J. Out of this appropriation, \$3,442,659 from the general fund and \$3,483,457 from nongeneral funds each year shall be provided for a salary adjustment the first year of 1.5 percent for all local department of social services positions to address issues related to salary compression."

**Explanation:**

(This amendment reduces \$3.4 million each year from the general fund and \$3.5 million each year from nongeneral funds for local social services departments' (LDSS) compensation adjustments contained in the introduced budget in the Department of Social Services. Language sets out funding in this Item of \$2.2 million from the general fund and \$2.2 million from nongeneral funds each year to increase minimum salary levels for LDSS family services, benefit program services, self sufficiency services and administrative positions. It also sets out funding of \$3.4 million from the general fund and \$3.5 million from nongeneral funds each year for a 1.5 percent salary adjustment the first year to address salary compression issues. A companion amendment in Item 477 Central Accounts provides for a salary increase for LDSS staff who are state supported local employees in fiscal year 2021 and fiscal year 2022. These combined actions should assist in reducing the high turnover and vacancy rates in these LDSS positions.)

The Department of Social Services shall develop a plan to provide access statewide to a Kinship Navigator Program which will provide services to kinship caregivers who are having trouble finding assistance for their unique needs and to help these caregivers navigate their locality's service system, as well as federal and state benefits."

**Explanation:**

(This amendment directs the Department of Social Services to develop a plan to provide access statewide to a Kinship Navigator Program. Many kinship caregivers raise children without the supports and case management provided by local departments of social services staff to children in foster care. A kinship navigator offers support to kinship caregivers to assess needs and arrange necessary services to provide support, education, and information to caregivers to ensure that all of the kinship caregivers are aware of and have access to supportive services, such as financial benefits, therapeutic services, and training. Similar to other states, a statewide kinship navigator program would likely operate and maintain an informational and referral "warm-line", a website providing information on how to apply for benefits, including legal aid and fact sheets, and maintain a referral network in which to refer kinship caregivers to local programs in their respective localities. Currently, there are six regional kinship navigator

programs that serve 33 percent of local departments of social services.)

Out of this appropriation, \$100,000 the first year and \$200,000 the second year from the general fund shall be provided to support the development and implementation of a statewide driver's licensing program to support foster care youth in obtaining a driver's license. Funding shall be made available, up to the limits of this appropriation, to local departments of social services to reimburse foster care providers for increases to their existing motor vehicle insurance premiums that occur because a foster care youth in their care has been added to their insurance policy. The program may also reimburse foster care providers for additional coverage (i.e. an umbrella policy or the equivalent) that provides liability protection should a foster care youth get into or cause a catastrophic accident. Additionally, funding shall be made available to foster care youth in Virginia's Fostering Futures Program to assist in covering the cost of obtaining motor vehicle insurance. The department shall develop reimbursement policies for foster care providers and foster care youth. The department shall coordinate and administer the driver's licensing program based on best practices from similar programs in other states, to include developing educational or training materials that educate foster parents, private providers, and foster youth about (i) liability issues, insurance laws, and common insurance practices (to include laws about renewal and cancellation, how long an accident can affect premiums, how to establish that a foster youth is no longer living in the residence, and other applicable topics); (ii) Department of Motor Vehicles requirements to obtain a learner's permit and driver's license; (iii) what funding and resources are available to assist in this process, to include, paying school lab fees for "Behind the Wheel" or paying a private driving education company; and (iv) why getting a driver's license on time is important for normalcy and a successful transition to adulthood. The department shall provide information on how many foster care youth were supported by this program and any recommendations to improve the program to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1, 2020."

**Explanation:**

(This amendment provides \$100,000 the first year and \$200,000 the second year from the general fund to support the development and implementation of a statewide driver's licensing program to support foster care youth in obtaining a driver's license. Evidence indicates that youth who leave foster care without their driver's licenses are less likely to make a successful

transition to adulthood. This is a recommendation of the Commission on Youth.)

The adopted standards should align, as much as reasonably possible, to the Model Family Foster Home Licensing Standards, and should ensure that children in foster care: (i) live in safe and appropriate homes under local department of social services and court oversight; (ii) receive monthly financial assistance and supportive services to help meet their needs; and (iii) can access the permanency options offered by Virginia's Kinship Guardianship Assistance Program."

