shall enroll the name and address of each registered applicant on an absentee voter applicant list that shall be maintained in the office of the general registrar with a file of the applications received. The list shall be available for inspection and copying and the applications shall be available for inspection only by any registered voter during regular office hours. Upon request and for a reasonable fee, the Department of Elections shall provide an electronic copy of the absentee voter applicant list to any political party or candidate. Such list shall be used only for campaign and political purposes. Any list made available for inspection and copying under this section shall contain the post office box address in lieu of the residence street address for any individual who has furnished at the time of registration or subsequently, in addition to his street address, a post office box address pursuant to subsection B of § 24.2-418.

No list or application containing an individual's social security number, or any part thereof, or the individual's day and month of birth, shall be made available for inspection or copying by anyone. The Department of Elections shall prescribe procedures for general registrars to make the information in the lists and applications available in a manner that does not reveal social security numbers or parts thereof, or an individual's day and month of birth.

B. The completion and timely delivery of an application for an absentee ballot shall be construed to be an offer by the applicant to vote in the election.

The general registrar shall note on each application received whether the applicant is or is not a registered voter. In reviewing the application for an absentee ballot, the general registrar shall not reject the application of any individual because of an error or omission on any record or paper relating to the application, if such error or omission is not material in determining whether such individual is qualified to vote absentee.

C. If the application has been properly completed and signed and the applicant is a registered voter of the precinct in which he offers to vote, the general registrar shall, at the time when the printed ballots for the election are available, send by the deadline set out in § 24.2-612, obtaining a certificate or other evidence of either first-class or expedited mailing or delivery from the United States Postal Service or other commercial delivery provider, or deliver to him in person in the office of the registrar, the following items and nothing else:

1. An envelope containing the folded ballot, sealed and marked "Ballot within. Do not open except in presence of a witness."

2. An envelope for resealing the marked ballot, on which envelope is printed the following:

"Statement of Voter."

"I do hereby state, subject to felony penalties for making false statements pursuant to § 24.2-1016, that my FULL NAME is _____ (last, first, middle); that I am now or have been at some time since last November's general election a legal resident of _____ (STATE YOUR LEGAL RESIDENCE IN VIRGINIA including the house number, street name or rural route address, city, zip code); that I received the enclosed ballot(s) upon application to the registrar of such county or city; that I opened the envelope marked 'ballot within' and marked the ballot(s) in the presence of the witness, without assistance or knowledge on the part of anyone as to the manner in which I marked it (or I am returning the form required to report how I was assisted); that I then sealed the ballot(s) in this envelope; and that I have not voted and will not vote in this election at any other time or place.

Signature of Voter _____

Date _____

Signature of witness _____ "

For elections held after January 1, 2004, instead of the envelope containing the above oath, an envelope containing the standard oath prescribed by the presidential designee under § 101(b)(7) of the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.) shall be sent to voters who are qualified to vote absentee under that Act.

When this statement has been properly completed and signed by the registered voter and witnessed, his ballot shall not be subject to challenge pursuant to § 24.2-651.

3. An envelope, properly addressed and postage prepaid, for the return of the ballot to the general registrar by mail or by the applicant in person, or to a drop-off location.

4. Printed instructions for completing the ballot and statement on the envelope and returning the ballot. Such instructions shall include information on the sites of all drop-off locations in the county or city. *Whenever there is a proposed constitutional amendment or a statewide referendum to be voted on by the voters, these instructions shall also include the website address where the explanation of the proposed amendment prepared pursuant to § 30-19.9 or the information about the referendum prepared pursuant to § 30-19.10 is posted on the Department's website.*

For federal elections held after January 1, 2004, for any voter who is required by subparagraph (b) of 52 U.S.C. § 21083 of the Help America Vote Act of 2002 to show identification the first time the voter votes in a federal election in the state, the printed instructions shall direct the voter to submit with his ballot (i) a copy of a current and valid photo identification or (ii) a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the voter. Such individual who desires to vote by mail but who does not submit one of the forms of identification specified in this paragraph may cast such ballot by mail and the ballot shall be counted as a provisional ballot under the provisions of § 24.2-653.01. The Department of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to § 24.2-653.01 and this section.

5. For any voter entitled to vote absentee under the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.), information provided by the Department of Elections specific to the voting rights and responsibilities for such citizens, or information provided by the registrar specific to the status of the voter registration and absentee ballot application of such voter, may be included.

The envelopes and instructions shall be in the form prescribed by the Department of Elections.

D. The general registrar may contract with a third party for the printing, assembly, and mailing of the items set forth in subsection C. The general registrar shall provide to the contractor in a timely manner the names, addresses, precincts, and ballot styles of voters requesting an absentee ballot by mail. The vendor shall provide to the general registrar a report of the voters to whom the absentee ballot materials have been sent.

E. If the applicant completes his application in person under § 24.2-701 at a time when the printed ballots for the election are available, he may request that the general registrar send to him by mail the items set forth in subdivisions C 1 through 4, instead of casting the ballot in person. Such request shall be made no later than 5:00 p.m. on the eleventh day prior to the election in which the applicant offers to vote, and the general registrar shall send those items to the applicant by mail, obtaining a certificate or other evidence of mailing.

F. If the applicant is a covered voter, as defined in § 24.2-452, the general registrar, at the time when the printed ballots for the election are available, shall mail by the deadline set forth in § 24.2-612 or deliver in person to the applicant in the office of the general registrar the items as set forth in subdivisions C 1 through 4 and, if necessary, an application for registration. A certificate or other evidence of mailing shall not be required. If the applicant requests that such items be sent by electronic transmission, the general registrar, at the time when the printed ballots for the election are available but not later than the deadline set forth in § 24.2-612, shall send by electronic transmission the blank ballot, the form for the envelope for returning the marked ballot, and instructions to the voter. Such materials shall be sent using the official email address or fax number of the office of the general registrar published on the Department of Elections website. The State Board of Elections may prescribe by regulation the format of the email address used for transmitting ballots to eligible voters. A general registrar may also use electronic transmission facilities provided by the Federal Voting Assistance Program. The voted ballot shall be returned to the general registrar as otherwise required by this chapter.

G. The circuit courts shall have jurisdiction to issue an injunction to enforce the provisions of this section upon the application of (i) any aggrieved voter, (ii) any candidate in an election district in whole or in part in the court's jurisdiction where a violation of this section has occurred, or is likely to occur, or (iii) the campaign committee or the appropriate district political party chairman of such candidate. Any person who fails to discharge his duty as provided in this section through willful neglect of duty and with malicious intent shall be guilty of a Class 1 misdemeanor as provided in subsection A of § 24.2-1001.

The power to borrow set forth in this subdivision shall be in addition to the power to issue revenue bonds and revenue refunding bonds set forth in subdivision ~~8 of this section~~ 9 and § 15.2-5712. Notes, bonds or other obligations issued under this subdivision shall not be deemed to constitute a debt of the Commonwealth or of any political subdivision of the Commonwealth or a pledge of the faith and credit of the Commonwealth or of any political subdivision of the Commonwealth; and

CHAPTER 256

An Act to amend and reenact § 58.1-416 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 58.1-422.4, relating to income tax; property information and analytics firms.

[H 453]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-416 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 58.1-422.4 as follows:

§ 58.1-416. When certain other sales deemed in the Commonwealth.

A. Sales, other than sales of tangible personal property, are in the Commonwealth if:

1. The income-producing activity is performed in the Commonwealth; or

2. The income-producing activity is performed both in and outside the Commonwealth and a greater proportion of the income-producing activity is performed in the Commonwealth than in any other state, based on costs of performance.

B. 1. For debt buyers, as defined in § 58.1-422.3, sales, other than sales of tangible personal property, are in the Commonwealth if they consist of money recovered on debt that a debt buyer collected from a person who is a resident of the

Commonwealth or an entity that has its commercial domicile in the Commonwealth. Such rule shall apply regardless of the location of a debt buyer's business.

2. For property information and analytics firms, as defined in § 58.1-422.4, that meet the requirements set forth in § 58.1-422.4, sales of services are in the Commonwealth if they are derived from transactions with a customer or client who receives the benefit of the services in the Commonwealth. Such rule shall apply regardless of the location of a property information and analytics firm's business operations.

C. The taxes under this article on the sales described under subsection B are imposed to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law. For the collection of such taxes on such sales, it is the intent of the General Assembly that the Tax Commissioner and the Department assert the taxpayer's nexus with the Commonwealth to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law.

D. If necessary information is not available to the taxpayer to determine whether a sale other than a sale of tangible personal property is in the Commonwealth pursuant to the provisions of subsections B and C, the taxpayer may estimate the dollar value or portion of such sale in the Commonwealth, provided that the taxpayer can demonstrate to the satisfaction of the Tax Commissioner that (i) the estimate has been undertaken in good faith, (ii) the estimate is a reasonable approximation of the dollar value or portion of such sale in the Commonwealth, and (iii) in using an estimate the taxpayer did not have as a principal purpose the avoidance of any tax due under this article. The Department may implement procedures for obtaining its approval to use an estimate. The Department shall adopt remedies and corrective procedures for cases in which the Department has determined that the sourcing rules for sales other than sales of tangible personal property have been abused by the taxpayer, which may include reliance on the location of income-producing activity and direct costs of performance as described in subsection A.

§ 58.1-422.4. Property information and analytics firms.

A. As used in this section:

"Authority" means the Virginia Economic Development Partnership Authority.

"Eligible city" means the City of Richmond.

"Memorandum of understanding" means a performance agreement or related document entered into by a property information and analytics firm and the Authority on or after December 1, 2021, but before August 1, 2022, that sets forth the requirements for capital investments and the creation of new full-time jobs by such property information and analytics firm.

"Property information and analytics firm" means an entity and its affiliated entities that as of January 1, 2022, is primarily a commercial real estate information and analytics firm with a location in an eligible city and that between January 1, 2022, and January 1, 2029, is expected to (i) make or cause to be made a capital investment in an eligible city of at least \$414.45 million and (ii) create at least 1,785 new jobs with average annual wages of at least \$85,000 per job.

B. 1. For taxable years beginning on or after January 1, 2022, but before January 1, 2029, a property information and analytics firm shall be subject to the provisions of subdivision B 2 of § 58.1-416 only if the Authority certifies to the Department that it has at least 1,000 full-time employees as of January 1, 2022, in an eligible city, subject to the terms and conditions of the memorandum of understanding.

2. For taxable years beginning on or after January 1, 2029, a property information and analytics firm shall be subject to the provisions of subdivision B 2 of § 58.1-416 only if the Authority certifies to the Department that it has at least 2,785 full-time employees as of January 1, 2029, in an eligible city, and from January 1, 2022, through December 31, 2028, has made or caused to be made a capital investment for its facilities in that eligible city of at least \$414.45 million. Once the Authority certifies a property information and analytics firm has met the job and capital investment requirements set forth in this subdivision, no additional certifications shall be required and the property information and analytics firm shall continue to be subject to the provisions of subdivision B 2 of § 58.1-416 in all future taxable years.

C. The General Assembly finds that the growth of property information and analytics firms, including the capital investment and new jobs spurred by such growth, is essential to the continued fiscal health of the Commonwealth. Accordingly, the provisions of subsections A and B relating to capital investment and new jobs are integral to the purpose of this section. If any provision of this section is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, that provision shall not be deemed severable.

2. That the Department of Taxation shall develop and make publicly available guidelines implementing the provisions of this act. In developing such guidelines, the Department of Taxation shall not be subject to the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia) for guidelines promulgated on or before December 31, 2023, but shall cooperate with and seek the counsel of interested groups and shall not promulgate any guidelines, preliminary or final, without first seeking such counsel and conducting a public hearing. Preliminary guidelines shall be promulgated and made publicly available no later than December 31, 2022, and final guidelines shall be promulgated and made publicly available no later than December 31, 2023. After December 31, 2023, the guidelines shall be subject to the Administrative Process Act and accorded the weight of regulations under § 58.1-205 of the Code of Virginia.

3. That for taxable years beginning on and after January 1, 2022, but before January 1, 2032, any property information and analytics firm, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, that apportions its income pursuant to subdivision B 2 of § 58.1-416 of the Code of Virginia, as amended by this act, shall include with its income tax return information regarding market-based sourcing for services under this act as

compared to cost of performance, including the amounts of the property, payroll, and sales factors under both methods; the apportionment percentages under both methods; and the amount of tax calculated under both methods. The Department of Taxation shall use such information to compute an estimate of the fiscal savings to such firms. Notwithstanding any provision of § 58.1-3 of the Code of Virginia or any other law, the Department of Taxation may provide to the Virginia Economic Development Partnership Authority and the Secretaries of Commerce and Trade and Finance such information as may be necessary to facilitate the purposes of this act. In addition and notwithstanding any provision of § 58.1-3 of the Code of Virginia or any other law, the Department of Taxation shall, upon request, report to the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations the number of returns processed for property information and analytics firms that used market-based sourcing for services under this act and the annual estimated revenue impact of market-based sourcing as compared with cost of performance.

4. That the memorandum of understanding, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, shall include provisions that require the property information and analytics firm (the Firm) to report annually to the Secretaries of Commerce and Trade and Finance beginning January 1, 2023, such information as is necessary to demonstrate the Firm is in compliance with the performance criteria set forth in the memorandum of understanding. The annual report shall contain information regarding the new jobs created and new capital investments made by the Firm to satisfy the performance criteria, the anticipated liability of the Firm notwithstanding the provisions of this act related to the apportionment of its income, the anticipated liability of the Firm pursuant to the apportionment formula under this act, and other such financial information as the Virginia Economic Development Partnership Authority or the Secretaries of Commerce and Trade and Finance deem necessary to demonstrate that the Firm will be able to fulfill the obligations of the memorandum of understanding regarding repayment of the benefit of the apportionment formula under this act should it fail to meet the terms and conditions of the memorandum of understanding.

5. That the memorandum of understanding, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, shall contain a provision that should the property information and analytics firm (the Firm) be out of substantial compliance with the performance criteria set forth in the memorandum of understanding for three consecutive years, then the memorandum of understanding shall terminate, and the Firm shall repay the benefits received under this act proportional to the failure to create new jobs and make new investments as outlined in the terms and conditions. If the memorandum is terminated pursuant to this enactment and such provision, the Secretary of Finance shall notify the Department of Taxation, and the Firm shall thereafter no longer be eligible to utilize the apportionment formula set forth in subdivision B 2 of § 58.1-416 of the Code of Virginia, as amended by this act.

6. Any person to whom tax information is divulged pursuant to this act shall be subject to the prohibitions and penalties set forth in § 58.1-3 of the Code of Virginia as though he were a tax official.

7. That the provisions of this act shall not become effective until a memorandum of understanding, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, is signed. If such memorandum of understanding is not signed by August 1, 2022, the provisions of subsection B 2 of § 58.1-416 of the Code of Virginia, as amended by this act, shall not be applicable in any taxable year beginning on or after January 1, 2023.

8. That the Virginia Economic Development Partnership Authority shall provide, upon signature, a copy of any memorandum of understanding, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, to the Chairmen of the MEI Project Approval Commission, the House Committee on Appropriations, and the Senate Committee on Finance and Appropriations. The provisions of this act shall expire if copies of such memorandum are not delivered within seven days of signature.

CHAPTER 257

2. The income-producing activity is performed both in and outside the Commonwealth and a greater proportion of the income-producing activity is performed in the Commonwealth than in any other state, based on costs of performance.

B. 1. For debt buyers, as defined in § 58.1-422.3, sales, other than sales of tangible personal property, are in the Commonwealth if they consist of money recovered on debt that a debt buyer collected from a person who is a resident of the

Such rule shall apply regardless of the location of a property information and analytics firm's business operations.

C. The taxes under this article on the sales described under subsection B are imposed to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law. For the collection of such taxes on such sales, it is the intent of the General Assembly that the Tax Commissioner and the Department assert the taxpayer's nexus with the Commonwealth to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law.

D. If necessary information is not available to the taxpayer to determine whether a sale other than a sale of tangible personal property is in the Commonwealth pursuant to the provisions of subsections B and C, the taxpayer may estimate the dollar value or portion of such sale in the Commonwealth, provided that the taxpayer can demonstrate to the satisfaction of the Tax Commissioner that (i) the estimate has been undertaken in good faith, (ii) the estimate is a reasonable approximation of the dollar value or portion of such sale in the Commonwealth, and (iii) in using an estimate the taxpayer did not have as a principal purpose the avoidance of any tax due under this article. The Department shall adopt remedies and corrective procedures for cases in which the Department has determined that the sourcing rules for sales other than sales of tangible personal property have been abused by the taxpayer, which may include reliance on the location of income-producing activity and direct costs of performance as described in subsection A.

§ 58.1-422.4. Property information and analytics firms.

A. As used in this section:

"Authority" means the Virginia Economic Development Partnership Authority.

"Eligible city" means the City of Richmond.

"Memorandum of understanding" means a performance agreement or related document entered into by a property information and analytics firm and the Authority on or after December 1, 2021, but before August 1, 2022, that sets forth the requirements for capital investments and the creation of new full-time jobs by such property information and analytics firm.

Accordingly, the provisions of subsections A and B relating to capital investment and new jobs are integral to the purpose of this section. If any provision of this section is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, that provision shall not be deemed severable.

5. That the memorandum of understanding, as defined in § 58.1-422.4 of the Code of Virginia, as created by this act, shall contain a provision that should the property information and analytics firm (the Firm) be out of substantial compliance with the performance criteria set forth in the memorandum of understanding for three consecutive years, then the memorandum of understanding shall terminate, and the Firm shall repay the benefits received under this act proportional to the failure to create new jobs and make new investments as outlined in the terms and conditions. If the memorandum is terminated pursuant to this enactment and such provision, the Secretary of Finance shall notify the Department of Taxation, and the Firm shall thereafter no longer be eligible to utilize the apportionment formula set forth in subdivision B 2 of § 58.1-416 of the Code of Virginia, as amended by this act.

6. Any person to whom tax information is divulged pursuant to this act shall be subject to the prohibitions and penalties set forth in § 58.1-3 of the Code of Virginia as though he were a tax official.

§ 64.2-454.1. Will contest; presumption of undue influence.

In any case contesting the validity of a decedent's will where a presumption of undue influence arises, the finder of fact shall presume that undue influence was exerted over the decedent unless, based on all the evidence introduced at trial, the finder of fact finds that the decedent did intend it to be his will.

CHAPTER 266

An Act to amend and reenact § 19.2-386.14 of the Code of Virginia, relating to sharing of forfeited assets; promoting law enforcement.

[H 1282]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-386.14 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-386.14. Sharing of forfeited assets.

A. All cash, negotiable instruments, and proceeds from a sale conducted pursuant to § 19.2-386.7 or 19.2-386.12, after deduction of expenses, fees, and costs as provided in § 19.2-386.12, shall, as soon after entry of the forfeiture as is practicable, be distributed in a manner consistent with this chapter and Article VIII, Section 8 of the Constitution of Virginia.

A1. All cash, negotiable instruments and proceeds from a sale conducted pursuant to § 19.2-386.7 or 19.2-386.12, after deduction of expenses, fees and costs as provided in § 19.2-386.12, shall, as soon after entry of the forfeiture as is practicable, be paid over to the state treasury into a special fund of the Department of Criminal Justice Services for distribution in accordance with this section. The forfeited property and proceeds, less 10 percent, shall be made available to federal, state, and local agencies to promote law enforcement in accordance with this section, *which may include expenditures to strengthen relationships between the community and law enforcement, encourage goodwill between the community and law enforcement, or promote cooperation with law enforcement*, and regulations adopted by the Criminal Justice Services Board to implement the asset-sharing program.

The 10 percent retained by the Department shall be held in a nonreverting fund, known as the Asset Sharing Administrative Fund. Administrative costs incurred by the Department to manage and operate the asset-sharing program shall be paid from the Fund. Any amounts remaining in the Fund after payment of these costs shall be used to promote state or local law-enforcement activities. Distributions from the Fund for these activities shall be based upon need and shall be made from time to time in accordance with regulations promulgated by the Board.

B. Any federal, state or local agency or office that directly participated in the investigation or other law-enforcement activity which led, directly or indirectly, to the seizure and forfeiture shall be eligible for, and may petition the Department for, return of the forfeited asset or an equitable share of the net proceeds, based upon the degree of participation in the law-enforcement effort resulting in the forfeiture, taking into account the total value of all property forfeited and the total law-enforcement effort with respect to the violation of law on which the forfeiture is based. Upon finding that the petitioning agency is eligible for distribution and that all participating agencies agree on the equitable share of each, the Department shall distribute each share directly to the appropriate treasury of the participating agency.

If all eligible participating agencies cannot agree on the equitable shares of the net proceeds, the shares shall be determined by the Criminal Justice Services Board in accordance with regulations which shall specify the criteria to be used by the Board in assessing the degree of participation in the law-enforcement effort resulting in the forfeiture.

C. After the order of forfeiture is entered concerning any motor vehicle, boat, aircraft, or other tangible personal property, any seizing agency may (i) petition the Department for return of the property that is not subject to a grant or pending petition for remission or (ii) request the circuit court to order the property destroyed. Where all the participating agencies agree upon the equitable distribution of the tangible personal property, the Department shall return the property to those agencies upon finding that (a) the agency meets the criteria for distribution as set forth in subsection B and (b) the agency has a clear and reasonable law-enforcement need for the forfeited property.

If all eligible participating agencies cannot agree on the distribution of the property, distribution shall be determined by the Criminal Justice Services Board as in subsection B, taking into consideration the clear and reasonable law-enforcement needs for the property which the agencies may have. In order to equitably distribute tangible personal property, the Criminal Justice Services Board may require the agency receiving the property to reimburse the Department in cash for the difference between the fair market value of the forfeited property and the agency's equitable share as determined by the Criminal Justice Services Board.

If a seizing agency has received property for its use pursuant to this section, when the agency disposes of the property (1) by sale, the proceeds shall be distributed as set forth in this section; or (2) by destruction pursuant to a court order, the agency shall do so in a manner consistent with this section.

D. All forfeited property, including its proceeds or cash equivalent, received by a participating state or local agency pursuant to this section shall be used to promote law enforcement, *which may include expenditures to strengthen relationships between the community and law enforcement, encourage goodwill between the community and law enforcement, or promote cooperation with law enforcement*, but shall not be used to supplant existing programs or funds. The Board shall promulgate regulations establishing an audit procedure to ensure compliance with this section.

E. On or after July 1, 2012, but before July 1, 2014, local seizing agencies may contribute cash funds and proceeds from forfeited property to the Virginia Public Safety Foundation to support the construction of the Commonwealth Public Safety Memorial. Any funds contributed by seizing agencies shall be contributed only after an internal analysis to determine that such contributions will not negatively impact law-enforcement training or operations.

F. The Department shall report annually on or before December 31 to the Governor and the General Assembly the amount of all cash, negotiable instruments, and proceeds from sales conducted pursuant to § 19.2-386.7 or 19.2-386.12 that were forfeited to the Commonwealth, including the amount of all forfeitures distributed to the Literary Fund. Such report shall also detail the amount distributed by the Department to each federal, state, or local agency or office pursuant to this section, and the amount each state or local agency or office received from federal asset forfeiture proceedings. Any state or local agency that receives a forfeited asset or an equitable share of the net proceeds of a forfeited asset from the Department or from a federal asset forfeiture proceeding shall inform the Department, in a manner prescribed by the Department, of (i) the offense on which the forfeiture is based listed in the information filed pursuant to § 19.2-386.1, (ii) any criminal charge brought against the owner of the forfeited asset, and (iii) if a criminal charge was brought against the owner of the forfeited asset, the status of the charge, including whether the charge is pending or resulted in a conviction. The Department shall include such information in the annual report. The Department shall ensure that such report is available to the public.

D. The Real Estate Board shall make available on its website a flood risk information form. Such form shall be substantially as follows:

Flood Risk Information Form

The purpose of this information form is to provide property owners and potential property owners with information regarding flood risk. This information form does not determine whether a property owner will be required to purchase a flood insurance policy. That determination is made by the lender providing a loan for the property at the lender's discretion.

Mortgage lenders are mandated under the Flood Disaster Protection Act of 1973 and the National Flood Insurance Reform Act of 1994 to require the purchase of flood insurance by property owners who acquire loans from federally regulated, supervised, or insured financial institutions for the acquisition or improvement of land, facilities, or structures located within or to be located within a Special Flood Hazard Area. A Special Flood Hazard Area (SFHA) is a high-risk area defined as any land that would be inundated by a flood, also known as a base flood, having a one percent chance of occurring in a given year. The lender reviews the current National Flood Insurance Program (NFIP) maps for the community in which the property is located to determine its location relative to the published SFHA and completes the Standard Flood Hazard Determination Form (SFHDF), created by the Federal Emergency Management Agency (FEMA). If the lender determines that the structure is indeed located within a SFHA and the community is participating in the NFIP, the borrower is then notified that flood insurance will be required as a condition of receiving the loan. A similar review and notification are completed whenever a loan is sold on the secondary loan market or when the lender completes a routine review of its mortgage portfolio.

Properties that are not located in a SFHA can still flood. Flood damage is not generally covered by a standard home insurance policy. It is prudent to consider purchasing flood insurance even when flood insurance is not required by a lender. Properties not located in a SFHA may be eligible for a low-cost preferred risk flood insurance policy. Property owners and buyers are encouraged to consult with their insurance agent about flood insurance.

What is a flood? A flood is a general and temporary condition of partial or complete inundation of two or more acres of normally dry land area or of two or more properties, at least one of which is the policyholder's property, from (i) overflow of inland or tidal waters, (ii) unusual and rapid accumulation or runoff of surface waters from any source, (iii) mudflow, or (iv) collapse or subsidence of land along the shore of a lake or similar body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels that result in a flood.

FEMA is required to update Flood Maps every five years. Flood zones for this property may change due to periodic map updates. To determine what flood zone or zones a property is located in a buyer can visit the website for FEMA's National Flood Insurance Program or the Virginia Department of Conservation and Recreation's Flood Risk Information System website.

CHAPTER 269

An Act to amend and reenact § 32.1-325 of the Code of Virginia, relating to state plan for medical assistance services; remote patient monitoring.

[S 426]

Approved April 8, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-325 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

10. A provision for breast reconstructive surgery following the medically necessary removal of a breast for any medical reason. Breast reductions shall be covered, if prior authorization has been obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

11. A provision for payment of medical assistance for annual pap smears;

12. A provision for payment of medical assistance services for prostheses following the medically necessary complete or partial removal of a breast for any medical reason;

13. A provision for payment of medical assistance which provides for payment for 48 hours of inpatient treatment for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of disease or trauma of the breast. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. For the purpose of this subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate specific antigen;

16. A provision for payment of medical assistance for low-dose screening mammograms for determining the presence of occult breast cancer. Such coverage shall make available one screening mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through 49, and one such mammogram annually to persons age 50 and over. The term "mammogram" means an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast;

17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care

services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

"Local planning commission" means a municipal planning commission or a county planning commission.

"Military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under jurisdiction of the U.S. Department of Defense, including any leased facility, or any land or interest in land owned by the Commonwealth and administered by the Adjutant General of Virginia or the Virginia Department of Military Affairs. The term includes resubdivision and, when appropriate to the context, shall relate to the process of subdividing or to the land subdivided and solely for the purpose of recordation of any single division of land into two lots or parcels, a plat of such division shall be submitted for approval in accordance with § 15.2-2258. *Nothing in this definition, section, nor any ordinance adopted pursuant to § 15.2-2240 shall preclude different owners of adjacent parcels from entering into a valid and enforceable boundary line agreement with one another so long as such agreement is only used to resolve a bona fide property line dispute, the boundary adjustment does not move by more than 250 feet from the center of the current platted line or alter either parcel's resultant acreage by more than five percent of the smaller parcel size, and such agreement does not create an additional lot, alter the existing boundary lines of localities, result in greater street frontage, or interfere with a recorded easement, and such agreement shall not result in any nonconformity with local ordinances and health department regulations. Notice shall be provided to the zoning administrator of the locality in which the parcels are located for review. A copy of the final decree shall be provided to the zoning administrator of the locality in which the property is located.*

"Variance" means, in the application of a zoning ordinance, a reasonable deviation from those provisions regulating the shape, size, or area of a lot or parcel of land or the size, height, area, bulk, or location of a building or structure when the strict application of the ordinance would unreasonably restrict the utilization of the property, and such need for a variance would not be shared generally by other properties, and provided such variance is not contrary to the purpose of the ordinance. It shall not include a change in use, which change shall be accomplished by a rezoning or by a conditional zoning.

"Working waterfront" means an area or structure on, over, or adjacent to navigable waters that provides access to the water and is used for water-dependent commercial, industrial, or governmental activities, including commercial and

A. Corporations which are affiliated within the meaning of § 58.1-302 may, for any taxable year, file separate returns, file a combined return or file a consolidated return of net income for the purpose of this chapter, and the taxes thereunder

shall be computed and determined upon the basis of the type of return filed. Following an election to file on a separate, consolidated, or combined basis all returns thereafter filed shall be upon the same basis unless permission to change is granted by the Department.

B. For the purpose of subsection A:

1. A consolidated return shall mean a single return for a group of corporations affiliated within the meaning of § 58.1-302, prepared in accordance with the principles of § 1502 of the Internal Revenue Code and regulations promulgated thereunder. The Tax Commissioner shall promulgate regulations setting forth the manner in which such an affiliated group shall compute its Virginia taxable income.

2. A combined return shall mean a single return for a group of corporations affiliated within the meaning of § 58.1-302, in which income or loss is separately determined in accordance with subdivisions a through d below:

c. Apportionable income or loss is computed, utilizing separate apportionment factors for each corporation;

C. Notwithstanding subsection A, a group of corporations may apply to the Tax Commissioner for permission to change the basis of the type of return filed (i) from consolidated to separate or (ii) from separate or combined to consolidated, if such corporations are affiliated within the meaning of § 58.1-302 and the affiliated group of which they are members, as it has existed from time to time, has filed on the same basis for at least the preceding 20 12 years. Permission shall be granted if:

1. For the taxable year immediately preceding the taxable year for which the new election would be applicable, there would have been no decrease in tax liability computed under the proposed election as compared to the affiliated group's former filing method; and

2. The affiliated group agrees to file returns computing its Virginia income tax liability under both the new filing method and the former method and will pay the greater of the two amounts for the taxable year in which the new election is effective and for the immediately succeeding taxable year.

CHAPTER 293

An Act for the relief of Joseph Carter, relating to claims; compensation for wrongful incarceration.

[H 383]

Approved April 8, 2022

Whereas, Joseph Carter was convicted in the Circuit Court of the City of Norfolk on June 27, 1990, for the first degree murder, attempted robbery, robbery, and statutory burglary; and

Whereas, Mr. Carter was sentenced two life sentences, plus an additional 30 years in prison; and

Whereas, Mr. Carter served almost 27 years in the Virginia Department of Corrections, remaining infraction free for the final 16 years of his incarceration before being paroled in 2016; and

Whereas, Mr. Carter was released from prison on parole supervision, with no violations committed during his supervision; and

Whereas, Mr. Carter maintained steady employment until he was no longer able to work due to worsening symptoms of his diagnosed spinal stenosis; and

Whereas, Mr. Carter, through counsel, submitted a petition for clemency seeking an absolute pardon based on the evidence of his innocence, including insufficient evidence to support a guilty verdict, strong chance of witness misidentification, lack of motive, and lack of blood sample analysis; and

Whereas, there was no physical or forensic evidence tying Mr. Carter to the murder; the Commonwealth instead relied solely on tainted witness testimony obtained by disgraced former Norfolk Detective Robert Glenn Ford and his partner; and

Whereas, two eyewitnesses initially told police that they did not recognize either of the two masked assailants. During later interviews with Detective Ford, both witnesses changed their stories and ultimately identified Mr. Carter as the perpetrator; and

Whereas, the Commonwealth witness who testified that Mr. Carter and his co-defendant were looking for money on the night of the robbery and murder only provided this alleged motive to police after he was questioned by Detective Ford because his fingerprints were found at the scene; and

Whereas, during the post-conviction investigation, the Commonwealth's critical eyewitness admitted that her trial testimony was false and that she was in fact never able to identify the two men leaving the scene on the night of the victim's

murder, swearing that "[t]he truth is that I have no idea who committed this crime, because I did not get a good look at either man. They flew by my window so fast; it was impossible to see any identifying details."

Whereas, Governor Ralph Northam granted Mr. Carter an absolute pardon on August 13, 2021, noting that "Mr. Carter was an unfortunate victim of Norfolk Detective Glenn Ford, who used his official capacity to extort witnesses in order to yield high solvability percentages and was eventually convicted on federal charges;" and

Whereas, Governor Ralph Northam decided that it was "just and appropriate to grant this ABSOLUTE PARDON that reflects Mr. Carter's innocence of First Degree Murder, Attempted Robbery, Robbery, and Statutory Burglary for which he was convicted on June 27, 1990."

Whereas, during the course of Mr. Carter's wrongful incarceration, he and his wife divorced, and his children lost decades with their father. Also, both of Mr. Carter's parents died, as well as his brother and oldest son.

Whereas, Mr. Carter, as a result of his wrongful incarceration, lost 27 years of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

Whereas, Mr. Carter has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. *That there is hereby appropriated from the general fund of the state treasury the sum of \$1,483,342 for the relief of Joseph Carter; to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Carter may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

As Mr. Carter is older than 60 years, the compensation, subject to the execution of the release described herein, shall be paid in one lump sum of \$1,483,342 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release.

§ 2. *That Mr. Carter shall be entitled to receive reimbursements up to \$10,000 for tuition for career and technical training within the Virginia Community College System contingent upon successful completion of the training. Reimbursement for tuition shall be provide by the comprehensive community college at which the career or technical training was completed. The tuition benefit provided by this section shall expire on January 1, 2026.*

§ 3. *That any amount already paid to Mr. Carter as a transition assistance grant pursuant to subsection C of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.*

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

CHAPTER 294

An Act to amend and reenact § 51.1-124.1 of the Code of Virginia and to repeal §§ 58.1-815.3, 58.1-3229, and 58.1-3506.8 of the Code of Virginia, relating to retirement and taxation; not set out and obsolete sections.

[H 338]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 51.1-124.1 of the Code of Virginia is amended and reenacted as follows:

§ 51.1-124.1. Virginia Retirement System established.

Article X, Section 11 of the Constitution of Virginia requires the General Assembly to maintain a ~~state employees'~~ retirement system for *state employees and employees of participating political subdivisions and school divisions*, subject to restrictions and conditions prescribed by the General Assembly, that shall be administered in the best interests of the beneficiaries thereof. ~~Pursuant to this constitutional duty, the General Assembly hereby finds and declares that all present and future members of the Retirement System are entitled to a retirement system whose governing structure and institutional organization foster public confidence and trust in its investment practices, policy decisions, and administrative operations.~~ To that end and for the purposes of providing adequate benefits and pensions to members, encouraging stable employer contribution rates, and ensuring the overall soundness of the Retirement System, the General Assembly hereby establishes the Virginia Retirement System as an independent agency of the Commonwealth, exclusive of the legislative, executive, and judicial branches of government, in the following provisions.

2. That §§ 58.1-815.3, 58.1-3229, and 58.1-3506.8 of the Code of Virginia are repealed.

CHAPTER 295

An Act to amend the Code of Virginia by adding in Article 1 of Chapter 7 of Title 37.2 a section numbered 37.2-714.1, relating to state facilities; video visitation.

[H 388]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 1 of Chapter 7 of Title 37.2 a section numbered 37.2-714.1 as follows:

§ 37.2-714.1. State facilities; video visitation.

The director of every state facility shall establish a process to facilitate virtual visitation through the use of audio and video equipment for individuals receiving services at the state facility.

CHAPTER 296

An Act for the relief of Emerson Eugene Stevens, relating to claims; compensation for wrongful incarceration.

[H 394]

Approved April 11, 2022

WHEREAS, Emerson Eugene Stevens was convicted in the Circuit Court of the County of Lancaster on July 12, 1986, of the abduction with intent to defile and first-degree murder of Mary Harding; and

WHEREAS, Mr. Stevens was sentenced by a jury to 65 years in prison for the abduction with intent to defile conviction and 99 years and one day in prison for the first-degree murder conviction; and

WHEREAS, Mr. Stevens served 32 years in the Virginia Department of Corrections before being released on parole in 2017; and

WHEREAS, the only physical evidence purportedly linking Mr. Stevens to the crime was a hair; the FBI now states that the type of microscopic hair comparison used in his case is scientifically unreliable and should never serve as a basis upon which to convict a defendant. The other physical link between Mr. Stevens and the crime was a type of fishing knife that Mr. Stevens might once have had and that had supposedly caused wounds on the victim's back. The Commonwealth's expert on this piece of evidence years later reviewed the case and signed an affidavit swearing that the wounds were, in fact, more consistent with a postmortem encounter with a propeller than a knife; and

WHEREAS, several of the Commonwealth's critical witnesses lied during their testimony. For example, an "eyewitness" who placed Mr. Stevens' car outside of the victim's house was later prosecuted and convicted of obstruction of justice for his false testimony against Emerson Stevens; and

WHEREAS, the Commonwealth presented false testimony from a marine scientist regarding the location where the victim's body was dumped in relation to where she ultimately was found. This testimony was later characterized by the scientist as "eyewash" (nonsense), and it was also inconsistent with the investigative findings of an FBI Task Force; and

WHEREAS, the lead investigator on Mr. Stevens' case, Virginia State Police Special Agent David Riley, has a documented history of misconduct. His improper conduct in the case of Beverly Anne Monroe, who was wrongfully convicted of murder, in part led a federal court to grant Ms. Monroe a writ of habeas corpus; and

WHEREAS, Mr. Stevens was released on parole in 2017, after serving 32 years in prison for this crime. Still, the University of Virginia School of Law Innocence Project (UVAIP) continued his habeas corpus litigation in an effort to exonerate Mr. Stevens and clear his name and record; and

WHEREAS, in April 2020, the United States Court of Appeals for the Fourth Circuit encouraged the Governor to exercise his pardon power, noting that "the executive's power and responsibility both before and after conviction remain fundamental in our system of divided powers." In re Stevens, 936 F.3d 229, 234 (4th Cir. April 15, 2020). In his concurring opinion, Judge Thacker found that "the evidence as a whole overwhelmingly supports a conclusion that no reasonable jury would have convicted Stevens." Stevens, 936, F.3d at 237; and

WHEREAS, during the course of the subsequent federal habeas corpus litigation, the District Court Judge overseeing the proceedings wrote, "The Court reminds the Parties, as did the Fourth Circuit, that seeking a pardon from the Governor may be the more expeditious pursuit given the length of time it requires to obtain habeas relief in federal court and the limiting parameters the [statute] imposes on review"; and

WHEREAS, Mr. Stevens, through the UVAIP, submitted a petition for clemency seeking an absolute pardon based on the circumstances surrounding his innocence; and

WHEREAS, on August 13, 2021, Governor Ralph Northam granted Mr. Stevens an absolute pardon. In so doing, Governor Northam noted that the pardon "reflects Mr. Stevens' innocence"; and

WHEREAS, since his release on parole, Mr. Stevens has had no new arrests; and

WHEREAS, during the course of Mr. Stevens' wrongful incarceration, he and his wife divorced, his three children lost decades with their father, and both of his parents and one of his children died; and

WHEREAS, Mr. Stevens, as a result of his wrongful incarceration, lost 32 years of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

WHEREAS, Mr. Stevens has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. *That there is hereby appropriated from the general fund of the state treasury the sum of \$1,699,274 for the relief of Emerson Eugene Stevens, to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Stevens may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

As Mr. Stevens is older than 60 years, the compensation, subject to the execution of the release described herein, shall be paid in one lump sum of \$1,699,274 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release.

§ 2. *That Mr. Stevens shall be entitled to receive reimbursement up to \$10,000 for tuition for career and technical training within the Virginia Community College System contingent upon successful completion of the training. Reimbursement for tuition shall be provided by the comprehensive community college at which the career or technical training was completed. The tuition benefit provided by this section shall expire on January 1, 2026.*

§ 3. *That any amount already paid to Mr. Stevens as a transition assistance grant pursuant to subsection C of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.*

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

CHAPTER 297

An Act to amend and reenact § 32.1-137.05 of the Code of Virginia, relating to hospitals; price transparency.

[H 481]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-137.05 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-137.05. Information regarding standard charges; advance estimate of patient payment amount for elective procedure, test, or service.

A. Every hospital shall make available to the public on its website a machine-readable file containing a list of all standard charges for all items and services provided by the hospital in accordance with 45 C.F.R. § 180.50, as amended. As used in this subsection, "hospital," "items and services," "machine-readable," and "standard charge" have the same meaning as set forth in 45 C.F.R. § 180.20.

B. Every hospital shall, upon request of a patient scheduled to receive an elective procedure, test, or service to be performed by the hospital, or upon request of such patient's legally authorized representative, made no less than three days in advance of the date on which such elective procedure, test, or service is scheduled to be performed, furnish the patient with an estimate of the payment amount for which the participant will be responsible for such elective procedure, test, or service. Every hospital shall provide written information about the patient's ability to request an estimate of the payment amount pursuant to this section. Such written information shall be posted conspicuously in public areas of the hospital, including admissions or registration areas, and included on any website maintained by the hospital.

2. That the provisions of the first enactment of this act shall become effective on July 1, 2023.

3. That the Secretary of Health and Human Resources shall develop recommendations for implementation of this act, including any regulatory changes that may be necessary for implementation of this act, and shall report his recommendations to the Governor and the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health by November 1, 2022.

CHAPTER 298

An Act to amend and reenact §§ 63.2-608 and 63.2-609 of the Code of Virginia, relating to Virginia Initiative for Education and Work; exemption for postsecondary students.

[H 484]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 63.2-608 and 63.2-609 of the Code of Virginia are amended and reenacted as follows:

§ 63.2-608. Virginia Initiative for Education and Work (VIEW).

A. The Department shall establish and administer the Virginia Initiative for Education and Work (VIEW) to reduce long-term dependence on welfare, emphasize personal responsibility, and enhance opportunities for personal initiative and self-sufficiency by promoting the value of work. The Department shall endeavor to develop placements for VIEW participants that will enable participants to develop job skills that are likely to result in independent employment and that take into consideration the proficiency, experience, skills, and prior training of a participant.

VIEW shall recognize clearly defined responsibilities and obligations on the part of public assistance recipients and shall include a written agreement of personal responsibility requiring parents to participate in work activities while receiving TANF, earned-income disregards to reduce disincentives to work, and a limit on TANF financial assistance.

VIEW shall require all able-bodied recipients of TANF who do not meet an exemption to participate in a work activity. VIEW shall require eligible TANF recipients to participate in unsubsidized, partially subsidized or fully subsidized employment or other allowable TANF work activity as defined by federal law and enter into an agreement of personal responsibility.

B. To the maximum extent permitted by federal law, and notwithstanding other provisions of Virginia law, the Department and local departments may, through applicable procurement laws and regulations, engage the services of public and private organizations to operate VIEW and to provide services incident to such operation.

C. All VIEW participants shall be under the direction and supervision of a case manager.

D. The Department shall ensure that participants are assigned to one of the following work activities within 90 days after the approval of TANF assistance:

1. Unsubsidized private-sector employment;
2. Subsidized employment, as follows:

a. The Department shall conduct a program in accordance with this section that shall be known as the Full Employment Program (FEP). Persons who are otherwise eligible for TANF may participate in FEP unless exempted by this chapter. FEP shall assign participants to subsidized wage-paying private-sector jobs designed to increase the participants' self-sufficiency and improve their competitive position in the workforce.

b. Participants in FEP shall be placed in full-time employment when appropriate and shall be paid by the employer at an hourly rate not less than the federal or state minimum wage, whichever is higher. Wages earned by a FEP employee during the period for which his employer receives a subsidy pursuant to subdivision c shall be disregarded in the calculation of TANF benefits.

c. Every employer subject to the Virginia unemployment insurance tax shall be eligible for assignment of FEP participants, but no employer shall be required to utilize such participants. Pursuant to Board regulations, participating employers shall receive a subsidy of up to \$1,000 per month for each FEP employee for a period not to exceed six months. Employers shall ensure that jobs made available to FEP participants are in conformity with § 3304(a)(5) of the Federal Unemployment Tax Act. FEP participants cannot be used to displace regular workers.

d. FEP employers shall:

- (i) Endeavor to make FEP placements positive learning and training experiences;
- (ii) Provide on-the-job training to the degree necessary for the participants to perform their duties;
- (iii) Pay wages to participants at the same rate that they are paid to other employees performing the same type of work and having similar experience and employment tenure;
- (iv) Provide sick leave, holiday and vacation benefits to participants to the same extent and on the same basis that they are provided to other employees performing the same type of work and having similar employment experience and tenure;
- (v) Maintain health, safety and working conditions at or above levels generally acceptable in the industry and no less than those in which other employees perform the same type of work;
- (vi) Provide workers' compensation coverage for participants;
- (vii) Encourage volunteer mentors from among their other employees to assist participants in becoming oriented to work and the workplace; and
- (viii) Sign an agreement with the local department outlining the employer requirements to participate in FEP. All agreements shall include notice of the employer's obligation to repay FEP reimbursements in the event the employer violates FEP rules.

e. As a condition of FEP participation, employers shall be prohibited from discriminating against any person, including program participants, on the basis of race, color, sex, sexual orientation, gender identity, national origin, religion, age, or disability;

3. Part-time or temporary employment;

4. Community work experience, as follows:

a. The Department and local departments shall work with other state, regional and local agencies and governments in developing job placements that serve a useful public purpose as provided in § 482(f) of the Social Security Act, as amended. Placements shall be selected to provide skills and serve a public function. VIEW participants shall not displace regular workers.

b. The number of hours per week for participants shall be determined by combining the total dollar amount of TANF and SNAP benefits and dividing by the minimum wage with a maximum of a work week of 32 hours, of which up to 12 hours of employment-related education and training may substitute for work experience employment; *or*

5. ~~Educational activities that lead to a post-secondary credential, such as a degree or industry-recognized credential, certification, or license from an accredited institution of higher education or other postsecondary school licensed or certified by the Board of Education or the State Council of Higher Education for Virginia; or~~

~~6. Any other allowable TANF work activity as defined by federal law.~~

E. Notwithstanding the provisions of subsections A and D, if a local department determines that a VIEW participant is in need of job skills and would benefit from immediate job skills training, it may place the participant in a program preparing individuals for a high school equivalency examination approved by the Board of Education, a career and technical education program targeted at skills required for particular employment opportunities, or an apprenticeship program developed by the local department in accordance with requirements established by the Department. Eligible participants include those with problems related to obtaining and retaining employment, such as participants (i) with less than a high school education, (ii) whose reading or math skills are at or below the eighth grade level, (iii) who have not retained a job for a period of at least six months during the prior two years, or (iv) who are in a treatment program for a substance abuse problem or are receiving services through a family violence treatment program. The VIEW participant may continue in a

high school equivalency examination preparation program, career and technical education program, or apprenticeship program for as long as the local department determines he is progressing satisfactorily and to the extent permitted by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), as amended.

