§ 46.2-1569. Other coercion of dealers; transfer, grant, succession to and cancellation of dealer franchises; delivery of vehicles, parts, and accessories.

Notwithstanding the terms of any franchise agreement, it shall be unlawful for any manufacturer, factory branch, distributor, distributor branch, or affiliate, or any field representative, officer, agent, or their representatives to do any of the following. It shall further be unlawful for any manufacturer, factory branch, distributor, distributor branch, or any field representative, officer, agent, or their representatives to engage in conduct prohibited under this section through an affiliate.

1. To coerce or attempt to coerce any dealer to accept delivery of any motor vehicle or vehicles, parts or accessories therefor, or any other commodities, which have not been ordered by the dealer.

2. To coerce or attempt to coerce any dealer to enter into an agreement with the manufacturer, factory branch, distributor, or distributor branch, or representative thereof by threat to take or by taking any action in violation of the chapter, or by any other act unfair or injurious to the dealer*, including the threat to withhold any incentive payments in whole*

or in part or to deny the dealer the right to participate in an incentive program in which more than one of the dealers of the line-make in the Commonwealth are eligible to participate and under the same terms as such other dealers. Nothing contained in this section shall require that a dealer be qualified for or entitled to incentive payments or the right to payments or benefits from an incentive program, nor will a manufacturer, factory branch, distributor, or distributor branch be prohibited from informing a dealer thereof, unless the dealer meets all qualifications and performs all applicable requirements and meets all of the applicable standards for such payments or benefits reasonably established by the manufacturer, factory branch, distributor, or distributor branch, or as otherwise provided in this article. If a manufacturer, factory branch, distributor, or distributor branch conditions the grant of a new franchise to a dealer on the dealer's consent (i) to provide a site control agreement as defined in subdivision 10, (ii) to provide a written agreement containing an option to purchase the franchise of the dealer, provided, however, that agreements pursuant to § 46.2-1569.1 shall be permitted, or (iii) to provide a termination agreement to be held by the manufacturer, factory branch, distributor, or distributor branch for subsequent use, it shall be considered coercion and an act that is unfair and injurious to the dealer; provided, however, that the provisions of § 46.2-1572.3 related to the good faith settlement of disputes shall apply to the agreements described in clauses (i), (ii), and (iii) of this subdivision, mutatis mutandis. This subdivision shall not apply to any agreement the enforcement of which is subject to the jurisdiction of a United States Bankruptcy Court.

2a. To coerce or attempt to coerce any dealer to join, contribute to, or affiliate with any advertising association.

2b. To coerce or require any dealer to establish in connection with the sale of a motor vehicle prices at which the dealer shall sell products or services not manufactured or distributed by the manufacturer, factory branch, distributor, or distributor branch, whether by agreement, program, incentive provision, or otherwise.

2c. To coerce or require any dealer, whether by agreement, program, incentive provision, or otherwise, to construct improvements to its facilities or to install new signs or other franchisor image elements that replace or substantially alter those improvements, signs, or franchisor image elements completed within the preceding 10 years that were required or approved by the manufacturer, factory branch, distributor, or distributor branch or one of its affiliates. If a manufacturer, factory branch, distributor, or distributor branch offers incentives, or other payments under a program offered after the effective date of this subdivision and available to more than one dealer in the Commonwealth that are premised wholly or in part on dealer facility improvements or installation of franchisor signs or other franchisor image elements, a dealer that constructed improvements or installed signs or other franchisor image elements required by or approved by the manufacturer, factory branch, distributor, or distributor branch and completed within the 10 years preceding the program shall be deemed to be in compliance with the program requirements pertaining to construction of facilities or installation of signs or other franchisor image elements that would replace or substantially alter those previously constructed or installed within that 10-year period. This subdivision shall not apply to a program that provides lump sum payments to assist dealers in making facility improvements or to pay for signs or franchisor image elements when such payments are not dependent on the dealer selling or purchasing specific numbers of new vehicles and shall not apply to a program that is in effect with more than one dealer in the Commonwealth on the effective date of this subdivision, nor to any renewal or modification of such a program.

2d. To coerce or require any dealer, whether by agreement, program, incentive provision, or provision for loss of incentive payments or other benefits, to refrain from selling any used motor vehicle subject to (i) recall, (ii) stop sale directive, (iii) technical service bulletin, or (iv) other manufacturer, factory branch, distributor, or distributor branch notification to perform work on such used motor vehicle, unless the manufacturer, factory branch, distributor, or distributor branch has a remedy and parts available to the dealer to remediate the basis for the coercion or requirement of the dealer to refrain from selling each affected used motor vehicle. If there is no remedy or there are no parts available from the manufacturer, factory branch, distributor, or distributor branch to remediate each affected used motor vehicle in the inventory of the dealer, the manufacturer, factory branch, distributor, or distributor branch shall (a) compensate the dealer for any affected used motor vehicle in the inventory of the dealer that it cannot sell because of such coercion or requirement at least one percent a month or any part thereof of the cost of such used motor vehicle, including repairs and reconditioning expenses based on the financial records of the dealer, and (b) establish a written procedure to compensate dealers under this subdivision that it shall provide to dealers subject to its coercion or requirement and file with the Commissioner as a franchise document pursuant to § 46.2-1566.

Any claim for compensation by a dealer shall be submitted on a monthly basis for the amount owed pursuant to this subdivision. The manufacturer, factory branch, distributor, or distributor branch shall process and pay the claim in the same manner as a claim for warranty reimbursements as provided in § 46.2-1571. This subdivision shall not prevent a manufacturer, factory branch, distributor, or distributor branch from (1) requiring that a motor vehicle not be subject to an open recall or stop sale directive in order to be qualified, remain qualified, or be sold as a certified pre-owned vehicle or similar designation; (2) paying incentives for selling used vehicles with no unremedied recalls; or (3) paying incentives for performing recall repairs on a vehicle in the dealer's inventory.

Nothing in this subdivision shall prevent a manufacturer, factory branch, distributor, or distributor branch from instructing that a dealer repair used vehicles of the line-make for which the dealer holds a franchise with an open recall, provided that the instruction does not involve coercion that imposes a penalty or provision of loss of benefits on the dealer.

2e. To coerce or require any dealer, whether by agreement, program, incentive provision, or provision for loss of incentive payments or other benefits, to amend its franchise agreement or similar agreement governing the sales and leasing of new motor vehicles, or to establish or implement a franchise agreement for the sales and leasing of new motor

vehicles, under which the manufacturer, factory branch, distributor, or distributor branch (i) maintains a website or other electronic or digital means of communication for negotiating binding terms of sale or leasing of new motor vehicles directly between the manufacturer, factory branch, distributor, or distributor branch and retail buyers or lessees, including but not limited to agreements on prices or other substantive terms of sale or leasing of new vehicles; (ii) retains ownership of new motor vehicles until they are sold or leased to the retail buyers or lessees thereof; however, a manufacturer, factory branch, distributor, or distributor branch may maintain a common supply of new vehicles of which it maintains ownership until such vehicles are sold to dealers, from which more than one dealer may buy vehicles, provided that the manufacturer, factory branch, distributor, or distributor branch may not use the common supply of new vehicles to engage in the negotiation of binding terms of sales or leases directly with retail buyers or lessees and further provided that a dealer may buy vehicles from the common supply for the dealer's inventory without having reached agreement for sale or lease of any new vehicle with a retail buyer or lessee if the manufacturer, factory branch, distributor, or distributor branch does not otherwise allow its dealers to obtain stock inventory through the vehicle allocation process; (iii) except for the sale or lease of a vehicle to an actual employee of the manufacturer, factory branch, distributor, or distributor branch or in connection with any replacement or buyback under Chapter 17.3 (§ 59.1-207.9 et seq.) of Title 59.1, consigns new motor vehicles to dealers for dealer inventory or for sale or lease to retail buyers or lessees; (iv) reserves the right to negotiate binding terms of sale directly with retail buyers or lessees of new motor vehicles, provided that displaying on a website or other electronic or digital means of communication prices set by dealers, lists of available financing sources provided by dealers, or a conditional trade-in value shall not be considered negotiating; (v) reserves the right to offer or negotiate directly with the retail buyers or lessees in connection with and at the time of sale of a new motor vehicle the sale of any service contract, vehicle maintenance agreement, guaranteed asset protection (GAP) agreement or waiver, or other vehicle-related products and services that are otherwise offered by the dealer; however, a manufacturer, factory branch, distributor, or distributor branch may communicate or negotiate and finalize agreements with vehicle owners or lessees directly concerning any accessory or function of a vehicle that may be initiated, updated, changed, or maintained by the manufacturer, factory branch, distributor, or distributor branch through over-the-air or remote means if the manufacturer, factory branch, distributor, or distributor branch complies with the requirements of subdivision B 10 of § 46.2-1571; or (vi) designates dealers to be only delivery agents for new motor vehicles the binding terms of sale or lease of which are negotiated directly between the manufacturer, factory branch, distributor, or distributor branch and the retail buyers or lessees of the new motor vehicles. No manufacturer, factory branch, distributor, or distributor branch shall engage in any of the activities listed in clauses (i) through (vi). Notwithstanding the foregoing provisions of this subsection, a manufacturer, factory branch, distributor, or distributor branch may engage in fleet sales with a fleet customer that has a designation as such by the manufacturer, factory branch, distributor, or distributor branch because it has purchased or leased or has committed to purchase or lease five or more vehicles under the fleet program. Nothing in this section shall limit a manufacturer, factory branch, distributor, or distributor branch from setting or advertising a manufacturer's suggested retail price.

3. To prevent or refuse to approve the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise, or the transfer, sale, or assignment of a dealer franchise, or a change in the executive management or principal operator of the dealership, unless the franchisor provides written notice to the dealer of its objection and the reasons therefor by certified mail or overnight delivery or other method designed to ensure delivery to the dealer at least 30 days prior to the proposed effective date of the transfer, sale, assignment, or change. No such objection shall be sufficient unless the failure to approve is reasonable. Notwithstanding the provisions of subsection D of § 46.2-1573, the only grounds that may be considered reasonable for a failure to approve are that an individual who is the applicant or is in control of an entity that is an applicant (i) lacks good moral character, (ii) lacks reasonable motor vehicle dealership management experience and qualifications, (iii) lacks financial ability to be the dealer, or (iv) fails to meet the standards otherwise established by this title to be a dealer. No such objection shall be effective to prevent the sale, transfer, assignment, or change if the Commissioner has determined, if requested in writing by the dealer within 30 days after receipt of an objection to the proposed sale, transfer, or change, and after a hearing on the matter, that the failure to permit or honor the sale, transfer, assignment, or change is unreasonable under the circumstances. No franchise may be sold, assigned, or transferred unless (a) the franchisor has been given at least 90 days' prior written notice by the dealer as to the identity, financial ability, and qualifications of the proposed transferee on forms generally utilized by the franchisor to conduct its review, as well as the full agreement for the proposed transaction, and (b) the sale or transfer of the franchise and business will not involve, without the franchisor's consent, a relocation of the business.

3a. To impose a condition on the approval of the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise if the condition would violate the provisions of this title if imposed on the existing dealer.

In the event the manufacturer, factory branch, distributor or distributor branch takes action to prevent or refuse to approve the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise, or the transfer, sale or assignment of a dealer franchise, or a change in the executive management or principal operator of the dealership, without a statement of specific grounds for doing so that is consistent with subdivision 3 hereof or imposes a condition in violation of subdivision 3a hereof, that shall constitute a violation of this section. The existing dealer may request review of the action or imposition of the condition in a hearing by the Commissioner. If the Commissioner finds that the action or the imposition of the condition was a violation of this section, the Commissioner may order that the sale or transfer be approved by the manufacturer, factory branch, distributor, or distributor branch, without imposition of the

condition. If the existing dealer does not request a hearing by the Commissioner concerning the action or the condition imposed by the manufacturer, factory branch, distributor, or distributor branch, and the action or condition was the proximate cause of the failure of the contract for the sale or transfer of ownership of the dealership, the applicant for approval of the sale or transfer or the existing dealer, or both, may commence an action at law for violation of this section. The action may be commenced in the circuit court of the city or county in which the dealer is located, or in any other circuit court with permissible venue, within two years following the action or the imposition of the condition by the manufacturer, factory branch, distributor, or distributor branch for the damages suffered by the applicant or the dealer as a result of the violation of this section by the manufacturer, factory branch, distributor, or distributor branch, plus the applicant's or dealer's reasonable attorney fees and costs of litigation. Notwithstanding the foregoing, an exercise of the right of first refusal by the manufacturer, factory branch, distributor, or distributor branch pursuant to § 46.2-1569.1 shall not be considered the imposition of a condition prohibited by this section.

4. To grant an additional franchise for a particular line-make of motor vehicle in a relevant market area in which a dealer or dealers in that line-make are already located unless the franchisor has first advised in writing all other dealers in the line-make in the relevant market area. No such additional franchise may be established at the proposed site unless the Commissioner has determined, if requested by a dealer of the same line-make in the relevant market area within 30 days after receipt of the franchisor's notice of intention to establish the additional franchise, and after a hearing on the matter, that the franchisor can show by a preponderance of the evidence that after the grant of the new franchise, the relevant market area will support all of the dealers in that line-make in the relevant market area. Establishing a franchised dealer in a relevant market area to replace a franchised dealer that has not been in operation for more than two years shall constitute the establishment of a new franchise subject to the terms of this subdivision. The two-year period for replacing a franchised dealer shall begin on the day the franchise was terminated, or, if a termination hearing was held, on the day the franchisor was legally permitted finally to terminate the franchise. The relocation of a franchise in a relevant market area, whether by an existing dealer or by a dealer who is acquiring the franchise, shall constitute the establishment of a new franchise subject to the terms of this subdivision. This subdivision shall not apply to (i) the relocation of an existing dealer within that dealer's relevant market area if the relocation site is to be more than 10 miles distant from any other dealer for the same line-make; (ii) the relocation of an existing dealer within that dealer's relevant market area if the relocation site is to be more distant than the existing site from all other dealers of the same line-make in that relevant market area; or (iii) the relocation of an existing new motor vehicle dealer within two miles of the existing site of the relocating dealer.

5. Except as otherwise provided in this subdivision and notwithstanding the terms of any franchise, to terminate, cancel, or refuse to renew the franchise of any dealer without good cause and unless (i) the dealer and the Commissioner have received written notice of the franchisor's intentions at least 60 days prior to the effective date of such termination, cancellation, or the expiration date of the franchise, setting forth the specific grounds for the action, and (ii) the Commissioner has determined, if requested in writing by the dealer within the 60-day period prior to the effective date of such termination, cancellation, or the expiration date of the franchise and, after a hearing on the matter, that the franchisor has shown by a preponderance of the evidence that there is good cause for the termination, cancellation, or nonrenewal of the franchise. If any manufacturer, factory branch, distributor, or distributor branch takes action that will have the effect of terminating, canceling, or refusing to renew the franchise of any dealer (a) by use of a termination agreement executed by the dealer and obtained more than 90 days before the purported date of use, (b) by exercise of rights under a written option to purchase the franchise of a dealer, or (c) by exercise of rights under a site control agreement as defined in subdivision 10, that action shall be considered a termination, cancellation, or refusal to renew pursuant to the terms of this subdivision and subject to the rights, provisions, and procedures provided herein. In any case where a petition is made to the Commissioner for a determination as to good cause for the termination, cancellation, or nonrenewal of a franchise, the franchise in question shall continue in effect pending the Commissioner's decision or, if that decision is appealed to the circuit court, pending the decision of the circuit court. Where the termination, cancellation, or nonrenewal of a franchise will result from use of a termination agreement executed by the dealer and obtained more than 90 days before the purported date of use, exercise of rights under a written option to purchase the franchise of a dealer, or exercise of rights under a site control agreement as defined in subdivision 10, such use or exercise shall be stayed pending the Commissioner's decision or, if that decision is appealed to the circuit court, pending the decision of the circuit court, and its use or exercise will be allowed only where the franchisor has shown by a preponderance of the evidence that there is good cause for the termination, cancellation, or nonrenewal of the franchise. In any case in which a franchisor neither advises a dealer that it does not intend to renew a franchise nor takes any action to renew a franchise beyond its expiration date, the franchise in question shall continue in effect on the terms last agreed to by the parties. Notwithstanding the other provisions of this subdivision notice of termination, cancellation, or nonrenewal may be provided to a dealer by a franchisor not less than 15 days prior to the effective date of such termination, cancellation, or nonrenewal when the grounds for such action are any of the following:

a. Insolvency of the franchised motor vehicle dealer or filing of any petition by or against the franchised motor vehicle dealer, under any bankruptcy or receivership law, leading to liquidation or which is intended to lead to liquidation of the franchisee's business.

b. Failure of the franchised motor vehicle dealer to conduct its customary sales and service operations during its posted business hours for seven consecutive business days, except where the failure results from acts of God or circumstances beyond the direct control of the franchised motor vehicle dealer.

c. Revocation of any license which the franchised motor vehicle dealer is required to have to operate a dealership.

d. Conviction of the dealer or any principal of the dealer of a felony.

The change or discontinuance of a marketing or distribution system of a particular line-make product by a manufacturer or distributor, while the name identification of the product is continued in substantial form by the same or a different manufacturer or distributor, may be considered to be a franchise termination, cancellation, or nonrenewal. The provisions of this paragraph shall apply to changes and discontinuances made after January 1, 1989, but they shall not be considered by any court in any case in which such a change or discontinuance occurring prior to that date has been challenged as constituting a termination, cancellation or nonrenewal.

5a. To fail to provide continued parts and service support to a dealer which holds a franchise in a discontinued line-make for at least five years from the date of such discontinuance. This requirement shall not apply to a line-make which was discontinued prior to January 1, 1989.

5b. Upon the involuntary or voluntary termination, nonrenewal, or cancellation of the franchise of any dealer, by either the manufacturer, distributor, or factory branch or by the dealer, notwithstanding the terms of any franchise whether entered into before or after the enactment of this section, to fail to pay the dealer for at least the following:

(1) The dealer cost plus any charges by the franchisor for distribution, delivery, and taxes paid by the dealer, less all allowances paid to the dealer by the franchisor, for new and undamaged motor vehicles in the dealer's inventory acquired from the franchisor or from another dealer of the same line — make in the ordinary course of business within 18 months of termination;

(2) The dealer cost as shown in the price catalog of the franchisor current at the time of repurchase of each new, unused, undamaged, and unsold part or accessory if such part or accessory is in the current parts catalog and is still in the original, resalable merchandising package and in unbroken lots, except that in the case of sheet metal, a comparable substitute for the original package may be used;

(3) The fair market value of each undamaged sign owned by the dealer that bears a trademark, trade name or commercial symbol used or claimed by the franchisor if such sign was purchased from or at the request of the franchisor;

(4) The fair market value of all special tools and automotive service equipment owned by the dealer that were recommended and designated as special tools or equipment by the franchisor, if the tools and equipment are in usable and good condition, normal wear and tear excepted; and

(5) The reasonable cost of transporting, handling, packing, and loading of motor vehicles, parts, signs, tools, and special equipment subject to repurchase hereunder.

The provisions of this subdivision do not apply to a dealer who is unable to convey clear title to the property identified in this subdivision.

For purposes of this subdivision, a voluntary termination shall not include the transfer of the terminating dealer's franchised business in connection with a transfer of that business by means of sale of the equity ownership or assets thereof to another dealer.

5c. If the termination, cancellation, or nonrenewal of the dealer's franchise is the result of the termination, elimination, or cessation of a line-make by the manufacturer, distributor, or factory branch, then, in addition to the payments to the dealer pursuant to subdivision 5b, the manufacturer, distributor, or factory branch shall be liable to the dealer for the following:

(1) An amount at least equivalent to the fair market value of the franchise for the line-make, which shall be the greater of that value determined as of (i) the date the franchisor announces the action that results in termination, cancellation, or nonrenewal, (ii) the date the action that resulted in the termination, cancellation, or nonrenewal first became general knowledge, or (iii) the day 12 months prior to the date on which the notice of termination, cancellation, or nonrenewal is issued. In determining the fair market value of a franchise for a line-make, if the line-make is not the only line-make for which the dealer holds a franchise in the dealership facilities, the dealer shall also be entitled to compensation for the contribution of the line-make to payment of the rent or to covering obligation for the fair rental value of the dealership facilities for the period set forth in subdivision 5c (2). Fair market value of the franchise for the line-make shall only include the goodwill value of the dealer's franchise for that line-make in the dealer's relevant market area.

(2) If the line-make is the only line-make for which the dealer holds a franchise in the dealership facilities, the manufacturer, distributor, or factory branch shall also pay assistance with respect to the dealership facilities leased or owned by the dealer as follows: (i) the manufacturer, distributor, or factory branch shall pay the dealer a sum equivalent to the rent for the unexpired term of the lease or three years' rent, whichever is the lesser, or (ii) if the dealer owns the dealership facilities, the manufacturer, distributor, or factory branch shall pay the dealer a sum equivalent to the reasonable rental value of the dealership facilities for three years.

To be entitled to facilities assistance from the manufacturer, distributor, or factory branch, the dealer shall have the obligation to mitigate damages by listing the dealership facilities for lease or sublease with a licensed real estate agent within 30 days after the effective date of the termination of the franchise and thereafter by reasonably cooperating with such real estate agent in the performance of the agent's duties and responsibilities. If the dealer is able to lease or sublease the dealership facilities on terms that are consistent with local zoning requirements to preserve the right to sell motor vehicles from the dealership facilities and the terms of the dealer's lease, the dealer shall be obligated to pay the manufacturer the net revenue received from such mitigation, but only following receipt of facilities assistance payments pursuant to clause (i) or (ii) of subdivision 5c (2), and only up to the total amount of facilities assistance payments that the dealer has received.

6. To fail to allow a dealer the right at any time to designate a member of his family as a successor to the dealership in the event of the death or incapacity of the dealer. Such designation may be made by the dealer or, in the event of the death or

incapacity of the dealer, by the qualified executor or personal representative of the dealer. It shall be unlawful to prevent or refuse to honor the succession to a dealership by a member of the family of a deceased or incapacitated dealer if the franchisor has not provided to the member of the family designated the dealer's successor written notice of its objections to the succession and of such person's right to seek a hearing on the matter before the Commissioner pursuant to this article, and the Commissioner determines, if requested in writing by such member of the family within 30 days of receipt of such notice from the franchisor, and after a hearing on the matter before the Commissioner pursuant to this article, that the failure to permit or honor the succession is unreasonable under the circumstances. No member of the family may succeed to a franchise unless (i) the franchisor has been given written notice as to the identity, financial ability, and qualifications of the member of the family in question, and (ii) the succession to the franchise will not involve, without the franchisor's consent, a relocation of the business.

7. To delay, refuse, or fail to deliver to any dealer, if ordered by the dealer, in reasonable quantities and within a reasonable time, any new vehicles of each series and model sold or distributed by the franchisor as covered by such franchise and which are publicly advertised by the manufacturer, factory branch, distributor, or distributor branch in the Commonwealth to be available for immediate delivery, provided, however, that the failure to deliver any motor vehicle shall not be considered a violation of this chapter if such failure is due to an act of God, a work stoppage or delay due to a strike or labor difficulty, a shortage of materials, a lack of available manufacturing capacity, a freight embargo, or other cause over which the manufacturer, factory branch, distributor, or distributor branch shall have no control. If ordered by a dealer, a franchisor shall deliver an equitable supply of new vehicles during the model year of each series and model under the dealer's franchise in proportion to the sales objectives or goals established by the franchisor for the dealer compared to the sales objectives or goals established by the other same line-make dealers in the Commonwealth, provided, however, that the failure to deliver any motor vehicle shall not be considered a violation of this chapter if such failure is due to a cause over which the manufacturer, factory branch, distributer, or distributer branch shall have no control. Upon the written request of any dealer holding its sales or sales and service franchise, the manufacturer or distributor shall disclose to the dealer in writing the basis upon which new motor vehicles of the same line-make are allocated, scheduled, and delivered to dealers in the Commonwealth, and the basis upon which the current allocation or distribution is being made or will be made to such dealer. In the event that allocation is at issue in a request for a hearing, the dealer may demand the Commissioner to direct that the manufacturer or distributor provide to the dealer, within 30 days of such demand, all records of sales and all records of distribution of all motor vehicles to the same line-make dealers who compete with the dealer requesting the hearing.

7a. To fail or refuse to offer to its same line-make franchised dealers all models manufactured for the line-make, or require a dealer to pay any extra fee, or remodel, renovate, or recondition the dealer's existing facilities, or purchase unreasonable advertising displays or other materials as a prerequisite to receiving a model or a series of vehicles.

7b. To require or otherwise coerce a dealer to underutilize the dealer's facilities by requiring or otherwise coercing a dealer to exclude or remove from the dealer's facilities operations for selling or servicing of a line-make of vehicles for which the dealer has a franchise agreement to utilize the facilities.

7c. To require a dealer to purchase goods or services from a vendor selected, identified, or designated by a manufacturer, factory branch, distributor, distributor branch, or one of its affiliates by agreement, program, incentive provision, or otherwise without making available to the dealer the option to obtain the goods or services of substantially similar quality from a vendor chosen by the dealer. For purposes of this subdivision, the term "goods" does not include moveable displays, brochures, and promotional materials containing material subject to intellectual property rights of, or special tools and training as required by the manufacturer, or parts to be used in repairs under warranty obligations of, a manufacturer, factory branch, distributor, or distributor branch.

7d. To fail to provide a notice to a dealer when notifying it of the requirement to purchase goods or services from a vendor selected, identified, or designated by a manufacturer, factory branch, distributor, or distributor branch of the dealer's rights pursuant to subdivision 7c.

7e. To fail to provide to a dealer, when the manufacturer, factory branch, distributor, or distributor branch claims that a vendor chosen by the dealer cannot supply goods and services of substantially similar quality, a disclosure concerning the vendor selected, identified, or designated by the franchisor stating (i) whether the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates, or any officer, director, or employee of the same, has an ownership interest, actual or beneficial, in the vendor and, if so, the percentage of the ownership interest and (ii) whether the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates has an agreement or arrangement by which the vendor pays to the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates, or any officer, director, or employee of the same, any compensation and, if so, the basis and amount of the compensation to be paid as a result of any purchases by the dealer, whether it is to be paid by direct payment by the vendor or by credit from the vendor for the benefit of the recipient.

7f. To fail to provide to a dealer, if the goods and services to be supplied to the dealer by a vendor selected, identified, or designated by the manufacturer, factory branch, distributor, or distributor branch are signs or other franchisor image elements to be leased to the dealer, the right to purchase the signs or other franchisor image elements of like kind and quality from a vendor selected by the dealer. If the vendor selected by the manufacturer, factory branch, distributor, or distributor branch is the only available vendor, the dealer must be given the opportunity to purchase the signs or other franchisor image elements at a price substantially similar to the capitalized lease costs thereof. This subdivision shall not be construed to allow a dealer to impair or eliminate the intellectual property rights of the manufacturer, factory branch, distributor, or

distributor branch, nor to permit a dealer to erect or maintain signs that do not conform to the intellectual property usage guidelines of the manufacturer, factory branch, distributor, or distributor branch.

8. To include in any franchise with a motor vehicle dealer terms that are contrary to, prohibited by, or otherwise inconsistent with the requirements of this chapter.

8a. For any franchise agreement, to require a motor vehicle dealer to pay the attorney fees of the manufacturer or distributor related to hearings and appeals brought under this article.

9. To fail to include in any franchise with a motor vehicle dealer the following language: "If any provision herein contravenes the laws or regulations of any state or other jurisdiction wherein this agreement is to be performed, or denies access to the procedures, forums, or remedies provided for by such laws or regulations, such provision shall be deemed to be modified to conform to such laws or regulations, and all other terms and provisions shall remain in full force," or words to that effect.

9a. To include in any franchise agreement or similar agreement governing the sales, leasing, or service of new motor vehicles, or to enforce or seek to enforce in such franchise agreement or similar agreement, a right for the manufacturer, factory branch, distributor, or distributor branch to unilaterally amend the franchise agreement or similar agreement. Any amendment to a franchise agreement or similar agreement governing the sales, leasing, or service of new vehicles must be agreed by both the manufacturer, factory branch, distributor, or distributor branch and the dealer at the time the franchise agreement or similar agreement is to be amended.

10. To enter into any agreement with a motor vehicle dealer in which the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates is given site control over the premises of a dealer that does not terminate upon the occurrence of any of the following events: (i) the right of the franchisor to manufacture or distribute the line-make of vehicles covered by the dealer's franchise is sold, assigned, or otherwise transferred by the manufacturer, factory branch, distributor, or distributor branch to another; (ii) the final termination of the dealer's franchise for any reason; or (iii) the manufacturer, factory branch, distributor, or distributor branch of its affiliate fails for any reason to exercise its right of first refusal to purchase the assets or ownership of the business of the dealer when given the opportunity to do so by virtue of its franchise agreement, another agreement, or as set forth in § 46.2-1569. For purposes of this subdivision, the term "site control" shall mean the contractual right to control in any way the commercial use and development of the premises upon which a dealer's business operations are located, including the right to approve of additional or different uses for the property beyond those of its franchise, the right to lease or sublease the dealer's property, or the right or option to purchase the dealer's property.

11. To require or coerce a motor vehicle dealer, whether by agreement, program, incentive provision, or otherwise, to submit or to provide a manufacturer, factory branch, distributor, or distributor branch access to consumer data maintained by the dealer (i) by any method that violates or would violate the dealer's chosen policies and processes for complying with obligations to protect consumer data under laws of the United States or the Commonwealth or (ii) through franchisor access to the computer database of the dealer if the dealer chooses to submit data specified by the franchisor.

The manufacturer, factory branch, distributor, or distributor branch shall provide a dealer the right to cancel the dealer's participation in a program under which the dealer provides consumer data or access to data to the manufacturer, factory branch, distributor, or distributor branch, provided that a manufacturer, factory branch, distributor, or distributor branch may require notice of up to 60 days of the dealer's decision to cancel the dealer's participation.

If a manufacturer, factory branch, distributor, or distributor branch offers incentives or other payments under a program offered after July 1, 2015, excluding any continuation, renewal, or modification of any existing program, and available to more than one dealer in the Commonwealth that are premised wholly or in part on dealer participation in manufacturer, factory branch, distributor, or distributor branch programs under which consumer data is provided to or accessed by the manufacturer, factory branch, distributor, or distributor branch, a dealer that exercises its rights under this subdivision shall be deemed to be in compliance with the program requirements pertaining to providing consumer data, provided that the dealer has otherwise met program requirements to the extent of providing any consumer data that is not nonpublic personal information.

It shall not constitute a violation of this subdivision for a manufacturer, factory branch, distributor, or distributor branch to require a motor vehicle dealer to provide data (a) concerning a new motor vehicle sale or used motor vehicle sale under a manufacturer certification program, (b) to validate a customer or dealer incentive, (c) to calculate dealer or market sales or evaluate service performance or customer satisfaction to facilitate analysis of product quality and market feedback, (d) to facilitate warranty service work on a vehicle, (e) concerning information with respect to recall repairs or information about a recalled vehicle, (f) pursuant to a mutual agreement between a manufacturer, factory branch, distributor, or distributor branch and a dealer, or (g) where consumer data is reasonably necessary to enable a manufacturer, factory branch, distributor, or distributor branch to provide programs, products, or services to a dealer.

A dealer that elects to submit or push data or information to the manufacturer, factory branch, distributor, or distributor branch through any method other than that provided by the manufacturer, factory branch, distributor, or distributor branch shall timely obtain and furnish the requested data in a widely accepted electronic file format. A manufacturer, factory branch, distributor, or distributor branch shall not impose a fee, surcharge, or charge of any type on a dealer that chooses to submit data specified by the manufacturer, factory branch, distributor, or distributor branch rather than provide the manufacturer, factory branch, distributor, or distributor branch access to the dealer's computer database.

§ 46.2-1571. Recall, warranty, maintenance and sales incentive obligations.

A. Each motor vehicle manufacturer, factory branch, distributor, or distributor branch shall (i) specify in writing to each of its motor vehicle dealers licensed in the Commonwealth the dealer's obligations for preparation, delivery, recall, and warranty service on its products and (ii) compensate the dealer for recall or warranty parts, service, and diagnostic work required of the dealer by the manufacturer or distributor as follows:

1. Compensation of a dealer for recall or warranty parts, service, and diagnostic work shall not be less than the amounts charged by the dealer for the manufacturer's or distributor's original parts, service, and diagnostic work to retail customers for nonwarranty service, parts, and diagnostic work installed or performed in the dealer's service department, and the determination of compensation in accordance with the provisions of this section shall be deemed reasonable due to the substantial number of repair orders reviewed, unless the manufacturer can show that the amounts are not reasonable. All manufacturer or distributor compensated parts, service, diagnostic work, updates to a vehicle accessory or function, or initialization or repair of a vehicle part, system, accessory, or function performed by the dealer shall be subject to this subsection. Recall or warranty parts compensation shall be stated as a percentage of markup, which shall be an agreed reasonable approximation of retail markup and which shall be uniformly applied to all of the manufacturer's or distributor's parts unless otherwise provided for in this section. If the dealer and manufacturer or distributor cannot agree on the recall or warranty parts compensation markup to be paid to the dealer, the markup shall be determined by an average of the dealer's retail markup on all of the manufacturer's or distributor's parts as described in subdivisions 2 and 3.

2. For purposes of determining recall or warranty parts and service compensation paid to a dealer by the manufacturer or distributor, including body-shop repairs, only retail repair orders, or the retail portion of repair orders containing retail and non-retail operations, shall be considered. For the purposes of this section, "retail" does not include menu-priced parts or services, services and parts used in internal repairs paid by the dealer, group discounts, special event discounts, special event promotions, and insurance-paid repairs.

3. Increases in dealer recall or warranty parts and service compensation and diagnostic work compensation, pursuant to this section, shall be requested by the dealer in writing, shall be based on 100 consecutive repair orders or all repair orders over a 90-day period, whichever occurs first. If any portion of a retail repair order includes amounts that are not retail, such portion shall be excluded. Compensation for parts shall be stated as a percentage of markup that shall be uniformly applied to all the manufacturer's or distributor's parts.

4. In the case of recall or warranty parts compensation, the provisions of this subsection shall be effective only for model year 1992 and succeeding model years.

5. If a manufacturer or distributor furnishes a part to a dealer at no cost for use by the dealer in performing work for which the manufacturer or distributor is required to compensate the dealer under this section, the manufacturer or distributor shall compensate the dealer for the part in the same manner as recall or warranty parts compensation, less the wholesale costs, for such part as listed in the manufacturer's current price schedules. A manufacturer or distributor may pay the dealer a reasonable handling fee instead of the compensation otherwise required by this subsection for special high-performance complete engine assemblies in limited production motor vehicles that constitute less than five percent of model production furnished to the dealer at no cost, if the manufacturer or distributor excludes such special high-performance complete engine assemblies in determining whether the amounts requested by the dealer for recall or warranty compensation are consistent with the amounts that the dealer charges its other retail service customers for parts used by the dealer to perform similar work.

6. In the case of service work, manufacturer original parts or parts otherwise specified by the manufacturer or distributor, and parts provided by a dealer either pursuant to an adjustment program as defined in § 59.1-207.34 or as otherwise requested by the manufacturer or distributor, the dealer shall be compensated in the same manner as for recall or warranty service or parts.

This section does not apply to compensation for parts such as components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for nonvehicular, residential purposes. Recall, warranty, and sales incentive audits of dealer records may be conducted by the manufacturer, factory branch, distributor, or distributor branch on a reasonable basis, and dealer claims for recall, warranty, or sales incentive compensation shall not be denied except for good cause, such as performance of nonwarranty repairs, lack of material documentation, fraud, or misrepresentation. A dealer's failure to comply with the specific requirements of the manufacturer or distributor for processing the claim shall not constitute grounds for the denial of the claim or reduction of the amount of compensation to the dealer as long as reasonable documentation or other evidence has been presented to substantiate the claim. The manufacturer, factory branch, distributor, or distributor branch shall not deny a claim or reduce the amount of compensation to the dealer for recall or warranty repairs to resolve a condition discovered by the dealer during the course of a separate repair requested by the customer or to resolve a condition on the basis of advice or recommendation by the dealer. Claims for dealer compensation shall be paid within 30 days of dealer submission or within 30 days of the end of an incentive program or rejected in writing for stated reasons. The manufacturer, factory branch, distributor, or distributor branch shall reserve the right to reasonable periodic audits to determine the validity of all such paid claims for dealer compensation. Any chargebacks for recall or warranty parts or service compensation and service incentives shall only be for the six-month period immediately following the date of the claim and, in the case of chargebacks for sales compensation only, for the six-month period immediately following the date of claim. However, such limitations shall not be effective if a manufacturer, factory branch, distributor, or distributor branch has reasonable cause to believe that a claim submitted by a dealer is intentionally false or fraudulent. For purposes of this section, "reasonable cause" means a bona fide belief based upon evidence that the material issues of fact are such that a person of ordinary caution, prudence, and judgment could

believe that a claim was intentionally false or fraudulent. A dealer shall not be charged back or otherwise liable for sales incentives or charges related to a motor vehicle sold by the dealer to a purchaser other than a licensed, franchised motor vehicle dealer and subsequently exported or resold, unless the manufacturer, factory branch, distributor, or distributor branch can demonstrate by a preponderance of the evidence that the dealer should have known of and did not exercise due diligence in discovering the purchaser's intention to export or resell the motor vehicle.

B. It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to:

1. Fail to perform any of its recall or warranty obligations, including tires, with respect to a motor vehicle;

2. Fail to assume all responsibility for any liability resulting from structural or production defects;

3. Fail to include in written notices of factory recalls to vehicle owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of defects;

4. Fail to compensate any of the motor vehicle dealers licensed in the Commonwealth for repairs effected by the dealer of merchandise damaged in manufacture or transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch;

5. Fail to fully compensate its motor vehicle dealers licensed in the Commonwealth for recall or warranty parts, work, and service pursuant to subsection A either by reduction in the amount due to the dealer or by separate charge, surcharge, or other imposition by which the motor vehicle manufacturer, factory branch, distributor, or distributor branch seeks to recover its costs of complying with subsection A, or for legal costs and expenses incurred by such dealers in connection with recall or warranty obligations for which the manufacturer, factory branch, distributor, or distributor branch is legally responsible or which the manufacturer, factory branch, distributor, or distributor branch imposes upon the dealer. Failure to fully reimburse a dealer for the cost to the dealer of a rental vehicle provided to a customer as required, offered, advertised as available, or agreed to by the manufacturer or distributor shall be considered a violation of this subsection. Failure to provide compensation consistent with this section to a dealer for assistance requested by a customer whose vehicle was subjected to an ~~over the air~~ *over-the-air* or remote change, repair, or update to any part, system, accessory, or function by the vehicle manufacturer or distributor and performed at the dealership to satisfy the customer shall be considered a violation of this subsection;

6. Misrepresent in any way to purchasers of motor vehicles that warranties with respect to the manufacture, performance, or design of the vehicle are made by the dealer, either as warrantor or co-warrantor;

7. Require the dealer to make warranties to customers in any manner related to the manufacture, performance, or design of the vehicle;

8. Shift or attempt to shift to the motor vehicle dealer, directly or indirectly, any liabilities of the manufacturer, factory branch, distributor or distributor branch under the Virginia Motor Vehicle Warranty Enforcement Act (§ 59.1-207.9 et seq.), unless such liability results from the act or omission by the dealer;

9. Deny any dealer the right to return any part or accessory that the dealer has not sold within 12 months where the part or accessory was not obtained through a specific order initiated by the dealer but instead was specified for, sold to and shipped to the dealer pursuant to an automated ordering system, provided that such part or accessory is in the condition required for return to the manufacturer, factory branch, distributor, or distributor branch, and the dealer returns the part within 30 days of it becoming eligible under this subdivision. For purposes of this subdivision, an "automated ordering system" shall be a computerized system that automatically specifies parts and accessories for sale and shipment to the dealer without specific order thereof initiated by the dealer. The manufacturer, factory branch, distributor, or distributor branch shall not charge a restocking or handling fee for any part or accessory being returned under this subdivision. This subdivision shall not apply if the manufacturer, factory branch, distributor, or distributor branch has available to the dealer an alternate system for ordering parts and accessories that provides for shipment of ordered parts and accessories to the dealer within the same time frame as the dealer would receive them when ordered through the automated ordering system; or

10. When providing a new motor vehicle to a dealer for offer or sale to the public, fail to provide to such dealer a written disclosure that may be provided to a potential buyer of the new motor vehicle of each accessory or function of the vehicle that may be initiated, updated, changed, or maintained by the manufacturer or distributor through ~~over the air~~ *over-the-air* or remote means, and the charge to the customer *at the time of the new motor vehicle sale* for such initiation, update, change, or maintenance. A manufacturer or distributor may comply with this subdivision by notifying the dealer that such information is available on a website or by other digital means.

C. Notwithstanding the terms of any franchise, it shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to indemnify and hold harmless its motor vehicle dealers against any losses or damages arising out of complaints, claims, or suits relating to the manufacture, assembly, or design of motor vehicles, parts, or accessories, or other functions by the manufacturer, factory branch, distributor, or distributor branch beyond the control of the dealer, including, without limitation, the selection by the manufacturer, factory branch, distributor, or distributor branch of parts or components for the vehicle or any damages to merchandise occurring in transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch. The dealer shall notify the manufacturer of pending suits in which allegations are made that come within this subsection whenever reasonably practicable to do so. Every motor vehicle dealer franchise issued to, amended, or renewed for motor vehicle dealers in Virginia shall be construed to incorporate provisions consistent with the requirements of this subsection.

D. On any new motor vehicle, any uncorrected damage or any corrected damage exceeding three percent of the manufacturer's or distributor's suggested retail price as defined in 15 U.S.C. §§ 1231 -1233, as measured by retail repair

costs, must be disclosed to the dealer in writing prior to delivery. Factory mechanical repair and damage to glass, tires, and bumpers are excluded from the three percent rule when properly replaced by identical manufacturer's or distributor's original equipment or parts. Whenever a new motor vehicle is damaged in transit, when the carrier or means of transportation is determined by the manufacturer or distributor, or whenever a motor vehicle is otherwise damaged prior to delivery to the new motor vehicle dealer, the new motor vehicle dealer shall:

1. Notify the manufacturer or distributor of the damage within three business days from the date of delivery of the new motor vehicle to the new motor vehicle dealership or within the additional time specified in the franchise; and

2. Request from the manufacturer or distributor authorization to replace the components, parts, and accessories damaged or otherwise correct the damage, unless the damage to the vehicle exceeds the three percent rule, in which case the dealer may reject the vehicle within three business days.

E. If the manufacturer or distributor refuses or fails to authorize correction of such damage within 10 days after receipt of notification, or if the dealer rejects the vehicle because damage exceeds the three percent rule, ownership of the new motor vehicle shall revert to the manufacturer or distributor, and the new motor vehicle dealer shall have no obligation, financial or otherwise, with respect to such motor vehicle. Should either the manufacturer, distributor, or the dealer elect to correct the damage or any other damage exceeding the three percent rule, full disclosure shall be made by the dealer in writing to the buyer and an acknowledgement by the buyer is required. If there is less than three percent damage, no disclosure is required, provided the damage has been corrected. Predelivery mechanical work shall not require a disclosure. Failure to disclose any corrected damage within the knowledge of the selling dealer to a new motor vehicle in excess of the three percent rule shall constitute grounds for revocation of the buyer order, provided that, within 30 days of purchase, the motor vehicle is returned to the dealer with an accompanying written notice of the grounds for revocation. In case of revocation pursuant to this section, the dealer shall accept the vehicle and refund any payments made to the dealer in connection with the transaction, less a reasonable allowance for the consumer's use of the vehicle as defined in § 59.1-207.11. Nothing in this section shall be construed to exempt from the provisions of this section damage to a new motor vehicle that occurs following delivery of the vehicle to the dealer.

F. If there is a dispute between the manufacturer, factory branch, distributor, or distributor branch and the dealer with respect to any matter referred to in subsection A, B, or C, either party may petition the Commissioner in writing, within 30 days after either party has given written notice of the dispute to the other, for a hearing. The decision of the Commissioner shall be binding on the parties, subject to rights of judicial review and appeal as provided in Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2. However, nothing contained in this section shall give the Commissioner any authority as to the content or interpretation of any manufacturer's or distributor's warranty. A manufacturer, factory branch, distributor, or distributor branch may not collect chargebacks, fully or in part, either through direct payment or by charge to the dealer's account, for recall or warranty parts or service compensation, including service incentives, sales incentives, other sales compensation, surcharges, fees, penalties, or any financial imposition of any type arising from an alleged failure of the dealer to comply with a policy of, directive from, or agreement with the manufacturer, factory branch, distributor, or distributor branch until 40 days following final notice of the amount charged to the dealer following all internal processes of the manufacturer, factory, factory branch, distributor, or distributor branch. Within 30 days following receipt of such final notice, the dealer may petition the Commissioner, in writing, for a hearing. If a dealer requests such a hearing, the manufacturer, factory branch, distributor, or distributor branch may not collect the chargeback, fully or in part, either through direct payment or by charge to the dealer's account, until the completion of the hearing and a final decision of the Commissioner concerning the validity of the chargeback.

§ 46.2-1572. Operation of dealership by manufacturer.

It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof~~,~~ to own, operate, or control any motor vehicle dealership in the Commonwealth. *This prohibition includes the ownership, operation, or control of any dealership of a new line-make established by a manufacturer, factory branch, distributor, or distributor branch, licensed as such by the Department, or a subsidiary thereof or a company affiliated through ownership of the manufacturer, factory branch, distributor, or distributor branch of at least 25 percent of the equity of the company.* However, this section shall not prohibit:

1. The operation by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, of a dealership for a temporary period, not to exceed one year, during the transition from one owner or operator to another;

2. The ownership or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, while the dealership is being sold under a bona fide contract or purchase option to the operator of the dealership;

3. The ownership, operation, or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, if the manufacturer, factory branch, distributor, distributor branch, or subsidiary has been engaged in the retail sale of motor vehicles through the dealership for a continuous period of three years prior to July 1, 1972, and if the Commissioner determines, after a hearing on the matter at the request of any party, that there is no dealer independent of the manufacturer or distributor, factory branch or distributor branch, or subsidiary thereof available in the community to own and operate the franchise in a manner consistent with the public interest;

4. The ownership, operation, or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof if the Commissioner determines, after a hearing at the request of any party, that there is no

dealer independent of the manufacturer or distributor, factory branch or distributor branch, or subsidiary thereof available in the community or trade area to own and operate the franchise in a manner consistent with the public interest;

5. The ownership, operation, or control of a dealership dealing exclusively with school buses by a school bus manufacturer or school bus parts manufacturer or a person who assembles school buses; or

6. The ownership, operation, or control of a dealership dealing exclusively with refined fuels truck tanks by a manufacturer of refined fuels truck tanks or by a person who assembles refined fuels truck tanks. Notwithstanding any contrary provision of this chapter, any manufacturer of fire-fighting equipment who, on or before December 31, 2004, had requested a hearing before the Department or the Commissioner in accordance with subdivision 4 for licensure as a dealer in fire-fighting equipment and/or ambulances may be licensed as a dealer in fire-fighting equipment and/or ambulances.