**Explanation:**

(This amendment adds \$75,000 each year from the general fund for the Department of Social Services to implement an emergency approval process for kinship caregivers and the development of foster home certification standards for kinship caregivers. Any new approval process created will encompass the same safety standards that non-relative foster homes must comply with when getting approved as a foster home. This will help Virginia align it's foster care approval process to the federal Family First Prevention Services Act legislation that directs states to use prevention dollars and keep children with kin rather than enter non-relative foster care. This is a recommendation of the Commission on Youth.)

"E. Of the amounts in this item, \$1,000,000 the first year and \$1,000,000 the second year from the Commonwealth Transportation Fund is appropriated for service charges to be paid to localities in which the Virginia Port Authority owns tax-exempt real estate for roadway maintenance activities in the jurisdictions hosting Virginia Port Authority facilities. These payments shall be treated the same as other Commonwealth Transportation Board payments to localities for highway maintenance. These funds shall not be used for other activities nor shall they supplant other local government expenditures for roadway maintenance. These funds shall be distributed to the localities on a pro rata basis in accordance with the formula set out in § 58.1-3403 D, Code of Virginia; however, the proportion of the funds distributed based on cargo traveling through each port facility shall be distributed on a pro rata basis according to twenty-foot equivalent units."

**Explanation:**

The appropriation for these compensation actions are contingent upon actual general fund revenues collected and accounted for in the preliminary close of the fiscal year ended June 30, 2020 not being one percent or more below the official budget estimate for fiscal year 2020, necessitating a statutorily required revenue reforecast. Such revenue contingency is required to effectuate the salary adjustments for SOQ funded positions contained in a separate amendment to Item 145.)

The Honorable Susan Clarke Schaar, Clerk of the Senate, offered the following prayer:

Great Creator, be with us today as we gather to do the business of the Commonwealth. Hold the members of the medical community in the palm of Your hands as they unselfishly risk their lives for others. Keep our first responders safe. Bless others toiling to get us through this pandemic—grocery clerks, food suppliers, truckers, maintenance/housekeeping staffs, teachers, and many more working behind the scenes. Grant researchers the knowledge and skill to quickly find a cure for this disease that has devastated so many around the world. Grant us strength, courage, peace, and kindness as we face this battle together. Amen.

#### HOUSE BILLS WITH GOVERNOR'S RECOMMENDATIONS

**H.B. 29** (twenty-nine) was taken up together with the following communication from the Governor:

COMMONWEALTH OF VIRGINIA

Office of the Governor

April 11, 2020

TO: HOUSE OF DELEGATES  
HOUSE BILL NO. 29

I approve the general purpose of this bill, but I am returning it with a request for the adoption of 37 amendments. I am grateful to each member of the House of Delegates and the Senate of Virginia for your dedicated work and your timely passage of this budget.

In a typical year, House Bill 29—known as “the caboose bill”—receives only technical revisions since it adjusts only the final few months of the current fiscal year that ends on June 30. COVID-19 makes this year different. I am proposing the following measures to ensure that we are able to respond to the pandemic between now and June 30. (Additional changes will be required in House Bill 30.)

First, I have authorized “sum sufficient” increases of \$55.5 million for the Virginia Department of Emergency Management and other affected agencies, as well as a \$2.5 million deficit for the Department of Housing and Community Development. These commitments must be recognized in the adjustments to the balance of funds available for appropriation. The authorizations are due to the state of emergency declared in Executive Order 51.

Second, I am recommending an increase of \$50.0 million in general fund appropriation in Central Accounts. This is necessary to provide a source of funds for unbudgeted expenses related to COVID-19, including any state match that may be required to secure federal assistance. An early review indicates that some federal assistance likely will require matching dollars. Examples include grants for veterans care, elections, and potential alternative care facilities.

Third, I am proposing to defer the voluntary deposit to the revenue reserve fund that is scheduled for the end of this fiscal year. The prudent course of action is to retain as much liquidity as possible, at least until we have a better picture of the economic and revenue impacts of COVID-19. This action will add \$601.8 million to our available balances to guard against expected revenue losses this fiscal year.

