CHAPTER 7

An Act to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to deceased high school seniors; waiver of graduation requirements and award of posthumous high school diplomas.

[H 1514]

Approved March 16, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board and meet such other requirements as may be prescribed by the local school board and approved by the Board. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement

statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. Require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board.

School boards shall report annually to the Board the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications, or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements *and the subsequent award of a high school diploma* (i) upon the Board's initiative ~~or~~, (ii) at the request of a local school board*, or (iii) upon the request of the parent of any high school senior who died in good standing prior to graduation during the student's senior year*. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board; (ii) successfully completed an education and training program designated by the Board; (iii) earned a Board-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

An Act for the relief of Michael Haas, relating to claims; compensation for wrongful incarceration.

[H 1463]

Approved March 16, 2023

Whereas, Michael Haas (Mr. Haas) was convicted in the Circuit Court of Powhatan County on July 22, 1994, of the felony offenses of forcibly sodomizing his two sons, crimes that he did not commit; and

Whereas, Mr. Haas was sentenced to two terms of life imprisonment, to be served concurrently for such conviction; and

Whereas, Mr. Haas served 23 years and six months in the custody of the Virginia Department of Corrections; and

Whereas, Mr. Haas's sons testified at his trial that he sexually abused them on multiple occasions and forensic evidence presented at the time substantiated such claims; and

Whereas, both sons of Mr. Haas recanted their accusations of forcible sodomy shortly after the trial and conviction; and

Whereas, Mr. Haas began pursuing exoneration at that time; and

Whereas, Mr. Haas secured the assistance of the Mid-Atlantic Innocence Project beginning in 2014 to investigate his case; and

Whereas, Mr. Haas was released from prison on December 19, 2017, placed on parole, and was required to register as a sex offender; and

Whereas, the Mid-Atlantic Innocence Project obtained further recanting affidavits from Mr. Haas's sons and uncovered evidence that his sons were coerced to testify as to the forcible sodomy by their mother and their counselor, rendering their accusations and trial testimony unreliable; and

Whereas, in the time since Mr. Haas's conviction, advances in the field of sexual abuse pediatrics have developed; and

Whereas, under currently accepted sexual abuse pediatric standards, the physical examinations of Mr. Haas's sons evidenced no indicia of abuse; and

Whereas, Mr. Haas pursued a writ of actual innocence in the Virginia Court of Appeals on July 30, 2020; and

Whereas, former Attorney General Mark Herring and current Attorney General Jason Miyares both investigated Mr. Haas's case and determined that Mr. Haas is innocent of the crimes for which he was convicted, had been wrongfully convicted, and should be entitled to a writ of actual innocence; and

Whereas, the Virginia Court of Appeals granted Mr. Haas's petition and issued a writ of actual innocence based on nonbiological evidence, vacating his convictions on April 19, 2022, pursuant to Chapter 19.3 (§ 19.2-327.10 et seq.) of Title 19.2 of the Code of Virginia; and

Whereas, Mr. Haas, as a result of his wrongful incarceration, lost 23 years and six months of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

Whereas, Mr. Haas has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. *§ 1. That there is hereby appropriated from the general fund of the state treasury the sum of $1,530,653 for the relief of Michael Haas, to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Haas may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

As Mr. Haas is older than 60 years of age, the compensation, subject to the execution of the release described herein, shall be paid in one lump sum of $1,530,653 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release.

§ 2. That Mr. Haas shall receive a transition assistance grant of $15,000 within 30 days of receipt of the written request for the disbursement of such transition assistance grant to the Executive Secretary of the Supreme Court of Virginia. Any amount paid to Mr. Haas as a transition assistance grant pursuant to subsection D of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.

§ 3. That Mr. Haas shall be entitled to receive career and technical training within the Virginia Community College System free of tuition charges, up to a maximum of $10,000. The tuition benefit shall be paid by the community college at which the career or technical training is provided. The tuition benefit provided by this section shall expire on January 1, 2027.

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

CHAPTER 12

Whereas, Michael Haas (Mr. Haas) was convicted in the Circuit Court of Powhatan County on July 22, 1994, of the felony offenses of forcibly sodomizing his two sons, crimes that he did not commit; and

Whereas, Mr. Haas was sentenced to two terms of life imprisonment, to be served concurrently for such conviction; and

Whereas, Mr. Haas served 23 years and six months in the custody of the Virginia Department of Corrections; and

Whereas, Mr. Haas's sons testified at his trial that he sexually abused them on multiple occasions and forensic evidence presented at the time substantiated such claims; and

Whereas, both sons of Mr. Haas recanted their accusations of forcible sodomy shortly after the trial and conviction; and

Whereas, Mr. Haas began pursuing exoneration at that time; and

Whereas, Mr. Haas secured the assistance of the Mid-Atlantic Innocence Project beginning in 2014 to investigate his case; and

Whereas, Mr. Haas was released from prison on December 19, 2017, placed on parole, and was required to register as a sex offender; and

Whereas, the Mid-Atlantic Innocence Project obtained further recanting affidavits from Mr. Haas's sons and uncovered evidence that his sons were coerced to testify as to the forcible sodomy by their mother and their counselor, rendering their accusations and trial testimony unreliable; and

Whereas, in the time since Mr. Haas's conviction, advances in the field of sexual abuse pediatrics have developed; and

Whereas, under currently accepted sexual abuse pediatric standards, the physical examinations of Mr. Haas's sons evidenced no indicia of abuse; and

Whereas, Mr. Haas pursued a writ of actual innocence in the Virginia Court of Appeals on July 30, 2020; and

Whereas, former Attorney General Mark Herring and current Attorney General Jason Miyares both investigated Mr. Haas's case and determined that Mr. Haas is innocent of the crimes for which he was convicted, had been wrongfully convicted, and should be entitled to a writ of actual innocence; and

Whereas, the Virginia Court of Appeals granted Mr. Haas's petition and issued a writ of actual innocence based on nonbiological evidence, vacating his convictions on April 19, 2022, pursuant to Chapter 19.3 (§ 19.2-327.10 et seq.) of Title 19.2 of the Code of Virginia; and

Whereas, Mr. Haas, as a result of his wrongful incarceration, lost 23 years and six months of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

Whereas, Mr. Haas has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. *§ 1. That there is hereby appropriated from the general fund of the state treasury the sum of $1,530,653 for the relief of Michael Haas, to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Haas may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

As Mr. Haas is older than 60 years of age, the compensation, subject to the execution of the release described herein, shall be paid in one lump sum of $1,530,653 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release.

§ 2. That Mr. Haas shall receive a transition assistance grant of $15,000 within 30 days of receipt of the written request for the disbursement of such transition assistance grant to the Executive Secretary of the Supreme Court of Virginia. Any amount paid to Mr. Haas as a transition assistance grant pursuant to subsection D of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.

§ 3. That Mr. Haas shall be entitled to receive career and technical training within the Virginia Community College System free of tuition charges, up to a maximum of $10,000. The tuition benefit shall be paid by the community college at which the career or technical training is provided. The tuition benefit provided by this section shall expire on January 1, 2027.

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

Whereas, Mr. Kingrea was sentenced to 12 months in jail for such conviction and was required to register as a sex offender; and

Whereas, Mr. Kingrea served 12 months in the custody of the Virginia Department of Corrections; and

Whereas, Mr. Smith testified at Mr. Kingrea's trial that Mr. Kingrea sexually abused him on multiple occasions; and

Whereas, Mr. Smith recanted his testimony in October 2020; and

Whereas, Mr. Kingrea began pursuing exoneration at that time; and

Whereas, Mr. Kingrea pursued a writ of actual innocence in the Virginia Court of Appeals on August 19, 2021; and

Whereas, the Virginia Court of Appeals granted Mr. Kingrea's petition and issued a writ of actual innocence, vacating his convictions on June 6, 2022, pursuant to Chapter 19.3 (§ 19.2-327.10 et seq.) of Title 19.2 of the Code of Virginia; and

CHAPTER 14

An Act to amend and reenact §§ 58.1-3703.1 and 58.1-3916 of the Code of Virginia, relating to local business taxes; penalties.

[H 1685]

Approved March 16, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-3703.1 and 58.1-3916 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-3703.1. Uniform ordinance provisions.

A. Every ordinance levying a license tax pursuant to this chapter shall include provisions substantially similar to this subsection. As they apply to license taxes, the provisions required by this section shall override any limitations or requirements in Chapter 39 (§ 58.1-3900 et seq.) to the extent that they are in conflict.

1. License requirement. Every person shall apply for a license for each business or profession when engaging in a business in this jurisdiction if (i) the person has a definite place of business in this jurisdiction; (ii) there is no definite place of business anywhere and the person resides in this jurisdiction; or (iii) there is no definite place of business in this jurisdiction but the person operates amusement machines or is classified as an itinerant merchant, peddler, carnival, circus, contractor subject to § 58.1-3715, or public service corporation. A separate license shall be required for each definite place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied: (a) each business or profession is subject to licensure at the location and has satisfied any requirements imposed by state law or other provisions of the ordinances of this jurisdiction; (b) all of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate; and (c) the taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts.

Notwithstanding the foregoing, the governing body of any county, city, or town with a population greater than 50,000 may waive the license requirements provided herein for businesses with gross receipts of $200,000 or less.

2. Due dates and penalties.

a. Each person subject to a license tax shall apply for a license prior to beginning business if he was not subject to licensure in this jurisdiction on or before January 1 of the license year, or no later than March 1 of the license year if he had been issued a license for the preceding year. Any locality is authorized to adopt a later application date that is on or before May 1 of the license year. The application shall be on forms prescribed by the assessing official*, which forms and accompanying communications shall clearly set out the due date for the application and the amount of any penalty to be charged for late filing of the application, the underpayment of estimated tax, and late payment of tax*.

b. The tax shall be paid with the application in the case of any license not based on gross receipts. If the tax is measured by the gross receipts of the business, the tax shall be paid on or before the locality's fixed due date for filing license applications or a later date, including installment payment dates, or 30 or more days after beginning business, at the locality's option.

c. The assessing official may grant an extension of time in which to file an application for a license, for reasonable cause. The extension may be conditioned upon the timely payment of a reasonable estimate of the appropriate tax; the tax is then subject to adjustment to the correct tax at the end of the extension, together with interest from the due date until the date paid and, if the estimate submitted with the extension is found to be unreasonable under the circumstances, with a penalty of 10 percent of the portion paid after the due date.

d. A penalty of 10 percent of the tax may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. In the case of an assessment of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud, reckless or intentional disregard of the law by the taxpayer, there shall be no late payment penalty assessed with the additional tax. If any assessment of tax by the assessing official is not paid within 30 days, the treasurer or other collecting official may

impose a 10 percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed, or if imposed, shall be abated by the official who assessed them. In order to demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control.

"Acted responsibly" means that (i) the taxpayer exercised the level of reasonable care that a prudent person would exercise under the circumstances in determining the filing obligations for the business and (ii) the taxpayer undertook significant steps to avoid or mitigate the failure, such as requesting appropriate extensions (where applicable), attempting to prevent a foreseeable impediment, acting to remove an impediment once it occurred, and promptly rectifying a failure once the impediment was removed or the failure discovered.

"Events beyond the taxpayer's control" include, but are not limited to, the unavailability of records due to fire or other casualty; the unavoidable absence (e.g., due to death or serious illness) of the person with the sole responsibility for tax compliance; or the taxpayer's reasonable reliance in good faith upon erroneous written information from the assessing official who was aware of the relevant facts relating to the taxpayer's business when he provided the erroneous information.

e. Interest shall be charged on the late payment of the tax from the due date until the date paid without regard to fault or other reason for the late payment. Whenever an assessment of additional or omitted tax by the assessing official is found to be erroneous, all interest and any penalties charged and collected on the amount of the assessment found to be erroneous shall be refunded together with interest on the refund from the date of payment or the due date, whichever is later. Interest shall be paid on the refund of any BPOL tax from the date of payment or due date, whichever is later, whether attributable to an amended return or other reason. Interest on any refund shall be paid at the same rate charged under § 58.1-3916.

No interest shall accrue on an adjustment of estimated tax liability to actual liability at the conclusion of a base year. No interest shall be paid on a refund or charged on a late payment, provided the refund or the late payment is made not more than 30 days from the date of the payment that created the refund or the due date of the tax, whichever is later.

f. Any bill issued by the treasurer or other collecting official that includes, and any communication from the assessing official that imposes, a penalty pursuant to subdivision c or d or interest pursuant to subdivision e shall separately state the total amount of tax owed, the amount of any interest assessed, and the amount of the penalty imposed.

3. Situs of gross receipts.

a. General rule. Whenever the tax imposed by this ordinance is measured by gross receipts, the gross receipts included in the taxable measure shall be only those gross receipts attributed to the exercise of a privilege subject to licensure at a definite place of business within this jurisdiction. In the case of activities conducted outside of a definite place of business, such as during a visit to a customer location, the gross receipts shall be attributed to the definite place of business from which such activities are initiated, directed, or controlled. The situs of gross receipts for different classifications of business shall be attributed to one or more definite places of business or offices as follows:

(1) The gross receipts of a contractor shall be attributed to the definite place of business at which his services are performed, or if his services are not performed at any definite place of business, then the definite place of business from which his services are directed or controlled, unless the contractor is subject to the provisions of § 58.1-3715;

(2) The gross receipts of a retailer or wholesaler shall be attributed to the definite place of business at which sales solicitation activities occur, or if sales solicitation activities do not occur at any definite place of business, then the definite place of business from which sales solicitation activities are directed or controlled; however, a wholesaler or distribution house subject to a license tax measured by purchases shall determine the situs of its purchases by the definite place of business at which or from which deliveries of the purchased goods, wares and merchandise are made to customers. Any wholesaler who is subject to license tax in two or more localities and who is subject to multiple taxation because the localities use different measures, may apply to the Department of Taxation for a determination as to the proper measure of purchases and gross receipts subject to license tax in each locality;

(3) The gross receipts of a business renting tangible personal property shall be attributed to the definite place of business from which the tangible personal property is rented or, if the property is not rented from any definite place of business, then to the definite place of business at which the rental of such property is managed; and

(4) The gross receipts from the performance of services shall be attributed to the definite place of business at which the services are performed or, if not performed at any definite place of business, then to the definite place of business from which the services are directed or controlled.

b. Apportionment. If the licensee has more than one definite place of business and it is impractical or impossible to determine to which definite place of business gross receipts should be attributed under the general rule, the gross receipts of the business shall be apportioned between the definite places of businesses on the basis of payroll. Gross receipts shall not be apportioned to a definite place of business unless some activities under the applicable general rule occurred at, or were controlled from, such definite place of business. Gross receipts attributable to a definite place of business in another jurisdiction shall not be attributed to this jurisdiction solely because the other jurisdiction does not impose a tax on the gross receipts attributable to the definite place of business in such other jurisdiction.

c. Agreements. The assessor may enter into agreements with any other political subdivision of Virginia concerning the manner in which gross receipts shall be apportioned among definite places of business. However, the sum of the gross receipts apportioned by the agreement shall not exceed the total gross receipts attributable to all of the definite places of business affected by the agreement. Upon being notified by a taxpayer that its method of attributing gross receipts is fundamentally inconsistent with the method of one or more political subdivisions in which the taxpayer is licensed to engage in business and that the difference has, or is likely to, result in taxes on more than 100 percent of its gross receipts

from all locations in the affected jurisdictions, the assessor shall make a good faith effort to reach an apportionment agreement with the other political subdivisions involved. If an agreement cannot be reached, either the assessor or taxpayer may seek an advisory opinion from the Department of Taxation pursuant to § 58.1-3701; notice of the request shall be given to the other party. Notwithstanding the provisions of § 58.1-3993, when a taxpayer has demonstrated to a court that two or more political subdivisions of Virginia have assessed taxes on gross receipts that may create a double assessment within the meaning of § 58.1-3986, the court shall enter such orders pending resolution of the litigation as may be necessary to ensure that the taxpayer is not required to pay multiple assessments even though it is not then known which assessment is correct and which is erroneous.

4. Limitations and extensions.

a. Where, before the expiration of the time prescribed for the assessment of any license tax imposed pursuant to this ordinance, both the assessing official and the taxpayer have consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

b. Notwithstanding § 58.1-3903, the assessing official shall assess the local license tax omitted because of fraud or failure to apply for a license for the current license year and the six preceding license years.

c. The period for collecting any local license tax shall not expire prior to the period specified in § 58.1-3940, two years after the date of assessment if the period for assessment has been extended pursuant to this subdivision ~~of the ordinance~~, two years after the final determination of an appeal for which collection has been stayed pursuant to subdivision 5 b or ~~5~~ d ~~of this ordinance~~, or two years after the final decision in a court application pursuant to § 58.1-3984 or a similar law for which collection has been stayed, whichever is later.

5. Administrative appeals to commissioner of the revenue or other assessing official.

a. Definitions. For purposes of this section:

"Amount in dispute," when used with respect to taxes due or assessed, means the amount specifically identified in the administrative appeal or application for judicial review as disputed by the party filing such appeal or application.

"Appealable event" means an increase in the assessment of a local license tax payable by a taxpayer, the denial of a refund, or the assessment of a local license tax where none previously was assessed, arising out of the local assessing official's (i) examination of records, financial statements, books of account, or other information for the purpose of determining the correctness of an assessment; (ii) determination regarding the rate or classification applicable to the licensable business; (iii) assessment of a local license tax when no return has been filed by the taxpayer; or (iv) denial of an application for correction of erroneous assessment attendant to the filing of an amended application for license.

An appealable event shall include a taxpayer's appeal of the classification applicable to a business, including whether the business properly falls within a business license subclassification established by the locality, regardless of whether the taxpayer's appeal is in conjunction with an assessment, examination, audit, or any other action taken by the locality.

"Frivolous" means a finding, based on specific facts, that the party asserting the appeal is unlikely to prevail upon the merits because the appeal is (i) not well grounded in fact; (ii) not warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; (iii) interposed for an improper purpose, such as to harass, to cause unnecessary delay in the payment of tax or a refund, or to create needless cost from the litigation; or (iv) otherwise frivolous.

"Jeopardized by delay" means a finding, based upon specific facts, that a taxpayer designs to (i) depart quickly from the locality; (ii) remove his property therefrom; (iii) conceal himself or his property therein; or (iv) do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.

b. Filing and contents of administrative appeal. Any person assessed with a local license tax as a result of an appealable event as defined in this section may file an administrative appeal of the assessment within one year from the last day of the tax year for which such assessment is made, or within one year from the date of the appealable event, whichever is later, with the commissioner of the revenue or other local assessing official. The appeal must be filed in good faith and sufficiently identify the taxpayer, the tax periods covered by the challenged assessments, the amount in dispute, the remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer if requested by the taxpayer, or require submission of additional information and documents, an audit or further audit, or other evidence deemed necessary for a proper and equitable determination of the appeal. The assessment placed at issue in the appeal shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and issue a written determination to the taxpayer setting forth the facts and arguments in support of his decision.

The taxpayer may at any time also file an administrative appeal of the classification applicable to the taxpayer's business, including whether the business properly falls within a business license subclassification established by the locality. However, the appeal of the classification of the business shall not apply to any license year for which the Tax Commissioner has previously issued a final determination relating to any license fee or license tax imposed upon the taxpayer's business for the year. In addition, any appeal of the classification of a business shall in no way affect or change any limitations period prescribed by law for appealing an assessment.

c. Notice of right of appeal and procedures. Every assessment made by a commissioner of the revenue or other assessing official pursuant to an appealable event shall include or be accompanied by a written explanation of the taxpayer's right to file an administrative appeal and the specific procedures to be followed in the jurisdiction, the name and address to

which the appeal should be directed, an explanation of the required content of the appeal, and the deadline for filing the appeal.

For purposes of facilitating an administrative appeal of the classification applicable to a taxpayer's business, each locality imposing a tax or fee under this chapter shall maintain on its website the specific procedures to be followed in the jurisdiction with regard to such appeal and the name and address to which the appeal should be directed.

d. Suspension of collection activity during appeal. Provided a timely and complete administrative appeal is filed, collection activity with respect to the amount in dispute relating to any assessment by the commissioner of the revenue or other assessing official shall be suspended until a final determination is issued by the commissioner of the revenue or other assessing official, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the commissioner of the revenue or other assessing official that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the commissioner of the revenue or other assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision ~~2~~ e ~~of this subsection~~, but no further penalty shall be imposed while collection action is suspended.

e. Procedure in event of nondecision. Any taxpayer whose administrative appeal to the commissioner of the revenue or other assessing official pursuant to the provisions of *this* subdivision 5 ~~of this subsection~~ has been pending for more than one year without the issuance of a final determination may, upon not less than 30 days' written notice to the commissioner of the revenue or other assessing official, elect to treat the appeal as denied and appeal the assessment or classification of the taxpayer's business to the Tax Commissioner in accordance with the provisions of subdivision 6 ~~of this subsection~~. The Tax Commissioner shall not consider an appeal filed pursuant to the provisions of this subsection if he finds that the absence of a final determination on the part of the commissioner of the revenue or other assessing official was caused by the willful failure or refusal of the taxpayer to provide information requested and reasonably needed by the commissioner or other assessing official to make his determination.

6. Administrative appeal to the Tax Commissioner.

a. Any person assessed with a local license tax as a result of a determination or that has received a determination with regard to the person's appeal of the license classification or subclassification applicable to the person's business, upon an administrative appeal to the commissioner of the revenue or other assessing official pursuant to subdivision 5 ~~of this subsection~~, that is adverse to the position asserted by the taxpayer in such appeal may appeal such assessment or determination to the Tax Commissioner within 90 days of the date of the determination by the commissioner of the revenue or other assessing official. The appeal shall be in such form as the Tax Commissioner may prescribe and the taxpayer shall serve a copy of the appeal upon the commissioner of the revenue or other assessing official. The Tax Commissioner shall permit the commissioner of the revenue or other assessing official to participate in the proceedings, and shall issue a determination to the taxpayer within 90 days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The appeal shall proceed in the same manner as an application pursuant to § 58.1-1821, and the Tax Commissioner pursuant to § 58.1-1822 may issue an order correcting such assessment or correcting the license classification or subclassification of the business and the related license tax or fee liability.

b. Suspension of collection activity during appeal. On receipt of a notice of intent to file an appeal to the Tax Commissioner under subdivision ~~6~~ a ~~of this subsection~~, collection activity with respect to the amount in dispute relating to any assessment by the commissioner of the revenue or other assessing official shall be suspended until a final determination is issued by the Tax Commissioner, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the commissioner of the revenue or other assessing official, or the Tax Commissioner, that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the commissioner of the revenue or other assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision 2 e ~~of this subsection~~, but no further penalty shall be imposed while collection action is suspended. The requirement that collection activity be suspended shall cease unless an appeal pursuant to subdivision ~~6~~ a ~~of this subsection~~ is filed and served on the necessary parties within 30 days of the service of notice of intent to file such appeal.

c. Implementation of determination of Tax Commissioner. Promptly upon receipt of the final determination of the Tax Commissioner with respect to an appeal pursuant to subdivision ~~6~~ a ~~of this subsection~~, the commissioner of the revenue or other assessing official shall take those steps necessary to calculate the amount of tax owed by or refund due to the taxpayer consistent with the Tax Commissioner's determination and shall provide that information to the taxpayer and to the treasurer or other official responsible for collection in accordance with the provisions of this subdivision.

(1) If the determination of the Tax Commissioner sets forth a specific amount of tax due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for such amount due, together with interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the determination of the Tax Commissioner.

(2) If the determination of the Tax Commissioner sets forth a specific amount of refund due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a payment to the taxpayer for such amount due, together with interest accrued pursuant to this section, within 30 days of the date of the determination of the Tax Commissioner.

(3) If the determination of the Tax Commissioner does not set forth a specific amount of tax due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation to pay a tax that has not previously been paid in full, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for the amount due, together with interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the new assessment.

(4) If the determination of the Tax Commissioner does not set forth a specific amount of refund due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation on the part of the locality to make a refund of taxes previously paid, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment or to determine the amount of refund due in the case of a correction to the license classification or subclassification of the business, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment or refund amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a refund to the taxpayer for the amount of tax due, together with interest accrued, within 30 days of the date of the new assessment or determination of the amount of the refund.

7. Judicial review of determination of Tax Commissioner.

a. Judicial review. Following the issuance of a final determination of the Tax Commissioner pursuant to subdivision 6 a ~~of this subsection~~, the taxpayer or commissioner of the revenue or other assessing official may apply to the appropriate circuit court for judicial review of the determination, or any part thereof, pursuant to § 58.1-3984. In any such proceeding for judicial review of a determination of the Tax Commissioner, the burden shall be on the party challenging the determination of the Tax Commissioner, or any part thereof, to show that the ruling of the Tax Commissioner is erroneous with respect to the part challenged. Neither the Tax Commissioner nor the Department of Taxation shall be made a party to an application to correct an assessment merely because the Tax Commissioner has ruled on it.

b. Suspension of payment of disputed amount of tax due upon taxpayer's notice of intent to initiate judicial review.

(1) On receipt of a notice of intent to file an application for judicial review, pursuant to § 58.1-3984, of a determination of the Tax Commissioner pursuant to subdivision 6 a ~~of this subsection~~, and upon payment of the amount of the tax relating to any assessment by the commissioner of the revenue or other assessing official that is not in dispute together with any penalty and interest then due with respect to such undisputed portion of the tax, the treasurer or other collection official shall further suspend collection activity while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that (i) the taxpayer's application for judicial review is frivolous, as defined in this section; (ii) collection would be jeopardized by delay, as defined in this section; or (iii) suspension of collection would cause substantial economic hardship to the locality. For purposes of determining whether substantial economic hardship to the locality would arise from a suspension of collection activity, the court shall consider the cumulative effect of then-pending appeals filed within the locality by different taxpayers that allege common claims or theories of relief.

(2) Upon a determination that the appeal is frivolous, that collection may be jeopardized by delay, or that suspension of collection would result in substantial economic hardship to the locality, the court may require the taxpayer to pay the amount in dispute or a portion thereof, or to provide surety for payment of the amount in dispute in a form acceptable to the court.

(3) No suspension of collection activity shall be required if the application for judicial review fails to identify with particularity the amount in dispute or the application does not relate to any assessment by the commissioner of the revenue or other assessing official.

(4) The requirement that collection activity be suspended shall cease unless an application for judicial review pursuant to § 58.1-3984 is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

(5) The suspension of collection activity authorized by this subdivision shall not be applicable to any appeal of a local license tax that is initiated by the direct filing of an action pursuant to § 58.1-3984 without prior exhaustion of the appeals provided by subdivisions 5 and 6 ~~of this subsection~~.

c. Suspension of payment of disputed amount of refund due upon locality's notice of intent to initiate judicial review.

(1) Payment of any refund determined to be due pursuant to the determination of the Tax Commissioner of an appeal pursuant to subdivision 6 a ~~of this subsection~~ shall be suspended if the locality assessing the tax serves upon the taxpayer, within 60 days of the date of the determination of the Tax Commissioner, a notice of intent to file an application for judicial review of the Tax Commissioner's determination pursuant to § 58.1-3984 and pays the amount of the refund not in dispute, including tax and accrued interest. Payment of such refund shall remain suspended while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that the locality's application for judicial review is frivolous, as defined in this section.

(2) No suspension of refund activity shall be permitted if the locality's application for judicial review fails to identify with particularity the amount in dispute.

(3) The suspension of the obligation to make a refund shall cease unless an application for judicial review pursuant to § 58.1-3984 is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

d. Accrual of interest on unpaid amount of tax. Interest shall accrue in accordance with the provisions of subdivision 2 e ~~of this subsection~~, but no further penalty shall be imposed while collection action is suspended.

8. Rulings.

Any taxpayer or authorized representative of a taxpayer may request a written ruling regarding the application of a local license tax to a specific situation from the commissioner of the revenue or other assessing official. Any person requesting such a ruling must provide all facts relevant to the situation placed at issue and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. In addition, the taxpayer or authorized representative may request a written ruling with regard to the classification applicable to the taxpayer's business, including whether the business properly falls within a business license subclassification established by the locality.

Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if (i) there is a change in the law, a court decision, or the guidelines issued by the Department of Taxation upon which the ruling was based or (ii) the assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

9. ~~Record keeping~~ *Recordkeeping* and audits. Every person who is assessable with a local license tax shall keep sufficient records to enable the assessor to verify the correctness of the tax paid for the license years assessable and to enable the assessor to ascertain what is the correct amount of tax that was assessable for each of those years. All such records, books of accounts and other information shall be open to inspection and examination by the assessor in order to allow the assessor to establish whether a particular receipt is directly attributable to the taxable privilege exercised within this jurisdiction. The assessor shall provide the taxpayer with the option to conduct the audit in the taxpayer's local business office, if the records are maintained there. In the event the records are maintained outside this jurisdiction, copies of the appropriate books and records shall be sent to the assessor's office upon demand.

B. Transitional provisions.

1. A locality which changes its license year from a fiscal year to a calendar year and adopts a due date for license applications between March 1 and May 1, inclusive, shall not be required to prorate any license tax to reflect a license year of less than 12 months, whether the tax is a flat amount or measured by gross receipts, provided that no change is made in the taxable year for measuring gross receipts.

2. The provisions of this section relating to penalties, interest, and administrative and judicial review of an assessment shall be applicable to assessments made on and after January 1, 1997, even if for an earlier license year. The provisions relating to agreements extending the period for assessing tax shall be effective for agreements entered into on and after July 1, 1996. The provisions permitting an assessment of a license tax for up to six preceding years in certain circumstances shall not be construed to permit the assessment of tax for a license year beginning before January 1, 1997.

3. Every locality shall adopt a fixed due date for license applications between March 1 and May 1, inclusive, no later than the 2007 license year.

§ 58.1-3916. Counties, cities, and towns may provide dates for filing returns and set penalties, interest, etc.

Notwithstanding provisions contained in §§ 58.1-3518, 58.1-3900, 58.1-3913, 58.1-3915, and 58.1-3918, the governing body of any county, city, or town may provide by ordinance the time for filing local license applications and annual returns of taxable tangible personal property, machinery and tools, and merchants' capital. The governing body may also by ordinance establish due dates for the payment of local taxes; may provide that payment be made in a single installment or in two equal installments; may offer options, which may include coupon books and payroll deductions, which allow the taxpayer to determine whether to pay the tangible personal property tax through monthly, bimonthly, quarterly, or semiannual installments or in a lump sum, provided such taxes are paid in full by the final due date; may provide by ordinance penalties for failure to file such applications and returns and for nonpayment in time; may provide for payment of interest on delinquent taxes; and may provide for the recovery of reasonable attorney's or collection agency's fees actually contracted for, not to exceed 20 percent of the delinquent taxes and other charges so collected. A locality that provides for payment of interest on delinquent taxes shall provide for interest at the same rate on overpayments due to erroneously assessed taxes to be paid to the taxpayer, provided that no interest shall be required to be paid on such refund if (i) the amount of the refund is $10 or less or (ii) the refund is the result of proration pursuant to § 58.1-3516. A court that finds that an overpayment of local taxes has been made in an action brought pursuant to § 58.1-3984 shall award interest at the appropriate rate, notwithstanding the failure of the locality to conform its ordinance to the requirements of this section.

Notwithstanding any contrary provision of law, the local governing body shall allow an automatic extension on real property taxes imposed upon a primary residence and personal property taxes imposed upon a qualifying vehicle, as defined in § 58.1-3523, owed by members of the armed services of the United States deployed outside of the United States. Such extension shall end and the taxes shall be due 90 days following the completion of such member's deployment. For purposes

of this section, "the armed services of the United States" includes active duty service with the regular Armed Forces of the United States or the National Guard or other reserve component.

No tax assessment or tax bill shall be deemed delinquent and subject to the collection procedures prescribed herein during the pendency of any administrative appeal under § 58.1-3980, so long as the appeal is filed within 90 days of the date of the assessment, and for 30 days after the date of the final determination of the appeal, provided that nothing in this paragraph shall be construed to preclude the assessment or refund, following the final determination of such appeal, of such interest as otherwise may be provided by general law as to that portion of a tax bill that has remained unpaid or was overpaid during the pendency of such appeal and is determined in such appeal to be properly due and owing.

Interest may commence not earlier than the first day following the day such taxes are due by ordinance to be filed, at a rate not to exceed 10 percent per year. The governing body may impose interest at a rate not to exceed the rate of interest established pursuant to § 6621 of the Internal Revenue Code of 1954, as amended, or 10 percent annually, whichever is greater, for the second and subsequent years of delinquency. No penalty for failure to pay a tax or installment shall exceed (i) 10 percent of the tax past due on such property; (ii) in the case of delinquent tangible personal property tax more than 30 days past due on property classified pursuant to subdivision A 15, ~~A~~ 16, or ~~A~~ 20 of § 58.1-3506, which remains unpaid after 10 days' written notice sent by United States mail to the taxpayer of the intention to impose a penalty pursuant hereto, the penalty shall not exceed an amount equal to the difference between the tax due and owing with respect to such property and the tax that would have been due and owing if the property in question had been classified as general tangible personal property pursuant to § 58.1-3503; (iii) in the case of delinquent tangible personal property tax more than 30 days past due, 25 percent of the tax past due on such tangible personal property; (iv) in the case of delinquent remittance of excise taxes on meals, lodging, or admissions collected from consumers, 10 percent for the first month the taxes are past due, and five percent for each month thereafter, up to a maximum of 25 percent of the taxes collected but not remitted; or (v) $10, whichever is greater, provided, however, that the penalty shall in no case exceed the amount of the tax assessable. No penalty for failure to file a return shall be greater than 10 percent of the tax assessable on such return or $10, whichever is greater~~;~~, provided, however, that the penalty shall in no case exceed the amount of the tax assessable. The assessment of such penalty shall not be deemed a defense to any criminal prosecution for failing to make return of taxable property as may be required by law or ordinance. Penalty for failure to file an application or return may be assessed on the day after such return or application is due; penalty for failure to pay any tax may be assessed on the day after the first installment is due. Any such penalty when so assessed shall become a part of the tax. *Any bill issued by the treasurer imposing a penalty or interest for taxes owed on machinery and tools or tangible personal property owned by a business shall separately state the total amount of tax owed, the amount of any interest assessed, and the amount of the penalty imposed.*

No penalty for failure to pay any tax shall be imposed for any assessment made later than two weeks prior to the day on which the taxes are due, if such assessment is made thereafter through the fault of a local official, and if such assessment is paid within two weeks after the notice thereof is mailed.