F. Participants may be reevaluated after a period determined by the local department and reassigned to another work component. In addition, the number of hours worked may be reduced by the local department so that a participant may complete additional training or education to further his employability.

G. Local departments shall be authorized to sanction parents up to the full amount of the TANF grant for noncompliance, unless good cause exists.

H. VIEW participants shall not be assigned to projects that require that they travel unreasonable distances from their homes or remain away from their homes overnight without their consent.

Any injury to a VIEW participant arising out of and in the course of community work experience shall be covered by the participant's existing Medicaid coverage. If a community work experience participant is unable to work due to such an accident, his status shall be reviewed to determine whether he is eligible for an exemption from the limitation on TANF financial assistance.

A community work experience participant who becomes incapacitated for 30 days or more shall be eligible for TANF financial assistance for the duration of the incapacity, if otherwise eligible.

The Board shall adopt regulations providing for the accrual of paid sick leave or other equivalent mechanism for community work experience participants.

§ 63.2-609. VIEW exemptions.

The following TANF recipients shall be exempt from mandatory participation in VIEW and shall remain eligible for TANF financial assistance:

1. Any individual, including all minor caretakers, under 16 years of age;
2. Any individual at least 16, but no more than 19 years of age, who is enrolled full-time in elementary or secondary school, including career and technical education programs. The career and technical education program must be equivalent to secondary school. Whenever feasible, such recipients should participate in summer work;
3. *To the extent authorized by federal law and regulations, any individual who is enrolled full time in an accredited public institution of higher education or other postsecondary school licensed or certified by the Board of Education or the State Council of Higher Education for Virginia and is taking courses as part of a curriculum that leads to a postsecondary credential, such as a degree or an industry-recognized credential, certification, or license;*
4. Any individual who is unable to participate because of a temporary medical condition that is preventing employment or training, as determined by a physician or other qualified medical professional and certified by a written medical statement. Such an exemption shall be reevaluated every 60 days to determine whether the person is still exempt;
- ~~4.~~ 5. Any individual who is disabled, as determined by receipt of Social Security Disability Benefits or Supplemental Security Income;
- ~~5.~~ 6. Any individual 60 years of age or older;
- ~~6.~~ 7. Any individual who is the sole caregiver of another member of the household who is disabled as determined by receipt of Social Security Disability Benefits or Supplemental Security Income or who is incapacitated by another condition as determined by the Board and whose presence is essential for the care of the other member on a substantially continuous basis; *or*
- ~~7.~~ 8. A parent or caretaker-relative of a child under 12 months of age who personally provides care for the child. A parent or caretaker-relative exempt from mandatory participation in VIEW pursuant to this subdivision shall be exempt for a period of no more than 12 months. Months during which a parent or caretaker-relative is exempt may be consecutive or nonconsecutive.

In a TANF-UP case, both parents shall be referred for participation unless one meets an exemption; only one parent can be exempt. If both parents meet an exemption criterion, they shall decide who will be referred for participation.

[S 396]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-278.2, 16.1-278.4, 16.1-278.8, and 16.1-281 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-278.2. Abused, neglected, or abandoned children or children without parental care.

A. Within 60 days of a preliminary removal order hearing held pursuant to § 16.1-252 or a hearing on a preliminary protective order held pursuant to § 16.1-253, a dispositional hearing shall be held if the court found abuse or neglect and (i) removed the child from his home or (ii) entered a preliminary protective order. Notice of the dispositional hearing shall be provided to the child's parent, guardian, legal custodian, or other person standing in loco parentis in accordance with § 16.1-263. The hearing shall be held and a dispositional order may be entered, although a parent, guardian, legal custodian, or person standing in loco parentis fails to appear and is not represented by counsel, provided personal or substituted service was made on the person, or the court determines that such person cannot be found, after reasonable effort, or in the case of a person who is without the Commonwealth, the person cannot be found or his post office address cannot be ascertained after reasonable effort. Notice shall also be provided to the local department of social services, the guardian ad litem and, if appointed, the court-appointed special advocate.

If a child is found to be (a) abused or neglected; (b) at risk of being abused or neglected by a parent or custodian who has been adjudicated as having abused or neglected another child in his care; or (c) abandoned by his parent or other custodian, or without parental care and guardianship because of his parent's absence or physical or mental incapacity, the juvenile court or the circuit court may make any of the following orders of disposition to protect the welfare of the child:

1. Enter an order pursuant to the provisions of § 16.1-278;
2. Permit the child to remain with his parent, subject to such conditions and limitations as the court may order with respect to such child and his parent or other adult occupant of the same dwelling;
3. Prohibit or limit contact as the court deems appropriate between the child and his parent or other adult occupant of the same dwelling whose presence tends to endanger the child's life, health or normal development. The prohibition may exclude any such individual from the home under such conditions as the court may prescribe for a period to be determined by the court but in no event for longer than 180 days from the date of such determination. A hearing shall be held within 150 days to determine further disposition of the matter that may include limiting or prohibiting contact for another 180 days;
4. Permit the local board of social services or a public agency designated by the community policy and management team to place the child, subject to the provisions of § 16.1-281, in suitable family homes, child-caring institutions, residential facilities, or independent living arrangements with legal custody remaining with the parents or guardians. The local board or public agency and the parents or guardians shall enter into an agreement which shall specify the responsibilities of each for the care and control of the child. The board or public agency that places the child shall have the final authority to determine the appropriate placement for the child. *Nothing herein shall limit the authority of the court to review the child's status in foster care in accordance with subsection G of § 16.1-281 or to review the foster care plan through a petition filed pursuant to subsection A of § 16.1-282.*

Any order allowing a local board or public agency to place a child where legal custody remains with the parents or guardians as provided in this section shall be entered only upon a finding by the court that reasonable efforts have been made to prevent placement out of the home and that continued placement in the home would be contrary to the welfare of the child; and the order shall so state.

5. After a finding that there is no less drastic alternative, transfer legal custody, subject to the provisions of § 16.1-281, to any of the following:

- a. A person with a legitimate interest subject to the provisions of subsection A1;
- b. A child welfare agency, private organization or facility that is licensed or otherwise authorized by law to receive and provide care for such child; however, a court shall not transfer legal custody of an abused or neglected child to an agency, organization or facility out of the Commonwealth without the approval of the Commissioner of Social Services; or
- c. The local board of social services of the county or city in which the court has jurisdiction or, at the discretion of the court, to the local board of the county or city in which the child has residence if other than the county or city in which the court has jurisdiction. The local board shall accept the child for care and custody, provided that it has been given reasonable notice of the pendency of the case and an opportunity to be heard. However, in an emergency in the county or city in which the court has jurisdiction, the local board may be required to accept a child for a period not to exceed 14 days without prior notice or an opportunity to be heard if the judge entering the placement order describes the emergency and the need for such temporary placement in the order. Nothing in this section shall prohibit the commitment of a child to any local board of social services in the Commonwealth when the local board consents to the commitment. The board to which the child is committed shall have the final authority to determine the appropriate placement for the child. *Nothing herein shall limit the authority of the court to review the child's status in foster care in accordance with subsection G of § 16.1-281 or to review the foster care plan through a petition filed pursuant to subsection A of § 16.1-282.*

Any order authorizing removal from the home and transferring legal custody of a child to a local board of social services as provided in this section shall be entered only upon a finding by the court that reasonable efforts have been made to prevent removal and that continued placement in the home would be contrary to the welfare of the child; and the order shall so state.

A finding by the court that reasonable efforts were made to prevent removal of the child from his home shall not be required if the court finds that (i) the residual parental rights of the parent regarding a sibling of the child have previously been involuntarily terminated; (ii) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States, or any foreign jurisdiction that constitutes murder or voluntary manslaughter, or a felony attempt, conspiracy, or solicitation to commit any such offense, if the victim of the offense was a child of the parent, a child with whom the parent resided at the time such offense occurred, or the other parent of the child; (iii) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States, or any foreign jurisdiction that constitutes felony assault resulting in serious bodily injury or felony bodily wounding resulting in serious bodily injury or felony sexual assault, if the victim of the offense was a child of the parent or a child with whom the parent resided at the time of such offense; or (iv) on the basis of clear and convincing evidence, the parent has subjected any child to aggravated circumstances, or abandoned a child under circumstances that would justify the termination of residual parental rights pursuant to subsection D of § 16.1-283.

As used in this section:

"Aggravated circumstances" means torture, chronic or severe abuse, or chronic or severe sexual abuse, if the victim of such conduct was a child of the parent or child with whom the parent resided at the time such conduct occurred, including the failure to protect such a child from such conduct, which conduct or failure to protect (i) evinces a wanton or depraved indifference to human life or (ii) has resulted in the death of such a child or in serious bodily injury to such a child.

"Chronic abuse" or "chronic sexual abuse" means recurring acts of physical abuse that place the child's health, safety and well-being at risk.

"Serious bodily injury" means bodily injury that involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

"Severe abuse" or "severe sexual abuse" may include an act or omission that occurred only once but otherwise meets the definition of "aggravated circumstances."

6. Transfer legal custody pursuant to subdivision 5 of this section and order the parent to participate in such services and programs or to refrain from such conduct as the court may prescribe; or

7. Terminate the rights of the parent pursuant to § 16.1-283.

A1. Any order transferring custody of the child to a person with a legitimate interest pursuant to subdivision A 5 shall be entered only upon a finding, based upon a preponderance of the evidence, that such person is one who, after an investigation as directed by the court, (i) is found by the court to be willing and qualified to receive and care for the child; (ii) is willing to have a positive, continuous relationship with the child; (iii) is committed to providing a permanent, suitable home for the child; and (iv) is willing and has the ability to protect the child from abuse and neglect; and the order shall so state. The court's order transferring custody to a person with a legitimate interest should further provide for, as appropriate, any terms or conditions which would promote the child's interest and welfare; ongoing provision of social services to the child and the child's custodian; and court review of the child's placement.

B. If the child has been placed in foster care, at the dispositional hearing the court shall review the foster care plan for the child filed in accordance with § 16.1-281 by the local department of social services, a public agency designated by the

community policy and management team which places a child through an agreement with the parents or guardians where legal custody remains with the parents or guardians, or child welfare agency.

C. Any preliminary protective orders entered on behalf of the child shall be reviewed at the dispositional hearing and may be incorporated, as appropriate, in the dispositional order.

D. A dispositional order entered pursuant to this section is a final order from which an appeal may be taken in accordance with § 16.1-296.

§ 16.1-278.4. Children in need of services.

If a child is found to be in need of services or a status offender, the juvenile court or the circuit court may make any of the following orders of disposition for the supervision, care and rehabilitation of the child:

1. Enter an order pursuant to the provisions of § 16.1-278.

2. Permit the child to remain with his parent subject to such conditions and limitations as the court may order with respect to such child and his parent.

3. Order the parent with whom the child is living to participate in such programs, cooperate in such treatment or be subject to such conditions and limitations as the court may order and as are designed for the rehabilitation of the child and his parent.

4. Beginning July 1, 1992, in the case of any child fourteen years of age or older, where the court finds that the child is not able to benefit appreciably from further schooling, the court may excuse the child from further compliance with any legal requirement of compulsory school attendance as provided under § 22.1-254 or authorize the child, notwithstanding the provisions of any other law, to be employed in any occupation which is not legally declared hazardous for children under the age of eighteen.

5. Permit the local board of social services or a public agency designated by the community policy and management team to place the child, subject to the provisions of § 16.1-281, in suitable family homes, child caring-institutions, residential facilities, or independent living arrangements with legal custody remaining with the parents or guardians. The local board or public agency and the parents or guardians shall enter into an agreement which shall specify the responsibilities of each for the care and control of the child. The board or public agency that places the child shall have the final authority to determine the appropriate placement for the child. *Nothing herein shall limit the authority of the court to review the child's status in foster care in accordance with subsection G of § 16.1-281 or to review the foster care plan through a petition filed pursuant to subsection A of § 16.1-282.*

Any order allowing a local board or public agency to place a child where legal custody remains with the parents or guardians as provided in this section shall be entered only upon a finding by the court that reasonable efforts have been made to prevent placement out of the home and that continued placement in the home would be contrary to the welfare of the child, and the order shall so state.

6. Transfer legal custody to any of the following:

a. A relative or other individual who, after study, is found by the court to be qualified to receive and care for the child;

b. A child welfare agency, private organization or facility that is licensed or otherwise authorized by law to receive and provide care for such child. The court shall not transfer legal custody of a child in need of services to an agency, organization or facility out of the Commonwealth without the approval of the Commissioner of Social Services; or

c. The local board of social services of the county or city in which the court has jurisdiction or, at the discretion of the court, to the local board of the county or city in which the child has residence if other than the county or city in which the court has jurisdiction. The local board shall accept the child for care and custody, provided that it has been given reasonable notice of the pendency of the case and an opportunity to be heard. However, in an emergency in the county or city in which the court has jurisdiction, the local board may be required to accept a child for a period not to exceed fourteen days without prior notice or an opportunity to be heard if the judge entering the placement order describes the emergency and the need for such temporary placement in the order. Nothing in this subdivision shall prohibit the commitment of a child to any local board of social services in the Commonwealth when the local board consents to the commitment. The board to which the child is committed shall have the final authority to determine the appropriate placement for the child. *Nothing herein shall limit the authority of the court to review the child's status in foster care in accordance with subsection G of § 16.1-281 or to review the foster care plan through a petition filed pursuant to subsection A of § 16.1-282.*

Any order authorizing removal from the home and transferring legal custody of a child to a local board of social services as provided in this subdivision shall be entered only upon a finding by the court that reasonable efforts have been made to prevent removal and that continued placement in the home would be contrary to the welfare of the child, and the order shall so state.

A finding by the court that reasonable efforts were made to prevent removal of the child from his home shall not be required if the court finds that (i) the residual parental rights of the parent regarding a sibling of the child have previously been involuntarily terminated; (ii) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States, or any foreign jurisdiction that constitutes murder or voluntary manslaughter, or a felony attempt, conspiracy, or solicitation to commit any such offense, if the victim of the offense was a child of the parent, a child with whom the parent resided at the time such offense occurred, or the other parent of the child; (iii) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States, or any foreign jurisdiction that constitutes felony assault resulting in serious bodily injury or felony bodily wounding resulting in serious bodily injury or felony sexual assault, if the victim of the offense was a child of

the parent or a child with whom the parent resided at the time of such offense; or (iv) on the basis of clear and convincing evidence, the parent has subjected any child to aggravated circumstances, or abandoned a child under circumstances that would justify the termination of residual parental rights pursuant to subsection D of § 16.1-283.

As used in this section:

"Aggravated circumstances" means torture, chronic or severe abuse, or chronic or severe sexual abuse, if the victim of such conduct was a child of the parent or child with whom the parent resided at the time such conduct occurred, including the failure to protect such a child from such conduct, which conduct or failure to protect (i) evinces a wanton or depraved indifference to human life or (ii) has resulted in the death of such a child or in serious bodily injury to such a child.

"Chronic abuse" or "chronic sexual abuse" means recurring acts of physical abuse that place the child's health, safety and well-being at risk.

"Serious bodily injury" means bodily injury that involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

"Severe abuse" or "severe sexual abuse" may include an act or omission that occurred only once but otherwise meets the definition of "aggravated circumstances."

7. Require the child to participate in a public service project under such conditions as the court prescribes.

§ 16.1-278.8. Delinquent juveniles.

A. If a juvenile is found to be delinquent, except where such finding involves a refusal to take a breath test in violation of § 18.2-268.2 or a similar ordinance, the juvenile court or the circuit court may make any of the following orders of disposition for his supervision, care and rehabilitation:

1. Enter an order pursuant to the provisions of § 16.1-278;

2. Permit the juvenile to remain with his parent, subject to such conditions and limitations as the court may order with respect to the juvenile and his parent;

3. Order the parent of a juvenile living with him to participate in such programs, cooperate in such treatment or be subject to such conditions and limitations as the court may order and as are designed for the rehabilitation of the juvenile and his parent;

4. Defer disposition for a specific period of time established by the court with due regard for the gravity of the offense and the juvenile's history, after which time the charge may be dismissed by the judge if the juvenile exhibits good behavior during the period for which disposition is deferred;

4a. Defer disposition and place the juvenile in the temporary custody of the Department to attend a boot camp established pursuant to § 66-13 provided bed space is available for confinement and the juvenile (i) has been found delinquent for an offense that would be a Class 1 misdemeanor or felony if committed by an adult, (ii) has not previously been and is not currently being adjudicated delinquent or found guilty of a violent juvenile felony, (iii) has not previously attended a boot camp, (iv) has not previously been committed to and received by the Department, and (v) has had an assessment completed by the Department or its contractor concerning the appropriateness of the candidate for a boot camp. Upon the juvenile's withdrawal, removal or refusal to comply with the terms and conditions of participation in the program, he shall be brought before the court for a hearing at which the court may impose any other disposition as authorized by this section which could have been imposed at the time the juvenile was placed in the custody of the Department;

5. Without entering a judgment of guilty and with the consent of the juvenile and his attorney, defer disposition of the delinquency charge for a specific period of time established by the court with due regard for the gravity of the offense and the juvenile's history, and place the juvenile on probation under such conditions and limitations as the court may prescribe. Upon fulfillment of the terms and conditions, the court shall discharge the juvenile and dismiss the proceedings against him. Discharge and dismissal under these provisions shall be without adjudication of guilt;

6. Order the parent of a juvenile with whom the juvenile does not reside to participate in such programs, cooperate in such treatment or be subject to such conditions and limitations as the court may order and as are designed for the rehabilitation of the juvenile where the court determines this participation to be in the best interest of the juvenile and other parties concerned and where the court determines it reasonable to expect the parent to be able to comply with such order;

7. Place the juvenile on probation under such conditions and limitations as the court may prescribe;

7a. Place the juvenile on probation and order treatment for the abuse or dependence on alcohol or drugs in a program licensed by the Department of Behavioral Health and Developmental Services for the treatment of juveniles for substance abuse provided that (i) the juvenile has received a substance abuse screening and assessment pursuant to § 16.1-273 and that such assessment reasonably indicates that the commission of the offense was motivated by, or closely related to, the habitual use of alcohol or drugs and indicates that the juvenile is in need of treatment for this condition; (ii) the juvenile has not previously been and is not currently being adjudicated for a violent juvenile felony; and (iii) such facility is available. Upon the juvenile's withdrawal, removal, or refusal to comply with the conditions of participation in the program, he shall be brought before the court for a hearing at which the court may impose any other disposition authorized by this section. The court shall review such placements at 30-day intervals;

8. Impose a fine not to exceed \$500 upon such juvenile;

9. Suspend the motor vehicle and driver's license of such juvenile or impose a curfew on the juvenile as to the hours during which he may operate a motor vehicle. Any juvenile whose driver's license is suspended may be referred for an assessment and subsequent referral to appropriate services, upon such terms and conditions as the court may order. The court, in its discretion and upon a demonstration of hardship, may authorize the use of a restricted permit to operate a motor

vehicle by any juvenile who enters such program for any of the purposes set forth in subsection E of § 18.2-271.1 or for travel to and from school. The restricted permit shall be issued in accordance with the provisions of such subsection. However, only an abstract of the court order that identifies the juvenile and the conditions under which the restricted license is to be issued shall be sent to the Department of Motor Vehicles.

If a curfew is imposed, the juvenile shall surrender his driver's license, which shall be held in the physical custody of the court during any period of curfew restriction. The court shall send an abstract of any order issued under the provisions of this section to the Department of Motor Vehicles, which shall preserve a record thereof. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.) of this chapter or the provisions of Title 46.2, this record shall be available only to all law-enforcement officers, attorneys for the Commonwealth and courts. A copy of the court order, upon which shall be noted all curfew restrictions, shall be provided to the juvenile and shall contain such information regarding the juvenile as is reasonably necessary to identify him. The juvenile may operate a motor vehicle under the court order in accordance with its terms.

Any juvenile who operates a motor vehicle in violation of any restrictions imposed pursuant to this section is guilty of a violation of § 46.2-301.

The Department of Motor Vehicles shall refuse to issue a driver's license to any juvenile denied a driver's license until such time as is stipulated in the court order or until notification by the court of withdrawal of the order imposing the curfew;

10. Require the juvenile to make restitution or reparation to the aggrieved party or parties for actual damages or loss caused by the offense for which the juvenile was found to be delinquent;

11. Require the juvenile to participate in a public service project under such conditions as the court prescribes;

12. In case of traffic violations, impose only those penalties that are authorized to be imposed on adults for such violations. However, for those violations punishable by confinement if committed by an adult, confinement shall be imposed only as authorized by this title;

13. Transfer legal custody to any of the following:

a. A relative or other individual who, after study, is found by the court to be qualified to receive and care for the juvenile;

b. A child welfare agency, private organization or facility that is licensed or otherwise authorized by law to receive and provide care for such juvenile. The court shall not transfer legal custody of a delinquent juvenile to an agency, organization or facility outside of the Commonwealth without the approval of the Director; or

c. The local board of social services of the county or city in which the court has jurisdiction or, at the discretion of the court, to the local board of the county or city in which the juvenile has residence if other than the county or city in which the court has jurisdiction. The board shall accept the juvenile for care and custody, provided that it has been given reasonable notice of the pendency of the case and an opportunity to be heard. However, in an emergency in the county or city in which the court has jurisdiction, such local board may be required to temporarily accept a juvenile for a period not to exceed 14 days without prior notice or an opportunity to be heard if the judge entering the placement order describes the emergency and the need for such temporary placement in the order. Nothing in this subdivision shall prohibit the commitment of a juvenile to any local board of social services in the Commonwealth when such local board consents to the commitment. The board to which the juvenile is committed shall have the final authority to determine the appropriate placement for the juvenile. *Nothing herein shall limit the authority of the court to review the child's status in foster care in accordance with subsection G of § 16.1-281 or to review the foster care plan through a petition filed pursuant to subsection A of § 16.1-282.* Any order authorizing removal from the home and transferring legal custody of a juvenile to a local board of social services as provided in this subdivision shall be entered only upon a finding by the court that reasonable efforts have been made to prevent removal and that continued placement in the home would be contrary to the welfare of the juvenile, and the order shall so state;

14. Unless waived by an agreement between the attorney for the Commonwealth and the juvenile and his attorney or other legal representative, upon consideration of the results of an investigation completed pursuant to § 16.1-273, commit the juvenile to the Department of Juvenile Justice, but only if (i) he is 11 years of age or older and has been adjudicated delinquent of an act enumerated in subsection B or C of § 16.1-269.1 or (ii) he is 14 years of age or older and the current offense is (a) an offense that would be a felony if committed by an adult, (b) an offense that would be a Class 1 misdemeanor if committed by an adult and the juvenile has previously been found to be delinquent based on an offense that would be a felony if committed by an adult, or (c) an offense that would be a Class 1 misdemeanor if committed by an adult and the juvenile has previously been adjudicated delinquent of three or more offenses that would be a Class 1 misdemeanor if committed by an adult, and each such offense was not a part of a common act, transaction or scheme;

15. Impose the penalty authorized by § 16.1-284;

16. Impose the penalty authorized by § 16.1-284.1;

17. Unless waived by an agreement between the attorney for the Commonwealth and the juvenile and his attorney or other legal representative, upon consideration of the results of an investigation completed pursuant to § 16.1-273, impose the penalty authorized by § 16.1-285.1;

18. Impose the penalty authorized by § 16.1-278.9; or

19. Require the juvenile to participate in a gang-activity prevention program including, but not limited to, programs funded under the Virginia Juvenile Community Crime Control Act pursuant to § 16.1-309.7, if available, when a juvenile has been found delinquent of any of the following violations: § 18.2-51, 18.2-51.1, 18.2-52, 18.2-53, 18.2-55, 18.2-56,

18.2-57, 18.2-57.2, 18.2-121, 18.2-127, 18.2-128, 18.2-137, 18.2-138, 18.2-146, or 18.2-147, or any violation of a local ordinance adopted pursuant to § 15.2-1812.2.

B. If the court finds a juvenile delinquent of any of the following offenses, the court shall require the juvenile to make at least partial restitution or reparation for any property damage, for loss caused by the offense, or for actual medical expenses incurred by the victim as a result of the offense: § 18.2-51, 18.2-51.1, 18.2-52, 18.2-53, 18.2-55, 18.2-56, 18.2-57, 18.2-57.2, 18.2-121, 18.2-127, 18.2-128, 18.2-137, 18.2-138, 18.2-146, or 18.2-147; or for any violation of a local ordinance adopted pursuant to § 15.2-1812.2. The court shall further require the juvenile to participate in a community service project under such conditions as the court prescribes.

§ 16.1-281. Foster care plan.

A. In any case in which (i) a local board of social services places a child through an agreement with the parents or guardians where legal custody remains with the parents or guardian, or (ii) legal custody of a child is given to a local board of social services or a child welfare agency, the local department of social services or child welfare agency shall prepare a foster care plan for such child, as described hereinafter. The individual family service plan developed by the family assessment and planning team pursuant to § 2.2-5208 may be accepted by the court as the foster care plan if it meets the requirements of this section.

The representatives of such department or agency shall involve in the development of the plan the child's parent(s), except when parental rights have been terminated or the local department of social services or child welfare agency has made diligent efforts to locate the parent(s) and such parent(s) cannot be located, relatives and fictive kin who are interested in the child's welfare, and any other person or persons standing in loco parentis at the time the board or child welfare agency obtained custody or the board placed the child. The representatives of such department or agency shall involve a child who is 12 years of age or older in the development of the plan and, at the option of such child, up to two members of the case planning team who are chosen by the child and who are not a foster parent of, or caseworker for, the child. A child under 12 years of age may be involved in the development of the plan if such involvement is consistent with the best interests of the child. In cases where either the parent(s) or child is not involved in the development of the plan, the department or agency shall include in the plan a full description of the reasons therefor.

The department or child welfare agency shall file the plan with the juvenile and domestic relations district court within 45 days following the transfer of custody or the board's placement of the child unless the court, for good cause shown, allows an extension of time, which shall not exceed an additional 60 days. However, a foster care plan shall be filed in accordance with the provisions of § 16.1-277.01 with a petition for approval of an entrustment agreement. A foster care plan need not be prepared if the child is returned to his prior family or placed in an adoptive home within 45 days following transfer of custody to the board or agency or the board's placement of the child.

B. The foster care plan shall describe in writing (i) the programs, care, services and other support which will be offered to the child and his parents and other prior custodians; (ii) the participation and conduct which will be sought from the child's parents and other prior custodians; (iii) the visitation and other contacts which will be permitted between the child and his parents and other prior custodians, and between the child and his siblings; (iv) the nature of the placement or placements which will be provided for the child, *including an assessment of the stability of each placement, the services provided or plans for services to be provided to address placement instability or to prevent disruption of the placement, and a description of other placements that were considered for the child, if any, and reasons why such other placements were not provided*; (v) for school-age children, the school placement of the child; (vi) for children 14 years of age and older, the child's needs and goals in the areas of counseling, education, housing, employment, and money management skills development, along with specific independent living services that will be provided to the child to help him reach these goals; and (vii) for children 14 years and older, an explanation of the child's rights with respect to education, health, visitation, court participation, and the right to stay safe and avoid exploitation. The foster care plan shall include all documentation specified in 42 U.S.C. § 675(5)(1) and § 63.2-905.3. If the child in foster care is placed in a qualified residential treatment program as defined in § 16.1-228, the foster care plan shall also include the report and documentation set forth in subsection A of § 63.2-906.1. If the child in foster care is pregnant or is the parent of a child, the foster care plan shall also include (a) a list of the services and programs to be provided to or on behalf of the child to ensure parental readiness or capability and (b) a description of the foster care prevention strategy for any child born to the child in foster care. In cases in which a foster care plan approved prior to July 1, 2011, identifies independent living as the goal for the child, and in cases involving children admitted to the United States as refugees or asylees who are 16 years of age or older and for whom the goal is independent living, the plan shall also describe the programs and services which will help the child prepare for the transition from foster care to independent living. If consistent with the child's health and safety, the plan shall be designed to support reasonable efforts which lead to the return of the child to his parents or other prior custodians within the shortest practicable time which shall be specified in the plan. The child's health and safety shall be the paramount concern of the court and the agency throughout the placement, case planning, service provision and review process. For a child 14 years of age and older, the plan shall include a signed acknowledgment by the child that the child has received a copy of the plan and that the rights contained therein have been explained to the child in an age-appropriate manner.

If the department or child welfare agency concludes that it is not reasonably likely that the child can be returned to his prior family within a practicable time, consistent with the best interests of the child, the department, child welfare agency or team shall (1) include a full description of the reasons for this conclusion; (2) provide information on the opportunities for placing the child with a relative or in an adoptive home; (3) design the plan to lead to the child's successful placement with

a relative or fictive kin for the purpose of establishing eligibility for the Federal-Funded Kinship Guardianship Assistance program established pursuant to § 63.2-1305 or the State-Funded Kinship Guardianship Assistance program established pursuant to § 63.2-1306 or in an adoptive home within the shortest practicable time; and (4) if neither of such placements is feasible, explain why permanent foster care is the plan for the child or independent living is the plan for the child in cases involving children admitted to the United States as refugees or asylees who are 16 years of age or older and for whom the goal is independent living.

The local board or other child welfare agency having custody of the child shall not be required by the court to make reasonable efforts to reunite the child with a parent if the court finds that (A) the residual parental rights of the parent regarding a sibling of the child have previously been involuntarily terminated; (B) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States or any foreign jurisdiction that constitutes murder or voluntary manslaughter, or a felony attempt, conspiracy or solicitation to commit any such offense, if the victim of the offense was a child of the parent, a child with whom the parent resided at the time such offense occurred or the other parent of the child; (C) the parent has been convicted of an offense under the laws of the Commonwealth or a substantially similar law of any other state, the United States or any foreign jurisdiction that constitutes felony assault resulting in serious bodily injury or felony bodily wounding resulting in serious bodily injury or felony sexual assault, if the victim of the offense was a child of the parent or a child with whom the parent resided at the time of such offense; or (D) based on clear and convincing evidence, the parent has subjected any child to aggravated circumstances, or abandoned a child under circumstances which would justify the termination of residual parental rights pursuant to subsection D of § 16.1-283.

As used in this section:

"Aggravated circumstances" means torture, chronic or severe abuse, or chronic or severe sexual abuse, if the victim of such conduct was a child of the parent or child with whom the parent resided at the time such conduct occurred, including the failure to protect such a child from such conduct, which conduct or failure to protect: (i) evinces a wanton or depraved indifference to human life, or (ii) has resulted in the death of such a child or in serious bodily injury to such a child.

"Chronic abuse" or "chronic sexual abuse" means recurring acts of physical abuse that place the child's health, safety and well-being at risk.

"Independent living" has the meaning set forth in § 63.2-100.

"Serious bodily injury" means bodily injury that involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

"Severe abuse" or "severe sexual abuse" may include an act or omission that occurred only once, but otherwise meets the definition of "aggravated circumstances."

Within 30 days of making a determination that reasonable efforts to reunite the child with the parents are not required, the court shall hold a permanency planning hearing pursuant to § 16.1-282.1.

C. A copy of the entire foster care plan shall be sent by the court to the child, if he is 12 years of age or older; the guardian ad litem for the child, the attorney for the child's parents or for any other person standing in loco parentis at the time the board or child welfare agency obtained custody or the board placed the child, to the parents or other person standing in loco parentis, and such other persons as appear to the court to have a proper interest in the plan. However, a copy of the plan shall not be sent to a parent whose parental rights regarding the child have been terminated. A copy of the plan shall be sent by the court to the foster parents. A hearing shall be held for the purpose of reviewing and approving the foster care plan. The hearing shall be held within 60 days of (i) the child's initial foster care placement, if the child was placed through an agreement between the parents or guardians and the local department of social services or a child welfare agency; (ii) the original preliminary removal order hearing, if the child was placed in foster care pursuant to § 16.1-252; (iii) the hearing on the petition for relief of custody, if the child was placed in foster care pursuant to § 16.1-277.02; or (iv) the dispositional hearing at which the child was placed in foster care and an order was entered pursuant to § 16.1-278.2, 16.1-278.3, 16.1-278.4, 16.1-278.5, 16.1-278.6, or 16.1-278.8. However, the hearing shall be held in accordance with the provisions of § 16.1-277.01 with a petition for approval of an entrustment agreement. If the judge makes any revision in any part of the foster care plan, a copy of the changes shall be sent by the court to all persons who received a copy of the original of that part of the plan.

C1. Any order transferring custody of the child to a relative other than the child's prior family shall be entered only upon a finding, based upon a preponderance of the evidence, that the relative is one who, after an investigation as directed by the court, (i) is found by the court to be willing and qualified to receive and care for the child; (ii) is willing to have a positive, continuous relationship with the child; (iii) is committed to providing a permanent, suitable home for the child; and (iv) is willing and has the ability to protect the child from abuse and neglect; and the order shall so state. The court's order transferring custody to a relative should further provide for, as appropriate, any terms or conditions which would promote the child's interest and welfare; ongoing provision of social services to the child and the child's custodian; and court review of the child's placement.

C2. Any order entered at the conclusion of the hearing that has the effect of achieving a permanent goal for the child by terminating residual parental rights pursuant to § 16.1-277.01, 16.1-277.02, 16.1-278.3, or 16.1-283; by placing the child in permanent foster care pursuant to clause (iv) of subsection A of § 16.1-282.1; or, in cases in which independent living was identified as the goal for a child in a foster care plan approved prior to July 1, 2011, or in which a child has been admitted to the United States as a refugee or asylee and is over 16 years of age and independent living has been identified as the

permanency goal for the child, by directing the board or agency to provide the child with services to achieve independent living status, if the child has attained the age of 16 years, pursuant to clause (v) of subsection A of § 16.1-282.1 shall state whether reasonable efforts have been made to place the child in a timely manner in accordance with the foster care plan and to complete the steps necessary to finalize the permanent placement of the child.

D. The court in which the foster care plan is filed shall be notified immediately if the child is returned to his parents or other persons standing in loco parentis at the time the board or agency obtained custody or the board placed the child.

E. 1. In cases in which a child is placed by the local board of social services or a licensed child-placing agency in a qualified residential treatment program as defined in § 16.1-228, a hearing shall be held within 60 days of such placement. Prior to such hearing, the qualified residential treatment program shall file with the court the assessment report prepared pursuant to clause (viii) of the definition of qualified residential treatment program set forth in § 16.1-228. The court shall (i) consider the assessment report prepared by a qualified individual pursuant to clause (viii) of the definition of qualified residential treatment program set forth in § 16.1-228 and submitted pursuant to this subsection; (ii) consider the report and documentation required under subsection A of § 63.2-906.1 and filed with the foster care or permanency plan; (iii) determine whether the needs of the child can be met through placement in a foster home or, if not, whether placement in the qualified residential treatment program would provide the most effective and appropriate level of care for the child in the least restrictive environment and be consistent with the short-term and long-term goals established for the child in his foster care or permanency plan; and (iv) approve or deny the placement of the child in the qualified residential treatment program. The hearing required by this subsection may be held in conjunction with a dispositional hearing held pursuant to subsection C, a foster care review hearing held pursuant to § 16.1-282, a permanency planning hearing held pursuant to § 16.1-282.1, or an annual foster care review hearing held pursuant to § 16.1-282.2, provided that such hearing has already been scheduled by the court and is held within 60 days of the child's placement in the qualified residential treatment program.

2. If the child remains placed in the qualified residential treatment program during any subsequent hearings held pursuant to subsection C or § 16.1-282, 16.1-282.1, or 16.1-282.2, the local board of social services or licensed child-placing agency shall present evidence at such hearing that demonstrates (i) that the ongoing assessment of the child's strengths and needs continues to support the determination that the child's needs cannot be met through placement in a foster home and that the child's placement in the qualified residential treatment program provides the most effective and appropriate level of care for the child in the least restrictive environment and is consistent with the short-term and long-term goals established for the child in his foster care or permanency plan; (ii) the specific treatment or service needs of the child that will be met in the qualified residential treatment program and the length of time the child is expected to need such treatment or services; and (iii) the efforts made by the local board of social services to prepare the child to return home or to be placed with a fit and willing relative, legal guardian, or adoptive parent, or in a foster home. The court shall review such evidence and approve or deny the continued placement of the child in the qualified residential treatment program.

F. At the conclusion of the hearing at which the initial foster care plan is reviewed, the court shall schedule a foster care review hearing to be held within four months in accordance with § 16.1-282. However, if an order is entered pursuant to subsection C2, the court shall schedule a foster care review hearing to be held within 12 months of the entry of such order in accordance with the provisions of § 16.1-282.2. Parties who are present at the hearing at which the initial foster care plan is reviewed shall be given notice of the date set for the foster care review hearing and parties who are not present shall be summoned as provided in § 16.1-263.

G. Nothing in this section shall limit the authority of the juvenile judge or the staff of the juvenile court, upon order of the judge, to review the status of children in the custody of local boards of social services or placed by local boards of social services on its own motion. The court shall appoint an attorney to act as guardian ad litem to represent the child any time a hearing is held to review the foster care plan filed for the child or to review the child's status in foster care.

2. That the Committee on District Courts be requested to study the Juvenile and Domestic Relations District Court system to assess whether appropriate diligence and attention is being given to child dependency court hearings and to make recommendations as to whether a separate docket or court would result in better service to children and families involved in child dependency hearings. The Committee on District Courts shall complete its meetings by November 30, 2023, and shall submit to the Governor and General Assembly an executive summary and a report of its findings and recommendations for publication as a House or Senate document. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports no later than the first day of the 2024 Regular Session of the General Assembly and shall be posted on the General Assembly's website.

3. That the Office of the Children's Ombudsman shall convene a work group to consider issues relating to the Commonwealth's model of court-appointed legal counsel in child dependency cases. The work group shall include representatives from the Virginia Indigent Defense Commission, the Virginia Bar Association Commission on the Needs of Children, the Commission on Youth, the Office of the Executive Secretary of the Supreme Court of Virginia, and the Virginia Poverty Law Center and other Virginia Legal Aid programs. The work group shall make recommendations for legislative and budgetary changes to address these issues by November 1, 2022, to the Chairmen of the Senate Committee on the Judiciary and the House Committee for Courts of Justice.

Additional consideration shall also be given to veterans who have a service connected disability rating fixed by the U.S. Department of Veterans Affairs. "Veterans" as used in this section refers to the same class as included in § 2.2-2903 with regard to the state service. "Person with a disability" as used in this section refers to the same class as included in § 51.5-40.1.

CHAPTER 307

An Act to amend and reenact §§ 8.01-626, 8.01-675.5, 17.1-404, and 17.1-405 of the Code of Virginia, relating to injunctions; review by Supreme Court.

[S 715]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:**1. That §§ 8.01-626, 8.01-675.5, 17.1-404, and 17.1-405 of the Code of Virginia are amended and reenacted as follows:****§ 8.01-626. Review of injunction; petitions for review.**

~~Wherein~~ *When* a circuit court (i) grants ~~an~~ a preliminary or permanent injunction ~~or~~, (ii) refuses an injunction ~~or~~, (iii) having granted an injunction, dissolves or refuses to enlarge it, ~~or~~ (iv) enters an order reviewable pursuant to subsection B of § 8.01-675.5, an aggrieved party may file a petition for review with the clerk of the Supreme Court of Appeals within 15 days of the circuit court's order. ~~The clerk shall assign the petition to a three-judge panel of the Court of Appeals. The aggrieved party shall serve a copy of the petition for review on the counsel for the opposing party, which may file a response within seven days from the date of service unless the court determines a shorter time frame. The petition for review shall be accompanied by a copy of the proceedings, including the original papers and the court's order respecting the injunction. The court may take such action thereon as it considers appropriate under the circumstances of the case.~~

~~When the Court of Appeals has initially acted upon a petition for review of an order of a circuit court respecting an injunction; a party aggrieved by such action of the Court of Appeals may, within 15 days of the order of the Court of Appeals, present a petition for review of such order to the clerk of the Supreme Court. The clerk shall assign the petition to a three-justice panel of the Supreme Court. The aggrieved party shall serve a copy of the petition for review on the counsel for the opposing party, which may file a response within seven days from the date of service unless the court determines a shorter time frame. The petition for review shall be accompanied by a copy of the proceedings before the circuit court, including the original papers and the circuit court's order respecting the injunction; and a copy of the order of the Court of Appeals from which review is sought. The Supreme Court may take such action thereon as it considers appropriate under the circumstances of the case.~~

~~Nothing in this section shall be construed to prevent the Court of Appeals or the Supreme Court from resolving a petition for review by an order joined by more than one judge or justice three justices. An order issued by a justice of the Supreme Court does not become a judgment of the court except on the concurrence of at least three justices; as provided in § 17.1-308.~~

§ 8.01-675.5. Appeal of interlocutory orders and decrees by permission; immunity.

A. When, prior to the commencement of trial, the circuit court has entered in any pending civil action an order or decree that is not otherwise appealable, any party may file in the circuit court a motion requesting that the circuit court certify such order or decree for interlocutory appeal.

The motion shall include a concise analysis of the statutes, rules, or cases believed to be determinative of the issues and request that the court certify in writing that the order or decree involves a question of law as to which (i) there is substantial ground for difference of opinion; (ii) there is no clear, controlling precedent on point in the decisions of the Supreme Court of Virginia or the Court of Appeals of Virginia; (iii) determination of the issues will be dispositive of a material aspect of the proceeding currently pending before the court; and (iv) it is in the parties' best interest to seek an interlocutory appeal. If the request for certification is opposed by any party, the parties may brief the motion in accordance with the Rules of Supreme Court of Virginia.

Within 15 days of the entry of an order by the circuit court granting such certification, a petition for appeal may be filed with the Court of Appeals. If the Court of Appeals determines that the certification by the circuit court has sufficient merit, it may, in its discretion, permit an appeal to be taken from the interlocutory order or decree and shall notify the certifying circuit court and counsel for the parties of its decision.

The consideration of any petition and appeal by the Court of Appeals shall be in accordance with the applicable provisions of the Rules of the Supreme Court of Virginia and shall not take precedence on the docket unless the court so orders.

B. When, prior to the commencement of trial, the circuit court has entered in any pending civil action an order granting or denying a plea of sovereign, absolute, or qualified immunity that, if granted, would immunize the movant from compulsory participation in the proceeding, the order is eligible for immediate appellate review. Any person aggrieved by such order may, within 15 days of the entry of such order, file a petition for review with the *Supreme Court of Appeals* in accordance with the procedures set forth in § 8.01-626. ~~If the assigned judge or judges grant the petition for review, the clerk shall refer the appeal to a panel of the court, as the court shall direct, and the parties shall prosecute the appeal in the manner provided for in the Rules of Supreme Court of Virginia.~~

C. No petitions or appeals under this section shall stay proceedings in the circuit court unless the circuit court or appellate court orders such a stay upon a finding that (i) the petition or appeal could be dispositive of the entire civil action or (ii) there exists good cause, other than the pending petition or appeal, to stay the proceedings.

D. The failure of a party to seek interlocutory review under this section shall not preclude review of the issue on appeal from a final order. An order by the *Supreme Court* or Court of Appeals denying interlocutory review under this section shall not preclude review of the issue on appeal from a final order, unless the order denying such interlocutory review provides for such preclusion.