Finally, I am proposing to relax specific requirements and to offer greater flexibility to our agencies and institutions of higher education as they conduct business during COVID-19. The current budget includes provisions that are creating barriers to helping communities during this crisis. These include limits on accepting donations and grants, expanding or changing services, and creating new services.

I am proposing language to give temporary authority to the Department of Medical Assistance Services to make immediate changes to its medical assistance programs. I am proposing similar flexibility for the Department of Social Services to make immediate changes to program eligibility and enrollment. Any change sought by these agencies would be subject to the Governor's approval and any program changes will expire when the emergency declaration ends.

In addition, I am proposing amendments to the General Provisions to allow the Governor and state agencies to respond to the specific impacts of COVID-19. These proposals are limited to the current crisis and do not seek broad changes in authority.

Other examples of emergency-related flexibility include:

- provisions to increase per diem rates for nursing homes and specialized care;
- use of federal CARES Act funds to provide incentive grants to child care providers, emergency child care, elimination of co-pays for subsidy program participants, and the extension of absence days to temporarily closed centers;
- provisions to move the May 5 local elections to November;
- provisions authorizing the Director of the Department of Corrections to discharge certain offenders who have less than one year remaining on their sentences;
- provisions to abate interest on late state income tax payments;
- provisions for public bodies to meet electronically when circumstances related to an emergency—such as social distancing—make it impractical to meet in a single location;
- enabling institutions of higher education to manage their funds to provide liquidity;
- flexibility for agencies in meeting required reporting deadlines; and,
- provisions to allow the Superintendent of Public Instruction to grant temporary flexibility or waivers for certain deadlines and requirements that cannot be met due to the state of emergency or school closures resulting from COVID-19.

I propose 37 amendments. Thirty are language-only changes and seven change spending. One reduces total general fund spending by \$601.8 million; two transfer funding between agencies for a net zero impact; two increase general fund spending by a total of \$50.3 million; and two are nongeneral fund changes only. The net is to reduce general fund spending by \$551.5 million.

These changes will increase the unappropriated balance from \$691.8 million to nearly \$1.2 billion. We can expect to need these balances given the financial uncertainty we face.

Sincerely,

/s/ Ralph S. Northam

"D.1. Subject to review and approval by the Secretary of Natural Resources, the Director of the Department of Game and Inland Fisheries may issue to the Department of Transportation an interim permit to relocate the nest and eggs of any state listed threatened bird species from critical areas of the Hampton Roads Bridge Tunnel Expansion Project's South Island associated with the ingress and egress to the island; the delivery, assembly, and immediate operations of the tunnel boring machine; or other project critical locations as mutually agreed to by the Commissioner of Highways and the Director, which, if not relocated, would effectively require all substantial construction activities to cease.

2. Prior to the issuance of an interim permit as described in section 1, (i) the Director must determine that the Department of Transportation and its design-build contractor have taken all reasonable steps to prevent birds from nesting on the South Island, in accordance with the Colonial Nesting Bird Management Plan dated March 27, 2020, (ii) the Commissioner of Highways must determine that substantial construction activities will have to cease if the nest and eggs are not relocated, and (iii) the

Director shall require as a condition of the interim permit that the nest and any eggs will be relocated under the supervision of the Department of Game and Inland Fisheries to a location acceptable to the Director that is as close as possible to the original nesting location while allowing construction activities to continue.

3. Within 30 days of the adoption by the Board of Game and Inland Fisheries of any regulation governing the take of migratory birds or threatened and endangered species, the Department of Transportation shall apply for a permit covering such take for the Hampton Roads Bridge-Tunnel expansion project.

4. Any agency that exercises the authority granted in paragraph D.1, or that issues any permit that has an adverse impact on fish and wildlife or their habitat, may require compensatory mitigation for such adverse impact as a condition of issuing the permit.

a. For the purposes of this section, “compensatory mitigation” means addressing the direct and indirect adverse impacts to fish and wildlife and their habitats that may be caused by a construction project by avoiding and minimizing impacts to the extent practicable and then compensating for the remaining impacts.

b. Proposed compensatory mitigation agreements between an agency and a permittee shall be subject to the approval of the Secretary of Natural Resources, and may include environmental restoration projects, purchase of mitigation bank credits, or in-lieu payments to existing state funds related to conservation of fish and wildlife and their habitat.”