In the event a transfer of real property ownership occurs after January 1 of a tax year and a real estate tax bill has been mailed pursuant to §§ 58.1-3281 and 58.1-3912, the treasurer or other appropriate local official designated by ordinance of the local governing body in jurisdictions not having a treasurer, upon ascertaining that a property transfer has occurred, may invalidate a bill sent to the prior owner and reissue the bill to the new owner as permitted by § 58.1-3912, and no penalty for failure to pay any tax for any such assessment shall be imposed if the tax is paid within two weeks after the notice thereof is mailed.

Penalty and interest for failure to file a return or to pay a tax shall not be imposed if such failure was not the fault of the taxpayer, or was the fault of the commissioner of revenue or the treasurer, as the case may be. The failure to file a return or to pay a tax due to the death of the taxpayer or a medically determinable physical or mental impairment on the date the return or tax is due shall be presumptive proof of lack of fault on the taxpayer's part, provided the return is filed or the taxes are paid within 30 days of the due date; however, if there is a committee, legal guardian, conservator or other fiduciary handling the individual's affairs, such return shall be filed or such taxes paid within 120 days after the fiduciary qualifies or begins to act on behalf of the taxpayer. Interest on such taxes shall accrue until paid in full. Any such fiduciary shall, on behalf of the taxpayer, by the due date, file any required returns and pay any taxes that come due after the 120-day period. The treasurer shall make determinations of fault relating exclusively to failure to pay a tax, and the commissioner of the revenue shall make determinations of fault relating exclusively to failure to file a return. In jurisdictions not having a treasurer or commissioner of the revenue, the governing body may delegate to the appropriate local tax officials the responsibility to make the determination of fault.

The governing body may further provide by resolution for reasonable extensions of time, not to exceed 90 days, for the payment of real estate and personal property taxes and for filing returns on tangible personal property, machinery and tools, and merchants' capital, and the business, professional, and occupational license tax, whenever good cause exists. The official granting such extension shall keep a record of every such extension. If any taxpayer who has been granted an extension of time for filing his return fails to file his return within the extended time, his case shall be treated the same as if no extension had been granted.

This section shall be the sole authority for local ordinances setting due dates of local taxes and penalty and interest thereon, and shall supersede the provisions of any charter or special act.

CHAPTER 17

An Act to amend and reenact §§ 16.1-278.15 and 20-103 of the Code of Virginia, relating to child custody, visitation, or support proceedings; educational seminars or other like programs approved by Office of the Executive Secretary of the Supreme Court of Virginia.

[H 1581]

Approved March 16, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-278.15 and 20-103 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-278.15. Custody or visitation, child or spousal support generally.

A. In cases involving the custody, visitation or support of a child pursuant to subdivision A 3 of § 16.1-241, the court may make any order of disposition to protect the welfare of the child and family as may be made by the circuit court. The parties to any petition where a child whose custody, visitation, or support is contested shall show proof that they have attended within the 12 months prior to their court appearance or that they shall attend within 45 days thereafter an educational seminar or other like program conducted by a qualified person or organization approved by the ~~court~~ *Office of the Executive Secretary of the Supreme Court of Virginia*. The court may require the parties to attend such seminar or program in uncontested cases only if the court finds good cause. The seminar or other program shall be a minimum of four hours in length and shall address the effects of separation or divorce on children, parenting responsibilities, options for conflict resolution and financial responsibilities. Once a party has completed one educational seminar or other like program, the required completion of additional programs shall be at the court's discretion. Parties under this section shall include

natural or adoptive parents of the child, or any person with a legitimate interest as defined in § 20-124.1. The fee charged a party for participation in such program shall be based on the party's ability to pay; however, no fee in excess of $50 may be charged. Whenever possible, before participating in mediation or alternative dispute resolution to address custody, visitation or support, each party shall have attended the educational seminar or other like program. The court may grant an exemption from attendance of such program for good cause shown or if there is no program reasonably available. Other than statements or admissions by a party admitting criminal activity or child abuse or neglect, no statement or admission by a party in such seminar or program shall be admissible into evidence in any subsequent proceeding. If support is ordered for a child, the order shall also provide that support will continue to be paid for a child over the age of 18 who is (i) a full-time high school student, (ii) not self-supporting, and (iii) living in the home of the parent seeking or receiving child support, until the child reaches the age of 19 or graduates from high school, whichever occurs first. The court may also order that support be paid or continue to be paid for any child over the age of 18 who is (a) severely and permanently mentally or physically disabled, and such disability existed prior to the child reaching the age of 18 or the age of 19 if the child met the requirements of clauses (i), (ii), and (iii); (b) unable to live independently and support himself; and (c) residing in the home of the parent seeking or receiving child support. Upon request of either party, the court may also order that support payments be made to a special needs trust or an ABLE savings trust account as defined in § 23.1-700.

B. In any case involving the custody or visitation of a child, the court may award custody upon petition to any party with a legitimate interest therein, including, but not limited to, grandparents, stepparents, former stepparents, blood relatives and family members. The term "legitimate interest" shall be broadly construed to accommodate the best interest of the child. The authority of the juvenile court to consider a petition involving the custody of a child shall not be proscribed or limited where the custody of the child has previously been awarded to a local board of social services.

C. In any determination of support obligation under this section, the support obligation as it becomes due and unpaid creates a judgment by operation of law. Such judgment becomes a lien against real estate only when docketed in the county or city where such real estate is located. Nothing herein shall be construed to alter or amend the process of attachment of any lien on personal property.

D. Orders entered prior to July 1, 2008, shall not be deemed void or voidable solely because the petition or motion that resulted in the order was completed, signed and filed by a nonattorney employee of the Department of Social Services.

E. In cases involving charges for desertion, abandonment or failure to provide support by any person in violation of law, disposition shall be made in accordance with Chapter 5 (§ 20-61 et seq.) of Title 20.

F. In cases involving a spouse who seeks spousal support after having separated from his spouse, the court may enter any appropriate order to protect the welfare of the spouse seeking support.

G. In any case or proceeding involving the custody or visitation of a child, the court shall consider the best interest of the child, including the considerations for determining custody and visitation set forth in Chapter 6.1 (§ 20-124.1 et seq.) of Title 20.

G1. In any case or proceeding involving the custody or visitation of a child, as to a parent, the court may, in its discretion, use the phrase "parenting time" to be synonymous with the term "visitation."

H. In any proceeding before the court for custody or visitation of a child, the court may order a custody or a psychological evaluation of any parent, guardian, legal custodian or person standing in loco parentis to the child, if the court finds such evaluation would assist it in its determination. The court may enter such orders as it deems appropriate for the payment of the costs of the evaluation by the parties.

I. When deemed appropriate by the court in any custody or visitation matter, the court may order drug testing of any parent, guardian, legal custodian or person standing in loco parentis to the child. The court may enter such orders as it deems appropriate for the payment of the costs of the testing by the parties.

J. In any custody or visitation case or proceeding wherein an order prohibiting a party from picking the child up from school is entered pursuant to this section, the court shall order a party to such case or proceeding to provide a copy of such custody or visitation order to the school at which the child is enrolled within three business days of such party's receipt of such custody or visitation order.

If a custody determination affects the school enrollment of the child subject to such custody order and prohibits a party from picking the child up from school, the court shall order a party to provide a copy of such custody order to the school at which the child will be enrolled within three business days of such party's receipt of such order. Such order directing a party to provide a copy of such custody or visitation order shall further require such party, upon any subsequent change in the child's school enrollment, to provide a copy of such custody or visitation order to the new school at which the child is subsequently enrolled within three business days of such enrollment.

If the court determines that a party is unable to deliver the custody or visitation order to the school, such party shall provide the court with the name of the principal and address of the school, and the court shall cause the order to be mailed by first class mail to such school principal.

Nothing in this section shall be construed to require any school staff to interpret or enforce the terms of such custody or visitation order.

§ 20-103. Court may make orders pending suit for divorce, custody or visitation, etc.

A. In suits for divorce, annulment and separate maintenance, and in proceedings arising under subdivision A 3 or subsection L of § 16.1-241, the court having jurisdiction of the matter may, at any time pending a suit pursuant to this chapter, in the discretion of such court, make any order that may be proper (i) to compel a spouse to pay any sums necessary

for the maintenance and support of the petitioning spouse, including (a) an order that the other spouse provide health care coverage for the petitioning spouse, unless it is shown that such coverage cannot be obtained, or (b) an order that a party pay secured or unsecured debts incurred jointly or by either party, (ii) to enable such spouse to carry on the suit, (iii) to prevent either spouse from imposing any restraint on the personal liberty of the other spouse, (iv) to provide for the custody and maintenance of the minor children of the parties, including an order that either party or both parties provide health care coverage or cash medical support, or both, for the children, (v) to provide support, calculated in accordance with § 20-108.2, for any child of the parties to whom a duty of support is owed and to pay or continue to pay support for any child over the age of 18 who meets the requirements set forth in subsection C of § 20-124.2, (vi) for the exclusive use and possession of the family residence during the pendency of the suit, (vii) to preserve the estate of either spouse, so that it be forthcoming to meet any decree which may be made in the suit, (viii) to compel either spouse to give security to abide such decree, or (ix)(a) to compel a party to maintain any existing policy owned by that party insuring the life of either party or to require a party to name as a beneficiary of the policy the other party or an appropriate person for the exclusive use and benefit of the minor children of the parties and (b) to allocate the premium cost of such life insurance between the parties, provided that all premiums are billed to the policyholder. Nothing in clause (ix) shall be construed to create an independent cause of action on the part of any beneficiary against the insurer or to require an insurer to provide information relating to such policy to any person other than the policyholder without the written consent of the policyholder. The parties to any petition where a child whose custody, visitation, or support is contested shall show proof that they have attended within the 12 months prior to their court appearance or that they shall attend within 45 days thereafter an educational seminar or other like program conducted by a qualified person or organization approved by the ~~court~~ *Office of the Executive Secretary of the Supreme Court of Virginia,* except that the court may require the parties to attend such seminar or program in uncontested cases only if the court finds good cause. The seminar or other program shall be a minimum of four hours in length and shall address the effects of separation or divorce on children, parenting responsibilities, options for conflict resolution and financial responsibilities. Once a party has completed one educational seminar or other like program, the required completion of additional programs shall be at the court's discretion. Parties under this section shall include natural or adoptive parents of the child, or any person with a legitimate interest as defined in § 20-124.1. The fee charged a party for participation in such program shall be based on the party's ability to pay; however, no fee in excess of $50 may be charged. Whenever possible, before participating in mediation or alternative dispute resolution to address custody, visitation or support, each party shall have attended the educational seminar or other like program. The court may grant an exemption from attendance of such program for good cause shown or if there is no program reasonably available. Other than statements or admissions by a party admitting criminal activity or child abuse, no statement or admission by a party in such seminar or program shall be admissible into evidence in any subsequent proceeding.

A1. Any award or order made by the court pursuant to subsection A shall be paid from the post-separation income of the obligor unless the court, for good cause shown, orders otherwise. Upon the request of either party, the court may identify and state in such order or award the specific source from which the financial obligation imposed is to be paid.

A2. In any case in which the jurisdiction of the juvenile and domestic relations district court has been divested pursuant to § 16.1-244 and no final support order has been entered, any award for child support or spousal support in the circuit court pursuant to subsection A shall be retroactive to the date on which the proceeding was commenced by the filing of the action in the juvenile and domestic relations district court, provided that the petitioner exercised due diligence in the service of the respondent.

B. In addition to the terms provided in subsection A, upon a showing by a party of reasonable apprehension of physical harm to that party by such party's family or household member as that term is defined in § 16.1-228, and consistent with rules of the Supreme Court of Virginia, the court may enter an order excluding that party's family or household member from the jointly owned or jointly rented family dwelling. In any case where an order is entered under this paragraph, pursuant to an ex parte hearing, the order shall not exclude a family or household member from the family dwelling for a period in excess of 15 days from the date the order is served, in person, upon the person so excluded. The order may provide for an extension of time beyond the 15 days, to become effective automatically. The person served may at any time file a written motion in the clerk's office requesting a hearing to dissolve or modify the order. Nothing in this section shall be construed to prohibit the court from extending an order entered under this subsection for such longer period of time as is deemed appropriate, after a hearing on notice to the parties. If the party subject to the order fails to appear at this hearing, the court may extend the order for a period not to exceed six months.

C. In cases other than those for divorce in which a custody or visitation arrangement for a minor child is sought, the court may enter an order providing for custody, visitation or maintenance pending the suit as provided in subsection A. The order shall be directed to either parent or any person with a legitimate interest who is a party to the suit.

D. Orders entered pursuant to this section which provide for custody or visitation arrangements pending the suit shall be made in accordance with the standards set out in Chapter 6.1 (§ 20-124.1 et seq.). Orders entered pursuant to subsection B shall be certified by the clerk and forwarded as soon as possible to the local police department or sheriff's office which shall, on the date of receipt, enter the name of the person subject to the order and other appropriate information required by the Department of State Police into the Virginia crime information network system established and maintained by the Department of State Police pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52. If the order is later dissolved or modified, a copy of the dissolution or modification shall also be certified, forwarded and entered in the system as described above.

E. There shall be a presumption in any judicial proceeding for pendente lite spousal support and maintenance under this section that the amount of the award that would result from the application of the formula set forth in this section is the correct amount of spousal support to be awarded. The court may deviate from the presumptive amount as provided in subsection H.

F. If the court is determining both an award of pendente lite spousal support and maintenance and an award of child support, the court shall first make a determination of the amount of the award of pendente lite spousal support, if any, owed by one party to the other under this section.

G. If the parties have minor children in common, the presumptive amount of an award of pendente lite spousal support and maintenance shall be the difference between 26 percent of the payor spouse's monthly gross income and 58 percent of the payee spouse's monthly gross income. If the parties have no minor children in common, the presumptive amount of the award shall be the difference between 27 percent of the payor spouse's monthly gross income and 50 percent of the payee spouse's monthly gross income. For the purposes of this section, monthly gross income shall have the same meaning as it does in section § 20-108.2.

H. The court may deviate from the presumptive amount for good cause shown, including any relevant evidence relating to the parties' current financial circumstances or the impact of any tax exemption and any credits resulting from such exemptions that indicates the presumptive amount is inappropriate.

I. The presumptive formula set forth in this section shall only apply to cases where the parties' combined monthly gross income does not exceed $10,000.

J. An order entered pursuant to this section shall have no presumptive effect and shall not be determinative when adjudicating the underlying cause.

§ 15.2-1716.1. Reimbursement of expenses incurred in responding to terrorism hoax incident, bomb threat, or malicious activation of fire alarm.

Any locality may provide by ordinance that any person who is convicted of a violation of subsection B or C of § 18.2-46.6, a felony violation of § 18.2-83 or 18.2-84, or a violation of § 18.2-212 *or 18.2-461.1*, when his violation of such section is the proximate cause of any incident resulting in an appropriate emergency response, shall be liable at the time of sentencing or in a separate civil action to the locality*, the Virginia State Police,* or ~~to~~ any volunteer emergency medical services agency, or ~~both~~ *any combination thereof*, which may provide such emergency response for the reasonable expense thereof, in an amount not to exceed $2,500 in the aggregate for a particular incident occurring in such locality. As used in this section, "appropriate emergency response" includes all costs of providing law-enforcement, firefighting, and emergency medical services. The provisions of this section shall not preempt or limit any remedy available to the Commonwealth, to the locality, or to any volunteer emergency medical services agency to recover the reasonable expenses of an emergency response to an incident not involving a terroristic hoax or an act undertaken in violation of § 18.2-83, 18.2-84, ~~or~~ 18.2-212*, or 18.2-461.1* as set forth herein.

CHAPTER 36

An Act to amend and reenact §§ 62.1-44.38 and 62.1-44.38:1 of the Code of Virginia, relating to plans and programs; drought evaluation and response plans; Potomac River.

[H 2095]

Approved March 17, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 62.1-44.38 and 62.1-44.38:1 of the Code of Virginia are amended and reenacted as follows:

§ 62.1-44.38. Plans and programs; registration of certain data by water users; advisory committees; committee membership for federal, state, and local agencies; water supply planning assistance.

A. The Board shall prepare plans and programs for the management of the water resources of the Commonwealth in such a manner as to encourage, promote, and secure the maximum beneficial use and control thereof. These plans and programs shall be prepared for each major river basin of the Commonwealth, and appropriate subbasins therein, including specifically the Potomac-Shenandoah River Basin, the Rappahannock River Basin, the York River Basin, the James River Basin, the Chowan River Basin, the Roanoke River Basin, the New River Basin, and the Tennessee-Big Sandy River Basin, and for those areas in the Tidewater and elsewhere in the Commonwealth not within these major river basins. Reports for each basin shall be published by the Board.

B. 1. In preparing river basin plan and program reports enumerated in subsection A, the Board shall (i) estimate current water withdrawals and use for agriculture, industry, domestic use, and other significant categories of water users; (ii) project water withdrawals and use by agriculture, industry, domestic use, and other significant categories of water users; (iii) estimate, for each major river and stream, the minimum instream flows necessary during drought conditions to maintain water quality and avoid permanent damage to aquatic life in streams, bays, and estuaries; (iv) evaluate, to the extent practicable, the ability of existing subsurface and surface waters to meet current and future water uses, including minimum instream flows, during drought conditions; (v) evaluate, in cooperation with the Virginia Department of Health and local water supply managers, the current and future capability of public water systems to provide adequate quantity and quality of water; (vi) estimate, using a data-driven method that includes multiple reasonable assumptions about supply and demand over varying time frames, the risk that each locality and region will experience water supply shortfalls; and (vii) evaluate hydrologic, environmental, economic, social, legal, jurisdictional, and other aspects of each alternative management strategy identified.

2. The Board shall direct the Department of Environmental Quality (the Department) in its facilitation of regional water planning efforts. The Department shall (i) ensure that localities coordinate sufficiently in the development of regional water plans; (ii) provide planning, policy, and technical assistance to each regional planning area, differentiated according to each area's water supply challenges, existing resources, and other factors; and (iii) ensure that each regional plan clearly identifies the region's water supply risks and proposes strategies to address those risks.

3. When preparing drought evaluation and response plans pursuant to subdivision 1, the Board shall recognize the localities that include any portion of the service area of a water supply utility in the Commonwealth that uses the Potomac River as a water supply source as a distinct drought evaluation region. Such plans shall incorporate the provisions of the Metropolitan Washington Water Supply and Drought Awareness Response Plan: Potomac River System (2000), including provisions related to triggers, actions, and messages for the Potomac River drought evaluation region. Nothing in this subdivision regarding the incorporation of such provisions shall be construed to limit the authority of the Governor during a declared drought emergency.

C. The Board may, by regulation, require each water user withdrawing surface or subsurface water or both during each year to register, by a date to be established by the Board, water withdrawal and use data for the previous year including the estimated average daily withdrawal, maximum daily withdrawal, sources of water withdrawn, and volume of wastewater discharge, provided that the withdrawal exceeds one million gallons in any single month for use for crop irrigation, or that the daily average during any single month exceeds 10,000 gallons per day for any other user. Location data shall be provided by each user in a coordinate system specified by the Board.

D. The Board shall establish advisory committees to assist it in the formulation of such plans or programs and in formulating recommendations called for in subsection E. In this connection, the Board may include committee membership for branches or agencies of the federal government, branches or agencies of the Commonwealth, branches or agencies of the government of any state in a river basin located within that state and Virginia, the political subdivisions of the

Commonwealth, and all persons and corporations interested in or directly affected by any proposed or existing plan or program.

E. The Board shall prepare plans or programs and shall include in reports prepared under subsection A recommended actions to be considered by the General Assembly, the agencies of the Commonwealth and local political subdivisions, the agencies of the federal government, or any other persons that the Board may deem necessary or desirable for the accomplishment of plans or programs prepared under subsection B.

F. In addition to the preparation of plans called for in subsection A, the Board, upon written request of a political subdivision of the Commonwealth, shall provide water supply planning assistance to such political subdivision, including assistance in preparing drought management strategies, water conservation programs, evaluation of alternative water sources, state enabling legislation to facilitate a specific situation, applications for federal grants or permits, or other such planning activities to facilitate intergovernmental cooperation and coordination.

§ 62.1-44.38:1. Comprehensive water supply planning process; state, regional, and local water supply plans.

A. The Board, with advice and guidance from the Commissioner of Health, local governments, public service authorities, and other interested parties, shall establish a comprehensive water supply planning process for the development of local, regional, and state water supply plans consistent with the provisions of this chapter. This process shall be designed to (i) ensure that adequate and safe drinking water is available to all citizens of the Commonwealth; (ii) encourage, promote, and protect all other beneficial uses of the Commonwealth's water resources; (iii) encourage, promote, and develop incentives for alternative water sources, including desalinization; and (iv) encourage the development of cross-jurisdictional water supply projects.

B. The Board shall adopt regulations designating regional planning areas based primarily on river basins as appropriate based on water supply sources. The Board shall consider existing interjurisdictional arrangements in designating regional planning areas. The Board may, as appropriate, designate multiple regional planning areas within a single river basin in order to enhance the manageability of planning within such basin. The regulations shall identify the particular regional planning area in which each locality shall participate and shall state which local stakeholder groups, including local governments, industrial and agricultural water users, public water suppliers, developers and economic development organizations, and conservation and environmental organizations, shall or may participate in coordinated water resource planning. The regulations shall ~~further~~ provide a mechanism for a locality to request a change of its designated regional planning area to an adjoining planning area that is based on water supply source, river basin, or existing or planned cross-jurisdictional relationship, which change shall be effective upon approval of the Department, notwithstanding the provisions of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. *The regulations shall further recognize the localities that include any portion of the service area of a water supply utility in the Commonwealth that uses the Potomac River as a water supply source as a distinct regional planning area. Such plan shall incorporate the provisions of the Metropolitan Washington Water Supply and Drought Awareness Response Plan: Potomac River System (2000), including provisions related to triggers, actions, and messages for the Potomac River drought evaluation region. Nothing in this subsection regarding the incorporation of such provisions shall be construed to limit the authority of the Governor during a declared drought emergency.*

C. 1. Each locality in a regional planning area shall participate in cross-jurisdictional, coordinated water resource planning. Such local coordination shall accommodate existing regional groups that have already developed water supply plans, including planning district commissions, and other regional planning entities as appropriate.

2. Each locality in a regional planning area shall develop and submit, with the other localities in that planning area, a single jointly produced regional water supply plan to the Department of Environmental Quality (the Department). Such regional water supply plan shall (i) clearly identify the region's water supply risks and (ii) propose regional strategies to address those water supply risks.

3. Each regional water supply plan also shall comply with applicable criteria and guidelines developed by the Board. Such criteria and guidelines shall take into account existing local and regional water supply planning efforts and requirements imposed under other state or federal laws. The criteria and guidelines established by the Board shall not prohibit a town from entering into a regional water supply plan with an adjacent county in the same regional planning area.

4. This section is intended to inform any regional water resource planning being done in the Commonwealth pursuant to interstate compacts.

D. The Board and the Department shall prioritize the allocation of planning funds and other funds to localities that sufficiently participate in regional planning.

E. In accordance with subdivision B 2 of § 62.1-44.38, the Department shall facilitate regional planning and provide assistance to each regional planning area as needed.

B. 1. In preparing river basin plan and program reports enumerated in subsection A, the Board shall (i) estimate current water withdrawals and use for agriculture, industry, domestic use, and other significant categories of water users; (ii) project water withdrawals and use by agriculture, industry, domestic use, and other significant categories of water users; (iii) estimate, for each major river and stream, the minimum instream flows necessary during drought conditions to maintain water quality and avoid permanent damage to aquatic life in streams, bays, and estuaries; (iv) evaluate, to the extent practicable, the ability of existing subsurface and surface waters to meet current and future water uses, including minimum instream flows, during drought conditions; (v) evaluate, in cooperation with the Virginia Department of Health and local water supply managers, the current and future capability of public water systems to provide adequate quantity and quality of water; (vi) estimate, using a data-driven method that includes multiple reasonable assumptions about supply and demand over varying time frames, the risk that each locality and region will experience water supply shortfalls; and (vii) evaluate hydrologic, environmental, economic, social, legal, jurisdictional, and other aspects of each alternative management strategy identified.

2. The Board shall direct the Department of Environmental Quality (the Department) in its facilitation of regional water planning efforts. The Department shall (i) ensure that localities coordinate sufficiently in the development of regional water plans; (ii) provide planning, policy, and technical assistance to each regional planning area, differentiated according to each area's water supply challenges, existing resources, and other factors; and (iii) ensure that each regional plan clearly identifies the region's water supply risks and proposes strategies to address those risks.

3. When preparing drought evaluation and response plans pursuant to subdivision 1, the Board shall recognize the localities that include any portion of the service area of a water supply utility in the Commonwealth that uses the Potomac River as a water supply source as a distinct drought evaluation region. Such plans shall incorporate the provisions of the Metropolitan Washington Water Supply and Drought Awareness Response Plan: Potomac River System (2000), including provisions related to triggers, actions, and messages for the Potomac River drought evaluation region. Nothing in this subdivision regarding the incorporation of such provisions shall be construed to limit the authority of the Governor during a declared drought emergency.

C. The Board may, by regulation, require each water user withdrawing surface or subsurface water or both during each year to register, by a date to be established by the Board, water withdrawal and use data for the previous year including the estimated average daily withdrawal, maximum daily withdrawal, sources of water withdrawn, and volume of wastewater discharge, provided that the withdrawal exceeds one million gallons in any single month for use for crop irrigation, or that the daily average during any single month exceeds 10,000 gallons per day for any other user. Location data shall be provided by each user in a coordinate system specified by the Board.

D. The Board shall establish advisory committees to assist it in the formulation of such plans or programs and in formulating recommendations called for in subsection E. In this connection, the Board may include committee membership for branches or agencies of the federal government, branches or agencies of the Commonwealth, branches or agencies of the government of any state in a river basin located within that state and Virginia, the political subdivisions of the Commonwealth, and all persons and corporations interested in or directly affected by any proposed or existing plan or program.

E. The Board shall prepare plans or programs and shall include in reports prepared under subsection A recommended actions to be considered by the General Assembly, the agencies of the Commonwealth and local political subdivisions, the agencies of the federal government, or any other persons that the Board may deem necessary or desirable for the accomplishment of plans or programs prepared under subsection B.

F. In addition to the preparation of plans called for in subsection A, the Board, upon written request of a political subdivision of the Commonwealth, shall provide water supply planning assistance to such political subdivision, including assistance in preparing drought management strategies, water conservation programs, evaluation of alternative water sources, state enabling legislation to facilitate a specific situation, applications for federal grants or permits, or other such planning activities to facilitate intergovernmental cooperation and coordination.

§ 62.1-44.38:1. Comprehensive water supply planning process; state, regional, and local water supply plans.

A. The Board, with advice and guidance from the Commissioner of Health, local governments, public service authorities, and other interested parties, shall establish a comprehensive water supply planning process for the development of local, regional, and state water supply plans consistent with the provisions of this chapter. This process shall be designed to (i) ensure that adequate and safe drinking water is available to all citizens of the Commonwealth; (ii) encourage, promote,

and protect all other beneficial uses of the Commonwealth's water resources; (iii) encourage, promote, and develop incentives for alternative water sources, including desalinization; and (iv) encourage the development of cross-jurisdictional water supply projects.

B. The Board shall adopt regulations designating regional planning areas based primarily on river basins as appropriate based on water supply sources. The Board shall consider existing interjurisdictional arrangements in designating regional planning areas. The Board may, as appropriate, designate multiple regional planning areas within a single river basin in order to enhance the manageability of planning within such basin. The regulations shall identify the particular regional planning area in which each locality shall participate and shall state which local stakeholder groups, including local governments, industrial and agricultural water users, public water suppliers, developers and economic development organizations, and conservation and environmental organizations, shall or may participate in coordinated water resource planning. The regulations shall ~~further~~ provide a mechanism for a locality to request a change of its designated regional planning area to an adjoining planning area that is based on water supply source, river basin, or existing or planned cross-jurisdictional relationship, which change shall be effective upon approval of the Department, notwithstanding the provisions of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. *The regulations shall further recognize the localities that include any portion of the service area of a water supply utility in the Commonwealth that uses the Potomac River as a water supply source as a distinct regional planning area. Such plan shall incorporate the provisions of the Metropolitan Washington Water Supply and Drought Awareness Response Plan: Potomac River System (2000), including provisions related to triggers, actions, and messages for the Potomac River drought evaluation region. Nothing in this subsection regarding the incorporation of such provisions shall be construed to limit the authority of the Governor during a declared drought emergency.*

C. 1. Each locality in a regional planning area shall participate in cross-jurisdictional, coordinated water resource planning. Such local coordination shall accommodate existing regional groups that have already developed water supply plans, including planning district commissions, and other regional planning entities as appropriate.

2. Each locality in a regional planning area shall develop and submit, with the other localities in that planning area, a single jointly produced regional water supply plan to the Department of Environmental Quality (the Department). Such regional water supply plan shall (i) clearly identify the region's water supply risks and (ii) propose regional strategies to address those water supply risks.

3. Each regional water supply plan also shall comply with applicable criteria and guidelines developed by the Board. Such criteria and guidelines shall take into account existing local and regional water supply planning efforts and requirements imposed under other state or federal laws. The criteria and guidelines established by the Board shall not prohibit a town from entering into a regional water supply plan with an adjacent county in the same regional planning area.

4. This section is intended to inform any regional water resource planning being done in the Commonwealth pursuant to interstate compacts.

D. The Board and the Department shall prioritize the allocation of planning funds and other funds to localities that sufficiently participate in regional planning.

E. In accordance with subdivision B 2 of § 62.1-44.38, the Department shall facilitate regional planning and provide assistance to each regional planning area as needed.

CHAPTER 38

An Act to amend and reenact § 58.1-422.1 of the Code of Virginia, relating to taxable income apportionment; retail companies.

[H 1978]

Approved March 17, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-422.1 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-422.1. Retail companies; apportionment.

A. For taxable years beginning on or after July 1, 2012, the Virginia taxable income of a retail company, excluding income allocable under § 58.1-407, shall be apportioned within and without the Commonwealth as follows:

1. From July 1, 2012, until July 1, 2014, by multiplying such income by a fraction, the numerator of which is the property factor plus the payroll factor plus triple the sales factor and the denominator of which is five, except that when the sales factor does not exist, the denominator of the fraction shall be the number of existing factors, and when the sales factor exists but the payroll factor or property factor does not exist, the denominator of the fraction shall be the number of existing factors plus two;

2. From July 1, 2014, until July 1, 2015, by multiplying such income by a fraction, the numerator of which is the property factor plus the payroll factor plus quadruple the sales factor and the denominator of which is six, except that when the sales factor does not exist, the denominator of the fraction shall be the number of existing factors, and when the sales factor exists but the payroll factor or property factor does not exist, the denominator of the fraction shall be the number of existing factors plus three; and

3. From July 1, 2015, and thereafter, by multiplying such income by the sales factor.

B. As used in this section, "retail company" means a domestic or foreign corporation primarily engaged in activities that, in accordance with the North American Industry Classification System (NAICS), United States Manual, United States Office of Management and Budget, 1997 Edition, would be included in Sectors 44-45.

C. Any eligible company, as defined in § 58.1-405.1, may subtract the value of its sales in the Commonwealth during the taxable year from the numerator of the ratio in subdivision A 3. Such eligible company may make such modification for the taxable year in which it first becomes eligible and for the six subsequent, consecutive taxable years, except for any year in which the eligible company's (i) total, cumulative new capital investment falls below the applicable initial threshold or (ii) number of new jobs falls below the applicable initial threshold.

D. For taxable years beginning on or after January 1, 2023, corporations that are affiliated within the meaning of § 58.1-302 and filing on a consolidated basis may elect to apportion the taxable income of all members of such affiliated group using the sales factor alone notwithstanding that one or more members of such affiliated group would be required to use different apportionment factors if separate returns were filed. Such an election shall be valid only with respect to taxable years in which 80 percent or more of the sales of such affiliated group after consolidation and eliminations is derived from activities of a retail company. Such an election, once made, shall not be changed without permission of the Department.

A. The Board is authorized to adopt regulations that specify minimum technical criteria and administrative procedures for Virginia Stormwater Management Programs. The regulations shall:

1. Establish standards and procedures for administering a VSMP;

2. Establish minimum design criteria for measures to control nonpoint source pollution and localized flooding, and incorporate the stormwater management regulations adopted pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), as they relate to the prevention of stream channel erosion. These criteria shall be periodically modified as required in order to reflect current engineering methods;

3. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

4. Require as a minimum the inclusion in VSMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VSMP authority shall grant land-disturbing activity approval, the conditions and processes under which approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

5. Establish by regulations a statewide permit fee schedule to cover all costs associated with the implementation of a VSMP related to land-disturbing activities of one acre or greater. Such fee attributes include the costs associated with plan review, VSMP registration statement review, permit issuance, state-coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for land-disturbing activities between 2,500 square feet and up to one acre in Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) localities. The fee schedule shall be governed by the following:

a. The revenue generated from the statewide stormwater permit fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VSMP, no more than 30 percent of the total revenue generated by the statewide stormwater permit fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VSMP authority.

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VSMP; however, the fees shall be set at a level sufficient for the Department and the VSMP to fully carry out their responsibilities under this article and its attendant regulations and local ordinances or standards and specifications where applicable. When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision 5 a. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under this article and its attendant regulations, ordinances, or annual standards and specifications.

c. Until July 1, 2014, the fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities issued by the Board, or where the Board has issued an individual permit or coverage under the General Permit for Discharges of Stormwater from Construction Activities for an entity for which it has approved annual standards and specifications, shall be $750 for each large construction activity with sites or common plans of development equal to or greater than five acres and $450 for each small construction activity with sites or common plans of development equal to or greater than one acre and less than five acres. On and after July 1, 2014, such fees shall only apply where coverage has been issued under the Board's General Permit for Discharges of Stormwater from Construction Activities to a state agency or federal entity for which it has approved annual standards and specifications. After establishment, such fees may be modified in the future through regulatory actions.

d. Until July 1, 2014, the Department is authorized to assess a $125 reinspection fee for each visit to a project site that was necessary to check on the status of project site items noted to be in noncompliance and documented as such on a prior project inspection.

e. In establishing the fee schedule under this subdivision, the Department shall ensure that the VSMP authority portion of the statewide permit fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VSMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale.

f. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

6. Establish statewide standards for stormwater management from land-disturbing activities of one acre or greater, except as specified otherwise within this article, and allow for the consolidation in the permit of a comprehensive approach to addressing stormwater management and erosion and sediment control, consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and this article. However, such standards shall also apply to land-disturbing activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations;

7. Establish a procedure by which a stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

8. Notwithstanding the provisions of subdivision 5, establish a procedure by which ~~neither a registration statement nor~~ payment of the Department's portion of the statewide permit fee established pursuant to that subdivision shall *not* be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

9. Provide for the certification and use of a proprietary best management practice only if another state, regional, or national program has verified its nutrient or sediment removal effectiveness and all of such program's established test protocol requirements were met or exceeded. As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;

10. Require that VSMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that provides for stormwater management shall satisfy the conditions of this subsection if the practices are designed to (i) detain the water quality volume and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

11. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

12. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

13. Establish procedures to be followed when a locality that operates a VSMP wishes to transfer administration of the VSMP to the Department;

14. Establish a statewide permit fee schedule for stormwater management related to municipal separate storm sewer system permits;

15. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

16. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; ~~and~~

17. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence*; and*

18. Establish a procedure by which a registration statement shall not be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for a small construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale.

