Waivers of regulatory requirements may be granted by the Board based on submission of a request from the division superintendent and chairman of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

CHAPTER 163

An Act to amend and reenact §§ 58.1-9 and 58.1-3916 of the Code of Virginia, relating to filing of tax returns or payment of taxes by mail.

[H 1927]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-9 and 58.1-3916 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-9. Filing of tax returns or payment of taxes by mail or otherwise; penalty.

A. When remittance of a tax return or a tax payment is made by mail or by means of a recognized commercial delivery service, receipt of such return or payment by the person with whom such return is required to be filed or to whom such

payment is required to be made, in a sealed envelope or container bearing a postmark or a confirmation of shipment on or before midnight of the day such return is required to be filed or such payment made without penalty or interest, shall constitute filing and payment as if such return had been filed or such payment made before the close of business on the last day on which such return may be filed or such tax may be paid without penalty or interest. *However, if through no fault of the taxpayer (i) no such postmark is affixed or (ii) the postmark affixed by the United States Postal Service is illegible or bears no date, such remittance of a tax return or a tax payment shall be deemed to have been timely if received through the United States mail no later than five days following the time of the close of business on the last day on which such return may be filed or such tax may be paid without penalty or interest. Additionally, no penalty or interest shall be imposed if a taxpayer provides evidence that remittance of a tax return or a tax payment was timely by producing a United States Postal Service Certificate of Mailing, or other proof of mailing, showing such return was filed or such payment was made before the close of business on the last day such return may be filed or such tax may be paid without penalty or interest.*

B. When remittance of a tax payment is made by electronic funds transfer, receipt of funds available for withdrawal, in a bank account designated to receive such payments by the person to whom such payment is required to be made, on or before midnight of the day such payment is required to be made without penalty or interest, shall constitute payment as if such payment had been made before the close of business on the last day on which such tax may be paid without penalty or interest.

C. Notwithstanding any provision of law, the Tax Commissioner may allow the electronic filing of any state tax return, statement or document. For purposes of this subsection, the Tax Commissioner may determine alternative methods for the signing, subscribing or verifying of a state tax return, statement or document that shall have the same validity and consequences as the actual signing by the taxpayer. The Tax Commissioner may prescribe methods of execution, recording, reproduction and certification of electronically filed information pursuant § 59.1-496.

The Tax Commissioner shall devise a method by which a taxpayer will only receive bulletins, publications, or other information provided by the Department electronically upon request.

D. If an income tax return preparer prepared 100 or more individual income tax returns for a taxable year that began on or after January 1, 2004, or 50 or more such returns for a taxable year that began on or after January 1, 2010, then for every taxable year thereafter, all individual income tax returns for taxable years prepared by that income tax return preparer shall be filed using electronic means. If an individual tax return shall be accompanied by attachments or schedules that cannot be accepted through electronic means, the income tax preparer shall file the return using software that produces a two dimensional barcode using 2D technology reflecting information contained in the return in a standard format as prescribed by the Tax Commissioner. This subsection shall not apply to an individual income tax return for a taxpayer who has indicated that he does not want his individual income tax return filed using electronic means or 2D technology.

The Tax Commissioner shall have the authority to waive the requirement to file by electronic means upon finding that the requirement would cause an undue hardship. The income tax return preparer otherwise required to file individual income tax returns using electronic means shall request in writing the waiver from the Tax Commissioner and clearly demonstrate the nature of the undue hardship. The Tax Commissioner shall respond to the income tax return preparer within 45 days after receiving the request for waiver.

For purposes of this subsection, "income tax return preparer" means a person who prepares, or employs one or more individuals to prepare, an income tax return for compensation. Preparation of a substantial portion of an individual income tax return shall be deemed preparation of the entire individual income tax return for purposes of this section.

For purposes of this subsection, "income tax return preparer" ~~shall~~ *does* not include volunteers who prepare tax returns for the elderly or poor as part of a nonprofit organization's program.

§ 58.1-3916. Counties, cities and towns may provide dates for filing returns, set penalties, interest, etc.

Notwithstanding provisions contained in §§ 58.1-3518, 58.1-3900, 58.1-3913, 58.1-3915, and 58.1-3918, the governing body of any county, city, or town may provide by ordinance the time for filing local license applications and annual returns of taxable tangible personal property, machinery and tools, and merchants' capital. The governing body may also by ordinance establish due dates for the payment of local taxes; may provide that payment be made in a single installment or in two equal installments; may offer options, which may include coupon books and payroll deductions, which allow the taxpayer to determine whether to pay the tangible personal property tax through monthly, bimonthly, quarterly, or semiannual installments or in a lump sum, provided such taxes are paid in full by the final due date; may provide by ordinance penalties for failure to file such applications and returns and for nonpayment in time; may provide for payment of interest on delinquent taxes; and may provide for the recovery of reasonable attorney's or collection agency's fees actually contracted for, not to exceed 20 percent of the delinquent taxes and other charges so collected. A locality that provides for payment of interest on delinquent taxes shall provide for interest at the same rate on overpayments due to erroneously assessed taxes to be paid to the taxpayer, provided that no interest shall be required to be paid on such refund if (i) the amount of the refund is $10 or less or (ii) the refund is the result of proration pursuant to § 58.1-3516. A court that finds that an overpayment of local taxes has been made in an action brought pursuant to § 58.1-3984 shall award interest at the appropriate rate, notwithstanding the failure of the locality to conform its ordinance to the requirements of this section.

Notwithstanding any contrary provision of law, the local governing body shall allow an automatic extension on real property taxes imposed upon a primary residence and personal property taxes imposed upon a qualifying vehicle, as defined in § 58.1-3523, owed by members of the armed services of the United States deployed outside of the United States. Such extension shall end and the taxes shall be due 90 days following the completion of such member's deployment. For purposes

of this section, "the armed services of the United States" includes active duty service with the regular Armed Forces of the United States or the National Guard or other reserve component.

No tax assessment or tax bill shall be deemed delinquent and subject to the collection procedures prescribed herein during the pendency of any administrative appeal under § 58.1-3980, so long as the appeal is filed within 90 days of the date of the assessment, and for 30 days after the date of the final determination of the appeal, provided that nothing in this paragraph shall be construed to preclude the assessment or refund, following the final determination of such appeal, of such interest as otherwise may be provided by general law as to that portion of a tax bill that has remained unpaid or was overpaid during the pendency of such appeal and is determined in such appeal to be properly due and owing.

Interest may commence not earlier than the first day following the day such taxes are due by ordinance to be filed, at a rate not to exceed 10 percent per year. The governing body may impose interest at a rate not to exceed the rate of interest established pursuant to § 6621 of the Internal Revenue Code of 1954, as amended, or 10 percent annually, whichever is greater, for the second and subsequent years of delinquency. No penalty for failure to pay a tax or installment shall exceed (i) 10 percent of the tax past due on such property; (ii) in the case of delinquent tangible personal property tax more than 30 days past due on property classified pursuant to subdivision A 15, A 16, or A 20 of § 58.1-3506, which remains unpaid after 10 days' written notice sent by United States mail to the taxpayer of the intention to impose a penalty pursuant hereto, the penalty shall not exceed an amount equal to the difference between the tax due and owing with respect to such property and the tax that would have been due and owing if the property in question had been classified as general tangible personal property pursuant to § 58.1-3503; (iii) in the case of delinquent tangible personal property tax more than 30 days past due, 25 percent of the tax past due on such tangible personal property; (iv) in the case of delinquent remittance of excise taxes on meals, lodging, or admissions collected from consumers, 10 percent for the first month the taxes are past due, and five percent for each month thereafter, up to a maximum of 25 percent of the taxes collected but not remitted; or (v) $10, whichever is greater, provided, however, that the penalty shall in no case exceed the amount of the tax assessable. No penalty for failure to file a return shall be greater than 10 percent of the tax assessable on such return or $10, whichever is greater; provided, however, that the penalty shall in no case exceed the amount of the tax assessable. The assessment of such penalty shall not be deemed a defense to any criminal prosecution for failing to make return of taxable property as may be required by law or ordinance. Penalty for failure to file an application or return may be assessed on the day after such return or application is due; penalty for failure to pay any tax may be assessed on the day after the first installment is due. Any such penalty when so assessed shall become a part of the tax.

No penalty for failure to pay any tax shall be imposed for any assessment made later than two weeks prior to the day on which the taxes are due, if such assessment is made thereafter through the fault of a local official, and if such assessment is paid within two weeks after the notice thereof is mailed.

In the event a transfer of real property ownership occurs after January 1 of a tax year and a real estate tax bill has been mailed pursuant to §§ 58.1-3281 and 58.1-3912, the treasurer or other appropriate local official designated by ordinance of the local governing body in jurisdictions not having a treasurer, upon ascertaining that a property transfer has occurred, may invalidate a bill sent to the prior owner and reissue the bill to the new owner as permitted by § 58.1-3912, and no penalty for failure to pay any tax for any such assessment shall be imposed if the tax is paid within two weeks after the notice thereof is mailed.

Penalty and interest for failure to file a return or to pay a tax shall not be imposed if such failure was not the fault of the taxpayer, or was the fault of the commissioner of *the* revenue ~~or,~~ the treasurer, *or the United States Postal Service when no postmark is properly affixed or if the postmark affixed by the United States Postal Service is illegible or bears no date, and the return or payment is received through the United States mail no later than five days following the time of the close of business on the last day on which such return may be filed or such tax may be paid without penalty or interest,* as the case may be. *No such penalty and interest shall be imposed if a taxpayer provides evidence that a tax return filing or a tax payment was timely by producing a United States Postal Service Certificate of Mailing, or other proof of mailing, showing such return was filed or such payment was made before the close of business on the last day such return may be filed or such tax may be paid without penalty or interest.* The failure to file a return or to pay a tax due to the death of the taxpayer or a medically determinable physical or mental impairment on the date the return or tax is due shall be presumptive proof of lack of fault on the taxpayer's part, provided the return is filed or the taxes are paid within 30 days of the due date; however, if there is a committee, legal guardian, conservator or other fiduciary handling the individual's affairs, such return shall be filed or such taxes paid within 120 days after the fiduciary qualifies or begins to act on behalf of the taxpayer. Interest on such taxes shall accrue until paid in full. Any such fiduciary shall, on behalf of the taxpayer, by the due date, file any required returns and pay any taxes that come due after the 120-day period. The treasurer shall make determinations of fault relating exclusively to failure to pay a tax, and the commissioner of the revenue shall make determinations of fault relating exclusively to failure to file a return. In jurisdictions not having a treasurer or commissioner of the revenue, the governing body may delegate to the appropriate local tax officials the responsibility to make the determination of fault.

The governing body may further provide by resolution for reasonable extensions of time, not to exceed 90 days, for the payment of real estate and personal property taxes and for filing returns on tangible personal property, machinery and tools, and merchants' capital, and the business, professional, and occupational license tax, whenever good cause exists. The official granting such extension shall keep a record of every such extension. If any taxpayer who has been granted an extension of time for filing his return fails to file his return within the extended time, his case shall be treated the same as if no extension had been granted.

This section shall be the sole authority for local ordinances setting due dates of local taxes and penalty and interest thereon~~,~~ and shall supersede the provisions of any charter or special act.

CHAPTER 164

Among such options, the work group shall consider the scope, feasibility, and function of an ongoing commission or similar structure to provide regular feedback to the Department. [H 1976]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-809 and 37.2-813 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician, clinical psychologist, clinical social worker, or licensed professional counselor treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) is in need of hospitalization or treatment; and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. The magistrate shall also consider, if available, (a) information provided by the person who initiated emergency custody and (b) the recommendations of any treating or examining physician licensed in Virginia either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician, psychologist, clinical social worker, or licensed professional counselor licensed in Virginia, if available, (ii) any past actions of the person,

(iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention in accordance with the provisions of § 37.2-809.1 for all persons detained pursuant to this section. An employee or designee of the local community services board may change the facility of temporary detention and may designate an alternative facility for temporary detention at any point during the period of temporary detention if it is determined that the alternative facility is a more appropriate facility for temporary detention of the person given the specific security, medical, or behavioral health needs of the person. In cases in which the facility of temporary detention is changed following transfer of custody to an initial facility of temporary custody, transportation of the person to the alternative facility of temporary detention shall be provided in accordance with the provisions of § 37.2-810. The initial facility of temporary detention shall be identified on the preadmission screening report and indicated on the temporary detention order; however, if an employee or designee of the local community services board designates an alternative facility, that employee or designee shall provide written notice forthwith, on a form developed by the Executive Secretary of the Supreme Court of Virginia, to the clerk of the issuing court of the name and address of the alternative facility. Subject to the provisions of § 37.2-809.1, if a facility of temporary detention cannot be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808, the person shall be detained in a state facility for the treatment of persons with mental illness and such facility shall be indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6 *or in subsection C of § 37.2-813 for persons prior to transfer to the facility of temporary detention*, the person shall remain in the custody of law enforcement until *either* (i) the person is ~~either~~ detained within a secure facility or (ii) custody has been accepted by the appropriate personnel designated by either the initial facility of temporary detention identified in the temporary detention order or by the alternative facility of temporary detention designated by the employee or designee of the local community services board pursuant to this subsection. The person detained or in custody pursuant to this section shall be given a written summary of the temporary detention procedures and the statutory protections associated with those procedures.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed 72 hours prior to a hearing. If the 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. The person may be released, pursuant to § 37.2-813, before the 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. Each community services board shall provide to each general district court and magistrate's office within its service area a list of its employees and designees who are available to perform the evaluations required herein.

K. For purposes of this section, a health care provider or designee of a local community services board or behavioral health authority shall not be required to encrypt any email containing information or medical records provided to a magistrate unless there is reason to believe that a third party will attempt to intercept the email.

L. If the employee or designee of the community services board who is conducting the evaluation pursuant to this section recommends that the person should not be subject to a temporary detention order, such employee or designee shall (i) inform the petitioner, the person who initiated emergency custody if such person is present, and an onsite treating physician of his recommendation; (ii) promptly inform such person who initiated emergency custody that the community services board will facilitate communication between the person and the magistrate if the person disagrees with recommendations of the employee or designee of the community services board who conducted the evaluation and the person who initiated emergency custody so requests; and (iii) upon prompt request made by the person who initiated emergency custody, arrange for such person who initiated emergency custody to communicate with the magistrate as soon as is practicable and prior to the expiration of the period of emergency custody. The magistrate shall consider any information provided by the person who initiated emergency custody and any recommendations of the treating or examining physician and the employee or designee of the community services board who conducted the evaluation and consider such information and recommendations in accordance with subsection B in making his determination to issue a temporary detention order. The person who is the subject of emergency custody shall remain in the custody of law enforcement or a designee of law enforcement and shall not be released from emergency custody until communication with the magistrate pursuant to this subsection has concluded and the magistrate has made a determination regarding issuance of a temporary detention order.

M. For purposes of this section, "person who initiated emergency custody" means any person who initiated the issuance of an emergency custody order pursuant to § 37.2-808 or a law-enforcement officer who takes a person into custody pursuant to subsection G of § 37.2-808.

N. In any case in which a person subject to an evaluation pursuant to this section is receiving services in a hospital emergency department, the treating physician or his designee and the employee or designee of the local community services board shall disclose to each other relevant information pertaining to the individual's treatment in the emergency department.

§ 37.2-813. Release of person prior to commitment hearing for involuntary admission.

A. Prior to a hearing as authorized in §§ 37.2-814 through 37.2-819, the district court judge or special justice may release the person on his personal recognizance or bond set by the district court judge or special justice if it appears from all evidence readily available that the person does not meet the commitment criteria specified in subsection C of § 37.2-817.

B. The director of any facility in which the person is detained may release the person prior to a hearing as authorized in §§ 37.2-814 through 37.2-819 if it appears, based on an evaluation conducted by the psychiatrist or clinical psychologist treating the person, that the person would not meet the commitment criteria specified in subsection C of § 37.2-817 if released.

C. For any person under a temporary detention order pursuant to § 37.2-809, prior to transport to the facility of temporary detention, the director of the facility in which the person is located may release the person if an employee or a designee of the local community services board, as those terms are defined in § 37.2-809, in consultation with the person's treating physician, (i) conducts an evaluation of the person, (ii) determines that the person no longer meets the commitment criteria specified in subsection C of § 37.2-817, (iii) authorizes the release of the person, and (iv) provides a discharge plan.

[H 1768]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 63.2-1505 of the Code of Virginia is amended and reenacted as follows:

§ 63.2-1505. Investigations by local departments.

A. An investigation requires the collection of information necessary to determine:

1. The immediate safety needs of the child;

2. The protective and rehabilitative services needs of the child and family that will deter abuse or neglect;

3. Risk of future harm to the child;

4. Alternative plans for the child's safety if protective and rehabilitative services are indicated and the family is unable or unwilling to participate in services;

5. Whether abuse or neglect has occurred;

6. If abuse or neglect has occurred, who abused or neglected the child; and

7. A finding of either founded or unfounded based on the facts collected during the investigation.

B. If the local department responds to the report or complaint by conducting an investigation, the local department shall:

1. Make immediate investigation and, if the report or complaint was based upon one of the factors specified in subsection B of § 63.2-1509, the local department may file a petition pursuant to § 16.1-241.3;

2. Complete a report and enter it into the statewide automation system maintained by the Department;

3. Consult with the family to arrange for necessary protective and rehabilitative services to be provided to the child and his family;

4. Petition the court for services deemed necessary including, but not limited to, removal of the child or his siblings from their home;

5. Determine within 45 days if a report of abuse or neglect is founded or unfounded and transmit a report to such effect to the Department and to the person who is the subject of the investigation. However, upon written justification by the local department, the time for such determination may be extended not to exceed a total of 60 days or, in the event that the investigation is being conducted in cooperation with a law-enforcement agency and both parties agree that circumstances so warrant, as stated in the written justification, the time for such determination may be extended not to exceed 90 days. If through the exercise of reasonable diligence the local department is unable to find the child who is the subject of the report, the time the child cannot be found shall not be computed as part of the total time period allowed for the investigation and determination and documentation of such reasonable diligence shall be placed in the record. In cases involving the death of a child or alleged sexual abuse of a child who is the subject of the report, the time during which records necessary for the investigation of the complaint but not created by the local department, including autopsy or medical or forensic records or reports, are not available to the local department due to circumstances beyond the local department's control shall not be computed as part of the total time period allowed for the investigation and determination, and documentation of the circumstances that resulted in the delay shall be placed in the record. In cases in which the subject of the investigation is a full-time, part-time, permanent, or temporary employee of a school division who is suspected of abusing or neglecting a child in the course of his educational employment, the time period for determining whether a report is founded or unfounded and transmitting a report to that effect to the Department and the person who is the subject of the investigation shall be mandatory, and every local department shall make the required determination and report within the specified time period without delay;

6. If a report of abuse or neglect is unfounded, transmit a report to such effect to the complainant and parent or guardian and the person responsible for the care of the child in those cases where such person was suspected of abuse or neglect;

7. If a report of child abuse and neglect is founded, and the subject of the report is or was at the time of the investigation or the conduct that led to the report a full-time, part-time, permanent, or temporary employee of a school division located within the Commonwealth, notify the relevant school board of the founded complaint without delay; and

8. Upon request, disclose to the child's parent or guardian the location of the child, provided that (i) the investigation has not been completed and a report has not been transmitted pursuant to subdivision 5; (ii) the parent or guardian requesting disclosure of the child's location has not been the subject of a founded report of child abuse or neglect; (iii) the parent or guardian requesting disclosure of the child's location has legal custody of the child and provides to the local department any records or other information necessary to verify such custody; (iv) the local department is not aware of any court order, and has confirmed with the child's other parent or guardian or other person responsible for the care of the child

court order, and has confirmed with the child's other parent or guardian or other person responsible for the care of the child that no court order has been issued, that prohibits or limits contact by the parent or guardian requesting disclosure of the child's location with the child, the child's other parent or guardian or other person responsible for the care of the child, or any member of the household in which the child is located; and (v) disclosure of the child's location to the parent or guardian will not compromise the safety of the child, the child's other parent or guardian, or any other person responsible for the care of the child.

If a local multidisciplinary team has determined that an interview of the child by a child advocacy center recognized by the National Children's Alliance is needed and an interview with a recognized child advocacy center within the jurisdiction cannot be completed within 14 days, the local department may facilitate the interview with a recognized child advocacy center located in another jurisdiction.

Any information exchanged for the purposes of this subsection shall not be considered a violation of § 63.2-102, 63.2-104, or 63.2-105.

C. Each local board may obtain and consider, in accordance with regulations adopted by the Board, statewide criminal history record information from the Central Criminal Records Exchange and shall obtain and consider results of a search of the child abuse and neglect central registry of any individual who is the subject of a child abuse or neglect investigation conducted under this section when there is evidence of child abuse or neglect and the local board is evaluating the safety of the home and whether removal will protect a child from harm. The local board shall determine whether the individual has resided in another state within at least the preceding five years and, if he has resided in another state, the local board shall request a search of the child abuse and neglect registry or equivalent registry maintained by such state. The local board also may obtain such a criminal records or registry search on all adult household members residing in the home where the individual who is the subject of the investigation resides and the child resides or visits. If a child abuse or neglect petition is filed in connection with such removal, a court may admit such information as evidence. Where the individual who is the subject of such information contests its accuracy through testimony under oath in hearing before the court, no court shall receive or consider the contested criminal history record information without certified copies of conviction. Further dissemination of the information provided to the local board is prohibited, except as authorized by law.

D. A person who has not previously participated in the investigation of complaints of child abuse or neglect in accordance with this chapter shall not participate in the investigation of any case involving a complaint of alleged sexual abuse of a child unless he (i) has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child or (ii) is under the direct supervision of a person who has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child. No individual may make a determination of whether a case involving a complaint of alleged sexual abuse of a child is founded or unfounded unless he has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child.

E. Any individual who is the subject of a child abuse or neglect investigation conducted under this section shall notify the local department prior to changing his place of residence and provide the local department with the address of his new residence.

CHAPTER 173

An Act to amend and reenact § 58.1-512 of the Code of Virginia, relating to land preservation tax credits.

[H 1834]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-512 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-512. Land preservation tax credits for individuals and corporations.

A. 1. For taxable years beginning on or after January 1, 2000, there shall be allowed as a credit against the tax liability imposed by §§ 58.1-320 and 58.1-400, an amount equal to 50 percent of the fair market value of any land or interest in land located in Virginia that is conveyed for the purpose of agricultural and forestal use, open space, natural resource, and/or biodiversity conservation, or land, agricultural, watershed and/or historic preservation, as an unconditional donation by the landowner/taxpayer to a public or private conservation agency eligible to hold such land and interests therein for conservation or preservation purposes. For such conveyances made on or after January 1, 2007, the tax credit shall be 40 percent of the fair market value of the land or interest in land so conveyed.

2. a. If the Commonwealth or an instrumentality thereof operates a facility on a conveyance, including charging fees for the use of such facility, such operation shall not disqualify the conveyance from eligibility for the tax credit, so long as any fees are used for conservation or preservation purposes.

b. If the Commonwealth or an instrumentality thereof enters into an agreement with a third party to lease or manage a facility on a conveyance, the fact that such third party is operated primarily as a business with intent for profit shall not disqualify the conveyance from eligibility for the tax credit, so long as such agreement is for conservation or preservation purposes.

B. The fair market value of qualified donations made under this section shall be determined in accordance with § 58.1-512.1 and substantiated by a "qualified appraisal" prepared by a "qualified appraiser," as those terms are defined under applicable federal law and regulations governing charitable contributions. The value of the donated interest in land that qualifies for credit under this section, as determined according to appropriate federal law and regulations, shall be subject to the limits established by United States Internal Revenue Code § 170(e). In order to qualify for a tax credit under this section, the qualified appraisal shall be signed by the qualified appraiser, who must be licensed in the Commonwealth of Virginia as provided in § 54.1-2011, and a copy of the appraisal shall be submitted to the Department. In the event that any appraiser falsely or fraudulently overstates the value of the contributed property in an appraisal that the appraiser has signed, the Department may disallow further appraisals signed by the appraiser and shall refer the appraiser to the Real Estate Appraiser Board for appropriate disciplinary action pursuant to § 54.1-2013, which may include, but need not be limited to, revocation of the appraiser's license. Any appraisal that, upon audit by the Department, is determined to be false or fraudulent, may be disregarded by the Department in determining the fair market value of the property and the amount of tax credit to be allowed under this section.

C. 1. The amount of the credit that may be claimed by each taxpayer, including credit claimed by applying unused credits as provided under subsection C of § 58.1-513, shall not exceed $50,000 for 2000 taxable years; $75,000 for 2001 taxable years; $100,000 for each of 2002 through 2008 taxable years; $50,000 for each of 2009, 2010, and

2011 taxable years; $100,000 for each of 2012, 2013, and 2014 taxable years; $20,000 for each of 2015, 2016, and 2017 taxable years; and $50,000 for 2018 taxable years and for each taxable year thereafter. However, for any fee simple donation of land conveyed to the Commonwealth on or after January 1, 2015, the amount of the credit claimed shall not exceed $100,000 for each taxable year, provided that no part of the charitable contributions deduction under § 170 of the Internal Revenue Code related to such fee simple donation is allowable by reason of a sale or exchange of property. In addition, for each taxpayer, in any one taxable year the credit used may not exceed the amount of individual, fiduciary or corporate income tax otherwise due. Any portion of the credit that is unused in any one taxable year may be carried over for a maximum of 10 consecutive taxable years following the taxable year in which the credit originated until fully expended. A credit shall not be reduced by the amount of unused credit that could have been claimed in a prior year by the taxpayer but was unclaimed. For taxpayers affected by the credit reduction for taxable years 2009, 2010, 2011, and 2015 and thereafter, any portion of the credit that is unused in any one taxable year may be carried over for a maximum of 13 consecutive taxable years following the taxable year in which the credit originated until fully expended.

2. Qualified donations shall include the conveyance of a fee interest in real property or the conveyance in perpetuity of a less-than-fee interest in real property, such as a conservation restriction, preservation restriction, agricultural preservation restriction, or watershed preservation restriction, provided that such less-than-fee interest qualifies as a charitable deduction under § 170(h) of the United States Internal Revenue Code of 1986, as amended.

The Department of Conservation and Recreation shall compile an annual report on qualified donations of less-than-fee interests accepted by any public or private conservation agency in the respective calendar year and shall submit the report by December 1 of each year to the Chairmen of the House Committee on Appropriations, House Committee on Finance, and the Senate Committee on Finance and Appropriations. In preparing such report, the Department of Conservation and Recreation shall consult and coordinate with the Department of Taxation and the Departments of Forestry and Agriculture and Consumer Services to provide an estimate of the number of acres of land currently being used for "production agriculture and silviculture" as defined in § 3.2-300 that have been protected by qualified donations of less-than-fee interests. This report shall include information, when available, on land qualifying for credits being used for "production agriculture and silviculture" that have onsite operational best management practices, which are designed to reduce the amount of nutrients and sediment entering public waters. In addition, the report shall include information, when available, on riparian buffers, both vegetated/forested buffers and no-plow buffers, required by deed restriction on land qualifying for credits in order to protect water quality. This information shall be reported in summary fashion as appropriate to preserve confidentiality of information. Qualified donations shall not include the conveyance of a fee interest, or a less-than-fee interest, in real property by a charitable organization that (i) meets the definition of "holder" in § 10.1-1009 and (ii) holds one or more conservation easements acquired pursuant to the authority conferred on a "holder" by § 10.1-1010.

3. Any fee interest, or a less-than-fee interest, in real property that has been dedicated as open space within, or as part of, a residential subdivision or any other type of residential or commercial development; dedicated as open space in, or as part of, any real estate development plan; or dedicated for the purpose of fulfilling density requirements to obtain approvals for zoning, subdivision, site plan, or building permits shall not be a qualified donation under this article.

4. Qualified donations shall be eligible for the tax credit herein described if such donations are made to the Commonwealth of Virginia, an instrumentality thereof, or a charitable organization described in § 501(c)(3) of the United States Internal Revenue Code of 1986, as amended, if such charitable organization (i) meets the requirements of § 509(a)(2) or (ii) meets the requirements of § 509(a)(3) and is controlled by an organization described in § 509(a)(2).

5. The preservation, agricultural preservation, historic preservation or similar use and purpose of such property shall be assured in perpetuity. In the case of conveyances of a fee interest to a charitable organization that is a "holder" as defined in § 10.1-1009, the credit shall not be allowed until the charitable organization agrees that subsequent conveyances of the fee interest in the property will be (i) subject to a previous conveyance in perpetuity of a conservation easement, as that term is defined in § 10.1-1009, or subject to the conveyance in perpetuity of an open-space easement, as that term is defined in § 10.1-1700, or (ii) conveyed to the Commonwealth of Virginia or to a federal conservation agency. No credit shall be allowed with respect to any subsequent conveyances by the charitable organization.

D. The issuance of tax credits under this article for donations made on and after January 1, 2007, shall be in accordance with procedures and deadlines established by the Department and shall be administered under the following conditions:

1. The taxpayer shall apply for a credit after completing the donation by submitting a form or forms prescribed by the Department in consultation with the Department of Conservation and Recreation. If the application requests a credit of $1 million or more or if the donation meets the conditions of subdivision 3 c, then a copy of the application shall also be filed with the Department of Conservation and Recreation by the taxpayer. The application shall include, but not be limited to:

a. A description of the conservation purpose or purposes being served by the donation;

b. The fair market value of land being donated in the absence of any easement or other restriction;

c. The public benefit derived from the donation;

d. The extent to which water quality best management practices will be implemented on the property; and

e. Whether the property is fully or partially forested and a forest management plan is included in the terms of the donation.

2. Applications for otherwise qualified donations of a less-than-fee interest shall be accompanied by an affidavit describing how the donated interest in land meets the requirements of § 170(h) of the United States Internal Revenue Code

of 1986, as amended, and the regulations adopted thereunder. The application with accompanying affidavit shall be submitted to the Department of Taxation, with a copy also provided to the Department of Conservation and Recreation.

3. a. No credit in the amount of $1 million or more shall be issued with respect to a donation unless the conservation value of the donation has been verified by the Director of the Department of Conservation and Recreation, based on the criteria adopted by the Virginia Land Conservation Foundation for this purpose. Such criteria and subsequent amendments shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.), but the Virginia Land Conservation Foundation shall provide for adequate public participation, including adequate notice and opportunity to provide comments on the proposed criteria. The Director shall act on applications within 90 days of his receipt of a complete application and shall notify the taxpayer and the Department of Taxation of his action.

b. For purposes of determining whether a credit requires verification of the conservation value, the credits allowed under this article with respect to donations of any other portion of a recorded parcel of land within the preceding 11 years shall be aggregated with the credit claimed for the current donation. This subdivision shall not apply if (i) all owners of the parcel who have been allowed credit for a qualified donation are not affiliated with the person or entity seeking credit for the current donation of a different portion of the parcel and (ii) in the case of an individual seeking credit, the individual has not previously made a qualified donation for any portion of the parcel and is not an immediate family member of any such owners.

c. If (i) the real property that is the subject of the donation was partitioned from or part of another parcel of land and any other portion of such parcel, or any land partitioned from such parcel of land, has been allowed a tax credit under this article (or an application for tax credit is pending) within three years of such donation and (ii) the tax credit that would otherwise be allowed to the donor for such donation is at least $250,000, then no credit under this article shall be issued with respect to such donation described in clause (i) unless the conservation value of the donation has been verified by the Director of the Department of Conservation and Recreation. The Director shall act on applications within 90 days of his receipt of a complete application and shall notify the taxpayer and the Department of Taxation of his action. Nothing in this subdivision shall be construed or interpreted (a) as allowing additional tax credit for any land or interest in land previously conveyed for which tax credit has already been allowed under this article or (b) affecting the validity of any tax credit allowed under this article for a prior conveyance of any land or interest in land.

4. a. Tax credits shall be issued on a calendar year basis, and in no case shall the Department issue more than the maximum allowed for the calendar year. The maximum amount of credits that may be issued in a calendar year shall be $100 million plus any credits previously issued under this article but subsequently disallowed or invalidated by the Department. Credits previously issued but subsequently disallowed or invalidated shall be reissued in a subsequent calendar year. All credits shall be issued in the order that each complete application is filed. For filings by mail or a recognized commercial delivery service, the postmark or confirmation of shipment shall determine the date of filing. If within 30 days after an application for credits has been filed the Tax Commissioner provides written notice to the donor that he has determined that the preparation of a second qualified appraisal is warranted, the application shall not be deemed complete until the fair market value of the donation has been finally determined by the Tax Commissioner. The Tax Commissioner shall make a final determination within 180 days of notifying the donor, unless the donor has filed an appeal. The donor shall have the right to appeal any decision of the Department in accordance with the provisions of Chapter 18 (§ 58.1-1800 et seq.). If more than one complete application is filed at the same time, the credits with respect to those applications shall be issued in the order that the conveyances were recorded in the appropriate circuit court of the Commonwealth. In the event that a credit requires verification of the conservation value by the Department of Conservation and Recreation and such verification has not been received at the time the maximum $100 million allowed is reached for the calendar year of the donation, such credit shall not be issued for that calendar year but shall be issued in the calendar year that the conservation value of the credit is verified by the Department of Conservation and Recreation.

No credit shall be allowed for any land or interest in land conveyed unless (i) for a conveyance made before January 1, 2020, a complete application for tax credit with regard to the conveyance has been filed with the Department by December 31 of the third year following the calendar year of the conveyance or (ii) for a conveyance made on or after January 1, 2020, a complete application for tax credit with regard to the conveyance has been filed with the Department by December 31 of the second year following the calendar year of the conveyance. For filings by mail or a recognized commercial delivery service, the postmark or confirmation of shipment shall determine the date of filing. Solely for purposes of this condition, any application for which the Tax Commissioner has given written notice to the donor that the preparation of a second qualified appraisal is warranted shall be deemed timely filed, provided that the application was otherwise complete as of such filing deadline. *For conveyances made on and after January 1, 2017, the deadlines provided by clauses (i) and (ii) of this subdivision shall be extended for any number of days exceeding 90 during which an application for tax credit is being reviewed for verification of conservation value by the Department of Conservation and Recreation, if the application was otherwise complete at the time of the original filing deadline.*

b. Beginning with calendar year 2008, the $100 million amount contained in subdivision 4 a shall be increased by an amount equal to $100 million multiplied by the percentage by which the consumer price index for all-urban consumers published by the United States Department of Labor (CPI-U) for the 12-month period ending August 31 of the preceding year exceeds the CPI-U for the 12-month period ending August 31, 2006.

c. Beginning with calendar year 2015, the maximum amount of credits that may be issued in a calendar year shall not exceed $75 million. In no case shall the Department issue any tax credit for a donation from any allocation or pool of tax

credits attributable to a calendar year prior to the year in which the complete tax credit application for the donation was filed.

Beginning with the submission due on or before December 20, 2015, and in each year thereafter, the Governor shall include in "The Budget Bill" submitted pursuant to subsection A of § 2.2-1509 or in his amendments to the general appropriation act in effect submitted pursuant to subsection E of § 2.2-1509 a recommended appropriation from the general fund equal to the difference between the amount calculated pursuant to subdivision b and $75 million, but not more than $20 million, to be allocated as follows: 80 percent to the Virginia Land Conservation Fund to be used in accordance with § 10.1-1020, with no less than 50 percent of such appropriation to be used for fee simple acquisitions with public access or acquisitions of easements with public access; 10 percent to the Virginia Battlefield Preservation Fund to be used in accordance with § 10.1-2202.4; and 10 percent to the Virginia Farmland Preservation Fund to be used in accordance with § 3.2-201.

5. a. Any taxpayer that has been issued a tax credit by the Department shall be allowed to use such credit for his or its taxable year that begins in the calendar year for which such credit was issued and for succeeding taxable years in accordance with the 10 consecutive taxable year carryforward provisions of this article, except for any taxpayer affected by the credit limitation for taxable years 2009, 2010, 2011, and 2015 and taxable years thereafter. Such a taxpayer shall be allowed to use such credit for his or its taxable year that begins in the calendar year for which such credit was issued and for succeeding taxable years in accordance with the 13 consecutive taxable year carryforward provisions of this article.

b. Any taxpayer to whom a credit has been transferred may use such credit for the taxable year in which the transfer occurred and unused amounts may be carried forward to succeeding taxable years, but in no event may such transferred credit be used more than 11 years after it was originally issued by the Department or in any taxable year of such taxpayer that ended prior to the date of transfer, except for any taxpayer affected by the credit limitation for taxable years 2009, 2010, 2011, and 2015 and taxable years thereafter. Such a taxpayer may use such credit for the taxable year in which the transfer occurred and unused amounts may be carried forward to succeeding taxable years, but in no event may such transferred credit be used more than 14 years after it was originally issued by the Department or in any taxable year of such taxpayer that ended prior to the date of transfer.

6. Neither the verification of conservation value by the Department of Conservation and Recreation nor the issuance of a credit by the Department of Taxation shall in any way be construed or interpreted as prohibiting the Department of Taxation or the Tax Commissioner from auditing any credit claimed pursuant to the provisions of this article or from assessing tax relating to the claiming of any credit under this article.

E. In any review or appeal before the Tax Commissioner or in any court in the Commonwealth the burden of proof shall be on the taxpayer to show that the fair market value and conservation value at the time of the qualified donation is consistent with this section and that all requirements of this article have been satisfied.

CHAPTER 174

An Act to amend and reenact § 37.2-1104 of the Code of Virginia, relating to temporary detention in hospital for testing, observation, or treatment; mental or physical conditions resulting from intoxication.

[H 1792]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 37.2-1104 of the Code of Virginia is amended and reenacted as follows:

§ 37.2-1104. Temporary detention in hospital for testing, observation, or treatment.

~~A. As used in this section, "mental or physical condition" includes intoxication.~~

~~B.~~ *A.* The court or, if the court is unavailable, a magistrate serving the jurisdiction where the respondent is located may, with the advice of a licensed physician who has attempted to obtain informed consent of an adult person to treatment of a mental or physical condition, issue an order authorizing temporary detention of the adult person in a hospital emergency department or other appropriate facility for testing, observation, or treatment upon a finding that (i) probable cause exists to believe the person is incapable of making or communicating an informed decision regarding treatment of a physical or mental condition due to a mental or physical condition*, including intoxication* and (ii) the medical standard of care calls for observation, testing, or treatment within the next 24 hours to prevent injury, disability, death, or other harm to the person resulting from such mental or physical condition.

B. When a mental or physical condition to be treated appears to be a result of intoxication, a licensed physician who has attempted to obtain informed consent of an adult person for treatment of such mental or physical condition appearing to be a result of intoxication may seek an order from the magistrate or court in the jurisdiction where the respondent is located authorizing temporary detention of the adult person in a hospital emergency department or other appropriate facility for testing, observation, or treatment upon a finding that (i) probable cause exists to believe the person's intoxication has rendered the person incapable of making or communicating an informed decision regarding treatment and (ii) the medical standard of care calls for observation, testing, or treatment within the next 24 hours to prevent injury, disability, death, or other harm to the person or another person resulting from such intoxication.

C. The duration of temporary detention pursuant to this section shall not exceed 24 hours, unless extended by the court as part of an order authorizing treatment under § 37.2-1101. If, before completion of authorized testing, observation, or treatment, the physician determines that a person subject to an order under this subsection has become capable of making and communicating an informed decision, the physician shall rely on the person's decision on whether to consent to further testing, observation, or treatment. If, before issuance of an order under this subsection or during its period of effectiveness, the physician learns of an objection by a member of the person's immediate family to the testing, observation, or treatment, he shall so notify the court or magistrate, who shall consider the objection in determining whether to issue, modify, or terminate the order.

D. A court or, if the court is unavailable *or pursuant to subsection B*, a magistrate serving the jurisdiction may issue an order authorizing temporary detention for testing, observation, or treatment for a person who is also the subject of an emergency custody order issued pursuant to § 37.2-808, if such person meets the criteria set forth in subsection *A or* B. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order pursuant to § 37.2-808, the hospital emergency room or other appropriate facility in which the person is detained for testing, observation, or treatment shall notify the nearest community services board when such testing, observation, or treatment is complete, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to subsection *A or* B, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809.

D. A health care provider and local school division shall disclose or make available to the guardian ad litem, upon request, any information, records, and reports concerning the respondent that the guardian ad litem determines necessary to perform his duties under this section.

CHAPTER 177

An Act to amend and reenact § 62.1-44.19:14 of the Code of Virginia, relating to South Central Wastewater Authority; watershed general permit for nutrients.

[H 1839]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.19:14 of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.19:14. Watershed general permit for nutrients.

A. The Board shall issue a Watershed General Virginia Pollutant Discharge Elimination System Permit, hereafter referred to as the general permit, authorizing point source discharges of total nitrogen and total phosphorus to the waters of the Chesapeake Bay and its tributaries. Except as otherwise provided in this article, the general permit shall control in lieu of technology-based, water quality-based, and best professional judgment, interim or final effluent limitations for total nitrogen and total phosphorus in individual Virginia Pollutant Discharge Elimination System permits for facilities covered by the general permit where the effluent limitations for total nitrogen and total phosphorus in the individual permits are based upon standards, criteria, waste load allocations, policy, or guidance established to restore or protect the water quality and beneficial uses of the Chesapeake Bay or its tidal tributaries.

B. This section shall not be construed to limit or otherwise affect the Board's authority to establish and enforce more stringent water quality-based effluent limitations for total nitrogen or total phosphorus in individual permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

C. The general permit shall contain the following:

1. Waste load allocations for total nitrogen and total phosphorus for each permitted facility expressed as annual mass loads, including reduced waste load allocations where applicable under the ENRC Program. The allocations for each permitted facility shall reflect the applicable individual water quality-based total nitrogen and total phosphorus waste load allocations. An owner or operator of two or more facilities located in the same tributary may apply for and receive an aggregated waste load allocation for total nitrogen and an aggregated waste load allocation for total phosphorus for multiple facilities reflecting the total of the water quality-based total nitrogen and total phosphorus waste load allocations established for such facilities individually;

2. A schedule requiring compliance with the combined waste load allocations for each tributary as soon as possible taking into account (i) opportunities to minimize costs to the public or facility owners by phasing in the implementation of multiple projects; (ii) the availability of required services and skilled labor; (iii) the availability of funding from the Virginia Water Quality Improvement Fund as established in § 10.1-2128, the Virginia Water Facilities Revolving Fund as established in § 62.1-225, and other financing mechanisms; (iv) water quality conditions; and (v) other relevant factors. Following receipt of the compliance plans required by subdivision C 3, the Board shall reevaluate the schedule taking into account the information in the compliance plans and the factors in this subdivision, and may modify the schedule as appropriate;

3. A requirement that the permittees shall either individually or through the Association submit compliance plans to the Department for approval. The compliance plans shall contain, at a minimum, any capital projects and implementation schedules needed to achieve total nitrogen and phosphorus reductions sufficient to comply with the individual and combined waste load allocations of all the permittees in the tributary. The compliance plans may rely on the exchange of

point source credits in accordance with this article, but not the acquisition of credits through payments authorized by § 62.1-44.19:18, to achieve compliance with the individual and combined waste load allocations in each tributary. The compliance plans shall be updated annually and submitted to the Department no later than February 1 of each year. The compliance plans due beginning February 1, 2023, shall address the requirements of the ENRC Program;

4. Such monitoring and reporting requirements as the Board deems necessary to carry out the provisions of this article;

5. A procedure that requires every owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 100,000 gallons or more per day, or an equivalent load, directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters, to secure general permit coverage by filing a registration statement with the Department within a specified period after each effective date of the general permit. The procedure shall also require any owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 40,000 gallons or more per day, or an equivalent load, directly into tidal or nontidal waters to secure general permit coverage by filing a registration statement with the Department at the time he makes application with the Department for a new discharge or expansion that is subject to an offset or technology-based requirement in § 62.1-44.19:15, and thereafter within a specified period of time after each effective date of the general permit. The procedure shall also require any owner or operator of a facility with a discharge that is subject to an offset requirement in subdivision A 5 of § 62.1-44.19:15 to secure general permit coverage by filing a registration statement with the Department prior to commencing the discharge and thereafter within a specified period of time after each effective date of the general permit. The general permit shall provide that any facility authorized by a Virginia Pollutant Discharge Elimination System permit and not required by this subdivision to file a registration statement shall be deemed to be covered under the general permit at the time it is issued, and shall file a registration statement with the Department when required by this section. Owners or operators of facilities that are deemed to be permitted under this section shall have no other obligation under the general permit prior to filing a registration statement and securing coverage under the general permit based upon such registration statement;

6. A procedure for efficiently modifying the lists of facilities covered by the general permit where the modification does not change or otherwise alter any waste load allocation or delivery factor adopted pursuant to the Water Quality Management Planning Regulation (9VAC25-720) or its successor, or an applicable total maximum daily load. The procedure shall also provide for modifying or incorporating new waste load allocations or delivery factors, including the opportunity for public notice and comment on such modifications or incorporations; and

7. Such other conditions as the Board deems necessary to carry out the provisions of this chapter and § 402 of the federal Clean Water Act (33 U.S.C. § 1342).

D. 1. The Board shall (i) review during the year 2020 and every 10 years thereafter the basis for allocations granted in the Water Quality Management Planning Regulation (9VAC25-720) and (ii) as a result of such decennial reviews propose for inclusion in the Water Quality Management Planning Regulation (9VAC25-720) either the reallocation of unneeded allocations to other facilities registered under the general permit or the reservation of such allocations for future use.