§ 17.1-404. Original jurisdiction in matters of contempt and injunctions, writs of mandamus, prohibition and habeas corpus.

The Court of Appeals shall have authority to punish for contempt. ~~A judge of the Court of Appeals shall exercise initially the authority concerning injunctions vested in a justice of the Supreme Court by § 8.01-626 in any case over which the court would have appellate jurisdiction as provided in §§ 17.1-405 and 17.1-406.~~ In addition, in such cases over which the court would have appellate jurisdiction, the court shall have original jurisdiction to issue writs of mandamus, prohibition and habeas corpus.

§ 17.1-405. Appellate jurisdiction — Administrative agency, Virginia Workers' Compensation Commission, and civil matter appeals.

Unless otherwise provided by law, any aggrieved party may appeal to the Court of Appeals from:

1. Any final decision of a circuit court on appeal from (i) a decision of an administrative agency, or (ii) a grievance hearing decision issued pursuant to § 2.2-3005;

2. Any final decision of the Virginia Workers' Compensation Commission;

3. Except as provided in subsection B of § 17.1-406, any final judgment, order, or decree of a circuit court in a civil matter;

4. Any interlocutory decree or order pursuant to § 8.01-267.8; ~~8.01-626, or 8.01-675.5;~~ or

5. Any final judgment, order, or decree of a circuit court (i) involving an application for a concealed weapons permit pursuant to Article 6.1 (§ 18.2-307.1 et seq.) of Chapter 7 of Title 18.2, (ii) involving involuntary treatment of prisoners pursuant to § 53.1-40.1 or 53.1-133.04, or (iii) for declaratory or injunctive relief under § 57-2.02.

2. That any case affected by the provisions of this act for which a petition for review to the Court of Appeals of Virginia has been filed prior to July 1, 2022, shall continue in the Court of Appeals of Virginia and, if further review is sought, in the Supreme Court of Virginia, and shall not be affected by the provisions of this act.

CHAPTER 308

An Act to amend and reenact §§ 38.2-2202, 38.2-2206, and 46.2-2057 of the Code of Virginia, relating to motor vehicle insurance; uninsured motorist coverage.

[S 754]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-2202, 38.2-2206, and 46.2-2057 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-2202. Required notice of optional coverage available.

A. No new policy for insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle shall be issued or delivered in the Commonwealth unless there is enclosed with the policy, in boldface type, the following statement:

IMPORTANT NOTICE

IN ADDITION TO THE MINIMUM INSURANCE REQUIRED BY LAW, YOU MAY PURCHASE ADDITIONAL INSURANCE COVERAGE FOR THE NAMED INSURED AND FOR HIS RELATIVES WHO ARE MEMBERS OF HIS HOUSEHOLD WHILE IN OR UPON, ENTERING OR ALIGHTING FROM A MOTOR VEHICLE, OR THROUGH

BEING STRUCK BY A MOTOR VEHICLE WHILE NOT OCCUPYING A MOTOR VEHICLE, AND FOR OCCUPANTS OF THE INSURED MOTOR VEHICLE. THE FOLLOWING HEALTH CARE AND DISABILITY BENEFITS ARE AVAILABLE FOR EACH ACCIDENT:

1. PAYMENT OF UP TO \$2,000 PER PERSON FOR ALL REASONABLE AND NECESSARY EXPENSES FOR MEDICAL, CHIROPRACTIC, HOSPITAL, DENTAL, SURGICAL, PROSTHETIC AND REHABILITATION SERVICES, SERVICES PROVIDED BY AN EMERGENCY MEDICAL SERVICES VEHICLE AS DEFINED IN § 32.1-111.1, AND FUNERAL EXPENSES RESULTING FROM THE ACCIDENT AND INCURRED WITHIN THREE YEARS AFTER THE DATE OF THE ACCIDENT. HOWEVER, IF YOU DO NOT PURCHASE THE \$2,000 LIMIT OF COVERAGE, YOU AND THE COMPANY MAY AGREE TO ANY OTHER LIMIT; AND

2. AN AMOUNT EQUAL TO THE LOSS OF INCOME UP TO \$100 PER WEEK IF THE INJURED PERSON IS ENGAGED IN AN OCCUPATION FOR WHICH HE RECEIVES COMPENSATION, FROM THE FIRST WORKDAY LOST AS A RESULT OF THE ACCIDENT UP TO THE DATE THE PERSON IS ABLE TO RETURN TO HIS USUAL OCCUPATION. SUCH PAYMENTS ARE LIMITED TO A PERIOD EXTENDING ONE YEAR FROM THE DATE OF THE ACCIDENT.

IF YOU DESIRE TO PURCHASE EITHER OR BOTH OF THESE COVERAGES AT AN ADDITIONAL PREMIUM, YOU MAY DO SO BY CONTACTING THE AGENT OR COMPANY THAT ISSUED YOUR POLICY.

The insurer issuing the policy shall inform the insured by any reasonable means of communication of the approximate premium for the additional coverage.

B. No new policy of insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle shall be issued or delivered in the Commonwealth unless the following statement, printed in boldface type, is enclosed with the policy:

IMPORTANT NOTICE

YOU ARE ENTITLED TO PURCHASE UNINSURED/UNDERINSURED COVERAGE LIMITS EQUAL TO THE LIABILITY LIMITS ON YOUR MOTOR VEHICLE POLICY. HOWEVER, ANY ONE NAMED INSURED HAS THE RIGHT TO REDUCE THE LIMITS OF THE UNINSURED/UNDERINSURED MOTORIST COVERAGE TO LESS THAN THE LIABILITY LIMITS ON THE POLICY BUT NO LOWER THAN THE FINANCIAL RESPONSIBILITY LIMITS REQUIRED BY § 46.2-472 OF THE CODE OF VIRGINIA. THE INSURER MAY REQUIRE THAT A REQUEST TO REDUCE COVERAGE BE IN WRITING. ONCE ANY ONE NAMED INSURED REDUCES THE POLICY LIMITS FOR UNINSURED/UNDERINSURED MOTORIST COVERAGE BELOW THE POLICY'S LIABILITY LIMITS, THAT ELECTION IS BINDING ON ALL INSUREDS ON THE POLICY. LATER, IF YOU DESIRE TO INCREASE YOUR LIMITS, YOU MUST MAKE A SPECIFIC REQUEST TO YOUR INSURER. YOU MAY WANT TO PUT THIS REQUEST IN WRITING.

BEFORE REDUCING THE LIMITS OF THE UNINSURED/UNDERINSURED MOTORIST COVERAGE, YOU SHOULD CAREFULLY CONSIDER THAT THIS COVERAGE PROVIDES IMPORTANT PROTECTION IN THE EVENT YOU ARE INJURED OR YOUR MOTOR VEHICLE IS DAMAGED DUE TO THE ACTIONS OF AN UNINSURED/UNDERINSURED MOTORIST.

C. No policy of insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle shall be issued, delivered, or renewed after July 1, 2023, in the Commonwealth unless the following statement, printed in boldface type, is enclosed with the policy:

IMPORTANT NOTICE

PREVIOUSLY, YOUR UNDERINSURED MOTORIST COVERAGE PAID DAMAGES DUE TO AN INSURED AFTER ANY CREDIT OF THE BODILY INJURY OR PROPERTY DAMAGE LIABILITY COVERAGE APPLICABLE TO THE INSURED'S DAMAGES HAD BEEN APPLIED.

THE LAW HAS BEEN AMENDED TO REQUIRE INSURERS TO PROVIDE UNDERINSURED MOTORIST COVERAGE THAT PAYS ANY DAMAGES DUE TO AN INSURED IN ADDITION TO ANY BODILY INJURY OR PROPERTY DAMAGE LIABILITY THAT IS APPLICABLE TO THE INSURED'S DAMAGES. THIS CHANGE MAY AFFECT YOUR PREMIUM.

YOU MAY ELECT TO REFUSE THIS CHANGE IN YOUR UNDERINSURED MOTORIST COVERAGE.

AN ELECTION TO DECREASE YOUR UNDERINSURED MOTORIST COVERAGE MUST BE IN WRITING. ONCE ANY ONE NAMED INSURED ELECTS TO DECREASE THE UNDERINSURED MOTORIST COVERAGE, THAT ELECTION IS BINDING ON ALL INSUREDS ON THE POLICY. LATER, IF YOU DESIRE TO PURCHASE INCREASED UNDERINSURED MOTORIST COVERAGE, YOU MUST MAKE A SPECIFIC REQUEST TO YOUR INSURER. YOU MUST PUT THIS REQUEST IN WRITING.

BEFORE ELECTING TO DECREASE YOUR UNDERINSURED MOTORIST COVERAGE, YOU SHOULD CAREFULLY CONSIDER THAT THIS COVERAGE PROVIDES IMPORTANT PROTECTION IN THE EVENT YOU ARE INJURED OR YOUR MOTOR VEHICLE IS DAMAGED DUE TO THE ACTIONS OF AN UNDERINSURED MOTORIST.

§ 38.2-2206. Uninsured motorist insurance coverage.

A. Except as provided in subsection J, no policy or contract of bodily injury or property damage liability insurance relating to the ownership, maintenance, or use of a motor vehicle shall be issued or delivered in this Commonwealth to the owner of such vehicle or shall be issued or delivered by any insurer licensed in this Commonwealth upon any motor vehicle principally garaged or used in this Commonwealth unless it contains an endorsement or provisions undertaking to pay the

insured all sums that he is legally entitled to recover as damages from the owner or operator of an uninsured motor vehicle, within limits not less than the requirements of § 46.2-472. Those limits shall equal but not exceed the limits of the liability insurance provided by the policy, unless any one named insured rejects the additional uninsured motorist insurance coverage by notifying the insurer as provided in subsection B of § 38.2-2202. This rejection of the additional uninsured motorist insurance coverage by any one named insured shall be binding upon all insureds under such policy ~~as defined in subsection B~~. The endorsement or provisions shall also *provide underinsured motorist insurance coverage with limits that shall be equal to the uninsured motorist insurance coverage limits and shall* obligate the insurer to make payment for bodily injury or property damage caused by the operation or use of an underinsured motor vehicle to the extent the vehicle is underinsured; ~~as defined in subsection B~~.

The endorsement shall provide that underinsured motorist coverage shall be paid without any credit for the bodily injury and property damage coverage available for payment, unless any one named insured signs an election to reduce any underinsured motorist coverage payments by the bodily injury liability or property damage liability coverage available for payment by notifying the insurer as provided in subsection C of § 38.2-2202. This election by any one named insured shall be binding upon all insureds under such policy.

The endorsement or provisions shall also provide for at least \$20,000 coverage for damage or destruction of the property of the insured in any one accident but may provide an exclusion of the first \$200 of the loss or damage where the loss or damage is a result of any one accident involving an unidentifiable owner or operator of an uninsured motor vehicle.

B. 1. As used in this section:

"Bodily injury" includes death resulting from bodily injury.

"Insured" as used in subsections A, D, G, and H, means the named insured and, while resident of the same household, the spouse of the named insured, and relatives, wards or foster children of either, while in a motor vehicle or otherwise, and any person who uses the motor vehicle to which the policy applies, with the expressed or implied consent of the named insured, and a guest in the motor vehicle to which the policy applies or the personal representative of any of the above.

"Uninsured motor vehicle" means a motor vehicle for which (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472, (ii) there is such insurance but the insurer writing the insurance denies coverage for any reason whatsoever, including failure or refusal of the insured to cooperate with the insurer, (iii) there is no bond or deposit of money or securities in lieu of such insurance, (iv) the owner of the motor vehicle has not qualified as a self-insurer under the provisions of § 46.2-368, or (v) the owner or operator of the motor vehicle is immune from liability for negligence under the laws of the Commonwealth or the United States, in which case the provisions of subsection F shall apply and the action shall continue against the insurer. A motor vehicle shall be deemed uninsured if its owner or operator is unknown.

A motor vehicle is "underinsured" when, and to the extent that, the total amount of bodily injury and property damage coverage applicable to the operation or use of the motor vehicle and available for payment for such bodily injury or property damage, including all bonds or deposits of money or securities made pursuant to Article 15 (§ 46.2-435 et seq.) of Chapter 3 of Title 46.2, is less than the total amount of ~~uninsured motorist coverage afforded~~ *damages sustained up to the total amount of underinsured motorist coverage afforded* any person injured as a result of the operation or use of the vehicle.

"Available for payment" means the amount of liability insurance coverage applicable to the claim of the injured person for bodily injury or property damage reduced by the payment of any other claims arising out of the same occurrence.

2. If an injured person is entitled to *uninsured or underinsured motorist coverage* under more than one policy, the ~~following order of priority of policies applies and any amount available for payment~~ *insurers shall be credited against such policies obligated to the injured person in the following order of priority of payment:*

- ~~1~~ a. The policy covering a motor vehicle occupied by the injured person at the time of the accident;
- ~~2~~ b. The policy covering a motor vehicle not involved in the accident under which the injured person is a named insured;
- ~~3~~ c. The policy covering a motor vehicle not involved in the accident under which the injured person is an insured other than a named insured.

Where there is more than one insurer providing coverage under one of the payment priorities set forth, their liability shall be proportioned as to their respective *available uninsured or underinsured motorist coverages*.

3. *If an injured person is entitled to underinsured motorist coverage under one or more policies wherein a named insured has elected to reduce the underinsured motorist limits by the available bodily injury liability insurance or property damage liability insurance coverage available for payment, any amount available for payment shall be credited against such policies in payment priority pursuant to subdivision 2 a only, and where there is more than one such policy entitled to such credit, the credit shall be apportioned pro-rata pursuant to the policies' respective available underinsured motorist coverages.*

4. Recovery under the endorsement or provisions shall be subject to the conditions set forth in this section.

C. There shall be a rebuttable presumption that a motor vehicle is uninsured if the Commissioner of the Department of Motor Vehicles certifies that, from the records of the Department of Motor Vehicles, it appears that (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472 covering the owner or operator of the motor vehicle; (ii) no bond has been given or cash or securities delivered in lieu of the insurance; or (iii) the owner or operator of the motor vehicle has not qualified as a self-insurer in accordance with the provisions of § 46.2-368.

D. If the owner or operator of any motor vehicle that causes bodily injury or property damage to the insured is unknown, and if the damage or injury results from an accident where there has been no contact between that motor vehicle and the motor vehicle occupied by the insured, or where there has been no contact with the person of the insured if the insured was not occupying a motor vehicle, then for the insured to recover under the endorsement required by subsection A, the accident shall be reported promptly to either (i) the insurer or (ii) a law-enforcement officer having jurisdiction in the county or city in which the accident occurred. If it is not reasonably practicable to make the report promptly, the report shall be made as soon as reasonably practicable under the circumstances.

E. If the owner or operator of any vehicle causing injury or damages is unknown, an action may be instituted against the unknown defendant as "John Doe" and service of process may be made by delivering a copy of the motion for judgment or other pleadings to the clerk of the court in which the action is brought. Service upon the insurer issuing the policy shall be made as prescribed by law as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall have the right to file pleadings and take other action allowable by law in the name of John Doe.

F. If any action is instituted against the owner or operator of an uninsured or underinsured motor vehicle by any insured intending to rely on the uninsured or underinsured coverage provision or endorsement of this policy under which the insured is making a claim, then the insured shall serve a copy of the process upon this insurer in the manner prescribed by law, as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall then have the right to file pleadings and take other action allowable by law in the name of the owner or operator of the uninsured or underinsured motor vehicle or in its own name. Notwithstanding the provisions of subsection A, the immunity from liability for negligence of the owner or operator of a motor vehicle shall not be a bar to the insured obtaining a judgment enforceable against the insurer for the negligence of the immune owner or operator, and shall not be a defense available to the insurer to the action brought by the insured, which shall proceed against the named defendant although any judgment obtained against an immune defendant shall be entered in the name of "Immune Defendant" and shall be enforceable against the insurer and any other nonimmune defendant as though it were entered in the actual name of the named immune defendant. Nothing in this subsection shall prevent the owner or operator of the uninsured motor vehicle from employing counsel of his own choice and taking any action in his own interest in connection with the proceeding.

G. Any insurer paying a claim under the endorsement or provisions required by subsection A shall be subrogated to the rights of the insured to whom the claim was paid against the person causing the injury, death, or damage and that person's insurer, although it may deny coverage for any reason, to the extent that payment was made. The bringing of an action against the unknown owner or operator as John Doe or the conclusion of such an action shall not bar the insured from bringing an action against the owner or operator proceeded against as John Doe, or against the owner's or operator's insurer denying coverage for any reason, if the identity of the owner or operator who caused the injury or damages becomes known. The bringing of an action against an unknown owner or operator as John Doe shall toll the statute of limitations for purposes of bringing an action against the owner or operator who caused the injury or damages until his identity becomes known. In no event shall an action be brought against an owner or operator who caused the injury or damages, previously filed against as John Doe, more than three years from the commencement of the action against the unknown owner or operator as John Doe in a court of competent jurisdiction. Any recovery against the owner or operator, or the insurer of the owner or operator shall be paid to the insurer of the injured party to the extent that the insurer paid the named insured in the action brought against the owner or operator as John Doe. However, the insurer shall pay its proportionate part of all reasonable costs and expenses incurred in connection with the action, including reasonable attorney's fees. Nothing in an endorsement or provisions made under this subsection nor any other provision of law shall prevent the joining in an action against John Doe of the owner or operator of the motor vehicle causing the injury as a party defendant, and the joinder is hereby specifically authorized. No action, verdict or release arising out of a suit brought under this subsection shall give rise to any defenses in any other action brought in the subrogated party's name, including res judicata and collateral estoppel.

H. No endorsement or provisions providing the coverage required by subsection A shall require arbitration of any claim arising under the endorsement or provisions, nor may anything be required of the insured except the establishment of legal liability, nor shall the insured be restricted or prevented in any manner from employing legal counsel or instituting legal proceedings.

I. Except as provided in § 65.2-309.1, the provisions of subsections A and B of § 38.2-2204 and the provisions of subsection A shall not apply to any policy of insurance to the extent that it covers the liability of an employer under any workers' compensation law, or to the extent that it covers liability to which the Federal Tort Claims Act applies. No provision or application of this section shall limit the liability of an insurer of motor vehicles to an employee or other insured under this section who is injured by an uninsured motor vehicle; provided that in the event an employee of a self-insured employer receives a workers' compensation award for injuries resulting from an accident with an uninsured motor vehicle, such award shall be set off against any judgment for damages awarded pursuant to this section for personal injuries resulting from such accident.

J. Policies of insurance whose primary purpose is to provide coverage in excess of other valid and collectible insurance or qualified self-insurance may include uninsured motorist coverage as provided in subsection A. Insurers issuing or providing liability policies that are of an excess or umbrella type or which provide liability coverage incidental to a policy

and not related to a specifically insured motor vehicle, shall not be required to offer, provide or make available to those policies uninsured or underinsured motor vehicle coverage as defined in subsection A.

K. An injured person, or in the case of death or disability his personal representative, may settle a claim with (i) a liability insurer, including any insurer providing liability coverage through an excess or umbrella insurance policy or contract and (ii) the liability insurer's insured for the available limits of the liability insurer's coverage. Upon settlement with the liability insurer, the injured party or personal representative shall proceed to execute a full release in favor of the underinsured motorist's liability insurer and its insured and finalize the proposed settlement without prejudice to any underinsured motorist benefits or claim. Any such release that states that it is being executed pursuant to or consistent with this subsection shall not operate to release any parties other than the liability insurer and underinsured motorist, regardless of the identities of the released parties set forth in the release, and any terms contained in the release that are inconsistent with, or in violation of, this section are null and void. Upon payment of the liability insurer's available limits to the injured person or personal representative or his attorney, the liability insurer shall thereafter have no further duties to its insured, including the duty to defend its insured if an action has been or is brought against the liability insurer's insured, and the insurer providing applicable underinsured motorist coverage shall have no right of subrogation or claim against the underinsured motorist. However, if the underinsured motorist unreasonably fails to cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the injured person or his personal representative, he may again be subjected to a claim for subrogation by the underinsured motorist benefits insurer pursuant to § 8.01-66.1:1. Nothing in this section or § 8.01-66.1:1 shall create any duty on the part of any underinsured motorist benefits insurer to defend any underinsured motorist. No attorney-client relationship is created between the underinsured motorist and counsel for the underinsured motorist benefits insurer without the express intent and agreement of the underinsured motorist, the underinsured motorist benefits insurer, and counsel for the underinsured motorist benefits insurer. This section provides an alternative means by which the parties may resolve claims and does not eliminate or restrict any other available means.

L. Any settlement between the injured person or his personal representative, any insurer providing liability coverage applicable to the claim, and the underinsured motorist described in subsection K shall be in writing, signed by both the injured person or his personal representative and the underinsured motorist, and shall include the following notice to the underinsured motorist, which must be initialed by the underinsured motorist:

"NOTICE TO RELEASED PARTY: Your insurance company has agreed to pay the available limits of its insurance to settle certain claims on your behalf. This settlement secures a full release of you for all claims the claimant/plaintiff has against you arising out of the subject accident, as well as ensures that no judgment can ever be entered against you by the claimant/plaintiff. In order to protect yourself from subrogation by any underinsured motorist insurer, you are agreeing to cooperate with the underinsured motorist benefits insurer(s). The underinsured motorist benefits insurer is not your insurer and has no duty to defend you.

Under this manner of settlement, the underinsured motorist benefits insurer(s) that is/are involved in this case has/has no right of subrogation against you unless you fail to reasonably cooperate in its/their defense of the claim by not (i) attending your deposition and trial, if subpoenaed, (ii) assisting in responding to discovery, (iii) meeting with defense counsel at reasonable times after commencement of this suit and before your testimony at a deposition and/or trial, and (iv) notifying the underinsured motorist benefits insurer or its defense counsel of any change in your address, provided that the underinsured motorist benefits insurer or its defense counsel has notified you of its existence and provided you with their contact information.

Upon payment of the agreed settlement amount by your insurance company(ies), such company shall no longer owe you any duties, including the duty to hire and pay for an attorney for you. You are not required to consent to settlement in this manner. If you do not consent to settlement in this manner, your insurance company will still defend you in any lawsuit brought against you by the claimant/plaintiff, but you will not have the protections of a full release from the claimant/plaintiff, judgment could be entered against you and may exceed your available insurance coverage, and any underinsured motorist benefits insurer would have a right of subrogation against you to recover any moneys it pays to the claimant/plaintiff.

You are encouraged to discuss your rights and obligations related to settlement in this manner with your insurance company and/or an attorney. By signing this document, you agree to consent to this settlement and to reasonably cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the claimant/plaintiff.

____ (initial)"

In the alternative to having the underinsured motorist sign the release and initial the notice, the liability insurer may send the notice and release to the underinsured motorist by certified mail return receipt requested to his last known address, which will be deemed to have satisfied the requirements of this subsection.

M. Any action brought by the injured person or his personal representative to recover underinsured motorist benefits after payment of the liability insurer's available limits pursuant to subsection K shall be brought against the released defendant, and a copy of the complaint shall be served on any insurer providing underinsured motorist benefits. If an action is pending at the time the liability insurer's available limits are paid to the injured person or personal representative or his attorney, then the action shall remain pending against the named defendant or defendants who have been released. If such action results in a verdict in favor of the injured person or his personal representative against a released defendant, then judgment as to that defendant shall be entered in the name of "Released Defendant" and shall be enforceable against the

underinsured motorist benefits insurer, not to exceed the underinsured motorist benefits limits, and against any unreleased defendant, as though it were entered in the actual name of the released defendant.

N. Any proposed settlement between a liability insurer and a person under a disability or a personal representative as permitted in subsection K that compromises in part a claim for personal injuries by the person under a disability or for death by wrongful act pursuant to § 8.01-50 may be, but is not required to be, approved pursuant to § 8.01-424 or 8.01-55, as applicable. If the personal representative elects not to have the settlement with the liability insurer approved pursuant to § 8.01-55, then any payment made to the personal representative by the liability insurer shall be made payable to the personal representative's attorney, to be held in trust, or paid into the court pursuant to § 8.01-600 if the personal representative is not represented by an attorney, with no disbursements made therefrom until the compromise is approved by the court pursuant to § 8.01-55. Approval by the court of a settlement between the liability insurer and a person under a disability or the personal representative pursuant to this subsection shall not prejudice the person's or personal representative's claim for underinsured motorist benefits.

§ 46.2-2057. Taxicab insurance required.

A. Each operator of a motor vehicle performing a bona fide taxicab service shall file insurance as required under this article unless evidence can be shown to the Department that the operator (i) is a self-insurer under an ordinance of the city or county where the home office of the operator is located or (ii) *has been issued a certificate of self-insurance* pursuant to § 46.2-368.

B. Any self-insurance protection subject to this section shall provide for protection against the uninsured or underinsured motorist to the extent required by § 38.2-2206. Notwithstanding § 38.2-2206 or any other provision of this title, protection against the uninsured or underinsured motorist shall be subject to a limit exclusive of interest and costs, with respect to each motor vehicle, *as follows: (i) a limit of \$25,000 because of due to* bodily injury to or death of one person in any one accident; (ii) subject to the limit for one person, a limit of \$50,000 *because of due to* bodily injury or death of two or more persons in any one accident; and (iii) a limit of \$20,000 *because of due to* injury to or destruction of property of others in any one accident. *The amount of bodily injury or property damage liability coverage available for payment from any source shall be credited against and reduce the amount of protection otherwise available against an underinsured motorist.* Nothing herein shall preclude any self-insurer operator from purchasing or providing uninsured or underinsured motorist insurance coverage in an amount greater than required in this subsection. Such protection against uninsured and underinsured motorists shall be secondary coverage to any other valid and collectible insurance providing the same protection that is available to any person otherwise entitled to assert a claim to such protection by virtue of this section.

2. That the provisions of this act shall apply to new and renewal policies effective on or after July 1, 2023.

[H 996]

1. That § 58.1-3234 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3234. Application by property owners for assessment, etc., under ordinance; continuation of assessment, etc.

Property owners shall submit an application for taxation on the basis of a use assessment to the local assessing officer as follows:

1. The property owner shall submit an initial application, unless it is a revalidation form, at least 60 days preceding the tax year for which such taxation is sought;

2. In any year in which a general reassessment is being made, the property owner may submit such application until 30 days have elapsed after his notice of increase in assessment is mailed in accordance with § 58.1-3330, or 60 days preceding the tax year, whichever is later; or

3. In any locality which has adopted a fiscal tax year under Chapter 30 (§ 58.1-3000 et seq.), but continues to assess as of January 1, such application shall be submitted for any year at least 60 days preceding the effective date of the assessment for such year.

The governing body, by ordinance, may permit applications to be filed within no more than 60 days after the filing deadline specified herein, upon the payment of a late filing fee to be established by the governing body. In addition, a locality may, by ordinance, permit a further extension of the filing deadline specified herein, upon payment of an extension fee to be established by the governing body in an amount not to exceed the late filing fee, to a date not later than 30 days after notices of assessments are mailed. An individual who is owner of an undivided interest in a parcel may apply on behalf of himself and the other owners of such parcel upon submitting an affidavit that such other owners are minors ~~or~~, cannot be located, *or represent a minority interest in such parcel*. An application shall be submitted whenever the use or acreage of such land previously approved changes; however, no application fee may be required when a change in acreage occurs solely as a result of a conveyance necessitated by governmental action or condemnation of a portion of any land previously approved for taxation on the basis of use assessment. The governing body of any locality may, however, require any such property owner to revalidate at least every six years with such locality, on or before the date on which the last installment of property tax prior to the effective date of the assessment is due, on forms prepared by the locality, any applications previously approved. Each locality which has adopted an ordinance hereunder may provide for the imposition of a revalidation fee every sixth year. Such revalidation fee shall not, however, exceed the application fee currently charged by the locality. The governing body may also provide for late filing of revalidation forms on or before the effective date of the assessment, on payment of a late filing fee. Forms shall be prepared by the State Tax Commissioner and supplied to the locality for use of the applicants and applications shall be submitted on such forms. An application fee may be required to accompany all such applications.

In the event of a material misstatement of facts in the application or a material change in such facts prior to the date of assessment, such application for taxation based on use assessment granted thereunder shall be void and the tax for such year extended on the basis of value determined under § 58.1-3236 D. Except as provided by local ordinance, no application for assessment based on use shall be accepted or approved if, at the time the application is filed, the tax on the land affected is delinquent. Upon the payment of all delinquent taxes, including penalties and interest, the application shall be treated in accordance with the provisions of this section.

Continuation of valuation, assessment and taxation under an ordinance adopted pursuant to this article shall depend on continuance of the real estate in a qualifying use, continued payment of taxes as referred to in § 58.1-3235, and compliance with the other requirements of this article and the ordinance and not upon continuance in the same owner of title to the land.

In the event that the locality provides for a sliding scale under an ordinance, the property owner and the locality shall execute a written agreement which sets forth the period of time that the property shall remain within the classes of real estate set forth in § 58.1-3230. The term of the written agreement shall be for a period not exceeding 20 years, and the instrument shall be recorded in the office of the clerk of the circuit court for the locality in which the subject property is located.

No locality shall require any applicant who is a lessor of the property or a portion of the property that is the subject of an application submitted pursuant to this section to provide the lease agreement governing the property for the purpose of determining whether the property is eligible for special assessment and taxation pursuant to this article.

An Act to amend and reenact § 28.2-104.1 of the Code of Virginia, relating to living shorelines.

[H 1322]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 28.2-104.1 of the Code of Virginia is amended and reenacted as follows:

§ 28.2-104.1. Living shorelines; development of general permit; guidance.

A. As used in this section, unless the context requires a different meaning:

"Living shoreline" means a shoreline management practice that provides erosion control and water quality benefits; protects, restores, or enhances natural shoreline habitat; and maintains coastal processes through the strategic placement of plants, stone, sand fill, and other structural and organic materials. When practicable, a living shoreline may enhance coastal resilience and attenuation of wave energy and storm surge.

"*Other structural and organic materials*" means materials or features that provide added protection or stability for the natural shoreline habitat components of a living shoreline that attenuate wave energy and do not interfere with natural coastal processes or the natural continuity of the land-water interface. "*Other structural and organic materials*" may be composed of a variety of natural or man-made materials, including rock, concrete, wood fiber, oyster shells, and geotextiles; however, structural features shall be free from contaminants and shall be adequately secured to prevent full or partial dislodging or detachment due to wave action or other natural forces.

B. The Commission, in cooperation with the Department of Conservation and Recreation, the Department of Environmental Quality, and local wetlands boards, and with technical assistance from the Virginia Institute of Marine Science, shall establish and implement a general permit regulation that authorizes and encourages the use of living shorelines as the preferred alternative for stabilizing tidal shorelines in the Commonwealth. The regulation shall provide for an expedited permit review process for qualifying living shoreline projects requiring authorization under Chapters 12 (§ 28.2-1200 et seq.), 13 (§ 28.2-1300 et seq.), and 14 (§ 28.2-1400 et seq.). In developing the general permit, the Commission shall consult with the U.S. Army Corps of Engineers to ensure the minimization of conflicts with federal law and regulation.

C. The Commission, in cooperation with the Department of Conservation and Recreation and with technical assistance from the Virginia Institute of Marine Science, shall develop integrated guidance for the management of tidal shoreline systems to provide a technical basis for the coordination of permit decisions required by any regulatory entity exercising authority over a shoreline management project. The guidance shall:

1. Communicate to stakeholders and regulatory authorities that it is the policy of the Commonwealth to support living shorelines as the preferred alternative for stabilizing tidal shorelines;

2. Identify preferred shoreline management approaches for the shoreline types found in the Commonwealth;

3. Explain the risks and benefits of protection provided by various shoreline system elements associated with each management option; and

4. Recommend procedures to achieve efficiency and effectiveness by the various regulatory entities exercising authority over a shoreline management project.

D. The Commission shall permit only living shoreline approaches to shoreline management unless the best available science shows that such approaches are not suitable. If the best available science shows that a living shoreline approach is not suitable, the Commission shall require the applicant to incorporate, to the maximum extent possible, elements of living shoreline approaches into permitted projects.

Each school board shall ensure that the information is readily available to each high school student and distributed to each high school student who expresses an interest in attending an institution of higher education or completing another training program described in this section. Information to be collected shall include:

12. Any other information that the Department or the Council deem appropriate to assist high school students in weighing the costs and benefits of post-high-school training and education.

§ 23.1-203. Duties of Council.

The Council shall:

1. Develop a statewide strategic plan that (i) reflects the goals set forth in subsection A of § 23.1-1002 or (ii) once adopted, reflects the goals and objectives developed pursuant to subdivision B 5 of § 23.1-309 for higher education in the Commonwealth, identifies a coordinated approach to such state and regional goals, and emphasizes the future needs for higher education in the Commonwealth at both the undergraduate and the graduate levels and the mission, programs, facilities, and location of each of the existing institutions of higher education, each public institution's six-year plan, and such other matters as the Council deems appropriate. The Council shall revise such plan at least once every six years and shall submit such recommendations as are necessary for the implementation of the plan to the Governor and the General Assembly.

2. Review and approve or disapprove any proposed change in the statement of mission of any public institution of higher education and define the mission of all newly created public institutions of higher education. The Council shall report such approvals, disapprovals, and definitions to the Governor and the General Assembly at least once every six years. No such actions shall become effective until 30 days after adjournment of the session of the General Assembly next following the filing of such a report. Nothing in this subdivision shall be construed to authorize the Council to modify any mission statement adopted by the General Assembly or empower the Council to affect, either directly or indirectly, the selection of faculty or the standards and criteria for admission of any public institution of higher education, whether relating to academic standards, residence, or other criteria. Faculty selection and student admission policies shall remain a function of the individual public institutions of higher education.

3. Study any proposed escalation of any public institution of higher education to a degree-granting level higher than that level to which it is presently restricted and submit a report and recommendation to the Governor and the General Assembly relating to the proposal. The study shall include the need for and benefits or detriments to be derived from the escalation. No such institution shall implement any such proposed escalation until the Council's report and recommendation have been submitted to the General Assembly and the General Assembly approves the institution's proposal.

4. Review and approve or disapprove all enrollment projections proposed by each public institution of higher education. The Council's projections shall be organized numerically by level of enrollment and shall be used solely for budgetary, fiscal, and strategic planning purposes. The Council shall develop estimates of the number of degrees to be awarded by each public institution of higher education and include those estimates in its reports of enrollment projections. The student admissions policies for such institutions and their specific programs shall remain the sole responsibility of the individual governing boards but all baccalaureate public institutions of higher education shall adopt dual admissions policies with comprehensive community colleges as required by § 23.1-907.

5. Review and approve or disapprove all new undergraduate or graduate academic programs that any public institution of higher education proposes.

6. Review and require the discontinuance of any undergraduate or graduate academic program that is presently offered by any public institution of higher education when the Council determines that such academic program is (i) nonproductive in terms of the number of degrees granted, the number of students served by the program, the program's effectiveness, and budgetary considerations or (ii) supported by state funds and unnecessarily duplicative of academic programs offered at other public institutions of higher education. The Council shall make a report to the Governor and the General Assembly with respect to the discontinuance of any such academic program. No such discontinuance shall become effective until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

7. Review and approve or disapprove the establishment of any department, school, college, branch, division, or extension of any public institution of higher education that such institution proposes to establish, whether located on or off the main campus of such institution. If any organizational change is determined by the Council to be proposed solely for the purpose of internal management and the institution's curricular offerings remain constant, the Council shall approve the proposed change. Nothing in this subdivision shall be construed to authorize the Council to disapprove the establishment of any such department, school, college, branch, division, or extension established by the General Assembly.

8. Review the proposed closure of any academic program in a high demand or critical shortage area, as defined by the Council, by any public institution of higher education and assist in the development of an orderly closure plan, when needed.

9. Develop a uniform, comprehensive data information system designed to gather all information necessary to the performance of the Council's duties. The system shall include information on admissions, enrollment, self-identified students with documented disabilities, personnel, programs, financing, space inventory, facilities, and such other areas as the Council deems appropriate. When consistent with the Government Data Collection and Dissemination Practices Act (§ 2.2-3800 et seq.), the Virginia Unemployment Compensation Act (§ 60.2-100 et seq.), and applicable federal law, the Council, acting solely or in partnership with the Virginia Department of Education or the Virginia Employment Commission, may contract with private entities to create de-identified student records in which all personally identifiable information has been removed for the purpose of assessing the performance of institutions and specific programs relative to the workforce needs of the Commonwealth.

10. In cooperation with public institutions of higher education, develop guidelines for the assessment of student achievement. Each such institution shall use an approved program that complies with the guidelines of the Council and is consistent with the institution's mission and educational objectives in the development of such assessment. The Council shall report each institution's assessment of student achievement in the revisions to the Commonwealth's statewide strategic plan for higher education.

11. In cooperation with the appropriate state financial and accounting officials, develop and establish uniform standards and systems of accounting, recordkeeping, and statistical reporting for public institutions of higher education.

12. Review biennially and approve or disapprove all changes in the inventory of educational and general space that any public institution of higher education proposes and report such approvals and disapprovals to the Governor and the General Assembly. No such change shall become effective until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

13. Visit and study the operations of each public institution of higher education at such times as the Council deems appropriate and conduct such other studies in the field of higher education as the Council deems appropriate or as may be requested by the Governor or the General Assembly.

14. Provide advisory services to each accredited nonprofit private institution of higher education whose primary purpose is to provide collegiate or graduate education and not to provide religious training or theological education on academic, administrative, financial, and space utilization matters. The Council may review and advise on joint activities, including contracts for services between public institutions of higher education and such private institutions of higher education or between such private institutions of higher education and any agency or political subdivision of the Commonwealth.

15. Adopt such policies and regulations as the Council deems necessary to implement its duties established by state law. Each public institution of higher education shall comply with such policies and regulations.

16. Issue guidelines consistent with the provisions of the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g), requiring public institutions of higher education to release a student's academic and disciplinary record to a student's parent.

17. Require each institution of higher education formed, chartered, or established in the Commonwealth after July 1, 1980, to ensure the preservation of student transcripts in the event of institutional closure or revocation of approval to operate in the Commonwealth. An institution may ensure the preservation of student transcripts by binding agreement with another institution of higher education with which it is not corporately connected or in such other way as the Council may authorize by regulation. In the event that an institution closes or has its approval to operate in the Commonwealth revoked, the Council, through its director, may take such action as is necessary to secure and preserve the student transcripts until such time as an appropriate institution accepts all or some of the transcripts. Nothing in this subdivision shall be deemed to interfere with the right of a student to his own transcripts or authorize disclosure of student records except as may otherwise be authorized by law.

18. Require the development and submission of articulation, dual admissions, and guaranteed admissions agreements between associate-degree-granting and baccalaureate public institutions of higher education.

19. Provide periodic updates of base adequacy funding guidelines adopted by the Joint Subcommittee Studying Higher Education Funding Policies for each public institution of higher education.

20. Develop, pursuant to the provisions of § 23.1-907, guidelines for articulation, dual admissions, and guaranteed admissions agreements, including guidelines related to a one-year Uniform Certificate of General Studies Program and a one-semester Passport Program to be offered at each comprehensive community college. The guidelines developed pursuant to this subdivision shall be developed in consultation with all public institutions of higher education in the Commonwealth, the Department of Education, and the Virginia Association of School Superintendents and shall ensure standardization, quality, and transparency in the implementation of the programs and agreements. At the discretion of the Council, private institutions of higher education eligible for tuition assistance grants may also be consulted.

21. Cooperate with the Board of Education in matters of interest to both public elementary and secondary schools and public institutions of higher education, particularly in connection with coordination of the college admission requirements, coordination of teacher training programs with the public school programs, and the Board of Education's Six-Year Educational Technology Plan for Virginia. The Council shall encourage public institutions of higher education to design programs that include the skills necessary for the successful implementation of such Plan.

22. Advise and provide technical assistance to the Brown v. Board of Education Scholarship Committee in the implementation and administration of the Brown v. Board of Education Scholarship Program pursuant to Chapter 34.1 (§ 30-231.01 et seq.) of Title 30.

23. Insofar as possible, seek the cooperation and utilize the facilities of existing state departments, institutions, and agencies in carrying out its duties.

24. Serve as the coordinating council for public institutions of higher education.

25. Serve as the planning and coordinating agency for all postsecondary educational programs for all health professions and occupations and make recommendations, including those relating to financing, for providing adequate and coordinated educational programs to produce an appropriate supply of properly trained personnel. The Council may conduct such studies as it deems appropriate in furtherance of the requirements of this subdivision. All state departments and agencies shall cooperate with the Council in the execution of its responsibilities under this subdivision.

26. Carry out such duties as the Governor may assign to it in response to agency designations requested by the federal government.

27. Insofar as practicable, preserve the individuality, traditions, and sense of responsibility of each public institution of higher education in carrying out its duties.

28. Insofar as practicable, seek the assistance and advice of each public institution of higher education in fulfilling its duties and responsibilities.

29. Administer the Virginia Longitudinal Data System as a multiagency partnership for the purposes of developing educational, health, social service, and employment outcome data; improving the efficacy of state services; and aiding decision making.

30. *Assist the Department of Education with collecting and compiling information for distribution to high school students that assist such students in making more informed decisions about post-high-school educational and training opportunities pursuant to § 22.1-206.1.*

The Council shall report such approvals, disapprovals, and definitions to the Governor and the General Assembly at least once every six years. No such actions shall become effective until 30 days after adjournment of the session of the General Assembly next following the filing of such a report. Nothing in this subdivision shall be construed to authorize the Council to modify any mission statement adopted by the General Assembly or empower the Council to affect, either directly or indirectly, the selection of faculty or the standards and criteria for admission of any public institution of higher education, whether relating to academic standards, residence, or other criteria. Faculty selection and student admission policies shall remain a function of the individual public institutions of higher education.

3. Study any proposed escalation of any public institution of higher education to a degree-granting level higher than that level to which it is presently restricted and submit a report and recommendation to the Governor and the General Assembly relating to the proposal. The study shall include the need for and benefits or detriments to be derived from the escalation. No such institution shall implement any such proposed escalation until the Council's report and recommendation have been submitted to the General Assembly and the General Assembly approves the institution's proposal.

4. Review and approve or disapprove all enrollment projections proposed by each public institution of higher education. The Council's projections shall be organized numerically by level of enrollment and shall be used solely for budgetary, fiscal, and strategic planning purposes. The Council shall develop estimates of the number of degrees to be awarded by each public institution of higher education and include those estimates in its reports of enrollment projections. The student admissions policies for such institutions and their specific programs shall remain the sole responsibility of the individual governing boards but all baccalaureate public institutions of higher education shall adopt dual admissions policies with comprehensive community colleges as required by § 23.1-907.

5. Review and approve or disapprove all new undergraduate or graduate academic programs that any public institution of higher education proposes.

6. Review and require the discontinuance of any undergraduate or graduate academic program that is presently offered by any public institution of higher education when the Council determines that such academic program is (i) nonproductive in terms of the number of degrees granted, the number of students served by the program, the program's effectiveness, and budgetary considerations or (ii) supported by state funds and unnecessarily duplicative of academic programs offered at other public institutions of higher education. The Council shall make a report to the Governor and the General Assembly with respect to the discontinuance of any such academic program. No such discontinuance shall become effective until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

7. Review and approve or disapprove the establishment of any department, school, college, branch, division, or extension of any public institution of higher education that such institution proposes to establish, whether located on or off the main campus of such institution. If any organizational change is determined by the Council to be proposed solely for the purpose of internal management and the institution's curricular offerings remain constant, the Council shall approve the proposed change. Nothing in this subdivision shall be construed to authorize the Council to disapprove the establishment of any such department, school, college, branch, division, or extension established by the General Assembly.

8. Review the proposed closure of any academic program in a high demand or critical shortage area, as defined by the Council, by any public institution of higher education and assist in the development of an orderly closure plan, when needed.

9. Develop a uniform, comprehensive data information system designed to gather all information necessary to the performance of the Council's duties. The system shall include information on admissions, enrollment, self-identified students with documented disabilities, personnel, programs, financing, space inventory, facilities, and such other areas as the Council deems appropriate. When consistent with the Government Data Collection and Dissemination Practices Act (§ 2.2-3800 et seq.), the Virginia Unemployment Compensation Act (§ 60.2-100 et seq.), and applicable federal law, the Council, acting solely or in partnership with the Virginia Department of Education or the Virginia Employment Commission, may contract with private entities to create de-identified student records in which all personally identifiable

information has been removed for the purpose of assessing the performance of institutions and specific programs relative to the workforce needs of the Commonwealth.

10. In cooperation with public institutions of higher education, develop guidelines for the assessment of student achievement. Each such institution shall use an approved program that complies with the guidelines of the Council and is consistent with the institution's mission and educational objectives in the development of such assessment. The Council shall report each institution's assessment of student achievement in the revisions to the Commonwealth's statewide strategic plan for higher education.

11. In cooperation with the appropriate state financial and accounting officials, develop and establish uniform standards and systems of accounting, recordkeeping, and statistical reporting for public institutions of higher education.

12. Review biennially and approve or disapprove all changes in the inventory of educational and general space that any public institution of higher education proposes and report such approvals and disapprovals to the Governor and the General Assembly. No such change shall become effective until 30 days after the adjournment of the session of the General Assembly next following the filing of such report.