B. The Board may integrate and consolidate components of the regulations implementing the Erosion and Sediment Control program and the Chesapeake Bay Preservation Area Designation and Management program with the regulations governing the Virginia Stormwater Management Program (VSMP) Permit program or repeal components so that these programs may be implemented in a consolidated manner that provides greater consistency, understanding, and efficiency for those regulated by and administering a VSMP.

4. Include any survey of lands and waters as the Board deems appropriate or as any applicable law requires to identify areas, including multijurisdictional and watershed areas, with critical soil erosion and sediment problems;

5. Contain conservation standards for various types of soils and land uses, which shall include criteria, techniques, and methods for the control of soil erosion and sediment resulting from land-disturbing activities;

6. Establish water quality and water quantity technical criteria. These criteria shall be periodically modified as required in order to reflect current engineering methods;

7. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

8. Require as a minimum the inclusion in VESMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VESMP authority shall grant land-disturbance approval, the conditions and processes under which such approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

9. Establish a statewide fee schedule to cover all costs associated with the implementation of a VESMP related to land-disturbing activities where permit coverage is required, and for land-disturbing activities where the Board serves as a VESMP authority or VSMP authority. Such fee attributes include the costs associated with plan review, permit registration statement review, permit issuance, permit coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for a land-disturbing activity that disturbs 2,500 square feet or more but less than one acre in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). The fee schedule shall be governed by the following:

a. The revenue generated from the statewide fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VESMP, no more than 30 percent of the total revenue generated by the statewide fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VESMP authority;

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VESMP; however, the fees shall be set at a level sufficient for the Department, the Board, and the VESMP to fully carry out their responsibilities under this article and local ordinances or standards and specifications where applicable. When establishing a VESMP, the VESMP authority shall assess the statewide fees pursuant to the schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision a. A VESMP's portion of the fees shall be used solely to carry out the VESMP's responsibilities under this article and associated ordinances;

c. In establishing the fee schedule under this subdivision, the Department shall ensure that the VESMP authority portion of the statewide fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single-family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VESMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale;

d. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

e. Notwithstanding the other provisions of this subdivision 9, establish a procedure by which ~~neither a registration statement nor~~ payment of the Department's portion of the statewide fee established pursuant to this subdivision 9 shall *not* be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

f. Establish a procedure by which a registration statement shall not be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for a small construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

10. Establish statewide standards for soil erosion control and stormwater management from land-disturbing activities;

11. Establish a procedure by which a soil erosion control and stormwater management plan or stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

12. Provide for the certification and use of a proprietary best management practice only if another state, regional, or national program has verified its nutrient or sediment removal effectiveness and all of such program's established test protocol requirements were met or exceeded. As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;

13. Require that VESMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition.

a. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that was subject to the water quantity requirements that were in effect pursuant to this article prior to July 1, 2014, shall be deemed to satisfy the conditions of this subsection if the practices are designed to (i) detain the water volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition. Any land-disturbing activity that complies with these requirements shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

b. Any stream restoration or relocation project that incorporates natural channel design concepts is not a man-made channel and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this article;

14. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

15. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

16. Establish procedures to be followed when a locality chooses to change the type of program it administers pursuant to subsection D of § 62.1-44.15:27;

17. Establish a statewide permit fee schedule for stormwater management related to MS4 permits;

18. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

19. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; and

20. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

§ 62.1-44.15:34. (For effective date, see notes) Regulated activities; submission and approval of a permit application; security for performance; exemptions.

A. A person shall not conduct any land-disturbing activity until (i) he has submitted to the appropriate VESMP authority an application that includes a permit registration statement, if required, a soil erosion control and stormwater management plan or an executed agreement in lieu of a plan, if required, and (ii) the VESMP authority has issued its land-disturbance approval. In addition, as a prerequisite to engaging in an approved land-disturbing activity, the name of the individual who will be assisting the owner in carrying out the activity and holds a Responsible Land Disturber certificate pursuant to § 62.1-44.15:30 shall be submitted to the VESMP authority. Any VESMP authority may waive the Responsible Land Disturber certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family detached residential structure~~; however, if a violation occurs during the land-disturbing activity ~~for the single-family detached residential structure~~, then the owner shall correct the violation and provide the name of the individual holding a Responsible Land Disturber certificate as provided by § 62.1-14:30. Failure to provide the name of an individual holding a Responsible Land Disturber certificate prior to engaging in land-disturbing activities may result in revocation of the land-disturbance approval and shall subject the owner to the penalties provided in this article.

1. A VESMP authority that is implementing its program pursuant to subsection A of § 62.1-44.15:27 or subdivision B 1 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VESMP authority to be complete. The VESMP authority shall issue either land-disturbance approval or denial and provide written rationale for any denial. Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required. The VESMP authority also shall determine whether any resubmittal of a previously disapproved application is complete within 15 days after receipt and shall act on the resubmitted application within 45 days after receipt.

2. A VESMP authority implementing its program in coordination with the Department pursuant to subdivision B 2 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VESMP authority to be complete. The VESMP authority shall forward a soil erosion control and stormwater management plan to the Department for review within five days of receipt. If the plan is incomplete, the Department shall return the plan to the locality immediately and the application

process shall start over. If the plan is complete, the Department shall review it for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority. The VESMP authority shall either (i) issue the land-disturbance approval or (ii) issue a denial and provide a written rationale for the denial. In no case shall a locality have more than 60 days for its decision on an application after it has been determined to be complete. Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required.

The VESMP authority also shall forward to the Department any resubmittal of a previously disapproved application within five days after receipt, and the VESMP authority shall determine whether the plan is complete within 15 days of its receipt of the plan. The Department shall review the plan for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority, and the VESMP authority shall act on the resubmitted application within 45 days after receipt.

3. When a state agency or federal entity submits a soil erosion control and stormwater management plan for a project, land disturbance shall not commence until the Board has reviewed and approved the plan and has issued permit coverage when it is required.

a. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity (i) in any locality that has not adopted a local program with more stringent ordinances than those of the state program or (ii) in multiple jurisdictions with separate local programs, unless the plan is consistent with the requirements of the state program.

b. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity in one locality with a local program with more stringent ordinances than those of the state program, unless the plan is consistent with the requirements of the local program.

c. If onsite changes occur, the state agency or federal entity shall submit an amended soil erosion control and stormwater management plan to the Department.

d. The state agency or federal entity responsible for the land-disturbing activity shall ensure compliance with the approved plan. As necessary, the Board shall provide project oversight and enforcement.

4. Prior to issuance of any land-disturbance approval, the VESMP authority may also require an applicant, excluding state agencies and federal entities, to submit a reasonable performance bond with surety, cash escrow, letter of credit, any combination thereof, or such other legal arrangement acceptable to the VESMP authority, to ensure that measures could be taken by the VESMP authority at the applicant's expense should he fail, after proper notice, within the time specified to comply with the conditions imposed by the VESMP authority as a result of his land-disturbing activity. If the VESMP authority takes such action upon such failure by the applicant, the VESMP authority may collect from the applicant the difference should the amount of the reasonable cost of such action exceed the amount of the security held. Within 60 days of the completion of the VESMP authority's conditions, such bond, cash escrow, letter of credit, or other legal arrangement, or the unexpended or unobligated portion thereof, shall be refunded to the applicant or terminated.

B. The VESMP authority may require changes to an approved soil erosion control and stormwater management plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations or ordinances; or

2. Where the owner finds that because of changed circumstances or for other reasons the plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article, are agreed to by the VESMP authority and the owner.

C. In order to prevent further erosion, a VESMP authority may require approval of a soil erosion control and stormwater management plan for any land identified as an erosion impact area by the VESMP authority.

D. A VESMP authority may enter into an agreement with an adjacent VESMP authority regarding the administration of multijurisdictional projects, specifying who shall be responsible for all or part of the administrative procedures. Should adjacent VESMP authorities fail to reach such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction.

E. The following requirements shall apply to land-disturbing activities in the Commonwealth:

1. Any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance may, in accordance with regulations adopted by the Board, be required to obtain permit coverage.

2. For a land-disturbing activity occurring in an area not designated as a Chesapeake Bay Preservation Area subject to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.):

a. Soil erosion control requirements and water quantity technical criteria adopted pursuant to this article shall apply to any activity that disturbs 10,000 square feet or more, although the locality may reduce this regulatory threshold to a smaller area of disturbed land. This subdivision shall also apply to additions or modifications to existing single-family detached residential structures.

b. Soil erosion control requirements and water quantity and water quality technical criteria shall apply to any activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance, although the locality may reduce this regulatory

threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

Soil erosion control and water quantity and water quality technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, other than a single-family detached residential structure. However, the governing body of any affected locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

b. For land-disturbing activities for single-family detached residential structures, soil erosion control and water quantity technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, and the locality also may require compliance with the water quality technical criteria. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

9. Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company;

10. Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity; and

11. Discharges to a sanitary sewer or a combined sewer system that are not from a land-disturbing activity.

For a land-disturbing activity that is regulated under this article, "owner" also includes the owner or owners of the freehold of the premises or lesser estate therein, mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee, or other person, firm, or corporation in control of a property.

"Peak flow rate" means the maximum instantaneous flow from a given storm condition at a particular location.

"Person" means any individual, partnership, firm, association, joint venture, public or private corporation, trust, estate, commission, board, public or private institution, utility, cooperative, county, city, town, or other political subdivision of the Commonwealth, governmental body, including a federal or state entity as applicable, any interstate body, or any other legal entity.

"Runoff volume" means the volume of water that runs off the land development project from a prescribed storm event.

"Soil erosion" means the movement of soil by wind or water into state waters or onto lands in the Commonwealth.

"Town" means an incorporated town.

"Virginia Erosion and Sediment Control Program" or "VESCP" means a program approved by the Board that has been established by a VESCP authority for the effective control of soil erosion, sediment deposition, and nonagricultural runoff associated with a land-disturbing activity to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources and shall include such items where applicable as local ordinances, rules, policies and guidelines, technical materials, and requirements for plan review, inspection, and evaluation consistent with the requirements of this article.

"Virginia Erosion and Sediment Control Program authority" or "VESCP authority" means a locality approved by the Board to operate a Virginia Erosion and Sediment Control Program. A locality that has chosen not to establish a Virginia Erosion and Stormwater Management Program pursuant to subdivision B 3 of § 62.1-44.15:27 is required to become a VESCP authority in accordance with this article.

"Virginia Stormwater Management Program" or "VSMP" means a program established by the Board pursuant to § 62.1-44.15:27.1 on behalf of a locality on or after July 1, 2014, to manage the quality and quantity of runoff resulting from any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance.

§ 62.1-44.15:55. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Regulated land-disturbing activities; submission and approval of erosion and sediment control plan.

A. Except as provided in § 62.1-44.15:56 for state agency and federal entity land-disturbing activities, no person shall engage in any land-disturbing activity until he has submitted to the VESCP authority an erosion and sediment control plan for the land-disturbing activity and the plan has been reviewed and approved. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VESCP authority shall then be required to obtain evidence of Virginia Stormwater Management Program permit coverage where it is required prior to providing approval to begin land disturbance. Where land-disturbing activities involve lands under the jurisdiction of more than one VESCP, an erosion and sediment control plan may, at the request of one or all of the VESCP authorities, be submitted to the Department for review and approval rather than to each jurisdiction concerned. The Department may charge the jurisdictions requesting the review a fee sufficient to cover the cost associated with conducting the review. A VESCP may enter into an agreement with an adjacent VESCP regarding the administration of multijurisdictional projects whereby the jurisdiction that contains the greater portion of the project shall be responsible for all or part of the administrative procedures. Where the land-disturbing activity results from the construction of a *(i)* single-family residence *or (ii) farm building or structure on a parcel of land with a total impervious cover percentage, including the impervious cover from the farm building or structure to be constructed, of less than five percent*, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the VESCP authority.

B. The VESCP authority shall review erosion and sediment control plans submitted to it and grant written approval within 60 days of the receipt of the plan if it determines that the plan meets the requirements of this article and the Board's regulations and if the person responsible for carrying out the plan certifies that he will properly perform the erosion and sediment control measures included in the plan and shall comply with the provisions of this article. In addition, as a

prerequisite to engaging in the land-disturbing activities shown on the approved plan, the person responsible for carrying out the plan shall provide the name of an individual holding a certificate of competence to the VESCP authority, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity. However, any VESCP authority may waive the certificate of competence requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. If a violation occurs during the land-disturbing activity, then the person responsible for carrying out the agreement in lieu of a plan shall correct the violation and provide the name of an individual holding a certificate of competence, as provided by § 62.1-44.15:52. Failure to provide the name of an individual holding a certificate of competence prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties provided in this article.

When a plan is determined to be inadequate, written notice of disapproval stating the specific reasons for disapproval shall be communicated to the applicant within 45 days. The notice shall specify the modifications, terms, and conditions that will permit approval of the plan. If no action is taken by the VESCP authority within the time specified in this subsection, the plan shall be deemed approved and the person authorized to proceed with the proposed activity. The VESCP authority shall act on any erosion and sediment control plan that has been previously disapproved within 45 days after the plan has been revised, resubmitted for approval, and deemed adequate.

C. The VESCP authority may require changes to an approved plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations; or

2. Where the person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article and associated regulations, are agreed to by the VESCP authority and the person responsible for carrying out the plan.

D. Electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, and railroad companies shall, and authorities created pursuant to § 15.2-5102 may, file general erosion and sediment control standards and specifications annually with the Department for review and approval. Such standards and specifications shall be consistent with the requirements of this article and associated regulations and the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulations where applicable. The specifications shall apply to:

1. Construction, installation, or maintenance of electric transmission, natural gas, and telephone utility lines and pipelines, and water and sewer lines; and

2. Construction of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of the railroad company.

The Department shall have 60 days in which to approve the standards and specifications. If no action is taken by the Department within 60 days, the standards and specifications shall be deemed approved. Individual approval of separate projects within subdivisions 1 and 2 is not necessary when approved specifications are followed. Projects not included in subdivisions 1 and 2 shall comply with the requirements of the appropriate VESCP. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) $1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, project inspections, and compliance.

E. Any person engaging, in more than one jurisdiction, in the creation and operation of a wetland mitigation or stream restoration bank or banks, which have been approved and are operated in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use, and operation of (i) wetlands mitigation or stream restoration banks, pursuant to a mitigation banking instrument signed by the Department of Environmental Quality, the Marine Resources Commission, or the U.S. Army Corps of Engineers, or (ii) a stream restoration project for purposes of reducing nutrients or sediment entering state waters may, at the option of that person, file general erosion and sediment control standards and specifications for wetland mitigation or stream restoration banks annually with the Department for review and approval consistent with guidelines established by the Board.

The Department shall have 60 days in which to approve the specifications. If no action is taken by the Department within 60 days, the specifications shall be deemed approved. Individual approval of separate projects under this subsection is not necessary when approved specifications are implemented through a project-specific erosion and sediment control plan. Projects not included in this subsection shall comply with the requirements of the appropriate local erosion and sediment control program. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) $1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, projection inspections, and compliance. Approval of general erosion and sediment control specifications by the Department does not relieve the owner or operator from compliance with any other local ordinances and regulations including requirements to submit plans and obtain permits as may be required by such ordinances and regulations.

F. In order to prevent further erosion, a VESCP authority may require approval of an erosion and sediment control plan for any land identified by the VESCP authority as an erosion impact area.

G. For the purposes of subsections A and B, when land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.

§ 62.1-44.15:55. (For effective date, see notes) Regulated land-disturbing activities; submission and approval of erosion and sediment control plan.

A. Except as provided in § 62.1-44.15:31 for a land-disturbing activity conducted by a state agency, federal entity, or other specified entity, no person shall engage in any land-disturbing activity until he has submitted to the VESCP authority an erosion and sediment control plan for the land-disturbing activity and the plan has been reviewed and approved. Where Virginia Pollutant Discharge Elimination System permit coverage is required, a VESCP authority shall be required to obtain evidence of such coverage from the Department's online reporting system prior to approving the erosion and sediment control plan. A VESCP authority may enter into an agreement with an adjacent VESCP or VESMP authority regarding the administration of multijurisdictional projects specifying who shall be responsible for all or part of the administrative procedures. Should adjacent authorities fail to come to such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction. Where the land-disturbing activity results from the construction of a *(i)* single-family residence *or (ii) farm building or structure on a parcel of land with a total impervious cover percentage, including the impervious cover from the farm building or structure to be constructed, of less than five percent*, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the VESCP authority.

B. The VESCP authority shall review erosion and sediment control plans submitted to it and grant written approval within 60 days of the receipt of the plan if it determines that the plan meets the requirements of this article and the Board's regulations and if the person responsible for carrying out the plan certifies that he will properly perform the erosion and sediment control measures included in the plan and shall comply with the provisions of this article. In addition, as a prerequisite to engaging in the land-disturbing activities shown on the approved plan, the person responsible for carrying out the plan shall provide the name of an individual holding a certificate to the VESCP authority, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity. However, any VESCP authority may waive the certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. If a violation occurs during the land-disturbing activity, then the person responsible for carrying out the agreement in lieu of a plan shall correct the violation and provide the name of an individual holding a certificate, as provided by § 62.1-44.15:52. Failure to provide the name of an individual holding a certificate prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties provided in this article.

When a plan is determined to be inadequate, written notice of disapproval stating the specific reasons for disapproval shall be communicated to the applicant within 45 days. The notice shall specify the modifications, terms, and conditions that will permit approval of the plan. If no action is taken by the VESCP authority within the time specified in this subsection, the plan shall be deemed approved and the person authorized to proceed with the proposed activity. The VESCP authority shall act on any erosion and sediment control plan that has been previously disapproved within 45 days after the plan has been revised, resubmitted for approval, and deemed adequate.

C. The VESCP authority may require changes to an approved plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations; or

2. Where the person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article and associated regulations, are agreed to by the VESCP authority and the person responsible for carrying out the plan.

D. In order to prevent further erosion, a VESCP authority may require approval of an erosion and sediment control plan for any land identified by the VESCP authority as an erosion impact area.

E. For the purposes of subsections A and B, when land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.

F. Notwithstanding any other provisions of this article, the following activities are not required to comply with the requirements of this article unless otherwise required by federal law:

1. Disturbance of a land area of less than 10,000 square feet in size or less than 2,500 square feet in an area designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). However, the governing body of the program authority may reduce this exception to a smaller area of disturbed land or qualify the conditions under which this exception shall apply;

2. Minor land-disturbing activities such as home gardens and individual home landscaping, repairs, and maintenance work;

3. Installation, maintenance, or repair of any individual service connection;

4. Installation, maintenance, or repair of any underground utility line when such activity occurs on an existing hard surfaced road, street, or sidewalk, provided the land-disturbing activity is confined to the area of the road, street, or sidewalk that is hard surfaced;

5. Installation, maintenance, or repair of any septic tank line or drainage field unless included in an overall plan for land-disturbing activity relating to construction of the building to be served by the septic tank system;

6. Permitted surface or deep mining operations and projects, or oil and gas operations and projects conducted pursuant to Title 45.2;

7. Clearing of lands specifically for bona fide agricultural purposes; the management, tilling, planting, or harvesting of agricultural, horticultural, or forest crops; livestock feedlot operations; agricultural engineering operations, including

construction of terraces, terrace outlets, check dams, desilting basins, dikes, ponds, ditches, strip cropping, lister furrowing, contour cultivating, contour furrowing, land drainage, and land irrigation; or as additionally set forth by the Board in regulations. However, this exception shall not apply to harvesting of forest crops unless the area on which harvesting occurs is reforested artificially or naturally in accordance with the provisions of Chapter 11 (§ 10.1-1100 et seq.) of Title 10.1 or is converted to bona fide agricultural or improved pasture use as described in subsection B of § 10.1-1163;

8. Installation of fence and sign posts or telephone and electric poles and other kinds of posts or poles;

9. Shoreline erosion control projects on tidal waters when all of the land-disturbing activities are within the regulatory authority of and approved by local wetlands boards, the Marine Resources Commission, or the United States Army Corps of Engineers; however, any associated land that is disturbed outside of this exempted area shall remain subject to this article and the regulations adopted pursuant thereto;

10. Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity;

11. Discharges to a sanitary sewer or a combined sewer system that are not from a land-disturbing activity; and

12. Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company.

§ 62.1-44.15:58. (For contingent expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Monitoring, reports, and inspections.

A. The VESCP authority (i) shall provide for periodic inspections of the land-disturbing activity and require that an individual holding a certificate of competence, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity and (ii) may require monitoring and reports from the person responsible for carrying out the erosion and sediment control plan, to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sediment. However, any VESCP authority may waive the certificate of competence requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. The owner, permittee, or person responsible for carrying out the plan shall be given notice of the inspection. If the VESCP authority, where authorized to enforce this article, or the Department determines that there is a failure to comply with the plan following an inspection, notice shall be served upon the permittee or person responsible for carrying out the plan by mailing with confirmation of delivery to the address specified in the permit application or in the plan certification, or by delivery at the site of the land-disturbing activities to the agent or employee supervising such activities. The notice shall specify the measures needed to comply with the plan and shall specify the time within which such measures shall be completed. Upon failure to comply within the time specified, the permit may be revoked and the VESCP authority, where authorized to enforce this article, the Department, or the Board may pursue enforcement as provided by § 62.1-44.15:63.

B. Notwithstanding the provisions of subsection A, a VESCP authority is authorized to enter into agreements or contracts with districts, adjacent localities, or other public or private entities to assist with the responsibilities of this article, including but not limited to the review and determination of adequacy of erosion and sediment control plans submitted for land-disturbing activities as well as monitoring, reports, inspections, and enforcement where an authority is granted such powers by this article.

C. Upon issuance of an inspection report denoting a violation of this section, § 62.1-44.15:55 or 62.1-44.15:56, in conjunction with or subsequent to a notice to comply as specified in subsection A, a VESCP authority, where authorized to enforce this article, or the Department may issue an order requiring that all or part of the land-disturbing activities permitted on the site be stopped until the specified corrective measures have been taken or, if land-disturbing activities have commenced without an approved plan as provided in § 62.1-44.15:55, requiring that all of the land-disturbing activities be stopped until an approved plan or any required permits are obtained. Where the alleged noncompliance is causing or is in imminent danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth, or where the land-disturbing activities have commenced without an approved erosion and sediment control plan or any required permits, such an order may be issued whether or not the alleged violator has been issued a notice to comply as specified in subsection A. Otherwise, such an order may be issued only after the alleged violator has failed to comply with a notice to comply. The order for noncompliance with a plan shall be served in the same manner as a notice to comply, and shall remain in effect for seven days from the date of service pending application by the VESCP authority, the Department, or alleged violator for appropriate relief to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. The order for disturbance without an approved plan or permits shall be served upon the owner by mailing with confirmation of delivery to the address specified in the land records of the locality, shall be posted on the site where the disturbance is occurring, and shall remain in effect until such time as permits and plan approvals are secured, except in such situations where an agricultural exemption applies. If the alleged violator has not obtained an approved erosion and sediment control plan or any required permit within seven days from the date of service of the order, the Department or the chief administrative officer or his designee on behalf of the VESCP authority may issue a subsequent order to the owner requiring that all construction and other work on the site, other than corrective measures, be stopped until an approved erosion and sediment control plan and any required permits have been obtained. The subsequent order shall be served upon the owner by mailing with confirmation of delivery to the address specified in the permit application or the land records of the locality in which the site is located. The owner may appeal the issuance of any order to

the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. Any person violating or failing, neglecting, or refusing to obey an order issued by the Department or the chief administrative officer or his designee on behalf of the VESCP authority may be compelled in a proceeding instituted in the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court to obey same and to comply therewith by injunction, mandamus, or other appropriate remedy. Upon completion and approval of corrective action or obtaining an approved plan or any required permits, the order shall immediately be lifted. Nothing in this section shall prevent the Department, the Board, or the chief administrative officer or his designee on behalf of the VESCP authority from taking any other action specified in § 62.1-44.15:63.

§ 62.1-44.15:58. (For contingent effective date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Monitoring, reports, and inspections.

A. The VESCP authority (i) shall provide for periodic inspections of the land-disturbing activity and require that an individual holding a certificate, as provided by § 62.1-44.15:52, will be in charge of and responsible for carrying out the land-disturbing activity and (ii) may require monitoring and reports from the person responsible for carrying out the erosion and sediment control plan, to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sediment. However, any VESCP authority may waive the certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family detached residential structure~~. The owner shall be given notice of the inspection. When the VESCP authority or the Board determines that there is a failure to comply with the conditions of land-disturbance approval or to obtain an approved plan or a land-disturbance approval prior to commencing land-disturbing activity, the VESCP authority or the Board may serve a notice to comply upon the owner or person responsible for carrying out the land-disturbing activity. Such notice to comply shall be served by delivery by facsimile, e-mail, or other technology; by mailing with confirmation of delivery to the address specified in the plan or land-disturbance application, if available, or in the land records of the locality; or by delivery at the site to a person previously identified to the VESCP authority by the owner. The notice to comply shall specify the measures needed to comply with the land-disturbance approval conditions or shall identify the plan approval or land-disturbance approval needed to comply with this article and shall specify a reasonable time within which such measures shall be completed. In any instance in which a required land-disturbance approval has not been obtained, the VESCP authority or the Board may require immediate compliance. In any other case, the VESCP authority or the Board may establish the time for compliance by taking into account the risk of damage to natural resources and other relevant factors. Notwithstanding any other provision in this subsection, a VESCP authority or the Board may count any days of noncompliance as days of violation should the VESCP authority or the Board take an enforcement action. The issuance of a notice to comply by the Board shall not be considered a case decision as defined in § 2.2-4001. Upon failure to comply within the time specified, any plan approval or land-disturbance approval may be revoked and the VESCP authority or the Board may pursue enforcement as provided by § 62.1-44.15:63.

B. Notwithstanding the provisions of subsection A, a VESCP authority is authorized to enter into agreements or contracts with districts, adjacent localities, or other public or private entities to assist with the responsibilities of this article, including but not limited to the review and determination of adequacy of erosion and sediment control plans submitted for land-disturbing activities as well as monitoring, reports, inspections, and enforcement.

C. Upon issuance of an inspection report denoting a violation of this section or § 62.1-44.15:55, in conjunction with or subsequent to a notice to comply as specified in subsection A, a VESCP authority or the Board may issue a stop work order requiring that all or part of the land-disturbing activities on the site be stopped until the specified corrective measures have been taken or, if land-disturbing activities have commenced without an approved plan as provided in § 62.1-44.15:55, requiring that all of the land-disturbing activities be stopped until an approved plan is obtained. When such an order is issued by the Board, it shall be issued in accordance with the procedures of the Administrative Process Act (§ 2.2-4000 et seq.). Where the alleged noncompliance is causing or is in imminent danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth, or where the land-disturbing activities have commenced without an approved erosion and sediment control plan, such a stop work order may be issued whether or not the alleged violator has been issued a notice to comply as specified in subsection A. Otherwise, such an order may be issued only after the alleged violator has failed to comply with a notice to comply. The order for noncompliance with a plan shall be served in the same manner as a notice to comply, and shall remain in effect for seven days from the date of service pending application by the VESCP authority, the Board, or alleged violator for appropriate relief to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. The stop work order for disturbance without an approved plan shall be served upon the owner by mailing with confirmation of delivery to the address specified in the land records of the locality, shall be posted on the site where the disturbance is occurring, and shall remain in effect until such time as plan approvals are secured, except in such situations where an agricultural exemption applies. If the alleged violator has not obtained an approved erosion and sediment control plan within seven days from the date of service of the stop work order, the Board or the chief administrative officer or his designee on behalf of the VESCP authority may issue a subsequent order to the owner requiring that all construction and other work on the site, other than corrective measures, be stopped until an approved erosion and sediment control plan has been obtained. The subsequent order shall be served upon the owner by mailing with confirmation of delivery to the address specified in the plan or the land records of the locality in which the site is located. The owner may appeal the issuance of any order to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. Any person violating or

failing, neglecting, or refusing to obey an order issued by the Board or the chief administrative officer or his designee on behalf of the VESCP authority may be compelled in a proceeding instituted in the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court to obey same and to comply therewith by injunction, mandamus, or other appropriate remedy. Upon completion and approval of corrective action or obtaining an approved plan, the order shall immediately be lifted. Nothing in this section shall prevent the Board or the chief administrative officer or his designee on behalf of the VESCP authority from taking any other action specified in § 62.1-44.15:63.

§ 62.1-44.15:28. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Development of regulations.

A. The Board is authorized to adopt regulations that specify minimum technical criteria and administrative procedures for Virginia Stormwater Management Programs. The regulations shall:

1. Establish standards and procedures for administering a VSMP;

2. Establish minimum design criteria for measures to control nonpoint source pollution and localized flooding, and incorporate the stormwater management regulations adopted pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), as they relate to the prevention of stream channel erosion. These criteria shall be periodically modified as required in order to reflect current engineering methods;

3. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

4. Require as a minimum the inclusion in VSMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VSMP authority shall grant land-disturbing activity approval, the conditions and processes under which approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

5. Establish by regulations a statewide permit fee schedule to cover all costs associated with the implementation of a VSMP related to land-disturbing activities of one acre or greater. Such fee attributes include the costs associated with plan review, VSMP registration statement review, permit issuance, state-coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for land-disturbing activities between 2,500 square feet and up to one acre in Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) localities. The fee schedule shall be governed by the following:

a. The revenue generated from the statewide stormwater permit fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VSMP, no more than 30 percent of the total revenue generated by the statewide stormwater permit fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VSMP authority.

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VSMP; however, the fees shall be set at a level sufficient for the Department and the VSMP to fully carry out their responsibilities under this article and its attendant regulations and local ordinances or standards and specifications where applicable. When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision 5 a. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under this article and its attendant regulations, ordinances, or annual standards and specifications.

c. Until July 1, 2014, the fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities issued by the Board, or where the Board has issued an individual permit or coverage under the General Permit for Discharges of Stormwater from Construction Activities for an entity for which it has approved annual standards and specifications, shall be $750 for each large construction activity with sites or common plans of development equal to or greater than five acres and $450 for each small construction activity with sites or common plans of development equal to or greater than one acre and less than five acres. On and after July 1, 2014, such fees shall only apply where coverage has been issued under the Board's General Permit for Discharges of Stormwater from Construction Activities to a state agency or federal entity for which it has approved annual standards and specifications. After establishment, such fees may be modified in the future through regulatory actions.

d. Until July 1, 2014, the Department is authorized to assess a $125 reinspection fee for each visit to a project site that was necessary to check on the status of project site items noted to be in noncompliance and documented as such on a prior project inspection.

e. In establishing the fee schedule under this subdivision, the Department shall ensure that the VSMP authority portion of the statewide permit fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VSMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale.

f. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

6. Establish statewide standards for stormwater management from land-disturbing activities of one acre or greater, except as specified otherwise within this article, and allow for the consolidation in the permit of a comprehensive approach to addressing stormwater management and erosion and sediment control, consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and this article. However, such standards shall also apply to land-disturbing activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations;

7. Establish a procedure by which a stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

8. Notwithstanding the provisions of subdivision 5, establish a procedure by which ~~neither a registration statement nor~~ payment of the Department's portion of the statewide permit fee established pursuant to that subdivision shall *not* be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

9. Provide for the certification and use of a proprietary best management practice only if another state, regional, or national program has verified its nutrient or sediment removal effectiveness and all of such program's established test protocol requirements were met or exceeded. As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;

10. Require that VSMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that provides for stormwater management shall satisfy the conditions of this subsection if the practices are designed to (i) detain the water quality volume and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

11. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

12. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

13. Establish procedures to be followed when a locality that operates a VSMP wishes to transfer administration of the VSMP to the Department;

14. Establish a statewide permit fee schedule for stormwater management related to municipal separate storm sewer system permits;

15. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

16. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; ~~and~~

17. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence*; and*

18. Establish a procedure by which a registration statement shall not be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for a small construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale.

B. The Board may integrate and consolidate components of the regulations implementing the Erosion and Sediment Control program and the Chesapeake Bay Preservation Area Designation and Management program with the regulations governing the Virginia Stormwater Management Program (VSMP) Permit program or repeal components so that these programs may be implemented in a consolidated manner that provides greater consistency, understanding, and efficiency for those regulated by and administering a VSMP.

As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;

13. Require that VESMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition.

a. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that was subject to the water quantity requirements that were in effect pursuant to this article prior to July 1, 2014, shall be deemed to satisfy the conditions of this subsection if the practices are designed to (i) detain the water volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition. Any land-disturbing activity that complies with these requirements shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

b. Any stream restoration or relocation project that incorporates natural channel design concepts is not a man-made channel and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this article;

14. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

15. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

16. Establish procedures to be followed when a locality chooses to change the type of program it administers pursuant to subsection D of § 62.1-44.15:27;

17. Establish a statewide permit fee schedule for stormwater management related to MS4 permits;

18. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

19. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; and

20. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

§ 62.1-44.15:34. (For effective date, see notes) Regulated activities; submission and approval of a permit application; security for performance; exemptions.

A. A person shall not conduct any land-disturbing activity until (i) he has submitted to the appropriate VESMP authority an application that includes a permit registration statement, if required, a soil erosion control and stormwater management plan or an executed agreement in lieu of a plan, if required, and (ii) the VESMP authority has issued its

land-disturbance approval. In addition, as a prerequisite to engaging in an approved land-disturbing activity, the name of the individual who will be assisting the owner in carrying out the activity and holds a Responsible Land Disturber certificate pursuant to § 62.1-44.15:30 shall be submitted to the VESMP authority. Any VESMP authority may waive the Responsible Land Disturber certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family detached residential structure~~; however, if a violation occurs during the land-disturbing activity ~~for the single-family detached residential structure~~, then the owner shall correct the violation and provide the name of the individual holding a Responsible Land Disturber certificate as provided by § 62.1-14:30. Failure to provide the name of an individual holding a Responsible Land Disturber certificate prior to engaging in land-disturbing activities may result in revocation of the land-disturbance approval and shall subject the owner to the penalties provided in this article.