The Treasury Board shall fix the authorized denomination or denominations of the Notes and the place or places of payment of certificated Notes, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. The Treasury Board may sell Notes in such manner, by competitive bidding, negotiated sale, or private placement with private lenders or governmental agencies, and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth. In the discretion of the Treasury Board, Notes may be issued at one time or from time to time. Certificated Notes shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the Notes bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any Notes ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same

as if such officer had remained in office until such delivery, and any Note may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such Note, although at the date of such Note, such persons may not have been such officers.

**i. The Treasury Board is authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the Notes and other funds or reserves desirable or required by any purchaser. Pending the application of the proceeds of the Notes to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of Notes, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of Notes, such interest shall become a part of the principal of the Notes and shall be used in the same manner as required for principal of the Notes.”**

**H.B. 30** (thirty) was taken up together with the following communication from the Governor:

COMMONWEALTH OF VIRGINIA  
Office of the Governor

April 11, 2020

TO: HOUSE OF DELEGATES  
HOUSE BILL NO. 30

I approve the general purpose of this bill, but I am returning it with a request for the adoption of 144 amendments. I am grateful to each member of the House of Delegates and the Senate of Virginia for your dedicated work and your timely passage of the budget.

I am pleased that the budget you returned to me reflects many of the important new initiatives that we sought to accomplish together. These include early childhood education, more affordable tuition and free community college for some students pursuing high-demand fields, pay increases for public employees and teachers, and more.

New circumstances now require us to revisit those decisions.

The economic effects of COVID-19 will not be clear for some time. While it is too soon to obtain an accurate reforecast of revenues, we will need to do it once the economic fog has lifted, so that we can then identify a path to return to the progressive investments we have made together. Until that can happen, I do not want to eliminate specific appropriations without first knowing the overall level of spending reductions that is required.

As a result, I am proposing 83 amendments to specifically “unallot” new, discretionary spending across all agencies. These amendments will place that spending on hold until economic circumstances enable me to reforecast revenues so that we can all make informed decisions together. These amendments freeze spending of approximately \$874.6 million in fiscal year 2021 and \$1.4 billion in fiscal year 2022. Each amendment lists the specific items that are to be unallotted.

Unfortunately, we must take two measures now to control our spending commitments in the next biennium. First, you prudently included \$65 million as a direct general fund appropriation for maintenance reserve capital projects. This wise decision now gives us the opportunity to replace that appropriation with bond authorization. This will free up cash and give us greater liquidity necessary to pay our bills.

Second, I propose that we continue to delay the funding provided to increase the number of school counselors funded in the Standards of Quality. We did that for the current school year, and I propose that we continue this policy and hold funding for school counselors at current ratios. This action will reduce general fund expenditures by \$21.7 million in fiscal year 2021 and \$28.4 million in fiscal year 2022. In addition, this action will help localities by reducing the funding they are required to provide. It is important that we take this step now to include the appropriate staffing ratios in the budget, and more importantly, to send a clear message to school divisions as they plan for the next school year. Then, we can return to this shared priority when our financial picture is clearer.

Finally, COVID-19 is creating new challenges that none of us could have foreseen. We have seen in the current fiscal year that certain budgetary provisions are creating barriers to helping communities during this crisis. These include limits on accepting donations and grants, expanding or changing services, and creating new services. For this reason, I am proposing amendments to the General Provisions to allow the Governor and state agencies to respond to the specific impacts of COVID-19. These proposals are limited to the current crisis and do not seek broad changes in authority.

I propose 49 “language amendments” in total. Many of these relax specific requirements and offer greater flexibility to our agencies and institutions of higher education as they conduct business during COVID-19. These include:

- provisions to increase per diem rates for nursing homes and specialized care;
- use of federal CARES Act funds for child care of essential workers;
- provisions authorizing the Director of the Department of Corrections to discharge certain offenders who have less than one year remaining on their sentences;
- provisions to abate interest on late state income tax payments;
- provisions for public bodies to meet electronically when circumstances related to an emergency—such as social distancing—make it impractical to meet in a single location;
- enabling institutions of higher education to manage their funds to provide liquidity;
- flexibility for agencies in meeting required reporting deadlines; and,
- provisions to allow the Superintendent of Public Instruction to grant temporary flexibility or waivers for certain deadlines and requirements that cannot be met due to the state of emergency or school closures resulting from COVID-19.