CHAPTER 312

An Act to amend and reenact §§ 19.2-11.5 through 19.2-11.9 and 19.2-11.12 of the Code of Virginia, relating to trace evidence collection kits.

[H 2150]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 19.2-11.5 through 19.2-11.9 and 19.2-11.12 of the Code of Virginia are amended and reenacted as follows:

CHAPTER 1.2.

PHYSICAL EVIDENCE RECOVERY KITS *AND TRACE EVIDENCE COLLECTION KITS.*

§ 19.2-11.5. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Anonymous physical evidence recovery kit" means a physical evidence recovery kit that is collected from a victim of sexual assault through a forensic medical examination where the victim elects, at the time of the examination, not to report the sexual assault offense to a law-enforcement agency.

"Anonymous trace evidence collection kit" means a trace evidence collection kit that is collected from a victim of strangulation through a forensic medical examination where the victim elects, at the time of the examination, not to report the strangulation to a law-enforcement agency.

"Department" means the Virginia Department of Forensic Science.

"Division" means the Division of Consolidated Laboratory Services of the Virginia Department of General Services.

"Health care provider" means any hospital, clinic, or other medical facility that provides forensic medical examinations to victims of sexual assault.

"Law-enforcement agency" means the state or local law-enforcement agency with the primary responsibility for investigating an alleged sexual assault offense case and includes the employees of that agency.

"Physical evidence recovery kit" means any evidence collection kit supplied by the Department to health care providers for use in collecting evidence from victims of sexual assault during forensic medical examinations or to the Office of the Chief Medical Examiner for use during death investigations to collect evidence from decedents who may be victims of sexual assault.

"Sexual assault offense" means a violation or attempted violation of any offense enumerated in Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2 or of any offense specified in § 18.2-361, 18.2-370, or 18.2-370.1.

"Trace evidence collection kit" means any evidence collection kit supplied by the Department to health care providers for use in collecting evidence from victims of strangulation during forensic medical examinations or to the Office of the Chief Medical Examiner for use during death investigations to collect evidence from decedents who may be victims of strangulation.

"Victim of sexual assault" means any person who undergoes a forensic medical examination for the collection of a physical evidence recovery kit connected to a sexual assault offense.

"Victim of strangulation" means any person who undergoes a forensic medical examination for the collection of evidence in connection with an alleged strangulation.

§ 19.2-11.6. Anonymous physical evidence recovery kits and anonymous trace evidence collection kits.

A. When a victim of sexual assault *or strangulation* who undergoes a forensic medical examination elects not to report the offense to law enforcement, the health care provider shall inform the victim that the physical evidence recovery kit *or trace evidence collection kit* shall be forwarded to the Division for storage as an anonymous physical evidence recovery kit *or anonymous trace evidence collection kit*. The health care provider shall further inform the victim of the length of time the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* will be stored by the Division, the victim's right to object to the destruction of the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit*, and how the victim can have the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* released to a law-enforcement agency at a later date. The health care provider shall forward the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* to the Division in accordance with the policies and procedures established by the Division.

B. The Division shall store any anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* received for a minimum of two years. The Division shall store the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* for an additional period of 10 years following the receipt of a written objection to the destruction of the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* from the victim. After the initial two years or any additional 10-year storage period, the Division, in the absence of the receipt of a written objection from the victim in the most recent 10-year period, may destroy the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* or, in its discretion or upon request of the victim or the law-enforcement agency, may elect to retain the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* for a longer period of time. Upon notification from either the law-enforcement agency or the attorney for the Commonwealth that the victim has elected to report the offense to the law-enforcement agency, the Division shall release the anonymous physical evidence recovery kit *or anonymous trace evidence collection kit* to the law-enforcement agency.

§ 19.2-11.7. Law enforcement taking possession of physical evidence recovery kits and trace evidence collection kits.

A. A health care provider that has collected a physical evidence recovery kit from a victim of sexual assault *or a trace evidence collection kit from a victim of strangulation* who has elected to report the offense shall forthwith notify the law-enforcement agency that such kit has been collected.

B. A law-enforcement agency that receives notice from a health care provider that a physical evidence recovery kit *or trace evidence collection kit* has been collected shall forthwith take possession of the physical evidence recovery kit *or trace evidence collection kit.*

§ 19.2-11.8. Submission of physical evidence recovery kits and trace evidence collection kits to the Department.

A. A law-enforcement agency that receives a physical evidence recovery kit shall submit the physical evidence recovery kit to the Department for analysis within 60 days of receipt, except under the following circumstances: (i) it is an anonymous physical evidence recovery kit that shall be forwarded to the Division for storage; (ii) the physical evidence recovery kit was collected by the Office of the Chief Medical Examiner as part of a routine death investigation, and the medical examiner and the law-enforcement agency agree that analysis is not warranted; (iii) the physical evidence recovery kit is connected to an offense that occurred outside of the Commonwealth; (iv) the physical evidence recovery kit was determined by the law-enforcement agency not to be connected to a criminal offense; or (v) another law-enforcement agency has taken over responsibility for the investigation related to the physical evidence recovery kit. When a state or local law-enforcement agency located within the Commonwealth has taken over responsibility for the investigation related to the physical evidence recovery kit as provided in clause (v), unless one of the exceptions in clause (i) through (iv) also applies, the physical evidence recovery kit shall be transferred to such law-enforcement agency and such law-enforcement agency shall submit the physical evidence recovery kit to the Department within 60 days of receipt from the original receiving law-enforcement agency.

B. Upon completion of analysis, the Department shall return the physical evidence recovery kit to the submitting law-enforcement agency. Upon receipt of the physical evidence recovery kit from the Department, the law-enforcement agency shall store the physical evidence recovery kit for a period of 10 years or until 10 years after the victim reaches the age of majority if the victim was a minor at the time of collection, whichever is longer. The law-enforcement agency shall store the physical evidence recovery kit for a period of 10 years following the receipt of a written objection to the destruction of the kit from the victim. After the mandatory retention period or any additional 10-year storage period has lapsed, the law-enforcement agency shall, unless the victim has made a written request not to be contacted for this purpose, make a reasonable effort to notify the victim of the intended destruction of the physical evidence recovery kit no less than 60 days prior to the intended date of such destruction. In the absence of a response from the victim, or with the consent of the victim, the law-enforcement agency may destroy the physical evidence recovery kit or, in its discretion, may elect to retain the physical evidence recovery kit for a longer period of time.

C. For physical evidence recovery kits that meet the exceptions in clause (ii) or (iv) of subsection A or that meet the exception in clause (iii) and (v) of subsection A that are not transferred to the law-enforcement agency outside of the Commonwealth in which the offense occurred or to the law-enforcement agency that has taken over responsibility for the investigation related to the physical evidence recovery kit, the law-enforcement agency that received the physical evidence recovery kit shall store such kit for a period of 10 years or until 10 years after the victim reaches the age of majority if the victim was a minor at the time of collection, whichever is longer. After the mandatory retention period, the law-enforcement agency may destroy the physical evidence recovery kit or, in its discretion, may elect to retain the physical evidence recovery kit for a longer period of time.

D. *A law-enforcement agency that receives a trace evidence collection kit may submit it to the Department for analysis in its discretion to support a prosecution.*

E. The DNA profiles developed from physical evidence recovery kits *or trace evidence collection kits* submitted to the Department for analysis pursuant to this section shall be uploaded into any local, state, or national DNA data bank only if eligible as determined by Department procedures and in accordance with state and federal law.

§ 19.2-11.9. Lack of compliance with procedures.

The failure of a law-enforcement agency to take possession of a physical evidence recovery kit *or trace evidence collection kit* as provided in this chapter or to submit a physical evidence recovery kit *or trace evidence collection kit* to the Department within the time period prescribed under this chapter does not alter the authority of the law-enforcement agency

to take possession of the physical evidence recovery kit *or trace evidence collection kit* or to submit the physical evidence recovery kit *or trace evidence collection kit* to the Department under this chapter or the authority of the Department to accept and analyze the physical evidence recovery kit *or trace evidence collection kit* or to maintain or upload any developed DNA profiles from the physical evidence recovery kit *or trace evidence collection kit* into any local, state, or national DNA data bank if eligible as determined by Department procedures and in accordance with state and federal law.

A person accused or convicted of committing a crime against a sexual assault victim *or strangulation victim* has no standing to object to any failure to comply with the requirements of this chapter, and the failure to comply with the requirements of this chapter is not grounds for challenging the admissibility of the evidence or setting aside the conviction or sentence.

§ 19.2-11.12. Costs of physical evidence recovery kits and trace evidence collection kits.

No victim of sexual assault *or strangulation* shall be charged for the cost of collecting or storing a physical evidence recovery kit ~~or~~, an anonymous physical evidence recovery kit*, a trace evidence collection kit, or an anonymous trace evidence collection kit*.

2. That the provisions of this act shall become effective on July 1, 2025.

CHAPTER 313

An Act to amend and reenact § 17.1-106 of the Code of Virginia, relating to retired Supreme Court justices and Court of Appeals judges under recall; circuit courts.

[H 2012]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 17.1-106 of the Code of Virginia is amended and reenacted as follows:

§ 17.1-106. Temporary recall of retired judges; evaluation.

A. The Chief Justice of the Supreme Court may call upon *any justice of the Supreme Court, any judge of the Court of Appeals, or* any judge of a circuit court who is retired under the Judicial Retirement System (§ 51.1-300 et seq.) ~~and~~ ~~who~~ *when such retired justice or judge* has been found qualified within the preceding three years by the House Committee for Courts of Justice and the Senate Committee on the Judiciary to sit in recall either to (i) hear a specific case or cases pursuant to the provisions of § 17.1-105, such designation to continue in effect for the duration of the case or cases, or (ii) perform for a period of time not to exceed 90 days at any one time such judicial duties in any circuit court as the Chief Justice shall deem in the public interest for the expeditious disposition of the business of the courts.

B. It shall be the obligation of any retired *justice or* judge who is recalled to temporary service under this section and who has not attained age 70 to accept the recall and perform the duties assigned. It shall be within the discretion of any *justice or* judge who has attained age 70 to accept such recall.

C. Any *justice or* judge recalled to duty under this section shall have all the powers, duties, and privileges attendant on the position he is recalled to serve.

D. Notwithstanding the provisions of subsection A, the Chief Justice may call upon and authorize any *justice or* judge of a ~~circuit court~~ *court of record* whose retirement becomes effective during the interim period between regularly scheduled sessions of the General Assembly to sit in recall either to (i) hear a specific case or cases pursuant to the provisions of § 17.1-105, and such designation shall continue in effect for the duration of the case or cases, or (ii) perform, for a period of time not to exceed 90 days at any one time, such judicial duties in any circuit court as the Chief Justice shall deem in the public interest for the expeditious disposition of the business of the courts.

E. All retired circuit court judges who have requested to sit in recall shall be evaluated during the final year of the three-year period following qualification by the Senate Committee on the Judiciary and the House Committee for Courts of Justice using an evaluation form prepared and distributed by the Office of the Executive Secretary of the Supreme Court of Virginia. An annual report containing the results of such evaluations conducted that year shall be prepared and transmitted to the Senate Committee on the Judiciary and the House Committee for Courts of Justice by the first day of the next regular session of the General Assembly.

CHAPTER 314

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-644.01 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-644.01. Lien of keeper of vehicles.

A. For purposes of this section, "keeper of vehicles" means a garage keeper; a person keeping any vehicles, including a self-storage facility; and a tow truck driver or towing and recovery operator furnishing services involving the towing and recovery of vehicles *or clean up related to vehicle collisions*.

B. Every keeper of vehicles shall have a lien upon such vehicles for the amount that may be due him for the towing, storage, recovery, and care thereof, until such amount is paid. *In the case of a tow truck driver or towing and recovery operator furnishing services to a truck, tractor truck, or combination of vehicles, any such lien held shall apply to any power unit, tractor, trailer, or semitrailer in the combination.*

Such lien shall be in addition to any lien under § 46.2-644.02. Any garage keeper to whom a vehicle has been delivered pursuant to § 46.2-1209, 46.2-1213, or 46.2-1215 shall, within 30 days from the date of delivery, have a lien upon such vehicle pursuant to this section, provided that action has not been taken pursuant to such sections for the sale of the vehicle.

C. In addition, any tow truck driver or towing and recovery operator shall have a lien for all normal costs incident to any towing and recovery services furnished for the vehicle.

The owner or lienholder shall have 10 business days from the date of the notice sent by the Department pursuant to § 46.2-644.03 to reclaim the vehicle. The terms for such reclamation shall be the payment of the amount due to the keeper of the vehicles or other amount as agreed by the parties. B. Before authorizing a vehicle to be used as a TNC partner vehicle, a transportation network company shall confirm that the vehicle meets the requirements of subsection A and shall provide each TNC partner with proof of any TNC insurance policy maintained by the transportation network company.

For each TNC partner vehicle it authorizes, a transportation network company shall issue trade dress to the TNC partner associated with that vehicle. The trade dress shall be sufficient to identify the transportation network company or digital platform with which the vehicle is affiliated and shall be displayed in a manner that complies with Virginia law. Notwithstanding any other provision of this title, a TNC partner vehicle may be equipped with no more than two removable, illuminated, interior, TNC-issued, trade dress devices that assist passengers in identifying and communicating with TNC partners. Such devices may use a single steady-burning color while the TNC partner is logged in to a transportation network company's associated digital platform and may change to a different steady-burning color once the TNC partner accepts a request to transport a passenger and is within 0.4 miles of such passenger. The illuminated display on each such device shall not (i) exceed five candlepower or 62.85 lumens; (ii) exceed 20 square inches; (iii) utilize red, blue, or amber lights; (iv) project a glaring or dazzling light; or (v) attach to the windshield.

A. ~~On and after January 1, 2016, at~~ *At* all times during the operation of a TNC partner vehicle, a transportation network company or TNC partner shall keep in force TNC insurance as provided in this section.

B. The following requirements shall apply to TNC insurance from the moment a TNC partner accepts a prearranged ride request on a transportation network company's digital platform until the TNC partner completes the transaction on the digital platform or until the prearranged ride is complete, whichever is later:

2. TNC insurance shall provide uninsured motorist coverage and underinsured motorist coverage *as required by § 38.2-2206.* ~~Such coverage shall apply~~ *With regard to such underinsured motorist coverage that applies solely* from the moment a passenger enters a TNC partner vehicle until the passenger exits the vehicle~~. The minimum amount of uninsured motorist coverage and underinsured motorist coverage for death, bodily injury, and property damage shall be $1 million~~*, it shall be paid without any credit for the bodily injury and property damage coverage available for payment, and neither the*

TNC nor the TNC partner shall elect to refuse the change in underinsured motorist coverage pursuant to subsection C of § 38.2-2202.

c. Any combination of subdivisions a and b.

A transportation network company may meet its obligations under this subsection through a policy obtained by a TNC partner under subdivision a or c only if the transportation network company verifies that the policy is maintained by the TNC partner.

4. Insurers providing insurance coverage under this subsection shall have the exclusive duty to defend any liability claim, including any claim against a TNC partner, arising from an accident occurring within the time periods specified in this subsection. Neither the TNC partner's nor the vehicle owner's personal automobile insurance policy shall have the duty to defend or indemnify the TNC partner's activities in connection with the transportation network company, unless the policy expressly provides otherwise for the period of time to which this subsection is applicable or the policy contains an amendment or endorsement to provide that coverage.

5. Coverage under a TNC insurance policy shall not be dependent on a personal automobile insurance policy first denying a claim, nor shall a personal automobile insurance policy be required to first deny a claim.

6. Nothing in this subsection shall be construed to require a personal automobile insurance policy to provide primary or excess coverage. Neither the TNC partner's nor the vehicle owner's personal automobile insurance policy shall provide any coverage to the TNC partner, the vehicle owner, or any third party, unless the policy expressly provides for that coverage during the period of time to which this subsection is applicable or the policy contains an amendment or endorsement to provide that coverage.

C. The following requirements shall apply to TNC insurance (i) from the moment a TNC partner logs on to a transportation network company's associated digital platform until the TNC partner accepts a request to transport a passenger and (ii) from the moment the TNC partner completes the transaction on the digital platform or the prearranged ride is complete, whichever is later, until the TNC partner either accepts another prearranged ride request on the digital platform or logs off the digital platform:

2. The requirements for the coverage required by this subsection may be satisfied by any of the following:

a. TNC insurance maintained by a TNC partner;

b. TNC insurance maintained by a transportation network company that provides coverage in the event that a TNC partner's insurance policy under subdivision a has ceased to exist or has been canceled or in the event that the TNC partner does not otherwise maintain TNC insurance; or

c. Any combination of subdivisions a and b.

A transportation network company may meet its obligations under this subsection through a policy obtained by a TNC partner pursuant to subdivision a or c only if the transportation network company verifies that the policy is maintained by the TNC partner and is specifically written to cover the TNC partner's use of a vehicle in connection with a transportation network company's digital platform.

D. In the event that the digital platform becomes inaccessible due to failure or malfunction while a TNC partner is en route to or transporting a passenger during a prearranged ride described in subsection B, TNC insurance coverage shall be presumed to be that required in subdivision B 1 until the passenger exits the vehicle.

E. In every instance where TNC insurance maintained by a TNC partner to fulfill the insurance obligations of this section has lapsed or ceased to exist, the transportation network company shall provide the coverage required by this section beginning with the first dollar of a claim.

F. This section shall not limit the liability of a transportation network company arising out of an accident involving a TNC partner in any action for damages against a transportation network company for an amount above the required insurance coverage.

G. Any person, or an attorney acting on his behalf, who suffers a loss in an automobile accident with a reasonable belief that the accident involves a TNC partner vehicle driven by a TNC partner in connection with a transportation network company and who provides the transportation network company with the date, approximate time, and location of the accident, and if available the name of the TNC partner and if available the accident report, may request in writing from the transportation network company information relating to the insurance coverage and the company providing the coverage. The transportation network company shall respond electronically or in writing within 30 days. The transportation network company's response shall contain the following information: (i) whether, at the approximate time of the accident, the TNC partner was logged into the transportation network company's digital platform and, if so logged in, whether a trip request had been accepted or a passenger was in the TNC partner vehicle; (ii) the name of the insurance carrier providing primary coverage; and (iii) the identity and last known address of the TNC partner.

H. No contract, receipt, rule, or regulation shall exempt any transportation network company from the liability that would exist had no contract been made or entered into, and no such contract, receipt, rule, or regulation for exemption from liability for injury or loss occasioned by the neglect or misconduct of such transportation network company shall be valid. The liability referred to in this subsection shall mean the liability imposed by law upon a transportation network company for any loss, damage, or injury to passengers in its custody and care as a transportation network company.

I. Any insurance required by this section may be placed with an insurer that has been admitted in Virginia or with an insurer providing surplus lines insurance as defined in § 38.2-4805.2.

J. Any insurance policy required by this section shall satisfy the financial responsibility requirement for a motor vehicle under § 46.2-706 during the period such vehicle is being operated as a TNC partner vehicle.

K. The Department shall not issue the certificate of fitness required under § 46.2-2099.45 to any transportation network company that has not certified to the Department that every TNC partner vehicle it has authorized to operate on its digital platform is covered by an insurance policy that meets the requirements of this section.

L. Each transportation network company shall keep on file with the Department proof of an insurance policy maintained by the transportation network company in accordance with this section. Such proof shall be in a form acceptable to the Commissioner. A record of the policy shall remain in the files of the Department six months after the certificate is revoked or suspended for any cause.

M. The Department may suspend a certificate if the certificate holder fails to comply with the requirements of this section. Any person whose certificate has been suspended pursuant to this subsection may request a hearing as provided in subsection D of § 46.2-2011.26.

N. In a claims coverage investigation, a transportation network company and its insurer shall cooperate with insurers involved in the claims coverage investigation to facilitate the exchange of information, including the dates and times of any accident involving a TNC partner and the precise times that the TNC partner logged in and was logged out of the transportation network company's digital platform.

2. That § 46.2-2099.51 of the Code of Virginia is repealed.

CHAPTER 327

An Act to amend and reenact §§ 37.2-808 and 37.2-810 of the Code of Virginia, relating to emergency custody; temporary detention; alternative transportation.

[S 872]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-808 and 37.2-810 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-808. Emergency custody; issuance and execution of order.

A. Any magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion, or a court may issue pursuant to § 19.2-271.6, an emergency custody order when he has probable cause to believe that any person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, or the court may pursuant to § 19.2-271.6, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate or the court considers relevant to the determination of whether probable cause exists to issue an emergency custody order.

B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate or court issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate or court shall ~~consider any request to~~ authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate or court, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate or court deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate or court shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate or the court that issued the emergency custody order as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate or court shall order the primary law-enforcement agency from the jurisdiction served by the community services board that

designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate or court shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

H. A law-enforcement officer who is transporting a person who has voluntarily consented to be transported to a facility for the purpose of assessment or evaluation and who is beyond the territorial limits of the county, city, or town in which he serves may take such person into custody and transport him to an appropriate location to assess the need for hospitalization or treatment without prior authorization when the law-enforcement officer determines (i) that the person has revoked consent to be transported to a facility for the purpose of assessment or evaluation, and (ii) based upon his observations, that probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until (i) a temporary detention order is issued in accordance with § 37.2-809, (ii) an order for temporary detention for observation, testing, or treatment is entered in accordance with § 37.2-1104, ending law enforcement custody, (iii) the person is released, or (iv) the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed eight hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection C of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809.

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

P. Payments shall be made pursuant to § 37.2-804 to licensed health care providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

Q. *An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.*

R. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

~~R.~~ *S.* For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733, except for the purposes of subsection G.

§ 37.2-810. Transportation of person in the temporary detention process.

A. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall specify in the temporary detention order the law-enforcement agency of the jurisdiction in which the person resides, or any other willing law-enforcement agency that has agreed to provide transportation, to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. However, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located shall execute the order and provide transportation.

B. The magistrate issuing the temporary detention order shall (i) specify the law-enforcement agency to execute the order and (ii) designate a transportation provider. In determining the transportation provider, the magistrate shall ~~consider any request to~~ authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the temporary detention order, a representative of the community services board, an employee of or person providing services pursuant to a contract with the Department, or other transportation provider with personnel trained to provide transportation in a safe manner. Upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that an alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner, the magistrate shall designate such alternative transportation provider to provide transportation of the person. If no alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner, the magistrate shall designate the primary law-enforcement agency and jurisdiction designated to execute the temporary detention order to provide transportation of the person.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. The primary law-enforcement agency may transfer custody of the person to the alternative transportation provider immediately upon execution of the temporary detention order based on the availability of alternative transportation providers. The alternative transportation provider shall maintain custody of the person from the time custody is transferred to the alternative transportation provider by the primary law-enforcement agency until such time as custody of the person is transferred to the temporary detention facility, including during any period prior to the initiation of transportation of the person from the facility to which he was transported pursuant to § 37.2-808 and while transportation is being provided pursuant to this section.

In such cases, a copy of the temporary detention order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the temporary detention facility. The temporary detention facility shall return a copy of the temporary detention order to the court designated by the magistrate as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

The order may include transportation of the person to such other medical facility as may be necessary to obtain further medical evaluation or treatment prior to placement as required by a physician at the admitting temporary detention facility. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section. Such medical evaluation or treatment shall be conducted immediately in accordance with state and federal law.

C. If an alternative transportation provider providing transportation or maintaining custody of a person who is the subject of a temporary detention order becomes unable to continue providing transportation or maintaining custody of the person at any time after taking custody of the person, the primary law-enforcement agency for the jurisdiction in which the alternative transportation provider is located at the time he becomes unable to continue providing transportation or maintaining custody shall take custody of the person and shall transport the person to the facility of temporary detention. In such cases, a copy of the temporary detention order shall accompany the person being transported and shall be delivered to and returned by the temporary detention facility in accordance with the provisions of subsection B.

D. In cases in which an alternative facility of temporary detention is identified and the law-enforcement agency or alternative transportation provider identified to provide transportation in accordance with subsection B continues to have custody of the person, the local law-enforcement agency or alternative transportation provider shall transport the person to the alternative facility of temporary detention identified by the employee or designee of the community services board. In cases in which an alternative facility of temporary detention is identified and custody of the person has been transferred from the law-enforcement agency or alternative transportation provider that provided transportation in accordance with subsection B to the initial facility of temporary detention, the employee or designee of the community services board shall request, and a magistrate may enter an order specifying, an alternative transportation provider or, if no alternative transportation provider is available, willing, and able to provide transportation in a safe manner, the local law-enforcement agency for the jurisdiction in which the person resides or, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located, to provide transportation.

E. The magistrate may change the transportation provider specified in a temporary detention order at any time prior to the initiation of transportation of a person who is the subject of a temporary detention order pursuant to this section. If the designated transportation provider is changed by the magistrate at any time after the temporary detention order has been executed but prior to the initiation of transportation, the transportation provider having custody of the person shall transfer custody of the person to the transportation provider subsequently specified to provide transportation. For the purposes of this subsection, "transportation provider" includes both a law-enforcement agency and an alternative transportation provider.

F. A law-enforcement officer may lawfully go to or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing any temporary detention order pursuant to this section. Law-enforcement agencies may enter into agreements to facilitate the execution of temporary detention orders and provide transportation.

G. *An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.*

H. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

~~H.~~ *I.* For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733.

[S 1304]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-163 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-163. Compensation of court-appointed counsel.

Upon submission to the court, for which appointed representation is provided, of a detailed accounting of the time expended for that representation, made within 30 days of the completion of all proceedings in that court, counsel appointed to represent an indigent accused in a criminal case shall be compensated for his services on an hourly basis at a rate set by the Supreme Court of Virginia in a total amount not to exceed the amounts specified in the following schedule:

1. In a district court, a sum not to exceed $120, provided that, notwithstanding the foregoing limitation, the court in its discretion, and subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, may waive the limitation of fees up to (i) an additional $120 when the effort expended, the time reasonably necessary for the particular representation, the novelty and difficulty of the issues, or other circumstances warrant such a waiver; or (ii) an amount up to $650 to defend, in the case of a juvenile, an offense that would be a felony if committed by an adult that may be punishable by confinement in the state correctional facility for a period of more than 20 years, or a charge of violation of probation for such offense, when the effort expended, the time reasonably necessary for the particular representation, the novelty and difficulty of the issues, or other circumstances warrant such a waiver; or (iii) such other amount as may be provided by law. Such amount shall be allowed in any case wherein counsel conducts the defense of a single charge against the indigent through to its conclusion or a charge of violation of probation at any hearing conducted under § 19.2-306; thereafter, compensation for additional charges against the same accused also conducted by the same counsel shall be allowed on the basis of additional time expended as to such additional charges;

2. In a circuit court (i) to defend a Class 1 felony charge, an amount deemed reasonable by the court; (ii) to defend a felony charge that may be punishable by confinement in the state correctional facility for a period of more than 20 years, or a charge of violation of probation for such offense, a sum not to exceed $1,235, provided that, notwithstanding the foregoing limitation, the court in its discretion, and subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, may waive the limitation of fees up to an additional $850 when the effort expended, the time reasonably necessary for the particular representation, the novelty and difficulty of the issues, or other circumstances warrant such a waiver; (iii) to defend any other felony charge, or a charge of violation of probation for such offense, a sum not to exceed $445, provided that, notwithstanding the foregoing limitation, the court in its discretion, and subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, may waive the limitation of fees up to an additional $155 when the effort expended, the time reasonably necessary for the particular representation, the novelty and difficulty of the issues, or other circumstances warrant such a waiver; and (iv) in the circuit court only, to defend any misdemeanor charge punishable by confinement in jail or a charge of violation of probation for such offense, a sum not to exceed $158. In the event any case is required to be retried due to a mistrial for any cause or reversed on appeal, the court may allow an additional fee for each case in an amount not to exceed the amounts allowable in the initial trial. In the event counsel is appointed to defend an indigent charged with a felony that is punishable as a Class 1 felony, such counsel shall continue to receive compensation as provided in this paragraph for defending such a felony, regardless of whether the charge is reduced or amended to a lesser felony, prior to final disposition of the case. In the event counsel is appointed to defend an indigent charged with any other felony, such counsel shall receive compensation as provided in this paragraph for defending such a felony, regardless of whether the charge is reduced or amended to a misdemeanor or lesser felony prior to final disposition of the case in either the district court or circuit court.

Counsel appointed to represent an indigent accused in a criminal case, who are not public defenders, may request an additional waiver exceeding the amounts provided for in this section. The request for any additional amount shall be submitted to the presiding judge, in writing, with a detailed accounting of the time spent and the justification for the additional amount. The presiding judge shall determine, subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, whether the request for an additional amount is justified in whole or in part, by considering the effort expended and the time reasonably necessary for the particular representation, and, if so, shall forward the request as approved to the chief judge of the circuit court or district court for approval. *If the presiding judge determines that the request for an additional amount is not justified in whole or in part, such presiding judge shall provide to the requesting attorney, in writing, the reasons for such determination and shall, if such request has been approved in part, include a copy of such writing when forwarding the request as approved to the chief judge of the circuit court or district court for approval. If the chief judge of the circuit court or district court, upon review of the request as approved, determines, subject to the guidelines issued by the Executive Secretary of the Supreme Court of Virginia, that any part of the request for an additional amount is not justified, such chief judge shall provide to the requesting attorney and to the presiding judge, in writing, the reason for such determination.*

If at any time the funds appropriated to pay for waivers under this section become insufficient, the Executive Secretary of the Supreme Court of Virginia shall so certify to the courts and no further waivers shall be approved.

The circuit or district court shall direct the payment of such reasonable expenses incurred by such court-appointed counsel as it deems appropriate under the circumstances of the case. Counsel appointed by the court to represent an indigent charged with repeated violations of the same section of the Code of Virginia, with each of such violations arising out of the same incident, occurrence, or transaction, shall be compensated in an amount not to exceed the fee prescribed for the defense of a single charge, if such offenses are tried as part of the same judicial proceeding. The trial judge shall consider any guidelines established by the Supreme Court but shall have the sole discretion to fix the amount of compensation to be paid counsel appointed by the court to defend a felony charge that is punishable as a Class 1 felony.

The circuit or district court shall direct that the foregoing payments shall be paid out by the Commonwealth, if the defendant is charged with a violation of a statute, or by the county, city or town, if the defendant is charged with a violation of a county, city or town ordinance, to the attorney so appointed to defend such person as compensation for such defense.

Counsel representing a defendant charged with a Class 1 felony may submit to the court, on a monthly basis, a statement of all costs incurred and fees charged by him in the case during that month. Whenever the total charges as are deemed reasonable by the court for which payment has not previously been made or requested exceed $1,000, the court may direct that payment be made as otherwise provided in this section.

When such directive is entered upon the order book of the court, the Commonwealth, county, city or town, as the case may be, shall provide for the payment out of its treasury of the sum of money so specified. If the defendant is convicted, the amount allowed by the court to the attorney appointed to defend him shall be taxed against the defendant as a part of the costs of prosecution and, if collected, the same shall be paid to the Commonwealth, or the county, city or town, as the case may be. In the event that counsel for the defendant requests a waiver of the limitations on compensation, the court shall assess against the defendant an amount equal to the pre-waiver compensation limit specified in this section for each charge for which the defendant was convicted. An abstract of such costs shall be docketed in the judgment docket and execution lien book maintained by such court.

Any statement submitted by an attorney for payments due him for indigent representation or for representation of a child pursuant to § 16.1-266 shall, after the submission of the statement, be forwarded forthwith by the clerk to the Commonwealth, county, city or town, as the case may be, responsible for payment.

For the purposes of this section, the defense of a case may be considered conducted through to its conclusion and an appointed counsel entitled to compensation for his services in the event an indigent accused fails to appear in court subject to a capias for his arrest or a show cause summons for his failure to appear and remains a fugitive from justice for one year following the issuance of the capias or the summons to show cause, and appointed counsel has appeared at a hearing on behalf of the accused.

Effective July 1, 2007, the Executive Secretary of the Supreme Court of Virginia shall track and report the number and category of offenses charged involving adult and juvenile offenders in cases in which court-appointed counsel is assigned. The Executive Secretary shall also track and report the amounts paid by waiver above the initial cap to court-appointed counsel. The Executive Secretary shall provide these reports to the Governor, members of the House Committee on Appropriations, and members of the Senate Committee on Finance and Appropriations on a quarterly basis.

Any two or more of the parties, if they so elect, may have their shares laid off together when partition can be conveniently made in that way. If the court orders partition in kind, the court may require that one or more parties pay one or more parties' amounts so that the payments, taken together with the court-determined value of the in-kind distributions to the parties, will make the partition in kind just and proportionate in value to the fractional interests held. If the court orders partition in kind, the court shall allocate to the parties that are unknown, unlocatable, or the subject of a default judgment a part of the property representing the combined interests of such parties as determined by the court, and such part of the property shall remain undivided.

B. If the court orders partition in kind, it shall consider:

1. Evidence of the collective duration of ownership or possession of any portion of the property by a party and one or more predecessors in title or predecessors in possession of the property who are or were related to the party;

2. A party's sentimental attachment to any portion of the property, including any attachment arising because such portion of the property has ancestral or other unique or special value to the party;

3. The lawful use being made of any portion of the property by a party and the degree to which the party would be harmed if the party could not continue the same use of such portion of the property;

4. The degree to which a party has contributed to the physical improvement, maintenance, or upkeep of any portion of the property; and

5. Any other relevant factor.

C. All partitions of mineral rights heretofore had are hereby validated.

D. Unless displaced by a provision of this article, the established principles of Virginia partition law supplement this article.

§ 8.01-81.1. Determination of value.

A. Except as otherwise provided in subsections B and C, the court in every partition action shall order an appraisal pursuant to subsection D, and such appraisal shall inform the court's determination of fair market value under subsection F. The expense of the appraisal shall be *advanced by the plaintiff, and such other parties as the court may determine in its discretion, and* taxed as costs *so that such expenses will be shared by the parties to the extent of their respective interest in the property*.

B. If all parties have agreed to the value of the property or to another method of valuation, the court shall adopt such value or the value produced by the agreed-upon method of valuation.

C. If the court determines that the evidentiary value of an appraisal is outweighed by the cost of the appraisal, the court, after an evidentiary hearing, shall enter an order to determine the fair market value for the property.

D. If the court orders an appraisal, the court shall appoint a disinterested real estate appraiser licensed in the Commonwealth to assist the court in determining the fair market value of the property assuming sole ownership of the fee simple estate. Upon completion of the appraisal, the appraiser shall file a sworn or verified appraisal with the court and shall, within three business days of such filing, mail a notice of filing to all counsel of record stating:

1. The appraised fair market value of the property;

2. That the appraisal is available at the clerk's office; and

3. That a party may file with the court an objection to the appraisal not later than 30 days after the notice is sent, stating the grounds for the objection.

E. If an appraisal is filed with the court pursuant to subsection D, the court shall conduct a hearing to determine the fair market value of the property not sooner than 31 days after a copy of the notice of the appraisal is sent to each party under subsection D, whether or not an objection to the appraisal is filed under subdivision D 3. In addition to the court-ordered appraisal, the court may consider any other evidence of value offered by a party*, which may include the opinions of other appraisers retained by a party*.

F. After a hearing under subsection E, but before considering the merits of the partition action, the court shall enter an order determining the fair market value of the property.

§ 8.01-83.3. Commissioners.

If the court appoints commissioners pursuant to Article 11 (§ 8.01-96 et seq.), each commissioner, in addition to the requirements and disqualifications applicable to commissioners in Article 11, shall be disinterested and impartial and not a party to or participant in the action*; however, any counsel for a party may serve as a commissioner unless there is an objection by another party*.

§ 8.01-92. Allowance of attorney fees out of unrepresented shares.

In any partition suit when there are unrepresented shares, the court shall allow reasonable fees to the attorney or attorneys bringing the action on account of the services rendered to the parceners unrepresented by counsel *of record*.

[H 2033]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Chapter 26 of Title 54.1 an article numbered 2, consisting of sections numbered 54.1-2606 through 54.1-2619, as follows:

Article 2.

Audiology and Speech-Language Pathology Interstate Compact.

§ 54.1-2606. Audiology and Speech-Language Pathology Interstate Compact; purpose.

The General Assembly hereby enacts, and the Commonwealth of Virginia hereby enters into, the Audiology and Speech-Language Pathology Interstate Compact with any and all states legally joining therein according to its terms, in the form substantially as follows:

AUDIOLOGY AND SPEECH-LANGUAGE PATHOLOGY INTERSTATE COMPACT

The purpose of this Compact is to facilitate interstate practice of audiology and speech-language pathology with the goal of improving public access to audiology and speech-language pathology services. The practice of audiology and speech-language pathology occurs in the state where the patient/client/student is located at the time of the patient/client/student encounter. The Compact preserves the regulatory authority of states to protect public health and safety through the current system of state licensure.

This Compact is designed to achieve the following objectives:

1. Increase public access to audiology and speech-language pathology services by providing for the mutual recognition of other member state licenses;

2. Enhance the states' ability to protect the public's health and safety;

3. Encourage the cooperation of member states in regulating multistate audiology and speech-language pathology practice;

4. Support spouses of relocating active duty military personnel;

5. Enhance the exchange of licensure, investigative, and disciplinary information between member states;

6. Allow a remote state to hold a provider of services with a compact privilege in that state accountable to that state's practice standards; and

7. Allow for the use of telehealth technology to facilitate increased access to audiology and speech-language pathology services.

"Current significant investigative information" means investigative information that a licensing board, after an inquiry or investigation that includes notification and an opportunity for the audiologist or speech-language pathologist to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

"Data system" means a repository of information about licensees, including, but not limited to, continuing education, examination, licensure, investigative, compact privilege, and adverse action.

§ 54.1-2608. State participation in the Compact.

A. B. A state must implement or utilize procedures for considering the criminal history records of applicants for initial privilege to practice. These procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

1. A member state must fully implement a criminal background check requirement, within a time frame established by rule, by receiving the results of the Federal Bureau of Investigation record search on criminal background checks and use the results in making licensure decisions.

2. Communication between a member state and the Commission and among member states regarding the verification of eligibility for licensure through the Compact shall not include any information received from the Federal Bureau of Investigation relating to a federal criminal records check performed by a member state under Public Law 92-544.

C. Upon application for a privilege to practice, the licensing board in the issuing remote state shall ascertain, through the data system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or privilege to practice held by the applicant, and whether any adverse action has been taken against any license or privilege to practice held by the applicant.

D. Each member state shall require an applicant to obtain or retain a license in the home state and meet the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

E. For an audiologist:

1. Must meet one of the following educational requirements:

a. On or before December 31, 2007, has graduated with a master's degree or doctorate in audiology, or equivalent degree regardless of degree name, from a program that is accredited by an accrediting agency recognized by the Council for Higher Education Accreditation, or its successor, or by the United States Department of Education and is operated by a college or university accredited by a regional or national accrediting organization recognized by the Board; or

G. The privilege to practice is derived from the home state license.

H. An audiologist or speech-language pathologist practicing in a member state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of audiology and speech-language pathology shall include all audiology and speech-language pathology practice as defined by the state practice laws of the member state in which the client is located. The practice of audiology and speech-language pathology in a member state under a privilege to practice shall subject an audiologist or speech-language pathologist to the jurisdiction of the licensing board, the courts, and the laws of the member state in which the client is located at the time service is provided.

I. Individuals not residing in a member state shall continue to be able to apply for a member state's single-state license as provided under the laws of each member state. However, the single-state license granted to these individuals shall not be recognized as granting the privilege to practice audiology or speech-language pathology in any other member state. Nothing in this Compact shall affect the requirements established by a member state for the issuance of a single-state license.

J. Member states may charge a fee for granting a compact privilege.

K. Member states must comply with the bylaws and rules and regulations of the Commission.

§ 54.1-2609. Compact privilege.

6. Pay any applicable fees, including any state fee, for the compact privilege; and

7. Report to the Commission adverse action taken by any non-member state within 30 days from the date the adverse action is taken.

B. For the purposes of the compact privilege, an audiologist or speech-language pathologist shall only hold one home state license at a time.

C. Except as provided in § 54.1-2611, if an audiologist or speech-language pathologist changes his primary state of residence by moving between two-member states, the audiologist or speech-language pathologist must apply for licensure in the new home state, and the license issued by the prior home state shall be deactivated in accordance with applicable rules adopted by the Commission.

D. The audiologist or speech-language pathologist may apply for licensure in advance of a change in his primary state of residence.

E. A license shall not be issued by the new home state until the audiologist or speech-language pathologist provides satisfactory evidence of a change in his primary state of residence to the new home state and satisfies all applicable requirements to obtain a license from the new home state.

F. If an audiologist or speech-language pathologist changes his primary state of residence by moving from a member state to a non-member state, the license issued by the prior home state shall convert to a single-state license, valid only in the former home state.

G. The compact privilege is valid until the expiration date of the home state license. The licensee must comply with the requirements of subsection A to maintain the compact privilege in the remote state.

H. A licensee providing audiology or speech-language pathology services in a remote state under the compact privilege shall function within the laws and regulations of the remote state.

I. A licensee providing audiology or speech-language pathology services in a remote state is subject to that state's regulatory authority. A remote state may, in accordance with due process and that state's laws, remove a licensee's compact privilege in the remote state for a specific period of time, impose fines, and take any other necessary actions to protect the health and safety of its citizens.

J. If a home state license is encumbered, the licensee shall lose the compact privilege in any remote state until the following occur:

1. The home state license is no longer encumbered; and

2. Two years have elapsed from the date of the adverse action.

K. Once an encumbered license in the home state is restored to good standing, the licensee must meet the requirements of subsection A to obtain a compact privilege in any remote state.

L. Once the requirements of subsection J have been met, the licensee must meet the requirements in subsection A to obtain a compact privilege in a remote state.

§ 54.1-2610. Compact privilege to practice telehealth.

Member states shall recognize the right of an audiologist or speech-language pathologist, licensed by a home state in accordance with § 54.1-2608 and under rules promulgated by the Commission, to practice audiology or speech-language pathology in any member state via telehealth under a privilege to practice as provided in this Compact and rules promulgated by the Commission.

§ 54.1-2611. Active duty military personnel or their spouse.

Active duty military personnel, or their spouse, shall designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty. Subsequent to designating a home state, the individual shall only change his home state through application for licensure in the new state.

§ 54.1-2612. Adverse actions.

A. In addition to the other powers conferred by state law, a remote state shall have the authority, in accordance with existing state due process law, to:

1. Take adverse action against an audiologist's or speech-language pathologist's privilege to practice within that member state.

2. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings

pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

3. Only the home state shall have the power to take adverse action against an audiologist's or speech-language pathologist's license issued by the home state.

B. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

C. The home state shall complete any pending investigations of an audiologist or speech-language pathologist who changes his primary state of residence during the course of the investigations. The home state shall also have the authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the data system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any adverse actions.

D. If otherwise permitted by state law, the member state may recover from the affected audiologist or speech-language pathologist the costs of investigations and disposition of cases resulting from any adverse action taken against that audiologist or speech-language pathologist.

E. The member state may take adverse action based on the factual findings of the remote state, provided that the member state follows the member state's own procedures for taking the adverse action.

F. Joint Investigations.

1. In addition to the authority granted to a member state by its respective audiology or speech-language pathology practice act or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

2. Member states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under this Compact.

G. If adverse action is taken by the home state against an audiologist's or speech language pathologist's license, the audiologist's or speech-language pathologist's privilege to practice in all other member states shall be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose adverse action against an audiologist's or speech-language pathologist's license shall include a statement that the audiologist's or speech-language pathologist's privilege to practice is deactivated in all member states during the pendency of the order.

H. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

I. Nothing in this Compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

§ 54.1-2613. Establishment of the Audiology and Speech-Language Pathology Compact Commission.

A. The Compact member states hereby create and establish a joint public agency known as the Audiology and Speech-Language Pathology Compact Commission:

1. The Commission is an instrumentality of the Compact states.

2. Venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

3. Nothing in this Compact shall be construed to be a waiver of sovereign immunity.

B. Membership, Voting, and Meetings.

1. Each member state shall have two delegates selected by that member state's licensing board. The delegates shall be current members of the licensing board. One shall be an audiologist and one shall be a speech-language pathologist.

F. Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information shall be removed from the data system.

§ 54.1-2615. Rulemaking.

A. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

B. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within four years of the date of adoption of the rule, the rule shall have no further force and effect in any member state.

C. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

D. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least 30 days in advance of the meeting at which the rule shall be considered and voted upon, the Commission shall file a Notice of Proposed Rulemaking:

1. On the website of the Commission or other publicly accessible platform; and

F. Prior to the adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

G. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

1. At least 25 persons;

H. If a public hearing is held on the proposed rule or amendment, the Commission shall publish the place, time, and date of the scheduled public hearing. If the public hearing is held via electronic means, the Commission shall publish the mechanism for access to the electronic hearing.

1. All persons wishing to be heard at the public hearing shall notify the executive director of the Commission or other designated member in writing of their desire to appear and testify at the public hearing not less than five business days before the scheduled date of the public hearing.

J. If no written notice of intent to attend the public hearing by interested parties is received, the Commission may proceed with promulgation of the proposed rule without a public hearing.

K. The Commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or a public hearing, provided that the usual rulemaking procedures provided in this Compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, and in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

2. Prevent a loss of Commission or member state funds; or

3. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the chair of the Commission prior to the end of the notice period. If no challenge is made, the revision shall take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of litigation, including reasonable attorney fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

§ 54.1-2617. Date of implementation of the interstate commission for audiology and speech-language pathology practice and associated rules, withdrawal, and amendment.

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the Commission relating to assembly and the promulgation of rules. Thereafter, the Commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the Compact.

Any state that joins the Compact subsequent to the Commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the Compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that state.

C. Any member state may withdraw from this Compact by enacting a statute repealing the same.

1. A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing state's audiology or speech-language pathology licensing board to comply with the investigative and adverse action reporting requirements of this Compact prior to the effective date of withdrawal.

D. Nothing contained in this Compact shall be construed to invalidate or prevent any audiology or speech-language pathology licensure agreement or other cooperative arrangement between a member state and a non-member state that does not conflict with the provisions of this Compact.

E. This Compact may be amended by the member states. No amendment to this Compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

§ 54.1-2618. Construction and severability.