1. A VESMP authority that is implementing its program pursuant to subsection A of § 62.1-44.15:27 or subdivision B 1 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VESMP authority to be complete. The VESMP authority shall issue either land-disturbance approval or denial and provide written rationale for any denial. Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required. The VESMP authority also shall determine whether any resubmittal of a previously disapproved application is complete within 15 days after receipt and shall act on the resubmitted application within 45 days after receipt.

2. A VESMP authority implementing its program in coordination with the Department pursuant to subdivision B 2 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VESMP authority to be complete. The VESMP authority shall forward a soil erosion control and stormwater management plan to the Department for review within five days of receipt. If the plan is incomplete, the Department shall return the plan to the locality immediately and the application process shall start over. If the plan is complete, the Department shall review it for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority. The VESMP authority shall either (i) issue the land-disturbance approval or (ii) issue a denial and provide a written rationale for the denial. In no case shall a locality have more than 60 days for its decision on an application after it has been determined to be complete. Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required.

The VESMP authority also shall forward to the Department any resubmittal of a previously disapproved application within five days after receipt, and the VESMP authority shall determine whether the plan is complete within 15 days of its receipt of the plan. The Department shall review the plan for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority, and the VESMP authority shall act on the resubmitted application within 45 days after receipt.

3. When a state agency or federal entity submits a soil erosion control and stormwater management plan for a project, land disturbance shall not commence until the Board has reviewed and approved the plan and has issued permit coverage when it is required.

a. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity (i) in any locality that has not adopted a local program with more stringent ordinances than those of the state program or (ii) in multiple jurisdictions with separate local programs, unless the plan is consistent with the requirements of the state program.

b. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity in one locality with a local program with more stringent ordinances than those of the state program, unless the plan is consistent with the requirements of the local program.

c. If onsite changes occur, the state agency or federal entity shall submit an amended soil erosion control and stormwater management plan to the Department.

d. The state agency or federal entity responsible for the land-disturbing activity shall ensure compliance with the approved plan. As necessary, the Board shall provide project oversight and enforcement.

4. Prior to issuance of any land-disturbance approval, the VESMP authority may also require an applicant, excluding state agencies and federal entities, to submit a reasonable performance bond with surety, cash escrow, letter of credit, any combination thereof, or such other legal arrangement acceptable to the VESMP authority, to ensure that measures could be taken by the VESMP authority at the applicant's expense should he fail, after proper notice, within the time specified to comply with the conditions imposed by the VESMP authority as a result of his land-disturbing activity. If the VESMP authority takes such action upon such failure by the applicant, the VESMP authority may collect from the applicant the difference should the amount of the reasonable cost of such action exceed the amount of the security held. Within 60 days of the completion of the VESMP authority's conditions, such bond, cash escrow, letter of credit, or other legal arrangement, or the unexpended or unobligated portion thereof, shall be refunded to the applicant or terminated.

B. The VESMP authority may require changes to an approved soil erosion control and stormwater management plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations or ordinances; or

2. Where the owner finds that because of changed circumstances or for other reasons the plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article, are agreed to by the VESMP authority and the owner.

C. In order to prevent further erosion, a VESMP authority may require approval of a soil erosion control and stormwater management plan for any land identified as an erosion impact area by the VESMP authority.

D. A VESMP authority may enter into an agreement with an adjacent VESMP authority regarding the administration of multijurisdictional projects, specifying who shall be responsible for all or part of the administrative procedures. Should adjacent VESMP authorities fail to reach such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction.

E. The following requirements shall apply to land-disturbing activities in the Commonwealth:

1. Any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance may, in accordance with regulations adopted by the Board, be required to obtain permit coverage.

2. For a land-disturbing activity occurring in an area not designated as a Chesapeake Bay Preservation Area subject to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.):

a. Soil erosion control requirements and water quantity technical criteria adopted pursuant to this article shall apply to any activity that disturbs 10,000 square feet or more, although the locality may reduce this regulatory threshold to a smaller area of disturbed land. This subdivision shall also apply to additions or modifications to existing single-family detached residential structures.

b. Soil erosion control requirements and water quantity and water quality technical criteria shall apply to any activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance, although the locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

a. Soil erosion control and water quantity and water quality technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, other than a single-family detached residential structure. However, the governing body of any affected locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

b. For land-disturbing activities for single-family detached residential structures, soil erosion control and water quantity technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, and the locality also may require compliance with the water quality technical criteria. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

9. Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company;

10. Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority

shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity; and

11. Discharges to a sanitary sewer or a combined sewer system that are not from a land-disturbing activity.

1. Activities under a state or federal reclamation program to return an abandoned property to an agricultural or open land use;

2. Routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, or original construction of the project. The paving of an existing road with a compacted or impervious surface and reestablishment of existing associated ditches and shoulders shall be deemed routine maintenance if performed in accordance with this subsection; and

3. Discharges from a land-disturbing activity to a sanitary sewer or a combined sewer system.

A locality that has chosen not to establish a Virginia Erosion and Stormwater Management Program pursuant to subdivision B 3 of § 62.1-44.15:27 is required to become a VESCP authority in accordance with this article.

"Virginia Stormwater Management Program" or "VSMP" means a program established by the Board pursuant to § 62.1-44.15:27.1 on behalf of a locality on or after July 1, 2014, to manage the quality and quantity of runoff resulting from any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance.

§ 62.1-44.15:55. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Regulated land-disturbing activities; submission and approval of erosion and sediment control plan.

A. Except as provided in § 62.1-44.15:56 for state agency and federal entity land-disturbing activities, no person shall engage in any land-disturbing activity until he has submitted to the VESCP authority an erosion and sediment control plan for the land-disturbing activity and the plan has been reviewed and approved. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VESCP authority shall then be required to obtain evidence of Virginia Stormwater Management Program permit coverage where it is required prior to providing approval to begin land disturbance. Where land-disturbing activities involve lands under the jurisdiction of more than one VESCP, an erosion and sediment control plan may, at the request of one or all of the VESCP authorities, be submitted to the Department for review and approval rather than to each jurisdiction concerned. The Department may charge the jurisdictions requesting the review a fee sufficient to cover the cost associated with conducting the review. A VESCP may enter into an agreement with an adjacent VESCP regarding the administration of multijurisdictional projects whereby the jurisdiction that contains the greater portion of the project shall be responsible for all or part of the administrative procedures. Where the land-disturbing activity results from the construction of a *(i)* single-family residence *or (ii) farm building or structure on a parcel of land with a total impervious cover percentage, including the impervious cover from the farm building or structure to be constructed, of less than five percent*, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the VESCP authority.

B. The VESCP authority shall review erosion and sediment control plans submitted to it and grant written approval within 60 days of the receipt of the plan if it determines that the plan meets the requirements of this article and the Board's regulations and if the person responsible for carrying out the plan certifies that he will properly perform the erosion and sediment control measures included in the plan and shall comply with the provisions of this article. In addition, as a prerequisite to engaging in the land-disturbing activities shown on the approved plan, the person responsible for carrying out the plan shall provide the name of an individual holding a certificate of competence to the VESCP authority, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity. However, any VESCP authority may waive the certificate of competence requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. If a violation occurs during the land-disturbing activity, then the person responsible for carrying out the agreement in lieu of a plan shall correct the violation and provide the name of an individual holding a certificate of competence, as provided by § 62.1-44.15:52. Failure to provide the name of an individual holding a certificate of competence prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties provided in this article.

When a plan is determined to be inadequate, written notice of disapproval stating the specific reasons for disapproval shall be communicated to the applicant within 45 days. The notice shall specify the modifications, terms, and conditions that will permit approval of the plan. If no action is taken by the VESCP authority within the time specified in this subsection, the plan shall be deemed approved and the person authorized to proceed with the proposed activity. The VESCP authority shall act on any erosion and sediment control plan that has been previously disapproved within 45 days after the plan has been revised, resubmitted for approval, and deemed adequate.

C. The VESCP authority may require changes to an approved plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations; or

2. Where the person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article and associated regulations, are agreed to by the VESCP authority and the person responsible for carrying out the plan.

D. Electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, and railroad companies shall, and authorities created pursuant to § 15.2-5102 may, file general erosion and sediment control standards and specifications annually with the Department for review and approval. Such standards and specifications shall be consistent with the requirements of this article and associated regulations and the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulations where applicable. The specifications shall apply to:

1. Construction, installation, or maintenance of electric transmission, natural gas, and telephone utility lines and pipelines, and water and sewer lines; and

2. Construction of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of the railroad company.

The Department shall have 60 days in which to approve the standards and specifications. If no action is taken by the Department within 60 days, the standards and specifications shall be deemed approved. Individual approval of separate projects within subdivisions 1 and 2 is not necessary when approved specifications are followed. Projects not included in subdivisions 1 and 2 shall comply with the requirements of the appropriate VESCP. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) $1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, project inspections, and compliance.

E. Any person engaging, in more than one jurisdiction, in the creation and operation of a wetland mitigation or stream restoration bank or banks, which have been approved and are operated in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use, and operation of (i) wetlands mitigation or stream restoration banks, pursuant to a mitigation banking instrument signed by the Department of Environmental Quality, the Marine

Resources Commission, or the U.S. Army Corps of Engineers, or (ii) a stream restoration project for purposes of reducing nutrients or sediment entering state waters may, at the option of that person, file general erosion and sediment control standards and specifications for wetland mitigation or stream restoration banks annually with the Department for review and approval consistent with guidelines established by the Board.

The Department shall have 60 days in which to approve the specifications. If no action is taken by the Department within 60 days, the specifications shall be deemed approved. Individual approval of separate projects under this subsection is not necessary when approved specifications are implemented through a project-specific erosion and sediment control plan. Projects not included in this subsection shall comply with the requirements of the appropriate local erosion and sediment control program. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) $1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, projection inspections, and compliance. Approval of general erosion and sediment control specifications by the Department does not relieve the owner or operator from compliance with any other local ordinances and regulations including requirements to submit plans and obtain permits as may be required by such ordinances and regulations.

F. In order to prevent further erosion, a VESCP authority may require approval of an erosion and sediment control plan for any land identified by the VESCP authority as an erosion impact area.

G. For the purposes of subsections A and B, when land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.

§ 62.1-44.15:55. (For effective date, see notes) Regulated land-disturbing activities; submission and approval of erosion and sediment control plan.

A. Except as provided in § 62.1-44.15:31 for a land-disturbing activity conducted by a state agency, federal entity, or other specified entity, no person shall engage in any land-disturbing activity until he has submitted to the VESCP authority an erosion and sediment control plan for the land-disturbing activity and the plan has been reviewed and approved. Where Virginia Pollutant Discharge Elimination System permit coverage is required, a VESCP authority shall be required to obtain evidence of such coverage from the Department's online reporting system prior to approving the erosion and sediment control plan. A VESCP authority may enter into an agreement with an adjacent VESCP or VESMP authority regarding the administration of multijurisdictional projects specifying who shall be responsible for all or part of the administrative procedures. Should adjacent authorities fail to come to such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction. Where the land-disturbing activity results from the construction of a *(i)* single-family residence *or (ii) farm building or structure on a parcel of land with a total impervious cover percentage, including the impervious cover from the farm building or structure to be constructed, of less than five percent*, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the VESCP authority.

B. The VESCP authority shall review erosion and sediment control plans submitted to it and grant written approval within 60 days of the receipt of the plan if it determines that the plan meets the requirements of this article and the Board's regulations and if the person responsible for carrying out the plan certifies that he will properly perform the erosion and sediment control measures included in the plan and shall comply with the provisions of this article. In addition, as a prerequisite to engaging in the land-disturbing activities shown on the approved plan, the person responsible for carrying out the plan shall provide the name of an individual holding a certificate to the VESCP authority, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity. However, any VESCP authority may waive the certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. If a violation occurs during the land-disturbing activity, then the person responsible for carrying out the agreement in lieu of a plan shall correct the violation and provide the name of an individual holding a certificate, as provided by § 62.1-44.15:52. Failure to provide the name of an individual holding a certificate prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties provided in this article.

When a plan is determined to be inadequate, written notice of disapproval stating the specific reasons for disapproval shall be communicated to the applicant within 45 days. The notice shall specify the modifications, terms, and conditions that will permit approval of the plan. If no action is taken by the VESCP authority within the time specified in this subsection, the plan shall be deemed approved and the person authorized to proceed with the proposed activity. The VESCP authority shall act on any erosion and sediment control plan that has been previously disapproved within 45 days after the plan has been revised, resubmitted for approval, and deemed adequate.

C. The VESCP authority may require changes to an approved plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations; or

2. Where the person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article and associated regulations, are agreed to by the VESCP authority and the person responsible for carrying out the plan.

D. In order to prevent further erosion, a VESCP authority may require approval of an erosion and sediment control plan for any land identified by the VESCP authority as an erosion impact area.

E. For the purposes of subsections A and B, when land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.

F. Notwithstanding any other provisions of this article, the following activities are not required to comply with the requirements of this article unless otherwise required by federal law:

1. Disturbance of a land area of less than 10,000 square feet in size or less than 2,500 square feet in an area designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). However, the governing body of the program authority may reduce this exception to a smaller area of disturbed land or qualify the conditions under which this exception shall apply;

2. Minor land-disturbing activities such as home gardens and individual home landscaping, repairs, and maintenance work;

3. Installation, maintenance, or repair of any individual service connection;

4. Installation, maintenance, or repair of any underground utility line when such activity occurs on an existing hard surfaced road, street, or sidewalk, provided the land-disturbing activity is confined to the area of the road, street, or sidewalk that is hard surfaced;

5. Installation, maintenance, or repair of any septic tank line or drainage field unless included in an overall plan for land-disturbing activity relating to construction of the building to be served by the septic tank system;

6. Permitted surface or deep mining operations and projects, or oil and gas operations and projects conducted pursuant to Title 45.2;

7. Clearing of lands specifically for bona fide agricultural purposes; the management, tilling, planting, or harvesting of agricultural, horticultural, or forest crops; livestock feedlot operations; agricultural engineering operations, including construction of terraces, terrace outlets, check dams, desilting basins, dikes, ponds, ditches, strip cropping, lister furrowing, contour cultivating, contour furrowing, land drainage, and land irrigation; or as additionally set forth by the Board in regulations. However, this exception shall not apply to harvesting of forest crops unless the area on which harvesting occurs is reforested artificially or naturally in accordance with the provisions of Chapter 11 (§ 10.1-1100 et seq.) of Title 10.1 or is converted to bona fide agricultural or improved pasture use as described in subsection B of § 10.1-1163;

8. Installation of fence and sign posts or telephone and electric poles and other kinds of posts or poles;

9. Shoreline erosion control projects on tidal waters when all of the land-disturbing activities are within the regulatory authority of and approved by local wetlands boards, the Marine Resources Commission, or the United States Army Corps of Engineers; however, any associated land that is disturbed outside of this exempted area shall remain subject to this article and the regulations adopted pursuant thereto;

10. Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity;

11. Discharges to a sanitary sewer or a combined sewer system that are not from a land-disturbing activity; and

12. Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company.

§ 62.1-44.15:58. (For contingent expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Monitoring, reports, and inspections.

A. The VESCP authority (i) shall provide for periodic inspections of the land-disturbing activity and require that an individual holding a certificate of competence, as provided by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity and (ii) may require monitoring and reports from the person responsible for carrying out the erosion and sediment control plan, to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sediment. However, any VESCP authority may waive the certificate of competence requirement for an agreement in lieu of a plan ~~for construction of a single-family residence~~. The owner, permittee, or person responsible for carrying out the plan shall be given notice of the inspection. If the VESCP authority, where authorized to enforce this article, or the Department determines that there is a failure to comply with the plan following an inspection, notice shall be served upon the permittee or person responsible for carrying out the plan by mailing with confirmation of delivery to the address specified in the permit application or in the plan certification, or by delivery at the site of the land-disturbing activities to the agent or employee supervising such activities. The notice shall specify the measures needed to comply with the plan and shall specify the time within which such measures shall be completed. Upon failure to comply within the time specified, the permit may be revoked and the VESCP authority, where authorized to enforce this article, the Department, or the Board may pursue enforcement as provided by § 62.1-44.15:63.

B. Notwithstanding the provisions of subsection A, a VESCP authority is authorized to enter into agreements or contracts with districts, adjacent localities, or other public or private entities to assist with the responsibilities of this article, including but not limited to the review and determination of adequacy of erosion and sediment control plans submitted for land-disturbing activities as well as monitoring, reports, inspections, and enforcement where an authority is granted such powers by this article.

C. Upon issuance of an inspection report denoting a violation of this section, § 62.1-44.15:55 or 62.1-44.15:56, in conjunction with or subsequent to a notice to comply as specified in subsection A, a VESCP authority, where authorized to

enforce this article, or the Department may issue an order requiring that all or part of the land-disturbing activities permitted on the site be stopped until the specified corrective measures have been taken or, if land-disturbing activities have commenced without an approved plan as provided in § 62.1-44.15:55, requiring that all of the land-disturbing activities be stopped until an approved plan or any required permits are obtained. Where the alleged noncompliance is causing or is in imminent danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth, or where the land-disturbing activities have commenced without an approved erosion and sediment control plan or any required permits, such an order may be issued whether or not the alleged violator has been issued a notice to comply as specified in subsection A. Otherwise, such an order may be issued only after the alleged violator has failed to comply with a notice to comply. The order for noncompliance with a plan shall be served in the same manner as a notice to comply, and shall remain in effect for seven days from the date of service pending application by the VESCP authority, the Department, or alleged violator for appropriate relief to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. The order for disturbance without an approved plan or permits shall be served upon the owner by mailing with confirmation of delivery to the address specified in the land records of the locality, shall be posted on the site where the disturbance is occurring, and shall remain in effect until such time as permits and plan approvals are secured, except in such situations where an agricultural exemption applies. If the alleged violator has not obtained an approved erosion and sediment control plan or any required permit within seven days from the date of service of the order, the Department or the chief administrative officer or his designee on behalf of the VESCP authority may issue a subsequent order to the owner requiring that all construction and other work on the site, other than corrective measures, be stopped until an approved erosion and sediment control plan and any required permits have been obtained. The subsequent order shall be served upon the owner by mailing with confirmation of delivery to the address specified in the permit application or the land records of the locality in which the site is located. The owner may appeal the issuance of any order to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. Any person violating or failing, neglecting, or refusing to obey an order issued by the Department or the chief administrative officer or his designee on behalf of the VESCP authority may be compelled in a proceeding instituted in the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court to obey same and to comply therewith by injunction, mandamus, or other appropriate remedy. Upon completion and approval of corrective action or obtaining an approved plan or any required permits, the order shall immediately be lifted. Nothing in this section shall prevent the Department, the Board, or the chief administrative officer or his designee on behalf of the VESCP authority from taking any other action specified in § 62.1-44.15:63.

§ 62.1-44.15:58. (For contingent effective date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Monitoring, reports, and inspections.

A. The VESCP authority (i) shall provide for periodic inspections of the land-disturbing activity and require that an individual holding a certificate, as provided by § 62.1-44.15:52, will be in charge of and responsible for carrying out the land-disturbing activity and (ii) may require monitoring and reports from the person responsible for carrying out the erosion and sediment control plan, to ensure compliance with the approved plan and to determine whether the measures required in the plan are effective in controlling erosion and sediment. However, any VESCP authority may waive the certificate requirement for an agreement in lieu of a plan ~~for construction of a single-family detached residential structure~~. The owner shall be given notice of the inspection. When the VESCP authority or the Board determines that there is a failure to comply with the conditions of land-disturbance approval or to obtain an approved plan or a land-disturbance approval prior to commencing land-disturbing activity, the VESCP authority or the Board may serve a notice to comply upon the owner or person responsible for carrying out the land-disturbing activity. Such notice to comply shall be served by delivery by facsimile, e-mail, or other technology; by mailing with confirmation of delivery to the address specified in the plan or land-disturbance application, if available, or in the land records of the locality; or by delivery at the site to a person previously identified to the VESCP authority by the owner. The notice to comply shall specify the measures needed to comply with the land-disturbance approval conditions or shall identify the plan approval or land-disturbance approval needed to comply with this article and shall specify a reasonable time within which such measures shall be completed. In any instance in which a required land-disturbance approval has not been obtained, the VESCP authority or the Board may require immediate compliance. In any other case, the VESCP authority or the Board may establish the time for compliance by taking into account the risk of damage to natural resources and other relevant factors. Notwithstanding any other provision in this subsection, a VESCP authority or the Board may count any days of noncompliance as days of violation should the VESCP authority or the Board take an enforcement action. The issuance of a notice to comply by the Board shall not be considered a case decision as defined in § 2.2-4001. Upon failure to comply within the time specified, any plan approval or land-disturbance approval may be revoked and the VESCP authority or the Board may pursue enforcement as provided by § 62.1-44.15:63.

B. Notwithstanding the provisions of subsection A, a VESCP authority is authorized to enter into agreements or contracts with districts, adjacent localities, or other public or private entities to assist with the responsibilities of this article, including but not limited to the review and determination of adequacy of erosion and sediment control plans submitted for land-disturbing activities as well as monitoring, reports, inspections, and enforcement.

C. Upon issuance of an inspection report denoting a violation of this section or § 62.1-44.15:55, in conjunction with or subsequent to a notice to comply as specified in subsection A, a VESCP authority or the Board may issue a stop work order requiring that all or part of the land-disturbing activities on the site be stopped until the specified corrective measures have

been taken or, if land-disturbing activities have commenced without an approved plan as provided in § 62.1-44.15:55, requiring that all of the land-disturbing activities be stopped until an approved plan is obtained. When such an order is issued by the Board, it shall be issued in accordance with the procedures of the Administrative Process Act (§ 2.2-4000 et seq.). Where the alleged noncompliance is causing or is in imminent danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth, or where the land-disturbing activities have commenced without an approved erosion and sediment control plan, such a stop work order may be issued whether or not the alleged violator has been issued a notice to comply as specified in subsection A. Otherwise, such an order may be issued only after the alleged violator has failed to comply with a notice to comply. The order for noncompliance with a plan shall be served in the same manner as a notice to comply, and shall remain in effect for seven days from the date of service pending application by the VESCP authority, the Board, or alleged violator for appropriate relief to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. The stop work order for disturbance without an approved plan shall be served upon the owner by mailing with confirmation of delivery to the address specified in the land records of the locality, shall be posted on the site where the disturbance is occurring, and shall remain in effect until such time as plan approvals are secured, except in such situations where an agricultural exemption applies. If the alleged violator has not obtained an approved erosion and sediment control plan within seven days from the date of service of the stop work order, the Board or the chief administrative officer or his designee on behalf of the VESCP authority may issue a subsequent order to the owner requiring that all construction and other work on the site, other than corrective measures, be stopped until an approved erosion and sediment control plan has been obtained. The subsequent order shall be served upon the owner by mailing with confirmation of delivery to the address specified in the plan or the land records of the locality in which the site is located. The owner may appeal the issuance of any order to the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court. Any person violating or failing, neglecting, or refusing to obey an order issued by the Board or the chief administrative officer or his designee on behalf of the VESCP authority may be compelled in a proceeding instituted in the circuit court of the jurisdiction wherein the violation was alleged to have occurred or other appropriate court to obey same and to comply therewith by injunction, mandamus, or other appropriate remedy. Upon completion and approval of corrective action or obtaining an approved plan, the order shall immediately be lifted. Nothing in this section shall prevent the Board or the chief administrative officer or his designee on behalf of the VESCP authority from taking any other action specified in § 62.1-44.15:63.

CHAPTER 50

An Act to amend and reenact §§ 58.1-1206, 58.1-1207, and 58.1-1212 of the Code of Virginia, relating to bank franchise tax.

[H 1896]

Approved March 17, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-1206, 58.1-1207, and 58.1-1212 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-1206. Deductions from gross capital.

A. There shall be deducted from the gross capital otherwise ascertainable under § 58.1-1205:

1. The assessed value of real estate if otherwise taxed in ~~this~~ *the* Commonwealth which is owned by such bank, or is used or occupied by such bank, if held in the name of a majority-owned subsidiary of the bank or of a bank holding company which owns a majority of the capital stock of such bank or of any wholly-owned subsidiary of the bank holding company which owns the majority of the capital stock of such bank and the assessed value, up to the amount of the unencumbered equity, of real estate in the nature of improvements which are owned by the bank, or used or occupied by the bank and held by a majority-owned subsidiary or a bank holding company or a wholly-owned subsidiary of a bank holding company, even if assessed in the name of some other person because of the ownership of the underlying land by such person. Real estate used or occupied by a subsidiary or originally conveyed as collateral for loans made by a subsidiary of the bank and reacquired upon foreclosure of mortgage loans will be deemed to be used or occupied by the bank. The deduction for assessed value of real estate shall be the most recent assessment made prior to January 1 of the current bank franchise tax year for real estate owned by the bank or affiliate on January 1 of the current year. *Any locality shall provide electronic access to banks for real estate assessment records for such real estate referenced by this section at their request.*

2. The book value of tangible personal property which shall be held for lease and is otherwise taxed which is owned by such bank or in the name of a majority-owned subsidiary of the bank. If the bank does not own all the stock of such subsidiary, it shall be entitled to deduct only such portion of the assessed value of the real estate and the value of such tangible personal property as the common stock it owns in such subsidiary bears to the whole issue of common stock of such corporation.

3. An amount which shall equal the same percentage of the gross capital account, defined as its capital, surplus and undivided profits as set forth in § 58.1-1205 at December 31 next preceding as the obligations of the United States bear to the total assets of the bank. Such percentage of U.S. obligations shall be determined as of the four most recent (or less in case of a new bank) Reports of Condition and the percentage obtained shall be averaged. For purposes of computing such percentage, total assets shall not include the goodwill described in subdivision 5. The obligations of the United States as

used herein shall include all obligations of the United States exempt from taxation under 31 U.S.C. § 3124, of the United States Constitution or any other statute, or any instrumentality or agency of the United States which obligations shall be exempt from state or local taxation under the United States Constitution or any statute of the United States.

4. The amount of retained earnings and surplus of subsidiaries to the extent included in the gross capital of the bank. In addition, any portion of the amount added to federal taxable income pursuant to subdivision B 9 of § 58.1-402 by a corporation that is for interest expenses and costs paid to the bank for a loan or other obligation made by the bank to such corporation shall be deducted from the gross capital of the bank provided that (i) at the time of payment of such portion to the bank, the bank was a related member of the corporation, and (ii) such portion has not otherwise been deducted from gross capital. For purposes of this subdivision, the terms "interest expenses and costs" and "related member" mean the same as those terms are defined in § 58.1-302.

5. Any amount equal to 90 percent of goodwill created in connection with any acquisition or merger occurring on or after July 1, 2001.

B. For purposes of this section, "goodwill" shall be determined using generally accepted accounting principles.

§ 58.1-1207. Filing of return and payment of tax.

A. Each bank as defined in § 58.1-1201 as of January 1 of each year shall prepare and file *electronically* with the commissioner of the revenue or comparable assessing officer of the county, city or town where the principal office of the bank is located on or before March 1, a return ~~in duplicate which~~ *that* shall set forth the tax on net capital as computed under this chapter. ~~The return shall be in a form prescribed by the Department of Taxation~~ *The Department of Taxation shall maintain a secure online portal to receive returns and other required submissions under this chapter in a manner prescribed by the Department for use by commissioners of the revenue or other assessing officers of any locality in accepting filed returns and certifying and transmitting returns to the Department*. The commissioner of the revenue or comparable assessing officer shall certify a copy of the bank's return and schedules and shall forthwith transmit such certified copy to the Department of Taxation. Additionally, ~~a~~ *an electronic* copy of the real estate deduction schedules and the apportionment under § 58.1-1211 shall be filed with the appropriate assessing officer of each political subdivision imposing a tax on the filing bank. Such return shall set forth the tax on net capital owing to each such political subdivision as computed under this chapter and shall include the listing of the real estate, as assessed for the prior year, as well as a description of the total of the obligations of the United States and the average percentage thereof on the four dates prescribed in subdivision 3 of § 58.1-1206. Every bank, on or before June 1 of each year, shall pay into the state treasury the state taxes assessed under this chapter and into the treasurer's office or other official of the local political subdivisions all taxes assessed by such political subdivision.

B. In accordance with procedures established by the Tax Commissioner, any bank may elect an extension of time within which to file the tax return required under this chapter to the date 60 days after such due date. Such form shall be submitted to the Department of Taxation and the commissioner of the revenue or other assessing officer of any locality in which the bank is required to file.

§ 58.1-1212. Record of deposits through branches required.

Each bank in ~~this~~ *the* Commonwealth that has as of the beginning of any tax year a bank located in any county, incorporated town or city other than the county, incorporated town or city wherein such bank's principal office is located, shall maintain a record of the deposits through each such branch as of the beginning of the tax year. Each bank shall also *electronically* submit to the commissioner of the revenue or other assessing officer of the locality wherein such principal office is located a report of such deposits with the return required under § 58.1-1207.

2. That the provisions of the first enactment of this act shall become effective on January 1, 2025.

3. That the Department of Taxation shall convene a work group to assess potential alternative methods for the filing and allocation of bank franchise tax revenues for consideration in the 2024 Session of the General Assembly. At a minimum, the work group shall evaluate proposals to allow banks to submit their bank franchise tax payments to the Commonwealth, the formula used to redistribute funds to local governments, the impact of the new method of collecting and distributing funds on counties, cities, and towns, the timeline for implementation of any proposed changes, and the cost to the Commonwealth and local governments of implementing these changes. The work group shall include representatives from the Virginia Bankers Association, Virginia Association of Counties, Virginia Municipal League, and Commissioners of the Revenue Association of Virginia and other relevant stakeholders. The work group shall report its findings and recommendations to the General Assembly by December 1, 2023.

CHAPTER 51

An Act to amend and reenact §§ 58.1-1206, 58.1-1207, and 58.1-1212 of the Code of Virginia, relating to bank franchise tax.

[S 1182]

Approved March 17, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-1206, 58.1-1207, and 58.1-1212 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-1206. Deductions from gross capital.

E. The developer shall amend the public offering statement to reflect any material change in the time-share program. If the developer has reserved in the time-share instrument the right to add to or delete incidental benefits ~~or alternative purchases~~, the addition or deletion of such benefits ~~or purchases~~ shall not constitute a material change. Prior to distribution, the developer shall file with the Board the public offering statement amended to reflect any material change.

F. The Board may at any time require a developer to alter or supplement the form or substance of the public offering statement to assure full and fair disclosure to prospective purchasers. A developer may prepare and distribute a public offering statement for each time-share program offered or one public offering statement for all time-share programs offered.

G. The developer shall amend the public offering statement to reflect any addition of a time-share project to, or removal of a time-share project from, the existing time-share program.

H. In the case of a time-share project located outside the Commonwealth, similar disclosure statements required by other situs laws governing time-sharing may be accepted by the Board as alternative disclosure statements to satisfy the requirements of this section.

I. The public offering statement may be in any format, including any electronic format, provided that the prospective buyer has available for review, along with ample time for any questions and answers, a copy of the public offering statement prior to his execution of a contract.

This information shall be set forth in a tabular manner within the proposed budget of the project. If any such building has not been occupied for a period of three years, the information shall be set forth for the period during which such building was occupied;

3. A description of any provisions made in the budget for reserves for capital expenditures and an explanation of the basis for such reserves occasioned by the fact that the project is a conversion time-share project, or, if no provision is made for such reserves, a statement to that effect; and

4. A statement of the present condition of all structural components and major utility installations in the building, which statement shall include the approximate dates of construction, installations, and major repairs as well as the expected useful life of each such item, together with the estimated cost, in current dollars, of replacing each such component.

D. In the case of a conversion time-share project, the developer shall give at least 90 days' notice to each of the tenants of any building that the developer intends to submit to the provisions of this chapter. During the first 60 days of such 90-day period, each of these tenants shall have the exclusive right to contract for the purchase of a time-share from the unit he occupies, but only if such unit is to be retained in the conversion time-share project without substantial alteration in its physical layout. Such notice shall be hand delivered or sent by first-class mail, return receipt requested, and shall inform the tenants of the developer's intent to create a conversion time-share project. Such notice may also constitute the notice to terminate the tenancy as provided for in § 55.1-1410, except that, despite the provisions of § 55.1-1410, a tenancy from month to month may only be terminated upon 120 days' notice as set forth in this subsection when such termination is in regard to the creation of a conversion time-share project. If, however, a tenant so notified remains in possession of the unit

he occupies after the expiration of the 120-day period with the permission of the developer, in order to then terminate the tenancy, such developer shall give the tenant a further notice as provided in § 55.1-1410.

The developer of a conversion time-share project shall, in addition to the requirements of § 55.1-2239, include with the application for registration a copy of the notice required by this subsection and a certified statement that such notice that fully complies with the provisions of this subsection shall be, at the time of the registration, mailed or delivered to each of the tenants in any building for which registration is sought.

E. The developer shall amend the public offering statement to reflect any material change in the time-share program. If the developer has reserved in the time-share instrument the right to add to or delete incidental benefits ~~or alternative purchases~~, the addition or deletion of such benefits ~~or purchases~~ shall not constitute a material change. Prior to distribution, the developer shall file with the Board the public offering statement amended to reflect any material change.

F. The Board may at any time require a developer to alter or supplement the form or substance of the public offering statement to assure full and fair disclosure to prospective purchasers. A developer may prepare and distribute a public offering statement for each time-share program offered or one public offering statement for all time-share programs offered.

G. The developer shall amend the public offering statement to reflect any addition of a time-share project to, or removal of a time-share project from, the existing time-share program.

H. In the case of a time-share project located outside the Commonwealth, similar disclosure statements required by other situs laws governing time-sharing may be accepted by the Board as alternative disclosure statements to satisfy the requirements of this section.

I. The public offering statement may be in any format, including any electronic format, provided that the prospective buyer has available for review, along with ample time for any questions and answers, a copy of the public offering statement prior to his execution of a contract.

1. That § 46.2-873 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-873. Maximum speed limits at school crossings; penalty.

A. For the purposes of this section, "school crossing zone" means an area located within the vicinity of a school at or near a highway where the presence of children on such school property or going to and from school reasonably requires a special warning to motorists. Such zones are marked and operated in accordance with the requirements of this section with appropriate warning signs or other traffic control devices indicating that a school crossing is in progress.