2. For each decennial review, the Board shall determine whether a permitted facility has:

a. Changed the use of the facility in such a way as to make discharges unnecessary, ceased the discharge of nutrients, and become unlikely to resume such discharges in the foreseeable future; or

b. Changed the production processes employed in the facility in such a way as to render impossible, or significantly to diminish the likelihood of, the resumption of previous nutrient discharges.

3. Beginning in 2030, each review also shall consider the following factors for municipal wastewater facilities:

a. Substantial changes in the size or population of a service area;

b. Significant changes in land use resulting from adopted changes to zoning ordinances or comprehensive plans within a service area;

c. Significant establishment of conservation easements or other perpetual instruments that are associated with a deed and that restrict growth or development;

d. Constructed treatment facility capacity;

e. Significant changes in the understanding of the water chemistry or biology of receiving waters that would reasonably result in unused nutrient discharge allocations over an extended period of time;

f. Significant changes in treatment technologies that would reasonably result in unused nutrient discharge allocations over an extended period of time;

g. The ability of the permitted facility to accommodate projected growth under existing nutrient waste load allocations; and

h. Other similarly significant factors that the Board determines reasonably to affect the allocations granted.

The Board shall not reduce allocations based solely on voluntary improvements in nutrient removal technology.

E. The Board shall maintain and make available to the public a current listing, by tributary, of all permittees and permitted facilities under the general permit, together with each permitted facility's total nitrogen and total phosphorus waste load allocations, and total nitrogen and total phosphorus delivery factors.

F. Except as otherwise provided in this article, in the event that there are conflicting or duplicative conditions contained in the general permit and an individual Virginia Pollutant Discharge Elimination System permit, the conditions in the general permit shall control.

G. The Board shall adopt amendments to the Water Quality Management Planning Regulation and modifications to Virginia Pollutant Discharge Elimination System permits or registration lists to establish and implement the Phase III Watershed Implementation Plan Enhanced Nutrient Removal Certainty Program (ENRC Program) as provided in this subsection. The ENRC Program shall consist of the following projects and the following waste load allocation reductions and their respective schedules for compliance.

1. Priority projects for additional nitrogen and phosphorus removal (schedule for compliance):

Each priority project and the associated schedule of compliance shall be incorporated into the applicable Virginia Pollutant Discharge Elimination System permit or registration list. Each priority project facility shall be in compliance *(i)* by complying with applicable annual average total nitrogen and total phosphorus concentrations for compliance years 2026, 2028, and 2032*; (ii) for the South Central Wastewater Authority WWTF, by implementing a phased construction program approved by the Department, and acquiring sufficient point source credits until its phased construction is completed as provided in this subsection;* or, *(iii)* only for a facility subject to an aggregated waste load allocation, by exercising the option of achieving an equivalent discharged load by the date set out in the schedule of compliance based on the applicable total nitrogen and total phosphorus annual average concentrations and actual annual flow treated without the acquisition and use of point source credits generated by permitted facilities not under common ownership. Noncompliance shall be enforceable in the same manner as any other condition of a Virginia Pollutant Discharge Elimination System permit.

The following requirements shall apply to the phased construction program to upgrade the South Central Wastewater Authority WWTF: (a) by August 1, 2023, the South Central Wastewater Authority (SCWWA) shall submit a phased construction program to the Department, which shall review and approve such program by September 1, 2023, or as soon

as possible thereafter; (b) by December 31, 2023, or within 150 days of approval by the Department of the phased construction program, whichever is later, SCWWA shall commence construction of the initial phase of construction; (c) by February 1, 2024, and annually thereafter, SCWWA shall submit a progress report to the Department describing its progress toward completing the phased construction program; (d) within 30 days of substantial completion of each major phase of construction, SCWWA shall submit an application for a certificate to operate to the Department and promptly place the associated treatment units into operation; (e) the phased construction program for the SCWWA WWTF priority project shall be completed as soon as possible on the schedule approved by the Department but no later than January 1, 2030; and (f) for each compliance year during the phased construction program that the facility does not achieve the nutrient removal technology concentration specified in this subsection, the SCWWA WWTF shall be responsible for acquiring sufficient point source credits to comply with its total nitrogen and total phosphorus waste load allocations applicable to that compliance year.

2. Nitrogen waste load allocation reductions — HRSD-York River WWTP:

Reduce the total nitrogen waste load allocation for the HRSD-York River WWTP to 228,444 lbs/year effective January 1, 2026.

FACILITY NAME	TOTAL NITROGEN WASTELOAD ALLOCATION (lbs/year)
HRSD-Army Base WWTP	219,307
HRSD-Boat Harbor STP	304,593

CHAPTER 178

An Act to amend and reenact § 62.1-44.19:14 of the Code of Virginia, relating to South Central Wastewater Authority; watershed general permit for nutrients.

[S 963]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.19:14 of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.19:14. Watershed general permit for nutrients.

A. The Board shall issue a Watershed General Virginia Pollutant Discharge Elimination System Permit, hereafter referred to as the general permit, authorizing point source discharges of total nitrogen and total phosphorus to the waters of the Chesapeake Bay and its tributaries. Except as otherwise provided in this article, the general permit shall control in lieu of technology-based, water quality-based, and best professional judgment, interim or final effluent limitations for total nitrogen and total phosphorus in individual Virginia Pollutant Discharge Elimination System permits for facilities covered by the general permit where the effluent limitations for total nitrogen and total phosphorus in the individual permits are based upon standards, criteria, waste load allocations, policy, or guidance established to restore or protect the water quality and beneficial uses of the Chesapeake Bay or its tidal tributaries.

B. This section shall not be construed to limit or otherwise affect the Board's authority to establish and enforce more stringent water quality-based effluent limitations for total nitrogen or total phosphorus in individual permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

C. The general permit shall contain the following:

1. Waste load allocations for total nitrogen and total phosphorus for each permitted facility expressed as annual mass loads, including reduced waste load allocations where applicable under the ENRC Program. The allocations for each permitted facility shall reflect the applicable individual water quality-based total nitrogen and total phosphorus waste load allocations. An owner or operator of two or more facilities located in the same tributary may apply for and receive an aggregated waste load allocation for total nitrogen and an aggregated waste load allocation for total phosphorus for multiple facilities reflecting the total of the water quality-based total nitrogen and total phosphorus waste load allocations established for such facilities individually;

2. A schedule requiring compliance with the combined waste load allocations for each tributary as soon as possible taking into account (i) opportunities to minimize costs to the public or facility owners by phasing in the implementation of multiple projects; (ii) the availability of required services and skilled labor; (iii) the availability of funding from the Virginia Water Quality Improvement Fund as established in § 10.1-2128, the Virginia Water Facilities Revolving Fund as established in § 62.1-225, and other financing mechanisms; (iv) water quality conditions; and (v) other relevant factors. Following receipt of the compliance plans required by subdivision C 3, the Board shall reevaluate the schedule taking into account the information in the compliance plans and the factors in this subdivision, and may modify the schedule as appropriate;

3. A requirement that the permittees shall either individually or through the Association submit compliance plans to the Department for approval. The compliance plans shall contain, at a minimum, any capital projects and implementation schedules needed to achieve total nitrogen and phosphorus reductions sufficient to comply with the individual and combined waste load allocations of all the permittees in the tributary. The compliance plans may rely on the exchange of point source credits in accordance with this article, but not the acquisition of credits through payments authorized by § 62.1-44.19:18, to achieve compliance with the individual and combined waste load allocations in each tributary. The compliance plans shall be updated annually and submitted to the Department no later than February 1 of each year. The compliance plans due beginning February 1, 2023, shall address the requirements of the ENRC Program;

4. Such monitoring and reporting requirements as the Board deems necessary to carry out the provisions of this article;

5. A procedure that requires every owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 100,000 gallons or more per day, or an equivalent load, directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters, to secure general permit coverage by filing a registration statement with the Department within a specified period after each effective date of the general permit. The procedure shall also require any owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 40,000 gallons or more per day, or an equivalent load, directly into tidal or nontidal waters to secure general permit coverage by filing a registration statement with the Department at the time he makes application with the Department for a new discharge or expansion that is subject to an offset or technology-based requirement in § 62.1-44.19:15, and thereafter within a specified period of time after each effective date of the general permit. The procedure shall also require any owner or operator of a facility with a discharge that is subject to an offset requirement in subdivision A 5 of § 62.1-44.19:15 to secure general permit coverage by filing a registration statement with the Department prior to commencing the discharge and thereafter within a specified period of time after each effective date of the general permit. The general permit shall provide that any facility authorized by a Virginia Pollutant Discharge Elimination System permit and not required by this subdivision to file a registration statement shall be deemed to be covered under the general permit at the time it is issued, and shall file a registration statement with the Department when required by this section. Owners or operators of facilities that are deemed to be permitted under this section shall have no other obligation under the general permit prior to filing a registration statement and securing coverage under the general permit based upon such registration statement;

6. A procedure for efficiently modifying the lists of facilities covered by the general permit where the modification does not change or otherwise alter any waste load allocation or delivery factor adopted pursuant to the Water Quality Management Planning Regulation (9VAC25-720) or its successor, or an applicable total maximum daily load. The procedure shall also provide for modifying or incorporating new waste load allocations or delivery factors, including the opportunity for public notice and comment on such modifications or incorporations; and

7. Such other conditions as the Board deems necessary to carry out the provisions of this chapter and § 402 of the federal Clean Water Act (33 U.S.C. § 1342).

D. 1. The Board shall (i) review during the year 2020 and every 10 years thereafter the basis for allocations granted in the Water Quality Management Planning Regulation (9VAC25-720) and (ii) as a result of such decennial reviews propose for inclusion in the Water Quality Management Planning Regulation (9VAC25-720) either the reallocation of unneeded allocations to other facilities registered under the general permit or the reservation of such allocations for future use.

2. For each decennial review, the Board shall determine whether a permitted facility has:

a. Changed the use of the facility in such a way as to make discharges unnecessary, ceased the discharge of nutrients, and become unlikely to resume such discharges in the foreseeable future; or

b. Changed the production processes employed in the facility in such a way as to render impossible, or significantly to diminish the likelihood of, the resumption of previous nutrient discharges.

3. Beginning in 2030, each review also shall consider the following factors for municipal wastewater facilities:

a. Substantial changes in the size or population of a service area;

b. Significant changes in land use resulting from adopted changes to zoning ordinances or comprehensive plans within a service area;

c. Significant establishment of conservation easements or other perpetual instruments that are associated with a deed and that restrict growth or development;

d. Constructed treatment facility capacity;

e. Significant changes in the understanding of the water chemistry or biology of receiving waters that would reasonably result in unused nutrient discharge allocations over an extended period of time;

f. Significant changes in treatment technologies that would reasonably result in unused nutrient discharge allocations over an extended period of time;

g. The ability of the permitted facility to accommodate projected growth under existing nutrient waste load allocations; and

h. Other similarly significant factors that the Board determines reasonably to affect the allocations granted.

The Board shall not reduce allocations based solely on voluntary improvements in nutrient removal technology.

E. The Board shall maintain and make available to the public a current listing, by tributary, of all permittees and permitted facilities under the general permit, together with each permitted facility's total nitrogen and total phosphorus waste load allocations, and total nitrogen and total phosphorus delivery factors.

F. Except as otherwise provided in this article, in the event that there are conflicting or duplicative conditions contained in the general permit and an individual Virginia Pollutant Discharge Elimination System permit, the conditions in the general permit shall control.

G. The Board shall adopt amendments to the Water Quality Management Planning Regulation and modifications to Virginia Pollutant Discharge Elimination System permits or registration lists to establish and implement the Phase III Watershed Implementation Plan Enhanced Nutrient Removal Certainty Program (ENRC Program) as provided in this subsection. The ENRC Program shall consist of the following projects and the following waste load allocation reductions and their respective schedules for compliance.

1. Priority projects for additional nitrogen and phosphorus removal (schedule for compliance):

Each priority project and the associated schedule of compliance shall be incorporated into the applicable Virginia Pollutant Discharge Elimination System permit or registration list. Each priority project facility shall be in compliance *(i)* by complying with applicable annual average total nitrogen and total phosphorus concentrations for compliance years 2026,

2028, and 2032*; (ii) for the South Central Wastewater Authority WWTF, by implementing a phased construction program approved by the Department, and acquiring sufficient point source credits until its phased construction is completed as provided in this subsection;* or~~,~~ *(iii)* only for a facility subject to an aggregated waste load allocation, by exercising the option of achieving an equivalent discharged load by the date set out in the schedule of compliance based on the applicable total nitrogen and total phosphorus annual average concentrations and actual annual flow treated without the acquisition and use of point source credits generated by permitted facilities not under common ownership. CHAPTER 179

An Act to amend the Code of Virginia by adding a section numbered 10.1-2210.1, relating to Department of Historic Resources; Green Book historic site designation.

[H 1968]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 10.1-2210.1 as follows:

§ 10.1-2210.1. Green Book historic site designation.

A. For purposes of this section, "Green Book" means The Negro Motorist Green Book published by Victor Hugo Green to provide a list of hotels, guest houses, service stations, drug stores, taverns, barbershops, and restaurants known to be safe for traveling Black Americans during the Jim Crow era.

B. The Department, in partnership with the Virginia Tourism Corporation and the Department of Transportation, shall designate or approve historic site signs identifying locations and businesses identified in the Green Book. Such historic site signs shall be permanently affixed to existing markers approved by the Department as provided in § 10.1-2209. The Department shall establish a registry of verified locations and businesses in the Commonwealth identified in the Green Book and determine those locations or businesses that also have a historic site marker approved by the Department on or near such location or business. The Department of Transportation shall print, place, and maintain the Green Book historic site signs. Localities that maintain their own highways shall place and maintain the Green Book historic site signs for those sites within their boundaries. The Virginia Tourism Corporation shall design the signs and maintain an informational website (i) explaining the historical significance of the Green Book in making travel safer for Black Americans and (ii) listing the Green Book locations in the Commonwealth, as identified by the Department, and identifying those locations

that have posted Green Book historic site signs as provided in this section. Such signs shall include an image, outline, or similar depiction of the Green Book and the words "Green Book Location."

CHAPTER 180

An Act to amend and reenact § 55.1-2902 of the Code of Virginia, relating to Virginia Self-Service Storage Act; default by occupant; watercraft vehicles.

[H 1930]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-2902 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-2902. Enforcement of lien.

A. 1. If any occupant is in default under a rental agreement, the owner shall notify the occupant of such default by regular mail at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by electronic means. If such default is not cured within 10 days after its occurrence, then the owner may proceed to enforce such lien by selling the contents of the occupant's unit at public auction, for cash, and apply the proceeds to satisfaction of the lien, with the surplus, if any, to be disbursed as provided in this section. Before conducting such a public auction, the owner shall notify the occupant as prescribed in subsection C. The rental agreement may provide the occupant with the option to designate an alternative contact to receive the notices required by this section. Failure or refusal of an occupant to designate an alternative contact shall not affect the rights or remedies afforded to an occupant or owner pursuant to the provisions of this section or any other provision of law. No alternative contact shall have any right to access the leased space or any personal property stored within unless expressly stated otherwise in the rental agreement.

2. In the case of personal property having a fair market value in excess of $1,000, and against which a creditor has filed a financing statement in the name of the occupant at the State Corporation Commission or in the county or city where the self-service storage facility is located or in the county or city in the Commonwealth shown as the last known address of the occupant, or if such personal property is a watercraft required by the laws of the Commonwealth to be registered and the Department of Wildlife Resources shows a lien on the certificate of title, the owner shall notify the lienholder of record, by certified mail, at the address on the financing statement or certificate of title, at least 10 days prior to the time and place of the proposed public auction.

If the owner of the personal property cannot be ascertained, the name of "John Doe" shall be substituted in the proceedings provided for in this section and no written notice shall be required. Whenever a watercraft is sold pursuant to this subsection, the Department of Wildlife Resources shall issue a certificate of title and registration to the purchaser of such watercraft upon his application containing the serial or motor number of the watercraft purchased, together with an affidavit by the lienholder, or by the person conducting the public auction, evidencing compliance with the provisions of this subsection.

B. Whenever the occupant is in default, the owner shall have the right to deny the occupant access to the leased space.

C. After the occupant has been in default for a period of 10 days, and before the owner can sell the occupant's personal property in accordance with this chapter, the owner shall send a further notice of default, by verified mail, postage prepaid, to the occupant at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. Such notice of default shall include:

1. An itemized statement of the owner's claim, indicating the charges due on the date of the notice and the date when the charges became due;

2. A demand for payment of the charges due within a specified time not less than 20 days after the date of the notice;

3. A statement that the contents of the occupant's leased space are subject to the owner's lien;

4. A conspicuous statement that unless the claim is paid within the time stated, the contents of the occupant's space will be sold at public auction at a specified time and place; and

5. The name, street address, and telephone number of the owner or his designated agent whom the occupant may contact to respond to the notice.

D. At any time prior to the public auction pursuant to this section, the occupant may pay the amount necessary to satisfy the lien and thereby redeem the personal property.

E. In the event of a public auction pursuant to this section, the owner may satisfy his lien from the proceeds of the public auction and shall hold the balance, if any, for delivery on demand to the occupant or other lienholder referred to in this chapter. However, the owner shall not be obligated to hold any balance for a lienholder of record notified pursuant to subdivision A 2, or any other lien creditor, that fails to claim an interest in the balance within 30 days of the public auction. So long as the owner complies with the provisions of this chapter, the owner's liability to the occupant under this chapter shall be limited to the net proceeds received from the public auction of any personal property and, as to other lienholders, shall be limited to the net proceeds received from the public auction of any personal property covered by such superior lien.

F. Any public auction of the personal property shall be held (i) at the self-service storage facility, (ii) at the nearest suitable place to where the personal property is held or stored, or (iii) online.

G. A purchaser in good faith of any personal property sold or otherwise disposed of pursuant to this chapter takes such property free and clear of any rights of persons against whom the lien was valid.

H. Any notice made pursuant to this section shall be presumed delivered when it is (i) deposited with the United States Postal Service and properly addressed to the occupant's last known address with postage prepaid or (ii) sent by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. In the event of a dispute, the sender shall have the burden to demonstrate delivery of the notice of default.

I. In the case of any motor vehicle, so long as the motor vehicle remains stored within such leased space, the owner shall have a lien on such vehicle in accordance with § 46.2-644.01.

J. In the case of any watercraft, if the occupant has been in default for more than 60 days, the owner may have such watercraft towed from the self-service storage facility in lieu of conducting a public sale of such property. Notice shall be sent by verified mail or electronic mail at the occupant's last known address at least 10 days prior to the tow date and shall include the name, address, and telephone number of the company selected to tow such watercraft. Such notice may be sent independently or as part of the notice required by subsection C. The owner shall be immune from civil liability for any damage to such watercraft that occurs after the company selected to tow such watercraft takes possession of the watercraft.

CHAPTER 181

An Act to amend and reenact § 55.1-2902 of the Code of Virginia, relating to Virginia Self-Service Storage Act; default by occupant; watercraft vehicles.

[S 976]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-2902 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-2902. Enforcement of lien.

A. 1. If any occupant is in default under a rental agreement, the owner shall notify the occupant of such default by regular mail at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by electronic means. If such default is not cured within 10 days after its occurrence, then the owner may proceed to enforce such lien by selling the contents of the occupant's unit at public auction, for cash, and apply the proceeds to satisfaction of the lien, with the surplus, if any, to be disbursed as provided in this section. Before conducting such a public auction, the owner shall notify the occupant as prescribed in subsection C. The rental agreement may provide the occupant with the option to designate an alternative contact to receive the notices required by this section. Failure or refusal of an occupant to designate an alternative contact shall not affect the rights or remedies afforded to an occupant or owner pursuant to the provisions of this section or any other provision of law. No alternative contact shall have any right to access the leased space or any personal property stored within unless expressly stated otherwise in the rental agreement.

2. In the case of personal property having a fair market value in excess of $1,000, and against which a creditor has filed a financing statement in the name of the occupant at the State Corporation Commission or in the county or city where the self-service storage facility is located or in the county or city in the Commonwealth shown as the last known address of the occupant, or if such personal property is a watercraft required by the laws of the Commonwealth to be registered and the Department of Wildlife Resources shows a lien on the certificate of title, the owner shall notify the lienholder of record, by certified mail, at the address on the financing statement or certificate of title, at least 10 days prior to the time and place of the proposed public auction.

If the owner of the personal property cannot be ascertained, the name of "John Doe" shall be substituted in the proceedings provided for in this section and no written notice shall be required. Whenever a watercraft is sold pursuant to this subsection, the Department of Wildlife Resources shall issue a certificate of title and registration to the purchaser of such watercraft upon his application containing the serial or motor number of the watercraft purchased, together with an affidavit by the lienholder, or by the person conducting the public auction, evidencing compliance with the provisions of this subsection.

B. Whenever the occupant is in default, the owner shall have the right to deny the occupant access to the leased space.

C. After the occupant has been in default for a period of 10 days, and before the owner can sell the occupant's personal property in accordance with this chapter, the owner shall send a further notice of default, by verified mail, postage prepaid, to the occupant at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. Such notice of default shall include:

1. An itemized statement of the owner's claim, indicating the charges due on the date of the notice and the date when the charges became due;

2. A demand for payment of the charges due within a specified time not less than 20 days after the date of the notice;

3. A statement that the contents of the occupant's leased space are subject to the owner's lien;

4. A conspicuous statement that unless the claim is paid within the time stated, the contents of the occupant's space will be sold at public auction at a specified time and place; and

5. The name, street address, and telephone number of the owner or his designated agent whom the occupant may contact to respond to the notice.

D. At any time prior to the public auction pursuant to this section, the occupant may pay the amount necessary to satisfy the lien and thereby redeem the personal property.

E. In the event of a public auction pursuant to this section, the owner may satisfy his lien from the proceeds of the public auction and shall hold the balance, if any, for delivery on demand to the occupant or other lienholder referred to in this chapter. However, the owner shall not be obligated to hold any balance for a lienholder of record notified pursuant to subdivision A 2, or any other lien creditor, that fails to claim an interest in the balance within 30 days of the public auction. So long as the owner complies with the provisions of this chapter, the owner's liability to the occupant under this chapter shall be limited to the net proceeds received from the public auction of any personal property and, as to other lienholders, shall be limited to the net proceeds received from the public auction of any personal property covered by such superior lien.

F. Any public auction of the personal property shall be held (i) at the self-service storage facility, (ii) at the nearest suitable place to where the personal property is held or stored, or (iii) online.

G. A purchaser in good faith of any personal property sold or otherwise disposed of pursuant to this chapter takes such property free and clear of any rights of persons against whom the lien was valid.

H. Any notice made pursuant to this section shall be presumed delivered when it is (i) deposited with the United States Postal Service and properly addressed to the occupant's last known address with postage prepaid or (ii) sent by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. In the event of a dispute, the sender shall have the burden to demonstrate delivery of the notice of default.

I. In the case of any motor vehicle, so long as the motor vehicle remains stored within such leased space, the owner shall have a lien on such vehicle in accordance with § 46.2-644.01.

J. In the case of any watercraft, if the occupant has been in default for more than 60 days, the owner may have such watercraft towed from the self-service storage facility in lieu of conducting a public sale of such property. Notice shall be sent by verified mail or electronic mail at the occupant's last known address at least 10 days prior to the tow date and shall include the name, address, and telephone number of the company selected to tow such watercraft. Such notice may be sent independently or as part of the notice required by subsection C. The owner shall be immune from civil liability for any damage to such watercraft that occurs after the company selected to tow such watercraft takes possession of the watercraft.

CHAPTER 182

An Act to amend and reenact § 2.2-2818 of the Code of Virginia, relating to state employees; health insurance coverage; incapacitated adult children.

[H 2038]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-2818 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-2818. Health and related insurance for state employees.

A. The Department of Human Resource Management shall establish a plan, subject to the approval of the Governor, for providing health insurance coverage, including chiropractic treatment, hospitalization, medical, surgical, and major medical coverage, for state employees and retired state employees with the Commonwealth paying the cost thereof to the extent of the coverage included in such plan. The same plan shall be offered to all part-time state employees, but the total cost shall be paid by such part-time employees. The Department of Human Resource Management shall administer this section. The plan chosen shall provide means whereby coverage for the families or dependents of state employees may be purchased. Except for part-time employees, the Commonwealth may pay all or a portion of the cost thereof, and for such portion as the Commonwealth does not pay, the employee, including a part-time employee, may purchase the coverage by paying the additional cost over the cost of coverage for an employee.

Such contribution shall be financed through appropriations provided by law.

B. The plan shall:

1. Include coverage for low-dose screening mammograms for determining the presence of occult breast cancer. Such coverage shall make available one screening mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through 49, and one such mammogram annually to persons age 50 and over and may be limited to a benefit of $50 per mammogram subject to such dollar limits, deductibles, and coinsurance factors as are no less favorable than for physical illness generally.

The term "mammogram" shall mean an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film, and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast.

In order to be considered a screening mammogram for which coverage shall be made available under this section:

a. The mammogram shall be (i) ordered by a health care practitioner acting within the scope of his licensure and, in the case of an enrollee of a health maintenance organization, by the health maintenance organization provider; (ii) performed by a registered technologist; (iii) interpreted by a qualified radiologist; and (iv) performed under the direction of a person licensed to practice medicine and surgery and certified by the American Board of Radiology or an equivalent examining body. A copy of the mammogram report shall be sent or delivered to the health care practitioner who ordered it;

b. The equipment used to perform the mammogram shall meet the standards set forth by the Virginia Department of Health in its radiation protection regulations; and

c. The mammography film shall be retained by the radiologic facility performing the examination in accordance with the American College of Radiology guidelines or state law.

2. Include coverage for postpartum services providing inpatient care and a home visit or visits that shall be in accordance with the medical criteria, outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Such coverage shall be provided incorporating any changes in such Guidelines or Standards within six months of the publication of such Guidelines or Standards or any official amendment thereto.

3. Include an appeals process for resolution of complaints that shall provide reasonable procedures for the resolution of such complaints and shall be published and disseminated to all covered state employees. The appeals process shall be compliant with federal rules and regulations governing nonfederal, self-insured governmental health plans. The appeals process shall include a separate expedited emergency appeals procedure that shall provide resolution within time frames established by federal law. For appeals involving adverse decisions as defined in § 32.1-137.7, the Department shall contract with one or more independent review organizations to review such decisions. Independent review organizations are entities that conduct independent external review of adverse benefit determinations. The Department shall adopt regulations to assure that the independent review organization conducting the reviews has adequate standards, credentials and experience for such review. The independent review organization shall examine the final denial of claims to determine whether the decision is objective, clinically valid, and compatible with established principles of health care. The decision of the independent review organization shall (i) be in writing, (ii) contain findings of fact as to the material issues in the case and the basis for those findings, and (iii) be final and binding if consistent with law and policy.

Prior to assigning an appeal to an independent review organization, the Department shall verify that the independent review organization conducting the review of a denial of claims has no relationship or association with (i) the covered person or the covered person's authorized representative; (ii) the treating health care provider, or any of its employees or affiliates; (iii) the medical care facility at which the covered service would be provided, or any of its employees or affiliates; or (iv) the development or manufacture of the drug, device, procedure, or other therapy that is the subject of the final denial of a claim. The independent review organization shall not be a subsidiary of, nor owned or controlled by, a health plan, a trade association of health plans, or a professional association of health care providers. There shall be no liability on the part of and no cause of action shall arise against any officer or employee of an independent review organization for any actions taken or not taken or statements made by such officer or employee in good faith in the performance of his powers and duties.

4. Include coverage for early intervention services. For purposes of this section, "early intervention services" means medically necessary speech and language therapy, occupational therapy, physical therapy and assistive technology services and devices for dependents from birth to age three who are certified by the Department of Behavioral Health and Developmental Services as eligible for services under Part H of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.). Medically necessary early intervention services for the population certified by the Department of Behavioral Health and Developmental Services shall mean those services designed to help an individual attain or retain the capability to function age-appropriately within his environment, and shall include services that enhance functional ability without effecting a cure.

For persons previously covered under the plan, there shall be no denial of coverage due to the existence of a preexisting condition. The cost of early intervention services shall not be applied to any contractual provision limiting the total amount of coverage paid by the insurer to or on behalf of the insured during the insured's lifetime.

5. Include coverage for prescription drugs and devices approved by the United States Food and Drug Administration for use as contraceptives.

6. Not deny coverage for any drug approved by the United States Food and Drug Administration for use in the treatment of cancer on the basis that the drug has not been approved by the United States Food and Drug Administration for the treatment of the specific type of cancer for which the drug has been prescribed, if the drug has been recognized as safe and effective for treatment of that specific type of cancer in one of the standard reference compendia.

7. Not deny coverage for any drug prescribed to treat a covered indication so long as the drug has been approved by the United States Food and Drug Administration for at least one indication and the drug is recognized for treatment of the covered indication in one of the standard reference compendia or in substantially accepted peer-reviewed medical literature.

8. Include coverage for equipment, supplies, and outpatient self-management training and education, including medical nutrition therapy, for the treatment of insulin-dependent diabetes, insulin-using diabetes, gestational diabetes, and noninsulin-using diabetes if prescribed by a health care professional legally authorized to prescribe such items under law. To qualify for coverage under this subdivision, diabetes outpatient self-management training and education shall be provided by a certified, registered, or licensed health care professional.

9. Include coverage for reconstructive breast surgery. For purposes of this section, "reconstructive breast surgery" means surgery performed on and after July 1, 1998, (i) coincident with a mastectomy performed for breast cancer or (ii) following a mastectomy performed for breast cancer to reestablish symmetry between the two breasts. For persons previously covered under the plan, there shall be no denial of coverage due to preexisting conditions.

10. Include coverage for annual pap smears, including coverage, on and after July 1, 1999, for annual testing performed by any FDA-approved gynecologic cytology screening technologies.

11. Include coverage providing a minimum stay in the hospital of not less than 48 hours for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of breast cancer. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate.

12. Include coverage (i) to persons age 50 and over and (ii) to persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. For the purpose of this subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate specific antigen.

13. Permit any individual covered under the plan direct access to the health care services of a participating specialist (i) authorized to provide services under the plan and (ii) selected by the covered individual. The plan shall have a procedure by which an individual who has an ongoing special condition may, after consultation with the primary care physician, receive a referral to a specialist for such condition who shall be responsible for and capable of providing and coordinating the individual's primary and specialty care related to the initial specialty care referral. If such an individual's care would most appropriately be coordinated by such a specialist, the plan shall refer the individual to a specialist. For the purposes of this subdivision, "special condition" means a condition or disease that is (i) life-threatening, degenerative, or disabling and (ii) requires specialized medical care over a prolonged period of time. Within the treatment period authorized by the referral, such specialist shall be permitted to treat the individual without a further referral from the individual's primary care provider and may authorize such referrals, procedures, tests, and other medical services related to the initial referral as the individual's primary care provider would otherwise be permitted to provide or authorize. The plan shall have a procedure by which an individual who has an ongoing special condition that requires ongoing care from a specialist may receive a standing referral to such specialist for the treatment of the special condition. If the primary care provider, in consultation with the plan and the specialist, if any, determines that such a standing referral is appropriate, the plan or issuer shall make such a referral to a specialist. Nothing contained herein shall prohibit the plan from requiring a participating specialist to provide written notification to the covered individual's primary care physician of any visit to such specialist. Such notification may include a description of the health care services rendered at the time of the visit.

14. Include provisions allowing employees to continue receiving health care services for a period of up to 90 days from the date of the primary care physician's notice of termination from any of the plan's provider panels. The plan shall notify any provider at least 90 days prior to the date of termination of the provider, except when the provider is terminated for cause.

For a period of at least 90 days from the date of the notice of a provider's termination from any of the plan's provider panels, except when a provider is terminated for cause, a provider shall be permitted by the plan to render health care services to any of the covered employees who (i) were in an active course of treatment from the provider prior to the notice of termination and (ii) request to continue receiving health care services from the provider.

Notwithstanding the provisions of this subdivision, any provider shall be permitted by the plan to continue rendering health services to any covered employee who has entered the second trimester of pregnancy at the time of the provider's termination of participation, except when a provider is terminated for cause. Such treatment shall, at the covered employee's option, continue through the provision of postpartum care directly related to the delivery.

Notwithstanding the provisions of this subdivision, any provider shall be permitted to continue rendering health services to any covered employee who is determined to be terminally ill (as defined under § 1861(dd)(3)(A) of the Social Security Act) at the time of a provider's termination of participation, except when a provider is terminated for cause. Such treatment shall, at the covered employee's option, continue for the remainder of the employee's life for care directly related to the treatment of the terminal illness.

A provider who continues to render health care services pursuant to this subdivision shall be reimbursed in accordance with the carrier's agreement with such provider existing immediately before the provider's termination of participation.

15. Include coverage for patient costs incurred during participation in clinical trials for treatment studies on cancer, including ovarian cancer trials.

The reimbursement for patient costs incurred during participation in clinical trials for treatment studies on cancer shall be determined in the same manner as reimbursement is determined for other medical and surgical procedures. Such

coverage shall have durational limits, dollar limits, deductibles, copayments, and coinsurance factors that are no less favorable than for physical illness generally.

For purposes of this subdivision:

"Cooperative group" means a formal network of facilities that collaborate on research projects and have an established NIH-approved peer review program operating within the group. "Cooperative group" includes (i) the National Cancer Institute Clinical Cooperative Group and (ii) the National Cancer Institute Community Clinical Oncology Program.

"FDA" means the Federal Food and Drug Administration.

"Multiple project assurance contract" means a contract between an institution and the federal Department of Health and Human Services that defines the relationship of the institution to the federal Department of Health and Human Services and sets out the responsibilities of the institution and the procedures that will be used by the institution to protect human subjects.

"NCI" means the National Cancer Institute.

"NIH" means the National Institutes of Health.

"Patient" means a person covered under the plan established pursuant to this section.

"Patient cost" means the cost of a medically necessary health care service that is incurred as a result of the treatment being provided to a patient for purposes of a clinical trial. "Patient cost" does not include (i) the cost of nonhealth care services that a patient may be required to receive as a result of the treatment being provided for purposes of a clinical trial, (ii) costs associated with managing the research associated with the clinical trial, or (iii) the cost of the investigational drug or device.

Coverage for patient costs incurred during clinical trials for treatment studies on cancer shall be provided if the treatment is being conducted in a Phase II, Phase III, or Phase IV clinical trial. Such treatment may, however, be provided on a case-by-case basis if the treatment is being provided in a Phase I clinical trial.

The treatment described in the previous paragraph shall be provided by a clinical trial approved by:

a. The National Cancer Institute;

b. An NCI cooperative group or an NCI center;

c. The FDA in the form of an investigational new drug application;

d. The federal Department of Veterans Affairs; or

e. An institutional review board of an institution in the Commonwealth that has a multiple project assurance contract approved by the Office of Protection from Research Risks of the NCI.

The facility and personnel providing the treatment shall be capable of doing so by virtue of their experience, training, and expertise.

Coverage under this subdivision shall apply only if:

(1) There is no clearly superior, noninvestigational treatment alternative;

(2) The available clinical or preclinical data provide a reasonable expectation that the treatment will be at least as effective as the noninvestigational alternative; and

(3) The patient and the physician or health care provider who provides services to the patient under the plan conclude that the patient's participation in the clinical trial would be appropriate, pursuant to procedures established by the plan.

16. Include coverage providing a minimum stay in the hospital of not less than 23 hours for a covered employee following a laparoscopy-assisted vaginal hysterectomy and 48 hours for a covered employee following a vaginal hysterectomy, as outlined in Milliman & Robertson's nationally recognized guidelines. Nothing in this subdivision shall be construed as requiring the provision of the total hours referenced when the attending physician, in consultation with the covered employee, determines that a shorter hospital stay is appropriate.

17. Include coverage for biologically based mental illness.

For purposes of this subdivision, a "biologically based mental illness" is any mental or nervous condition caused by a biological disorder of the brain that results in a clinically significant syndrome that substantially limits the person's functioning; specifically, the following diagnoses are defined as biologically based mental illness as they apply to adults and children: schizophrenia, schizoaffective disorder, bipolar disorder, major depressive disorder, panic disorder, obsessive-compulsive disorder, attention deficit hyperactivity disorder, autism, and drug and alcoholism addiction.

Coverage for biologically based mental illnesses shall neither be different nor separate from coverage for any other illness, condition, or disorder for purposes of determining deductibles, benefit year or lifetime durational limits, benefit year or lifetime dollar limits, lifetime episodes or treatment limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayment and coinsurance factors.

Nothing shall preclude the undertaking of usual and customary procedures to determine the appropriateness of, and medical necessity for, treatment of biologically based mental illnesses under this option, provided that all such appropriateness and medical necessity determinations are made in the same manner as those determinations made for the treatment of any other illness, condition, or disorder covered by such policy or contract.

18. Offer and make available coverage for the treatment of morbid obesity through gastric bypass surgery or such other methods as may be recognized by the National Institutes of Health as effective for the long-term reversal of morbid obesity. Such coverage shall have durational limits, dollar limits, deductibles, copayments, and coinsurance factors that are no less favorable than for physical illness generally. Access to surgery for morbid obesity shall not be restricted based upon dietary or any other criteria not approved by the National Institutes of Health. For purposes of this subdivision, "morbid obesity"

means (i) a weight that is at least 100 pounds over or twice the ideal weight for frame, age, height, and gender as specified in the 1983 Metropolitan Life Insurance tables, (ii) a body mass index (BMI) equal to or greater than 35 kilograms per meter squared with comorbidity or coexisting medical conditions such as hypertension, cardiopulmonary conditions, sleep apnea, or diabetes, or (iii) a BMI of 40 kilograms per meter squared without such comorbidity. As used herein, "BMI" equals weight in kilograms divided by height in meters squared.

19. Include coverage for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations. The coverage for colorectal cancer screening shall not be more restrictive than or separate from coverage provided for any other illness, condition, or disorder for purposes of determining deductibles, benefit year or lifetime durational limits, benefit year or lifetime dollar limits, lifetime episodes or treatment limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayments and coinsurance factors.

20. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each employee provided coverage pursuant to this section, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide employees covered under the plan such corrective information as may be required to electronically process a prescription claim.

21. Include coverage for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such coverage shall include follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss.

22. Notwithstanding any provision of this section to the contrary, every plan established in accordance with this section shall comply with the provisions of § 2.2-2818.2.

C. Claims incurred during a fiscal year but not reported during that fiscal year shall be paid from such funds as shall be appropriated by law. Appropriations, premiums, and other payments shall be deposited in the employee health insurance fund, from which payments for claims, premiums, cost containment programs, and administrative expenses shall be withdrawn from time to time. The funds of the health insurance fund shall be deemed separate and independent trust funds, shall be segregated from all other funds of the Commonwealth, and shall be invested and administered solely in the interests of the employees and their beneficiaries. Neither the General Assembly nor any public officer, employee, or agency shall use or authorize the use of such trust funds for any purpose other than as provided in law for benefits, refunds, and administrative expenses, including but not limited to legislative oversight of the health insurance fund.

D. For the purposes of this section:

"Peer-reviewed medical literature" means a scientific study published only after having been critically reviewed for scientific accuracy, validity, and reliability by unbiased independent experts in a journal that has been determined by the International Committee of Medical Journal Editors to have met the Uniform Requirements for Manuscripts submitted to biomedical journals. "Peer-reviewed medical literature" does not include publications or supplements to publications that are sponsored to a significant extent by a pharmaceutical manufacturing company or health carrier.

"Standard reference compendia" means:

1. American Hospital Formulary Service — Drug Information;

E. Provisions shall be made for retired employees to obtain coverage under the above plan, including, as an option, coverage for vision and dental care. The Commonwealth may, but shall not be obligated to, pay all or any portion of the cost thereof.

F. Any self-insured group health insurance plan established by the Department of Human Resource Management that utilizes a network of preferred providers shall not exclude any physician solely on the basis of a reprimand or censure from the Board of Medicine, so long as the physician otherwise meets the plan criteria established by the Department.

G. The plan shall include, in each planning district, at least two health coverage options, each sponsored by unrelated entities. No later than July 1, 2006, one of the health coverage options to be available in each planning district shall be a high deductible health plan that would qualify for a health savings account pursuant to § 223 of the Internal Revenue Code of 1986, as amended.

In each planning district that does not have an available health coverage alternative, the Department shall voluntarily enter into negotiations at any time with any health coverage provider who seeks to provide coverage under the plan.

This subsection shall not apply to any state agency authorized by the Department to establish and administer its own health insurance coverage plan separate from the plan established by the Department.

H. Any self-insured group health insurance plan established by the Department of Human Resource Management that includes coverage for prescription drugs on an outpatient basis may apply a formulary to the prescription drug benefits provided by the plan if the formulary is developed, reviewed at least annually, and updated as necessary in consultation with and with the approval of a pharmacy and therapeutics committee, a majority of whose members are actively practicing licensed (i) pharmacists, (ii) physicians, and (iii) other health care providers.

If the plan maintains one or more drug formularies, the plan shall establish a process to allow a person to obtain, without additional cost-sharing beyond that provided for formulary prescription drugs in the plan, a specific, medically necessary nonformulary prescription drug if, after reasonable investigation and consultation with the prescriber, the formulary drug is determined to be an inappropriate therapy for the medical condition of the person. The plan shall act on such requests within one business day of receipt of the request.

Any plan established in accordance with this section shall be authorized to provide for the selection of a single mail order pharmacy provider as the exclusive provider of pharmacy services that are delivered to the covered person's address by mail, common carrier, or delivery service. As used in this subsection, "mail order pharmacy provider" means a pharmacy permitted to conduct business in the Commonwealth whose primary business is to dispense a prescription drug or device under a prescriptive drug order and to deliver the drug or device to a patient primarily by mail, common carrier, or delivery service.

I. Any plan established in accordance with this section requiring preauthorization prior to rendering medical treatment shall have personnel available to provide authorization at all times when such preauthorization is required.

J. Any plan established in accordance with this section shall provide to all covered employees written notice of any benefit reductions during the contract period at least 30 days before such reductions become effective.

K. No contract between a provider and any plan established in accordance with this section shall include provisions that require a health care provider or health care provider group to deny covered services that such provider or group knows to be medically necessary and appropriate that are provided with respect to a covered employee with similar medical conditions.

L. The Department of Human Resource Management shall appoint an Ombudsman to promote and protect the interests of covered employees under any state employee's health plan.

The Ombudsman shall:

1. Assist covered employees in understanding their rights and the processes available to them according to their state health plan.

4. Develop information on the types of health plans available, including benefits and complaint procedures and appeals.

5. Make available, either separately or through an existing Internet web site utilized by the Department of Human Resource Management, information as set forth in subdivision 4 and such additional information as he deems appropriate.

6. Maintain data on inquiries received, the types of assistance requested, any actions taken and the disposition of each such matter.

7. Upon request, assist covered employees in using the procedures and processes available to them from their health plan, including all appeal procedures. Such assistance may require the review of health care records of a covered employee, which shall be done only in accordance with the federal Health Insurance Portability and Accountability Act privacy rules. The confidentiality of any such medical records shall be maintained in accordance with the confidentiality and disclosure laws of the Commonwealth.

8. Ensure that covered employees have access to the services provided by the Ombudsman and that the covered employees receive timely responses from the Ombudsman or his representatives to the inquiries.

9. Report annually on his activities to the standing committees of the General Assembly having jurisdiction over insurance and over health and the Joint Commission on Health Care by December 1 of each year.

M. The plan established in accordance with this section shall not refuse to accept or make reimbursement pursuant to an assignment of benefits made to a dentist or oral surgeon by a covered employee.

For purposes of this subsection, "assignment of benefits" means the transfer of dental care coverage reimbursement benefits or other rights under the plan. The assignment of benefits shall not be effective until the covered employee notifies the plan in writing of the assignment.

N. Beginning July 1, 2006, any plan established pursuant to this section shall provide for an identification number, which shall be assigned to the covered employee and shall not be the same as the employee's social security number.

O. Any group health insurance plan established by the Department of Human Resource Management that contains a coordination of benefits provision shall provide written notification to any eligible employee as a prominent part of its enrollment materials that if such eligible employee is covered under another group accident and sickness insurance policy, group accident and sickness subscription contract, or group health care plan for health care services, that insurance policy,

subscription contract, or health care plan may have primary responsibility for the covered expenses of other family members enrolled with the eligible employee. Such written notification shall describe generally the conditions upon which the other coverage would be primary for dependent children enrolled under the eligible employee's coverage and the method by which the eligible enrollee may verify from the plan that coverage would have primary responsibility for the covered expenses of each family member.

P. Any plan established by the Department of Human Resource Management pursuant to this section shall provide that coverage under such plan for family members enrolled under a participating state employee's coverage shall continue for a period of at least 30 days following the death of such state employee.

Q. The plan established in accordance with this section that follows a policy of sending its payment to the covered employee or covered family member for a claim for services received from a nonparticipating physician or osteopath shall (i) include language in the member handbook that notifies the covered employee of the responsibility to apply the plan payment to the claim from such nonparticipating provider, (ii) include this language with any such payment sent to the covered employee or covered family member, and (iii) include the name and any last known address of the nonparticipating provider on the explanation of benefits statement.