13. Visit and study the operations of each public institution of higher education at such times as the Council deems appropriate and conduct such other studies in the field of higher education as the Council deems appropriate or as may be requested by the Governor or the General Assembly.

14. Provide advisory services to each accredited nonprofit private institution of higher education whose primary purpose is to provide collegiate or graduate education and not to provide religious training or theological education on academic, administrative, financial, and space utilization matters. The Council may review and advise on joint activities, including contracts for services between public institutions of higher education and such private institutions of higher education or between such private institutions of higher education and any agency or political subdivision of the Commonwealth.

15. Adopt such policies and regulations as the Council deems necessary to implement its duties established by state law. Each public institution of higher education shall comply with such policies and regulations.

16. Issue guidelines consistent with the provisions of the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g), requiring public institutions of higher education to release a student's academic and disciplinary record to a student's parent.

17. Require each institution of higher education formed, chartered, or established in the Commonwealth after July 1, 1980, to ensure the preservation of student transcripts in the event of institutional closure or revocation of approval to operate in the Commonwealth. An institution may ensure the preservation of student transcripts by binding agreement with another institution of higher education with which it is not corporately connected or in such other way as the Council may authorize by regulation. In the event that an institution closes or has its approval to operate in the Commonwealth revoked, the Council, through its director, may take such action as is necessary to secure and preserve the student transcripts until such time as an appropriate institution accepts all or some of the transcripts. Nothing in this subdivision shall be deemed to interfere with the right of a student to his own transcripts or authorize disclosure of student records except as may otherwise be authorized by law.

18. Require the development and submission of articulation, dual admissions, and guaranteed admissions agreements between associate-degree-granting and baccalaureate public institutions of higher education.

19. Provide periodic updates of base adequacy funding guidelines adopted by the Joint Subcommittee Studying Higher Education Funding Policies for each public institution of higher education.

20. Develop, pursuant to the provisions of § 23.1-907, guidelines for articulation, dual admissions, and guaranteed admissions agreements, including guidelines related to a one-year Uniform Certificate of General Studies Program and a one-semester Passport Program to be offered at each comprehensive community college. The guidelines developed pursuant to this subdivision shall be developed in consultation with all public institutions of higher education in the Commonwealth, the Department of Education, and the Virginia Association of School Superintendents and shall ensure standardization, quality, and transparency in the implementation of the programs and agreements. At the discretion of the Council, private institutions of higher education eligible for tuition assistance grants may also be consulted.

21. Cooperate with the Board of Education in matters of interest to both public elementary and secondary schools and public institutions of higher education, particularly in connection with coordination of the college admission requirements, coordination of teacher training programs with the public school programs, and the Board of Education's Six-Year Educational Technology Plan for Virginia. The Council shall encourage public institutions of higher education to design programs that include the skills necessary for the successful implementation of such Plan.

22. Advise and provide technical assistance to the Brown v. Board of Education Scholarship Committee in the implementation and administration of the Brown v. Board of Education Scholarship Program pursuant to Chapter 34.1 (§ 30-231.01 et seq.) of Title 30.

23. Insofar as possible, seek the cooperation and utilize the facilities of existing state departments, institutions, and agencies in carrying out its duties.

24. Serve as the coordinating council for public institutions of higher education.

25. Serve as the planning and coordinating agency for all postsecondary educational programs for all health professions and occupations and make recommendations, including those relating to financing, for providing adequate and coordinated educational programs to produce an appropriate supply of properly trained personnel. The Council may conduct

such studies as it deems appropriate in furtherance of the requirements of this subdivision. All state departments and agencies shall cooperate with the Council in the execution of its responsibilities under this subdivision.

26. Carry out such duties as the Governor may assign to it in response to agency designations requested by the federal government.

Article 2.

Fiduciary Duties and Judicial Review.

§ 64.2-1036. Fiduciary duties; general principles.

A. In making an allocation or determination or exercising discretion under this chapter, a fiduciary shall:

1. Act in good faith, based on what is fair and reasonable to all beneficiaries;

2. Administer a trust or estate impartially, except to the extent the terms of the trust manifest an intent that the fiduciary shall or may favor one or more beneficiaries;

3. Administer the trust or estate in accordance with the terms of the trust, even if there is a different provision in this chapter; and

4. Administer the trust or estate in accordance with this chapter, except to the extent the terms of the trust provide otherwise or authorize the fiduciary to determine otherwise.

B. A fiduciary's allocation, determination, or exercise of discretion under this chapter is presumed to be fair and reasonable to all beneficiaries. A fiduciary may exercise a discretionary power of administration given to the fiduciary by the terms of the trust, and an exercise of the power that produces a result different from a result required or permitted by this chapter does not create an inference that the fiduciary abused the fiduciary's discretion.

C. A fiduciary shall:

1. Add a receipt to principal, to the extent neither the terms of the trust nor this chapter allocates the receipt between income and principal; and

2. Charge a disbursement to principal, to the extent neither the terms of the trust nor this chapter allocates the disbursement between income and principal.

D. A fiduciary may exercise the power to adjust under § 64.2-1038, convert an income trust to a unitrust under subdivision A 1 of § 64.2-1041, change the percentage or method used to calculate a unitrust amount under subdivision A 2 of § 64.2-1041, or convert a unitrust to an income trust under subdivision A 3 of § 64.2-1041 if the fiduciary determines the exercise of the power will assist the fiduciary to administer the trust or estate impartially.

E. Factors the fiduciary must consider in making the determination under subsection D include:

1. The terms of the trust;

2. The nature, distribution standards, and expected duration of the trust;

3. The effect of the allocation rules, including specific adjustments between income and principal, under Articles 4 (§ 64.2-1048 et seq.) through 9 (§ 64.2-1073 et seq.);

4. The desirability of liquidity and regularity of income;

5. The desirability of the preservation and appreciation of principal;

6. The extent to which an asset is used or may be used by a beneficiary;

7. The increase or decrease in the value of principal assets, reasonably determined by the fiduciary;

8. Whether and to what extent the terms of the trust give the fiduciary power to accumulate income or invade principal or prohibit the fiduciary from accumulating income or invading principal;

9. The extent to which the fiduciary has accumulated income or invaded principal in preceding accounting periods;

10. The effect of current and reasonably expected economic conditions; and

11. The reasonably expected tax consequences of the exercise of the power.

§ 64.2-1037. Judicial review of exercise of discretionary power; request for instruction.

A. As used in this section, "fiduciary decision" means:

1. A fiduciary's allocation between income and principal or other determination regarding income and principal required or authorized by the terms of the trust or this chapter;

2. The fiduciary's exercise or nonexercise of a discretionary power regarding income and principal granted by the terms of the trust or this chapter, including the power to adjust under § 64.2-1038, convert an income trust to a unitrust under subdivision A 1 of § 64.2-1041, change the percentage or method used to calculate a unitrust amount under subdivision A 2 of § 64.2-1041, or convert a unitrust to an income trust under subdivision A 3 of § 64.2-1041; or

3. The fiduciary's implementation of a decision described in subdivision 1 or 2.

B. The court may not order a fiduciary to change a fiduciary decision unless the court determines that the fiduciary decision was an abuse of the fiduciary's discretion.

C. If the court determines that a fiduciary decision was an abuse of the fiduciary's discretion, the court may order a remedy authorized by law, including § 64.2-792. To place the beneficiaries in the positions the beneficiaries would have occupied if there had not been an abuse of the fiduciary's discretion, the court may order:

1. The fiduciary to exercise or refrain from exercising the power to adjust under § 64.2-1038;

2. The fiduciary to exercise or refrain from exercising the power to convert an income trust to a unitrust under subdivision A 1 of § 64.2-1041, change the percentage or method used to calculate a unitrust amount under subdivision A 2 of § 64.2-1041, or convert a unitrust to an income trust under subdivision A 3 of § 64.2-1041;

3. The fiduciary to distribute an amount to a beneficiary;

4. A beneficiary to return some or all of a distribution; or

5. The fiduciary to withhold an amount from one or more future distributions to a beneficiary.

D. On petition by a fiduciary for instruction, the court may determine whether a proposed fiduciary decision will result in an abuse of the fiduciary's discretion. If the petition describes the proposed decision, contains sufficient information to inform the beneficiary of the reasons for making the proposed decision and the facts on which the fiduciary relies, and explains how the beneficiary will be affected by the proposed decision, a beneficiary that opposes the proposed decision has the burden to establish that it will result in an abuse of the fiduciary's discretion.

§ 64.2-1038. Fiduciary's power to adjust.

A. Except as otherwise provided in the terms of a trust or this section, a fiduciary, in a record, without court approval, may adjust between income and principal if the fiduciary determines the exercise of the power to adjust will assist the fiduciary to administer the trust or estate impartially.

B. This section does not create a duty to exercise or consider the power to adjust under subsection A or to inform a beneficiary about the applicability of this section.

C. A fiduciary that in good faith exercises or fails to exercise the power to adjust under subsection A is not liable to a person affected by the exercise or failure to exercise.

D. In deciding whether and to what extent to exercise the power to adjust under subsection A, a fiduciary shall consider all factors the fiduciary considers relevant, including relevant factors in subsection E of § 64.2-1036 and the application of subsection I of § 64.2-1048 and §§ 64.2-1055 and 64.2-1060.

E. A fiduciary may not exercise the power under subsection A to make an adjustment or under § 64.2-1055 to make a determination that an allocation is insubstantial if:

1. The adjustment or determination would reduce the amount payable to a current income beneficiary from a trust that qualifies for a special tax benefit, except to the extent the adjustment is made to provide for a reasonable apportionment of the total return of the trust between the current income beneficiary and successor beneficiaries;

2. The adjustment or determination would change the amount payable to a beneficiary, as a fixed annuity or a fixed fraction of the value of the trust assets, under the terms of the trust;

3. The adjustment or determination would reduce an amount that is permanently set aside for a charitable purpose under the terms of the trust, unless both income and principal are set aside for the charitable purpose;

4. Possessing or exercising the power would cause a person to be treated as the owner of all or part of the trust for federal income tax purposes;

5. Possessing or exercising the power would cause all or part of the value of the trust assets to be included in the gross estate of an individual for federal estate tax purposes;

6. Possessing or exercising the power would cause an individual to be treated as making a gift for federal gift tax purposes;

7. The fiduciary is not an independent person;

8. The trust is irrevocable and provides for income to be paid to the settlor and possessing or exercising the power would cause the adjusted principal or income to be considered an available resource or available income under a public-benefit program; or

9. The trust is a unitrust under Article 3 (§ 64.2-1039 et seq.).

F. If subdivision E 4, 5, 6, or 7 applies to a fiduciary:

1. A co-fiduciary to which subdivisions E 4 through 7 does not apply may exercise the power to adjust, unless the exercise of the power by the remaining co-fiduciary or co-fiduciaries is not permitted by the terms of the trust or law other than this chapter; or

2. If there is no co-fiduciary to which subdivisions E 4 through 7 does not apply, the fiduciary may appoint a co-fiduciary to which subdivisions E 4 through 7 does not apply, which may be a special fiduciary with limited powers, and the appointed co-fiduciary may exercise the power to adjust under subsection A, unless the appointment of a co-fiduciary or the exercise of the power by a co-fiduciary is not permitted by the terms of the trust or law other than this chapter.

G. A fiduciary may release or delegate to a co-fiduciary the power to adjust under subsection A if the fiduciary determines that the fiduciary's possession or exercise of the power will or may:

1. Cause a result described in subdivision E 1 through 6 or 8; or
2. Deprive the trust of a tax benefit or impose a tax burden not described in subdivisions E 1 through 6.

H. A fiduciary's release or delegation to a co-fiduciary under subsection G of the power to adjust under subsection A:

1. Must be in a record;

2. Applies to the entire power, unless the release or delegation provides a limitation, which may be a limitation to the power to adjust:

- a. From income to principal;
- b. From principal to income;
- c. For specified property; or
- d. In specified circumstances;

3. For a delegation, may be modified by a redelegation under this subsection by the co-fiduciary to which the delegation is made; and

4. Subject to subdivision 3, is permanent, unless the release or delegation provides a specified period, including a period measured by the life of an individual or the lives of more than one individual.

I. Terms of a trust that deny or limit the power to adjust between income and principal do not affect the application of this section, unless the terms of the trust expressly deny or limit the power to adjust under subsection A.

J. The exercise of the power to adjust under subsection A in any accounting period may apply to the current period, the immediately preceding period, and one or more subsequent periods.

K. A description of the exercise of the power to adjust under subsection A must be:

1. Included in a report, if any, sent to beneficiaries under § 64.2-775; or
2. Communicated at least annually to the qualified beneficiaries determined under § 64.2-701, other than the Attorney General.

Article 3.

Unitrust.

§ 64.2-1039. Definitions.

As used in this article, unless the context requires a different meaning:

"Applicable value" means the amount of the net fair market value of a trust taken into account under § 64.2-1045.

"Express unitrust" means a trust for which, under the terms of the trust without regard to this article, income or net income must or may be calculated as a unitrust amount.

"Income trust" means a trust that is not a unitrust.

"Net fair market value of a trust" means the fair market value of the assets of the trust, less the noncontingent liabilities of the trust.

"Unitrust" means a trust for which net income is a unitrust amount. "Unitrust" includes an express unitrust.

"Unitrust amount" means an amount computed by multiplying a determined value of a trust by a determined percentage. For a unitrust administered under a unitrust policy, "unitrust amount" means the applicable value, multiplied by the unitrust rate.

"Unitrust policy" means a policy described in §§ 64.2-1043 through 64.2-1047 and adopted under § 64.2-1041.

"Unitrust rate" means the rate used to compute the unitrust amount for a unitrust administered under a unitrust policy.

§ 64.2-1040. Application; duties and remedies.

A. Except as otherwise provided in subsection B, this article applies to:

1. An income trust, unless the terms of the trust expressly prohibit use of this article by a specific reference to this article or an explicit expression of intent that net income not be calculated as a unitrust amount; and

2. An express unitrust, except to the extent the terms of the trust explicitly:

- a. Prohibit use of this article by a specific reference to this article;
- b. Prohibit conversion to an income trust; or
- c. Limit changes to the method of calculating the unitrust amount.

B. This article does not apply to a trust described in § 170(f)(2)(B), 642(c)(5), 664(d), 2702(a)(3)(A)(ii) or (iii), or 2702(b) of the Internal Revenue Code of 1986, as amended.

C. An income trust to which this article applies under subdivision A 1 may be converted to a unitrust under this article regardless of the terms of the trust concerning distributions. Conversion to a unitrust under this article does not affect other terms of the trust concerning distributions of income or principal.

D. This article applies to an estate only to the extent a trust is a beneficiary of the estate. To the extent of the trust's interest in the estate, the estate may be administered as a unitrust, the administration of the estate as a unitrust may be discontinued, or the percentage or method used to calculate the unitrust amount may be changed, in the same manner as for a trust under this article.

E. This article does not create a duty to take or consider action under this article or to inform a beneficiary about the applicability of this article.

F A fiduciary that in good faith takes or fails to take an action under this article is not liable to a person affected by the action or inaction.

§ 64.2-1041. Authority of fiduciary.

A. A fiduciary, without court approval, by complying with subsections B and F, may:

3. Convert a unitrust to an income trust if the fiduciary adopts in a record a determination that, in administering the trust, the net income of the trust will be net income determined without regard to this article rather than a unitrust amount.

B. A fiduciary may take an action under subsection A if:

1. The fiduciary determines that the action will assist the fiduciary to administer a trust impartially;

2. The fiduciary sends a notice in a record, in the manner required by § 64.2-1042, describing and proposing to take the action;

E. If a beneficiary requests in a record that a fiduciary take an action described in subsection A and the fiduciary declines to act or does not act within 90 days after receiving the request, the beneficiary may request the court to direct the fiduciary to take the action requested.

F. In deciding whether and how to take an action authorized by subsection A, or whether and how to respond to a request by a beneficiary under subsection E, a fiduciary shall consider all factors relevant to the trust and the beneficiaries, including relevant factors in subsection E of § 64.2-1036.

G. A fiduciary may release or delegate the power to convert an income trust to a unitrust under subdivision A 1, change the percentage or method used to calculate a unitrust amount under subdivision A 2, or convert a unitrust to an income trust under subdivision A 3, for a reason described in subsection G of § 64.2-1038 and in the manner described in subsection H of § 64.2-1038.

 - a. Determines, on the basis of information known to the fiduciary, that the characterization is or may be incorrect; or
 - b. Owns or holds more than 50 percent of the voting interest in the entity;
 2. By determining or estimating, on the basis of information known to the fiduciary or provided to the fiduciary by or on behalf of the entity, that the total amount of money and property received by the fiduciary in the entity distribution or a series of related entity distributions is or will be greater than 20 percent of the fair market value of the fiduciary's interest in the entity; or
 3. If neither subdivision 1 nor 2 applies, by considering the factors in subsection F and the information known to the fiduciary or provided to the fiduciary by or on behalf of the entity.

 - (2) One or more business assets that are not sold to customers in the ordinary course of the business or other activity conducted by the entity; or
 - (3) One or more assets other than business assets, unless the entity's primary activity is to invest in assets to realize gain on the disposition of all or some of the assets;
 - c. If the entity's primary activity is to invest in assets to realize gain on the disposition of all or some of the assets, the gain realized on the disposition;
 - d. The entity's regular, periodic entity distributions;
 - e. The amount of money the entity has accumulated;
 - f. The amount of money the entity has borrowed;
 - g. The amount of money the entity has received from the sources described in §§ 64.2-1054, 64.2-1057, 64.2-1058, and 64.2-1059; and
 - h. The amount of money the entity has received from a source not otherwise described in this subdivision; and
 4. Any other factor the fiduciary determines is relevant.
- G. If, after applying subsections C through F, a fiduciary determines that a part of an entity distribution is a capital distribution but is in doubt about the amount of the entity distribution that is a capital distribution, the fiduciary shall allocate to principal the amount of the entity distribution that is in doubt.
- H. If a fiduciary receives additional information about the application of this section to an entity distribution before the fiduciary has paid part of the entity distribution to a beneficiary, the fiduciary may consider the additional information before making the payment to the beneficiary and may change a decision to make the payment to the beneficiary.
- I. If a fiduciary receives additional information about the application of this section to an entity distribution after the fiduciary has paid part of the entity distribution to a beneficiary, the fiduciary is not required to change or recover the payment to the beneficiary but may consider that information in determining whether to exercise the power to adjust under § 64.2-1038.

§ 64.2-1049. Distribution from trust or estate.

A fiduciary shall allocate to income an amount received as a distribution of income, including a unitrust distribution under Article 3 (§ 64.2-1039 et seq.), from a trust or estate in which the fiduciary has an interest, other than an interest the fiduciary purchased in a trust that is an investment entity, and shall allocate to principal an amount received as a distribution of principal from the trust or estate. If a fiduciary purchases, or receives from a settlor, an interest in a trust that is an investment entity, § 64.2-1048, 64.2-1062, or 64.2-1063 applies to a receipt from the trust.

§ 64.2-1050. Business or other activity conducted by fiduciary.

- A. This section applies to a business or other activity conducted by a fiduciary if the fiduciary determines that it is in the interests of the beneficiaries to account separately for the business or other activity instead of:
1. Accounting for the business or other activity as part of the fiduciary's general accounting records; or
 2. Conducting the business or other activity through an entity defined in subsection A of § 64.2-1048.
- B. A fiduciary may account separately under this section for the transactions of a business or other activity, whether or not assets of the business or other activity are segregated from other assets held by the fiduciary.
- C. A fiduciary that accounts separately under this section for a business or other activity:
1. May determine:
 - a. The extent to which the net cash receipts of the business or other activity must be retained for:

- (1) Working capital;
- (2) The acquisition or replacement of fixed assets; and
- (3) Other reasonably foreseeable needs of the business or other activity; and

b. The extent to which the remaining net cash receipts are accounted for as principal or income in the fiduciary's general accounting records for the trust;

2. May make a determination under subdivision 1 separately and differently from the fiduciary's decisions concerning distributions of income or principal; and

3. Shall account for the net amount received from the sale of an asset of the business or other activity, other than a sale in the ordinary course of the business or other activity, as principal in the fiduciary's general accounting records for the trust, to the extent the fiduciary determines that the net amount received is no longer required in the conduct of the business or other activity.

2. Except as otherwise provided in this article, money or other property received from the sale, exchange, liquidation, or change in form of a principal asset;

3. An amount recovered from a third party to reimburse the fiduciary because of a disbursement described in subsection A of § 64.2-1065 or for another reason to the extent not based on loss of income;

4. Proceeds of property taken by eminent domain, except that proceeds awarded for loss of income in an accounting period are income if a current income beneficiary had a mandatory income interest during the period;

5. Net income received in an accounting period during which there is no beneficiary to which a fiduciary may or must distribute income; and

6. Other receipts as provided in Article 6 (§ 64.2-1055 et seq.).

§ 64.2-1052. Rental property.

To the extent a fiduciary does not account for the management of rental property as a business under § 64.2-1050, the fiduciary shall allocate to income an amount received as rent of real or personal property, including an amount received for cancellation or renewal of a lease. An amount received as a refundable deposit, including a security deposit or a deposit that is to be applied as rent for future periods:

1. Shall be added to principal and held subject to the terms of the lease, except as otherwise provided by law other than this chapter; and

2. Is not allocated to income or available for distribution to a beneficiary until the fiduciary's contractual obligations have been satisfied with respect to that amount.

§ 64.2-1053. Receipt on obligation to be paid in money.

A. This section does not apply to an obligation to which § 64.2-1056, 64.2-1057, 64.2-1058, 64.2-1059, 64.2-1061, 64.2-1062, or 64.2-1063 applies.

C. A fiduciary shall allocate to principal an amount received from the sale, redemption, or other disposition of an obligation to pay money to the fiduciary. A fiduciary shall allocate to income the increment in value of a bond or other obligation for the payment of money bearing no stated interest but payable or redeemable, at maturity or another future time, in an amount that exceeds the amount in consideration of which it was issued.

§ 64.2-1054. Insurance policy or contract.

A. This section does not apply to a contract to which § 64.2-1056 applies.

B. Except as otherwise provided in subsection C, a fiduciary shall allocate to principal the proceeds of a life insurance policy or other contract received by the fiduciary as beneficiary, including a contract that insures against damage to, destruction of, or loss of title to an asset. The fiduciary shall allocate dividends on an insurance policy to income to the

extent premiums on the policy are paid from income and to principal to the extent premiums on the policy are paid from principal.

C. A fiduciary shall allocate to income proceeds of a contract that insures the fiduciary against loss of:

1. Occupancy or other use by a current income beneficiary;
2. Income; or
3. Subject to § 64.2-1050, profits from a business.

Article 6.

Allocation of Receipts: Receipts Normally Apportioned.

§ 64.2-1055. Insubstantial allocation not required.

A. If a fiduciary determines that an allocation between income and principal required by § 64.2-1056, 64.2-1057, 64.2-1058, 64.2-1059, or 64.2-1062 is insubstantial, the fiduciary may allocate the entire amount to principal, unless subsection E of § 64.2-1038 applies to the allocation.

B. A fiduciary may presume an allocation is insubstantial under subsection A if:

1. The amount of the allocation would increase or decrease net income in an accounting period, as determined before the allocation, by less than 10 percent; and
2. The asset producing the receipt to be allocated has a fair market value less than 10 percent of the total fair market value of the assets owned or held by the fiduciary at the beginning of the accounting period.

C. The power to make a determination under subsection A may be:

1. Exercised by a co-fiduciary in the manner described in subsection F of § 64.2-1038; or
2. Released or delegated for a reason described in subsection G of § 64.2-1038 and in the manner described in subsection H of § 64.2-1038.

§ 64.2-1056. Deferred compensation, annuity, or similar payment.

A. As used in this section:

"Internal income of a separate fund" means the amount determined under subsection B.

"Marital trust" means a trust:

1. Of which the settlor's surviving spouse is the only current income beneficiary and is entitled to a distribution of all of the current net income of the trust; and
2. That qualifies for a marital deduction with respect to the settlor's estate under § 2056 of the Internal Revenue Code of 1986, as amended, because:
 - a. An election to qualify for a marital deduction under § 2056(b)(7) of the Internal Revenue Code of 1986, as amended, has been made; or
 - b. The trust qualifies for a marital deduction under § 2056(b)(5) of the Internal Revenue Code of 1986, as amended.

"Payment" means an amount a fiduciary may receive over a fixed number of years or during the life of one or more individuals because of services rendered or property transferred to the payor in exchange for future amounts the fiduciary may receive. "Payment" includes an amount received in money or property from the payor's general assets or from a separate fund created by the payor.

"Separate fund" includes a private or commercial annuity, an individual retirement account, and a pension, profit-sharing, stock-bonus, or stock-ownership plan.

B. For each accounting period, the following rules apply to a separate fund:

1. The fiduciary shall determine the internal income of the separate fund as if the separate fund were a trust subject to this chapter.
2. If the fiduciary cannot determine the internal income of the separate fund under subdivision 1, the internal income of the separate fund is deemed to equal four percent of the value of the separate fund, according to the most recent statement of value preceding the beginning of the accounting period.
3. If the fiduciary cannot determine the value of the separate fund under subdivision 2, the value of the separate fund is deemed to equal the present value of the expected future payments, as determined under § 7520 of the Internal Revenue Code of 1986, as amended, for the month preceding the beginning of the accounting period for which the computation is made.

C. A fiduciary shall allocate a payment received from a separate fund during an accounting period to income, to the extent of the internal income of the separate fund during the period, and the balance to principal.

D. The fiduciary of a marital trust shall:

1. Withdraw from a separate fund the amount the current income beneficiary of the trust requests the fiduciary to withdraw, not greater than the amount by which the internal income of the separate fund during the accounting period exceeds the amount the fiduciary otherwise receives from the separate fund during the period;
2. Transfer from principal to income the amount the current income beneficiary requests the fiduciary to transfer, not greater than the amount by which the internal income of the separate fund during the period exceeds the amount the fiduciary receives from the separate fund during the period after the application of subdivision 1; and
3. Distribute to the current income beneficiary as income:
 - a. The amount of the internal income of the separate fund received or withdrawn during the period; and
 - b. The amount transferred from principal to income under subdivision 2.

E. For a trust, other than a marital trust, of which one or more current income beneficiaries are entitled to a distribution of all of the current net income, the fiduciary shall transfer from principal to income the amount by which the internal income of a separate fund during the accounting period exceeds the amount the fiduciary receives from the separate fund during the period.

§ 64.2-1057. Liquidating asset.

A. As used in this section, "liquidating asset" means an asset whose value will diminish or terminate because the asset is expected to produce receipts for a limited time. "Liquidating asset" includes a leasehold, patent, copyright, royalty right, and right to receive payments during a period of more than one year under an arrangement that does not provide for the payment of interest on the unpaid balance.

B. This section does not apply to a receipt subject to § 64.2-1048, 64.2-1056, 64.2-1058, 64.2-1059, 64.2-1061, 64.2-1062, 64.2-1063, or 64.2-1066.

C. A fiduciary shall allocate:

1. To income:

a. A receipt produced by a liquidating asset, to the extent the receipt does not exceed four percent of the value of the asset; or

b. If the fiduciary cannot determine the value of the asset, 10 percent of the receipt; and

2. To principal, the balance of the receipt.

§ 64.2-1058. Minerals, water, and other natural resources.

A. To the extent a fiduciary does not account for a receipt from an interest in minerals, water, or other natural resources as a business under § 64.2-1050, the fiduciary shall allocate the receipt:

1. To income, to the extent received:

a. As delay rental or annual rent on a lease;

b. As a factor for interest or the equivalent of interest under an agreement creating a production payment; or

c. On account of an interest in renewable water;

2. To principal, if received from a production payment, to the extent subdivision 1 b does not apply; or

3. Between income and principal equitably, to the extent received:

a. On account of an interest in nonrenewable water;

b. As a royalty, shut-in-well payment, take-or-pay payment, or bonus; or

c. From a working interest or any other interest not provided for in subdivision 1 or 2 or subdivision a or b.

B. This section applies to an interest owned or held by a fiduciary whether or not a settlor was extracting minerals, water, or other natural resources before the fiduciary owned or held the interest.

C. An allocation of a receipt under subdivision A 3 is presumed to be equitable if the amount allocated to principal is equal to the amount allowed by the Internal Revenue Code of 1986, as amended, as a deduction for depletion of the interest.

D. If a fiduciary owns or holds an interest in minerals, water, or other natural resources before July 1, 2022, the fiduciary may allocate receipts from the interest as provided in this section or in the manner used by the fiduciary before July 1, 2022. If the fiduciary acquires an interest in minerals, water, or other natural resources on or after July 1, 2022, the fiduciary shall allocate receipts from the interest as provided in this section.

§ 64.2-1059. Timber.

A. To the extent a fiduciary does not account for receipts from the sale of timber and related products as a business under § 64.2-1050, the fiduciary shall allocate the net receipts:

1. To income, to the extent the amount of timber cut from the land does not exceed the rate of growth of the timber;

2. To principal, to the extent the amount of timber cut from the land exceeds the rate of growth of the timber or the net receipts are from the sale of standing timber;

3. Between income and principal if the net receipts are from the lease of land used for growing and cutting timber or from a contract to cut timber from land, by determining the amount of timber cut from the land under the lease or contract and applying the rules in subdivisions 1 and 2; or

4. To principal, to the extent advance payments, bonuses, and other payments are not allocated under subdivisions 1, 2, or 3.

B. In determining net receipts to be allocated under subsection A, a fiduciary shall deduct and transfer to principal a reasonable amount for depletion.

C. This section applies to land owned or held by a fiduciary whether or not a settlor was cutting timber from the land before the fiduciary owned or held the property.

D. If a fiduciary owns or holds an interest in land used for growing and cutting timber before July 1, 2022, the fiduciary may allocate net receipts from the sale of timber and related products as provided in this section or in the manner used by the fiduciary before July 1, 2022. If the fiduciary acquires an interest in land used for growing and cutting timber on or after July 1, 2022, the fiduciary shall allocate net receipts from the sale of timber and related products as provided in this section.

§ 64.2-1060. Marital deduction property not productive of income.

A. If a trust received property for which a gift or estate tax marital deduction was allowed and the settlor's spouse holds a mandatory income interest in the trust, the spouse may require the trustee, to the extent the trust assets otherwise do not provide the spouse with sufficient income from or use of the trust assets to qualify for the deduction, to:

1. Make property productive of income;
2. Convert property to property productive of income within a reasonable time; or
3. Exercise the power to adjust under § 64.2-1038.

B. The trustee may decide which action or combination of actions in subsection A to take.

§ 64.2-1061. Derivative or option.

A. As used in this section, "derivative" means a contract, instrument, other arrangement, or combination of contracts, instruments, or other arrangements, the value, rights, and obligations of which are, in whole or in part, dependent on or derived from an underlying tangible or intangible asset, group of tangible or intangible assets, index, or occurrence of an event. "Derivative" includes stocks, fixed income securities, and financial instruments and arrangements based on indices, commodities, interest rates, weather-related events, and credit-default events.

B. To the extent a fiduciary does not account for a transaction in derivatives as a business under § 64.2-1050, the fiduciary shall allocate 10 percent of receipts from the transaction and 10 percent of disbursements made in connection with the transaction to income and the balance to principal.

C. Subsection D applies if:

1. A fiduciary:

- a. Grants an option to buy property from a trust, whether or not the trust owns the property when the option is granted;
 - b. Grants an option that permits another person to sell property to the trust; or
 - c. Acquires an option to buy property for the trust or an option to sell an asset owned by the trust; and
2. The fiduciary or other owner of the asset is required to deliver the asset if the option is exercised.

D. If this subsection applies, the fiduciary shall allocate 10 percent to income and the balance to principal of the following amounts:

1. An amount received for granting the option;
2. An amount paid to acquire the option; and
3. Gain or loss realized on the exercise, exchange, settlement, offset, closing, or expiration of the option.

§ 64.2-1062. Asset-backed security.

A. Except as otherwise provided in subsection B, a fiduciary shall allocate to income a receipt from or related to an asset-backed security, to the extent the payor identifies the payment as being from interest or other current return, and to principal the balance of the receipt.

B. If a fiduciary receives one or more payments in exchange for part or all of the fiduciary's interest in an asset-backed security, including a liquidation or redemption of the fiduciary's interest in the security, the fiduciary shall allocate to income 10 percent of receipts from the transaction and 10 percent of disbursements made in connection with the transaction and to principal the balance of the receipts and disbursements.

§ 64.2-1063. Other financial instrument or arrangement.

A fiduciary shall allocate receipts from or related to a financial instrument or arrangement not otherwise addressed by this chapter. The allocation must be consistent with §§ 64.2-1061 and 64.2-1062.

Article 7.

Allocation of Disbursements.

§ 64.2-1064. Disbursement from income.

Subject to § 64.2-1067, and except as otherwise provided in subdivision C 2 or 3 of § 64.2-1071, a fiduciary shall disburse from income:

1. One-half of:

- a. The regular compensation of the fiduciary and any person providing investment advisory, custodial, or other services to the fiduciary, to the extent income is sufficient; and
- b. An expense for an accounting, judicial or nonjudicial proceeding, or other matter that involves both income and successive interests, to the extent income is sufficient;

2. The balance of the disbursements described in subdivision 1, to the extent a fiduciary that is an independent person determines that making those disbursements from income would be in the interests of the beneficiaries;

3. Another ordinary expense incurred in connection with administration, management, or preservation of property and distribution of income, including interest, an ordinary repair, regularly recurring tax assessed against principal, and an expense of an accounting, judicial or nonjudicial proceeding, or other matter that involves primarily an income interest, to the extent income is sufficient; and

4. A premium on insurance covering loss of a principal asset or income from or use of the asset.

§ 64.2-1065. Disbursement from principal.

A. Subject to § 64.2-1068, and except as otherwise provided in subdivision C 2 of § 64.2-1071, a fiduciary shall disburse from principal:

(10) Defending claims based on environmental matters; and

b. For a premium for insurance for matters described in subdivision a.

B. If a principal asset is encumbered with an obligation that requires income from the asset to be paid directly to a creditor, the fiduciary shall transfer from principal to income an amount equal to the income paid to the creditor in reduction of the principal balance of the obligation.

C. Notwithstanding any other provision of law and unless the terms of the trust provide to the contrary, a trustee may pay from the principal of the trust from time to time (i) the federal or state income taxes, or both, imposed upon the settlor on income of the trust that is not distributed to the settlor or (ii) such amounts that are required to reimburse the settlor for any federal or state income taxes, or both, imposed on the settlor on income of the trust that is not distributed to the settlor. The trustee shall not have the power to make payments pursuant to this subsection with respect to any trust where a charitable income, estate, or gift tax deduction has been allowed, in whole or in part, for the contributions to such trust if the exercise of such power would limit or reduce the amount of such deduction.

§ 64.2-1066. Transfer from income to principal for depreciation.

A. As used in this section, "depreciation" means a reduction in value due to wear, tear, decay, corrosion, or gradual obsolescence of a tangible asset having a useful life of more than one year.

B. A fiduciary may transfer to principal a reasonable amount of the net cash receipts from a principal asset that is subject to depreciation, but may not transfer any amount for depreciation:

1. Of the part of real property used or available for use by a beneficiary as a residence;

2. Of tangible personal property held or made available for the personal use or enjoyment of a beneficiary; or

3. Under this section, to the extent the fiduciary accounts:

a. Under § 64.2-1057 for the asset; or

b. Under § 64.2-1050 for the business or other activity in which the asset is used.

C. An amount transferred to principal under this section need not be separately held.

§ 64.2-1067. Reimbursement of income from principal.

A. If a fiduciary makes or expects to make an income disbursement described in subsection B, the fiduciary may transfer an appropriate amount from principal to income in one or more accounting periods to reimburse income.

B. To the extent the fiduciary has not been and does not expect to be reimbursed by a third party, income disbursements to which subsection A applies include:

1. An amount chargeable to principal but paid from income because principal is illiquid;

2. A disbursement made to prepare property for sale, including improvements and commissions; and

3. A disbursement described in subsection A of § 64.2-1065.

C. If an asset whose ownership gives rise to an income disbursement becomes subject to a successive interest after an income interest ends, the fiduciary may continue to make transfers under subsection A.

§ 64.2-1068. Reimbursement of principal from income.

A. If a fiduciary makes or expects to make a principal disbursement described in subsection B, the fiduciary may transfer an appropriate amount from income to principal in one or more accounting periods to reimburse principal or provide a reserve for future principal disbursements.

B. To the extent a fiduciary has not been and does not expect to be reimbursed by a third party, principal disbursements to which subsection A applies include:

1. An amount chargeable to income but paid from principal because income is not sufficient;

2. The cost of an improvement to principal, whether a change to an existing asset or the construction of a new asset, including a special assessment;

3. A disbursement made to prepare property for rental, including tenant allowances, leasehold improvements, and commissions;

4. A periodic payment on an obligation secured by a principal asset, to the extent the amount transferred from income to principal for depreciation is less than the periodic payment; and

5. A disbursement described in subsection A of § 64.2-1065.

C. If an asset whose ownership gives rise to a principal disbursement becomes subject to a successive interest after an income interest ends, the fiduciary may continue to make transfers under subsection A.

§ 64.2-1069. Income taxes.

A. A tax required to be paid by a fiduciary that is based on receipts allocated to income must be paid from income.

B. A tax required to be paid by a fiduciary that is based on receipts allocated to principal must be paid from principal, even if the tax is called an income tax by the taxing authority.

C. Subject to subsection D and §§ 64.2-1067, 64.2-1068, and 64.2-1070, a tax required to be paid by a fiduciary on a share of an entity's taxable income in an accounting period must be paid from:

1. Income and principal proportionately to the allocation between income and principal of receipts from the entity in the period; and

2. Principal, to the extent the tax exceeds the receipts from the entity in the period.

D. After applying subsections A, B, and C, a fiduciary shall adjust income or principal receipts, to the extent the taxes the fiduciary pays are reduced because of a deduction for a payment made to a beneficiary.

§ 64.2-1070. Adjustment between income and principal because of taxes.

A. A fiduciary may make an adjustment between income and principal to offset the shifting of economic interests or tax benefits between current income beneficiaries and successor beneficiaries that arises from:

1. An election or decision the fiduciary makes regarding a tax matter, other than a decision to claim an income tax deduction to which subsection B applies;

2. An income tax or other tax imposed on the fiduciary or a beneficiary as a result of a transaction involving the fiduciary or a distribution by the fiduciary; or

3. Ownership by the fiduciary of an interest in an entity a part of whose taxable income, whether or not distributed, is includable in the taxable income of the fiduciary or a beneficiary.

B. If the amount of an estate tax marital or charitable deduction is reduced because a fiduciary deducts an amount paid from principal for income tax purposes instead of deducting it for estate tax purposes and, as a result, estate taxes paid from principal are increased and income taxes paid by the fiduciary or a beneficiary are decreased, the fiduciary shall charge each beneficiary that benefits from the decrease in income tax to reimburse the principal from which the increase in estate tax is paid. The total reimbursement must equal the increase in the estate tax, to the extent the principal used to pay the increase would have qualified for a marital or charitable deduction but for the payment. The share of the reimbursement for each fiduciary or beneficiary whose income taxes are reduced must be the same as its share of the total decrease in income tax.

C. A fiduciary that charges a beneficiary under subsection B may offset the charge by obtaining payment from the beneficiary, withholding an amount from future distributions to the beneficiary, or adopting another method or combination of methods.

Article 8.

Death of Individual or Termination of Income Interest.

§ 64.2-1071. Determination and distribution of net income.

A. This section applies when:

1. The death of an individual results in the creation of an estate or trust; or

2. An income interest in a trust terminates, whether the trust continues or is distributed.

B. A fiduciary of an estate or trust with an income interest that terminates shall determine, under subsection G and Articles 4 (§ 64.2-1048 et seq.), 5 (§ 64.2-1051 et seq.), 6 (§ 64.2-1055 et seq.), 7 (§ 64.2-1064 et seq.), and 9 (§ 64.2-1073 et seq.), the amount of net income and net principal receipts received from property specifically given to a beneficiary. The fiduciary shall distribute the net income and net principal receipts to the beneficiary that is to receive the specific property.

C. A fiduciary shall determine the income and net income of an estate or income interest in a trust that terminates, other than the amount of net income determined under subsection B, under Articles 4 (§ 64.2-1048 et seq.), 5 (§ 64.2-1051 et seq.), 6 (§ 64.2-1055 et seq.), 7 (§ 64.2-1064 et seq.), and 9 (§ 64.2-1073 et seq.), and by:

1. Including in net income all income from property used or sold to discharge liabilities;

2. Paying from income or principal, in the fiduciary's discretion, fees of attorneys, accountants, and fiduciaries, court costs and other expenses of administration, and interest on estate and inheritance taxes and other taxes imposed because of the decedent's death, but the fiduciary may pay the expenses from income of property passing to a trust for which the fiduciary claims a federal estate tax marital or charitable deduction only to the extent:

a. The payment of the expenses from income will not cause the reduction or loss of the deduction; or

b. The fiduciary makes an adjustment under subsection B of § 64.2-1070; and

3. Paying from principal other disbursements made or incurred in connection with the settlement of the estate or the winding up of an income interest that terminates, including:

a. To the extent authorized by the decedent's will, the terms of the trust, or applicable law, debts, funeral expenses, disposition of remains, family allowances, estate and inheritance taxes, and other taxes imposed because of the decedent's death; and

b. Related penalties that are apportioned, by the decedent's will, the terms of the trust, or applicable law, to the estate or income interest that terminates.

D. If a decedent's will, the terms of a trust, or applicable law provides for the payment of interest or the equivalent of interest to a beneficiary that receives a pecuniary amount outright, the fiduciary shall make the payment from net income determined under subsection C or from principal, to the extent net income is insufficient.

E. If a beneficiary is to receive a pecuniary amount outright from a trust after an income interest ends because of an income beneficiary's death, and no payment of interest or the equivalent of interest is provided for by the terms of the trust or applicable law, the fiduciary shall pay the interest or the equivalent of interest to which the beneficiary would be entitled under applicable law if the pecuniary amount were required to be paid under a will.

F. A fiduciary shall distribute net income remaining after payments required by subsections D and E in the manner described in § 64.2-1072 to all other beneficiaries, including a beneficiary that receives a pecuniary amount in trust, even if the beneficiary holds an unqualified power to withdraw assets from the trust or other presently exercisable general power of appointment over the trust.

G. A fiduciary may not reduce principal or income receipts from property described in subsection B because of a payment described in § 64.2-1064 or 64.2-1065, to the extent the decedent's will, the terms of the trust, or applicable law requires the fiduciary to make the payment from assets other than the property or to the extent the fiduciary recovers or expects to recover the payment from a third party. The net income and principal receipts from the property must be determined by including the amount the fiduciary receives or pays regarding the property, whether the amount accrued or became due before, on, or after the date of the decedent's death or an income interest's terminating event, and making a reasonable provision for an amount the estate or income interest may become obligated to pay after the property is distributed.

§ 64.2-1072. Distribution to successor beneficiary.

A. Except to the extent Article 3 (§ 64.2-1039 et seq.) applies for a beneficiary that is a trust, each beneficiary described in subsection F of § 64.2-1071 is entitled to receive a share of the net income equal to the beneficiary's fractional interest in undistributed principal assets, using values as of the distribution date. If a fiduciary makes more than one distribution of assets to beneficiaries to which this section applies, each beneficiary, including a beneficiary that does not receive part of the distribution, is entitled, as of each distribution date, to a share of the net income the fiduciary received after the decedent's death, an income interest's other terminating event, or the preceding distribution by the fiduciary.

B. In determining a beneficiary's share of net income under subsection A, the following rules apply:

1. The beneficiary is entitled to receive a share of the net income equal to the beneficiary's fractional interest in the undistributed principal assets immediately before the distribution date.

2. The beneficiary's fractional interest under subdivision 1 must be calculated:

a. On the aggregate value of the assets as of the distribution date without reducing the value by any unpaid principal obligation; and

b. Without regard to:

(1) Property specifically given to a beneficiary under the decedent's will or the terms of the trust; and

(2) Property required to pay pecuniary amounts not in trust.

3. The distribution date under subdivision 1 may be the date as of which the fiduciary calculates the value of the assets if that date is reasonably near the date on which the assets are distributed.

C. To the extent a fiduciary does not distribute under this section all of the collected but undistributed net income to each beneficiary as of a distribution date, the fiduciary shall maintain records showing the interest of each beneficiary in the net income.

D. If this section applies to income from an asset, a fiduciary may apply the rules in this section to net gain or loss realized from the disposition of the asset after the decedent's death, an income interest's terminating event, or the preceding distribution by the fiduciary.

Article 9.

Apportionment at Beginning and End of Income Interest.

§ 64.2-1073. When right to income begins and ends.

A. An income beneficiary is entitled to net income in accordance with the terms of the trust from the date an income interest begins. The income interest begins on the date specified in the terms of the trust or, if no date is specified, on the date an asset becomes subject to:

1. The trust for the current income beneficiary; or

2. A successive interest for a successor beneficiary.

B. An asset becomes subject to a trust under subdivision A 1:

1. For an asset that is transferred to the trust during the settlor's life, on the date the asset is transferred;

2. For an asset that becomes subject to the trust because of a decedent's death, on the date of the decedent's death, even if there is an intervening period of administration of the decedent's estate; or

3. For an asset that is transferred to a fiduciary by a third party because of a decedent's death, on the date of the decedent's death.