B. The maximum speed limit shall be ~~twenty-five~~ *25* miles per hour between portable signs, tilt-over signs, or fixed blinking signs placed in or along any highway and bearing the word "school" or "school crossing." Any signs erected under this section shall be placed not more than ~~600~~ *750* feet from the limits of the school property or crossing in the vicinity of the school. However, "school crossing" signs may be placed in any location if the Department of Transportation or the council of the city or town or the board of supervisors of a county maintaining its own system of secondary roads approves the crossing for such signs. If the portion of the highway to be posted is within the limits of a city or town, such portable signs shall be furnished and delivered by such city or town. If the portion of highway to be posted is outside the limits of a city or town, such portable signs shall be furnished and delivered by the Department of Transportation. The principal or chief administrative officer of each school or a school board designee, preferably not a classroom teacher, shall place such portable signs in the highway at a point not more than ~~600~~ *750* feet from the limits of the school property and remove such signs when their presence is no longer required by this section. Such portable signs, tilt-over signs, or fixed blinking signs shall be placed in a position plainly visible to vehicular traffic approaching from either direction, but shall not be placed so as to obstruct the roadway.

C. Such portable signs, tilt-over signs, or blinking signs shall be in a position, or be turned on, for ~~thirty~~ *30* minutes preceding regular school hours, for ~~thirty~~ *30* minutes thereafter, and during such other times as the presence of children on such school property or going to and from school reasonably requires a special warning to motorists. The governing body of any county, city, or town may, however, decrease the period of time preceding and following regular school hours during which such portable signs, tilt-over signs, or blinking signs shall be in position or lit if it determines that no children will be going to or from school during the period of time that it subtracts from the ~~thirty-minute~~ *30-minute* period.

D. The governing body of any city or town may, if the portion of the highway to be posted is within the limits of such city or town, increase or decrease the speed limit provided in this section only after justification for such increase or decrease has been shown by an engineering and traffic investigation, and no such increase or decrease in speed limit shall be effective unless such increased or decreased speed limit is conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs required by this section.

E. The governing body of a county within Planning District 8 may, if the portion of the highway to be posted is within the limits of such county, increase or decrease the speed limit provided in this section only after justification for such increase or decrease has been shown by an engineering and traffic investigation, and no such increase or decrease in speed limit shall be effective unless such increased or decreased speed limit is conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs required by this section.

F. The City of Virginia Beach may establish school zones as provided in this section and mark such zones with flashing warning lights as provided in this section on and along all highways adjacent to Route 58.

G. Any person operating any motor vehicle in excess of a maximum speed limit established specifically for a school crossing zone~~,~~ when such school crossing zone is (i) indicated by appropriately placed signs displaying the maximum speed limit and (ii) in operation pursuant to subsection B ~~of this section~~ shall be guilty of a traffic infraction punishable by a fine of not more than $250, in addition to other penalties provided by law.

H. Notwithstanding the foregoing provisions of this section, the maximum speed limit in school zones in residential areas may be decreased to ~~fifteen~~ *15* miles per hour if (i) the school board having jurisdiction over the school nearest to the affected school zone passes a resolution requesting the reduction of the maximum speed limit for such school zone from ~~twenty-five~~ *25* miles per hour to ~~fifteen~~ *15* miles per hour and (ii) the local governing body of the jurisdiction in which such school is located enacts an ordinance establishing the speed-limit reduction requested by the school board.

to sound a siren or any device to give automatically intermittent signals, but shall display red or red and white warning lights when performing such maneuvers.

F. Any law-enforcement vehicle operated by or under the direction of a federal, state, or local law-enforcement officer while conducting a funeral escort, wide-load escort, dignitary escort, or any other escort necessary for the safe movement of vehicles and pedestrians may, without subjecting himself to criminal prosecution:

1. Disregard speed limits, while having due regard for safety of persons and property;

2. Proceed past any steady or flashing red signal, traffic light, stop sign, or device indicating moving traffic shall stop if the speed of the vehicle is sufficiently reduced to enable it to pass a signal, traffic light, or device with due regard for the safety of persons and property;

3. Park or stop notwithstanding the other provisions of this chapter;

4. Disregard regulations governing a direction of movement of vehicles turning in specified directions so long as the operator does not endanger life or property; or

5. Pass or overtake, with due regard for the safety of persons and property, another vehicle.

Notwithstanding other provisions of this section, vehicles exempted in this subsection may sound a siren or any device to give automatically intermittent signals.

§ 46.2-1023. Flashing red or red and white warning lights.

Fire apparatus, forest warden vehicles, emergency medical services vehicles, vehicles of the Department of Emergency Management, vehicles of the Department of Environmental Quality, vehicles of the Virginia National Guard Civil Support Team and the Virginia National Guard Chemical, Biological, Radiological, Nuclear and High Yield Explosive (CBRNE) Enhanced Response Force Package (CERFP) when responding to an emergency, vehicles of county, city, or town Departments of Emergency Management, vehicles of the Office of Emergency Medical Services, animal warden vehicles, *vehicles of the Response and Recovery Coordination Branch of the Washington Metropolitan Area Transit Authority's Office of Emergency Preparedness,* and vehicles used by security personnel of the Huntington Ingalls Industries, Bassett-Walker, Inc., the Winchester Medical Center, the National Aeronautics and Space Administration's Wallops Flight Facility, and, within those areas specified in their orders of appointment, by special conservators of the peace and policemen for certain places appointed pursuant to §§ 19.2-13 and 19.2-17 may be equipped with flashing, blinking, or alternating red or red and white combination warning lights of types approved by the Superintendent. Such warning lights may be of types constructed within turn signal housings or motorcycle headlight housings, subject to approval by the Superintendent.

§ 46.2-1030. When lights to be lighted; number of lights to be lighted at any time; use of warning lights.

A. Every vehicle in operation on a highway in the Commonwealth shall display lighted headlights and illuminating devices as required by this article (i) from sunset to sunrise; (ii) during any other time when, because of rain, smoke, fog, snow, sleet, insufficient light, or other unfavorable atmospheric conditions, visibility is reduced to a degree whereby persons or vehicles on the highway are not clearly discernible at a distance of 500 feet; and (iii) whenever windshield wipers are in use as a result of fog, rain, sleet, or snow. The provisions of this subsection, however, shall not apply to instances when windshield wipers are used intermittently in misting rain, sleet, or snow.

B. Not more than four lights used to provide general illumination ahead of the vehicle, including at least two headlights and any other combination of fog lights or other auxiliary lights approved by the Superintendent, shall be lighted at any time. However, motorcycles may be equipped with and use not more than five approved lights in order to provide general illumination ahead of the motorcycle. These limitations shall not preclude the display of warning lights authorized in §§ 46.2-1020 through 46.2-1027, or other lights as may be authorized by the Superintendent.

C. Vehicles equipped with warning lights authorized in §§ 46.2-1020 through 46.2-1027 shall display lighted warning lights as authorized in such sections at all times when responding to emergency calls, responding to traffic incidents, *responding to metropolitan transit-related incidents,* towing disabled vehicles, or constructing, repairing, and maintaining public highways or utilities on or along public highways, except that amber lights on vehicles designed with a ramp on wheels and a hydraulic lift with a capacity to haul or tow another vehicle, commonly referred to as "rollbacks," need not be lit while the vehicle is in motion unless it is actually towing a vehicle.

D. The failure to display lighted headlights and illuminating devices under the conditions set forth in clause (iii) of subsection A shall not constitute negligence per se, nor shall violation of clause (iii) of subsection A constitute a defense to any claim for personal injury or recovery of medical expenses for injuries sustained in a motor vehicle accident.

E. No demerit points shall be assessed for failure to display lighted headlights and illuminating devices during periods of fog, rain, sleet, or snow in violation of clause (iii) of subsection A.

F. No citation for a violation of clause (iii) of subsection A shall be issued unless the officer issuing such citation has cause to stop or arrest the driver of such motor vehicle for the violation of some other provision of this Code or local ordinance relating to the operation, ownership, or maintenance of a motor vehicle or any criminal statute. No law-enforcement officer shall stop a motor vehicle for a violation of this section, except that a law-enforcement officer may stop a vehicle if it displays no lighted headlights during the time periods set forth in subsection A. No evidence discovered or obtained as the result of a stop in violation of this subsection, including evidence discovered or obtained with the operator's consent, shall be admissible in any trial, hearing, or other proceeding.

CHAPTER 89

An Act to amend and reenact §§ 46.2-920, 46.2-1023, and 46.2-1030 of the Code of Virginia, relating to flashing red and white warning lights; emergency vehicle exemptions; WMATA Response and Recovery Coordination Branch vehicles.

[S 981]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-920, 46.2-1023, and 46.2-1030 of the Code of Virginia are amended and reenacted as follows:

§ 46.2-920. Certain vehicles exempt from regulations in certain situations; exceptions and additional requirements.

A. The driver of any emergency vehicle, when such vehicle is being used in the performance of public services, and when such vehicle is operated under emergency conditions, may, without subjecting himself to criminal prosecution:

1. Disregard speed limits, while having due regard for safety of persons and property;

2. Proceed past any steady or flashing red signal, traffic light, stop sign, or device indicating moving traffic shall stop if the speed of the vehicle is sufficiently reduced to enable it to pass a signal, traffic light, or device with due regard to the safety of persons and property;

3. Park or stop notwithstanding the other provisions of this chapter;

4. Disregard regulations governing a direction of movement of vehicles turning in specified directions so long as the operator does not endanger life or property;

5. Pass or overtake, with due regard to the safety of persons and property, another vehicle at any intersection;

6. Pass or overtake with due regard to the safety of persons and property, while en route to an emergency, stopped or slow-moving vehicles, by going to the left of the stopped or slow-moving vehicle either in a no-passing zone or by crossing the highway centerline; or

7. Pass or overtake with due regard to the safety of persons and property, while en route to an emergency, stopped or slow-moving vehicles, by going off the paved or main traveled portion of the roadway on the right. Notwithstanding other provisions of this section, vehicles exempted in this instance will not be required to sound a siren or any device to give automatically intermittent signals.

B. The exemptions granted to emergency vehicles by subsection A in subdivisions A1, A3, A4, A5, and A6 shall apply only when the operator of such vehicle displays a flashing, blinking, or alternating emergency light or lights as provided in §§ 46.2-1022 and 46.2-1023 and sounds a siren, exhaust whistle, or air horn designed to give automatically intermittent signals, as may be reasonably necessary. The exemption granted under subdivision A 2 shall apply only when the operator of such emergency vehicle displays a flashing, blinking, or alternating emergency light or lights as provided in §§ 46.2-1022 and 46.2-1023 and either (a) sounds a siren, exhaust whistle, or air horn designed to give automatically intermittent signals or (b) slows the vehicle down to a speed reasonable for the existing conditions, yields right-of-way to the driver of another vehicle approaching or entering the intersection from another direction or, if required for safety, brings the vehicle to a complete stop before proceeding with due regard for the safety of persons and property. In addition, the exemptions granted to emergency vehicles by subsection A shall apply only when there is in force and effect for such vehicle either (i) standard motor vehicle liability insurance covering injury or death to any person in the sum of at least $100,000 because of bodily injury to or death of one person in any one accident and, subject to the limit for one person, to a limit of $300,000 because of bodily injury to or death of two or more persons in any one accident, and to a limit of $20,000 because of injury to or destruction of property of others in any one accident or (ii) a certificate of self-insurance issued pursuant to § 46.2-368. Such exemptions shall not, however, protect the operator of any such vehicle from criminal prosecution for conduct constituting reckless disregard of the safety of persons and property. Nothing in this section shall release the operator of any such vehicle from civil liability for failure to use reasonable care in such operation.

C. For the purposes of this section, the term "emergency vehicle" shall mean:

1. Any law-enforcement vehicle operated by or under the direction of a federal, state, or local law-enforcement officer (i) in the chase or apprehension of violators of the law or persons charged with or suspected of any such violation or (ii) in response to an emergency call;

2. Any regional detention center vehicle operated by or under the direction of a correctional officer responding to an emergency call or operating in an emergency situation;

3. Any vehicle used to fight fire, including publicly owned state forest warden vehicles, when traveling in response to a fire alarm or emergency call;

4. Any emergency medical services vehicle designed or used for the principal purpose of providing emergency medical services where human life is endangered;

5. Any Department of Emergency Management vehicle or Office of Emergency Medical Services vehicle, when responding to an emergency call or operating in an emergency situation;

6. Any Department of Corrections vehicle designated by the Director of the Department of Corrections, when (i) responding to an emergency call at a correctional facility, (ii) participating in a drug-related investigation, (iii) pursuing escapees from a correctional facility, or (iv) responding to a request for assistance from a law-enforcement officer;

7. Any vehicle authorized to be equipped with alternating, blinking, or flashing red or red and white secondary warning lights under the provisions of § 46.2-1029.2; ~~and~~

8. Any Virginia National Guard Civil Support Team vehicle when responding to an emergency*; and*

9. Any vehicle operated by the Response and Recovery Coordination Branch of the Washington Metropolitan Area Transit Authority's Office of Emergency Preparedness, when responding to an emergency, provided that the operator of any such vehicle (i) has completed an initial emergency vehicle operators course from an approved course list prepared by the Department of Fire Programs, the Office of Emergency Medical Services, or an equivalent agency and (ii) recertifies as an emergency vehicle operator every two years.

D. Any law-enforcement vehicle operated by or under the direction of a federal, state, or local law-enforcement officer may disregard speed limits, while having due regard for safety of persons and property, (i) in testing the accuracy of speedometers of such vehicles, (ii) in testing the accuracy of speed measuring devices specified in § 46.2-882, or (iii) in following another vehicle for the purpose of determining its speed.

E. A Department of Environmental Quality vehicle, while en route to an emergency and with due regard to the safety of persons and property, may overtake and pass stopped or slow-moving vehicles by going off the paved or main traveled portion of the highway on the right or on the left. These Department of Environmental Quality vehicles shall not be required to sound a siren or any device to give automatically intermittent signals, but shall display red or red and white warning lights when performing such maneuvers.

F. Any law-enforcement vehicle operated by or under the direction of a federal, state, or local law-enforcement officer while conducting a funeral escort, wide-load escort, dignitary escort, or any other escort necessary for the safe movement of vehicles and pedestrians may, without subjecting himself to criminal prosecution:

1. Disregard speed limits, while having due regard for safety of persons and property;

2. Proceed past any steady or flashing red signal, traffic light, stop sign, or device indicating moving traffic shall stop if the speed of the vehicle is sufficiently reduced to enable it to pass a signal, traffic light, or device with due regard for the safety of persons and property;

3. Park or stop notwithstanding the other provisions of this chapter;

4. Disregard regulations governing a direction of movement of vehicles turning in specified directions so long as the operator does not endanger life or property; or

5. Pass or overtake, with due regard for the safety of persons and property, another vehicle.

Notwithstanding other provisions of this section, vehicles exempted in this subsection may sound a siren or any device to give automatically intermittent signals.

§ 46.2-1023. Flashing red or red and white warning lights.

Fire apparatus, forest warden vehicles, emergency medical services vehicles, vehicles of the Department of Emergency Management, vehicles of the Department of Environmental Quality, vehicles of the Virginia National Guard Civil Support Team and the Virginia National Guard Chemical, Biological, Radiological, Nuclear and High Yield Explosive (CBRNE) Enhanced Response Force Package (CERFP) when responding to an emergency, vehicles of county, city, or town Departments of Emergency Management, vehicles of the Office of Emergency Medical Services, animal warden vehicles, *vehicles of the Response and Recovery Coordination Branch of the Washington Metropolitan Area Transit Authority's Office of Emergency Preparedness,* and vehicles used by security personnel of the Huntington Ingalls Industries, Bassett-Walker, Inc., the Winchester Medical Center, the National Aeronautics and Space Administration's Wallops Flight Facility, and, within those areas specified in their orders of appointment, by special conservators of the peace and policemen for certain places appointed pursuant to §§ 19.2-13 and 19.2-17 may be equipped with flashing, blinking, or alternating red or red and white combination warning lights of types approved by the Superintendent. Such warning lights may be of types constructed within turn signal housings or motorcycle headlight housings, subject to approval by the Superintendent.

§ 46.2-1030. When lights to be lighted; number of lights to be lighted at any time; use of warning lights.

A. Every vehicle in operation on a highway in the Commonwealth shall display lighted headlights and illuminating devices as required by this article (i) from sunset to sunrise; (ii) during any other time when, because of rain, smoke, fog, snow, sleet, insufficient light, or other unfavorable atmospheric conditions, visibility is reduced to a degree whereby persons or vehicles on the highway are not clearly discernible at a distance of 500 feet; and (iii) whenever windshield wipers are in use as a result of fog, rain, sleet, or snow. The provisions of this subsection, however, shall not apply to instances when windshield wipers are used intermittently in misting rain, sleet, or snow.

B. Not more than four lights used to provide general illumination ahead of the vehicle, including at least two headlights and any other combination of fog lights or other auxiliary lights approved by the Superintendent, shall be lighted at any time. However, motorcycles may be equipped with and use not more than five approved lights in order to provide general illumination ahead of the motorcycle. These limitations shall not preclude the display of warning lights authorized in §§ 46.2-1020 through 46.2-1027, or other lights as may be authorized by the Superintendent.

C. Vehicles equipped with warning lights authorized in §§ 46.2-1020 through 46.2-1027 shall display lighted warning lights as authorized in such sections at all times when responding to emergency calls, responding to traffic incidents, *responding to metropolitan transit-related incidents,* towing disabled vehicles, or constructing, repairing, and maintaining public highways or utilities on or along public highways, except that amber lights on vehicles designed with a ramp on wheels and a hydraulic lift with a capacity to haul or tow another vehicle, commonly referred to as "rollbacks," need not be lit while the vehicle is in motion unless it is actually towing a vehicle.

D. The failure to display lighted headlights and illuminating devices under the conditions set forth in clause (iii) of subsection A shall not constitute negligence per se, nor shall violation of clause (iii) of subsection A constitute a defense to any claim for personal injury or recovery of medical expenses for injuries sustained in a motor vehicle accident.

E. No demerit points shall be assessed for failure to display lighted headlights and illuminating devices during periods of fog, rain, sleet, or snow in violation of clause (iii) of subsection A.

F. No citation for a violation of clause (iii) of subsection A shall be issued unless the officer issuing such citation has cause to stop or arrest the driver of such motor vehicle for the violation of some other provision of this Code or local ordinance relating to the operation, ownership, or maintenance of a motor vehicle or any criminal statute. No law-enforcement officer shall stop a motor vehicle for a violation of this section, except that a law-enforcement officer may stop a vehicle if it displays no lighted headlights during the time periods set forth in subsection A. No evidence discovered or obtained as the result of a stop in violation of this subsection, including evidence discovered or obtained with the operator's consent, shall be admissible in any trial, hearing, or other proceeding.

CHAPTER 90

An Act to amend and reenact § 18.2-146 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 18.2-146.1, relating to possession, purchase, and sale of catalytic converters; penalty.

[H 2372]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-146 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 18.2-146.1 as follows:

§ 18.2-146. Breaking, injuring, defacing, destroying, or preventing the operation of vehicle, aircraft, boat, or vessel; penalties.

Any person who shall individually or in association with one or more others willfully break, injure, tamper with, or remove any part or parts of any vehicle, aircraft, boat, or vessel for the purpose of injuring, defacing, or destroying said vehicle, aircraft, boat, or vessel, or temporarily or permanently preventing its useful operation, or for any purpose against the will or without the consent of the owner of such vehicle, aircraft, boat, or vessel, or who shall in any other manner willfully or maliciously interfere with or prevent the running or operation of such vehicle, aircraft, boat, or vessel, is guilty of a Class 1 misdemeanor, unless such violation of this section involves the breaking, injuring, tampering with, or removal of a catalytic converter or the parts thereof, then he is guilty of a Class 6 felony. A prosecution or proceeding for a felony under this section is a bar to a prosecution or proceeding under § 18.2-137 for the same act.

A judge or jury may make a permissive inference that a person who is in possession of a catalytic converter that has been removed from a motor vehicle to have obtained the catalytic converter in violation of this section unless the person is (i) an authorized agent or employee acting in the performance of his official duties for a motor vehicle dealer, motor vehicle garage or repair shop, or salvage yard that is licensed or registered by the Commonwealth; (ii) a scrap metal purchaser that has adhered to the compliance provisions of subdivisions B 1 or 2 of § 59.1-136.3; or (iii) a person who possesses vehicle registration documentation indicating that the catalytic converter in the person's possession is the result of a replacement of a catalytic converter from a vehicle registered in that person's name.

§ 18.2-146.1. Unlawful purchase or sale of a catalytic converter from a motor vehicle exhaust system that has been detached from a motor vehicle; penalty.

Any person who sells, offers for sale, or purchases a catalytic converter from a motor vehicle exhaust system that has been detached from a motor vehicle, except when such sale, offer for sale, or purchase is made to or by a scrap metal purchaser that has adhered to the compliance provisions of subdivisions B 1 or 2 of § 59.1-136.3, is guilty of a Class 6 felony.

Nothing in this section shall be construed to prohibit the sale, offer for sale, or purchase of a new catalytic converter that has never been installed on a motor vehicle.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

CHAPTER 91

An Act to amend and reenact § 18.2-146 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 18.2-146.1, relating to possession, purchase, and sale of catalytic converters; penalty.

[S 1135]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-146 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 18.2-146.1 as follows:

§ 18.2-146. Breaking, injuring, defacing, destroying, or preventing the operation of vehicle, aircraft, boat, or vessel; penalties.

Any person who shall individually or in association with one or more others willfully break, injure, tamper with, or remove any part or parts of any vehicle, aircraft, boat, or vessel for the purpose of injuring, defacing, or destroying said vehicle, aircraft, boat, or vessel, or temporarily or permanently preventing its useful operation, or for any purpose against the will or without the consent of the owner of such vehicle, aircraft, boat, or vessel, or who shall in any other manner willfully or maliciously interfere with or prevent the running or operation of such vehicle, aircraft, boat, or vessel, is guilty of a Class 1 misdemeanor, unless such violation of this section involves the breaking, injuring, tampering with, or removal of a catalytic converter or the parts thereof, then he is guilty of a Class 6 felony. A prosecution or proceeding for a felony under this section is a bar to a prosecution or proceeding under § 18.2-137 for the same act.

A judge or jury may make a permissive inference that a person who is in possession of a catalytic converter that has been removed from a motor vehicle to have obtained the catalytic converter in violation of this section unless the person is (i) an authorized agent or employee acting in the performance of his official duties for a motor vehicle dealer, motor vehicle garage or repair shop, or salvage yard that is licensed or registered by the Commonwealth; (ii) a scrap metal purchaser that has adhered to the compliance provisions of subdivisions B 1 or 2 of § 59.1-136.3; or (iii) a person who possesses vehicle registration documentation indicating that the catalytic converter in the person's possession is the result of a replacement of a catalytic converter from a vehicle registered in that person's name.

Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

CHAPTER 92

An Act to amend and reenact §§ 8.01-407 and 16.1-265 of the Code of Virginia, relating to attorney-issued subpoenas; release of witness.

[H 1756]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 8.01-407 and 16.1-265 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-407. How summons for witness issued and to whom directed; how witness released from attorney-issued subpoena; prior permission of court to summon certain officials and judges.

A. A summons may be issued, directed as prescribed in § 8.01-292, commanding the officer to summon any person to attend on the day and at the place that such attendance is desired, to give evidence before a court, grand jury, arbitrators, magistrate, notary, or any commissioner or other person appointed by a court or acting under its process or authority in a judicial or quasi-judicial capacity. The summons may be issued by the clerk of the court if the attendance is desired at a court or in a proceeding pending in a court. The clerk shall not impose any time restrictions limiting the right to properly request a summons up to and including the date of the proceeding:

If attendance is desired before a commissioner in chancery or other commissioner of a court, the summons may be issued by the clerk of the court in which the matter is pending, or by such commissioner in chancery or other commissioner;

If attendance is desired before a notary or other officer taking a deposition, the summons may be issued by such notary or other officer at the instance of the attorney desiring the attendance of the person sought;

If attendance is sought before a grand jury, the summons may be issued by the attorney for the Commonwealth, or the clerk of the court, at the instance of the attorney for the Commonwealth.

Except as otherwise provided in this subsection, if attendance is desired in a civil proceeding pending in a court or at a deposition in connection with such proceeding, including medical malpractice review panels, and a claim before the Workers' Compensation Commission, a summons may be issued by an attorney-at-law who is an active member of the Virginia State Bar at the time of issuance, as an officer of the court. An attorney-issued summons shall be on a form

approved by the Supreme Court, signed by the attorney and shall include the attorney's address. The summons and any transmittal sheet shall be deemed to be a pleading to which the provisions of § 8.01-271.1 shall apply. A copy of the summons and, if served by a sheriff, all service of process fees, shall be mailed or delivered to the clerk's office of the court in which the case is pending or the Workers' Compensation Commission, as applicable, on the day of issuance by the attorney. The law governing summonses issued by a clerk shall apply mutatis mutandis. When an attorney-at-law who is an active member of the Virginia State Bar transmits one or more attorney-issued subpoenas to a sheriff to be served in his jurisdiction, such subpoenas shall be accompanied by a transmittal sheet. The transmittal sheet, which may be in the form of a letter, shall contain for each subpoena (i) the person to be served, (ii) the name of the city or county in which the subpoena is to be served, in parentheses, (iii) the style of the case in which the subpoena was issued, (iv) the court in which the case is pending, and (v) the amount of fees tendered or paid to each clerk in whose court the case is pending together with a photocopy of either (a) the payment instrument and a photocopy of the letter sent to the clerk's office that accompanied such payment instrument or (b) the clerk's receipt. If copies of the same transmittal sheet are used to send subpoenas to more than one sheriff for service of process, then subpoenas shall be grouped by the jurisdiction in which they are to be served. For each person to be served, an original subpoena and copy thereof shall be included. If the attorney desires a return copy of the transmittal sheet as proof of receipt, he shall also enclose an additional copy of the transmittal sheet together with an envelope addressed to the attorney with sufficient first class postage affixed. Upon receipt of such transmittal, the transmittal sheet shall be date-stamped and, if the extra copy and above-described envelope are provided, the copy shall also be date-stamped and returned to the attorney-at-law in the above-described envelope.

However, when such transmittal does not comply with the provisions of this section, the sheriff may promptly return such transmittal if accompanied by a short description of such noncompliance. An attorney may not issue a summons in any of the following civil proceedings: ~~(a)~~ *(1)* habeas corpus under Article 3 (§ 8.01-654 et seq.) of Chapter 25 ~~of this title~~, ~~(b)~~ *(2)* delinquency or abuse and neglect proceedings under Article 3 (§ 16.1-241 et seq.) of Chapter 11 of Title 16.1, ~~(c)~~ *(3)* civil forfeiture proceedings, ~~(d)~~ *(4)* administrative license suspension pursuant to § 46.2-391.2, and ~~(e)~~ *(5)* petition for writs of mandamus or prohibition in connection with criminal proceedings. A sheriff shall not be required to serve an attorney-issued subpoena that is not issued at least five business days prior to the date that attendance is desired.

In other cases, if attendance is desired, the summons may be issued by the clerk of the circuit court of the county or city in which the attendance is desired.

A summons shall express on whose behalf, and in what case or about what matter, the witness is to attend. Failure to respond to any such summons shall be punishable by the court in which the proceeding is pending as for contempt. When any subpoena is served less than five calendar days before appearance is required, the court may, after considering all of the circumstances, refuse to enforce the subpoena for lack of adequate notice. If any subpoena is served less than five calendar days before appearance is required upon any judicial officer generally incompetent to testify pursuant to § 19.2-271, such subpoena shall be without legal force or effect unless the subpoena has been issued by a judge.

Following the issuance of an attorney-issued subpoena, the person to whom such subpoena is directed may be released from compliance with such subpoena by any attorney for the party on whose behalf the subpoena was issued, or a person acting on behalf of such attorney, provided that, in civil cases only, notwithstanding § 19.2-267, such release be in writing and served concurrently on all other parties, or, if any such party is represented by counsel, on the attorney of record, by electronic mail, notwithstanding the requirements of Rule 1:12 of the Rules of Supreme Court of Virginia. A copy of such written release shall also be sent to the clerk of the court via fax or, if available, through the clerk's electronic filing system. For purposes of this paragraph, (A) a release transmitted by electronic mail to the person to whom such subpoena was directed qualifies as a written release from such subpoena and (B) a copy of such written release shall be served contemporaneously on all other parties by electronic mail.

B. No subpoena shall, without permission of the court first obtained, issue for the attendance of the Governor, Lieutenant Governor, or Attorney General of this Commonwealth, a judge of any court thereof; the President or Vice President of the United States; any member of the President's Cabinet; any ambassador or consul; or any military officer on active duty holding the rank of admiral or general.

§ 16.1-265. Subpoena; attorney-issued subpoena.

Upon application of a party and pursuant to the ~~rules~~ *Rules* of ~~the~~ Supreme Court of Virginia for the issuance of subpoenas, the clerk of the court shall issue, and the court on its own motion may issue, subpoenas requiring attendance and testimony of witnesses and production of records, documents, or other tangible objects at any hearing.

Subpoenas duces tecum for medical records shall be subject to the provisions of §§ 8.01-413 and 32.1-127.1:03 except that no separate fee shall be imposed. A subpoena may also be issued in a civil proceeding by an attorney-at-law who is an active member of the Virginia State Bar at the time of issuance, as an officer of the court. Any such subpoena shall be on a form approved by the Committee on District Courts, signed by the attorney as if a pleading, and shall include the attorney's address. A copy, together with the attorney's certificate of service pursuant to Rule 1:12, shall be mailed or delivered to the clerk's office of the court in which the case is pending on the day of issuance by the attorney. The law governing subpoenas issued by a clerk shall apply mutatis mutandis, except that attorneys may not issue subpoenas in those cases in which they may not issue a summons as provided in § 8.01-407. When an attorney-at-law transmits one or more subpoenas or subpoenas duces tecum to a sheriff to be served in his jurisdiction, the provisions in § 8.01-407 regarding such transmittals shall apply. A sheriff shall not be required to serve an attorney-issued subpoena that is not issued at least five business days prior to the date production of evidence is required.

If the time for compliance with a subpoena issued by an attorney is less than 14 days after service of the subpoena, the person to whom it is directed may serve upon the party issuing the subpoena a written objection setting forth any grounds therefor. and to provide for the remedies of the Fund in the event of any default in the payment of the loan, including, without limitation, any of the following:

1. The procurement of insurance, guarantees, letters of credit and other forms of collateral, security, liquidity arrangements or credit supports for the loan from any source, public or private, and the payment therefor of premiums, fees or other charges;

CHAPTER 100

An Act to amend and reenact §§ 40.1-49.4 and 54.1-201 of the Code of Virginia, relating to Department of Labor and Industry; Department of Professional and Occupational Regulation; notice of disciplinary action; method of delivery to allow for confirmation of delivery.

[H 2179]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 40.1-49.4 and 54.1-201 of the Code of Virginia are amended and reenacted as follows:

§ 40.1-49.4. Enforcement of this title and standards, rules or regulations for safety and health; orders of Commissioner; proceedings in circuit court; injunctions; penalties.

A. 1. If the Commissioner has reasonable cause to believe that an employer has violated any safety or health provision of Title 40.1 or any standard, rule or regulation adopted pursuant thereto, he shall with reasonable promptness issue a citation to the employer. Each citation shall be in writing and shall describe with particularity the nature of the violation or violations, including a reference to the provision of this title or the appropriate standards, rules or regulations adopted pursuant thereto, and shall include an order of abatement fixing a reasonable time for abatement of each violation.

2. The Commissioner may prescribe procedures for calling to the employer's attention de minimis violations which have no direct or immediate relationship to safety and health.

3. No citation may be issued under this section after the expiration of six months following the occurrence of any alleged violation.

4. (a) The Commissioner shall have the authority to propose civil penalties for cited violations in accordance with subsections G, H, I, and J ~~of this section~~. In determining the amount of any proposed penalty he shall give due consideration to the appropriateness of the penalty with respect to the size of the business of the employer being charged, the gravity of the violation, the good faith of the employer, and the history of previous violations. In addition, the Commissioner shall have authority to assess interest on all past-due penalties and administrative costs incurred in the collection of penalties for such violations consistent with § 2.2-4805.

(b) After, or concurrent with, the issuance of a citation and order of abatement, and within a reasonable time after the termination of an inspection or investigation, the Commissioner shall notify the employer by certified mail*, by commercial delivery service with signed and dated acknowledgment of delivery,* or by personal service of the proposed penalty or that no penalty is being proposed. The proposed penalty shall be deemed to be the final order of the Commissioner and not subject to review by any court or agency unless, within 15 working days from the date of receipt of such notice, the employer notifies the Commissioner in writing that he intends to contest the citation, order of abatement or the proposed penalty or the employee or representative of employees has filed a notice in accordance with subsection B of this section and any such notice of proposed penalty, citation or order of abatement shall so state.

B. Any employee or representative of employees of an employer to whom a citation and order of abatement has been issued may, within 15 working days from the time of the receipt of the citation and order of abatement by the employer, notify the Commissioner, in writing, that they wish to contest the abatement time before the circuit court.

C. If the Commissioner has reasonable cause to believe that an employer has failed to abate a violation for which a citation has been issued within the time period permitted for its abatement, which time shall not begin to run until the entry of a final order in the case of any contest as provided in subsection E of this section initiated by the employer in good faith and not solely for delay or avoidance of penalties, a citation for failure to abate will be issued to the employer in the same manner as prescribed by subsection A ~~of this section~~. In addition, the Commissioner shall notify the employer by certified mail*, by commercial delivery service with signed and dated acknowledgment of delivery,* or by personal service of such failure and of the penalty proposed to be assessed by reason of such failure. If, within 15 working days from the date of receipt of the notice of the proposed penalty, the employer fails to notify the Commissioner that he intends to contest the citation or proposed assessment of penalty, the citation and assessment as proposed shall be deemed a final order of the Commissioner and not subject to review by any court or agency.

D. Civil penalties owed under this section shall be paid to the Commissioner for deposit into the general fund of the Treasurer of the Commonwealth. The Commissioner shall prescribe procedures for the payment of proposed assessments of penalties which are not contested by employers. Such procedures shall include provisions for an employer to consent to abatement of the alleged violation and pay a proposed penalty or a negotiated sum in lieu of such penalty without admission of any civil liability arising from such alleged violation.

Final orders of the Commissioner or the circuit courts may be recorded, enforced and satisfied as orders or decrees of a circuit court upon certification of such orders by the Commissioner or the court as appropriate.