R. *The plan established by the Department of Human Resource Management pursuant to this section shall provide that coverage under such plan for an incapacitated child enrolled under a participating state employee's coverage shall be valid without regard to whether such child lives with the covered employee as a member of the employee's household so long as the child is dependent upon the employee for more than half of the child's financial support and the child is receiving residential support services.*

For purposes of this subsection, "incapacitated child" means an adult child who is incapacitated due to a physical or mental health condition that existed prior to the termination of coverage due to such child attaining the limiting age under the plan for eligible children dependents.

S. The Department of Human Resource Management shall report annually, by November 30 of each year, on cost and utilization information for each of the mandated benefits set forth in subsection B, including any mandated benefit made applicable, pursuant to subdivision B 22, to any plan established pursuant to this section. The report shall be in the same detail and form as required of reports submitted pursuant to § 38.2-3419.1, with such additional information as is required to determine the financial impact, including the costs and benefits, of the particular mandated benefit.

§ 2.2-2818. Health and related insurance for state employees.

A. The Department of Human Resource Management shall establish a plan, subject to the approval of the Governor, for providing health insurance coverage, including chiropractic treatment, hospitalization, medical, surgical and major medical coverage, for state employees and retired state employees with the Commonwealth paying the cost thereof to the extent of the coverage included in such plan. The same plan shall be offered to all part-time state employees, but the total

cost shall be paid by such part-time employees. The Department of Human Resource Management shall administer this section. The plan chosen shall provide means whereby coverage for the families or dependents of state employees may be purchased. Except for part-time employees, the Commonwealth may pay all or a portion of the cost thereof, and for such portion as the Commonwealth does not pay, the employee, including a part-time employee, may purchase the coverage by paying the additional cost over the cost of coverage for an employee.

Such contribution shall be financed through appropriations provided by law.

B. The plan shall:

1. Include coverage for low-dose screening mammograms for determining the presence of occult breast cancer. Such coverage shall make available one screening mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through 49, and one such mammogram annually to persons age 50 and over and may be limited to a benefit of $50 per mammogram subject to such dollar limits, deductibles, and coinsurance factors as are no less favorable than for physical illness generally.

The term "mammogram" shall mean an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film, and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast.

In order to be considered a screening mammogram for which coverage shall be made available under this section:

a. The mammogram shall be (i) ordered by a health care practitioner acting within the scope of his licensure and, in the case of an enrollee of a health maintenance organization, by the health maintenance organization provider; (ii) performed by a registered technologist; (iii) interpreted by a qualified radiologist; and (iv) performed under the direction of a person licensed to practice medicine and surgery and certified by the American Board of Radiology or an equivalent examining body. A copy of the mammogram report shall be sent or delivered to the health care practitioner who ordered it;

b. The equipment used to perform the mammogram shall meet the standards set forth by the Virginia Department of Health in its radiation protection regulations; and

c. The mammography film shall be retained by the radiologic facility performing the examination in accordance with the American College of Radiology guidelines or state law.

2. Include coverage for postpartum services providing inpatient care and a home visit or visits that shall be in accordance with the medical criteria, outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Such coverage shall be provided incorporating any changes in such Guidelines or Standards within six months of the publication of such Guidelines or Standards or any official amendment thereto.

3. Include an appeals process for resolution of complaints that shall provide reasonable procedures for the resolution of such complaints and shall be published and disseminated to all covered state employees. The appeals process shall be compliant with federal rules and regulations governing nonfederal, self-insured governmental health plans. The appeals process shall include a separate expedited emergency appeals procedure that shall provide resolution within time frames established by federal law. For appeals involving adverse decisions as defined in § 32.1-137.7, the Department shall contract with one or more independent review organizations to review such decisions. Independent review organizations are entities that conduct independent external review of adverse benefit determinations. The Department shall adopt regulations to assure that the independent review organization conducting the reviews has adequate standards, credentials and experience for such review. The independent review organization shall examine the final denial of claims to determine whether the decision is objective, clinically valid, and compatible with established principles of health care. The decision of the independent review organization shall (i) be in writing, (ii) contain findings of fact as to the material issues in the case and the basis for those findings, and (iii) be final and binding if consistent with law and policy.

Prior to assigning an appeal to an independent review organization, the Department shall verify that the independent review organization conducting the review of a denial of claims has no relationship or association with (i) the covered person or the covered person's authorized representative; (ii) the treating health care provider, or any of its employees or affiliates; (iii) the medical care facility at which the covered service would be provided, or any of its employees or affiliates; or (iv) the development or manufacture of the drug, device, procedure or other therapy that is the subject of the final denial of a claim. The independent review organization shall not be a subsidiary of, nor owned or controlled by, a health plan, a trade association of health plans, or a professional association of health care providers. There shall be no liability on the part of and no cause of action shall arise against any officer or employee of an independent review organization for any actions taken or not taken or statements made by such officer or employee in good faith in the performance of his powers and duties.

4. Include coverage for early intervention services. For purposes of this section, "early intervention services" means medically necessary speech and language therapy, occupational therapy, physical therapy and assistive technology services and devices for dependents from birth to age three who are certified by the Department of Behavioral Health and Developmental Services as eligible for services under Part H of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.). Medically necessary early intervention services for the population certified by the Department of Behavioral Health and Developmental Services shall mean those services designed to help an individual attain or retain the capability to function age-appropriately within his environment, and shall include services that enhance functional ability without effecting a cure.

For persons previously covered under the plan, there shall be no denial of coverage due to the existence of a preexisting condition. The cost of early intervention services shall not be applied to any contractual provision limiting the total amount of coverage paid by the insurer to or on behalf of the insured during the insured's lifetime.

5. Include coverage for prescription drugs and devices approved by the United States Food and Drug Administration for use as contraceptives.

6. Not deny coverage for any drug approved by the United States Food and Drug Administration for use in the treatment of cancer on the basis that the drug has not been approved by the United States Food and Drug Administration for the treatment of the specific type of cancer for which the drug has been prescribed, if the drug has been recognized as safe and effective for treatment of that specific type of cancer in one of the standard reference compendia.

7. Not deny coverage for any drug prescribed to treat a covered indication so long as the drug has been approved by the United States Food and Drug Administration for at least one indication and the drug is recognized for treatment of the covered indication in one of the standard reference compendia or in substantially accepted peer-reviewed medical literature.

8. Include coverage for equipment, supplies and outpatient self-management training and education, including medical nutrition therapy, for the treatment of insulin-dependent diabetes, insulin-using diabetes, gestational diabetes and noninsulin-using diabetes if prescribed by a health care professional legally authorized to prescribe such items under law. To qualify for coverage under this subdivision, diabetes outpatient self-management training and education shall be provided by a certified, registered or licensed health care professional.

9. Include coverage for reconstructive breast surgery. For purposes of this section, "reconstructive breast surgery" means surgery performed on and after July 1, 1998, (i) coincident with a mastectomy performed for breast cancer or (ii) following a mastectomy performed for breast cancer to reestablish symmetry between the two breasts. For persons previously covered under the plan, there shall be no denial of coverage due to preexisting conditions.

10. Include coverage for annual pap smears, including coverage, on and after July 1, 1999, for annual testing performed by any FDA-approved gynecologic cytology screening technologies.

11. Include coverage providing a minimum stay in the hospital of not less than 48 hours for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of breast cancer. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate.

12. Include coverage (i) to persons age 50 and over and (ii) to persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. For the purpose of this subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate specific antigen.

13. Permit any individual covered under the plan direct access to the health care services of a participating specialist (i) authorized to provide services under the plan and (ii) selected by the covered individual. The plan shall have a procedure by which an individual who has an ongoing special condition may, after consultation with the primary care physician, receive a referral to a specialist for such condition who shall be responsible for and capable of providing and coordinating the individual's primary and specialty care related to the initial specialty care referral. If such an individual's care would most appropriately be coordinated by such a specialist, the plan shall refer the individual to a specialist. For the purposes of this subdivision, "special condition" means a condition or disease that is (i) life-threatening, degenerative, or disabling and (ii) requires specialized medical care over a prolonged period of time. Within the treatment period authorized by the referral, such specialist shall be permitted to treat the individual without a further referral from the individual's primary care provider and may authorize such referrals, procedures, tests, and other medical services related to the initial referral as the individual's primary care provider would otherwise be permitted to provide or authorize. The plan shall have a procedure by which an individual who has an ongoing special condition that requires ongoing care from a specialist may receive a standing referral to such specialist for the treatment of the special condition. If the primary care provider, in consultation with the plan and the specialist, if any, determines that such a standing referral is appropriate, the plan or issuer shall make such a referral to a specialist. Nothing contained herein shall prohibit the plan from requiring a participating specialist to provide written notification to the covered individual's primary care physician of any visit to such specialist. Such notification may include a description of the health care services rendered at the time of the visit.

14. Include provisions allowing employees to continue receiving health care services for a period of up to 90 days from the date of the primary care physician's notice of termination from any of the plan's provider panels. The plan shall notify any provider at least 90 days prior to the date of termination of the provider, except when the provider is terminated for cause.

For a period of at least 90 days from the date of the notice of a provider's termination from any of the plan's provider panels, except when a provider is terminated for cause, a provider shall be permitted by the plan to render health care services to any of the covered employees who (i) were in an active course of treatment from the provider prior to the notice of termination and (ii) request to continue receiving health care services from the provider.

Notwithstanding the provisions of this subdivision, any provider shall be permitted by the plan to continue rendering health services to any covered employee who has entered the second trimester of pregnancy at the time of the provider's termination of participation, except when a provider is terminated for cause. Such treatment shall, at the covered employee's option, continue through the provision of postpartum care directly related to the delivery.

Notwithstanding the provisions of this subdivision, any provider shall be permitted to continue rendering health services to any covered employee who is determined to be terminally ill (as defined under § 1861(dd)(3)(A) of the Social Security Act) at the time of a provider's termination of participation, except when a provider is terminated for cause. Such treatment shall, at the covered employee's option, continue for the remainder of the employee's life for care directly related to the treatment of the terminal illness.

A provider who continues to render health care services pursuant to this subdivision shall be reimbursed in accordance with the carrier's agreement with such provider existing immediately before the provider's termination of participation.

15. Include coverage for patient costs incurred during participation in clinical trials for treatment studies on cancer, including ovarian cancer trials.

The reimbursement for patient costs incurred during participation in clinical trials for treatment studies on cancer shall be determined in the same manner as reimbursement is determined for other medical and surgical procedures. Such coverage shall have durational limits, dollar limits, deductibles, copayments and coinsurance factors that are no less favorable than for physical illness generally.

For purposes of this subdivision:

"Cooperative group" means a formal network of facilities that collaborate on research projects and have an established NIH-approved peer review program operating within the group. "Cooperative group" includes (i) the National Cancer Institute Clinical Cooperative Group and (ii) the National Cancer Institute Community Clinical Oncology Program.

"FDA" means the Federal Food and Drug Administration.

"Multiple project assurance contract" means a contract between an institution and the federal Department of Health and Human Services that defines the relationship of the institution to the federal Department of Health and Human Services and sets out the responsibilities of the institution and the procedures that will be used by the institution to protect human subjects.

"NCI" means the National Cancer Institute.

"NIH" means the National Institutes of Health.

"Patient" means a person covered under the plan established pursuant to this section.

"Patient cost" means the cost of a medically necessary health care service that is incurred as a result of the treatment being provided to a patient for purposes of a clinical trial. "Patient cost" does not include (i) the cost of nonhealth care services that a patient may be required to receive as a result of the treatment being provided for purposes of a clinical trial, (ii) costs associated with managing the research associated with the clinical trial, or (iii) the cost of the investigational drug or device.

Coverage for patient costs incurred during clinical trials for treatment studies on cancer shall be provided if the treatment is being conducted in a Phase II, Phase III, or Phase IV clinical trial. Such treatment may, however, be provided on a case-by-case basis if the treatment is being provided in a Phase I clinical trial.

The treatment described in the previous paragraph shall be provided by a clinical trial approved by:

a. The National Cancer Institute;

b. An NCI cooperative group or an NCI center;

c. The FDA in the form of an investigational new drug application;

d. The federal Department of Veterans Affairs; or

e. An institutional review board of an institution in the Commonwealth that has a multiple project assurance contract approved by the Office of Protection from Research Risks of the NCI.

The facility and personnel providing the treatment shall be capable of doing so by virtue of their experience, training, and expertise.

Coverage under this subdivision shall apply only if:

(1) There is no clearly superior, noninvestigational treatment alternative;

(2) The available clinical or preclinical data provide a reasonable expectation that the treatment will be at least as effective as the noninvestigational alternative; and

(3) The patient and the physician or health care provider who provides services to the patient under the plan conclude that the patient's participation in the clinical trial would be appropriate, pursuant to procedures established by the plan.

16. Include coverage providing a minimum stay in the hospital of not less than 23 hours for a covered employee following a laparoscopy-assisted vaginal hysterectomy and 48 hours for a covered employee following a vaginal hysterectomy, as outlined in Milliman & Robertson's nationally recognized guidelines. Nothing in this subdivision shall be construed as requiring the provision of the total hours referenced when the attending physician, in consultation with the covered employee, determines that a shorter hospital stay is appropriate.

17. Include coverage for biologically based mental illness.

For purposes of this subdivision, a "biologically based mental illness" is any mental or nervous condition caused by a biological disorder of the brain that results in a clinically significant syndrome that substantially limits the person's functioning; specifically, the following diagnoses are defined as biologically based mental illness as they apply to adults and children: schizophrenia, schizoaffective disorder, bipolar disorder, major depressive disorder, panic disorder, obsessive-compulsive disorder, attention deficit hyperactivity disorder, autism, and drug and alcoholism addiction.

Coverage for biologically based mental illnesses shall neither be different nor separate from coverage for any other illness, condition or disorder for purposes of determining deductibles, benefit year or lifetime durational limits, benefit year

or lifetime dollar limits, lifetime episodes or treatment limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayment and coinsurance factors.

Nothing shall preclude the undertaking of usual and customary procedures to determine the appropriateness of, and medical necessity for, treatment of biologically based mental illnesses under this option, provided that all such appropriateness and medical necessity determinations are made in the same manner as those determinations made for the treatment of any other illness, condition or disorder covered by such policy or contract.

18. Offer and make available coverage for the treatment of morbid obesity through gastric bypass surgery or such other methods as may be recognized by the National Institutes of Health as effective for the long-term reversal of morbid obesity. Such coverage shall have durational limits, dollar limits, deductibles, copayments and coinsurance factors that are no less favorable than for physical illness generally. Access to surgery for morbid obesity shall not be restricted based upon dietary or any other criteria not approved by the National Institutes of Health. For purposes of this subdivision, "morbid obesity" means (i) a weight that is at least 100 pounds over or twice the ideal weight for frame, age, height, and gender as specified in the 1983 Metropolitan Life Insurance tables, (ii) a body mass index (BMI) equal to or greater than 35 kilograms per meter squared with comorbidity or coexisting medical conditions such as hypertension, cardiopulmonary conditions, sleep apnea, or diabetes, or (iii) a BMI of 40 kilograms per meter squared without such comorbidity. As used herein, "BMI" equals weight in kilograms divided by height in meters squared.

19. Include coverage for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations. The coverage for colorectal cancer screening shall not be more restrictive than or separate from coverage provided for any other illness, condition or disorder for purposes of determining deductibles, benefit year or lifetime durational limits, benefit year or lifetime dollar limits, lifetime episodes or treatment limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayments and coinsurance factors.

20. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each employee provided coverage pursuant to this section, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide employees covered under the plan such corrective information as may be required to electronically process a prescription claim.

21. Include coverage for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such coverage shall include follow-up audiological examinations as recommended by a physician, *a* physician assistant, *an advanced practice registered* nurse ~~practitioner~~, or *an* audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss.

22. Notwithstanding any provision of this section to the contrary, every plan established in accordance with this section shall comply with the provisions of § 2.2-2818.2.

C. Claims incurred during a fiscal year but not reported during that fiscal year shall be paid from such funds as shall be appropriated by law. Appropriations, premiums and other payments shall be deposited in the employee health insurance fund, from which payments for claims, premiums, cost containment programs and administrative expenses shall be withdrawn from time to time. The funds of the health insurance fund shall be deemed separate and independent trust funds, shall be segregated from all other funds of the Commonwealth, and shall be invested and administered solely in the interests of the employees and their beneficiaries. Neither the General Assembly nor any public officer, employee, or agency shall use or authorize the use of such trust funds for any purpose other than as provided in law for benefits, refunds, and administrative expenses, including but not limited to legislative oversight of the health insurance fund.

D. For the purposes of this section:

"Peer-reviewed medical literature" means a scientific study published only after having been critically reviewed for scientific accuracy, validity, and reliability by unbiased independent experts in a journal that has been determined by the International Committee of Medical Journal Editors to have met the Uniform Requirements for Manuscripts submitted to biomedical journals. Peer-reviewed medical literature does not include publications or supplements to publications that are sponsored to a significant extent by a pharmaceutical manufacturing company or health carrier.

"Standard reference compendia" means:

1. American Hospital Formulary Service — Drug Information;

2. National Comprehensive Cancer Network's Drugs & Biologics Compendium; or

E. Provisions shall be made for retired employees to obtain coverage under the above plan, including, as an option, coverage for vision and dental care. The Commonwealth may, but shall not be obligated to, pay all or any portion of the cost thereof.

F. Any self-insured group health insurance plan established by the Department of Human Resource Management that utilizes a network of preferred providers shall not exclude any physician solely on the basis of a reprimand or censure from the Board of Medicine, so long as the physician otherwise meets the plan criteria established by the Department.

G. The plan shall include, in each planning district, at least two health coverage options, each sponsored by unrelated entities. No later than July 1, 2006, one of the health coverage options to be available in each planning district shall be a high deductible health plan that would qualify for a health savings account pursuant to § 223 of the Internal Revenue Code of 1986, as amended.

In each planning district that does not have an available health coverage alternative, the Department shall voluntarily enter into negotiations at any time with any health coverage provider who seeks to provide coverage under the plan.

This subsection shall not apply to any state agency authorized by the Department to establish and administer its own health insurance coverage plan separate from the plan established by the Department.

H. Any self-insured group health insurance plan established by the Department of Human Resource Management that includes coverage for prescription drugs on an outpatient basis may apply a formulary to the prescription drug benefits provided by the plan if the formulary is developed, reviewed at least annually, and updated as necessary in consultation with and with the approval of a pharmacy and therapeutics committee, a majority of whose members are actively practicing licensed (i) pharmacists, (ii) physicians, and (iii) other health care providers.

If the plan maintains one or more drug formularies, the plan shall establish a process to allow a person to obtain, without additional cost-sharing beyond that provided for formulary prescription drugs in the plan, a specific, medically necessary nonformulary prescription drug if, after reasonable investigation and consultation with the prescriber, the formulary drug is determined to be an inappropriate therapy for the medical condition of the person. The plan shall act on such requests within one business day of receipt of the request.

Any plan established in accordance with this section shall be authorized to provide for the selection of a single mail order pharmacy provider as the exclusive provider of pharmacy services that are delivered to the covered person's address by mail, common carrier, or delivery service. As used in this subsection, "mail order pharmacy provider" means a pharmacy permitted to conduct business in the Commonwealth whose primary business is to dispense a prescription drug or device under a prescriptive drug order and to deliver the drug or device to a patient primarily by mail, common carrier, or delivery service.

I. Any plan established in accordance with this section requiring preauthorization prior to rendering medical treatment shall have personnel available to provide authorization at all times when such preauthorization is required.

J. Any plan established in accordance with this section shall provide to all covered employees written notice of any benefit reductions during the contract period at least 30 days before such reductions become effective.

K. No contract between a provider and any plan established in accordance with this section shall include provisions that require a health care provider or health care provider group to deny covered services that such provider or group knows to be medically necessary and appropriate that are provided with respect to a covered employee with similar medical conditions.

L. The Department of Human Resource Management shall appoint an Ombudsman to promote and protect the interests of covered employees under any state employee's health plan.

C. School boards may require persons accepting employment as a driver of a school bus transporting pupils to agree, as a condition of employment, to submit to alcohol and controlled substance testing. Any such tests shall be conducted in compliance with Board regulations.

D. The documents required pursuant to subdivisions A 1 and 2 shall be furnished annually prior to the anniversary date of the employment agreement as a condition to continuing employment to operate a school bus.

E. The documents required pursuant to this section shall be filed with, and made a part of, the records of the school board employing such person as a school bus operator.

F. The Department shall furnish to the several division superintendents the necessary forms to be used by applicants in furnishing the information required by this section. Insofar as practicable, such forms shall be designed to limit paperwork, avoid the possibility of mistake, and furnish all parties involved with a complete and accurate record of the information required.

G. The physical examination required by subsection A may be performed and the report of the results signed by a licensed *advanced practice registered* nurse ~~practitioner~~ or physician assistant.

§ 22.1-270. Preschool physical examinations.

A. No pupil shall be admitted for the first time to any public kindergarten or elementary school in a school division unless such pupil shall furnish, prior to admission, (i) a report from a qualified licensed physician, or a licensed *advanced practice registered* nurse ~~practitioner~~ or licensed physician assistant acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope prescribed by the State Health Commissioner performed within the 12 months prior to the date such pupil first enters such public kindergarten or elementary school or (ii) records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.

If the pupil is a homeless child or youth as defined in subdivision A 7 of § 22.1-3, and for that reason cannot furnish the report or records required by (i) or (ii) of this subsection, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free

from any communicable or contagious disease, the school division shall immediately refer the student to the local school division liaison, as described in Subtitle VII-B of the federal McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. § 11431 et seq.) (the Act), who shall, as soon as practicable, assist in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and shall immediately admit the pupil to school, as required by such Act.

B. The physician, or licensed *advanced practice registered* nurse ~~practitioner~~ or licensed physician assistant acting under the supervision of a licensed physician, making a report of a physical examination required by this section shall, at the end of such report, summarize the abnormal physical findings, if any, and shall specifically state what, if any, conditions are found that would identify the child as handicapped.

C. Such physical examination report shall be placed in the child's health record at the school and shall be made available for review by any employee or official of the State Department of Health or any local health department at the request of such employee or official.

D. Such physical examination shall not be required of any child whose parent shall object on religious grounds and who shows no visual evidence of sickness, provided that such parent shall state in writing that, to the best of his knowledge, such child is in good health and free from any communicable or contagious disease.

E. The health departments of all of the counties and cities of the Commonwealth shall conduct such physical examinations for medically indigent children without charge upon request and may provide such examinations to others on such uniform basis as such departments may establish.

F. Parents of entering students shall complete a health information form which shall be distributed by the local school divisions. Such forms shall be developed and provided jointly by the Department of Education and Department of Health, or developed and provided by the school division and approved by the Superintendent of Public Instruction. Such forms shall be returnable within 15 days of receipt unless reasonable extensions have been granted by the superintendent or his designee. Upon failure of the parent to complete such form within the extended time, the superintendent may send to the parent written notice of the date he intends to exclude the child from school; however, no child who is a homeless child or youth as defined in subdivision A 7 of § 22.1-3 shall be excluded from school for such failure to complete such form.

§ 22.1-271.2. Immunization requirements.

A. No student shall be admitted by a school unless at the time of admission the student or his parent submits documentary proof of immunization to the admitting official of the school or unless the student is exempted from immunization pursuant to subsection C or is a homeless child or youth as defined in subdivision A 7 of § 22.1-3. If a student does not have documentary proof of immunization, the school shall notify the student or his parent (i) that it has no documentary proof of immunization for the student; (ii) that it may not admit the student without proof unless the student is exempted pursuant to subsection C, including any homeless child or youth as defined in subdivision A 7 of § 22.1-3; (iii) that the student may be immunized and receive certification by a licensed physician, *a* licensed *advanced practice registered* nurse ~~practitioner~~, *a* registered nurse*,* or an employee of a local health department; and (iv) how to contact the local health department to learn where and when it performs these services. Neither this Commonwealth nor any school or admitting official shall be liable in damages to any person for complying with this section.

Any physician, *advanced practice registered* nurse ~~practitioner~~, registered nurse*,* or local health department employee performing immunizations shall provide to any person who has been immunized or to his parent, upon request, documentary proof of immunizations conforming with the requirements of this section.

B. Any student whose immunizations are incomplete may be admitted conditionally if that student provides documentary proof at the time of enrollment of having received at least one dose of the required immunizations accompanied by a schedule for completion of the required doses within 90 calendar days. If the student requires more than two doses of hepatitis B vaccine, the conditional enrollment period shall be 180 calendar days.

The immunization record of each student admitted conditionally shall be reviewed periodically until the required immunizations have been received.

Any student admitted conditionally and who fails to comply with his schedule for completion of the required immunizations shall be excluded from school until his immunizations are resumed.

C. No certificate of immunization shall be required for the admission to school of any student if (i) the student or his parent submits an affidavit to the admitting official stating that the administration of immunizing agents conflicts with the student's religious tenets or practices; or (ii) the school has written certification from a licensed physician, *a* licensed *advanced practice registered* nurse ~~practitioner~~, or *a* local health department that one or more of the required immunizations may be detrimental to the student's health, indicating the specific nature and probable duration of the medical condition or circumstance that contraindicates immunization.

However, if a student is a homeless child or youth as defined in subdivision A 7 of § 22.1-3 and (a) does not have documentary proof of necessary immunizations or has incomplete immunizations and (b) is not exempted from immunization pursuant to ~~clauses~~ *clause* (i) or (ii) ~~of this subsection~~, the school division shall immediately admit such student and shall immediately refer the student to the local school division liaison, as described in the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001, as amended (42 U.S.C. § 11431 et seq.) (the Act), who shall assist in obtaining the documentary proof of, or completing, immunization and other services required by such Act.

D. The admitting official of a school shall exclude from the school any student for whom he does not have documentary proof of immunization or notice of exemption pursuant to subsection C, including notice that such student is a homeless child or youth as defined in subdivision A 7 of § 22.1-3.

E. Every school shall record each student's immunizations on the school immunization record. The school immunization record shall be a standardized form provided by the State Department of Health, which shall be a part of the mandatory permanent student record. Such record shall be open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record shall be transferred by the school whenever the school transfers any student's permanent academic or scholastic records.

Within 30 calendar days after the beginning of each school year or entrance of a student, each admitting official shall file a report with the local health department. The report shall be filed on forms prepared by the State Department of Health and shall state the number of students admitted to school with documentary proof of immunization, the number of students who have been admitted with a medical or religious exemption and the number of students who have been conditionally admitted, including those students who are homeless children or youths as defined in subdivision A 7 of § 22.1-3.

F. The requirement for Haemophilus Influenzae Type b immunization as provided in § 32.1-46 shall not apply to any child admitted to any grade level, kindergarten through grade 12.

G. The Board of Health shall promulgate rules and regulations for the implementation of this section in congruence with rules and regulations of the Board of Health promulgated under § 32.1-46 and in cooperation with the Board of Education.

§ 22.1-271.4. Health requirements for home-instructed, exempted, and excused children.

In addition to compliance with the requirements of subsection B, D, or I of § 22.1-254 or § 22.1-254.1, any parent, guardian or other person having control or charge of a child being home instructed, exempted or excused from school attendance shall comply with the immunization requirements provided in § 32.1-46 in the same manner and to the same extent as if the child has been enrolled in and is attending school.

Upon request by the division superintendent, the parent shall submit to such division superintendent documentary proof of immunization in compliance with § 32.1-46.

No proof of immunization shall be required of any child upon submission of (i) an affidavit to the division superintendent stating that the administration of immunizing agents conflicts with the parent's or guardian's religious tenets or practices or (ii) a written certification from a licensed physician, licensed *advanced practice registered* nurse ~~practitioner~~, or local health department that one or more of the required immunizations may be detrimental to the child's health, indicating the specific nature of the medical condition or circumstance that contraindicates immunization.

§ 22.1-271.7. Public middle school student-athletes; pre-participation physical examination.

No public middle school student shall be a participant on or try out for any school athletic team or squad with a predetermined roster, regular practices, and scheduled competitions with other middle schools unless such student has submitted to the school principal a signed report from a licensed physician, a licensed *advanced practice registered* nurse ~~practitioner~~ practicing in accordance with the provisions of § 54.1-2957, or a licensed physician assistant acting under the supervision of a licensed physician attesting that such student has been examined, within the preceding 12 months, and found to be physically fit for athletic competition.

Subject to the approval of the appropriate local governing body, a local health department may provide personnel for health services for the school division.

B. In implementing subsection P of § 22.1-253.13:2, relating to providing support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools, each school board may strive to employ, or contract with local health departments for, nursing services consistent with a ratio of at least one nurse per 1,000 students. In those school divisions in which there are more than 1,000 students in average daily membership in school buildings, this section shall not be construed to encourage the employment of more than one nurse per school building. Further, this section shall not be construed to mandate the aspired-to ratios.

C. The Board shall monitor the progress in achieving the ratio set forth in subsection B and any subsequent increase in prevailing statewide costs, and the mechanism for funding health services, pursuant to subsection P of § 22.1-253.13:2 and the appropriation act. The Board shall also determine how school health funds are used and school health services are delivered in each locality.

D. With the exception of school administrative personnel and persons employed by school boards who have the specific duty to deliver health-related services, no licensed instructional employee, instructional aide, or clerical employee shall be disciplined, placed on probation, or dismissed on the basis of such employee's refusal to (i) perform nonemergency health-related services for students or (ii) obtain training in the administration of insulin and glucagon. However, instructional aides and clerical employees may not refuse to dispense oral medications.

For the purposes of this subsection, "health-related services" means those activities that, when performed in a health care facility, must be delivered by or under the supervision of a licensed or certified professional.

E. Each school board shall ensure that in school buildings with an instructional and administrative staff of 10 or more (i) at least three employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (ii) if one or more students diagnosed as having diabetes attend such school, at least two employees have been trained in the administration of insulin and glucagon. In school buildings with an instructional and administrative staff of fewer than 10, school boards shall ensure that (a) at least two employees have current certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator and (b) if one or more students diagnosed as having diabetes attend such school, at least one employee has been trained in the administration of insulin and glucagon. For purposes of this subsection, "employee" includes any person employed by a local health department who is assigned to the public school pursuant to an agreement between the local health department and the school board. When a registered nurse, *advanced practice registered* nurse ~~practitioner~~, physician, or physician assistant is present, no employee who is not a registered nurse, *advanced practice registered* nurse ~~practitioner~~, physician, or physician assistant shall assist with the administration of insulin or administer glucagon. Prescriber authorization and parental consent shall be obtained for any employee who is not a registered nurse, *advanced practice registered* nurse ~~practitioner~~, physician, or physician assistant to assist with the administration of insulin and administer glucagon.

A. Local school boards shall develop and implement policies permitting a student with a diagnosis of asthma or anaphylaxis, or both, to possess and self-administer inhaled asthma medications or auto-injectable epinephrine, or both, as the case may be, during the school day, at school-sponsored activities, or while on a school bus or other school property. Such policies shall include, but not be limited to, provisions for:

1. Written consent of the parent, as defined in § 22.1-1, of a student with a diagnosis of asthma or anaphylaxis, or both, that the student may self-administer inhaled asthma medications or auto-injectable epinephrine, or both, as the case may be.

Written notice from the student's primary care provider or medical specialist, or a licensed physician or licensed *advanced practice registered* nurse ~~practitioner~~, that (i) identifies the student; (ii) states that the student has a diagnosis of asthma or anaphylaxis, or both, and has approval to self-administer inhaled asthma medications or auto-injectable epinephrine, or both, as the case may be, that have been prescribed or authorized for the student; (iii) specifies the name and dosage of the medication, the frequency in which it is to be administered and certain circumstances which may warrant the use of inhaled asthma medications or auto-injectable epinephrine, such as before exercising or engaging in physical activity to prevent the onset of asthma symptoms or to alleviate asthma symptoms after the onset of an asthma episode; and (iv) attests to the student's demonstrated ability to safely and effectively self-administer inhaled asthma medications or auto-injectable epinephrine, or both, as the case may be.

3. Development of an individualized health care plan, including emergency procedures for any life-threatening conditions.

4. Consultation with the student's parent before any limitations or restrictions are imposed upon a student's possession and self-administration of inhaled asthma medications and auto-injectable epinephrine, and before the permission to possess and self-administer inhaled asthma medications and auto-injectable epinephrine at any point during the school year is revoked.

B. The permission granted a student with a diagnosis of asthma or anaphylaxis, or both, to possess and self-administer inhaled asthma medications or auto-injectable epinephrine, or both, shall be effective for one school year. Permission to possess and self-administer such medications shall be renewed annually. For the purposes of this section, "one school year" means 365 calendar days.

C. Local school boards shall adopt and implement policies for the possession and administration of epinephrine in every school, to be administered by any school nurse, employee of the school board, employee of a local governing body, or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine to any student believed to be having an anaphylactic reaction. Such policies shall require that at least one school nurse, employee of the school board, employee of a local governing body, or employee of a local health department who is authorized by a prescriber and trained in the administration of epinephrine has the means to access at all times during regular school hours any such epinephrine that is stored in a locked or otherwise generally inaccessible container or area.

D. Each local school board shall adopt and implement policies for the possession and administration of undesignated stock albuterol inhalers and valved holding chambers in every public school in the local school division, to be administered by any school nurse, employee of the school board, employee of a local governing body, or employee of a local health department who is authorized by the local health director and trained in the administration of albuterol inhalers and valved holding chambers for any student believed in good faith to be in need of such medication.

Such information shall include the name of the hospital at which a certified sexual assault nurse examiner is employed; the location, including street address, of the hospital; and the contact information for the hospital. A link to the information shall be prominently displayed on the Department's website, and such information shall be made available in a format that is easily accessible to and navigable by members of the public.

A. The Commissioner, pursuant to § 54.1-3408, may authorize persons who are not authorized by law to administer or dispense drugs or devices to administer or dispense all necessary drugs or devices in accordance with protocols established by the Commissioner when (i) the Governor has declared a disaster or a state of emergency, the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency, or the Board has made an emergency order pursuant to § 32.1-13 for the purpose of suppressing nuisances dangerous to the public health and communicable, contagious, and infectious diseases and other dangers to the public life and health and for the limited purpose of administering vaccines as an approved countermeasure for such communicable, contagious, and infectious diseases; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or devices under the direction, control, and supervision of the Commissioner. A physician, *a* physician assistant, *an advanced practice registered* nurse ~~practitioner~~, *a* registered nurse, *a* licensed practical nurse, *a* pharmacist, or *a* local health department administering a vaccine required by this section shall provide to the person who presents the child for immunizations a certificate that shall state the diseases for which the child has been immunized, the numbers of doses given, the dates when administered and any further immunizations indicated.

C. The vaccines required by this section shall meet the standards prescribed in, and be administered in accordance with, the State Board of Health Regulations for the Immunization of School Children. The State Board of Health shall amend the State Board of Health Regulations for the Immunization of School Children as necessary from time to time to maintain conformity with evidence-based, routinely recommended vaccinations for children. The adoption of such regulations shall be exempt from the requirements of Article 2 (§ 2.2-4006 et seq.) of the Administrative Process Act (§ 2.2-4000 et seq.). However, the Department shall (i) provide a Notice of Intended Regulatory Action and (ii) provide for a 60-day public comment period prior to the Board's adoption of the regulations.

D. The provisions of this section shall not apply if:

1. The parent or guardian of the child objects thereto on the grounds that the administration of immunizing agents conflicts with his religious tenets or practices, unless an emergency or epidemic of disease has been declared by the Board;

2. The parent or guardian presents a statement from a physician licensed to practice medicine in Virginia, a licensed *advanced practice registered* nurse ~~practitioner~~, or a local health department that states that the physical condition of the child is such that the administration of one or more of the required immunizing agents would be detrimental to the health of the child; or

3. Because the human papillomavirus is not communicable in a school setting, a parent or guardian, at the parent's or guardian's sole discretion, may elect for the parent's or guardian's child not to receive the human papillomavirus vaccine, after having reviewed materials describing the link between the human papillomavirus and cervical cancer approved for such use by the Board.

E. For the purpose of protecting the public health by ensuring that each child receives age-appropriate immunizations, any physician, physician assistant, *advanced practice registered* nurse ~~practitioner~~, licensed institutional health care provider, *or* local or district health department, the Virginia Immunization Information System, and the Department of Health may share immunization and patient locator information without parental authorization, including, but not limited to, the month, day, and year of each administered immunization; the patient's name, address, telephone number, birth date, and social security number; and the parents' names. A. Any local health director may request any person having or reasonably suspected of having active tuberculosis disease to be examined immediately for the purpose of ascertaining the presence or absence of the disease. Such examination may be made by any licensed physician or licensed *advanced practice registered* nurse ~~practitioner~~ selected by such person at his own expense and approved by the local health director or by the local health director at no cost to such person.

B. Each physician or *advanced practice registered* nurse ~~practitioner~~ practicing in the Commonwealth who diagnoses or treats a person for active tuberculosis disease, or a physician assistant who treats a person for active tuberculosis disease, as defined in § 32.1-49.1 and each person in charge of a medical care facility providing inpatient or outpatient diagnosis or treatment for active tuberculosis disease shall report to the local health director within such time period and in such manner as may be prescribed by regulations of the Board. Such report, at a minimum, shall include an initial report when there are reasonable grounds to believe that a person has active tuberculosis disease, and a subsequent report when a person ceases treatment for tuberculosis disease. Cessation of treatment may be inferred when the person (i) fails to keep a scheduled appointment, (ii) relocates without transferring care, or (iii) discontinues care either upon or against the advice of the treating physician, physician assistant, or *advanced practice registered* nurse ~~practitioner~~.

C. The initial disease report shall include the following: the affected person's name; date of birth; gender; address; pertinent clinical, radiographic, microbiologic, and pathologic reports, whether final or pending; such other information as is needed to locate the patient for follow-up; and any other information as prescribed by regulations of the Board.

D. Subsequent reports shall be submitted within such time, at such frequency, and in such manner as may be prescribed by regulations of the Board and shall provide updated clinical status, bacteriologic and radiographic results, assessment of treatment adherence, name of current care provider, and any other information as prescribed by the Board.

E. Every director of any laboratory doing business in the Commonwealth shall, according to the manner and schedule as determined by the Board, report any result diagnostic of or highly correlated with active tuberculosis disease, whether testing is done in-house or referred to an out-of-state laboratory, including cultures positive for tubercle bacilli and smears suggestive of tubercle bacilli, and shall report the results of tests for antimicrobial susceptibility performed on cultures positive for tubercle bacilli. Each director of any laboratory shall also submit a representative and viable sample of the initial culture to the Virginia Division of Consolidated Laboratory Services or other laboratory designated by the Board to receive such specimen in order to (i) ensure testing for antimicrobial susceptibility on each initial isolate from a person with active tuberculosis disease, and (ii) establish a library of such isolates for the purpose of disease strain analysis as indicated by epidemiological investigations.

In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. If the answer to any such question indicates the existence of such condition, the Commissioner shall require an examination of the

applicant by a licensed physician, licensed physician assistant, or licensed *advanced practice registered* nurse ~~practitioner~~ as a prerequisite to the issuance of the driver's license. The report of the examination shall contain a statement that, in the opinion of the physician, physician assistant, or *advanced practice registered* nurse ~~practitioner~~, the applicant's physical or mental condition at the time of the examination does or does not preclude his safe driving of motor vehicles.

G. In the event a physician who is serving as a patient care team physician dies, becomes disabled, retires from active practice, surrenders his license or has it suspended or revoked by the Board, or relocates his practice such that he is no longer able to serve, and ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ is unable to enter into a new practice agreement with another patient care team physician, the *advanced practice registered* nurse ~~practitioner~~ may continue to practice upon notification to the designee or his alternate of the Boards and receipt of such notification. Such *advanced practice registered* nurse ~~practitioner~~ may continue to treat patients without a patient care team physician for an initial period not to exceed 60 days, provided *that* the *advanced practice registered* nurse ~~practitioner~~ continues to prescribe only those drugs previously authorized by the practice agreement with such physician and to have access to appropriate input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. The designee or his alternate of the Boards shall grant permission for the *advanced practice registered* nurse ~~practitioner~~ to continue practice under this subsection for another 60 days, provided *that* the *advanced practice registered* nurse ~~practitioner~~ provides evidence of efforts made to secure another patient care team physician and of access to physician input.

Such written or electronic practice agreements shall include the controlled substances the *advanced practice registered* nurse ~~practitioner~~ is or is not authorized to prescribe and may restrict such prescriptive authority as described in the practice agreement. Evidence of a practice agreement shall be maintained by ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ pursuant to § 54.1-2957. Practice agreements authorizing ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ to prescribe controlled substances or devices pursuant to this section either shall be signed by the patient care team physician, or, if the *advanced practice registered* nurse ~~practitioner~~ is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, a licensed physician, or shall clearly state the name of the patient care team physician, or, if the *advanced practice registered* nurse ~~practitioner~~ is licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist, the name of the licensed physician, who has entered into the practice agreement with the *advanced practice registered* nurse ~~practitioner~~.

B. The Boards of Medicine and Nursing shall jointly adopt regulations for the licensure of licensed certified midwives, which shall include criteria for licensure and renewal of a license as a certified midwife that shall include a requirement that the applicant provide evidence satisfactory to the Boards of current certification as a certified midwife by the American

Midwifery Certification Board and that shall be consistent with the requirements for certification as a certified midwife established by the American Midwifery Certification Board.

The Board shall adopt regulations for the practice of licensed certified midwives, which shall be in accordance with regulations jointly adopted by the Boards of Medicine and Nursing, which shall be consistent with the Standards for the Practice of Midwifery set by the American College of Nurse-Midwives governing the practice of midwifery.

§ 54.1-2970.1. Individual incapable of making informed decision; procedure for physical evidence recovery kit examination; consent by minors.

A. A licensed physician, *a* physician assistant, *an advanced practice registered* nurse ~~practitioner~~, or *a* registered nurse may perform a physical evidence recovery kit examination for a person who is believed to be the victim of a sexual assault and who is incapable of making an informed decision regarding consent to such examination when:

1. There is a need to conduct the examination before the victim is likely to be able to make an informed decision in order to preserve physical evidence of the alleged sexual assault from degradation;

2. No legally authorized representative or other person authorized to consent to medical treatment on the individual's behalf is reasonably available to provide consent within the time necessary to preserve physical evidence of the alleged sexual assault; and

3. A capacity reviewer, as defined in § 54.1-2982, provides written certification that, based upon a personal examination of the individual, the individual is incapable of making an informed decision regarding the physical evidence recovery kit examination and that, given the totality of the circumstances, the examination should be performed. The capacity reviewer who provides such written certification shall not be otherwise currently involved in the treatment of the person assessed, unless an independent capacity reviewer is not reasonably available.

A1. For purposes of this section, if a parent or guardian of a minor refuses to consent to a physical evidence recovery kit examination of the minor, the minor may consent.

B. Any physical evidence recovery kit examination performed pursuant to this section shall be performed in accordance with the requirements of §§ 19.2-11.2 and 19.2-165.1 and shall protect the alleged victim's identity.

C. A licensed physician, *a* physician assistant, *an advanced practice registered* nurse ~~practitioner~~, or *a* registered nurse who exercises due care under the provisions of this act shall not be liable for any act or omission related to performance of an examination in accordance with this section.

§ 54.1-2972. When person deemed medically and legally dead; determination of death; nurses', licensed practical nurses', physician assistants', or advanced practice registered nurses' authority to pronounce death under certain circumstances.

A. As used in this section, "autonomous nurse practitioner" means a nurse practitioner who is authorized to practice without a practice agreement pursuant to subsection I of § 54.1-2957.

B. A person shall be medically and legally dead if:

1. In the opinion of a physician duly authorized to practice medicine in the Commonwealth or autonomous nurse practitioner, based on the ordinary standards of medical practice, there is the absence of spontaneous respiratory and spontaneous cardiac functions and, because of the disease or condition that directly or indirectly caused these functions to cease, or because of the passage of time since these functions ceased, attempts at resuscitation would not, in the opinion of

such physician or autonomous nurse practitioner, be successful in restoring spontaneous life-sustaining functions, and, in such event, death shall be deemed to have occurred at the time these functions ceased; or

2. In the opinion of a physician, who shall be duly licensed to practice medicine in the Commonwealth and board-eligible or board-certified in the field of neurology, neurosurgery, or critical care medicine, when based on the ordinary standards of medical practice, there is irreversible cessation of all functions of the entire brain, including the brain stem, and, in the opinion of such physician, based on the ordinary standards of medical practice and considering the irreversible cessation of all functions of the entire brain, including the brain stem, and the patient's medical record, further attempts at resuscitation or continued supportive maintenance would not be successful in restoring such functions, and, in such event, death shall be deemed to have occurred at the time when all such functions have ceased.

C. A registered nurse, *a* physician assistant, or *an advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner may pronounce death if the following criteria are satisfied: (i) the nurse is employed by or the physician assistant or *advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner works at (a) a home care organization as defined in § 32.1-162.7, (b) a hospice as defined in § 32.1-162.1, (c) a hospital or nursing home as defined in § 32.1-123, including state-operated hospitals for the purposes of this section, (d) the Department of Corrections, or (e) a continuing care retirement community registered with the State Corporation Commission pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2; (ii) the nurse, physician assistant, or *advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner is directly involved in the care of the patient; (iii) the patient's death has occurred; (iv) the patient is under the care of a physician or autonomous nurse practitioner when his death occurs; (v) the patient's death has been anticipated; and (vi) the physician or autonomous nurse practitioner is unable to be present within a reasonable period of time to determine death. A licensed practical nurse may pronounce death for a patient in hospice pursuant to a valid Do Not Resuscitate Order issued in accordance with § 54.1-2987.1. The nurse, licensed practical nurse, physician assistant, or *advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner shall inform the patient's attending and consulting physician or autonomous nurse practitioner of the patient's death as soon as practicable.