I am proposing a total of 144 amendments. Forty-nine are “language-only” changes; 83 “unallot” new, discretionary spending as described above; and 12 change spending. Within these 12, four reduce total general fund spending by \$121.2 million; four transfer funding between agencies for a net zero impact; one increases general fund spending by \$1.0 million; and three are nongeneral fund changes only.

The net change in general fund spending is an overall reduction of \$120.2 million. This and the increases to the beginning balance resulting from changes proposed in House Bill 29 (which total \$493.5 million) increase the unappropriated balance from \$13.7 million to \$627.4 million.

While these proposals present difficult decisions today, we may face tougher choices tomorrow. The right course is to be prepared. This strategy gives us time to address the COVID-19 health crisis, re-forecast revenues when the time is right, then shape a revised budget that reflects the progressive values we share.

Sincerely,

/s/ Ralph S. Northam

“V. Within 10 days of the enactment of this Act, the Department of Social Services (DSS) shall generate an estimate of the annual impact of enhanced federal Medical Assistance Percentages (FMAP), associated with federal H.R. 6021, the Families First Coronavirus Response Act (FFCRA), on all Title IV-E foster care and adoptions programs as appropriated in this Act. The agency shall report these estimates by fiscal year, fiscal quarter, service area and fund detail, to the Department of Planning and Budget (DPB) and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees within the required timeframe. DPB is authorized to unallot an amount of state funds equal to the general fund savings identified in the DMAS report. Upon expiration of the enhanced FMAP, DPB is authorized to re-allot funding for those quarters for which assumed enhanced FMAP is not available.”

Explanation:

(This amendment requires that DSS identify all state savings associated with the federal government increasing the federal Medical Assistance Percentages (FMAP) rate (to 56.2%). This enhanced rate increases the federal match rate for Title IV-E foster care and adoption services, which reduces the amount of general fund needed to support current service levels. Any identified funds can be unallotted and reserved for reprogramming by the Governor and the General Assembly at the 2021 session. This language is included in HB 29 and HB 30.)

All emergency child care programs shall follow Centers for Disease Control and Prevention and Virginia Department of Health guidance on safety measures to prevent the spread of COVID-19.

I. Subject to review and approval by the Secretary of Natural Resources, the Director of the Department of Game and Inland Fisheries may issue to the Department of Transportation an interim permit to relocate the nest and eggs of any state listed threatened bird species from critical areas of the Hampton Roads Bridge Tunnel Expansion Project’s South Island associated with the ingress and egress to the island; the delivery, assembly, and immediate operations of the tunnel boring machine; or other project critical locations as mutually agreed to by the Commissioner of Highways and the Director, which, if not relocated, would effectively require all substantial construction activities to cease.

2. Prior to the issuance of an interim permit as described in section 1, (i) the Director must determine that the Department of Transportation and its design-build contractor have taken all reasonable steps to prevent birds from nesting on the South Island, in accordance with the Colonial Nesting Bird Management Plan dated March 27, 2020, (ii) the Commissioner of Highways must determine that substantial construction activities will have to cease if the nest and eggs are not relocated, and (iii) the Director shall require as a condition of the interim permit that the nest and any eggs will be relocated under the supervision of the Department of Game and Inland Fisheries to a location acceptable to the Director that is as close as possible to the original nesting location while allowing construction activities to continue.

3. Within 30 days of the adoption by the Board of Game and Inland Fisheries of any regulation governing the take of migratory birds or threatened and endangered species, the Department of Transportation shall apply for a permit covering such take for the Hampton Roads Bridge-Tunnel expansion project.

4. Any agency that exercises the authority granted in paragraph D.1, or that issues any permit that has an adverse impact on fish and wildlife or their habitat, may require compensatory mitigation for such adverse impact as a condition of issuing the permit.

a. For the purposes of this section, “compensatory mitigation” means addressing the direct and indirect adverse impacts to fish and wildlife and their habitats that may be caused by a construction project by avoiding and minimizing impacts to the extent practicable and then compensating for the remaining impacts.

b. Proposed compensatory mitigation agreements between an agency and a permittee shall be subject to the approval of the Secretary of Natural Resources, and may include environmental restoration projects, purchase of mitigation bank credits, or in-lieu payments to existing state funds related to conservation of fish and wildlife and their habitat.”