E. Upon receipt of a notice of contest of a citation, proposed penalty, order of abatement or abatement time pursuant to subdivision A 4 (b)~~,~~ *or* subsection B or C ~~of this section~~, the Commissioner shall immediately notify the attorney for the Commonwealth for the jurisdiction wherein the violation is alleged to have occurred and shall file a civil action with the circuit court. Upon issuance and service of process, the circuit court shall promptly set the matter for hearing without a jury. The circuit court shall thereafter issue a written order, based on findings of fact and conclusions of law, affirming, modifying or vacating the Commissioner's citation or proposed penalty, or directing other appropriate relief, and such order shall become final 21 days after its issuance. The circuit court shall provide affected employees or their representatives and employers an opportunity to participate as parties to hearings under this subsection.

F. 1. In addition to the remedies set forth above, the Commissioner may file a civil action with the clerk of the circuit court having equity jurisdiction over the employer or the place of employment involved asking the court to temporarily or permanently enjoin any conditions or practices in any place of employment which are such that a danger exists which could reasonably be expected to cause death or serious physical harm immediately or before the imminence of such danger can be eliminated through the enforcement procedures otherwise provided by this title. Any order issued under this section may require such steps to be taken as may be necessary to avoid, correct or remove such imminent danger and prohibit the employment or presence of any individual in locations or under conditions where such imminent danger exists, except individuals whose presence is necessary to avoid, correct or remove such imminent danger or to maintain the capacity of a

continuous process operation to resume normal operations without a complete cessation of operations, or where a cessation of operations is necessary, to permit such to be accomplished in a safe and orderly manner. No order issued without prior notice to the employer shall be effective for more than five working days. Whenever and as soon as the Commissioner concludes that conditions or practices described in this subsection exist in any place of employment and that judicial relief shall be sought, he shall immediately inform the affected employer and employees of such proposed course of action.

2. Any court described in this section shall also have jurisdiction, upon petition of the Commissioner or his authorized representative, to enjoin any violations of this title or the standards, rules or regulations promulgated thereunder.

3. If the Commissioner arbitrarily or capriciously fails to seek relief under subdivision 1 of this subsection, any employee who may be injured by reason of such failure, or the representative of such employee, may bring an action against the Commissioner in a circuit court of competent jurisdiction for a writ of mandamus to compel the Commissioner to seek such an order and for such further relief as may be appropriate.

G. Any employer who has received a citation for a violation of any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto and such violation is specifically determined not to be of a serious nature may be assessed a civil penalty of up to $12,471, as such amount may be adjusted as provided in subsection P, for each such violation.

H. Any employer who has received a citation for a violation of any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto and such violation is determined to be a serious violation shall be assessed a civil penalty of up to $12,471, as such amount may be adjusted as provided in subsection P, for each such violation.

I. Any employer who fails to abate a violation for which a citation has been issued within the period permitted for its abatement (which period shall not begin to run until the entry of the final order of the circuit court) may be assessed a civil penalty of not more than $12,471, as such amount may be adjusted as provided in subsection P, for each day during which such violation continues.

J. Any employer who willfully or repeatedly violates any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto may be assessed a civil penalty of not more than $124,709, as such amount may be adjusted as provided in subsection P, for each such violation.

K. Any employer who willfully violates any safety or health provisions of this title or standards, rules or regulations adopted pursuant thereto, and that violation causes death to any employee, shall, upon conviction, be punished by a fine of not more than $70,000 or by imprisonment for not more than six months, or by both such fine and imprisonment. If the conviction is for a violation committed after a first conviction of such person, punishment shall be a fine of not more than $140,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

5. To promulgate regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) necessary to assure continued competency, to prevent deceptive or misleading practices by practitioners and to effectively administer the

If the regulant asserts his right to be heard prior to the board issuing its case decision, the board shall remand the case to an informal fact-finding conference. The notice required by this subdivision shall be sent ~~by certified mail, return receipt requested~~ *in a manner that allows for confirmation of delivery* or, if agreed to by the parties, *through* electronic means, provided that the board retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery.

CHAPTER 101

An Act to amend and reenact §§ 40.1-49.4 and 54.1-201 of the Code of Virginia, relating to Department of Labor and Industry; Department of Professional and Occupational Regulation; notice of disciplinary action; method of delivery to allow for confirmation of delivery.

[S 1126]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That §§ 40.1-49.4 and 54.1-201 of the Code of Virginia are amended and reenacted as follows:

§ 40.1-49.4. Enforcement of this title and standards, rules or regulations for safety and health; orders of Commissioner; proceedings in circuit court; injunctions; penalties.

A. 1. If the Commissioner has reasonable cause to believe that an employer has violated any safety or health provision of Title 40.1 or any standard, rule or regulation adopted pursuant thereto, he shall with reasonable promptness issue a citation to the employer. Each citation shall be in writing and shall describe with particularity the nature of the violation or violations, including a reference to the provision of this title or the appropriate standards, rules or regulations adopted pursuant thereto, and shall include an order of abatement fixing a reasonable time for abatement of each violation.

2. The Commissioner may prescribe procedures for calling to the employer's attention de minimis violations which have no direct or immediate relationship to safety and health.

3. No citation may be issued under this section after the expiration of six months following the occurrence of any alleged violation.

4. (a) The Commissioner shall have the authority to propose civil penalties for cited violations in accordance with subsections G, H, I, and J ~~of this section~~. In determining the amount of any proposed penalty he shall give due consideration to the appropriateness of the penalty with respect to the size of the business of the employer being charged, the gravity of the violation, the good faith of the employer, and the history of previous violations. In addition, the Commissioner shall have authority to assess interest on all past-due penalties and administrative costs incurred in the collection of penalties for such violations consistent with § 2.2-4805.

(b) After, or concurrent with, the issuance of a citation and order of abatement, and within a reasonable time after the termination of an inspection or investigation, the Commissioner shall notify the employer by certified mail*, by commercial delivery service with signed and dated acknowledgment of delivery,* or by personal service of the proposed penalty or that no penalty is being proposed. The proposed penalty shall be deemed to be the final order of the Commissioner and not subject to review by any court or agency unless, within 15 working days from the date of receipt of such notice, the employer notifies the Commissioner in writing that he intends to contest the citation, order of abatement or the proposed penalty or

the employee or representative of employees has filed a notice in accordance with subsection B of this section and any such notice of proposed penalty, citation or order of abatement shall so state.

B. Any employee or representative of employees of an employer to whom a citation and order of abatement has been issued may, within 15 working days from the time of the receipt of the citation and order of abatement by the employer, notify the Commissioner, in writing, that they wish to contest the abatement time before the circuit court.

C. If the Commissioner has reasonable cause to believe that an employer has failed to abate a violation for which a citation has been issued within the time period permitted for its abatement, which time shall not begin to run until the entry of a final order in the case of any contest as provided in subsection E of this section initiated by the employer in good faith and not solely for delay or avoidance of penalties, a citation for failure to abate will be issued to the employer in the same manner as prescribed by subsection A ~~of this section~~. In addition, the Commissioner shall notify the employer by certified mail*, by commercial delivery service with signed and dated acknowledgment of delivery,* or by personal service of such failure and of the penalty proposed to be assessed by reason of such failure. If, within 15 working days from the date of receipt of the notice of the proposed penalty, the employer fails to notify the Commissioner that he intends to contest the citation or proposed assessment of penalty, the citation and assessment as proposed shall be deemed a final order of the Commissioner and not subject to review by any court or agency.

D. Civil penalties owed under this section shall be paid to the Commissioner for deposit into the general fund of the Treasurer of the Commonwealth. The Commissioner shall prescribe procedures for the payment of proposed assessments of penalties which are not contested by employers. Such procedures shall include provisions for an employer to consent to abatement of the alleged violation and pay a proposed penalty or a negotiated sum in lieu of such penalty without admission of any civil liability arising from such alleged violation.

Final orders of the Commissioner or the circuit courts may be recorded, enforced and satisfied as orders or decrees of a circuit court upon certification of such orders by the Commissioner or the court as appropriate.

E. Upon receipt of a notice of contest of a citation, proposed penalty, order of abatement or abatement time pursuant to subdivision A 4 (b)~~,~~ *or* subsection B or C ~~of this section~~, the Commissioner shall immediately notify the attorney for the Commonwealth for the jurisdiction wherein the violation is alleged to have occurred and shall file a civil action with the circuit court. Upon issuance and service of process, the circuit court shall promptly set the matter for hearing without a jury. The circuit court shall thereafter issue a written order, based on findings of fact and conclusions of law, affirming, modifying or vacating the Commissioner's citation or proposed penalty, or directing other appropriate relief, and such order shall become final 21 days after its issuance. The circuit court shall provide affected employees or their representatives and employers an opportunity to participate as parties to hearings under this subsection.

F. 1. In addition to the remedies set forth above, the Commissioner may file a civil action with the clerk of the circuit court having equity jurisdiction over the employer or the place of employment involved asking the court to temporarily or permanently enjoin any conditions or practices in any place of employment which are such that a danger exists which could reasonably be expected to cause death or serious physical harm immediately or before the imminence of such danger can be eliminated through the enforcement procedures otherwise provided by this title. Any order issued under this section may require such steps to be taken as may be necessary to avoid, correct or remove such imminent danger and prohibit the employment or presence of any individual in locations or under conditions where such imminent danger exists, except individuals whose presence is necessary to avoid, correct or remove such imminent danger or to maintain the capacity of a continuous process operation to resume normal operations without a complete cessation of operations, or where a cessation of operations is necessary, to permit such to be accomplished in a safe and orderly manner. No order issued without prior notice to the employer shall be effective for more than five working days. Whenever and as soon as the Commissioner concludes that conditions or practices described in this subsection exist in any place of employment and that judicial relief shall be sought, he shall immediately inform the affected employer and employees of such proposed course of action.

2. Any court described in this section shall also have jurisdiction, upon petition of the Commissioner or his authorized representative, to enjoin any violations of this title or the standards, rules or regulations promulgated thereunder.

3. If the Commissioner arbitrarily or capriciously fails to seek relief under subdivision 1 of this subsection, any employee who may be injured by reason of such failure, or the representative of such employee, may bring an action against the Commissioner in a circuit court of competent jurisdiction for a writ of mandamus to compel the Commissioner to seek such an order and for such further relief as may be appropriate.

G. Any employer who has received a citation for a violation of any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto and such violation is specifically determined not to be of a serious nature may be assessed a civil penalty of up to $12,471, as such amount may be adjusted as provided in subsection P, for each such violation.

H. Any employer who has received a citation for a violation of any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto and such violation is determined to be a serious violation shall be assessed a civil penalty of up to $12,471, as such amount may be adjusted as provided in subsection P, for each such violation.

I. Any employer who fails to abate a violation for which a citation has been issued within the period permitted for its abatement (which period shall not begin to run until the entry of the final order of the circuit court) may be assessed a civil penalty of not more than $12,471, as such amount may be adjusted as provided in subsection P, for each day during which such violation continues.

J. Any employer who willfully or repeatedly violates any safety or health provision of this title or any standard, rule or regulation promulgated pursuant thereto may be assessed a civil penalty of not more than $124,709, as such amount may be adjusted as provided in subsection P, for each such violation.

K. Any employer who willfully violates any safety or health provisions of this title or standards, rules or regulations adopted pursuant thereto, and that violation causes death to any employee, shall, upon conviction, be punished by a fine of not more than $70,000 or by imprisonment for not more than six months, or by both such fine and imprisonment. If the conviction is for a violation committed after a first conviction of such person, punishment shall be a fine of not more than $140,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

L. In any proceeding before a judge of a circuit court parties may obtain discovery by the methods provided for in the Rules of Supreme Court of Virginia.

M. No fees or costs shall be charged the Commonwealth by a court or any officer for or in connection with the filing of the complaint, pleadings, or other papers in any action authorized by this section or § 40.1-49.5.

N. Every official act of the circuit court shall be entered of record and all hearings and records shall be open to the public, except any information subject to protection under the provisions of § 40.1-51.4:1.

O. The provisions of Chapter 30 (§ 59.1-406 et seq.) of Title 59.1 shall be considered safety and health standards of the Commonwealth and enforced as to employers pursuant to this section by the Commissioner of Labor and Industry.

P. Beginning in 2018, the Commissioner annually shall adjust the maximum civil penalties stated in subsections G through J each year by the percentage increase, if any, in the United States Average Consumer Price Index for all Urban Consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, from its monthly average for the previous calendar year. The amount of each adjustment to the maximum civil penalties shall be rounded to the nearest whole dollar. The adjustments to the maximum civil penalties shall be effective on each August 1. If the CPI-U is discontinued or revised, such other historical index or computation approved by the Commissioner shall be used for purposes of this section that would obtain substantially the same result as would have been obtained if the CPI-U had not been discontinued or revised.

§ 54.1-201. Powers and duties of regulatory boards.

A. The powers and duties of regulatory boards shall be as follows:

1. To establish the qualifications of applicants for certification or licensure by any such board, provided that all qualifications shall be necessary to ensure either competence or integrity to engage in such profession or occupation.

2. To examine, or cause to be examined, the qualifications of each applicant for certification or licensure within its particular regulatory system, including when necessary the preparation, administration and grading of examinations.

3. To certify or license qualified applicants as practitioners of the particular profession or occupation regulated by such board.

4. To levy and collect fees for certification or licensure and renewal that are sufficient to cover all expenses for the administration and operation of the regulatory board and a proportionate share of the expenses of the Department of Professional and Occupational Regulation and the Board for Professional and Occupational Regulation.

5. To promulgate regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) necessary to assure continued competency, to prevent deceptive or misleading practices by practitioners and to effectively administer the regulatory system administered by the regulatory board. The regulations shall not be in conflict with the purposes and intent of this chapter or of Chapters 1 (§ 54.1-100 et seq.) and 3 (§ 54.1-300 et seq.) of this title.

6. To ensure that inspections are conducted relating to the practice of each practitioner certified or licensed by the regulatory board to ensure that the practitioner is conducting his practice in a competent manner and within the lawful regulations promulgated by the board.

7. To place a regulant on probation or revoke, suspend or fail to renew a certificate or license for just causes as enumerated in regulations of the board. Conditions of probation may include, but not be limited to the successful completion of remedial education or examination.

8. To receive complaints concerning the conduct of any regulant and to take appropriate disciplinary action if warranted.

9. To provide a regulant subject to a disciplinary action with a notice advising the regulant of his right to be heard at an informal fact-finding conference pursuant to § 2.2-4019 of the Administrative Process Act. The notice shall state that if the regulant does not request an informal fact-finding conference within 30 days of receipt of the notice, the board may issue a case decision as defined in § 2.2-4001, with judicial review of the case decision in accordance with § 2.2-4026. If the regulant asserts his right to be heard prior to the board issuing its case decision, the board shall remand the case to an informal fact-finding conference. The notice required by this subdivision shall be sent ~~by certified mail, return receipt requested~~ *in a manner that allows for confirmation of delivery* or, if agreed to by the parties, *through* electronic means, provided that the board retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery.

10. To promulgate canons of ethics under which the professional activities of regulants shall be conducted.

B. A regulant shall furnish, upon the request of a person to whom the regulant is providing or offering to provide service, satisfactory proof that the regulant (i) is duly licensed, certified, or registered under this subtitle and (ii) has obtained any required bond or insurance to engage in his profession or occupation.

Any party who disputes such subpoena may file a motion to quash any subpoena issued pursuant to this section prior to the date production is required in a miscellaneous action in a circuit court for which such motion shall be given priority on the docket.*

B. The Commission shall prepare an annual balance sheet of the moneys in the fund and in the Unemployment Trust Fund to the credit of the Commonwealth in which there shall be provided, if possible, a reserve against the liability in future years to pay benefits in excess of the then-current taxes. That reserve shall be set up by the Commission in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the Commission believes that a change in tax or benefit rates is necessary to protect the solvency of the Fund, it shall promptly so inform the Governor and the General Assembly and make recommendations with respect thereto.

C. In preparing the annual balance sheet required by subsection B, the Commission shall regularly track metrics related to unemployment insurance benefits, establish a mechanism to help assess the adequacy of benefits, and examine metrics related to recipiency, average benefit levels, and benefit income replacement ratios. The Resiliency Plan shall include proposed actions consistent with the following objectives to effectively prepare for periods of high unemployment:

1. Develop specific strategies or steps the Commission will take to modify staffing levels in response to incidents that increase UI program demand. These strategies or steps shall (i) include a staffing plan for varying levels of UI workload volume, (ii) cover several scenarios that may affect UI assistance services, (iii) explain how existing staff would be reallocated to high-priority functions in response to high demand, and (iv) describe how the Commission's hiring process will be streamlined to fill key vacant positions such as adjudication and appeals staff.

2. Develop specific strategies or steps the Commission will take to modify policies, procedures, or processes in response to high demands on its services.

3. Outline a strategy for clearly communicating key UI program changes to customers. This strategy shall indicate which staff will be responsible for different types of communications and include several communications goals, such as clearly conveying UI program and policy changes.

4. Outline a strategy for clearly communicating important UI information to Commission staff, the public, and the General Assembly.

5. Formalize a policy for prioritizing and assigning claims for adjudication during periods of high claims volume. This policy shall detail how prioritization may change in response to claims volume and state that the policy of the Commission is to generally prioritize resolving older claims before newer claims.

6. Identify other tactical actions to be taken to ensure the continuity of UI claims processing and customer service.

A law-enforcement officer shall make reasonable efforts to locate a judge before seeking authorization to execute the warrant at another time, unless circumstances require the issuance of the warrant after 5:00 p.m., pursuant to the provisions of this subsection, in which case the law-enforcement officer may seek such authorization from a magistrate without first making reasonable efforts to locate a judge. Such reasonable efforts shall be documented in an affidavit and submitted to a magistrate when seeking such authorization.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed $5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose;

For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms

of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

4. Require any managed care organization with which the Department enters into an agreement for the provision of medical assistance services to include in any contract between the managed care organization and a pharmacy benefits manager provisions prohibiting the pharmacy benefits manager or a representative of the pharmacy benefits manager from conducting spread pricing with regards to the managed care organization's managed care plans. For the purposes of this subdivision:

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. When the services provided for by such plan are services related to initiation of treatment with or dispensing or administration of a vaccination by a pharmacist, pharmacy technician, or pharmacy intern in accordance with § 54.1-3303.1, the Department shall provide reimbursement for such service.

§ 32.1-325. (Effective pursuant to Va. Const., Art. IV, § 13) Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of $3,500 for the individual and an amount not in excess of $3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed $5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

10. A provision for breast reconstructive surgery following the medically necessary removal of a breast for any medical reason. Breast reductions shall be covered, if prior authorization has been obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

11. A provision for payment of medical assistance for annual pap smears;

12. A provision for payment of medical assistance services for prostheses following the medically necessary complete or partial removal of a breast for any medical reason;

13. A provision for payment of medical assistance which provides for payment for 48 hours of inpatient treatment for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of disease or trauma of the breast. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. For the purpose of this subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate specific antigen;

The term "mammogram" means an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast;

17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

20. A provision for payment of medical assistance for custom ocular prostheses;

21. A provision for payment for medical assistance for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such provision shall include payment for medical assistance for follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss;

22. A provision for payment of medical assistance, pursuant to the Breast and Cervical Cancer Prevention and Treatment Act of 2000 (P.L. 106-354), for certain women with breast or cervical cancer when such women (i) have been screened for breast or cervical cancer under the Centers for Disease Control and Prevention (CDC) Breast and Cervical Cancer Early Detection Program established under Title XV of the Public Health Service Act; (ii) need treatment for breast or cervical cancer, including treatment for a precancerous condition of the breast or cervix; (iii) are not otherwise covered under creditable coverage, as defined in § 2701 (c) of the Public Health Service Act; (iv) are not otherwise eligible for medical assistance services under any mandatory categorically needy eligibility group; and (v) have not attained age 65. A single application form shall be used to determine eligibility for both programs;

24. A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established

through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

26. A provision for the payment of medical assistance for medically necessary health care services provided through telemedicine services, as defined in § 38.2-3418.16, regardless of the originating site or whether the patient is accompanied by a health care provider at the time such services are provided. No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, a health care provider duly licensed by the Commonwealth who provides health care services exclusively through telemedicine services shall not be required to maintain a physical presence in the Commonwealth to be considered an eligible provider for enrollment as a Medicaid provider.

For the purposes of this subdivision, a telemedicine services provider group with health care providers duly licensed by the Commonwealth shall not be required to have an in-state service address to be eligible to enroll as a Medicaid vendor or Medicaid provider group.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

27. A provision for the payment of medical assistance for the dispensing or furnishing of up to a 12-month supply of hormonal contraceptives at one time. Absent clinical contraindications, the Department shall not impose any utilization controls or other forms of medical management limiting the supply of hormonal contraceptives that may be dispensed or furnished to an amount less than a 12-month supply. Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose;

For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. "Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload;

29. A provision for the payment of medical assistance for provider-to-provider consultations that is no more restrictive than, and is at least equal in amount, duration, and scope to, that available through the fee-for-service program;

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq., Enforcement of Compliance for Long-Term Care Facilities With Deficiencies.

6. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall

promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

4. Require any managed care organization with which the Department enters into an agreement for the provision of medical assistance services to include in any contract between the managed care organization and a pharmacy benefits manager provisions prohibiting the pharmacy benefits manager or a representative of the pharmacy benefits manager from conducting spread pricing with regards to the managed care organization's managed care plans. For the purposes of this subdivision:

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. When the services provided for by such plan are services related to initiation of treatment with or dispensing or administration of a vaccination by a pharmacist, pharmacy technician, or pharmacy intern in accordance with § 54.1-3303.1, the Department shall provide reimbursement for such service.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

A single application form shall be used to determine eligibility for both programs;

24. A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, a health care provider duly licensed by the Commonwealth who provides health care services exclusively through telemedicine services shall not be required to maintain a physical presence in the Commonwealth to be considered an eligible provider for enrollment as a Medicaid provider.

For the purposes of this subdivision, a telemedicine services provider group with health care providers duly licensed by the Commonwealth shall not be required to have an in-state service address to be eligible to enroll as a Medicaid vendor or Medicaid provider group.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

Nothing in this subdivision shall be construed to (i) require a provider

to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose;

For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. "Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload;

29. A provision for the payment of medical assistance for provider-to-provider consultations that is no more restrictive than, and is at least equal in amount, duration, and scope to, that available through the fee-for-service program;

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq., Enforcement of Compliance for Long-Term Care Facilities With Deficiencies.

6. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

Require any managed care organization with which the Department enters into an agreement for the provision of medical assistance services to include in any contract between the managed care organization and a pharmacy benefits manager provisions prohibiting the pharmacy benefits manager or a representative of the pharmacy benefits manager from conducting spread pricing with regards to the managed care organization's managed care plans. For the purposes of this subdivision:

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. When the services provided for by such plan are services related to initiation of treatment with or dispensing or administration of a vaccination by a pharmacist, pharmacy technician, or pharmacy intern in accordance with § 54.1-3303.1, the Department shall provide reimbursement for such service.

§ 20-106. Testimony may be required to be given orally; evidence by affidavit.

A. In any suit for divorce, the trial court may require the whole or any part of the testimony to be given orally in open court, and if either party desires it, such testimony and the rulings of the court on the exceptions thereto, if any, shall be reduced to writing, and the judge shall certify that such evidence was given before him and such rulings made. When so certified the same shall stand on the same footing as a deposition regularly taken in the cause, provided, however, that no such oral evidence shall be given or heard unless and until after such notice to the adverse party as is required by law to be given of the taking of depositions, or when there has been no service of process within the Commonwealth upon, or appearance by the defendant against whom such testimony is sought to be introduced. However, a party may proceed to take evidence in support of a divorce by deposition or affidavit without leave of court only in support of a divorce on the grounds set forth in subdivision A (9) of § 20-91, where (i) the parties have resolved all issues by a written settlement agreement, (ii) there are no issues other than the grounds of the divorce itself to be adjudicated, or (iii) the adverse party has been personally served with the complaint and has failed to file a responsive pleading or to make an appearance as required by law.

B. The affidavit of a party submitted as evidence shall be based on the personal knowledge of the affiant, contain only facts that would be admissible in court, give factual support to the grounds for divorce stated in the complaint or counterclaim, and establish that the affiant is competent to testify to the contents of the affidavit. If either party is incarcerated, neither party shall submit evidence by affidavit without leave of court or the consent in writing of the guardian ad litem for the incarcerated party, or of the incarcerated party if a guardian ad litem is not required pursuant to § 8.01-9. The affidavit shall:

1. Give factual support to the grounds for divorce stated in the complaint or counterclaim, including that the parties are over the age of 18 and not suffering from any condition that renders either party legally incompetent;

2. Verify whether either party is incarcerated;

3. Verify the military status of the opposing party and advise whether the opposing party has filed an answer or a waiver of his rights under the federal Servicemembers Civil Relief Act (50 U.S.C. § 3901 et seq.);

4. Affirm that at least one party to the suit was at the time of the filing of the suit, and had been for a period in excess of six months immediately preceding the filing of the suit, a bona fide resident and domiciliary of the Commonwealth;

5. Affirm that the parties have lived separate and apart, continuously, without interruption and without cohabitation, and with the intent to remain separate and apart permanently, for the statutory period required by subdivision A (9) of § 20-91;

6. Affirm the affiant's desire to be awarded a divorce pursuant to subdivision A (9) of § 20-91; and

7. State whether there were ~~children born or adopted of the marriage~~ *minor children either born of the parties, born of either party and adopted by the other, or adopted by both parties,* and affirm that neither party is known to be pregnant from the marriage.

C. If a party moves for a divorce pursuant to § 20-121.02, an affidavit may be submitted in support of the grounds for divorce set forth in subdivision A (9) of § 20-91.

D. A verified complaint shall not be deemed an affidavit for purposes of this section.

E. Either party may submit the deposition or affidavit required by this section in support of the grounds for divorce requested by either party pursuant to the terms of this section.

F. In contemplation of or in a suit for a no-fault divorce under subdivision A (9) of § 20-91, the plaintiff or his attorney may take and file, as applicable, the complaint, the affidavit or deposition, any other associated documents, and the

proposed decree contemporaneously, and a divorce may be granted solely on those documents where the defendant has waived service and, where applicable, notice.

The Board of Pharmacy shall not charge a fee for the issuance of such controlled substance registration. The dispensing may occur at a site other than that of the controlled substance registration provided the entity possessing the controlled substances registration maintains records in accordance with regulations of the Board of Pharmacy. Z. A person who is not otherwise authorized to administer naloxone or other opioid antagonist used for overdose reversal may administer naloxone or other opioid antagonist used for overdose reversal to a person who is believed to be experiencing or about to experience a life-threatening opioid overdose.

[H 1577]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 3.2-6522 of the Code of Virginia is amended and reenacted as follows:

§ 3.2-6522. Rabid animals.

A. When there is sufficient reason to believe that the risk of exposure to rabies is elevated, the governing body of any locality may enact, and the local health director may recommend, an emergency ordinance that shall become effective immediately upon passage, requiring owners of all dogs and cats therein to keep the same confined on their premises unless leashed under restraint of the owner in such a manner that persons or animals will not be subject to the danger of being bitten by a rabid animal. Any such emergency ordinance enacted pursuant to the provisions of this section shall be operative for a period not to exceed 30 days unless renewed by the governing body of such locality in consultation with the local health director. The governing body of any locality shall also have the power and authority to pass ordinances restricting the running at large in their respective jurisdiction of dogs and cats that have not been inoculated or vaccinated against rabies and to provide penalties for the violation thereof.

B. Any dog or cat showing active signs of rabies or suspected of having rabies that is not known to have exposed a person, companion animal, or livestock to rabies shall be confined under competent observation for such a time as may be necessary to determine a diagnosis. *The person confining such dog or cat shall allow the local health director or his designee access to the animal during such confinement.* If, in the discretion of the local health director, confinement is impossible or impracticable, such dog or cat shall be euthanized by one of the methods approved by the State Veterinarian as provided in § 3.2-6546. The disposition of other animals showing active signs of rabies shall be determined by the local health director and may include euthanasia and testing.

C. Every person having knowledge of the existence of an animal that is suspected to be rabid and that may have exposed a person, companion animal, or livestock to rabies shall report immediately to the local health department the existence of such animal, the place where seen, the owner's name, if known, and the signs suggesting rabies.

D. Any dog or cat for which no proof of current rabies vaccination is available and that may have been exposed to rabies through a bite, or through saliva or central nervous system tissue, in a fresh open wound or mucous membrane, by an animal suspected to be rabid shall be isolated in a public animal shelter, kennel, or enclosure approved by the local health department for a period not to exceed six months at the expense of the owner or custodian in a manner and by a date certain

as determined by the local health director. A rabies vaccination shall be administered by a licensed veterinarian prior to release. Inactivated rabies vaccine may be administered at the beginning of isolation. Any dog or cat so bitten, or exposed to rabies through saliva or central nervous system tissue, in a fresh open wound or mucous membrane with proof of current vaccination, shall be revaccinated by a licensed veterinarian immediately following the exposure and shall be confined to the premises of the owner or custodian, or other site as may be approved by the local health department at the expense of the owner or custodian, for a period of 45 days. If the local health director determines that isolation is not feasible or maintained, such dog or cat shall be euthanized by one of the methods approved by the State Veterinarian as provided in § 3.2-6546. The disposition of such dogs or cats not so confined shall be at the discretion of the local health director. *The local health director or his designee shall be granted access to any dog or cat during such isolation or confinement pursuant to this subsection.*

E. At the discretion of the local health director, any animal that may have exposed a person shall be confined under competent observation for 10 days at the expense of the owner or custodian, unless the animal develops active signs of rabies, expires, or is euthanized before that time. *The person confining the animal shall allow the local health director or his designee access to the animal during such confinement.* A seriously injured or sick animal may be euthanized as provided in § 3.2-6546. When determining whether a dog that has bitten a person shall be so confined, the health director shall weigh any proof that the dog has current certificates for both (i) rabies vaccination and (ii) special training for police work, military work, or work as a first responder.

F. When any suspected rabid animal, other than a dog or cat, exposes or may have exposed a person to rabies through a bite, or through saliva or central nervous system tissue, in a fresh open wound or mucous membrane, decisions regarding the disposition of that animal shall be at the discretion of a local health director and may include euthanasia as provided in § 3.2-6546, or as directed by the state agency with jurisdiction over that species. When any animal, other than a dog or cat, is exposed or may have been exposed to rabies through a bite, or through saliva or central nervous system tissue, in a fresh open wound or mucous membrane, by an animal suspected to be rabid, decisions regarding the disposition of that newly exposed animal shall be at the discretion of a local health director. *The local health director or his designee shall be granted access to any animal, other than a dog or cat, during any isolation or confinement of that animal, as may be directed by the local health director.*

G. When any animal may have exposed a person to rabies and subsequently expires due to illness or euthanasia, either within an observation period, where applicable, or as part of a public health investigation, its head or brain shall be sent to the Division of Consolidated Laboratory Services of the Department of General Services or be tested as directed by the local health department.

[H 1636]

Approved March 21, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-371.1 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-371.1. Abuse and neglect of children; penalty; abandoned infant.

A. Any parent, guardian, or other person responsible for the care of a child under the age of 18 who by willful act or willful omission or refusal to provide any necessary care for the child's health causes or permits serious injury to the life or health of such child is guilty of a Class 4 felony. For purposes of this subsection, "serious injury" includes but is not limited to (i) disfigurement, (ii) a fracture, (iii) a severe burn or laceration, (iv) mutilation, (v) maiming, (vi) forced ingestion of dangerous substances, and (vii) life-threatening internal injuries. For purposes of this subsection, "willful act or willful omission" includes operating or engaging in the conduct of a child welfare agency as defined in § 63.2-100 *or a child day program or family day system as defined in § 22.1-289.02* without first obtaining a license such person knows is required by Subtitle IV (§ 63.2-1700 et seq.) of Title 63.2 *or Article 3 (§ 22.1-289.010 et seq.) of Chapter 14.1 of Title 22.1* or after such license has been revoked or has expired and not been renewed.

B. 1. Any parent, guardian, or other person responsible for the care of a child under the age of 18 whose willful act or omission in the care of such child was so gross, wanton, and culpable as to show a reckless disregard for human life is guilty of a Class 6 felony.

2. If a prosecution under this subsection is based solely on the accused parent having left the child at a hospital or emergency medical services agency, it shall be an affirmative defense to prosecution of a parent under this subsection that such parent safely delivered the child within the first 30 days of the child's life to (i) a hospital that provides 24-hour emergency services, (ii) an attended emergency medical services agency that employs emergency medical services personnel, or (iii) a newborn safety device located at and operated by such hospital or emergency medical services agency. In order for the affirmative defense to apply, the child shall be delivered in a manner reasonably calculated to ensure the child's safety.

C. Any parent, guardian, or other person having care, custody, or control of a minor child who in good faith is under treatment solely by spiritual means through prayer in accordance with the tenets and practices of a recognized church or religious denomination shall not, for that reason alone, be considered in violation of this section.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 2 of the Acts of Assembly of 2022, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

There is hereby created in the state treasury a nonreverting fund to be known as the Governor's Agriculture and Forestry Industries Development Fund (the Fund) to be used by the Governor to attract new and expanding *aquaculture,* agriculture and forestry processing or value-added facilities using Virginia-grown products. The Fund shall consist of any funds appropriated to it by the general appropriation act and revenue from any other source, public or private. The Fund shall be established on the books of the Comptroller, and any funds remaining in the Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. § 3.2-304. Governor's Agriculture and Forestry Industries Development Fund established; purpose; use of funds.

A. There is hereby created in the state treasury a nonreverting fund to be known as the Governor's Agriculture and Forestry Industries Development Fund (the Fund) to be used by the Governor to attract new and expanding *aquaculture,* agriculture and forestry processing or value-added facilities using Virginia-grown products. The Fund shall consist of any funds appropriated to it by the general appropriation act and revenue from any other source, public or private. The Fund shall be established on the books of the Comptroller, and any funds remaining in the Fund at the end of a biennium shall not

revert to the general fund but shall remain in the Fund. Interest earned on the Fund shall be credited to the Fund. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller. The Governor shall report to the Chairmen of the House Committees on Appropriations and Finance and the Senate Committee on Finance and Appropriations as funds are awarded in accordance with this chapter.

B. Funds shall be awarded from the Fund by the Governor as grants or loans to political subdivisions. The criteria for making such grants or loans shall include (i) number of jobs expected to be created, (ii) anticipated amount of private capital investment, (iii) additional state tax revenue expected to accrue to the state and affected localities as a result of the capital investment and jobs created, (iv) anticipated amount of Virginia-grown agricultural and forestal products used by the project, (v) projected impact on agricultural and forestal producers, (vi) a return on investment analysis to determine the appropriate size of any grant or loan, and (vii) an analysis of the impact on competing businesses already located in the area.