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence, or provision of this Compact is declared to be contrary to the constitution of any member state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this Compact shall be held contrary to the constitution of any member state, the Compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

§ 54.1-2619. Binding effect of the Compact and other laws.

A. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this Compact.

B. All laws in a member state in conflict with this Compact are superseded to the extent of the conflict.

C. All lawful actions of the Commission, including all rules and bylaws promulgated by the Commission, are binding upon the member states.

D. All agreements between the Commission and the member states are binding in accordance with their terms.

E. In the event any provision of this Compact exceeds the constitutional limits imposed on the legislature of any member state, the provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

Be it enacted by the General Assembly of Virginia:

1. That §§ 63.2-900, as it is currently effective and as it shall become effective, 63.2-904, 63.2-1231, and 63.2-1734 of the Code of Virginia are amended and reenacted as follows:

§ 63.2-900. (Effective until date pursuant to Va. Const., Art. IV, § 13) Accepting children for placement in homes, facilities, etc., by local boards.

A. Pursuant to § 63.2-319, a local board shall have the right to accept for placement in suitable family homes, children's residential facilities or independent living arrangements, subject to the supervision of the Commissioner and in accordance with regulations adopted by the Board, such persons under 18 years of age as may be entrusted to it by the parent, parents or guardian, committed by any court of competent jurisdiction, or placed through an agreement between it and the parent, parents or guardians where legal custody remains with the parent, parents, or guardians.

The Board shall adopt regulations for the provision of foster care services by local boards, which shall be directed toward the prevention of unnecessary foster care placements and towards the immediate care of and permanent planning for children in the custody of or placed by local boards and that shall achieve, as quickly as practicable, permanent placements for such children. The local board shall first seek out kinship care options to keep children out of foster care and as a placement option for those children in foster care, if it is in the child's best interests, pursuant to § 63.2-900.1. In cases in which a child cannot be returned to his prior family or placed for adoption and kinship care is not currently in the best interests of the child, the local board shall consider the placement and services that afford the best alternative for protecting the child's welfare. Placements may include but are not limited to family foster care, treatment foster care and residential care. Services may include but are not limited to assessment and stabilization, diligent family search, intensive in-home, intensive wraparound, respite, mentoring, family mentoring, adoption support, supported adoption, crisis stabilization or other community-based services. The Board shall also approve in foster care policy the language of the agreement required in § 63.2-902. The agreement shall include at a minimum a Code of Ethics and mutual responsibilities for all parties to the agreement.

Within 30 days of accepting for foster care placement a person under 18 years of age whose father is unknown, the local board shall request a search of the Virginia Birth Father Registry established pursuant to Article 7 (§ 63.2-1249 et seq.) of Chapter 12 to determine whether any man has registered as the putative father of the child. If the search results indicate that a man has registered as the putative father of the child, the local board shall contact the man to begin the process to determine paternity.

The local board shall, in accordance with the regulations adopted by the Board and in accordance with the entrustment agreement or other order by which such person is entrusted or committed to its care, have custody and control of the person so entrusted or committed to it until he is lawfully discharged, has been adopted or has attained his majority.

Whenever a local board places a child where legal custody remains with the parent, parents or guardians, the board shall enter into an agreement with the parent, parents or guardians. The agreement shall specify the responsibilities of each for the care and control of the child.

The local board shall have authority to place for adoption, and to consent to the adoption of, any child properly committed or entrusted to its care when the order of commitment or entrustment agreement between the parent or parents and the agency provides for the termination of all parental rights and responsibilities with respect to the child for the purpose of placing and consenting to the adoption of the child.

The local board shall also have the right to accept temporary custody of any person under 18 years of age taken into custody pursuant to subdivision B of § 16.1-246 or § 63.2-1517. The placement of a child in a foster home, whether within or without the Commonwealth, shall not be for the purpose of adoption unless the placement agreement between the foster parents and the local board specifically so stipulates.

B. Prior to the approval of any family for placement of a child, a home study shall be completed and the prospective foster or adoptive parents shall be informed that information about shaken baby syndrome, its effects, and resources for help and support for caretakers is available on a website maintained by the Department as prescribed in regulations adopted by the Board. Home studies by local boards *and licensed child-placing agencies* shall be conducted in accordance with the Mutual Family Assessment home study template and any addenda thereto developed by the Department. *All home studies, including all related approval documentation other than background checks, conducted pursuant to this section, whether by a local board or a licensed child-placing agency, shall be transferable between all localities, local boards, and licensed child-placing agencies within the Commonwealth at the request of the prospective foster parent, subject to any time limitations or other requirements imposed by law or regulation.*

C. Prior to placing any such child in any foster home or children's residential facility, the local board shall enter into a written agreement with the foster parents, pursuant to § 63.2-902, or other appropriate custodian setting forth therein the conditions under which the child is so placed pursuant to § 63.2-902. However, if a child is placed in a children's residential

facility licensed as a temporary emergency shelter, and a verbal agreement for placement is secured within eight hours of the child's arrival at the facility, the written agreement does not need to be entered into prior to placement, but shall be completed and signed by the local board and the facility representative within 24 hours of the child's arrival or by the end of the next business day after the child's arrival.

Agreements entered into pursuant to this subsection shall include a statement by the local board that all reasonably ascertainable background, medical, and psychological records of the child, including whether the child has been the subject of an investigation as the perpetrator of sexual abuse, have been provided to the foster home or children's residential facility.

D. Within 72 hours of placing a child of school age in a foster care placement, as defined in § 63.2-100, the local social services agency making such placement shall, in writing, (i) notify the principal of the school in which the student is to be enrolled and the superintendent of the relevant school division or his designee of such placement, and (ii) inform the principal of the status of the parental rights.

If the documents required for enrollment of the foster child pursuant to § 22.1-3.1, 22.1-270 or 22.1-271.2, are not immediately available upon taking the child into custody, the placing social services agency shall obtain and produce or otherwise ensure compliance with such requirements for the foster child within 30 days after the child's enrollment.

E. Every local board shall submit to the Department through its statewide automated system the names of all foster parents licensed to provide foster care services in the locality served by the local board and update such list quarterly.

If the search results indicate that a man has registered as the putative father of the child, the local board shall contact the man to begin the process to determine paternity.

The local board shall, in accordance with the regulations adopted by the Board and in accordance with the entrustment agreement or other order by which such person is entrusted or committed to its care, have custody and control of the person so entrusted or committed to it until he is lawfully discharged, has been adopted or has attained his majority.

Whenever a local board places a child where legal custody remains with the parent, parents or guardians, the board shall enter into an agreement with the parent, parents or guardians. The agreement shall specify the responsibilities of each for the care and control of the child.

The local board shall have authority to place for adoption, and to consent to the adoption of, any child properly committed or entrusted to its care when the order of commitment or entrustment agreement between the parent or parents and the agency provides for the termination of all parental rights and responsibilities with respect to the child for the purpose of placing and consenting to the adoption of the child.

However, if a child is placed in a children's residential facility licensed as a temporary emergency shelter, and a verbal agreement for placement is secured within eight hours of the child's arrival at the facility, the written agreement does not need to be entered into prior to placement, but shall be completed and signed by the local board and the facility representative within 24 hours of the child's arrival or by the end of the next business day after the child's arrival.

Agreements entered into pursuant to this subsection shall include a statement by the local board that all reasonably ascertainable background, medical, and psychological records of the child, including whether the child has been the subject of an investigation as the perpetrator of sexual abuse, have been provided to the foster home or children's residential facility.

CHAPTER 345

An Act to amend and reenact §§ 58.1-3230 and 58.1-3234 of the Code of Virginia, relating to land use classifications; property qualifications.

[S 1511]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-3230 and 58.1-3234 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-3230. Special classifications of real estate established and defined.

For the purposes of this article the following special classifications of real estate are established and defined:

"Real estate devoted to agricultural use" shall mean real estate devoted to the bona fide production for sale of plants and animals, or products made from such plants and animals on the real estate, that are useful to man or devoted to and meeting the requirements and qualifications for payments or other compensation pursuant to soil and water conservation programs under an agreement with an agency of the state or federal government under uniform standards prescribed by the Commissioner of Agriculture and Consumer Services in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). *"Real estate devoted to agricultural use" shall include a property that formerly participated in such a state or federal soil and water conservation program and continues to meet the qualifications of such program but is no longer receiving payments or compensation.* Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for a profit or otherwise shall be considered real estate devoted to agricultural use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it does not meet the uniform standards prescribed by the Commissioner. Real property that has been designated as devoted to agricultural use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to agricultural use. In determining whether real property is devoted to agricultural use, zoning designations and special use permits for the property shall not be the sole considerations. *The presence of noxious weeds, as defined in § 3.2-800, or woody growth shall not be the sole basis for the denial of such designation or for the exclusion of such land for the purposes*

of determining minimum acreage if the landowner provides documentation, in the form of receipts or invoices, of a regular or annual control method of such weeds or growth.

"Real estate devoted to horticultural use" shall mean real estate devoted to the bona fide production for sale of fruits of all kinds, including grapes, nuts, and berries; vegetables; nursery and floral products; and plants or products directly produced from fruits, vegetables, nursery and floral products, or plants on such real estate or devoted to and meeting the requirements and qualifications for payments or other compensation pursuant to a soil and water conservation program under an agreement with an agency of the state or federal government under uniform standards prescribed by the Commissioner of Agriculture and Consumer Services in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). *"Real estate devoted to horticultural use" shall include a property that formerly participated in such a state or federal soil and water conservation program and continues to meet the qualifications of such program but is no longer receiving payments or compensation.* Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for profit or otherwise shall be considered real estate devoted to horticultural use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it does not meet the uniform standards prescribed by the Commissioner. Real property that has been designated as devoted to horticultural use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to horticultural use. In determining whether real property is devoted to horticultural use, zoning designations and special use permits for the property shall not be the sole considerations.

"Real estate devoted to forest use" shall mean land, including the standing timber and trees thereon, devoted to tree growth in such quantity and so spaced and maintained as to constitute a forest area under standards prescribed by the State Forester pursuant to the authority set out in § 58.1-3240 and in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). Prior, discontinued use of property shall not be considered in determining its current use. Real estate upon which recreational activities are conducted for profit, or otherwise, shall still be considered real estate devoted to forest use as long as the recreational activities conducted on such real estate do not change the character of the real estate so that it no longer constitutes a forest area under standards prescribed by the State Forester pursuant to the authority set out in § 58.1-3240. Real property that has been designated as devoted to forest use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or is otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to forest use. In determining whether real property is devoted to forest use, zoning designations and special use permits for the property shall not be the sole considerations.

"Real estate devoted to open-space use" shall mean real estate used as, or preserved for, (i) park or recreational purposes, including public or private golf courses, (ii) conservation of land or other natural resources, (iii) floodways, (iv) wetlands as defined in § 58.1-3666, (v) riparian buffers as defined in § 58.1-3666, (vi) historic or scenic purposes, or (vii) assisting in the shaping of the character, direction, and timing of community development or for the public interest and consistent with the local land-use plan under uniform standards prescribed by the Director of the Department of Conservation and Recreation pursuant to the authority set out in § 58.1-3240 and in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) and the local ordinance. Prior, discontinued use of property shall not be considered in determining its current use. Real property that has been designated as devoted to open-space use shall not lose such designation solely because a portion of the property is being used for a different purpose pursuant to a special use permit or is otherwise allowed by zoning, provided that the property, excluding such portion, otherwise meets all the requirements for such designation. The portion of the property being used for a different purpose pursuant to a special use permit or otherwise allowed by zoning shall be deemed a separate piece of property from the remaining property for purposes of assessment. The presence of utility lines on real property shall not be considered in determining whether the property, including the portion where the utility lines are located, is devoted to open-space use. In determining whether real property is devoted to open-space use, zoning designations and special use permits for the property shall not be the sole considerations.

§ 58.1-3234. Application by property owners for assessment, etc., under ordinance; continuation of assessment, etc.

Property owners shall submit an application for taxation on the basis of a use assessment to the local assessing officer as follows:

1. The property owner shall submit an initial application, unless it is a revalidation form, at least 60 days preceding the tax year for which such taxation is sought;

2. In any year in which a general reassessment is being made, the property owner may submit such application until 30 days have elapsed after his notice of increase in assessment is mailed in accordance with § 58.1-3330, or 60 days preceding the tax year, whichever is later; or

3. In any locality which has adopted a fiscal tax year under Chapter 30 (§ 58.1-3000 et seq.), but continues to assess as of January 1, such application shall be submitted for any year at least 60 days preceding the effective date of the assessment for such year.

The governing body, by ordinance, may permit applications to be filed within no more than 60 days after the filing deadline specified herein, upon the payment of a late filing fee to be established by the governing body. In addition, a locality may, by ordinance, permit a further extension of the filing deadline specified herein, upon payment of an extension fee to be established by the governing body in an amount not to exceed the late filing fee, to a date not later than 30 days after notices of assessments are mailed. An individual who is owner of an undivided interest in a parcel may apply on behalf of himself and the other owners of such parcel upon submitting an affidavit that such other owners are minors, cannot be located, or represent a minority interest in such parcel. An application shall be submitted whenever the use or acreage of such land previously approved changes; however, no application fee may be required when a change in acreage occurs solely as a result of a conveyance necessitated by governmental action or condemnation of a portion of any land previously approved for taxation on the basis of use assessment. The governing body of any locality may, however, require any such property owner to revalidate at least every six years with such locality, on or before the date on which the last installment of property tax prior to the effective date of the assessment is due, on forms prepared by the Department, any applications previously approved. Each locality that has adopted an ordinance hereunder may provide for the imposition of a revalidation fee every sixth year. Such revalidation fee shall not, however, exceed the application fee currently charged by the locality. The governing body may also provide for late filing of revalidation forms on or before the effective date of the assessment, on payment of a late filing fee. Forms shall be prepared by the Department and supplied to the locality for use of the applicants and applications shall be submitted on such forms. An application fee may be required to accompany all such applications. *The application form shall allow a landowner who received payments or compensation as a result of the former participation of his property in a state or federal soil and water conservation program, and whose property continues to meet the qualifications of such program but is no longer receiving such payments or compensation, to certify that the land continues to meet the requirements of such program for the purposes of classification pursuant to § 58.1-3230.*

In the event of a material misstatement of facts in the application or a material change in such facts prior to the date of assessment, such application for taxation based on use assessment granted thereunder shall be void and the tax for such year extended on the basis of value determined under § 58.1-3236 D. Except as provided by local ordinance, no application for assessment based on use shall be accepted or approved if, at the time the application is filed, the tax on the land affected is delinquent. Upon the payment of all delinquent taxes, including penalties and interest, the application shall be treated in accordance with the provisions of this section.

Continuation of valuation, assessment and taxation under an ordinance adopted pursuant to this article shall depend on continuance of the real estate in a qualifying use, continued payment of taxes as referred to in § 58.1-3235, and compliance with the other requirements of this article and the ordinance and not upon continuance in the same owner of title to the land.

In the event that the locality provides for a sliding scale under an ordinance, the property owner and the locality shall execute a written agreement which sets forth the period of time that the property shall remain within the classes of real estate set forth in § 58.1-3230. The term of the written agreement shall be for a period not exceeding 20 years, and the instrument shall be recorded in the office of the clerk of the circuit court for the locality in which the subject property is located.

No locality shall require any applicant who is a lessor of the property or a portion of the property that is the subject of an application submitted pursuant to this section to provide the lease agreement governing the property for the purpose of determining whether the property is eligible for special assessment and taxation pursuant to this article.

CHAPTER 346

An Act to amend and reenact §§ 51.1-303 and 51.1-304 of the Code of Virginia, relating to Judicial Retirement System; creditable service and contributions; absence; emergency.

[S 1449]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 51.1-303 and 51.1-304 of the Code of Virginia are amended and reenacted as follows:

§ 51.1-303. Creditable service.

A. For those members in service on December 31, 1994, service as a judge shall be multiplied by a factor of 3.5, the weighted years of service factor, to calculate years of creditable service. To calculate years of creditable service for those members appointed or elected to an original term commencing on or after January 1, 1995, service as a judge shall be multiplied by the weighted years of service factor of 2.5. To calculate years of creditable service for those members appointed or elected to an original term commencing on or after July 1, 2010, the following formula shall be used: if (i) the member was less than 45 years old at the time he was appointed or elected to such original term, then service as a judge

shall be multiplied by the weighted years of service factor of 1.5, (ii) the member was at least 45 years old but less than 55 years old at the time he was appointed or elected to such original term, then service as a judge shall be multiplied by the weighted years of service factor of 2.0, and (iii) the member was at least 55 years old at the time he was appointed or elected to such original term, then service as a judge shall be multiplied by the weighted years of service factor of 2.5. For purposes of this section, "original term" means the first term for which the member was appointed or elected to a position covered by the Judicial Retirement System.

B. Service qualifying for credit under the provisions of the Virginia Retirement System, the State Police Officers' Retirement System, and the Virginia Law Officers' Retirement System shall be included as creditable service for the purposes of this chapter, provided the requirements of those systems for crediting service have been complied with. Service purchased in accordance with the provisions of § 51.1-142.2 shall not be considered in determining the actuarial equivalent for early retirement nor shall it be considered twice in determining any disability allowance payable under this chapter.

C. If a member ceases to be a judge, has not received a refund of the accumulated contributions credited to his member's contribution account, and accepts employment in a position covered by a "retirement plan administered by the Virginia Retirement System" as defined under § 51.1-124.3, he shall be entitled to credit for his previous creditable service under this chapter. The amount of service transferred to the credit of the member in such other retirement plan shall not exceed the amount of credit which would provide a benefit of 78 percent of average final compensation determined on the assumption that the member was eligible for normal retirement as of the date of transfer and that he had elected no optional allowance. Future retirement rights shall be as provided under the applicable retirement plan. However, the annual retirement allowance payable to such person accepting employment in a position covered by any other retirement plan administered by the Virginia Retirement System shall not exceed 78 percent of the person's average final compensation, unless the person has been credited with five or more years of creditable service under such other retirement plan for service performed after ceasing to be a judge. In no case shall the annual retirement allowance payable to such person exceed 100 percent of his average final compensation.

D. There shall be subtracted from any creditable service the entire amount of time during which a judge is absent from his duties for a period of greater than three months, unless that absence is due to a medical condition, disability, active duty military leave, or family emergency and the existence of the medical condition, disability, active duty military leave, or family emergency is documented in a written communication signed under penalty of perjury by the judge or other authorized representative and submitted promptly to the Virginia Retirement System and the Executive Secretary of the Supreme Court of Virginia.

§ 51.1-304. Contributions by Commonwealth.

The Commonwealth shall contribute an amount equal to the sum of the normal contribution, any accrued liability contribution, and any supplementary contribution. The amount shall be determined and paid as provided in Chapter 1 (§ 51.1-124.1 et seq.). Notwithstanding the foregoing provisions of this section, member contributions and employer contributions for judges appointed or elected to an original term commencing on or after January 1, 2014, shall be determined under the provisions of the hybrid retirement program described in § 51.1-169. *However, during any period that a judge is absent for a period of greater than three months from his duties, the employer shall not make any contributions otherwise required pursuant to subdivision B 2 of § 51.1-169, unless that absence is due to a medical condition, disability, active duty military leave, or family emergency and the existence of the medical condition, disability, active duty military leave, or family emergency is documented in a written communication signed under penalty of perjury by the judge or other authorized representative and submitted promptly to the Virginia Retirement System and the Executive Secretary of the Supreme Court of Virginia.*

2. That an emergency exists and this act is in force from its passage.

Each school counselor employed by a school board in a public elementary or secondary school shall spend at least 80 percent of his staff time during normal school hours in the direct counseling of individual students or groups of students *and may spend up to 20 percent of his staff time during normal school hours on program planning and school support.*

CHAPTER 348

An Act to amend and reenact § 22.1-253.13:2, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to school psychologists; staffing flexibility.

[H 2124]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:2, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:2. (For Expiration Date, see 2022 Acts cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time

equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a

sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (For Effective Date, see 2022 Acts cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of

Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ one reading specialist for each 550 students in kindergarten through grade three. Each such reading specialist shall have training in science-based reading research and evidence-based literacy instruction practices. In addition, each such reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (Effective pursuant to Va. Const., Art. IV, § 13; for Expiration Date, see Acts 2022, cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals, one full-time in each elementary school, middle school, and high school, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to

§ 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (Effective pursuant to Va. Const, Art. IV, 13; for Effective Date, see Acts 2022, cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that

the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ one reading specialist for each 550 students in kindergarten through grade three. Each such reading specialist shall have training in science-based reading research and evidence-based literacy instruction practices. In addition, each such reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals, one full-time in each elementary school, middle school, and high school, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions

that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

2. That the Department of Education shall consult the Virginia Academy of School Psychologists, and other stakeholders as necessary, to ensure that the process and criteria for provisionally licensed school psychologists to obtain full licensure as school psychologists appropriately address the challenges that are unique to school psychology training requirements and the school psychology profession generally.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board ~~of Education~~ may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual

makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (For Effective Date, see 2022 Acts, cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time

equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board ~~of Education~~.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ one reading specialist for each 550 students in kindergarten through grade three. Each such reading specialist shall have training in science-based reading research and evidence-based literacy instruction practices. In addition, each such reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a

sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board ~~of Education~~ may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (Effective pursuant to Va. Const., Art. IV, § 13; for Expiration Date, see Acts 2022, cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board ~~of Education~~.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of

Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals, one full-time in each elementary school, middle school, and high school, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board ~~of Education~~ may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:2. (Effective pursuant to Va. Const, Art. IV, 13; for Effective Date, see Acts 2022, cc. 549, 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board ~~of Education~~.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20 full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ one reading specialist for each 550 students in kindergarten through grade three. Each such reading specialist shall have training in science-based reading research and evidence-based literacy instruction practices. In addition, each such reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals, one full-time in each elementary school, middle school, and high school, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board ~~of Education~~.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board ~~of Education~~ may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to

§ 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;

School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-272.2. Department; model memorandum of understanding; partnerships with community mental health services providers.

The Department, in consultation with the Department of Behavioral Health and Developmental Services and the Department of Medical Assistance Services, shall develop, adopt, and distribute to each school board a model memorandum of understanding between a school board and a public or private community mental health services provider that sets forth parameters for the provision of mental health services to public school students enrolled in the local school division by such provider, reflects effective practices, and addresses privacy considerations related to the exchange of information between the parties to the memorandum of understanding and relevant laws and regulations. The Department shall maintain and update as necessary the model memorandum of understanding to ensure that it remains current, useful, and relevant.

[H 1496]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 33.2-1526.1 of the Code of Virginia is amended and reenacted as follows:

§ 33.2-1526.1. Use of the Commonwealth Mass Transit Fund.

A. All funds deposited pursuant to § 33.2-1524.1 into the Commonwealth Mass Transit Fund (the Fund), established pursuant to § 33.2-1526, shall be allocated as set forth in this section.

B. From funds available pursuant to subsection D, ~~beginning in fiscal year~~ 2022, up to $50 million shall be allocated to the Washington Metropolitan Area Transit Authority as matching funds to federal and other funds provided by the Federal Transit Administration, the District of Columbia, and the State of Maryland. However, such funds shall only be provided if the District of Columbia and the State of Maryland each provide an amount equal to one-third of the funding provided by the Federal Transit Administration to the Washington Metropolitan Area Transit Authority. The funds provided by the Commonwealth shall not exceed the funds provided by the District of Columbia or the State of Maryland.

C. The Board may establish policies for the implementation of this section, including the determination of the state share of operating, capital, and administrative costs related to mass transit. For purposes of this section, capital costs may include debt service payments on local or agency transit bonds. Funds may be paid to any local governing body, transportation district commission, or public service corporation for the purposes as set forth in this section. No funds from the Fund shall be allocated without a local match from the recipient.

D. Each year the Director of the Department of Rail and Public Transportation shall make recommendations to the Board for the allocation of funds from the Fund. Such recommendations, and the final allocations approved by the Board, shall adhere to the following*, except as provided in subsection E*:

1. ~~Twenty-seven~~ *Twenty-four and one-half* percent of the funds shall be allocated to support operating costs of transit providers and shall be distributed by the Board on the basis of service delivery factors, based on effectiveness and efficiency as established by the Board. Such measures and their relative weight shall be evaluated every three years ~~and, if redefined by the Board, shall be published and made available for public comment at least one year in advance of being applied~~ *and shall be finalized 6 months prior to the fiscal year of implementation*. The Washington Metropolitan Area Transit Authority (WMATA) *and the commuter rail system jointly operated by the Northern Virginia Transportation Commission (NVTC) and the Potomac and Rappahannock Transportation Commission (PRTC), established pursuant to Chapter 19 (§ 33.2-1900 et seq.)* shall not be eligible for an allocation of funds pursuant to this subdivision.

2. ~~Eighteen~~ *Seventeen* percent of the funds shall be allocated for capital purposes and distributed utilizing the transit capital prioritization process established by the Board pursuant to § 33.2-214.4. ~~The Washington Metropolitan Area Transit Authority~~ *WMATA and the commuter rail system jointly operated by NVTC and PRTC, established pursuant to Chapter 19 (§ 33.2-1900 et seq.)* shall not be eligible for an allocation of funds pursuant to this subdivision.

purposes. The amount of funds distributed pursuant to this subdivision and the selection of systems receiving funds pursuant to this subdivision shall be based on service delivery factors including effectiveness and efficiency as established by the Board. Such measures and their relative weight shall be evaluated every three years and shall be finalized six months prior to the fiscal year of implementation. Any funds remaining after such distribution shall be redistributed to subdivision 2.

4. Forty-six and one-half percent of the funds shall be allocated to the ~~Northern Virginia Transportation Commission~~ *NVTC* for distribution to WMATA for capital purposes and operating assistance, as determined by the Commission. *All allocations pursuant to this subdivision shall not exceed 50 percent of the total operating and capital assistance required to be provided by NVTC or other Virginia entities in the approved WMATA budget. F. The Department of Rail and Public Transportation may reserve a balance of up to five percent of the Fund revenues in order to ensure stability in providing operating and capital funding to transit entities from year to year, provided that such balance shall not exceed five percent of revenues in a given biennium.

G. The Board may allocate up to 3.5 percent of the funds set aside for the Fund to support costs of project development, project administration, and project compliance incurred by the Department of Rail and Public Transportation in implementing rail, public transportation, and congestion management grants and programs.

Hold harmless protections and obligations for NVTC's jurisdictions agreed to by NVTC on November 5, 1998, shall remain in effect.

I. Appropriations from the Fund are intended to provide a stable and reliable source of revenue, as defined by P.L. 96-184.

J. Notwithstanding any other provision of law, funds allocated to WMATA may be disbursed by the Department of Rail and Public Transportation directly to WMATA or to any other transportation entity that has an agreement to provide funding to WMATA.

K. In any year that the total Virginia operating assistance in the approved WMATA budget increases by more than three percent from the total operating assistance in the prior year's approved WMATA budget, the Board shall withhold an amount equal to 35 percent of the funds available under subdivision D ~~3~~ *4*. The following items shall not be included in the calculation of any WMATA budget increase: (i) any service, equipment, or facility that is required by any applicable law, rule, or regulation; (ii) any capital project approved by the WMATA Board before or after the effective date of this provision; (iii) any payments or obligations of any kind arising from or related to legal disputes or proceedings between or among WMATA and any other person or entity; and (iv) any service increases approved by the WMATA Board.

L. The Board shall withhold 20 percent of the funds available pursuant to subdivision D ~~3~~ *4* if (i) any alternate directors participate or take action at an official WMATA Board meeting or committee meeting as Board directors for a WMATA compact member when both directors appointed by that same WMATA compact member are present at the WMATA Board meeting or committee meeting or (ii) the WMATA Board of Directors has not adopted bylaws that would prohibit such participation by alternate directors.

M. The Board shall withhold 20 percent of the funds available pursuant to subdivision D 4 unless (i) WMATA has adopted a detailed capital improvement program covering the current fiscal year and, at a minimum, the next five fiscal years, and at least one public hearing on such capital improvement program has been held in a locality embraced by the Northern Virginia

Transportation Commission (NVTC), and (ii) WMATA has adopted or updated a strategic plan within the preceding 36 months, and at least one public hearing on such plan or updated plan has been held in a locality embraced by NVTC.

The strategic plan shall require (a) an assessment of state of good repair needs; (b) a review of the performance of fixed-route bus service, including schedules, route design, connectivity, and vehicle sizes; (c) an evaluation of opportunities to improve operating efficiency of the transit network, including reliability of trips and travel speed; (d) an examination and identification of opportunities to share services where multiple transit providers' services overlap; and (e) an examination of opportunities to improve service in underserved areas.

N. The Board shall withhold 20 percent of the funds available pursuant to subdivision D 4 unless WMATA prepares and submits a proposed detailed annual operating budget and any proposed capital expenditures and projects for the following fiscal year to the Board by April 1 of each year. The budget shall include information on expenditures, indebtedness, pensions and other liabilities, and other information as prescribed by the Board. Additionally such funds shall be withheld if the Commonwealth's and Northern Virginia Transportation Commission's representatives to the WMATA Board of Directors and the WMATA General Manager fail to annually address the Commonwealth Transportation Board regarding the WMATA budget, system performance, and utilization of the Commonwealth's investment in the WMATA system.

O. The Board shall withhold 20 percent of the funds available pursuant to subdivision D 3 unless the commuter rail system jointly operated by Northern Virginia Transportation Commission and the Potomac and Rappahannock Transportation Commission, established pursuant to Chapter 19 (§ 33.2-1900 et seq.), submits a detailed annual operating budget and any proposed capital expenditures and projects for the following fiscal year to the Board by February 1 of each year. The operating plan and budget shall include information on expenditures, indebtedness, and other information as prescribed by the Board.

2. That the eighth enactment of Chapter 854 and the eighth enactment of Chapter 856 of the Acts of Assembly of 2018 are repealed.

3. That for fiscal year 2024, the Director of the Department of Rail and Public Transportation may deviate from the allocation requirements in subsection D of § 33.2-1526.1 of the Code of Virginia, as amended by this act, when making recommendations to the Commonwealth Transportation Board (Board) for allocation of funds from the Commonwealth Mass Transit Fund (the Fund). For fiscal year 2024, the Board may utilize the allocation requirements for the Fund provided for in subsection D of § 33.2-1526.1 of the Code of Virginia, as it was in effect prior to the effective date of this act, for the purpose of transitioning to the allocation requirements of this act.

§ 32.1-283.8. Maternal Mortality Review Team; duties; membership; confidentiality; penalties; report; etc.

A. As used in this section, "maternal death" means the death of a woman who was pregnant at the time of death or within one year prior to the time of death, regardless of the outcome of the pregnancy, including any death determined to be a natural death, unnatural death, or violent death or for which no cause of death was determined.

B. There is hereby created the Maternal Mortality Review Team (the Team), which shall develop and implement procedures to ensure that certain maternal deaths occurring in the Commonwealth are analyzed in a systematic way. The Team shall review every maternal death in the Commonwealth. The Team shall not initiate a maternal death review until the conclusion of any law-enforcement investigation or criminal prosecution. The Team shall (i) develop and revise as necessary operating procedures for maternal death reviews, including identification of cases to be reviewed and procedures for coordinating among the agencies and professionals involved; (ii) improve the identification of and data collection and record keeping related to causes of maternal deaths; (iii) recommend components of programs to increase awareness and prevention of and education about maternal deaths; and (iv) recommend training to improve the review of maternal deaths. Such operating procedures shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.) pursuant to subdivision B 17 of § 2.2-4002.

C. The Team shall consist of the following persons or their designees: the Chief Medical Examiner, the Director of the Office of Family Health of the Department of Health, the State Registrar of Vital Records, and the Commissioner of Behavioral Health and Developmental Services. In addition, the Governor shall appoint one representative of each of the following entities: local law enforcement, local fire departments, local emergency medical services providers, local departments of social services, community services boards, attorneys for the Commonwealth, the Medical Society of Virginia, the Virginia Hospital and Healthcare Association, the Virginia College of Emergency Physicians, the Virginia Section of the American College of Obstetricians and Gynecologists, the Virginia Affiliate of the American College of Nurse-Midwives, the Virginia Chapter of the Association of Women's Health, Obstetric and Neonatal Nurses, the Virginia Neonatal Perinatal Collaborative, the Virginia Midwives Alliance, and the Virginia Academy of Nutrition and Dietetics. The Chief Medical Examiner and the Director of the Office of Family Health of the Department of Health shall serve as co-chairs of the Team and may appoint additional members of the Team as may be needed to complete maternal death reviews pursuant to this section.

After the initial staggering of terms, members other than the Chief Medical Examiner, the Director of the Office of Family Health of the Department of Health, the State Registrar of Vital Records, the Commissioner of Behavioral Health and Developmental Services, and the Director of the Department of Criminal Justice Services shall be appointed for a term of three years. Appointments to fill vacancies, other than by expiration of a term, shall be for the unexpired terms. Vacancies shall be filled in the same manner as the original appointments. All members may be reappointed. The Chief Medical Examiner, the Director of the Office of Family Health of the Department of Health, the State Registrar of Vital Records, the Commissioner of Behavioral Health and Developmental Services, and the Director of the Department of Criminal Justice Services shall serve terms coincident with their terms of office.

D. Upon the request of the Chief Medical Examiner in his capacity as a co-chair of the Team, made after the conclusion of any law-enforcement investigation or prosecution, the Chief Medical Examiner or his designee may inspect and copy information and records regarding a maternal death, including (i) any report of the circumstances of the maternal death maintained by any state or local law-enforcement agency or medical examiner, and (ii) information or records about the woman maintained by any social services agency or court. Information, records, or reports maintained by any attorney for the Commonwealth shall be made available for inspection and copying by the Chief Medical Examiner or his designee pursuant to procedures that shall be developed by the Chief Medical Examiner and the Commonwealth's Attorneys' Services Council established by § 2.2-2617. Any presentence report prepared pursuant to § 19.2-299 for any person convicted of a crime that led to the death of the woman shall be made available for inspection and copying by the Chief Medical Examiner or his designee. In addition, the Chief Medical Examiner or his designee may inspect and copy from any health care provider in the Commonwealth, on behalf of the Team, (a) without obtaining consent, subject to any limitations on disclosure under applicable federal and state law, the health and mental health records of the woman and those prenatal medical records relating to any child born to the woman and (b) upon obtaining consent, from each adult regarding his records.

E. All information and records obtained or created by the Team or on behalf of the Team regarding a review shall be confidential and excluded from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) pursuant to subdivision 7 of § 2.2-3705.5. All such information and records shall be used by the Team only in the exercise of its proper purpose and function and shall not be disclosed. In preparing information and records for review by the Team, the Department shall

remove any individually identifiable information or information identifying a health care provider, as those terms are defined in 45 C.F.R. § 160.103. Such information shall not be subject to subpoena, subpoena duces tecum, or discovery, be admissible in any civil or criminal proceeding, or be used as evidence in any disciplinary proceeding or regulatory or licensure action of the Department of Health Professions or any health regulatory board. If available from other sources, however, such information and records shall not be immune from subpoena, discovery, or introduction into evidence when obtained through such other sources solely because the information and records were presented to the Team during a maternal death review. The findings of the Team may be disclosed or published in statistical or other form, but shall not identify any individual. § 16.1-253.1. Preliminary protective orders in cases of family abuse; confidentiality.

A. Upon the filing of a petition alleging that the petitioner is or has been, within a reasonable period of time, subjected to family abuse, the court may issue a preliminary protective order against an allegedly abusing person in order to protect the health and safety of the petitioner or any family or household member of the petitioner. The order may be issued in an ex parte proceeding upon good cause shown when the petition is supported by an affidavit or sworn testimony before the judge or intake officer. If an ex parte order is issued without an affidavit or a completed form as prescribed by subsection D of § 16.1-253.4 being presented, the court, in its order, shall state the basis upon which the order was entered, including a summary of the allegations made and the court's findings. Immediate and present danger of family abuse or evidence sufficient to establish probable cause that family abuse has recently occurred shall constitute good cause. Evidence that the petitioner has been subjected to family abuse within a reasonable time and evidence of immediate and present danger of family abuse may be established by a showing that (i) the allegedly abusing person is incarcerated and is to be released from incarceration within 30 days following the petition or has been released from incarceration within 30 days prior to the petition, (ii) the crime for which the allegedly abusing person was convicted and incarcerated involved family abuse against the petitioner, and (iii) the allegedly abusing person has made threatening contact with the petitioner while he was incarcerated, exhibiting a renewed threat to the petitioner of family abuse.

A preliminary protective order may include any one or more of the following conditions to be imposed on the allegedly abusing person:

1. Prohibiting acts of family abuse or criminal offenses that result in injury to person or property.

2. Prohibiting such contacts by the respondent with the petitioner or family or household members of the petitioner as the court deems necessary for the health or safety of such persons.

3. Granting the petitioner possession of the premises occupied by the parties to the exclusion of the allegedly abusing person; however, no such grant of possession shall affect title to any real or personal property.

4. Enjoining the respondent from terminating any necessary utility service to a premises that the petitioner has been granted possession of pursuant to subdivision 3 or, where appropriate, ordering the respondent to restore utility services to such premises.

5. Granting the petitioner and, where appropriate, any other family or household member of the petitioner, exclusive use and possession of a cellular telephone number or electronic device *and the password to such device*. The court may enjoin the respondent from terminating a cellular telephone number or electronic device before the expiration of the contract term with a third-party provider. The court may enjoin the respondent from using a cellular telephone or other electronic device to locate *or surveille* the petitioner.

6. Granting the petitioner temporary possession or use of a motor vehicle owned by the petitioner alone or jointly owned by the parties to the exclusion of the allegedly abusing person; however, no such grant of possession or use shall affect title to the vehicle.

7. Requiring that the allegedly abusing person provide suitable alternative housing for the petitioner and any other family or household member and, where appropriate, requiring the respondent to pay deposits to connect or restore necessary utility services in the alternative housing provided.

B. The court shall forthwith, but in all cases no later than the end of the business day on which the order was issued, enter and transfer electronically to the Virginia Criminal Information Network the respondent's identifying information and the name, date of birth, sex, and race of each protected person provided to the court. A copy of a preliminary protective order containing any such identifying information shall be forwarded forthwith to the primary law-enforcement agency responsible for service and entry of protective orders. Upon receipt of the order by the primary law-enforcement agency, the agency shall forthwith verify and enter any modification as necessary to the identifying information and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network established and maintained by the Department pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52 and the order shall be served forthwith on the allegedly abusing person in person as provided in § 16.1-264 and due return made to the court. However, if the order is issued by the circuit court, the clerk of the circuit court shall forthwith forward an attested copy of the order containing the respondent's identifying information and the name, date of birth, sex, and race of each protected person provided to the court to the primary law-enforcement agency providing service and entry of protective orders and upon receipt of the order, the primary law-enforcement agency shall enter the name of the person subject to the order and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network established and maintained by the Department pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52 and the order shall be served forthwith on the allegedly abusing person in person as provided in § 16.1-264. Upon service, the agency making service shall enter the date and time of service and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network and make due return to the court. The preliminary order shall specify a date for the full hearing. The hearing shall be held within 15 days of the issuance of the preliminary order, unless the court is closed pursuant to § 16.1-69.35 or 17.1-207 and such closure prevents the hearing from being held within such time period, in which case the hearing shall be held on the next day not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. If such court is closed pursuant to § 16.1-69.35 or 17.1-207, the preliminary protective order shall remain in full force and effect until it is dissolved by such court, until another preliminary protective order is entered, or until a protective order is entered. If the respondent fails to appear at this hearing because the respondent was not personally served, or if personally served was incarcerated and not transported to the hearing, the court may extend the protective order for a period not to exceed six months. The extended protective order shall be served forthwith on the respondent. However, upon motion of the respondent and for good cause shown, the court may continue the hearing. The preliminary order shall remain in effect until the hearing. Upon request after the order is issued, the clerk shall provide the petitioner with a copy of the order and information regarding the date and time of service. The order shall further specify that either party may at any time file a motion with the court requesting a hearing to dissolve or modify the order. The hearing on the motion shall be given precedence on the docket of the court. Upon petitioner's motion to dissolve the preliminary protective order, a dissolution order may be issued ex parte by the court with or without a hearing. If an ex parte hearing is held, it shall be heard by the court as soon as practicable. If a dissolution order is issued ex parte, the court shall serve a copy of such dissolution order on respondent in conformity with §§ 8.01-286.1 and 8.01-296.

Upon receipt of the return of service or other proof of service pursuant to subsection C of § 16.1-264, the clerk shall forthwith forward an attested copy of the preliminary protective order to the primary law-enforcement agency, and the agency shall forthwith verify and enter any modification as necessary into the Virginia Criminal Information Network as described above. If the order is later dissolved or modified, a copy of the dissolution or modification order shall also be attested, forwarded forthwith to the primary law-enforcement agency responsible for service and entry of protective orders, and upon receipt of the order by the primary law-enforcement agency, the agency shall forthwith verify and enter any modification as necessary to the identifying information and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network as described above and the order shall be served forthwith and due return made to the court.

C. The preliminary order is effective upon personal service on the allegedly abusing person. Except as otherwise provided in § 16.1-253.2, a violation of the order shall constitute contempt of court.

D. At a full hearing on the petition, the court may issue a protective order pursuant to § 16.1-279.1 if the court finds that the petitioner has proven the allegation of family abuse by a preponderance of the evidence.

E. Neither a law-enforcement agency, the attorney for the Commonwealth, a court nor the clerk's office, nor any employee of them, may disclose, except among themselves, the residential address, telephone number, or place of employment of the person protected by the order or that of the family of such person, except to the extent that disclosure is (i) required by law or the Rules of the Supreme Court, (ii) necessary for law-enforcement purposes, or (iii) permitted by the court for good cause.

F. As used in this section, "copy" includes a facsimile copy.

G. No fee shall be charged for filing or serving any petition or order pursuant to this section.

H. Upon issuance of a preliminary protective order, the clerk of the court shall make available to the petitioner information that is published by the Department of Criminal Justice Services for victims of domestic violence or for petitioners in protective order cases.

A. In cases of family abuse, including any case involving an incarcerated or recently incarcerated respondent against whom a preliminary protective order has been issued pursuant to § 16.1-253.1, the court may issue a protective order to protect the health and safety of the petitioner and family or household members of the petitioner. A protective order issued under this section may include any one or more of the following conditions to be imposed on the respondent:

1. Prohibiting acts of family abuse or criminal offenses that result in injury to person or property;

2. Prohibiting such contacts by the respondent with the petitioner or family or household members of the petitioner as the court deems necessary for the health or safety of such persons;

3. Granting the petitioner possession of the residence occupied by the parties to the exclusion of the respondent; however, no such grant of possession shall affect title to any real or personal property;

4. Enjoining the respondent from terminating any necessary utility service to the residence to which the petitioner was granted possession pursuant to subdivision 3 or, where appropriate, ordering the respondent to restore utility services to that residence;

5. The court may enjoin the respondent from terminating a cellular telephone number or electronic device before the expiration of the contract term with a third-party provider. The court may enjoin the respondent from using a cellular telephone or other electronic device to locate *or surveille* the petitioner;

6. Granting the petitioner temporary possession or use of a motor vehicle owned by the petitioner alone or jointly owned by the parties to the exclusion of the respondent and enjoining the respondent from terminating any insurance, registration, or taxes on the motor vehicle and directing the respondent to maintain the insurance, registration, and taxes, as appropriate; however, no such grant of possession or use shall affect title to the vehicle;

10. Any other relief necessary for the protection of the petitioner and family or household members of the petitioner, including a provision for temporary custody or visitation of a minor child.

A1. If a protective order is issued pursuant to subsection A, the court may also issue a temporary child support order for the support of any children of the petitioner whom the respondent has a legal obligation to support. Such order shall terminate upon the determination of support pursuant to § 20-108.1.

B. The protective order may be issued for a specified period of time up to a maximum of two years. The protective order shall expire at 11:59 p.m. on the last day specified or at 11:59 p.m. on the last day of the two-year period if no date is specified. Prior to the expiration of the protective order, a petitioner may file a written motion requesting a hearing to extend the order. Proceedings to extend a protective order shall be given precedence on the docket of the court. If the petitioner was a family or household member of the respondent at the time the initial protective order was issued, the court may extend the protective order for a period not longer than two years to protect the health and safety of the petitioner or persons who are family or household members of the petitioner at the time the request for an extension is made. The extension of the protective order shall expire at 11:59 p.m. on the last day specified or at 11:59 p.m. on the last day of the two-year period if no date is specified. Nothing herein shall limit the number of extensions that may be requested or issued.

C. A copy of the protective order shall be served on the respondent and provided to the petitioner as soon as possible. The court, including a circuit court if the circuit court issued the order, shall forthwith, but in all cases no later than the end of the business day on which the order was issued, enter and transfer electronically to the Virginia Criminal Information Network the respondent's identifying information and the name, date of birth, sex, and race of each protected person provided to the court and shall forthwith forward the attested copy of the protective order containing any such identifying

Upon service, the agency making service shall enter the date and time of service and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network and make due return to the court. If the order is later dissolved or modified, a copy of the dissolution or modification order shall also be attested, forwarded forthwith to the primary law-enforcement agency responsible for service and entry of protective orders, and upon receipt of the order by the primary law-enforcement agency, the agency shall forthwith verify and enter any modification as necessary to the identifying information and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network as described above and the order shall be served forthwith and due return made to the court.

D. Except as otherwise provided in § 16.1-253.2, a violation of a protective order issued under this section shall constitute contempt of court.

E. The court may assess costs and attorneys' fees against either party regardless of whether an order of protection has been issued as a result of a full hearing.

F. Any judgment, order or decree, whether permanent or temporary, issued by a court of appropriate jurisdiction in another state, the United States or any of its territories, possessions or Commonwealths, the District of Columbia or by any tribal court of appropriate jurisdiction for the purpose of preventing violent or threatening acts or harassment against or contact or communication with or physical proximity to another person, including any of the conditions specified in subsection A, shall be accorded full faith and credit and enforced in the Commonwealth as if it were an order of the Commonwealth, provided reasonable notice and opportunity to be heard were given by the issuing jurisdiction to the person against whom the order is sought to be enforced sufficient to protect such person's due process rights and consistent with federal law. A person entitled to protection under such a foreign order may file the order in any juvenile and domestic relations district court by filing with the court an attested or exemplified copy of the order. Upon such a filing, the clerk shall forthwith forward an attested copy of the order to the primary law-enforcement agency responsible for service and entry of protective orders which shall, upon receipt, enter the name of the person subject to the order and other appropriate information required by the Department of State Police into the Virginia Criminal Information Network established and maintained by the Department pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52. Where practical, the court may transfer information electronically to the Virginia Criminal Information Network.

Upon inquiry by any law-enforcement agency of the Commonwealth, the clerk shall make a copy available of any foreign order filed with that court. A law-enforcement officer may, in the performance of his duties, rely upon a copy of a foreign protective order or other suitable evidence which has been provided to him by any source and may also rely upon the statement of any person protected by the order that the order remains in effect.