C. An asset becomes subject to a successive interest under subdivision A 2 on the day after the preceding income interest ends, as determined under subsection D, even if there is an intervening period of administration to wind up the preceding income interest.

D. An income interest ends on the day before an income beneficiary dies or another terminating event occurs or on the last day of a period during which there is no beneficiary to which a fiduciary may or must distribute income.

§ 64.2-1074. Apportionment of receipts and disbursements when decedent dies or income interest begins.

A. A fiduciary shall allocate an income receipt or disbursement, other than a receipt to which subsection B of § 64.2-1071 applies, to principal if its due date occurs before the date on which:

1. For an estate, the decedent died; or
2. For a trust or successive interest, an income interest begins.

B. If the due date of a periodic income receipt or disbursement occurs on or after the date on which a decedent died or an income interest begins, a fiduciary shall allocate the receipt or disbursement to income.

C. If an income receipt or disbursement is not periodic or has no due date, a fiduciary shall treat the receipt or disbursement under this section as accruing from day to day. The fiduciary shall allocate to principal the portion of the receipt or disbursement accruing before the date on which a decedent died or an income interest begins and to income the balance.

D. A receipt or disbursement is periodic under subsections B and C if:

1. The receipt or disbursement must be paid at regular intervals under an obligation to make payments; or
2. The payor customarily makes payments at regular intervals.

E. An item of income or obligation is due under this section on the date the payor is required to make a payment. If a payment date is not stated, there is no due date.

F. Distributions to shareholders or other owners from an entity to which § 64.2-1048 applies are due:

1. On the date fixed by or on behalf of the entity for determining the persons entitled to receive the distribution;
2. If no date is fixed, on the date of the decision by or on behalf of the entity to make the distribution; or
3. If no date is fixed and the fiduciary does not know the date of the decision by or on behalf of the entity to make the distribution, on the date the fiduciary learns of the decision.

§ 64.2-1075. Apportionment when income interest ends.

A. As used in this section, "undistributed income" means net income received on or before the date on which an income interest ends. "Undistributed income" does not include an item of income or expense that is due or accrued or net income that has been added or is required to be added to principal under the terms of the trust.

B. Except as otherwise provided in subsection C, when a mandatory income interest of a beneficiary ends, the fiduciary shall pay the beneficiary's share of the undistributed income that is not disposed of under the terms of the trust to the beneficiary or, if the beneficiary does not survive the date the interest ends, to the beneficiary's estate.

C. If a beneficiary has an unqualified power to withdraw more than five percent of the value of a trust immediately before an income interest ends:

1. The fiduciary shall allocate to principal the undistributed income from the portion of the trust which may be withdrawn; and

2. Subsection B applies only to the balance of the undistributed income.

D. When a fiduciary's obligation to pay a fixed annuity or a fixed fraction of the value of assets ends, the fiduciary shall prorate the final payment as required to preserve an income tax, gift tax, estate tax, or other tax benefit.

~~The Governor shall approve the adjustment to the state share prior to the disbursement of funds. The Department of Education shall annually report to the Chairmen of the House Committee on Appropriations and Senate Committee on Finance and Appropriations the cost-savings agreements made and the adjusted state shares so approved.~~

B. The local school board receiving the adjusted state share shall not use the additional funds received to supplant local funds appropriated for education. The adjusted state share shall be used solely for educational purposes and shall not be used to reduce local operating expenditures for public education from the prior fiscal year. However, no school division shall be required to maintain a per pupil expenditure for operations that exceeds the per pupil expenditure in the prior fiscal year. The superintendent of the school division shall inform the Superintendent of Public Instruction of the public education purpose for which these local funds shall be used.

C. Nothing in this section shall prohibit the Commonwealth from terminating or modifying any program or function under which distribution to a local school board has been made, and if so terminated or modified all obligations hereunder shall cease or be reduced in proportion with such modifications, as the case may be.

D. Except as provided in subsection C, such contractual agreements shall remain in effect until terminated by the relevant school divisions. If any such contractual agreements between the relevant school divisions terminate, the Commonwealth's obligation under this section shall cease.

E. This agreement and adjusted state payment shall be in lieu of any existing funds a locality receives from a Small School Division Assistance grant.

~~F. Any standard of quality set forth in this act that is not required as of June 30, 2004, and for which additional state funding is required, shall not take effect unless the state's share of funding that standard is included in the general~~

appropriation act for the period July 1, 2004, through June 30, 2006, passed during the 2004 Session of the General Assembly and signed into law by the Governor.

§ 22.1-129. Surplus property; sale, exchange or lease of real and personal property.

A. Whenever a school board determines that it has no use for some of its real property, the school board may sell such property and may retain all or a portion of the proceeds of such sale upon approval of the local governing body and after the school board has held a public hearing on such sale and retention of proceeds, or may convey the title to such real property to the county or city or town comprising the school division or, if the school division is composed of more than one county or city, to the county or city in which the property is located. To convey the title, the school board shall adopt a resolution that such real property is surplus and shall record such resolution along with the deed to the property with the clerk of the circuit court for the county or city where such property is located. Upon the recording of the resolution and the deed, the title shall vest in the appropriate county, city or town.

B. A school board shall have the power to exchange real and personal property, to lease real and personal property either as lessor or lessee, to grant easements on real property, to convey real property in trust to secure loans, to convey real property to adjust the boundaries of the property and to sell personal property in such manner and upon such terms as it deems proper. As lessee of real property, a school board shall have the power to expend funds for capital repairs and improvements on such property, if the lease is for a term equal to or longer than the useful life of such repairs or improvements.

C. Notwithstanding the provisions of subsections A and B, a school board shall have the power to sell career and technical education projects and associated land pursuant to § 22.1-234.

Notwithstanding the provisions of subsections A and B, a school board of the City of Virginia Beach shall have the power to sell property to the Virginia Department of Transportation or the Commissioner of Highways when the Commissioner has determined that (i) such conveyance is necessary and (ii) when eminent domain has been authorized for the construction, reconstruction, alteration, maintenance, and repair of the public highways of the Commonwealth, and for all other purposes incidental thereto, including, ~~but not limited to,~~ the relocation of public utilities as may be required.

D. School boards may donate obsolete educational technology hardware and software that is being replaced pursuant to ~~subdivision~~ *subsection B 4* of § 22.1-199.1. Any such donations shall be offered to other school divisions, to students, as provided in Board of Education guidelines, and to preschool programs in the Commonwealth. In addition, elected school boards may donate such obsolete educational technology hardware and software and other obsolete personal property to a Virginia nonprofit organization which is exempt from taxation under § 501(c)(3) of the Internal Revenue Code.

§ 22.1-175.4. Application for grants.

~~A. All funds appropriated for financial assistance for the purposes of this chapter during fiscal years 1998-1999 and 1999-2000 pursuant to Item 554 of the 1998-2000 Appropriation Act shall be apportioned and distributed among the school divisions of the Commonwealth as follows: (i) there shall be apportioned and distributed equally to every school division grants in the sum of \$200,000 each and (ii) the balance of all available funds shall be apportioned and distributed to each school division on a pro rata basis according to the school division's average daily membership adjusted by the locality's composite index of ability to pay as set forth in the general appropriation act.~~

~~Local governing bodies may establish a separate escrow fund for the deposit of such funds as provided in § 22.1-175.5.~~

~~B. All funds appropriated for financial assistance for the purposes of this chapter for subsequent fiscal years shall be apportioned and distributed among the school divisions of the Commonwealth in accordance with eligibility and needs criteria to be established by the 2000 Session of the General Assembly. In developing such eligibility and needs criteria, the 2000 Session of the General Assembly shall consider the recommendations of the Commission on State Funding of Public School Construction.~~

§ 22.1-178. Requirements for persons employed to drive school buses.

A. No school board shall hire, employ, or enter into any agreement with any person for the purposes of operating a school bus transporting pupils unless the person proposed to so operate such school bus shall:

1. Have a physical examination of a scope prescribed by the Board of Education with the advice of the Medical Society of Virginia and furnish a form prescribed by the Board of Education showing the results of such examination.
2. Furnish a statement or copy of records from the Department of Motor Vehicles showing that the records of such Department do not disclose that the person, within the preceding five years, has been convicted upon a charge of driving under the influence of alcohol or drugs, convicted of a felony or assigned to any alcohol safety action program or driver alcohol rehabilitation program pursuant to § 18.2-271.1 or, within the preceding 12 months, has been convicted of two or more moving traffic violations or required to attend a driver improvement clinic by the Commissioner of the Department of Motor Vehicles pursuant to § 46.2-498.
3. Furnish a statement signed by two reputable persons who reside in the school division or in the applicant's community that the person is of good moral character.
4. Exhibit a license showing the person has successfully undertaken the examination prescribed by § 46.2-339.
5. Have reached the age of 18 ~~on~~ by the first day of the school year.

B. Any school board may require proof of current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator as a condition to employment to operate a school bus transporting pupils.

C. School boards may require persons accepting employment ~~after July 1, 1994~~, as a driver of a school bus transporting pupils to agree, as a condition of employment, to submit to alcohol and controlled substance testing. Any such tests shall be conducted in compliance with Board of Education regulations.

D. The documents required pursuant to subdivisions A 1 and A 2 shall be furnished annually prior to the anniversary date of the employment agreement as a condition to continuing employment to operate a school bus.

E. The documents required pursuant to this section shall be filed with, and made a part of, the records of the school board employing such person as a school bus operator.

F. The ~~State Department of Education~~ shall furnish to the several division superintendents the necessary forms to be used by applicants in furnishing the information required by this section. Insofar as practicable, such forms shall be designed to limit paperwork, avoid the possibility of mistake, and furnish all parties involved with a complete and accurate record of the information required.

G. The physical examination required by subsection A may be performed and the report of the results signed by a licensed nurse practitioner or physician assistant.

§ 22.1-199.1. Programs designed to promote educational opportunities.

A. The General Assembly finds that Virginia educational research supports the conclusion that poor children are more at risk of educational failure than children from more affluent homes and that reduced pupil/teacher ratios and class sizes result in improved academic performance among young children; to this end, the General Assembly establishes a long-term goal of reducing pupil/teacher ratios and class sizes for grades K through three in those schools in the Commonwealth with high or moderate concentrations of at-risk students.

With such funds as are provided in the appropriation act for this purpose, there is hereby established the statewide voluntary pupil/teacher ratio and class size reduction program for the purpose of reaching the long-term goal of statewide voluntary pupil/teacher ratio and class size reductions for grades K through three in schools with high or moderate concentrations of at-risk students, consistent with the provisions provided in the appropriation act.

In order to facilitate these primary grade ratio and class size reductions, the ~~Department of Education~~ shall calculate the state funding of these voluntary ratio and class size reductions based on the incremental cost of providing the lower class sizes according to the greater of the division average per-pupil cost of all divisions or the actual division per-pupil cost. Localities shall provide matching funds for these voluntary ratio and class size reductions based on the composite index of local ability to pay. School divisions shall notify the ~~Department of Education~~ of their intention to implement the reduced ratios and class sizes in one or more of their qualifying schools by August 1 of each year. By March 31 of each year, school divisions shall forward data substantiating that each participating school has a complying pupil/teacher ratio.

In developing each proposed biennium budget for public education, the ~~Board of Education~~ shall include funding for these ratios and class sizes. These ratios and class sizes shall be included in the annual budget for public education.

B. The General Assembly finds that educational technology is one of the most important components, along with highly skilled teachers, in ensuring the delivery of quality public school education throughout the Commonwealth. Therefore, the ~~Board of Education~~ shall strive to incorporate technological studies within the teaching of all disciplines. Further, the General Assembly notes that educational technology can only be successful if teachers and administrators are provided adequate training and assistance. To this end, the following program is established.

With such funds as are appropriated for this purpose, the ~~Board of Education~~ shall award to the several school divisions grants for expanded access to educational technology. Funding for educational technology training for instructional personnel shall be provided as set forth in the appropriation act.

Funds for improving the quality and capacity of educational technology shall also be provided as set forth in the appropriation act, including, ~~but not limited to~~, (i) funds for providing a technology resource assistant to serve every elementary school in this Commonwealth ~~beginning on July 1, 1998~~; and (ii) funds to maintain the currency of career and technical education programs. Any local school board accepting funds to hire technology resource assistants or maintain currency of career and technical education programs shall commit to providing the required matching funds, based on the composite index of local ability to pay.

Each qualifying school board shall establish an individualized technology plan, which shall be approved by the Superintendent of ~~Public Instruction~~, for integrating technology into the classroom and into schoolwide instructional programs, including career and technical education programs. The ~~grants shall be prioritized as follows~~:

~~1. In the 1994 biennium, the first priority for these funds shall be to automate the library media centers and provide network capabilities in Virginia's elementary, middle and high schools, or combination thereof, in order to ensure access to the statewide library and other information networks. If any elementary, middle or high school has already met this priority, the 1994 biennium grant shall be used to provide other educational technologies identified in the relevant division's approved technology plan, such as multimedia and telecomputing packages, integrated learning systems, laptop computer loan programs, career and technical education laboratories or other electronic techniques designed to enhance public education and to facilitate teacher training in and implementation of effective instructional technology. The Board shall also distribute, as provided in the appropriation act, funds to support the purchase of electronic reference materials for use in the statewide automated reference system.~~

~~2. In the 1996 biennium and thereafter, the first priority for funding shall be consistent with those components of the Board of Education's Board's revised six-year technology plan which that focus on (i) retrofitting and upgrading existing school buildings to efficiently use educational technology; (ii) providing (a) one network-ready multimedia microcomputer~~

for each classroom, (b) a five-to-one ratio of pupils to network-ready microcomputers, (c) graphing calculators and relevant scientific probes/sensors as required by the Standards of Learning, and (d) training and professional development on available technologies and software to all levels and positions, including professional development for personnel delivering career and technical education at all levels and positions; and (iii) assisting school divisions in developing integrated voice-, video-, and data-connectivity to local, national, and international resources.

This funding may be used to implement a local school division's long-range technology plan, at the discretion of the relevant school board, if the local plan meets or exceeds the goals and standards of the Board's revised six-year technology plan and has been approved by the Superintendent of Public Instruction.

~~3. The Departments Department of Education, Information Technology, and the Department of General Services, and the Virginia Information Technologies Agency shall coordinate master contracts for the purchase by local school boards of the aforementioned educational technologies and reference materials.~~

~~4. Beginning on July 1, 1998, a A technology replacement program shall be, with such funds as may be appropriated for this purpose, implemented to replace obsolete educational hardware and software. As provided in subsection D of § 22.1-129, school boards may donate obsolete educational technology hardware and software which that are being replaced. Any such donations shall be offered to other school divisions and to preschool programs in the Commonwealth; or to public school students as provided in guidelines to be promulgated by the Board of Education. Such guidelines shall include criteria for determining student eligibility and needs; a reporting system for the compilation of information concerning the number and socioeconomic characteristics of recipient students; and notification of parents of the availability of such donations of obsolete educational hardware and software.~~

~~5. In fiscal year 2000, the Board of Education shall, with such funds as are appropriated for this purpose, contract for the development or purchase of interactive educational software and other instructional materials designed as tutorials to improve achievement on the Standards of Learning assessments. Such interactive educational software and other instructional materials may be used in media centers, computer laboratories, libraries, after school or before school programs or remedial programs by teachers and other instructional personnel or provided to parents and students to be used in the home. This interactive educational software and other instructional materials shall only be used as supplemental tools for instruction, remediation, and acceleration of the learning required by the K through 12 Standards of Learning objectives.~~

~~Consistent with school board policies designed to improve school-community communications and guidelines for providing instructional assistance in the home, each school division shall strive to establish a voice mail communication system after regular school hours for parents, families, and teachers by the year 2000.~~

C. The General Assembly finds that local autonomy in making decisions on local educational needs and priorities results in effective ~~grass-roots~~ *grassroots* efforts to improve education in the Commonwealth's public schools only when coupled with sufficient state funding; to this end, the following block grant program is hereby established. With such funds as are provided in the appropriation act, the Department of Education shall distribute block grants to localities to enable compliance with the Commonwealth's requirements for school divisions in effect on January 1, 1995. Therefore, for the purpose of such compliance, the block grant herein established shall consist of a sum equal to the amount appropriated in the appropriation act for the covered programs, including the at-risk add-on program; dropout prevention, specifically Project YES; Project Discovery; English as a second language programs, including programs for overage, nonschooled students; Advancement Via Individual Determination (AVID); the Homework Assistance Program; programs initiated under the Virginia Guaranteed Assistance Program, except that such funds shall not be used to pay any expenses of participating students at institutions of higher education; Reading Recovery; and school/community health centers. Each school board may use any funds received through the block grant to implement the covered programs and other programs designed to save the Commonwealth's children from educational failure.

D. In order to reduce pupil/teacher ratios and class sizes in elementary schools, from such funds as may be appropriated for this purpose, each school board may employ additional classroom teachers, remedial teachers, and reading specialists for each of its elementary schools over the requirements of the Standards of Quality. State and local funding for such additional classroom teachers, remedial teachers, and reading specialists shall be apportioned as provided in the appropriation act.

E. Pursuant to a turnaround specialist program administered by the Department of Education, local school boards may enter into agreements with individuals to be employed as turnaround specialists to address those conditions at the school that may impede educational progress and effectiveness and academic success. Local school boards may offer such turnaround specialists or other administrative personnel incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

F. The General Assembly finds that certain schools have particular difficulty hiring teachers for certain subject areas and that the need for such teachers in these schools is particularly strong. Accordingly in an effort to attract and retain high quality teachers, local school boards may offer instructional personnel serving in such schools as a member of a middle school teacher corps administered by the Department of Education incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

For purposes of this subsection, "middle school teacher corps" means licensed instructional personnel who are assigned to a local school division to teach in a subject matter in grades six, seven, or eight where there is a critical need, as

determined by the Department of Education. The contract between such persons and the relevant local school board shall specify that the contract is for service in the middle school teacher corps.

§ 22.1-207.3. School breakfast programs.

A. ~~By July 1, 1994, upon~~ *Upon* the appropriation and authorization of federal funds for the reimbursement of school breakfast programs, each school board shall establish a school breakfast program in any public school in which ~~twenty-five~~ 25 percent or more of enrolled school-age children were approved eligible to receive free or reduced price meals in the federally funded lunch program during the previous school year.

B. The Board of Education shall promulgate regulations for the implementation of the program. Such regulations shall include, but not be limited to, criteria for eligibility and exemptions; a reporting system for the compilation and analysis of information concerning the number and socioeconomic characteristics of participating school-age children; standards for food services; program evaluation; the investigation of complaints; an appeals process; notification of parents and guardians of the availability of the school breakfast program; and provision to teachers, children, and their parents or guardians of nutrition information describing the relationship between good nutrition, learning, and health.

C. Each school board subject to the provisions of this section shall develop and implement a plan to ensure compliance with the provisions of subsection A and submit the plan to the Department of Education no later than ~~thirty~~ 30 days prior to the commencement of the program. ~~Beginning by June 30, 1995, and thereafter annually, each~~ *Each* school board shall ~~annually~~ report such information as required in subsection B to the Department of Education on such forms and in the manner to be prescribed by the Board. In the event that federal funding for school breakfast programs is reduced or eliminated, a school board may support the program with such state or local funds as may be appropriated for such purposes.

§ 22.1-209.2. Programs and teachers in regional detention homes, certain local detention homes and state agencies and institutions.

The Board of Education shall prepare and supervise the implementation in the regional detention homes and ~~those~~ local detention homes ~~having teachers whose salaries were being funded by the Commonwealth on January 1, 1984,~~ a program designed to educate and train the children detained in the homes. In addition, the Board shall supervise those programs of evaluation, education, and training provided to school-age children by the Department of Health, the Department of Behavioral Health and Developmental Services, the children's teaching hospital associated with the Eastern Virginia Medical School, the Virginia Commonwealth University Health System Authority, the children's teaching hospital associated with the Virginia Commonwealth University Health System Authority, and the University of Virginia Hospitals pursuant to the Board's standards and regulations as required by § 22.1-7.

The Board shall promulgate such rules and regulations as may be necessary to conform these programs with the applicable federal and state laws and regulations including; ~~but not limited to,~~ teacher/student ratios and special education requirements for children with disabilities. The education programs in the relevant detention homes and state agencies and institutions shall be approved by the Board, and the Board shall prepare a budget for these educational programs ~~which~~ *that* shall be solely supported by such general funds as are appropriated by the General Assembly for this purpose. Teacher staffing ratios for regional or local detention homes shall be based on a ratio of one teacher for every ~~twelve~~ 12 beds based on the capacity of the facility; however, if the previous year's average daily attendance exceeds this bed capacity, the ratio shall be based on the average daily attendance at the facility as calculated by the Department of Education from the previous school year.

The Board of Education shall enter into contracts with the relevant state agency or institution or detention facility or the local school divisions in which the state agencies or institutions or the regional detention homes and the relevant local detention homes are located for the hiring and supervision of teachers.

In any case in which the Board enters into a contract with the relevant state agency or institution, the Department of Human Resource Management shall establish salary schedules for the teachers ~~which~~ *that* are competitive with those in effect for the school divisions in which the agency or institution is located.

§ 22.1-212.24. Approval of multidivision online providers; contracts with local school boards.

A. The Superintendent of Public Instruction shall develop, and the Board of Education shall approve, (i) the criteria and application process for approving multidivision online providers; (ii) a process for monitoring approved multidivision online providers; (iii) a process for revocation of the approval of a previously approved multidivision online provider; and (iv) an appeals process for a multidivision online provider whose approval was revoked or whose application was denied. The process developed under this subsection shall require approvals and revocations to be determined by the Superintendent of Public Instruction, and either the denial of an application or revocation of approval may be appealed to the Board of Education for review. The approval of a multidivision online provider under this section shall be effective until the approval is revoked, for cause, pursuant to the terms of this section. Any notice of revocation of approval of a multidivision online provider or rejection of an application by a multidivision online provider shall state the grounds for such action with reasonable specificity and give reasonable notice to the multidivision online provider to appeal. ~~These criteria and processes shall be adopted by January 31, 2011.~~

B. In developing the criteria for approval pursuant to subsection A, the Superintendent of Public Instruction shall (i) require multidivision online providers to be accredited by a national, regional, or state accreditation program approved by the Board; (ii) require such courses or programs, pupil performance standards, and curriculum to meet or exceed any applicable Standards of Learning and Standards of Accreditation; (iii) require any educational objectives and assessments

used to measure pupil progress toward achievement of the school's pupil performance standards to be in accordance with the Board's Standards of Accreditation and all applicable state and federal laws; (iv) require such courses or programs to maintain minimum staffing requirements appropriate for virtual school programs; and (v) publish the criteria for approval of multidivision online providers on its website, including any applicable deadlines, fees, and guidelines.

C. ~~The Department of Education~~ may charge a multidivision online provider applicant or a local school board requesting to offer a course through Virtual Virginia a fee not to exceed the costs required to ensure proper evaluation and approval of such requests. The Department shall establish and publish a fee schedule for purposes of this subsection.

D. Local school boards may enter into contracts, consistent with the criteria approved by the Board pursuant to this section, with approved private or nonprofit organizations to provide multidivision online courses and virtual school programs. Such contracts shall be exempt from the Virginia Public Procurement Act (§ 2.2-4300 et seq.).

§ 22.1-212.25. Information regarding online courses and virtual programs; report.

A. ~~The Department of Education~~ shall develop and maintain a website that provides objective information for students, parents, and educators regarding online courses and virtual programs offered through local school boards by multidivision online providers that have been approved in accordance with § 22.1-212.24 and courses offered through the Virtual Virginia Program. The website shall include information regarding the overall instructional programs, the specific content of individual online courses and online programs, a direct link to each multidivision online provider's website, how to register for online learning programs and courses, teacher qualifications, course completion rates, and other evaluative and comparative information. The website shall also provide information regarding the process and criteria for approving multidivision online providers. Multidivision online providers shall provide the ~~Department of Education~~ the required information for the website as a condition of maintaining Board approval.

B. ~~The Superintendent of Public Instruction~~ shall develop model policies and procedures regarding student access to online courses and online learning programs that may be used by local school divisions.

Nothing in this article shall be deemed to require a local school division to adopt model policies or procedures developed pursuant to this section.

C. ~~Beginning November 1, 2011, and annually thereafter, the~~ ~~The Board of Education~~ shall include in its annual report to the Governor and the General Assembly information regarding multidivision online learning during the previous school year. The information shall include but not be limited to student demographics, course enrollment data, parental satisfaction, aggregated student course completion and passing rates, and activities and outcomes of course and provider approval reviews. ~~The November 1, 2011, report shall be an interim progress report and include information on the criteria and processes adopted by the Board and outcomes of provider applications.~~

D. ~~By July 1, 2011, local~~ Local school boards shall post on their websites information regarding online courses and programs that are available through the school division and Virtual Virginia. Such information shall include but not be limited to the types of online courses and programs available to students through the school division, when the school division will pay course fees and other costs for nonresident students, and the granting of high school credit.

§ 22.1-215.1. Information regarding procedures and rights relating to special education placement and withdrawal.

~~Effective July 1, 2001, the~~ ~~The Board of Education~~ shall publicize and disseminate to parents of students who are enrolled in special education programs or for whom a special education placement has been recommended information regarding current federal law and regulation addressing procedures and rights related to the placement and withdrawal of children in special education.

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of

the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to meet the standards established by the Board, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

B. The Superintendent of ~~Public Instruction~~ shall develop, subject to revision by the Board, criteria for determining and recognizing educational performance in the Commonwealth's local school divisions and public schools. The portion of such criteria that measures individual student growth shall become an integral part of the accreditation process for schools in which any grade level in the grade three through eight range is taught. The Superintendent of ~~Public Instruction~~ shall annually report to the Board on the accreditation status of all school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance and individual student growth in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of ~~Public Instruction~~ shall assist local school boards in the implementation of action plans for increasing educational performance and individual student growth in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of ~~Public Instruction~~ shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment, the Board shall establish, for the purpose of providing measures of individual student growth over the course of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the administration of reading and mathematics assessments in grades three through eight. Such through-year growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores over the course of the school year, but the total time scheduled for taking all such assessments shall not exceed 150 percent of the time scheduled for taking a single end-of-year proficiency assessment. The Department shall ensure adequate training for teachers and principals on how to interpret and use student growth data from such assessments to improve reading and mathematics instruction in grades three through eight throughout the school year. With such funds and content as are available for such purpose, such through-year growth assessment system shall provide accurate measurement of a student's performance, through computer adaptive technology, using test items at, below, and above the student's grade level as necessary.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Department shall make available to school divisions Standards of Learning assessments typically administered by high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the

bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Board shall include in the student outcome and growth measures that are required by the standards of accreditation the required assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade eight; (v) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board. The reading and mathematics assessments administered to students in grades three through eight shall be through-year growth assessments.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department shall award recovery credit to any student in grades three through eight who performs below grade level on a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and performs at or above grade level on such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board shall (1) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. ~~An annual justification that includes evidence that the student meets the participation criteria defined by the Department shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.~~

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board shall provide notice to local school boards regarding such special provisions.

The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or the level of achievement of the Standards of Learning objectives for an individual student growth assessment for the purposes of state accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 10 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board, the results from ~~the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered,~~ industry certification examinations; and the Standards of Learning Assessments to the public.

~~The Board shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.~~

The Board shall include requirements for the reporting of the Standards of Learning assessment data, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of ~~Public Instruction~~ shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards for Accreditation pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board based on submission of a request from the division superintendent and chairman of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a

sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department of Education shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. ~~Beginning with first-time ninth grade students in the 2016-2017 school year, require~~ *Require* students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications, or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; (ii) is a teacher of qualifications prescribed by the Board of Education; (iii) provides the child with a program of study or curriculum, which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. ~~Effective July 1, 2000, parents~~ Parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home

instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of ~~Public Instruction~~ of the number of students in the school division receiving home instruction.

C. The parent who elects to provide home instruction shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine on any nationally normed standardized achievement test, or an equivalent score on the ACT, SAT, or PSAT test or (ii) an evaluation or assessment ~~which that~~ the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including ~~but not limited to~~ (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress or (b) a report card or transcript from an institution of higher education, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in compliance with subsection A and a remediation plan for the probationary year ~~which that~~ indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child ~~which that~~ comply with § 22.1-254. The requirements of *this* subsection ~~€~~ shall not apply to children who are under the age of six as of September 30 of the school year.

D. Nothing in this section shall prohibit a pupil and his parents from obtaining an excuse from school attendance by reason of bona fide religious training or belief pursuant to subdivision B 1 of § 22.1-254.

E. Any party aggrieved by a decision of the division superintendent may appeal his decision within 30 days to an independent hearing officer. The independent hearing officer shall be chosen from the list maintained by the Executive Secretary of the Supreme Court for hearing appeals of the placements of children with disabilities. The costs of the hearing shall be apportioned among the parties by the hearing officer in a manner consistent with his findings.

F. School boards shall make Advanced Placement (AP), Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), and PreACT examinations available to students receiving home instruction pursuant to this section. School boards shall adopt written policies that specify the date by which such students shall register to participate in such examinations. School boards shall notify such students and their parents of such registration deadline and the availability of financial assistance to low-income and needy students to take such examinations.

G. No division superintendent or local school board shall disclose to the Department of ~~Education~~ or any other person or entity outside of the local school division information that is provided by a parent or student to satisfy the requirements of this section or subdivision B 1 of § 22.1-254. However, a division superintendent or local school board may disclose, with the written consent of a student's parent, such information to the extent provided by the parent's consent. Nothing in this subsection shall prohibit a division superintendent from notifying the Superintendent of ~~Public Instruction~~ of the number of students in the school division receiving home instruction as required by subsection B.

§ 22.1-271.3. Guidelines for school attendance for children infected with human immunodeficiency virus; school personnel training required; notification of school personnel in certain cases.

A. The Board of ~~Education~~, in cooperation with the Board of Health, shall develop, and revise as necessary, model guidelines for school attendance for children infected with human immunodeficiency virus. ~~The first such guidelines shall be completed by December 1, 1989.~~ The Board shall distribute copies of these guidelines to each division superintendent and every school board member in the Commonwealth immediately following ~~completion~~ *development or revision*.

B. Each school board shall, ~~by July 1, 1990,~~ adopt guidelines for school attendance for children with human immunodeficiency virus. Such guidelines shall be consistent with the model guidelines for such school attendance developed by the Board of ~~Education~~.

C. Every school board shall ensure that all school personnel having direct contact with students receive appropriate training in the etiology, prevention, transmission modes, and effects of blood-borne pathogens, specifically, hepatitis B and human immunodeficiency viruses or any other infections that are the subject of regulations promulgated by the Safety and Health Codes Board of the Virginia Occupational Safety and Health Program within the Department of Labor and Industry.

D. Upon notification by a school employee who believes he has been involved in a possible exposure-prone incident ~~which that~~ may have exposed the employee to the blood or body fluids of a student, the division superintendent shall contact the local health director who, upon immediate investigation of the incident, shall determine if a potentially harmful exposure has occurred and make recommendations, based upon all information available to him, regarding how the employee can reduce any risks from such exposure. The division superintendent shall share these recommendations with the school employee. Except as permitted by § 32.1-45.1, the division superintendent and the school employee shall not divulge any information provided by the local health director regarding such student. The information provided by the local health director shall be subject to any applicable confidentiality requirements set forth in Chapter 2 (§ 32.1-35 et seq.) of Title 32.1.

§ 22.1-274. School health services.

A. A school board shall provide pupil personnel and support services in compliance with § 22.1-253.13:2. A school board may employ school nurses, physicians, physical therapists, occupational therapists, and speech therapists. No such personnel shall be employed unless they meet such standards as may be determined by the Board of Education. Subject to the approval of the appropriate local governing body, a local health department may provide personnel for health services for the school division.

B. In implementing subsection P of § 22.1-253.13:2, relating to providing support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools, each school board may strive to employ, or contract with local health departments for, nursing services consistent with a ratio of at least one nurse ~~(i) per 2,500 students by July 1, 1996; (ii) per 2,000 students by July 1, 1997; (iii) per 1,500 students by July 1, 1998; and (iv) per 1,000 students by July 1, 1999.~~ In those school divisions in which there are more than 1,000 students in average daily membership in school buildings, this section shall not be construed to encourage the employment of more than one nurse per school building. Further, this section shall not be construed to mandate the aspired-to ratios.

C. The Board of Education shall monitor the progress in achieving the ratios ratio set forth in subsection B and any subsequent increase in prevailing statewide costs, and the mechanism for funding health services, pursuant to subsection P of § 22.1-253.13:2 and the appropriation act. The Board shall also determine how school health funds are used and school health services are delivered in each locality and shall provide, by December 1, 1994, a detailed analysis of school health expenditures to the House Committee on Education, the House Committee on Appropriations, the Senate Committee on Education and Health, and the Senate Committee on Finance and Appropriations.

D. With the exception of school administrative personnel and persons employed by school boards who have the specific duty to deliver health-related services, no licensed instructional employee, instructional aide, or clerical employee shall be disciplined, placed on probation, or dismissed on the basis of such employee's refusal to (i) perform nonemergency health-related services for students or (ii) obtain training in the administration of insulin and glucagon. However, instructional aides and clerical employees may not refuse to dispense oral medications.

For the purposes of this subsection, "health-related services" means those activities that, when performed in a health care facility, must be delivered by or under the supervision of a licensed or certified professional.

E. Each school board shall ensure that in school buildings with an instructional and administrative staff of 10 or more (i) at least three employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (ii) if one or more students diagnosed as having diabetes attend such school, at least two employees have been trained in the administration of insulin and glucagon. In school buildings with an instructional and administrative staff of fewer than 10, school boards shall ensure that (a) at least two employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (b) if one or more students diagnosed as having diabetes attend such school, at least one employee has been trained in the administration of insulin and glucagon. ~~"Employee"~~ For purposes of this subsection, "employee" includes any person employed by a local health department who is assigned to the public school pursuant to an agreement between the local health department and the school board. The compensation of such librarians and the necessary staff and the cost of suitable quarters for such library shall be fixed by the governing body and paid out of the fund created by the imposition of such assessment of cost. ~~Such libraries, pursuant to rules of the Supreme Court and at costs to such libraries, may have access to computer research services of the State Law Library.~~ Disbursements may be made to purchase or lease computer terminals for the purpose of retaining such research services. The assessment provided for ~~herein in this section~~ shall be in addition to all other costs prescribed by law, but shall not apply to any action in which the Commonwealth or any political subdivision thereof or the federal government is a party and in which the costs are assessed against the Commonwealth, *or any* political subdivision thereof, *or the* federal government. The governing body is authorized to accept contributions to the fund from any bar association.

Any such library established in the County of Wythe shall be located only in a town ~~which that~~ *which that* is the seat of the county government.

"Archival record" means a public record of continuing and enduring value useful to the citizens of the Commonwealth and necessary to the administrative functions of public agencies in the conduct of services and activities mandated by law that is identified on a Library of Virginia approved records retention and disposition schedule as having sufficient informational value to be permanently maintained by the Commonwealth.

"Archives" means the program administered by The Library of Virginia for the preservation of archival records.

"Disaster plan" means the information maintained by an agency that outlines recovery techniques and methods to be followed in case of an emergency that impacts the agency's records.

"Electronic record" means a public record whose creation, storage, and access require the use of an automated system or device. Ownership of the hardware, software, or media used to create, store, or access the electronic record has no bearing on a determination of whether such record is a public record.

"Essential public record" means records that are required for recovery and reconstruction of any agency to enable it to resume its core operations and functions and to protect the rights and interests of persons.

"Librarian of Virginia" means the State Librarian of Virginia or his designated representative.

"Public record" or "record" means recorded information that documents a transaction or activity by or with any public officer, agency, or employee of an agency. Regardless of physical form or characteristic, the recorded information is a "public record" if it is produced, collected, received, or retained in pursuance of law or in connection with the transaction of public business. The medium upon which such information is recorded has no bearing on the determination of whether the recording is a "public record."

[S 657]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-401, 10.1-1186.3, 10.1-1306 through 10.1-1307.02, 10.1-1307.04, 10.1-1308.1 through 10.1-1314, 10.1-1315, 10.1-1316, 10.1-1318, 10.1-1320, 10.1-1320.1, 10.1-1322, 10.1-1322.4, 10.1-1333, 15.2-2403.3, as it may become effective, 15.2-5101, 28.2-1205.1, 46.2-1601, 62.1-44.3, as it is currently effective and as it may become effective, 62.1-44.14, 62.1-44.15:81, 62.1-44.15:83, 62.1-104, 62.1-242, and 62.1-255 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Article 1 of Chapter 3.1 of Title 62.1 a section numbered 62.1-44.6:1 and by adding sections numbered 62.1-248.2 and 62.1-263.1 as follows:

§ 3.2-401. Exclusions from chapter.

This chapter shall not apply to any agricultural activity to which: (i) Article 12 (§ 10.1-1181.1 et seq.) of Chapter 11 of Title 10.1; or (ii) a *water-related* permit issued by the ~~State Water Control Board~~, *Department of Environmental Quality* applies.

§ 10.1-1186.3. Additional powers of Boards and the Department; mediation; alternative dispute resolution.

A. The State Air Pollution Control Board, the State Water Control Board, and the Virginia Waste Management Board, in their discretion, or the *Director*, in his discretion, may employ mediation as defined in § 8.01-581.21, or a dispute resolution proceeding as defined in § 8.01-576.4, in appropriate cases to resolve underlying issues, reach a consensus, or compromise on contested issues. An "appropriate case" means any process related to the development of a regulation by the *Board* or the issuance of a permit by the *Department* in which it is apparent that there are significant issues of disagreement among interested persons and for which the *Board* or the *Department* finds that the use of a mediation or dispute resolution proceeding is in the public interest. The *Boards* or the *Department* shall consider not using a mediation or dispute resolution proceeding if:

1. A definitive or authoritative resolution of the matter is required for precedential value, and such a proceeding is not likely to be accepted generally as an authoritative precedent;
2. The matter involves or may bear upon significant questions of state policy that require additional procedures before a final resolution may be made, and such a proceeding would not likely serve to develop a recommended policy for the ~~Board~~ *Department*;
3. Maintaining established policies is of special importance, so that variations among individual decisions are not increased and such a proceeding would not likely reach consistent results among individual decisions;
4. The matter significantly affects persons or organizations who are not parties to the proceeding;
5. A full public record of the proceeding is important, and a mediation or dispute resolution proceeding cannot provide such a record; and
6. The *Board* or the *Department* must maintain continuing jurisdiction over the matter with the authority to alter the disposition of the matter in light of changed circumstances, and a mediation or dispute resolution proceeding would interfere with the *Department* or the *Board's* fulfilling that requirement.

Mediation and alternative dispute resolution as authorized by this section are voluntary procedures which supplement rather than limit other dispute resolution techniques available to the *Boards* or the *Department*. Mediation or a dispute resolution proceeding may be employed in the issuance of a permit only with the consent and participation of the permit applicant and shall be terminated at the request of the permit applicant.

B. The decision to employ mediation or a dispute resolution proceeding is in a *Board's* or the *Department's* sole discretion and is not subject to judicial review.

C. The outcome of any mediation or dispute resolution proceeding shall not be binding upon a *Board* or the *Department*, but may be considered by a ~~Board~~ the *Department* in issuing a permit or by a *Board* in promulgating a regulation.

D. Each *Board* and the *Department* shall adopt rules and regulations, in accordance with the Administrative Process Act, for the implementation of this section. Such rules and regulations shall include: (i) standards and procedures for the conduct of mediation and dispute resolution, including an opportunity for interested persons identified by the ~~Board~~ *Department* to participate in the proceeding; (ii) the appointment and function of a neutral, as defined in § 8.01-576.4, to encourage and assist parties to voluntarily compromise or settle contested issues; and (iii) procedures to protect the confidentiality of papers, work product or other materials.

E. The provisions of § 8.01-576.10 concerning the confidentiality of a mediation or dispute resolution proceeding shall govern all such proceedings held pursuant to this section except where the *Department* or a *Board* uses or relies on information obtained in the course of such proceeding in issuing a permit or promulgating a regulation, respectively.

Nothing in this section shall create or alter any right, action or cause of action, or be interpreted or applied in a manner inconsistent with the Administrative Process Act (§ 2.2-4000 et seq.), with applicable federal law or with any applicable requirement for the Commonwealth to obtain or maintain federal delegation or approval of any regulatory program.

§ 10.1-1306. Inspections, investigations, etc.

The ~~Board~~ *Department* shall make, or cause to be made, such investigations and inspections and do such other things as are reasonably necessary to carry out the provisions of this chapter, within the limits of the appropriations, study grants, funds, or personnel which are available for the purposes of this chapter, including the achievement and maintenance of such levels of air quality as will protect human health, welfare and safety and to the greatest degree practicable prevent injury to plant and animal life and property and which will foster the comfort and convenience of the people of the Commonwealth and their enjoyment of life and property and which will promote the economic and social development of the Commonwealth and facilitate enjoyment of its attractions.

§ 10.1-1307. Further powers and duties of Board and Department.

A. The Board shall have the power to control and regulate its internal affairs; *The Department shall have the power to initiate and supervise research programs to determine the causes, effects, and hazards of air pollution; initiate and supervise statewide programs of air pollution control education; cooperate with and receive money from the federal government or any county or municipal government, and receive money from any other source, whether public or private; develop a comprehensive program for the study, abatement, and control of all sources of air pollution in the Commonwealth; and advise, consult, and cooperate with agencies of the United States and all agencies of the Commonwealth, political subdivisions, private industries, and any other affected groups in furtherance of the purposes of this chapter.*

B. The Board may adopt by regulation emissions standards controlling the release into the atmosphere of air pollutants from motor vehicles, only as provided in § 10.1-1307.05 and Article 22 (§ 46.2-1176 et seq.) of Chapter 10 of Title 46.2.

C. After any regulation has been adopted by the Board pursuant to § 10.1-1308, ~~it the Department may in its discretion~~ grant local variances therefrom, if it finds after an investigation and hearing that local conditions warrant; *except that no local variances shall be granted from regulations adopted by the Board pursuant to § 10.1-1308 related to the requirements of subsection E of §10.1-1308 or Article 4 (§ 10.1-1329 et seq.).* If local variances are permitted, the ~~Board~~ Department shall issue an order to this effect. Such order shall be subject to revocation or amendment at any time if the ~~Board~~ Department, after a hearing, determines that the amendment or revocation is warranted. Variances and amendments to variances shall be adopted only after a public hearing has been conducted pursuant to the public advertisement of the subject, date, time, and place of the hearing at least 30 days prior to the scheduled hearing. The hearing shall be conducted to give the public an opportunity to comment on the variance.

D. After the Board has adopted the regulations provided for in § 10.1-1308, ~~it the Department~~ shall have the power to: (i) initiate and receive complaints as to air pollution; (ii) hold or cause to be held hearings and enter orders diminishing or abating the causes of air pollution and orders to enforce ~~its~~ the Board's regulations pursuant to § 10.1-1309; and (iii) institute legal proceedings, including suits for injunctions for the enforcement of ~~its~~ orders, regulations, and the abatement and control of air pollution and for the enforcement of penalties.

E. The Board in making regulations ~~and; the Department~~ in approving variances, control programs, or permits; and the courts in granting injunctive relief under the provisions of this chapter, shall consider facts and circumstances relevant to the reasonableness of the activity involved and the regulations proposed to control it, including:

1. The character and degree of injury to, or interference with, safety, health, or the reasonable use of property which is caused or threatened to be caused;

2. The social and economic value of the activity involved;

3. The suitability of the activity to the area in which it is located, *except that consideration of this factor shall be satisfied if the local governing body of a locality in which a facility or activity is proposed has resolved that the location and operation of the proposed facility or activity is suitable to the area in which it is located;* and

4. The scientific and economic practicality of reducing or eliminating the discharge resulting from such activity.

F. The ~~Board may designate one of its members, the Director, or a staff assistant to~~ Department shall conduct the hearings provided for in this chapter. ~~A record of the hearing shall be made and furnished to the Board for its use in arriving at its decision.~~

G. The Board shall not:

1. Adopt any regulation limiting emissions from wood heaters; or

2. Enforce against a manufacturer, distributor, or consumer any federal regulation limiting emissions from wood heaters adopted after May 1, 2014.

H. The ~~Board~~ Department shall submit an annual report to the Governor and General Assembly on or before October 1 of each year on matters relating to the Commonwealth's air pollution control policies and on the status of the Commonwealth's air quality.

I. In granting a permit pursuant to this section, the Department shall provide in writing a clear and concise statement of the legal basis, scientific rationale, and justification for the decision reached. When the decision of the Department is to deny a permit, pursuant to this section, the Department shall, in consultation with legal counsel, provide a clear and concise statement explaining the reason for the denial, the scientific justification for the same, and how the Department's decision is in compliance with applicable laws and regulations. Copies of the decision, certified by the Director, shall be mailed by certified mail to the permittee or applicant.