The nurse, licensed practical nurse, physician assistant, or *advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner shall have the authority to pronounce death in accordance with such procedural regulations, if any, as may be promulgated by the Board of Medicine; however, if the circumstances of the death are not anticipated or the death requires an investigation by the Office of the Chief Medical Examiner, such nurse, licensed practical nurse, physician assistant, or *advanced practice registered* nurse ~~practitioner~~ shall notify the Office of the Chief Medical Examiner of the death and the body shall not be released to the funeral director.

This subsection shall not authorize a nurse, licensed practical nurse, physician assistant, or *advanced practice registered* nurse ~~practitioner~~ who is not an autonomous nurse practitioner to determine the cause of death. Determination of cause of death shall continue to be the responsibility of the attending physician or autonomous nurse practitioner, except as provided in § 32.1-263. Further, this subsection shall not be construed to impose any obligation to carry out the functions of this subsection.

This subsection shall not relieve any registered nurse, licensed practical nurse, physician assistant, or nurse practitioner who is not an autonomous nurse practitioner from any civil or criminal liability that might otherwise be incurred for failure to follow statutes or Board of Nursing or Board of Medicine regulations.

D. The alternative definitions of death provided in subdivisions B 1 and 2 may be utilized for all purposes in the Commonwealth, including the trial of civil and criminal cases.

§ 54.1-2973.1. Practice of laser hair removal.

The practice of laser hair removal shall be performed by a properly trained person licensed to practice medicine or osteopathic medicine or a physician assistant as authorized pursuant to § 54.1-2952 or ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ as authorized pursuant to § 54.1-2957 or by a properly trained person under the direction and supervision of a licensed doctor of medicine or osteopathic medicine or a physician assistant as authorized pursuant to § 54.1-2952 or ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ as authorized pursuant to § 54.1-2957 who may delegate such practice in accordance with subdivision A 6 of § 54.1-2901.

§ 54.1-2983.2. Capacity; required determinations.

A. Every adult shall be presumed to be capable of making an informed decision unless he is determined to be incapable of making an informed decision in accordance with this article. A determination that a patient is incapable of making an informed decision may apply to a particular health care decision, to a specified set of health care decisions, or to all health care decisions. No person shall be deemed incapable of making an informed decision based solely on a particular clinical diagnosis.

B. Except as provided in subsection C, prior to providing, continuing, withholding, or withdrawing health care pursuant to an authorization that has been obtained or will be sought pursuant to this article and prior to, or as soon as reasonably practicable after initiating health care for which authorization has been obtained or will be sought pursuant to this article, and no less frequently than every 180 days while the need for health care continues, the attending physician shall certify in writing upon personal examination of the patient that the patient is incapable of making an informed decision regarding health care and shall obtain written certification from a capacity reviewer that, based upon a personal examination of the patient, the patient is incapable of making an informed decision. However, certification by a capacity reviewer shall not be required if the patient is unconscious or experiencing a profound impairment of consciousness due to trauma, stroke,

or other acute physiological condition. The capacity reviewer providing written certification that a patient is incapable of making an informed decision, if required, shall not be otherwise currently involved in the treatment of the person assessed, unless an independent capacity reviewer is not reasonably available. The cost of the assessment shall be considered for all purposes a cost of the patient's health care.

C. If a person has executed an advance directive granting an agent the authority to consent to the person's admission to a facility as defined in § 37.2-100 for mental health treatment and if the advance directive so authorizes, the person's agent may exercise such authority after a determination that the person is incapable of making an informed decision regarding such admission has been made by (i) the attending physician, (ii) a psychiatrist or licensed clinical psychologist, (iii) a licensed *advanced practice registered* nurse ~~practitioner~~, (iv) a licensed physician assistant, (v) a licensed clinical social worker, or (vi) a designee of the local community services board as defined in § 37.2-809. Such determination shall be made in writing following an in-person examination of the person and certified by the physician, psychiatrist, licensed clinical psychologist, licensed *advanced practice registered* nurse ~~practitioner~~, licensed physician assistant, licensed clinical social worker, or designee of the local community services board who performed the examination prior to admission or as soon as reasonably practicable thereafter. Admission of a person to a facility as defined in § 37.2-100 for mental health treatment upon the authorization of the person's agent shall be subject to the requirements of § 37.2-805.1. When a person has been admitted to a facility for mental health treatment upon the authorization of an agent following such a determination, such agent may authorize specific health care for the person, consistent with the provisions of the person's advance directive, only upon a determination that the person is incapable of making an informed decision regarding such health care in accordance with subsection B.

D. If, at any time, a patient is determined to be incapable of making an informed decision, the patient shall be notified, as soon as practical and to the extent he is capable of receiving such notice, that such determination has been made before providing, continuing, withholding, or withdrawing health care as authorized by this article. Such notice shall also be provided, as soon as practical, to the patient's agent or person authorized by § 54.1-2986 to make health care decisions on his behalf.

E. A single physician may, at any time, upon personal evaluation, determine that a patient who has previously been determined to be incapable of making an informed decision is now capable of making an informed decision, provided such determination is set forth in writing.

§ 54.1-2986.2. Health care decisions in the event of patient protest.

A. Except as provided in subsection B or C, the provisions of this article shall not authorize providing, continuing, withholding or withdrawing health care if the patient's attending physician knows that such action is protested by the patient.

B. A patient's agent may make a health care decision over the protest of a patient who is incapable of making an informed decision if:

1. The patient's advance directive explicitly authorizes the patient's agent to make the health care decision at issue, even over the patient's later protest, and an attending licensed physician, a licensed clinical psychologist, a licensed physician assistant, a licensed *advanced practice registered* nurse ~~practitioner~~, a licensed professional counselor, or a licensed clinical social worker who is familiar with the patient attested in writing at the time the advance directive was made that the patient was capable of making an informed decision and understood the consequences of the provision;

2. The decision does not involve withholding or withdrawing life-prolonging procedures; and

3. The health care that is to be provided, continued, withheld or withdrawn is determined and documented by the patient's attending physician to be medically appropriate and is otherwise permitted by law.

C. In cases in which a patient has not explicitly authorized his agent to make the health care decision at issue over the patient's later protest, a patient's agent or person authorized to make decisions pursuant to § 54.1-2986 may make a decision over the protest of a patient who is incapable of making an informed decision if:

1. The decision does not involve withholding or withdrawing life-prolonging procedures;

2. The decision does not involve (i) admission to a facility as defined in § 37.2-100 or (ii) treatment or care that is subject to regulations adopted pursuant to § 37.2-400;

3. The health care decision is based, to the extent known, on the patient's religious beliefs and basic values and on any preferences previously expressed by the patient in an advance directive or otherwise regarding such health care or, if they are unknown, is in the patient's best interests;

4. The health care that is to be provided, continued, withheld, or withdrawn has been determined and documented by the patient's attending physician to be medically appropriate and is otherwise permitted by law; and

5. The health care that is to be provided, continued, withheld, or withdrawn has been affirmed and documented as being ethically acceptable by the health care facility's patient care consulting committee, if one exists, or otherwise by two physicians not currently involved in the patient's care or in the determination of the patient's capacity to make health care decisions.

D. A patient's protest shall not revoke the patient's advance directive unless it meets the requirements of § 54.1-2985.

E. If a patient protests the authority of a named agent or any person authorized to make health care decisions by § 54.1-2986, except for the patient's guardian, the protested individual shall have no authority under this article to make health care decisions on his behalf unless the patient's advance directive explicitly confers continuing authority on his agent, even over his later protest. If the protested individual is denied authority under this subsection, authority to make health care

decisions shall be determined by any other provisions of the patient's advance directive, or in accordance with § 54.1-2986 or in accordance with any other provision of law.

A. A pharmacist and his designated alternate pharmacists involved directly in patient care may participate with (i) any person licensed to practice medicine, osteopathy, or podiatry together with any person licensed, registered, or certified by a health regulatory board of the Department of Health Professions who provides health care services to patients of such person licensed to practice medicine, osteopathy, or podiatry; (ii) a physician's office as defined in § 32.1-276.3, provided that such collaborative agreement is signed by each physician participating in the collaborative agreement; (iii) any licensed physician assistant working in accordance with the provisions of § 54.1-2951.1; or (iv) any licensed *advanced practice registered* nurse ~~practitioner~~ working in accordance with the provisions of § 54.1-2957, involved directly in patient care in collaborative agreements which authorize cooperative procedures related to treatment using drug therapy, laboratory tests, or medical devices, under defined conditions or limitations, for the purpose of improving patient outcomes for patients who meet the criteria set forth in the collaborative agreement. However, no person licensed to practice medicine, osteopathy, or podiatry, or licensed as ~~a~~ *an advanced practice registered* nurse ~~practitioner~~ or physician assistant, shall be required to participate in a collaborative agreement with a pharmacist and his designated alternate pharmacists, regardless of whether a professional business entity on behalf of which the person is authorized to act enters into a collaborative agreement with a pharmacist and his designated alternate pharmacists.

B. A patient who meets the criteria for inclusion in the category of patients whose care is subject to a collaborative agreement and who chooses to not participate in a collaborative procedure shall notify the prescriber of his refusal to participate in such collaborative procedure. The Boards of Medicine and Pharmacy shall jointly develop and promulgate regulations to implement the provisions of this section and to facilitate the development and implementation of safe and effective collaborative agreements between the appropriate practitioners and pharmacists. The regulations shall include guidelines concerning the use of protocols, and a procedure to allow for the approval or disapproval of specific protocols by the Boards of Medicine and Pharmacy if review is requested by a practitioner or pharmacist.

E. Nothing in this section shall be construed to supersede the provisions of § 54.1-3303.

§ 54.1-3301. Exceptions.

This chapter shall not be construed to:

1. Interfere with any legally qualified practitioner of dentistry, or veterinary medicine or any physician acting on behalf of the Virginia Department of Health or local health departments, in the compounding of his prescriptions or the purchase and possession of drugs as he may require;

2. Prevent any legally qualified practitioner of dentistry, or veterinary medicine or any prescriber, as defined in § 54.1-3401, acting on behalf of the Virginia Department of Health or local health departments, from administering or supplying to his patients the medicines that he deems proper under the conditions of § 54.1-3303 or from causing drugs to be administered or dispensed pursuant to §§ 32.1-42.1 and 54.1-3408, except that a veterinarian shall only be authorized to dispense a compounded drug, distributed from a pharmacy, when (i) the animal is his own patient, (ii) the animal is a companion animal as defined in regulations promulgated by the Board of Veterinary Medicine, (iii) the quantity dispensed is no more than a seven-day supply, (iv) the compounded drug is for the treatment of an emergency condition, and (v) timely access to a compounding pharmacy is not available, as determined by the prescribing veterinarian;

3. Prohibit the sale by merchants and retail dealers of proprietary medicines as defined in Chapter 34 (§ 54.1-3400 et seq.) of this title;

4. Prevent the operation of automated drug dispensing systems in hospitals pursuant to Chapter 34 (§ 54.1-3400 et seq.) of this title;

5. Prohibit the employment of ancillary personnel to assist a pharmacist as provided in the regulations of the Board;

6. Interfere with any legally qualified practitioner of medicine, osteopathy, or podiatry from purchasing, possessing or administering controlled substances to his own patients or providing controlled substances to his own patients in a bona fide medical emergency or providing manufacturers' professional samples to his own patients;

7. Interfere with any legally qualified practitioner of optometry, certified or licensed to use diagnostic pharmaceutical agents, from purchasing, possessing or administering those controlled substances as specified in § 54.1-3221 or interfere with any legally qualified practitioner of optometry certified to prescribe therapeutic pharmaceutical agents from purchasing, possessing, or administering to his own patients those controlled substances as specified in § 54.1-3222 and the TPA formulary, providing manufacturers' samples of these drugs to his own patients, or dispensing, administering, or selling ophthalmic devices as authorized in § 54.1-3204;

8. Interfere with any physician assistant with prescriptive authority receiving and dispensing to his own patients manufacturers' professional samples of controlled substances and devices that he is authorized, in compliance with the provisions of § 54.1-2952.1, to prescribe according to his practice setting and a written agreement with a physician or podiatrist;

9. The practitioner may dispense such medication at no cost to the patient without holding a license to dispense from the Board of Pharmacy. However, the container in which the drug is dispensed shall be labeled in accordance with the requirements of § 54.1-3410, and, unless directed otherwise by the practitioner or the patient, shall meet standards for special packaging as set forth in § 54.1-3426 and Board of Pharmacy regulations. In lieu of dispensing directly to the patient, a practitioner may transfer the donated drug with a valid prescription to a pharmacy for dispensing to the patient. The practitioner or pharmacy participating in the program shall not use the donated drug for any purpose other than dispensing to the patient for whom it was originally donated, except as authorized by the donating manufacturer for another patient meeting that manufacturer's requirements for the indigent patient program. Neither the practitioner nor the pharmacy shall charge the patient for any medication provided through a manufacturer's indigent patient program pursuant to this subdivision. A participating pharmacy, including a pharmacy participating in bulk donation programs, may charge a

reasonable dispensing or administrative fee to offset the cost of dispensing, not to exceed the actual costs of such dispensing. However, if the patient is unable to pay such fee, the dispensing or administrative fee shall be waived;

11. Interfere with any legally qualified practitioner of medicine or osteopathy from providing controlled substances to his own patients in a free clinic without charge when such controlled substances are donated by an entity other than a pharmaceutical manufacturer as authorized by subdivision 10. The practitioner shall first obtain a controlled substances registration from the Board and shall comply with the labeling and packaging requirements of this chapter and the Board's regulations; or

12. Prevent any pharmacist from providing free health care to an underserved population in Virginia who (i) does not regularly practice pharmacy in Virginia, (ii) holds a current valid license or certificate to practice pharmacy in another state, territory, district or possession of the United States, (iii) volunteers to provide free health care to an underserved area of this Commonwealth under the auspices of a publicly supported all volunteer, nonprofit organization that sponsors the provision of health care to populations of underserved people, (iv) files a copy of the license or certificate issued in such other jurisdiction with the Board, (v) notifies the Board at least five business days prior to the voluntary provision of services of the dates and location of such service, and (vi) acknowledges, in writing, that such licensure exemption shall only be valid, in compliance with the Board's regulations, during the limited period that such free health care is made available through the volunteer, nonprofit organization on the dates and at the location filed with the Board. The Board may deny the right to practice in Virginia to any pharmacist whose license has been previously suspended or revoked, who has been convicted of a felony or who is otherwise found to be in violation of applicable laws or regulations. However, the Board shall allow a pharmacist who meets the above criteria to provide volunteer services without prior notice for a period of up to three days, provided the nonprofit organization verifies that the practitioner has a valid, unrestricted license in another state.

This section shall not be construed as exempting any person from the licensure, registration, permitting and record keeping requirements of this chapter or Chapter 34 of this title.

§ 54.1-3303. Prescriptions to be issued and drugs to be dispensed for medical or therapeutic purposes only.

A. A prescription for a controlled substance may be issued only by a practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine who is authorized to prescribe controlled substances, a licensed *advanced practice registered* nurse ~~practitioner~~ pursuant to § 54.1-2957.01, a licensed certified midwife pursuant to § 54.1-2957.04, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32.

B. A prescription shall be issued only to persons or animals with whom the practitioner has a bona fide practitioner-patient relationship or veterinarian-client-patient relationship. If a practitioner is providing expedited partner therapy consistent with the recommendations of the Centers for Disease Control and Prevention, then a bona fide practitioner-patient relationship shall not be required.

A bona fide practitioner-patient relationship shall exist if the practitioner has (i) obtained or caused to be obtained a medical or drug history of the patient; (ii) provided information to the patient about the benefits and risks of the drug being prescribed; (iii) performed or caused to be performed an appropriate examination of the patient, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically; and (iv) initiated additional interventions and follow-up care, if necessary, especially if a prescribed drug may have serious side effects. Except in cases involving a medical emergency, the examination required pursuant to clause (iii) shall be performed by the practitioner prescribing the controlled substance, a practitioner who practices in the same group as the practitioner prescribing the controlled substance, or a consulting practitioner.

A practitioner who has established a bona fide practitioner-patient relationship with a patient in accordance with the provisions of this subsection may prescribe Schedule II through VI controlled substances to that patient.

A practitioner who has established a bona fide practitioner-patient relationship with a patient in accordance with the provisions of this subsection may prescribe Schedule II through VI controlled substances to that patient via telemedicine if such prescribing is in compliance with federal requirements for the practice of telemedicine and, in the case of the prescribing of a Schedule II through V controlled substance, the prescriber maintains a practice at a physical location in the Commonwealth or is able to make appropriate referral of patients to a licensed practitioner located in the Commonwealth in order to ensure an in-person examination of the patient when required by the standard of care.

A prescriber may establish a bona fide practitioner-patient relationship for the purpose of prescribing Schedule II through VI controlled substances by an examination through face-to-face interactive, two-way, real-time communications services or store-and-forward technologies when all of the following conditions are met: (a) the patient has provided a medical history that is available for review by the prescriber; (b) the prescriber obtains an updated medical history at the time of prescribing; (c) the prescriber makes a diagnosis at the time of prescribing; (d) the prescriber conforms to the standard of care expected of in-person care as appropriate to the patient's age and presenting condition, including when the standard of care requires the use of diagnostic testing and performance of a physical examination, which may be carried out through the use of peripheral devices appropriate to the patient's condition; (e) the prescriber is actively licensed in the Commonwealth and authorized to prescribe; (f) if the patient is a member or enrollee of a health plan or carrier, the prescriber has been credentialed by the health plan or carrier as a participating provider and the diagnosing and prescribing meets the qualifications for reimbursement by the health plan or carrier pursuant to § 38.2-3418.16; (g) upon request, the prescriber provides patient records in a timely manner in accordance with the provisions of § 32.1-127.1:03 and all other state and federal laws and regulations; (h) the establishment of a bona fide practitioner-patient relationship via telemedicine

is consistent with the standard of care, and the standard of care does not require an in-person examination for the purpose of diagnosis; and (i) the establishment of a bona fide practitioner patient relationship via telemedicine is consistent with federal law and regulations and any waiver thereof. Nothing in this paragraph shall apply to (1) a prescriber providing on-call coverage per an agreement with another prescriber or his prescriber's professional entity or employer; (2) a prescriber consulting with another prescriber regarding a patient's care; or (3) orders of prescribers for hospital out-patients or in-patients.

For purposes of this section, a bona fide veterinarian-client-patient relationship is one in which a veterinarian, another veterinarian within the group in which he practices, or a veterinarian with whom he is consulting has assumed the responsibility for making medical judgments regarding the health of and providing medical treatment to an animal as defined in § 3.2-6500, other than an equine as defined in § 3.2-6200, a group of agricultural animals as defined in § 3.2-6500, or bees as defined in § 3.2-4400, and a client who is the owner or other caretaker of the animal, group of agricultural animals, or bees has consented to such treatment and agreed to follow the instructions of the veterinarian. Evidence that a veterinarian has assumed responsibility for making medical judgments regarding the health of and providing medical treatment to an animal, group of agricultural animals, or bees shall include evidence that the veterinarian (A) has sufficient knowledge of the animal, group of agricultural animals, or bees to provide a general or preliminary diagnosis of the medical condition of the animal, group of agricultural animals, or bees; (B) has made an examination of the animal, group of agricultural animals, or bees, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically or has become familiar with the care and keeping of that species of animal or bee on the premises of the client, including other premises within the same operation or production system of the client, through medically appropriate and timely visits to the premises at which the animal, group of agricultural animals, or bees are kept; and (C) is available to provide follow-up care.

C. A prescription shall only be issued for a medicinal or therapeutic purpose in the usual course of treatment or for authorized research. A prescription not issued in the usual course of treatment or for authorized research is not a valid prescription. A practitioner who prescribes any controlled substance with the knowledge that the controlled substance will be used otherwise than for medicinal or therapeutic purposes shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of controlled substances.

D. No prescription shall be filled unless a bona fide practitioner-patient-pharmacist relationship exists. A bona fide practitioner-patient-pharmacist relationship shall exist in cases in which a practitioner prescribes, and a pharmacist dispenses, controlled substances in good faith to a patient for a medicinal or therapeutic purpose within the course of his professional practice.

In cases in which it is not clear to a pharmacist that a bona fide practitioner-patient relationship exists between a prescriber and a patient, a pharmacist shall contact the prescribing practitioner or his agent and verify the identity of the patient and name and quantity of the drug prescribed.

Any person knowingly filling an invalid prescription shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or possession of controlled substances.

E. Notwithstanding any provision of law to the contrary and consistent with recommendations of the Centers for Disease Control and Prevention or the Department of Health, a practitioner may prescribe Schedule VI antibiotics and antiviral agents to other persons in close contact with a diagnosed patient when (i) the practitioner meets all requirements of a bona fide practitioner-patient relationship, as defined in subsection B, with the diagnosed patient and (ii) in the practitioner's professional judgment, the practitioner deems there is urgency to begin treatment to prevent the transmission of a communicable disease. In cases in which the practitioner is an employee of or contracted by the Department of Health or a local health department, the bona fide practitioner-patient relationship with the diagnosed patient, as required by clause (i), shall not be required.

F. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state practitioner of medicine, osteopathy, podiatry, dentistry, optometry, or veterinary medicine, ~~a~~ *an advanced practice registered* nurse ~~practitioner~~, or a physician assistant authorized to issue such prescription if the prescription complies with the requirements of this chapter and the Drug Control Act (§ 54.1-3400 et seq.).

G. A licensed *advanced practice registered* nurse ~~practitioner~~ who is authorized to prescribe controlled substances pursuant to § 54.1-2957.01 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

H. A licensed physician assistant who is authorized to prescribe controlled substances pursuant to § 54.1-2952.1 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

I. A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 may issue prescriptions in good faith or provide manufacturers' professional samples to his patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to (i) analgesics included on Schedule II controlled substances as defined in § 54.1-3448 of the Drug Control Act (§ 54.1-3400 et seq.) consisting of hydrocodone in combination with acetaminophen; (ii) oral analgesics included in Schedules III through VI, as defined in §§ 54.1-3450 and

54.1-3455 of the Drug Control Act (§ 54.1-3400 et seq.), which are appropriate to relieve ocular pain; (iii) other oral Schedule VI controlled substances, as defined in § 54.1-3455 of the Drug Control Act, appropriate to treat diseases and abnormal conditions of the human eye and its adnexa; (iv) topically applied Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act; and (v) intramuscular administration of epinephrine for treatment of emergency cases of anaphylactic shock.

J. The requirement for a bona fide practitioner-patient relationship shall be deemed to be satisfied by a member or committee of a hospital's medical staff when approving a standing order or protocol for the administration of influenza vaccinations and pneumococcal vaccinations in a hospital in compliance with § 32.1-126.4.

K. Notwithstanding any other provision of law, a prescriber may authorize a registered nurse or licensed practical nurse to approve additional refills of a prescribed drug for no more than 90 consecutive days, provided that (i) the drug is classified as a Schedule VI drug; (ii) there are no changes in the prescribed drug, strength, or dosage; (iii) the prescriber has a current written protocol, accessible by the nurse, that identifies the conditions under which the nurse may approve additional refills; and (iv) the nurse documents in the patient's chart any refills authorized for a specific patient pursuant to the protocol and the additional refills are transmitted to a pharmacist in accordance with the allowances for an authorized agent to transmit a prescription orally or by facsimile pursuant to subsection C of § 54.1-3408.01 and regulations of the Board.

§ 54.1-3304.1. Authority to license and regulate practitioners; permits.

A. The Board of Pharmacy shall have the authority to license and regulate the dispensing of controlled substances by practitioners of the healing arts. Except as prescribed in this chapter or by Board regulations, it shall be unlawful for any practitioner of the healing arts to dispense controlled substances within the Commonwealth unless licensed by the Board to sell controlled substances.

B. Facilities from which practitioners of the healing arts dispense controlled substances shall obtain a permit from the Board and comply with the regulations for practitioners of the healing arts to sell controlled substances. Facilities in which only one practitioner of the healing arts is licensed by the Board to sell controlled substances shall be exempt from fees associated with obtaining and renewing such permit.

For the purposes of this section, the COVID-19 virus shall be established by a positive diagnostic test for COVID-19 and signs and symptoms of COVID-19 that require medical treatment, as described in subdivision F 2.

2. COVID-19 causing the death of, or any health condition or impairment resulting in total or partial disability of, any (i) firefighter, as defined in § 65.2-102; (ii) law-enforcement officer, as defined in § 9.1-101; (iii) correctional officer, as defined in § 53.1-1; or (iv) regional jail officer shall be presumed to be an occupational disease, suffered in the line of duty, as applicable, that is covered by this title unless such presumption is overcome by a preponderance of competent evidence to the contrary. For the purposes of this section, the COVID-19 virus shall be established by a positive diagnostic test for COVID-19, an incubation period consistent with COVID-19, and signs and symptoms of COVID-19 that require medical treatment.

C. As used in this section:

"Blood or body fluids" means blood and body fluids containing visible blood and other body fluids to which universal precautions for prevention of occupational transmission of blood-borne pathogens, as established by the Centers for Disease Control, apply. For purposes of potential transmission of hepatitis, meningococcal meningitis, tuberculosis, or HIV the term "blood or body fluids" includes respiratory, salivary, and sinus fluids, including droplets, sputum, saliva, mucous, and any other fluid through which infectious airborne or blood-borne organisms can be transmitted between persons.

E. 1. Whenever any standard, medically-recognized vaccine or other form of immunization or prophylaxis exists for the prevention of a communicable disease for which a presumption is established under this section, if medically indicated by the given circumstances pursuant to immunization policies established by the Advisory Committee on Immunization Practices of the United States Public Health Service, a person subject to the provisions of this section may be required by such person's employer to undergo the immunization or prophylaxis unless the person's physician determines in writing that the immunization or prophylaxis would pose a significant risk to the person's health. Absent such written declaration, failure or refusal by a person subject to the provisions of this section to undergo such immunization or prophylaxis shall disqualify the person from any presumption established by this section.

2. The presumptions described in subdivision B 1 shall not apply to any person offered by such person's employer a vaccine for the prevention of COVID-19 with an Emergency Use Authorization issued by the U.S. Food and Drug Administration, unless the person is immunized or the person's physician determines in writing that the immunization would pose a significant risk to the person's health. Absent such written declaration, failure or refusal by a person subject to the provisions of this section to undergo such immunization shall disqualify the person from the presumptions described in subdivision B 1.

F. 1. The presumptions described in subsection A shall only apply if persons entitled to invoke them have, if requested by the appointing authority or governing body employing them, undergone preemployment physical examinations that (i) were conducted prior to the making of any claims under this title that rely on such presumptions; (ii) were performed by physicians whose qualifications are as prescribed by the appointing authority or governing body employing such persons; (iii) included such appropriate laboratory and other diagnostic studies as the appointing authorities or governing bodies may have prescribed; and (iv) found such persons free of hepatitis, meningococcal meningitis, tuberculosis or HIV at the time of such examinations. The presumptions described in subsection A shall not be effective until six months following such examinations, unless such persons entitled to invoke such presumption can demonstrate a documented exposure during the six-month period.

2. The presumptions described in subdivision B 1 shall apply to any person entitled to invoke them for any death or disability occurring on or after March 12, 2020, caused by infection from the COVID-19 virus, provided that for any such death or disability that occurred on or after March 12, 2020, and prior to December 31, 2022, and;

b. On or after July 1, 2020, and prior to December 31, 2022, the claimant received a positive diagnosis of COVID-19 from a licensed physician, *an advanced practice registered* nurse ~~practitioner~~, or *a* physician assistant after a presumptive positive test or a laboratory-confirmed test for COVID-19 and presented with signs and symptoms of COVID-19 that required medical treatment.

3. The presumptions described in subdivision B 2 shall apply to any person entitled to invoke them for any death or disability occurring on or after July 1, 2020, caused by infection from the COVID-19 virus, provided that for any such death or disability that occurred on or after July 1, 2020, and prior to December 31, 2021, the claimant received a diagnosis of COVID-19 from a licensed physician, after either a presumptive positive test or a laboratory confirmed test for COVID-19, and presented with signs and symptoms of COVID-19 that required medical treatment.

G. Persons making claims under this title who rely on such presumption shall, upon the request of appointing authorities or governing bodies employing such persons, submit to physical examinations (i) conducted by physicians selected by such appointing authorities or governing bodies or their representatives and (ii) consisting of such tests and studies as may reasonably be required by such physicians. However, a qualified physician, selected and compensated by the claimant, may, at the election of such claimant, be present at such examination.

B. The pecuniary liability of the employer for a:

1. Medical, surgical, and hospital service herein required when ordered by the Commission that is provided to an injured person prior to the transition date, regardless of the date of injury, shall be limited absent a contract providing otherwise, to such charges as prevail in the same community for similar treatment when such treatment is paid for by the injured person. As used in this subdivision, "same community" for providers of medical services rendered outside of the Commonwealth shall be deemed to be the principal place of business of the employer if located in the Commonwealth or, if no such location exists, the location where the Commission hearing regarding the dispute is conducted;

2. Fee scheduled medical service provided on or after the transition date, regardless of the date of injury, shall be limited to:

a. The amount provided for the payment for the fee scheduled medical service as set forth in a contract under which the provider has agreed to accept a specified amount in payment for the service provided, which amount may be less than or exceed the maximum amount for the service as set forth in the applicable Virginia fee schedule;

b. In the absence of a contract described in subdivision 2 a, the lesser of the billing amount or the amount for the fee scheduled medical service as set forth in the applicable Virginia fee schedule that is in effect on the date the service is provided, subject to an increase approved by the Commission pursuant to subsection H; or

c. In the absence of (i) a contract described in subdivision 2 a and (ii) a provision in a Virginia fee schedule that sets forth a maximum amount for the medical service on the date it is provided, the maximum amount determined by the Commission as provided in subsection E; and

3. Medical service provided on or after the transition date for the treatment of a traumatic injury or serious burn, regardless of the date of injury, shall be limited to:

a. The amount provided for the payment for the medical service provided for the treatment of the traumatic injury or serious burn as set forth in a contract under which the provider has agreed to accept a specified amount in payment for the service provided, which amount may be less than or exceed the maximum amount for the service calculated pursuant to subdivision 3 b; or

b. In the absence of a contract described in subdivision 3 a, an amount equal to 80 percent of the provider's charge for the service based on the provider's charge master or schedule of fees; however, if the compensability under this title of a claim for traumatic injury or serious burn is contested and after a hearing on the claim on its merits or after abandonment of a defense by the employer or insurance carrier, benefits for medical services are awarded and inure to the benefit of a third-party insurance carrier or health care provider and the Commission awards to the claimant's attorney a fee pursuant to subsection B of § 65.2-714, then the pecuniary liability of the employer for the service provided shall be limited to 100 percent of the provider's charge for the service based on the provider's charge master or schedule of fees.

C. The Commission shall adopt regulations establishing initial Virginia fee schedules for fee scheduled medical services as follows:

1. The Commission's regulations that establish the initial Virginia fee schedules shall be effective on January 1, 2018.

2. Separate initial Virginia fee schedules shall be established for fee scheduled medical services (i) provided by each category of providers of fee scheduled medical services and (ii) within each of the medical communities to reflect the variations among the medical communities as provided in subdivision 3, for each category of providers of fee scheduled medical services.

3. The Virginia fee schedules for each medical community shall reflect variations among medical communities in (i) all reimbursements and other amounts paid to providers for fee scheduled medical services among the medical communities and (ii) the extent to which the number of providers within the various medical communities is adequate to meet the needs of injured workers.

4. In establishing the initial Virginia fee schedules for fee scheduled medical services, the Commission shall establish the maximum fee for each fee scheduled medical service at a level that approximates the reimbursement objective for each category of providers of fee scheduled medical services among the medical communities. The Commission shall retain a

firm with nationwide experience and actuarial expertise in the development of workers' compensation fee schedules to assist the Commission in establishing the initial Virginia fee schedules. The Commission shall consult with the regulatory advisory panel established pursuant to subdivision F 2 prior to retaining such firm. Such firm shall be retained to assist the Commission in developing the Virginia fee schedules by recommending a methodology that will provide, at reasonable cost to the Commission, statistically valid estimates of the reimbursement objective for fee scheduled medical services within the medical communities, based on available data or, if the necessary data is not available, by recommending the optimal methodology for obtaining the necessary data. The Commission shall consult with the regulatory advisory panel prior to adopting any such methodology. Such methodology may, but is not required to, be based on applicable codes. The estimates of the reimbursement objective for fee scheduled medical services shall be derived from data on all reimbursements and other amounts paid to providers for fee scheduled medical services provided pursuant to this title during 2014 and 2015, to the extent available.

D. The Commission shall review Virginia fee schedules during the year that follows the transition date and biennially thereafter and, if necessary, adjust the Virginia fee schedules in order to address (i) inflation or deflation as reflected in the medical care component of the Consumer Price Index for All Urban Consumers (CPI-U) for the South as published by the Bureau of Labor Statistics of the U.S. Department of Labor; (ii) access to fee scheduled medical services; (iii) errors in calculations made in preparing the Virginia fee schedules; and (iv) incentives for providers. The Commission shall not adjust a Virginia fee schedule in a manner that reduces fees on an existing schedule unless such a reduction is based on deflation or a finding by the Commission that advances in technology or errors in calculations made in preparing the Virginia fee schedules justify a reduction in fees.

E. The maximum pecuniary liability of the employer for a fee scheduled medical service that is not included in a Virginia fee schedule when it is provided shall be determined by the Commission. The Commission's determination of the employer's maximum pecuniary liability for such fee scheduled medical service shall be effective until the Commission sets a maximum fee for the fee scheduled medical service and incorporates such maximum fee into an adjusted Virginia fee schedule adopted pursuant to subsection D. If the fee scheduled medical service is not included in a Virginia fee schedule because it is:

1. A new type of technology, the employer's maximum pecuniary liability shall not exceed 130 percent of the provider's invoiced cost for such device, as evidenced by a copy of the invoice. If the new type of technology has not been cleared or approved by the FDA prior to such date, then the provider shall not be entitled to payment or reimbursement therefor unless the employer or its insurer agree; or

2. A new type of procedure that has not been assigned a billing code, the employer's maximum pecuniary liability shall not exceed 80 percent of the provider's charge for the service based on the provider's charge master or schedule of fees, provided the employer and the provider mutually agree to the provision of such procedure.

F. The Commission shall:

1. Provide public access to information regarding the Virginia fee schedules for medical services, by categories of providers of fee scheduled medical services and for each medical community, through the Commission's website. No information provided on the website shall be provider-specific or disclose or release the identity of any provider; and

2. Utilize a 10-member regulatory advisory panel to assist in the development of regulations adopting initial Virginia fee schedules pursuant to subsection C, in adjusting initial Virginia fee schedules pursuant to subsection D, and on all matters involving or related to the fee schedule as deemed necessary by the Commission. One member of the regulatory advisory panel shall be selected by the Commission from each of the following: (i) the American Insurance Association; (ii) the Property and Casualty Insurers Association of America; (iii) the Virginia Self-Insurers Association, Inc.; (iv) the Medical Society of Virginia; (v) the Virginia Hospital and Healthcare Association; (vi) a Type One teaching hospital; (vii) the Virginia Orthopaedic Society; (viii) the Virginia Trial Lawyers Association; (ix) a group self-insurance association representing employers; and (x) a local government group self-insurance pool formed under Chapter 27 (§ 15.2-2700 et seq.) of Title 15.2. The Commission shall meet with the regulatory advisory panel and consider the recommendations of its members in its development of the Virginia fee schedules pursuant to subsections C and D.

G. The Commission's retaining of a firm with nationwide experience and actuarial expertise in the development of workers' compensation fee schedules to assist the Commission in developing the Virginia fee schedules pursuant to subsections C and D shall be exempt from the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.), provided the Commission shall issue a request for proposals that requires submission by a bidder of evidence that it satisfies the conditions for eligibility established in this subsection and in subdivision C 4. Records and information relating to payments or reimbursements to providers that is obtained by or furnished to the Commission by such firm or any other person shall (i) be for the exclusive use of the Commission in the course of the Commission's development of fee schedules and related regulations and (ii) shall remain confidential and shall not be subject to the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

H. When the total charges of a hospital or Type One teaching hospital, based on such provider's charge master, for inpatient hospital services covered by a DRG code exceed the charge outlier threshold, then the Commission shall establish the maximum fee for such scheduled inpatient hospital services at an amount equal to the total of (i) the maximum fee for the service as set forth in the applicable fee schedule and (ii) initially equal to 80 percent of the provider's total charges for the service in excess of the charge outlier threshold. The charge outlier threshold for such services initially shall equal 300 percent of the maximum fee for the service set forth in the applicable fee schedule; however, the Commission, in

consultation with the firm retained pursuant to subdivision C 4, is authorized on a biennial basis to adjust such percentage if it finds that the number of such claims for which the total charges of the hospital or Type One teaching hospital exceed the charge outlier threshold is less than five percent or to increase such percentage if such number is greater than 10 percent of all such claims.

I. No provider shall use a different charge master or schedule of fees for any medical service provided under this title than the provider uses for health care services provided to patients who are not claimants under this title.

J. The employer shall not be liable in damages for malpractice by a physician or surgeon furnished by him pursuant to the provisions of § 65.2-603, but the consequences of any such malpractice shall be deemed part of the injury resulting from the accident and shall be compensated for as such.

K. The Commission shall determine the number and geographic area of communities across the Commonwealth. In establishing the communities, the Commission shall consider the ability to obtain relevant data based on geographic area and such other criteria as are consistent with the purposes of this title. The Commission shall use the communities established pursuant to this subsection in determining charges that prevail in the same community for treatment provided prior to the transition date.

L. The pecuniary liability of the employer for treatment of a medical service that is rendered on or after July 1, 2014, by:

1. ~~A~~ *An advanced practice registered* nurse ~~practitioner~~ or physician assistant serving as an assistant-at-surgery shall be limited to no more than 20 percent of the reimbursement due to the physician performing the surgery; and

2. An assistant surgeon in the same specialty as the primary surgeon shall be limited to no more than 50 percent of the reimbursement due to the primary physician performing the surgery.

M. Multiple procedures completed on a single surgical site associated with a medical service rendered on or after July 1, 2014, shall be coded and billed with appropriate CPT codes and modifiers and paid according to the National Correct Coding Initiative rules and the CPT codes as in effect at the time the health care was provided to the claimant.

N. The CPT code and National Correct Coding Initiative rules, as in effect at the time a medical service was provided to the claimant, shall serve as the basis for processing a health care provider's billing form or itemization for such items as global and comprehensive billing and the unbundling of medical services. Hospital in-patient medical services shall be coded and billed through the International Statistical Classification of Diseases and Related Health Problems as in effect at the time the medical service was provided to the claimant.

CHAPTER 184

An Act to amend and reenact § 32.1-330 of the Code of Virginia, relating to long-term services and supports screening; screening after admission; coverage of institutional long-term services and supports.

[H 1681]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-330 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-330. Long-term services and supports screening required.

A. As used in this section, "acute care hospital" includes an acute care hospital, a rehabilitation hospital, a rehabilitation unit in an acute care hospital, or a psychiatric unit in an acute care hospital.

B. Every individual who applies for or requests community or institutional long-term services and supports as defined in the state plan for medical assistance services may choose to receive services in a community or institutional setting. Every individual who applies for or requests community or institutional long-term services and supports shall be afforded the opportunity to choose the setting and provider of long-term services and supports.

C. Every individual who applies for or requests community or institutional long-term services and supports shall be screened prior to admission to such community or institutional long-term services and supports to determine his need for long-term services and supports, including nursing facility services as defined in the state plan for medical assistance services. The type of long-term services and supports screening performed shall not limit the long-term services and supports settings or providers for which the individual is eligible.

D. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is residing in a community setting at the time of such application or request, the screening for long-term services and supports required pursuant to subsection C shall be completed by a long-term services and supports screening team that includes a nurse, social worker or other assessor designated by the Department who is an employee of the Department of Health or the local department of social services and a physician who is employed or engaged by the Department of Health.

E. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is receiving inpatient services in an acute care hospital at the time of such application or request and will begin receiving long-term services and supports as defined in the state plan for medical assistance services pursuant to a discharge order from an acute care hospital, the screening for long-term services and supports required pursuant to subsection C shall be completed by the acute care hospital in accordance with the screening requirements established by the Department.

F. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is receiving skilled nursing services that are not covered by the Commonwealth's program of medical assistance services in an institutional setting following discharge from an acute care hospital, the Department shall require qualified staff of the skilled nursing institution to conduct the long-term services and supports screening in accordance with the requirements established by the Department, with the results certified by a physician prior to the initiation of long-term services and supports under the state plan for medical assistance services.

G. *If an individual is admitted to a skilled nursing facility for skilled nursing services and such individual was not screened but is subsequently determined to have been required to be screened prior to admission to the skilled nursing facility, then the qualified staff designated in subsection F may conduct a screening after admission. Coverage of institutional long-term services and supports under this subsection by the Commonwealth's program of medical assistance services indicated by the screening shall not begin until six months after the initial admission to the skilled nursing facility. During this six-month period, the nursing home in which the individual resides shall be responsible for all costs indicated for institutional long-term services and supports that would otherwise have been covered by the Commonwealth's program of medical assistance services, without accessing patient funds. Six months after the date of admission to the skilled nursing facility, and as indicated through the eligibility determination, the Commonwealth's program of medical assistance services shall assume coverage of such services. To the extent that sufficient evidence is provided to indicate that the admission without screening was of no fault of the skilled nursing facility, the Department shall begin coverage of institutional long-term services and supports under this subsection by the Commonwealth's program of medical assistance services immediately upon the completion of the functional screening indicating nursing facility level of care pending the financial eligibility determination.*

H. In any jurisdiction in which a long-term services and supports screening team described in subsection D or E has failed or is unable to perform the long-term services and supports screenings required by subsection D or E within 30 days of receipt of the individual's application or request for long-term services and supports under the state plan, the Department shall enter into contracts with other public or private entities to conduct such long-term services and supports screenings in addition to or in lieu of the long-term services and supports screening teams described in subsections D and E.

~~H.~~ *I.* The Department shall require all individuals who perform long-term services and supports screenings pursuant to this section to receive training on and be certified in the use of the long-term services and supports screening tool for eligibility for community or institutional long-term services and supports provided in accordance with the state plan for medical assistance services prior to conducting such long-term services and supports screenings.

~~I.~~ *J.* The Department shall report annually by August 1 to the Governor and the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health regarding (i) the number of long-term services and supports screenings for eligibility for community and institutional long-term services and supports conducted pursuant to this section and (ii) the number of cases in which the Department or the public or private entity with which the Department has entered into a contract to conduct such long-term services and supports screenings fails to complete such long-term services and supports screenings within 30 days.

2. That the Department of Medical Assistance Services shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

The type of long-term services and supports screening performed shall not limit the long-term services and supports settings or providers for which the individual is eligible.

D. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is residing in a community setting at the time of such application or request, the screening for long-term

services and supports required pursuant to subsection C shall be completed by a long-term services and supports screening team that includes a nurse, social worker or other assessor designated by the Department who is an employee of the Department of Health or the local department of social services and a physician who is employed or engaged by the Department of Health.

E. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is receiving inpatient services in an acute care hospital at the time of such application or request and will begin receiving long-term services and supports as defined in the state plan for medical assistance services pursuant to a discharge order from an acute care hospital, the screening for long-term services and supports required pursuant to subsection C shall be completed by the acute care hospital in accordance with the screening requirements established by the Department.

F. If an individual who applies for or requests long-term services and supports as defined in the state plan for medical assistance services is receiving skilled nursing services that are not covered by the Commonwealth's program of medical assistance services in an institutional setting following discharge from an acute care hospital, the Department shall require qualified staff of the skilled nursing institution to conduct the long-term services and supports screening in accordance with the requirements established by the Department, with the results certified by a physician prior to the initiation of long-term services and supports under the state plan for medical assistance services.

G. *If an individual is admitted to a skilled nursing facility for skilled nursing services and such individual was not screened but is subsequently determined to have been required to be screened prior to admission to the skilled nursing facility, then the qualified staff designated in subsection F may conduct a screening after admission. Coverage of institutional long-term services and supports under this subsection by the Commonwealth's program of medical assistance services indicated by the screening shall not begin until six months after the initial admission to the skilled nursing facility. During this six-month period, the nursing home in which the individual resides shall be responsible for all costs indicated for institutional long-term services and supports that would otherwise have been covered by the Commonwealth's program of medical assistance services, without accessing patient funds. Six months after the date of admission to the skilled nursing facility, and as indicated through the eligibility determination, the Commonwealth's program of medical assistance services shall assume coverage of such services. To the extent that sufficient evidence is provided to indicate that the admission without screening was of no fault of the skilled nursing facility, the Department shall begin coverage of institutional long-term services and supports under this subsection by the Commonwealth's program of medical assistance services immediately upon the completion of the functional screening indicating nursing facility level of care pending the financial eligibility determination.*

H. In any jurisdiction in which a long-term services and supports screening team described in subsection D or E has failed or is unable to perform the long-term services and supports screenings required by subsection D or E within 30 days of receipt of the individual's application or request for long-term services and supports under the state plan, the Department shall enter into contracts with other public or private entities to conduct such long-term services and supports screenings in addition to or in lieu of the long-term services and supports screening teams described in subsections D and E.