G. Either party may at any time file a written motion with the court requesting a hearing to dissolve or modify the order. Proceedings to dissolve or modify a protective order shall be given precedence on the docket of the court. Upon petitioner's motion to dissolve the protective order, a dissolution order may be issued ex parte by the court with or without a hearing. If an ex parte hearing is held, it shall be heard by the court as soon as practicable. If a dissolution order is issued ex parte, the court shall serve a copy of such dissolution order on respondent in conformity with §§ 8.01-286.1 and 8.01-296.

H. As used in this section:

"Copy" includes a facsimile copy; and

"Protective order" includes an initial, modified or extended protective order.

I. Neither a law-enforcement agency, the attorney for the Commonwealth, a court nor the clerk's office, nor any employee of them, may disclose, except among themselves, the residential address, telephone number, or place of employment of the person protected by the order or that of the family of such person, except to the extent that disclosure is (i) required by law or the Rules of the Supreme Court, (ii) necessary for law-enforcement purposes, or (iii) permitted by the court for good cause.

J. No fee shall be charged for filing or serving any petition or order pursuant to this section.

K. Upon issuance of a protective order, the clerk of the court shall make available to the petitioner information that is published by the Department of Criminal Justice Services for victims of domestic violence or for petitioners in protective order cases.

L. An appeal of a protective order issued pursuant to this section shall be given expedited review by the Court of Appeals.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation is $0 for periods of commitment to the custody of the Department of Juvenile Justice.

A. At any time the court considers the respondent's need for secure inpatient treatment pursuant to this chapter, it shall place the respondent on conditional release if it finds that (i) he does not need secure inpatient treatment but needs outpatient treatment or monitoring to prevent his condition from deteriorating to a degree that he would need secure inpatient treatment; (ii) appropriate outpatient supervision and treatment are reasonably available; (iii) there is significant reason to believe that the respondent, if conditionally released, would comply with the conditions specified; and (iv) conditional release will not present an undue risk to public safety. In making its determination, the court may consider ~~(i)~~ *(a)* the nature and circumstances of the sexually violent offense for which the respondent was charged or convicted, including the age and maturity of the victim; ~~(ii)~~ *(b)* the results of any actuarial test, including the likelihood of recidivism; ~~(iii)~~ *(c)* the results of any diagnostic tests previously administered to the respondent under this chapter; ~~(iv)~~ *(d)* the respondent's mental history, including treatments for mental illness or mental disorders, participation in and response to therapy or treatment, and any history of previous hospitalizations; ~~(v)~~ *(e)* the respondent's present mental condition; ~~(vi)~~ *(f)* the respondent's response to treatment while in secure inpatient treatment or on conditional release, including his disciplinary record and any infractions; ~~(vii)~~ *(g)* the respondent's living arrangements and potential employment if he were to be placed on conditional release; ~~(viii)~~ *(h)* the availability of transportation and appropriate supervision to ensure participation by the respondent in necessary treatment; and ~~(ix)~~ *(i)* any other factors that the court deems relevant. The court shall subject the respondent to the orders and conditions it deems will best meet his need for treatment and supervision and best serve the interests of justice and society. In all cases of conditional release, the court shall order the respondent to be subject to electronic monitoring of his location by means of a GPS (Global Positioning System) tracking device, or other similar device, at all times while he is on conditional release.

The Department or, if the respondent is on parole or probation, the respondent's parole or probation officer shall implement the court's conditional release orders and shall submit written reports to the court on the respondent's progress and adjustment in the community no less frequently than every six months. The Department of Behavioral Health and Developmental Services is authorized to contract with the Department of Corrections to provide services for the monitoring and supervision of sexually violent predators who are on conditional release.

The Department or, if the respondent is on parole or probation, the respondent's parole or probation officer shall send a copy of each written report submitted to the court and copies of all correspondence with the court pursuant to this section to the Attorney General and the Commissioner.

B. Notwithstanding any other provision of law, when any respondent is placed on conditional release under this article, the Department of Corrections and the Office of the Attorney General shall provide to the Department, or if the respondent is on parole or probation, the respondent's parole or probation officer, all relevant criminal history information, medical and mental health records, presentence and postsentence reports and victim impact statements, and the mental health evaluations performed pursuant to this chapter, for use in the management and treatment of the respondent placed on conditional release. Any information or document provided pursuant to this subsection shall not be subject to disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

C. Any person placed on conditional release pursuant to this chapter who tampers with or in any way attempts to circumvent the operation of his GPS equipment is guilty of a Class 6 felony.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of

$50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

§ 18.2-130.1. Peeping or spying into dwelling or occupied building by electronic device or unmanned aircraft system; penalty.

A. It is unlawful for any person to knowingly and intentionally cause an electronic device to enter the property of another to secretly or furtively peep or spy or attempt to peep or spy into or through a window, door, or other aperture of any building, structure, or other enclosure occupied or intended for occupancy as a dwelling, whether or not such building, structure, or enclosure is permanently situated or transportable and whether or not such occupancy is permanent or temporary, or to do the same, without just cause, upon property owned by him and leased or rented to another under circumstances that would violate the occupant's reasonable expectation of privacy.

B. CHAPTER 382

An Act to amend and reenact §§ 46.2-844 and 46.2-859 of the Code of Virginia, relating to passing stopped school buses; purpose of stop; prima facie evidence.

[H 1723]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-844 and 46.2-859 of the Code of Virginia are amended and reenacted as follows:

§ 46.2-844. Passing stopped school buses; penalty; prima facie evidence; penalty.

A. The driver of a motor vehicle approaching from any direction a clearly marked school bus that is stopped on any highway, private road, or school driveway for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons, who, in violation of § 46.2-859, fails to stop and remain stopped until all such persons are clear of the highway, private road, or school driveway and the bus is put in motion is subject to a civil penalty of $250, and any prosecution shall be instituted and conducted in the same manner as prosecutions for traffic infractions.

A prosecution or proceeding under § 46.2-859 is a bar to a prosecution or proceeding under this section for the same act, and a prosecution or proceeding under this section is a bar to a prosecution or proceeding under § 46.2-859 for the same act.

In any prosecution for which a summons charging a violation of this section was issued within 10 days of the alleged violation, proof that the motor vehicle described in the summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, as required by Chapter 6 (§ 46.2-600 et seq.) shall give rise to a rebuttable presumption that the registered owner of the vehicle was the person who operated the vehicle at the place where, and for the time during which, the violation occurred. Such presumption shall be rebutted if (i) the owner of the vehicle files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation, (ii) the owner testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation, or (iii) a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section is presented prior to the return date established on the summons issued pursuant to this section to the court adjudicating the alleged violation. Nothing herein shall limit the admission of otherwise admissible evidence.

The testimony of the school bus driver, the supervisor of school buses, or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

Recorded images from a video-monitoring system that show the bus was stopped with at least one warning device prescribed in § 46.2-1090 activated shall be considered prima facie evidence that the bus was stopped for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons.

B. 1. For purposes of this ~~subsection~~ *section*, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles

being operated in violation of § 46.2-859. All such systems installed shall, at a minimum, produce a recorded image of the license plate and shall record the activation status of at least one warning device as prescribed in § 46.2-1090 and the time, date, and location of the vehicle when the image is recorded.

2. A locality may, by ordinance, authorize the school division of the locality to install and operate a video-monitoring system in or on the school buses operated by the division or to contract with a private vendor to do so on behalf of the school division for the purpose of recording violations of subsection A. Such ordinance may direct that any civil penalty levied for a violation of subsection A shall be payable to the local school division. In any locality that has adopted such an ordinance, a summons for a violation of subsection A may be executed as provided in § 19.2-76.2 and, notwithstanding the provisions of § 19.2-76, the summons may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle contained in the records of the Department. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection A and (ii) instructions for filing such an affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. Any summons executed for violation of this section shall provide to the person summoned at least 30 business days from the mailing of the summons to inspect information collected by a video-monitoring system in connection with the violation.

3. Any private vendor contracting with a school division pursuant to this subsection may impose and collect an administrative fee in addition to the civil penalty imposed for a violation of subsection A and payable pursuant to this subsection, so as to recover the expenses of collecting any unpaid civil penalty when such penalty remains due more than 30 days after the date of the mailing of the summons and notice. The administrative fee shall be reasonably related to the actual cost of collecting the civil penalty and shall not exceed $100 per violation. The operator of the vehicle shall pay the unpaid civil penalty and any administrative fee detailed in a notice or citation issued by the private vendor. If paid no later than 60 days after the date of the mailing of the summons and notice, the administrative fee shall not exceed $25.

4. Any private vendor contracting with a school division pursuant to this subsection may enter into an agreement with the Department of Motor Vehicles, in accordance with the provisions of subdivision B 30 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that improperly pass stopped school buses. Information provided to such private vendor shall be protected in a database with security comparable to that of the Department of Motor Vehicles' system and used only for enforcement against individuals who violate the provisions of this section. The school division shall annually certify compliance with this subdivision and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or their designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of $1,000 per disclosure. Any unauthorized use or disclosure of such personal information shall be grounds for termination of the agreement between the Department of Motor Vehicles and the private vendor.

§ 46.2-859. Passing a stopped school bus; prima facie evidence.

A person driving a motor vehicle shall stop such vehicle when approaching, from any direction, any school bus which is stopped on any highway, private road or school driveway for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons, and shall remain stopped until all the persons are clear of the highway, private road or school driveway and the bus is put in motion; any person violating the foregoing is guilty of reckless driving. The driver of a vehicle, however, need not stop when approaching a school bus if the school bus is stopped on the other roadway of a divided highway, on an access road, or on a driveway when the other roadway, access road, or driveway is separated from the roadway on which he is driving by a physical barrier or an unpaved area. The driver of a vehicle also need not stop when approaching a school bus which is loading or discharging passengers from or onto property immediately adjacent to a school if the driver is directed by a law-enforcement officer or other duly authorized uniformed school crossing guard to pass the school bus. This section shall apply to school buses which are equipped with warning devices prescribed in § 46.2-1090 and are painted yellow with the words "School Bus" in black letters at least eight inches high on the front and rear thereof. Only school buses which are painted yellow and equipped with the required lettering and warning devices shall be identified as school buses.

The testimony of the school bus driver, the supervisor of school buses or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

Evidence that the bus was stopped with at least one warning device prescribed in § 46.2-1090 activated shall be considered prima facie evidence that the bus was stopped for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons.

§ 54.1-2130. Definitions.

As used in this article:

"Agency" means every relationship in which a real estate licensee acts for or represents a person as an agent by such person's express authority in a commercial or residential real estate transaction, unless a different legal relationship is intended and is agreed to as part of the brokerage agreement. Nothing in this article shall prohibit a licensee and a client from agreeing in writing to a brokerage relationship under which the licensee acts as an independent contractor or which imposes on a licensee obligations in addition to those provided in this article. If a licensee agrees to additional obligations, however, the licensee shall be responsible for the additional obligations agreed to with the client in the brokerage agreement. A real estate licensee who enters into a brokerage relationship based upon a written brokerage agreement that specifically states that the real estate licensee is acting as an independent contractor and not as an agent shall have the obligations agreed to by the parties in the brokerage agreement, and such real estate licensee and its employees shall comply with the provisions of subdivisions A 3 through 7 and subsections B and E of § 54.1-2131; subdivisions A 3 through 7 and subsections B and E of § 54.1-2132; subdivisions A 3 through 7 and subsections B and E of § 54.1-2133; subdivisions A 3 through 7 and subsections B and E of § 54.1-2134; and subdivisions A 2 through 6 and subsections C and D of § 54.1-2135 but otherwise shall have no obligations under §§ 54.1-2131 through 54.1-2135. A dual representative shall only act as an independent contractor.

"Independent contractor" means a real estate licensee who (i) enters into a brokerage relationship based upon a brokerage agreement that specifically states that the real estate licensee is acting as an independent contractor and not as an agent; (ii) shall have the obligations agreed to by the parties in the brokerage agreement; and (iii) shall comply with the provisions of subdivisions A 3 through 7 and subsections B and E of § 54.1-2131; subdivisions A 3 through 7 and subsections B and E of § 54.1-2132; subdivisions A 3 through 7 and subsections B and E of § 54.1-2133; subdivisions A 3 through 7 and subsections B and E of § 54.1-2134; and subdivisions A 2 through 6 and subsections C and D of § 54.1-2135 but otherwise shall have no obligations under §§ 54.1-2131 through 54.1-2135.

Prior to issuing the temporary order, the Board shall give notice of the proposal to issue a temporary order to the person. The motion shall state specifically the purpose for the executive session. Reference to the motion and the stated purpose for the executive session shall be included in the minutes. The board of directors shall restrict the consideration of matters during such portions of meetings to only those purposes specifically exempted and stated in the motion. No contract, motion, or other action adopted, passed, or agreed to in executive session shall become effective unless the board of directors or subcommittee or other committee of the board of directors, following the executive session, reconvenes in open meeting and takes a vote on such contract, motion, or other action, which shall have its substance reasonably identified in the open meeting. The requirements of this section shall not require the disclosure of information in violation of law.

D. Subject to reasonable rules adopted by the board of directors, the board of directors shall provide a designated period during each meeting to allow members an opportunity to comment on any matter relating to the association. During a meeting at which the agenda is limited to specific topics or at a special meeting, the board of directors may limit the comments of members to the topics listed on the meeting agenda.

§ 55.1-1820. Display of the flag of the United States; necessary supporting structures; affirmative defense.

A. In accordance with the federal Freedom to Display the American Flag Act of 2005 (P.L. 109-243), no association shall prohibit any lot owner from displaying upon property to which the lot owner has a separate ownership interest or a right to exclusive possession or use the flag of the United States whenever such display is in compliance with Chapter 1 of Title 4 of the United States Code (4 U.S.C. § 1 et seq.), or any rule or custom pertaining to the proper display of the flag. The association may, however, establish reasonable restrictions as to the size, place, duration, and manner of placement or display of the flag on such property, provided that such restrictions are necessary to protect a substantial interest of the association.

B. The association may restrict the display of such flag in the common areas.

C. In any action brought by the association under § 55.1-1819 for violation of a flag restriction, the association shall bear the burden of proof that the restrictions as to the size, place, duration, and manner of placement or display of such flag are necessary to protect a substantial interest of the association.

D. In any action brought by the association under § 55.1-1819, the lot owner shall be entitled to assert as an affirmative defense that the required disclosure of any limitations pertaining to the display of flags or any flagpole or similar structure necessary to display such flags was not contained in the ~~disclosure packet~~ *resale certificate as* required ~~pursuant to~~ *by* § ~~55.1-1809~~ *55.1-2310*.

§ 55.1-1820.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the association establishes such a prohibition. However, an association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any ~~disclosure packet~~ *resale certificate issued* pursuant to § ~~55.1-1809~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the association. An association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-1822. Use of for sale signs in connection with sale.

Except as expressly authorized in this chapter or in the declaration or as otherwise provided by law, no ~~property owners'~~ association shall require the use of any for sale sign that is (i) an association sign or (ii) a real estate sign that does not comply with the requirements of the Real Estate Board. An association may, however, prohibit the placement of signs in the common area and establish reasonable rules and regulations that regulate (a) the number of real estate signs to be located on real property upon which the owner has a separate ownership interest or a right of exclusive possession, so long as at least one real estate sign is permitted; (b) the geographical location of real estate signs on real property in which the owner

has a separate ownership interest or a right of exclusive possession, so long as the location of the real estate signs complies with the requirements of the Real Estate Board; (c) the manner in which real estate signs are affixed to real property; and (d) the period of time after settlement when the real estate signs on such real property shall be removed.

§ 55.1-1823. Designation of authorized representative.

Except as expressly authorized in this chapter or in the declaration or as otherwise provided by law, no ~~property owners'~~ association shall require any lot owner to execute a formal power of attorney if the lot owner designates a person licensed under the provisions of § 54.1-2106.1 as the lot owner's authorized representative, and the association shall recognize such representation without a formal power of attorney, provided that the association is given a written authorization that includes the designated representative's name, contact information, and license number and the lot owner's signature. Notwithstanding the foregoing, the requirements of § 13.1-849 of the Virginia Nonstock Corporation Act (§ 13.1-801 et seq.) and the association's declaration, bylaws, and articles of incorporation shall be satisfied before any such representative may exercise a vote on behalf of a lot owner as a proxy.

§ 55.1-1904. Association charges.

Except as expressly authorized in this chapter, in the condominium instruments, or as otherwise provided by law, no unit owners' association may make an assessment or impose a charge against a unit owner unless the charge is (i) authorized under § 55.1-1964, (ii) a fee for services provided, or (iii) related to the provisions set out in § ~~55.1-1992~~ *55.1-2316*. The Common Interest Community Board may assess a monetary penalty for a violation of this section against any (a) unit owners' association pursuant to § 54.1-2351 or (b) common interest community manager pursuant to § 54.1-2349 and may issue a cease and desist order pursuant to § 54.1-2352.

§ 55.1-1937. Termination of condominium.

A. If there is no unit owner other than the declarant, the declarant may unilaterally terminate the condominium. An instrument terminating a condominium signed by the declarant is effective upon recordation of such instrument. But this section shall not be construed to nullify, limit, or otherwise affect the validity or enforceability of any agreement renouncing or to renounce, in whole or in part, the right hereby conferred.

B. Except in the case of a taking of all the units by eminent domain, if any of the units in the condominium is restricted exclusively to residential use and there is any unit owner other than the declarant, the condominium may be terminated only by the agreement of unit owners of units to which four-fifths of the votes in the unit owners' association appertain, or such larger majority as the condominium instruments may specify. If none of the units in the condominium is restricted exclusively to residential use, the condominium instruments may specify a majority smaller than the minimum specified in this subsection.

C. Agreement of the required majority of unit owners to termination of the condominium shall be evidenced by their execution of a termination agreement, or ratifications of such agreement, and such agreement is effective when a copy of the termination agreement is recorded together with a certification, signed by the principal officer of the unit owners' association or by such other officer as the condominium instruments may specify, that the requisite majority of the unit owners signed the termination agreement or ratifications. Unless the termination agreement otherwise provides, prior to recordation of the termination agreement, a unit owner's prior agreement to terminate the condominium may be revoked only with the approval of unit owners of units to which a majority of the votes in the unit owners' association appertain. Any unit owner acquiring a unit subsequent to approval of a termination agreement but prior to recordation of the termination agreement shall be deemed to have consented to the termination agreement. Upon approval of a termination agreement and until recordation of the termination agreement, a copy of the termination agreement shall be included with the resale certificate required by § ~~55.1-1990~~ *55.1-2309*. The termination agreement shall specify a date after which the termination agreement is void if the termination agreement is not recorded. For the purposes of this section, an instrument terminating a condominium and any ratification of such instrument shall be deemed a condominium instrument subject to the provisions of § 55.1-1911.

D. A termination agreement may provide that all of the common elements and units of the condominium shall be sold or otherwise disposed of following termination. If, pursuant to the termination agreement, any property in the condominium is sold or disposed of following termination, the termination agreement shall set forth the minimum terms of the sale or disposition.

E. In the case of a master condominium that contains a unit that is a part of another condominium, a termination agreement for the master condominium shall not terminate the other condominium.

F. On behalf of the unit owners, the unit owners' association may contract for the disposition of property in the condominium, but the contract shall not be binding on the unit owners until approved pursuant to subsections B and C. If the termination agreement requires that any property in the condominium be sold or otherwise disposed of following termination, title to the property, upon termination, shall vest in the unit owners' association as trustee for the holders of all interest in the units. Thereafter, the unit owners' association shall have powers necessary and appropriate to effect the sale or disposition. Until the termination has been concluded and the proceeds have been distributed, the unit owners' association shall continue in existence with all the powers the unit owners' association had before termination. Proceeds of the sale shall be distributed to unit owners and lien holders as their interests may appear, in proportion to the respective interests of the unit owners as provided in subsection I. Unless otherwise specified in the termination agreement, for as long as the unit owners' association holds title to the property, each unit owner or his successor in interest shall have an exclusive right to occupancy of the portion of the property that formerly constituted his unit. During the period that the unit owner or his

successor in interest has the right to occupancy, each unit owner or his successor in interest shall remain liable for any assessment or other obligation imposed on the unit owner by this chapter or the condominium instruments.

G. If the property that constitutes the condominium is not sold or otherwise disposed of following termination, title to all the property in the condominium shall vest in the unit owners, upon termination, as tenants in common in proportion to the unit owners' respective interests as provided in subsection I. In such an event, any liens on a unit shall shift accordingly, and a lien may be enforced only against a unit owner's tenancy in common interest, but the lien shall not encumber the entire property formerly constituting the condominium. While the tenancy in common exists, each unit owner or his successor in interest shall have the exclusive right to occupancy of the portion of the property that formerly constituted the unit owner's unit.

H. Following termination of the condominium, the proceeds of any sale of property, together with the assets of the unit owners' association, shall be held by the unit owners' association as trustee for unit owners or lien holders on the units as their interests may appear. Following termination, any creditor of the unit owners' association who holds a lien on the unit that was recorded before termination may enforce the lien in the same manner as any lien holder. Any other creditor of the unit owners' association shall be treated as if he had perfected a lien on the units immediately before termination.

I. Unless the condominium instruments as originally recorded or as amended by 100 percent of the unit owners provide otherwise, the respective interests of unit owners referred to in subsections F, G, and H shall be as follows:

1. Except as provided in subdivision 3, the respective interests of the unit owners shall be as set forth in the termination agreement.

2. Except as provided in subdivision 3, if the respective interests of the unit owners are based on the respective fair market values of their units, limited common elements, and common element interests immediately before the termination, the fair market values shall be determined by one or more independent appraisers selected by the unit owners' association. The decision of the independent appraisers shall be distributed to the unit owners and become final unless disapproved within 30 days after distribution by unit owners of units to which one quarter of the votes in the unit owners' association appertain. The proportion of any unit owner's interest to the interest of all unit owners is determined by dividing the fair market value of that unit owner's unit and common element interest by the total fair market values of all the units and their common element interests.

3. If the method of determining the respective interests of the unit owners in the proceeds of sale or disposition is other than the fair market values, then the association shall provide each unit owner with a notice stating the result of that method for his unit and, no later than 30 days after transmission of that notice, if 10 percent of the unit owners dispute the interest to be distributed to their units, those unit owners may require the association to obtain an independent appraisal of the condominium units. If the fair market value of the units of the objecting unit owners is at least 10 percent more than the amount that the unit owners would have received using the method agreed upon by the membership, then the association shall adjust the respective interests of the unit owners so that each unit owner's share is based on the fair market value for each unit. If the fair market value is less than 10 percent more than the amount that the objecting unit owners would have received using the agreed-upon method, then the agreed-upon method shall be implemented and the objecting unit owners shall receive the distribution less their pro rata share of the cost of their appraisal.

4. If the method of determining the respective interests of the unit owners cannot be implemented because any unit or limited common element is destroyed, the interests of all unit owners are the unit owners' respective common element interests immediately before the termination.

5. Unless the termination agreement provides otherwise, each unit owner shall satisfy and cause the release of any mortgage, deed of trust, lease, or other lien or encumbrance on his unit at the time required by the termination agreement.

J. Except as provided in subsection K, foreclosure of any mortgage, deed of trust, or other lien, or enforcement of a mortgage, deed of trust, or other lien or encumbrance against the entire condominium, shall not alone terminate the condominium, and foreclosure or enforcement of a lien or encumbrance against a portion of the condominium, other than withdrawable land, shall not withdraw that portion from the condominium. Foreclosure or enforcement of a lien or encumbrance against withdrawable land shall not alone withdraw the land from the condominium, but the person who takes title to the withdrawable land shall have the right to require from the unit owners' association, upon request, an amendment that excludes the land from the condominium.

K. If a lien or encumbrance against a portion of the property that comprises the condominium has priority over the condominium instruments and the lien or encumbrance has not been partially released, upon foreclosure, the parties foreclosing the lien or encumbrance may record an instrument that excludes the property subject to the lien or encumbrance from the condominium.

§ 55.1-1951. Display of the flag of the United States; necessary supporting structures; affirmative defense.

A. In accordance with the federal Freedom to Display the American Flag Act of 2005 (P.L. 109-243), no unit owners' association shall prohibit or otherwise adopt or enforce any policy restricting a unit owner from displaying upon property to which the unit owner has a separate ownership interest or a right to exclusive possession or use the flag of the United States whenever such display is in compliance with Chapter 1 of Title 4 of the United States Code (4 U.S.C. § 1 et seq.) or any rule or custom pertaining to the proper display of the flag. A unit owners' association may, however, establish reasonable restrictions as to the size, place, duration, and manner of placement or display of the flag on such property, provided that such restrictions are necessary to protect a substantial interest of the unit owners' association.

B. The unit owners' association may restrict the display of such flags in the common elements.

C. In any action brought by the unit owners' association under § 55.1-1959 for a violation of a flag restriction, the unit owners' association shall bear the burden of proof that the restrictions as to the size, place, duration, and manner of placement or display of such flag are necessary to protect a substantial interest of the unit owners' association.

D. In any action brought by the unit owners' association under § 55.1-1959, the unit owner shall be entitled to assert as an affirmative defense that the required disclosure of any limitation pertaining to the flag of the United States or any flagpole or similar structure necessary to display the flag of the United States was not contained in the public offering statement or resale certificate, as appropriate, required pursuant to § 55.1-1976 or ~~55.1-1991~~ *55.1-2309*.

§ 55.1-1951.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No unit owners' association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the unit owners' association establishes such a prohibition. However, a unit owners' association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any resale certificate pursuant to § ~~55.1-1990~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the unit owners' association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The unit owners' association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the unit owners' association. A unit owners' association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-1972. Exemptions from certain provisions of article.

A. Unless the method of offer or disposition is adopted for the purpose of evasion of this chapter, the provisions of §§ 55.1-1974 through 55.1-1979, subsections B and D of § 55.1-1982, and §§ ~~55.1-1990~~ ~~and~~ ~~55.1-1991~~ *55.1-2308 and 55.1-2309* do not apply to:

1. Dispositions pursuant to court order;

2. Dispositions by any government or government agency;

3. Offers by the declarant on nonbinding reservation agreements;

4. Dispositions in a residential condominium in which there are three or fewer units, so long as the condominium instruments do not reserve to the declarant the right to create additional condominium units; or

5. A disposition of a unit by a sale at an auction where a current public offering statement or resale certificate was made available as part of an auction package for prospective purchasers prior to the auction sale.

B. In cases of dispositions in a condominium where all units are restricted to nonresidential use, the provisions of §§ 55.1-1974 through 55.1-1983 shall not apply, unless the method of offer or disposition is adopted for the purpose of evasion of this chapter.

§ 55.1-2101. Applicability.

A. This chapter applies to all cooperatives created within the Commonwealth after July 1, 1982. Unless the declaration provides that the entire chapter is applicable, such a cooperative is subject only to §§ 55.1-2104 and 55.1-2105 if the cooperative contains only units restricted to nonresidential use or contains no more than three units and is not subject to any development rights.

B. Except as provided in subsection C, §§ 55.1-2100, 55.1-2104, 55.1-2105, 55.1-2109, 55.1-2114, and 55.1-2131, subdivisions A 1 through 6 and 11 through 17 of § 55.1-2133, and §§ 55.1-2143, 55.1-2148, 55.1-2151, ~~55.1-2161,~~ 55.1-2169, ~~and~~ 55.1-2170*, and 55.1-2309* apply to all cooperatives created in the Commonwealth before July 1, 1982. Those sections apply only with respect to events and circumstances occurring after July 1, 1982, and do not invalidate existing provisions of the cooperative documents of those cooperatives. With regard to any cooperative created before July 1, 1982, § 55.1-2104 applies only to real estate acquired by that cooperative's association on or after that date. For the purposes of this section, a cooperative was created before July 1, 1982, if the cooperative was conveyed to the association before that date.

C. If a cooperative created within the Commonwealth before July 1, 1982, contains no more than three units and is not subject to any development rights, it is subject only to §§ 55.1-2104 and 55.1-2105, unless the declaration is amended to make any or all of the sections enumerated in subsection B apply to that cooperative.

D. This chapter does not apply to cooperatives or cooperative interests located outside the Commonwealth, but the public offering statement provisions as given in §§ 55.1-2153 through 55.1-2160 apply to all contracts for the disposition of cooperative interests signed in the Commonwealth by any party, unless exempt under subsection B of § 55.1-2153. The

Common Interest Community Board regulations provisions under Article 5 (§ 55.1-2173 et seq.) apply to any such offering in the Commonwealth.

E. This chapter does not apply to any cooperatives that receive federal funding pursuant to the public housing or Section 8 program under the United States Housing Act of 1937, as amended.

F. This chapter does not apply to any cooperative that, when acquired by an association, is subject to a mortgage or deed of trust securing an indebtedness owed to any government or governmental authority to which the association has contractual obligations in addition to those set forth in such mortgage or deed of trust.

§ 55.1-2133. Powers of the association.

A. Except as provided in subsection B, and subject to the provisions of the declaration, the association, even if unincorporated, may:

1. Adopt and amend bylaws and rules and regulations;

2. Adopt and amend budgets for revenues, expenditures, and reserves and collect assessments for common expenses from proprietary lessees;

3. Hire and discharge managing agents and other employees, agents, and independent contractors;

4. Institute, defend, or intervene in litigation or administrative proceedings in its own name on behalf of itself or two or more proprietary lessees on matters affecting the cooperative;

5. Make contracts and incur liabilities;

6. Regulate the use, maintenance, repair, replacement, and modification of common elements;

7. Cause additional improvements to be made as a part of the common elements;

8. Acquire, hold, encumber, and convey in its own name any right, title, or interest to real or personal property, but part of the cooperative may be conveyed, or all or part of the cooperative may be subjected to, a security interest only pursuant to § 55.1-2144;

9. Grant easements, leases, licenses, and concessions through or over the common elements;

10. Impose and receive any payments, fees, or charges for the use, rental, or operation of the common elements, other than limited common elements described in subdivisions 2 and 4 of § 55.1-2113, and for services provided to proprietary lessees;

11. Impose charges for late payment of assessments and, after notice and an opportunity to be heard, levy fines not to exceed $50 for each instance for violations of the declaration, bylaws, and rules and regulations of the association;

12. Impose reasonable charges for the preparation and recordation of amendments to the declaration, resale certificates required by § ~~55.1-2161~~ *55.1-2309*, or statements of unpaid assessments;

13. Provide for the indemnification of its officers and executive board and maintain directors' and officers' liability insurance;

14. Assign its right to future income, including the right to receive common expense assessments, but only to the extent the declaration expressly so provides;

15. Exercise any other powers conferred by the declaration or bylaws;

16. Exercise all other powers that may be exercised in the Commonwealth by legal entities of the same type as the association; and

17. Exercise any other powers necessary and proper for the governance and operation of the association.

B. The declaration shall not impose limitations on the power of the association to deal with the declarant that are more restrictive than the limitations imposed on the power of the association to deal with other persons.

§ 55.1-2133.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the association establishes such a prohibition. However, an association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any resale certificate pursuant to § ~~55.1-2161~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the association. An association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-2151. Association records.

The association shall keep financial records sufficiently detailed to enable the association to comply with § ~~55.1-2161~~ *55.1-2309*. All financial and other records shall be made reasonably available for examination by any proprietary lessee and his authorized agents.

§ 55.1-2162. Escrow of deposits.

A. Any deposit made in connection with the purchase or reservation of a cooperative interest from a person required to deliver a public offering statement pursuant to subsection C of § 55.1-2154 shall be placed in escrow and held either in the Commonwealth or in the state in which the unit that is a part of that cooperative interest is located in an account designated solely for that purpose by a title insurance company, attorney, or real estate broker licensed under the laws of the Commonwealth, an independent bonded escrow company, or an institution whose accounts are insured by a governmental agency or instrumentality until (i) delivered to the declarant at closing, (ii) delivered to the declarant because of the purchaser's default under a contract to purchase the cooperative interest, or (iii) refunded to the purchaser.

B. Any deposit made in connection with the purchase of a cooperative interest from a person not required to deliver a public offering statement shall be placed in escrow in the same manner as prescribed in subsection A. Upon receipt of the *resale* certificate called for in § ~~55.1-2161~~ *55.1-2309*, should the purchaser elect to void the contract, the seller may deduct the actual charges by the association for preparation of the certificate. Otherwise, the deposit shall be promptly returned to the purchaser.

Nothing in this article shall prohibit a licensee and a client from agreeing in writing to a brokerage relationship under which the licensee acts as an independent contractor or which imposes on a licensee obligations in addition to those provided in this article. If a licensee agrees to additional obligations, however, the licensee shall be responsible for the additional obligations agreed to with the client in the brokerage

agreement. A real estate licensee who enters into a brokerage relationship based upon a written brokerage agreement that specifically states that the real estate licensee is acting as an independent contractor and not as an agent shall have the obligations agreed to by the parties in the brokerage agreement, and such real estate licensee and its employees shall comply with the provisions of subdivisions A 3 through 7 and subsections B and E of § 54.1-2131; subdivisions A 3 through 7 and subsections B and E of § 54.1-2132; subdivisions A 3 through 7 and subsections B and E of § 54.1-2133; subdivisions A 3 through 7 and subsections B and E of § 54.1-2134; and subdivisions A 2 through 6 and subsections C and D of § 54.1-2135 but otherwise shall have no obligations under §§ 54.1-2131 through 54.1-2135. § 54.1-2351. General powers and duties of Board concerning associations.

A. The Board may adopt, amend, and repeal rules and regulations and issue orders consistent with and in furtherance of the objectives of this article, but the Board may not intervene in the internal activities of an association except to the extent necessary to prevent or cure violations of this article or of the chapter pursuant to which the association is created. The Board may prescribe forms and procedures for submitting information to the Board.

B. If it appears that any governing board has engaged, is engaging, or is about to engage in any act or practice in violation of this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders, the Board without prior administrative proceedings may bring an action in the appropriate court to enjoin that act or practice or for other appropriate relief. The Board is not required to post a bond or prove that no adequate remedy at law exists.

C. The Board may intervene in any action involving a violation by a declarant or a developer of a time-share project of this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders.

D. The Board may accept grants-in-aid from any governmental source and may contract with agencies charged with similar functions in this or other jurisdictions in furtherance of the objectives of this article.

E. The Board may cooperate with agencies performing similar functions in this and other jurisdictions to develop uniform filing procedures and forms, uniform disclosure standards, and uniform administrative practices, and may develop information that may be useful in the discharge of the Board's duties.

F. In issuing any cease and desist order, the Board shall state the basis for the adverse determination and the underlying facts.

G. Without limiting the remedies that may be obtained under this article, the Board, without compliance with the Administrative Process Act (§ 2.2-4000 et seq.), shall have the authority to enforce the provisions of this section and may institute proceedings in equity to enjoin any person, partnership, corporation, or any other entity violating this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders. Such proceedings shall be brought in the name of the Commonwealth by the Board in the circuit court or general district court of the city or county in which the unlawful act occurred or in which the defendant resides.

H. The Board may assess a monetary penalty to be paid to the Common Interest Community Management Information Fund of not more than $1,000 per violation against any governing board that violates any provision of this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders. In determining the amount of the penalty, the Board shall consider the degree and extent of harm caused by the violation. No monetary penalty may be assessed under this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders unless the governing board has been given notice and an opportunity to be heard pursuant to the Administrative Process Act (§ 2.2-4000 et seq.). The penalty may be sued for and recovered in the name of the Commonwealth.

§ 54.1-2352. Cease and desist orders.

A. The Board may issue an order requiring the governing board of the association to cease and desist from the unlawful practice and to take such affirmative action as in the judgment of the Board will carry out the purposes of this article, if the Board determines after notice and hearing that the governing board of an association has:

1. Violated any statute or regulation of the Board governing the association regulated pursuant to this article, including engaging in any act or practice in violation of this article, the Property Owners' Association Act (§ 55.1-1800 et seq.), the Virginia Condominium Act (§ 55.1-1900 et seq.), the Virginia Real Estate Cooperative Act (§ 55.1-2100 et seq.), ~~or~~ the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), *the Resale Disclosure Act (§ 55.1-2307 et seq.),* or any of the Board's regulations or orders;

2. Failed to register as an association or to file an annual report as required by statute or regulation;

3. Materially misrepresented facts in an application for registration or an annual report; or

4. Willfully refused to furnish the Board information or records required or requested pursuant to statute or regulation.

B. If the Board makes a finding of fact in writing that the public interest will be irreparably harmed by delay in issuing an order, it may issue a temporary order to cease and desist or to take such affirmative action as may be deemed appropriate by the Board. Prior to issuing the temporary order, the Board shall give notice of the proposal to issue a temporary order to the person. Every temporary order shall include in its terms a provision that upon request a hearing will be held promptly to determine whether or not it becomes permanent.

"Declaration" includes any amendment or supplement to the instruments described in this definition. "Declaration" does not include a declaration of a condominium, real estate cooperative, time-share project, or campground.

"Development" means real property located within the Commonwealth subject to a declaration which contains both lots, at least some of which are residential or are occupied for recreational purposes, and common areas with respect to

§ 55.1-1802. Developer to register and file annual report; payment of real estate taxes attributable to the common area.

A. Unless control of the association has been transferred to the members, the developer shall register the association with the Common Interest Community Board within 30 days after recordation of the declaration and thereafter shall ensure that the report required pursuant to § 55.1-1835 *and any required update* has been filed.

B. Upon the transfer of the common area to the association, the developer shall pay all real estate taxes attributable to the open or common space as defined in § 58.1-3284.1 through the date of the transfer to the association.

§ 55.1-1805. Association charges.

Except as expressly authorized in this chapter, in the declaration, or otherwise provided by law, no association shall (i) make an assessment or impose a charge against a lot or a lot owner unless the charge is a fee for services provided or related to use of the common area or (ii) charge a fee related to the ~~provisions set out in § 55.1-1810 or 55.1-1811 that is not~~ *issuance of a resale certificate pursuant to § 55.1-2309 or 55.1-2311 except as* expressly authorized in ~~those sections~~ *§ 55.1-2316*. Nothing in this chapter shall be construed to authorize an association or common interest community manager to charge an inspection fee for an unimproved or improved lot except as provided in § ~~55.1-1810 or 55.1-1811~~ *55.1-2316*. The Common Interest Community Board may assess a monetary penalty for a violation of this section against any (a) association pursuant to § 54.1-2351 or (b) common interest community manager pursuant to § 54.1-2349, and may issue a cease and desist order pursuant to § 54.1-2352.

§ 55.1-1816. Meetings of the board of directors.

A. All meetings of the board of directors, including any subcommittee or other committee of the board of directors, where the business of the association is discussed or transacted shall be open to all members of record. The board of directors shall not use work sessions or other informal gatherings of the board of directors to circumvent the open meeting requirements of this section. Minutes of the meetings of the board of directors shall be recorded and shall be available as provided in subsection B of § 55.1-1815.

B. Notice of the time, date, and place of each meeting of the board of directors or of any subcommittee or other committee of the board of directors shall be published where it is reasonably calculated to be available to a majority of the lot owners.

A lot owner may make a request to be notified on a continual basis of any such meetings. Such request shall be made at least once a year in writing and include the lot owner's name, address, zip code, and any email address as appropriate. Notice of the time, date, and place shall be sent to any lot owner requesting notice (i) by first-class mail or email in the case of meetings of the board of directors or (ii) by email in the case of meetings of any subcommittee or other committee of the board of directors.

Notice, reasonable under the circumstances, of special or emergency meetings shall be given contemporaneously with the notice provided to members of the association's board of directors or any subcommittee or other committee of the board of directors conducting the meeting.

Unless otherwise exempt as relating to an executive session pursuant to subsection C, at least one copy of all agenda packets and materials furnished to members of an association's board of directors or subcommittee or other committee of the board of directors for a meeting shall be made available for inspection by the membership of the association at the same time such documents are furnished to the members of the board of directors or any subcommittee or committee of the board of directors.

Any member may record any portion of a meeting that is required to be open. The board of directors or subcommittee or other committee of the board of directors conducting the meeting may adopt rules (a) governing the placement and use of equipment necessary for recording a meeting to prevent interference with the proceedings and (b) requiring the member recording the meeting to provide notice that the meeting is being recorded.

Except for the election of officers, voting by secret or written ballot in an open meeting shall be a violation of this chapter.

C. The board of directors or any subcommittee or other committee of the board of directors may (i) convene in executive session to consider personnel matters; (ii) consult with legal counsel; (iii) discuss and consider contracts, pending or probable litigation, and matters involving violations of the declaration or rules and regulations ~~adopted pursuant to such declaration for which a member or his family members, tenants, guests, or other invitees are responsible~~; or (iv) discuss and consider the personal liability of members to the association, upon the affirmative vote in an open meeting to assemble in executive session. The motion shall state specifically the purpose for the executive session. Reference to the motion and the stated purpose for the executive session shall be included in the minutes. The board of directors shall restrict the consideration of matters during such portions of meetings to only those purposes specifically exempted and stated in the motion. No contract, motion, or other action adopted, passed, or agreed to in executive session shall become effective unless the board of directors or subcommittee or other committee of the board of directors, following the executive session, reconvenes in open meeting and takes a vote on such contract, motion, or other action, which shall have its substance reasonably identified in the open meeting. The requirements of this section shall not require the disclosure of information in violation of law.

D. Subject to reasonable rules adopted by the board of directors, the board of directors shall provide a designated period during each meeting to allow members an opportunity to comment on any matter relating to the association. During a meeting at which the agenda is limited to specific topics or at a special meeting, the board of directors may limit the comments of members to the topics listed on the meeting agenda.

§ 55.1-1820. Display of the flag of the United States; necessary supporting structures; affirmative defense.

A. In accordance with the federal Freedom to Display the American Flag Act of 2005 (P.L. 109-243), no association shall prohibit any lot owner from displaying upon property to which the lot owner has a separate ownership interest or a right to exclusive possession or use the flag of the United States whenever such display is in compliance with Chapter 1 of Title 4 of the United States Code (4 U.S.C. § 1 et seq.), or any rule or custom pertaining to the proper display of the flag. The association may, however, establish reasonable restrictions as to the size, place, duration, and manner of placement or display of the flag on such property, provided that such restrictions are necessary to protect a substantial interest of the association.

B. The association may restrict the display of such flag in the common areas.

C. In any action brought by the association under § 55.1-1819 for violation of a flag restriction, the association shall bear the burden of proof that the restrictions as to the size, place, duration, and manner of placement or display of such flag are necessary to protect a substantial interest of the association.

D. In any action brought by the association under § 55.1-1819, the lot owner shall be entitled to assert as an affirmative defense that the required disclosure of any limitations pertaining to the display of flags or any flagpole or similar structure necessary to display such flags was not contained in the ~~disclosure packet~~ *resale certificate as* required ~~pursuant to~~ *by* § ~~55.1-1809~~ *55.1-2310*.

§ 55.1-1820.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the association establishes such a prohibition. However, an association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any ~~disclosure packet~~ *resale certificate issued* pursuant to § ~~55.1-1809~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the association. An association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-1822. Use of for sale signs in connection with sale.

Except as expressly authorized in this chapter or in the declaration or as otherwise provided by law, no ~~property owners'~~ association shall require the use of any for sale sign that is (i) an association sign or (ii) a real estate sign that does not comply with the requirements of the Real Estate Board. An association may, however, prohibit the placement of signs in the common area and establish reasonable rules and regulations that regulate (a) the number of real estate signs to be located on real property upon which the owner has a separate ownership interest or a right of exclusive possession, so long as at least one real estate sign is permitted; (b) the geographical location of real estate signs on real property in which the owner has a separate ownership interest or a right of exclusive possession, so long as the location of the real estate signs complies with the requirements of the Real Estate Board; (c) the manner in which real estate signs are affixed to real property; and (d) the period of time after settlement when the real estate signs on such real property shall be removed.

§ 55.1-1823. Designation of authorized representative.

Except as expressly authorized in this chapter or in the declaration or as otherwise provided by law, no ~~property owners'~~ association shall require any lot owner to execute a formal power of attorney if the lot owner designates a person licensed under the provisions of § 54.1-2106.1 as the lot owner's authorized representative, and the association shall recognize such representation without a formal power of attorney, provided that the association is given a written authorization that includes the designated representative's name, contact information, and license number and the lot owner's signature. Notwithstanding the foregoing, the requirements of § 13.1-849 of the Virginia Nonstock Corporation Act (§ 13.1-801 et seq.) and the association's declaration, bylaws, and articles of incorporation shall be satisfied before any such representative may exercise a vote on behalf of a lot owner as a proxy.

§ 55.1-1904. Association charges.

Except as expressly authorized in this chapter, in the condominium instruments, or as otherwise provided by law, no unit owners' association may make an assessment or impose a charge against a unit owner unless the charge is (i) authorized under § 55.1-1964, (ii) a fee for services provided, or (iii) related to the provisions set out in § ~~55.1-1992~~ *55.1-2316*. The Common Interest Community Board may assess a monetary penalty for a violation of this section against any (a) unit owners' association pursuant to § 54.1-2351 or (b) common interest community manager pursuant to § 54.1-2349 and may issue a cease and desist order pursuant to § 54.1-2352.

§ 55.1-1937. Termination of condominium.

A. If there is no unit owner other than the declarant, the declarant may unilaterally terminate the condominium. An instrument terminating a condominium signed by the declarant is effective upon recordation of such instrument. But this section shall not be construed to nullify, limit, or otherwise affect the validity or enforceability of any agreement renouncing or to renounce, in whole or in part, the right hereby conferred.

B. Except in the case of a taking of all the units by eminent domain, if any of the units in the condominium is restricted exclusively to residential use and there is any unit owner other than the declarant, the condominium may be terminated only by the agreement of unit owners of units to which four-fifths of the votes in the unit owners' association appertain, or such larger majority as the condominium instruments may specify. If none of the units in the condominium is restricted exclusively to residential use, the condominium instruments may specify a majority smaller than the minimum specified in this subsection.

C. Agreement of the required majority of unit owners to termination of the condominium shall be evidenced by their execution of a termination agreement, or ratifications of such agreement, and such agreement is effective when a copy of the termination agreement is recorded together with a certification, signed by the principal officer of the unit owners' association or by such other officer as the condominium instruments may specify, that the requisite majority of the unit owners signed the termination agreement or ratifications. Unless the termination agreement otherwise provides, prior to recordation of the termination agreement, a unit owner's prior agreement to terminate the condominium may be revoked only with the approval of unit owners of units to which a majority of the votes in the unit owners' association appertain. Any unit owner acquiring a unit subsequent to approval of a termination agreement but prior to recordation of the termination agreement shall be deemed to have consented to the termination agreement. Upon approval of a termination agreement and until recordation of the termination agreement, a copy of the termination agreement shall be included with the resale certificate required by § ~~55.1-1990~~ *55.1-2309*. The termination agreement shall specify a date after which the termination agreement is void if the termination agreement is not recorded. For the purposes of this section, an instrument terminating a condominium and any ratification of such instrument shall be deemed a condominium instrument subject to the provisions of § 55.1-1911.