§ 10.1-1307.01. Further duties of Board and Department; localities particularly affected.

A. ~~Before~~ The Board, before promulgating a regulation under consideration, or the Department, before granting a variance to an existing regulation, or issuing a permit for the construction of a new major source or for a major modification to an existing source, if ~~the Board finds~~ it is found that there is a locality particularly affected by the regulation, variance, or permit, ~~the Board~~ shall, respectively:

1. Publish, or require the applicant to publish, a notice in a local paper of general circulation in each locality affected at least 30 days prior to the close of any public comment period. Such notice shall contain a statement of the estimated local impact of the proposed action, which at a minimum shall provide information regarding specific pollutants and the total quantity of each that may be emitted and shall list the type and quantity of any fuels to be used.

2. Mail the notice to the chief elected official and chief administrative officer of and the planning district commission for such locality.

Written comments shall be accepted by the Board for at least 15 days after any hearing on the regulation, ~~variance, or permit~~, unless the Board votes to shorten the period. *Written comments shall be accepted by the Department for at least 15 days after any hearing on the variance or permit.*

~~B. Before~~ *If the Department finds, before granting any variance to an existing regulation or issuing any permit for (i) a new fossil fuel-fired generating facility with a capacity of 500 megawatts or more, (ii) a major modification to an existing source that is a fossil fuel-fired generating facility with a capacity of 500 megawatts or more, (iii) a new fossil fuel-fired compressor station facility used to transport natural gas, or (iv) a major modification to an existing source that is a fossil fuel-fired compressor station facility used to transport natural gas, if the Board finds that there is a locality particularly affected by such variance or permit, the Board Department shall:*

1. Require the applicant to publish a notice in at least one local paper of general circulation in any locality particularly affected at least 60 days prior to the close of any public comment period. Such notice shall (i) contain a statement of the estimated local impact of the proposed action; (ii) provide information regarding specific pollutants and the total quantity of each that may be emitted; (iii) list the type, quantity, and source of any fuel to be used; (iv) advise the public ~~how to request Board consideration or as to the date and location of a public hearing~~; and (v) advise the public where to obtain information regarding the proposed action. The Department shall post such notice on the Department website and on a Department social media account.

2. Require the applicant to mail the notice to (i) the chief elected official of, chief administrative officer of, and planning district commission for each locality particularly affected; (ii) every public library and public school located within five miles of such facility; and (iii) the owner of each parcel of real property that is depicted as adjacent to the facility on the current real estate tax assessment maps of the locality.

Written comments shall be accepted by the ~~Board~~ *Department* for at least 30 days after any hearing on such variance or permit, unless the ~~Board votes~~ *Director elects* to shorten the period.

C. For the purposes of this section, the term "locality particularly affected" means any locality that bears any identified disproportionate material air quality impact that would not be experienced by other localities.

§ 10.1-1307.02. Permit for generation of electricity during ISO-declared emergency.

A. As used in this section:

"Emergency generation source" means a stationary internal combustion engine that operates according to the procedures in the ISO's emergency operations manual during an ISO-declared emergency.

"ISO-declared emergency" means a condition that exists when the independent system operator, as defined in § 56-576, notifies electric utilities that an emergency exists or may occur and that complies with the definition of "emergency" adopted by the Board pursuant to subsection B.

"Retail customer" has the same meaning ascribed thereto in § 56-576.

B. The Board shall adopt a general permit ~~or permits regulation~~ for the use of back-up generation to authorize the construction, installation, reconstruction, modification, and operation of emergency generation sources during ISO-declared emergencies. Such general permit ~~or permits regulation~~ shall include a definition of "emergency" that is compatible with the ISO's emergency operations manual. After adoption of such general permit ~~or permits regulation~~, any amendments to the Board's regulations necessary to carry out the provisions of this section shall be exempt from Article 2 (§ 2.2-4006 et seq.) of the Administrative Process Act.

§ 10.1-1307.04. Greenhouse gas emissions inventory.

A. The Department shall conduct a comprehensive statewide baseline and projection inventory of all greenhouse gas (GHG) emissions and shall update such inventory every four years. The Board may adopt regulations necessary to collect from all source sectors data needed *by the Department* to conduct, update, and maintain such inventory.

B. The ~~Board~~ *Department* shall include the inventory in the report required pursuant to subsection H of § 10.1-1307, beginning with the report issued prior to October 1, 2022, and every four years thereafter. The Department shall publish such inventory on its website, showing changes in GHG emissions relative to an estimated GHG emissions baseline case for calendar year 2010.

C. Any information, except emissions data, that is reported to or otherwise obtained by the Department pursuant to this section and that contains or might reveal proprietary information shall be confidential and shall be exempt from the mandatory disclosure requirements of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). Each owner shall notify the Director or his representative of the existence of proprietary information if he desires the protection provided pursuant to this subsection.

"Qualified energy generator" means a commercial facility located in the Commonwealth with the capacity annually to generate no more than five megawatts of electricity, or produce the equivalent amount of energy in the form of fuel, steam, or other energy product, that is generated or produced from biomass, and that is sold to an unrelated person or used in a manufacturing process.

B. The ~~Board~~ Department shall develop an expedited process for issuing any permit that ~~the Board~~ it is required to issue for the construction or operation of a qualified energy generator. The development of the expedited permitting process shall be in accordance with subdivision A 8 of § 2.2-4006; however, if the construction or operation of a qualified energy generator is subject to a major new source review program required by § 110(a)(2)(C) of the federal Clean Air Act, this section shall not apply.

§ 10.1-1309. Issuance of special orders; civil penalties.

A. The ~~Board~~ Department shall have the power to issue special orders to:

(v) require any owner to comply with the provisions of this chapter and any ~~Board~~ Department decision; and

(vi) require any person to pay civil penalties of up to \$32,500 for each violation, not to exceed \$100,000 per order, if (a) the person has been issued at least two written notices of alleged violation by the Department for the same or substantially related violations at the same site, (b) such violations have not been resolved by demonstration that there was no violation, by an order issued by ~~the Board~~ or the Director, or by other means, (c) at least 130 days have passed since the issuance of the first notice of alleged violation, and (d) there is a finding that such violations have occurred after a hearing conducted in accordance with subsection B. The actual amount of any penalty assessed shall be based upon the severity of the violations, the extent of any potential or actual environmental harm, the compliance history of the facility or person, any economic benefit realized from the noncompliance, and the ability of the person to pay the penalty. The ~~Board~~ Department shall provide the person with the calculation for the proposed penalty prior to any hearing conducted for the issuance of an order that assesses penalties pursuant to this subsection. Penalties shall be paid to the state treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund (§ 10.1-2500 et seq.). The issuance of a notice of alleged violation by the Department shall not be considered a case decision as defined in § 2.2-4001. Any notice of alleged violation shall include a description of each violation, the specific provision of law violated, and information on the process for obtaining a final decision or fact finding from the Department on whether or not a violation has occurred, and nothing in this section shall preclude an owner from seeking such a determination.

B. Such special orders are to be issued only after a hearing before a hearing officer appointed by the Supreme Court in accordance with § 2.2-4020 with reasonable notice to the affected owners of the time, place and purpose thereof, and they shall become effective not less than five days after service as provided in subsection C below. Should the ~~Board~~ Department find that any such owner is unreasonably affecting the public health, safety or welfare, or the health of animal or plant life, or property, after a reasonable attempt to give notice, it shall declare a state of emergency and may issue without hearing an emergency special order directing the owner to cease such pollution immediately, and shall within 10 days hold a hearing, after reasonable notice as to the time and place thereof to the owner, to affirm, modify, amend or cancel such emergency special order. If the ~~Board~~ Department finds that an owner who has been issued a special order or an emergency special order is not complying with the terms thereof, it may proceed in accordance with § 10.1-1316 or 10.1-1320.

C. Any special order issued under the provisions of this section need not be filed with the Secretary of the Commonwealth, but the owner to whom such special order is directed shall be notified by certified mail, return receipt requested, sent to the last known address of such owner, or by personal delivery by an agent of the ~~Board~~ Department, and the time limits specified shall be counted from the date of receipt.

D. Nothing in this section or in § 10.1-1307 shall limit the ~~Board's~~ Department's authority to proceed against such owner directly under § 10.1-1316 or 10.1-1320 without the prior issuance of an order, special or otherwise.

§ 10.1-1309.1. Special orders; penalties.

The ~~Board~~ Department is authorized to issue special orders in compliance with the Administrative Process Act (§ 2.2-4000 et seq.) requiring that an owner file with the ~~Board~~ Department a plan to abate, control, prevent, remove, or contain any substantial and imminent threat to public health or the environment that is reasonably likely to occur if such source ceases operations. Such plan shall also include a demonstration of financial capability to implement the plan. Financial capability may be demonstrated by the establishment of an escrow account, the creation of a trust fund to be maintained within the Department, submission of a bond, corporate guarantee based on audited financial statements, or such other instruments as the ~~Board~~ Department may deem appropriate. The ~~Board~~ Department may require that such plan and instruments be updated as appropriate. For the purposes of this section, "ceases operation" means to cease conducting the normal operation of a source which is regulated under this chapter under circumstances where it would be reasonable to expect that such operation will not be resumed by the owner at the source. The term shall not include the sale or transfer of a source in the ordinary course of business or a permit transfer in accordance with Board regulations.

Any person who ceases operations and who knowingly and willfully fails to implement a closure plan or to provide adequate funds for implementation of such plan shall, if such failure results in a significant harm or an imminent and substantial threat of significant harm to human health or the environment, be liable to the Commonwealth and any political subdivision thereof for the costs incurred in abating, controlling, preventing, removing, or containing such harm or threat.

Any person who ceases operations and who knowingly and willfully fails to implement a closure plan or to provide adequate funds for implementation of such plan shall, if such failure results in a significant harm or an imminent and substantial threat of significant harm to human health or the environment, be guilty of a Class 4 felony.

§ 10.1-1310. Decision of Department pursuant to hearing.

Any decision by the ~~Board~~ Department rendered pursuant to hearings under § 10.1-1309 shall be reduced to writing and shall contain the explicit findings of fact and conclusions of law upon which the ~~Board's~~ Department's decision is based. Certified copies of the written decision shall be delivered or mailed by certified mail to the parties affected by it. Failure to comply with the provisions of this section shall render such decision invalid.

§ 10.1-1310.1. Notification of local government.

Upon determining that there has been a violation of this chapter or any regulation promulgated under this chapter or order of the ~~Board~~ Department, and such violation poses an imminent threat to the health, safety or welfare of the public, the Director shall immediately notify the chief administrative officer of any potentially affected local government. Neither the Director, the Commonwealth, nor any employee of the Commonwealth shall be liable for a failure to provide, or a delay in providing, the notification required by this section.

§ 10.1-1311. Penalties for noncompliance; judicial review.

A. The Board is authorized to promulgate regulations providing for the determination of a formula for the basis of the amount of any noncompliance penalty to be assessed by a court pursuant to subsection B hereof, in conformance with the requirements of Section 120 of the federal Clean Air Act, as amended, and any regulations promulgated thereunder. Any regulations promulgated pursuant to this section shall be in accordance with the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

B. Upon a determination of the amount by the ~~Board~~ Department, the ~~Board~~ Department shall petition the circuit court of the county or city wherein the owner subject to such noncompliance assessment resides, regularly or systematically conducts affairs or business activities, or where such owner's property affected by the administrative action is located for an order requiring payment of a noncompliance penalty in a sum the court deems appropriate.

C. Any order issued by a court pursuant to this section may be enforced as a judgment of the court. All sums collected, less the assessment and collection costs, shall be paid into the state treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund pursuant to Chapter 25 (§ 10.1-2500 et seq.) of this title.

D. Any penalty assessed under this section shall be in addition to permits, fees, orders, payments, sanctions, or other requirements under this chapter, and shall in no way affect any civil or criminal enforcement proceedings brought under other provisions of this chapter.

§ 10.1-1312. Air pollution control districts.

A. The ~~Board~~ Department may create, within any area of the Commonwealth, local air pollution control districts comprising a city or county or a part or parts of each, or two or more cities or counties, or any combination or parts thereof. Such local districts may be established by the ~~Board~~ Department on its own motion or upon request of the governing body or bodies of the area involved.

B. In each district there shall be a local air pollution control committee, the members of which shall be appointed by the ~~Board~~ Department from lists of recommended nominees submitted by the respective governing bodies of each locality, all or a portion of which are included in the district. The number of members on each committee shall be in the discretion of the ~~Board~~ Department. When a district includes two or more localities or portions thereof, the ~~Board~~ Department shall apportion the membership of the committee among the localities, provided that each locality shall have at least one representative on the committee. The members shall not be compensated out of state funds, but may be reimbursed for expenses out of state funds. Localities may provide for the payment of compensation and reimbursement of expenses to the

members and may appropriate funds therefore. The portion of such payment to be borne by each locality shall be prescribed by agreement.

C. The local committee is empowered to observe compliance with the regulations of the Board and report instances of noncompliance to the ~~Board~~ *Department*, to conduct educational programs relating to air pollution and its effects, to assist the Department in its air monitoring programs, to initiate and make studies relating to air pollution and its effects, and to make recommendations to the ~~Board~~ *Department*.

D. The governing body of any locality, wholly or partially included within any such district, may appropriate funds for use by the local committee in air pollution control and studies.

§ 10.1-1313. State Advisory Board on Air Pollution.

The ~~Board~~ *Department* is authorized to name qualified persons to a State Advisory Board on Air Pollution.

§ 10.1-1314. Owners to furnish plans, specifications and information.

Every owner which the ~~Board~~ *Department* has reason to believe is causing, or may be about to cause, an air pollution problem shall on request of the ~~Board~~ *Department* furnish such plans, specifications and information as may be required by the ~~Board~~ *Department* in the discharge of its duties under this chapter. Any information, except emission data, as to secret processes, formulae or methods of manufacture or production shall not be disclosed in public hearing and shall be kept confidential. If samples are taken for analysis, a duplicate of the analytical report shall be furnished promptly to the person from whom such sample is requested.

§ 10.1-1315. Right of entry.

Whenever it is necessary for the purposes of this chapter, the ~~Board~~ *Department* or any ~~member~~, agent or employee thereof, when duly authorized by the ~~Board~~ *Director*, may at reasonable times enter any establishment or upon any property, public or private, to obtain information or conduct surveys or investigations.

§ 10.1-1316. Enforcement and civil penalties.

A. Any owner violating or failing, neglecting or refusing to obey any provision of this chapter, any Board regulation or *Department* order, or any permit condition may be compelled to comply by injunction, mandamus or other appropriate remedy.

B. Without limiting the remedies which may be obtained under subsection A, any owner violating or failing, neglecting or refusing to obey any Board regulation or *Department* order, any provision of this chapter, or any permit condition shall be subject, in the discretion of the court, to a civil penalty not to exceed \$32,500 for each violation. Each day of violation shall constitute a separate offense. In determining the amount of any civil penalty to be assessed pursuant to this subsection, the court shall consider, in addition to such other factors as it may deem appropriate, the size of the owner's business, the severity of the economic impact of the penalty on the business, and the seriousness of the violation. Such civil penalties shall be paid into the state treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund pursuant to Chapter 25 (§ 10.1-2500 et seq.) of this title. Such civil penalties may, in the discretion of the court assessing them, be directed to be paid into the treasury of the county, city or town in which the violation occurred, to be used to abate environmental pollution in such manner as the court may, by order, direct, except that where the owner in violation is the county, city or town itself, or its agent, the court shall direct the penalty to be paid into the state treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund pursuant to Chapter 25 of this title.

C. With the consent of an owner who has violated or failed, neglected or refused to obey any Board regulation or *Department* order, or any provision of this chapter, or any permit condition, the ~~Board~~ *Department* may provide, in any order issued by the ~~Board~~ *Department* against the owner, for the payment of civil charges in specific sums, not to exceed the limit of subsection B. Such civil charges shall be in lieu of any civil penalty which could be imposed under subsection B. Such civil charges shall be paid into the state treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund pursuant to Chapter 25 of this title.

D. The ~~Board~~ *Department* shall develop and provide an opportunity for public comment on guidelines and procedures that contain specific criteria for calculating the appropriate penalty for each violation based upon the severity of the violations, the extent of any potential or actual environmental harm, the compliance history of the facility or person, any economic benefit realized from the noncompliance, and the ability of the person to pay the penalty.

§ 10.1-1318. Appeal from decision of Department.

A. Any owner aggrieved by a final decision of the ~~Board~~ *Department* under § 10.1-1309, § 10.1-1322 or subsection D of § 10.1-1307 is entitled to judicial review thereof in accordance with the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

B. Any person who has participated, in person or by submittal of written comments, in the public comment process related to a final decision of the ~~Board~~ *Department* under § 10.1-1322 and who has exhausted all available administrative remedies for review of the ~~Board's~~ *Department's* decision, shall be entitled to judicial review of the ~~Board's~~ *Department's* decision in accordance with the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) if such person meets the standard for obtaining judicial review of a case or controversy pursuant to Article III of the United States Constitution. A person shall be deemed to meet such standard if (i) such person has suffered an actual or imminent injury which is an invasion of a legally protected interest and which is concrete and particularized; (ii) such injury is fairly traceable to the decision of the Board and not the result of the independent action of some third party not before the court; and (iii) such injury will likely be redressed by a favorable decision by the court.

§ 10.1-1320. Penalties; chapter not to affect right to relief or to maintain action.

Any owner knowingly violating any provision of this chapter, Board regulation, or *Department* order, or any permit condition shall upon conviction be guilty of a misdemeanor and shall be subject to a fine of not more than \$10,000 for each violation within the discretion of the court. Each day of violation shall constitute a separate offense.

To the extent allowed by federal law, any person holding a permit who is intending to upgrade the permitted facility by installing technology, control equipment, or other apparatus that the permittee demonstrates to the satisfaction of the Director will result in improved energy efficiency, will reduce the emissions of regulated air pollutants, and meets the requirements of Best Available Control Technology shall not be required to obtain a new, modified, or amended permit. The permit holder shall provide the demonstration anticipated by this subsection to the Department no later than 30 days prior to commencing construction.

B. The Board by regulation may prescribe and provide for the payment and collection of annual permit program fees for air pollution sources. Annual permit program fees shall not be collected until (i) the federal Environmental Protection Agency approves the Board's operating permit program established pursuant to Title V of the federal Clean Air Act or (ii) the Governor determines that such fees are needed earlier to maintain primacy over the program. The annual fees shall be based on the actual emissions (as calculated or estimated) of each regulated pollutant, as defined in § 502 of the federal Clean Air Act, in tons per year, not to exceed 4,000 tons per year of each pollutant for each source. The annual permit program fees shall not exceed a base year amount of \$25 per ton using 1990 as the base year, and shall be adjusted annually by the Consumer Price Index as described in § 502 of the federal Clean Air Act. Permit program fees for air pollution sources who receive state operating permits in lieu of Title V operating permits shall be paid in the first year and thereafter shall be paid biennially. The fees shall approximate the direct and indirect costs of administering and enforcing the permit program, and of administering the small business stationary source technical and environmental compliance assistance program as required by the federal Clean Air Act. The Board shall ~~also collect~~ *promulgate regulations establishing* permit application fee amounts not to exceed \$30,000 from applicants for a permit for a new major stationary source. The permit application fee amount paid shall be credited towards the amount of annual fees owed pursuant to this section during the first two years of the source's operation. The fees shall be exempt from statewide indirect costs charged and collected by the Department of Accounts.

C. When adopting regulations for permit program fees for air pollution sources, the Board shall take into account the permit fees charged in neighboring states and the importance of not placing existing or prospective industry in the Commonwealth at a competitive disadvantage.

D. On or before January 1 of every even-numbered year, the Department shall make an evaluation of the implementation of the permit fee program and provide this evaluation in writing to the Senate Committee on Agriculture, Conservation and Natural Resources, the Senate Committee on Finance and Appropriations, the House Committee on Appropriations, the House Committee on Agriculture, Chesapeake and Natural Resources, and the House Committee on Finance. This evaluation shall include a report on the total fees collected, the amount of general funds allocated to the Department, the Department's use of the fees and the general funds, the number of permit applications received, the number of permits issued, the progress in eliminating permit backlogs, and the timeliness of permit processing.

E. To the extent allowed by federal law and regulations, priority for utilization of permit fees shall be given to cover the costs of processing permit applications in order to more efficiently issue permits.

F. Fees collected pursuant to this section shall not supplant or reduce in any way the general fund appropriation to the Department.

G. The permit fees shall apply to permit programs in existence on July 1, 1992, any additional permit programs that may be required by the federal government and administered by the ~~Board~~ *Department*, or any new permit program required by the Code of Virginia.

H. The permit program fee regulations promulgated pursuant to this section shall not become effective until July 1, 1993.

§ 10.1-1322.4. Permit modifications for alternative fuels or raw materials.

Unless required by federal law or regulation, no additional permit or permit modifications shall be required by the ~~Board~~ for the use, by any source, of an alternative fuel or raw material, if the owner demonstrates to the ~~Board~~ that as a result of trial burns at his facility or other facilities or other sufficient data that the emissions resulting from the use of the

alternative fuel or raw material supply are decreased. To the extent allowed by federal law or regulation, no demonstration shall be required for the use of processed animal fat, processed fish oil, processed vegetable oil, distillate oil, or any mixture thereof in place of the same quantity of residual oil to fire industrial boilers.

The response to such request shall include the specific strategies and best management practices that will be utilized by the applicant to address challenges associated with each area type and an explanation of how such strategies and best management practices will ensure compliance with water quality standards.

C. At any time during the review of the application, but prior to issuing a certification pursuant to this article, the Department may issue an information request to the applicant for any relevant additional information necessary to determine (i) if any activities related to the applicant's project in upland areas are likely to result in a discharge to state waters and (ii) how the applicant proposes to minimize water quality impacts to the maximum extent practicable to protect water quality. The information request shall provide a reasonable amount of time for the applicant to respond.

D. The Department shall review the information contained in the application, the response to the information request in subsection B, and any additional information obtained through any information requests issued pursuant to subsection C to determine if any activities described in the application or in any additional information requests (i) are likely to result in a discharge to state waters with the potential to adversely impact water quality and (ii) will not be addressed by the Virginia

The Department shall act on any plan submittal within 60 days after initial submittal of a completed plan to the Department. The Department may issue either approval or disapproval and shall provide written rationale for its decision. The Department shall act on any plan that has been previously disapproved within 30 days after the plan has been revised and resubmitted for approval.

F. No action by either the Department or the Board on a certification pursuant to this article shall alter the siting determination made through Federal Energy Regulatory Commission or State Corporation Commission approval.

G. The Department shall assess an administrative charge to the applicant to cover the direct costs of services rendered associated with its responsibilities pursuant to this section.

H. Neither the Department nor the Board shall expressly waive certification of a natural gas transmission pipeline of greater than 36 inches inside diameter under § 401 of the federal Clean Water Act (33 U.S.C. § 1341). The Department or the Board shall act on any certification request within a reasonable period of time pursuant to federal law. Nothing in this section shall be construed to prohibit the Department or the Board from taking action to deny a certification in accordance with the provisions of § 401 of the federal Clean Water Act (33 U.S.C. § 1341).

CHAPTER 357

An Act for the relief of Eric Weakley, relating to claims; compensation for wrongful incarceration.

[H 1254]

Approved April 11, 2022

Whereas, Eric Weakley (Mr. Weakley) was convicted in the Culpeper Circuit Court on June 13, 2001, of second degree murder for a 1996 crime of which he is innocent; and

Whereas, Mr. Weakley was sentenced to 20 years of incarceration with 13 years and four months suspended; and

Whereas, Mr. Weakley served almost six years and eight months in the custody of the Virginia Department of Corrections before being released on probation; and

Whereas, after the 1996 murder of Thelma Scroggins went unsolved for several years, law enforcement zeroed in on Mr. Weakley, to the exclusion of other far more viable suspects; and

Whereas, law enforcement followed Mr. Weakley, repeatedly showing up at his home and workplaces, harassing him and interviewing him multiple times over the course of months; and

Whereas, Mr. Weakley repeatedly denied involvement in or knowledge of the murder, maintaining his innocence; and

Whereas, law enforcement coached Mr. Weakley, providing Mr. Weakley details and information about the crime and photos of the crime scene, and eventually pressured him into accepting responsibility for a crime he did not commit and implicating others; and

Whereas, law enforcement repeatedly disregarded details provided by Mr. Weakley that were inconsistent with the crime scene and physical evidence, such as the type of gun used, the number of shots fired, the location and type of wounds on the victim, and the clothing worn by the victim; and

Whereas, no physical evidence connected Mr. Weakley, who was 16 years old at the time of the crime, to the murder; and

Whereas, the physical evidence in fact supported the theory that the crime was committed by a single assailant, not three teenage boys; and

Whereas, Mr. Weakley's false confession was the product of extensive psychological coercion, including harassment and threats; and

Whereas, false confessions are a known cause of wrongful convictions; and

Whereas, Mr. Weakley had a newborn baby girl at the time he was being harassed by police, placing him under more pressure and making him even more susceptible to police coercion; and

Whereas, Mr. Weakley eventually pled guilty to second degree murder, all the while telling the judge at his plea hearing, "I am not guilty of the crime"; and

Whereas, Mr. Weakley ultimately testified against his two co-defendants, admitting on cross-examination at one trial that he had trouble distinguishing what was true from what was not; and

Whereas, one of Mr. Weakley's co-defendants, Jason Kloby, was acquitted at trial; and

Whereas, Mr. Weakley's second co-defendant, Michael Hash, was convicted, but was exonerated and had his conviction vacated on a petition for writ of habeas corpus by the United States District Court for the Western District of Virginia; and

Whereas, after his release, Mr. Weakley eventually fully recanted his confession, explaining that he had come to believe his false confession, that he had believed his testimony at Mr. Kloby's trial to be true at the time he provided it, and that by the time of Mr. Hash's trial, he testified to what he thought was the truth, but that he often could not tell truth from fiction at that point; and

Whereas, in providing a sworn recantation after having completed his own sentence, Mr. Weakley exposed himself to the possibility of perjury charges in order to do the right thing and help exonerate Mr. Hash; and

Whereas, in granting Mr. Hash habeas relief, a federal judge sitting in the United States District Court for the Western District of Virginia found Mr. Weakley's recantation to be reliable and corroborated; and

Whereas, Mr. Weakley, through the Innocence Project at the University of Virginia School of Law, submitted a petition for clemency seeking an absolute pardon based on the circumstances surrounding his innocence; and

Whereas, on January 3, 2022, Governor Ralph Northam granted Mr. Weakley an absolute pardon, and in so doing, noted that "Mr. Weakley was pressured by law enforcement to accept responsibility for a crime he did not commit" and that the pardon "reflects Mr. Weakley's innocence"; and

Whereas, Mr. Weakley spent seven years on probation after his incarceration; and

Whereas, since Mr. Weakley's release, he has had no new arrests; and

Whereas, during the course of Mr. Weakley's wrongful incarceration, he missed the early childhood of his young daughter, who was only one-and-a-half years old when he began his incarceration; and

Whereas, Mr. Weakley, as a result of his wrongful incarceration, lost nearly seven years of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

Whereas, Mr. Weakley has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. *§ 1. That there is hereby appropriated from the general fund of the state treasury the sum of \$343,232 for the relief of Eric Weakley, to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Weakley may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

The compensation, subject to the execution of the release described herein, shall be paid in (i) an initial lump sum of \$85,808 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release and (ii) the sum of \$257,424 to purchase an annuity no later than one year after the effective date of the appropriation for compensation, for the primary benefit of Mr. Weakley, the terms of such annuity structured in Mr. Weakley's best interests based on consultation among Mr. Weakley or his representatives, the State Treasurer, and other necessary parties.

The State Treasurer shall purchase the annuity at the lowest cost available from any A+ rated company authorized to sell annuities in the Commonwealth, including any A+ rated company from which the State Lottery Department may

purchase an annuity. The annuity shall provide that it shall not be sold, discounted, or used as securitization for loans and mortgages. The annuity shall, however, contain beneficiary provisions providing for the annuity's continued disbursement in the event of Mr. Weakley's death.

§ 2. *That Mr. Weakley shall be entitled to receive reimbursement up to \$10,000 for tuition for career and technical training within the Virginia Community College System contingent upon successful completion of the training. Reimbursement for tuition shall be provided by the comprehensive community college at which the career or technical training was completed. The tuition benefit provided by this section shall expire on January 1, 2026.*

§ 3. *That any amount already paid to Mr. Weakley as a transition assistance grant pursuant to subsection C of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.*

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

CHAPTER 358

An Act to amend and reenact § 58.1-3984 of the Code of Virginia, relating to appeal of local tax assessments.

[H 226]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3984 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3984. Application to court to correct erroneous assessments of local levies generally.

A. Any person assessed with local taxes, aggrieved by any such assessment, may, unless otherwise specially provided by law (including, but not limited to, as provided under (i) § 15.2-717 and (ii) § 3 of Chapter 261 of the Acts of Assembly of 1936 (which was continued in effect by § 58-769 of the Code of Virginia; and now continued in effect by § 58.1-3260), as amended by Chapter 422 of the Acts of Assembly of 1950, as amended by Chapter 339 of the Acts of Assembly of 1958, and as amended by the 2003 Regular Session of the General Assembly), (a) within three years from the last day of the tax year for which any such assessment is made, (b) within one year from the date of the assessment, (c) within one year from the date of the Tax Commissioner's final determination under *subdivision A 6 of § 58.1-3703.1 A 5* or *subsection D of § 58.1-3983.1 D*, or (d) within one year from the date of the final determination under § 58.1-3981, whichever is later, apply for relief to the circuit court of the county or city wherein such assessment was made. The application shall be before the court when it is filed in the clerk's office. *The taxpayer filing the application and the locality shall be necessary parties to the proceedings in the circuit court. The locality shall be named in the application as the "City of _____," "Town of _____," or "_____ County," as applicable.* In such proceedings, except for proceedings seeking relief from real property taxes, the burden of proof shall be upon the taxpayer to show that the property in question is valued at more than its fair market value or that the assessment is not uniform in its application, or that the assessment is otherwise invalid or illegal, but it shall not be necessary for the taxpayer to show that intentional, systematic, and willful discrimination has been made.

All proceedings pursuant to this section shall be conducted as an action at law before the court, sitting without a jury. The county or city attorney; or, if none, the attorney for the Commonwealth; shall defend the ~~application~~ *locality in any such proceedings.*

Prior to the release of any information that constitutes confidential tax information under § 58.1-3, pursuant to discovery or otherwise, for the purposes of a proceeding under this section, the court shall, no later than the issuance of the scheduling order, make the following order:

"Unless otherwise ordered by the court, no entity or person who has obtained confidential information protected by § 58.1-3 of the Code of Virginia regarding [property reference], directly or indirectly through any party to this action, shall disclose, exhibit, or discuss the confidential information except as provided herein. Confidential information protected by § 58.1-3 may be revealed to or discussed only with the following persons in connection with the review or litigation of the assessment of the above-referenced property:

1. The taxpayer or the ~~local government~~ *locality* (the "Parties");
2. Counsel for any Party to this action and employees of the counsel's firm, including attorneys other than counsel;
3. Outside experts retained by and assisting counsel for any Party in the preparation for or trial of this action;
4. The court or an administrative board reviewing the assessment on the above-referenced property, persons employed by the court or administrative board, and persons employed to transcribe or record the testimony or argument at a hearing, trial, or deposition regarding the assessment of the above-referenced property; and
5. Any person who may be called as a witness in a hearing, trial, or discovery that counsel believes in good faith to be necessary for the preparation or presentation of the case.

No person who is furnished with confidential information shall reveal it to, or discuss it with, any person who is not entitled to receive it under the terms of this order. Prior to their receipt of confidential information, those persons described in subdivisions 3 and 5 shall be required to sign an acknowledgement of this order and agree to be bound by the terms hereof and be subject to the jurisdiction of the court for enforcement thereof. Any person who violates the provisions of this order shall be subject to the penalty provided in subsection F of § 58.1-3."

Once the above-referenced order is entered, § 58.1-3 shall not be applicable to prevent the release of any relevant information that is responsive to a request for discovery made in the course of an appeal pursuant to this section.

B. In circuit court proceedings to seek relief from real property taxes, there shall be a presumption that the valuation determined by the assessor or as adjusted by the board of equalization is correct. The burden of proof shall be on the taxpayer to rebut such presumption and show by a preponderance of the evidence that the property in question is ~~valued~~ *was assessed* at more *or less* than its fair market value or that the assessment is not uniform in its application, and that it was not arrived at in accordance with generally accepted appraisal practices, procedures, rules, and standards as prescribed by nationally recognized professional appraisal organizations such as the International Association of Assessing Officers (IAAO) and applicable Virginia law relating to valuation of property. Mistakes of fact, including computation, that affect the assessment shall be deemed not to be in accordance with generally accepted appraisal practice.

However, in any appeal of the assessment of residential property filed by a taxpayer as an owner of real property containing less than four residential units, the assessing officer shall give the required written notice to the taxpayer, or his duly authorized representative, under subsection E of § 58.1-3331, and, upon written request, shall provide the taxpayer or his duly authorized representative copies of the assessment records set out in subsections A, B, and C of § 58.1-3331 pertaining to the assessing officer's determination of fair market value of the property under appeal. A written request by the taxpayer or his duly authorized representative shall be made following the filing of the appeal to circuit court and no later than 45 days prior to trial, unless otherwise provided by an order of the court before which the appeal is pending. Provided the written request is made in accordance with this section or any applicable court order, the assessing officer shall provide such records within 15 days of the written request to the taxpayer or his duly authorized representative. If the assessing officer fails to do so, the assessing officer shall present the following into evidence prior to the presentation of evidence by the taxpayer at the hearing: (i) copies of the assessment records maintained by the assessing officer under § 58.1-3331, (ii) testimony that explains the methodologies employed by the assessing officer to determine the assessed value of the property, and (iii) testimony that states that the assessed value was arrived at in accordance with generally accepted appraisal practices, procedures, rules, and standards as prescribed by nationally recognized professional appraisal organizations such as the International Association of Assessing Officers (IAAO) and applicable Virginia law relating to valuation of property. Upon the conclusion of the presentation of the evidence of the assessing officer, the taxpayer shall have the burden of proof by a preponderance of the evidence to rebut such evidence presented by the assessing officer as otherwise provided in this section.

C. The presumptions, burdens, and standards set out in subsection B shall not be construed to change or have any effect upon the presumptions, burdens, and standards applicable to applications for the correction of erroneous assessments of any local tax other than real property taxes.

D. In the event it comes or is brought to the attention of the commissioner of the revenue *or other assessing official* of the locality that the assessment of any tax is improper or is based on obvious error and should be corrected in order that the ends of justice may be served, and he is not able to correct it under § 58.1-3981, the commissioner of the revenue *or other assessing official* shall apply to the appropriate court, in the manner herein provided for relief of the taxpayer. Such application may include a petition for relief for any of several taxpayers.

CHAPTER 359

An Act to direct the State Board of Local and Regional Jails to make recommendations regarding certain fees in local and regional correctional facilities.

Be it enacted by the General Assembly of Virginia:

1. § 1. *The State Board of Local and Regional Jails (the Board) shall convene a work group to review and make recommendations regarding the reduction or elimination of costs and fees charged to inmates in local or regional correctional facilities to defray the costs of an inmate's keep, work release, or participation in educational or rehabilitative programs; to use telephone services; to purchase items or services from stores or commissaries; to utilize electronic visitation systems; and otherwise deemed relevant by the Board. The work group shall be composed of two members of the House Committee on Public Safety who are not members of the same political party and two members of the Senate Committee on Rehabilitation and Social Services who are not members of the same political party. Such legislative members shall appoint as members of the work group one formerly incarcerated person, one family member of a currently incarcerated person, and at least one representative of the following organizations or companies: the Virginia Sheriffs' Association, the Virginia Association of Chiefs of Police, the Virginia Association of Regional Jails, the American Civil Liberties Union of Virginia, Worth Rises, Social Action Linking Together, Justice Forward Virginia, the Sistas in Prison Reform, Americans for Prosperity, a vendor that provides telephone services to local correctional facilities within the Commonwealth, and a vendor that provides commissary services to local correctional facilities within the Commonwealth. The work group shall report its findings and recommendations to the Chairmen of the House Committee on Public Safety and the Senate Committee on Rehabilitation and Social Services by December 1, 2022.*

CHAPTER 360

An Act to amend and reenact § 2.2-4303 of the Code of Virginia, relating to the Virginia Public Procurement Act; methods of procurement; submitting bids electronically.

[H 964]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:**1. That § 2.2-4303 of the Code of Virginia is amended and reenacted as follows:****§ 2.2-4303. Methods of procurement.**

A. All public contracts with nongovernmental contractors for the purchase or lease of goods, or for the purchase of services, insurance, or construction, shall be awarded after competitive sealed bidding, or competitive negotiation as provided in this section, unless otherwise authorized by law. *All state public bodies accepting bids or proposals for contracts pursuant to this chapter shall provide an option to submit bids or proposals through the Commonwealth's statewide electronic procurement system, known as eVA. The Director of the Department of General Services, or his designee, may grant an exemption from such requirement at the request of a state public body and upon a showing of good cause. Local public bodies are encouraged to use eVA to offer an electronic submission option.*

B. Professional services shall be procured by competitive negotiation.

C. Goods, services other than professional services, and insurance may be procured by competitive sealed bidding or competitive negotiation.

Upon a written determination made in advance by (i) the Governor or his designee in the case of a procurement by the Commonwealth or by a department, agency or institution thereof or (ii) the local governing body in the case of a procurement by a political subdivision of the Commonwealth, that competitive negotiation is either not practicable or not fiscally advantageous, insurance may be procured through a licensed agent or broker selected in the manner provided for the procurement of things other than professional services set forth in § 2.2-4302.2. The basis for this determination shall be documented in writing.

D. Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances:

1. By any public body on a fixed price design-build basis or construction management basis as provided in Chapter 43.1 (§ 2.2-4378 et seq.); or

2. By any public body for the construction of highways and any draining, dredging, excavation, grading or similar work upon real property upon a determination made in advance by the public body and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination.

E. Upon a determination in writing that there is only one source practicably available for that which is to be procured, a contract may be negotiated and awarded to that source without competitive sealed bidding or competitive negotiation. The writing shall document the basis for this determination. The public body shall issue a written notice stating that only one source was determined to be practicably available, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted on the Department of General Services' central electronic procurement website or other appropriate websites, and in addition, public bodies may publish in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

F. In case of emergency, a contract may be awarded without competitive sealed bidding or competitive negotiation; however, such procurement shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The public body shall issue a written notice stating that the contract is being awarded on an emergency basis, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted on the Department of General Services' central electronic procurement website or other appropriate websites, and in addition, public bodies may publish in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first, or as soon thereafter as is practicable. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

G. A public body may establish purchase procedures, if adopted in writing, not requiring competitive sealed bids or competitive negotiation for single or term contracts for:

1. Goods and services other than professional services and non-transportation-related construction, if the aggregate or the sum of all phases is not expected to exceed \$200,000; and

2. Transportation-related construction, if the aggregate or sum of all phases is not expected to exceed \$25,000.

However, such small purchase procedures shall provide for competition wherever practicable.

Such purchase procedures may allow for single or term contracts for professional services without requiring competitive negotiation, provided the aggregate or the sum of all phases is not expected to exceed \$80,000.

Where small purchase procedures are adopted for construction, the procedures shall not waive compliance with the Uniform State Building Code.

For state public bodies, informal solicitations conducted under this subsection shall require the posting of a public notice on the Department of General Services' central electronic procurement website. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

H. Upon a determination made in advance by a public body and set forth in writing that the purchase of goods, products or commodities from a public auction sale is in the best interests of the public, such items may be purchased at the auction, including online public auctions. Purchase of information technology and telecommunications goods and nonprofessional services from a public auction sale shall be permitted by any authority, department, agency, or institution of the Commonwealth if approved by the Chief Information Officer of the Commonwealth. The writing shall document the basis for this determination. However, bulk purchases of commodities used in road and highway construction and maintenance, and aggregates shall not be made by online public auctions.

I. The purchase of goods or nonprofessional services, but not construction or professional services, may be made by reverse auctioning. However, bulk purchases of commodities used in road and highway construction and maintenance, and aggregates shall not be made by reverse auctioning.

2. That the provisions of this act shall become effective on July 1, 2023.

CHAPTER 363

An Act to amend and reenact §§ 56-585.3 and 56-594.01 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 56-594.01:1, relating to electric cooperatives; net energy metering; power purchase agreements; local facilities usage charges.

[H 266]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-585.3 and 56-594.01 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 56-594.01:1 as follows:

§ 56-585.3. Regulation of cooperative rates after rate caps.

A. After the expiration or termination of capped rates, the rates, terms and conditions of distribution electric cooperatives subject to Article 1 (§ 56-231.15 et seq.) of Chapter 9.1 shall be regulated in accordance with the provisions of Chapters 9.1 (§ 56-231.15 et seq.) and 10 (§ 56-232 et seq.), as modified by the following provisions:

1. Except for energy related cost (fuel cost), the Commission shall not require any cooperative to adjust, modify, or revise its rates, by means of riders or otherwise, to reflect changes in wholesale power cost which occurred during the capped rate period, other than in a general rate proceeding;

2. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or decrease all classes of its rates for distribution services at any time, provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of five percent in such rates in any three-year period. Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates with the Commission for informational purposes;

3. Each cooperative may, without Commission approval, upon an affirmative resolution of its board of directors, make any adjustment to its terms and conditions that does not affect the cooperative's revenues from the distribution or supply of electric energy. In addition, a cooperative may make such adjustments to any pass-through of third-party service charges and fees, and to any fees, charges and deposits set out in Schedule F of such cooperative's Terms and Conditions filed as of January 1, 2007. The cooperative will promptly file any such amended terms and conditions with the Commission for informational purposes;

4. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, make any adjustment to its rates reasonably calculated to collect any or all of the fixed costs of owning and operating its electric distribution system, including without limitation, such costs as are identified as customer-related costs in a cost of service study, through a new or modified fixed monthly charge, rather than through volumetric charges associated with the use of electric energy or demand, or to rebalance among any of the fixed monthly charge, distribution demand, and distribution energy; however, such adjustments shall be revenue neutral based on the cooperative's determination of the proper intra-class allocation of the revenues produced by its then current rates. If a rate class contains a supply demand charge, the cooperative may rebalance its rate for electricity supply service pursuant to this subdivision. The cooperative may elect, but is not required, to implement such adjustments through incremental changes over the course of up to three years. The cooperative shall file promptly revised tariffs reflecting any such adjustments with the Commission for informational purposes;

5. A cooperative may, at any time after the expiration or termination of capped rates, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the costs described in subdivisions A 5 b and e of § 56-585.1;

6. A cooperative that is not a current member of a utility aggregation cooperative may at any time petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery of cost from customers of (i) one or more generation facilities, (ii) one or more major unit modifications of generation facilities, or (iii) one or more pumped hydroelectricity generation and storage facilities. A cooperative seeking a rate adjustment clause pursuant to this subdivision shall have the right, after notice and the opportunity for a hearing, to recover the costs of a facility described in clauses (i), (ii), or (iii) in a rate adjustment clause including construction work in progress and allowance for funds during construction, planning, and development costs of infrastructure associated therewith. The costs of the facility other than projected construction work in progress and allowance for funds used during construction shall not be recovered prior to the date that the facility either (a) begins commercial operation or (b) comes under the ownership of the cooperative. For the purposes of this subdivision, the cooperative's cost of capital shall be recoverable in such a rate adjustment clause and shall be set as either the cooperative's long-term cost of debt or most recent rate of return authorized by the Commission in a rate proceeding. In any proceeding conducted pursuant to this subdivision, the Commission shall consider that all costs expended and revenues recovered arising out of the procurement of generation resources pursuant to this subdivision will inure to the benefit of the general membership of the cooperative. Nothing in this subdivision shall relieve a cooperative from any requirement to obtain a certificate of public convenience and necessity for purposes of constructing generation in the Commonwealth. The Commission's final order regarding any petition filed pursuant to this subdivision shall be entered not more than nine months after the date of filing of such petition. If such petition is approved, the order shall direct that the

applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order. Any petition filed pursuant to this subdivision shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the cooperative. Any costs incurred by a cooperative prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition, shall be deferred on the books and records of the cooperative until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clause, whichever is later; ~~and~~

7. A cooperative may adopt any other cooperative's voluntary rate, voluntary program (including a pilot program), or voluntary tariff, and cost recovery therefor, by submitting the same to the Commission for administrative approval. The staff of the Commission shall have the authority to approve such administrative filing notwithstanding any other provision of law; *and*

8. *A cooperative may, without approval of the Commission or the requirement of any filing other than as provided in this subsection, upon an affirmative resolution of its board of directors, approve any voluntary tariff, and cost recovery therefor, and shall promptly file any such tariff with the Commission for informational purposes.*

B. None of the adjustments described in subdivisions A 2 through A 5 will apply to the rates paid by any customer that takes service by means of dedicated distribution facilities and had noncoincident peak demand in excess of 90 megawatts in calendar year 2006.