C. Funds may be used for public and private utility extension or capacity development on and off site; public and private installation, extension, or capacity development of high-speed or broadband Internet access, whether on or off site; road, rail, or other transportation access costs beyond the funding capability of existing programs; site acquisition; grading, drainage, paving, and any other activity required to prepare a site for construction; construction or build-out of publicly or privately owned buildings; training; or grants or loans to an industrial development authority, housing and redevelopment authority, or other political subdivision for purposes directly relating to any of the foregoing. However, in no case shall funds from the Fund be used, directly or indirectly, to pay or guarantee the payment for any rental, lease, license, or other contractual right to the use of any property.

D. Funds may be used for grants to political subdivisions through the Agriculture and Forestry Industries Development Planning Grant Program pursuant to § 3.2-310.

E. Moneys in the Fund shall not be used for any economic development project in which a business relocates or expands its operations in one or more Virginia localities and simultaneously closes its operations or substantially reduces the number of its employees in another Virginia locality. The Secretary of Agriculture and Forestry shall enforce this policy and for any exception thereto shall promptly provide written notice to the Chairmen of the Senate Committee on Finance and Appropriations and the House Committee on Appropriations, which notice shall include a justification for any exception to such policy.

F. The Governor shall provide grants and commitments from the Fund in an amount not to exceed the dollar amount contained in the Fund. If the Governor commits funds for years beyond the fiscal years covered under the existing appropriation act, the State Treasurer shall set aside and reserve the funds the Governor has committed, and the funds shall remain in the Fund for those future fiscal years. No grant shall be payable in the years beyond the existing appropriation act unless the funds are currently available in the Fund.

Such guidelines shall (i) require that grants be awarded on a competitive basis, (ii) state the criteria the Governor will use in evaluating any grant application submitted pursuant to this section, and (iii) favor projects that create processing, flash freezing, and infrastructure capacity in proximity to small-scale blue catfish watermen.

D. The guidelines developed pursuant to subsection C may allow contributions to a project by certain specified entities, such as a nonprofit organization or charitable foundation.

D. Notwithstanding the provisions of subsection B, a provider may hire for compensated employment or permit any person under contract with the provider to serve in a direct care position or permit any person employed by a temporary agency that has entered into a contract with the provider to provide direct care services on behalf of the provider at adult substance abuse treatment facilities a person who has been convicted of not more than one offense under subsection C of § 18.2-57, or any substantially similar offense under the laws of another jurisdiction, if (i) the person has been granted a simple pardon if the offense was a felony committed in Virginia, or the equivalent if the person was convicted under the laws of another jurisdiction; (ii) more than 10 years have elapsed since the conviction; and (iii) the hiring provider determines, based upon a screening assessment, that the criminal behavior was substantially related to the applicant's substance abuse and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse history.

E. The hiring provider and a screening contractor designated by the Department shall screen applicants who meet the criteria set forth in subsections C and D to assess whether the applicants have been rehabilitated successfully and are not a risk to individuals receiving services based on their criminal history backgrounds and substance abuse or mental illness histories. To be eligible for such screening, the applicant shall have completed all prison or jail terms, shall not be under probation or parole supervision, shall have no pending charges in any locality, shall have paid all fines, restitution, and court costs for any prior convictions, and shall have been free of parole or probation for at least five years for all convictions. In addition to any supplementary information the provider or screening contractor may require or the applicant may wish to present, the applicant shall provide to the screening contractor a statement from his most recent probation or parole officer, if any, outlining his period of supervision and a copy of any pre-sentencing or post-sentencing report in connection with the felony conviction. The cost of this screening shall be paid by the applicant, unless the licensed provider decides to pay the cost.

F. Notwithstanding the provisions of subsection B, a provider may (i) hire for compensated employment, (ii) approve as a sponsored residential service provider, (iii) permit to enter into a shared living arrangement, or (iv) permit any person under contract with the provider to serve in a direct care position on behalf of the provider or permit any person employed by a temporary agency that has entered into a contract with the provider to provide direct care services on behalf of the provider persons who have been convicted of not more than one misdemeanor offense under § 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed the offense while employed in a direct care position. A provider may also approve a person as a sponsored residential service provider if (a) any adult living in the home of an applicant or (b) any person employed by the applicant to provide services in the home in which sponsored residential services are provided has been convicted of not more than one misdemeanor offense under § 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed the offense while employed in a direct care position.

G. Providers licensed pursuant to this article also shall require, as a condition of employment, approval as a sponsored residential service provider, permission to enter into a shared living arrangement with a person receiving medical assistance

services pursuant to a waiver, or permission for any person under contract with the provider to serve in a direct care position, written consent and personal information necessary to obtain a search of the registry of founded complaints of child abuse and neglect that is maintained by the Department of Social Services pursuant to § 63.2-1515.

H. The cost of obtaining the criminal history record and search of the child abuse and neglect registry record shall be borne by the applicant, unless the provider licensed pursuant to this article decides to pay the cost.

J. Notwithstanding any other provision of law, a provider licensed pursuant to this article that provides services to individuals receiving services under the state plan for medical assistance services or any waiver thereto may disclose to the Department of Medical Assistance Services (i) whether a criminal history background check has been completed for a person described in subsection B for whom a criminal history background check is required and (ii) whether the person described in subsection B is eligible for employment, to provide sponsored residential services, to provide services in the home of a sponsored residential service provider, or to enter into a shared living arrangement with a person receiving medical assistance services pursuant to a waiver.

K. Any person employed by a temporary agency that has entered into a contract with the provider and who will serve in a direct care position on behalf of the provider licensed pursuant to this article shall undergo a background check that shall include:

Except as otherwise provided in subsection C, D, or F, no provider licensed pursuant to this article shall permit any person employed by a temporary agency that has entered into a contract with the provider to provide direct care services on behalf of the provider if that person has been convicted of (i) any offense set forth in clause (i), (ii), or (iii) of the definition of barrier crime in § 19.2-392.02 or (ii) any offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02 (a) in the five years prior to the application date for employment or (b) if such person continues on probation or parole or has failed to pay required court costs for such offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02.

B. Every community services board shall require (i) any applicant who accepts employment in any direct care position with the community services board, (ii) any applicant for approval as a sponsored residential service provider, (iii) any adult living in the home of an applicant for approval as a sponsored residential service provider, (iv) any person employed by a sponsored residential service provider to provide services in the home, (v) any person who enters into a shared living arrangement with a person receiving medical assistance services pursuant to a waiver, and (vi) any person under contract to serve in a direct care position on behalf of the community services board to submit to fingerprinting and provide personal descriptive information to be forwarded through the Central Criminal Records Exchange to the Federal Bureau of Investigation (FBI) for the purpose of obtaining national criminal history record information regarding the applicant. The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall submit a report *or record* to the requesting executive director or personnel director of the community services board. If any applicant is denied employment because of information appearing on his criminal history record and the applicant disputes the information upon which the denial was based, the Central Criminal Records Exchange shall, upon written request, furnish to the applicant the procedures for obtaining a copy of the criminal history record from the FBI. The information provided to the executive director or personnel director of any community services board shall not be disseminated except as provided in this section.

C. Notwithstanding the provisions of subsection B, the community services board may hire for compensated employment or permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board at adult substance abuse or adult mental health treatment programs a person who was convicted of any violation of § 18.2-51.3; any misdemeanor violation of § 18.2-56 or 18.2-56.1, subsection A of § 18.2-57, or § 18.2-57.2; any violation of § 18.2-60, 18.2-89, 18.2-92, or 18.2-94; any misdemeanor violation of § 18.2-282, 18.2-346, or 18.2-346.01; any offense set forth in clause (iii) of the definition of barrier crime in § 19.2-392.02, except an offense pursuant to subsection H1 or H2 of § 18.2-248; or any substantially similar offense under the laws of another jurisdiction, if the hiring community services board determines, based upon a screening assessment, that the criminal behavior was substantially related to the applicant's substance abuse or mental illness and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse or mental illness history. *In addition, where the employment at an adult substance abuse treatment program is as a peer recovery specialist, the community services board may hire any person eligible under this subsection or who was convicted of any offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02 if the hiring community services board determines, based upon a screening assessment, that the criminal behavior was substantially related to the person's substance abuse or mental illness and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse or mental illness history.*

D. Notwithstanding the provisions of subsection B, the community services board may hire for compensated employment or permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board at adult substance abuse treatment programs a person who has been convicted of not more than one offense under subsection C of § 18.2-57, or any substantially similar offense under the laws of another jurisdiction, if (i) the person has been granted a simple pardon if the offense was a felony committed in Virginia, or the equivalent if the person was convicted under the laws of another jurisdiction; (ii) more than 10 years have elapsed since the conviction; and (iii) the hiring community services board determines, based upon a screening assessment, that the criminal behavior was substantially related to the applicant's substance abuse and that the person has been successfully rehabilitated and is not a risk to individuals receiving services based on his criminal history background and his substance abuse history.

E. The community services board and a screening contractor designated by the Department shall screen applicants who meet the criteria set forth in subsections C and D to assess whether the applicants have been rehabilitated successfully and are not a risk to individuals receiving services based on their criminal history backgrounds and substance abuse or mental illness histories. To be eligible for such screening, the applicant shall have completed all prison or jail terms, shall not be under probation or parole supervision, shall have no pending charges in any locality, shall have paid all fines, restitution, and court costs for any prior convictions, and shall have been free of parole or probation for at least five years for all convictions. In addition to any supplementary information the community services board or screening contractor may require or the applicant may wish to present, the applicant shall provide to the screening contractor a statement from his most recent probation or parole officer, if any, outlining his period of supervision and a copy of any pre-sentencing or post-sentencing report in connection with the felony conviction. The cost of this screening shall be paid by the applicant, unless the board decides to pay the cost.

F. Notwithstanding the provisions of subsection B, a community services board may (i) hire for compensated employment, (ii) approve as a sponsored residential service provider, (iii) permit to enter into a shared living arrangement, or (iv) permit any person under contract to serve in a direct care position on behalf of the community services board or permit any person employed by a temporary agency that has entered into a contract with the community services board to provide direct care services on behalf of the community services board persons who have been convicted of not more than one misdemeanor offense under § 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed the offense while employed in a direct care position. A community services board may also approve a person as a sponsored residential service provider if (a) any adult living in the home of an applicant or (b) any person employed by the applicant to provide services in the home in which sponsored residential services are provided has been convicted of not more than one misdemeanor offense under

§ 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed the offense while employed in a direct care position.

G. Community services boards also shall require, as a condition of employment, approval as a sponsored residential service provider, permission to enter into a shared living arrangement with a person receiving medical assistance services pursuant to a waiver, or permission for any person under contract to serve in a direct care position on behalf of the community services board, written consent and personal information necessary to obtain a search of the registry of founded complaints of child abuse and neglect that is maintained by the Department of Social Services pursuant to § 63.2-1515.

H. The cost of obtaining the criminal history record and search of the child abuse and neglect registry record shall be borne by the applicant, unless the community services board decides to pay the cost.

I. Notwithstanding any other provision of law, a community services board that provides services to individuals receiving services under the state plan for medical assistance services or any waiver thereto may disclose to the Department of Medical Assistance Services (i) whether a criminal history background check has been completed for a person described in subsection B for whom a criminal history background check is required and (ii) whether the person described in subsection B is eligible for employment, to provide sponsored residential services, to provide services in the home of a sponsored residential service provider, or to enter into a shared living arrangement with a person receiving medical assistance services pursuant to a waiver.

J. A person who complies in good faith with the provisions of this section shall not be liable for any civil damages for any act or omission in the performance of duties under this section unless the act or omission was the result of gross negligence or willful misconduct.

K. Any person employed by a temporary agency that has entered into a contract with a community services board and who will serve in a direct care position on behalf of the community services board shall undergo a background check that shall include:

Prior to claiming such exemption, any qualifying person claiming the exemption, including a data center operator on behalf of itself and its tenants, must enter into a memorandum of understanding with the Virginia Economic Development Partnership Authority that at a minimum provides the details for determining the amount of capital investment made and the number of new jobs created, the timeline for achieving the capital investment and new job goals, the repayment obligations should those goals not be achieved, and any conditions under which repayment by the qualifying data center or data center tenant claiming the exemption may be required. In addition, the exemption shall apply to any such computer equipment or enabling software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the initial investment. The exemption shall not apply to any other computer software otherwise taxable under Chapter 6 of Title 58.1 that is sold or leased separately from the computer equipment, nor shall it apply to general building improvements or other fixtures.

The annual report shall be submitted by the data center operator in a format prescribed by the Virginia Economic Development Partnership Authority. The Virginia Economic Development Partnership Authority shall share all information collected with the Department.

The Department, in collaboration with the Virginia Economic Development Partnership Authority, shall publish a biennial report on the exemption that shall include aggregate information on qualifying expenses claimed under this exemption, the total value of the tax benefit, a return on investment analysis that includes direct and indirect jobs created by data center investment, state and local tax revenues generated, and any other information the Department and the Virginia Economic Development Partnership Authority deem appropriate to demonstrate the costs and benefits of the exemption. The report shall not include, and the Department and the Virginia Economic Development Partnership Authority shall not publish or disclose, any such information if it is unaggregated or if such report or publication could be used to identify a business or individual. The Department shall submit the report to the Chairmen of the Senate Committee on Finance and Appropriations and the House Committees on Appropriations and Finance. § 15.2-2025. Removal of snow and ice; civil penalty.

Notwithstanding the provisions of subsection A of § 15.2-2000, any county in Northern Virginia Planning District 8, or any county outside Planning District 8 that has adopted the county executive form of government, may provide by ordinance reasonable criteria and requirements for the removal of accumulations of snow and ice from public sidewalks, by the owner or other person in charge of any occupied property.

Such ordinance shall include reasonable time frames for compliance and reasonable exceptions for ~~handicapped and~~ *individuals with disabilities,* elderly ~~persons~~ *individuals*, and those otherwise physically incapable of meeting the criteria and requirements for such removal.

Civil penalties not to exceed $100 may be imposed for violation of such ordinance.

§ 15.2-2306. Preservation of historical sites and architectural areas.

A. 1. Any locality may adopt an ordinance setting forth the historic landmarks within the locality as established by the Virginia Board of Historic Resources, and any other buildings or structures within the locality having an important historic,

architectural, archaeological or cultural interest, any historic areas within the locality as defined by § 15.2-2201, and areas of unique architectural value located within designated conservation, rehabilitation or redevelopment districts, amending the existing zoning ordinance and delineating one or more historic districts, adjacent to such landmarks, buildings and structures, or encompassing such areas, or encompassing parcels of land contiguous to arterial streets or highways (as designated pursuant to Title 33.2, including § 33.2-319 ~~of that title~~) found by the governing body to be significant routes of tourist access to the locality or to designated historic landmarks, buildings, structures or districts therein or in a contiguous locality. A governing body may provide in the ordinance that the applicant must submit documentation that any development in an area of the locality of known historical or archaeological significance will preserve or accommodate the historical or archaeological resources. An amendment of the zoning ordinance and the establishment of a district or districts shall be in accordance with the provisions of Article 7 (§ 15.2-2280 et seq.) ~~of this chapter~~. The governing body may provide for a review board to administer the ordinance and may provide compensation to the board. The ordinance may include a provision that no building or structure, including signs, shall be erected, reconstructed, altered or restored within any such district unless approved by the review board or, on appeal, by the governing body of the locality as being architecturally compatible with the historic landmarks, buildings or structures therein.

2. Subject to the provisions of subdivision 3 ~~of this subsection~~ the governing body may provide in the ordinance that no historic landmark, building or structure within any district shall be razed, demolished or moved until the razing, demolition or moving thereof is approved by the review board, or, on appeal, by the governing body after consultation with the review board.

3. The governing body shall provide by ordinance for appeals to the circuit court for such locality from any final decision of the governing body pursuant to subdivisions 1 and 2 ~~of this subsection~~ and shall specify therein the parties entitled to appeal the decisions, which parties shall have the right to appeal to the circuit court for review by filing a petition at law, setting forth the alleged illegality of the action of the governing body, provided the petition is filed within ~~thirty~~ *30* days after the final decision is rendered by the governing body. The filing of the petition shall stay the decision of the governing body pending the outcome of the appeal to the court, except that the filing of the petition shall not stay the decision of the governing body if the decision denies the right to raze or demolish a historic landmark, building or structure. The court may reverse or modify the decision of the governing body, in whole or in part, if it finds upon review that the decision of the governing body is contrary to law or that its decision is arbitrary and constitutes an abuse of discretion, or it may affirm the decision of the governing body.

In addition to the right of appeal hereinabove set forth, the owner of a historic landmark, building or structure, the razing or demolition of which is subject to the provisions of subdivision 2 ~~of this subsection~~, shall, as a matter of right, be entitled to raze or demolish such landmark, building or structure provided that: (i) he has applied to the governing body for such right, (ii) the owner has for the period of time set forth in the same schedule hereinafter contained and at a price reasonably related to its fair market value, made a bona fide offer to sell the landmark, building or structure, and the land pertaining thereto, to the locality or to any person, firm, corporation, government or agency thereof, or political subdivision or agency thereof, which gives reasonable assurance that it is willing to preserve and restore the landmark, building or structure and the land pertaining thereto, and (iii) no bona fide contract, binding upon all parties thereto, shall have been executed for the sale of any such landmark, building or structure, and the land pertaining thereto, prior to the expiration of the applicable time period set forth in the time schedule hereinafter contained. Any appeal which may be taken to the court from the decision of the governing body, whether instituted by the owner or by any other proper party, notwithstanding the provisions heretofore stated relating to a stay of the decision appealed from shall not affect the right of the owner to make the bona fide offer to sell referred to above. No offer to sell shall be made more than one year after a final decision by the governing body, but thereafter the owner may renew his request to the governing body to approve the razing or demolition of the historic landmark, building or structure. The time schedule for offers to sell shall be as follows: three months when the offering price is less than $25,000; four months when the offering price is $25,000 or more but less than $40,000; five months when the offering price is $40,000 or more but less than $55,000; six months when the offering price is $55,000 or more but less than $75,000; seven months when the offering price is $75,000 or more but less than $90,000; and ~~twelve~~ *12* months when the offering price is $90,000 or more.

4. The governing body is authorized to acquire in any legal manner any historic area, landmark, building or structure, land pertaining thereto, or any estate or interest therein which, in the opinion of the governing body should be acquired, preserved and maintained for the use, observation, education, pleasure and welfare of the people; provide for their renovation, preservation, maintenance, management and control as places of historic interest by a department of the locality or by a board, commission or agency specially established by ordinance for the purpose; charge or authorize the charging of compensation for the use thereof or admission thereto; lease, subject to such regulations as may be established by ordinance, any such area, property, lands or estate or interest therein so acquired upon the condition that the historic character of the area, landmark, building, structure or land shall be preserved and maintained; or to enter into contracts with any person, firm or corporation for the management, preservation, maintenance or operation of any such area, landmark, building, structure, land pertaining thereto or interest therein so acquired as a place of historic interest; however, the locality shall not use the right of condemnation under this subsection unless the historic value of such area, landmark, building, structure, land pertaining thereto, or estate or interest therein is about to be destroyed.

The authority to enter into contracts with any person, firm or corporation as stated above may include the creation, by ordinance, of a resident curator program such that private entities through lease or other contract may be engaged to

manage, preserve, maintain, or operate, including the option to reside in, any such historic area, property, lands, or estate owned or leased by the locality. Any leases or contracts entered into under this provision shall require that all maintenance and improvement be conducted in accordance with established treatment standards for historic landmarks, areas, buildings, and structures. For purposes of this section, leases or contracts that preserve historic landmarks, buildings, structures, or areas are deemed to be consistent with the purposes of use, observation, education, pleasure, and welfare of the people as stated above so long as the lease or contract provides for reasonable public access consistent with the property's nature and use. The Department of Historic Resources shall provide technical assistance to local governments, at their request, to assist in developing resident curator programs.

B. Notwithstanding any contrary provision of law, general or special, in the City of Portsmouth no approval of any governmental agency or review board shall be required for the construction of a ramp to serve ~~the handicapped~~ *individuals with disabilities* at any structure designated pursuant to the provisions of this section.

C. Any locality that establishes or expands a local historic district pursuant to this section shall identify and inventory all landmarks, buildings, or structures in the areas being considered for inclusion within the proposed district. Prior to adoption of an ordinance establishing or expanding a local historic district, the locality shall (i) provide for public input from the community and affected property owners in accordance with § 15.2-2204; (ii) establish written criteria to be used to determine which properties should be included within a local historic district; and (iii) review the inventory and the criteria to determine which properties in the areas being considered for inclusion within the proposed district meet the criteria to be included in a local historic district. Local historic district boundaries may be adjusted to exclude properties along the perimeter that do not meet the criteria. The locality shall include only the geographical areas in a local historic district where a majority of the properties meet the criteria established by the locality in accordance with this section. However, parcels of land contiguous to arterial streets or highways found by the governing body to be significant routes of tourist access to the locality or to designated historic landmarks, buildings, structures, or districts therein, or in a contiguous locality may be included in a local historic district notwithstanding the provisions of this subsection.

D. Any locality utilizing the urban county executive form of government may include a provision in any ordinance adopted pursuant to this section that would allow public access to any such historic area, landmark, building, or structure, or land pertaining thereto, or providing that no subdivision shall occur within any historic district unless approved by the review board or, on appeal, by the governing body of the locality as being compatible with the historic nature of such area, landmarks, buildings, or structures therein with regard to any parcel or parcels that collectively are (i) adjacent to a navigable river and a national park and (ii) in part or as a whole subject to an easement granted to the National Park Service or Virginia Outdoors Foundation granted on or after January 1, 1973.

This section shall not apply to the nonhabitable structures, equipment, and wiring owned by a public service company, a certificated provider of telecommunications services, or a franchised cable operator that are built on rights-of-way owned or controlled by the Commonwealth Transportation Board.

§ 36-99. Provisions of Code; modifications.

A. The Building Code shall prescribe building regulations to be complied with in the construction and rehabilitation of buildings and structures, and the equipment therein as defined in § 36-97, and shall prescribe regulations to ensure that such buildings and structures are properly maintained, and shall also prescribe procedures for the administration and enforcement of such regulations, including procedures to be used by the local building department in the evaluation and granting of modifications for any provision of the Building Code, provided the spirit and functional intent of the Building Code are observed and public health, welfare and safety are assured. The provisions of the Building Code and modifications thereof shall be such as to protect the health, safety and welfare of the residents of the Commonwealth, provided that buildings and structures should be permitted to be constructed, rehabilitated and maintained at the least possible cost consistent with recognized standards of health, safety, energy conservation and water conservation, including provisions necessary to prevent overcrowding, rodent or insect infestation, and garbage accumulation; and barrier-free provisions for ~~the physically handicapped~~ *individuals with physical disabilities* and aged *individuals*. Such regulations shall be reasonable and appropriate to the objectives of this chapter.

B. In formulating the Code provisions, the Board shall have due regard for generally accepted standards as recommended by nationally recognized organizations, including, but not limited to, the standards of the International Code Council and the National Fire Protection Association. Notwithstanding the provisions of this section, farm buildings and structures shall be exempt from the provisions of the Building Code, except for a building or a portion of a building located on a farm that is operated as a restaurant as defined in § 35.1-1 and licensed as such by the Board of Health pursuant to Chapter 2 (§ 35.1-11 et seq.) of Title 35.1. However, farm buildings and structures lying within a flood plain or in a mudslide-prone area shall be subject to flood-proofing regulations or mudslide regulations, as applicable.

C. Where practical, the Code provisions shall be stated in terms of required level of performance, so as to facilitate the prompt acceptance of new building materials and methods. When generally recognized standards of performance are not available, such provisions shall provide for acceptance of materials and methods whose performance has been found by the local building department, on the basis of reliable test and evaluation data, presented by the proponent, to be substantially equal in safety to those specified.

D. The Board, upon a finding that sufficient allegations exist regarding failures noted in several localities of performance standards by either building materials, methods, or design, may conduct hearings on such allegations if it determines that such alleged failures, if proven, would have an adverse impact on the health, safety, or welfare of the citizens of the Commonwealth. After at least 21 days' written notice, the Board shall convene a hearing to consider such allegations. Such notice shall be given to the known manufacturers of the subject building material and as many other interested parties, industry representatives, and trade groups as can reasonably be identified. Following the hearing, the Board, upon finding that (i) the current technical or administrative Code provisions allow use of or result in defective or deficient building materials, methods, or designs, and (ii) immediate action is necessary to protect the health, safety, and welfare of the citizens of the Commonwealth, may issue amended regulations establishing interim performance standards and Code provisions for the installation, application, and use of such building materials, methods or designs in the Commonwealth. Such amended regulations shall become effective upon their publication in the Virginia Register of Regulations. Any amendments to regulations adopted pursuant to this subsection shall become effective upon their publication in the Virginia Register of Regulations and shall be effective for a period of 24 months or until adopted, modified, or repealed by the Board.

a. An application for the individual policy is made, and the first premium paid to the insurer, within 31 days after such termination; and

b. The individual policy, at the option of such person, is on any one of the forms then customarily issued by the insurer at the age and for the amount applied for, except that the group policy may exclude the option to elect term insurance;

d. The premium on the individual policy is at the insurer's then customary rate applicable to the form and amount of the individual policy, to the class of risk to which such person then belongs, and to the individual age attained on the effective date of the individual policy.

2. Subject to the same conditions set forth above, the conversion privilege shall be available (i) to a surviving dependent, if any, at the death of the group member, with respect to the coverage under the group policy which terminates by reason of such death, and (ii) to the dependent of the group member upon termination of coverage of the dependent, while the group member remains insured under the group policy, by reason of the dependent ceasing to be a qualified family member under the group policy.

A. Any group or individual accident and sickness insurance policy or subscription contract delivered or issued for delivery in ~~this~~ *the* Commonwealth which provides that coverage of a dependent child shall terminate upon that child's attainment of a specified age, shall also provide in substance that attainment of the specified age shall not terminate the child's coverage during the continuance of the policy while the dependent child is and continues to be both: (i) incapable of self-sustaining employment by reason of intellectual ~~disability~~ or physical ~~handicap,~~ *disability* and (ii) chiefly dependent upon the policyowner for support and maintenance.

B. Proof of incapacity and dependency shall be furnished to the insurer by the policyowner within 31 days of the child's attainment of the specified age. Subsequent proof may be required by the insurer but not more frequently than annually after the two-year period following the child's attainment of the specified age.

C. The insurer may charge an additional premium for any continuation of coverage beyond the specified age. The additional premium shall be determined by the insurer on the basis of the class of risks applicable to the child.

In any prosecution for which a summons charging a violation of this section was issued within 10 days of the alleged violation, proof that the motor vehicle described in the summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, as required by Chapter 6 (§ 46.2-600 et seq.) shall give rise to a rebuttable presumption that the registered owner of the vehicle was the person who operated the vehicle at the place where, and for the time during which, the violation occurred. Such presumption shall be rebutted if (i) the owner of the vehicle files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation, (ii) the owner testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation, or (iii) a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section is presented prior to the return date established on the summons issued pursuant to this section to the court adjudicating the alleged violation. 2. A locality may, by ordinance, authorize the school division of the locality to install and operate a video-monitoring system in or on the school buses operated by the division or to contract with a private vendor to do so on behalf of the school division for the purpose of recording violations of subsection A. Such ordinance may direct that any civil penalty levied for a violation of subsection A shall be payable to the local school division. In any locality that has adopted such an ordinance, a summons for a violation of subsection A may be executed as provided in § 19.2-76.2 and, notwithstanding the provisions of § 19.2-76, the summons may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle contained in the records of the Department. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection A and (ii) instructions for filing such an affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in

3. Any private vendor contracting with a school division pursuant to this subsection may impose and collect an administrative fee in addition to the civil penalty imposed for a violation of subsection A and payable pursuant to this subsection, so as to recover the expenses of collecting any unpaid civil penalty when such penalty remains due more than 30 days after the date of the mailing of the summons and notice. The administrative fee shall be reasonably related to the actual cost of collecting the civil penalty and shall not exceed $100 per violation. The operator of the vehicle shall pay the unpaid civil penalty and any administrative fee detailed in a notice or citation issued by the private vendor. If paid no later than 60 days after the date of the mailing of the summons and notice, the administrative fee shall not exceed $25.

4. Any private vendor contracting with a school division pursuant to this subsection may enter into an agreement with the Department of Motor Vehicles, in accordance with the provisions of subdivision B 30 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that improperly pass stopped school buses. Information provided to such private vendor shall be protected in a database with security comparable to that of the Department of Motor Vehicles' system and used only for enforcement against individuals who violate the provisions of this section. The school division shall annually certify compliance with this subdivision and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or their designee. The driver of a vehicle, however, need not stop when approaching a school bus if the school bus is stopped on the other roadway of a divided highway, on an access road, or on a driveway when the other roadway, access road, or driveway is separated from the roadway on which he is driving by a physical barrier or an unpaved area. The driver of a vehicle also need not stop when approaching a school bus which is loading or discharging passengers from or onto property immediately adjacent to a school if the driver is directed by a law-enforcement officer or other duly authorized uniformed school crossing guard to pass the school bus. This section shall apply to school buses which are equipped with warning devices prescribed in § 46.2-1090 and are painted yellow with the words "School Bus" in black letters at least eight inches high on the front and rear thereof. Only school buses which are painted yellow and equipped with the required lettering and warning devices shall be identified as school buses.

The testimony of the school bus driver, the supervisor of school buses or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

For any new bus placed into service on or after July 1, 2007, such warning devices, at a minimum, shall include a nonsequential system of red traffic warning lights, a warning sign with flashing lights, and a crossing control arm such that when the bus door is opened, the red warning lights, warning sign with flashing lights, and crossing control arm are automatically activated.

Failure of a warning device to function on any school bus shall not relieve any person operating a motor vehicle from his duty to stop as provided in §§ 46.2-844 and 46.2-859.

Any person operating such bus who fails or refuses to equip such vehicle being driven by him with such equipment, or who fails to use such warning devices in the operation of such vehicle ~~shall be~~ *is* guilty of a Class 3 misdemeanor.

In using a recognized pricing guide, the commissioner shall use either of the following two methods. The commissioner may use all applicable adjustments in such guide to determine the value of each individual automobile, or alternatively, if the commissioner does not utilize all applicable adjustments in valuing each automobile, he shall use the base value specified in such guide which may be either average retail, wholesale, or loan value, so long as uniformly applied within classifications of property. If the model and year of the individual automobile are not listed in the recognized pricing guide, the taxpayer may present to the commissioner proof of the original cost, and the basis of the tax for purposes of the motor vehicle sales and use tax as described in § 58.1-2405 shall constitute proof of original cost. If such percentage or percentages of original cost do not accurately reflect fair market value, or if the taxpayer does not supply proof of original cost, then the commissioner may select another method which establishes fair market value.

4. Trucks of less than two tons, which may be valued by means of a recognized pricing guide or, if the model and year of the individual truck are not listed in the recognized pricing guide, on the basis of a percentage or percentages of original cost.

5. Trucks and other vehicles, as defined in § 46.2-100, except those described in subdivisions 4, and 6 through 10 of this subsection, which shall be valued by means of either a recognized pricing guide using the lowest value specified in such guide or a percentage or percentages of original cost.

17. Computer equipment and peripherals used in a data center, as defined in subdivision A 43 of § 58.1-3506, which shall be valued by means of a percentage or percentages of original cost, or by such other method as may reasonably be expected to determine the actual fair market value.

Methods of valuing property may differ among the separate categories, so long as each method used is uniform within each category, is consistent with requirements of this section and may reasonably be expected to determine actual fair market value as determined by the commissioner of revenue or other assessing official; however, assessment ratios shall only be used with the concurrence of the local governing body. A commissioner of revenue shall upon request take into account the condition of the property. The term "condition of the property" includes, but is not limited to, technological obsolescence of property where technological obsolescence is an appropriate factor for valuing such property. The commissioner of revenue shall make available to taxpayers on request a reasonable description of his valuation methods. Such commissioner, or other assessing officer, or his authorized agent, when using a recognized pricing guide as provided for in this section, may automatically extend the assessment if the pricing information is stored in a computer. For any locality in which the commissioner of revenue or other assessing official adjusts the valuation of property described in subdivision A 3 to account for the amount of mileage on such vehicles, such adjustment shall also be provided to motorcycles described in subdivision A 10.

For purposes of this section, the term "child welfare services" means public social services that are directed toward:

1. Protecting the welfare of all children including ~~handicapped,~~ homeless, dependent, or neglected children *or children with disabilities*;

2. Preventing or remedying, or assisting in the solution of problems that may result in the neglect, abuse, exploitation or delinquency of children;

§ 63.2-1301. Types of adoption assistance payments.

A. Title IV-E maintenance payments shall be made to the adoptive parents on behalf of an adopted child placed if it is determined that the child is a child with special needs as set forth in § 63.2-1300 and the child meets the requirements set forth in § 473 of Title IV-E of the Social Security Act (42 U.S.C. § 673).

B. State-funded maintenance payments may be made to the adoptive parents on behalf of an adopted child if it is determined that the child does not meet the requirements set forth in § 473 of Title IV-E of the Social Security Act (42 U.S.C. § 673) but the child is a child with special needs as set forth in § 63.2-1300. A child with special needs shall receive state-funded maintenance payments if he:

1. Was in the custody of a local board or a licensed child-placing agency at the time of the adoptive placement;

2. Was in the custody of a local board or a licensed child-placing agency at the time of the adoptive placement and met the factors set forth in subdivision B 1 or 2 of § 63.2-1300 at the time of adoption but such factors were not diagnosed until after the final order of adoption and no more than one year has elapsed from the date of diagnosis; or

3. Lived with his foster parents for at least 12 months and has developed significant emotional ties with his foster parents while in their care and the foster parents wish to adopt the child and state-funded maintenance payments are necessary to enable the adoption.

C. Special services payments may be made for the provision of services to the child that are not covered by insurance, Medicaid, or otherwise. Special services include (i) medical, surgical, and dental care; (ii) hospitalization; (iii) individual remedial education services; (iv) psychological and psychiatric treatment; (v) speech and physical therapy; and (vi) special equipment, treatment, and training for physical and mental ~~handicaps~~ *disabilities*. A child is eligible for special services payments if:

2. The child is receiving adoption assistance payments pursuant to subsection A or B; and

3. The adoptive parents are capable of providing the permanent family relationships needed by the child in all respects except financial.

D. Nonrecurring expense payments shall be made to the adoptive parents for expenses related to the adoption, including reasonable and necessary adoption fees, court costs, attorney fees and other legal service fees, as well as any other expenses that are directly related to the legal adoption of a child with special needs, including costs related to the adoption study, any health and psychological examinations, supervision of the placement prior to adoption and any transportation costs and reasonable costs of lodging and food for the child and the adoptive parents when necessary to complete the placement or adoption process for which the adoptive parents carry ultimate liability for payment and that have not been reimbursed from any other source, as set forth in 45 C.F.R. § 1356.41. However, the total amount of nonrecurring expense payments made to adoptive parents for the adoption of a child shall not exceed $2,000 or an amount established by federal law.