D. A termination agreement may provide that all of the common elements and units of the condominium shall be sold or otherwise disposed of following termination. If, pursuant to the termination agreement, any property in the condominium is sold or disposed of following termination, the termination agreement shall set forth the minimum terms of the sale or disposition.

E. In the case of a master condominium that contains a unit that is a part of another condominium, a termination agreement for the master condominium shall not terminate the other condominium.

F. On behalf of the unit owners, the unit owners' association may contract for the disposition of property in the condominium, but the contract shall not be binding on the unit owners until approved pursuant to subsections B and C. If the termination agreement requires that any property in the condominium be sold or otherwise disposed of following termination, title to the property, upon termination, shall vest in the unit owners' association as trustee for the holders of all interest in the units. Thereafter, the unit owners' association shall have powers necessary and appropriate to effect the sale or disposition. Until the termination has been concluded and the proceeds have been distributed, the unit owners' association shall continue in existence with all the powers the unit owners' association had before termination. Proceeds of the sale shall be distributed to unit owners and lien holders as their interests may appear, in proportion to the respective interests of the unit owners as provided in subsection I. Unless otherwise specified in the termination agreement, for as long as the unit owners' association holds title to the property, each unit owner or his successor in interest shall have an exclusive right to occupancy of the portion of the property that formerly constituted his unit. During the period that the unit owner or his successor in interest has the right to occupancy, each unit owner or his successor in interest shall remain liable for any assessment or other obligation imposed on the unit owner by this chapter or the condominium instruments.

G. If the property that constitutes the condominium is not sold or otherwise disposed of following termination, title to all the property in the condominium shall vest in the unit owners, upon termination, as tenants in common in proportion to the unit owners' respective interests as provided in subsection I. In such an event, any liens on a unit shall shift accordingly, and a lien may be enforced only against a unit owner's tenancy in common interest, but the lien shall not encumber the entire property formerly constituting the condominium. While the tenancy in common exists, each unit owner or his successor in interest shall have the exclusive right to occupancy of the portion of the property that formerly constituted the unit owner's unit.

H. Following termination of the condominium, the proceeds of any sale of property, together with the assets of the unit owners' association, shall be held by the unit owners' association as trustee for unit owners or lien holders on the units as their interests may appear. Following termination, any creditor of the unit owners' association who holds a lien on the unit that was recorded before termination may enforce the lien in the same manner as any lien holder. Any other creditor of the unit owners' association shall be treated as if he had perfected a lien on the units immediately before termination.

I. Unless the condominium instruments as originally recorded or as amended by 100 percent of the unit owners provide otherwise, the respective interests of unit owners referred to in subsections F, G, and H shall be as follows:

1. Except as provided in subdivision 3, the respective interests of the unit owners shall be as set forth in the termination agreement.

2. Except as provided in subdivision 3, if the respective interests of the unit owners are based on the respective fair market values of their units, limited common elements, and common element interests immediately before the termination, the fair market values shall be determined by one or more independent appraisers selected by the unit owners' association. The decision of the independent appraisers shall be distributed to the unit owners and become final unless disapproved within 30 days after distribution by unit owners of units to which one quarter of the votes in the unit owners' association appertain. The proportion of any unit owner's interest to the interest of all unit owners is determined by dividing the fair market value of that unit owner's unit and common element interest by the total fair market values of all the units and their common element interests.

3. If the method of determining the respective interests of the unit owners in the proceeds of sale or disposition is other than the fair market values, then the association shall provide each unit owner with a notice stating the result of that method for his unit and, no later than 30 days after transmission of that notice, if 10 percent of the unit owners dispute the interest to be distributed to their units, those unit owners may require the association to obtain an independent appraisal of the condominium units. If the fair market value of the units of the objecting unit owners is at least 10 percent more than the amount that the unit owners would have received using the method agreed upon by the membership, then the association shall adjust the respective interests of the unit owners so that each unit owner's share is based on the fair market value for each unit. If the fair market value is less than 10 percent more than the amount that the objecting unit owners would have received using the agreed-upon method, then the agreed-upon method shall be implemented and the objecting unit owners shall receive the distribution less their pro rata share of the cost of their appraisal.

4. If the method of determining the respective interests of the unit owners cannot be implemented because any unit or limited common element is destroyed, the interests of all unit owners are the unit owners' respective common element interests immediately before the termination.

5. Unless the termination agreement provides otherwise, each unit owner shall satisfy and cause the release of any mortgage, deed of trust, lease, or other lien or encumbrance on his unit at the time required by the termination agreement.

J. Except as provided in subsection K, foreclosure of any mortgage, deed of trust, or other lien, or enforcement of a mortgage, deed of trust, or other lien or encumbrance against the entire condominium, shall not alone terminate the condominium, and foreclosure or enforcement of a lien or encumbrance against a portion of the condominium, other than withdrawable land, shall not withdraw that portion from the condominium. Foreclosure or enforcement of a lien or encumbrance against withdrawable land shall not alone withdraw the land from the condominium, but the person who takes title to the withdrawable land shall have the right to require from the unit owners' association, upon request, an amendment that excludes the land from the condominium.

K. If a lien or encumbrance against a portion of the property that comprises the condominium has priority over the condominium instruments and the lien or encumbrance has not been partially released, upon foreclosure, the parties

foreclosing the lien or encumbrance may record an instrument that excludes the property subject to the lien or encumbrance from the condominium.

§ 55.1-1951. Display of the flag of the United States; necessary supporting structures; affirmative defense.

A. In accordance with the federal Freedom to Display the American Flag Act of 2005 (P.L. 109-243), no unit owners' association shall prohibit or otherwise adopt or enforce any policy restricting a unit owner from displaying upon property to which the unit owner has a separate ownership interest or a right to exclusive possession or use the flag of the United States whenever such display is in compliance with Chapter 1 of Title 4 of the United States Code (4 U.S.C. § 1 et seq.) or any rule or custom pertaining to the proper display of the flag. A unit owners' association may, however, establish reasonable restrictions as to the size, place, duration, and manner of placement or display of the flag on such property, provided that such restrictions are necessary to protect a substantial interest of the unit owners' association.

B. The unit owners' association may restrict the display of such flags in the common elements.

C. In any action brought by the unit owners' association under § 55.1-1959 for a violation of a flag restriction, the unit owners' association shall bear the burden of proof that the restrictions as to the size, place, duration, and manner of placement or display of such flag are necessary to protect a substantial interest of the unit owners' association.

D. In any action brought by the unit owners' association under § 55.1-1959, the unit owner shall be entitled to assert as an affirmative defense that the required disclosure of any limitation pertaining to the flag of the United States or any flagpole or similar structure necessary to display the flag of the United States was not contained in the public offering statement or resale certificate, as appropriate, required pursuant to § 55.1-1976 or ~~55.1-1991~~ *55.1-2309*.

§ 55.1-1951.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No unit owners' association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the unit owners' association establishes such a prohibition. However, a unit owners' association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any resale certificate pursuant to § ~~55.1-1990~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the unit owners' association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The unit owners' association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the unit owners' association. A unit owners' association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-1972. Exemptions from certain provisions of article.

A. Unless the method of offer or disposition is adopted for the purpose of evasion of this chapter, the provisions of §§ 55.1-1974 through 55.1-1979, subsections B and D of § 55.1-1982, and §§ ~~55.1-1990~~ ~~and~~ ~~55.1-1991~~ *55.1-2308 and 55.1-2309* do not apply to:

1. Dispositions pursuant to court order;

2. Dispositions by any government or government agency;

3. Offers by the declarant on nonbinding reservation agreements;

4. Dispositions in a residential condominium in which there are three or fewer units, so long as the condominium instruments do not reserve to the declarant the right to create additional condominium units; or

5. A disposition of a unit by a sale at an auction where a current public offering statement or resale certificate was made available as part of an auction package for prospective purchasers prior to the auction sale.

B. In cases of dispositions in a condominium where all units are restricted to nonresidential use, the provisions of §§ 55.1-1974 through 55.1-1983 shall not apply, unless the method of offer or disposition is adopted for the purpose of evasion of this chapter.

§ 55.1-2101. Applicability.

A. This chapter applies to all cooperatives created within the Commonwealth after July 1, 1982. Unless the declaration provides that the entire chapter is applicable, such a cooperative is subject only to §§ 55.1-2104 and 55.1-2105 if the cooperative contains only units restricted to nonresidential use or contains no more than three units and is not subject to any development rights.

B. Except as provided in subsection C, §§ 55.1-2100, 55.1-2104, 55.1-2105, 55.1-2109, 55.1-2114, and 55.1-2131, subdivisions A 1 through 6 and 11 through 17 of § 55.1-2133, and §§ 55.1-2143, 55.1-2148, 55.1-2151, ~~55.1-2161,~~ 55.1-2169, ~~and~~ 55.1-2170*, and 55.1-2309* apply to all cooperatives created in the Commonwealth before July 1, 1982.

Those sections apply only with respect to events and circumstances occurring after July 1, 1982, and do not invalidate existing provisions of the cooperative documents of those cooperatives. With regard to any cooperative created before July 1, 1982, § 55.1-2104 applies only to real estate acquired by that cooperative's association on or after that date. For the purposes of this section, a cooperative was created before July 1, 1982, if the cooperative was conveyed to the association before that date.

C. If a cooperative created within the Commonwealth before July 1, 1982, contains no more than three units and is not subject to any development rights, it is subject only to §§ 55.1-2104 and 55.1-2105, unless the declaration is amended to make any or all of the sections enumerated in subsection B apply to that cooperative.

D. This chapter does not apply to cooperatives or cooperative interests located outside the Commonwealth, but the public offering statement provisions as given in §§ 55.1-2153 through 55.1-2160 apply to all contracts for the disposition of cooperative interests signed in the Commonwealth by any party, unless exempt under subsection B of § 55.1-2153. The Common Interest Community Board regulations provisions under Article 5 (§ 55.1-2173 et seq.) apply to any such offering in the Commonwealth.

E. This chapter does not apply to any cooperatives that receive federal funding pursuant to the public housing or Section 8 program under the United States Housing Act of 1937, as amended.

F. This chapter does not apply to any cooperative that, when acquired by an association, is subject to a mortgage or deed of trust securing an indebtedness owed to any government or governmental authority to which the association has contractual obligations in addition to those set forth in such mortgage or deed of trust.

§ 55.1-2133. Powers of the association.

A. Except as provided in subsection B, and subject to the provisions of the declaration, the association, even if unincorporated, may:

1. Adopt and amend bylaws and rules and regulations;

2. Adopt and amend budgets for revenues, expenditures, and reserves and collect assessments for common expenses from proprietary lessees;

5. Make contracts and incur liabilities;

6. Regulate the use, maintenance, repair, replacement, and modification of common elements;

7. Cause additional improvements to be made as a part of the common elements;

8. Acquire, hold, encumber, and convey in its own name any right, title, or interest to real or personal property, but part of the cooperative may be conveyed, or all or part of the cooperative may be subjected to, a security interest only pursuant to § 55.1-2144;

9. Grant easements, leases, licenses, and concessions through or over the common elements;

10. Impose and receive any payments, fees, or charges for the use, rental, or operation of the common elements, other than limited common elements described in subdivisions 2 and 4 of § 55.1-2113, and for services provided to proprietary lessees;

11. Impose charges for late payment of assessments and, after notice and an opportunity to be heard, levy fines not to exceed $50 for each instance for violations of the declaration, bylaws, and rules and regulations of the association;

13. Provide for the indemnification of its officers and executive board and maintain directors' and officers' liability insurance;

14. Assign its right to future income, including the right to receive common expense assessments, but only to the extent the declaration expressly so provides;

15. Exercise any other powers conferred by the declaration or bylaws;

16. Exercise all other powers that may be exercised in the Commonwealth by legal entities of the same type as the association; and

17. Exercise any other powers necessary and proper for the governance and operation of the association.

B. The declaration shall not impose limitations on the power of the association to deal with the declarant that are more restrictive than the limitations imposed on the power of the association to deal with other persons.

§ 55.1-2133.1. Installation of solar energy collection devices.

A. As used in this section, "solar energy collection device" means any device manufactured and sold for the sole purpose of facilitating the collection and beneficial use of solar energy, including passive heating panels or building components and solar photovoltaic apparatus.

B. No association shall prohibit an owner from installing a solar energy collection device on that owner's property unless the recorded declaration for the association establishes such a prohibition. However, an association may establish reasonable restrictions concerning the size, place, and manner of placement of such solar energy collection devices on property designated and intended for individual ownership and use. Any resale certificate pursuant to § ~~55.1-2161~~ *55.1-2309* given to a purchaser shall contain a statement setting forth any restriction, limitation, or prohibition on the right of an owner to install or use solar energy collection devices on his property.

C. A restriction shall be deemed not to be reasonable if application of the restriction to a particular proposal (i) increases the cost of installation of the solar energy collection device by five percent over the projected cost of the initially proposed installation or (ii) reduces the energy production by the solar energy collection device by 10 percent below the projected energy production of the initially proposed installation. The owner shall provide documentation prepared by an independent solar panel design specialist, who is certified by the North American Board of Certified Energy Practitioners and is licensed in Virginia, that is satisfactory to the association to show that the restriction is not reasonable according to the criteria established in this subsection.

D. The association may prohibit or restrict the installation of solar energy collection devices on the common elements or common area within the real estate development served by the association. An association may establish reasonable restrictions as to the number, size, place, and manner of placement or installation of any solar energy collection device installed on the common elements or common area.

§ 55.1-2151. Association records.

The association shall keep financial records sufficiently detailed to enable the association to comply with § ~~55.1-2161~~ *55.1-2309*. All financial and other records shall be made reasonably available for examination by any proprietary lessee and his authorized agents.

§ 55.1-2162. Escrow of deposits.

A. Any deposit made in connection with the purchase or reservation of a cooperative interest from a person required to deliver a public offering statement pursuant to subsection C of § 55.1-2154 shall be placed in escrow and held either in the Commonwealth or in the state in which the unit that is a part of that cooperative interest is located in an account designated solely for that purpose by a title insurance company, attorney, or real estate broker licensed under the laws of the Commonwealth, an independent bonded escrow company, or an institution whose accounts are insured by a governmental agency or instrumentality until (i) delivered to the declarant at closing, (ii) delivered to the declarant because of the purchaser's default under a contract to purchase the cooperative interest, or (iii) refunded to the purchaser.

B. Any deposit made in connection with the purchase of a cooperative interest from a person not required to deliver a public offering statement shall be placed in escrow in the same manner as prescribed in subsection A. Upon receipt of the *resale* certificate called for in § ~~55.1-2161~~ *55.1-2309*, should the purchaser elect to void the contract, the seller may deduct the actual charges by the association for preparation of the certificate. Otherwise, the deposit shall be promptly returned to the purchaser.

A. An association may charge a post-closing fee and fees for preparation, delivery, and expedited delivery of a resale certificate, an updated resale certificate, or financial update and for the inspection of a unit performed to prepare the resale certificate or updated resale certificate. The seller shall be responsible for all fees associated with the preparation and delivery of the resale certificate, including any fees for inspection of the unit. The requesting party shall pay any fees for the preparation and delivery of the updated resale certificate or financial update.

B. The Common Interest Community Board shall establish the maximum fees that the association may charge for such post-closing and preparation, delivery, and inspection; such maximum fees shall be commercially reasonable and consistent with the effort required to comply with the resale certificate requirements. The maximum allowable fees, as published by the Common Interest Community Board and effective as of January 12, 2023, shall be adjusted no less than every five years, as of January 1 of that year, in an amount not less than the annual increases for that five-year period in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the U.S. Department of Labor or an equivalent successor index.

C. The association shall publish and make available a schedule of the applicable fees (i) for preparation and delivery of the resale certificate, updated resale certificate, and financial update; (ii) for the inspection of a unit; and (iii) related to any post-closing costs.

D. A post-closing fee to be collected at settlement may be imposed on the purchaser of the property for the purpose of establishing the purchaser as the owner of the property in the records of the association.

E. No association may collect fees authorized by this section unless the association (i) is registered with the Common Interest Community Board; (ii) is current in filing the most recent annual report and fee with the Common Interest Community Board pursuant to § 55.1-1835; (iii) is current in paying any assessment made by the Common Interest Community Board pursuant to § 54.1-2354.5; and (iv) provides the option to receive the disclosure packet electronically.

CHAPTER 389

An Act to amend and reenact § 10.1-1801.1 of the Code of Virginia, relating to Open-Space Lands Preservation Trust Fund; use of funds; conservation easements to nonprofit land trust.

[S 1122]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 10.1-1801.1 of the Code of Virginia is amended and reenacted as follows:

§ 10.1-1801.1. Open-Space Lands Preservation Trust Fund.

A. The Foundation shall establish, administer, manage, including the creation of reserves, and make expenditures and allocations from a special nonreverting fund in the state treasury to be known as the Open-Space Lands Preservation Trust Fund, hereinafter referred to as the Fund. The Foundation shall establish and administer the Fund solely for the purpose of

providing grants in accordance with this section to localities acquiring fee simple title or other rights, interests, or privileges in property*, to localities for persons conveying conservation easements to nonprofit land trusts,* or *to* persons conveying to the Foundation fee simple title or other rights, interests, or privileges in property on agricultural, forestal, or other open-space land pursuant to the Open-Space Land Act (§ 10.1-1700 et seq.) and, if applicable, the Virginia Conservation Easement Act (§ 10.1-1009 et seq.).

B. The Fund shall consist of general fund moneys, gifts, endowments or grants from the United States government, its agencies and instrumentalities, and funds from any other available sources, public or private.

C. Any moneys remaining in the Fund at the end of a biennium shall remain in the Fund, and shall not revert to the general fund. Interest earned on moneys received by the Fund shall remain in the Fund and be credited to it.

D. The purpose of grants made from the Fund shall be to aid *(i)* localities acquiring fee simple title or other rights, interests, or privileges in property ~~or~~*; (ii)* persons conveying to the Foundation fee simple title or other rights, interests, or privileges in property ~~with~~*; or (iii) localities to provide funding for projects approved by the Foundation to persons conveying conservation easements to nonprofit land trusts so long as such easement has a local coholder. Such grants may be used for* the costs associated with the conveyance of the property interest, which may include legal costs, appraisal costs, or all or part of the value of the property interest. In cases where a grant is used to purchase all or part of the value of a property interest, moneys from the Fund may also be used by the Foundation to pay for an appraisal, provided that the appraisal is the only appraisal paid for by the Foundation in the acquisition of a particular property interest. To be eligible for a grant award, the property interest shall be *(a)* compliant with the Open-Space Land Act (§ 10.1-1700 et seq.) *or (b) a conservation easement under the Virginia Conservation Easement Act (§ 10.1-1009 et seq.), so long as the holder of such easement is accredited by the Land Trust Accreditation Commission or its designated subsidiary entity at the time of the grant award. If the Land Trust Accreditation Commission accreditation is not available at the time of the grant application for such holder under clause (b), the Foundation shall evaluate such holder on a case-by-case basis consistent with its established guidelines. For the purposes of this subsection, "local coholder" means the governing body of the locality in which the easement is located, a public recreational facilities authority, any other local entity authorized by statute to hold open-space easements, or a soil and water conservation district, if authorized to hold an easement under the Open-Space Land Act.*

E. The Foundation shall establish guidelines for submittal and evaluation of grant applications. In evaluating grant applications, the Foundation may give priority to applications that:

1. Request a grant to pay only legal and appraisal fees for a property interest that is being donated by the landowner;

2. Request a grant to pay costs associated with conveying a property interest on a family-owned or family-operated farm; or

3. Demonstrate the applicant's financial need for a grant.

F. No open-space land for which a grant has been awarded under this section shall be converted or diverted from open-space land use unless:

1. Such conversion or diversion is in compliance with subsection A of § 10.1-1704; and

CHAPTER 400

An Act to amend and reenact § 18.2-47 of the Code of Virginia, relating to abduction of a minor; penalty.

[H 1892]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-47 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-47. Abduction and kidnapping defined; punishment.

A. Any person who, by force, intimidation or deception, and without legal justification or excuse, seizes, takes, transports, detains or secretes another person with the intent to deprive such other person of his personal liberty or to withhold or conceal him from any person, authority or institution lawfully entitled to his charge, shall be deemed guilty of "abduction."

B. Any person who, by force, intimidation or deception, and without legal justification or excuse, seizes, takes, transports, detains or secretes another person with the intent to subject him to forced labor or services shall be deemed guilty of "abduction." For purposes of this subsection, the term "intimidation" shall include destroying, concealing, confiscating, withholding, or threatening to withhold a passport, immigration document, or other governmental identification or threatening to report another as being illegally present in the United States.

C. The provisions of this section shall not apply to any law-enforcement officer in the performance of his duty. The terms "abduction" and "kidnapping" shall be synonymous in this Code. *Except as provided in subsection D, abduction of a minor shall be punished as a Class 2 felony*. Abduction for which no punishment is otherwise prescribed shall be punished as a Class 5 felony.

D. If an offense under subsection A is committed by the parent *or a family or household member, as defined in § 16.1-228, who has been ordered custody or visitation* of the person abducted and punishable as contempt of court in any proceeding then pending, the offense shall be a Class 1 misdemeanor in addition to being punishable as contempt of court. However, such offense, if committed by the parent *or a family or household member, as defined in § 16.1-228, who has been ordered custody or visitation* of the person abducted and punishable as contempt of court in any proceeding then pending and the person abducted is removed from the Commonwealth by the abducting parent *or a family or household member, as defined in § 16.1-228, who has been ordered custody or visitation*, shall be a Class 6 felony in addition to being punishable as contempt of court.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. CHAPTER 401

An Act to amend and reenact § 46.2-844 of the Code of Virginia, relating to passing stopped school buses; rebuttable presumption.

[H 1995]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-844 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-844. Passing stopped school buses; penalty; prima facie evidence; penalty.

A. The driver of a motor vehicle approaching from any direction a clearly marked school bus that is stopped on any highway, private road, or school driveway for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons, who, in violation of § 46.2-859, fails to stop and remain stopped until all such persons are clear of the highway, private road, or school driveway and the bus is put in motion is subject to a civil penalty of $250, and any prosecution shall be instituted and conducted in the same manner as prosecutions for traffic infractions.

A prosecution or proceeding under § 46.2-859 is a bar to a prosecution or proceeding under this section for the same act, and a prosecution or proceeding under this section is a bar to a prosecution or proceeding under § 46.2-859 for the same act.

In any prosecution for which a summons charging a violation of this section was issued within ~~10~~ *30 business* days of the alleged violation, proof that the motor vehicle described in the summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, as required by Chapter 6 (§ 46.2-600 et seq.) shall give rise to a rebuttable presumption that the registered owner of the vehicle was the person who operated the vehicle at the place where, and for the time during which, the violation occurred. Such presumption shall be rebutted if (i) the owner of the vehicle files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation, (ii) the owner testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation, or (iii) a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section is presented prior to the return date established on the summons issued pursuant to this section to the court adjudicating the alleged violation. Nothing herein shall limit the admission of otherwise admissible evidence.

The testimony of the school bus driver, the supervisor of school buses, or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

B. 1. For purposes of this subsection, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles being operated in violation of § 46.2-859. All such systems installed shall, at a minimum, produce a recorded image of the license plate and shall record the activation status of at least one warning device as prescribed in § 46.2-1090 and the time, date, and location of the vehicle when the image is recorded.

2. A locality may, by ordinance, authorize the school division of the locality to install and operate a video-monitoring system in or on the school buses operated by the division or to contract with a private vendor to do so on behalf of the school division for the purpose of recording violations of subsection A. Such ordinance may direct that any civil penalty levied for a violation of subsection A shall be payable to the local school division. In any locality that has adopted such an ordinance, a summons for a violation of subsection A may be executed as provided in § 19.2-76.2 and, notwithstanding the provisions of § 19.2-76, the summons may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle contained in the records of the Department. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection A and (ii) instructions for filing such an affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. Any summons executed for violation of this section shall provide to the person summoned at least 30 business days from the mailing of the summons to inspect information collected by a video-monitoring system in connection with the violation.

3. Any private vendor contracting with a school division pursuant to this subsection may impose and collect an administrative fee in addition to the civil penalty imposed for a violation of subsection A and payable pursuant to this subsection, so as to recover the expenses of collecting any unpaid civil penalty when such penalty remains due more than 30 days after the date of the mailing of the summons and notice. The administrative fee shall be reasonably related to the actual cost of collecting the civil penalty and shall not exceed $100 per violation. The operator of the vehicle shall pay the unpaid civil penalty and any administrative fee detailed in a notice or citation issued by the private vendor. If paid no later than 60 days after the date of the mailing of the summons and notice, the administrative fee shall not exceed $25.

4. Any private vendor contracting with a school division pursuant to this subsection may enter into an agreement with the Department of Motor Vehicles, in accordance with the provisions of subdivision B 30 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that improperly pass stopped school buses. Information provided to such private vendor shall be protected in a database with security comparable to that of the Department of Motor Vehicles' system and used only for enforcement against individuals who violate the provisions of this section. The school division shall annually certify compliance with this subdivision and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or their designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of $1,000 per disclosure. Any unauthorized use or disclosure of such personal information shall be grounds for termination of the agreement between the Department of Motor Vehicles and the private vendor.

An Act to amend and reenact § 46.2-844 of the Code of Virginia, relating to passing stopped school buses; rebuttable presumption.

[S 868]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-844 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-844. Passing stopped school buses; penalty; prima facie evidence; penalty.

A. The driver of a motor vehicle approaching from any direction a clearly marked school bus that is stopped on any highway, private road, or school driveway for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons, who, in violation of § 46.2-859, fails to stop and remain stopped until all such persons are clear of the highway, private road, or school driveway and the bus is put in motion is subject to a civil penalty of $250, and any prosecution shall be instituted and conducted in the same manner as prosecutions for traffic infractions.

A prosecution or proceeding under § 46.2-859 is a bar to a prosecution or proceeding under this section for the same act, and a prosecution or proceeding under this section is a bar to a prosecution or proceeding under § 46.2-859 for the same act.

In any prosecution for which a summons charging a violation of this section was issued within ~~10~~ *30 business* days of the alleged violation, proof that the motor vehicle described in the summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, as required by

Chapter 6 (§ 46.2-600 et seq.) shall give rise to a rebuttable presumption that the registered owner of the vehicle was the person who operated the vehicle at the place where, and for the time during which, the violation occurred. Such presumption shall be rebutted if (i) the owner of the vehicle files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation, (ii) the owner testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation, or (iii) a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section is presented prior to the return date established on the summons issued pursuant to this section to the court adjudicating the alleged violation. Nothing herein shall limit the admission of otherwise admissible evidence.

The testimony of the school bus driver, the supervisor of school buses, or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

B. 1. For purposes of this subsection, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles being operated in violation of § 46.2-859. All such systems installed shall, at a minimum, produce a recorded image of the license plate and shall record the activation status of at least one warning device as prescribed in § 46.2-1090 and the time, date, and location of the vehicle when the image is recorded.

2. A locality may, by ordinance, authorize the school division of the locality to install and operate a video-monitoring system in or on the school buses operated by the division or to contract with a private vendor to do so on behalf of the school division for the purpose of recording violations of subsection A. Such ordinance may direct that any civil penalty levied for a violation of subsection A shall be payable to the local school division. In any locality that has adopted such an ordinance, a summons for a violation of subsection A may be executed as provided in § 19.2-76.2 and, notwithstanding the provisions of § 19.2-76, the summons may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle contained in the records of the Department. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection A and (ii) instructions for filing such an affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. Any summons executed for violation of this section shall provide to the person summoned at least 30 business days from the mailing of the summons to inspect information collected by a video-monitoring system in connection with the violation.

3. Any private vendor contracting with a school division pursuant to this subsection may impose and collect an administrative fee in addition to the civil penalty imposed for a violation of subsection A and payable pursuant to this subsection, so as to recover the expenses of collecting any unpaid civil penalty when such penalty remains due more than 30 days after the date of the mailing of the summons and notice. The administrative fee shall be reasonably related to the actual cost of collecting the civil penalty and shall not exceed $100 per violation. The operator of the vehicle shall pay the unpaid civil penalty and any administrative fee detailed in a notice or citation issued by the private vendor. If paid no later than 60 days after the date of the mailing of the summons and notice, the administrative fee shall not exceed $25.

4. The school division shall annually certify compliance with this subdivision and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or their designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of $1,000 per disclosure. Any unauthorized use or disclosure of such personal information shall be grounds for termination of the agreement between the Department of Motor Vehicles and the private vendor.

CHAPTER 405

An Act to amend and reenact § 58.1-416 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 58.1-422.5, relating to taxation of corporations; Internet root infrastructure providers.

[H 1481]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-416 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 58.1-422.5 as follows:

§ 58.1-416. When certain other sales deemed in the Commonwealth.

A. Sales, other than sales of tangible personal property, are in the Commonwealth if:

1. The income-producing activity is performed in the Commonwealth; or

2. The income-producing activity is performed both in and outside the Commonwealth and a greater proportion of the income-producing activity is performed in the Commonwealth than in any other state, based on costs of performance.

B. 1. For debt buyers, as defined in § 58.1-422.3, sales, other than sales of tangible personal property, are in the Commonwealth if they consist of money recovered on debt that a debt buyer collected from a person who is a resident of the Commonwealth or an entity that has its commercial domicile in the Commonwealth. Such rule shall apply regardless of the location of a debt buyer's business.

2. For property information and analytics firms, as defined in § 58.1-422.4, that meet the requirements set forth in § 58.1-422.4, sales of services are in the Commonwealth if they are derived from transactions with a customer or client who receives the benefit of the services in the Commonwealth. Such rule shall apply regardless of the location of a property information and analytics firm's business operations.

3. For Internet root infrastructure providers, as defined in § 58.1-422.5, sales of services are in the Commonwealth if they are derived from sales transactions with a customer or client who receives the benefit of the services in the Commonwealth. Such rule shall apply regardless of the location of an Internet root infrastructure provider's operations.

C. The taxes under this article on the sales described under subsection B are imposed to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law. For the collection of such taxes on such sales, it is the intent of the General Assembly that the Tax Commissioner and the Department assert the taxpayer's nexus with the Commonwealth to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law.

D. If necessary information is not available to the taxpayer to determine whether a sale other than a sale of tangible personal property is in the Commonwealth pursuant to the provisions of subsections B and C, the taxpayer may estimate the

dollar value or portion of such sale in the Commonwealth, provided that the taxpayer can demonstrate to the satisfaction of the Tax Commissioner that (i) the estimate has been undertaken in good faith, (ii) the estimate is a reasonable approximation of the dollar value or portion of such sale in the Commonwealth, and (iii) in using an estimate the taxpayer did not have as a principal purpose the avoidance of any tax due under this article. The Department may implement procedures for obtaining its approval to use an estimate. The Department shall adopt remedies and corrective procedures for cases in which the Department has determined that the sourcing rules for sales other than sales of tangible personal property have been abused by the taxpayer, which may include reliance on the location of income-producing activity and direct costs of performance as described in subsection A.

§ 58.1-422.5. Internet root infrastructure providers.

A. As used in this section:

"Authority" means the Virginia Economic Development Partnership Authority.

"Eligible planning district" means Planning District 8.

"Internet root infrastructure provider" means an entity and its affiliated entities that is designated to operate one or more of the 13 Internet root servers of the Internet Assigned Names Authority (IANA) root and functions as the authoritative directory for one or more Top-Level Domains. This term does not include an Internet service provider, cable service provider, or similar company.

"Internet root server of the IANA root" means a Domain Name System server for one of the 13 root identities (A. - M.) that answers requests for the Domain Name System root zone of the Internet, redirecting requests for each Top-Level Domain to its respective nameservers.

"Memorandum of understanding" means a performance agreement or related document entered into by an Internet root infrastructure provider and the Authority on or after January 1, 2023, but before December 1, 2023, that sets forth the requirements for commitments to the Commonwealth.

B. 1. For taxable years beginning on or after January 1, 2023, but before January 1, 2030, an Internet root infrastructure provider shall be subject to the provisions of subdivision B 3 of § 58.1-416 only if the Authority certifies to the Department that the taxpayer has at least 550 full-time employees with an average annual salary of $175,000 in an eligible planning district, has entered into a memorandum of understanding with the Authority, and has met the terms of such agreement.

2. For taxable years beginning on or after January 1, 2030, if the Authority certifies to the Department that all requirements of the memorandum of understanding have been satisfied, no additional certifications shall be required, and the Internet root infrastructure provider shall continue to be subject to the provisions of subdivision B 3 of § 58.1-416 in future taxable years.

C. The General Assembly finds that the presence of the Internet root infrastructure provider industry is essential to the continued fiscal health of the Commonwealth. If any provision of this section is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, that provision shall not be deemed severable.

2. That the Department of Taxation shall develop and make publicly available guidelines implementing the provisions of this act. In developing such guidelines, the Department of Taxation shall not be subject to the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia) for guidelines promulgated on or before December 31, 2023, but shall cooperate with and seek the counsel of interested groups and shall not promulgate any guidelines, preliminary or final, without first seeking such counsel and conducting a public hearing. Preliminary guidelines shall be promulgated and made publicly available no later than December 31, 2023, and final guidelines shall be promulgated and made publicly available no later than December 31, 2024. After December 31, 2024, the guidelines shall be subject to the Administrative Process Act and accorded the weight of regulations under § 58.1-205 of the Code of Virginia.

3. That the memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, shall include provisions that require, during the term of the memorandum of understanding, an Internet root infrastructure provider (the provider) to report annually to the Virginia Economic Development Partnership Authority and the Secretaries of Commerce and Trade and Finance beginning January 1, 2024, such information as is necessary to demonstrate that the provider is in compliance with the performance criteria set forth in the memorandum of understanding. The annual report shall contain information regarding the new investments made by the provider to satisfy the performance criteria, the anticipated liability of the provider notwithstanding the provisions of this act related to the apportionment of its income, the anticipated liability of the provider pursuant to the apportionment formula under this act, and other such financial information as the Secretaries of Commerce and Trade and Finance deem necessary to demonstrate that the provider will be able to fulfill the obligations of the memorandum of understanding.

4. That the memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, shall contain a provision that, should the Internet root infrastructure provider be out of substantial compliance with the performance criteria set forth in the memorandum of understanding for three consecutive years, then the memorandum of understanding shall terminate. If the memorandum of understanding is terminated pursuant to this enactment and such provision, (i) the Secretary of Finance shall notify the Department of Taxation; (ii) the Internet root infrastructure provider shall thereafter no longer be eligible to utilize the apportionment formula set forth in subdivision B 3 of § 58.1-416 of the Code of Virginia, as amended by this act; and (iii) the Internet root

infrastructure provider shall be required to amend its income tax returns for any taxable year in which it utilized the apportionment formula set forth in subdivision B 3 of § 58.1-416, as amended by this act, and was in substantial noncompliance. The amended tax returns shall instead compute its tax liability for such years using the apportionment formula required if it were not eligible for the apportionment formula set forth in subdivision B 3 of § 58.1-416 of the Code of Virginia, as amended by this act.

5. That any person to whom tax information is divulged pursuant to this act shall be subject to the prohibitions and penalties set forth in § 58.1-3 of the Code of Virginia as though he were a tax official.

6. That the provisions of this act shall not become effective until a memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, is signed. If such memorandum of understanding is not signed by December 1, 2023, the provisions of subsection B 3 of § 58.1-416 of the Code of Virginia, as amended by this act, shall not be applicable in any taxable year beginning on or after January 1, 2023.

7. That the Virginia Economic Development Partnership Authority shall provide, upon signature, a copy of any memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, to the Chairmen of the House Committee on Finance, the House Committee on Appropriations, and the Senate Committee on Finance and Appropriations. The provisions of this act shall expire if copies of such memorandum of understanding are not delivered by December 31, 2023.

CHAPTER 406

An Act to amend and reenact § 58.1-416 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 58.1-422.5, relating to taxation of corporations; Internet root infrastructure providers.

[S 1349]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-416 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 58.1-422.5 as follows:

§ 58.1-416. When certain other sales deemed in the Commonwealth.

A. Sales, other than sales of tangible personal property, are in the Commonwealth if:

1. The income-producing activity is performed in the Commonwealth; or

2. The income-producing activity is performed both in and outside the Commonwealth and a greater proportion of the income-producing activity is performed in the Commonwealth than in any other state, based on costs of performance.

B. 1. For debt buyers, as defined in § 58.1-422.3, sales, other than sales of tangible personal property, are in the Commonwealth if they consist of money recovered on debt that a debt buyer collected from a person who is a resident of the Commonwealth or an entity that has its commercial domicile in the Commonwealth. Such rule shall apply regardless of the location of a debt buyer's business.

2. For property information and analytics firms, as defined in § 58.1-422.4, that meet the requirements set forth in § 58.1-422.4, sales of services are in the Commonwealth if they are derived from transactions with a customer or client who receives the benefit of the services in the Commonwealth. Such rule shall apply regardless of the location of a property information and analytics firm's business operations.

3. For Internet root infrastructure providers, as defined in § 58.1-422.5, sales of services are in the Commonwealth if they are derived from sales transactions with a customer or client who receives the benefit of the services in the Commonwealth. Such rule shall apply regardless of the location of an Internet root infrastructure provider's operations.

C. The taxes under this article on the sales described under subsection B are imposed to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law. For the collection of such taxes on such sales, it is the intent of the General Assembly that the Tax Commissioner and the Department assert the taxpayer's nexus with the Commonwealth to the maximum extent permitted under the Constitutions of Virginia and the United States and federal law.

D. If necessary information is not available to the taxpayer to determine whether a sale other than a sale of tangible personal property is in the Commonwealth pursuant to the provisions of subsections B and C, the taxpayer may estimate the dollar value or portion of such sale in the Commonwealth, provided that the taxpayer can demonstrate to the satisfaction of the Tax Commissioner that (i) the estimate has been undertaken in good faith, (ii) the estimate is a reasonable approximation of the dollar value or portion of such sale in the Commonwealth, and (iii) in using an estimate the taxpayer did not have as a principal purpose the avoidance of any tax due under this article. The Department may implement procedures for obtaining its approval to use an estimate. The Department shall adopt remedies and corrective procedures for cases in which the Department has determined that the sourcing rules for sales other than sales of tangible personal property have been abused by the taxpayer, which may include reliance on the location of income-producing activity and direct costs of performance as described in subsection A.

§ 58.1-422.5. Internet root infrastructure providers.

A. As used in this section:

"Authority" means the Virginia Economic Development Partnership Authority.

"Eligible planning district" means Planning District 8.

"Internet root infrastructure provider" means an entity and its affiliated entities that is designated to operate one or more of the 13 Internet root servers of the Internet Assigned Names Authority (IANA) root and functions as the authoritative directory for one or more Top-Level Domains. This term does not include an Internet service provider, cable service provider, or similar company.

"Internet root server of the IANA root" means a Domain Name System server for one of the 13 root identities (A. - M.) that answers requests for the Domain Name System root zone of the Internet, redirecting requests for each Top-Level Domain to its respective nameservers.

"Memorandum of understanding" means a performance agreement or related document entered into by an Internet root infrastructure provider and the Authority on or after January 1, 2023, but before December 1, 2023, that sets forth the requirements for commitments to the Commonwealth.

B. 1. For taxable years beginning on or after January 1, 2023, but before January 1, 2030, an Internet root infrastructure provider shall be subject to the provisions of subdivision B 3 of § 58.1-416 only if the Authority certifies to the Department that the taxpayer has at least 550 full-time employees with an average annual salary of $175,000 in an eligible planning district, has entered into a memorandum of understanding with the Authority, and has met the terms of such agreement.

2. For taxable years beginning on or after January 1, 2030, if the Authority certifies to the Department that all requirements of the memorandum of understanding have been satisfied, no additional certifications shall be required, and the Internet root infrastructure provider shall continue to be subject to the provisions of subdivision B 3 of § 58.1-416 in future taxable years.

C. The General Assembly finds that the presence of the Internet root infrastructure provider industry is essential to the continued fiscal health of the Commonwealth. If any provision of this section is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, that provision shall not be deemed severable.

2. That the Department of Taxation shall develop and make publicly available guidelines implementing the provisions of this act. In developing such guidelines, the Department of Taxation shall not be subject to the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia) for guidelines promulgated on or before December 31, 2023, but shall cooperate with and seek the counsel of interested groups and shall not promulgate any guidelines, preliminary or final, without first seeking such counsel and conducting a public hearing. Preliminary guidelines shall be promulgated and made publicly available no later than December 31, 2023, and final guidelines shall be promulgated and made publicly available no later than December 31, 2024. After December 31, 2024, the guidelines shall be subject to the Administrative Process Act and accorded the weight of regulations under § 58.1-205 of the Code of Virginia.

3. That the memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, shall include provisions that require, during the term of the memorandum of understanding, an Internet root infrastructure provider (the provider) to report annually to the Virginia Economic Development Partnership Authority and the Secretaries of Commerce and Trade and Finance beginning January 1, 2024, such information as is necessary to demonstrate that the provider is in compliance with the performance criteria set forth in the memorandum of understanding. The annual report shall contain information regarding the new investments made by the provider to satisfy the performance criteria, the anticipated liability of the provider notwithstanding the provisions of this act related to the apportionment of its income, the anticipated liability of the provider pursuant to the apportionment formula under this act, and other such financial information as the Secretaries of Commerce and Trade and Finance deem necessary to demonstrate that the provider will be able to fulfill the obligations of the memorandum of understanding.

4. That the memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, shall contain a provision that, should the Internet root infrastructure provider be out of substantial compliance with the performance criteria set forth in the memorandum of understanding for three consecutive years, then the memorandum of understanding shall terminate. If the memorandum of understanding is terminated pursuant to this enactment and such provision, (i) the Secretary of Finance shall notify the Department of Taxation; (ii) the Internet root infrastructure provider shall thereafter no longer be eligible to utilize the apportionment formula set forth in subdivision B 3 of § 58.1-416 of the Code of Virginia, as amended by this act; and (iii) the Internet root infrastructure provider shall be required to amend its income tax returns for any taxable year in which it utilized the apportionment formula set forth in subdivision B 3 of § 58.1-416, as amended by this act, and was in substantial noncompliance. The amended tax returns shall instead compute its tax liability for such years using the apportionment formula required if it were not eligible for the apportionment formula set forth in subdivision B 3 of § 58.1-416 of the Code of Virginia, as amended by this act.

5. That any person to whom tax information is divulged pursuant to this act shall be subject to the prohibitions and penalties set forth in § 58.1-3 of the Code of Virginia as though he were a tax official.

6. That the provisions of this act shall not become effective until a memorandum of understanding, as defined in § 58.1-422.5 of the Code of Virginia, as created by this act, is signed. If such memorandum of understanding is not signed by December 1, 2023, the provisions of subdivision B 3 of § 58.1-416 of the Code of Virginia, as amended by this act, shall not be applicable in any taxable year beginning on or after January 1, 2023.

7. CHAPTER 408

An Act to amend and reenact § 4.1-206.3, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to alcoholic beverage control; mixed beverage carrier license; airport passenger lounge; emergency.

[H 1753]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 4.1-206.3, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 4.1-206.3. (Effective until July 1, 2024) Retail licenses.

A. The Board may grant the following mixed beverages licenses:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for on-premises consumption in dining areas and other designated areas of such restaurant or off-premises consumption. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with no fewer than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms, and other private rooms of such hotel or motel, such licensee may (a) sell and serve mixed beverages for on-premises consumption in such designated

areas, bedrooms, and other private rooms or off-premises consumption and (b) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. However, with regard to a hotel classified as a resort complex, the Board may authorize the sale and on-premises consumption of alcoholic beverages in all areas within the resort complex deemed appropriate by the Board. Nothing herein shall prohibit any person from keeping and consuming his own lawfully acquired spirits in bedrooms or private rooms.

If the restaurant is located on the premises of and operated by a private, nonprofit, or profit club exclusively for its members and their guests, or members of another private, nonprofit, or profit club in another city with which it has an agreement for reciprocal dining privileges, such license shall also authorize the licensees to (1) sell and serve mixed beverages for on-premises or off-premises consumption and (2) sell spirits that are packaged in original closed containers with a maximum capacity of two fluid ounces or 50 milliliters and purchased from the Board for on-premises consumption. Where such club prepares no food in its restaurant but purchases its food requirements from a restaurant licensed by the Board and located on another portion of the premises of the same hotel or motel building, this fact shall not prohibit the granting of a license by the Board to such club qualifying in all other respects. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. The food sales made by a restaurant to such a club shall be excluded in any consideration of the qualifications of such restaurant for a license from the Board.

If the restaurant is located on the premises of and operated by a municipal golf course, the Board shall recognize the seasonal nature of the business and waive any applicable monthly food sales requirements for those months when weather conditions may reduce patronage of the golf course, provided that prepared food, including meals, is available to patrons during the same months. The gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after the issuance of such license, shall amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food on an annualized basis.

If the restaurant is located on the premises of and operated by a culinary lodging resort, such license shall authorize the licensee to (A) sell alcoholic beverages, without regard to the amount of gross receipts from the sale of food prepared and consumed on the premises, for off-premises consumption or for on-premises consumption in areas upon the licensed premises approved by the Board and other designated areas of the resort, including outdoor areas under the control of the licensee, and (B) permit the possession and consumption of lawfully acquired alcoholic beverages by persons to whom overnight lodging is being provided in bedrooms and private guest rooms.

If the restaurant is located on the premises of a mixed beverage casino licensee owned by an operator licensed under Article 3 (§ 58.1-4108 et seq.) of Chapter 41 of Title 58.1, such mixed beverage restaurant license shall authorize the licensee to sell alcoholic beverages for on-premises consumption on the licensed premises of the restaurant during all hours of operation of the mixed beverage casino licensee. Any alcoholic beverages purchased from such restaurant may be (I) taken onto the premises of the mixed beverage casino licensee and (II) possessed or consumed in areas designated by the Board, after consultation with the mixed beverage casino licensee. Designated areas may include any areas on the premises of the mixed beverage casino licensee, including entertainment venues, conference rooms, private rooms, hotels, pools, marinas, or green spaces. Alcoholic beverages purchased from a restaurant pursuant to this subdivision shall be contained in glassware or a paper, plastic, or similar disposable container that clearly displays the name or logo of the restaurant from which the alcoholic beverage was purchased.

The granting of a license pursuant to this subdivision shall automatically authorize the licensee to obtain a license to sell and serve wine and beer for on-premises consumption and in closed containers for off-premises consumption; however, the licensee shall be required to pay the local fee required for such additional license pursuant to § 4.1-233.1.