~~H.~~ *I.* The Department shall require all individuals who perform long-term services and supports screenings pursuant to this section to receive training on and be certified in the use of the long-term services and supports screening tool for eligibility for community or institutional long-term services and supports provided in accordance with the state plan for medical assistance services prior to conducting such long-term services and supports screenings.

~~I.~~ *J.* The Department shall report annually by August 1 to the Governor and the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health regarding (i) the number of long-term services and supports screenings for eligibility for community and institutional long-term services and supports conducted pursuant to this section and (ii) the number of cases in which the Department or the public or private entity with which the Department has entered into a contract to conduct such long-term services and supports screenings fails to complete such long-term services and supports screenings within 30 days.

2. That the Department of Medical Assistance Services shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

Such benefits shall be in parity with the medical and surgical benefits contained in the coverage in accordance with the federal Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA), P.L. 110-343, even where those requirements would not otherwise apply directly. *Coverage required under this subsection shall include mobile crisis response services and support and stabilization services provided in a residential crisis stabilization unit to the extent that such services are covered in other settings or modalities, regardless of any difference in billing codes.*

C. Any grandfathered plan as defined in § 38.2-3438 in the small group market shall either continue to provide benefits in accordance with subsection B or continue to provide coverage for inpatient and partial hospitalization mental health and substance abuse services as follows:

1. Treatment for an adult as an inpatient at a hospital, inpatient unit of a mental health treatment center, alcohol or drug rehabilitation facility or intermediate care facility for a minimum period of 20 days per policy or contract year.

Up to 10 days of the inpatient benefit set forth in subdivisions 1 and 2 of this subsection may be converted when medically necessary at the option of the person or the parent, as defined in § 16.1-336, of a child or adolescent receiving such treatment to a partial hospitalization benefit applying a formula which shall be no less favorable than an exchange of 1.5 days of partial hospitalization coverage for each inpatient day of coverage. An insurance policy or subscription contract described herein that provides inpatient benefits in excess of 20 days per policy or contract year for adults or 25 days per policy or contract year for a child or adolescent may provide for the conversion of such excess days on the terms set forth in this subdivision.

4. The limits of the benefits set forth in this subsection shall not be more restrictive than for any other illness, except that the benefits may be limited as set out in this subsection.

5. This subsection shall not apply to any excepted benefits policy as defined in § 38.2-3431, nor to policies or contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans.

D. Any grandfathered plan as defined in § 38.2-3438 in the small group market shall also either continue to provide benefits in accordance with subsection B or continue to provide coverage for outpatient mental health and substance abuse services as follows:

1. A minimum of 20 visits for outpatient treatment of an adult, child or adolescent shall be provided in each policy or contract year.

2. The limits of the benefits set forth in this subsection shall be no more restrictive than the limits of benefits applicable to physical illness; however, the coinsurance factor applicable to any outpatient visit beyond the first five of such visits covered in any policy or contract year shall be at least 50 percent.

3. For the purpose of this section, medication management visits shall be covered in the same manner as a medication management visit for the treatment of physical illness and shall not be counted as an outpatient treatment visit in the calculation of the benefit set forth herein.

4. For the purpose of this subsection, if all covered expenses for a visit for outpatient mental health or substance abuse treatment apply toward any deductible required by a policy or contract, such visit shall not count toward the outpatient visit benefit maximum set forth in the policy or contract.

5. This subsection shall not apply to any excepted benefits policy as defined in § 38.2-3431, nor to policies or contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans.

E. The requirements of this section shall apply to all insurance policies and subscription contracts delivered, issued for delivery, reissued, renewed, or extended, or at any time when any term of the policy or contract is changed or any premium adjustment made.

F. The provisions of this section shall not apply in any instance in which the provisions of this section are inconsistent or in conflict with a provision of Article 6 (§ 38.2-3438 et seq.) of Chapter 34.

G. The Bureau of Insurance, in consultation with health carriers providing coverage for mental health and substance use disorder benefits pursuant to this section, shall develop reporting requirements regarding denied claims, complaints, appeals, and network adequacy involving such coverage set forth in this section. By November 1 of each year, the Bureau shall compile the information for the preceding year into a report that ensures the confidentiality of individuals whose information has been reported and is written in nontechnical, readily understandable language. The Bureau shall include in the report a summary of all comparative analyses prepared by health carriers pursuant to 42 U.S.C. § 300gg-26(a)(8) that the Bureau requested during the reporting period. This summary shall include the Bureau's explanation of whether the analyses were accepted as compliant, rejected as noncompliant, or are in process of review. For analyses that were noncompliant, the report shall include the corrective actions that the Bureau required the health carrier to take to come into compliance. The Bureau shall make the report available to the public by, among such other means as the Bureau finds appropriate, posting the reports on the Bureau's website and submit the report to the House Committee on Commerce and Energy and the Senate Committee on Commerce and Labor.

2. That the provisions of this act shall apply to all insurance policies, subscription contracts, and health care plans delivered, issued for delivery, reissued, or extended in the Commonwealth on and after January 1, 2024, or at any time thereafter when any term of the policy, contract, or plan is changed or any premium adjustment is made.

3. That the State Corporation Commission (the Commission), in consultation with the Secretary of Health and Human Resources, shall convene a work group, including the Commissioner of Behavioral Health and Developmental Services or his designee, representatives from the Virginia Association of Community Services Boards, the Virginia Association of Community-Based Providers, and the Virginia Association of Health Plans, and

other stakeholders as determined by the Commission to examine network standards for mobile crisis response services and the current availability of mobile crisis response services in the Commonwealth. The work group shall make recommendations regarding (i) the definition and standards of care for mobile crisis response services and short-term residential crisis stabilization services as they apply to the commercial insurance market, including balance billing protections; (ii) the licensure or accreditation required for such services in the Commonwealth; and (iii) how cost-sharing and deductibles will be addressed as part of accessing such services for commercially insured individuals. The Commission shall report the findings of the work group to the Health Insurance Reform Commission and the Governor no later than September 1, 2023.

To promulgate regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) that are reasonable and necessary to administer effectively the regulatory system, which shall include provisions for the satisfaction of board-required continuing education for individuals registered, certified, licensed, or issued a multistate licensure privilege by a health regulatory board through delivery of health care services, without compensation, to low-income individuals receiving health services through a local health department or a free clinic organized in whole or primarily for the delivery of those health services. Such regulations shall not conflict with the purposes and intent of this chapter or of Chapter 1 (§ 54.1-100 et seq.) and Chapter 25 (§ 54.1-2500 et seq.).

7. To revoke, suspend, restrict, or refuse to issue or renew a registration, certificate, license, permit, or multistate licensure privilege which such board has authority to issue for causes enumerated in applicable law and regulations.

8. To appoint designees from their membership or immediate staff to coordinate with the Director and the Health Practitioners' Monitoring Program Committee and to implement, as is necessary, the provisions of Chapter 25.1 (§ 54.1-2515 et seq.). Each health regulatory board shall appoint one such designee.

9. To take appropriate disciplinary action for violations of applicable law and regulations, and to accept, in their discretion, the surrender of a license, certificate, registration, permit, or multistate licensure privilege in lieu of disciplinary action.

10. To appoint a special conference committee, composed of not less than two members of a health regulatory board or, when required for special conference committees of the Board of Medicine, not less than two members of the Board and one member of the relevant advisory board, or, when required for special conference committees of the Board of Nursing, not less than one member of the Board and one member of the relevant advisory board, to act in accordance with § 2.2-4019 upon receipt of information that a practitioner or permit holder of the appropriate board may be subject to disciplinary action or to consider an application for a license, certification, registration, permit or multistate licensure privilege in nursing. The special conference committee may (i) exonerate; (ii) reinstate; (iii) place the practitioner or permit holder on probation with such terms as it may deem appropriate; (iv) reprimand; (v) modify a previous order; (vi) impose a monetary penalty pursuant to § 54.1-2401, (vii) deny or grant an application for licensure, certification, registration, permit, or multistate licensure privilege; and (viii) issue a restricted license, certification, registration, permit or multistate licensure privilege subject to terms and conditions. The order of the special conference committee shall become final 30 days after service of the order unless a written request to the board for a hearing is received within such time. If service of the decision to a party is accomplished by mail, three days shall be added to the 30-day period. Upon receiving a timely written request for a hearing, the board or a panel of the board shall then proceed with a hearing as provided in § 2.2-4020, and the action of the committee shall be vacated. This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings in accordance with § 2.2-4019~~, upon receipt of information that a practitioner may be subject to a disciplinary action~~. The recommendation of such subordinate may be considered by a panel consisting of at least five board members, or, if a quorum of the board is less than five members, consisting of a quorum of the members, convened for the purpose of issuing a case decision. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board.

11. To convene, at their discretion, a panel consisting of at least five board members or, if a quorum of the board is less than five members, consisting of a quorum of the members to conduct formal proceedings pursuant to § 2.2-4020, decide the case, and issue a final agency case decision. Any decision rendered by majority vote of such panel shall have the same effect as if made by the full board and shall be subject to court review in accordance with the Administrative Process Act. No member who participates in an informal proceeding conducted in accordance with § 2.2-4019 shall serve on a panel conducting formal proceedings pursuant to § 2.2-4020 to consider the same matter.

12. To issue inactive licenses or certificates and promulgate regulations to carry out such purpose. Such regulations shall include, but not be limited to, the qualifications, renewal fees, and conditions for reactivation of licenses or certificates.

13. To meet by telephone conference call to consider settlement proposals in matters pending before special conference committees convened pursuant to this section, or matters referred for formal proceedings pursuant to § 2.2-4020 to a health regulatory board or a panel of the board or to consider modifications of previously issued board orders when such considerations have been requested by either of the parties.

14. To request and accept from a certified, registered, or licensed practitioner; a facility holding a license, certification, registration, or permit; or a person holding a multistate licensure privilege to practice nursing, in lieu of disciplinary action, a confidential consent agreement. A confidential consent agreement shall be subject to the confidentiality provisions of § 54.1-2400.2 and shall not be disclosed by a practitioner or facility. A confidential consent agreement shall include findings of fact and may include an admission or a finding of a violation. A confidential consent agreement shall not be considered either a notice or order of any health regulatory board, but it may be considered by a board in future disciplinary proceedings. A confidential consent agreement shall be entered into only in cases involving minor misconduct where there is little or no injury to a patient or the public and little likelihood of repetition by the practitioner or facility. A board shall not enter into a confidential consent agreement if there is probable cause to believe the practitioner or facility has (i) demonstrated gross negligence or intentional misconduct in the care of patients or (ii) conducted his practice in such a manner as to be a danger to the health and welfare of his patients or the public. A certified, registered, or licensed practitioner, a facility holding a license, certification, registration, or permit, or a person holding a multistate licensure privilege to practice nursing who has entered into two confidential consent agreements involving a standard of care violation, within the 10-year period immediately preceding a board's receipt of the most recent report or complaint being considered, shall receive public discipline for any subsequent violation within the 10-year period unless the board finds there are sufficient facts and circumstances to rebut the presumption that the disciplinary action be made public.

15. When a board has probable cause to believe a practitioner is unable to practice with reasonable skill and safety to patients because of excessive use of alcohol or drugs or physical or mental illness, the board, after preliminary investigation by an informal fact-finding proceeding, may direct that the practitioner submit to a mental or physical examination. Failure to submit to the examination shall constitute grounds for disciplinary action. Any practitioner affected by this subsection shall be afforded reasonable opportunity to demonstrate that he is competent to practice with reasonable skill and safety to

patients. For the purposes of this subdivision, "practitioner" shall include any person holding a multistate licensure privilege to practice nursing.

"Coastal primary sand dune" or "dune" means a mound of unconsolidated sandy soil ~~which~~ *that* is contiguous to mean high water, whose landward and lateral limits are marked by a change in grade from ~~ten~~ *10* percent or greater to less than ~~ten~~ *10* percent, and upon which is growing any of the following species: American beach grass (Ammophila breviligulata);

[H 2401]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3713 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3713. Local gas road improvement and Virginia Coalfield Economic Development Authority tax.

A. In addition to the taxes authorized under § 58.1-3712, any county or city may adopt a license tax on every person engaging in the business of severing gases from the earth. The rate of such tax shall not exceed one percent. The provisions of § 58.1-3712 as they relate to measurement of gross receipts, filing of reports and record keeping shall be applicable to the tax imposed under this section.

The moneys collected for each county or city from the taxes imposed under authority of this section and subsection B of § 58.1-3741 shall be paid into a special fund of such county or city to be called the Coal and Gas Road Improvement Fund of such county or city, and shall be spent for such improvements to public roads as the coal and gas road improvement advisory committee and the governing body of such county or city may determine as provided in subsection B of this section. The county may also, in its discretion, elect to improve city or town roads with its funds if consent of the city or town council is obtained. Such funds shall be in addition to those allocated to such counties from state highway funds which allocations shall not be reduced as a result of any revenues received from the tax imposed hereunder. In those localities that comprise the Virginia Coalfield Economic Development Authority, the tax imposed under this section or subsection B of § 58.1-3741 shall be paid as follows: (i) three-fourths of the revenue shall be paid to the Coal and Gas Road Improvement Fund and used for the purposes set forth herein; however, one-fourth of such revenue may be used to fund the construction of new water or sewer systems and lines and the repair or enhancement of existing water or sewer systems and lines in areas with natural water supplies that are insufficient from the standpoint of quality or quantity, or the construction of natural gas service lines as authorized by § 15.2-2109.3, and (ii) one-fourth of the revenue shall be paid to the Virginia Coalfield Economic Development Fund. Furthermore, with regard to the portion paid to the Coal and Gas Road Improvement Fund, a county or city may provide for an additional one-fourth allocation for the construction of new systems or lines for water, sewer, or natural gas as authorized by § 15.2-2109.3, or the repair or enhancement of existing water, sewer, or natural gas systems or lines in areas with natural water supplies or existing natural gas services that are insufficient from the standpoint of quality or quantity; however, if this option is initiated by a county or city, it must satisfy the requirements set forth in § 58.1-3713.01. Notwithstanding the foregoing limitations regarding revenues used for water systems, sewer systems, or natural gas systems, such revenues designated for water and water systems, sewer systems, or natural gas systems shall be distributed directly to the local public service authority for such purposes instead of the local governing body. Funds in the Coal and Gas Road Improvement Fund used to construct, repair, or enhance natural gas service lines or systems shall not exceed one-fourth of the revenue paid to the Coal and Gas Road Improvement Fund collected from the severance tax imposed upon the severance of natural gas pursuant to this section and may be so used only upon passage of a local ordinance or resolution of the governing body of the applicable county or city providing for the same. *Funds in the Coal and Gas Road Improvement Fund may be used to construct flood mitigation measures that would reduce or prevent flooding of any infrastructure listed herein the construction, repair, or enhancement of which is otherwise permissible under this section.*

Such committee shall develop on or before July 1 of each year a plan for improvement of roads during the following fiscal year. Such plan shall have the approval of three members of the committee and shall be submitted to the governing body of the county or city for approval. The governing body may approve or disapprove such plan, but may make no changes without the approval of three members of the committee.

C. No tax shall be imposed under this section on or after January 1, ~~2024~~ *2026*.

of the case. In the event counsel is appointed to defend an indigent charged with any other felony, such counsel shall receive compensation as provided in this paragraph for defending such a felony, regardless of whether the charge is reduced or amended to a misdemeanor or lesser felony prior to final disposition of the case in either the district court or circuit court.

Counsel appointed to represent an indigent accused in a criminal case, who are not public defenders, may request an additional waiver exceeding the amounts provided for in this section. The request for any additional amount shall be submitted to the presiding judge, in writing, with a detailed accounting of the time spent and the justification for the additional amount. The presiding judge shall determine, subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, whether the request for an additional amount is justified in whole or in part, by considering the effort expended and the time reasonably necessary for the particular representation, and, if so, shall forward the request as approved to the chief judge of the circuit court or district court for approval.

If at any time the funds appropriated to pay for waivers under this section become insufficient, the Executive Secretary of the Supreme Court of Virginia shall so certify to the courts and no further waivers shall be approved.

The circuit or district court shall direct the payment of such reasonable expenses incurred by such court-appointed counsel as it deems appropriate under the circumstances of the case. Counsel appointed by the court to represent an indigent charged with repeated violations of the same section of the Code of Virginia, with each of such violations arising out of the same incident, occurrence, or transaction, shall be compensated in an amount not to exceed the fee prescribed for the defense of a single charge, if such offenses are tried as part of the same judicial proceeding. The trial judge shall consider any guidelines established by the Supreme Court but shall have the sole discretion to fix the amount of compensation to be paid counsel appointed by the court to defend a felony charge that is punishable as a Class 1 felony.

The circuit or district court shall direct that the foregoing payments shall be paid out by the Commonwealth, if the defendant is charged with a violation of a statute, or by the county, city or town, if the defendant is charged with a violation of a county, city or town ordinance, to the attorney so appointed to defend such person as compensation for such defense.

Counsel representing a defendant charged with a Class 1 felony may submit to the court, on a monthly basis, a statement of all costs incurred and fees charged by him in the case during that month. Whenever the total charges as are deemed reasonable by the court for which payment has not previously been made or requested exceed $1,000, the court may direct that payment be made as otherwise provided in this section.

When such directive is entered upon the order book of the court, the Commonwealth, county, city or town, as the case may be, shall provide for the payment out of its treasury of the sum of money so specified. If the defendant is convicted, the amount allowed by the court to the attorney appointed to defend him shall be taxed against the defendant as a part of the costs of prosecution and, if collected, the same shall be paid to the Commonwealth, or the county, city or town, as the case may be. In the event that counsel for the defendant requests a waiver of the limitations on compensation, the court shall assess against the defendant an amount equal to the pre-waiver compensation limit specified in this section for each charge for which the defendant was convicted. An abstract of such costs shall be docketed in the judgment docket and execution lien book maintained by such court.

Any statement submitted by an attorney for payments due him for indigent representation or for representation of a child pursuant to § 16.1-266 shall, after the submission of the statement, be forwarded forthwith by the clerk to the Commonwealth, county, city or town, as the case may be, responsible for payment.

For the purposes of this section, the defense of a case may be considered conducted through to its conclusion and an appointed counsel entitled to compensation for his services in the event an indigent accused fails to appear in court subject to a capias for his arrest or a show cause summons for his failure to appear and remains a fugitive from justice for one year following the issuance of the capias or the summons to show cause, and appointed counsel has appeared at a hearing on behalf of the accused.

Effective July 1, 2007, the Executive Secretary of the Supreme Court of Virginia shall track and report the number and category of offenses charged involving adult and juvenile offenders in cases in which court-appointed counsel is assigned. The Executive Secretary shall also track and report the amounts paid by waiver above the initial cap to court-appointed counsel. The Executive Secretary shall provide these reports to the Governor, members of the House Committee on Appropriations, and members of the Senate Committee on Finance and Appropriations on a quarterly basis.

CHAPTER 229

An Act to amend and reenact §§ 19.2-169.1, as it is currently effective, and 19.2-169.2, as it is currently effective, of the Code of Virginia and to repeal the second enactment of Chapter 508 of the Acts of Assembly of 2022, relating to criminal proceedings; disposition when defendant found incompetent; evaluation for temporary detention.

[H 1908]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 19.2-169.1, as it is currently effective, and 19.2-169.2, as it is currently effective, of the Code of Virginia are amended and reenacted as follows:

§ 19.2-169.1. (Effective until July 1, 2023) Raising question of competency to stand trial or plead; evaluation and determination of competency.

A. Raising competency issue; appointment of evaluators. — If, at any time after the attorney for the defendant has been retained or appointed and before the end of trial, the court finds, upon hearing evidence or representations of counsel for the defendant or the attorney for the Commonwealth, that there is probable cause to believe that the defendant, whether a juvenile transferred pursuant to § 16.1-269.1 or adult, lacks substantial capacity to understand the proceedings against him or to assist his attorney in his own defense, the court shall order that a competency evaluation be performed by at least one psychiatrist or clinical psychologist who (i) has performed forensic evaluations; (ii) has successfully completed forensic evaluation training recognized by the Commissioner of Behavioral Health and Developmental Services; (iii) has demonstrated to the Commissioner competence to perform forensic evaluations; and (iv) is included on a list of approved evaluators maintained by the Commissioner.

B. Location of evaluation. — The evaluation shall be performed on an outpatient basis at a mental health facility or in jail unless an outpatient evaluation has been conducted and the outpatient evaluator opines that a hospital-based evaluation is needed to reliably reach an opinion or unless the defendant is in the custody of the Commissioner of Behavioral Health and Developmental Services pursuant to § 19.2-169.2, 19.2-169.6, 19.2-182.2, 19.2-182.3, 19.2-182.8, 19.2-182.9, or Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2.

C. Provision of information to evaluators. — The court shall require the attorney for the Commonwealth to provide to the evaluators appointed under subsection A any information relevant to the evaluation, including, but not limited to (i) a copy of the warrant or indictment; (ii) the names and addresses of the attorney for the Commonwealth, the attorney for the defendant, and the judge ordering the evaluation; (iii) information about the alleged crime; and (iv) a summary of the reasons for the evaluation request. The court shall require the attorney for the defendant to provide any available psychiatric records and other information that is deemed relevant. The court shall require that information be provided to the evaluator within 96 hours of the issuance of the court order pursuant to this section.

D. The competency report. — Upon completion of the evaluation, the evaluators shall promptly submit a report in writing to the court and the attorneys of record concerning (i) the defendant's capacity to understand the proceedings against him; (ii) ~~his~~ *the defendant's* ability to assist his attorney; ~~and~~ (iii) ~~his~~ *the defendant's* need for treatment in the event he is found incompetent but restorable~~,~~ or incompetent for the foreseeable future*; and (iv) if the defendant has been charged with a misdemeanor violation of Article 3 (§ 18.2-95 et seq.) of Chapter 5 of Title 18.2 or a misdemeanor violation of § 18.2-119, 18.2-137, 18.2-388, 18.2-415, or 19.2-128, whether the defendant should be evaluated to determine whether he meets the criteria for temporary detention pursuant to § 37.2-809 in the event he is found incompetent but restorable or incompetent for the foreseeable future*.

If a need for restoration treatment is identified pursuant to clause (iii), the report shall state whether inpatient or outpatient treatment (community-based or jail-based) is recommended. Outpatient treatment may occur in a local correctional facility or at a location determined by the appropriate community services board or behavioral health authority. In cases where a defendant is likely to remain incompetent for the foreseeable future due to an ongoing and irreversible medical condition, and where prior medical or educational records are available to support the diagnosis, or if the defendant was previously determined to be unrestorably incompetent in the past two years, the report may recommend that the court find the defendant unrestorably incompetent to stand trial and the court may proceed with the disposition of the case in accordance with § 19.2-169.3. ~~In cases where a defendant has been charged with a misdemeanor violation of Article 3 (§ 18.2-95 et seq.) of Chapter 5 of Title 18.2 or a misdemeanor violation of § 18.2-119, 18.2-137, 18.2-388, 18.2-415, or 19.2-128 and is incompetent, the report may recommend that the court direct the community services board or behavioral health authority for the jurisdiction in which the defendant is located to (a) conduct an evaluation of the defendant in accordance with subsection B of § 37.2-808 to determine whether the defendant meets the criteria for temporary detention and (b) upon determining that the defendant does meet the criteria for temporary detention, file a petition for issuance of an order for temporary detention of the defendant in accordance with § 37.2-809.~~ No statements of the defendant relating to the time period of the alleged offense shall be included in the report. The evaluator shall also send a redacted copy of the report removing references to the defendant's name, date of birth, case number, and court of jurisdiction to the Commissioner of Behavioral Health and Developmental Services for the purpose of peer review to establish and maintain the list of approved evaluators described in subsection A.

E. The competency determination. — After receiving the report described in subsection D, the court shall promptly determine whether the defendant is competent to stand trial. A hearing on the defendant's competency is not required unless one is requested by the attorney for the Commonwealth or the attorney for the defendant, or unless the court has reasonable cause to believe the defendant will be hospitalized under § 19.2-169.2. If a hearing is held, the party alleging that the defendant is incompetent shall bear the burden of proving by a preponderance of the evidence the defendant's incompetency. The defendant shall have the right to notice of the hearing, the right to counsel at the hearing and the right to personally participate in and introduce evidence at the hearing.

The fact that the defendant claims to be unable to remember the time period surrounding the alleged offense shall not, by itself, bar a finding of competency if the defendant otherwise understands the charges against him and can assist in his defense. Nor shall the fact that the defendant is under the influence of medication bar a finding of competency if the defendant is able to understand the charges against him and assist in his defense while medicated.

F. Finding. — If the court finds the defendant competent to stand trial, the case shall be set for trial or a preliminary hearing. If the court finds the defendant either incompetent but restorable or incompetent for the foreseeable future, the court shall proceed pursuant to § 19.2-169.2.

§ 19.2-169.2. (Effective until July 1, 2023) Disposition when defendant found incompetent.

A. Upon finding pursuant to subsection E or F of § 19.2-169.1 that the defendant, including a juvenile transferred pursuant to § 16.1-269.1, is incompetent, the court shall order that the defendant receive treatment to restore his competency on an outpatient basis or, if the court specifically finds that the defendant requires inpatient hospital treatment, at a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for treatment of persons under criminal charge. Outpatient treatment may occur in a local correctional facility or at a location determined by the appropriate community services board or behavioral health authority. Notwithstanding the provisions of § 19.2-178, if the court orders inpatient hospital treatment, the defendant shall be transferred to and accepted by the hospital designated by the Commissioner as soon as practicable, but no later than 10 days, from the receipt of the court order requiring treatment to restore the defendant's competency. If the 10-day period expires on a Saturday, Sunday, or other legal holiday, the 10 days shall be extended to the next day that is not a Saturday, Sunday, or legal holiday. Any psychiatric records and other information that have been deemed relevant and submitted by the attorney for the defendant pursuant to subsection C of § 19.2-169.1 and any reports submitted pursuant to subsection D of § 19.2-169.1 shall be made available to the director of the community services board or behavioral health authority or his designee or to the director of the treating inpatient facility or his designee within 96 hours of the issuance of the court order requiring treatment to restore the defendant's competency. If the 96-hour period expires on a Saturday, Sunday, or other legal holiday, the 96 hours shall be extended to the next day that is not a Saturday, Sunday, or legal holiday.

B. If, at any time after the defendant is ordered to undergo treatment under subsection A, the director of the community services board or behavioral health authority or his designee or the director of the treating inpatient facility or his designee believes the defendant's competency is restored, the director or his designee shall immediately send a report to the court as prescribed in subsection D of § 19.2-169.1. The court shall make a ruling on the defendant's competency according to the procedures specified in subsection E of § 19.2-169.1.

C. Notwithstanding the provisions of subsection A, in cases in which (i) the defendant has been charged with a misdemeanor violation of Article 3 (§ 18.2-95 et seq.) of Chapter 5 of Title 18.2 or a misdemeanor violation of § 18.2-119, 18.2-137, 18.2-388, 18.2-415, or 19.2-128; (ii) the defendant has been found to be incompetent pursuant to subsection E or F of § 19.2-169.1; and (iii) the competency report described in subsection D of § 19.2-169.1 recommends that the defendant be ~~temporarily detained~~ *evaluated to determine whether he meets the criteria for temporary detention* pursuant to § 37.2-809, the court may ~~dismiss the charges without prejudice against the defendant and, in lieu of ordering the defendant receive treatment to restore his competency,~~ order the community services board or behavioral health authority serving the jurisdiction in which the defendant is located to (a) conduct an evaluation of the defendant and (b) if the community services board or behavioral health authority determines that the defendant meets the criteria for temporary detention, file a petition for issuance of an order for temporary detention pursuant to § 37.2-809. *The community services board or behavioral health authority shall notify the court, in writing, within 72 hours of the completion of the evaluation and, if appropriate, file a petition for issuance of an order for temporary detention. Upon receipt of such notice, the court may dismiss the charges without prejudice against the defendant.* However, the court shall not ~~dismiss charges and~~ enter an order *or dismiss charges against a defendant* pursuant to this subsection if the attorney for the Commonwealth is involved in the prosecution of the case and the attorney for the Commonwealth does not concur in the motion.

D. *If a defendant for whom an evaluation has been ordered pursuant to subsection C fails or refuses to appear for the evaluation, the community services board or behavioral health authority shall notify the court and the court shall issue a mandatory examination order and capias directing the primary law-enforcement agency for the jurisdiction in which the defendant resides to transport the defendant to the location designated by the community services board or behavioral health authority for examination.*

E. The clerk of the court shall certify and forward forthwith to the Central Criminal Records Exchange, on a form provided by the Exchange, a copy of an order for treatment issued pursuant to subsection A.

2. That the second enactment of Chapter 508 of the Acts of Assembly of 2022 is repealed.

A. As used in this section:

"Direct care position" means any position that includes responsibility for (i) treatment, case management, health, safety, development, or well-being of an adult receiving substance abuse or mental health services or (ii) immediately supervising a person in a position described in this definition.

"Hire for compensated employment" does not include (i) a promotion from one adult substance abuse or adult mental health treatment position to another such position within the same community services board or (ii) new employment in an adult substance abuse or adult mental health treatment position in another office or program of the same community services board if the person employed prior to July 1, 1999, had no convictions in the five years prior to the application date for employment. If any applicant is denied employment because of information appearing on his criminal history record and the applicant disputes the information upon which the denial was based, the Central Criminal Records Exchange shall, upon written request, furnish to the applicant the procedures for obtaining a copy of the criminal history record from the FBI. The information provided to the executive director or personnel director of any community services board shall not be disseminated except as provided in this section.

C. Notwithstanding the provisions of subsection B, the community services board may hire for compensated employment or permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board at adult substance abuse or adult mental health treatment programs a person who was convicted of any violation of § 18.2-51.3; any misdemeanor violation of § 18.2-56 or 18.2-56.1, subsection A of § 18.2-57, or § 18.2-57.2; any violation of § 18.2-60, 18.2-89, 18.2-92, or 18.2-94; any misdemeanor violation of § 18.2-282, 18.2-346, or 18.2-346.01; any offense set forth in clause (iii) of the definition of barrier crime in § 19.2-392.02, except an offense pursuant to subsection H1 or H2 of § 18.2-248; or any substantially similar offense under the laws of another jurisdiction, if the hiring community services board determines, based upon a screening assessment, that the criminal behavior was substantially related to the applicant's substance abuse or mental illness and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse or mental illness history.

D. Notwithstanding the provisions of subsection B, the community services board may hire for compensated employment or permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board at adult substance abuse treatment programs a person who has been convicted of not more than one offense under subsection C of § 18.2-57, or any substantially similar offense under the laws of another jurisdiction, if (i) the person has been granted a simple pardon if the offense was a felony committed in Virginia, or the equivalent if the person was convicted under the laws of another jurisdiction; (ii) more than 10 years have elapsed since the conviction; and (iii) the hiring community services board determines, based upon a screening assessment, that the criminal behavior was substantially related to the applicant's substance abuse and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse history.

E. The community services board and a screening contractor designated by the Department shall screen applicants who meet the criteria set forth in subsections C and D to assess whether the applicants have been rehabilitated successfully and are not a risk to individuals receiving services based on their criminal history backgrounds and substance abuse or mental illness histories. To be eligible for such screening, the applicant shall have completed all prison or jail terms, shall not be under probation or parole supervision, shall have no pending charges in any locality, shall have paid all fines, restitution, and court costs for any prior convictions, and shall have been free of parole or probation for at least five years for all convictions. The cost of this screening shall be paid by the applicant, unless the board decides to pay the cost.

F. Notwithstanding the provisions of subsection B, a community services board may (i) hire for compensated employment or (ii) permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board persons who have been convicted of not more than one misdemeanor offense under § 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed the offense while employed in a direct care position.

G. Community services boards also shall require, as a condition of employment or permission for any person under contract to serve in a direct care position on behalf of the community services board, written consent and personal information necessary to obtain a search of the registry of founded complaints of child abuse and neglect that is maintained by the Department of Social Services pursuant to § 63.2-1515.

H. The cost of obtaining the criminal history record and search of the child abuse and neglect registry record shall be borne by the applicant, unless the community services board decides to pay the cost.

I. Notwithstanding any other provision of law, a community services board that provides services to individuals receiving services under the state plan for medical assistance services or any waiver thereto may disclose to the Department of Medical Assistance Services (i) whether a criminal history background check has been completed for a person described in subsection B for whom a criminal history background check is required and (ii) whether the person described in subsection B is eligible for employment.

J. Any person employed by a temporary agency that has entered into a contract with a community services board and who will serve in a direct care position on behalf of such community services board shall undergo a background check that shall include:

1. A criminal history records check through the Central Criminal Records Exchange pursuant to § 19.2-389; and

2. A search of the central registry maintained pursuant to § 63.2-1515 for any founded complaint of child abuse and neglect.

Except as otherwise provided in subsection C, D, or F, no community services board shall permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board if that person has been convicted of (i) any offense set forth in clause (i), (ii), or (iii) of the definition of barrier crime in § 19.2-392.02 or (ii) any offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02 (a) in the five years prior to the application date for employment, the application date to be a sponsored residential service provider, or entering into a shared living arrangement or (b) if such person continues on probation or parole or has failed to pay required court costs for such offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02.

C. Beginning January 1, 2014, but not later than ~~June 30, 2025~~ *December 31, 2024*, and subject to appropriation, any qualified company that locates or expands a facility within the Commonwealth shall be eligible to apply for a one-time grant from the Fund, in an amount determined as follows:

D. The maximum amount of grant allowable per qualified company in any given fiscal year is $500,000. The maximum amount of grants allowable among all qualified companies in any given fiscal year is $5 million.

E. To qualify for a grant pursuant to this section, a qualified company must apply for the grant not later than March 31 in the year immediately following the location or expansion of a facility within the Commonwealth pursuant to an application process developed by the Virginia Port Authority. Within 90 days after the filing deadline, the Executive Director shall certify to the Comptroller and the qualified company the amount of grant to which the qualified company is entitled under this section. Payment of each grant shall be made by check issued by the State Treasurer on warrant of the Comptroller within 60 days of such certification and in the order that each completed eligible application is received. In the event that the amount of eligible grants requested in a fiscal year exceeds the funds available in the Fund or $5 million, such grants shall be paid in the next fiscal year in which funds are available.

F. A qualified company that has received a grant in accordance with the requirements provided in this section shall be eligible for a second grant from the Fund if it (i) locates or expands an additional facility in a separate location, as determined by the Virginia Port Authority, within the Commonwealth; (ii) creates at least 300 new, permanent full-time positions at the additional facility over and above those agreed upon in the qualified company's original memorandum of understanding with the Virginia Port Authority; and (iii) increases cargo volumes through the Port of Virginia by at least five percent, not including any volume increase resulting from the original grant, from the additional facility. If the qualified company satisfies the requirements provided in this subsection and receives a grant consistent with the requirements of this section, then the qualified company shall enter into another separate memorandum of understanding with the Virginia Port Authority as provided in subsection G.

G. Prior to receipt of a grant, the qualified company shall enter into a memorandum of understanding with the Virginia Port Authority establishing the requirements for maintaining the number of new, permanent full-time positions for qualified employees at the qualified company's location within the Commonwealth. If the number of new, permanent full-time positions for any of the three years immediately following receipt of a grant falls below the number of new, permanent full-time positions created during the year for which the grant is claimed, the amount of the grant must be recalculated using the decreased number of new, permanent full-time positions and the qualified company shall repay the difference.

H. No qualified company shall apply for a grant nor shall one be awarded under this section to an otherwise qualified company if (i) a credit pursuant to § 58.1-439 or 58.1-439.12:06 is claimed for the same employees or for capital expenditures at the same facility by the qualified company, by a related party as listed in § 267(b) of the Internal Revenue Code, or by a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal

Revenue Code or (ii) the qualified company was a party to a reorganization as defined in § 368(b) of the Internal Revenue Code, and any corporation involved in the reorganization as defined in § 368(a) of the Internal Revenue Code previously received a grant under this section for the same facility or operations.

I. The Virginia Port Authority, with the assistance of the Virginia Economic Development Partnership, shall develop guidelines establishing procedures and requirements for qualifying for the grant, including the affirmative determination that each applicant is a qualified company, as defined above, engaged in a port-related business. The guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.). For the purposes of administering this grant program, the Virginia Port Authority and the Department of Taxation shall exchange information regarding whether a qualified company, a related party as listed in § 267(b) of the Internal Revenue Code, or a trade or business under common control as defined in regulations issued pursuant to § 52(b) of the Internal Revenue Code has claimed a credit pursuant to § 58.1-439 or 58.1-439.12:06 for the same employees or for capital expenditures at the same facility.

§ 62.1-132.3:2.1. Port of Virginia Economic Development Grant Program and Fund.

A. There is hereby created in the state treasury a special nonreverting fund to be known as the Port of Virginia Economic Development Grant Fund (the Fund), to be administered by the Virginia Port Authority. The Fund shall be established on the books of the Comptroller. All funds appropriated for such purpose and any gifts, donations, grants, bequests, and other funds received on its behalf shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for the purpose of providing grants to qualified applicants to the Program. 2. Except as provided in subdivision 3, for the International Trade Facility Grant Program, the maximum amount of grants allowable among all international trade facilities, as that term is defined in § 62.1-132.3:2.3, in any fiscal year shall be $1.25 million plus any amounts carried over from a prior fiscal year.

3. In the event that the amount of grants claimed for either of the programs described in subdivision 1 or 2 in any fiscal year is less than the maximum allowable amount, the excess amount may (i) be used to provide grants by the other program if that program is oversubscribed or (ii) be carried over to the next fiscal year.

G. Prior to receipt of a grant, the qualified company shall enter into a memorandum of understanding with the Virginia Port Authority establishing the requirements for maintaining the number of new, permanent full-time positions for qualified employees at the qualified company's location within the Commonwealth. I. The Virginia Port Authority, with the assistance of the Virginia Economic Development Partnership, shall develop guidelines establishing procedures and requirements for qualifying for the grant, including the affirmative determination that each applicant is a qualified company, as defined above, engaged in a port-related business. The guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.). CHAPTER 245

An Act to amend and reenact §§ 28.2-1308, 33.2-247, and 62.1-44.15:23 of the Code of Virginia, relating to tidal wetland mitigation bank credits.

[H 1804]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 28.2-1308, 33.2-247, and 62.1-44.15:23 of the Code of Virginia are amended and reenacted as follows:

§ 28.2-1308. Standards for use and development of wetlands; utilization of guidelines.

A. *For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and the New River Basin.*

B. The following standards shall apply to the use and development of wetlands and shall be considered in the determination of whether any permit required by this chapter should be granted or denied:

1. Wetlands of primary ecological significance shall not be altered so that the ecological systems in the wetlands are unreasonably disturbed; and

2. Development in Tidewater Virginia, to the maximum extent practical, shall be concentrated in wetlands of lesser ecological significance, in vegetated wetlands which have been irreversibly disturbed before July 1, 1972, in nonvegetated wetlands which have been irreversibly disturbed prior to January 1, 1983, and in areas of Tidewater Virginia outside of wetlands.

~~B.~~ *C.* The provisions of guidelines and minimum standards promulgated by the Commission pursuant to § 28.2-1301 shall be considered in applying the standards listed in subsection ~~A of this section~~ *B*.

~~C.~~ *D.* When any activity authorized by a permit issued pursuant to this chapter is conditioned upon compensatory mitigation for adverse impacts to wetlands, the applicant may be permitted to satisfy all or part of such mitigation requirements by the purchase or use of credits from any wetlands mitigation bank, including any banks owned by the permit applicant, that has been approved and is operating in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use and operation of mitigation banks as long as (i) the bank is in the same fourth order subbasin, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset or by the hydrologic unit system or dataset utilized and depicted or described in the bank's approved mitigation banking instrument, as the impacted site, or in an adjacent subbasin within the same river watershed, as the impacted site, or it meets all the conditions found in clauses (a) through (d) and either clause (e) or (f) ~~of this subsection~~; (ii) the bank is ecologically preferable to practicable on-site and off-site individual mitigation options, as defined by federal wetland regulations; and (iii) the banking instrument, if approved after July 1, 1996, has been approved by a process that included public review and comment. When the bank is not located in the same subbasin or adjacent subbasin within the same river watershed as the impacted site, the purchase or use of credits shall not be allowed unless the applicant demonstrates to the satisfaction of the Commission that (a) the impacts will occur as a result of a Virginia Department of Transportation linear project or as the result of a locality project for a locality whose jurisdiction encompasses multiple river watersheds; (b) there is no practical same river watershed mitigation alternative; (c) the impacts are less than one acre in a single and complete project within a subbasin; (d) there is no significant harm to water quality or fish and wildlife resources within the river watershed of the impacted site; and either (e) impacts within the Chesapeake Bay watershed are mitigated within the Chesapeake Bay watershed as close as possible to the impacted site or (f) impacts within subbasins 02080108, 02080208, and 03010205, as defined by the National Watershed Boundary Dataset, are mitigated in-kind within those subbasins as close as possible to the impacted site. After July 1, 2002, the provisions of clause (f) shall apply only to impacts within subdivisions of the listed subbasins where overlapping watersheds exist, as determined by the Department of Environmental Quality, provided the Department has made such a determination by that date. For the purposes of this subsection, the hydrologic unit boundaries of the National Watershed Boundary Dataset or other hydrologic unit system may be adjusted by the Department of Environmental Quality to reflect site-specific geographic or hydrologic information provided by the bank sponsor.

~~D.~~ *E.* Where an agreed-upon permit condition requires the contribution of in-lieu fees to offset permitted wetland losses, the wetlands board shall credit the applicant for any in-lieu fee payments made to the Virginia Aquatic Resources Trust Fund or another dedicated wetlands restoration fund with reference to the same activity.

~~For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and the New River Basin.~~

F. Notwithstanding any provision of this section restricting the location of the source of credits, an applicant may be permitted to purchase or use credits from a tidal wetland mitigation bank located in an adjacent river watershed when such bank contains the same plant community type and salinity regime as the impacted wetlands, which shall be the preferred form of compensation. This subsection shall apply only (i) to tidal wetland mitigation banks with a polyhaline salinity regime located in subbasins 02080102, 02080107, 02080108, and 02080208 and (ii) when a tidal wetland mitigation bank with the same plant community type and salinity regime as the impacted wetlands is not available in the same river watershed as the impacted wetland.

§ 33.2-247. Wetlands mitigation banking.

A. For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and New River Basin.

B. When authorization is required by federal or state law for any project affecting wetlands and such authorization is conditioned upon compensatory mitigation for adverse impacts to wetlands, the Commissioner of Highways is authorized to expend funds for the purchase of, or is authorized to use, credits from any wetlands mitigation bank, including any owned by the Department of Transportation, that has been approved and is operating in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use, and operation of mitigation banks as long as (i) the bank is in the same fourth order subbasin, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset or by the hydrologic unit system or dataset utilized and depicted or described in the bank's approved mitigation banking instrument, as the impacted site, or in an adjacent subbasin within the same river watershed as the impacted site, or it meets all the conditions found in clauses (a) through (d) and either clause (e) or (f); (ii) the bank is ecologically preferable to practicable on-site and off-site individual mitigation options, as defined by federal wetland regulations; and (iii) the banking instrument, if approved after July 1, 1996, has been approved by a process that included public review and comment. When the bank is not located in the same subbasin or adjacent subbasin within the same river watershed as the impacted site, the purchase or use of credits shall not be allowed unless the Commissioner of Highways demonstrates to the satisfaction of the agency requiring compensatory mitigation that (a) the impacts will occur as a result of a Department of Transportation linear project; (b) there is no practical same river watershed mitigation alternative; (c) the impacts are less than one acre in a single and complete project within a subbasin; (d) there is no significant harm to water quality or fish and wildlife resources within the river watershed of the impacted site; and either (e) impacts within the Chesapeake Bay watershed are mitigated within the Chesapeake Bay watershed as close as possible to the impacted site or (f) impacts within subbasins 02080108, 02080208, and 03010205, as defined by the National Watershed Boundary Dataset, are mitigated in-kind within those subbasins, as close as possible to the impacted site. After July 1, 2002, the provisions of clause (f) shall apply only to impacts within subdivisions of the listed subbasins where overlapping watersheds exist, as determined by the Department of Environmental Quality, provided the Department of Environmental Quality has made such a determination by that date. For the purposes of this subsection, the hydrologic unit boundaries of the National Watershed Boundary Dataset or other hydrologic unit system may be adjusted by the Department of Environmental Quality to reflect site-specific geographic or hydrologic information provided by the bank sponsor.

~~For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and New River Basin.~~

C. Notwithstanding any provision of this section restricting the location of the source of credits, the Commissioner of Highways may be permitted to purchase or use credits from a tidal wetland mitigation bank located in an adjacent river watershed when such bank contains the same plant community type and salinity regime as the impacted wetlands, which shall be the preferred form of compensation. This subsection shall apply only (i) to tidal wetland mitigation banks with a polyhaline salinity regime located in subbasins 02080102, 02080107, 02080108, and 02080208 and (ii) when a tidal wetland mitigation bank with the same plant community type and salinity regime as the impacted wetlands is not available in the same river watershed as the impacted wetland.