C. Nothing in this section shall be deemed to grant to a cooperative any authority to amend or adjust any terms and conditions of service or agreements regarding pole attachments or the use of the cooperative's poles or conduits.

§ 56-594.01. Net energy metering provisions for electric cooperative service territories.

A. The Commission shall establish by regulation a program that affords eligible customer-generators the opportunity to participate in net energy metering in the service territory of each electric cooperative, which program shall commence on the later of July 1, 2019, or the effective date of such regulations. Such regulations shall be similar to existing regulations promulgated pursuant to § 56-594. In lieu of adopting new regulations, the Commission may amend such existing regulations to apply to electric cooperatives with such revisions as are required to comply with the provisions of this section. The regulations may include requirements applicable to (i) retail sellers, (ii) owners or operators of distribution or transmission facilities, (iii) providers of default service, (iv) eligible customer-generators, or (v) any combination of the foregoing, as the Commission determines will facilitate the provision of net energy metering, provided that the Commission determines that such requirements do not adversely affect the public interest.

B. As used in this section:

"Eligible customer-generator" means a customer that owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility that (i) has a capacity of not more than 20 kilowatts for residential customers and not more than one megawatt for nonresidential customers on an electrical generating facility placed in service after July 1, 2015; (ii) uses as its total source of fuel renewable energy as defined in § 56-576; (iii) is located on the customer's premises and is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (iv) is interconnected and operated in parallel with an electric company's transmission and distribution facilities; and (v) is intended primarily to offset all or part of the customer's own electricity requirements. In addition to the electrical generating facility size limitations in clause (i), the capacity of any generating facility installed under this section after July 1, 2015, shall not exceed the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.

"Net energy metering" means measuring the difference, over the net metering period, between (i) electricity supplied to an eligible customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the eligible customer-generator.

"Net metering period" means the 12-month period following the date of final interconnection of the eligible customer-generator's system with an electric service provider, and each 12-month period thereafter.

C. The Commission's regulations shall ensure that (i) the metering equipment installed for net metering shall be capable of measuring the flow of electricity in two directions and (ii) any eligible customer-generator seeking to participate in net energy metering shall notify its supplier and receive approval to interconnect prior to installation of an electrical generating facility. The Commission shall publish a form for such prior notice and such notice shall be processed promptly by the supplier prior to any construction activity taking place. After construction, inspection and documentation thereof shall be required prior to interconnection. The electric distribution company shall have 30 days from the date of each notification for residential facilities, and 60 days from the date of each notification for nonresidential facilities, to determine whether the interconnection requirements have been met. Such regulations shall allocate fairly the cost of such equipment and any necessary interconnection. An eligible customer-generator's electrical generating system shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories. In addition to the requirements set forth in this section and to ensure public safety, power quality, and reliability of the supplier's electric distribution system, an eligible customer-generator whose electrical generating system meets those standards and rules shall bear all reasonable costs of equipment required for the interconnection to the supplier's electric distribution system, including costs, if any, to (a) install additional controls, (b) perform or pay for additional tests, and (c) purchase additional liability insurance. An electric cooperative may publish and use its own forms, including an electronic form, for purposes of implementing the regulations

described herein so long as the information collected on the Commission's form is also collected by the cooperative and submitted to the Commission.

D. The Commission shall establish minimum requirements for contracts to be entered into by the parties to net metering arrangements. Such requirements shall protect the eligible customer-generator against discrimination by virtue of its status as an eligible customer-generator and permit customers that are served on time-of-use tariffs that have electricity supply demand charges contained within the electricity supply portion of the time-of-use tariffs to participate as an eligible customer-generator. Notwithstanding the cost allocation provisions of subsection C, eligible customer-generators served on demand charge-based time-of-use tariffs shall bear the incremental metering costs required to net meter such customers.

E. If electricity generated by an eligible customer-generator over the net metering period exceeds the electricity consumed by the eligible customer-generator, the customer-generator shall be compensated for the excess electricity if the entity contracting to receive such electric energy and the eligible customer-generator enter into a power purchase agreement for such excess electricity. Upon the written request of the eligible customer-generator, the supplier that serves the eligible customer-generator shall enter into a power purchase agreement with the requesting eligible customer-generator that is consistent with the minimum requirements for contracts established by the Commission pursuant to subsection D. The power purchase agreement shall obligate the supplier to purchase such excess electricity at the rate that is provided for such purchases in a net metering standard contract or tariff approved by the Commission, unless the parties agree to a higher rate. The eligible customer-generator owns any renewable energy certificates associated with its electrical generating facility; however, at the time that the eligible customer-generator enters into a power purchase agreement with its supplier, the eligible customer-generator shall have a one-time option to sell the renewable energy certificates associated with such electrical generating facility to its supplier and be compensated at an amount that is established by the Commission to reflect the value of such renewable energy certificates. Nothing in this section shall prevent the eligible customer-generator and the supplier from voluntarily entering into an agreement for the sale and purchase of excess electricity or renewable energy certificates at mutually agreed upon prices if the eligible customer-generator does not exercise its option to sell its renewable energy certificates to its supplier at Commission-approved prices at the time that the eligible customer-generator enters into a power purchase agreement with its supplier. All costs incurred by the supplier to purchase excess electricity and renewable energy certificates from eligible customer-generators shall be recoverable through its fuel adjustment clause. For purposes of this section, "all costs" shall be defined as the rates paid to the eligible customer-generator for the purchase of excess electricity and renewable energy certificates and any administrative costs incurred to manage the eligible customer-generator's power purchase arrangements. The net metering standard contract or tariff shall be available to eligible customer-generators on a first-come, first-served basis, subject to the provisions of subsection F, and shall require the supplier to pay the eligible customer-generator for such excess electricity in a timely manner at a rate to be established by the Commission.

F. Net energy metering shall be open to customers on a first-come, first-served basis until such time as the total capacity of the generation facilities, expressed in alternating current nameplate, reaches two percent of system peak for residential customers, two percent of system peak for not-for-profit and nonjurisdictional customers, and one percent of system peak for other nonresidential customers, which are herein referred to as the electric cooperative's caps. As used in this subsection, "percent of system peak" refers to a percentage of the electric cooperative's highest total system peak, based on the noncoincident peak of the electric cooperative or the coincident peak of all of the electric cooperative's customers, within the past three years as listed in Part O, Line 20 of Form 7 filed with the Rural Utilities Service or its equivalent, less any portion of the cooperative's total load that is served by a competitive service provider or by a market-based rate. Such caps shall not decrease but may increase if the system peak in any year exceeds the previous year's system peak. Nothing in this subsection shall amend or confer new rights upon any existing nonjurisdictional contract or arrangement or work to submit any nonjurisdictional customer, contract, or arrangement to the jurisdiction of the Commission. For purposes of calculating the caps established in this subsection, all net energy metering shall be counted, whenever interconnected, and shall include net energy metering interconnected pursuant to § 56-594, agricultural net energy metering, and any net energy metering entered into with a third-party provider registered pursuant to subsection K. Net energy metering with nonjurisdictional customers entered into prior to July 1, 2019, may be counted toward the caps, in the discretion of the cooperative, as net energy metering if the nonjurisdictional customer takes service pursuant to a cooperative's net energy metering rider. Net energy metering with nonjurisdictional customers entered into on or after July 1, 2019, shall be counted toward the caps by default unless the cooperative has reason to exclude such net energy metering as subject to a separate contract or arrangement. Each electric cooperative governed by this section shall publish information regarding the calculation and status of its caps pursuant to this subsection, or the electric cooperative's systemwide cap established in § 56-585.4 if applicable, on the electric cooperative's website.

G. An electric cooperative may, without Commission approval or the requirement of any filing other than as provided in this subsection, upon the adoption by its board of directors of a resolution so providing, raise the caps established in subsection F up to a cumulative total of seven percent of system peak, calculated according to the methodology described in subsection F, with any increase allocated among residential, not-for-profit and nonjurisdictional, and other nonresidential customers as the board of directors may find to be in the interests of the electric cooperative's membership. The electric cooperative shall promptly file a revised net energy metering compliance filing with the Commission for informational purposes.

H. Any residential eligible customer-generator who owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility with a capacity that exceeds 10 kilowatts shall pay to its supplier, in addition to any other charges authorized by law, a monthly standby charge. The amount of the standby charge and the terms and conditions under which it is assessed shall be in accordance with a methodology developed by the supplier and approved by the Commission. The Commission shall approve a supplier's proposed standby charge methodology if it finds that the standby charges collected from all such eligible customer-generators allow the supplier to recover only the portion of the supplier's infrastructure costs that are properly associated with serving such eligible customer-generators. Such an eligible customer-generator shall not be liable for a standby charge until the date specified in an order of the Commission approving its supplier's methodology.

I. Any eligible agricultural customer-generator interconnected in an electric cooperative service territory prior to July 1, 2019, shall continue to be governed by § 56-594 and the regulations adopted pursuant thereto throughout the grandfathering period described in subsection A of § 56-594.

J. Any eligible customer-generator served by a competitive service provider pursuant to the provisions of § 56-577 shall engage in net energy metering only with such supplier and pursuant only to tariffs filed by such supplier. Such an eligible customer-generator shall pay the full portion of its distribution charges, without offset or netting, to its electric cooperative.

K. After the conclusion of the Commission's rulemaking proceeding pursuant to subsection L, third-party partial requirements power purchase agreements, the purpose of which is to finance the purchase of renewable generation facilities by eligible customer-generators through the sale of electricity, shall be permitted pursuant to the provisions of this section only for those retail customers and nonjurisdictional customers of the electric cooperative that are exempt from federal income taxation, unless otherwise permitted by § 56-585.4 or subsection M. No person shall offer a third-party partial requirements power purchase agreement in the service territory of an electric cooperative without fulfilling the registration requirements set forth in this section and complying with applicable Commission rules, including those adopted pursuant to subdivision L 2.

L. After August 1, 2019, but before January 1, 2020, the Commission shall initiate a rulemaking proceeding to promulgate the regulations necessary to implement this section as follows:

1. In conducting such a proceeding, the Commission may require notice to be given to current eligible customer-generators and eligible agricultural customer-generators but shall not require general publication of the notice. An opportunity to request a hearing shall be afforded, but a hearing is not required. In the rulemaking proceeding, the electric cooperatives governed by this section shall be required to submit compliance filings, but no other individual proceedings shall be required or conducted.

2. In promulgating regulations to govern third-party power purchase agreement providers as retail sellers, the Commission shall:

a. Direct the staff to administer a registration system for such providers;

b. Enumerate in its regulations the jurisdiction of the Commission over providers, generally limited in scope to the behavior of providers, customer complaints, and their compliance with the registration requirements and stating clearly that civil contract disputes and claims for damages against providers shall not be subject to the jurisdiction of the Commission;

c. ~~Establish enumerate~~ Enumerate in its regulations the maximum extent of its authority over the providers, to be limited to any or all of:

(1) Monetary penalties against registered providers not to exceed \$30,000 per provider registration;

(2) Orders for providers to cease or desist from a certain practice, act, or omission;

(3) Debarment of registered providers;

(4) The issuance of orders to show cause; and

(5) Authority incident to subdivisions (1) through (4);

d. Delineate in its regulations two classes of providers, one for residential customers and one for nonresidential customers;

e. Direct the staff to set up a self-certification system as described in this subdivision;

f. Establish business practice and consumer protection standards from a national renewable energy association whose business is germane to the businesses of the providers;

g. Require providers to comply with other applicable Commission regulations governing interconnection and safety, including utility procedures governing the same;

h. Require minimum capitalization or other bond or surety that, in the judgment of the Commission, is necessary for adequate consumer protection and in the public interest;

i. Require the payment of a fee of \$250 for residential and nonresidential provider registration; and

j. Provide that no registered provider, by virtue of that status alone, shall be considered a public utility or competitive service provider for purposes of this title.

3. The self-certification system described in this subdivision shall require a provider to affirm to the staff, under the penalty of revocation of registration, (i) that it is licensed to do business in Virginia; (ii) the names of the responsible officers of the provider entity; (iii) that its named officers have no felony convictions or convictions for crimes of moral turpitude; (iv) that it will abide by all applicable Commission regulations promulgated under this section or for purposes of interconnections and safety; (v) that it will appoint an officer to be a primary liaison to the staff; (vi) that it will appoint an

employee to be a primary contact for customer complaints; (vii) that it will have and disclose to customers a dispute resolution procedure; (viii) that it has specified in its registration materials in which territories it intends to offer power purchase agreements; (ix) that it, and each of its named officers, agree to submit themselves to the jurisdiction of the Commission as described in this subdivision; and (x) that, once registered, the provider shall report any material changes in its registration materials to the staff, as a continuing obligation of registration. The staff shall send a copy of the registration materials to each cooperative in whose territory the provider intends to offer power purchase agreements. The staff, once satisfied that the certifications required pursuant to this subdivision are complete, and not more than 30 days following the initial and complete submittal of the registration materials, shall enter the provider onto the official register of providers. No formal Commission proceeding is required for registration but may be initiated if the staff (a) has reason to doubt the veracity of the certifications of the provider or (b) in any other case, if, in the judgment of the staff, extenuating or extraordinary circumstances exist that warrant a proceeding. The staff shall not investigate the corporate structure, financing, bookkeeping, accounting practices, contracting practices, prices, or terms and conditions in a third-party partial requirements power purchase agreement. Nothing in this section shall abridge the right of any person, including the Office of Attorney General, from proceeding in a cause of action under the Virginia Consumer Protection Act, § 59.1-196 et seq.

4. The Commission shall complete such rulemaking procedure within 12 months of its initiation.

M. An electric cooperative may, without approval of the Commission or the requirement of any filing other than as provided in this subsection, and upon the adoption by its board of directors of a resolution so providing, permit the use of any third-party partial requirements power purchase agreement, the purpose of which agreement is to finance the purchase of renewable generation facilities by eligible customer-generators through the sale of electricity for residential retail customers, nonresidential retail customers, or both. The electric cooperative shall promptly file a revised net energy metering compliance filing with the Commission for informational purposes.

§ 56-594.01:1. Local facilities usage charges; electric cooperatives.

A. For the purpose of this section:

"Electric cooperative" or "cooperative" means a utility formed under or subject to Chapter 9.1 (§ 56-231.15 et seq.) and subject to regulation as to rates and service by the Commission.

"Customer" means a customer interconnected to facilities of an electric cooperative pursuant to 20VAC5-314, generating or interconnected for export, which customer is neither selling power to the cooperative nor interconnected pursuant to § 56-594.01 or 56-594.2.

B. Any customer may enter into an agreement for local facilities usage charges, which may be denominated as an operations and maintenance agreement or facilities agreement or otherwise. Such agreement shall be deemed just and reasonable by operation of law without separate approval by the Commission.

C. In the absence of an agreement between the parties, an electric cooperative may apply at any time to the Commission for a tariff for local facilities usage charges for the use of cooperative system facilities. Local facilities usage charges shall be designed by the cooperative, either on the basis of line-miles of utility facilities used or the capacity of the interconnecting facility, or on the basis of a combination of these factors. The Commission shall approve a just and reasonable rate. In approving such rate, the Commission shall consider (i) the ongoing costs of operating and maintaining all local utility facilities used by interconnecting customers to access a contract path to PJM Interconnection, LLC, market delivery points, including a reasonable margin and all costs of any associated regulatory proceeding, and (ii) standard utility practices. The Commission is not required to conduct a hearing on any application pursuant to this subsection, but the Commission shall order notice to each affected customer and an opportunity to comment. Any party to the proceeding shall have the right to request a hearing on the application. Any proceeding conducted pursuant to this subsection shall be completed within 12 months of its commencement. Once the Commission approves a tariff for charges as described in this subsection, any interconnected customer shall be subject to the tariff thereafter. However, any agreements entered into pursuant to subsection B shall continue to have force and effect according to their terms and shall not be subject to the tariff unless the customer desires to transition to tariffed services.

D. In the absence of an agreement executed pursuant to subsection B or a specific tariff approved for local facilities usage charges pursuant to subsection C, any electric cooperative with a previously approved tariff for excess facilities charges may use such tariff to recover local facilities usage charges without seeking separate approval from the Commission. Any customer impacted by any action of a cooperative pursuant to this subsection shall have the right to petition the Commission for redress and review of the charges as applied to the customer by initiating a petition proceeding pursuant to subsection C of 5VAC5-20-100. The petitioner shall bear the burden of proof in such proceeding. If a cooperative's acts are found to be unjust or unreasonable, such a proceeding shall include the establishment of a tariff pursuant to subsection C. If such a proceeding includes the establishment of a tariff pursuant to subsection C, the cooperative shall bear the burden of proof. The results of any such proceeding shall not, in any case, invalidate an excess facilities tariff or charges as to any person other than the customer initiating the proceeding.

E. The provisions of this section shall be applied notwithstanding any other provision of law.

CHAPTER 364

An Act to amend and reenact §§ 56-585.3 and 56-594.01 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 56-594.01:1, relating to electric cooperatives; net energy metering; power purchase agreements; local facilities usage charges.

[S 505]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-585.3 and 56-594.01 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 56-594.01:1 as follows:

§ 56-585.3. Regulation of cooperative rates after rate caps.

A. After the expiration or termination of capped rates, the rates, terms and conditions of distribution electric cooperatives subject to Article 1 (§ 56-231.15 et seq.) of Chapter 9.1 shall be regulated in accordance with the provisions of Chapters 9.1 (§ 56-231.15 et seq.) and 10 (§ 56-232 et seq.), as modified by the following provisions:

1. Except for energy related cost (fuel cost), the Commission shall not require any cooperative to adjust, modify, or revise its rates, by means of riders or otherwise, to reflect changes in wholesale power cost which occurred during the capped rate period, other than in a general rate proceeding;

2. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or decrease all classes of its rates for distribution services at any time, provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of five percent in such rates in any three-year period. Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates with the Commission for informational purposes;

3. Each cooperative may, without Commission approval, upon an affirmative resolution of its board of directors, make any adjustment to its terms and conditions that does not affect the cooperative's revenues from the distribution or supply of electric energy. In addition, a cooperative may make such adjustments to any pass-through of third-party service charges and fees, and to any fees, charges and deposits set out in Schedule F of such cooperative's Terms and Conditions filed as of January 1, 2007. The cooperative will promptly file any such amended terms and conditions with the Commission for informational purposes;

4. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, make any adjustment to its rates reasonably calculated to collect any or all of the fixed costs of owning and operating its electric distribution system, including without limitation, such costs as are identified as customer-related costs in a cost of service study, through a new or modified fixed monthly charge, rather than through volumetric charges associated with the use of electric energy or demand, or to rebalance among any of the fixed monthly charge, distribution demand, and distribution energy; however, such adjustments shall be revenue neutral based on the cooperative's determination of the proper intra-class allocation of the revenues produced by its then current rates. If a rate class contains a supply demand charge, the cooperative may rebalance its rate for electricity supply service pursuant to this subdivision. The cooperative may elect, but is not required, to implement such adjustments through incremental changes over the course of up to three years. The cooperative shall file promptly revised tariffs reflecting any such adjustments with the Commission for informational purposes;

5. A cooperative may, at any time after the expiration or termination of capped rates, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the costs described in subdivisions A 5 b and e of § 56-585.1;

6. A cooperative that is not a current member of a utility aggregation cooperative may at any time petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery of cost from customers of (i) one or more generation facilities, (ii) one or more major unit modifications of generation facilities, or (iii) one or more pumped hydroelectricity generation and storage facilities. A cooperative seeking a rate adjustment clause pursuant to this subdivision shall have the right, after notice and the opportunity for a hearing, to recover the costs of a facility described in clauses (i), (ii), or (iii) in a rate adjustment clause including construction work in progress and allowance for funds during construction, planning, and development costs of infrastructure associated therewith. The costs of the facility other than projected construction work in progress and allowance for funds used during construction shall not be recovered prior to the date that the facility either (a) begins commercial operation or (b) comes under the ownership of the cooperative. For the purposes of this subdivision, the cooperative's cost of capital shall be recoverable in such a rate adjustment clause and shall be set as either the cooperative's long-term cost of debt or most recent rate of return authorized by the Commission in a rate proceeding. In any proceeding conducted pursuant to this subdivision, the Commission shall consider that all costs expended and revenues recovered arising out of the procurement of generation resources pursuant to this subdivision will inure to the benefit of the general membership of the cooperative. Nothing in this subdivision shall relieve a cooperative from any requirement to obtain a certificate of public convenience and necessity for purposes of constructing generation in the Commonwealth. The Commission's final order regarding any petition filed pursuant to this subdivision shall be entered not more than nine months after the date of filing of such petition. If such petition is approved, the order shall direct that the

applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order. Any petition filed pursuant to this subdivision shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the cooperative. Any costs incurred by a cooperative prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition, shall be deferred on the books and records of the cooperative until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clause, whichever is later; ~~and~~

7. A cooperative may adopt any other cooperative's voluntary rate, voluntary program (including a pilot program), or voluntary tariff, and cost recovery therefor, by submitting the same to the Commission for administrative approval. The staff of the Commission shall have the authority to approve such administrative filing notwithstanding any other provision of law; *and*

8. *A cooperative may, without approval of the Commission or the requirement of any filing other than as provided in this subsection, upon an affirmative resolution of its board of directors, approve any voluntary tariff, and cost recovery therefor, and shall promptly file any such tariff with the Commission for informational purposes.*

B. None of the adjustments described in subdivisions A 2 through A 5 will apply to the rates paid by any customer that takes service by means of dedicated distribution facilities and had noncoincident peak demand in excess of 90 megawatts in calendar year 2006.

C. Nothing in this section shall be deemed to grant to a cooperative any authority to amend or adjust any terms and conditions of service or agreements regarding pole attachments or the use of the cooperative's poles or conduits.

§ 56-594.01. Net energy metering provisions for electric cooperative service territories.

A. The Commission shall establish by regulation a program that affords eligible customer-generators the opportunity to participate in net energy metering in the service territory of each electric cooperative, which program shall commence on the later of July 1, 2019, or the effective date of such regulations. Such regulations shall be similar to existing regulations promulgated pursuant to § 56-594. In lieu of adopting new regulations, the Commission may amend such existing regulations to apply to electric cooperatives with such revisions as are required to comply with the provisions of this section. The regulations may include requirements applicable to (i) retail sellers, (ii) owners or operators of distribution or transmission facilities, (iii) providers of default service, (iv) eligible customer-generators, or (v) any combination of the foregoing, as the Commission determines will facilitate the provision of net energy metering, provided that the Commission determines that such requirements do not adversely affect the public interest.

B. As used in this section:

"Eligible customer-generator" means a customer that owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility that (i) has a capacity of not more than 20 kilowatts for residential customers and not more than one megawatt for nonresidential customers on an electrical generating facility placed in service after July 1, 2015; (ii) uses as its total source of fuel renewable energy as defined in § 56-576; (iii) is located on the customer's premises and is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (iv) is interconnected and operated in parallel with an electric company's transmission and distribution facilities; and (v) is intended primarily to offset all or part of the customer's own electricity requirements. In addition to the electrical generating facility size limitations in clause (i), the capacity of any generating facility installed under this section after July 1, 2015, shall not exceed the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.

"Net energy metering" means measuring the difference, over the net metering period, between (i) electricity supplied to an eligible customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the eligible customer-generator.

"Net metering period" means the 12-month period following the date of final interconnection of the eligible customer-generator's system with an electric service provider, and each 12-month period thereafter.

C. The Commission's regulations shall ensure that (i) the metering equipment installed for net metering shall be capable of measuring the flow of electricity in two directions and (ii) any eligible customer-generator seeking to participate in net energy metering shall notify its supplier and receive approval to interconnect prior to installation of an electrical generating facility. The Commission shall publish a form for such prior notice and such notice shall be processed promptly by the supplier prior to any construction activity taking place. After construction, inspection and documentation thereof shall be required prior to interconnection. The electric distribution company shall have 30 days from the date of each notification for residential facilities, and 60 days from the date of each notification for nonresidential facilities, to determine whether the interconnection requirements have been met. Such regulations shall allocate fairly the cost of such equipment and any necessary interconnection. An eligible customer-generator's electrical generating system shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories. In addition to the requirements set forth in this section and to ensure public safety, power quality, and reliability of the supplier's electric distribution system, an eligible customer-generator whose electrical generating system meets those standards and rules shall bear all reasonable costs of equipment required for the interconnection to the supplier's electric distribution system, including costs, if any, to (a) install additional controls, (b) perform or pay for additional tests, and (c) purchase additional liability insurance. An electric cooperative may publish and use its own forms, including an electronic form, for purposes of implementing the regulations

described herein so long as the information collected on the Commission's form is also collected by the cooperative and submitted to the Commission.

D. The Commission shall establish minimum requirements for contracts to be entered into by the parties to net metering arrangements. Such requirements shall protect the eligible customer-generator against discrimination by virtue of its status as an eligible customer-generator and permit customers that are served on time-of-use tariffs that have electricity supply demand charges contained within the electricity supply portion of the time-of-use tariffs to participate as an eligible customer-generator. Notwithstanding the cost allocation provisions of subsection C, eligible customer-generators served on demand charge-based time-of-use tariffs shall bear the incremental metering costs required to net meter such customers.

E. If electricity generated by an eligible customer-generator over the net metering period exceeds the electricity consumed by the eligible customer-generator, the customer-generator shall be compensated for the excess electricity if the entity contracting to receive such electric energy and the eligible customer-generator enter into a power purchase agreement for such excess electricity. Upon the written request of the eligible customer-generator, the supplier that serves the eligible customer-generator shall enter into a power purchase agreement with the requesting eligible customer-generator that is consistent with the minimum requirements for contracts established by the Commission pursuant to subsection D. The power purchase agreement shall obligate the supplier to purchase such excess electricity at the rate that is provided for such purchases in a net metering standard contract or tariff approved by the Commission, unless the parties agree to a higher rate. The eligible customer-generator owns any renewable energy certificates associated with its electrical generating facility; however, at the time that the eligible customer-generator enters into a power purchase agreement with its supplier, the eligible customer-generator shall have a one-time option to sell the renewable energy certificates associated with such electrical generating facility to its supplier and be compensated at an amount that is established by the Commission to reflect the value of such renewable energy certificates. Nothing in this section shall prevent the eligible customer-generator and the supplier from voluntarily entering into an agreement for the sale and purchase of excess electricity or renewable energy certificates at mutually agreed upon prices if the eligible customer-generator does not exercise its option to sell its renewable energy certificates to its supplier at Commission-approved prices at the time that the eligible customer-generator enters into a power purchase agreement with its supplier. All costs incurred by the supplier to purchase excess electricity and renewable energy certificates from eligible customer-generators shall be recoverable through its fuel adjustment clause. For purposes of this section, "all costs" shall be defined as the rates paid to the eligible customer-generator for the purchase of excess electricity and renewable energy certificates and any administrative costs incurred to manage the eligible customer-generator's power purchase arrangements. The net metering standard contract or tariff shall be available to eligible customer-generators on a first-come, first-served basis, subject to the provisions of subsection F, and shall require the supplier to pay the eligible customer-generator for such excess electricity in a timely manner at a rate to be established by the Commission.

F. Net energy metering shall be open to customers on a first-come, first-served basis until such time as the total capacity of the generation facilities, expressed in alternating current nameplate, reaches two percent of system peak for residential customers, two percent of system peak for not-for-profit and nonjurisdictional customers, and one percent of system peak for other nonresidential customers, which are herein referred to as the electric cooperative's caps. As used in this subsection, "percent of system peak" refers to a percentage of the electric cooperative's highest total system peak, based on the noncoincident peak of the electric cooperative or the coincident peak of all of the electric cooperative's customers, within the past three years as listed in Part O, Line 20 of Form 7 filed with the Rural Utilities Service or its equivalent, less any portion of the cooperative's total load that is served by a competitive service provider or by a market-based rate. Such caps shall not decrease but may increase if the system peak in any year exceeds the previous year's system peak. Nothing in this subsection shall amend or confer new rights upon any existing nonjurisdictional contract or arrangement or work to submit any nonjurisdictional customer, contract, or arrangement to the jurisdiction of the Commission. For purposes of calculating the caps established in this subsection, all net energy metering shall be counted, whenever interconnected, and shall include net energy metering interconnected pursuant to § 56-594, agricultural net energy metering, and any net energy metering entered into with a third-party provider registered pursuant to subsection K. Net energy metering with nonjurisdictional customers entered into prior to July 1, 2019, may be counted toward the caps, in the discretion of the cooperative, as net energy metering if the nonjurisdictional customer takes service pursuant to a cooperative's net energy metering rider. Net energy metering with nonjurisdictional customers entered into on or after July 1, 2019, shall be counted toward the caps by default unless the cooperative has reason to exclude such net energy metering as subject to a separate contract or arrangement. Each electric cooperative governed by this section shall publish information regarding the calculation and status of its caps pursuant to this subsection, or the electric cooperative's systemwide cap established in § 56-585.4 if applicable, on the electric cooperative's website.

G. An electric cooperative may, without Commission approval or the requirement of any filing other than as provided in this subsection, upon the adoption by its board of directors of a resolution so providing, raise the caps established in subsection F up to a cumulative total of seven percent of system peak, calculated according to the methodology described in subsection F, with any increase allocated among residential, not-for-profit and nonjurisdictional, and other nonresidential customers as the board of directors may find to be in the interests of the electric cooperative's membership. The electric cooperative shall promptly file a revised net energy metering compliance filing with the Commission for informational purposes.

H. Any residential eligible customer-generator who owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility with a capacity that exceeds 10 kilowatts shall pay to its supplier, in addition to any other charges authorized by law, a monthly standby charge. The amount of the standby charge and the terms and conditions under which it is assessed shall be in accordance with a methodology developed by the supplier and approved by the Commission. The Commission shall approve a supplier's proposed standby charge methodology if it finds that the standby charges collected from all such eligible customer-generators allow the supplier to recover only the portion of the supplier's infrastructure costs that are properly associated with serving such eligible customer-generators. Such an eligible customer-generator shall not be liable for a standby charge until the date specified in an order of the Commission approving its supplier's methodology.

I. Any eligible agricultural customer-generator interconnected in an electric cooperative service territory prior to July 1, 2019, shall continue to be governed by § 56-594 and the regulations adopted pursuant thereto throughout the grandfathering period described in subsection A of § 56-594.

J. Any eligible customer-generator served by a competitive service provider pursuant to the provisions of § 56-577 shall engage in net energy metering only with such supplier and pursuant only to tariffs filed by such supplier. Such an eligible customer-generator shall pay the full portion of its distribution charges, without offset or netting, to its electric cooperative.

K. After the conclusion of the Commission's rulemaking proceeding pursuant to subsection L, third-party partial requirements power purchase agreements, the purpose of which is to finance the purchase of renewable generation facilities by eligible customer-generators through the sale of electricity, shall be permitted pursuant to the provisions of this section only for those retail customers and nonjurisdictional customers of the electric cooperative that are exempt from federal income taxation, unless otherwise permitted by § 56-585.4 or subsection M. No person shall offer a third-party partial requirements power purchase agreement in the service territory of an electric cooperative without fulfilling the registration requirements set forth in this section and complying with applicable Commission rules, including those adopted pursuant to subdivision L 2.

L. After August 1, 2019, but before January 1, 2020, the Commission shall initiate a rulemaking proceeding to promulgate the regulations necessary to implement this section as follows:

1. In conducting such a proceeding, the Commission may require notice to be given to current eligible customer-generators and eligible agricultural customer-generators but shall not require general publication of the notice. An opportunity to request a hearing shall be afforded, but a hearing is not required. In the rulemaking proceeding, the electric cooperatives governed by this section shall be required to submit compliance filings, but no other individual proceedings shall be required or conducted.

2. In promulgating regulations to govern third-party power purchase agreement providers as retail sellers, the Commission shall:

- a. Direct the staff to administer a registration system for such providers;
- b. Such agreement shall be deemed just and reasonable by operation of law without separate approval by the Commission.

C. In the absence of an agreement between the parties, an electric cooperative may apply at any time to the Commission for a tariff for local facilities usage charges for the use of cooperative system facilities. Local facilities usage charges shall be designed by the cooperative, either on the basis of line-miles of utility facilities used or the capacity of the interconnecting facility, or on the basis of a combination of these factors. The Commission shall approve a just and reasonable rate. In approving such rate, the Commission shall consider (i) the ongoing costs of operating and maintaining all local utility facilities used by interconnecting customers to access a contract path to PJM Interconnection, LLC, market delivery points, including a reasonable margin and all costs of any associated regulatory proceeding, and (ii) standard utility practices. The Commission is not required to conduct a hearing on any application pursuant to this subsection, but the Commission shall order notice to each affected customer and an opportunity to comment. Any party to the proceeding shall have the right to request a hearing on the application. Any proceeding conducted pursuant to this subsection shall be completed within 12 months of its commencement. Once the Commission approves a tariff for charges as described in this subsection, any interconnected customer shall be subject to the tariff thereafter. However, any agreements entered into pursuant to subsection B shall continue to have force and effect according to their terms and shall not be subject to the tariff unless the customer desires to transition to tariffed services.

D. In the absence of an agreement executed pursuant to subsection B or a specific tariff approved for local facilities usage charges pursuant to subsection C, any electric cooperative with a previously approved tariff for excess facilities charges may use such tariff to recover local facilities usage charges without seeking separate approval from the Commission. Any customer impacted by any action of a cooperative pursuant to this subsection shall have the right to petition the Commission for redress and review of the charges as applied to the customer by initiating a petition proceeding pursuant to subsection C of 5VAC5-20-100. The petitioner shall bear the burden of proof in such proceeding. If a cooperative's acts are found to be unjust or unreasonable, such a proceeding shall include the establishment of a tariff pursuant to subsection C. If such a proceeding includes the establishment of a tariff pursuant to subsection C, the cooperative shall bear the burden of proof. The results of any such proceeding shall not, in any case, invalidate an excess facilities tariff or charges as to any person other than the customer initiating the proceeding.

E. The provisions of this section shall be applied notwithstanding any other provision of law.

§ 63.2-1201. Filing of petition for adoption; venue; jurisdiction; and proceedings.

Proceedings for the adoption of a minor child and for a change of name of such child shall be instituted only by petition to a circuit court in the county or city in which the petitioner resides, in the county or city in which the child-placing agency that placed the child is located, or in the county or city in which a birth parent executed a consent pursuant to § 63.2-1233. Such petition may be filed by any natural person who resides in the Commonwealth, or who has custody of a child placed by a child-placing agency of the Commonwealth, or by an adopting parent of a child who was subject to a consent proceeding held pursuant to § 63.2-1233, or by intended parents who are parties to a surrogacy contract. The petition shall ask leave to adopt a minor child not legally the petitioner's by birth and, if it is so desired by the petitioner, also to change the name of such child. In the case of married persons, or persons who were previously married who are permitted to adopt a child under § 63.2-1201.1, the petition shall be the joint petition of the husband and wife or former spouses but, in the event the child to be adopted is legally the child by birth or adoption of one of the petitioners, such petitioner shall unite in the petition for the purpose of indicating consent to the prayer thereof only. If any procedural provision of this chapter applies to only one of the adoptive parents, then the court may waive the application of the procedural provision for the spouse of the adoptive parent to whom the provision applies. The petition shall contain a full disclosure of the circumstances under which the child came to live, and is living, in the home of the petitioner. Each petition for adoption

shall be signed by the petitioner as well as by counsel of record, if any. In any case in which the petition seeks the entry of an adoption order without referral for investigation, the petition shall be under oath.

A single petition for adoption under the provisions of this section shall be sufficient for the concurrent adoption by the same petitioners of two or more children who have the same birth parent or parents, and nothing in this section shall be construed as having heretofore required a separate petition for each of such children.

The petition for adoption, except those filed pursuant to subdivisions 5 and 6 of § 63.2-1210, shall include an additional \$50 filing fee that shall be used to fund the Virginia Birth Father Registry established in Article 7 (§ 63.2-1249 et seq.) of this chapter.

A petition filed while the child is under 18 years of age shall not become invalid because the child reaches 18 years of age prior to the entry of a final order of adoption. Any final order of adoption entered pursuant to § 63.2-1213 after a child reaches 18 years of age, where the petition was filed prior to the child turning 18 years of age, shall have the same effect as if the child was under 18 years of age at the time the order was entered by the circuit court provided the court has obtained the consent of the adoptee.

§ 63.2-1208. Investigations; report to circuit court.

A. Upon consideration of the petition, the circuit court shall, upon being satisfied as to proper jurisdiction and venue, immediately enter *either an interlocutory order referring the case to a child-placing agency to conduct a visitation and prepare a report of visitation or an order of reference referring the case to a child-placing agency to conduct an investigation and prepare a report of investigation*, unless no investigation is required pursuant to this chapter. *In agency adoption cases for which an interlocutory order is entered, the petition shall contain the provisional consent of the child-placing agency.* The court shall enter the *interlocutory order or order of reference* ~~prior to or~~ concurrently with the entering of an order of publication, if such is necessary. Upon entry of the *interlocutory order or order of reference*, the clerk shall forward a copy of the *interlocutory order or order of reference*, the petition, and all exhibits thereto to the Commissioner and the child-placing agency retained to provide investigative, reporting, and supervisory services. If no Virginia agency was retained to provide such services, the *interlocutory order or order of reference*, petition, and all exhibits shall be forwarded to the local director of social services of the locality where the petitioners reside or resided at the time of filing the petition or had legal residence at the time the petition was filed.

B. Upon receiving a petition and *interlocutory order or order of reference* from the circuit court, the applicable agency shall make a thorough investigation of the matter and report thereon in writing, in such form as the Commissioner may prescribe, to the circuit court. *In cases in which an order of reference was received, the agency shall file a report of investigation with the circuit court within 60 days after the copy of the petition and all exhibits thereto are forwarded. In cases in which an interlocutory order was received, the agency shall file a report of visitation within 30 days after the completion of all placement visits required pursuant to § 63.2-1212. In agency adoption cases, as long as the agency continues to recommend the adoption, the agency shall file its final agency consent with the report.* A copy of the *applicable* report to the circuit court shall be served on the Commissioner by delivering or mailing a copy to him on or before the day of filing ~~the~~ *such* report with the circuit court. On the *applicable* report to the circuit court there shall be appended either acceptance of service or certificate of the local director, or the representative of the child-placing agency, that copies were served as this section requires, showing the date of delivery or mailing. The circuit court shall expeditiously consider the merits of the petition upon receipt of the *applicable* report and enter a final order of adoption.

C. If the *applicable* report is not made to the circuit court within the periods specified, the circuit court may proceed to hear and determine the merits of the petition and enter such order or orders as the circuit court may deem appropriate.

D. The *visitation or investigation* requested by the circuit court in an *interlocutory order or order of reference* shall include, in addition to other inquiries that the circuit court may require the child-placing agency or local director to make, inquiries as to (i) whether the petitioner is financially able, except as provided in Chapter 13 (§ 63.2-1300 et seq.) ~~of this title~~, morally suitable, in satisfactory physical and mental health and a proper person to care for and to train the child; (ii) what the physical and mental condition of the child is; (iii) why the parents, if living, desire to be relieved of the responsibility for the custody, care, and maintenance of the child, and what their attitude is toward the proposed adoption; (iv) whether the parents have abandoned the child or are morally unfit to have custody over him; (v) the circumstances under which the child came to live, and is living, in the physical custody of the petitioner; (vi) whether the child is a suitable child for adoption by the petitioner; (vii) what fees have been paid by the petitioners or on their behalf to persons or agencies that have assisted them in obtaining the child; and (viii) whether the requirements of subsections E and F have been met. Any report made to the circuit court shall include a recommendation as to the action to be taken by the circuit court on the petition. A copy of any report made to the circuit court shall be furnished to counsel of record representing the adopting parent or parents. When the investigation reveals that there may have been a violation of § 63.2-1200 or § 63.2-1218, the local director or child-placing agency shall so inform the circuit court and the Commissioner.

E. The *applicable* report shall include the relevant physical and mental history of the birth parents if known to the person making the report. The child-placing agency or local director shall document in the report all efforts they made to encourage birth parents to share information related to their physical and mental history. However, nothing in this subsection shall require that an investigation of the physical and mental history of the birth parents be made.

F. The *applicable* report shall include a statement by the child-placing agency or local director that all reasonably ascertainable background, medical, and psychological records of the child, including whether the child has been the subject

of an investigation as the perpetrator of sexual abuse, have been provided to the prospective adoptive parent(s). The report also shall include a list of such records provided.

G. *The court may enter a final order of adoption under the following circumstances:*

1. *In cases in which an order of reference was entered and the report of investigation has been received, if (i) the child has been placed in the physical custody of the petitioner by a child-placing agency; (ii) the placing or supervising agency certifies to the circuit court that the child has lived in the physical custody of the petitioner continuously for a period of at least six months immediately preceding the filing of the petition and has been visited by a representative of such agency at least three times within a six-month period, provided that there are not less than 90 days between the first and last visit; and (iii) the court is of the opinion that entry of a final order of adoption would otherwise be proper.*

2. *In cases in which an interlocutory order was entered and both the report of visitation and final agency consent have been received, if (i) the child has been placed in the physical custody of the petitioner by a child-placing agency; (ii) the placing or supervising agency certifies to the circuit court that the child has been visited by a representative of such agency at least three times within a six-month period, provided that there are not less than 90 days between the first and last visit; and (iii) the court is of the opinion that entry of a final order of adoption would otherwise be proper.*

In cases in which the court entered either an interlocutory order or order of reference and the child was placed by a child-placing agency, the circuit court may, for good cause shown, omit the requirement that the three visits be made within a six-month period, provided that not less than three visits were made.

H. If the specific provisions set out in §§ 63.2-1228, 63.2-1238, 63.2-1242 and 63.2-1244 do not apply, the petition and all exhibits shall be forwarded to the local director where the petitioners reside or to a licensed child-placing agency.

§ 63.2-1210. Probationary period, interlocutory order and order of reference not required under certain circumstances.

The circuit court may omit the probationary period and the interlocutory order and enter a final order of adoption under the following circumstances:

1. If the child is legally the child by birth or adoption of one of the petitioners and the circuit court is of the opinion that the entry of an interlocutory order would otherwise be proper. *In such cases, the court may also omit the order of reference if the petitioners meet the requirements set forth in § 63.2-1241.*

2. If one of the petitioners is a ~~step-parent~~ stepparent of the child and the circuit court is of the opinion that the entry of an interlocutory order would otherwise be proper. The court may omit the order of reference if the petitioners meet the requirements of § 63.2-1241.

3. ~~After receipt of the report required by § 63.2-1208, if the child has been placed in the physical custody of the petitioner by a child-placing agency and (i) the placing or supervising agency certifies to the circuit court that the child has lived in the physical custody of the petitioner continuously for a period of at least six months immediately preceding the filing of the petition and has been visited by a representative of such agency at least three times within a six-month period, provided there are not less than 90 days between the first visit and the last visit; and (ii) the circuit court is of the opinion that the entry of an interlocutory order would otherwise be proper. The circuit court may, for good cause shown, in cases of placement by a child-placing agency, omit the requirement that the three visits be made within a six-month period.~~

4. ~~After receipt of the report of investigation, if the child has been in physical custody of the petitioner continuously for at least three years immediately prior to the filing of the petition for adoption, and the circuit court is of the opinion that the entry of an interlocutory order would otherwise be proper.~~

5. ~~4. After receipt of the report of investigation, if the child has been legally adopted according to the laws of a foreign country with which the United States has diplomatic relations and if the circuit court is of the opinion that the entry of an interlocutory order would otherwise be proper, and the child (i) has been in the physical custody of the petitioners for at least one year immediately prior to the filing of the petition and a representative of a child-placing agency has visited the petitioner and child at least once in the six months immediately preceding the filing of the petition or during its investigation pursuant to § 63.2-1208 or (ii) has been in the physical custody of the petitioners for at least six months immediately prior to the filing of the petition, has been visited by a representative of a child-placing agency or of the local department three times within such six-month period with no fewer than ninety days between the first and last visits, and the last visit has occurred within six months immediately prior to the filing of the petition.~~

6. ~~5. After receipt of the report of investigation, if the child was placed into Virginia from a foreign country in accordance with § 63.2-1104, the adoption was not finalized pursuant to the laws of that foreign country, and the child has been in the physical custody of the petitioner for at least six months immediately prior to the filing of the petition and has been visited by a representative of a licensed child-placing agency or of the local department three times within the six-month period with no fewer than 90 days between the first and last visits. The circuit court may, for good cause shown, in cases of an international placement, omit the requirement that the three visits be made within a six-month period.~~

§ 63.2-1228. Forwarding of petition.

Upon the filing of the petition, the circuit court shall, upon being satisfied as to proper jurisdiction and venue, immediately enter an *interlocutory order* or an order referring the case to a child-placing agency to conduct an investigation and prepare a report pursuant to § 63.2-1208. Upon entry of the *interlocutory order* or the order of reference, the court shall forward a copy of the petition and all exhibits thereto to the Commissioner and to the agency that placed the child. In cases where the child was placed by an agency in another state, or by an agency, court, or other entity in another country, the petition and all exhibits shall be forwarded to the local director or licensed child-placing agency, whichever agency

completed the home study or provided supervision. If no Virginia agency provided such services, or such agency is no longer licensed or has gone out of business, the petition and all exhibits shall be forwarded to the local director of the locality where the petitioners reside or resided at the time of filing the petition; or had legal residence at the time of the filing of the petition.