2. Mixed beverage caterer's licenses, which may be granted only to a person regularly engaged in the business of providing food and beverages to others for service at private gatherings or at special events, which shall authorize the licensee to sell and serve alcoholic beverages for on-premises consumption. The annual gross receipts from the sale of food cooked and prepared for service and nonalcoholic beverages served at gatherings and events referred to in this subdivision shall amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food.

3. Mixed beverage limited caterer's licenses, which may be granted only to a person regularly engaged in the business of providing food and beverages to others for service at private gatherings or at special events, not to exceed 12 gatherings or events per year, which shall authorize the licensee to sell and serve alcoholic beverages for on-premises consumption. The annual gross receipts from the sale of food cooked and prepared for service and nonalcoholic beverages served at gatherings and events referred to in this subdivision shall amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food.

4. Mixed beverage carrier licenses to *(i)* persons operating a common carrier of passengers by train, boat, bus, or airplane, which shall authorize the licensee to sell and serve mixed beverages anywhere in the Commonwealth to passengers while in transit aboard any such common carrier, and in designated rooms of establishments of air carriers at airports in the Commonwealth *and (ii) financial institutions, subsidiaries of a financial institution, or persons approved by the applicable airport authority that have entered into a contract with a financial institution or subsidiary of a financial institution to operate a passenger lounge, which shall authorize the licensee to sell and serve mixed beverages in designated areas of a passenger lounge for ticketed air carrier passengers that is located within an airport in the Commonwealth*. For purposes of supplying its airplanes, as well as any airplanes of a licensed express carrier flying under the same brand, an air carrier

licensee may appoint an authorized representative to load alcoholic beverages onto the same airplanes and to transport and store alcoholic beverages at or in close proximity to the airport where the alcoholic beverages will be delivered onto airplanes of the air carrier and any such licensed express carrier. The air carrier licensee shall ~~(i)~~ *(a)* designate for purposes of its license all locations where the inventory of alcoholic beverages may be stored and from which the alcoholic beverages will be delivered onto airplanes of the air carrier and any such licensed express carrier and ~~(ii)~~ *(b)* maintain records of all alcoholic beverages to be transported, stored, and delivered by its authorized representative. A. The Board may grant the following mixed beverages licenses:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for consumption in dining areas and other designated areas of such restaurant. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with no fewer than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms, and other private rooms of such hotel or motel, such licensee may (a) sell and serve mixed beverages for consumption in such designated areas, bedrooms, and other private rooms and (b) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. The food sales made by a restaurant to such a club shall be excluded in any consideration of the qualifications of such restaurant for a license from the Board.

If the restaurant is located on the premises of and operated by a municipal golf course, the Board shall recognize the seasonal nature of the business and waive any applicable monthly food sales requirements for those months when weather conditions may reduce patronage of the golf course, provided that prepared food, including meals, is available to patrons during the same months. 2. Annual licenses.

a. Annual banquet licenses to duly organized private nonprofit fraternal, patriotic, or charitable membership organizations that are exempt from state and federal taxation and in charge of banquets conducted exclusively for members and their guests, which shall authorize the licensee to serve wine and beer in rooms or areas approved by the Board for the occasion for on-premises consumption in such rooms or areas. Such license shall authorize the licensee to conduct no more than 12 banquets per calendar year. For the purposes of this subdivision, when the location named in the original application for a license is outdoors, the application may also name an alternative location in the event of inclement weather. However, no such license shall be required of any hotel, restaurant, or club holding a retail wine and beer license.

b. Banquet facility licenses to volunteer fire departments and volunteer emergency medical services agencies, which shall authorize the licensee to permit the consumption of lawfully acquired alcoholic beverages on the premises of the licensee by any person, and bona fide members and guests thereof, otherwise eligible for a banquet license. However, lawfully acquired alcoholic beverages shall not be purchased or sold by the licensee or sold or charged for in any way by the person permitted to use the premises. Such premises shall be a volunteer fire or volunteer emergency medical services agency station or both, regularly occupied as such and recognized by the governing body of the county, city, or town in which it is located. Under conditions as specified by Board regulation, such premises may be other than a volunteer fire or volunteer emergency medical services agency station, provided such other premises are occupied and under the control of the volunteer fire department or volunteer emergency medical services agency while the privileges of its license are being exercised.

c. Designated outdoor refreshment area licenses to a locality, business improvement district, or nonprofit organization, which shall authorize (i) the licensee to permit the consumption of alcoholic beverages within the area designated by the Board for the designated outdoor refreshment area and (ii) any permanent retail on-premises licensee that is located within the area designated by the Board for the designated outdoor refreshment area to sell alcoholic beverages within the permanent retail location for consumption in the area designated for the designated outdoor refreshment area, including sidewalks and the premises of businesses not licensed to sell alcoholic beverages at retail, upon approval of such businesses. In determining the designated area for the designated outdoor refreshment area, the Board shall consult with the locality. Designated outdoor refreshment area licensees shall be limited to 16 events per year, and the duration of any event shall not exceed three consecutive days. However, the Board may increase the frequency and duration of events after adoption of an ordinance by a locality requesting such increase in frequency and duration. Such ordinance shall include the size and scope of the area within which such events will be held, a public safety plan, and any other considerations deemed necessary by the Board. Such limitations on the number of events that may be held shall not apply during the effective dates of any rule, regulation, or order that is issued by the Governor or State Health Commissioner to meet a public health emergency and that effectively reduces allowable restaurant seating capacity; however, designated outdoor refreshment area licensees shall be subject to all other applicable provisions of this subtitle and Board regulations and shall provide notice to the Board regarding the days and times during which the privileges of the license will be exercised. Only alcoholic beverages purchased from permanent retail on-premises licensees located within the designated area may be consumed at the event, and such alcoholic beverages shall be contained in paper, plastic, or similar disposable containers that clearly display the name or logo of the retail on-premises licensee from which the alcoholic beverage was purchased. Alcoholic beverages shall not be sold or charged for in any way by the designated outdoor refreshment area licensee. The designated outdoor refreshment area licensee shall post appropriate signage clearly demarcating for the public the boundaries of the event; however, no physical barriers shall be required for this purpose. The designated outdoor refreshment area licensee shall provide adequate security for the event to ensure compliance with the applicable provisions of this subtitle and Board regulations.

d. Annual mixed beverage banquet licenses to duly organized private nonprofit fraternal, patriotic, or charitable membership organizations that are exempt from state and federal taxation and in charge of banquets conducted exclusively for members and their guests, which shall authorize the licensee to serve mixed beverages for on-premises consumption in areas approved by the Board on the premises of the place designated in the license. Such license shall authorize the licensee to conduct no more than 12 banquets per calendar year. The granting of a license pursuant to this subdivision shall automatically authorize the licensee to obtain a license to sell and serve wine and beer for on-premises consumption; however, the licensee shall be required to pay the local fee required for such additional license pursuant to § 4.1-233.1.

e. Equine sporting event licenses, which may be issued to organizations holding equestrian, hunt, and steeplechase events, which shall authorize the licensee to permit the consumption of lawfully acquired alcoholic beverages on the premises of the licensee by patrons thereof during such event. However, alcoholic beverages shall not be sold or charged for in any way by the licensee. The privileges of this license shall be (i) limited to the premises of the licensee, regularly occupied and utilized for equestrian, hunt, and steeplechase events, and (ii) exercised on no more than four calendar days per year.

f. Annual arts venue event licenses, to persons operating an arts venue, which shall authorize the licensee participating in a community art walk that is open to the public to serve lawfully acquired wine or beer on the premises of the licensee to adult patrons thereof during such events. However, alcoholic beverages shall not be sold or charged for in any way, directly or indirectly, by the licensee, and the licensee shall not give more than two five-ounce glasses of wine or two 12-ounce glasses of beer to any one adult patron. The privileges of this license shall be (i) limited to the premises of the arts venue regularly occupied and used as such and (ii) exercised on no more than 12 calendar days per year.

E. The Board may grant a marketplace license to persons operating a business enterprise of which the primary function is not the sale of alcoholic beverages, which shall authorize the licensee to serve complimentary wine or beer to bona fide customers on the licensed premises subject to any limitations imposed by the Board; however, the licensee shall not give more than two five-ounce glasses of wine or two 12-ounce glasses of beer to any customer per day, nor shall it sell or otherwise charge a fee to such customer for the wine or beer served or consumed. In order to be eligible for and retain a marketplace license, the applicant's business enterprise must (i) provide a single category of goods or services in a manner intended to create a personalized experience for the customer; (ii) employ staff with expertise in such goods or services; (iii) be ineligible for any other license granted by the Board; (iv) have an alcoholic beverage control manager on the

licensed premises at all times alcohol is served; (v) ensure that all employees satisfy any training requirements imposed by the Board; and (vi) purchase all wine and beer to be served from a licensed wholesaler or the Authority and retain purchase records as prescribed by the Board. In determining whether to grant a marketplace license, the Board shall consider (a) the average amount of time customers spend at the business; (b) the business's hours of operation; (c) the amount of time that the business has been in operation; and (d) any other requirements deemed necessary by the Board to protect the public health, safety, and welfare.

No wholesale wine or wholesale beer licensee, whether licensed in the Commonwealth or not, or any person under common control of such licensee, shall acquire or hold any financial interest, direct or indirect, in the business for which any fulfillment warehouse license is issued.

5. [S 1100]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 4.1-206.3, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 4.1-206.3. (Effective until July 1, 2024) Retail licenses.

A. The Board may grant the following mixed beverages licenses:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for on-premises consumption in dining areas and other designated areas of such restaurant or off-premises consumption. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with no fewer than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms, and other private rooms of such hotel or motel, such licensee may (a) sell and serve mixed beverages for on-premises consumption in such designated areas, bedrooms, and other private rooms or off-premises consumption and (b) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. However, with regard to a hotel classified as a resort complex, the Board may authorize the sale and on-premises consumption of alcoholic beverages in all areas within the resort complex deemed appropriate by the Board. Nothing herein shall prohibit any person from keeping and consuming his own lawfully acquired spirits in bedrooms or private rooms.

If the restaurant is located on the premises of and operated by a private, nonprofit, or profit club exclusively for its members and their guests, or members of another private, nonprofit, or profit club in another city with which it has an agreement for reciprocal dining privileges, such license shall also authorize the licensees to (1) sell and serve mixed beverages for on-premises or off-premises consumption and (2) sell spirits that are packaged in original closed containers with a maximum capacity of two fluid ounces or 50 milliliters and purchased from the Board for on-premises consumption. Where such club prepares no food in its restaurant but purchases its food requirements from a restaurant licensed by the Board and located on another portion of the premises of the same hotel or motel building, this fact shall not prohibit the granting of a license by the Board to such club qualifying in all other respects. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. The food sales made by a restaurant to such a club shall be excluded in any consideration of the qualifications of such restaurant for a license from the Board.

If the restaurant is located on the premises of and operated by a municipal golf course, the Board shall recognize the seasonal nature of the business and waive any applicable monthly food sales requirements for those months when weather conditions may reduce patronage of the golf course, provided that prepared food, including meals, is available to patrons during the same months. The gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after the issuance of such license, shall amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food on an annualized basis.

If the restaurant is located on the premises of and operated by a culinary lodging resort, such license shall authorize the licensee to (A) sell alcoholic beverages, without regard to the amount of gross receipts from the sale of food prepared and consumed on the premises, for off-premises consumption or for on-premises consumption in areas upon the licensed premises approved by the Board and other designated areas of the resort, including outdoor areas under the control of the licensee, and (B) permit the possession and consumption of lawfully acquired alcoholic beverages by persons to whom overnight lodging is being provided in bedrooms and private guest rooms.

If the restaurant is located on the premises of a mixed beverage casino licensee owned by an operator licensed under Article 3 (§ 58.1-4108 et seq.) of Chapter 41 of Title 58.1, such mixed beverage restaurant license shall authorize the licensee to sell alcoholic beverages for on-premises consumption on the licensed premises of the restaurant during all hours of operation of the mixed beverage casino licensee. Any alcoholic beverages purchased from such restaurant may be (I) taken onto the premises of the mixed beverage casino licensee and (II) possessed or consumed in areas designated by the Board, after consultation with the mixed beverage casino licensee. Designated areas may include any areas on the premises of the mixed beverage casino licensee, including entertainment venues, conference rooms, private rooms, hotels, pools, marinas, or green spaces. Alcoholic beverages purchased from a restaurant pursuant to this subdivision shall be contained in glassware or a paper, plastic, or similar disposable container that clearly displays the name or logo of the restaurant from which the alcoholic beverage was purchased.

The granting of a license pursuant to this subdivision shall automatically authorize the licensee to obtain a license to sell and serve wine and beer for on-premises consumption and in closed containers for off-premises consumption; however, the licensee shall be required to pay the local fee required for such additional license pursuant to § 4.1-233.1.

2. Mixed beverage caterer's licenses, which may be granted only to a person regularly engaged in the business of providing food and beverages to others for service at private gatherings or at special events, which shall authorize the licensee to sell and serve alcoholic beverages for on-premises consumption. For purposes of supplying its airplanes, as well as any airplanes of a licensed express carrier flying under the same brand, an air carrier licensee may appoint an authorized representative to load alcoholic beverages onto the same airplanes and to transport and store alcoholic beverages at or in close proximity to the airport where the alcoholic beverages will be delivered onto airplanes of the air carrier and any such licensed express carrier. The air carrier licensee shall ~~(i)~~ *(a)* designate for purposes of its license all locations where the inventory of alcoholic beverages may be stored and from which the alcoholic beverages will be delivered onto airplanes of the air carrier and any such licensed express carrier and ~~(ii)~~ *(b)* maintain records of all

Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

Part 1002.

All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2223 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2223. Comprehensive plan to be prepared and adopted; scope and purpose.

A. The local planning commission shall prepare and recommend a comprehensive plan for the physical development of the territory within its jurisdiction and every governing body shall adopt a comprehensive plan for the territory under its jurisdiction.

In the preparation of a comprehensive plan, the commission shall make careful and comprehensive surveys and studies of the existing conditions and trends of growth, and of the probable future requirements of its territory and inhabitants. The comprehensive plan shall be made with the purpose of guiding and accomplishing a coordinated, adjusted and harmonious development of the territory which will, in accordance with present and probable future needs and resources, best promote the health, safety, morals, order, convenience, prosperity and general welfare of the inhabitants, including the elderly and persons with disabilities.

B. 1. As part of the comprehensive plan, each locality shall develop a transportation plan that designates a system of transportation infrastructure needs and recommendations that include the designation of new and expanded transportation facilities and that support the planned development of the territory covered by the plan and shall include, as appropriate, but not be limited to, roadways, bicycle accommodations, pedestrian accommodations, railways, bridges, waterways, airports, ports, *freight corridors,* and public transportation facilities. The plan shall recognize and differentiate among a hierarchy of roads such as expressways, arterials, and collectors. The Virginia Department of Transportation shall, upon request, provide localities with technical assistance in preparing such transportation plan.

2. The transportation plan shall include a map that shall show road and transportation improvements, including the cost estimates of such road and transportation improvements from the Virginia Department of Transportation, taking into account the current and future needs of residents in the locality while considering the current and future needs of the planning district within which the locality is situated.

comprising systems of state highways pursuant to subsection A of § 33.2-208. The locality shall consult with the Virginia Department of Transportation to assure such consistency is achieved. The transportation plan need reflect only those changes in the annual update of the Six-Year Improvement Program that are deemed to be significant new, expanded, or relocated roadways.

The Department shall provide such written comments to the locality within 90 days of receipt of the plan or amendment, or such other shorter period of time as may be otherwise agreed upon by the Department and the locality.

5. The locality shall submit a copy of the adopted transportation plan or any amendment to the transportation plan to the Department for informational purposes. If the Department determines that the transportation plan or amendment is not consistent with the provisions of subdivision 1, the Department shall notify the Commonwealth Transportation Board so that the Board may take appropriate action in accordance with subsection F of § 33.2-214.

6. If the adopted transportation plan designates corridors planned to be served by mass transit, as defined in § 33.2-100, a portion of its allocation from (i) the Northern Virginia Transportation Authority distribution specified in subdivision B 1 of § 33.2-2510, (ii) the commercial and industrial real property tax revenue specified in § 58.1-3221.3, and (iii) the secondary system road construction program, as described in Article 5 (§ 33.2-351 et seq.) of Chapter 3 of Title 33.2, may be used for the purpose of utility undergrounding in the planned corridor, if the locality matches 100 percent of the state allocation.

7. Each locality's amendments or updates to its transportation plan as required by subdivisions 2 through 5 shall be made on or before its ongoing scheduled date for updating its transportation plan.

C. The comprehensive plan, with the accompanying maps, plats, charts, and descriptive matter, shall show the locality's long-range recommendations for the general development of the territory covered by the plan. It may include, but need not be limited to:

Be it enacted by the General Assembly of Virginia:

1. That § 65.2-802 of the Code of Virginia is amended and reenacted as follows:

§ 65.2-802. Requirements for licensure as group self-insurance association; annual assessment.

A. Two or more employers having a common interest may be licensed by the State Corporation Commission as a group self-insurance association and permitted to enter into agreements to pool their liabilities under this title. The members of any such group self-insurance association may also enter into agreements to pool their liabilities for workers' compensation benefits which may arise under the laws of any other jurisdiction and other types of employers' liabilities for the death or disablement of, or injury to, their employees. Benefits payable by any such association for such members' liabilities under the laws of any other jurisdiction shall extend only to employees otherwise eligible for coverage under the provisions of this title.

B. The State Corporation Commission shall not license a group self-insurance association or grant authorization for an employer to become a member of such group unless it receives in such form as it requires satisfactory proof of the solvency of any such employer, the financial ability of each to meet his obligations as a member, and the ability of the group to pay or cause to be paid the compensation in the amount and manner and when due as provided for in this title and as may be agreed upon with respect to other types of employers' liabilities which may be authorized and provided hereunder.

C. Members of a group shall execute a written agreement under which each agrees to jointly and severally assume and discharge any liability under this title of employers party to such agreement. Agreements among the members shall be subject to approval by the State Corporation Commission; however, no such agreement nor membership in a group self-insurance association shall relieve an employer of the liabilities imposed by this title with respect to his employees. In addition to the rights of the association under such agreements, in the event of failure of the association to enforce such rights after reasonable notice to the association, the State Corporation Commission shall have the right independently to enforce on behalf of the association the joint and several liability of its members under this title and the liability of members for any unpaid contributions and assessments. The State Corporation Commission shall be entitled to recover its expenses and attorneys' fees.

D. Any person, firm, or corporation desiring to engage in the business of providing services for a group self-insurance association shall satisfy the State Corporation Commission of its ability to perform the services necessary to fulfill the employer's obligations under this title before it undertakes to provide such services to any group self-insurance association. The State Corporation Commission may from time to time review and alter any decision approving an employer as a member of a group or its approval of a group or of an agency servicing a group. The State Corporation Commission may in its discretion require the deposit of an acceptable security, indemnity, or bond or the purchase of such excess insurance or the ceding of reinsurance on a specific or aggregate excess of loss basis as may be required by the circumstances.

E. The State Corporation Commission may establish reasonable requirements and standards for the approval of a group self-insurance association and the administration of such associations including, without limitation, the quality, amount and accounting of security deposits, bonds, excess insurance and reinsurance, the membership in any group self-insurance association, the amount of advance payments and reserves required of group self-insurance associations, the investment of such funds, the form and content of financial information to be submitted by a group self-insurance association and the frequency of such submissions, and the terms of agreements between members of a group self-insurance association. The State Corporation Commission may, after notice and hearing, embody such requirements and standards and such other requirements as may be reasonably necessary for the purposes of this section in regulations; however, any group self-insurance association entering into a reinsurance transaction pursuant to the provisions of this section shall be deemed an insurer for purposes of such transaction and shall be subject to Article 3.1 (§ 38.2-1316.1 et seq.) of Chapter 13 of Title 38.2.

F. Notwithstanding any provision of this title to the contrary, each licensed group self-insurance association shall be assessed annually by the State Corporation Commission in like manner and amount to that provided by Chapter 4 (§ 38.2-400 et seq.) of Title 38.2 and shall pay such assessment in accordance with the aforesaid provisions of law; however, for the purposes of such assessment "direct gross premium income" of a licensed group self-insurance association shall be the aggregate of the amounts determined to be subject to the tax imposed by § 65.2-1006 on each employer member of such association.

G. Notwithstanding the provisions of § 49-25, neither the State Corporation Commission nor any other entity or person, as obligee under any surety bond required under this section or any regulation adopted hereunder, shall be required to institute suit against an association as a condition precedent to the surety's performance under the bond.

H. Subject to approval of the State Corporation Commission, and with such conditions as the State Corporation Commission may require, two or more group self-insurance associations formed pursuant to this section may merge if the resulting group self-insurance association assumes in full all obligations of the merged group self-insurance associations originally licensed pursuant to this section.

Where there is more than one tenant subject to a rental agreement, unless otherwise agreed to in writing by each of the tenants, disposition of the security deposit shall be made with one check being payable to all such tenants and sent to a forwarding address provided by one of the tenants. The landlord shall make the security deposit disposition within the 45-day time period required by subsection A, but if no forwarding address is provided to the landlord, the landlord may continue to hold such security deposit in escrow. If a tenant fails to provide a forwarding address to the landlord to enable the landlord to make a refund of the security deposit, upon the expiration of one year from the date of the end of the 45-day time period, the landlord may remit such sum to the State Treasurer as unclaimed property on a form prescribed by the administrator that includes the name; social security number, if known; and last known address of each tenant on the rental agreement. If the landlord or managing agent is a real estate licensee, compliance with this subsection shall be deemed compliance with § 54.1-2108 and corresponding regulations of the Real Estate Board.

C. Nothing in this section shall be construed by a court of law or otherwise as entitling the tenant, upon the termination of the tenancy, to an immediate credit against the tenant's delinquent rent account in the amount of the security deposit. The landlord shall apply the security deposit in accordance with this section within the 45-day time period required by subsection A. However, provided that the landlord has given prior written notice in accordance with this section, the landlord may withhold a reasonable portion of the security deposit to cover an amount of the balance due on the water, sewer, or other utility account that is an obligation of the tenant to a third-party provider under the rental agreement for the dwelling unit, and upon payment of such obligations the landlord shall provide written confirmation to the tenant within 10 days, along with payment to the tenant of any balance otherwise due to the tenant. In order to withhold such funds as part of the disposition of the security deposit, the landlord shall have so advised the tenant of his rights and obligations under this section in (i) a termination notice to the tenant in accordance with this chapter, (ii) a written notice to the tenant confirming the vacating date in accordance with this section, or (iii) a separate written notice to the tenant at least 15 days prior to the disposition of the security deposit. Any written notice to the tenant shall be given in accordance with § 55.1-1202.

The tenant may provide the landlord with written confirmation of the payment of the final water, sewer, or other utility bill for the dwelling unit, in which case the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period required by subsection A. If the tenant provides such written confirmation after the expiration of the 45-day period, the landlord shall refund any remaining balance of the security deposit held to the tenant within 10 days following the receipt of such written confirmation provided by the tenant. If the landlord otherwise receives confirmation of payment of the final water, sewer, or other utility bill for the dwelling unit, the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period.

D. Nothing in this section shall be construed to prohibit the landlord from making the disposition of the security deposit prior to the 45-day period required by subsection A and charging an administrative fee to the tenant for such expedited processing, if the rental agreement so provides and the tenant requests expedited processing in a separate written document.

E. The landlord shall notify the tenant in writing of any deductions provided by this section to be made from the tenant's security deposit during the course of the tenancy. Such notification shall be made within 30 days of the date of the determination of the deduction and shall itemize the reasons in the same manner as provided in subsection F. No such notification shall be required for deductions made less than 30 days prior to the termination of the rental agreement. If the landlord willfully fails to comply with this section, the court shall order the return of the security deposit to the tenant, together with actual damages and reasonable attorney fees, unless the tenant owes rent to the landlord, in which case the court shall order an amount equal to the security deposit credited against the rent due to the landlord. In the event that damages to the premises exceed the amount of the security deposit and require the services of a third-party contractor, the landlord shall give written notice to the tenant advising him of that fact within the 45-day period required by subsection A. If notice is given as prescribed in this subsection, the landlord shall have an additional ~~15-day~~ *30-day* period to provide an itemization of the damages and the cost of repair. This section shall not preclude the landlord or tenant from recovering other damages to which he may be entitled under this chapter. The holder of the landlord's interest in the premises at the time of the termination of the tenancy, regardless of how the interest is acquired or transferred, is bound by this section and shall be required to return any security deposit received by the original landlord that is duly owed to the tenant, whether or not such security deposit is transferred with the landlord's interest by law or equity, regardless of any contractual agreements between the original landlord and his successors in interest.

F. The landlord shall:

1. Maintain and itemize records for each tenant of all deductions from security deposits provided for under this section that the landlord has made by reason of a tenant's noncompliance with § 55.1-1227, or for any other reason set out in this section, during the preceding two years; and

2. Permit a tenant or his authorized agent or attorney to inspect such tenant's records of deductions at any time during normal business hours.

G. Upon request by the landlord to a tenant to vacate, or within five days after receipt of notice by the landlord of the tenant's intent to vacate, the landlord shall provide written notice to the tenant of the tenant's right to be present at the landlord's inspection of the dwelling unit for the purpose of determining the amount of security deposit to be returned. If the tenant desires to be present when the landlord makes the inspection, he shall, in writing, so advise the landlord, who in turn shall notify the tenant of the date and time of the inspection, which must be made within 72 hours of delivery of possession. Following the move-out inspection, the landlord shall provide the tenant with a written security deposit disposition statement, including an itemized list of damages. If additional damages are discovered by the landlord after the security deposit disposition has been made, nothing in this section shall be construed to preclude the landlord from recovery of such damages against the tenant, provided, however, that the tenant may present into evidence a copy of the move-out report to support the tenant's position that such additional damages did not exist at the time of the move-out inspection.

H. If the tenant has any assignee or sublessee, the landlord shall be entitled to hold a security deposit from only one party in compliance with the provisions of this section.

I. The landlord may permit a tenant to provide damage insurance coverage in lieu of the payment of a security deposit. Such damage insurance in lieu of a security deposit shall conform to the following criteria:

1. The provider of damage insurance is licensed or approved by the Virginia State Corporation Commission;

2. The coverage is effective upon the payment of the first premium and remains effective for the entire lease term;

3. The coverage provided per claim is no less than the amount the landlord requires for security deposits;

4. The provider of damage insurance agrees to approve or deny payment of a claim; and

5. The provider of damage insurance shall notify the landlord within 10 days if the damage policy lapses or is canceled.

J. A tenant who initially opts to provide damage insurance in lieu of a security deposit may, at any time without consent of the landlord, opt to pay the full security deposit to the landlord in lieu of maintaining a damage insurance policy. The landlord shall not alter the terms of the lease in the event a tenant opts to pay the full amount of the security deposit pursuant to this subsection.

2. That the provisions of this act shall expire on June 30, 2024.

CHAPTER 434

An Act to amend and reenact § 55.1-1226 of the Code of Virginia, relating to the Virginia Residential Landlord and Tenant Act; security deposits.

[S 891]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-1226 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-1226. Security deposits.

A. No landlord may demand or receive a security deposit, however denominated, in an amount or value in excess of two months' periodic rent. Upon termination of the tenancy or the date the tenant vacates the dwelling unit, whichever occurs last, such security deposit, whether it is property or money held by the landlord as security as provided in this section, may be applied by the landlord solely to (i) the payment of accrued rent, including the reasonable charges for late

payment of rent specified in the rental agreement; (ii) the payment of the amount of damages that the landlord has suffered by reason of the tenant's noncompliance with § 55.1-1227, less reasonable wear and tear; (iii) other damages or charges as provided in the rental agreement; or (iv) actual damages for breach of the rental agreement pursuant to § 55.1-1251. The security deposit and any deductions, damages, and charges shall be itemized by the landlord in a written notice given to the tenant, together with any amount due to the tenant, within 45 days after the termination date of the tenancy or the date the tenant vacates the dwelling unit, whichever occurs last. As of the date of the termination of the tenancy or the date the tenant vacates the dwelling unit, whichever occurs last, the tenant shall be required to deliver possession of the dwelling unit to the landlord. If the termination date is prior to the expiration of the rental agreement or any renewal thereof, or the tenant has not given proper notice of termination of the rental agreement, the tenant shall be liable for actual damages pursuant to § 55.1-1251, in which case, the landlord shall give written notice of security deposit disposition within the 45-day period but may retain any security balance to apply against any financial obligations of the tenant to the landlord pursuant to this chapter or the rental agreement. If the tenant fails to vacate the dwelling unit as of the termination of the tenancy, the landlord may file an unlawful detainer action pursuant to § 8.01-126.

B. Where there is more than one tenant subject to a rental agreement, unless otherwise agreed to in writing by each of the tenants, disposition of the security deposit shall be made with one check being payable to all such tenants and sent to a forwarding address provided by one of the tenants. The landlord shall make the security deposit disposition within the 45-day time period required by subsection A, but if no forwarding address is provided to the landlord, the landlord may continue to hold such security deposit in escrow. If a tenant fails to provide a forwarding address to the landlord to enable the landlord to make a refund of the security deposit, upon the expiration of one year from the date of the end of the 45-day time period, the landlord may remit such sum to the State Treasurer as unclaimed property on a form prescribed by the administrator that includes the name; social security number, if known; and last known address of each tenant on the rental agreement. If the landlord or managing agent is a real estate licensee, compliance with this subsection shall be deemed compliance with § 54.1-2108 and corresponding regulations of the Real Estate Board.

C. Nothing in this section shall be construed by a court of law or otherwise as entitling the tenant, upon the termination of the tenancy, to an immediate credit against the tenant's delinquent rent account in the amount of the security deposit. The landlord shall apply the security deposit in accordance with this section within the 45-day time period required by subsection A. However, provided that the landlord has given prior written notice in accordance with this section, the landlord may withhold a reasonable portion of the security deposit to cover an amount of the balance due on the water, sewer, or other utility account that is an obligation of the tenant to a third-party provider under the rental agreement for the dwelling unit, and upon payment of such obligations the landlord shall provide written confirmation to the tenant within 10 days, along with payment to the tenant of any balance otherwise due to the tenant. In order to withhold such funds as part of the disposition of the security deposit, the landlord shall have so advised the tenant of his rights and obligations under this section in (i) a termination notice to the tenant in accordance with this chapter, (ii) a written notice to the tenant confirming the vacating date in accordance with this section, or (iii) a separate written notice to the tenant at least 15 days prior to the disposition of the security deposit. Any written notice to the tenant shall be given in accordance with § 55.1-1202.

The tenant may provide the landlord with written confirmation of the payment of the final water, sewer, or other utility bill for the dwelling unit, in which case the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period required by subsection A. If the tenant provides such written confirmation after the expiration of the 45-day period, the landlord shall refund any remaining balance of the security deposit held to the tenant within 10 days following the receipt of such written confirmation provided by the tenant. If the landlord otherwise receives confirmation of payment of the final water, sewer, or other utility bill for the dwelling unit, the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period.

D. Nothing in this section shall be construed to prohibit the landlord from making the disposition of the security deposit prior to the 45-day period required by subsection A and charging an administrative fee to the tenant for such expedited processing, if the rental agreement so provides and the tenant requests expedited processing in a separate written document.

E. The landlord shall notify the tenant in writing of any deductions provided by this section to be made from the tenant's security deposit during the course of the tenancy. Such notification shall be made within 30 days of the date of the determination of the deduction and shall itemize the reasons in the same manner as provided in subsection F. No such notification shall be required for deductions made less than 30 days prior to the termination of the rental agreement. If the landlord willfully fails to comply with this section, the court shall order the return of the security deposit to the tenant, together with actual damages and reasonable attorney fees, unless the tenant owes rent to the landlord, in which case the court shall order an amount equal to the security deposit credited against the rent due to the landlord. In the event that damages to the premises exceed the amount of the security deposit and require the services of a third-party contractor, the landlord shall give written notice to the tenant advising him of that fact within the 45-day period required by subsection A. If notice is given as prescribed in this subsection, the landlord shall have an additional ~~15-day~~ *30-day* period to provide an itemization of the damages and the cost of repair. This section shall not preclude the landlord or tenant from recovering other damages to which he may be entitled under this chapter. The holder of the landlord's interest in the premises at the time of the termination of the tenancy, regardless of how the interest is acquired or transferred, is bound by this section and shall be required to return any security deposit received by the original landlord that is duly owed to the tenant, whether or

not such security deposit is transferred with the landlord's interest by law or equity, regardless of any contractual agreements between the original landlord and his successors in interest.

F. The landlord shall:

1. Maintain and itemize records for each tenant of all deductions from security deposits provided for under this section that the landlord has made by reason of a tenant's noncompliance with § 55.1-1227, or for any other reason set out in this section, during the preceding two years; and

2. Permit a tenant or his authorized agent or attorney to inspect such tenant's records of deductions at any time during normal business hours.

G. Upon request by the landlord to a tenant to vacate, or within five days after receipt of notice by the landlord of the tenant's intent to vacate, the landlord shall provide written notice to the tenant of the tenant's right to be present at the landlord's inspection of the dwelling unit for the purpose of determining the amount of security deposit to be returned. If the tenant desires to be present when the landlord makes the inspection, he shall, in writing, so advise the landlord, who in turn shall notify the tenant of the date and time of the inspection, which must be made within 72 hours of delivery of possession. Following the move-out inspection, the landlord shall provide the tenant with a written security deposit disposition statement, including an itemized list of damages. If additional damages are discovered by the landlord after the security deposit disposition has been made, nothing in this section shall be construed to preclude the landlord from recovery of such damages against the tenant, provided, however, that the tenant may present into evidence a copy of the move-out report to support the tenant's position that such additional damages did not exist at the time of the move-out inspection.

H. If the tenant has any assignee or sublessee, the landlord shall be entitled to hold a security deposit from only one party in compliance with the provisions of this section.

I. The landlord may permit a tenant to provide damage insurance coverage in lieu of the payment of a security deposit. Such damage insurance in lieu of a security deposit shall conform to the following criteria:

1. The provider of damage insurance is licensed or approved by the Virginia State Corporation Commission;

2. The coverage is effective upon the payment of the first premium and remains effective for the entire lease term;

3. The coverage provided per claim is no less than the amount the landlord requires for security deposits;

4. The provider of damage insurance agrees to approve or deny payment of a claim; and

5. The provider of damage insurance shall notify the landlord within 10 days if the damage policy lapses or is canceled.

J. A tenant who initially opts to provide damage insurance in lieu of a security deposit may, at any time without consent of the landlord, opt to pay the full security deposit to the landlord in lieu of maintaining a damage insurance policy. The landlord shall not alter the terms of the lease in the event a tenant opts to pay the full amount of the security deposit pursuant to this subsection.

2. That the provisions of this act shall expire on June 30, 2024.

CHAPTER 435

An Act to amend the Code of Virginia by adding a section numbered 55.1-1234.1, relating to the Virginia Residential Landlord and Tenant Act; uninhabitable dwelling unit.

[H 1635]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 55.1-1234.1 as follows:

§ 55.1-1234.1. Uninhabitable dwelling unit.

A. If, at the beginning of the tenancy, a condition exists in a rental dwelling unit that constitutes a fire hazard or serious threat to the life, health, or safety of tenants or occupants of the premises, including an infestation of rodents or a lack of heat, hot or cold running water, electricity, or adequate sewage disposal facilities, the tenant shall be entitled to terminate the rental agreement and receive a full refund of all deposits and rent paid to the landlord, so long as the tenant provides the landlord with written notice of his intent to terminate the rental agreement within seven days of the date on which possession of the dwelling unit was to have transferred to the tenant. Unless the landlord asserts, pursuant to subsection B, that the tenant's termination of the rental agreement is unjustified, the landlord shall refund all deposits and rent paid by the tenant to the tenant on or before the fifteenth business day following the day on which (i) the termination notice is delivered to the landlord or (ii) the tenant vacates the dwelling unit, whichever occurs later.

B. If a tenant terminates a rental agreement pursuant to subsection A and the landlord asserts that the tenant is unjustified in his termination of the rental agreement, the landlord shall provide written notice to the tenant of his refusal to accept the tenant's termination notice, along with the reasons for such refusal, within 15 business days following the date on which such termination notice is delivered to the landlord.

C. A tenant who has not taken possession or who has vacated the dwelling unit may file an action in a court of competent jurisdiction to contest the landlord's refusal to accept the termination notice, if applicable, and for the return of any deposits and rent paid to the landlord. In any such action, the prevailing party shall be entitled to recover reasonable attorney fees.

CHAPTER 436

An Act to amend and reenact § 15.2-2209.1:1 of the Code of Virginia, relating to local land use approvals; extension of approvals to address the COVID-19 pandemic.

[H 1665]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2209.1:1 of the Code of Virginia is amended and reenacted as follows:

Notwithstanding any time limits for validity set out in § 15.2-2260 or 15.2-2261, any subdivision plat valid under § 15.2-2260 and outstanding as of July 1, 2020, and any recorded plat or final site plan valid under § 15.2-2261 and outstanding as of July 1, 2020, shall remain valid until July 1, ~~2023~~ *2025*, or such later date as may be provided for by the terms of the locality's approval, local ordinance, resolution, or regulation. Any other plan or permit associated with such plat or site plan extended by this subsection is similarly extended for the same time period.

B. Notwithstanding any other provision of this chapter, for any valid special exception, special use permit, or conditional use permit, or any modifications thereto, outstanding as of July 1, 2020, any deadline in the exception permit, or in the local zoning ordinance that requires the landowner or developer to commence the project or incur significant expenses related to improvements for the project within a certain time, is extended until July 1, ~~2023~~ *2025*, or such longer period as may be agreed to by the locality.

C. D. The extension of validity provided in subsection A and the extension of deadlines as provided in subsection B will be effective only if any unreleased performance bonds and agreements or other financial guarantees of completion of public improvements in or associated with the proposed development are continued in force. CHAPTER 439

An Act to amend and reenact §§ 36-96.3:1 and 59.1-200 of the Code of Virginia, relating to Virginia Fair Housing Law; use of assistance animal in a dwelling; penalties.

[H 1725]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 36-96.3:1 and 59.1-200 of the Code of Virginia are amended and reenacted as follows:

§ 36-96.3:1. Rights and responsibilities with respect to the use of an assistance animal in a dwelling.

A. A person with a disability, or a person associated with such person, who maintains an assistance animal in a dwelling shall comply with the rental agreement or any rules and regulations of the property owner applicable to all residents that do not interfere with an equal opportunity to use and enjoy the dwelling and any common areas of the premises. Such person shall not be required to pay a pet fee or deposit or any additional rent to maintain an assistance animal in a dwelling, but shall be responsible for any physical damages to the dwelling if residents who maintain pets are responsible for such damages in accordance with such documents or state law. Nothing herein shall be construed to affect any cause of action against any resident for other damages under the laws of the Commonwealth.

B. If a person's disability is obvious or otherwise known to the person receiving a request, or if the need for a requested accommodation is readily apparent or known to the person receiving a request, the person receiving a request for reasonable accommodation may not request any additional verification about the requester's disability. If a person's disability is readily apparent or known to the person receiving the request but the disability-related need is not readily apparent or known, the person receiving the request may ask for additional verification to evaluate the requester's disability-related need.

C. A person with a disability, or a person associated with such person, may submit a request for a reasonable accommodation to maintain an assistance animal in a dwelling. Subject to subsection B, the person receiving the request may ask the requester to provide reliable documentation of the disability and the disability-related need for an assistance animal, including documentation from any person with whom the person with a disability has or has had a therapeutic relationship.

D. Subject to subsection B, a person receiving a request for a reasonable accommodation to maintain an assistance animal in a dwelling shall evaluate the request and any reliable supporting documentation ~~to verify~~ *that verifies* the disability and the disability-related need for the reasonable accommodation regarding an assistance animal.

E. For purposes of this section, "therapeutic relationship" means the provision of medical care, program care, or personal care services, in good faith, to the person with a disability by (i) a mental health service provider as defined in § 54.1-2400.1; (ii) an individual or entity with a valid, unrestricted state license, certification, or registration to serve persons with disabilities; (iii) a person from a peer support or similar group that does not charge service recipients a fee or impose any actual or implied financial requirement and who has actual knowledge about the requester's disability; or (iv) a caregiver, reliable third party, or government entity with actual knowledge of the requester's disability.

F. No person listed in clauses (i) through (iv) of subsection E shall provide fraudulent supporting documentation to evince the existence of a disability or disability-related need for a person requesting a reasonable accommodation pursuant to this section. A violation of this subsection constitutes a prohibited practice under the provisions of § 59.1-200 and shall be subject to the provisions of the Virginia Consumer Protection Act (§ 59.1-196 et seq.).

§ 59.1-200. Prohibited practices.

A. The following fraudulent acts or practices committed by a supplier in connection with a consumer transaction are hereby declared unlawful:

1. Misrepresenting goods or services as those of another;

2. Misrepresenting the source, sponsorship, approval, or certification of goods or services;

3. Misrepresenting the affiliation, connection, or association of the supplier, or of the goods or services, with another;

4. Misrepresenting geographic origin in connection with goods or services;

5. Misrepresenting that goods or services have certain quantities, characteristics, ingredients, uses, or benefits;

6. Misrepresenting that goods or services are of a particular standard, quality, grade, style, or model;

7. Advertising or offering for sale goods that are used, secondhand, repossessed, defective, blemished, deteriorated, or reconditioned, or that are "seconds," irregulars, imperfects, or "not first class," without clearly and unequivocally indicating in the advertisement or offer for sale that the goods are used, secondhand, repossessed, defective, blemished, deteriorated, reconditioned, or are "seconds," irregulars, imperfects or "not first class";

Be it enacted by the General Assembly of Virginia:

1. That §§ 62.1-198, 62.1-199, 62.1-216, and 62.1-218 of the Code of Virginia are amended and reenacted as follows:

§ 62.1-198. Legislative findings and purposes.

The General Assembly finds that there exists in the Commonwealth a critical need for additional sources of funding to finance the present and future needs of the Commonwealth for water supply; land conservation or land preservation, including land for parks and other recreational purposes; oyster restoration projects, including planting and replanting with seed oysters, oyster shells, or other material that will catch, support, and grow oysters; wastewater treatment facilities; drainage facilities; solid waste treatment, disposal, and management facilities; recycling facilities; resource recovery facilities; energy conservation and energy efficiency projects; professional sports facilities; certain heavy rail transportation facilities; public safety facilities; airport facilities; the remediation of brownfields and contaminated properties, including properties contaminated by defective drywall; the design and construction of roads, public parking garages, and other public transportation facilities, and facilities for public transportation by commuter rail; construction of local government buildings, including administrative and operations systems and other local government equipment and infrastructure; site acquisition and site development work for economic ~~and~~ *development projects;* community development projects, *to include projects related to the production and preservation of housing, including housing for persons and families of low and moderate income*; recovered gas energy facilities; the location or retention of federal facilities in the Commonwealth and the support of the transition of former federal facilities from use by the federal government to other uses; and renewable energy projects, including solar, wind, biomass, waste-to-energy, and geothermal. This need can be alleviated in part through the creation of a resources authority. Its purpose is to encourage the investment of both public and private funds and to make loans, grants, and credit enhancements available to local governments to finance water and sewer projects~~,~~*;* land conservation or land preservation programs or projects~~,~~*;* oyster restoration projects~~,~~*;* drainage projects~~,~~*;* solid waste treatment, disposal, and management projects~~,~~*;* recycling projects~~,~~*;* energy conservation and energy efficiency projects~~,~~*;* professional sports facilities~~,~~*;* resource recovery projects~~,~~*;* public safety facilities~~,~~*;* airport facilities~~,~~*;* the remediation of brownfields and contaminated properties, including properties contaminated by defective drywall~~,~~*;* the design and construction of roads, public parking garages, and other public transportation facilities, and facilities for public transportation by commuter rail~~,~~*;* site acquisition and site development work for the benefit of economic development projects~~,~~*; community development projects, to include projects related to the production and preservation of housing, including housing for persons and families of low and moderate income;* technology~~,~~*;* construction of local government buildings, including administrative and operations systems and other local government equipment and infrastructure~~,~~*;* infrastructure for broadband services~~,~~*;* recovered gas energy facilities~~,~~*;* federal facilities or former federal facilities~~,~~*;* and renewable energy projects. § 55.1-1204. Terms and conditions of rental agreement; payment of rent; copy of rental agreement for tenant.

A. A landlord and tenant may include in a rental agreement terms and conditions not prohibited by this chapter or other rule of law, including rent, charges for late payment of rent, the term of the agreement, automatic renewal of the rental agreement, requirements for notice of intent to vacate or terminate the rental agreement, and other provisions governing the rights and obligations of the parties.

B. A landlord shall offer a prospective tenant a written rental agreement containing the terms governing the rental of the dwelling unit and setting forth the terms and conditions of the landlord-tenant relationship and shall provide with it the statement of tenant rights and responsibilities developed by the Department of Housing and Community Development and posted on its website pursuant to § 36-139. The parties to a written rental agreement shall sign the form developed by the Department of Housing and Community Development and posted on its website pursuant to § 36-139 acknowledging that the tenant has received from the landlord the statement of tenant rights and responsibilities. The written rental agreement shall be effective upon the date signed by the parties.

If a tenant fails to sign the form available pursuant to this subsection, the landlord shall record the date or dates on which he provided the form to the tenant and the fact that the tenant failed to sign such form. Subsequent to the effective date of the tenancy, a landlord may, but shall not be required to, provide a tenant with and allow such tenant an opportunity to sign the form described pursuant to this subsection. The form shall be current as of the date of delivery.

C. If a landlord does not offer a written rental agreement, the tenancy shall exist by operation of law, consisting of the following terms and conditions:

1. The provision of this chapter shall be applicable to the dwelling unit that is being rented;

2. The duration of the rental agreement shall be for 12 months and shall not be subject to automatic renewal, except in the event of a month-to-month lease as otherwise provided for under subsection C of § 55.1-1253;

3. Rent shall be paid in 12 equal periodic installments in an amount agreed upon by the landlord and the tenant and if no amount is agreed upon, the installments shall be at fair market rent;

4. Rent payments shall be due on the first day of each month during the tenancy and shall be considered late if not paid by the fifth of the month;

5. If the rent is paid by the tenant after the fifth day of any given month, the landlord shall be entitled to charge a late charge as provided in this chapter;

6. The landlord may collect a security deposit in an amount that does not exceed a total amount equal to two months of rent; and

7. The parties may enter into a written rental agreement at any time during the 12-month tenancy created by this subsection.