§ 62.1-44.15:23. Wetland and stream mitigation banks.

A. For purposes of this section:

"Physiographic province" means one of the five physiographic provinces of Virginia designated as the Appalachian Plateaus, Blue Ridge, Coastal Plain, Piedmont, and Ridge and Valley physiographic provinces as identified on Figure 2 in the Overview of the Physiography and Vegetation of Virginia prepared by the Department of Conservation and Recreation, Division of Natural Heritage and dated February 2016. The Department of Environmental Quality may adjust the boundaries of a physiographic province to reflect site-specific boundaries based on relative elevation, relief, geomorphology, and lithology provided by the bank sponsor.

"Primary service area" means the fourth order subbasin in which the bank is located, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset or the hydrologic unit system or dataset utilized and depicted or described in the bank's approved mitigation banking instrument, and any adjacent fourth order subbasin within the same river watershed.

"River watershed" means the Potomac River Basin; Shenandoah River Basin; James River Basin; Rappahannock River Basin; Roanoke and Yadkin Rivers Basin; Chowan River Basin, including the Dismal Swamp and Albemarle Sound; Tennessee River Basin/Big Sandy River Basin Complex; Chesapeake Bay and its Small Coastal Basins; Atlantic Ocean; York River Basin; and New River Basin.

"Secondary service area" means the area outside the primary service area but within the same physiographic province in which the bank is located and any adjacent physiographic province within the same river watershed.

"Tree canopy" includes all of the area of canopy coverage by self-supporting and healthy woody plant material exceeding five feet in height.

B. When a Virginia Water Protection Permit is conditioned upon compensatory mitigation for adverse impacts to wetlands or streams, the applicant may be permitted to satisfy all or part of such mitigation requirements by the purchase or use of credits from any wetland or stream mitigation bank in the Commonwealth, or in Maryland on property wholly surrounded by and located in the Potomac River if the mitigation banking instrument provides that the Board shall have the right to enter and inspect the property and that the mitigation bank instrument and the contract for the purchase or use of

such credits may be enforced in the courts of the Commonwealth, including any banks owned by the permit applicant, that has been approved and is operating in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use, and operation of mitigation banks as long as (i) the impacted site is located in the bank's primary or secondary service area as provided in subsection C or it meets all the conditions found in clauses (a) through (d) and either clause (e) or (f); (ii) the bank is ecologically preferable to practicable onsite and offsite individual mitigation options as defined by federal wetland regulations; and (iii) the banking instrument, if approved after July 1, 1996, has been approved by a process that included public review and comment. When the impacted site is not located in the bank's primary or secondary service area, the purchase or use of credits shall not be allowed unless the applicant demonstrates to the satisfaction of the Department of Environmental Quality that (a) the impacts will occur as a result of a Virginia Department of Transportation linear project or as the result of a locality project for a locality whose jurisdiction encompasses multiple river watersheds; (b) there is no practical same river watershed mitigation alternative; (c) the impacts are less than one acre in a single and complete project within a subbasin; (d) there is no significant harm to water quality or fish and wildlife resources within the river watershed of the impacted site; and either (e) impacts within the Chesapeake Bay watershed are mitigated within the Chesapeake Bay watershed as close as possible to the impacted site or (f) impacts within subbasins 02080108, 02080208, and 03010205, as defined by the National Watershed Boundary Dataset, are mitigated in-kind within those subbasins, as close as possible to the impacted site. For the purposes of this subsection, the hydrologic unit boundaries of the National Watershed Boundary Dataset or other hydrologic unit system may be adjusted by the Department of Environmental Quality to reflect site-specific geographic or hydrologic information provided by the bank sponsor.

C. For impacts to a site for which no credits are available to purchase (i) in the primary service area of any mitigation provider or (ii) at a price below 200 percent of the current price of credits applicable to that site from a Board-approved fund dedicated to achieving no net loss of wetland acreage and functions, a permit applicant may be permitted to purchase or use credits from the secondary service area of a mitigation provider to satisfy all or any part of such applicant's mitigation requirements. For purposes of this subsection, the permit applicant shall provide a determination of credit availability and credit price no later than the time such applicant submits to the Department (a) its proof of credit acquisition or (b) a later change to such proof.

If a permit applicant purchases or uses credits from a secondary service area, the permit applicant shall:

1. Acquire three times the credits it would have had to acquire from a bank in the primary service area for wetland impacts and two times the number of credits it would have had to acquire in the primary service area for stream impacts;

2. When submitting proof of acquisition of credits for a subdivision or development, provide to the Department a plan that the permit applicant will implement that is certified by a licensed professional engineer, surveyor, or landscape architect for the planting, preservation, or replacement of trees on the development site such that the minimum tree canopy percentage 20 years after development is projected to be as follows:

a. Ten percent tree canopy for a site zoned for business, commercial, or industrial use;

b. Ten percent tree canopy for a residential site zoned for 20 or more units per acre;

c. Fifteen percent tree canopy for a residential site zoned for more than eight but fewer than 20 units per acre;

d. Twenty percent tree canopy for a residential site zoned for more than four but not more than eight units per acre;

e. Twenty-five percent tree canopy for a residential site zoned for more than two but not more than four units per acre; and

f. Thirty percent tree canopy for a residential site zoned for two or fewer units per acre.

For a mixed-use development, the tree canopy percentage required pursuant to this subdivision shall be that which is applicable to the predominant use.

The tree canopy requirements established under this subsection shall not supersede any additional requirements imposed by a locality pursuant to § 15.2-961 or 15.2-961.1.

D. The Department is authorized to serve as a signatory to agreements governing the operation of mitigation banks. The Commonwealth and its officials, agencies, and employees shall not be liable for any action taken under any agreement developed pursuant to such authority.

E. State agencies and localities are authorized to purchase credits from mitigation banks.

F. A locality may establish, operate and sponsor wetland or stream single-user mitigation banks within the Commonwealth that have been approved and are operated in accordance with the requirements of subsection B, provided that such single-user banks may only be considered for compensatory mitigation for the sponsoring locality's municipal, joint municipal or governmental projects. For the purposes of this subsection, the term "sponsoring locality's municipal, joint municipal or governmental projects" means projects for which the locality is the named permittee, and for which there shall be no third-party leasing, sale, granting, transfer, or use of the projects or credits. Localities may enter into agreements with private third parties to facilitate the creation of privately sponsored wetland and stream mitigation banks having service areas developed through the procedures of subsection B.

G. Notwithstanding any provision of this section restricting the location of the source of credits, the Department may, for tidal wetland impacts, authorize the use of, including without the application of subsection C, a tidal wetland mitigation bank located in an adjacent river watershed when such bank contains the same plant community type and salinity regime as the impacted wetlands, which shall be the preferred form of compensation. This subsection shall apply only (i) to tidal wetland mitigation banks with a polyhaline salinity regime located in subbasins 02080102, 02080107, 02080108, and

02080208 and (ii) when a tidal wetland mitigation bank with the same plant community type and salinity regime as the impacted wetlands is not available in the same river watershed as the impacted wetland.

[H 1624]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

The program shall also support~~*, and their* family members ~~affected by covered military members' service and deployments~~. The purpose of the program is to, in a cost-effective manner, refer *such transitioning service members,* veterans*, members of the Virginia National Guard, Virginia residents in the Armed Forces Reserves, and their family members* to mental health, physical rehabilitation, and other services as needed to help them achieve individually identified goals and to periodically monitor their progress toward achieving those goals.

B. The program shall, subject to the availability of public and private funds appropriated for such purposes, (i) build awareness of veterans' service needs and the availability of the program through marketing, outreach, training for first responders, service providers, and others; (ii) collaborate with relevant agencies of the Commonwealth, localities, and service providers; (iii) develop and implement a consistent method of determining how many veterans in the Commonwealth are in need of mental health, physical rehabilitation, or other services currently or may be in need of such services in the future; (iv) work with veterans to develop a coordinated resources plan that identifies appropriate service providers to meet the veteran's service needs; (v) refer veterans to appropriate and available providers on the basis of needs identified in the coordinated resources plan; and (vi) monitor progress toward individually identified goals in accordance with the coordinated resource plan.

Coordinated resources plans shall be developed and veterans shall be referred to necessary services in a timely manner. The program shall prioritize veterans served on the basis of the immediacy and severity of service needs and the likelihood that those needs are attributable to the veteran's military service or combat experience.

C. The program shall cooperate with localities that may establish special treatment procedures for veterans and active military service members such as authorized by §§ 9.1-173 and 9.1-174. To facilitate local involvement and flexibility in responding to the problem of crime in local communities and to effectively treat, counsel, rehabilitate, and supervise veterans and active military service members who are offenders or defendants in the criminal justice system and who need access to proper treatment for mental illness including major depression, alcohol or drug abuse, post traumatic stress disorder, traumatic brain injury or a combination of these, any city, county, or combination thereof, may develop, establish, and maintain policies, procedures, and treatment services for all such offenders who are convicted and sentenced for misdemeanors or felonies that are not felony acts of violence, as defined in § 19.2-297.1. Such policies, procedures, and treatment services shall be designed to provide:

1. Coordination of treatment and counseling services available to the criminal justice system case processing;

2. Enhanced public safety through offender supervision, counseling, and treatment;

3. Prompt identification and placement of eligible participants;

4. Access to a continuum of treatment, rehabilitation, and counseling services in collaboration with such care providers as are willing and able to provide the services needed;

5. Where appropriate, verified participant abstinence through frequent alcohol and other drug testing;

6. Prompt response to participants' noncompliance with program requirements;

§ 22.1-296.3. Certain private school employees subject to fingerprinting and criminal records checks.

A. As a condition of employment, the governing boards or administrators of private elementary or secondary schools that are accredited pursuant to § 22.1-19 shall require any applicant who accepts employment, whether full time or part time or permanent or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall report to the governing board or administrator, or to a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police, that the applicant meets the criteria or does not meet the criteria for employment based on whether or not the applicant has ever been convicted of any barrier crime as defined in § 19.2-392.02.

B. The Central Criminal Records Exchange shall not disclose information to such governing board, administrator, or private organization coordinating such records regarding charges or convictions of any crimes. If any applicant is denied employment because of information appearing on the criminal history record and the applicant disputes the information upon which the denial was based, the Central Criminal Records Exchange shall, upon request, furnish the applicant the procedures for obtaining a copy of the criminal history record from the Federal Bureau of Investigation. The information provided to the governing board, administrator, or private organization coordinating such records shall not be disseminated except as provided in this section. A governing board or administrator employing or previously employing a temporary teacher or a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police may disseminate, at the written request of such temporary teacher, whether such teacher meets the criteria or does not meet the criteria for employment pursuant to subsection A to the governing board or administrator of another accredited private elementary or secondary school in which such teacher has accepted employment. Such governing board, administrator, or private organization transferring criminal records information pursuant to this section shall be immune from civil liability for any official act, decision, or omission done or made in the performance of such transfer, when such acts or omissions are taken in good faith and are not the result of gross negligence or willful misconduct.

Fees charged for the processing and administration of background checks pursuant to this section shall not exceed the actual cost to the state of such processing and administration.

C. *The governing board or administrator of a private elementary or secondary school may disclose information in records received pursuant to subsection A to the Virginia Council for Private Education (the Council) or its authorized designee for purposes of seeking or maintaining accreditation by the Council as permitted pursuant to § 22.1-19.*

The amount of each monthly health insurance credit payable under this section shall be *(a)* $4 per year of creditable service *or (b) effective July 1, 2024, $4.25 per year of creditable service*, which amount shall be credited monthly to any retired state employee participating in the state retiree health benefits program pursuant to § 51.1-1405 or an alternative personal health insurance plan as provided herein. However, such credit shall not exceed the health insurance premium for retiree-only coverage as provided under such alternative personal health insurance plan. Any ~~(i)~~ *(1)* employee participant pursuant to § 51.1-126, 51.1-126.1, 51.1-126.3, 51.1-126.4, 51.1-126.5, or 51.1-126.7 receiving long-term disability, or ~~(ii)~~ *(2)* retired state employee retired under the provisions of § 51.1-156 or 51.1-307, or ~~(iii)~~ *(3)* any participating employee receiving long-term disability pursuant to § 51.1-1112, 51.1-1123, 51.1-1157, or 51.1-1165 shall receive a maximum monthly credit which is the greater of ~~(i)~~ *(A)* $120, ~~(ii)~~ *(B)* $4 *or, effective July 1, 2024, $4.25* per year for each year of creditable service at the time of disability retirement, or ~~(iii)~~ *(C)* $4 *or, effective July 1, 2024, $4.25* per year for each year of creditable service at the time of eligibility for long-term disability. B. For those retired state employees:

1. Participating in the state retiree health benefits program, such credit shall be applied to the monthly premium deducted from benefits payable to retired state employees in accordance with Chapters 1 (§ 51.1-124.1 et seq.), 2 (§ 51.1-200 et seq.), 2.1 (§ 51.1-211 et seq.), and 3 (§ 51.1-300 et seq.). In the event that either no benefit is payable or the benefit payable is insufficient to deduct the entire health care premium, the payment of the credit shall be determined in the manner prescribed by the Virginia Retirement System. Eligibility for the credit shall be determined in a manner prescribed by the Virginia Retirement System.

2. Not electing or eligible to participate in the state retiree health benefits program and who purchase an alternative personal health insurance policy from a carrier or organization of his own choosing, such retirees shall be eligible to receive a credit in the amount specified in subsection A. The Commonwealth shall be charged with the credit as provided for in subsection D. In such case, the health insurance credit shall be determined based upon the amount of state service or service as a teacher, whichever is greater.

D. The Virginia Retirement System shall actuarially determine the amount necessary to fund all credits provided by this section to reflect the cost of such credits in the employer contribution rate pursuant to § 51.1-145, and prescribe such terms and conditions as are necessary to carry out the provisions of this section. The costs associated with the administration of the health insurance credit program provided for in this section shall be recovered from the health insurance credit trust fund.

A. Where the assessment of any tax imposed by this subtitle has been made within the period of limitation properly applicable thereto, such tax may be collected by levy, by a proceeding in court, or by any other means available to the Tax Commissioner under the laws of the Commonwealth, but only if such collection effort is made or instituted within seven years from the date of the assessment of such tax. Except as otherwise provided in this section, effective for assessments made on and after July 1, 2016, all collection efforts shall cease after such seven-year period even if initiated during the seven-year period. Prior to the expiration of any period for collection, the period may be extended by a written agreement between the Tax Commissioner and the taxpayer, and subsequent written agreements may likewise extend the period previously agreed upon. The period of limitations provided in this subsection during which a tax may be collected shall not apply to executions, levy or other actions to enforce a lien created before the expiration of the period of limitations by the docketing of a judgment or the filing of a memorandum of lien pursuant to § 58.1-1805; nor shall the period of limitations apply to the provisions of §§ 8.01-251 and 8.01-458.

B. C. If the Department of Taxation has no contact with the delinquent taxpayer for a period of six years and no memorandum of lien has been appropriately filed in a jurisdiction in which such taxpayer owns real estate, interest and penalty shall no longer be added to the delinquent tax liability. The mailing of notices by the Department to the taxpayer's last known address shall constitute contact with the taxpayer.

D. For purposes of this section, the "last known address" of the taxpayer means the address shown on the most recent return filed by or on behalf of the taxpayer or the address provided in correspondence by or on behalf of the taxpayer indicating that it is a change of the taxpayer's address.

CHAPTER 266

An Act to amend and reenact § 32.1-325, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to state plan for medical assistance services; durable medical equipment; complex rehabilitation technology.
[H 1512]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-325, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 32.1-325. (Effective until date pursuant to Va. Const., Art. IV, § 13) Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of $3,500 for the individual and an amount not in excess of $3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed $5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

10. A provision for breast reconstructive surgery following the medically necessary removal of a breast for any medical reason. Breast reductions shall be covered, if prior authorization has been obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

11. A provision for payment of medical assistance for annual pap smears;

Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. Such coverage shall make available one screening mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through 49, and one such mammogram annually to persons age 50 and over. The term "mammogram" means an X-ray examination of the breast using equipment dedicated specifically for

mammography, including but not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast;

17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

20. A provision for payment of medical assistance for custom ocular prostheses;

21. A provision for payment for medical assistance for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such provision shall include payment for medical assistance for follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss;

22. A provision for payment of medical assistance, pursuant to the Breast and Cervical Cancer Prevention and Treatment Act of 2000 (P.L. 106-354), for certain women with breast or cervical cancer when such women (i) have been screened for breast or cervical cancer under the Centers for Disease Control and Prevention (CDC) Breast and Cervical Cancer Early Detection Program established under Title XV of the Public Health Service Act; (ii) need treatment for breast or cervical cancer, including treatment for a precancerous condition of the breast or cervix; (iii) are not otherwise covered under creditable coverage, as defined in § 2701 (c) of the Public Health Service Act; (iv) are not otherwise eligible for medical assistance services under any mandatory categorically needy eligibility group; and (v) have not attained age 65. A single application form shall be used to determine eligibility for both programs;

A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

A provision for the payment of medical assistance for medically necessary health care services provided through telemedicine services, as defined in § 38.2-3418.16, regardless of the originating site or whether the patient is accompanied by a health care provider at the time such services are provided. No health care provider who provides health care services

through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose;

28. A provision for payment of medical assistance for remote patient monitoring services provided via telemedicine, as defined in § 38.2-3418.16, for (i) high-risk pregnant persons; (ii) medically complex infants and children; (iii) transplant patients; (iv) patients who have undergone surgery, for up to three months following the date of such surgery; and (v) patients with a chronic or acute health condition who have had two or more hospitalizations or emergency department visits related to such health condition in the previous 12 months when there is evidence that the use of remote patient monitoring is likely to prevent readmission of such patient to a hospital or emergency department. For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. "Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload;

31. A provision for payment of medical assistance for the initial purchase or replacement of complex rehabilitative technology manual and power wheelchair bases and related accessories, as defined by the Department's durable medical equipment program policy, for patients who reside in nursing facilities. Initial purchase or replacement may be contingent upon (i) determination of medical necessity; (ii) requirements in accordance with regulations established through the Department's durable medical equipment program policy; and (iii) exclusive use by the nursing facility resident. Recipients of medical assistance shall not be required to pay any deductible, coinsurance, copayment, or patient costs related to the initial purchase or replacement of complex rehabilitative technology manual and power wheelchair bases and related accessories.

B. In preparing the plan, the Board shall:

1. Work cooperatively with the State Board of Health to ensure that quality patient care is provided and that the health, safety, security, rights and welfare of patients are ensured.

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq., Enforcement of Compliance for Long-Term Care Facilities With Deficiencies.

6. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. The Board shall include in such plan:

The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed $5,000. 14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

"School crisis, emergency management, and medical emergency response plan" means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes, or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies, including cardiac arrest and other life-threatening medical emergencies; student or staff member deaths; explosions; bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism; and other incidents posing a serious threat of harm to students, personnel, or facilities. The plan shall include a

provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § 19.2-11.01. The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those individuals determined to be victims, and the plan shall also contain current contact information for both agencies.

"School safety audit" means a written assessment of the safety conditions in each public school to (i) identify and, if necessary, develop solutions for physical safety concerns, including building security issues, and (ii) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses shall include recommendations for structural adjustments, changes in school safety procedures, and revisions to the school board's standards for student conduct.

B. The Virginia Center for School and Campus Safety, in consultation with the Department of Education, shall develop a list of items to be reviewed and evaluated in the school safety audits required by this section. Such items shall include those incidents reported to school authorities pursuant to § 22.1-279.3:1 and shall include a school inspection walk-through using a standardized checklist provided by the Virginia Center for School and Campus Safety, which shall incorporate crime prevention through environmental design principles.

The Virginia Center for School and Campus Safety shall prescribe a standardized report format for school safety audits, additional reporting criteria, and procedures for report submission, which may include instructions for electronic submission.

Each local school board shall require all schools under its supervisory control to annually conduct school safety audits, as defined in this section, consistent with such list and in collaboration with the chief law-enforcement officer of the locality or his designee. As part of each such audit, the school board shall create a detailed and accurate floor plan for each public school building in the local school division or shall certify that the existing floor plan for each such school is sufficiently detailed and accurate.

The results of such school safety audits shall be made public within 90 days of completion pursuant to this subsection. The local school board shall retain authority to withhold or limit the release of any security plans, walk-through checklists, floor plans, and specific vulnerability assessment components as provided in subdivision 4 of § 2.2-3705.2. The completed walk-through checklist shall be made available to the chief law-enforcement officer of the locality or his designee. Each school shall submit a copy of its school safety audit to the relevant school division superintendent. The division superintendent shall collate and submit all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available to the chief law-enforcement officer of the locality the results of such audits for his review and recommendations.

C. The division superintendent shall establish a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards, and judicial and public safety personnel. The school safety audit committee shall review the completed school safety audits and submit any plans, as needed, for improving school safety to the division superintendent for submission to the local school board.

D. Each school board shall ensure that every school that it supervises shall develop a written school crisis, emergency management, and medical emergency response plan, consistent with the definition provided in this section, and shall include the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the relevant regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. Each school division shall designate an emergency manager. The Department of Education and the Virginia Center for School and Campus Safety shall provide technical assistance to the school divisions of the Commonwealth in the development of the school crisis, emergency management, and medical emergency response plans that describe the components of a medical emergency response plan developed in coordination with local emergency medical services providers, the training of school personnel and students to respond to a life-threatening emergency, and the equipment required for this emergency response. The local school board, the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the relevant regional emergency medical services council, and the emergency management official of the locality, or their designees, shall annually review the written school crisis, emergency management, and medical emergency response plans. The local school board shall have the authority to withhold or limit the review of any security plans and specific vulnerability assessment components as provided in subdivision 4 of § 2.2-3705.2. The local school division superintendent shall certify this review in writing to the Virginia Center for School and Campus Safety no later than August 31 of each year.

Upon consultation with local school boards, division superintendents, the Virginia Center for School and Campus Safety, and the Coordinator of Emergency Management, the Board of Education shall develop, and may revise as it deems necessary, a model school crisis, emergency management, and medical emergency response plan for the purpose of assisting the public schools in ~~Virginia~~ *the Commonwealth* in developing viable, effective crisis, emergency management, and medical emergency response plans. Such model shall set forth recommended effective procedures and means by which parents can contact the relevant school or school division regarding the location and safety of their school children and by which school officials may contact parents, with parental approval, during a critical event or emergency.

E. Each school board shall ensure that every public school it supervises employs at least one school administrator who has completed, either in-person or online, school safety training for public school personnel conducted by the Virginia Center for School and Campus Safety in accordance with subdivision A 1 of § 9.1-184. However, such requirement shall not apply if such required training is not available online.

Each division superintendent shall annually designate an employee in the local school division as the division safety official whose duty is to receive all reports required pursuant to subsection A of § 19.2-83.1 and §§ 19.2-291.1 and 19.2-299.3 and shall include such designation in the collated packet of school safety audits submitted to the Virginia Center for School and Campus Safety pursuant to subsection B. The designation required by this subsection shall include updated contact information for the division safety official, including (i) a current mailing address, (ii) a current working daytime phone number, (iii) a current functional email address, and (iv) a current functional fax number. It shall be the duty of the division superintendent to update contact information required by this subsection within 48 hours of any change to such contact information.

§ 60.2-114. Records and reports.

A. Each employing unit shall keep true and accurate work records, containing such information as the Commission may prescribe. Such records shall be open to inspection and be subject to being copied by the Commission or its authorized representatives at any reasonable time and as often as may be necessary. The Commission may require from any employing unit any sworn or unsworn reports, with respect to persons employed by it, which the Commission deems necessary for the effective administration of this title. Notwithstanding other provisions of this section, the Commissioner, or his delegate, may, in his discretion, reveal information when such communication is not inconsistent with the proper administration of this title.

B. Notwithstanding the provisions of subsection A, the Commission shall, on a reimbursable basis, furnish wage and unemployment compensation information contained in its records to the Secretary of Health and Human Services and the Division of Child Support Enforcement of the Department of Social Services for their use as necessary for the purposes of the National Directory of New Hires established under § 453(i) of the Social Security Act.

§ 6.2-1524. Required and prohibited activities and conduct.

A. Each licensee shall maintain at all times the minimum unencumbered liquid assets prescribed by § 6.2-1507.

B. A licensee or other person subject to this chapter shall not advertise, display, distribute or broadcast, or cause or permit to be advertised, displayed, distributed or broadcast, in any manner whatsoever, any false, misleading, or deceptive statement or representation with regard to the rates, terms, or conditions for loans made under this chapter. The Commission may require that charges or rates of charge, if stated by a licensee, be stated fully and clearly in such manner as it deems necessary to prevent misunderstanding by prospective borrowers. The Commission may permit or require licensees to refer in their advertising to the fact that their business is under state supervision, subject to conditions imposed by it to prevent false, misleading, or deceptive impression as to the scope or degree of protection provided by this chapter.

C. A licensee shall not take a lien upon real estate as security for any loan made under the provisions of this chapter, except a lien arising upon rendition of a judgment. Any lien taken in violation of this subsection shall be void.

D. A licensee shall, at the time any loan is made, deliver to the borrower, or if there are two or more borrowers to one of them, a statement disclosing (i) the names and addresses of the licensee and of the principal debtor on the loan contract, and (ii) a statement in compliance with Consumer Financial Protection Bureau Regulation Z (12 C.F.R. Part 1026).

E. A licensee shall give the borrower a receipt for all cash payments. The Commission may specify the form and content of such receipts in keeping with the intent and purpose of this chapter.

F. A licensee shall permit payment to be made in advance in whole, or in part equal to one or more full installments. The licensee may apply the payment first to any amounts that are due and unpaid at the time of such payment.

G. A licensee shall, upon repayment of the loan in full, (i) mark plainly every obligation and security other than a security agreement executed by the borrower with the word "Paid" or "Canceled," (ii) mark satisfied any judgment, (iii) restore any pledge, (iv) cancel and return any note and any assignment given by the borrower to the licensee, and (v) release any security agreement or other form of security instrument that no longer secures an outstanding loan between the borrower and the licensee.

H. In the event of collection by foreclosure sale or otherwise, a licensee shall pay and return to the borrower, or to another person entitled thereto, any surplus arising after the payment of the expenses of collection, sale or foreclosure and satisfaction of the debt.

I. A licensee shall not take any confession of judgment or any power of attorney running to himself or to any third person to confess judgment or to appear for the borrower in a judicial proceeding. Any such confession of judgment or power of attorney to confess judgment shall be void.

J. A licensee shall not take any note, promise to pay, or instrument of security in which blanks are left to be filled in after execution, or that does not give the amount of the loan, a clear description of the installment payments required, and the rate of interest charged. A licensee may also include the disclosures required by Consumer Financial Protection Bureau Regulation Z (12 C.F.R. Part 1026) in the note, promise to pay, or instrument of security.

K. Every loan contract shall be in writing, be signed by the borrower, provide for repayment of the amount loaned in substantially equal monthly installments of principal and interest, and include the following statement: "This loan is made pursuant to Chapter 15 of Title 6.2 of the Code of Virginia". Nothing contained in this chapter shall prevent (i) a loan being considered a new loan because the proceeds of the loan are used to pay an existing loan contract or (ii) a licensee from entering into a loan contract providing for an odd first payment period of up to 45 days and an odd first payment greater than other monthly payments because of such odd first payment period.

L. A licensee shall include as part of every loan application a question regarding whether the potential borrower has been approached, including via telephone or electronic means, by any person to send money in consideration of receiving money via a government or lottery organization.

3. A licensee shall not obtain any agreement from the borrower (i) giving the licensee or any third person power of attorney or authority to confess judgment for the borrower; (ii) authorizing the licensee or any third party to bring suit against the borrower in a court outside the Commonwealth; or (iii) waiving the borrower's right to legal recourse or any other right the borrower has under any otherwise applicable provision of state or federal law.

4. A licensee shall not make a loan to a person if that person is obligated upon any loan to a person licensed under Chapter 22 (§ 6.2-2200 et seq.). Prior to making a loan, a licensee shall make a reasonable attempt to verify the borrower's eligibility under this subsection that includes reviewing the files of any affiliate that is licensed under Chapter 22. Unless the Commission requires otherwise by administrative rule or policy statement, a licensee may rely on the loan applicant's written representations with respect to the applicant's obligations to lenders that are licensed under Chapter 22 (§ 6.2-2200 et seq.) but are not affiliates of the licensee, and a licensee is not subject to any administrative penalty or civil liability if such representations are later determined to be inaccurate.

5. A licensee shall not cause any person to be obligated to the licensee in any capacity at any time in the principal amount of more than $2,500.

6. Except as provided in § 6.2-1818.1, a licensee shall not refinance, renew, or extend any short-term loan or make a loan to a person if the loan would cause the person to have more than one short-term loan from any licensee outstanding at the same time.

7. A licensee shall not cause a borrower to be obligated upon more than one loan at any time.

8. A check accepted by a licensee as security for any loan shall be dated no earlier than the date of the first required loan payment shown in the loan agreement.

9. Notwithstanding any provision of § 8.01-226.10 to the contrary, a licensee shall not threaten, or cause to be instigated, criminal proceedings against a borrower if a check given as security for a loan is dishonored or for any reason related to the borrower's failure to pay any sum due under a loan agreement.

10. A licensee shall not (i) accept the title or registration of a vehicle, real or personal property, or any interest in any property other than a check payable to the licensee as security for a loan; (ii) create or accept any remotely created check, as defined in 12 C.F.R. § 229.2(fff), in connection with a loan; (iii) draft funds electronically from a borrower's account without express written authorization from the borrower; or (iv) fail to stop attempts to draft funds electronically from a borrower's account upon request from the borrower or his agent. Nothing in this section shall prohibit the conversion of a negotiable instrument into an electronic form for processing through the automated clearing house system.

11. A licensee shall not present a check, negotiable order of withdrawal, share draft, or other negotiable instrument that has been previously presented by the licensee and subsequently returned dishonored for any reason, unless the licensee obtains new written authorization from the borrower to present the previously returned item.

12. A licensee shall not attempt to draft funds electronically from a borrower's account after two consecutive attempts have failed, unless the licensee obtains new written authorization from the borrower to transfer or withdraw funds electronically from the borrower's account.

13. A licensee shall not make a loan to a borrower to enable the borrower to (i) pay for any other product or service sold at the licensee's office location or (ii) repay any amount owed to the licensee or an affiliate of the licensee in connection with another credit transaction.

14. Loan proceeds shall be disbursed in cash or by the licensee's business check. No fee shall be charged by the licensee or an affiliate for cashing a loan proceeds check.

15. A check given as security for a loan shall not be negotiated to a third party.

16. Upon receipt of a check given as security for a loan, the licensee shall stamp the check with an endorsement stating: "This check is being negotiated as part of a short-term loan pursuant to Chapter 18 (§ 6.2-1800 et seq.) of Title 6.2 of the Code of Virginia, and any holder of this check takes it subject to all claims and defenses of the maker."

17. Before entering into a short-term loan, the licensee shall provide each borrower with a pamphlet, in form consistent with regulations adopted by the Commission, explaining in plain language the rights and responsibilities of the borrower and providing a toll-free number at the Commission for assistance with complaints.

18. Each licensee shall conspicuously post in each approved office (i) a schedule of fees and interest charges, which shall include examples using a $300 loan repaid in three months, a $500 loan repaid in five months, and a $1,000 loan repaid in 10 months, and (ii) a notice containing the following statement: "If you wish to file a complaint against us, you may contact the Bureau of Financial Institutions at [insert contact information]." The Commission shall furnish licensees with the appropriate contact information.

19. A licensee shall not knowingly make a short-term loan to a person who is a member of the military services of the United States or the spouse or other dependent of a member of the military services of the United States. Prior to making a short-term loan, every licensee shall inquire of every prospective borrower if he is a member of the military services of the United States or the spouse or other dependent of a member of the military services of the United States. The loan documents shall include verification that the borrower is not a member of the military services of the United States or the spouse or other dependent of a member of the military services of the United States.

20. In collecting or attempting to collect a short-term loan, a licensee shall comply with the restrictions and prohibitions applicable to debt collectors contained in the Fair Debt Collection Practices Act (15 U.S.C. § 1692 et seq.) regarding harassment or abuse, false or misleading misrepresentations, and unfair practices in collections.

21. A licensee shall not contact a borrower for any reason other than (i) for the borrower's benefit regarding upcoming payments, options for obtaining loans, payment options, payment due dates, the effect of default, or, after default, receiving payments or other actions permitted by the licensee; (ii) to advise the borrower of missed payments or dishonored checks; or (iii) to assist the transmittal of payments via a third-party mechanism.

22. A short-term loan agreement shall not be sold or otherwise assigned to any other person who is not also a licensee, and if a loan agreement or its servicing is sold or assigned to another licensee, the buyer or assignee of the loan agreement shall be subject to the same obligations under this chapter that apply to the selling or assigning licensee. If a licensee sells or assigns a short-term loan or its servicing, the licensee shall provide to the borrower written notice and the information needed to make future payments no later than 10 days before the borrower's next payment due date.

23. A licensee shall not make a loan to a borrower that includes an acceleration clause or demand feature that permits the licensee, in the event the borrower fails to meet the repayment terms for any outstanding balance, to terminate the loan in advance of the original maturity date and to demand repayment of the entire outstanding balance, unless both of the following conditions are met: (i) not earlier than 10 days after the borrower's payment was due, the licensee provides written notice to the borrower of the termination of the loan and (ii) in addition to the outstanding balance, the licensee collects only prorated interest and the fees earned up to termination of the loan. For purposes of this subdivision, the outstanding balance and prorated interest and fees shall be calculated as if the borrower had voluntarily prepaid the loan in full on the date of termination.

24. A licensee may not file or initiate a legal proceeding of any kind against a borrower until 60 days after the date of default on a short-term loan, during which period the licensee and borrower may voluntarily enter into a repayment arrangement.

25. A licensee shall not recommend to a borrower that the borrower obtain a loan for a dollar amount that is higher than the borrower has requested.

26. A licensee may not engage in any unfair, misleading, deceptive, or fraudulent acts or practices in the conduct of its business.

27. A licensee shall include as part of every loan application a question regarding whether the potential borrower has been approached, including via telephone or electronic means, by any person to send money in consideration of receiving money via a government or lottery organization.

2. That the provisions of this act shall become effective on January 1, 2024.

An organization that is otherwise qualified for exemption under this subsection that solicits by means of a local publication, or radio or television station, shall not be disqualified solely because the circulation or range of such medium extends beyond the boundaries of such cities or counties.

C. No charitable or civic organization shall be exempt under this section unless it submits to the Commissioner, who in his discretion may extend such filing deadline prospectively or retrospectively for good cause shown, on forms to be prescribed by him, the name, address and purpose of the organization and a statement setting forth the reason for the claim for exemption. Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4304 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4304. Joint and cooperative procurement.

A. Any public body may participate in, sponsor, conduct, or administer a joint procurement agreement on behalf of or in conjunction with one or more other public bodies, or public agencies or institutions or localities of the several states, of the United States or its territories, the District of Columbia, the U.S. General Services Administration, or the Metropolitan

Washington Council of Governments, for the purpose of combining requirements to increase efficiency or reduce administrative expenses in any acquisition of goods, services, or construction.

B. In addition, a public body may purchase from another public body's contract or from the contract of the Metropolitan Washington Council of Governments or the Virginia Sheriffs' Association even if it did not participate in the request for proposal or invitation to bid, if the request for proposal or invitation to bid specified that the procurement was a cooperative procurement being conducted on behalf of other public bodies, except for:

CHAPTER 292

An Act to amend and reenact § 58.1-3965 of the Code of Virginia, relating to delinquent tax lands.

[H 2110]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3965 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3965. When land may be sold for delinquent taxes; notice of sale; owner's right of redemption.

A. When any taxes on any real estate in a locality are delinquent on December 31 following the second anniversary of the date on which such taxes have become due, or, in the case of real property upon which is situated (i) any structure that has been condemned by the local building official pursuant to applicable law or ordinance; (ii) any nuisance as that term is defined in § 15.2-900; (iii) any derelict building as that term is defined in § 15.2-907.1; or (iv) any property that has been declared to be blighted as that term is defined in § 36-49.1:1, the first anniversary of the date on which such taxes have become due, such real estate may be sold for the purpose of collecting all delinquent taxes on such property.

However, in a qualifying locality, as defined in § 58.1-3221.6, whenever (a) taxes on any real estate in the locality are delinquent upon the expiration of six months following the date on which such taxes became due and (b) the locality has incurred abatement costs which remain unpaid upon the expiration of six months following the date on which the abatement costs were first incurred, real estate meeting the conditions described in clause (i), (ii), (iii), or (iv) may be sold for the purpose of collecting all delinquent taxes and abatement costs on such property. For the purposes of this section, "abatement costs" means costs incurred by a locality that result from the conditions described in clause (i), (ii), (iii), or (iv).

Upon a finding by the court, on real estate with an assessed value of $100,000 or less in any locality, that (a) any taxes on such real estate are delinquent on December 31 following the first anniversary of the date on which such taxes have become due or (b) there is a lien on such real estate pursuant to § 15.2-900, 15.2-906, 15.2-907, 15.2-907.1, 15.2-908.1, or 36-49.1:1, which lien remains unpaid on December 31 following the first anniversary of the date on which such lien was recorded, the property shall be deemed subject to sale by public auction pursuant to proper notice under this subsection.

The officer charged with the duty of collecting taxes for the locality wherein the real property lies shall, at least 30 days prior to instituting any judicial proceeding pursuant to this section, send a notice to (1) the last known address of the property owner as such owner and address appear in the records of the treasurer, (2) the property address if the property address is different from the owner's address and if the real estate is listed with the post office by a numbered and named street address and (3) the last known address of any trustee under any deed of trust, mortgagee under any mortgage and any other lien creditor, if such trustee, mortgagee or lien creditor is not otherwise made a party defendant under § 58.1-3967, advising such property owner, trustee, mortgagee or other lien creditor of the delinquency and the officer's intention to take action. Such notice shall advise the taxpayer that the taxpayer may request the treasurer to enter into a payment agreement to permit the payment of the delinquent taxes, interest, and penalties over a period not to exceed ~~60~~ *72* months in accordance with the provisions of subsection C. Such officer shall also cause to be published at least once a list of real estate which will be offered for sale under the provisions of this article in a newspaper of general circulation in the locality, at least 30 days prior to the date on which judicial proceedings under the provisions of this article are to be commenced.

The pro rata cost of such publication shall become a part of the tax and together with all other costs, including reasonable ~~attorneys'~~ *attorney* fees set by the court and the costs of any title examination conducted in order to comply with the notice requirements imposed by this section, shall be collected if payment is made by the owner in redemption of the real property described therein whether or not court proceedings have been initiated. A notice substantially in the following form shall be sufficient:

Notice

Judicial Sale of Real Property

On _____ (date) _____ proceedings will be commenced under the authority of § 58.1-3965 et seq. of the Code of Virginia to sell the following parcels for payment of delinquent taxes:

(description of properties)

B. The owner of any property listed may redeem it at any time before the date of the sale by paying all accumulated taxes, penalties, reasonable ~~attorneys'~~ *attorney* fees, interest and costs thereon, including the pro rata cost of publication hereunder. Partial payment of delinquent taxes, penalties, reasonable ~~attorneys'~~ *attorney* fees, interest or costs shall not be sufficient to redeem the property, and shall not operate to suspend, invalidate or make moot any action for judicial sale brought pursuant to this article.

C. Notwithstanding the provisions of subsection B and of § 58.1-3954, the treasurer or other officer responsible for collecting taxes may suspend any action for sale of the property commenced pursuant to this article (i) upon entering into an agreement with the owner of the real property for the payment of all delinquent amounts in installments over a period that is reasonable under the circumstances, but that in no event shall exceed ~~60~~ *72* months, or (ii) upon written notice by an individual, not a party to the action, asserting ownership rights in the property that is the subject of the action arising by virtue of testate or intestate succession, to the treasurer or other officer responsible for collecting taxes. The treasurer or other officer responsible for collecting taxes shall promptly advise the court of such claim and seek leave to add the individual asserting the claim as a party in the action. If the court determines that the individual asserting the claim possesses an ownership interest in the property that is the subject of the action, such individual may, within 30 days of the court's finding, enter into an agreement with the treasurer or other official responsible for collecting taxes for the payment of all delinquent amounts in installments over a period that is reasonable under the circumstances, but that in no event shall exceed ~~60~~ *72* months. Any agreement under this subsection shall provide for the payment of current tax obligations as they come due, which payments shall be credited to current tax obligations notwithstanding the provisions of § 58.1-3913 and shall be secured by the lien of the locality pursuant to § 58.1-3340.

D. During the pendency of any installment agreement permitted under subsection C, any proceeding for a sale previously commenced shall not abate, but shall be continued on the docket of the court in which such action is pending. It

shall be the duty of the treasurer or other officer responsible for collecting taxes to promptly notify the clerk of such court when obligations arising under such an installment agreement have been fully satisfied. Upon the receipt of such notice, the clerk shall cause the action to be stricken from the docket.

E. In the event the owner of the property or other responsible person defaults upon obligations arising under an installment agreement permitted by subsection C, or during the term of any installment agreement, defaults on any current obligation as it becomes due, such agreement shall be voidable by the treasurer or other officer responsible for collecting taxes upon 15 days' written notice to the signatories of such agreement irrespective of the amount remaining due. Any action for the sale previously commenced pursuant to this article may proceed without any requirement that the notice or advertisement required by subsection A, which had previously been made with respect to such property, be repeated. No owner of property which has been the subject of a defaulted installment agreement shall be eligible to enter into a second installment agreement with respect to the same property within three years of such default.

F. Any corporate, partnership or limited liability officer, as those terms are defined in § 58.1-1813, who willfully fails to pay any tax being enforced by this section, shall, in addition to other penalties provided by law, be liable to a penalty of the amount of the tax not paid, to be assessed and collected in the same manner as such taxes are assessed and collected.

G. During the pendency of the action, the circuit court in which the action is pending may, on its own motion or on the motion of any party, refer the parties to a dispute resolution proceeding pursuant to the provisions of Chapter 20.2 (§ 8.01-576.4 et seq.) of Title 8.01.

H. In any case in which real estate subject to delinquent taxes is situated in two or more jurisdictions, a suit to sell the entirety of the real estate pursuant to this article may be brought in a single jurisdiction provided that (i) taxes are delinquent in all jurisdictions for periods not less than the minimum applicable periods set forth in subsection A and (ii) the treasurer of each jurisdiction within which the property is situated consents to the suit.

The suit shall identify the taxes, penalties, interest, and other charges due in each jurisdiction. The publications and notices required pursuant to this section shall identify each of the jurisdictions in which the property is situated. Upon sale of the property, the order confirming the sale shall provide for the payment of taxes, penalties, interest, and other charges to each jurisdiction, and copies of the order confirming the sale and the deed conveying the property to the purchaser shall be recorded among the land records of the clerk's office of the circuit court for each jurisdiction within which the property that is the subject of the suit is situated. No final order confirming sale shall be entered sooner than 90 days following the provision of notice to parties in accordance with subsection A or, if later, 90 days following the receipt of notice by the treasurer or other official responsible for collecting taxes from an individual, not previously made a party to the action, in accordance with clause (ii) of subsection C.

2. Ensure that all persons served by the notification center receive an acceptable level of performance, which level shall be maintained throughout the period of the notification center's certification; and

3. Require the notification center and its agents to demonstrate financial responsibility for any damages that may result from their violation of any provision of this chapter. Such requirement may be met by purchasing and maintaining liability insurance on such terms and in such amount as the Commission deems appropriate.

E. A notification center shall maintain ~~an excavator-operator information exchange~~ *a positive response* system in accordance with notification center certification regulations promulgated by the Commission. The members of a notification center shall be responsible for developing and implementing a public awareness program to ensure that all parties affected by this chapter shall be aware of their responsibilities. There shall be only one notification center certified for each geographic area defined by the Commission.

§ 56-265.17. Notification required prior to excavation or demolition; waiting periods; marking of proposed site.

A. ~~Except as provided in subsection G, no~~ *No* person~~,~~ ~~including operators,~~ shall make or begin any excavation or demolition without first ~~notifying~~ *submitting a locate request to* the notification center ~~for that area~~. ~~Notice to the notification center~~ *Submission of a locate request* shall be deemed to be notice to each operator who is a member of the notification center. The notification center shall provide the excavator with the identity of utilities that will be notified of the proposed excavation or demolition. Except for counties, cities, and towns, an excavator who willfully fails to ~~notify the notification center of~~ *submit a locate request for a* proposed excavation or demolition shall be liable to the operator whose facilities are damaged by that excavator, for three times the cost to repair the damaged property, provided *that* the operator is a member of the notification center. The total amount of punitive damages awarded under this section, as distinguished from actual damages, shall not exceed $10,000 in any single cause of action.

B. Except in the case of an emergency as defined in § 56-265.15 *or in cases subject to subsection C*, the excavator ~~may~~ *shall only* commence work ~~under one of the following conditions~~:

1. After ~~waiting forty-eight hours, beginning 7:00 a.m. the next working day following notice to the notification center;~~

~~2. At any time, if the excavator confirms that all applicable operators have either marked their underground utility lines or reported that no lines are present in the vicinity of the excavation or demolition. The confirmation shall be obtained by contacting or receiving information from the notification center's excavator-operator information exchange system~~ *the*

excavator has confirmed, by reviewing the positive response information posted on the notification center's positive response system, that each operator has marked its utility lines, notified the notification center that its utility lines are not present in the area of proposed excavation, or otherwise posted a positive response indicating excavation may begin; or

~~3.~~ *2.* If informed by the notification center that no operators are to be notified.