§ 63.2-1241. Adoption of child by spouse of birth or adoptive parent or other person with legitimate interest.

A. In cases in which the spouse of a birth parent or parent by adoption or a person with a legitimate interest who is not the birth parent of a child wishes to adopt the child, the birth parent or parent by adoption and such parent's spouse or other person with a legitimate interest may file a petition for adoption in the circuit court of the county or city where the birth parent or parent by adoption and such parent's spouse or other person with a legitimate interest reside or the county or city where the child resides. The petition shall be the joint petition of the birth parent or parent by adoption and such parent's spouse or other person with a legitimate interest, but the birth parent or parent by adoption shall unite in the petition for the purpose of indicating consent to the prayer thereof only. The petition shall also state whether the petitioners seek to change the name of the child.

B. The court may order the proposed adoption and change of name without referring the matter to the local director if (i) the birth parent or parent by adoption, other than the birth parent or parent by adoption joining in the petition for adoption, is deceased; (ii) the birth parent or parent by adoption, other than the birth parent or parent by adoption joining in the petition for adoption, consents to the adoption in writing and under oath; (iii) the acknowledged, adjudicated, presumed, or putative father denies paternity of the child; (iv) the birth mother swears under oath and in writing that the identity of the father is not reasonably ascertainable; (v) the child is the result of surrogacy and the birth parent, other than the birth parent joining in the petition, consents to the adoption in writing; (vi) the parent by adoption joining in the petition was not married at the time the child was adopted; or (vii) the child is 14 years of age or older and has lived in the home of the person desiring to adopt the child for at least five years. However, if the court in its discretion determines that there should be an investigation before a final order of adoption is entered, the court shall refer the matter to the local director for an investigation and report to be completed within such time as the circuit court designates. If an investigation is ordered, the circuit court shall forward a copy of the petition and all exhibits thereto to the local director and the provisions of § 63.2-1208 shall apply.

C. If an acknowledged, adjudicated, presumed, or putative birth parent or parent by adoption of a child refuses to consent to the adoption of a child by the spouse of the other birth parent or parent by adoption of the child or other person with a legitimate interest, the court shall determine whether consent to the adoption is withheld contrary to the best interests of the child. If the court determines that consent to the adoption is withheld contrary to the best interests of the child, the court may order the adoption and change of name without referring the matter to the local director. However, if the court in its discretion determines that there should be an investigation before a final order of adoption is entered, the circuit court shall refer the matter to the local director for an investigation and report to be completed within such time as the circuit court designates. The order of reference may include a requirement that the local director investigate factors relevant to determining whether consent of a birth parent is withheld contrary to the best interests of the child, including factors set forth in § 63.2-1205. If an investigation is ordered, the circuit court shall forward a copy of the petition and all exhibits thereto to the local director and the provisions of § 63.2-1208 shall apply.

D. In any case involving adoption of a child by a stepparent or other person with a legitimate interest pursuant to this section, the court may waive appointment of a guardian ad litem for the child.

E. In cases in which both petitioners are listed as the child's parents on the child's birth certificate, the court shall permit the petitioners to obtain an adoption order under this section in order to secure the child's legal parentage.

F. For the purposes of this section, "person with a legitimate interest" means the same as that term is defined in § 20-124.1.

§ 63.2-1250. Registration; notice; form.

A. Any man who has engaged in sexual intercourse with a woman is deemed to be on legal notice that a child may be conceived and that the man is entitled to all legal rights and obligations resulting therefrom. Lack of knowledge of the pregnancy does not excuse failure to timely register with the Virginia Birth Father Registry.

B. A man who desires to be notified of a placement of a child by a local board pursuant to § 63.2-900, a proceeding for adoption, or a proceeding for termination of parental rights regarding a child that he may have fathered shall register with the Virginia Birth Father Registry.

C. Failure to timely register with the Virginia Birth Father Registry shall waive all rights of a man who is not acknowledged to be, presumed to be, or adjudicated the father to withhold consent to an adoption proceeding unless the man was led to believe through the birth mother's misrepresentation that (i) the pregnancy was terminated or the mother miscarried when in fact the baby was born or (ii) the child died when in fact the child is alive. Upon discovery of the misrepresentation, the man shall register with the Virginia Birth Father Registry within 10 days; *however, registration with the Virginia Birth Father Registry shall be untimely if 180 days have elapsed from the date the circuit court entered the final order of adoption.*

D. A man will not prejudice any rights by failing to register if:

1. A father-child relationship between the man and the child has been established pursuant to § 20-49.1, 20-49.8, or if the man is a presumed father as defined in § 63.2-1202; or

2. The man commences a proceeding to adjudicate his paternity before a petition to accept consent or waive adoption consent is filed in the juvenile and domestic relations district court, or before a petition for adoption or a petition for the termination of his parental rights is filed with the court.

E. Registration is timely if it is received by the Department within ~~(+)~~ 10 days of the child's birth ~~or (ii)~~ *unless* the time specified in subsection C or F *applies*. Registration is complete when the signed registration form is first received by the Department. The signed registration form shall be submitted in the manner prescribed by the Department.

F. In the event that the identity and whereabouts of the birth father are reasonably ascertainable, the child-placing agency or adoptive parents shall give written notice to the birth father of the existence of an adoption plan and the availability of registration with the Virginia Birth Father Registry. Such written notice shall be provided by personal service ~~or by~~, certified mailing *with proof of service*, or *express mailing with proof of delivery* to the birth father's last known address. Registration is timely if the signed registration form is received by the Department within 10 days of personal service of the written notice or within 13 days of the certified *or express* mailing date of the written notice. The personal service or certified *or express* mailing may be completed either prior to or after the birth of the child. *When written notice is provided to a putative father before the birth of the child, the putative father's registration with the Virginia Birth Father Registry shall be untimely if received by the Department more than 10 days after personal service of the written notice or more than 13 days after the certified or express mailing date of the written notice, whichever occurs first.*

G. The child-placing agency or adoptive parent(s) shall give notice to a registrant who has timely registered of a placement of a child by a local board pursuant to § 63.2-900, a proceeding for adoption, or a proceeding for termination of parental rights regarding a child. Notice shall be given pursuant to the requirements of this chapter or § 16.1-277.01 for the appropriate adoption proceeding.

H. 1. The Department shall prepare a form for registering with the agency that shall require (i) the registrant's name, date of birth and social security number; (ii) the registrant's driver's license number and state of issuance; (iii) the registrant's home address, telephone number, and employer; (iv) the name, date of birth, ethnicity, address, and telephone number of the putative mother, if known; (v) the state of conception; (vi) the place and date of birth of the child, if known; (vii) the name and gender of the child, if known; and (viii) the signature of the registrant. No form for registering with the Virginia Birth Father Registry shall be complete unless signed by the registrant and the signed registration form is received by the Department in the manner prescribed by the Department.

2. The form shall also state that (i) timely registration entitles the registrant to notice of a proceeding for adoption of the child or termination of the registrant's parental rights, (ii) registration does not commence a proceeding to establish paternity, (iii) the information disclosed on the form may be used against the registrant to establish paternity, (iv) services to assist in establishing paternity are available to the registrant through the Department, (v) the registrant should also register in another state if conception or birth of the child occurred in another state, (vi) information on registries of other states may be available from the Department, (vii) the form is signed under penalty of perjury, and (viii) procedures exist to rescind the registration of a claim of paternity.

3. A registrant shall promptly notify the Virginia Birth Father Registry of any change in information, including change of address. The Department shall incorporate all updated information received into its records but is not required to request or otherwise pursue current or updated information for incorporation in the registry.

Notwithstanding any other provision of law, for purchase transactions:

1. Upon the ratification of a contract, an earnest money deposit received by the principal broker or supervising broker, or an agent of such principal broker or supervising broker, *that is to be held in the firm's escrow account* shall be placed in ~~an~~ *such* escrow account by the end of the fifth business banking day following ratification, unless otherwise agreed to in writing by the principals to the transaction, and shall remain in that account until the transaction has been consummated or terminated.

At the option of a broker, written notice may be sent by the broker that release of such funds shall be made unless a written protest is received from the principal who is not receiving the funds by such broker within 15 calendar days of the date of such notice. Notice of a disbursement shall be given to the parties to the transaction in accordance with the contract, but if the contract does not specify a method of delivery, one of the following methods complies with this section: (a) hand delivery; (b) United States mail, postage prepaid, provided that the sender retains sufficient proof of mailing, which may be either a United States postal certificate of mailing or a certificate of service prepared by the sender confirming such mailing; (c) electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery; or (d) overnight delivery using a commercial service or the United States Postal Service. [S 514]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 64.2-2003, 64.2-2004, and 64.2-2020 of the Code of Virginia are amended and reenacted as follows:

§ 64.2-2003. Appointment of guardian ad litem.

A. On the filing of every petition for guardianship or conservatorship, the court shall appoint a guardian ad litem to represent the interests of the respondent. The guardian ad litem shall be paid a fee that is fixed by the court to be paid by the petitioner or taxed as costs, as the court directs.

B. Duties of the guardian ad litem include (i) personally visiting the respondent; (ii) advising the respondent of rights pursuant to §§ 64.2-2006 and 64.2-2007 and certifying to the court that the respondent has been so advised; (iii) recommending that legal counsel be appointed for the respondent, pursuant to § 64.2-2006, if the guardian ad litem believes that counsel for the respondent is necessary; (iv) *notifying the court as soon as practicable if the respondent requests counsel regardless of whether the guardian ad litem recommends counsel*; (v) investigating the petition and evidence, requesting additional evaluation if necessary, considering whether a less restrictive alternative to guardianship or conservatorship is available, including the use of an advance directive, supported decision-making agreement, or durable power of attorney, and filing a report pursuant to subsection C; and ~~(vi)~~ (vi) personally appearing at all court proceedings and conferences. If the respondent is between 17 and a half and 21 years of age and has an Individualized Education Plan (IEP) and transition plan, the guardian ad litem shall review such IEP and transition plan and include the results of his review in the report required by clause ~~(iv)~~ (v).

C. D. A health care provider and local school division shall disclose or make available to the guardian ad litem, upon request, any information, records, and reports concerning the respondent that the guardian ad litem determines necessary to perform his duties under this section.

§ 64.2-2004. Notice of hearing; jurisdictional.

A. Upon the filing of the petition, the court shall promptly set a date, time, and location for a hearing. The respondent shall be given reasonable notice of the hearing. The respondent may not waive notice, and a failure to properly notify the respondent shall be jurisdictional.

B. A respondent, whether or not he resides in the Commonwealth, shall be personally served with the notice of the hearing, a copy of the petition, and a copy of the order appointing a guardian ad litem pursuant to § 64.2-2003. A certification, in the guardian ad litem's report required by subsection B of § 64.2-2003, that the guardian ad litem personally served the respondent with the notice, a copy of the petition, and a copy of the order appointing a guardian ad litem shall constitute valid personal service for purposes of this section.

C. A copy of the notice, together with a copy of the petition, shall be mailed by first-class mail by the petitioner at least ~~seven~~ 10 days before the hearing to all adult individuals and to all entities whose names and post office addresses appear in the petition. The court, for good cause shown, may waive the advance notice required by this subsection. If the advance notice is waived, the petitioner shall promptly mail by first-class mail a copy of the petition and any order entered to those individuals and entities.

D. Any adult individual or entity whose name and post office addresses appear in the petition may become a party to the proceeding by filing a pleading in accordance with Rule 1:4 of the Rules of the Supreme Court of Virginia. Such individual or entity shall mail his pleadings via first-class mail to the petitioner, any counsel of record, the guardian ad litem, and all other adult individuals and entities whose names and post office addresses appear in the petition. Such pleading may also be sent via electronic mail or facsimile to all counsel of record and the guardian ad litem, as well as those other adult individuals and entities whose email addresses or facsimile numbers are known to the person filing the pleading. If a cross-petition is filed, the petitioner shall file a response to such cross-petition.

~~D. E.~~ The notice to the respondent shall include a brief statement in at least 14-point type of the purpose of the proceedings and shall inform the respondent of the right to be represented by counsel pursuant to § 64.2-2006 and to a hearing pursuant to § 64.2-2007. Within 60 days of receipt of the annual report, the local department shall file a copy of the annual report with the clerk of the circuit court that appointed the guardian, to be placed with the court papers pertaining to the guardianship case. Twice each year the local department shall file with the clerk of the circuit court a list of all guardians who are more than 90 days delinquent in filing an annual report as required by this section. Such penalty shall be collected by the attorney for the Commonwealth or the county or city attorney, and the proceeds shall be deposited into the general fund.

C. If the local department of social services files notice that the annual report has not been timely filed in accordance with subsection A with the clerk of the circuit court, the court may issue a summons or rule to show cause why the guardian has failed to file such annual report.

CHAPTER 382

An Act to amend and reenact §§ 54.1-114 and 54.1-204 of the Code of Virginia, relating to Department of Professional and Occupational Regulation; effect of criminal convictions on licensure; data to be included in biennial report.

[H 282]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 54.1-114 and 54.1-204 of the Code of Virginia are amended and reenacted as follows:

§ 54.1-114. Biennial report.

A. The Board of Bar Examiners, the Department of Professional and Occupational Regulation and the Department of Health Professions shall submit biennial reports to the Governor and General Assembly on or before November 1 of each even-numbered year. The biennial report shall contain at a minimum the following information for the Board of Bar Examiners and for each board within the two Departments: (i) a summary of the board's fiscal affairs, (ii) a description of the board's activities, (iii) statistical information regarding the administrative hearings and decisions of the board, (iv) a general summary of all complaints received against licensees and the procedures used to resolve the complaints, and (v) a description of any action taken by the board designed to increase public awareness of board operations and to facilitate public participation. The Department of Health Professions shall include, in those portions of its report relating to the Board of Medicine, a compilation of the data required by § 54.1-2910.1.

B. The Department of Professional and Occupational Regulation's biennial report shall include, with respect to all licenses, certificates, and registrations made:

1. The total number of applicants and, of that number, the number of those granted a license and the number of those denied;

2. The total number of examinations administered and, of that number, the number of applicants who were successful and the number of applicants who were unsuccessful in passing the examination requirements;
3. The number of initial applicants and renewal applicants with a criminal record and, of those numbers, the number of times each board acted to grant the application or to deny, diminish, suspend, revoke, withhold, or refuse to renew or otherwise limit the requested license, certificate, or registration due at least in part to an individual's criminal conviction;
4. The number of each offense category for which each board acted in subdivision 3, whether that offense be property-related, person-related, or drug-related;
5. The number of guidance documents filed by each board under subsection F of § 54.1-204; and
6. Any other data, as determined by the Department to be (i) relevant and helpful to inform the Governor and General Assembly of the impact of criminal convictions on professional or occupational licensure or (ii) necessary to accurately account for all totals requested.

§ 54.1-204. Prior convictions not to abridge rights.

A. A person shall not be refused a license, certificate, or registration to practice, pursue, or engage in any ~~regulated~~ occupation or profession ~~regulated by the Department of Professional and Occupational Regulation solely because of a prior criminal conviction, unless the criminal conviction directly relates to the occupation or profession for which the license, certificate or registration is sought. However, the regulatory board shall have the authority to refuse a license, certificate or registration if, based upon all the information available, including the applicant's record of prior convictions, it finds that the applicant is unfit or unsuited to engage in such occupation or profession until the regulatory board completes an individualized assessment of the individual's criminal record and current circumstances and determines that the criminal conviction directly relates to the occupation or profession for which the license, certificate, or registration is sought, as assessed pursuant to subsection C. However, the regulatory board shall have the authority to refuse a license, certificate, or registration if, based upon all the information available, including the applicant's record of prior convictions, it finds that the applicant is unfit or unsuited to engage in such occupation or profession. The regulatory board must complete the individualized assessment prior to refusing a license, certificate, or registration.~~

B. The regulatory board shall not require an applicant to disclose an excluded record, and an excluded record shall not be the basis for the refusal of a license, certificate, or registration by the board. An excluded record is any conviction that has been sealed, annulled, dismissed, expunged, or pardoned.

A regulatory board or department review of a person's criminal history record shall be limited to any conviction, finding of guilt, or plea of guilty open to disclosure pursuant to § 19.2-389.3, regardless of whether the sentence is imposed, suspended, or executed. Any plea of nolo contendere shall be considered a conviction for the purposes of this section. No regulatory board shall consider information in a criminal history record related solely to an arrest or charge.

~~B.~~ C. In determining whether a non-excluded criminal conviction directly relates to an occupation or profession, the regulatory board shall consider the following criteria:

1. The nature and ~~seriousness~~ circumstances of the crime;
2. The relationship of the crime to the purpose for requiring a license to engage in the occupation;
3. The extent to which the occupation or profession might ~~offer an opportunity~~ present a substantial risk to engage in further criminal activity of the same type as that in which the person had been involved;
4. The relationship of the crime to the ~~ability, capacity or fitness~~ qualifications required to perform the duties and discharge the responsibilities of practice the occupation or profession in a competent manner;
5. The extent and nature of the person's past criminal ~~activity~~ convictions;
6. The age of the person at the time of the commission of the crime;
7. The amount of time that has elapsed since the person's ~~last involvement in the commission of a crime~~ most recent conviction;
8. The reasonable progress made toward the completion of the sentence, whether the setting of that sentence be probation, parole, or a term of incarceration;
9. The successful completion of treatment for drugs or alcohol abuse if ordered, recommended, or assigned by a court or as a condition of probation or any community supervision program;
10. The successful completion of rehabilitative programming in the context of a term of incarceration or as a condition of probation, drug court, mental health court, diversion opportunity, or any community supervision program;
11. The conduct and work activity of the person prior to and following the criminal activity; and
12. Any other evidence of the person's rehabilitation or rehabilitative effort while incarcerated or following release that may mitigate against the relationship of past criminal conduct to the practice of the occupation or profession, including testimony or recommendations from correctional, probation, or parole officers, community or faith leaders, counselors or peer recovery specialists, employers, or other individuals as deemed relevant by the board.

~~C.~~ D. The board shall consider the criminal information contained in the applicant's state or national criminal records in lieu of the applicant providing certified copies of such court records and may request additional information from the applicant in determining whether a criminal conviction directly relates to an occupation or profession. If an applicant is denied a license, certificate, or registration because of the information appearing in his criminal history record, the regulatory board or department shall notify the applicant in writing of the specific offense or offenses that contributed to such denial, how the criminal history directly relates to the occupation, and how the factors provided in subsection C contributed to the board's decision. The information shall not be disseminated except as provided for in this section.

A regulatory board or department may require any applicant for ~~registration, licensure or, certification, or registration~~ to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant. Such applicant shall pay the cost of the fingerprinting or a criminal records check or both.

The regulatory board or department may enter into a contract to obtain the fingerprints and descriptive information as required for submission to the Central Criminal Records Exchange in a manner and format approved by the Central Criminal Records Exchange.

[S 409]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 54.1-114 and 54.1-204 of the Code of Virginia are amended and reenacted as follows:

§ 54.1-114. Biennial report.

A. The Board of Bar Examiners, the Department of Professional and Occupational Regulation and the Department of Health Professions shall submit biennial reports to the Governor and General Assembly on or before November 1 of each even-numbered year. B. The Department of Professional and Occupational Regulation's biennial report shall include, with respect to all licenses, certificates, and registrations made:

1. The total number of applicants and, of that number, the number of those granted a license and the number of those denied;

2. The total number of examinations administered and, of that number, the number of applicants who were successful and the number of applicants who were unsuccessful in passing the examination requirements;

3. The number of initial applicants and renewal applicants with a criminal record and, of those numbers, the number of times each board acted to grant the application or to deny, diminish, suspend, revoke, withhold, or refuse to renew or otherwise limit the requested license, certificate, or registration due at least in part to an individual's criminal conviction;

4. The number of each offense category for which each board acted in subdivision 3, whether that offense be property-related, person-related, or drug-related;

5. The number of guidance documents filed by each board under subsection F of § 54.1-204; and

6. Any other data, as determined by the Department to be (i) relevant and helpful to inform the Governor and General Assembly of the impact of criminal convictions on professional or occupational licensure or (ii) necessary to accurately account for all totals requested.

§ 54.1-204. Prior convictions not to abridge rights.

A. A person shall not be refused a license, certificate, or registration to practice, pursue, or engage in any regulated occupation or profession regulated by the Department of Professional and Occupational Regulation solely because of a prior criminal conviction; ~~unless the criminal conviction directly relates to the occupation or profession for which the license, certificate or registration is sought. However, the regulatory board shall have the authority to refuse a license, certificate or registration if, based upon all the information available, including the applicant's record of prior convictions, it finds that the applicant is unfit or unsuited to engage in such occupation or profession until the regulatory board completes an individualized assessment of the individual's criminal record and current circumstances and determines that the criminal conviction directly relates to the occupation or profession for which the license, certificate, or registration is sought, as assessed pursuant to subsection C. However, the regulatory board shall have the authority to refuse a license, certificate, or registration if, based upon all the information available, including the applicant's record of prior convictions, it finds that the applicant is unfit or unsuited to engage in such occupation or profession. The regulatory board must complete the individualized assessment prior to refusing a license, certificate, or registration.~~

B. An excluded record is any conviction that has been sealed, annulled, dismissed, expunged, or pardoned.

A regulatory board or department review of a person's criminal history record shall be limited to any conviction, finding of guilt, or plea of guilty open to disclosure pursuant to § 19.2-389.3, regardless of whether the sentence is imposed, suspended, or executed. Any plea of nolo contendere shall be considered a conviction for the purposes of this section. No regulatory board shall consider information in a criminal history record related solely to an arrest or charge.

~~B. C.~~ In determining whether a non-excluded criminal conviction directly relates to an occupation or profession, the regulatory board shall consider the following criteria:

1. The nature and ~~seriousness~~ circumstances of the crime;
2. The relationship of the crime to the purpose for requiring a license to engage in the occupation;
3. The extent to which the occupation or profession might ~~offer an opportunity~~ present a substantial risk to engage in further criminal activity of the same type as that in which the person had been involved;
4. The relationship of the crime to the ~~ability, capacity or fitness~~ qualifications required to perform the duties and discharge the responsibilities of practice the occupation or profession in a competent manner;
5. The extent and nature of the person's past criminal ~~activity~~ convictions;
6. The age of the person at the time of the commission of the crime;

8. The reasonable progress made toward the completion of the sentence, whether the setting of that sentence be probation, parole, or a term of incarceration;
9. The successful completion of treatment for drugs or alcohol abuse if ordered, recommended, or assigned by a court or as a condition of probation or any community supervision program;
10. The successful completion of rehabilitative programming in the context of a term of incarceration or as a condition of probation, drug court, mental health court, diversion opportunity, or any community supervision program;
11. The conduct and work activity of the person prior to and following the criminal activity; and
9. ~~Evidence~~ 12. Any other evidence of the person's rehabilitation or rehabilitative effort while incarcerated or following release that may mitigate against the relationship of past criminal conduct to the practice of the occupation or profession, including testimony or recommendations from correctional, probation, or parole officers, community or faith leaders, counselors or peer recovery specialists, employers, or other individuals as deemed relevant by the board.

~~C. D.~~ The board shall consider the criminal information contained in the applicant's state or national criminal records in lieu of the applicant providing certified copies of such court records and may request additional information from the applicant in determining whether a criminal conviction directly relates to an occupation or profession. If an applicant is denied a license, certificate, or registration because of the information appearing in his criminal history record, the regulatory board or department shall notify the applicant in writing of the specific offense or offenses that contributed to such denial, how the criminal history directly relates to the occupation, and how the factors provided in subsection C contributed to the board's decision. The information shall not be disseminated except as provided for in this section.

A regulatory board or department may require any applicant for ~~registration~~, licensure or certification, or registration to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant. The regulatory board or department may enter into a contract to obtain the fingerprints and descriptive information as required for submission to the Central Criminal Records Exchange in a manner and format approved by the Central Criminal Records Exchange.

record, the regulatory board or department shall notify the applicant that information obtained from the Central Criminal Records Exchange contributed to such denial. The information shall not be disseminated except as provided for in this section.

~~D. A regulatory board or department shall consider the criminal information as contained in the applicant's state or national criminal history in lieu of the applicant providing certified copies of such court records in determining whether a criminal conviction directly relates to an occupation or profession or if an applicant is unfit or unsuited to engage in an occupation or profession. The regulatory board or department may request additional information from the applicant in making such determination.~~

E. All regulatory boards shall develop and publish on their website guidance documents that inform prospective applicants of the types of criminal offenses that may impede licensure, including specific convictions and application of the factors provided in subsection C.

2. That the provisions of the first enactment of this act amending § 54.1-114 of the Code of Virginia shall become effective on July 1, 2025.

3. That the provisions of this act shall not become effective unless reenacted by the 2023 Session of the General Assembly.

§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. 17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal

state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

Absent clinical contraindications, the Department shall not impose any utilization controls or other forms of medical management limiting the supply of hormonal contraceptives that may be dispensed or furnished to an amount less than a 12-month supply. Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose; ~~and~~

B. In preparing the plan, the Board shall:

1. Work cooperatively with the State Board of Health to ensure that quality patient care is provided and that the health, safety, security, rights and welfare of patients are ensured.

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

[H 1330]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-6546 and 3.2-6549 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 3.2-6585.1 as follows:

§ 3.2-6546. County or city public animal shelters; confinement and disposition of animals; affiliation with foster care providers; penalties; injunctive relief.

A. For purposes of this section:

"Animal" shall not include agricultural animals.

"Rightful owner" means a person with a right of property in the animal.

B. The governing body of each county or city shall maintain or cause to be maintained a public animal shelter and shall require dogs running at large without the tag required by § 3.2-6531 or in violation of an ordinance passed pursuant to § 3.2-6538 to be confined therein. Nothing in this section shall be construed to prohibit confinement of other companion animals in such a shelter. The governing body of any county or city need not own the facility required by this section but may contract for its establishment with a private group or in conjunction with one or more other local governing bodies. The governing body shall require that:

1. The public animal shelter shall be accessible to the public at reasonable hours during the week;
 2. The public animal shelter shall obtain a signed statement from each of its directors, operators, staff, or animal caregivers specifying that each individual has never been convicted of animal cruelty, neglect, or abandonment, and each shelter shall update such statement as changes occur;
 3. If a person contacts the public animal shelter inquiring about a lost companion animal, the shelter shall advise the person if the companion animal is confined at the shelter or if a companion animal of similar description is confined at the shelter;
 4. The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by a private animal shelter in accordance with subsection D of § 3.2-6548 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by a private animal shelter or allow such person inquiring about a lost animal to view the written records;
 5. The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by a releasing agency other than a public or private animal shelter in accordance with subdivision F 2 of § 3.2-6549 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by such releasing agency or allow such person inquiring about a lost companion animal to view the written records; and
 6. The public animal shelter shall maintain a written record of the information on each companion animal submitted to the shelter by an individual in accordance with subdivision A 2 of § 3.2-6551 for a period of 30 days from the date the information is received by the shelter. If a person contacts the shelter inquiring about a lost companion animal, the shelter shall check its records and make available to such person any information submitted by the individual or allow such person inquiring about a lost companion animal to view the written records.
- C. An animal confined pursuant to this section shall be kept for a period of not less than five days, such stray hold period to commence on the day immediately following the day the animal is initially confined in the facility, unless sooner claimed by the rightful owner thereof.

The operator or custodian of the public animal shelter shall make a reasonable effort to ascertain whether the animal has a collar, tag, license, tattoo, or other form of identification, *including by complying with the provisions of § 3.2-6585.1*. If such identification is found on the animal, the animal shall be held for an additional five-day stray hold period, unless sooner claimed by the rightful owner. If the rightful owner of the animal can be readily identified, the operator or custodian of the shelter shall make a reasonable effort to notify the owner of the animal's confinement within the next 48 hours following its confinement.

During the stray hold period that an animal is confined pursuant to this subsection, the operator or custodian of the public animal shelter may vaccinate the animal to prevent the risk of communicable diseases, provided that (i) all vaccines are administered in accordance with a protocol approved by a licensed veterinarian and (ii) rabies vaccines are administered by a licensed veterinarian or licensed veterinary technician under the immediate direction and supervision of a licensed veterinarian in accordance with § 3.2-6521. Indoor enclosures used to confine the animal during the applicable stray hold period shall be constructed of materials that are durable, nonporous, impervious to moisture, and able to be thoroughly cleaned and disinfected. During the applicable stray hold period, the operator or custodian shall provide the animal with adequate care, including reasonable access to outdoor areas to ensure that the animal has adequate exercise and adequate space.

If any animal confined pursuant to this section is claimed by its rightful owner, such owner may be charged with the actual expenses incurred in keeping the animal impounded. In addition to this and any other fees that might be levied, the locality may, after a public hearing, adopt an ordinance to charge the owner of an animal a fee for impoundment and increased fees for subsequent impoundments of the same animal.

D. If an animal confined pursuant to this section has not been claimed upon expiration of the applicable stray hold period as provided by subsection C, it shall be deemed abandoned and become the property of the public animal shelter.

For any animal not subject to a stray hold period, including an animal for whom the stray hold period has ended, the operator or custodian of the public animal shelter shall confine the animal in an enclosure that can safely house and allow for adequate separation of animals of different species, sexes, ages, and temperaments. Such enclosure may have both an outdoor area and an indoor area. If the facility has an outdoor area, the facility shall ensure that the outdoor areas do not present conditions that would be detrimental to the health of the animal. Indoor areas shall have a solid floor. Each operator or custodian shall ensure adequate access to water, food, and a resting platform, bedding, or perch as appropriate to the animal's species, age, and condition. Any regulation by the Board that applies to an animal not subject to a stray hold period shall not be so restrictive as to fail to allow for adequate care, adequate exercise, and adequate space, including meaningful indoor and outdoor recreation for the animal.

Such animal may be euthanized in accordance with the methods approved by the State Veterinarian or disposed of by the methods set forth in subdivisions 1 through 5. No shelter shall release more than two animals or a family of animals during any 30-day period to any one person under subdivision 2, 3, or 4.

1. Release to any humane society, public or private animal shelter, or other releasing agency within the Commonwealth, provided that each humane society, animal shelter, or other releasing agency obtains a signed statement from each of its directors, operators, staff, or animal caregivers specifying that each individual has never been convicted of animal cruelty, neglect, or abandonment and updates such statements as changes occur;

2. Adoption by a resident of the county or city where the shelter is operated and who will pay the required license fee, if any, on such animal, provided that such resident has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect, or abandonment;

3. Adoption by a resident of an adjacent political subdivision of the Commonwealth, if the resident has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect, or abandonment;

4. Adoption by any other person, provided that such person has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect, or abandonment and provided that no dog or cat may be adopted by any person who is not a resident of the county or city where the shelter is operated, or of an adjacent political subdivision, unless the dog or cat is first sterilized, and the shelter may require that the sterilization be done at the expense of the person adopting the dog or cat; or

5. Release for the purposes of adoption or euthanasia only, to an animal shelter, or any other releasing agency located in and lawfully operating under the laws of another state, provided that such animal shelter, or other releasing agency: (i) maintains records that would comply with § 3.2-6557; (ii) requires that adopted dogs and cats be sterilized; (iii) obtains a signed statement from each of its directors, operators, staff, and animal caregivers specifying that each individual has never been convicted of animal cruelty, neglect, or abandonment, and updates such statement as changes occur; and (iv) has provided to the public or private animal shelter or other releasing agency within the Commonwealth a statement signed by an authorized representative specifying the entity's compliance with clauses (i) through (iii), and the provisions of adequate care and performance of humane euthanasia, as necessary in accordance with the provisions of this chapter.

For purposes of recordkeeping, release of an animal by a public animal shelter to a public or private animal shelter or other releasing agency shall be considered a transfer and not an adoption. If the animal is not first sterilized, the responsibility for sterilizing the animal transfers to the receiving entity.

Any proceeds deriving from the gift, sale, or delivery of such animals shall be paid directly to the treasurer of the locality. Any proceeds deriving from the gift, sale, or delivery of such animals by a public or private animal shelter or other releasing agency shall be paid directly to the clerk or treasurer of the animal shelter or other releasing agency for the

expenses of the society and expenses incident to any agreement concerning the disposing of such animal. No part of the proceeds shall accrue to any individual except for the aforementioned purposes.

E. Nothing in this section shall prohibit the immediate euthanasia of a critically injured, critically ill, or unweaned animal for humane purposes. Any animal euthanized pursuant to the provisions of this chapter shall be euthanized by one of the methods prescribed or approved by the State Veterinarian.

F. Nothing in this section shall prohibit the immediate euthanasia or disposal by the methods listed in subdivisions D 1 through 5 of an animal that has been released to a public or private animal shelter, other releasing agency, or animal control officer by the animal's rightful owner after the rightful owner has read and signed a statement: (i) surrendering all property rights in such animal; (ii) stating that no other person has a right of property in the animal; and (iii) acknowledging that the animal may be immediately euthanized or disposed of in accordance with subdivisions D 1 through 5.

G. Nothing in this section shall prohibit any feral dog or feral cat not bearing a collar, tag, tattoo, or other form of identification that, based on the written statement of a disinterested person, exhibits behavior that poses a risk of physical injury to any person confining the animal, from being euthanized after being kept for a period of not less than three days, at least one of which shall be a full business day, such period to commence on the day the animal is initially confined in the facility, unless sooner claimed by the rightful owner. The statement of the disinterested person shall be kept with the animal as required by § 3.2-6557. For purposes of this subsection, a disinterested person shall not include a person releasing or reporting the animal.

H. No public animal shelter shall place a companion animal in a foster home with a foster care provider unless the foster care provider has read and signed a statement specifying that he has never been convicted of animal cruelty, neglect, or abandonment, and each shelter shall update such statement as changes occur. The shelter shall maintain the original statement and any updates to such statement in accordance with this chapter and for at least so long as the shelter has an affiliation with the foster care provider.

I. A public animal shelter that places a companion animal in a foster home with a foster care provider shall ensure that the foster care provider complies with § 3.2-6503.

J. If a public animal shelter finds a direct and immediate threat to a companion animal placed with a foster care provider, it shall report its findings to the animal control agency in the locality where the foster care provider is located.

K. The governing body shall require that the public animal shelter be operated in accordance with regulations issued by the Board. If this chapter or such regulations are violated, the locality may be assessed a civil penalty by the Board or its designee in an amount that does not exceed \$1,000 per violation. Each day of the violation is a separate offense. In determining the amount of any civil penalty, the Board or its designee shall consider (i) the history of previous violations at the shelter; (ii) whether the violation has caused injury to, death or suffering of, an animal; and (iii) the demonstrated good faith of the locality to achieve compliance after notification of the violation. All civil penalties assessed under this section shall be recovered in a civil action brought by the Attorney General in the name of the Commonwealth. Such civil penalties shall be paid into a special fund in the state treasury to the credit of the Department to be used in carrying out the purposes of this chapter.

L. If this chapter or any laws governing public animal shelters are violated, the Commissioner may bring an action to enjoin the violation or threatened violation of this chapter or the regulations pursuant thereto regarding public animal shelters, in the circuit court where the shelter is located. The Commissioner may request the Attorney General to bring such an action, when appropriate.

§ 3.2-6549. Releasing agencies other than public or private animal shelters; confinement and disposition of companion animals; recordkeeping; affiliation with foster care providers; penalties.

A. A releasing agency other than a public or private animal shelter:

1. May confine and dispose of companion animals in accordance with subsections B through G of § 3.2-6546 if incorporated and not operated for profit;

2. Shall keep accurate records of each companion animal received for two years from the date of disposition of the companion animal. Records shall (i) include a description of the companion animal, including species, color, breed, sex, approximate weight, age, reason for release, owner's or finder's name, address, and telephone number, and license number or other identifying tags or markings, as well as disposition of the companion animal, and (ii) be made available upon request to the Department, animal control officers, and law-enforcement officers at mutually agreeable times. 3. Shall annually file with the State Veterinarian a copy of its intake policy.

For purposes of recordkeeping, release of a companion animal by a releasing agency to a public or private animal shelter or other releasing agency shall be considered a transfer and not an adoption. If the animal is not first sterilized, the responsibility for sterilizing the animal transfers to the receiving entity.

B. Each releasing agency other than a public or private animal shelter shall obtain a signed statement from each of its directors, operators, staff, or animal caregivers specifying that each individual has never been convicted of animal cruelty, neglect, or abandonment, and each such releasing agency shall update such statement as changes occur.

C. No releasing agency other than a public or private animal shelter shall place a companion animal in a foster home with a foster care provider unless the foster care provider has read and signed a statement specifying that the foster care provider has never been convicted of animal cruelty, neglect, or abandonment, and such releasing agency shall update the

statement as changes occur. A releasing agency other than a public or private animal shelter shall maintain the original statement and any updates to such statement for so long as the releasing agency has an affiliation with the foster care provider.

The capacity of any generating facility installed under this section, other than a generating facility located on airports, landfills, parking lots ~~and~~ garages, wastewater treatment sites, parks, post-mine land, or a reservoir that is owned, operated, or leased by the municipality, shall not exceed the same limitation established with respect to an eligible customer-generator as set forth in the definition of such term in subsection B of § 56-594.

"Municipality" means any county, city, or town in the Commonwealth, other than a municipality that owns and operates its own electric utility, or any authority created pursuant to the *Park Authorities Act* (§ 15.2-5700 et seq.).

"Net energy metering" means measuring the difference, over the net metering period, between (i) electricity supplied to a municipal customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the municipal customer-generator.

"Net metering period" means the 12-month period following the date of final interconnection of the municipal customer-generator's system with its utility and each 12-month period thereafter.

"Phase I Utility" and "Phase II Utility" have the same meaning as defined in § 56-585.1:3.

"Utility" means a Phase I Utility or Phase II Utility; as such terms are defined in § 56-585.1:3.

B. The Commission shall require each ~~utility~~ *Phase I Utility* to submit a proposal to the Commission to conduct a pilot program for municipal net energy metering in accordance with the following terms, conditions, and restrictions:

1. A pilot program shall be conducted within the service territory of each ~~utility~~ *Phase I Utility*. The pilot program shall allow any municipal customer-generator that generates electricity from a renewable energy generation facility in amounts that exceed the amount of the utility's electricity consumed by the host municipal customer-generator account to credit one or more of the municipality's target metered accounts or, ~~if the pilot program is conducted by a Phase I Utility, also to~~ metered accounts of the public school division of the municipality. In each ~~utility's~~ *Phase I Utility's* pilot program, the target accounts may be at one or more other separately utility-metered public buildings or facilities at contiguous or noncontiguous sites owned by the municipality and used for a public purpose; ~~however, if the pilot program is conducted by a Phase I Utility, target accounts may also be at one or more other separately utility-metered buildings or facilities of the public school division of the municipality.~~ In each ~~utility's~~ *Phase I Utility's* pilot program, excess electricity ~~beyond that used by the host account~~ shall be credited to the metered account of the target municipal customer in the same municipality, such that the generation energy charges on the electric bills of such target's metered accounts shall be reduced by the amount of the excess generation kilowatt-hours apportioned to the metered accounts multiplied by the applicable generation energy rate of the target's accounts. The generation energy rate of the target's accounts includes all applicable kilowatt-hour-based rate adjustment clauses with the exception of any non-fuel-related or non-generation-related kilowatt-hour-based rate adjustment clauses. The netting of the amount of electricity generated and the amount of electricity consumed, and the crediting for the amount of any excess generation determined as a result of such netting, shall occur in the twelfth month following the commencement of the host municipal customer-generator's generation of electricity under a pilot program and annually thereafter, regardless of the municipal customer-generator's regular billing period.

2. The pilot program shall not limit the current authority of any municipality to participate in any other net energy metering program.

3. The amount of generating capacity of the generating facilities that are the subject of a pilot program under this ~~section~~ *subsection* shall not exceed:

a. ~~If the pilot program is conducted by a Phase I Utility, five megawatts, although the Phase I Utility may, in its discretion, increase the generating capacity that is part of the program up to 10 megawatts; or~~

b. ~~If the pilot program is conducted by a Phase II Utility, 25 megawatts.~~

4. The aggregated capacity of all generation facilities that are the subject of each ~~utility's~~ *Phase I Utility's* pilot program under this ~~section~~ *subsection* shall constitute a portion of the existing limit of the utility's adjusted Virginia peak-load forecast of the previous year that is available to (i) municipal customer-generators under this section, (ii) eligible customer-generators and eligible agricultural customer-generators under § 56-594, and (iii) small agricultural generators under § 56-594.2 in the utility's service area. Municipal customer-generators shall be eligible to participate in a ~~utility's~~ *Phase I Utility's* pilot program implemented under this ~~section~~ *subsection* on a first-come, first-served basis in each utility's Virginia service area until the limits set forth in subdivision 3 are met.

C. *The Commission shall require each Phase II Utility to submit a proposal to the Commission to conduct a pilot program for municipal net energy metering in accordance with the following terms, conditions, and restrictions:*

1. *A pilot program shall be conducted within the service territory of each Phase II Utility. The pilot program shall allow any municipal customer-generator that generates electricity from a renewable energy generation facility in amounts that exceed the amount of the utility's electricity consumed by the municipal customer-generator host account to credit one or more of the municipality's target metered accounts (target accounts or beneficial accounts). In each Phase II Utility's pilot program, the target accounts may be at one or more other separately utility-metered public buildings or facilities at contiguous or noncontiguous sites owned or leased by the municipality within the municipality. In each Phase II Utility's pilot program, excess electricity beyond that used by the host account shall be credited to the beneficial accounts selected by the municipal customer in the same municipality. The generation energy charges on the electric bills of such beneficial accounts shall be reduced by the amount of the excess electricity kilowatt-hours apportioned to the net metered accounts multiplied by the applicable generation rate of the selected beneficial accounts. The generation energy rate of each selected beneficial account shall include all applicable rate adjustment clauses and riders, including fuel riders, with the exception of any non-fuel-related or non-generation-related riders. Non-bypassable charges shall be excluded from reductions on beneficial accounts. The netting of the amount of electricity generated and the amount of electricity consumed, and the crediting for the amount of any excess electricity determined as a result of such netting, shall occur in the twelfth month following the commencement of the host municipal customer-generator's generation of electricity under a pilot program and annually thereafter, regardless of the municipal customer-generator's regular billing period.*

2. *The pilot program shall not limit the current authority of any municipality to participate in any other net energy metering program.*

3. *The amount of generating capacity of the generating facilities that are the subject of a pilot program under this subsection shall not exceed 25 megawatts.*

4. *Municipal customer-generators shall be eligible to participate in a Phase II Utility's pilot program implemented under this subsection on a first-come, first-served basis in each utility's Virginia service area until the limits set forth in subdivision 3 are met.*

~~5.~~ D. Any pilot program conducted under this section shall require that:

~~a.~~ 1. If conducted by a Phase I Utility or Phase II Utility, each participating municipality shall be responsible for all *demonstrated* administrative costs associated with implementing the pilot program, including *demonstrated* administrative costs associated with crediting excess ~~generation~~ *electricity* to target accounts; and

~~b.~~ 2. If conducted by a Phase I Utility, the credit for excess ~~energy~~ *electricity*, to the extent possible, shall be prioritized to be directed to accounts at buildings or facilities of the public school division of the municipality before the credit is directed to any of the municipality's target accounts.

~~6.~~ Any pilot program conducted pursuant to this section shall not limit the current authority of any municipality to participate in any other net energy metering program.

~~7.~~ Neither jurisdictional customers nor non-jurisdictional customers, including those that are members of a joint powers association representing member units of a political subdivision of the Commonwealth, that do not participate in a pilot program under this section shall bear any costs associated with participation in such pilot program by a participating host municipal customer-generator and participating target municipal customer.

~~8.~~ E. The duration of any pilot program approved by the Commission pursuant to ~~this section~~ *subsection B* shall be six years. *The duration of any pilot program approved by the Commission pursuant to subsection C shall be until July 1, 2028.* If ~~the~~ *a* pilot program is not extended beyond such initial term, host and target accounts participating at the end of the initial term shall be permitted to continue to participate under the terms of the pilot program that existed during the initial term. The terms of the pilot program shall be included in future contracts for each municipality that elects to continue its program.

~~9.~~ F. The Commission shall review the pilot ~~programs~~ *program* established pursuant to ~~this section~~ *subsection B* in 2021 and every two years thereafter for the duration of the pilot program. *The Commission shall review the pilot program established pursuant to subsection C in 2024 and every two years thereafter for the duration of the pilot program.*

G. *Notwithstanding the provisions of § 56-594.02, the aggregated capacity of all generation facilities that are the subject of a utility's pilot program pursuant to this section shall not constitute any portion of the existing aggregate net metering cap established in § 56-594 and evaluated by the Commission as part of a net energy metering proceeding.*

H. *The aggregated capacity of all generation facilities that are the subject of each utility's pilot program under this section and that are the subject of a third-party power purchase agreement shall constitute a portion of the existing limit of pilot programs pursuant to the provisions of § 56-594.02.*