D. Except as provided in the written rental agreement, or as provided in subsection C if no written agreement is offered, rent shall be payable without demand or notice at the time and place agreed upon by the parties. Except as provided in the written rental agreement, rent is payable at the place designated by the landlord, and periodic rent is payable at the

Failure of the landlord to act within 10 business days is evidence of his approval.

H. The landlord shall provide a copy of any written rental agreement and the statement of tenant rights and responsibilities to the tenant within one month of the effective date of the written rental agreement. The failure of the landlord to deliver such a rental agreement and statement shall not affect the validity of the agreement. However, the landlord shall not file or maintain an action*, including any summons for unlawful detainer,* against the tenant in a court of law for any alleged lease violation until he has provided the tenant with the statement of tenant rights and responsibilities.

I. No unilateral change in the terms of a rental agreement by a landlord or tenant shall be valid unless (i) notice of the change is given in accordance with the terms of the rental agreement or as otherwise required by law and (ii) both parties consent in writing to the change.

6. Provide a copy of any written rental agreement and the statement of tenant rights and responsibilities to the tenant within one month of the effective date of the written rental agreement. *The parties to a written rental agreement shall sign the form developed by the Department of Housing and Community Development and posted on its website pursuant to § 36-139 acknowledging that the tenant has received from the landlord the statement of tenant rights and responsibilities. If a tenant fails to sign the form available pursuant to this subsection, the landlord shall record the date or dates on which he provided the form to the tenant and the fact that the tenant failed to sign such form. Subsequent to the effective date of the tenancy, a landlord may, but shall not be required to, provide a tenant with and allow such tenant an opportunity to sign the form described pursuant to this subsection.* The failure of the landlord to deliver such a rental agreement and statement shall not affect the validity of the agreement. However, the landlord shall not file or maintain an action*, including any summons for unlawful detainer,* against the tenant in a court of law for any alleged lease violation until he has provided the tenant with the statement of tenant rights and responsibilities.

[H 1972]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-512.4 of the Code of Virginia is amended as follows:

§ 8.01-512.4. Notice of exemptions from garnishment and lien.

No summons in garnishment shall be issued or served, nor shall any notice of lien be served on a financial institution pursuant to § 8.01-502.1, unless a notice of exemptions and claim for exemption form are attached. The notice shall contain the following statement:

NOTICE TO JUDGMENT DEBTOR

HOW TO CLAIM EXEMPTIONS FROM GARNISHMENT AND LIEN

The attached Summons in Garnishment or Notice of Lien has been issued on request of a creditor who holds a judgment against you. The Summons may cause your property or wages to be held or taken to pay the judgment.

The law provides that certain property and wages cannot be taken in garnishment. Such property is said to be exempted. A summary of some of the major exemptions is set forth in the request for hearing form. There is no exemption solely because you are having difficulty paying your debts.

If you claim an exemption, you should (i) fill out the claim for exemption form and (ii) deliver or mail the form to the clerk's office of this court. You have a right to a hearing within seven business days from the date you file your claim with the court. If the creditor is asking that your wages be withheld, the method of computing the amount of wages that are exempt from garnishment by law is indicated on the Summons in Garnishment attached. You do not need to file a claim for exemption to receive this exemption, but if you believe the wrong amount is being withheld you may file a claim for exemption.

On the day of the hearing you should come to court ready to explain why your property is exempted, and you should bring any documents that may help you prove your case. If you do not come to court at the designated time and prove that your property is exempt, you may lose some of your rights.

It may be helpful to you to seek the advice of an attorney in this matter.

[H 2467]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-308.2:2 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-308.2:2. Criminal history record information check required for the transfer of certain firearms.

A. Any person purchasing from a dealer a firearm as herein defined shall consent in writing, on a form to be provided by the Department of State Police, to have the dealer obtain criminal history record information. Such form shall include only the written consent; the name, birth date, gender, race, citizenship, and social security number and/or any other identification number; the number of firearms by category intended to be sold, rented, traded, or transferred; and answers by the applicant to the following questions: (i) has the applicant been convicted of a felony offense or a misdemeanor offense listed in § 18.2-308.1:8 or found guilty or adjudicated delinquent as a juvenile 14 years of age or older at the time of the offense of a delinquent act that if committed by an adult would be a felony or a misdemeanor listed in § 18.2-308.1:8; (ii) is the applicant subject to a court order restraining the applicant from harassing, stalking, or threatening the applicant's child or intimate partner, or a child of such partner, or is the applicant subject to a protective order; (iii) has the applicant ever been acquitted by reason of insanity and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:1 or any substantially similar law of any other jurisdiction, been adjudicated legally incompetent, mentally incapacitated, or adjudicated an incapacitated person and prohibited from purchasing a firearm pursuant to § 18.2-308.1:2 or any substantially similar law of any other jurisdiction, been involuntarily admitted to an inpatient facility or involuntarily ordered to outpatient mental health treatment and prohibited from purchasing a firearm pursuant to § 18.2-308.1:3 or any substantially similar law of any other jurisdiction, or been the subject of a temporary detention order pursuant to § 37.2-809 and subsequently agreed to a voluntary admission pursuant to § 37.2-805; and (iv) is the applicant subject to an emergency substantial risk order or a substantial risk order entered pursuant to § 19.2-152.13 or 19.2-152.14 and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:6 or any substantially similar law of any other jurisdiction.

B. 1. No dealer shall sell, rent, trade, or transfer from his inventory any such firearm to any other person who is a resident of Virginia until he has (i) obtained written consent and the other information on the consent form specified in subsection A, and provided the Department of State Police with the name, birth date, gender, race, citizenship, and social security and/or any other identification number and the number of firearms by category intended to be sold, rented, traded, or transferred and (ii) requested criminal history record information by a telephone call to or other communication authorized by the State Police and is authorized by subdivision 2 to complete the sale or other such transfer. To establish personal identification and residence in Virginia for purposes of this section, a dealer must require any prospective purchaser to present one photo-identification form issued by a governmental agency of the Commonwealth or by the United States Department of Defense *or a special identification card without a photograph issued pursuant to § 46.2-345.2* that demonstrates that the prospective purchaser resides in Virginia. For the purposes of this section and establishment of residency for firearm purchase, residency of a member of the armed forces shall include both the state in which the member's permanent duty post is located and any nearby state in which the member resides and from which he commutes to the permanent duty post. A member of the armed forces whose photo identification issued by the Department of Defense does not have a Virginia address may establish his Virginia residency with such photo identification and either permanent orders assigning the purchaser to a duty post, including the Pentagon, in Virginia or the purchaser's Leave and Earnings Statement. When the ~~photo~~ identification presented to a dealer by the prospective purchaser is a driver's license or other photo identification issued by the Department of Motor Vehicles *or a special identification card without a photograph issued pursuant to § 46.2-345.2*, and such identification form *or card* contains a date of issue, the dealer shall not, except for a renewed driver's license or other photo identification issued by the Department of Motor Vehicles *or a renewed special identification card without a photograph issued pursuant to § 46.2-345.2*, sell or otherwise transfer a firearm to the prospective purchaser until 30 days after the date of issue of an original or duplicate driver's license *or special identification card without a photograph* unless the prospective purchaser also presents a copy of his Virginia Department of Motor Vehicles driver's record showing that the original date of issue of the driver's license was more than 30 days prior to the attempted purchase.

In addition, no dealer shall sell, rent, trade, or transfer from his inventory any assault firearm to any person who is not a citizen of the United States or who is not a person lawfully admitted for permanent residence.

Upon receipt of the request for a criminal history record information check, the State Police shall (a) review its criminal history record information to determine if the buyer or transferee is prohibited from possessing or transporting a firearm by state or federal law, (b) inform the dealer if its record indicates that the buyer or transferee is so prohibited, and (c) provide the dealer with a unique reference number for that inquiry.

2. The State Police shall provide its response to the requesting dealer during the dealer's request or by return call without delay. A dealer who fulfills the requirements of subdivision 1 and is told by the State Police that a response will not be available by the end of the dealer's fifth business day may immediately complete the sale or transfer and shall not be deemed in violation of this section with respect to such sale or transfer.

3. Except as required by subsection D of § 9.1-132, the State Police shall not maintain records longer than 30 days, except for multiple handgun transactions for which records shall be maintained for 12 months, from any dealer's request for a criminal history record information check pertaining to a buyer or transferee who is not found to be prohibited from possessing and transporting a firearm under state or federal law. However, the log on requests made may be maintained for a period of 12 months, and such log shall consist of the name of the purchaser, the dealer identification number, the unique approval number, and the transaction date.

4. On the last day of the week following the sale or transfer of any firearm, the dealer shall mail or deliver the written consent form required by subsection A to the Department of State Police. The State Police shall immediately initiate a

search of all available criminal history record information to determine if the purchaser is prohibited from possessing or transporting a firearm under state or federal law. If the search discloses information indicating that the buyer or transferee is so prohibited from possessing or transporting a firearm, the State Police shall inform the chief law-enforcement officer in the jurisdiction where the sale or transfer occurred and the dealer without delay.

5. Notwithstanding any other provisions of this section, rifles and shotguns may be purchased by persons who are citizens of the United States or persons lawfully admitted for permanent residence but residents of other states under the terms of subsections A and B upon furnishing the dealer with one photo-identification form issued by a governmental agency of the person's state of residence and one other form of identification determined to be acceptable by the Department of Criminal Justice Services.

6. For the purposes of this subsection, the phrase "dealer's fifth business day" does not include December 25.

C. No dealer shall sell, rent, trade, or transfer from his inventory any firearm, except when the transaction involves a rifle or a shotgun and can be accomplished pursuant to the provisions of subdivision B 5, to any person who is a dual resident of Virginia and another state pursuant to applicable federal law unless he has first obtained from the Department of State Police a report indicating that a search of all available criminal history record information has not disclosed that the person is prohibited from possessing or transporting a firearm under state or federal law.

To establish personal identification and dual resident eligibility for purposes of this subsection, a dealer shall require any prospective purchaser to present one photo-identification form issued by a governmental agency of the prospective purchaser's state of legal residence and other documentation of dual residence within the Commonwealth. The other documentation of dual residence in the Commonwealth may include (i) evidence of currently paid personal property tax or real estate tax or a current (a) lease, (b) utility or telephone bill, (c) voter registration card, (d) bank check, (e) passport, (f) automobile registration, or (g) hunting or fishing license; (ii) other current identification allowed as evidence of residency by 27 C.F.R. § 178.124 and ATF Ruling 2001-5; or (iii) other documentation of residence determined to be acceptable by the Department of Criminal Justice Services and that corroborates that the prospective purchaser currently resides in Virginia.

D. If any buyer or transferee is denied the right to purchase a firearm under this section, he may exercise his right of access to and review and correction of criminal history record information under § 9.1-132 or institute a civil action as provided in § 9.1-135, provided any such action is initiated within 30 days of such denial.

E. Any dealer who willfully and intentionally requests, obtains, or seeks to obtain criminal history record information under false pretenses, or who willfully and intentionally disseminates or seeks to disseminate criminal history record information except as authorized in this section, shall be guilty of a Class 2 misdemeanor.

"Supplementation" means a request communicated by the carrier to the prescriber or his designee, for additional information, limited to items specifically requested on the applicable prior authorization request, necessary to approve or deny a prior authorization request.

B. Any provider contract between a carrier and a participating health care provider with prescriptive authority, or its contracting agent, shall contain specific provisions that:

1. Require the carrier to, in a method of its choosing, accept telephonic, facsimile, or electronic submission of prior authorization requests that are delivered from e-prescribing systems, electronic health record systems, and health information exchange platforms that utilize the National Council for Prescription Drug Programs' SCRIPT standards;

2. Require that the carrier communicate to the prescriber or his designee within 24 hours, including weekend hours, of submission of an urgent prior authorization request to the carrier, if submitted telephonically or in an alternate method directed by the carrier, that the request is approved, denied, or requires supplementation;

3. Require that the carrier communicate electronically, telephonically, or by facsimile to the prescriber or his designee, within two business days of submission of a fully completed prior authorization request, that the request is approved, denied, or requires supplementation;

4. Require that the carrier communicate electronically, telephonically, or by facsimile to the prescriber or his designee, within two business days of submission of a properly completed supplementation from the prescriber or his designee, that the request is approved or denied;

5. Require that if the prior authorization request is denied, the carrier shall communicate electronically, telephonically, or by facsimile to the prescriber or his designee, within the timeframes established by subdivision 3 or 4, as applicable, the reasons for the denial;

6. Require that prior authorization approved by another carrier be honored, upon the carrier's receipt from the prescriber or his designee of a record demonstrating the previous carrier's prior authorization approval or any written or electronic evidence of the previous carrier's coverage of such drug, at least for the initial 30 days of a member's prescription drug benefit coverage under a new health plan, subject to the provisions of the new carrier's evidence of coverage;

7. Require that a tracking system be used by the carrier for all prior authorization requests and that the identification information be provided electronically, telephonically, or by facsimile to the prescriber or his designee, upon the carrier's response to the prior authorization request;

8. Require that the carrier's prescription drug formularies, all drug benefits subject to prior authorization by the carrier, all of the carrier's prior authorization procedures, and all prior authorization request forms accepted by the carrier be made available through one central location on the carrier's website and that such information be updated by the carrier within seven days of approved changes;

9. Require a carrier to honor a prior authorization issued by the carrier for a drug, other than an opioid, regardless of changes in dosages of such drug, provided such drug is prescribed consistent with U.S. Food and Drug Administration-labeled dosages;

10. Require a carrier to honor a prior authorization issued by the carrier for a drug regardless of whether the covered person changes plans with the same carrier and the drug is a covered benefit with the current health plan;

11. Require a carrier, when requiring a prescriber to provide supplemental information that is in the covered individual's health record or electronic health record, to identify the specific information required;

12. Require that no prior authorization be required for at least one drug prescribed for substance abuse medication-assisted treatment, provided that (i) the drug is a covered benefit, (ii) the prescription does not exceed the FDA-labeled dosages, and (iii) the drug is prescribed consistent with the regulations of the Board of Medicine;

13. Require that when any carrier has previously approved prior authorization for any drug prescribed for the treatment of a mental disorder listed in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association, no additional prior authorization shall be required by the carrier, provided that (i) the drug is a covered benefit; (ii) the prescription does not exceed the FDA-labeled dosages; (iii) the prescription has been continuously issued for no fewer than three months; and (iv) the prescriber performs an annual review of the patient to evaluate the drug's continued efficacy, changes in the patient's health status, and potential contraindications. Nothing in this subdivision shall prohibit a carrier from requiring prior authorization for any drug that is not listed on its prescription drug formulary at the time the initial prescription for the drug is issued; ~~and~~

14. Require a carrier to honor a prior authorization issued by the carrier for a drug regardless of whether the drug is removed from the carrier's prescription drug formulary after the initial prescription for that drug is issued, provided that the drug and prescription are consistent with the applicable provisions of subdivision 13*;*

15. Require a carrier, beginning July 1, 2025, notwithstanding the provisions of subdivision 1 or any other provision of this section, to establish and maintain an online process that (i) links directly to all e-prescribing systems and electronic health record systems that utilize the National Council for Prescription Drug Programs SCRIPT standard and the National Council for Prescription Drug Programs Real Time Benefit Standard; (ii) can accept electronic prior authorization requests from a provider; (iii) can approve electronic prior authorization requests (a) for which no additional information is needed by the carrier to process the prior authorization request, (b) for which no clinical review is required, and (c) that meet the carrier's criteria for approval; and (iv) links directly to real-time patient out-of-pocket costs for the office visit, considering copayment and deductible, and (v) otherwise meets the requirements of this section. No later than July 1, 2024, a carrier shall provide contact information of any third-party vendor or other entity the carrier will use to meet the requirements of this subdivision or the requirements of § 38.2-3407.15:7 to any provider that requests such information. A carrier that posts such contact information on its website shall be considered to have met this requirement; and

16. Require a participating health care provider, beginning July 1, 2025, to ensure that any e-prescribing system or electronic health record system owned by or contracted for the provider to maintain an enrollee's health record has the ability to access, at the point of prescribing, the electronic prior authorization process established by a carrier as required by subdivision 15 and the real-time patient-specific benefit information, including out-of-pocket costs and more affordable medication alternatives made available by a carrier pursuant to § 38.2-3407.15:7. A provider may request a waiver of compliance under this subdivision for undue hardship for a period specified by the appropriate regulatory authority with the Health and Human Resources Secretariat.

C. The Commission shall have no jurisdiction to adjudicate individual controversies arising out of this section.

D. This section shall apply with respect to any contract between a carrier and a participating health care provider, or its contracting agent, that is entered into, amended, extended, or renewed on or after January 1, 2016.

In addition to the remedies provided in ~~§~~ *§§* 32.1-27 *and 32.1-27.2* and the civil penalties set forth in subsection A ~~of this section~~, the Commissioner may petition the circuit court for the jurisdiction in which any nursing home or certified nursing facility as defined in § 32.1-123 is located for the appointment of a receiver in accordance with the provisions of this subsection whenever such nursing home or certified nursing facility shall (i) receive official notice from the Commissioner that its license has been or will be revoked or suspended, or that its Medicare or Medicaid certification has been or will be cancelled or revoked; or (ii) receive official notice from the United States Department of Health and Human Services or the Department of Medical Assistance Services that its provider agreement has been or will be revoked, cancelled, terminated or not renewed; or (iii) advise the Department of its intention to close or not to renew its license or Medicare or Medicaid provider agreement less than ninety days in advance; or (iv) operate at any time under conditions which present a major and continuing threat to the health, safety, security, rights or welfare of the patients, including the threat of imminent abandonment by the owner or operator, or a pattern of failure to meet ongoing financial obligations such as the inability to pay for essential food, pharmaceuticals, personnel, or required insurance; and (v) the Department is unable to make adequate and timely arrangements for relocating all patients who are receiving medical assistance under this chapter and Title XIX of the Social Security Act in order to ensure their continued safety and health care.

Upon the filing of a petition for appointment of a receiver, the court shall hold a hearing within ten days, at which time the Department and the owner or operator of the facility may participate and present evidence. The court may grant the petition if it finds any one of the conditions identified in (i) through (iv) ~~above~~ to exist in combination with the condition

identified in (v) and the court further finds that such conditions will not be remedied and that the patients will not be protected unless the petition is granted.

No receivership established under this subsection shall continue in effect for more than 180 days without further order of the court, nor shall the receivership continue in effect following the revocation of the nursing home's license or the termination of the certified nursing facility's Medicare or Medicaid provider agreement, except to enforce any post-termination duties of the provider as required by the provisions of the Medicare or Medicaid provider agreement.

The appointed receiver shall be a person licensed as nursing home administrator in the Commonwealth pursuant to Title 54.1 or, if not so licensed, shall employ and supervise a person so licensed to administer the day-to-day business of the nursing home or certified nursing facility.

The receiver shall have (i) such powers and duties to manage the nursing home or certified nursing facility as the court may grant and direct, including but not limited to the duty to accomplish the orderly relocation of all patients and the right to refuse to admit new patients during the receivership, (ii) the power to receive, conserve, protect and disburse funds, including Medicare and Medicaid payments on behalf of the owner or operator of the nursing home or certified nursing facility, (iii) the power to execute and avoid executory contracts, (iv) the power to hire and discharge employees, and (v) the power to do all other acts, including the filing of such reports as the court may direct, subject to accounting to the court therefor and otherwise consistent with state and federal law, necessary to protect the patients from the threat or threats set forth in the original petitions, as well as such other threats arising thereafter or out of the same conditions.

The court may grant injunctive relief as it deems appropriate to the Department or to its receiver either in conjunction with or subsequent to the granting of a petition for appointment of a receiver under this section.

The court may terminate the receivership on the motion of the Department, the receiver, or the owner or operator, upon finding, after a hearing, that either (i) the conditions described in the petition have been substantially eliminated or remedied~~,~~ or (ii) all patients in the nursing home or certified nursing facility have been relocated. Within ~~thirty~~ *30* days after such termination, the receiver shall file a complete report of his activities with the court, including an accounting for all property of which he has taken possession and all funds collected.

All costs of administration of a receivership hereunder shall be paid by the receiver out of reimbursement to the nursing home or certified nursing facility from Medicare, Medicaid and other patient care collections. The court, after terminating such receivership, shall enter appropriate orders to ensure such payments upon its approval of the receiver's reports.

A receiver appointed under this section shall be an officer of the court, shall not be liable for conditions at the nursing home or certified nursing facility which existed or originated prior to his appointment and shall not be personally liable, except for his own gross negligence and intentional acts which result in injuries to persons or damage to property at the nursing home or certified nursing facility during his receivership.

The provisions of this subsection shall not be construed to relieve any owner, operator or other party of any duty imposed by law or of any civil or criminal liability incurred by reason of any act or omission of such owner, operator, or other party.

§ 32.1-27.2. Administrative sanctions.

A. Notwithstanding any other provision of law, the Commissioner may impose administrative sanctions in accordance with this section on any certified nursing facility, if that certified nursing facility does not comply with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127. The Commissioner shall not impose any administrative sanctions authorized under this section until regulations are promulgated pursuant to subsection G.

B. The Commissioner shall have authority to annually determine whether or not to impose any sanctions under subsection C for noncompliance with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127, if the certified nursing facility:

1. Was affected by a declared emergency, or an act of God, that had an impact on the ability to hire or retain staff at levels required under subdivision B 32 of § 32.1-127. To the extent necessary, the Commissioner may review trended employment data for direct care staff, as provided by the certified nursing facility, to determine the effect of such emergencies or acts of God in assessing this criterion. Failure to provide adequate data may remove this criterion from the Commissioner's consideration;

2. Has made a concerted effort to recruit and retain direct care staff as evidenced through position advertisements, interviews, offers, financial incentives, and nonfinancial incentives. The certified nursing facility shall provide such evidence upon request of the Commissioner for consideration. Failure to provide adequate evidence may remove this criterion from the Commissioner's consideration; or

3. Was located in a medically underserved area and such location severely limited the ability of the certified nursing facility to recruit and retain direct care staff despite a concerted effort to recruit and retain direct care staff. The certified nursing facility shall provide evidence upon request of the Commissioner for consideration. Failure to provide adequate evidence may remove this criterion from the Commissioner's consideration.

C. Prior to restricting or prohibiting new admissions to a certified nursing facility, suspending or refusing to renew or reinstate any nursing home license, or revoking any nursing home license issued pursuant to Article 1 (§ 32.1-123 et seq.) of Chapter 5, the Commissioner shall first impose the following iterative administrative sanctions:

1. When a certified nursing facility is not in compliance with subdivision B 32 of § 32.1-127 and the conditions under subsection B do not exist, the Commissioner shall require the submission of an annual corrective action plan by a certified

nursing facility and, upon approval of such plan by the Commissioner, compliance with such plan. A corrective action plan shall only articulate strategies to be utilized to increase direct care staffing with the goal of compliance with subdivision B 32 of § 32.1-127 or improvement on the total nurse staffing hours metric, as defined by the Virginia Medicaid Nursing Facility Value-Based Purchasing (VBP) program. The Commissioner shall consider evidence of direct care staff hours provided in addition to the payroll based journal report, if requested by a certified nursing facility, and may or may not impose a corrective action plan under this section. The Commissioner shall consider the following:

a. If the annual measurement immediately subsequent to issuance of the corrective action plan shows compliance with subdivision B 32 of § 32.1-127, no additional administrative sanctions are warranted, and the corrective action plan is deemed inactive but shall be retained by the Commissioner pursuant to the Virginia Public Records Act (§ 42.1-76 et seq.); or

b. If the annual measurement immediately subsequent to issuance of the corrective action plan still shows noncompliance with subdivision B 32 of § 32.1-127, but the VBP program, as administered by the Department of Medical Assistance Services, indicates defined improvement on the total nurse staffing hours metric, the Commissioner shall repeat the provisions of subdivision 1; or

c. If the annual measurement immediately subsequent to issuance of the corrective action plan still shows noncompliance with subdivision B 32 of § 32.1-127, and the VBP program, as administered by the Department of Medical Assistance Services, does not indicate defined improvement on the total nurse staffing hours metric, the Commissioner shall repeat the provisions of subdivision 1 and may, under circumstances described, provide additional sanctions under subdivisions 2 and 3;

2. To the extent that any consecutive annual corrective action plan is required and results articulated in subdivision 1 c are obtained a second consecutive time, the Commissioner may impose a monetary penalty of up to $50,000 for each subsequent consecutive annual period in which compliance with subdivision B 32 of § 32.1-127 or defined improvement on the total nurse staffing hours metric under the VBP program is not attained; and

3. To the extent that a certified nursing facility is out of compliance with subdivision B 32 of § 32.1-127 or fails to show defined improvement on the total nurse staffing hours metric under the VBP program after three consecutive corrective action plans, the Commissioner may place the nursing home or certified nursing facility on probation.

D. A certified nursing facility sanctioned by the Commissioner shall retain responsibility for the health, safety, and welfare of any person under its care, including the timely transfer or relocation of such persons as may be deemed necessary by the Commissioner in compliance with state and federal discharge rights and protections for nursing home residents.

E. After deduction of the administrative costs of the Commissioner and the Department in furtherance of this section, any penalties collected under this section shall be paid to the special fund as set forth in § 32.1-27.1.

F. Prior to imposing administrative sanctions, the Commissioner shall provide the facility with reasonable notice. To the extent that sanctions are imposed, the facility shall be entitled to all rights under the Administrative Process Act (§ 2.2-4000 et seq.) and to a de novo appeal to circuit court.

G. The Board shall promulgate regulations to implement the provisions of this section consistent with the Administrative Process Act (§ 2.2-4000 et seq.).

§ 32.1-127. Regulations.

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

5. Shall require that each hospital that provides obstetrical services establish a protocol for admission or transfer of any pregnant woman who presents herself while in labor;

Appropriate referrals may include, but need not be limited to, treatment services, comprehensive early intervention services for infants and toddlers with disabilities and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to the extent possible, the other parent of the infant and any members of the patient's extended family who may participate in the follow-up care for the mother and the infant. Immediately upon identification, pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, subject to federal law restrictions, the community services board of the jurisdiction in which the woman resides to appoint a discharge plan manager. 15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility. No family member of a resident or other resident representative shall be restricted from participating in meetings in the facility with the families or resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of $1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. 19. Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. Facilities which have identified a lot that is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

That if the funding of the Value-Based Purchasing program is reduced or suspended below levels established in the 2022 Appropriation Act (Chapter 2 of the Acts of Assembly of 2022, Special Session I), as adjusted by the Medicaid Virginia Nursing Home Inflation Index annually thereafter, the State Health Commissioner shall not impose administrative sanctions in accordance with § 32.1-27.2 of the Code of Virginia, as created by this act, on any certified nursing home that does not comply with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act.

4. That in the event that a federal staffing ratio or similar mandate is established, the staffing ratio established pursuant to subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, shall be repealed. In such an event, authority for administrative sanctions in accordance with § 32.1-27.2 of the Code of Virginia, as created by this act, shall be revoked, with deferral to federal authority to enforce the staffing ratio or similar mandate under federal law.

5. That annually the Department of Medical Assistance Services shall communicate to the State Board of Health the information required by the provisions of subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, and the State Board of Health shall not include the provisions of subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, in the state licensure requirements. The information that the Department of Medical Assistance Services is required to communicate to the State Board of Health under this enactment shall apply to the Virginia Medicaid Nursing Facility Value-Based Purchasing program as referenced in Chapter 2 of the Acts of Assembly of 2022, Special Session I, or its successor programs.

6. That in the event that the Centers for Medicare and Medicaid Services amends, revises, or deletes the payroll base journal reporting requirements, forms, and processes after January 1, 2022, to such an extent that it impacts the

ability of the Commissioner to determine compliance, the Department of Medical Assistance Services shall convene with the State Board of Health a stakeholder work group to make recommendations to the Chairman of the House Committee on Health, Welfare and Institutions and the Chairman of the Senate Committee on Education and Health on what process will be used for determining the equivalent staffing ratio to that designated under subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, relative to the federal methodology changes or reporting to support the ratio established under the previous federal methodology.

7. That in the event that the Department of Medical Assistance Services stops calculating the staffing standard as referenced in subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, notice shall be given to the State Board of Health and a work group shall be convened by the Department of Medical Assistance Services along with the State Board of Health and stakeholders to make recommendations to the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health on what process will be used for determining the equivalent staffing ratio to that designated under subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, relative to how the calculations can be made and what fiscal implications, if any, may result.

8. That the provisions of the first enactment of this act shall become effective on July 1, 2025.

9. That the State Health Commissioner, in collaboration with the Department of Medical Assistance Services, shall, in consultation with relevant stakeholder groups, review and consider modifications to the minimum nurse staffing standard articulated in subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, every four years from the effective date of the first enactment of this act. Upon completion of each required review, the State Health Commissioner shall submit his findings and recommendations regarding modification of the minimum nurse staffing standard to the Governor and the Chairmen of the House Committees on Health, Welfare and Institutions and Appropriations and the Senate Committees on Education and Health and Finance and Appropriations prior to the next regular session of the General Assembly.

10. That the State Board of Health shall promulgate regulations consistent with the provisions of the first enactment of this act consistent with its passage.

CHAPTER 483

An Act to amend and reenact §§ 32.1-27.1 and 32.1-127 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 32.1-27.2, relating to minimum staffing standards for certified nursing facilities; administrative sanctions.

[S 1339]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-27.1 and 32.1-127 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 32.1-27.2 as follows:

§ 32.1-27.1. Additional civil penalty or appointment of a receiver.

A. In addition to the remedies provided in ~~§~~ *§§* 32.1-27 *and 32.1-27.2*, the civil penalties set forth in this section may be imposed by the circuit court for the city or county in which the facility is located as follows:

1. A civil penalty for a Class I violation shall not exceed the lesser of $25 per licensed or certified bed or $1,000 for each day the facility is in violation, beginning on the date the facility was first notified of the violation.

2. A civil penalty for a Class II violation shall not exceed the lesser of $5 per licensed or certified bed or $250 per day for each day the facility is in violation, beginning on the date the facility was first notified of the violation.

In the event federal law or regulations require a civil penalty in excess of the amounts set forth above for Class I or Class II violations, then the lowest amounts required by such federal law or regulations shall become the maximum civil penalties under this section. The date of notification under this section shall be deemed to be the date of receipt by the facility of written notice of the alleged Class I or Class II violation, which notice shall include specifics of the violation charged and which notice shall be hand delivered or sent by overnight express mail or by registered or certified mail, return receipt requested.

All civil penalties received pursuant to this subsection shall be paid into a special fund of the Department for the cost of implementation of this section, to be applied to the protection of the health or property of residents or patients of facilities that the Commissioner or the United States Secretary of Health and Human Services finds in violation, including payment for the costs for relocation of patients, maintenance of temporary management or receivership to operate a facility pending correction of a violation, and for reimbursement to residents or patients of lost personal funds.

B. In addition to the remedies provided in ~~§~~ *§§* 32.1-27 *and 32.1-27.2* and the civil penalties set forth in subsection A ~~of this section~~, the Commissioner may petition the circuit court for the jurisdiction in which any nursing home or certified nursing facility as defined in § 32.1-123 is located for the appointment of a receiver in accordance with the provisions of this subsection whenever such nursing home or certified nursing facility shall (i) receive official notice from the Commissioner that its license has been or will be revoked or suspended, or that its Medicare or Medicaid certification has been or will be cancelled or revoked; or (ii) receive official notice from the United States Department of Health and Human

Services or the Department of Medical Assistance Services that its provider agreement has been or will be revoked, cancelled, terminated or not renewed; or (iii) advise the Department of its intention to close or not to renew its license or Medicare or Medicaid provider agreement less than ninety days in advance; or (iv) operate at any time under conditions which present a major and continuing threat to the health, safety, security, rights or welfare of the patients, including the threat of imminent abandonment by the owner or operator, or a pattern of failure to meet ongoing financial obligations such as the inability to pay for essential food, pharmaceuticals, personnel, or required insurance; and (v) the Department is unable to make adequate and timely arrangements for relocating all patients who are receiving medical assistance under this chapter and Title XIX of the Social Security Act in order to ensure their continued safety and health care.

Upon the filing of a petition for appointment of a receiver, the court shall hold a hearing within ten days, at which time the Department and the owner or operator of the facility may participate and present evidence. The court may grant the petition if it finds any one of the conditions identified in (i) through (iv) ~~above~~ to exist in combination with the condition identified in (v) and the court further finds that such conditions will not be remedied and that the patients will not be protected unless the petition is granted.

No receivership established under this subsection shall continue in effect for more than 180 days without further order of the court, nor shall the receivership continue in effect following the revocation of the nursing home's license or the termination of the certified nursing facility's Medicare or Medicaid provider agreement, except to enforce any post-termination duties of the provider as required by the provisions of the Medicare or Medicaid provider agreement.

The appointed receiver shall be a person licensed as nursing home administrator in the Commonwealth pursuant to Title 54.1 or, if not so licensed, shall employ and supervise a person so licensed to administer the day-to-day business of the nursing home or certified nursing facility.

The receiver shall have (i) such powers and duties to manage the nursing home or certified nursing facility as the court may grant and direct, including but not limited to the duty to accomplish the orderly relocation of all patients and the right to refuse to admit new patients during the receivership, (ii) the power to receive, conserve, protect and disburse funds, including Medicare and Medicaid payments on behalf of the owner or operator of the nursing home or certified nursing facility, (iii) the power to execute and avoid executory contracts, (iv) the power to hire and discharge employees, and (v) the power to do all other acts, including the filing of such reports as the court may direct, subject to accounting to the court therefor and otherwise consistent with state and federal law, necessary to protect the patients from the threat or threats set forth in the original petitions, as well as such other threats arising thereafter or out of the same conditions.

The court may grant injunctive relief as it deems appropriate to the Department or to its receiver either in conjunction with or subsequent to the granting of a petition for appointment of a receiver under this section.

The court may terminate the receivership on the motion of the Department, the receiver, or the owner or operator, upon finding, after a hearing, that either (i) the conditions described in the petition have been substantially eliminated or remedied~~,~~ or (ii) all patients in the nursing home or certified nursing facility have been relocated. Within ~~thirty~~ *30* days after such termination, the receiver shall file a complete report of his activities with the court, including an accounting for all property of which he has taken possession and all funds collected.

All costs of administration of a receivership hereunder shall be paid by the receiver out of reimbursement to the nursing home or certified nursing facility from Medicare, Medicaid and other patient care collections. The court, after terminating such receivership, shall enter appropriate orders to ensure such payments upon its approval of the receiver's reports.

A receiver appointed under this section shall be an officer of the court, shall not be liable for conditions at the nursing home or certified nursing facility which existed or originated prior to his appointment and shall not be personally liable, except for his own gross negligence and intentional acts which result in injuries to persons or damage to property at the nursing home or certified nursing facility during his receivership.

The provisions of this subsection shall not be construed to relieve any owner, operator or other party of any duty imposed by law or of any civil or criminal liability incurred by reason of any act or omission of such owner, operator, or other party.

§ 32.1-27.2. Administrative sanctions.

A. Notwithstanding any other provision of law, the Commissioner may impose administrative sanctions in accordance with this section on any certified nursing facility, if that certified nursing facility does not comply with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127. The Commissioner shall not impose any administrative sanctions authorized under this section until regulations are promulgated pursuant to subsection G.

B. The Commissioner shall have authority to annually determine whether or not to impose any sanctions under subsection C for noncompliance with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127, if the certified nursing facility:

1. Was affected by a declared emergency, or an act of God, that had an impact on the ability to hire or retain staff at levels required under subdivision B 32 of § 32.1-127. To the extent necessary, the Commissioner may review trended employment data for direct care staff, as provided by the certified nursing facility, to determine the effect of such emergencies or acts of God in assessing this criterion. Failure to provide adequate data may remove this criterion from the Commissioner's consideration;

2. Has made a concerted effort to recruit and retain direct care staff as evidenced through position advertisements, interviews, offers, financial incentives, and nonfinancial incentives. The certified nursing facility shall provide such

evidence upon request of the Commissioner for consideration. Failure to provide adequate evidence may remove this criterion from the Commissioner's consideration; or

3. Was located in a medically underserved area and such location severely limited the ability of the certified nursing facility to recruit and retain direct care staff despite a concerted effort to recruit and retain direct care staff. The certified nursing facility shall provide evidence upon request of the Commissioner for consideration. Failure to provide adequate evidence may remove this criterion from the Commissioner's consideration.

C. Prior to restricting or prohibiting new admissions to a certified nursing facility, suspending or refusing to renew or reinstate any nursing home license, or revoking any nursing home license issued pursuant to Article 1 (§ 32.1-123 et seq.) of Chapter 5, the Commissioner shall first impose the following iterative administrative sanctions:

1. When a certified nursing facility is not in compliance with subdivision B 32 of § 32.1-127 and the conditions under subsection B do not exist, the Commissioner shall require the submission of an annual corrective action plan by a certified nursing facility and, upon approval of such plan by the Commissioner, compliance with such plan. A corrective action plan shall only articulate strategies to be utilized to increase direct care staffing with the goal of compliance with subdivision B 32 of § 32.1-127 or improvement on the total nurse staffing hours metric, as defined by the Virginia Medicaid Nursing Facility Value-Based Purchasing (VBP) program. The Commissioner shall consider evidence of direct care staff hours provided in addition to the payroll based journal report, if requested by a certified nursing facility, and may or may not impose a corrective action plan under this section. The Commissioner shall consider the following:

a. If the annual measurement immediately subsequent to issuance of the corrective action plan shows compliance with subdivision B 32 of § 32.1-127, no additional administrative sanctions are warranted, and the corrective action plan is deemed inactive but shall be retained by the Commissioner pursuant to the Virginia Public Records Act (§ 42.1-76 et seq.); or

b. If the annual measurement immediately subsequent to issuance of the corrective action plan still shows noncompliance with subdivision B 32 of § 32.1-127, but the VBP program, as administered by the Department of Medical Assistance Services, indicates defined improvement on the total nurse staffing hours metric, the Commissioner shall repeat the provisions of subdivision 1; or

c. If the annual measurement immediately subsequent to issuance of the corrective action plan still shows noncompliance with subdivision B 32 of § 32.1-127, and the VBP program, as administered by the Department of Medical Assistance Services, does not indicate defined improvement on the total nurse staffing hours metric, the Commissioner shall repeat the provisions of subdivision 1 and may, under circumstances described, provide additional sanctions under subdivisions 2 and 3;

2. To the extent that any consecutive annual corrective action plan is required and results articulated in subdivision 1 c are obtained a second consecutive time, the Commissioner may impose a monetary penalty of up to $50,000 for each subsequent consecutive annual period in which compliance with subdivision B 32 of § 32.1-127 or defined improvement on the total nurse staffing hours metric under the VBP program is not attained; and

3. To the extent that a certified nursing facility is out of compliance with subdivision B 32 of § 32.1-127 or fails to show defined improvement on the total nurse staffing hours metric under the VBP program after three consecutive corrective action plans, the Commissioner may place the nursing home or certified nursing facility on probation.

D. A certified nursing facility sanctioned by the Commissioner shall retain responsibility for the health, safety, and welfare of any person under its care, including the timely transfer or relocation of such persons as may be deemed necessary by the Commissioner in compliance with state and federal discharge rights and protections for nursing home residents.

E. After deduction of the administrative costs of the Commissioner and the Department in furtherance of this section, any penalties collected under this section shall be paid to the special fund as set forth in § 32.1-27.1.

F. Prior to imposing administrative sanctions, the Commissioner shall provide the facility with reasonable notice. To the extent that sanctions are imposed, the facility shall be entitled to all rights under the Administrative Process Act (§ 2.2-4000 et seq.) and to a de novo appeal to circuit court.

G. The Board shall promulgate regulations to implement the provisions of this section consistent with the Administrative Process Act (§ 2.2-4000 et seq.).

§ 32.1-127. Regulations.

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

Each hospital shall have an agreement with an organ procurement organization designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or imminent deaths of patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in Virginia certified by the Eye Bank Association of America or the American Association of Tissue Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

5. Shall require that each hospital that provides obstetrical services establish a protocol for admission or transfer of any pregnant woman who presents herself while in labor;

The protocol shall require that the discharge plan be discussed with the patient and that appropriate referrals for the mother and the infant be made and documented. Appropriate referrals may include, but need not be limited to, treatment services, comprehensive early intervention services for infants and toddlers with disabilities and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to the extent possible, the other parent of the infant and any members of the patient's extended family who may participate in the follow-up care for the mother and the infant. Immediately upon identification, pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, subject to federal law restrictions, the community services board of the jurisdiction in which the woman resides to appoint a discharge plan manager. The community services board shall implement and manage the discharge plan;

8. Shall require that each licensed hospital establish a protocol relating to the rights and responsibilities of patients which shall include a process reasonably designed to inform patients of such rights and responsibilities. 9. Shall establish standards and maintain a process for designation of levels or categories of care in neonatal services according to an applicable national or state-developed evaluation system. Such standards may be differentiated for various levels or categories of care and may include, but need not be limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

10. Shall require that each nursing home and certified nursing facility train all employees who are mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting procedures and the consequences for failing to make a required report;

11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or hospital policies and procedures, to accept emergency telephone and other verbal orders for medication or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and regulations or hospital policies and procedures, by the person giving the order, or, when such person is not available within the period of time specified, co-signed by another physician or other person authorized to give the order;

12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer of the vaccination, that each certified nursing facility and nursing home provide or arrange for the administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal vaccination, in accordance with the most recent recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

Shall require that each nursing home and certified nursing facility ascertain, prior to admission, whether a potential patient is required to register with the Sex Offender and Crimes Against Minors Registry pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, if the home or facility anticipates the potential patient will have a length of stay greater than three days or in fact stays longer than three days;

15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility. No family member of a resident or other resident representative shall be restricted from participating in meetings in the facility with the families or resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of $1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. 19. Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. Nothing in such policy shall prevent the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 from obtaining legal counsel to represent the patient or from seeking other remedies available at law, including seeking court review, provided that the

patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986, or legal counsel provides written notice to the chief executive officer of the hospital within 14 days of the date on which the physician's determination that proposed medical treatment is medically or ethically inappropriate is documented in the patient's medical record;

22. Shall require every hospital with an emergency department to establish protocols to ensure that security personnel of the emergency department, if any, receive training appropriate to the populations served by the emergency department, which may include training based on a trauma-informed approach in identifying and safely addressing situations involving patients or other persons who pose a risk of harm to themselves or others due to mental illness or substance abuse or who are experiencing a mental health crisis;

23. Shall require that each hospital establish a protocol requiring that, before a health care provider arranges for air medical transportation services for a patient who does not have an emergency medical condition as defined in 42 U.S.C. § 1395dd(e)(1), the hospital shall provide the patient or his authorized representative with written or electronic notice that the patient (i) may have a choice of transportation by an air medical transportation provider or medically appropriate ground transportation by an emergency medical services provider and (ii) will be responsible for charges incurred for such transportation in the event that the provider is not a contracted network provider of the patient's health insurance carrier or such charges are not otherwise covered in full or in part by the patient's health insurance plan;

24. Shall establish an exemption from the requirement to obtain a license to add temporary beds in an existing hospital or nursing home, including beds located in a temporary structure or satellite location operated by the hospital or nursing home, provided that the ability remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's determination plus 30 days when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds or (ii) for a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to § 32.1-20, has entered an emergency order for the purpose of suppressing a nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to the public life and health;

Shall establish protocols to ensure that any patient scheduled to receive an elective surgical procedure for which the patient can reasonably be expected to require outpatient physical therapy as a follow-up treatment after discharge is informed that he (i) is expected to require outpatient physical therapy as a follow-up treatment and (ii) will be required to select a physical therapy provider prior to being discharged from the hospital;

26. Shall permit nursing home staff members who are authorized to possess, distribute, or administer medications to residents to store, dispense, or administer cannabis oil to a resident who has been issued a valid written certification for the use of cannabis oil in accordance with subsection B of § 54.1-3408.3 and has registered with the Board of Pharmacy;

Such protocols may also provide for referrals of individuals experiencing a substance use-related emergency to peer recovery specialists and community-based providers of behavioral health services, or to providers of pharmacotherapy for the treatment of drug or alcohol dependence or mental health diagnoses;

28. During a public health emergency related to COVID-19, shall require each nursing home and certified nursing facility to establish a protocol to allow each patient to receive visits, consistent with guidance from the Centers for Disease Control and Prevention and as directed by the Centers for Medicare and Medicaid Services and the Board. Such protocol shall include provisions describing (i) the conditions, including conditions related to the presence of COVID-19 in the nursing home, certified nursing facility, and community, under which in-person visits will be allowed and under which in-person visits will not be allowed and visits will be required to be virtual; (ii) the requirements with which in-person visitors will be required to comply to protect the health and safety of the patients and staff of the nursing home or certified nursing facility; (iii) the types of technology, including interactive audio or video technology, and the staff support necessary to ensure visits are provided as required by this subdivision; and (iv) the steps the nursing home or certified nursing facility will take in the event of a technology failure, service interruption, or documented emergency that prevents visits from occurring as required by this subdivision. Such protocol shall also include (a) a statement of the frequency with which visits, including virtual and in-person, where appropriate, will be allowed, which shall be at least once every 10 calendar days for each patient; (b) a provision authorizing a patient or the patient's personal representative to waive or limit visitation, provided that such waiver or limitation is included in the patient's health record; and (c) a requirement that each nursing home and certified nursing facility publish on its website or communicate to each patient or the patient's

authorized representative, in writing or via electronic means, the nursing home's or certified nursing facility's plan for providing visits to patients as required by this subdivision;

29. Such protocol may restrict the frequency and duration of visits and may require visits to be conducted virtually using interactive audio or video technology. Facilities which have identified a lot that is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

E. Hospitals in the Commonwealth may enter into agreements with the Department of Health for the provision to uninsured patients of naloxone or other opioid antagonists used for overdose reversal.

2. That without initial and ongoing funding for the state share of the cost to implement the provisions of this act, as built in to the calculation and application of the base Medicaid rates, the State Health Commissioner shall not impose administrative sanctions in accordance with § 32.1-27.2 of the Code of Virginia, as created by this act, on any certified nursing home that does not comply with the provisions of regulations promulgated pursuant to subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act. 6. That in the event that the Centers for Medicare and Medicaid Services amends, revises, or deletes the payroll base journal reporting requirements, forms, and processes after January 1, 2022, to such an extent that it impacts the ability of the Commissioner to determine compliance, the Department of Medical Assistance Services shall convene with the State Board of Health a stakeholder work group to make recommendations to the Chairman of the House Committee on Health, Welfare and Institutions and the Chairman of the Senate Committee on Education and Health on what process will be used for determining the equivalent staffing ratio to that designated under subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, relative to the federal methodology changes or reporting to support the ratio established under the previous federal methodology.