§ 63.2-1302. Adoption assistance payments; maintenance; special needs; payment agreements; continuation of payments when adoptive parents move to another jurisdiction; procedural requirements.

A. Adoption assistance payments may include Title IV-E or state-funded maintenance payments; however, such payments shall not exceed the foster care payment that would otherwise be made for the child at the time the adoption assistance agreement is signed.

B. Adoption assistance payments shall cease when the child with special needs reaches 18 years of age. However, assistance payments may continue until the child reaches 21 years of age under the following circumstances:

1. The local department determines on or within six months prior to the child's eighteenth birthday that the child has a mental or physical ~~handicap~~ *disability*, or an educational delay resulting from such ~~handicap~~ *disability*, warranting the continuation of assistance; or

2. The initial adoption assistance agreement became effective on or after the child's sixteenth birthday and the child is (i) completing secondary education or an equivalent thereof; (ii) enrolled in an institution that provides postsecondary or vocational education; (iii) employed for at least 80 hours per month; (iv) participating in a program or activity designed to promote employment or remove barriers to employment; or (v) incapable of doing any of the activities set forth in clauses (i) through (iv) due to a medical condition.

C. Adoption assistance payments shall be made on the basis of an adoption assistance agreement entered into by the local board and the adoptive parents or, in cases in which the child is in the custody of a licensed child-placing agency, an agreement between the local board, the licensed child-placing agency and the adoptive parents. A representative of the Department shall negotiate all adoption assistance agreements with both existing and prospective adoptive parents on behalf of local departments.

Prior to entering into an adoption assistance agreement, the local board or licensed child-placing agency shall ensure that adoptive parents have received information about their child's eligibility for adoption assistance; about their child's special needs and, to the extent possible, the current and potential impact of those special needs. The local board or licensed child-placing agency shall also ensure that adoptive parents receive information about the process for appeal in the event of a disagreement between the adoptive parent and the local board or the adoptive parent and the child-placing agency and information about the procedures for renegotiating the adoption assistance agreement.

Adoptive parents shall submit annually to the local board within 30 days of the anniversary date of the approved agreement an affidavit which certifies that (i) the child on whose behalf they are receiving adoption assistance payments remains in their care, (ii) the child's condition requiring adoption assistance continues to exist, and (iii) whether or not changes to the adoption assistance agreement are requested.

Title IV-E maintenance payments made pursuant to this section shall be changed only in accordance with the provisions of § 473 of Title IV-E of the Social Security Act (42 U.S.C. § 673).

D. Responsibility for adoption assistance payments for a child placed for adoption shall be continued by the local board that initiated the agreement in the event that the adoptive parents live in or move to another jurisdiction.

E. Payments may be made under this chapter from appropriations for foster care services for the maintenance and medical or other services for children who have special needs in accordance with § 63.2-1301. Within the limitations of the appropriations to the Department, the Commissioner shall reimburse any agency making payments under this chapter. Any such agency may seek and accept funds from other sources, including federal, state, local, and private sources, to carry out the purposes of this chapter.

§ 64.2-745. Certain claims for reimbursement for public assistance.

A. Notwithstanding any contrary provision in the trust instrument, if a statute or regulation of the United States or Commonwealth requires a beneficiary to reimburse the Commonwealth or any agency or instrumentality thereof, for public assistance, including medical assistance, furnished or to be furnished to the beneficiary, the Attorney General or an attorney acting on behalf of the state agency responsible for the program may file a petition in the circuit court having jurisdiction over the trustee requesting reimbursement. The petition may be filed prior to obtaining a judgment. The beneficiary, the guardian of his estate, his conservator, or his committee shall be made a party.

B. Following its review of the circumstances of the case, the court may:

1. Order the trustee to satisfy all or part of the liability out of all or part of the amounts to which the beneficiary is entitled, whether presently or in the future, to the extent the beneficiary has the right under the trust to compel the trustee to pay income or principal to or for the benefit of the beneficiary; or

2. Regardless of whether the beneficiary has the right to compel the trustee to pay income or principal to or for the benefit of the beneficiary, order the trustee to satisfy all or part of the liability out of all or part of any future payments that the trustee chooses to make to or for the benefit of the beneficiary in the exercise of discretion under the trust.

C. A duty in the trustee under the instrument to make disbursements in a manner designed to avoid rendering the beneficiary ineligible for public assistance to which he might otherwise be entitled, however, shall not be construed as a right possessed by the beneficiary to compel such payments.

D. The court shall not issue an order pursuant to this section if the beneficiary is a person who has a medically determined physical or mental disability that substantially impairs his ability to provide for his care or custody, and constitutes a substantial ~~handicap~~ *disability*.

Civil penalties not to exceed $100 may be imposed for violation of such ordinance.

§ 15.2-2306. Preservation of historical sites and architectural areas.

A. 1. Any locality may adopt an ordinance setting forth the historic landmarks within the locality as established by the Virginia Board of Historic Resources, and any other buildings or structures within the locality having an important historic, architectural, archaeological or cultural interest, any historic areas within the locality as defined by § 15.2-2201, and areas of unique architectural value located within designated conservation, rehabilitation or redevelopment districts, amending the existing zoning ordinance and delineating one or more historic districts, adjacent to such landmarks, buildings and structures, or encompassing such areas, or encompassing parcels of land contiguous to arterial streets or highways (as designated pursuant to Title 33.2, including § 33.2-319 ~~of that title~~) found by the governing body to be significant routes of tourist access to the locality or to designated historic landmarks, buildings, structures or districts therein or in a contiguous locality. A governing body may provide in the ordinance that the applicant must submit documentation that any development in an area of the locality of known historical or archaeological significance will preserve or accommodate the historical or archaeological resources. An amendment of the zoning ordinance and the establishment of a district or districts shall be in accordance with the provisions of Article 7 (§ 15.2-2280 et seq.) ~~of this chapter~~. The governing body may provide for a review board to administer the ordinance and may provide compensation to the board. The ordinance may include a provision that no building or structure, including signs, shall be erected, reconstructed, altered or restored within any such district unless approved by the review board or, on appeal, by the governing body of the locality as being architecturally compatible with the historic landmarks, buildings or structures therein.

2. Subject to the provisions of subdivision 3 ~~of this subsection~~ the governing body may provide in the ordinance that no historic landmark, building or structure within any district shall be razed, demolished or moved until the razing, demolition or moving thereof is approved by the review board, or, on appeal, by the governing body after consultation with the review board.

3. The governing body shall provide by ordinance for appeals to the circuit court for such locality from any final decision of the governing body pursuant to subdivisions 1 and 2 ~~of this subsection~~ and shall specify therein the parties entitled to appeal the decisions, which parties shall have the right to appeal to the circuit court for review by filing a petition at law, setting forth the alleged illegality of the action of the governing body, provided the petition is filed within ~~thirty~~

30 days after the final decision is rendered by the governing body. The filing of the petition shall stay the decision of the governing body pending the outcome of the appeal to the court, except that the filing of the petition shall not stay the decision of the governing body if the decision denies the right to raze or demolish a historic landmark, building or structure. The court may reverse or modify the decision of the governing body, in whole or in part, if it finds upon review that the decision of the governing body is contrary to law or that its decision is arbitrary and constitutes an abuse of discretion, or it may affirm the decision of the governing body.

In addition to the right of appeal hereinabove set forth, the owner of a historic landmark, building or structure, the razing or demolition of which is subject to the provisions of subdivision 2 ~~of this subsection~~, shall, as a matter of right, be entitled to raze or demolish such landmark, building or structure provided that: (i) he has applied to the governing body for such right, (ii) the owner has for the period of time set forth in the same schedule hereinafter contained and at a price reasonably related to its fair market value, made a bona fide offer to sell the landmark, building or structure, and the land pertaining thereto, to the locality or to any person, firm, corporation, government or agency thereof, or political subdivision or agency thereof, which gives reasonable assurance that it is willing to preserve and restore the landmark, building or structure and the land pertaining thereto, and (iii) no bona fide contract, binding upon all parties thereto, shall have been executed for the sale of any such landmark, building or structure, and the land pertaining thereto, prior to the expiration of the applicable time period set forth in the time schedule hereinafter contained. Any appeal which may be taken to the court from the decision of the governing body, whether instituted by the owner or by any other proper party, notwithstanding the provisions heretofore stated relating to a stay of the decision appealed from shall not affect the right of the owner to make the bona fide offer to sell referred to above. No offer to sell shall be made more than one year after a final decision by the governing body, but thereafter the owner may renew his request to the governing body to approve the razing or demolition of the historic landmark, building or structure. The time schedule for offers to sell shall be as follows: three months when the offering price is less than $25,000; four months when the offering price is $25,000 or more but less than $40,000; five months when the offering price is $40,000 or more but less than $55,000; six months when the offering price is $55,000 or more but less than $75,000; seven months when the offering price is $75,000 or more but less than $90,000; and ~~twelve~~ *12* months when the offering price is $90,000 or more.

4. The governing body is authorized to acquire in any legal manner any historic area, landmark, building or structure, land pertaining thereto, or any estate or interest therein which, in the opinion of the governing body should be acquired, preserved and maintained for the use, observation, education, pleasure and welfare of the people; provide for their renovation, preservation, maintenance, management and control as places of historic interest by a department of the locality or by a board, commission or agency specially established by ordinance for the purpose; charge or authorize the charging of compensation for the use thereof or admission thereto; lease, subject to such regulations as may be established by ordinance, any such area, property, lands or estate or interest therein so acquired upon the condition that the historic character of the area, landmark, building, structure or land shall be preserved and maintained; or to enter into contracts with any person, firm or corporation for the management, preservation, maintenance or operation of any such area, landmark, building, structure, land pertaining thereto or interest therein so acquired as a place of historic interest; however, the locality shall not use the right of condemnation under this subsection unless the historic value of such area, landmark, building, structure, land pertaining thereto, or estate or interest therein is about to be destroyed.

The authority to enter into contracts with any person, firm or corporation as stated above may include the creation, by ordinance, of a resident curator program such that private entities through lease or other contract may be engaged to manage, preserve, maintain, or operate, including the option to reside in, any such historic area, property, lands, or estate owned or leased by the locality. Any leases or contracts entered into under this provision shall require that all maintenance and improvement be conducted in accordance with established treatment standards for historic landmarks, areas, buildings, and structures. For purposes of this section, leases or contracts that preserve historic landmarks, buildings, structures, or areas are deemed to be consistent with the purposes of use, observation, education, pleasure, and welfare of the people as stated above so long as the lease or contract provides for reasonable public access consistent with the property's nature and use. The Department of Historic Resources shall provide technical assistance to local governments, at their request, to assist in developing resident curator programs.

B. Notwithstanding any contrary provision of law, general or special, in the City of Portsmouth no approval of any governmental agency or review board shall be required for the construction of a ramp to serve ~~the handicapped~~ *individuals with disabilities* at any structure designated pursuant to the provisions of this section.

C. Any locality that establishes or expands a local historic district pursuant to this section shall identify and inventory all landmarks, buildings, or structures in the areas being considered for inclusion within the proposed district. Prior to adoption of an ordinance establishing or expanding a local historic district, the locality shall (i) provide for public input from the community and affected property owners in accordance with § 15.2-2204; (ii) establish written criteria to be used to determine which properties should be included within a local historic district; and (iii) review the inventory and the criteria to determine which properties in the areas being considered for inclusion within the proposed district meet the criteria to be included in a local historic district. Local historic district boundaries may be adjusted to exclude properties along the perimeter that do not meet the criteria. The locality shall include only the geographical areas in a local historic district where a majority of the properties meet the criteria established by the locality in accordance with this section. However, parcels of land contiguous to arterial streets or highways found by the governing body to be significant routes of

tourist access to the locality or to designated historic landmarks, buildings, structures, or districts therein, or in a contiguous locality may be included in a local historic district notwithstanding the provisions of this subsection.

D. Any locality utilizing the urban county executive form of government may include a provision in any ordinance adopted pursuant to this section that would allow public access to any such historic area, landmark, building, or structure, or land pertaining thereto, or providing that no subdivision shall occur within any historic district unless approved by the review board or, on appeal, by the governing body of the locality as being compatible with the historic nature of such area, landmarks, buildings, or structures therein with regard to any parcel or parcels that collectively are (i) adjacent to a navigable river and a national park and (ii) in part or as a whole subject to an easement granted to the National Park Service or Virginia Outdoors Foundation granted on or after January 1, 1973.

Any state-owned building or structure, or building or structure built on state-owned property, for which preliminary plans were prepared or on which construction commenced after the initial effective date of the Uniform Statewide Building Code, shall remain subject to the provisions of the Uniform Statewide Building Code that were in effect at the time such plans were completed or such construction commenced. Subsequent reconstruction, renovation or demolition of such building or structure shall be subject to the pertinent provisions of the Building Code.

Acting through the Division of Engineering and Buildings, the Department of General Services shall function as the building official for any state-owned buildings or structures and for all buildings and structures built on state-owned property. The Department shall review and approve plans and specifications, grant modifications, and establish such rules and regulations as may be necessary to implement this section. It may provide for the (i) inspection of state-owned buildings or structures and for all buildings and structures built on state-owned property and (ii) enforcement of the Building Code and standards for access by ~~the physically handicapped~~ *individuals with physical disabilities* by delegating inspection and Building Code enforcement duties to the State Fire Marshal's Office, to other appropriate state agencies having needed expertise, and to local building departments, all of which shall provide such assistance within a reasonable time and in the manner requested. State agencies and institutions occupying buildings shall pay to the local building department the same fees as would be paid by a private citizen for the services rendered when such services are requested by the Department of General Services. When altering or overruling any decision of a local building department, the Department of General Services shall provide the local building department with a written summary of its reasons for doing so.

A. The Building Code shall prescribe building regulations to be complied with in the construction and rehabilitation of buildings and structures, and the equipment therein as defined in § 36-97, and shall prescribe regulations to ensure that such buildings and structures are properly maintained, and shall also prescribe procedures for the administration and enforcement of such regulations, including procedures to be used by the local building department in the evaluation and granting of modifications for any provision of the Building Code, provided the spirit and functional intent of the Building Code are observed and public health, welfare and safety are assured. The provisions of the Building Code and modifications thereof shall be such as to protect the health, safety and welfare of the residents of the Commonwealth, provided that buildings and structures should be permitted to be constructed, rehabilitated and maintained at the least possible cost consistent with recognized standards of health, safety, energy conservation and water conservation, including provisions necessary to prevent overcrowding, rodent or insect infestation, and garbage accumulation; and barrier-free provisions for ~~the physically handicapped~~ *individuals with physical disabilities* and aged *individuals*. Notwithstanding the provisions of this section, farm buildings and structures shall be exempt from the provisions of the Building Code, except for a building or a portion of a building located on a farm that is operated as a restaurant as defined in § 35.1-1 and licensed as such by the Board of Health pursuant to Chapter 2 (§ 35.1-11 et seq.) of Title 35.1. However, farm buildings and structures lying within a flood plain or in a mudslide-prone area shall be subject to flood-proofing regulations or mudslide regulations, as applicable.

C. Where practical, the Code provisions shall be stated in terms of required level of performance, so as to facilitate the prompt acceptance of new building materials and methods. When generally recognized standards of performance are not available, such provisions shall provide for acceptance of materials and methods whose performance has been found by the local building department, on the basis of reliable test and evaluation data, presented by the proponent, to be substantially equal in safety to those specified.

D. The Board, upon a finding that sufficient allegations exist regarding failures noted in several localities of performance standards by either building materials, methods, or design, may conduct hearings on such allegations if it determines that such alleged failures, if proven, would have an adverse impact on the health, safety, or welfare of the citizens of the Commonwealth. After at least 21 days' written notice, the Board shall convene a hearing to consider such allegations. Such notice shall be given to the known manufacturers of the subject building material and as many other interested parties, industry representatives, and trade groups as can reasonably be identified. Following the hearing, the Board, upon finding that (i) the current technical or administrative Code provisions allow use of or result in defective or deficient building materials, methods, or designs, and (ii) immediate action is necessary to protect the health, safety, and welfare of the citizens of the Commonwealth, may issue amended regulations establishing interim performance standards and Code provisions for the installation, application, and use of such building materials, methods or designs in the Commonwealth. Such amended regulations shall become effective upon their publication in the Virginia Register of Regulations. Any amendments to regulations adopted pursuant to this subsection shall become effective upon their publication in the Virginia Register of Regulations and shall be effective for a period of 24 months or until adopted, modified, or repealed by the Board.

The insurer shall be allowed to charge a premium at the insurer's then customary rate applicable to such group policy for such extended coverage.

E. 1. Upon termination of such group coverage of a child, the child shall be entitled to have issued to him by the insurer, without evidence of insurability, an individual life insurance policy without disability or other supplementary benefits, if:

a. An application for the individual policy is made, and the first premium paid to the insurer, within 31 days after such termination; and

b. The individual policy, at the option of such person, is on any one of the forms then customarily issued by the insurer at the age and for the amount applied for, except that the group policy may exclude the option to elect term insurance;

c. The individual policy is in an amount not in excess of the amount of life insurance which ceases because of such termination, less the amount of any life insurance for which such person becomes eligible under the same or any other group policy within 31 days after such termination, provided that any amount of insurance which has matured on or before the date of such termination as an endowment payable to the person insured, whether in one sum or in installments or in the form of an annuity, shall not, for the purposes of this provision, be included in the amount which is considered to cease because of such termination; and

d. The premium on the individual policy is at the insurer's then customary rate applicable to the form and amount of the individual policy, to the class of risk to which such person then belongs, and to the individual age attained on the effective date of the individual policy.

2. Subject to the same conditions set forth above, the conversion privilege shall be available (i) to a surviving dependent, if any, at the death of the group member, with respect to the coverage under the group policy which terminates by reason of such death, and (ii) to the dependent of the group member upon termination of coverage of the dependent, while the group member remains insured under the group policy, by reason of the dependent ceasing to be a qualified family member under the group policy.

§ 38.2-3409. Coverage of dependent children.

A. Any group or individual accident and sickness insurance policy or subscription contract delivered or issued for delivery in ~~this~~ *the* Commonwealth which provides that coverage of a dependent child shall terminate upon that child's attainment of a specified age, shall also provide in substance that attainment of the specified age shall not terminate the child's coverage during the continuance of the policy while the dependent child is and continues to be both: (i) incapable of self-sustaining employment by reason of intellectual ~~disability~~ or physical ~~handicap,~~ *disability* and (ii) chiefly dependent upon the policyowner for support and maintenance.

B. Proof of incapacity and dependency shall be furnished to the insurer by the policyowner within 31 days of the child's attainment of the specified age. Subsequent proof may be required by the insurer but not more frequently than annually after the two-year period following the child's attainment of the specified age.

C. The insurer may charge an additional premium for any continuation of coverage beyond the specified age. The additional premium shall be determined by the insurer on the basis of the class of risks applicable to the child.

Such warning device shall be used and in operation for at least 100 feet before any proposed stop of such bus if the lawful speed limit is less than ~~thirty-five~~ *35* miles per hour, and for at least 200 feet before any proposed stop of such bus if the lawful speed limit is ~~thirty-five~~ *35* miles per hour or more.

For any new bus placed into service on or after July 1, 2007, such warning devices, at a minimum, shall include a nonsequential system of red traffic warning lights, a warning sign with flashing lights, and a crossing control arm such that when the bus door is opened, the red warning lights, warning sign with flashing lights, and crossing control arm are automatically activated.

Failure of a warning device to function on any school bus shall not relieve any person operating a motor vehicle from his duty to stop as provided in §§ 46.2-844 and 46.2-859.

Any person operating such bus who fails or refuses to equip such vehicle being driven by him with such equipment, or who fails to use such warning devices in the operation of such vehicle ~~shall be~~ *is* guilty of a Class 3 misdemeanor.

Transit buses used to transport school children in the City of Hampton may be equipped with an advisory sign that extends from the left side of the bus and displays the words: "CAUTION-STUDENTS." 3. Automobiles, except those described in subdivisions 7, 8, and 9 of this subsection and in subdivision A 8 of § 58.1-3504, which shall be valued by means of a recognized pricing guide or if the model and year of the individual automobile are not listed in the recognized pricing guide, the individual vehicle may be valued on the basis of percentage or percentages of original cost. In using a recognized pricing guide, the commissioner shall use either of the following two methods. The commissioner may use all applicable adjustments in such guide to determine the value of each individual automobile, or alternatively, if the commissioner does not utilize all applicable adjustments in valuing each automobile, he shall use the base value specified in such guide which may be either average retail, wholesale, or loan value, so long as uniformly applied within classifications of property. If the model and year of the individual automobile are not listed in the recognized pricing guide, the taxpayer may present to the commissioner proof of the original cost, and the basis of the tax for purposes of the motor vehicle sales and use tax as described in § 58.1-2405 shall constitute proof of original cost. If such percentage or percentages of original cost do not accurately reflect fair market value, or if the taxpayer does not supply proof of original cost, then the commissioner may select another method which establishes fair market value.

4. Trucks of less than two tons, which may be valued by means of a recognized pricing guide or, if the model and year of the individual truck are not listed in the recognized pricing guide, on the basis of a percentage or percentages of original cost.

5. Trucks and other vehicles, as defined in § 46.2-100, except those described in subdivisions 4, and 6 through 10 of this subsection, which shall be valued by means of either a recognized pricing guide using the lowest value specified in such guide or a percentage or percentages of original cost.

6. Manufactured homes, as defined in § 36-85.3, which may be valued on the basis of square footage of living space.

7. Antique motor vehicles, as defined in § 46.2-100, which may be used for general transportation purposes as provided in subsection C of § 46.2-730.

8. Taxicabs.

10. Motorcycles, mopeds, all-terrain vehicles, and off-road motorcycles as defined in § 46.2-100, campers and other recreational vehicles, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

11. Boats weighing under five tons and boat trailers, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

12. Boats or watercraft weighing five tons or more, which shall be valued by means of a percentage or percentages of original cost.

15. Tangible personal property used in a research and development business, which shall be valued by means of a percentage or percentages of original cost.

16. Programmable computer equipment and peripherals used in business which shall be valued by means of a percentage or percentages of original cost to the taxpayer, or by such other method as may reasonably be expected to determine the actual fair market value.

17. Computer equipment and peripherals used in a data center, as defined in subdivision A 43 of § 58.1-3506, which shall be valued by means of a percentage or percentages of original cost, or by such other method as may reasonably be expected to determine the actual fair market value.

18. All tangible personal property employed in a trade or business other than that described in subdivisions 1 through 17, which shall be valued by means of a percentage or percentages of original cost.

19. Outdoor advertising signs regulated under Article 1 (§ 33.2-1200 et seq.) of Chapter 12 of Title 33.2.

20. All other tangible personal property.

B. Methods of valuing property may differ among the separate categories, so long as each method used is uniform within each category, is consistent with requirements of this section and may reasonably be expected to determine actual fair market value as determined by the commissioner of revenue or other assessing official; however, assessment ratios shall only be used with the concurrence of the local governing body. A commissioner of revenue shall upon request take into account the condition of the property. The term "condition of the property" includes, but is not limited to, technological obsolescence of property where technological obsolescence is an appropriate factor for valuing such property. The commissioner of revenue shall make available to taxpayers on request a reasonable description of his valuation methods. Such commissioner, or other assessing officer, or his authorized agent, when using a recognized pricing guide as provided for in this section, may automatically extend the assessment if the pricing information is stored in a computer. For any locality in which the commissioner of revenue or other assessing official adjusts the valuation of property described in subdivision A 3 to account for the amount of mileage on such vehicles, such adjustment shall also be provided to motorcycles described in subdivision A 10.

C. The Board shall develop and adopt regulations requiring tradespersons involved with proposing or installing plants to provide written notification to property owners for all plants proposed for installation that are included on the list of invasive plants established in § 10.1-104.6:2.

§ 10.1-104.6:2. Invasive plant species.

A. The Department shall create a list of invasive plant species no later than January 1, 2024, and shall update such list at least every four years thereafter.

B. § 59.1-284.41. Precision Plastic Manufacturing Grant Fund.

A. As used in this chapter, unless the context requires a different meaning:

"Capital investment" means an expenditure by or on behalf of a qualified company on or after June 1, 2022, in real property, tangible personal property, or both, at a facility in an eligible county that is properly chargeable to a capital account or would be so chargeable with a proper election. The purchase or lease of furniture, fixtures, business personal property, machinery and tools, including under an operating lease, and expected building construction and up-fit by or on behalf of a qualified company shall qualify as capital investment.

"Eligible county" means Chesterfield County.

"Facility" means the building, group of buildings, or corporate campus, including any related machinery and tools, furniture, fixtures, and business personal property, that is located at or near a qualified company's operations in an eligible county and is owned, leased, licensed, occupied, or otherwise operated by a qualified company as a temporary or permanent manufacturing and distribution facility for use in the administration, management, and operation of its business.

"Fund" means the Precision Plastic Manufacturing Grant Fund.

"Grants" means the grant payments from the Fund awarded to a qualified company in an aggregate not to exceed $56 million. The proceeds of the grants may be used by the qualified company for payment or reimbursement of the costs of workforce development, costs of construction and development of the facility, or any other lawful purpose.

"Memorandum of understanding" means a performance agreement or related documents entered into on or before June 1, 2022, by a qualified company, the Commonwealth, and VEDP that sets forth the requirements for capital investment and the creation of new full-time jobs by a qualified company in order for a qualified company to be eligible for grants from the Fund.

"New full-time job" means a job position, in which the employee of a qualified company is principally located at a facility, for which the average annual wage for the applicable year is at least equal to the average annual wage for that year required by the memorandum of understanding and the qualified company provides standard fringe benefits. Such position shall require a minimum of either (i) 35 hours of an employee's time per week for the entire normal year of the qualified company's operations, which "normal year" shall consist of at least 48 weeks, or (ii) 1,680 hours per year. Seasonal or temporary positions and positions with construction contractors, vendors, suppliers, and similar multiplier or spin-off jobs shall not qualify as new full-time jobs. The Commonwealth may gauge compliance with the new full-time job requirements for a qualified company by reference to the new payroll generated by a qualified company, if so indicated in the memorandum of understanding.

"Qualified company" means a company, including its affiliates, that engages in the manufacture and distribution of precision plastic products in an eligible county and that between June 1, 2022, and December 31, 2035, is expected to (i) make a capital investment of at least $1 billion and (ii) create at least 1,761 new full-time jobs related to or supportive of its business. A qualified company shall be deemed to be engaged in manufacturing for purposes of Chapter 35 (§ 58.1-3500 et seq.) of Title 58.1.

"Secretary" means the Secretary of Commerce and Trade or his designee.

"VEDP" means the Virginia Economic Development Partnership Authority.

B. There is hereby created in the state treasury a special nonreverting fund to be known as the Precision Plastic Manufacturing Grant Fund. The Fund shall be established on the books of the Comptroller. All funds appropriated to the Fund shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used to pay grants pursuant to this chapter. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller pursuant to subsection F.

C. A qualified company shall be eligible to receive grants each fiscal year expected to begin with the Commonwealth's fiscal year starting on July 1, 2027, and ending with the Commonwealth's fiscal year starting on July 1, 2035, unless such timeframe is extended in accordance with a memorandum of understanding. Grants paid pursuant to this section shall be subject to appropriation by the General Assembly during each such fiscal year and are contingent on a qualified company meeting the requirements set forth in this chapter and the memorandum of understanding for the number of new full-time jobs created and maintained and the amount of capital investment made. The first grant payment shall not be awarded until a qualified company has created at least 500 new full-time jobs.

D. The aggregate amount of grants payable under this section shall not exceed $56 million. Grants are anticipated to be paid in nine annual installments, calculated in accordance with a memorandum of understanding as follows:

1. $5,939,900 for the Commonwealth's fiscal year beginning July 1, 2027;

2. $13,422,500, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2028;

3. $19,582,100, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2029;

4. $25,876,700, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2030;

5. $32,774,300, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2031;

6. $40,103,900, less the total amount of grants previously awarded pursuant to this subsection, for the Commonwealth's fiscal year beginning July 1, 2032;

7. $46,443,500, less the total amount of grants previously awarded pursuant to this subsection for the Commonwealth's fiscal year beginning July 1, 2033;

8. $52,783,100, less the total amount of grants previously awarded pursuant to this subsection for the Commonwealth's fiscal year beginning July 1, 2034; and

9. $56 million, less the total amount of grants previously awarded pursuant to this subsection for the Commonwealth's fiscal year beginning July 1, 2035.

In accordance with a memorandum of understanding, actual payment amounts and fiscal years may differ from the schedule above and may be extended beyond the fiscal year beginning July 1, 2035, but the aggregate amount of grant payments shall not exceed $56 million.

E. A qualified company applying for a grant installment under this section shall provide evidence satisfactory to the Secretary of (i) the aggregate number of new full-time jobs created and maintained as of the last day of the calendar year

preceding the application and (ii) the amount of capital investment made in the calendar year preceding the application. The application and evidence shall be filed with the Secretary in person, by mail, or as otherwise agreed upon in a memorandum of understanding no later than April 1 each year reflecting performance through the last day of the prior calendar year. Failure to meet the filing deadline shall result in a deferral of a scheduled grant installment payment set forth in subsection D. For filings by mail, the postmark cancellation shall govern the date of the filing determination.

F. Within 60 days of receiving an application and evidence pursuant to subsection E, the Secretary shall certify to the Comptroller and the qualified company the amount of grants to which such qualified company is entitled for payment. Payment of such grants shall be made by check issued by the State Treasurer on warrant of the Comptroller in the Commonwealth's fiscal year following the submission of an application. The Comptroller shall not draw any warrant to issue checks for grants without a specific appropriation for the same.

G. As a condition of receipt of grants under this section, a qualified company shall make available to the Secretary for inspection, upon request, all documents relevant and applicable to determining whether the qualified company has met the requirements for receipt of a grant as set forth in this section and subject to the memorandum of understanding. All such documents appropriately identified by a qualified company shall be considered confidential and proprietary.

CHAPTER 158

An Act to amend and reenact § 22.1-253.13:3 of the Code of Virginia, relating to certain student assessment results; availability.

[H 2225]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:3 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for

graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to meet the standards established by the Board, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

B. The Superintendent shall develop, subject to revision by the Board, criteria for determining and recognizing educational performance in the Commonwealth's local school divisions and public schools. The portion of such criteria that measures individual student growth shall become an integral part of the accreditation process for schools in which any grade level in the grade three through eight range is taught. The Superintendent shall annually report to the Board on the accreditation status of all school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance and individual student growth in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent shall assist local school boards in the implementation of action plans for increasing educational performance and individual student growth in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment, the Board shall establish, for the purpose of providing measures of individual student growth over the course of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the administration of reading and mathematics assessments in grades three through eight. Such through-year growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores over the course of the school year, but the total time scheduled for taking all such assessments shall not exceed 150 percent of the time scheduled for taking a single end-of-year proficiency

assessment. The Department shall ensure adequate training for teachers and principals on how to interpret and use student growth data from such assessments to improve reading and mathematics instruction in grades three through eight throughout the school year. With such funds and content as are available for such purpose, such through-year growth assessment system shall provide accurate measurement of a student's performance, through computer adaptive technology, using test items at, below, and above the student's grade level as necessary.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Department shall make available to school divisions Standards of Learning assessments typically administered by high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Board shall include in the student outcome and growth measures that are required by the standards of accreditation the required assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade eight; (v) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board. The reading and mathematics assessments administered to students in grades three through eight shall be through-year growth assessments.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department shall award recovery credit to any student in grades three through eight who performs below grade level on a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and performs at or above grade level on such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board shall (1) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board shall provide notice to local school boards regarding such special provisions.

The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or the level of achievement of the Standards of Learning objectives for an individual student growth assessment for the purposes of state

accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 10 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. *Each school board shall provide teachers, parents, principals, and other school leaders with their students' results on any Standards of Learning assessment or Virginia Alternate Assessment Program assessment as soon as practicable after the assessment is administered.* Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board, the results from industry certification examinations and the Standards of Learning ~~Assessments~~ *assessments* to the public.

The Board shall include requirements for the reporting of the Standards of Learning assessment data, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards for Accreditation pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board based on submission of a request from the division superintendent and chairman of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a

sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

CHAPTER 159

An Act to amend and reenact § 22.1-253.13:3 of the Code of Virginia, relating to certain student assessment results; availability.

[S 1253]

Approved March 22, 2023

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:3 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to meet the standards established by the Board, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

B. The Superintendent shall develop, subject to revision by the Board, criteria for determining and recognizing educational performance in the Commonwealth's local school divisions and public schools. The portion of such criteria that measures individual student growth shall become an integral part of the accreditation process for schools in which any grade

level in the grade three through eight range is taught. The Superintendent shall annually report to the Board on the accreditation status of all school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance and individual student growth in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent shall assist local school boards in the implementation of action plans for increasing educational performance and individual student growth in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment, the Board shall establish, for the purpose of providing measures of individual student growth over the course of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the administration of reading and mathematics assessments in grades three through eight. Such through-year growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores over the course of the school year, but the total time scheduled for taking all such assessments shall not exceed 150 percent of the time scheduled for taking a single end-of-year proficiency assessment. The Department shall ensure adequate training for teachers and principals on how to interpret and use student growth data from such assessments to improve reading and mathematics instruction in grades three through eight throughout the school year. With such funds and content as are available for such purpose, such through-year growth assessment system shall provide accurate measurement of a student's performance, through computer adaptive technology, using test items at, below, and above the student's grade level as necessary.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Department shall make available to school divisions Standards of Learning assessments typically administered by high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Board shall include in the student outcome and growth measures that are required by the standards of accreditation the required assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade eight; (v) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board. The reading and mathematics assessments administered to students in grades three through eight shall be through-year growth assessments.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department shall award recovery credit to any student in grades three through eight who performs below grade level on a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and performs at or above grade level on such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board shall (1) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board shall provide notice to local school boards regarding such special provisions.

The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or the level of achievement of the Standards of Learning objectives for an individual student growth assessment for the purposes of state accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 10 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. *Each school board shall provide teachers, parents, principals, and other school leaders with their students' results on any Standards of Learning assessment or Virginia Alternate Assessment Program assessment as soon as practicable after the assessment is administered.* Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board, the results from industry certification examinations and the Standards of Learning ~~Assessments~~ *assessments* to the public.

The Board shall include requirements for the reporting of the Standards of Learning assessment data, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be

reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.