**SENATE BILLS VETOED BY THE GOVERNOR  
SUBSEQUENT TO ADJOURNMENT SINE DIE**

**S.B. 235** (two hundred thirty-five), subsequent to adjournment sine die of the Reconvened Session of the 2020 Regular Session, was returned by the Governor with the following communication:

COMMONWEALTH OF VIRGINIA  
Office of the Governor

May 21, 2020

Pursuant to Article V, Section 6, of the Constitution of Virginia, I veto Senate Bill 235. This legislation allows associations with more than 50 members to offer association health plans (AHPs) to members. The legislation also expands the availability of and the rules regulating AHPs beyond what is currently allowed in Virginia.

I am concerned that Senate Bill 235 addressed the health care concerns of only a segment of Virginians, possibly at the cost of other Virginians. This bill would undermine current efforts to stabilize the Virginia health insurance marketplace. Virginians who enroll in AHPs may be disproportionately healthy when they enroll, leading to higher premiums for Virginians who do not qualify for an AHP and remain in the marketplace.

Virginia took a positive step to increase the availability of quality, affordable, and comprehensive health care coverage through Medicaid expansion. The Governor and General Assembly worked together to

begin implementing a state based exchange and to lay out steps to create a reinsurance program. Our responsibility is to look at solutions like these to improve the quality and cost of health care for all Virginians, not pick winners and losers based on employment status. This is why I am directing the Secretary of Health and Human Resources to convene a workgroup in collaboration with the State Corporation Commission Bureau of Insurance to identify strategies to reduce the cost and improve the quality of health care coverage and increase the number of Virginians with comprehensive coverage. The workgroup will build off of the recommendations of the 2019 Market Stability Workgroup. We look forward to working together holistically to ensure all Virginians' have lower health care costs and ensure the overall market is at a minimum held harmless by future reforms. All Virginians have a right to quality, affordable, and comprehensive coverage. My administration remains committed to this goal.

Accordingly, I veto this bill.

Sincerely,

/s/ Ralph S. Northam

**S.B. 861** (eight hundred sixty-one), subsequent to adjournment sine die of the Reconvened Session of the 2020 Regular Session, was returned by the Governor with the following communication:

COMMONWEALTH OF VIRGINIA  
Office of the Governor

May 21, 2020

Pursuant to Article V, Section 6, of the Constitution of Virginia, I veto Senate Bill 861. This legislation allows bona fide associations to constitute a benefits consortium which are authorized to offer health benefits plans to members. This legislation greatly expands the availability of multiple employer welfare arrangement (MEWA) plans beyond what is currently allowed in Virginia.

I am concerned that Senate Bill 861 addressed the health care cost concerns of only a segment of Virginians, possibly at the cost of other Virginians. This bill would undermine current efforts to stabilize the Virginia health insurance marketplace. Virginians who enroll in these Multiple Employer Welfare Arrangement (MEWA) plans may be disproportionately healthy when they enroll, leading to higher premiums for Virginians who do not qualify for a MEWA plan and remain in the marketplace. This legislation also would allow for this health insurance product to exist outside of the scope of the state's regulatory authority.

Virginia took a positive step to increase the availability of quality, affordable, and comprehensive health care coverage through Medicaid expansion. The Governor and General Assembly also worked together to begin implementing a state based exchange and to lay out steps to create a reinsurance program. Our responsibility is to look at solutions like these to improve the quality and cost of health care for all Virginians, not pick winners and losers based on employment status. This is why I am directing the Secretary of Health and Human Resources to convene a workgroup in collaboration with the State Corporation Commission Bureau of Insurance to identify strategies to reduce the cost and improve the quality of health care coverage and increase the number of Virginians with comprehensive coverage. The workgroup will build off of the recommendations of the 2019 Market Stability Workgroup. All Virginians have a right to quality, affordable, and comprehensive coverage. My administration remains committed to this goal.

Accordingly, I veto this bill.

Sincerely,

/s/ Ralph S. Northam