If any operator fails to respond to the ~~excavator-operator information exchange~~ *positive response* system as required by this chapter, the notification center shall renotify any operator of its failure. This renotification shall not constitute an exemption from the duties of the operator set forth in § 56-265.19.

C. ~~The excavator shall exercise due care at all times to protect underground utility lines. If, upon arrival at the site of a proposed excavation~~ *after at least 48 hours beginning with 7:00 a.m. the next working day following a locate request or on the date of excavation*, the excavator*, upon arrival at the site of a proposed excavation,* observes clear evidence of the presence of an unmarked utility line in the area of the proposed excavation, the excavator shall not begin excavating until three hours after an additional ~~call~~ *contact* is made to the notification center for the area*, provided that no information has been posted to the positive response system or information posted to the positive response system is inconsistent with the clear evidence observed by the excavator.*

The operator of any unmarked utility line shall respond within three hours of the excavator's ~~call~~ *contact* to the notification center. *After the clear evidence of an unmarked utility line is addressed pursuant to the additional contact to the notification center, excavation may proceed. During any excavation subject to this subsection, the excavator shall exercise reasonable care at all times to protect underground utility lines and shall be liable for any damages.*

D. The excavator's notification shall be valid for ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request or 15 working days following a scheduled excavation date provided to the notification center, whichever is later*. Three working days before the end of the ~~fifteen-working-day~~ *15-working-day* period, or at any time when line-location markings on the ground become illegible, the excavator intending to excavate shall contact the notification center and request the re-marking of lines. The operator shall re-mark the lines as soon as possible; however, the re-marking of the lines shall be completed within ~~forty-eight~~ *48* hours from 7:00 a.m. on the next working day following the request for the re-mark. Such re-marking shall be valid for an additional ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request.*

E. ~~In the event~~ *If* a specific location of the excavation cannot be given as required by subdivision 2 of § 56-265.18, prior to notifying the notification center pursuant to subsection A ~~of this section~~, the person proposing to excavate or demolish shall mark the route or boundary of the site of the proposed excavation or demolition by means of white paint, if practical.

F. The extent of the excavator's proposed ~~work~~ *excavation or demolition* shall be a work area that can be excavated within ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request.* The area covered under each ~~notice~~ *locate request* shall not exceed ~~one~~ *one-third of a* mile.

~~G. An excavator may request a special project notice from the notification center for the purpose of notifying the operators of the excavator's desire to enter into an agreement for locating and protecting the operator's underground utility lines for a specific, unique or long-term project. An excavator using a special project notice shall have complete control over all activities within the project area. The terms and conditions of such agreements must be agreed upon, in writing, by the excavator and the operator before excavation commences. Such agreement and compliance with the terms of the agreement shall constitute an exemption from the requirements of subsections A, B, C, D and E of this section.~~

§ 56-265.17:3. Procedures for operators in response to a designer notice.

An operator, upon notification by a designer in accordance with § 56-265.17:1, shall:

1. Respond to the designer's request for underground utility line information within ~~fifteen~~ *15* working days in accordance with subdivisions 2, 3, and 4 ~~of this section~~;

2. Provide designers with the operator's name, the type of underground utility line, and the approximate horizontal location of the utility line. The foregoing information may be provided to the designer through the means that include~~, but are not limited to,~~ field locates, maps, surveys, installation records or other means. ~~If the designer requests field locates, the operator shall provide field locates in accordance with the accuracy set forth in subsection A of § 56-265.19.~~ Marking shall be done by both paint and flags whenever possible;

3. Provide such information about the location of the utility lines to designers for informational purposes only. Operators will not be liable for any incorrect information provided or for the subsequent use of this information, nor will they be subject to civil penalties for the accuracy of the information or marks provided. Any concerns about the accuracy of information or marks should be directed to the appropriate operator; and

4. Respond to the ~~operator-excavator information exchange~~ *positive response* system by no later than 7:00 a.m. on the sixteenth working day following the designer's ~~notice to the notification center~~ *locate request*.

§ 56-265.18. Notification requirements.

Every *locate request and designer* notice served by any person on ~~a~~ *the* notification center shall contain the following information:

1. The name of the individual serving such notice.

2. The specific location of the proposed ~~work~~ *excavation or demolition*. ~~In the event~~ *If* a specific description of the location of the excavation cannot be given, the person proposing to excavate or demolish shall comply with subsection E of § 56-265.17.

3. The name, *physical* address, telephone number, and ~~telefacsimile number~~ *electronic mailing address,* if available, of the excavator or demolisher, to whom notification can be given.

4. The excavator's or demolisher's field telephone number *and*, if ~~one is~~ available*, electronic mailing address*.

5. The type and extent of the proposed ~~work~~ *excavation or demolition*.

6. The name of the person for whom the proposed ~~work~~ *excavation or demolition* is being performed.

§ 56-265.19. Duties of operator; regulations.

A. If a proposed excavation or demolition is planned in such proximity to the underground utility line that the utility line may be destroyed, damaged, dislocated, or disturbed, the operator shall mark the approximate horizontal location of the underground utility line on the ground to within two feet of either side of the underground utility line by means of stakes, paint, flags, or a combination thereof. The operator *or contract locator* shall mark the underground utility line and report the marking status to the ~~excavator operator information exchange~~ *positive response* system by no later than 7:00 a.m. on the third working day following the excavator's ~~notice to the notification center~~ *locate request*, unless *a scheduled excavation date is provided by the excavator to the notification center or* the operator *or contract locator* is unable to do so due to extraordinary *or exigent* circumstances. *Any scheduled excavation date shall not be less than 48 hours nor more than 12 working days from the date of the locate request. If a scheduled excavation date is provided by the excavator to the notification center, the operator or contract locator shall mark the underground utility line and report the marking status to the positive response system by no later than 7:00 a.m. on the scheduled day of excavation. Any locate request made on a day that is not a working day shall be considered as having been submitted to the notification center on the next working day at 7:00 a.m.* If the operator is unable to mark the location within the time allowed under this section due to extraordinary *or exigent* circumstances, the operator shall notify directly the person who proposes to excavate or demolish and shall, in addition, notify the person of the date and time when the location will be marked. The deferral to mark for extraordinary *or exigent* circumstances shall be no longer than 96 hours from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *the locate request*, unless a longer time is otherwise agreed upon by the operator and excavator. The operator shall also inform the notification center of any deferral.

B. If a proposed excavation or demolition is not planned in such proximity to the operator's underground utility lines that the utility line may be damaged, the operator shall so report to the notification center's ~~excavator operator information exchange~~ *positive response* system no later than 7:00 a.m. on the third working day following the excavator's ~~notice to the notification center~~ *locate request*.

C. An operator shall participate in all preplanning and preconstruction meetings originated by state, county or municipal authorities relating to proposed construction projects which may affect the operator's existing or future utility lines and shall cooperate in implementing decisions reached in such preplanning and preconstruction meetings.

D. Any contract locator acting on behalf of an operator and failing to perform the duties imposed by this chapter shall be subject to the liabilities in § 56-265.25 and the civil penalties in § 56-265.32.

E. Locators shall be trained in applicable locating industry standards and practices no less stringent than the National Utility Locating Contractors Association's locator training standards and practices. Each locator's training shall be documented. Such documents shall be maintained by the operator or contract locator.

F. The Commission shall be authorized to adopt regulations designating: (i) letters for each operator to be used in conjunction with marking of underground utility lines, and (ii) symbols for marking of underground utility lines, in compliance with ~~subsection B~~ *subdivision 2* of § 56-265.17:3. Such letter designation and marking symbols shall be in accordance with industry standards.

G. For underground utility lines abandoned after July 1, 2002, operators shall make a reasonable attempt to keep records of these abandoned utility lines, excluding service lines connected to a single-family dwelling unit. When an operator has knowledge that the operator's abandoned utility lines may be present within the area of the proposed excavation, the operator shall provide a response to the ~~excavator operator information exchange~~ *positive response* system. Such information regarding abandoned lines shall be for informational purposes only. An operator shall not be liable to any person, or subject to civil penalties, as a result of the operator's providing incorrect information regarding abandoned lines or the subsequent use of such information. The ~~excavator operator information exchange~~ *positive response* system may refer any person with concerns about the accuracy of information regarding abandoned lines to the appropriate operator.

H. An operator shall respond to an emergency notice as soon as possible but no later than three hours from the excavator's ~~call~~ *contact* to the notification center.

§ 56-265.22. Duties of notification center upon notification by person intending to excavate; record of notification made by telephone required.

A. The notification center shall, upon receiving notice by a person, notify all member operators whose ~~underground~~ *utility* lines are ~~located~~ *present* in the area of the proposed project, excavation*,* or demolition. The notification center shall also indicate the names of those operators being notified to the person providing notice.

B. If the notification required by this chapter is made by telephone, a record of such notification shall be maintained by the operators or notification center notified to document compliance with the requirements of this chapter, and such records shall be maintained in compliance with the applicable statute of limitations.

C. The notification center shall notify excavators, within the time frame allowed by the law to mark underground utility lines, of any responses placed on the ~~excavator operator information exchange~~ *positive response* system by a locator.

Such notification shall occur by ~~facsimile or other~~ mutually acceptable means of automatically transmitting and receiving this information.

If the excavator cannot provide the notification center with ~~a facsimile number or other~~ mutually acceptable means of automatically transmitting and receiving this information, it shall be the excavator's responsibility to contact the ~~excavator-operator information exchange~~ *positive response* system after the period allowed by law to mark underground facilities and prior to commencing excavation in order to determine if any responses to the notice have been recorded.

§ 56-265.24. Duties of excavator.

A. *No excavator shall begin any excavation or demolition before reviewing and heeding the positive response marking status of the excavation area.* Any person excavating within two feet on either side of the staked or marked location of an operator's underground utility line or demolishing in such proximity to an underground utility line that the utility line may be destroyed, damaged, dislocated or disturbed shall take all reasonable steps necessary to properly protect, support and backfill underground utility lines. For excavations not parallel to an existing underground utility line, such steps shall include, but may not be limited to:

1. Exposing the underground utility line to its extremities by hand digging;

2. Not utilizing mechanized equipment within two feet of the extremities of all exposed utility lines; and

3. Protecting the exposed utility lines from damage.

In addition, for excavations parallel to an existing utility line, such steps shall include, but may not be limited to, hand digging at reasonable distances along the line of excavation. The excavator shall exercise due care at all times to protect underground utility lines when exposing these lines by hand digging.

B. If the markings locating the underground lines become illegible due to time, weather, construction, or any other cause, the person performing the excavation or demolition shall so notify the notification center for the area. Such notification shall constitute an extension under subsection D of § 56-265.17.

C. If, *after at least 48 hours beginning with 7:00 a.m. the next working day following a locate request or on the date of excavation,* upon arrival at the site of a proposed excavation, the excavator observes clear evidence of the presence of an unmarked utility line in the area of the proposed excavation, the excavator shall not begin excavating until *three hours after* an additional ~~call~~ *contact* is made to the notification center for the area pursuant to subsection ~~B~~ *C* of § 56-265.17 *and the excavator has verified that no information has been posted to the positive response system or information posted to the positive response system is inconsistent with the clear evidence observed by the excavator*.

D. In the event of any damage to, or dislocation, or disturbance of any underground utility line including its appurtenances, covering, and coating, in connection with any excavation or demolition, the person responsible for the excavation or demolition operations shall immediately notify the operator of the underground utility line and shall not backfill around the underground utility line until the operator has repaired the damage or has given clearance to backfill. The operator shall either commence repair of the damage or give clearance to backfill within twenty-four hours, and upon his failure to commence or prosecute with diligence such repair or give clearance, the giving of clearance shall be presumed.

E. If the damage, dislocation, or disturbance of the underground utility line creates an emergency, the person responsible for the excavation or demolition shall, in addition to complying with subsection D ~~of this section~~, take immediate steps reasonably calculated to safeguard life, health and property.

F. With the exception of designers requesting marking of a site, in accordance with § 56-265.17, no person, including operators, shall request marking of a site through a notification center unless excavation shall commence within thirty working days from the date of the original notification to the notification center. Except for counties, cities, and towns, any person who willfully fails to comply with this subsection shall be liable to the operator for three times the cost of marking its utility line, not to exceed $1,000.

G. Any person performing excavation or demolition shall provide to the operator of the underground utility line in the area of excavation or to the appropriate regulatory authority having jurisdiction, the number issued by the notification center for that excavation site in response to the excavator's notice, within one hour of a request for the number issued by the notification center.

H. If an excavator discovers an unmarked line, the excavator shall protect this line pursuant to subsection C ~~of this section~~. An excavator shall not remove an abandoned line without first receiving authorization to do so by the operator.

§ 56-265.24:1. Request to cease operation; immediate threat; penalty.

Notwithstanding the provisions of § 56-265.15:1, any person, as defined in § 56-265.15, who knowingly and intentionally excavates after being notified by a representative of the Commission of a determination that such excavation constitutes an immediate threat to safety or property and such representative requests that excavation cease is guilty of a Class 6 felony. The representative of the Commission shall immediately notify the agency with primary law-enforcement authority over the area of excavation, as well as the fire marshal, (i) that such excavation site is a threat to safety or property and (ii) of the request to cease excavation.

§ 56-265.31. Commission to establish advisory committee.

A. The Commission shall establish an advisory committee consisting of representatives of the following entities: Commission staff, utility operator, notification center, excavator, municipality, Virginia Department of Transportation, Board for Contractors, and underground line locator. Persons appointed to the advisory committee by the Commission shall have expertise with the operation of the Underground Utility Damage Prevention Act. The advisory committee shall perform duties which may be assigned by the Commission, including ~~the review of~~ *reviewing* reports of violations of the

chapter, *establishing positive response codes for use by the notification center's positive response system,* and ~~make~~ *making* recommendations to the Commission.

B. The members of the advisory committee shall be immune, individually and jointly, from civil liability for any act or omission done or made in performance of their duties while serving as members of such advisory committee, but only in the absence of willful misconduct.

§ 56-265.32. Commission to impose civil penalties for certain violations; establishment of Underground Utility Damage Prevention Special Fund.

A. The Commission may, by judgment entered after a hearing on notice duly served on any person not less than 30 days before the date of the hearing, impose a civil penalty not exceeding ~~$2,500~~ *$10,000* for each violation *of subsection A of § 56-265.17 and $5,000 for all other violations of this chapter*, if it is proved that the person violated any of the provisions of this chapter as a result of a failure to exercise reasonable care. Any proceeding or civil penalty undertaken pursuant to this section shall not prevent nor preempt the right of any party to obtain civil damages for personal injury or property damage in private causes of action. This subsection shall not authorize the Commission to impose civil penalties on any county, city, town, or other political subdivision. However, the Commission shall inform the counties, cities, towns, and other political subdivisions of reports of alleged violations involving the locality or political subdivision and, at the request of the locality or political subdivision, suggest corrective action.

B. If the Commission asserts there is recurring noncompliance with any of the provisions of this chapter by a county, city, town, or other political subdivision, the Commission, upon written notice to the chairman of such operator's board or, in the case of a city or town, the mayor of such operator's council, and to such operator's chief executive officer, may require a written response by such person or his designee. Such response shall be made within 30 days of the operator's receipt of written notice from the Commission. The response shall confirm that the operator will comply promptly or explain why it disputes any assertion by the Commission of noncompliance. If the operator is not able to return to compliance promptly, the operator shall describe its plan to achieve compliance in a corrective action plan to be submitted to the Commission no later than 60 days after the receipt of the written notice. Following submittal of a corrective action plan, the Commission may convene a hearing for the purpose of receiving additional evidence, determining whether noncompliance has occurred, and determining further suggested corrective action. The Commission may also convene such a hearing if the operator fails to provide a written response or a corrective action plan as required by this subsection, or provides a response that disputes the Commission's assertions. Nothing in this section shall limit the Commission's powers under this chapter with respect to persons who are not counties, cities, towns, or political subdivisions of the Commonwealth.

C. The Underground Utility Damage Prevention Special Fund (hereinafter referred to as Special Fund) is hereby established as a revolving fund to be used by the Commission for administering the regulatory program authorized by this chapter. The Special Fund shall be composed entirely of funds generated by *and for* the enforcement of this chapter. *Enforcement of this chapter also includes education and outreach provided by the Commission for training and educational programs for excavators, operators, utility line locators, and other persons.* Excess funds shall be used to support any one or more of the following: (i) public awareness programs established by a notification center pursuant to subsection B of § 56-265.16:1; (ii) training and education programs for excavators, operators, line locators, and other persons; and (iii) programs providing incentives for excavators, operators, line locators, and other persons to reduce the number and severity of violations of the Act. The Commission shall determine the appropriate allocation of any excess funds among such programs, and shall establish required elements for any program established under clause (ii) or (iii).

D. All civil penalties collected pursuant to this section shall be deposited into the Underground Utility Damage Prevention Special Fund. Interest earned on the fund shall be credited to the Special Fund. The Special Fund shall be established on the books of the Commission comptroller and any funds remaining in the Underground Utility Damage Prevention Special Fund at the end of the fiscal year shall not revert to the general fund, but shall remain in the Special Fund.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

B. Every notification center shall be certified by the Commission. The Commission shall determine the optimum number of notification centers in the Commonwealth. If the Commission determines that there shall be more than one notification center in the Commonwealth, it shall define the geographic area to be served by each notification center.

C. Any corporation desiring to serve as the notification center for an area of the Commonwealth may apply to the Commission to be certified as the notification center for that area. The Commission shall have authority to grant, amend, or revoke certificates under regulations promulgated relating to certification. An application for certification shall include such information as the Commission may reasonably require addressing the applicant's operational plan for the notification center.

D. Every Commission action regarding the optimum number of notification centers, the geographic area to be served by each notification center, the promulgation of notification center certification regulations, and the grant, amendment, or revocation of notification center certifications shall be made in furtherance of the purpose of preventing or mitigating loss of, or damage to, life, health, property or essential public services resulting from damage to underground utility lines. Any action by the Commission to approve or revoke any notification center certification shall:

1. Ensure protection for the public from the hazards that this chapter is intended to prevent or mitigate;

2. Ensure that all persons served by the notification center receive an acceptable level of performance, which level shall be maintained throughout the period of the notification center's certification; and

3. Require the notification center and its agents to demonstrate financial responsibility for any damages that may result from their violation of any provision of this chapter. Such requirement may be met by purchasing and maintaining liability insurance on such terms and in such amount as the Commission deems appropriate.

E. A notification center shall maintain ~~an excavator-operator information exchange~~ *a positive response* system in accordance with notification center certification regulations promulgated by the Commission. The members of a notification center shall be responsible for developing and implementing a public awareness program to ensure that all parties affected by this chapter shall be aware of their responsibilities. There shall be only one notification center certified for each geographic area defined by the Commission.

§ 56-265.17. Notification required prior to excavation or demolition; waiting periods; marking of proposed site.

A. ~~Except as provided in subsection G, no~~ *No* person~~,~~ ~~including operators,~~ shall make or begin any excavation or demolition without first ~~notifying~~ *submitting a locate request to* the notification center ~~for that area~~. ~~Notice to the notification center~~ *Submission of a locate request* shall be deemed to be notice to each operator who is a member of the notification center. The notification center shall provide the excavator with the identity of utilities that will be notified of the proposed excavation or demolition. Except for counties, cities, and towns, an excavator who willfully fails to ~~notify the notification center of~~ *submit a locate request for a* proposed excavation or demolition shall be liable to the operator whose

facilities are damaged by that excavator, for three times the cost to repair the damaged property, provided *that* the operator is a member of the notification center. The total amount of punitive damages awarded under this section, as distinguished from actual damages, shall not exceed $10,000 in any single cause of action.

B. Except in the case of an emergency as defined in § 56-265.15 *or in cases subject to subsection C*, the excavator ~~may~~ *shall only* commence work ~~under one of the following conditions~~:

1. After ~~waiting forty-eight hours, beginning 7:00 a.m. the next working day following notice to the notification center;~~

~~2. At any time, if the excavator confirms that all applicable operators have either marked their underground utility lines or reported that no lines are present in the vicinity of the excavation or demolition. The confirmation shall be obtained by contacting or receiving information from the notification center's excavator-operator information exchange system~~ *the excavator has confirmed, by reviewing the positive response information posted on the notification center's positive response system, that each operator has marked its utility lines, notified the notification center that its utility lines are not present in the area of proposed excavation, or otherwise posted a positive response indicating excavation may begin*; or

~~3.~~ *2.* If informed by the notification center that no operators are to be notified.

If any operator fails to respond to the ~~excavator-operator information exchange~~ *positive response* system as required by this chapter, the notification center shall renotify any operator of its failure. This renotification shall not constitute an exemption from the duties of the operator set forth in § 56-265.19.

C. ~~The excavator shall exercise due care at all times to protect underground utility lines.~~ If, ~~upon arrival at the site of a proposed excavation~~ *after at least 48 hours beginning with 7:00 a.m. the next working day following a locate request or on the date of excavation*, the excavator*, upon arrival at the site of a proposed excavation,* observes clear evidence of the presence of an unmarked utility line in the area of the proposed excavation, the excavator shall not begin excavating until three hours after an additional ~~call~~ *contact* is made to the notification center for the area*, provided that no information has been posted to the positive response system or information posted to the positive response system is inconsistent with the clear evidence observed by the excavator*.

The operator of any unmarked utility line shall respond within three hours of the excavator's ~~call~~ *contact* to the notification center. *After the clear evidence of an unmarked utility line is addressed pursuant to the additional contact to the notification center, excavation may proceed. During any excavation subject to this subsection, the excavator shall exercise reasonable care at all times to protect underground utility lines and shall be liable for any damages.*

D. The excavator's notification shall be valid for ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request or 15 working days following a scheduled excavation date provided to the notification center, whichever is later*. Three working days before the end of the ~~fifteen-working-day~~ *15-working-day* period, or at any time when line-location markings on the ground become illegible, the excavator intending to excavate shall contact the notification center and request the re-marking of lines. The operator shall re-mark the lines as soon as possible; however, the re-marking of the lines shall be completed within ~~forty-eight~~ *48* hours from 7:00 a.m. on the next working day following the request for the re-mark. Such re-marking shall be valid for an additional ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request*.

E. ~~In the event~~ *If* a specific location of the excavation cannot be given as required by subdivision 2 of § 56-265.18, prior to notifying the notification center pursuant to subsection A ~~of this section~~, the person proposing to excavate or demolish shall mark the route or boundary of the site of the proposed excavation or demolition by means of white paint, if practical.

F. The extent of the excavator's proposed ~~work~~ *excavation or demolition* shall be a work area that can be excavated within ~~fifteen~~ *15* working days from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *a locate request*. The area covered under each ~~notice~~ *locate request* shall not exceed ~~one~~ *one-third of a* mile.

~~G. An excavator may request a special project notice from the notification center for the purpose of notifying the operators of the excavator's desire to enter into an agreement for locating and protecting the operator's underground utility lines for a specific, unique or long-term project. An excavator using a special project notice shall have complete control over all activities within the project area. The terms and conditions of such agreements must be agreed upon, in writing, by the excavator and the operator before excavation commences. Such agreement and compliance with the terms of the agreement shall constitute an exemption from the requirements of subsections A, B, C, D and E of this section.~~

§ 56-265.17:3. Procedures for operators in response to a designer notice.

An operator, upon notification by a designer in accordance with § 56-265.17:1, shall:

1. Respond to the designer's request for underground utility line information within ~~fifteen~~ *15* working days in accordance with subdivisions 2, 3, and 4 ~~of this section~~;

2. Provide designers with the operator's name, the type of underground utility line, and the approximate horizontal location of the utility line. The foregoing information may be provided to the designer through the means that include~~, but are not limited to,~~ field locates, maps, surveys, installation records or other means. ~~If the designer requests field locates, the operator shall provide field locates in accordance with the accuracy set forth in subsection A of § 56-265.19.~~ Marking shall be done by both paint and flags whenever possible;

3. Provide such information about the location of the utility lines to designers for informational purposes only. Operators will not be liable for any incorrect information provided or for the subsequent use of this information, nor will they be subject to civil penalties for the accuracy of the information or marks provided. Any concerns about the accuracy of information or marks should be directed to the appropriate operator; and

4. Respond to the ~~operator-excavator information exchange~~ *positive response* system by no later than 7:00 a.m. on the sixteenth working day following the designer's ~~notice to the notification center~~ *locate request*.

§ 56-265.18. Notification requirements.

Every *locate request and designer* notice served by any person on ~~a~~ *the* notification center shall contain the following information:

1. The name of the individual serving such notice.

2. The specific location of the proposed ~~work~~ *excavation or demolition*. ~~In the event~~ *If* a specific description of the location of the excavation cannot be given, the person proposing to excavate or demolish shall comply with subsection E of § 56-265.17.

3. The name, *physical* address, telephone number, and ~~telefacsimile number~~ *electronic mailing address,* if available, of the excavator or demolisher, to whom notification can be given.

4. The excavator's or demolisher's field telephone number *and*, if ~~one is~~ available*, electronic mailing address*.

5. The type and extent of the proposed ~~work~~ *excavation or demolition*.

6. The name of the person for whom the proposed ~~work~~ *excavation or demolition* is being performed.

§ 56-265.19. Duties of operator; regulations.

A. If a proposed excavation or demolition is planned in such proximity to the underground utility line that the utility line may be destroyed, damaged, dislocated, or disturbed, the operator shall mark the approximate horizontal location of the underground utility line on the ground to within two feet of either side of the underground utility line by means of stakes, paint, flags, or a combination thereof. The operator *or contract locator* shall mark the underground utility line and report the marking status to the ~~excavator-operator information exchange~~ *positive response* system by no later than 7:00 a.m. on the third working day following the excavator's ~~notice to the notification center~~ *locate request*, unless *a scheduled excavation date is provided by the excavator to the notification center or* the operator *or contract locator* is unable to do so due to extraordinary *or exigent* circumstances. *Any scheduled excavation date shall not be less than 48 hours nor more than 12 working days from the date of the locate request. If a scheduled excavation date is provided by the excavator to the notification center, the operator or contract locator shall mark the underground utility line and report the marking status to the positive response system by no later than 7:00 a.m. on the scheduled day of excavation. Any locate request made on a day that is not a working day shall be considered as having been submitted to the notification center on the next working day at 7:00 a.m.* If the operator is unable to mark the location within the time allowed under this section due to extraordinary *or exigent* circumstances, the operator shall notify directly the person who proposes to excavate or demolish and shall, in addition, notify the person of the date and time when the location will be marked. The deferral to mark for extraordinary *or exigent* circumstances shall be no longer than 96 hours from 7:00 a.m. on the next working day following ~~notice to the notification center~~ *the locate request*, unless a longer time is otherwise agreed upon by the operator and excavator. The operator shall also inform the notification center of any deferral.

B. If a proposed excavation or demolition is not planned in such proximity to the operator's underground utility lines that the utility line may be damaged, the operator shall so report to the notification center's ~~excavator-operator information exchange~~ *positive response* system no later than 7:00 a.m. on the third working day following the excavator's ~~notice to the notification center~~ *locate request*.

C. An operator shall participate in all preplanning and preconstruction meetings originated by state, county or municipal authorities relating to proposed construction projects which may affect the operator's existing or future utility lines and shall cooperate in implementing decisions reached in such preplanning and preconstruction meetings.

D. Any contract locator acting on behalf of an operator and failing to perform the duties imposed by this chapter shall be subject to the liabilities in § 56-265.25 and the civil penalties in § 56-265.32.

E. Locators shall be trained in applicable locating industry standards and practices no less stringent than the National Utility Locating Contractors Association's locator training standards and practices. Each locator's training shall be documented. Such documents shall be maintained by the operator or contract locator.

F. The Commission shall be authorized to adopt regulations designating: (i) letters for each operator to be used in conjunction with marking of underground utility lines, and (ii) symbols for marking of underground utility lines, in compliance with ~~subsection B~~ *subdivision 2* of § 56-265.17:3. Such letter designation and marking symbols shall be in accordance with industry standards.

G. For underground utility lines abandoned after July 1, 2002, operators shall make a reasonable attempt to keep records of these abandoned utility lines, excluding service lines connected to a single-family dwelling unit. When an operator has knowledge that the operator's abandoned utility lines may be present within the area of the proposed excavation, the operator shall provide a response to the ~~excavator-operator information exchange~~ *positive response* system. Such information regarding abandoned lines shall be for informational purposes only. An operator shall not be liable to any person, or subject to civil penalties, as a result of the operator's providing incorrect information regarding abandoned lines or the subsequent use of such information. The ~~excavator-operator information exchange~~ *positive response* system may refer any person with concerns about the accuracy of information regarding abandoned lines to the appropriate operator.

H. An operator shall respond to an emergency notice as soon as possible but no later than three hours from the excavator's ~~call~~ *contact* to the notification center.

§ 56-265.22. Duties of notification center upon notification by person intending to excavate; record of notification made by telephone required.

A. The notification center shall, upon receiving notice by a person, notify all member operators whose ~~underground~~ *utility* lines are ~~located~~ *present* in the area of the proposed project, excavation, or demolition. The notification center shall also indicate the names of those operators being notified to the person providing notice.

B. If the notification required by this chapter is made by telephone, a record of such notification shall be maintained by the operators or notification center notified to document compliance with the requirements of this chapter, and such records shall be maintained in compliance with the applicable statute of limitations.

C. The notification center shall notify excavators, within the time frame allowed by the law to mark underground utility lines, of any responses placed on the ~~excavator-operator information exchange~~ *positive response* system by a locator. Such notification shall occur by ~~facsimile or other~~ mutually acceptable means of automatically transmitting and receiving this information.

If the excavator cannot provide the notification center with ~~a facsimile number or other~~ mutually acceptable means of automatically transmitting and receiving this information, it shall be the excavator's responsibility to contact the ~~excavator-operator information exchange~~ *positive response* system after the period allowed by law to mark underground facilities and prior to commencing excavation in order to determine if any responses to the notice have been recorded.

§ 56-265.24. Duties of excavator.

A. *No excavator shall begin any excavation or demolition before reviewing and heeding the positive response marking status of the excavation area.* Any person excavating within two feet on either side of the staked or marked location of an operator's underground utility line or demolishing in such proximity to an underground utility line that the utility line may be destroyed, damaged, dislocated or disturbed shall take all reasonable steps necessary to properly protect, support and backfill underground utility lines. For excavations not parallel to an existing underground utility line, such steps shall include, but may not be limited to:

1. Exposing the underground utility line to its extremities by hand digging;

2. Not utilizing mechanized equipment within two feet of the extremities of all exposed utility lines; and

3. Protecting the exposed utility lines from damage.

In addition, for excavations parallel to an existing utility line, such steps shall include, but may not be limited to, hand digging at reasonable distances along the line of excavation. The excavator shall exercise due care at all times to protect underground utility lines when exposing these lines by hand digging.

B. If the markings locating the underground lines become illegible due to time, weather, construction, or any other cause, the person performing the excavation or demolition shall so notify the notification center for the area. Such notification shall constitute an extension under subsection D of § 56-265.17.

C. If, *after at least 48 hours beginning with 7:00 a.m. the next working day following a locate request or on the date of excavation,* upon arrival at the site of a proposed excavation, the excavator observes clear evidence of the presence of an unmarked utility line in the area of the proposed excavation, the excavator shall not begin excavating until *three hours after* an additional ~~call~~ *contact* is made to the notification center for the area pursuant to subsection ~~B~~ *C* of § 56-265.17 *and the excavator has verified that no information has been posted to the positive response system or information posted to the positive response system is inconsistent with the clear evidence observed by the excavator*.

D. In the event of any damage to, or dislocation, or disturbance of any underground utility line including its appurtenances, covering, and coating, in connection with any excavation or demolition, the person responsible for the excavation or demolition operations shall immediately notify the operator of the underground utility line and shall not backfill around the underground utility line until the operator has repaired the damage or has given clearance to backfill. The operator shall either commence repair of the damage or give clearance to backfill within twenty-four hours, and upon his failure to commence or prosecute with diligence such repair or give clearance, the giving of clearance shall be presumed.

E. If the damage, dislocation, or disturbance of the underground utility line creates an emergency, the person responsible for the excavation or demolition shall, in addition to complying with subsection D ~~of this section~~, take immediate steps reasonably calculated to safeguard life, health and property.

F. With the exception of designers requesting marking of a site, in accordance with § 56-265.17, no person, including operators, shall request marking of a site through a notification center unless excavation shall commence within thirty working days from the date of the original notification to the notification center. Except for counties, cities, and towns, any person who willfully fails to comply with this subsection shall be liable to the operator for three times the cost of marking its utility line, not to exceed $1,000.

G. Any person performing excavation or demolition shall provide to the operator of the underground utility line in the area of excavation or to the appropriate regulatory authority having jurisdiction, the number issued by the notification center for that excavation site in response to the excavator's notice, within one hour of a request for the number issued by the notification center.

H. If an excavator discovers an unmarked line, the excavator shall protect this line pursuant to subsection C ~~of this section~~. An excavator shall not remove an abandoned line without first receiving authorization to do so by the operator.

§ 56-265.24:1. Request to cease operation; immediate threat; penalty.

Notwithstanding the provisions of § 56-265.15:1, any person, as defined in § 56-265.15, who knowingly and intentionally excavates after being notified by a representative of the Commission of a determination that such excavation constitutes an immediate threat to safety or property and such representative requests that excavation cease is guilty of a Class 6 felony. The representative of the Commission shall immediately notify the agency with primary law-enforcement

authority over the area of excavation, as well as the fire marshal, (i) that such excavation site is a threat to safety or property and (ii) of the request to cease excavation.

§ 56-265.31. Commission to establish advisory committee.

A. The Commission shall establish an advisory committee consisting of representatives of the following entities: Commission staff, utility operator, notification center, excavator, municipality, Virginia Department of Transportation, Board for Contractors, and underground line locator. Persons appointed to the advisory committee by the Commission shall have expertise with the operation of the Underground Utility Damage Prevention Act. The advisory committee shall perform duties which may be assigned by the Commission, including ~~the review of~~ *reviewing* reports of violations of the chapter, *establishing positive response codes for use by the notification center's positive response system,* and ~~make~~ *making* recommendations to the Commission.

B. The members of the advisory committee shall be immune, individually and jointly, from civil liability for any act or omission done or made in performance of their duties while serving as members of such advisory committee, but only in the absence of willful misconduct.

§ 56-265.32. Commission to impose civil penalties for certain violations; establishment of Underground Utility Damage Prevention Special Fund.

A. The Commission may, by judgment entered after a hearing on notice duly served on any person not less than 30 days before the date of the hearing, impose a civil penalty not exceeding ~~$2,500~~ *$10,000* for each violation *of subsection A of § 56-265.17 and $5,000 for all other violations of this chapter*, if it is proved that the person violated any of the provisions of this chapter as a result of a failure to exercise reasonable care. Any proceeding or civil penalty undertaken pursuant to this section shall not prevent nor preempt the right of any party to obtain civil damages for personal injury or property damage in private causes of action. This subsection shall not authorize the Commission to impose civil penalties on any county, city, town, or other political subdivision. However, the Commission shall inform the counties, cities, towns, and other political subdivisions of reports of alleged violations involving the locality or political subdivision and, at the request of the locality or political subdivision, suggest corrective action.

B. If the Commission asserts there is recurring noncompliance with any of the provisions of this chapter by a county, city, town, or other political subdivision, the Commission, upon written notice to the chairman of such operator's board or, in the case of a city or town, the mayor of such operator's council, and to such operator's chief executive officer, may require a written response by such person or his designee. Such response shall be made within 30 days of the operator's receipt of written notice from the Commission. The response shall confirm that the operator will comply promptly or explain why it disputes any assertion by the Commission of noncompliance. If the operator is not able to return to compliance promptly, the operator shall describe its plan to achieve compliance in a corrective action plan to be submitted to the Commission no later than 60 days after the receipt of the written notice. Following submittal of a corrective action plan, the Commission may convene a hearing for the purpose of receiving additional evidence, determining whether noncompliance has occurred, and determining further suggested corrective action. The Commission may also convene such a hearing if the operator fails to provide a written response or a corrective action plan as required by this subsection, or provides a response that disputes the Commission's assertions. Nothing in this section shall limit the Commission's powers under this chapter with respect to persons who are not counties, cities, towns, or political subdivisions of the Commonwealth.

C. The Underground Utility Damage Prevention Special Fund (hereinafter referred to as Special Fund) is hereby established as a revolving fund to be used by the Commission for administering the regulatory program authorized by this chapter. The Special Fund shall be composed entirely of funds generated by *and for* the enforcement of this chapter. *Enforcement of this chapter also includes education and outreach provided by the Commission for training and educational programs for excavators, operators, utility line locators, and other persons.* Excess funds shall be used to support any one or more of the following: (i) public awareness programs established by a notification center pursuant to subsection B of § 56-265.16:1; (ii) training and education programs for excavators, operators, line locators, and other persons; and (iii) programs providing incentives for excavators, operators, line locators, and other persons to reduce the number and severity of violations of the Act. The Commission shall determine the appropriate allocation of any excess funds among such programs, and shall establish required elements for any program established under clause (ii) or (iii).

D. All civil penalties collected pursuant to this section shall be deposited into the Underground Utility Damage Prevention Special Fund. Interest earned on the fund shall be credited to the Special Fund. The Special Fund shall be established on the books of the Commission comptroller and any funds remaining in the Underground Utility Damage Prevention Special Fund at the end of the fiscal year shall not revert to the general fund, but shall remain in the Special Fund.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

Engage in any additional activity, service, or other practice that is authorized for a federally chartered credit union and that has not otherwise been authorized for a state-chartered credit union by the provisions of this chapter or by Commission regulation, including regulations adopted pursuant to subsection B of § 6.2-1303, provided that (i) at least 45 calendar days prior to engaging in any such activity, service, or practice the credit union provides the Commissioner with written notice along with any additional information relating to the activity, service, or practice that the Commissioner may require and (ii) the credit union engages in the activity, service, or practice subject to the same terms, conditions, and limitations that are applicable to a federally chartered credit union. The Commissioner may at any time, based upon supervisory, legal, or safety and soundness considerations, prohibit or further restrict the activity, service, or practice. "Activity, service, or other practice" does not include credit union field of membership or field of membership expansion under §§ 6.2-1327 and 6.2-1328 and any related regulations; and

~~16.~~ *17.* Undertake such other activities relating to the purposes of the credit union as its charter or bylaws may authorize, provided such activities are not inconsistent with this chapter.

§ 6.2-1302.1. Virtual currency custody services.

A. As used in this section:

"Custody services" means the role of a credit union in the safekeeping and custody of various customer assets.

"Virtual currency" has the same meaning as provided in § 6.2-818.1.

B. A credit union may provide its customers with virtual currency custody services so long as the credit union has adequate protocols in place to effectively manage risks and comply with applicable laws and, prior to offering virtual

currency custody services, the credit union has carefully examined the risks in offering such services through a methodical self-assessment process. If a credit union engages in virtual currency custody services, the credit union shall:

1. Implement effective risk management systems and controls to measure, monitor, and control relevant risks associated with custody of digital assets such as virtual currency;

2. Confirm that it has adequate insurance coverage for such services; and

3. Maintain a service provider oversight program, to the extent that the credit union engages with a service provider to provide virtual currency custody services, to address risks to service provider relationships as a result of engaging in virtual currency custody services.

C. A credit union may provide virtual currency custody services in a fiduciary or nonfiduciary capacity. In providing such services in a nonfiduciary capacity, the credit union shall act as a bailee, taking possession of the customer's asset for safekeeping while legal title remains with the customer, such that the customer retains direct control over the keys associated with his virtual currency. To provide such services in a fiduciary capacity, the credit union shall obtain approval from the Commission as required by subsection D. In providing virtual currency custody services in a fiduciary capacity, the credit union shall receive control of the customer's virtual currency, and new private keys shall be created to be held by the credit union. If approved by the Commission to provide virtual currency custody services in a fiduciary capacity, a credit union shall have authority to manage virtual currency assets as it would any other type of asset held in such capacity.

D. No credit union shall provide virtual currency custody services in a fiduciary capacity without first obtaining authorization to do so from the Commission. The Commission shall not grant such authority until it finds that the credit union has satisfied the following requirements:

1. The credit union's capital structure is sufficiently strong to support the undertaking to provide virtual currency custody services;

2. The personnel who will direct the proposed virtual currency custody services have adequate experience, training, and sufficient resources to ensure compliance with laws and regulations and to protect the operations of the credit union; and

3. Granting such authority to the credit union is in the public interest.

E. The Commission may impose conditions on the authority granted to any credit union pursuant to subsection D and may suspend or revoke such authority if it finds that the credit union has failed to comply with any laws or regulations applicable to virtual currency custody services or any existing conditions imposed by the Commission or if the services are otherwise being provided in an unsafe or unsound manner.

8. Advertising goods or services with intent not to sell them as advertised, or with intent not to sell at the price or upon the terms advertised.

In any action brought under this subdivision, the refusal by any person, or any employee, agent, or servant thereof, to sell any goods or services advertised or offered for sale at the price or upon the terms advertised or offered, shall be prima facie evidence of a violation of this subdivision. This paragraph shall not apply when it is clearly and conspicuously stated in the advertisement or offer by which such goods or services are advertised or offered for sale, that the supplier or offeror has a limited quantity or amount of such goods or services for sale, and the supplier or offeror at the time of such advertisement or offer did in fact have or reasonably expected to have at least such quantity or amount for sale;

13a. Failing to provide to a consumer, or failing to use or include in any written document or material provided to or executed by a consumer, in connection with a consumer transaction any statement, disclosure, notice, or other information however characterized when the supplier is required by 16 C.F.R. 2. That the provisions of the first enactment of this act shall become effective on July 1, 2024.

3. That from July 1, 2023, through June 30, 2024, the Commissioner of the Department of Motor Vehicles shall have the authority to issue licenses and certifications that are valid for a period of between one and 24 months to qualified

(i) licensed Class A driver training schools that are also third party testers, (ii) third party examiners for licensed Class A driver training schools, (iii) driver improvement clinics, (iv) driver training instructors, (v) driver improvement clinic instructors, and (vi) driver training schools, including computer-based driver education providers. Such license or certification fee shall be prorated on a monthly basis. The Commissioner shall consider the even distribution of license and certification renewals over a calendar year when determining the validity period of each such license or certification.

CHAPTER 310

An Act to amend and reenact §§ 46.2-1569, 46.2-1571, and 46.2-1572 of the Code of Virginia, relating to motor vehicle dealers; franchise agreements; sale or lease of new motor vehicles.

[H 1469]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-1569, 46.2-1571, and 46.2-1572 of the Code of Virginia are amended and reenacted as follows:

§ 46.2-1569. Other coercion of dealers; transfer, grant, succession to and cancellation of dealer franchises; delivery of vehicles, parts, and accessories.

Notwithstanding the terms of any franchise agreement, it shall be unlawful for any manufacturer, factory branch, distributor, distributor branch, or affiliate, or any field representative, officer, agent, or their representatives to do any of the following. It shall further be unlawful for any manufacturer, factory branch, distributor, distributor branch, or any field representative, officer, agent, or their representatives to engage in conduct prohibited under this section through an affiliate.

1. To coerce or attempt to coerce any dealer to accept delivery of any motor vehicle or vehicles, parts or accessories therefor, or any other commodities, which have not been ordered by the dealer.

2. To coerce or attempt to coerce any dealer to enter into an agreement with the manufacturer, factory branch, distributor, or distributor branch, or representative thereof by threat to take or by taking any action in violation of the chapter, or by any other act unfair or injurious to the dealer*, including the threat to withhold any incentive payments in whole or in part or to deny the dealer the right to participate in an incentive program in which more than one of the dealers of the line-make in the Commonwealth are eligible to participate and under the same terms as such other dealers. Nothing contained in this section shall require that a dealer be qualified for or entitled to incentive payments or the right to payments or benefits from an incentive program, nor will a manufacturer, factory branch, distributor, or distributor branch be prohibited from informing a dealer thereof, unless the dealer meets all qualifications and performs all applicable requirements and meets all of the applicable standards for such payments or benefits reasonably established by the manufacturer, factory branch, distributor, or distributor branch, or as otherwise provided in this article.* If a manufacturer, factory branch, distributor, or distributor branch conditions the grant of a new franchise to a dealer on the dealer's consent (i) to provide a site control agreement as defined in subdivision 10, (ii) to provide a written agreement containing an option to purchase the franchise of the dealer, provided, however, that agreements pursuant to § 46.2-1569.1 shall be permitted, or (iii) to provide a termination agreement to be held by the manufacturer, factory branch, distributor, or distributor branch for subsequent use, it shall be considered coercion and an act that is unfair and injurious to the dealer; provided, however, that the provisions of § 46.2-1572.3 related to the good faith settlement of disputes shall apply to the agreements described in clauses (i), (ii), and (iii) of this subdivision, mutatis mutandis. This subdivision shall not apply to any agreement the enforcement of which is subject to the jurisdiction of a United States Bankruptcy Court.

2a. To coerce or attempt to coerce any dealer to join, contribute to, or affiliate with any advertising association.