7. That in the event that the Department of Medical Assistance Services stops calculating the staffing standard as referenced in subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, notice shall be given to the State Board of Health and a work group shall be convened by the Department of Medical Assistance Services along with the State Board of Health and stakeholders to make recommendations to the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health on what process will be used for determining the equivalent staffing ratio to that designated under subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, relative to how the calculations can be made and what fiscal implications, if any, may result.

8. That the provisions of the first enactment of this act shall become effective on July 1, 2025.

9. That the State Health Commissioner, in collaboration with the Department of Medical Assistance Services, shall, in consultation with relevant stakeholder groups, review and consider modifications to the minimum nurse staffing standard articulated in subdivision B 32 of § 32.1-127 of the Code of Virginia, as amended by this act, every four years from the effective date of the first enactment of this act. Prior to the adoption, amendment, or repeal of any regulation regarding substance abuse services, the Board shall, in addition to the procedures set forth in the Administrative Process Act (§ 2.2-4000 et seq.), present the proposed regulation to the Substance Abuse Services Council, established pursuant to § 2.2-2696, at least 30 days prior to the Board's action for the Council's review and comment.

§ 37.2-500. Purpose; community services board; services to be provided.

A. The Department, for the purposes of establishing, maintaining, and promoting the development of mental health, developmental, and substance abuse services in the Commonwealth, may provide funds to assist any city or county or any combinations of cities or counties or cities and counties in the provision of these services. Every ~~county or~~ city *or county* shall establish a community services board by itself or in any combination with other cities and counties, unless it establishes a behavioral health authority pursuant to Chapter 6 (§ 37.2-600 et seq.). ~~Every county or city or any combination of cities and counties that has established a community services board, in consultation with that board, shall designate it as an operating community services board, an administrative policy community services board or a local government department with a policy-advisory community services board. The governing body of each city or county that established the community services board may change this designation at any time by ordinance. In the case of a community services board established by more than one city or county, the decision to change this designation shall be the unanimous decision of all governing bodies.~~ *In order to provide comprehensive mental health, developmental, and substance abuse services within a continuum of care, the community services board shall function as the single point of entry into publicly funded mental health, developmental, and substance abuse services.*

B. The core of services provided by community services boards within the cities and counties that they serve shall include:

1. Emergency services;

2. Same-day mental health screening services;

3. Outpatient primary care screening and monitoring services for physical health indicators and health risks and follow-up services for individuals identified as being in need of assistance with overcoming barriers to accessing primary health services, including developing linkages to primary health care providers; and

4. Subject to the availability of funds appropriated for them, case management services.

C. Subject to the availability of funds appropriated for them, the core of services may include a comprehensive system of inpatient, outpatient, day support, residential, prevention, early intervention, and other appropriate mental health, developmental, and substance abuse services necessary to provide individualized services and supports to persons with mental illness, developmental disabilities, or substance abuse. Community services boards may establish crisis stabilization units that provide residential crisis stabilization services.

D. ~~In order to provide comprehensive mental health, developmental, and substance abuse services within a continuum of care, the community services board shall function as the single point of entry into publicly funded mental health, developmental, and substance abuse services~~ *The purpose of behavioral health services provided by community services boards shall be to enable individuals who have a mental illness or substance use disorder that significantly impairs their functioning to access effective, timely, and cost-efficient services that help them (i) overcome or manage functional impairments caused by the mental illness or substance use disorder and (ii) remain in the community to the greatest extent possible, consistent with the individual's well-being and public safety.*

E. *Every city or county or any combination of cities and counties that has established a community services board, in consultation with that board, shall designate it as an operating community services board, an administrative policy community services board, or a local government department with a policy-advisory community services board. The governing body of each city or county that established the community services board may change this designation at any time by ordinance. In the case of a community services board established by more than one city or county, the decision to change this designation shall be the unanimous decision of all governing bodies.*

F. A community services board may enter into contracts with private providers to ensure the delivery of services pursuant to this article.

§ 37.2-508. Performance contract for mental health, developmental, and substance abuse services.

A. The Department shall develop and initiate negotiation of the performance contracts through which it provides funds to community services boards to accomplish the purposes set forth in this chapter. In the case of operating boards, the

Department may, notwithstanding any provision of law to the contrary, disburse state and federal funds appropriated to it for mental health, developmental, or substance abuse services directly to the operating board, when that operating board is authorized by the governing body of each city or county that established it to receive such funds. Six months prior to the end of an existing contract or, if no contract exists, six months prior to the beginning of each fiscal year, the Department shall make available to the public the standard performance contract form that it intends to use as the performance contract for that fiscal year and solicit public comments for a period of 60 days. Such contracts shall be for a fixed term and shall provide for annual renewal by the Board if the term exceeds one year.

B. Any community services board may apply for the assistance provided in this chapter by submitting to the Department its proposed performance contract together with (i) the approval of its board of directors for operating and administrative policy boards or the comments of the local government department's policy-advisory board and (ii) the approval of the contract by formal vote of the governing body of each city or county that established it. The community services board shall make its proposed performance contract available for public review and solicit public comments for a period of 30 days prior to submitting its proposed contract for the approval of its board of directors for operating and administrative policy boards or the comments of the local government department's policy-advisory board. To avoid disruptions in service continuity and allow sufficient time to complete public review and comment about the contract and negotiation and approval of the contract, the Department may provide semi-monthly payments of state-controlled funds to the community services board. If the governing body of each city or county does not approve the proposed performance contract by September 30 of each year, the performance contract shall be deemed approved or renewed.

C. The performance contract shall (i) delineate the responsibilities of the Department and the community services board; (ii) specify conditions that must be met for the receipt of state-controlled funds; (iii) identify the groups of individuals to be served with state-controlled funds; (iv) *set forth specific goals and objectives related to the delivery of services to individuals with mental illness, developmental disabilities, or substance use disorders that are consistent with the purposes set forth § 37.2-500; (v)* contain specific ~~outcome~~*, relevant, and measurable performance* measures ~~for~~ *to assess the experiences and outcomes of* individuals receiving services~~, provider performance measures, satisfaction measures for individuals receiving services, and participation and involvement measures for individuals receiving services and their family members~~ *through community services boards*; ~~(v)~~ *(vi) contain relevant benchmarks and monitoring activities for each performance measure; (vii)* contain mechanisms that have been identified or developed jointly by the Department and community services board and that will be employed collaboratively by the community services board and the state hospital to manage the utilization of state hospital beds; ~~(vi)~~ *(viii)* establish an enforcement mechanism~~,~~ should a community services board fail to be in substantial compliance with its performance contract, including notice and appeal processes and provisions for remediation, withholding or reducing funds, methods of repayment of funds, and the Department's exercise of the provisions of subsection E; and ~~(vii)~~ *(ix)* include ~~reporting~~ requirements ~~and~~ *for the community services board to report specific* information about *(a) its* revenues, costs, *and* services *provided*, ~~and~~ *(b)* individuals ~~receiving services~~ *served, and (c) any other information deemed necessary by the Department, which shall be* displayed in a consistent, comparable format ~~determined~~ *developed* by the Department.

The Department may provide for performance monitoring in order to determine whether the community services boards are in substantial compliance with their performance contracts.

D. No community services board shall be eligible to receive state-controlled funds for mental health, developmental, or substance abuse services after September 30 of each year unless (i) its performance contract has been approved or renewed by the governing body of each city or county that established it and by the Department; (ii) it provides service, cost, and revenue data and information and aggregate and individual data and information about individuals receiving services, notwithstanding the provisions of § 37.2-400 or any regulations adopted thereunder, to the Department in the format prescribed by the Department; and (iii) it uses standardized cost accounting and financial management practices approved by the Department.

E. If, after unsuccessful use of a remediation process described in the performance contract, a community services board remains in substantial noncompliance with its performance contract with the Department, the Department may, after affording the community services board an adequate opportunity to use the appeal process described in the performance contract, terminate all or a portion of the contract. Using the state-controlled resources associated with that contract, the Department, after consulting with the governing body of each city or county that established the board, may negotiate a performance contract with another board, a behavioral health authority, or a private nonprofit or for-profit organization or organizations to obtain services that were the subject of the terminated performance contract.

§ 37.2-601. Behavioral health authorities; purpose.

A. The Department, for the purposes of establishing, maintaining, and promoting the development of behavioral health services in the Commonwealth, may provide funds to assist certain cities or counties in the provision of these services. *In order to provide comprehensive mental health, developmental, and substance abuse services within a continuum of care, the behavioral health authority shall function as the single point of entry into publicly funded mental health, developmental, and substance abuse services.*

B. The governing body of the ~~Cities~~ *City* of *Richmond or* Virginia Beach ~~or Richmond~~ or ~~the County of~~ Chesterfield *County* may establish a behavioral health authority and shall declare its intention to do so by resolution.

C. The behavioral health services provided by behavioral health authorities within the cities or counties they serve shall include:

1. Emergency services;

2. Same-day mental health screening services;

3. Outpatient primary care screening and monitoring services for physical health indicators and health risks and follow-up services for individuals identified as being in need of assistance with overcoming barriers to accessing primary health services, including developing linkages to primary health care providers; and

4. Subject to the availability of funds appropriated for them, case management services.

D. Subject to the availability of funds appropriated for them, the behavioral health services may include a comprehensive system of inpatient, outpatient, day support, residential, prevention, early intervention, and other appropriate mental health, developmental, and substance abuse services necessary to provide individualized services and supports to persons with mental illness, developmental disabilities, or substance abuse. Behavioral health authorities may establish crisis stabilization units that provide residential crisis stabilization services.

E. ~~In order to provide comprehensive mental health, developmental, and substance abuse services within a continuum of care, the behavioral health authority shall function as the single point of entry into publicly funded mental health, developmental, and substance abuse services~~ *The purpose of behavioral health services provided by behavioral health authorities shall be to enable individuals who have a mental illness or substance use disorder that significantly impairs their functioning to access effective, timely, and cost-efficient services that help them (i) overcome or manage functional impairments caused by the mental illness or substance use disorder and (ii) remain in the community to the greatest extent possible, consistent with the individual's well-being and public safety.*

§ 37.2-608. Performance contract for mental health, developmental, and substance abuse services.

A. The Department shall develop and initiate negotiation of the performance contracts through which it provides funds to behavioral health authorities to accomplish the purposes set forth in this chapter. The Department may, notwithstanding any provision of law to the contrary, disburse state and federal funds appropriated to it for mental health, developmental, and substance abuse services directly to the behavioral health authority. Six months prior to the beginning of each fiscal year, the Department shall make available to the public the standard performance contract form that it intends to use as the performance contract for that fiscal year and solicit public comments for a period of 60 days.

B. Any behavioral health authority may apply for the assistance provided in this chapter by submitting annually to the Department its proposed performance contract for the next fiscal year together with the approval of its board of directors and the approval by formal vote of the governing body of the city or county that established it. The behavioral health authority shall make its proposed performance contract available for public review and solicit public comments for a period of 30 days prior to submitting its proposed contract for the approval of its board of directors. To avoid disruptions in service continuity and allow sufficient time to complete public review and comment about the contract and negotiation and approval of the contract, the Department may provide up to six semi-monthly payments of state-controlled funds to the authority. If the governing body of the city or county does not approve the proposed performance contract by September 30 of each year, the performance contract shall be deemed approved.

C. The performance contract shall (i) delineate the responsibilities of the Department and the behavioral health authority; (ii) specify conditions that must be met for the receipt of state-controlled funds; (iii) identify the groups of individuals to be served with state-controlled funds; (iv) *set forth specific goals and objectives related to the delivery of services to individuals with mental illness, developmental disabilities, or substance use disorders that are consistent with the purposes set forth in § 37.2-601; (v)* contain specific ~~outcome~~*, relevant, and measurable performance* measures ~~for~~ *to assess the experiences and outcomes of* individuals receiving services~~, provider performance measures, satisfaction measures for individuals receiving services, and participation and involvement measures for individuals receiving services and their family members~~ *through behavioral health authorities*; ~~(v)~~ *(vi) contain relevant benchmarks and monitoring activities for each performance measure; (vii)* contain mechanisms that have been identified or developed jointly by the Department and the behavioral health authority and that will be employed collaboratively by the behavioral health authority and the state hospital to manage the utilization of state hospital beds; ~~(vi)~~ *(viii)* establish an enforcement mechanism~~,~~ should the behavioral health authority fail to be in substantial compliance with its performance contract, including notice and appeal processes and provisions for remediation, withholding or reducing funds, methods of repayment of funds, and the Department's exercise of the provisions of subsection E; and ~~(vii)~~ *(ix)* include ~~reporting~~ requirements ~~and~~ *for the behavioral health authority to report specific* information about *(a) its* revenues, costs, *and* services *provided*, ~~and~~ *(b)* individuals ~~receiving services~~ *served, and (c) any other information deemed necessary by the Department, which shall be* displayed in a consistent, comparable format ~~determined~~ *developed* by the Department.

The Department may provide for performance monitoring to determine whether behavioral health authorities are in substantial compliance with their performance contracts.

D. No behavioral health authority shall be eligible to receive state-controlled funds for mental health, developmental, or substance abuse services after September 30 of each year unless (i) its performance contract has been approved by the governing body of the city or county that established it and by the Department; (ii) it provides service, cost, and revenue data and information, and aggregate and individual data and information about individuals receiving services, notwithstanding § 37.2-400 or any regulations adopted thereunder, to the Department in the format prescribed by the Department; and (iii), it uses standardized cost accounting and financial management practices approved by the Department.

E. If, after unsuccessful use of a remediation process described in the performance contract, a behavioral health authority remains in substantial noncompliance with its performance contract with the Department, the Department may, after affording the authority an adequate opportunity to use the appeal process described in the performance contract, terminate all or a portion of the contract. Using the state-controlled resources associated with that contract, the Department, after consulting with the governing body of the city or county that established the behavioral health authority, may negotiate a performance contract with a community services board, another behavioral health authority, or a private nonprofit or for-profit organization or organizations to obtain services that were the subject of the terminated performance contract.

2. That the provisions of subsection C of §§ 37.2-508 and 37.2-608 of the Code of Virginia, as amended by this act, shall become effective on July 1, 2025.

1. That § 32.1-309.2 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-309.2. Disposition of unclaimed dead body; how expenses paid.

H. Nothing in this section shall prevent a law-enforcement agency other than the primary law-enforcement agency from performing the duties established by this section if so requested by the primary law-enforcement agency and agreed to by the other law-enforcement agency.

CHAPTER 487

An Act to amend and reenact § 63.2-1605 of the Code of Virginia, relating to adult protective services; referrals to local law enforcement.

[H 2344]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 63.2-1605 of the Code of Virginia is amended and reenacted as follows:

§ 63.2-1605. Protective services for adults by local departments.

A. Each local board, to the extent that federal or state matching funds are made available to each locality, shall provide, pursuant to regulations and subject to supervision of the Commissioner for Aging and Rehabilitative Services, adult protective services for adults who are found to be abused, neglected, or exploited and who meet one of the following criteria: (i) the adult is 60 years of age or older or (ii) the adult is 18 years of age or older and is incapacitated. The requirement to provide such services shall not limit the right of any individual to refuse to accept any of the services so offered, except as provided in § 63.2-1608.

B. Upon receipt of the report pursuant to § 63.2-1606, the local department shall determine the validity of such report and shall initiate an investigation within 24 hours of the time the report is received in the local department. Local departments shall consider valid any report meeting all of the following criteria: (i) the subject of the report is an adult as defined in this article, (ii) the report concerns a specific adult and there is enough information to locate the adult, and (iii) the report describes the circumstances of the alleged abuse, neglect, or exploitation.

C. The local department ~~or the adult protective services hotline~~ shall immediately refer the matter and all relevant documentation to the local law-enforcement agency where the adult resides or where the alleged abuse, neglect, or exploitation took place or, if these places are unknown, where the alleged abuse, neglect, or exploitation was discovered for

investigation, upon receipt of an initial report pursuant to § 63.2-1606 involving any of the following or upon determining, during the course of an investigation pursuant to this article, the occurrence of any of the following:

1. Sexual abuse as defined in § 18.2-67.10;

2. Death that is believed to be the result of abuse or neglect;

3. Serious bodily injury or disease as defined in § 18.2-369 that is believed to be the result of abuse or neglect;

4. Suspected financial exploitation of an adult; or

5. Any other criminal activity involving abuse or neglect that places the adult in imminent danger of death or serious bodily harm.

Local law-enforcement agencies shall provide local departments ~~and the adult protective services hotline~~ with a preferred point of contact for referrals.

D. The local department shall refer any appropriate matter and all relevant documentation, to the appropriate licensing, regulatory, or legal authority for administrative action or criminal investigation.

E. If a local department is denied access to an adult for whom there is reason to suspect the need for adult protective services, then the local department may petition the circuit court for an order allowing access or entry or both. Upon a showing of good cause supported by an affidavit or testimony in person, the court may enter an order permitting such access or entry.

F. In any case of suspected adult abuse, neglect, or exploitation, local departments, with the informed consent of the adult or his legal representative, shall take or cause to be taken photographs, video recordings, or appropriate medical imaging of the adult and his environment as long as such measures are relevant to the investigation and do not conflict with § 18.2-386.1. However, if the adult is determined to be incapable of making an informed decision and of giving informed consent and either has no legal representative or the legal representative is the suspected perpetrator of the adult abuse, neglect, or exploitation, consent may be given by an agent appointed under an advance medical directive or medical power of attorney, or by a person authorized, pursuant to § 54.1-2986. In the event no agent or authorized representative is immediately available, then consent shall be deemed to be given.

G. Local departments shall foster the development, implementation, and coordination of adult protective services to prevent adult abuse, neglect, and exploitation.

H. Local departments shall not investigate allegations of abuse, neglect, or exploitation of adults incarcerated in state correctional facilities.

I. The report and evidence received by the local department and any written findings, evaluations, records, and recommended actions shall be confidential and shall be exempt from disclosure requirements of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), except that such information may be disclosed to persons having a legitimate interest in the matter in accordance with §§ 63.2-102 and 63.2-104 and pursuant to official interagency agreements or memoranda of understanding between state agencies.

J. All written findings and actions of the local department or its director regarding adult protective services investigations are final and shall not be (i) appealable to the Commissioner for Aging and Rehabilitative Services or (ii) considered a final agency action for purposes of judicial review pursuant to the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

K. Each local department may foster, when practicable, the creation, maintenance, and coordination of community-based multidisciplinary teams that shall include, where possible, members of the medical, mental health, social work, nursing, education, legal, and law-enforcement professions. Such teams shall:

1. Assist the local department in identifying abused, neglected, and exploited adults as defined in § 63.2-1603.

2. Coordinate medical, social, and legal services for abused, neglected, and exploited adults and their families.

3. Develop innovative programs for detection and prevention of the abuse, neglect, and exploitation of adults.

4. Promote community awareness and action to address the abuse, neglect, and exploitation of adults.

5. Disseminate information to the general public regarding the problem of abuse, neglect, and exploitation of adults, strategies and methods for preventing such abuse, neglect, and exploitation, and treatment options for abused, neglected, and exploited adults.

Such multidisciplinary teams may share information among the parties in the performance of their duties but shall be bound by confidentiality and shall execute a sworn statement to honor the confidentiality of the information they share. A violation of this subsection is punishable as a Class 3 misdemeanor. All such information and records shall be used by the team only in the exercise of its proper function and shall not be disclosed. No person who participated in the team and no member of the team shall be required to make any statement as to what transpired during a meeting or what information was collected during the meeting. Upon the conclusion of a meeting, all information and records concerning the adult shall be returned to the originating agency or destroyed. Any information exchanged in accordance with the multidisciplinary review team shall not be considered to be a violation of any of the provisions of § 63.2-102, 63.2-104, or 63.2-105.

"Enrollee" means any person entitled to health care services from a carrier.

"Provider" means a hospital, physician or any type of provider licensed, certified or authorized by statute to provide a covered service under the health benefit plan.

"Provider panel" means those providers with which a carrier contracts to provide health care services to the carrier's enrollees under the carrier's health benefit plan. However, such term does not include an arrangement between a carrier and providers in which any provider may participate solely on the basis of the provider's contracting with the carrier to provide services at a discounted fee-for-service rate.

B. Any such carrier that offers a provider panel shall establish and use it in accordance with the following requirements:

1. Notice of the development of a provider panel in the Commonwealth or local service area shall be filed with the Department of Health Professions.

2. Carriers shall provide a provider application and the relevant terms and conditions to a provider upon request.

C. A carrier that uses a provider panel shall establish procedures for:

b. The right of an enrollee ~~upon request~~ to continue to receive health care services ~~for a period of up to 90 days from the date of~~ *as provided in subsection E following* the ~~primary care~~ provider's ~~notice of~~ termination from a carrier's provider panel, except when a provider is terminated for cause.

b. The terms of the plan in clear and understandable language that reasonably informs the purchaser of the practical application of such terms in the operation of the plan.

For the purposes of subdivisions 1 and 2, "provider" includes a provider group.

D. ~~Whenever a provider voluntarily terminates his contract with a carrier to provide health care services to the carrier's enrollees under a health benefit plan, he shall furnish reasonable notice of such termination to his patients who are enrollees under such plan.~~

~~E.~~ A carrier may not deny an application for participation or terminate participation on its provider panel on the basis of gender, race, age, sexual orientation, gender identity, religion or national origin.

Such treatment shall, at the enrollee's option, continue through the provision of postpartum care directly related to the delivery.

3. Notwithstanding the provisions of subdivision 1, any provider shall be permitted by the carrier to continue rendering health services to any enrollee who is determined to be terminally ill (as defined under § 1861 (dd)(3)(A) of the Social Security Act) at the time of a provider's termination of participation, except when a provider is terminated for cause. Such treatment shall, at the enrollee's option, continue for the remainder of the enrollee's life for care directly related to the treatment of the terminal illness.

4. *Notwithstanding the provisions of subdivision 1, any provider shall be permitted by the carrier to continue rendering health services to any enrollee who has been determined by a medical professional to have a life-threatening condition at the time of a provider's termination of participation. Such treatment shall, at the enrollee's option, continue for up to 180 days for care directly related to the life-threatening condition.*

5. Notwithstanding the provisions of subdivision 1, any provider shall be permitted by the carrier to continue rendering health services to any enrollee who is admitted to and receiving treatment in any inpatient facility at the time of a provider's termination of participation. Such admission and treatment shall continue until the enrollee is discharged from the inpatient facility.

For any health care services received by an enrollee from a provider after the date the provider has been terminated from the carrier's provider panel:

a. A carrier shall reimburse a provider under this subsection in accordance with the carrier's agreement with such provider existing immediately before the provider's termination of participation*;*

b. The provider shall accept such reimbursement from the carrier and any cost-sharing payment from the enrollee for items and services as payment in full; and

For the purposes of this subsection, "provider" includes a provider group.

~~G.~~ *F.* 1. A carrier shall provide to a purchaser upon enrollment and make available to existing enrollees at least once a year a list of members in its provider panel, which list shall also indicate those providers who are not currently accepting new patients. Such list may be made available in a form other than a printed document, provided the purchaser or existing enrollee is given the means to request and receive a printed copy of such list.

2. The information provided under subdivision 1 shall be updated at least once a year if in paper form, and monthly if in electronic form.

~~H.~~ *G.* No contract between a carrier and a provider may require that the provider indemnify the carrier for the carrier's negligence, willful misconduct, or breach of contract, if any.

~~I.~~ *H.* No contract between a carrier and a provider shall require a provider, as a condition of participation on the panel, to waive any right to seek legal redress against the carrier.

~~J.~~ *I.* No contract between a carrier and a provider shall prohibit, impede or interfere in the discussion of medical treatment options between a patient and a provider.

~~K.~~ *J.* A contract between a carrier and a provider shall permit and require the provider to discuss medical treatment options with the patient.

~~L.~~ *K.* Any carrier requiring preauthorization for medical treatment shall have personnel available to provide such preauthorization at all times when such preauthorization is required.

~~M.~~ *L.* Carriers shall provide to their group policyholders written notice of any benefit reductions during the contract period at least 60 days before such benefit reductions become effective. Group policyholders shall, in turn, provide to their enrollees written notice of any benefit reductions during the contract period at least 30 days before such benefit reductions become effective. Such notice shall be provided to the group policyholder as a separate and distinct notification, and may not be combined with any other notification or marketing materials.

~~N.~~ *M.* No contract between a provider and a carrier shall include provisions that require a health care provider or health care provider group to deny covered services that such provider or group knows to be medically necessary and appropriate that are provided with respect to a specific enrollee or group of enrollees with similar medical conditions.

~~O.~~ *N.* If a provider panel contract between a provider and a carrier, or other entity that provides hospital, physician or other health care services to a carrier, includes provisions that require a provider, as a condition of participating in one of the carrier's or other entity's provider panels, to participate in any other provider panel owned or operated by that carrier or other entity, the contract shall contain a provision permitting the provider to refuse participation in one or more such other provider panels at the time the contract is executed. If a provider contracts with a carrier or other entity that subsequently contracts with one or more unaffiliated carriers to include such provider in the provider panels of such unaffiliated carriers, and which permits an unaffiliated carrier to impose participation terms with respect to such provider that differ materially in reimbursement rates or in managed care procedures, such as conducting economic profiling or requiring a patient to obtain primary care physician referral to a specialist, from the terms agreed to by the provider in the original contract, the provider panel contract shall contain a provision permitting the provider to refuse participation with any such unaffiliated carrier. Utilization review pursuant to Article 1.2 (§ 32.1-137.7 et seq.) of Chapter 5 of Title 32.1 shall not constitute a materially different managed care procedure. This subsection shall apply to provider panels utilized by health maintenance organizations and preferred provider organizations. For purposes of this subsection, "preferred provider organization" means a carrier that offers preferred provider contracts or policies as defined in § 38.2-3407 or preferred provider subscription contracts as defined in § 38.2-4209. The status of a physician as a member of or as being eligible for other existing or new provider panels shall not be adversely affected by the exercise of such right to refuse participation. This subsection shall not apply to the Medallion II and children's health insurance plan administered by or pursuant to contract with the Department of Medical Assistance Services.

~~P.~~ *O.* A carrier that rents or leases its provider panel to unaffiliated carriers shall make available, upon request, to its providers a list of unaffiliated carriers that rent or lease its provider panel. Such list if available in electronic format shall be updated monthly. The provider shall be given the means to request and receive a printed copy of such list.

~~Q.~~ *P.* The Commission shall have no jurisdiction to adjudicate controversies arising out of this section.

~~R. The requirements of this section shall apply to all insurance policies, contracts, and plans delivered, issued for delivery, reissued, or extended on or after July 1, 1996. However, the 90-day period referred to in subdivisions C 1 b and C 2 of this section, the requirements set forth in subdivisions F 2 and F 3, and the requirements set forth in subsections L, M, and N shall apply to contracts between carriers and providers that are entered into or renewed on or after July 1, 1999, the requirements set forth in subsection O shall apply to contracts between carriers and providers that are entered into, reissued, extended or renewed on or after July 1, 2001, and the requirements set forth in subsection P shall be effective on and after January 1, 2007.~~

[H 1888]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 55.1-1006 and 55.1-1007 of the Code of Virginia are amended and reenacted as follows:

§ 55.1-1006. Choice of settlement agent.

A purchaser or borrower in a transaction related to real estate in the Commonwealth shall have the right to select the settlement agent to provide escrow, closing, or settlement services in connection with the transaction. The seller in such a transaction may not require the use of a particular settlement agent as a condition of the sale of the property. Nothing in this chapter shall prohibit a seller from retaining an attorney licensed pursuant to Chapter 39 (§ 54.1-3900 et seq.) of Title 54.1 to represent his interests and provide legal advice pertaining to escrow, closing, or settlement services. Such representation may include deed preparation, fee negotiation, and review of applicable documents and advising the seller on any legal matters related to the settlement or closing process. *The settlement agent may not collect any fees from a represented seller payable to the settlement agent or its subsidiaries, affiliates, or subcontractors without first obtaining the written consent of the seller's counsel.*

§ 55.1-1007. Disclosure.

All contracts involving the purchase of real estate containing not more than four residential dwelling units shall include in at least 10-point boldface type the following language:

"Choice of Settlement Agent: Chapter 10 (§ 55.1-1000 et seq.) of Title 55.1 of the Code of Virginia provides that the purchaser or borrower has the right to select the settlement agent to handle the closing of this transaction. The settlement agent's role in closing this transaction involves the coordination of numerous administrative and clerical functions relating to the collection of documents and the collection and disbursement of funds required to carry out the terms of the contract between the parties. If part of the purchase price is financed, the lender for the purchaser will instruct the settlement agent as to the signing and recording of loan documents and the disbursement of loan proceeds. No settlement agent can provide legal advice to any party to the transaction except a settlement agent who is engaged in the private practice of law in Virginia and who has been retained or engaged by a party to the transaction for the purpose of providing legal services to that party. *No settlement agent may collect any fees from a represented seller payable to the settlement agent or its subsidiaries, affiliates, or subcontractors without first obtaining the written consent of the seller's counsel.*

"Variation by agreement: The provisions of Chapter 10 (§ 55.1-1000 et seq.) of Title 55.1 of the Code of Virginia may not be varied by agreement, and rights conferred by this chapter may not be waived. The seller may not require the use of a particular settlement agent as a condition of the sale of the property.

"Escrow, closing, and settlement services guidelines: The Virginia State Bar issues guidelines to help settlement agents avoid and prevent the unauthorized practice of law in connection with furnishing escrow, settlement, or closing services. As a party to a real estate transaction, the purchaser or borrower is entitled to receive a copy of these guidelines from his settlement agent, upon request, in accordance with the provisions of Chapter 10 (§ 55.1-1000 et seq.) of Title 55.1 of the Code of Virginia."

Such person is not required to see the application of the small asset or to inquire into the truth of any statement in any affidavit presented pursuant to subsection A.

2. If any person to whom an affidavit is presented pursuant to subsection A refuses to pay or deliver any small asset belonging to the decedent of which he is in possession pursuant to this section, it may be recovered, or its payment or delivery compelled, and damages may be recovered, on proof of rightful claim in a proceeding brought for that purpose by or on behalf of the licensed funeral service establishment. However, no such damages may be recovered if it is established in such proceeding that the refusal to pay or deliver the small asset was made in good faith.

C. Any licensed funeral service establishment to whom payment or delivery of a small asset has been made under this section is answerable and accountable therefor to any personal representative of the decedent's estate or to any successor having an equal or superior right.

CHAPTER 497

An Act to amend and reenact § 56-581 of the Code of Virginia, relating to Virginia Electric Utility Regulation Act; regulation of rates.

[H 1604]

Approved March 24, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 56-581 of the Code of Virginia is amended and reenacted as follows:

§ 56-581. Regulation of rates subject to Commission's jurisdiction.

A. ~~After the expiration or termination of capped rates except as provided in § 56-585.1, the~~ *The* Commission shall regulate the rates of investor-owned incumbent electric utilities for the transmission of electric energy, to the extent not prohibited by federal law, and for the generation of electric energy and the distribution of electric energy to retail customers pursuant to *this section and* § 56-585.1.

B. In any proceeding to review base rates for a Phase I Utility that commences after July 1, 2023, if the Commission determines in its sole discretion that the utility's existing base rates will, on a going-forward basis, either produce (i) revenues in excess of the utility's authorized rate of return or (ii) revenues below the utility's authorized rate of return, then, notwithstanding any provision of law governing rate proceedings, the Commission shall order any reductions or increases, as applicable and necessary, to such base rates that it deems appropriate to ensure the resulting base rates (a) are just and reasonable and (b) provide the utility an opportunity to recover its costs of providing services over the rate period ending on December 31 of the year of the utility's succeeding review and earn a fair rate of return authorized pursuant to the provisions governing such review proceeding. Such determination shall be limited to the Phase I Utility's base rates and shall not consider the costs or revenues recovered in any rate adjustment clause authorized pursuant to this chapter.

C. In any proceeding to review base rates for a Phase II Utility that commences after July 1, 2023, if the Commission determines in its sole discretion that the utility's existing base rates will, on a going-forward basis, either produce (i) revenues in excess of the utility's authorized rate of return or (ii) revenues below the utility's authorized rate of return, then, notwithstanding any provision of subdivision A 8 of § 56-585.1, the Commission shall order any reductions or increases, as applicable and necessary, to such base rates that it deems appropriate to ensure the resulting base rates (a) are just and reasonable and (b) provide the utility an opportunity to recover its costs of providing services over the rate period ending on December 31 of the year of the utility's succeeding review and earn a fair rate of return on its base rates as determined in subdivision A 2 of § 56-585.1. Such determination shall be limited to the Phase II Utility's base rates and shall not consider the costs or revenues recovered in any rate adjustment clause authorized pursuant to subdivision A 6 of § 56-585.1 that has not been combined with the utility's base rates. The Commission shall use the most recently ended 12-month test period, along with normalization of nonrecurring test period costs and annualized adjustments for future costs, as the basis for determining the appropriateness of any rate adjustment. In any such filing to review base rates, a Phase II Utility shall separately project future costs over each 12-month period ending on December 31 of the year of the utility's succeeding review period. The Commission may, to the extent it finds such action aligns with the utility's projected cost of service, direct that any reduction or increase to the utility's rates for generation and distribution services be implemented on a staggered basis at the commencement and midpoint of the succeeding rate period.

~~B.~~ *D.* Beginning July 1, 1999, and thereafter, no cooperative that was a member of a power supply cooperative on January 1, 1999, shall be obligated to file any rate rider as a consequence of an increase or decrease in the rates, other than fuel costs, of its wholesale supplier, nor must any adjustment be made to such cooperative's rates as a consequence thereof.

~~C.~~ *E.* Except for the provision of default services under § 56-585 or emergency services in § 56-586, nothing in this chapter shall authorize the Commission to regulate the rates or charges for electric service to the Commonwealth and its municipalities.

F. As used in this section:

"Base rates" means rates for generation and distribution services.

"Phase I Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Phase II Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

1. That § 56-581 of the Code of Virginia is amended and reenacted as follows:

§ 56-581. Regulation of rates subject to Commission's jurisdiction.

A. ~~After the expiration or termination of capped rates except as provided in § 56-585.1, the~~ *The* Commission shall regulate the rates of investor-owned incumbent electric utilities for the transmission of electric energy, to the extent not prohibited by federal law, and for the generation of electric energy and the distribution of electric energy to retail customers pursuant to *this section and* § 56-585.1.

B. In any proceeding to review base rates for a Phase I Utility that commences after July 1, 2023, if the Commission determines in its sole discretion that the utility's existing base rates will, on a going-forward basis, either produce (i) revenues in excess of the utility's authorized rate of return or (ii) revenues below the utility's authorized rate of return, then, notwithstanding any provision of law governing rate proceedings, the Commission shall order any reductions or increases, as applicable and necessary, to such base rates that it deems appropriate to ensure the resulting base rates (a) are just and reasonable and (b) provide the utility an opportunity to recover its costs of providing services over the rate period ending on December 31 of the year of the utility's succeeding review and earn a fair rate of return authorized pursuant to the provisions governing such review proceeding. Such determination shall be limited to the Phase I Utility's base rates and shall not consider the costs or revenues recovered in any rate adjustment clause authorized pursuant to this chapter.

C. In any proceeding to review base rates for a Phase II Utility that commences after July 1, 2023, if the Commission determines in its sole discretion that the utility's existing base rates will, on a going-forward basis, either produce (i) revenues in excess of the utility's authorized rate of return or (ii) revenues below the utility's authorized rate of return, then, notwithstanding any provision of subdivision A 8 of § 56-585.1, the Commission shall order any reductions or increases, as applicable and necessary, to such base rates that it deems appropriate to ensure the resulting base rates (a) are just and reasonable and (b) provide the utility an opportunity to recover its costs of providing services over the rate period ending on December 31 of the year of the utility's succeeding review and earn a fair rate of return on its base rates as determined in subdivision A 2 of § 56-585.1. Such determination shall be limited to the Phase II Utility's base rates and shall not consider the costs or revenues recovered in any rate adjustment clause authorized pursuant to subdivision A 6 of § 56-585.1 that has not been combined with the utility's base rates. The Commission shall use the most recently ended 12-month test period, along with normalization of nonrecurring test period costs and annualized adjustments for future costs, as the basis for determining the appropriateness of any rate adjustment. In any such filing to review base rates, a Phase II Utility shall separately project future costs over each 12-month period ending on December 31 of the year of the utility's succeeding review period. The Commission may, to the extent it finds such action aligns with the utility's projected cost of service, direct that any reduction or increase to the utility's rates for generation and distribution services be implemented on a staggered basis at the commencement and midpoint of the succeeding rate period.

~~B.~~ *D.* Beginning July 1, 1999, and thereafter, no cooperative that was a member of a power supply cooperative on January 1, 1999, shall be obligated to file any rate rider as a consequence of an increase or decrease in the rates, other than fuel costs, of its wholesale supplier, nor must any adjustment be made to such cooperative's rates as a consequence thereof.

~~C.~~ *E.* Except for the provision of default services under § 56-585 or emergency services in § 56-586, nothing in this chapter shall authorize the Commission to regulate the rates or charges for electric service to the Commonwealth and its municipalities.

F. As used in this section:

"Base rates" means rates for generation and distribution services.

"Phase I Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Phase II Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

§ 15.2-202. Public hearing in lieu of election; procedure when bill not introduced or fails to pass in General Assembly.

In lieu of the election provided for in § 15.2-201, a locality requesting the General Assembly to grant to it a new charter or to amend its existing charter may hold a public hearing with respect thereto, at which citizens shall have an opportunity to be heard to determine if the citizens of the locality desire that the locality request the General Assembly to grant to it a new charter, or to amend its existing charter. At least ~~ten~~ *seven* days' notice of the time and place of such hearing and the text or an informative summary of the new charter or amendment desired shall be published in a newspaper of general circulation in the locality. Such public hearing may be adjourned from time to time, and upon the completion thereof, the locality may request, in the manner provided in § 15.2-201, the General Assembly to grant the new charter or amend the existing charter and the provisions of § 15.2-201 shall be applicable thereto.

If a bill incorporating such charter or amendments is not introduced at the succeeding session of the General Assembly, the authority of the locality to request such charter or amendments by reason of such public hearing shall thereafter be void. If at such session members of the General Assembly fail to enact and do not carry over or pass by indefinitely a bill incorporating such charter or amendments, the charter or amendments may again be submitted to a public hearing in lieu of an election as provided hereinabove before reintroduction in the General Assembly.

The locality requesting a new or amended charter shall provide with such request a publisher's affidavit showing that the public hearing was advertised and a certified copy of the governing body's minutes showing the action taken at the advertised public hearing.

§ 15.2-619. Same; powers of commissioners of revenue; real estate reassessments.

The director of finance shall exercise all the powers conferred and perform all the duties imposed by general law upon commissioners of the revenue, not inconsistent herewith, and shall be subject to the obligations and penalties imposed by general law.

Every general reassessment of real estate in the county, unless some other person is designated for this purpose by the county manager in accordance with § 15.2-612 or unless the board creates a separate department of assessments in accordance with § 15.2-616, shall be made by the director of finance; he shall collect and keep in his office data and devise methods and procedures to be followed in each such general reassessment that will make for uniformity in assessments throughout the county.

In addition to any other method provided by general law or by this article or to certain classified counties, the director of finance may provide for the annual assessment and equalization of real estate and any general reassessment order by the board. The director of finance or his designated agent shall collect data, provide maps and charts, and devise methods and procedures to be followed for such assessment that will make for uniformity in assessments throughout the county.

There shall be a reassessment of all real estate at periods not to exceed six years between such reassessments.

All real estate shall be assessed as of January 1 of each year by the director of finance or such other person designated to make assessment. Such assessment shall provide for the equalization of assessments of real estate, correction of errors in tax assessment records, addition of erroneously omitted properties to the tax rolls, and removal of properties acquired by owners not subject to taxation.

The taxes for each year on the real estate assessed shall be extended on the basis of the last assessment made prior to such year.

This section shall not apply to real estate assessable under the law by the Commonwealth, and the director of finance or his designated agent shall not make any real estate assessments during the life of any general reassessment board.

Any reassessments which change the assessment of real estate shall not be extended for taxation until forty-five days after a written notice is mailed to the person in whose name such property is to be assessed at his last known address, setting forth the amount of the prior assessment and the new assessment.

The board shall establish a continuing board of real estate review and equalization to review all assessments made under authority of this section and to which all appeals by any person aggrieved by any real estate assessment shall first apply for relief. The board of real estate review and equalization shall consist of not fewer than three nor more than five members who shall be freeholders in the county. The appointment, terms of office and compensation of the members of such board shall be prescribed by the board of supervisors. The board of real estate review and equalization shall have all the powers conferred upon boards of equalization by general law. All applications for review to such board shall be made not later than April 1 of the year for which extension of taxes on the assessment is to be made. Such board shall grant a hearing to any person making application at a regular advertised meeting of the board, shall rule on all applications within sixty days after the date of the hearing, and shall thereafter promptly certify its action thereon to the director of finance. The equalization board shall conduct hearings at such times as are convenient, after publishing a notice in a newspaper having a general circulation in the county, ~~ten~~ *seven* days prior to any such hearing at which any person applying for review will be heard.

Any person aggrieved by any reassessment or action of the board of real estate review and equalization may apply for relief to the circuit court of the county in the manner provided by general law.

§ 15.2-716. Referendum for establishment of department of real estate assessments; board of equalization; general reassessments in county where department established.

A referendum may be initiated by a petition signed by 200 or more qualified voters of the county filed with the circuit court, asking that a referendum be held on the question of whether the county shall have a department of real estate assessments. The court shall on or before August 1 enter of record an order requiring the county election officials to open the polls at the regular election to be held in November of such year on the question stated in such order. If the petition seeks the holding of a special election on the question, then the petition hereinabove referred to shall be signed by 1,000 or more qualified voters of the county and the court shall within fifteen days of the date such petition is filed enter an order, in accordance with § 24.2-684, requiring the election officials to open the polls on a date fixed in the order and take the sense of the qualified voters of the county. The clerk of the county shall cause a notice of such election to be published in a newspaper having general circulation in the county once a week for three successive weeks*, with the first notice appearing no more than 21 days before the date on which the referendum is held*, and shall post a copy of such notice at the door of the county courthouse.

If a majority of the voters voting in the referendum vote for the establishment of a department of real estate assessments, the board shall by ordinance establish such department, provide for the compensation of the department head and employees therein, and decide such other matters in relation to the powers and duties of the department, the department head and the employees, as the board deems proper. As used in this section the term "department" refers to the department of real estate assessments and where proper the department head thereof.

Upon the establishment of the department, the county manager shall select the head thereof and provide for such employees and assistants as required. Such department shall be vested with the powers and duties conferred or imposed upon commissioners of the revenue by general law to the extent that such duties and powers are consistent with this section, in relation to the assessment of real estate. All real estate shall be assessed at its fair market value as of January 1 of each year by the department and taxes for each year on such real estate shall be entered on the land book by the department in the name of the owner thereof. Whenever any such assessment is increased over the last assessment made prior to such year, the department shall give written notice to the owner of such real estate or of any interest therein, by mailing such notice to the last known post-office address of such owner. However, the validity of such assessment shall not be affected by any failure to receive such notice.

If a department of real estate assessments is appointed as above provided, a board of equalization of real estate assessments shall be appointed pursuant to § 15.2-716.1. Any person aggrieved by any assessment made under the provisions of this section may apply for relief to such board as therein provided.

When a department of real estate assessments is appointed, the county shall not be required to undertake general reassessments of real estate every six years, but the governing body of the county may, but shall not be required to, request the circuit court of such county to order a general reassessment at such times as the governing body deems proper. Such court shall then enter an order directing a reassessment of real estate in the manner provided by law.

The department of real estate assessments may require that the owners of income-producing real estate in the county subject to local taxation, except property producing income solely from the rental of no more than four dwelling units, furnish to the department on or before a time specified by the director of the department statements of the income and expenses attributable over a specified period of time to each such parcel of real estate. If there is a willful failure to furnish statements of income and expenses in a timely manner to the director, the owner of such parcel of real estate shall be deemed to have waived his right in any proceeding contesting the assessment to utilize such income and expenses as evidence of fair market value. Each such statement shall be certified as to its accuracy by an owner of the real estate for which the statement is furnished, or a duly authorized agent thereof. Any statement required by this section shall be kept confidential as required by § 58.1-3.

§ 15.2-749. Certain referenda in certain counties.

If on or before July 15 of any year in which such referendum is provided for by law a petition signed by 200 or more qualified voters of the county is filed with the circuit court of the county asking that a referendum be held on any question upon which a referendum is provided for by any applicable statute, then such court shall on or before August 1 of such year issue and enter of record an order requiring the county election officials to open the polls at the regular election to be held in November of such year on the question stated in such statute. If the statute providing for such referendum shall authorize or require the referendum to be held at a special election, then the petition hereinabove referred to shall be signed by 1,000 or more voters of the county and the court shall within fifteen days of the date such petition is filed enter an order requiring the election officials to open the polls and take the sense of the voters of the county on a date fixed in his order, which shall be in accordance with § 24.2-682. The clerk of the county shall cause a notice of such election to be published in a newspaper published or having general circulation in the county once a week for three successive weeks*, with the first notice appearing no more than 21 days before the date on which the referendum is held*, and shall post a copy of the notice at the door of the county courthouse.

3. (i) A minimum dollar amount that may be financed with respect to an eligible property; (ii) if a locality or other public body is originating the loans, a maximum aggregate dollar amount that may be financed with respect to loans originated by the locality or other public body, and (iii) provisions that the loan program may approve a loan application submitted within two years of the locality's issuance of a certificate of occupancy or other evidence that eligible improvements comply substantially with the plans and specifications previously approved by the locality and that such loan may refinance or reimburse the property owner for the total costs of such eligible improvements;

4. In the case of a loan program described in clause (ii) of subdivision 3, a method for setting requests from owners of eligible properties for financing in priority order in the event that requests appear likely to exceed the authorization amount of the loan program. Priority shall be given to those requests from owners of eligible properties who meet established income or assessed property value eligibility requirements;

5. Identification of a local official authorized to enter into contracts on behalf of the locality. A locality may contract with a program administrator to administer such loan program;

C. The locality may combine the loan payments required by the contracts with billings for water or sewer charges, real property tax assessments, or other billings; in such cases, the locality may establish the order in which loan payments will be applied to the different charges. The locality may not combine its billings for loan payments required by a contract authorized pursuant to this section with billings of another locality or political subdivision, including an authority operating pursuant to Chapter 51 (§ 15.2-5100 et seq.), unless such locality or political subdivision has given its consent by duly adopted resolution or ordinance. The locality may, either by ordinance or its program guide, delegate the billing; collection, including enforcement; and remittance of C-PACE loan payments to a third party.

The locality may bundle or package said loans for transfer to private lenders in such a manner that would allow the voluntary special assessment liens to remain in full force to secure the loans. The placement of a voluntary special assessment lien shall not require a new assessment on the value of the real property that is being improved under the loan program.