2b. To coerce or require any dealer to establish in connection with the sale of a motor vehicle prices at which the dealer shall sell products or services not manufactured or distributed by the manufacturer, factory branch, distributor, or distributor branch, whether by agreement, program, incentive provision, or otherwise.

2c. To coerce or require any dealer, whether by agreement, program, incentive provision, or otherwise, to construct improvements to its facilities or to install new signs or other franchisor image elements that replace or substantially alter those improvements, signs, or franchisor image elements completed within the preceding 10 years that were required or approved by the manufacturer, factory branch, distributor, or distributor branch or one of its affiliates. If a manufacturer, factory branch, distributor, or distributor branch offers incentives, or other payments under a program offered after the effective date of this subdivision and available to more than one dealer in the Commonwealth that are premised wholly or in part on dealer facility improvements or installation of franchisor signs or other franchisor image elements, a dealer that constructed improvements or installed signs or other franchisor image elements required by or approved by the manufacturer, factory branch, distributor, or distributor branch and completed within the 10 years preceding the program shall be deemed to be in compliance with the program requirements pertaining to construction of facilities or installation of signs or other franchisor image elements that would replace or substantially alter those previously constructed or installed within that 10-year period. This subdivision shall not apply to a program that provides lump sum payments to assist dealers in making facility improvements or to pay for signs or franchisor image elements when such payments are not dependent on the dealer selling or purchasing specific numbers of new vehicles and shall not apply to a program that is in effect with more

than one dealer in the Commonwealth on the effective date of this subdivision, nor to any renewal or modification of such a program.

2d. To coerce or require any dealer, whether by agreement, program, incentive provision, or provision for loss of incentive payments or other benefits, to refrain from selling any used motor vehicle subject to (i) recall, (ii) stop sale directive, (iii) technical service bulletin, or (iv) other manufacturer, factory branch, distributor, or distributor branch notification to perform work on such used motor vehicle, unless the manufacturer, factory branch, distributor, or distributor branch has a remedy and parts available to the dealer to remediate the basis for the coercion or requirement of the dealer to refrain from selling each affected used motor vehicle. If there is no remedy or there are no parts available from the manufacturer, factory branch, distributor, or distributor branch to remediate each affected used motor vehicle in the inventory of the dealer, the manufacturer, factory branch, distributor, or distributor branch shall (a) compensate the dealer for any affected used motor vehicle in the inventory of the dealer that it cannot sell because of such coercion or requirement at least one percent a month or any part thereof of the cost of such used motor vehicle, including repairs and reconditioning expenses based on the financial records of the dealer, and (b) establish a written procedure to compensate dealers under this subdivision that it shall provide to dealers subject to its coercion or requirement and file with the Commissioner as a franchise document pursuant to § 46.2-1566.

Any claim for compensation by a dealer shall be submitted on a monthly basis for the amount owed pursuant to this subdivision. The manufacturer, factory branch, distributor, or distributor branch shall process and pay the claim in the same manner as a claim for warranty reimbursements as provided in § 46.2-1571. This subdivision shall not prevent a manufacturer, factory branch, distributor, or distributor branch from (1) requiring that a motor vehicle not be subject to an open recall or stop sale directive in order to be qualified, remain qualified, or be sold as a certified pre-owned vehicle or similar designation; (2) paying incentives for selling used vehicles with no unremedied recalls; or (3) paying incentives for performing recall repairs on a vehicle in the dealer's inventory.

Nothing in this subdivision shall prevent a manufacturer, factory branch, distributor, or distributor branch from instructing that a dealer repair used vehicles of the line-make for which the dealer holds a franchise with an open recall, provided that the instruction does not involve coercion that imposes a penalty or provision of loss of benefits on the dealer.

2e. To coerce or require any dealer, whether by agreement, program, incentive provision, or provision for loss of incentive payments or other benefits, to amend its franchise agreement or similar agreement governing the sales and leasing of new motor vehicles, or to establish or implement a franchise agreement for the sales and leasing of new motor vehicles, under which the manufacturer, factory branch, distributor, or distributor branch (i) maintains a website or other electronic or digital means of communication for negotiating binding terms of sale or leasing of new motor vehicles directly between the manufacturer, factory branch, distributor, or distributor branch and retail buyers or lessees, including but not limited to agreements on prices or other substantive terms of sale or leasing of new vehicles; (ii) retains ownership of new motor vehicles until they are sold or leased to the retail buyers or lessees thereof; however, a manufacturer, factory branch, distributor, or distributor branch may maintain a common supply of new vehicles of which it maintains ownership until such vehicles are sold to dealers, from which more than one dealer may buy vehicles, provided that the manufacturer, factory branch, distributor, or distributor branch may not use the common supply of new vehicles to engage in the negotiation of binding terms of sales or leases directly with retail buyers or lessees and further provided that a dealer may buy vehicles from the common supply for the dealer's inventory without having reached agreement for sale or lease of any new vehicle with a retail buyer or lessee if the manufacturer, factory branch, distributor, or distributor branch does not otherwise allow its dealers to obtain stock inventory through the vehicle allocation process; (iii) except for the sale or lease of a vehicle to an actual employee of the manufacturer, factory branch, distributor, or distributor branch or in connection with any replacement or buyback under Chapter 17.3 (§ 59.1-207.9 et seq.) of Title 59.1, consigns new motor vehicles to dealers for dealer inventory or for sale or lease to retail buyers or lessees; (iv) reserves the right to negotiate binding terms of sale directly with retail buyers or lessees of new motor vehicles, provided that displaying on a website or other electronic or digital means of communication prices set by dealers, lists of available financing sources provided by dealers, or a conditional trade-in value shall not be considered negotiating; (v) reserves the right to offer or negotiate directly with the retail buyers or lessees in connection with and at the time of sale of a new motor vehicle the sale of any service contract, vehicle maintenance agreement, guaranteed asset protection (GAP) agreement or waiver, or other vehicle-related products and services that are otherwise offered by the dealer; however, a manufacturer, factory branch, distributor, or distributor branch may communicate or negotiate and finalize agreements with vehicle owners or lessees directly concerning any accessory or function of a vehicle that may be initiated, updated, changed, or maintained by the manufacturer, factory branch, distributor, or distributor branch through over-the-air or remote means if the manufacturer, factory branch, distributor, or distributor branch complies with the requirements of subdivision B 10 of § 46.2-1571; or (vi) designates dealers to be only delivery agents for new motor vehicles the binding terms of sale or lease of which are negotiated directly between the manufacturer, factory branch, distributor, or distributor branch and the retail buyers or lessees of the new motor vehicles. No manufacturer, factory branch, distributor, or distributor branch shall engage in any of the activities listed in clauses (i) through (vi). Notwithstanding the foregoing provisions of this subsection, a manufacturer, factory branch, distributor, or distributor branch may engage in fleet sales with a fleet customer that has a designation as such by the manufacturer, factory branch, distributor, or distributor branch because it has purchased or leased or has committed to purchase or lease five or more vehicles under the fleet program. Nothing in this section shall limit a manufacturer, factory branch, distributor, or distributor branch from setting or advertising a manufacturer's suggested retail price.

3. To prevent or refuse to approve the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise, or the transfer, sale, or assignment of a dealer franchise, or a change in the executive management or principal operator of the dealership, unless the franchisor provides written notice to the dealer of its objection and the reasons therefor by certified mail or overnight delivery or other method designed to ensure delivery to the dealer at least 30 days prior to the proposed effective date of the transfer, sale, assignment, or change. No such objection shall be sufficient unless the failure to approve is reasonable. Notwithstanding the provisions of subsection D of § 46.2-1573, the only grounds that may be considered reasonable for a failure to approve are that an individual who is the applicant or is in control of an entity that is an applicant (i) lacks good moral character, (ii) lacks reasonable motor vehicle dealership management experience and qualifications, (iii) lacks financial ability to be the dealer, or (iv) fails to meet the standards otherwise established by this title to be a dealer. No such objection shall be effective to prevent the sale, transfer, assignment, or change if the Commissioner has determined, if requested in writing by the dealer within 30 days after receipt of an objection to the proposed sale, transfer, or change, and after a hearing on the matter, that the failure to permit or honor the sale, transfer, assignment, or change is unreasonable under the circumstances. No franchise may be sold, assigned, or transferred unless (a) the franchisor has been given at least 90 days' prior written notice by the dealer as to the identity, financial ability, and qualifications of the proposed transferee on forms generally utilized by the franchisor to conduct its review, as well as the full agreement for the proposed transaction, and (b) the sale or transfer of the franchise and business will not involve, without the franchisor's consent, a relocation of the business.

3a. To impose a condition on the approval of the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise if the condition would violate the provisions of this title if imposed on the existing dealer.

In the event the manufacturer, factory branch, distributor or distributor branch takes action to prevent or refuse to approve the sale or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise, or the transfer, sale or assignment of a dealer franchise, or a change in the executive management or principal operator of the dealership, without a statement of specific grounds for doing so that is consistent with subdivision 3 hereof or imposes a condition in violation of subdivision 3a hereof, that shall constitute a violation of this section. The existing dealer may request review of the action or imposition of the condition in a hearing by the Commissioner. If the Commissioner finds that the action or the imposition of the condition was a violation of this section, the Commissioner may order that the sale or transfer be approved by the manufacturer, factory branch, distributor, or distributor branch, without imposition of the condition. If the existing dealer does not request a hearing by the Commissioner concerning the action or the condition imposed by the manufacturer, factory branch, distributor, or distributor branch, and the action or condition was the proximate cause of the failure of the contract for the sale or transfer of ownership of the dealership, the applicant for approval of the sale or transfer or the existing dealer, or both, may commence an action at law for violation of this section. The action may be commenced in the circuit court of the city or county in which the dealer is located, or in any other circuit court with permissible venue, within two years following the action or the imposition of the condition by the manufacturer, factory branch, distributor, or distributor branch for the damages suffered by the applicant or the dealer as a result of the violation of this section by the manufacturer, factory branch, distributor, or distributor branch, plus the applicant's or dealer's reasonable attorney fees and costs of litigation. Notwithstanding the foregoing, an exercise of the right of first refusal by the manufacturer, factory branch, distributor, or distributor branch pursuant to § 46.2-1569.1 shall not be considered the imposition of a condition prohibited by this section.

4. To grant an additional franchise for a particular line-make of motor vehicle in a relevant market area in which a dealer or dealers in that line-make are already located unless the franchisor has first advised in writing all other dealers in the line-make in the relevant market area. No such additional franchise may be established at the proposed site unless the Commissioner has determined, if requested by a dealer of the same line-make in the relevant market area within 30 days after receipt of the franchisor's notice of intention to establish the additional franchise, and after a hearing on the matter, that the franchisor can show by a preponderance of the evidence that after the grant of the new franchise, the relevant market area will support all of the dealers in that line-make in the relevant market area. Establishing a franchised dealer in a relevant market area to replace a franchised dealer that has not been in operation for more than two years shall constitute the establishment of a new franchise subject to the terms of this subdivision. The two-year period for replacing a franchised dealer shall begin on the day the franchise was terminated, or, if a termination hearing was held, on the day the franchisor was legally permitted finally to terminate the franchise. The relocation of a franchise in a relevant market area, whether by an existing dealer or by a dealer who is acquiring the franchise, shall constitute the establishment of a new franchise subject to the terms of this subdivision. This subdivision shall not apply to (i) the relocation of an existing dealer within that dealer's relevant market area if the relocation site is to be more than 10 miles distant from any other dealer for the same line-make; (ii) the relocation of an existing dealer within that dealer's relevant market area if the relocation site is to be more distant than the existing site from all other dealers of the same line-make in that relevant market area; or (iii) the relocation of an existing new motor vehicle dealer within two miles of the existing site of the relocating dealer.

5. Except as otherwise provided in this subdivision and notwithstanding the terms of any franchise, to terminate, cancel, or refuse to renew the franchise of any dealer without good cause and unless (i) the dealer and the Commissioner have received written notice of the franchisor's intentions at least 60 days prior to the effective date of such termination, cancellation, or the expiration date of the franchise, setting forth the specific grounds for the action, and (ii) the Commissioner has determined, if requested in writing by the dealer within the 60-day period prior to the effective date of

such termination, cancellation, or the expiration date of the franchise and, after a hearing on the matter, that the franchisor has shown by a preponderance of the evidence that there is good cause for the termination, cancellation, or nonrenewal of the franchise. If any manufacturer, factory branch, distributor, or distributor branch takes action that will have the effect of terminating, canceling, or refusing to renew the franchise of any dealer (a) by use of a termination agreement executed by the dealer and obtained more than 90 days before the purported date of use, (b) by exercise of rights under a written option to purchase the franchise of a dealer, or (c) by exercise of rights under a site control agreement as defined in subdivision 10, that action shall be considered a termination, cancellation, or refusal to renew pursuant to the terms of this subdivision and subject to the rights, provisions, and procedures provided herein. In any case where a petition is made to the Commissioner for a determination as to good cause for the termination, cancellation, or nonrenewal of a franchise, the franchise in question shall continue in effect pending the Commissioner's decision or, if that decision is appealed to the circuit court, pending the decision of the circuit court. Where the termination, cancellation, or nonrenewal of a franchise will result from use of a termination agreement executed by the dealer and obtained more than 90 days before the purported date of use, exercise of rights under a written option to purchase the franchise of a dealer, or exercise of rights under a site control agreement as defined in subdivision 10, such use or exercise shall be stayed pending the Commissioner's decision or, if that decision is appealed to the circuit court, pending the decision of the circuit court, and its use or exercise will be allowed only where the franchisor has shown by a preponderance of the evidence that there is good cause for the termination, cancellation, or nonrenewal of the franchise. In any case in which a franchisor neither advises a dealer that it does not intend to renew a franchise nor takes any action to renew a franchise beyond its expiration date, the franchise in question shall continue in effect on the terms last agreed to by the parties. Notwithstanding the other provisions of this subdivision notice of termination, cancellation, or nonrenewal may be provided to a dealer by a franchisor not less than 15 days prior to the effective date of such termination, cancellation, or nonrenewal when the grounds for such action are any of the following:

a. Insolvency of the franchised motor vehicle dealer or filing of any petition by or against the franchised motor vehicle dealer, under any bankruptcy or receivership law, leading to liquidation or which is intended to lead to liquidation of the franchisee's business.

b. Failure of the franchised motor vehicle dealer to conduct its customary sales and service operations during its posted business hours for seven consecutive business days, except where the failure results from acts of God or circumstances beyond the direct control of the franchised motor vehicle dealer.

c. Revocation of any license which the franchised motor vehicle dealer is required to have to operate a dealership.

d. Conviction of the dealer or any principal of the dealer of a felony.

The change or discontinuance of a marketing or distribution system of a particular line-make product by a manufacturer or distributor, while the name identification of the product is continued in substantial form by the same or a different manufacturer or distributor, may be considered to be a franchise termination, cancellation, or nonrenewal. The provisions of this paragraph shall apply to changes and discontinuances made after January 1, 1989, but they shall not be considered by any court in any case in which such a change or discontinuance occurring prior to that date has been challenged as constituting a termination, cancellation or nonrenewal.

5a. To fail to provide continued parts and service support to a dealer which holds a franchise in a discontinued line-make for at least five years from the date of such discontinuance. This requirement shall not apply to a line-make which was discontinued prior to January 1, 1989.

5b. Upon the involuntary or voluntary termination, nonrenewal, or cancellation of the franchise of any dealer, by either the manufacturer, distributor, or factory branch or by the dealer, notwithstanding the terms of any franchise whether entered into before or after the enactment of this section, to fail to pay the dealer for at least the following:

(1) The dealer cost plus any charges by the franchisor for distribution, delivery, and taxes paid by the dealer, less all allowances paid to the dealer by the franchisor, for new and undamaged motor vehicles in the dealer's inventory acquired from the franchisor or from another dealer of the same line — make in the ordinary course of business within 18 months of termination;

(2) The dealer cost as shown in the price catalog of the franchisor current at the time of repurchase of each new, unused, undamaged, and unsold part or accessory if such part or accessory is in the current parts catalog and is still in the original, resalable merchandising package and in unbroken lots, except that in the case of sheet metal, a comparable substitute for the original package may be used;

(3) The fair market value of each undamaged sign owned by the dealer that bears a trademark, trade name or commercial symbol used or claimed by the franchisor if such sign was purchased from or at the request of the franchisor;

(4) The fair market value of all special tools and automotive service equipment owned by the dealer that were recommended and designated as special tools or equipment by the franchisor, if the tools and equipment are in usable and good condition, normal wear and tear excepted; and

(5) The reasonable cost of transporting, handling, packing, and loading of motor vehicles, parts, signs, tools, and special equipment subject to repurchase hereunder.

The provisions of this subdivision do not apply to a dealer who is unable to convey clear title to the property identified in this subdivision.

For purposes of this subdivision, a voluntary termination shall not include the transfer of the terminating dealer's franchised business in connection with a transfer of that business by means of sale of the equity ownership or assets thereof to another dealer.

5c. If the termination, cancellation, or nonrenewal of the dealer's franchise is the result of the termination, elimination, or cessation of a line-make by the manufacturer, distributor, or factory branch, then, in addition to the payments to the dealer pursuant to subdivision 5b, the manufacturer, distributor, or factory branch shall be liable to the dealer for the following:

(1) An amount at least equivalent to the fair market value of the franchise for the line-make, which shall be the greater of that value determined as of (i) the date the franchisor announces the action that results in termination, cancellation, or nonrenewal, (ii) the date the action that resulted in the termination, cancellation, or nonrenewal first became general knowledge, or (iii) the day 12 months prior to the date on which the notice of termination, cancellation, or nonrenewal is issued. In determining the fair market value of a franchise for a line-make, if the line-make is not the only line-make for which the dealer holds a franchise in the dealership facilities, the dealer shall also be entitled to compensation for the contribution of the line-make to payment of the rent or to covering obligation for the fair rental value of the dealership facilities for the period set forth in subdivision 5c (2). Fair market value of the franchise for the line-make shall only include the goodwill value of the dealer's franchise for that line-make in the dealer's relevant market area.

(2) If the line-make is the only line-make for which the dealer holds a franchise in the dealership facilities, the manufacturer, distributor, or factory branch shall also pay assistance with respect to the dealership facilities leased or owned by the dealer as follows: (i) the manufacturer, distributor, or factory branch shall pay the dealer a sum equivalent to the rent for the unexpired term of the lease or three years' rent, whichever is the lesser, or (ii) if the dealer owns the dealership facilities, the manufacturer, distributor, or factory branch shall pay the dealer a sum equivalent to the reasonable rental value of the dealership facilities for three years.

To be entitled to facilities assistance from the manufacturer, distributor, or factory branch, the dealer shall have the obligation to mitigate damages by listing the dealership facilities for lease or sublease with a licensed real estate agent within 30 days after the effective date of the termination of the franchise and thereafter by reasonably cooperating with such real estate agent in the performance of the agent's duties and responsibilities. If the dealer is able to lease or sublease the dealership facilities on terms that are consistent with local zoning requirements to preserve the right to sell motor vehicles from the dealership facilities and the terms of the dealer's lease, the dealer shall be obligated to pay the manufacturer the net revenue received from such mitigation, but only following receipt of facilities assistance payments pursuant to clause (i) or (ii) of subdivision 5c (2), and only up to the total amount of facilities assistance payments that the dealer has received.

6. To fail to allow a dealer the right at any time to designate a member of his family as a successor to the dealership in the event of the death or incapacity of the dealer. Such designation may be made by the dealer or, in the event of the death or incapacity of the dealer, by the qualified executor or personal representative of the dealer. It shall be unlawful to prevent or refuse to honor the succession to a dealership by a member of the family of a deceased or incapacitated dealer if the franchisor has not provided to the member of the family designated the dealer's successor written notice of its objections to the succession and of such person's right to seek a hearing on the matter before the Commissioner pursuant to this article, and the Commissioner determines, if requested in writing by such member of the family within 30 days of receipt of such notice from the franchisor, and after a hearing on the matter before the Commissioner pursuant to this article, that the failure to permit or honor the succession is unreasonable under the circumstances. No member of the family may succeed to a franchise unless (i) the franchisor has been given written notice as to the identity, financial ability, and qualifications of the member of the family in question, and (ii) the succession to the franchise will not involve, without the franchisor's consent, a relocation of the business.

7. To delay, refuse, or fail to deliver to any dealer, if ordered by the dealer, in reasonable quantities and within a reasonable time, any new vehicles of each series and model sold or distributed by the franchisor as covered by such franchise and which are publicly advertised by the manufacturer, factory branch, distributor, or distributor branch in the Commonwealth to be available for immediate delivery, provided, however, that the failure to deliver any motor vehicle shall not be considered a violation of this chapter if such failure is due to an act of God, a work stoppage or delay due to a strike or labor difficulty, a shortage of materials, a lack of available manufacturing capacity, a freight embargo, or other cause over which the manufacturer, factory branch, distributor, or distributor branch shall have no control. If ordered by a dealer, a franchisor shall deliver an equitable supply of new vehicles during the model year of each series and model under the dealer's franchise in proportion to the sales objectives or goals established by the franchisor for the dealer compared to the sales objectives or goals established by the other same line-make dealers in the Commonwealth, provided, however, that the failure to deliver any motor vehicle shall not be considered a violation of this chapter if such failure is due to a cause over which the manufacturer, factory branch, distributer, or distributer branch shall have no control. Upon the written request of any dealer holding its sales or sales and service franchise, the manufacturer or distributor shall disclose to the dealer in writing the basis upon which new motor vehicles of the same line-make are allocated, scheduled, and delivered to dealers in the Commonwealth, and the basis upon which the current allocation or distribution is being made or will be made to such dealer. In the event that allocation is at issue in a request for a hearing, the dealer may demand the Commissioner to direct that the manufacturer or distributor provide to the dealer, within 30 days of such demand, all records of sales and all records of distribution of all motor vehicles to the same line-make dealers who compete with the dealer requesting the hearing.

7a. To fail or refuse to offer to its same line-make franchised dealers all models manufactured for the line-make, or require a dealer to pay any extra fee, or remodel, renovate, or recondition the dealer's existing facilities, or purchase unreasonable advertising displays or other materials as a prerequisite to receiving a model or a series of vehicles.

7b. To require or otherwise coerce a dealer to underutilize the dealer's facilities by requiring or otherwise coercing a dealer to exclude or remove from the dealer's facilities operations for selling or servicing of a line-make of vehicles for which the dealer has a franchise agreement to utilize the facilities.

7c. To require a dealer to purchase goods or services from a vendor selected, identified, or designated by a manufacturer, factory branch, distributor, distributor branch, or one of its affiliates by agreement, program, incentive provision, or otherwise without making available to the dealer the option to obtain the goods or services of substantially similar quality from a vendor chosen by the dealer. For purposes of this subdivision, the term "goods" does not include moveable displays, brochures, and promotional materials containing material subject to intellectual property rights of, or special tools and training as required by the manufacturer, or parts to be used in repairs under warranty obligations of, a manufacturer, factory branch, distributor, or distributor branch.

7d. To fail to provide a notice to a dealer when notifying it of the requirement to purchase goods or services from a vendor selected, identified, or designated by a manufacturer, factory branch, distributor, or distributor branch of the dealer's rights pursuant to subdivision 7c.

7e. To fail to provide to a dealer, when the manufacturer, factory branch, distributor, or distributor branch claims that a vendor chosen by the dealer cannot supply goods and services of substantially similar quality, a disclosure concerning the vendor selected, identified, or designated by the franchisor stating (i) whether the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates, or any officer, director, or employee of the same, has an ownership interest, actual or beneficial, in the vendor and, if so, the percentage of the ownership interest and (ii) whether the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates has an agreement or arrangement by which the vendor pays to the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates, or any officer, director, or employee of the same, any compensation and, if so, the basis and amount of the compensation to be paid as a result of any purchases by the dealer, whether it is to be paid by direct payment by the vendor or by credit from the vendor for the benefit of the recipient.

7f. To fail to provide to a dealer, if the goods and services to be supplied to the dealer by a vendor selected, identified, or designated by the manufacturer, factory branch, distributor, or distributor branch are signs or other franchisor image elements to be leased to the dealer, the right to purchase the signs or other franchisor image elements of like kind and quality from a vendor selected by the dealer. If the vendor selected by the manufacturer, factory branch, distributor, or distributor branch is the only available vendor, the dealer must be given the opportunity to purchase the signs or other franchisor image elements at a price substantially similar to the capitalized lease costs thereof. This subdivision shall not be construed to allow a dealer to impair or eliminate the intellectual property rights of the manufacturer, factory branch, distributor, or distributor branch, nor to permit a dealer to erect or maintain signs that do not conform to the intellectual property usage guidelines of the manufacturer, factory branch, distributor, or distributor branch.

8. To include in any franchise with a motor vehicle dealer terms that are contrary to, prohibited by, or otherwise inconsistent with the requirements of this chapter.

8a. For any franchise agreement, to require a motor vehicle dealer to pay the attorney fees of the manufacturer or distributor related to hearings and appeals brought under this article.

9. To fail to include in any franchise with a motor vehicle dealer the following language: "If any provision herein contravenes the laws or regulations of any state or other jurisdiction wherein this agreement is to be performed, or denies access to the procedures, forums, or remedies provided for by such laws or regulations, such provision shall be deemed to be modified to conform to such laws or regulations, and all other terms and provisions shall remain in full force," or words to that effect.

9a. To include in any franchise agreement or similar agreement governing the sales, leasing, or service of new motor vehicles, or to enforce or seek to enforce in such franchise agreement or similar agreement, a right for the manufacturer, factory branch, distributor, or distributor branch to unilaterally amend the franchise agreement or similar agreement. Any amendment to a franchise agreement or similar agreement governing the sales, leasing, or service of new vehicles must be agreed by both the manufacturer, factory branch, distributor, or distributor branch and the dealer at the time the franchise agreement or similar agreement is to be amended.

10. To enter into any agreement with a motor vehicle dealer in which the manufacturer, factory branch, distributor, distributor branch, or one of its affiliates is given site control over the premises of a dealer that does not terminate upon the occurrence of any of the following events: (i) the right of the franchisor to manufacture or distribute the line-make of vehicles covered by the dealer's franchise is sold, assigned, or otherwise transferred by the manufacturer, factory branch, distributor, or distributor branch to another; (ii) the final termination of the dealer's franchise for any reason; or (iii) the manufacturer, factory branch, distributor, or distributor branch of its affiliate fails for any reason to exercise its right of first refusal to purchase the assets or ownership of the business of the dealer when given the opportunity to do so by virtue of its franchise agreement, another agreement, or as set forth in § 46.2-1569. For purposes of this subdivision, the term "site control" shall mean the contractual right to control in any way the commercial use and development of the premises upon which a dealer's business operations are located, including the right to approve of additional or different uses for the property beyond those of its franchise, the right to lease or sublease the dealer's property, or the right or option to purchase the dealer's property.

11. To require or coerce a motor vehicle dealer, whether by agreement, program, incentive provision, or otherwise, to submit or to provide a manufacturer, factory branch, distributor, or distributor branch access to consumer data maintained

by the dealer (i) by any method that violates or would violate the dealer's chosen policies and processes for complying with obligations to protect consumer data under laws of the United States or the Commonwealth or (ii) through franchisor access to the computer database of the dealer if the dealer chooses to submit data specified by the franchisor.

The manufacturer, factory branch, distributor, or distributor branch shall provide a dealer the right to cancel the dealer's participation in a program under which the dealer provides consumer data or access to data to the manufacturer, factory branch, distributor, or distributor branch, provided that a manufacturer, factory branch, distributor, or distributor branch may require notice of up to 60 days of the dealer's decision to cancel the dealer's participation.

If a manufacturer, factory branch, distributor, or distributor branch offers incentives or other payments under a program offered after July 1, 2015, excluding any continuation, renewal, or modification of any existing program, and available to more than one dealer in the Commonwealth that are premised wholly or in part on dealer participation in manufacturer, factory branch, distributor, or distributor branch programs under which consumer data is provided to or accessed by the manufacturer, factory branch, distributor, or distributor branch, a dealer that exercises its rights under this subdivision shall be deemed to be in compliance with the program requirements pertaining to providing consumer data, provided that the dealer has otherwise met program requirements to the extent of providing any consumer data that is not nonpublic personal information.

It shall not constitute a violation of this subdivision for a manufacturer, factory branch, distributor, or distributor branch to require a motor vehicle dealer to provide data (a) concerning a new motor vehicle sale or used motor vehicle sale under a manufacturer certification program, (b) to validate a customer or dealer incentive, (c) to calculate dealer or market sales or evaluate service performance or customer satisfaction to facilitate analysis of product quality and market feedback, (d) to facilitate warranty service work on a vehicle, (e) concerning information with respect to recall repairs or information about a recalled vehicle, (f) pursuant to a mutual agreement between a manufacturer, factory branch, distributor, or distributor branch and a dealer, or (g) where consumer data is reasonably necessary to enable a manufacturer, factory branch, distributor, or distributor branch to provide programs, products, or services to a dealer.

A dealer that elects to submit or push data or information to the manufacturer, factory branch, distributor, or distributor branch through any method other than that provided by the manufacturer, factory branch, distributor, or distributor branch shall timely obtain and furnish the requested data in a widely accepted electronic file format. A manufacturer, factory branch, distributor, or distributor branch shall not impose a fee, surcharge, or charge of any type on a dealer that chooses to submit data specified by the manufacturer, factory branch, distributor, or distributor branch rather than provide the manufacturer, factory branch, distributor, or distributor branch access to the dealer's computer database.

§ 46.2-1571. Recall, warranty, maintenance and sales incentive obligations.

A. Each motor vehicle manufacturer, factory branch, distributor, or distributor branch shall (i) specify in writing to each of its motor vehicle dealers licensed in the Commonwealth the dealer's obligations for preparation, delivery, recall, and warranty service on its products and (ii) compensate the dealer for recall or warranty parts, service, and diagnostic work required of the dealer by the manufacturer or distributor as follows:

1. Compensation of a dealer for recall or warranty parts, service, and diagnostic work shall not be less than the amounts charged by the dealer for the manufacturer's or distributor's original parts, service, and diagnostic work to retail customers for nonwarranty service, parts, and diagnostic work installed or performed in the dealer's service department, and the determination of compensation in accordance with the provisions of this section shall be deemed reasonable due to the substantial number of repair orders reviewed, unless the manufacturer can show that the amounts are not reasonable. All manufacturer or distributor compensated parts, service, diagnostic work, updates to a vehicle accessory or function, or initialization or repair of a vehicle part, system, accessory, or function performed by the dealer shall be subject to this subsection. Recall or warranty parts compensation shall be stated as a percentage of markup, which shall be an agreed reasonable approximation of retail markup and which shall be uniformly applied to all of the manufacturer's or distributor's parts unless otherwise provided for in this section. If the dealer and manufacturer or distributor cannot agree on the recall or warranty parts compensation markup to be paid to the dealer, the markup shall be determined by an average of the dealer's retail markup on all of the manufacturer's or distributor's parts as described in subdivisions 2 and 3.

2. For purposes of determining recall or warranty parts and service compensation paid to a dealer by the manufacturer or distributor, including body-shop repairs, only retail repair orders, or the retail portion of repair orders containing retail and non-retail operations, shall be considered. For the purposes of this section, "retail" does not include menu-priced parts or services, services and parts used in internal repairs paid by the dealer, group discounts, special event discounts, special event promotions, and insurance-paid repairs.

3. Increases in dealer recall or warranty parts and service compensation and diagnostic work compensation, pursuant to this section, shall be requested by the dealer in writing, shall be based on 100 consecutive repair orders or all repair orders over a 90-day period, whichever occurs first. If any portion of a retail repair order includes amounts that are not retail, such portion shall be excluded. Compensation for parts shall be stated as a percentage of markup that shall be uniformly applied to all the manufacturer's or distributor's parts.

4. In the case of recall or warranty parts compensation, the provisions of this subsection shall be effective only for model year 1992 and succeeding model years.

5. If a manufacturer or distributor furnishes a part to a dealer at no cost for use by the dealer in performing work for which the manufacturer or distributor is required to compensate the dealer under this section, the manufacturer or distributor shall compensate the dealer for the part in the same manner as recall or warranty parts compensation, less the wholesale costs,

for such part as listed in the manufacturer's current price schedules. A manufacturer or distributor may pay the dealer a reasonable handling fee instead of the compensation otherwise required by this subsection for special high-performance complete engine assemblies in limited production motor vehicles that constitute less than five percent of model production furnished to the dealer at no cost, if the manufacturer or distributor excludes such special high-performance complete engine assemblies in determining whether the amounts requested by the dealer for recall or warranty compensation are consistent with the amounts that the dealer charges its other retail service customers for parts used by the dealer to perform similar work.

6. In the case of service work, manufacturer original parts or parts otherwise specified by the manufacturer or distributor, and parts provided by a dealer either pursuant to an adjustment program as defined in § 59.1-207.34 or as otherwise requested by the manufacturer or distributor, the dealer shall be compensated in the same manner as for recall or warranty service or parts.

This section does not apply to compensation for parts such as components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for nonvehicular, residential purposes. Recall, warranty, and sales incentive audits of dealer records may be conducted by the manufacturer, factory branch, distributor, or distributor branch on a reasonable basis, and dealer claims for recall, warranty, or sales incentive compensation shall not be denied except for good cause, such as performance of nonwarranty repairs, lack of material documentation, fraud, or misrepresentation. A dealer's failure to comply with the specific requirements of the manufacturer or distributor for processing the claim shall not constitute grounds for the denial of the claim or reduction of the amount of compensation to the dealer as long as reasonable documentation or other evidence has been presented to substantiate the claim. The manufacturer, factory branch, distributor, or distributor branch shall not deny a claim or reduce the amount of compensation to the dealer for recall or warranty repairs to resolve a condition discovered by the dealer during the course of a separate repair requested by the customer or to resolve a condition on the basis of advice or recommendation by the dealer. Claims for dealer compensation shall be paid within 30 days of dealer submission or within 30 days of the end of an incentive program or rejected in writing for stated reasons. The manufacturer, factory branch, distributor, or distributor branch shall reserve the right to reasonable periodic audits to determine the validity of all such paid claims for dealer compensation. Any chargebacks for recall or warranty parts or service compensation and service incentives shall only be for the six-month period immediately following the date of the claim and, in the case of chargebacks for sales compensation only, for the six-month period immediately following the date of claim. However, such limitations shall not be effective if a manufacturer, factory branch, distributor, or distributor branch has reasonable cause to believe that a claim submitted by a dealer is intentionally false or fraudulent. For purposes of this section, "reasonable cause" means a bona fide belief based upon evidence that the material issues of fact are such that a person of ordinary caution, prudence, and judgment could believe that a claim was intentionally false or fraudulent. A dealer shall not be charged back or otherwise liable for sales incentives or charges related to a motor vehicle sold by the dealer to a purchaser other than a licensed, franchised motor vehicle dealer and subsequently exported or resold, unless the manufacturer, factory branch, distributor, or distributor branch can demonstrate by a preponderance of the evidence that the dealer should have known of and did not exercise due diligence in discovering the purchaser's intention to export or resell the motor vehicle.

B. It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to:

1. Fail to perform any of its recall or warranty obligations, including tires, with respect to a motor vehicle;

2. Fail to assume all responsibility for any liability resulting from structural or production defects;

3. Fail to include in written notices of factory recalls to vehicle owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of defects;

4. Fail to compensate any of the motor vehicle dealers licensed in the Commonwealth for repairs effected by the dealer of merchandise damaged in manufacture or transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch;

5. Fail to fully compensate its motor vehicle dealers licensed in the Commonwealth for recall or warranty parts, work, and service pursuant to subsection A either by reduction in the amount due to the dealer or by separate charge, surcharge, or other imposition by which the motor vehicle manufacturer, factory branch, distributor, or distributor branch seeks to recover its costs of complying with subsection A, or for legal costs and expenses incurred by such dealers in connection with recall or warranty obligations for which the manufacturer, factory branch, distributor, or distributor branch is legally responsible or which the manufacturer, factory branch, distributor, or distributor branch imposes upon the dealer. Failure to fully reimburse a dealer for the cost to the dealer of a rental vehicle provided to a customer as required, offered, advertised as available, or agreed to by the manufacturer or distributor shall be considered a violation of this subsection. Failure to provide compensation consistent with this section to a dealer for assistance requested by a customer whose vehicle was subjected to an ~~over the air~~ *over-the-air* or remote change, repair, or update to any part, system, accessory, or function by the vehicle manufacturer or distributor and performed at the dealership to satisfy the customer shall be considered a violation of this subsection;

6. Misrepresent in any way to purchasers of motor vehicles that warranties with respect to the manufacture, performance, or design of the vehicle are made by the dealer, either as warrantor or co-warrantor;

7. Require the dealer to make warranties to customers in any manner related to the manufacture, performance, or design of the vehicle;

8. Shift or attempt to shift to the motor vehicle dealer, directly or indirectly, any liabilities of the manufacturer, factory branch, distributor or distributor branch under the Virginia Motor Vehicle Warranty Enforcement Act (§ 59.1-207.9 et seq.), unless such liability results from the act or omission by the dealer;

9. Deny any dealer the right to return any part or accessory that the dealer has not sold within 12 months where the part or accessory was not obtained through a specific order initiated by the dealer but instead was specified for, sold to and shipped to the dealer pursuant to an automated ordering system, provided that such part or accessory is in the condition required for return to the manufacturer, factory branch, distributor, or distributor branch, and the dealer returns the part within 30 days of it becoming eligible under this subdivision. For purposes of this subdivision, an "automated ordering system" shall be a computerized system that automatically specifies parts and accessories for sale and shipment to the dealer without specific order thereof initiated by the dealer. The manufacturer, factory branch, distributor, or distributor branch shall not charge a restocking or handling fee for any part or accessory being returned under this subdivision. This subdivision shall not apply if the manufacturer, factory branch, distributor, or distributor branch has available to the dealer an alternate system for ordering parts and accessories that provides for shipment of ordered parts and accessories to the dealer within the same time frame as the dealer would receive them when ordered through the automated ordering system; or

10. When providing a new motor vehicle to a dealer for offer or sale to the public, fail to provide to such dealer a written disclosure that may be provided to a potential buyer of the new motor vehicle of each accessory or function of the vehicle that may be initiated, updated, changed, or maintained by the manufacturer or distributor through ~~over the air~~ *over-the-air* or remote means, and the charge to the customer *at the time of the new motor vehicle sale* for such initiation, update, change, or maintenance. A manufacturer or distributor may comply with this subdivision by notifying the dealer that such information is available on a website or by other digital means.

C. Notwithstanding the terms of any franchise, it shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to indemnify and hold harmless its motor vehicle dealers against any losses or damages arising out of complaints, claims, or suits relating to the manufacture, assembly, or design of motor vehicles, parts, or accessories, or other functions by the manufacturer, factory branch, distributor, or distributor branch beyond the control of the dealer, including, without limitation, the selection by the manufacturer, factory branch, distributor, or distributor branch of parts or components for the vehicle or any damages to merchandise occurring in transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch. The dealer shall notify the manufacturer of pending suits in which allegations are made that come within this subsection whenever reasonably practicable to do so. Every motor vehicle dealer franchise issued to, amended, or renewed for motor vehicle dealers in Virginia shall be construed to incorporate provisions consistent with the requirements of this subsection.

D. On any new motor vehicle, any uncorrected damage or any corrected damage exceeding three percent of the manufacturer's or distributor's suggested retail price as defined in 15 U.S.C. §§ 1231 -1233, as measured by retail repair costs, must be disclosed to the dealer in writing prior to delivery. Factory mechanical repair and damage to glass, tires, and bumpers are excluded from the three percent rule when properly replaced by identical manufacturer's or distributor's original equipment or parts. Whenever a new motor vehicle is damaged in transit, when the carrier or means of transportation is determined by the manufacturer or distributor, or whenever a motor vehicle is otherwise damaged prior to delivery to the new motor vehicle dealer, the new motor vehicle dealer shall:

1. Notify the manufacturer or distributor of the damage within three business days from the date of delivery of the new motor vehicle to the new motor vehicle dealership or within the additional time specified in the franchise; and

2. Request from the manufacturer or distributor authorization to replace the components, parts, and accessories damaged or otherwise correct the damage, unless the damage to the vehicle exceeds the three percent rule, in which case the dealer may reject the vehicle within three business days.

E. If the manufacturer or distributor refuses or fails to authorize correction of such damage within 10 days after receipt of notification, or if the dealer rejects the vehicle because damage exceeds the three percent rule, ownership of the new motor vehicle shall revert to the manufacturer or distributor, and the new motor vehicle dealer shall have no obligation, financial or otherwise, with respect to such motor vehicle. Should either the manufacturer, distributor, or the dealer elect to correct the damage or any other damage exceeding the three percent rule, full disclosure shall be made by the dealer in writing to the buyer and an acknowledgement by the buyer is required. If there is less than three percent damage, no disclosure is required, provided the damage has been corrected. Predelivery mechanical work shall not require a disclosure. Failure to disclose any corrected damage within the knowledge of the selling dealer to a new motor vehicle in excess of the three percent rule shall constitute grounds for revocation of the buyer order, provided that, within 30 days of purchase, the motor vehicle is returned to the dealer with an accompanying written notice of the grounds for revocation. In case of revocation pursuant to this section, the dealer shall accept the vehicle and refund any payments made to the dealer in connection with the transaction, less a reasonable allowance for the consumer's use of the vehicle as defined in § 59.1-207.11. Nothing in this section shall be construed to exempt from the provisions of this section damage to a new motor vehicle that occurs following delivery of the vehicle to the dealer.

F. If there is a dispute between the manufacturer, factory branch, distributor, or distributor branch and the dealer with respect to any matter referred to in subsection A, B, or C, either party may petition the Commissioner in writing, within 30 days after either party has given written notice of the dispute to the other, for a hearing. The decision of the Commissioner shall be binding on the parties, subject to rights of judicial review and appeal as provided in Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2. However, nothing contained in this section shall give the Commissioner any authority as to

the content or interpretation of any manufacturer's or distributor's warranty. A manufacturer, factory branch, distributor, or distributor branch may not collect chargebacks, fully or in part, either through direct payment or by charge to the dealer's account, for recall or warranty parts or service compensation, including service incentives, sales incentives, other sales compensation, surcharges, fees, penalties, or any financial imposition of any type arising from an alleged failure of the dealer to comply with a policy of, directive from, or agreement with the manufacturer, factory branch, distributor, or distributor branch until 40 days following final notice of the amount charged to the dealer following all internal processes of the manufacturer, factory, factory branch, distributor, or distributor branch. Within 30 days following receipt of such final notice, the dealer may petition the Commissioner, in writing, for a hearing. If a dealer requests such a hearing, the manufacturer, factory branch, distributor, or distributor branch may not collect the chargeback, fully or in part, either through direct payment or by charge to the dealer's account, until the completion of the hearing and a final decision of the Commissioner concerning the validity of the chargeback.

§ 46.2-1572. Operation of dealership by manufacturer.

It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof~~,~~ to own, operate, or control any motor vehicle dealership in the Commonwealth. *This prohibition includes the ownership, operation, or control of any dealership of a new line-make established by a manufacturer, factory branch, distributor, or distributor branch, licensed as such by the Department, or a subsidiary thereof or a company affiliated through ownership of the manufacturer, factory branch, distributor, or distributor branch of at least 25 percent of the equity of the company.* However, this section shall not prohibit:

1. The operation by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, of a dealership for a temporary period, not to exceed one year, during the transition from one owner or operator to another;

2. The ownership or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, while the dealership is being sold under a bona fide contract or purchase option to the operator of the dealership;

3. The ownership, operation, or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof, if the manufacturer, factory branch, distributor, distributor branch, or subsidiary has been engaged in the retail sale of motor vehicles through the dealership for a continuous period of three years prior to July 1, 1972, and if the Commissioner determines, after a hearing on the matter at the request of any party, that there is no dealer independent of the manufacturer or distributor, factory branch or distributor branch, or subsidiary thereof available in the community to own and operate the franchise in a manner consistent with the public interest;

4. The ownership, operation, or control of a dealership by a manufacturer, factory branch, distributor, distributor branch, or subsidiary thereof if the Commissioner determines, after a hearing at the request of any party, that there is no dealer independent of the manufacturer or distributor, factory branch or distributor branch, or subsidiary thereof available in the community or trade area to own and operate the franchise in a manner consistent with the public interest;

5. The ownership, operation, or control of a dealership dealing exclusively with school buses by a school bus manufacturer or school bus parts manufacturer or a person who assembles school buses; or

6. The ownership, operation, or control of a dealership dealing exclusively with refined fuels truck tanks by a manufacturer of refined fuels truck tanks or by a person who assembles refined fuels truck tanks. Notwithstanding any contrary provision of this chapter, any manufacturer of fire-fighting equipment who, on or before December 31, 2004, had requested a hearing before the Department or the Commissioner in accordance with subdivision 4 for licensure as a dealer in fire-fighting equipment and/or ambulances may be licensed as a dealer in fire-fighting equipment and/or ambulances.

CHAPTER 311

An Act to amend and reenact §§ 46.2-1569, 46.2-1571, and 46.2-1572 of the Code of Virginia, relating to motor vehicle dealers; franchise agreements; sale or lease of new motor vehicles.

[S 871]

Approved March 23, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-1569, 46.2-1571, and 46.2-1572 of the Code of Virginia are amended and reenacted as follows:
