§ 2.2-2489. Award of grants to regional councils.

A. The Board shall establish guidelines, procedures, and objective criteria for the award and distribution of grants from the Fund to regional councils.

B. In order to qualify to receive grants from the Fund, a regional council shall develop an economic growth and diversification plan to (i) promote private-sector growth and opportunity in the region; (ii) identify issues of economic competitiveness for the region, including gaps in education and skills required to meet existing and prospective employer needs within the region; and (iii) outline steps that the collaborating business, education, and government entities in the region will pursue to expand economic opportunity, diversify the economy, and align workforce development activities with the education and skills needed by employers in the region. A regional council shall review such plan not less than biennially while the regional council is receiving grants from the Fund.

C. The Board shall only consider those regional activities endorsed by a regional council in its application for grants from the Fund. For any regional activity included in a regional council's application, the regional council shall identify (i) the amount of grants requested and the number of years for which grants are sought; (ii) the participating business, education, and government entities and their respective roles and contributions; (iii) the private, local, and other sources of nonstate funding that the grant from the Fund will assist in generating, including specific amounts pledged by such sources as of the application date; (iv) how the regional activity addresses the skills gaps identified in the council's economic growth and diversification plan; and (v) the economic impact or other outcomes that are reasonably expected to result from the proposed regional activity, including timetables and means of measurement.

D. Regional activities eligible for grants from the Fund shall be focused on high-impact, collaborative projects in a region that promote new job creation, entrepreneurship, and new capital investment; leverage nonstate resources to enhance collaboration; foster research, development, and commercialization activities; encourage cooperation among public bodies to reduce costs and duplication of government services; and promote other economic or workforce development activities consistent with this article that are authorized by the Board. The Board shall give initial priority to grant proposals that promote workforce development and other activities focused on eliminating skills gaps identified in a region's economic growth and diversification plan.

E. In determining a regional council's eligibility to receive grants from the Fund, and the amount of such grants, the Board shall review and score the proposed regional activities. Scores shall be assigned on the basis of predetermined criteria established by the Board in its guidelines and procedures based on the following factors:

1. The expected economic impact or outcome of the activity, with particular emphasis on goals identified in the regional council's plan for economic growth and diversification;

2. The fiscal resources from non-Fund sources that will be committed to the activity, including local or federal funds, private contributions, and cost savings expected to be achieved through regional collaboration;

4. The compatibility with other projects, programs, or existing infrastructure in a region to maximize the leverage of grants from the Fund to encourage new collaborative activities;

5. The expected economic impact and outcomes of the project and the complexity of the project relative to the size of the economy of the region or to the population of the participating localities;

6. The projected cost savings and other efficiencies generated by the proposed activity, and the local resources generated by collaboration that have been or will be repurposed to support the activity;

7. The character of the regional collaboration, including the nature and extent of the regional effort involved in developing and implementing the proposed activity, the complexity of the activity, the prospective impact on relations between and among the affected localities, and the prospective impact on collaboration between and among business, education, and government entities in the region;

8. Interstate, inter-regional, and other beneficial forms of collaboration, if any, that will accompany, result from, or be encouraged by the activity;

9. Efficiency in the administration and oversight of regional activities; and

10. Other factors deemed to be appropriate by the Board.

F. Each regional council awarded a grant from the Fund shall issue an annual report that shall include, at a minimum, an assessment of the impact and outcomes from regional activities supported by grants from the Fund and the region's overall progress in addressing the goals and strategies identified in the region's plan for economic growth and diversification. Such assessment shall address performance criteria prescribed in the program guidelines and procedures.

G. Subject to the provisions of § 2.2-2488 and this section, once a regional council becomes eligible for grants from the Fund, the regional council may continue to apply for and receive grants from the Fund to support economic activities consistent with the regional council's economic growth and diversification plan in such amounts and for such duration as the Board may determine in accordance with its guidelines and procedures. The Board may terminate any payments to regional councils that fail to perform in accordance with this article, the Board's guidelines or procedures, or any conditions expressly agreed upon as part of a grant award, or for malfeasance. The Board may require the refund of moneys from the Fund upon such termination. Grants that are terminated shall revert to the Fund for distribution on an unallocated competitive basis.

H. In making Fund recommendations and awards, the Board may consider regional activities that commenced prior to the enactment of this article, provided that the grant-funded program or project will expand the scope of, or increase the number of localities participating in, such preexisting activity.

I. No regional council may have outstanding grant commitments of more than 25 percent of the total amount appropriated to the Fund.

J. The year for grant payments shall be the Commonwealth's fiscal year following the calendar year in which the region qualifies, with payments made annually by the Comptroller upon certification by the Board. Grant amounts shall be made at the sole discretion of the Board.

For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. [H 27]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 63.2-900.1 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Chapter 15 of Title 63.2 an article numbered 7, consisting of sections numbered 63.2-1531 through 63.2-1536, as follows:

§ 63.2-900.1. Kinship foster care.

A. *When placing a child, the local board shall first consider placement with a kinship foster parent.*

B. The local board shall, in accordance with regulations adopted by the Board, determine whether the child has any relative who may be eligible to become a kinship foster parent. Searches for relatives eligible to serve as kinship foster parents shall be conducted at the time the child enters foster care, at least annually thereafter, and prior to any subsequent changes to the child's placement setting. The local board shall take all reasonable steps to provide notice to such relatives of their potential eligibility to become kinship foster parents and explain any opportunities such relatives may have to participate in the placement and care of the child, including opportunities available through kinship foster care or kinship guardianship.

If a relative requests to become the child's kinship foster parent, the local board shall provide the relative with any forms or materials that must be submitted in order to become a kinship foster parent within no more than 15 days of such request. If the relative's request to become a kinship foster parent is denied, the local board shall provide to the relative (i) a clear and specific explanation of the reasons for such denial, (ii) a statement that such denial is appealable pursuant to § 63.2-915, and (iii) information regarding the procedure for filing such appeal.

~~B.~~ *C. If a local board does not place a child with an approved kinship foster parent, the local board shall file an exception report with the Commissioner within 72 hours of placement. For the purposes of this section, an exception report is defined as a report that has been approved by a director of a local department prior to placing a child in a non-kinship foster care placement and documents all known relatives and fictive kin of the child, all efforts of the local board to locate relatives and fictive kin of the child, and the reasons why the child was not placed with relatives.*

D. Kinship foster care placements pursuant to this section shall be subject to all requirements of, and shall be eligible for all services related to, foster care placement contained in this chapter. Subject to approval by the Commissioner, a local board may grant a waiver of the Board's standards for foster home approval, set forth in regulations, that are not related to safety. Training requirements may be waived for purposes of initial approval; however, such training requirements shall be completed within six months of the initial approval. If a local board determines that training requirements are a barrier to placement with a kinship foster parent and that placement with such kinship foster parent is in the child's best interest, the local board shall submit a waiver request to the Commissioner. Waivers granted pursuant to this subsection shall be considered and, if appropriate, granted on a case-by-case basis and shall include consideration of the unique needs of each child to be placed. Upon request by a local board, the Commissioner shall review the local board's decision and reasoning to grant a waiver and shall verify that the foster home approval standard being waived is not related to safety. If the Commissioner grants the waiver and allows approval of the home in accordance with Board regulations, the child may be placed in the home immediately. The approval or disapproval by the Commissioner of the local board's waiver shall not be considered a case decision as defined in § 2.2-4001.

~~C.~~ *E.* The kinship foster parent shall be eligible to receive payment at the full foster care rate for the care of the child.

~~D.~~ *F.* During the process of determining whether a person should be approved as a kinship foster parent, a local board shall not require that the child be removed from the physical custody of the kinship foster parent who is the subject of such approval process, provided the placement remains in the child's best interest.

~~E.~~ *G.* A child placed in kinship foster care pursuant to this section shall not be removed from the physical custody of the kinship foster parent, provided that the child has been living with the kinship foster parent for six consecutive months and the placement continues to meet approval standards for foster care, unless (i) the kinship foster parent consents to the removal; (ii) removal is agreed upon at a family partnership meeting as defined by the Department; (iii) removal is ordered by a court of competent jurisdiction; or (iv) removal is warranted pursuant to § 63.2-1517.

~~F.~~ *H.* For purposes of this section, "relative" means an adult who is (i) related to the child by blood, marriage, or adoption or (ii) fictive kin of the child.

F. The local department shall include a scanned copy of the parental child safety placement agreement in the case record.

G. The term of the parental child safety placement agreement shall be no more than 90 days from the date the agreement is signed, which shall, as applicable, run concurrently with the time necessary to complete the child protective services investigation or family assessment. A parental child safety placement agreement may be extended, but such extension shall not exceed one additional 90-day period and the reason for such extension shall be documented in the case record. Prior to any extension, the local department shall conduct a facilitated meeting and perform a safety assessment to determine whether (i) the child should be returned home, (ii) the agreement should be extended, or (iii) the local department should seek a child protective order or other court action.

H. The In-Home Services case shall remain open for the duration of the parental child safety placement agreement.

§ 63.2-1534. Caregiver assessment.

A. The local department shall assess the proposed caregiver and determine whether the proposed caregiver (i) is willing and qualified to receive and care for the child; (ii) is willing to have a positive, continuous relationship with the child; and (iii) is willing and has the ability to protect the child from abuse and neglect. Such assessment shall include requirements for (a) inquiry into the criminal and child protective services history of each adult in the proposed caregiver's household and (b) an assessment of the caregiver's home environment in accordance with Board regulations.

B. The local department shall document the results of the assessment of the proposed caregiver and his home environment in the case record.

C. If, after conducting the assessment of the proposed caregiver, the local department determines that it is not in the child's best interests to be placed with the proposed caregiver, the local department shall notify the child's parent, guardian, or legal custodian and the proposed caregiver of the reasons for the local department's determination but may not disclose the results of any criminal or child protective services history unless the proposed caregiver consents to such disclosure.

§ 63.2-1535. Termination of the parental child safety placement agreement and the alternative living arrangement.

A. Prior to the conclusion of a parental child safety placement agreement, the local department shall reassess the safety of the child if the child were to be returned home.

B. If it is determined that the child can be safely returned home prior to or at the conclusion of the parental child safety placement agreement, the local department shall develop a safety plan with the child's parent, guardian, or legal custodian and the caregiver for the safe return of the child to the child's parent, guardian, or legal custodian or to another legal custodian. The local department may take the following actions if it is determined that continued services are required for the child to safely return home:

1. Maintain an open In-Home Services case for continued services with the agreement of the child's parent, guardian, or legal custodian; or

2. Seek a child protective order or other court action to order continued services if the child's parent, guardian, or legal custodian does not agree to the In-Home Services case remaining open for continued services.

C. If it is determined that the child cannot be safely returned home at the conclusion of the parental child safety placement agreement, the local department shall seek removal of the child from the child's parent, guardian, or legal custodian, upon a petition alleging abuse or neglect pursuant to § 16.1-251 or 16.1-252.

1. Prior to the first court hearing, the local department shall make reasonable efforts to convene a facilitated meeting that includes the child's parent, guardian, or legal custodian, the caregiver, and the child, if 12 years of age or older, to collaboratively develop an alternate living arrangement service plan. During such meeting, the local department shall notify the child's parent, guardian, or legal custodian and the caregiver of all possible options for the care of the child, to include foster care, kinship foster care, and the transfer of temporary custody to the caregiver.

2. If the court orders temporary custody of the child to the caregiver, the local department may continue to provide services to the caregiver and child through an In-Home Services case, consistent with the alternate living arrangement service plan. At the dispositional hearing of the local department's petition, if the child cannot be safely returned to the child's parent, guardian, or legal custodian, the local department shall either:

a. If reunification of the child with the child's parent, guardian, or legal custodian remains the plan, request that the court continue temporary custody of the child with the caregiver, if appropriate, and enter such terms and conditions that would promote the child's interest and welfare, provide ongoing services to the family, and provide for further court review of the child's placement in accordance with the court's authority in subdivision A 1 of § 16.1-278.2; or

b. If reunification of the child with the child's parent, guardian, or legal custodian is no longer the plan, request the court to enter a final order of custody to the caregiver. If further services are necessary to ensure the child's safety and welfare with the caregiver, the local department may keep the case open as an In-Home Services case until stability for the child is achieved.

3. If the court denies the removal of the child, the local department shall seek a child protective order to provide continued services for the child and the child's parent, guardian, or legal custodian to ensure the child's safety and welfare. If the child protective order is granted, the case shall remain open as an In-Home Services case.

4. The alternate living arrangement service plan shall include provisions describing the following:

a. The facts and circumstances that provide the basis for the safety assessment indicating that the child cannot remain safely in the home;

b. The responsibilities of the child's parent, guardian, or legal custodian and the caregiver;

c. Visitation arrangements for the child's parent, guardian, or legal custodian and conditions under which and methods by which the child's parent, guardian, or legal custodian may contact the child;

d. The responsibilities of the local department, including any services to be provided to the child, the child's parent, guardian, or legal custodian, and the caregiver; and

e. Any other term the local department determines necessary for the safety and welfare of the child.

§ 63.2-1536. General provisions.

A. Nothing herein shall be deemed to prohibit the local department from seeking any other appropriate court action at any time to protect the health and welfare of the child.

B. Nothing herein shall be deemed to prohibit a caregiver or other person with a legitimate interest from petitioning the court for custody of the child. If the caregiver petitions for custody, the local department shall make reasonable efforts to conduct a facilitated meeting to discuss the continuation of services for the child and family.

2. That the provisions requiring a local board to file an exception report, established pursuant to § 63.2-900.1 of the Code of Virginia, as amended by this act, shall become effective on January 1, 2025.

3. That the State Board of Social Services (the Board) shall promulgate regulations to implement the provisions of this act by January 1, 2025. The Board's initial adoption of such regulations and any other regulations necessary to implement the provisions of this act shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia), except that the Board shall provide an opportunity for public comment on such regulations prior to adoption.

CHAPTER 636

An Act to amend and reenact § 58.1-3975 of the Code of Virginia, relating to nonjudicial sale of tax delinquent real properties; unimproved properties within urban redevelopment or revitalization zone.

[H 258]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3975 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3975. Nonjudicial sale of tax delinquent real properties of minimal size and value.

A. Notwithstanding any other provision of this title, the treasurer or other officer responsible for collecting taxes may sell, at public auction, any parcel of real property that is assessed at $10,000 or less, provided that the taxes on such parcel are delinquent on December 31 following the third anniversary of the date on which such taxes have become due.

B. The treasurer or other officer responsible for collecting taxes may in addition sell, at public auction, any parcel of real property that is assessed at more than $10,000 but no more than $25,000, provided that the taxes on such parcel are delinquent on December 31 following the third anniversary of the date on which such taxes have become due, it is not subject to a recorded mortgage or deed of trust lien, and such parcel:

1. Is unimproved and measures no more than 43,560 square feet (1.0 acre);

2. Is unimproved and is determined to be unsuitable for building due to the size, shape, zoning, floodway, or other environmental designations of the parcel made by the locality's zoning administrator or other official designated by the locality to administer its zoning ordinance and carry out the duties set forth in subdivision A 4 of § 15.2-2286;

3. Has a structure on it that has been condemned by the local building official pursuant to applicable law or ordinance;

4. Has been declared by the locality a nuisance as that term is defined in § 15.2-900;

5. Contains a derelict building as that term is defined in § 15.2-907.1; or

6. Has been declared by the locality to be blighted as that term is defined in § 36-3.

For purposes of determining the area of any parcel, the area or acreage found in the locality's land book shall be determinative.

C. *The treasurer or other duly authorized official responsible for collecting taxes may in addition sell, at public auction, any parcel of real property that is assessed at more than $25,000 but no more than $40,000, provided that the taxes on such parcel are delinquent on December 31 following the third anniversary of the date on which such taxes have become due, such parcel is not subject to a recorded mortgage or deed of trust lien, such parcel is within an area designated by the local governing body as an urban redevelopment or revitalization zone, and such parcel is unimproved and measures no more than 21,825 square feet (0.5 acre). For purposes of determining the area of any parcel, the area or acreage found in the locality's land book shall be determinative.*

D. At least 30 days prior to conducting a sale under this section, the treasurer or other officer responsible for collecting taxes shall:

1. Send notice by certified or registered mail to the record owner or owners of such property and anyone appearing to have an interest in the property at their last known address as contained in the records of the treasurer or other officer responsible for collecting taxes; and

2. Post notice of such sale at the property location, if such property has frontage on any public or private street, and at the circuit courthouse of the locality.

~~D.~~ *E.* The treasurer or other officer responsible for collecting taxes shall also cause a notice of sale to be published in the legal classified section of a newspaper of general circulation in the locality in which the property is located at least seven days prior to the sale; however, if the annual taxes assessed on the property are less than $500, such notice may be placed, in lieu of publication, on the treasurer's or local government's website beginning at least seven days prior to sale and through the date of sale. The pro rata costs of posting notice, publication, and mailing shall become a part of the tax and shall be collected if payment is made in redemption of such real property.

~~E.~~ *F.* The treasurer or other officer responsible for collecting taxes may advertise and sell multiple parcels at the same time and place pursuant to one notice of sale.

~~F.~~ *G.* The treasurer or other officer responsible for collecting taxes may enter into an agreement with the owner of such parcel for payment over time.

~~G.~~ *H.* The owner of any property, or other interested party, may redeem it at any time prior to the date of the sale by paying all accumulated taxes, penalties, interest, and costs thereon, including reasonable attorney fees. Partial payment of delinquent taxes, penalties, interest, or costs shall be insufficient to redeem the property and shall not operate to suspend, invalidate, or nullify any sale brought pursuant to this section.

~~H.~~ *I.* At the time of sale, the treasurer or other officer responsible for collecting taxes shall sell to the highest bidder at public auction each parcel that has not been redeemed by the owner. Such sale shall be free and clear of the locality's tax lien, but shall not affect easements or other rights of record recorded prior to the date of sale or liens recorded prior to the date of sale unless the treasurer has given the lienholder written notice of the sale at least 30 days prior to the sale, at the lienholder's address of record and through his registered agent, if any. The treasurer or other officer responsible for collecting taxes shall tender a special warranty deed pursuant to this section to effectuate the conveyance of the parcel to the highest bidder.

~~I.~~ *J.* If the sale proceeds are insufficient to pay the amounts owed in full, the treasurer or other officer responsible for collecting taxes may remove the unpaid taxes from the books and mark the same as satisfied. The sale proceeds shall be applied first to the costs of sale, then to the taxes, penalty, interest, and fees due on the parcel, and thereafter to any other taxes or other charges owed by the former owner to the jurisdiction.

~~J.~~ *K.* Any excess proceeds shall remain the property of the former owner, subject to claims of creditors, and shall be kept by the treasurer or other officer responsible for collecting taxes in an interest-bearing escrow account. If any petition for excess proceeds is made to the treasurer or other officer responsible for collecting taxes under this section, the treasurer or officer holding the funds shall forward the funds to the locality's circuit court clerk to be interpleaded along with a copy of the claim for excess proceeds. A copy of such transmission shall be forwarded to the claimant. The burden of scheduling a hearing with the circuit court on the claim shall be that of the claimant and shall be made within two years of the date of the sale of the property that generated the excess funds. In the event that funds remain with the court two years after the date of the sale, the locality may petition to have the funds distributed to the locality's general fund. If no claim for payment of excess proceeds is made within two years after the date of sale, the treasurer or other responsible officer shall deposit the excess proceeds in the jurisdiction's general fund.

~~K.~~ *L.* If the sale does not produce a successful bidder, the treasurer or other responsible officer shall add the costs of sale incurred by the jurisdiction to the delinquent real estate account.

The Commission shall make all reasonable efforts to ensure that this form is as accessible as possible for residential electric, gas, water, and wastewater utility customers. The regulations shall (i) be adopted in accordance with the Commission's Rules of Practice and Procedure; (ii) be effective not later than July 1, 2025; (iii) establish a cost recovery mechanism under which utilities and cooperatives that provide electric, gas, water, or wastewater services shall be authorized to recover, from approved rates collected from other customers or other sources of revenue, any losses on customer accounts the balance of which is written off or otherwise determined to be uncollectible as the result of the implementation of the regulations; and (iv) define "serious medical condition." No later than November 1, 2026, and every three years thereafter, the Commission shall submit a report to the General Assembly on the effectiveness of the serious medical condition policy after implementation and shall include any suggested changes to improve accessibility to such policy for residential utility customers.*

3. The customer provides the retail establishment with evidence of the customer's eligible medical condition. Such evidence shall indicate that the customer suffers from an eligible medical condition and shall either be a copy of a statement signed by a medical professional on a prescription form or an identification card; and

A. It shall be unlawful for any owner or any other person, firm, or corporation, on or after the effective date of any Code provisions, to violate any such provisions. Any such violation shall be deemed a misdemeanor and any owner or any other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $2,500. ~~In addition, each day the violation continues after conviction or the court-ordered abatement period has expired shall constitute a separate offense.~~ If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate or remedy the violation within six months of the date of conviction. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense. Any person*, firm, or corporation* convicted of a second offense committed within less than five years after a first offense under this chapter shall be punished by a fine of not less than $1,000 nor more than $2,500. Any person*, firm, or corporation* convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $500 nor more than $2,500. Any person*, firm, or corporation* convicted of a third or subsequent offense ~~involving the same property~~ committed within 10 years of an offense under this chapter after having been at least twice previously convicted shall be punished by confinement in jail for not more than 10 days and a fine of not less than ~~$2,500~~ *$5,000* nor more than ~~$5,000~~ *$10,000*, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

B. Violations of any provision of the Building Code, adopted and promulgated pursuant to § 36-103, that results in a dwelling not being a safe, decent and sanitary dwelling, as defined in § 25.1-400, in a locality where the local governing body has taken official action to enforce such provisions, shall be deemed a misdemeanor and any owner or any other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $2,500. In addition, each day the violation continues after conviction or the expiration of the court-ordered abatement period shall constitute a separate offense. If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate or remedy the violation within six months of the date of conviction. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense. Any person convicted of a second offense, committed within less than five years after a first offense under this chapter shall be punished by confinement in jail for not more than five days and a fine of not less than $1,000 nor more than $2,500, either or both. Provided, however, that the provision for confinement in jail shall not be applicable to any person, firm, or corporation, when such violation involves a multiple-family dwelling unit. Any person convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $500 nor more

than $2,500. Any person convicted of a third or subsequent offense involving the same property, committed within 10 years of an offense under this chapter after having been at least twice previously convicted, shall be punished by confinement in jail for not more than 10 days and a fine of not less than $2,500 nor more than $5,000, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

C. *Violations of any provision of the Building Code, adopted and promulgated pursuant to § 36-103, at a dwelling unit of a multifamily property that the local governing body has declared blighted pursuant to § 36-49.1:1 or 36-105.1:1, and where the local governing body has taken official action to enforce such provisions, shall be deemed a misdemeanor and any owner or any other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $10,000. If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code within a time period that is determined by the court and appropriate considering the circumstances of the violation. The abatement period shall not be longer than six months. If the court fails to define an abatement period, the period shall be seven calendar days. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense.*

Any person, firm, or corporation convicted of a second offense committed within less than five years after a first offense under this chapter shall be punished by confinement in jail for not more than five days and a fine of not less than $2,500 nor more than $10,000, either or both.

Any person, firm, or corporation convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $1,000 nor more than $10,000. Any person, firm, or corporation convicted of a third or subsequent offense committed within 10 years of an offense under this chapter after having been at least twice previously convicted shall be punished by confinement in jail for not more than 10 days and a fine of not less than $5,000 nor more than $10,000, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

D. Any locality may adopt an ordinance which establishes a uniform schedule of civil penalties for violations of specified provisions of the Code which are not abated, or otherwise remedied through hazard control, promptly after receipt of notice of violation from the local enforcement officer.

This schedule of civil penalties shall be uniform for each type of specified violation, and the penalty for any one violation shall be a civil penalty of not more than $100 for the initial summons and not more than $350 for each additional summons. Each day during which the violation is found to have existed shall constitute a separate offense. However, specified violations arising from the same operative set of facts shall not be charged more frequently than once in any 10-day period, and a series of specified violations arising from the same operative set of facts shall not result in civil penalties which exceed a total of $4,000. Designation of a particular Code violation for a civil penalty pursuant to this section shall be in lieu of criminal sanctions, and except for any violation resulting in injury to persons, such designation shall preclude the prosecution of a violation as a misdemeanor.

Any person summoned or issued a ticket for a scheduled violation may make an appearance in person or in writing by mail to the department of finance or the treasurer of the locality prior to the date fixed for trial in court. Any person so appearing may enter a waiver of trial, admit liability, and pay the civil penalty established for the offense charged. Such persons shall be informed of their right to stand trial and that a signature to an admission of liability will have the same force and effect as a judgment of court. As a condition of waiver of trial, admission of liability, and payment of a civil penalty, the violator and a representative of the locality shall agree in writing to terms of abatement or remediation of the violation within six months after the date of payment of the civil penalty.

If a person charged with a scheduled violation does not elect to enter a waiver of trial and admit liability, the violation shall be tried in the general district court in the same manner and with the same right of appeal as provided for by law. In any trial for a scheduled violation authorized by this section, it shall be the burden of the locality to show the liability of the violator by a preponderance of the evidence. An admission of liability or finding of liability shall not be a criminal conviction for any purpose.

If the violation concerns a residential unit, and if the violation remains uncorrected at the time of assessment of the civil penalty, the court shall order the violator to abate, or otherwise remedy through hazard control, the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate, or otherwise remedy through hazard control, the violation within six months of the date of the assessment of the civil penalty.

If the violation concerns a nonresidential building or structure, and if the violation remains uncorrected at the time of assessment of the civil penalty, the court may order the violator to abate, or otherwise remedy through hazard control, the violation in order to comply with the Code. Any such violator so ordered shall abate, or otherwise remedy through hazard control, the violation within the time specified by the court.

~~D.~~ *E.* Any owner or any other person, firm or corporation violating any Code provisions relating to lead hazard controls that poses a hazard to the health of pregnant women and children under the age of six years who occupy the premises shall, upon conviction, be guilty of a misdemeanor and shall be subject to a fine of not more than $2,500. If the court convicts pursuant to this subsection and sets a time by which such hazard must be controlled, each day the hazard remains uncontrolled after the time set for the lead hazard control has expired shall constitute a separate violation of the Uniform Statewide Building Code.

The landlord shall maintain the painted surfaces of the dwelling unit in compliance with the International Property Maintenance Code of the Uniform Statewide Building Code. The landlord's failure to do so shall be enforceable in accordance with the Uniform Statewide Building Code and shall entitle the tenant to terminate the rental agreement.

Termination of the rental agreement or any other action in retaliation against the tenant after written notification of (i) a lead hazard in the dwelling unit or (ii) that a child of the tenant, who is an authorized occupant in the dwelling unit, has an elevated blood lead level, shall constitute retaliatory conduct in violation of § 55.1-1258.

~~E.~~ *F.* Nothing in this section shall be construed to prohibit a local enforcement officer from issuing a summons or a ticket for violation of any Code provision to the lessor or sublessor of a residential dwelling unit, provided a copy of the notice is served on the owner.

~~F.~~ *G.* Any prosecution under this section shall be commenced within the period provided for in § 19.2-8.

CHAPTER 642

An Act to amend and reenact § 22.1-298.1, as it shall become effective, of the Code of Virginia, relating to teachers; certain licenses and certificates.

[H 632]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-298.1, as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 22.1-298.1. (For effective date, see Acts 2022, cc. 549 and 550, cl. 2) Regulations governing licensure.

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection ~~N~~ *O* or regulations issued by the Board ~~of Education~~.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a ~~Board of Education-approved~~ *Board-approved* industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means ~~a process used to issue~~ *the issuance of* a license *as a teacher in the Commonwealth* to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the ~~Board of Education's~~ *Board's* regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board ~~of Education~~.

"Provisional license" means a nonrenewable license issued by the Board ~~of Education~~ *or by a division superintendent as permitted pursuant to subdivision D 5* for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the ~~Board of Education's~~ *Board's* regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board ~~of Education~~ for 10 years to an individual who meets the requirements specified in the ~~Board of Education's~~ *Board's* regulations.

"Universal licensure by reciprocity" means the issuance of a license as a teacher in the Commonwealth to any individual who holds a valid out-of-state teaching license with full credentials and without deficiencies that has been in force and in use by the individual as an employed teacher in a non-virtual classroom setting at a public or private elementary or secondary school for at least three years prior to and is in force at the time the Department receives such individual's application for a license as a teacher in the Commonwealth.

B. The Board ~~of Education~~ shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders on grounds established by the Board, in accordance with law, notice of which shall be made by the Superintendent ~~of Public Instruction~~ to division superintendents or their designated representatives; and (iii) the immediate and thorough investigation by the division superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. At a minimum, such procedures for investigations contained in such regulations shall require (a) the division superintendent to petition for the revocation of the license upon completing such investigation and finding that there is reasonable cause to believe that the license holder has engaged in conduct that forms the basis for revocation of a license; (b) the school board to proceed to a hearing on such petition for revocation within 90 days of the mailing of a copy of the petition to the license holder, unless the license holder requests the cancellation of his license in accordance with Board regulations; and (c) the school board to provide a copy of the investigative file and such petition for revocation to the Superintendent ~~of Public Instruction~~ at the time that the hearing is scheduled. The Board ~~of Education~~ shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § 63.2-1526 have been exhausted. In the case of a teacher who is the subject of a founded complaint of child abuse or neglect and whose license has been revoked pursuant to this subsection, in the event that a court reverses such finding of abuse or neglect and the individual submits to the Department an application for the

reinstatement of his license as a teacher, the Board shall consider and act upon such application no later than 90 days after the date of submission. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board ~~of Education~~ shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board ~~of Education~~ shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. Such license shall be valid only for teaching online courses. Teachers who hold a 10-year renewable license issued by the Board ~~of Education~~ may teach online courses for which they are properly endorsed.

C. The ~~Board of Education's~~ *Board's* regulations shall include requirements that a person seeking initial licensure:

1. Demonstrate proficiency in the relevant content area, communication, literacy, and other core skills for educators by achieving a qualifying score on professional assessments or meeting alternative evaluation standards as prescribed by the Board. 2. Every person seeking renewal of a license shall complete all renewal requirements, including professional development in a manner prescribed by the Board, except that no person seeking renewal of a license shall be required to satisfy any such requirement by completing coursework and earning credit at an institution of higher education;

The certification or training program shall (i) be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross, and (ii) include hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training;

4. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille;

CHAPTER 643

An Act to amend and reenact § 37.2-810 of the Code of Virginia, relating to temporary detention order; alternative transportation.

[H 823]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 37.2-810 of the Code of Virginia is amended and reenacted as follows:

§ 37.2-810. Transportation of person in the temporary detention process.

A. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall specify in the temporary detention order the law-enforcement agency of the jurisdiction in which the person resides, or any other willing law-enforcement agency that has agreed to provide transportation, to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. However, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located shall execute the order and provide transportation.

B. The magistrate issuing the temporary detention order shall (i) specify the law-enforcement agency to execute the order and (ii) designate a transportation provider. In determining the transportation provider, the magistrate shall authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the temporary detention order, a representative of the community services board, an employee of or person providing services pursuant to a contract with the Department, or other transportation provider with personnel trained to provide transportation in a safe manner. Upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way

electronic video and audio or telephone communication system, that an alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner, the magistrate shall designate such alternative transportation provider to provide transportation of the person. *An alternative transportation provider shall be deemed to be available if the alternative transportation provider states that it is available to take custody of the individual from law enforcement within six hours of issuance of the temporary detention order or an order changing the transportation provider pursuant to subsection E.* If *(a)* no alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner *or (b) the law-enforcement agency elects to provide transportation*, the magistrate shall designate the primary law-enforcement agency and jurisdiction designated to execute the temporary detention order to provide transportation of the person.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. The primary law-enforcement agency may transfer custody of the person to the alternative transportation provider immediately upon execution of the temporary detention order based on the availability of alternative transportation providers. The alternative transportation provider shall maintain custody of the person from the time custody is transferred to the alternative transportation provider by the primary law-enforcement agency until such time as custody of the person is transferred to the temporary detention facility, including during any period prior to the initiation of transportation of the person from the facility to which he was transported pursuant to § 37.2-808 and while transportation is being provided pursuant to this section.

In such cases, a copy of the temporary detention order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the temporary detention facility. The temporary detention facility shall return a copy of the temporary detention order to the court designated by the magistrate as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

The order may include transportation of the person to such other medical facility as may be necessary to obtain further medical evaluation or treatment prior to placement as required by a physician at the admitting temporary detention facility. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section. Such medical evaluation or treatment shall be conducted immediately in accordance with state and federal law.

C. If an alternative transportation provider providing transportation or maintaining custody of a person who is the subject of a temporary detention order becomes unable to continue providing transportation or maintaining custody of the person at any time after taking custody of the person, the primary law-enforcement agency for the jurisdiction in which the alternative transportation provider is located at the time he becomes unable to continue providing transportation or maintaining custody shall take custody of the person and shall transport the person to the facility of temporary detention. In such cases, a copy of the temporary detention order shall accompany the person being transported and shall be delivered to and returned by the temporary detention facility in accordance with the provisions of subsection B.

D. In cases in which an alternative facility of temporary detention is identified and the law-enforcement agency or alternative transportation provider identified to provide transportation in accordance with subsection B continues to have custody of the person, the local law-enforcement agency or alternative transportation provider shall transport the person to the alternative facility of temporary detention identified by the employee or designee of the community services board. In cases in which an alternative facility of temporary detention is identified and custody of the person has been transferred from the law-enforcement agency or alternative transportation provider that provided transportation in accordance with subsection B to the initial facility of temporary detention, the employee or designee of the community services board shall request, and a magistrate may enter an order specifying, an alternative transportation provider or, if no alternative transportation provider is available, willing, and able to provide transportation in a safe manner, the local law-enforcement agency for the jurisdiction in which the person resides or, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located, to provide transportation.

E. The magistrate may change the transportation provider specified in a temporary detention order at any time prior to the initiation of transportation of a person who is the subject of a temporary detention order pursuant to this section. If the designated transportation provider is changed by the magistrate at any time after the temporary detention order has been executed but prior to the initiation of transportation, the transportation provider having custody of the person shall transfer custody of the person to the transportation provider subsequently specified to provide transportation. For the purposes of this subsection, "transportation provider" includes both a law-enforcement agency and an alternative transportation provider.

F. A law-enforcement officer may lawfully go to or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing any temporary detention order pursuant to this section. Law-enforcement agencies may enter into agreements to facilitate the execution of temporary detention orders and provide transportation.

G. An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use

restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.

H. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

I. For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733.

[H 845]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1202 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1202. Search for owner and secured party; notice.

A. Any person in possession of an abandoned vehicle shall initiate with the Department, in a manner prescribed by the Commissioner, a search for the owner and/or lienholder of record of the vehicle, requesting the name and address of the owner of record of the vehicle and all persons having security interests in the vehicle on record in the office of the Department, describing, if ascertainable, the vehicle by year, make, model, and vehicle identification number. A fee of $40 shall be paid to the Department at the time of application. Those fees shall be paid into the state treasury and set aside as a special, nonreverting fund to be used to meet the expenses of the Department. A local government agency with a written agreement with the Department shall be exempt from this fee.

The Department shall check (i) its own records, (ii) the records of a nationally recognized crime database, and (iii) records of a nationally recognized vehicle title database for owner and lienholder information. If a vehicle has been reported as stolen, the Department shall notify the appropriate law-enforcement agency of that fact. If a vehicle has been found to have been titled in another jurisdiction, the Department shall contact that jurisdiction to ascertain the requested information*, unless the Department is provided with such information by a business in possession of the abandoned vehicle that (a) acquired such vehicle from an insurance company in connection with a total loss unresolved claim and (b) obtained such information from a nationally recognized title database with access to such jurisdiction's records about all entities having security interest in such vehicle. If the Department relies on information provided by a business as authorized in this subsection, such business shall indemnify, defend, and hold the Department and the Commonwealth harmless from and against any claims, actions, penalties, damages, losses, fines, and expenses, including attorney fees, incurred as a result of the Department's reliance on such information*.

B. If the Department ~~confirms~~ *obtains* owner or lienholder information~~, either through a search of its own records or those of another jurisdiction,~~ *as provided in subsection A,* the Department shall notify the owner, at the last known address of record, and lienholder, at the last known address of record, of the notice of interest in their vehicle, by certified mail, return receipt requested, and advise them to reclaim and remove the vehicle within 15 days, or, if the vehicle is a

manufactured home or a mobile home, 120 days, from the date of notice. Such notice, when sent in accordance with these requirements, shall be sufficient regardless of whether or not it was ever received. Following the notice required in this subsection, if the vehicle remains unclaimed, the owner and all persons having security interests in the vehicle shall have waived all right, title, and interest in the vehicle.

C. If records of the Department contain no address for the owner or no address of any person shown by the Department's records to have a security interest, or if the identity and addresses of the owner and all persons having security interests cannot be determined with reasonable certainty after the Department has contacted the jurisdiction in which the vehicle was last titled, the person in possession of the abandoned vehicle may proceed with the sale or disposal of the vehicle in accordance with this chapter. However, if a vehicle record exists in another jurisdiction that has refused to release the information to the Department, the person in possession of the abandoned vehicle shall assume all liability for proceeding with such sale or disposal without written notice to the owner or lienholder of record.

D. The Department shall provide to the person in possession of the abandoned vehicle a receipt indicating that the search requested pursuant to this section has been completed.

E. Residents or businesses of other jurisdictions in possession of vehicles titled in the Commonwealth, or the authorized agents of such residents or businesses, seeking to enforce laws in those jurisdictions that are substantially similar to the provisions of this article or Article 2 (§ 46.2-1209 et seq.) may request information for such vehicles from the Department. The Department shall conduct the information search as provided for in subsection A, provide the names and addresses of the owner and lienholder, if any, for each vehicle to the requester, and notify the named owner and lienholder, if any, by certified mail, return receipt requested, of the request. Such notification shall not replace any notification requirements imposed by the jurisdiction in which the requester and subject vehicle are located, nor shall the enforcement rules of this chapter apply to vehicles not located within the Commonwealth. If the Department finds that the vehicle is titled in another jurisdiction, the Department shall identify that jurisdiction to the requester with no further obligation to the requester or vehicle owner. The Department shall collect a $25 fee for this search.

DMAS shall develop recommendations on allowing for respite services under such circumstances and shall estimate the cost of providing such respite services. DMAS shall submit its recommendations, cost estimate, and methodology used for obtaining the cost estimate to the Chairmen of the House Committee on Health and Human Services and the Senate Committee on Education and Health no later than November 1, 2024.

§ 22.1-253.13:1. (For effective date, see Acts 2022, cc. 549, 550, cl. 2) Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, § 1 of the Constitution of Virginia.

B. The Board shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade eight shall align with evidence-based literacy instruction and science-based reading research.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department shall make available and maintain a website, either separately or through an existing website utilized by the Department, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

Such guaranteed admissions agreements may provide for the guaranteed admission of a student who earns an associate degree concurrently with a high school diploma through a dual enrollment program, in addition to any guaranteed admission for a student who earns an associate degree post-high school.

B. The System, in cooperation with the Council and each public institution of higher education, and consistent with the guidelines developed pursuant to subdivision 20 of § 23.1-203, shall establish a one-semester Passport Program and a one-year Uniform Certificate of General Studies Program. The Passport Program shall consist of 15 course credit hours and shall be a component of the 30-credit-hour Uniform Certificate of General Studies Program. Each Uniform Certificate of General Studies Program and Passport Program course shall be transferable and shall satisfy a lower division general education requirement at any public institution of higher education. The Uniform Certificate of General Studies Program and Passport Program shall be available at each comprehensive community college and through the Online Virginia Network.

C. The Council shall establish procedures under which a baccalaureate public institution of higher education may seek a waiver from the Council from accepting the transfer of a Uniform Certificate of General Studies Program or Passport Program course to satisfy the requirements for the completion of a specific pathway or degree. A waiver shall not be granted allowing a baccalaureate public institution to (i) generally reject the transfer of all coursework that is a part of the Uniform Certificate of General Studies Program or Passport Program or (ii) generally reject the transfer of a course from the Uniform Certificate of General Studies Program or Passport Program for all pathway maps and degrees. An application for a waiver shall identify with particularity the course for which the institution is seeking a waiver and the particular pathway or degree to which the waiver would apply. The application shall provide justification for the waiver and shall designate alternative courses offered through the System that may be completed by a student in order to complete a transferable, 30-credit-hour Uniform Certificate *of General Studies* or 15-credit-hour Passport. The Council shall adopt guidelines regarding the criteria to be used to review and issue decisions regarding waiver requests. Such waiver requests shall only be granted if the baccalaureate public institution of higher education provides evidence that the specified pathway or degree requires a specialized, lower division course not available through the System. Once approved, notice of a waiver granted by the Council shall be included in the online portal established pursuant to § 23.1-908.

D. The Council shall develop guidelines for associate-degree-granting and baccalaureate public institutions of higher education to use in mapping pathways for the completion of credits in particular programs of study, including the courses recommended to be taken in a dual enrollment, comprehensive community college, and baccalaureate public institution setting in order to pursue a specific degree or career. Such guidelines shall define the elements of a pathway map and identify the pathway maps to be developed. Initial guidelines adopted for mapping such pathways shall establish a multiyear schedule for the development and implementation of pathway maps for all fields of study.

E. Each baccalaureate public institution of higher education, in cooperation and consultation with the System, shall develop pathway maps consistent with the guidelines established pursuant to subsection D. Such pathways maps shall clearly set forth the courses that a student at a comprehensive community college is encouraged to complete prior to transferring to the baccalaureate institution. The goal of the career education pathway maps shall be to assist students in achieving optimal efficiencies in the time and cost of completing a degree program. Such program map shall also clearly identify the courses, if any, for which the baccalaureate institution has received a waiver from transfer pursuant to subsection C.

F. The Council shall prepare a comprehensive annual report on the effectiveness of transferring from comprehensive community colleges to baccalaureate public institutions of higher education, including a review of the effectiveness of the use of pathway maps in achieving efficiencies and cost savings in the completion of a degree program. The report shall include the following elements: completion rates, average time to degree, credit accumulation, post-transfer student academic performance, and comparative efficiency. The Council shall adopt guidelines for data submission from public institutions of higher education necessary for such report, and all institutions shall report such data in accordance with the guidelines. The report shall be made publicly available on the Council website and on the online portal maintained pursuant to § 23.1-908.

G. Each comprehensive community college shall develop agreements for postsecondary *credit and degree* attainment with the public high schools in the school divisions that such comprehensive community college serves specifying the options for students to complete an associate degree, the Passport Program, or the Uniform Certificate of General Studies Program concurrent with a high school diploma *consistent with the requirements for the College and Career Ready Virginia Program set forth in Article 5.1 (§ 22.1-237.1 et seq.) of Chapter 13 of Title 22.1*. Such agreements shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

H. The provisions of this section shall not apply to any public institution of higher education established pursuant to Chapter 25 (§ 23.1-2500 et seq.).

2. That the provisions of subsections B, C, and D of § 22.1-237.3 of the Code of Virginia, as created by this act, shall become effective beginning with course registrations for the fall term of the 2025 academic year.
3. That the College and Career Ready Virginia Program career and technical education work group established by the Department of Education (the Department) and the Virginia Community College System (the System) pursuant to § 22.1-237.5 of the Code of Virginia, as created by this act, shall submit its recommendations to the Department and the System as required pursuant to subdivision C 3 of § 22.1-237.5 of the Code of Virginia, as created by this act, no later than November 1, 2024.
4. That each comprehensive community college and school board shall make such amendments to its agreements for postsecondary credit and degree attainment as required by subdivision D 10 of § 22.1-253.13:1 of the Code of Virginia, as amended by this act, and subsection G of § 23.1-907 of the Code of Virginia, as amended by this act, as it deems necessary to comply with the provisions of this act.
5. That the Secretary of Education, the Superintendent of Public Instruction, and the Chancellor of the Virginia Community College System shall make such amendments to their *Governing Principles for Dual Enrollment between Virginia Public Schools and the Virginia Community College System* as they deem necessary to comply with the provisions of this act.

For purposes of this section, a "person with a disability" means a person whose disability is unrelated to his ability to utilize and benefit from a place of public accommodation or public service.

B. *Each place of public accommodation shall ensure that barriers to accessibility are removed when the removal is readily achievable. To determine whether an action is readily achievable, the following factors shall be considered:*

1. The nature and cost of the action needed to remove the barriers;

2. The overall financial resources of the place of public accommodation involved in the action; the number of persons employed at the place of public accommodation; the effect on expenses and resources; legitimate safety requirements that are necessary for safe operation, including crime prevention measures; or the impact otherwise of the action upon the operation of the place of public accommodation;

All persons with disabilities in the jurisdiction's service area who, by reason of their disabilities, are unable to use the service for the general public shall be eligible to use such paratransit or special transportation service. No fee that exceeds the fee charged to the general public shall be charged a person with a disability for the use of the same transportation facilities or carriers available to the general public. Paratransit or special transportation service for persons with disabilities may charge fees to such persons comparable to the fees charged to the general public for similar service in the jurisdiction service area, taking into account especially the type, length, and time of trip. Any variance between special service and regular service fares shall be justifiable in terms of actual differences between the two kinds of service provided.

D. Nothing in this title shall be construed to require retrofitting of any public transit equipment or to require the retrofitting, renovation, or alteration of buildings or places to a degree more stringent than that required by the applicable building code in effect at the time the building permit for such building or place is issued.

CHAPTER 649

An Act to amend and reenact §§ 37.2-808 and 37.2-809 of the Code of Virginia, relating to emergency custody and temporary detention orders; evaluations; presence of others.

[H 1242]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-808 and 37.2-809 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-808. Emergency custody; issuance and execution of order.

A. Any magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion, or a court may issue pursuant to § 19.2-271.6, an emergency custody order when he has probable cause to believe that any person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, or the court may pursuant to § 19.2-271.6, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate or the court considers relevant to the determination of whether probable cause exists to issue an emergency custody order.

B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate or court issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate or court shall authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate or court, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate or court deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate or court shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate or the court that issued the emergency custody order as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate or court shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate or court shall designate the primary law-enforcement

agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

H. A law-enforcement officer who is transporting a person who has voluntarily consented to be transported to a facility for the purpose of assessment or evaluation and who is beyond the territorial limits of the county, city, or town in which he serves may take such person into custody and transport him to an appropriate location to assess the need for hospitalization or treatment without prior authorization when the law-enforcement officer determines (i) that the person has revoked consent to be transported to a facility for the purpose of assessment or evaluation, and (ii) based upon his observations, that probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until (i) a temporary detention order is issued in accordance with § 37.2-809, (ii) an order for temporary detention for observation, testing, or treatment is entered in accordance with § 37.2-1104, ending law enforcement custody, (iii) the person is released, or (iv) the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed eight hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection C of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809. *The (i) evaluator conducting the evaluation pursuant to subsection B and § 37.2-809 or (ii) hospital emergency department and treating physician or other health care provider designated by the physician shall allow a family member or legal guardian of the individual subject to evaluation who is present, and who may provide support and supportive decision-making, to be present with the individual unless the individual objects or the evaluator or treating physician determines that the presence of any such person would create a medical, clinical, or safety risk to the patient or health care provider or interferes with patient care. No provision of this section shall delay the process of the patient receiving treatment.*

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

P. Payments shall be made pursuant to § 37.2-804 to licensed health care providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

Q. An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.

R. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

S. For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733, except for the purposes of subsection G.

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

"Employee" means an employee of the local community services board who is skilled in the assessment and treatment of mental illness and has completed a certification program approved by the Department.

"Investment interest" means the ownership or holding of an equity or debt security, including shares of stock in a corporation, interests or units of a partnership, bonds, debentures, notes, or other equity or debt instruments.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician, clinical psychologist, clinical social worker, or licensed professional counselor treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) is in need of hospitalization or treatment; and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. The magistrate shall also consider, if available, (a) information provided by the person who initiated emergency custody and (b) the recommendations of any treating or examining physician licensed in Virginia either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician, psychologist, clinical social worker, or licensed professional counselor licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention in accordance with the provisions of § 37.2-809.1 for all persons detained pursuant to this section. An employee

or designee of the local community services board may change the facility of temporary detention and may designate an alternative facility for temporary detention at any point during the period of temporary detention if it is determined that the alternative facility is a more appropriate facility for temporary detention of the person given the specific security, medical, or behavioral health needs of the person. In cases in which the facility of temporary detention is changed following transfer of custody to an initial facility of temporary custody, transportation of the person to the alternative facility of temporary detention shall be provided in accordance with the provisions of § 37.2-810. The initial facility of temporary detention shall be identified on the preadmission screening report and indicated on the temporary detention order; however, if an employee or designee of the local community services board designates an alternative facility, that employee or designee shall provide written notice forthwith, on a form developed by the Executive Secretary of the Supreme Court of Virginia, to the clerk of the issuing court of the name and address of the alternative facility. Subject to the provisions of § 37.2-809.1, if a facility of temporary detention cannot be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808, the person shall be detained in a state facility for the treatment of persons with mental illness and such facility shall be indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6 or in subsection C of § 37.2-813 for persons prior to transfer to the facility of temporary detention, the person shall remain in the custody of law enforcement until either (i) the person is detained within a secure facility or (ii) custody has been accepted by the appropriate personnel designated by either the initial facility of temporary detention identified in the temporary detention order or by the alternative facility of temporary detention designated by the employee or designee of the local community services board pursuant to this subsection. The person detained or in custody pursuant to this section shall be given a written summary of the temporary detention procedures and the statutory protections associated with those procedures.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed 72 hours prior to a hearing. If the 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or, if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or, if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed. The person may be released, pursuant to § 37.2-813, before the 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. Each community services board shall provide to each general district court and magistrate's office within its service area a list of its employees and designees who are available to perform the evaluations required herein.

K. For purposes of this section, a health care provider or designee of a local community services board or behavioral health authority shall not be required to encrypt any email containing information or medical records provided to a magistrate unless there is reason to believe that a third party will attempt to intercept the email.

L. If the employee or designee of the community services board who is conducting the evaluation pursuant to this section recommends that the person should not be subject to a temporary detention order, such employee or designee shall (i) inform the petitioner, the person who initiated emergency custody if such person is present, and an onsite treating

physician of his recommendation; (ii) promptly inform such person who initiated emergency custody that the community services board will facilitate communication between the person and the magistrate if the person disagrees with recommendations of the employee or designee of the community services board who conducted the evaluation and the person who initiated emergency custody so requests; and (iii) upon prompt request made by the person who initiated emergency custody, arrange for such person who initiated emergency custody to communicate with the magistrate as soon as is practicable and prior to the expiration of the period of emergency custody. The magistrate shall consider any information provided by the person who initiated emergency custody and any recommendations of the treating or examining physician and the employee or designee of the community services board who conducted the evaluation and consider such information and recommendations in accordance with subsection B in making his determination to issue a temporary detention order. The person who is the subject of emergency custody shall remain in the custody of law enforcement or a designee of law enforcement and shall not be released from emergency custody until communication with the magistrate pursuant to this subsection has concluded and the magistrate has made a determination regarding issuance of a temporary detention order.

M. For purposes of this section, "person who initiated emergency custody" means any person who initiated the issuance of an emergency custody order pursuant to § 37.2-808 or a law-enforcement officer who takes a person into custody pursuant to subsection G of § 37.2-808.

N. In any case in which a person subject to an evaluation pursuant to this section is receiving services in a hospital emergency department, the treating physician or his designee and the employee or designee of the local community services board shall disclose to each other relevant information pertaining to the individual's treatment in the emergency department. *The (i) evaluator conducting the evaluation pursuant to subsection B of § 37.2-808 and the provisions of this section or (ii) hospital emergency department and treating physician or other health care provider designated by the physician shall allow a family member or legal guardian of the individual subject to evaluation who is present, and who may provide support and supportive decision-making, to be present with the individual unless the individual objects or the evaluator or treating physician determines that the presence of any such person would create a medical, clinical, or safety risk to the patient or health care provider or interferes with patient care. No provision of this section shall delay the process of the patient receiving treatment.*

CHAPTER 650

An Act to amend and reenact § 19.2-316.4 of the Code of Virginia, relating to eligibility for participation in community corrections alternative program; evaluation and diagnosis; referral to the Department of Corrections.

[H 1268]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-316.4 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-316.4. Eligibility for participation in community corrections alternative program; evaluation; sentencing; withdrawal or removal from program; payment of costs.

A. As used in this article, unless the context requires a different meaning:

"Intractable behavior" means behavior that, in the determination of the Department of Corrections, (i) indicates an inmate's unwillingness or inability to conform his behavior to that necessary to his successful completion of the program or (ii) is so disruptive as to threaten the successful completion of the program by other participants.

"Nonviolent felony" means any felony except those considered an "act of violence" pursuant to § 19.2-297.1 or any attempt to commit any of those crimes.

B. A defendant (i) who otherwise would have been sentenced to incarceration for a nonviolent felony and whose identified risks and needs the court determines cannot be addressed by conventional probation supervision or (ii) whose suspension of sentence would otherwise be revoked after a finding that the defendant has violated the terms and conditions of probation for a nonviolent felony, may be considered for commitment to a community corrections alternative program established under § 53.1-67.9 as follows:

1. Following conviction and prior to imposition of sentence or following a finding that the defendant's probation should be revoked, upon motion of the defendant or the attorney for the Commonwealth or upon the court's own motion, the court may order such defendant referred to the Department of Corrections ~~for a period not to exceed 45 days from the date of commitment~~ for evaluation and diagnosis ~~by the Department to determine eligibility and suitability for participation in the community corrections alternative program. The evaluation and diagnosis may be conducted by the Department at any state or local correctional facility, probation, parole office, or other location deemed appropriate by the Department.~~ When a defendant who has not been charged with a new criminal offense and who may be subject to a revocation of probation scores incarceration on the probation violation guidelines and agrees to participate, the probation and parole officer, ~~with~~ *prior to* the approval of the court, may refer ~~the~~ *such* defendant to the Department for such evaluation~~, for a period not to exceed 45 days~~ *and diagnosis. Evaluation and diagnosis shall occur within 45 days of the date of commitment by the Department to determine eligibility and suitability for participation in the community corrections alternative program. The*

evaluation and diagnosis may be conducted by the Department at any state or local correctional facility, probation or parole office, or other location deemed appropriate by the Department.

2. Upon determination that (i) such commitment is in the best interest of the Commonwealth and the defendant and (ii) facilities are available for the confinement of the defendant, the Department shall recommend to the court in writing that the defendant be committed to the community corrections alternative program. The Department shall have the final authority to determine an individual's eligibility and suitability for the program.

3. Upon receipt of such a recommendation and a determination by the court that the defendant will benefit from the community corrections alternative program and is capable of returning to society as a productive citizen following successful completion of the program, and if the defendant would otherwise be committed to the Department, the court (i) shall impose sentence, suspend the sentence, and place the defendant on probation pursuant to this section or (ii) following a finding that the defendant has violated the terms and conditions of his probation previously ordered, shall place the defendant on probation pursuant to this section. Such probation shall be conditioned upon the defendant's entry into and successful completion of the community corrections alternative program. The court shall order that, upon successful completion of the program, the defendant shall be released from confinement and be under probation supervision for a period of not less than one year. The court shall further order that the defendant, prior to release from confinement, shall (a) make reasonable efforts to secure and maintain employment; (b) comply with a plan of restitution or community service; (c) comply with a plan for payment of fines, if any, and costs of court; and (d) undergo substance abuse treatment, if necessary. The court may impose such other terms and conditions of probation as it deems appropriate to be effective on the defendant's successful completion of the community corrections alternative program. A sentence to the community corrections alternative program shall not be imposed in addition to an active sentence to a state correctional facility.

4. Upon the defendant's (i) voluntary withdrawal from the community corrections alternative program, (ii) removal from the program by the Department for intractable behavior, or (iii) failure to comply with the terms and conditions of probation, the court shall cause the defendant to show cause why his probation and suspension of sentence should not be revoked. Upon a finding that the defendant voluntarily withdrew from the program, was removed from the program by the Department for intractable behavior, or failed to comply with the terms and conditions of probation, the court may revoke all or part of the probation and suspended sentence and commit the defendant as otherwise provided in this chapter.

C. Any offender incarcerated for a nonviolent felony paroled under § 53.1-155 or mandatorily released under § 53.1-159 and for whom probable cause that a violation of parole or of the terms and conditions of mandatory release, other than the occurrence of a new felony or Class 1 or Class 2 misdemeanor, has been determined under § 53.1-165, may be considered by the Parole Board for commitment to a community corrections alternative program as established under § 53.1-67.9 as follows:

1. The Parole Board or its authorized hearing officer, with the violator's consent or upon receipt of a defendant's written voluntary agreement to participate form from the probation and parole officer, may order the violator to be evaluated and diagnosed by the Department of Corrections to determine suitability for participation in the community corrections alternative program. The evaluation and diagnosis may be conducted by the Department at any state or local correctional facility, probation or parole office, or other location deemed appropriate by the Department.

2. Upon determination that (i) such commitment is in the best interest of the Commonwealth and the violator and (ii) facilities are available for the confinement of the violator, the Department shall recommend to the Parole Board in writing that the violator be committed to the community corrections alternative program. The Department shall have the final authority to determine an individual's eligibility and suitability for the program.

3. Upon receipt of such a recommendation and a determination by the Parole Board that the violator will benefit from the program and is capable of returning to society as a productive citizen following successful completion of the program and if the violator would otherwise be committed to the Department, the Parole Board shall restore the violator to parole supervision conditioned upon entry into and successful completion of the community corrections alternative program. The Parole Board shall order that, upon successful completion of the program, the violator shall be placed under parole supervision for a period of not less than one year. The Parole Board may impose such other terms and conditions of parole or mandatory release as it deems appropriate to be effective on the defendant's successful completion of the community corrections alternative program. The time spent in the program shall not be counted as service of any part of a term of imprisonment for which he was sentenced upon his conviction.

4. Upon the violator's (i) voluntary withdrawal from the program, (ii) removal from the program by the Department for intractable behavior, or (iii) failure to comply with the terms and conditions of parole or mandatory release, the Parole Board may revoke parole or mandatory release and recommit the violator as provided in § 53.1-165.

D. A person sentenced pursuant to this article who receives payment for employment while in the community corrections alternative program shall be required to pay an amount to be determined by the Department of Corrections to defray the cost of his keep.

(b) If the sale-of-goods aspects predominate, this title applies to the transaction but does not preclude application in appropriate circumstances of other law to aspects of the transaction that do not relate to the sale of goods.

(3) This title does not:

(a) apply to a transaction that, even though in the form of an unconditional contract to sell or present sale, operates only to create a security interest; or

(b) impair or reveal a statute regulating sales to consumers, farmers, or other specified classes of buyers.

§ 8.2-106. Definitions: "Contract"; "agreement"; "contract for sale"; "sale"; "present sale"; "conforming" to contract; "termination"; "cancellation"; "hybrid transaction."

(1) In this title unless the context otherwise requires "contract" and "agreement" are limited to those relating to the present or future sale of goods. "Contract for sale" includes both a present sale of goods and a contract to sell goods at a future time. A "sale" consists in the passing of title from the seller to the buyer for a price (§ 8.2-401). A "present sale" means a sale which is accomplished by the making of the contract.

(2) Goods or conduct including any part of a performance are "conforming" or conform to the contract when they are in accordance with the obligations under the contract.

(3) "Termination" occurs when either party pursuant to a power created by agreement or law puts an end to the contract otherwise than for its breach. On "termination" all obligations which are still executory on both sides are discharged but any right based on prior breach or performance survives.

(4) "Cancellation" occurs when either party puts an end to the contract for breach by the other and its effect is the same as that of "termination" except that the cancelling party also retains any remedy for breach of the whole contract or any unperformed balance.

(5) "Hybrid transaction" means a single transaction involving a sale of goods and:

(a) the provision of services;

(b) a lease of other goods; or

(c) a sale, lease, or license of property other than goods.

§ 8.2-201. Formal requirements; statute of frauds.

(1) Except as otherwise provided in this section a contract for the sale of goods for the price of $500 or more is not enforceable by way of action or defense unless there is ~~some writing~~ *a record* sufficient to indicate that a contract for sale has been made between the parties and signed by the party against whom enforcement is sought or by ~~his~~ *the party's* authorized agent or broker. A ~~writing~~ *record* is not insufficient because it omits or incorrectly states a term agreed upon but the contract is not enforceable under this ~~paragraph~~ *subsection* beyond the quantity of goods shown in ~~such writing~~ *the record*.

(2) Between merchants if within a reasonable time a ~~writing~~ *record* in confirmation of the contract and sufficient against the sender is received and the party receiving it has reason to know its contents, it satisfies the requirements of subsection (1) against ~~such~~ *the* party unless ~~written~~ notice *in a record* of objection to its contents is given within ten days after it is received.

(3) A contract which does not satisfy the requirements of subsection (1) but which is valid in other respects is enforceable

(a) if the goods are to be specially manufactured for the buyer and are not suitable for sale to others in the ordinary course of the seller's business and the seller, before notice of repudiation is received and under circumstances which reasonably indicate that the goods are for the buyer, has made either a substantial beginning of their manufacture or commitments for their procurement; or

(b) if the party against whom enforcement is sought admits in his pleading, testimony or otherwise in court that a contract for sale was made, but the contract is not enforceable under this provision beyond the quantity of goods admitted; or

(c) with respect to goods for which payment has been made and accepted or which have been received and accepted (§ 8.2-606).

§ 8.2-202. Final expression; parol or extrinsic evidence.

Terms with respect to which the confirmatory memoranda of the parties agree or which are otherwise set forth in a ~~writing~~ *record* intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented*:*

(a) by course of performance, course of dealing or usage of trade (§ 8.1A-303); and

(b) by evidence of consistent additional terms unless the court finds the ~~writing~~ *record* to have been intended also as a complete and exclusive statement of the terms of the agreement.

§ 8.2-203. Seals inoperative.

The affixing of a seal to a ~~writing~~ *record* evidencing a contract for sale or an offer to buy or sell goods does not constitute the ~~writing~~ *record* a sealed instrument and the law with respect to sealed instruments does not apply to such a contract or offer.

§ 8.2-205. Firm offers.

An offer by a merchant to buy or sell goods in a signed ~~writing~~ *record* which by its terms gives assurance that it will be held open is not revocable, for lack of consideration, during the time stated or if no time is stated for a reasonable time, but in no event may such period of irrevocability exceed three months; but any such term of assurance on a form supplied by the offeree must be separately signed by the offeror.

§ 8.2-209. Modification, rescission, and waiver.

(1) An agreement modifying a contract within this title needs no consideration to be binding.

(2) A signed agreement which excludes modification or rescission except by a signed writing *or other signed record* cannot be otherwise modified or rescinded, but except as between merchants such a requirement on a form supplied by the merchant must be separately signed by the other party.

(3) The requirements of the statute of frauds section of this title (§ 8.2-201) must be satisfied if the contract as modified is within its provisions.

(4) Although an attempt at modification or rescission does not satisfy the requirements of subsection (2) or (3) it can operate as a waiver.

(5) A party who has made a waiver affecting an executory portion of the contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver.

§ 8.2A-102. Scope.

(1) This title applies to any transaction, regardless of form, that creates a lease *and, in the case of a hybrid lease, it applies to the extent provided in subsection (2)*.

(2) In a hybrid lease:

(a) if the lease-of-goods aspects do not predominate:

(i) only the provisions of this title that relate primarily to the lease-of-goods aspect of the transaction apply, and the provisions that relate primarily to the transaction as a whole do not apply;

(ii) § 8.2A-209 applies if the lease is a financial lease; and

(iii) § 8.2A-407 applies to the promises of the lessee in a finance lease to the extent the promises are consideration for the right to possession and use of the leased goods; and

(b) if the lease-of-goods aspects predominate, this title applies to the transaction, but does not preclude application in appropriate circumstances of other law to aspects of the lease that do not relate to the lease of goods.

§ 8.2A-103. Definitions and index of definitions.

(1) In this title unless the context otherwise requires:

(a) "Buyer in ordinary course of business" means a person who in good faith and without knowledge that the sale to him or her is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods, buys in ordinary course from a person in the business of selling goods of that kind but does not include a pawnbroker. "Buying" may be for cash or by exchange of other property or on secured or unsecured credit and includes acquiring goods or documents of title under a preexisting contract for sale but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.

(b) "Cancellation" occurs when either party puts an end to the lease contract for default by the other party.

(c) "Commercial unit" means such a unit of goods as by commercial usage is a single whole for purposes of lease and division of which materially impairs its character or value on the market or in use. A commercial unit may be a single article, as a machine, or a set of articles, as a suite of furniture or a line of machinery, or a quantity, as a gross or carload, or any other unit treated in use or in the relevant market as a single whole.

(d) "Conforming" goods or performance under a lease contract means goods or performance that are in accordance with the obligations under the lease contract.

(e) "Consumer lease" means a lease that a lessor regularly engaged in the business of leasing or selling makes to a lessee who is an individual and who takes under the lease primarily for a personal, family, or household purpose.

(f) "Fault" means wrongful act, omission, breach, or default.

(g) "Finance lease" means a lease with respect to which:

(i) The lessor does not select, manufacture, or supply the goods;

(ii) The lessor acquires the goods or the right to possession and use of the goods in connection with the lease; and

(iii) One of the following occurs:

(A) The lessee receives a copy of the contract by which the lessor acquired the goods or the right to possession and use of the goods before signing the lease contract;

(B) The lessee's approval of the contract by which the lessor acquired the goods or the right to possession and use of the goods is a condition to effectiveness of the lease contract;

(C) The lessee, before signing the lease contract, receives an accurate and complete statement designating the promises and warranties, and any disclaimers of warranties, limitations or modifications of remedies, or liquidated damages, including those of a third party, such as the manufacturer of the goods, provided to the lessor by the person supplying the goods in connection with or as part of the contract by which the lessor acquired the goods or the right to possession and use of the goods; or

(D) If the lease is not a consumer lease, the lessor, before the lessee signs the lease contract, informs the lessee in writing (a) of the identity of the person supplying the goods to the lessor, unless the lessee has selected that person and directed the lessor to acquire the goods or the right to possession and use of the goods from that person, (b) that the lessee is entitled under this title to the promises and warranties, including those of any third party, provided to the lessor by the person supplying the goods in connection with or as part of the contract by which the lessor acquired the goods or the right to possession and use of the goods, and (c) that the lessee may communicate with the person supplying the goods to the lessor and receive an accurate and complete statement of those promises and warranties, including any disclaimers and limitations of them or of remedies.

(h) "Goods" means all things that are movable at the time of identification to the lease contract, or are fixtures (§ 8.2A-309), but the term does not include money, documents, instruments, accounts, chattel paper, general intangibles, or minerals or the like, including oil and gas, before extraction. The term also includes the unborn young of animals.

(h1) "Hybrid lease" means a single transaction involving a lease of goods and:

(ii) a sale of other goods; or

(iii) a sale, lease, or license of property other than goods.

(i) "Installment lease contract" means a lease contract that authorizes or requires the delivery of goods in separate lots to be separately accepted, even though the lease contract contains a clause "each delivery is a separate lease" or its equivalent.

(j) "Lease" means a transfer of the right to possession and use of goods for a term in return for consideration, but a sale, including a sale on approval or a sale or return, or retention or creation of a security interest is not a lease. Unless the context clearly indicates otherwise, the term includes a sublease.

(k) "Lease agreement" means the bargain, with respect to the lease, of the lessor and the lessee in fact as found in their language or by implication from other circumstances including course of dealing or usage of trade or course of performance as provided in this title. Unless the context clearly indicates otherwise, the term includes a sublease agreement.

(l) "Lease contract" means the total legal obligation that results from the lease agreement as affected by this title and any other applicable rules of law. Unless the context clearly indicates otherwise, the term includes a sublease contract.

(m) "Leasehold interest" means the interest of the lessor or the lessee under a lease contract.

(n) "Lessee" means a person who acquires the right to possession and use of goods under a lease. Unless the context clearly indicates otherwise, the term includes a sublessee.

(o) "Lessee in ordinary course of business" means a person who in good faith and without knowledge that the lease to him or her is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods leases in ordinary course from a person in the business of selling or leasing goods of that kind but does not include a pawnbroker. "Leasing" may be for cash or by exchange of other property or on secured or unsecured credit and includes acquiring goods or documents of title under a preexisting lease contract but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.

(p) "Lessor" means a person who transfers the right to possession and use of goods under a lease. Unless the context clearly indicates otherwise, the term includes a sublessor.

(q) "Lessor's residual interest" means the lessor's interest in the goods after expiration, termination, or cancellation of the lease contract.

(r) "Lien" means a charge against or interest in goods to secure payment of a debt or performance of an obligation, but the term does not include a security interest.

(s) "Lot" means a parcel or a single article that is the subject matter of a separate lease or delivery, whether or not it is sufficient to perform the lease contract.

(t) "Merchant lessee" means a lessee that is a merchant with respect to goods of the kind subject to the lease.

(u) "Present value" means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain. The discount is determined by the interest rate specified by the parties if the rate was not manifestly unreasonable at the time the transaction was entered into; otherwise, the discount is determined by a commercially reasonable rate that takes into account the facts and circumstances of each case at the time the transaction was entered into.

(v) "Purchase" includes taking by sale, lease, mortgage, security interest, pledge, gift, or any other voluntary transaction creating an interest in goods.

(w) "Sublease" means a lease of goods the right to possession and use of which was acquired by the lessor as a lessee under an existing lease.

(x) "Supplier" means a person from whom a lessor buys or leases goods to be leased under a finance lease.

§ 8.2A-107. Waiver or renunciation of claim or right after default.

Any claim or right arising out of an alleged default or breach of warranty may be discharged in whole or in part without consideration by a ~~written~~ waiver or renunciation *in a* signed ~~and~~ *record* delivered by the aggrieved party.

§ 8.2A-201. Statute of frauds.

(1) A lease contract is not enforceable by way of action or defense unless:

(a) The total payments to be made under the lease contract, excluding payments for options to renew or buy, are less than $1,000; or

(b) There is a ~~writing~~ *record*, signed by the party against whom enforcement is sought or by that party's authorized agent, sufficient to indicate that a lease contract has been made between the parties and to describe the goods leased and the lease term.

(2) Any description of leased goods or of the lease term is sufficient and satisfies subdivision (1) (b) of this section, whether or not it is specific, if it reasonably identifies what is described.

(3) A ~~writing~~ *record* is not insufficient because it omits or incorrectly states a term agreed upon, but the lease contract is not enforceable under subdivision (1) (b) of this section beyond the lease term and the quantity of goods shown in the ~~writing~~ *record*.

(4) A lease contract that does not satisfy the requirements of subsection (1) of this section, but which is valid in other respects, is enforceable if:

(a) The goods are to be specially manufactured or obtained for the lessee and are not suitable for lease or sale to others in the ordinary course of the lessor's business, and the lessor, before notice of repudiation is received and under circumstances that reasonably indicate that the goods are for the lessee, has made either a substantial beginning of their manufacture or commitments for their procurement;

(b) The party against whom enforcement is sought admits in that party's pleading, testimony or otherwise in court that a lease contract was made, but the lease contract is not enforceable under this provision beyond the quantity of goods admitted; or

(c) With respect to goods that have been received and accepted by the lessee.

(5) The lease term under a lease contract referred to in subsection (4) of this section is:

(a) If there is a ~~writing~~ *record* signed by the party against whom enforcement is sought or by that party's authorized agent specifying the lease term, the term so specified;

(b) If the party against whom enforcement is sought admits in that party's pleading, testimony, or otherwise in court a lease term, the term so admitted; or

(c) A reasonable lease term.

§ 8.2A-202. Final expression: parol or extrinsic evidence.

Terms with respect to which the confirmatory memoranda of the parties agree or which are otherwise set forth in a ~~writing~~ *record* intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented:

(a) by course of dealing or usage of trade or by course of performance; and

(b) by evidence of consistent additional terms unless the court finds the ~~writing~~ *record* to have been intended also as a complete and exclusive statement of the terms of the agreement.

§ 8.2A-203. Seals inoperative.

The affixing of a seal to a ~~writing~~ *record* evidencing a lease contract or an offer to enter into a lease contract does not render the ~~writing~~ *record* a sealed instrument and the law with respect to sealed instruments does not apply to the lease contract or offer.

§ 8.2A-205. Firm offers.

An offer by a merchant to lease goods to or from another person in a signed ~~writing~~ *record* that by its terms gives assurance it will be held open is not revocable, for lack of consideration, during the time stated or, if no time is stated, for a reasonable time, but in no event may the period of irrevocability exceed three months. Any such term of assurance on a form supplied by the offeree must be separately signed by the offeror.

§ 8.2A-208. Modification, rescission, and waiver.

(1) An agreement modifying a lease contract needs no consideration to be binding.

(2) A signed lease agreement that excludes modification or rescission except by a signed ~~writing~~ *record* may not be otherwise modified or rescinded, but, except as between merchants, such a requirement on a form supplied by a merchant must be separately signed by the other party.

(3) Although an attempt at modification or rescission does not satisfy the requirements of subsection (2) of this section, it may operate as a waiver.

(4) A party who has made a waiver affecting an executory portion of a lease contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver.

§ 8.3A-104. Negotiable instrument.

(a) Except as provided in subsections (c) and (d), "negotiable instrument" means an unconditional promise or order to pay a fixed amount of money, with or without interest or other charges described in the promise or order, if it:

(1) is payable to bearer or to order at the time it is issued or first comes into possession of a holder;

(2) is payable on demand or at a definite time; and

(3) does not state any other undertaking or instruction by the person promising or ordering payment to do any act in addition to the payment of money, but the promise or order may contain (i) an undertaking or power to give, maintain, or protect collateral to secure payment, (ii) an authorization or power to the holder to confess judgment or realize on or dispose of collateral, ~~or~~ (iii) a waiver of the benefit of any law intended for the advantage or protection of an obligor*, (iv) a term that specifies the law that governs the promise or order, or (v) an undertaking to resolve in a specified forum a dispute concerning the promise or order*.

(b) "Instrument" means a negotiable instrument.

(c) An order that meets all of the requirements of subsection (a), except paragraph (1), and otherwise falls within the definition of "check" in subsection (f) is a negotiable instrument and a check.

(d) A promise or order other than a check is not an instrument if, at the time it is issued or first comes into possession of a holder, it contains a conspicuous statement, however expressed, to the effect that the promise or order is not negotiable or is not an instrument governed by this title.

(e) An instrument is a "note" if it is a promise and is a "draft" if it is an order. If an instrument falls within the definition of both "note" and "draft," a person entitled to enforce the instrument may treat it as either.

(f) "Check" means (i) a draft, other than a documentary draft, payable on demand and drawn on a bank or (ii) a cashier's check or teller's check. An instrument may be a check even though it is described on its face by another term, such as "money order."

(g) "Cashier's check" means a draft with respect to which the drawer and drawee are the same bank or branches of the same bank.

(h) "Teller's check" means a draft drawn by a bank (i) on another bank, or (ii) payable at or through a bank.

(i) "Traveler's check" means an instrument that (i) is payable on demand, (ii) is drawn on or payable at or through a bank, (iii) is designated by the term "traveler's check" or by a substantially similar term, and (iv) requires, as a condition to payment, a countersignature by a person whose specimen signature appears on the instrument.

(j) "Certificate of deposit" means an instrument containing an acknowledgment by a bank that a sum of money has been received by the bank and a promise by the bank to repay the sum of money. A certificate of deposit is a note of the bank.

§ 8.3A-105. Issue of instrument.

(a) "Issue" means

(1) the first delivery of an instrument by the maker or drawer, whether to a holder or nonholder, for the purpose of giving rights on the instrument to any person*; or*

(2) if agreed by the payee, the first transmission by the drawer to the payee of an image of an item and information derived from the item that enables the depositary bank to collect the item by transferring or presenting under federal law an electronic check.

(b) An unissued instrument, or an unissued incomplete instrument that is completed, is binding on the maker or drawer, but nonissuance is a defense. An instrument that is conditionally issued or is issued for a special purpose is binding on the maker or drawer, but failure of the condition or special purpose to be fulfilled is a defense.

(c) "Issuer" applies to issued and unissued instruments and means a maker or drawer of an instrument.

§ 8.3A-401. Signature necessary for liability on instrument.

~~(a)~~ A person is not liable on an instrument unless (i) the person signed the instrument, or (ii) the person is represented by an agent or representative who signed the instrument and the signature is binding on the represented person under § 8.3A-402.

~~(b) A signature may be made (i) manually or by means of a device or machine, and (ii) by the use of any name, including a trade or assumed name, or by a word, mark, or symbol executed or adopted by a person with present intention to authenticate a writing.~~

§ 8.3A-604. Discharge by cancellation or renunciation.

(a) A person entitled to enforce an instrument, with or without consideration, may discharge the obligation of a party to pay the instrument (i) by an intentional voluntary act, such as surrender of the instrument to the party, destruction, mutilation, or cancellation of the instrument, cancellation or striking out of the party's signature, or the addition of words to the instrument indicating discharge, or (ii) by agreeing not to sue or otherwise renouncing rights against the party by a signed ~~writing~~ *record*. *The obligation of a party to pay a check is not discharged solely by destruction of the check in connection with a process in which information is extracted from the check and an image of the check is made and, subsequently, the information and image are transmitted for payment.*

(b) Cancellation or striking out of an endorsement pursuant to subsection (a) does not affect the status and rights of a party derived from the endorsement.

§ 8.4A-103. Definitions: "Payment order"; "Beneficiary"; "Beneficiary's bank"; "Receiving bank"; "Sender."

(a) In this title:

(1) "Payment order" means an instruction of a sender to a receiving bank, transmitted orally~~, electronically,~~ or in ~~writing~~ *a record*, to pay, or to cause another bank to pay, a fixed or determinable amount of money to a beneficiary if: (i) the instruction does not state a condition to payment to the beneficiary other than time of payment, (ii) the receiving bank is to be reimbursed by debiting an account of, or otherwise receiving payment from, the sender, and (iii) the instruction is transmitted by the sender directly to the receiving bank or to an agent, funds-transfer system, or communication system for transmittal to the receiving bank.

(2) "Beneficiary" means the person to be paid by the beneficiary's bank.

(3) "Beneficiary's bank" means the bank identified in a payment order in which an account of the beneficiary is to be credited pursuant to the order or which otherwise is to make payment to the beneficiary if the order does not provide for payment to an account.

(4) "Receiving bank" means the bank to which the sender's instruction is addressed.

(5) "Sender" means the person giving the instruction to the receiving bank.

(b) If an instruction complying with subdivision (a) (1) of this section is to make more than one payment to a beneficiary, the instruction is a separate payment order with respect to each payment.

(c) A payment order is issued when it is sent to the receiving bank.

§ 8.4A-201. Security procedure.

"Security procedure" means a procedure established by agreement of a customer and a receiving bank for the purpose of (i) verifying that a payment order or communication amending or cancelling a payment order is that of the customer, or (ii) detecting error in the transmission or the content of the payment order or communication. A security procedure may *impose an obligation on the receiving bank or the customer and may* require the use of algorithms or other codes, identifying words ~~or~~*,* numbers, *symbols, sounds, biometrics,* encryption, callback procedures, or similar security devices. Comparison of a signature on a payment order or communication with an authorized specimen signature of the customer *or requiring a payment order to be sent from a known email address, IP address, or telephone number* is not by itself a security procedure.

§ 8.4A-202. Authorized and verified payment orders.

(a) A payment order received by the receiving bank is the authorized order of the person identified as sender if that person authorized the order or is otherwise bound by it under the law of agency.

(b) If a bank and its customer have agreed that the authenticity of payment orders issued to the bank in the name of the customer as sender will be verified pursuant to a security procedure, a payment order received by the receiving bank is effective as the order of the customer, whether or not authorized, if (i) the security procedure is a commercially reasonable method of providing security against unauthorized payment orders, and (ii) the bank proves that it accepted the payment order in good faith and in compliance with *the bank's obligations under* the security procedure and any ~~written~~ agreement or instruction of the customer*, evidenced by a record,* restricting acceptance of payment orders issued in the name of the customer. The bank is not required to follow an instruction that violates ~~a written~~ *an* agreement with the customer*, evidenced by a record,* or notice of which is not received at a time and in a manner affording the bank a reasonable opportunity to act on it before the payment order is accepted.

(c) Commercial reasonableness of a security procedure is a question of law to be determined by considering the wishes of the customer expressed to the bank, the circumstances of the customer known to the bank, including the size, type, and frequency of payment orders normally issued by the customer to the bank, alternative security procedures offered to the customer, and security procedures in general use by customers and receiving banks similarly situated. A security procedure is deemed to be commercially reasonable if (i) the security procedure was chosen by the customer after the bank offered, and the customer refused, a security procedure that was commercially reasonable for that customer, and (ii) the customer expressly agreed in ~~writing~~ *a record* to be bound by any payment order, whether or not authorized, issued in its name and accepted by the bank in compliance with the *bank's obligations under the* security procedure chosen by the customer.

(d) The term "sender" in this title includes the customer in whose name a payment order is issued if the order is the authorized order of the customer under subsection (a) of this section, or it is effective as the order of the customer under subsection (b) of this section.

(e) This section applies to amendments and cancellations of payment orders to the same extent it applies to payment orders.

(f) Except as provided in this section and in subdivision (a) (1) of § 8.4A-203, rights and obligations arising under this section or § 8.4A-203 may not be varied by agreement.

§ 8.4A-203. Unenforceability of certain verified payment orders.

(a) If an accepted payment order is not, under subsection (a) of § 8.4A-202, an authorized order of a customer identified as sender, but is effective as an order of the customer pursuant to subsection (b) of § 8.4A-202, the following rules apply:

(1) By express ~~written~~ agreement *evidenced by a record*, the receiving bank may limit the extent to which it is entitled to enforce or retain payment of the payment order.

(2) The receiving bank is not entitled to enforce or retain payment of payment order if the customer proves that the order was not caused, directly or indirectly, by a person (i) entrusted at any time with duties to act for the customer with respect to payment orders or the security procedure, or (ii) who obtained access to transmitting facilities of the customer or who obtained, from a source controlled by the customer and without authority of the receiving bank, information facilitating breach of the security procedure, regardless of how the information was obtained or whether the customer was at fault. Information includes any access device, computer software, or the like.

(b) This section applies to amendments of payment orders to the same extent it applies to payment orders.

§ 8.4A-207. Misdescription of beneficiary.

(a) Subject to subsection (b) of this section, if, in a payment order received by the beneficiary's bank, the name, bank account number, or other identification of the beneficiary refers to a nonexistent or unidentifiable person or account, no person has rights as a beneficiary of the order and acceptance of the order cannot occur.

(b) If a payment order received by the beneficiary's bank identifies the beneficiary both by name and by an identifying or bank account number and the name and number identify different persons, the following rules apply:

(1) Except as otherwise provided in subsection (c) of this section, if the beneficiary's bank does not know that the name and number refer to different persons, it may rely on the number as the proper identification of the beneficiary of the order. The beneficiary's bank need not determine whether the name and number refer to the same person.

(2) If the beneficiary's bank pays the person identified by name or knows that the name and number identify different persons, no person has rights as beneficiary except the person paid by the beneficiary's bank if that person was entitled to receive payment from the originator of the funds transfer. If no person has rights as beneficiary, acceptance of the order cannot occur.

(c) If (i) a payment order described in subsection (b) of this section is accepted, (ii) the originator's payment order described the beneficiary inconsistently by name and number, and (iii) the beneficiary's bank pays the person identified by number as permitted by subdivision (b) (1) of this section, the following rules apply:

(1) If the originator is a bank, the originator is obliged to pay its order.

(2) If the originator is not a bank and proves that the person identified by number was not entitled to receive payment from the originator, the originator is not obliged to pay its order unless the originator's bank proves that the originator, before acceptance of the originator's order, had notice that payment of a payment order issued by the originator might be made by the beneficiary's bank on the basis of an identifying or bank account number even if it identifies a person different from the named beneficiary. Proof of notice may be made by any admissible evidence. The originator's bank satisfies the burden of proof if it proves that the originator, before the payment order was accepted, signed a ~~writing~~ *record* stating the information to which the notice relates.

(d) In a case governed by subdivision (b) (1) of this section, if the beneficiary's bank rightfully pays the person identified by number and that person was not entitled to receive payment from the originator, the amount paid may be recovered from that person to the extent allowed by the law governing mistake and restitution as follows:

(1) If the originator is obliged to pay its payment order as stated in subsection (c) of this section, the originator has the right to recover.

(2) If the originator is not a bank and is not obliged to pay its payment order, the originator's bank has the right to recover.

§ 8.4A-208. Misdescription of intermediary bank or beneficiary's bank.

(a) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank only by an identifying number.

(1) The receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank and need not determine whether the number identifies a bank.

(2) The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(b) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank both by name and an identifying number if the name and number identify different persons.

(1) If the sender is a bank, the receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank if the receiving bank, when it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person or whether the number refers to a bank. The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(2) If the sender is not a bank and the receiving bank proves that the sender, before the payment order was accepted, had notice that the receiving bank might rely on the number as the proper identification of the intermediary or beneficiary's bank even if it identifies a person different from the bank identified by name, the rights and obligations of the sender and the receiving bank are governed by subdivision (b) (1) of this section, as though the sender were a bank. Proof of notice may be made by any admissible evidence. The receiving bank satisfies the burden of proof if it proves that the sender, before the payment order was accepted, signed ~~in writing~~ *a record* stating the information to which the notice relates.

(3) Regardless of whether the sender is a bank, the receiving bank may rely on the name as the proper identification of the intermediary or beneficiary's bank if the receiving bank, at the time it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person.

(4) If the receiving bank knows that the name and number identify different persons, reliance on either the name or the number in executing the sender's payment order is a breach of the obligation stated in subdivision (a) (1) of § 8.4A-302.

§ 8.4A-210. Rejection of payment order.

(a) A payment order is rejected by the receiving bank by a notice of rejection transmitted to the sender orally~~,~~ ~~electronically,~~ or in ~~writing~~ *a record*. A notice of rejection need not use any particular words and is sufficient if it indicates that the receiving bank is rejecting the order or will not execute or pay the order. Rejection is effective when the notice is given if transmission is by a means that is reasonable in the circumstances. If notice of rejection is given by a means that is not reasonable, rejection is effective when the notice is received. If an agreement of the sender and receiving bank establishes the means to be used to reject a payment order, (i) any means complying with the agreement is reasonable and (ii) any means not complying is not reasonable unless no significant delay in receipt of the notice resulted from the use of the noncomplying means.

(b) This subsection applies if a receiving bank other than the beneficiary's bank fails to execute a payment order despite the existence on the execution date of a withdrawable credit balance in an authorized account of the sender sufficient to cover the order. If the sender does not receive notice of rejection of the order on the execution date and the authorized account of the sender does not bear interest, the bank is obliged to pay interest to the sender on the amount of the order for the number of days elapsing after the execution date to the earlier of the day the order is canceled pursuant to subsection (d) of § 8.4A-211 or the day the sender receives notice or learns that the order was not executed, counting the final day of the period as an elapsed day. If the withdrawable credit balance during that period falls below the amount of the order, the amount of interest is reduced accordingly.

(c) If a receiving bank suspends payments, all unaccepted payment orders issued to it are deemed rejected at the time the bank suspends payments.

(d) Acceptance of a payment order precludes a later rejection of the order. Rejection of a payment order precludes a later acceptance of the order.

§ 8.4A-211. Cancellation and amendment of payment order.

(a) A communication of the sender of a payment order cancelling or amending the order may be transmitted to the receiving bank orally~~, electronically,~~ or in ~~writing~~ *a record*. If a security procedure is in effect between the sender and the receiving bank, the communication is not effective to cancel or amend the order unless the communication is verified pursuant to the security procedure or the bank agrees to the cancellation or amendment.

(b) Subject to subsection (a) of this section, a communication by the sender cancelling or amending a payment order is effective to cancel or amend the order if notice of the communication is received at a time and in a manner affording the receiving bank a reasonable opportunity to act on the communication before the bank accepts the payment order.

(c) After a payment order has been accepted, cancellation or amendment of the order is not effective unless the receiving bank agrees or a funds-transfer system rule allows cancellation or amendment without agreement of the bank.

(1) With respect to a payment order accepted by a receiving bank other than the beneficiary's bank, cancellation or amendment is not effective unless a conforming cancellation or amendment of the payment order issued by the receiving bank is also made.

(2) With respect to a payment order accepted by the beneficiary's bank, cancellation or amendment is not effective unless the order was issued in execution of an unauthorized payment order, or because of a mistake by a sender in the funds transfer which resulted in the issuance of a payment order (i) that is a duplicate of a payment order previously issued by the sender, (ii) that orders payment to a beneficiary not entitled to receive payment from the originator, or (iii) that orders payment in an amount greater than the amount the beneficiary was entitled to receive from the originator. If the payment order is canceled or amended, the beneficiary's bank is entitled to recover from the beneficiary any amount paid to the beneficiary to the extent allowed by the law governing mistake and restitution.

(d) An unaccepted payment order is canceled by operation of law at the close of the fifth funds-transfer business day of the receiving bank after the execution date or payment date of the order.

(e) A canceled payment order cannot be accepted. If an accepted payment order is canceled, the acceptance is nullified and no person has any right or obligation based on the acceptance. Amendment of a payment order is deemed to be cancellation of the original order at the time of amendment and issue of a new payment order in the amended form at the same time.

(f) Unless otherwise provided in an agreement of the parties or in a funds-transfer system rule, if the receiving bank, after accepting a payment order, agrees to cancellation or amendment of the order by the sender or is bound by a funds-transfer system rule allowing cancellation or amendment without the bank's agreement, the sender, whether or not cancellation or amendment is effective, is liable to the bank for any loss and expenses, including reasonable attorney's fees, incurred by the bank as a result of the cancellation or amendment or attempted cancellation or amendment.

(g) A payment order is not revoked by the death or legal incapacity of the sender unless the receiving bank knows of the death or of an adjudication of incapacity by a court of competent jurisdiction and has reasonable opportunity to act before acceptance of the order.

(h) A funds-transfer system rule is not effective to the extent it conflicts with subdivision (c) (2) of this section.

§ 8.4A-305. Liability for late or improper execution or failure to execute payment order.

(a) If a funds transfer is completed but execution of a payment order by the receiving bank in breach of § 8.4A-302 results in delay in payment to the beneficiary, the bank is obliged to pay interest to either the originator or the beneficiary of the funds transfer for the period of delay caused by the improper execution. Except as provided in subsection (c) of this section, additional damages are not recoverable.

(b) If execution of a payment order by a receiving bank in breach of § 8.4A-302 results in (i) noncompletion of the funds transfer, (ii) failure to use an intermediary bank designated by the originator, or (iii) issuance of a payment order that does not comply with the terms of the payment order of the originator, the bank is liable to the originator for its expenses in the funds transfer and for incidental expenses and interest losses, to the extent not covered by subsection (a) of this section, resulting from the improper execution. Except as provided in subsection (c) of this section, additional damages are not recoverable.

(c) In addition to the amounts payable under subsections (a) and (b) of this section, damages, including consequential damages, are recoverable to the extent provided in an express ~~written~~ agreement of the receiving bank*, evidenced by a record*.

(d) If a receiving bank fails to execute a payment order it was obliged by express agreement to execute, the receiving bank is liable to the sender for its expenses in the transaction and for incidental expenses and interest losses resulting from the failure to execute. Additional damages, including consequential damages, are recoverable to the extent provided in an express ~~written~~ agreement of the receiving bank, *evidenced by a record,* but are not otherwise recoverable.

(e) Reasonable attorney's fees are recoverable if demand for compensation under subsection (a) or (b) of this section is made and refused before an action is brought on the claim. If a claim is made for breach of an agreement under subsection (d) of this section, and the agreement does not provide for damages, reasonable attorney's fees are recoverable if demand for compensation under subsection (d) of this section, is made and refused before an action is brought on the claim.

(f) Except as stated in this section, the liability of a receiving bank under subsections (a) and (b) of this section may not be varied by agreement.

§ 8.5A-104. Formal requirements.

A letter of credit, confirmation, advice, transfer, amendment, or cancellation may be issued in any form that is a *signed* record ~~and is authenticated (i) by a signature or (ii) in accordance with the agreement of the parties or the standard practice referred to in § 8.5A-108(e)~~.

§ 8.5A-116. Choice of law and forum.

(a) The liability of an issuer, nominated person, or adviser for action or omission is governed by the law of the jurisdiction chosen by an agreement in the form of a record signed ~~or otherwise authenticated~~ by the affected parties ~~in the manner provided in § 8.5A-104~~ or by a provision in the person's letter of credit, confirmation, or other undertaking. The jurisdiction whose law is chosen need not bear any relation to the transaction.

(b) Unless subsection (a) applies, the liability of an issuer, nominated person, or adviser for action or omission is governed by the law of the jurisdiction in which the person is located. The person is considered to be located at the address indicated in the person's undertaking. If more than one address is indicated, the person is considered to be located at the address from which the person's undertaking was issued.

(c) For the purpose of jurisdiction, choice of law, and recognition of interbranch letters of credit, but not enforcement of a judgment, all branches of a bank are considered separate juridical entities and a bank is considered to be located at the place where its relevant branch is considered to be located under ~~this~~ subsection *(d)*.

(d) A branch of a bank is considered to be located at the address indicated in the branch's undertaking. If more than one address is indicated, the branch is considered to be located at the address from which the undertaking was issued.

~~(c)~~ *(e)* Except as otherwise provided in this subsection, the liability of an issuer, nominated person, or adviser is governed by any rules of custom or practice, such as the Uniform Customs and Practice for Documentary Credits, to which the letter of credit, confirmation, or other undertaking is expressly made subject. If (i) this title would govern the liability of an issuer, nominated person, or adviser under subsection (a) or (b), (ii) the relevant undertaking incorporates rules of custom or practice, and (iii) there is conflict between this title and those rules as applied to that undertaking, those rules govern except to the extent of any conflict with the nonvariable provisions specified in § 8.5A-103(c).

~~(d)~~ *(f)* If there is conflict between this title and Titles 8.3A, 8.4, 8.4A, or 8.9A, this title governs.

~~(e)~~ *(g)* The forum for settling disputes arising out of an undertaking within this title may be chosen in the manner and with the binding effect that governing law may be chosen in accordance with subsection (a).

§ 8.7-106. Control of electronic document.

(1) A person has control of an electronic document if a system employed for evidencing the transfer of interests in the electronic document reliably establishes that person as the person to which the electronic document was issued or transferred.

(2) A system satisfies subsection (1), and a person ~~is deemed to have~~ *has* control of an electronic document, if the document is created, stored, and ~~assigned~~ *transferred* in such a manner that:

(a) a single authoritative copy of the document exists that is unique, identifiable, and, except as otherwise provided in subdivisions (c), (d), and (e), unalterable;

(b) the authoritative copy identifies the person asserting control as:

(f) any amendment of the authoritative copy is readily identifiable as authorized or unauthorized.

(3) A system satisfies subsection (1), and a person has control of an electronic document of title, if an authoritative electronic copy of the document, a record attached to or logically associated with the electronic copy, or a system in which the electronic copy is recorded:

(a) enables the person readily to identify each electronic copy as either an authoritative copy or a nonauthoritative copy;

(b) enables the person readily to identify itself in any way, including by name, identifying number, cryptographic key, office, or account number, as the person to which each authoritative electronic copy was issued or transferred; and

(c) gives the person exclusive power, subject to subsection (4), to:

(i) prevent others from adding or changing the person to which each authoritative electronic copy has been issued or transferred; and

(ii) transfer control of each authoritative electronic copy.

(4) Subject to subsection (5), a power is exclusive under subsection (3)(c)(i) and (ii) even if:

(a) the authoritative electronic copy, a record attached to or legally associated with the authoritative electronic copy, or a system in which the authoritative electronic copy is recorded limits the use of the document of title or has a protocol that is programmed to cause a change, including a transfer or loss of control; or

(b) the power is shared with another person.

(5) A power of a person is not shared with another person under subsection (4)(b) and the person's power is not exclusive if:

(a) the person can exercise the power only if the power is also exercised by the other person; and

(b) the other person:

(i) can exercise the power without exercise of the power by the person; or

(ii) is the transferor to the person of an interest in the document of title.

(b) obtains control of the security entitlement after having acknowledged that it will obtain control of the security entitlement on behalf of the purchaser.

(e) If an interest in a security entitlement is granted by the entitlement holder to the entitlement holder's own securities intermediary, the securities intermediary has control.

(f) A purchaser who has satisfied the requirements of subsection (c) or (d) has control even if the registered owner in the case of subsection (c) or the entitlement holder in the case of subsection (d) retains the right to make substitutions for the uncertificated security or security entitlement, to originate instructions or entitlement orders to the issuer or securities intermediary, or otherwise to deal with the uncertificated security or security entitlement.

(g) An issuer or a securities intermediary may not enter into an agreement of the kind described in subsection (c) (2) or (d) (2) without the consent of the registered owner or entitlement holder, but an issuer or a securities intermediary is not

An issuer or securities intermediary that has entered into such an agreement is not required to confirm the existence of the agreement to another party unless requested to do so by the registered owner or entitlement holder.

(h) A person that has control under this section is not required to acknowledge that it has control on behalf of a purchaser.

~~(b) Specific facts giving control.~~

~~A system satisfies subsection (a), and a secured party has control of electronic chattel paper, if the record or records comprising the chattel paper are created, stored, and assigned in such a manner that:~~

~~(2) the authoritative copy identifies the secured party as the assignee of the record or records;~~

~~(3) the authoritative copy is communicated to and maintained by the secured party or its designated custodian;~~

~~(4) copies or amendments that add or change an identified assignee of the authoritative copy can be made only with the consent of the secured party;~~

(b) Security interest perfected or unperfected under law of new jurisdiction. If a security interest described in subsection (a) becomes perfected under the law of the other jurisdiction before the earliest time or event described in that subsection, it remains perfected thereafter. If the security interest does not become perfected under the law of the other jurisdiction before the earliest time or event, it becomes unperfected and is deemed never to have been perfected as against a purchaser of the collateral for value.

(c) Possessory security interest in collateral moved to new jurisdiction. A possessory security interest in collateral, other than goods covered by a certificate of title and as-extracted collateral consisting of goods, remains continuously perfected if:

(2) If a security interest perfected by a financing statement that is effective under paragraph (1) becomes perfected under the law of the other jurisdiction before the earlier of the time the financing statement would have become ineffective under the law of the jurisdiction designated in § 8.9A-301(1) or 8.9A-305(c) or the expiration of the four-month period, it remains perfected thereafter. If the security interest does not become perfected under the law of the other jurisdiction before the earlier time or event, it becomes unperfected and is deemed never to have been perfected as against a purchaser of the collateral for value.

(i) Effect of change in governing law on financing statement filed against original debtor. If a financing statement naming an original debtor is filed pursuant to the law of the jurisdiction designated in § 8.9A-301(1) or 8.9A-305(c) and the new debtor is located in another jurisdiction, the following rules apply:

(d) Instrument purchaser's priority. Except as otherwise provided in § 8.9A-331 (a), a purchaser of an instrument has priority over a security interest in the instrument perfected by a method other than possession if the purchaser gives value and takes possession of the instrument in good faith and without knowledge that the purchase violates the rights of the secured party.

(e) Holder of purchase-money security interest gives new value. For purposes of subsections (a) and (b), the holder of a purchase-money security interest in inventory gives new value for chattel paper constituting proceeds of the inventory.

(f) Indication of assignment gives knowledge. For purposes of subsections (b) and (d), if *the authoritative copies of the record evidencing* chattel paper or an instrument ~~indicates~~ *indicate* that ~~it~~ *the chattel paper or instrument* has been assigned to an identified secured party other than the purchaser, a purchaser of the chattel paper or instrument has knowledge that the purchase violates the rights of the secured party.

§ 8.9A-331. Priority of rights of purchasers of controllable accounts, controllable electronic records, controllable payment intangibles, documents, instruments and securities under other titles, priority of interests in financial assets and security entitlements and protection against assertion of claims under Titles 8.8A and 8.12.

(a) Rights under Titles 8.3A, 8.7, ~~and~~ 8.8A*, and 8.12* not limited. This title does not limit the rights of a holder in due course of a negotiable instrument, a holder to which a negotiable document of title has been duly negotiated, ~~or~~ a protected purchaser of a security*, or a qualifying purchaser of a controllable account, controllable electronic record, or controllable payment intangible*. These holders or purchasers take priority over an earlier security interest, even if perfected, to the extent provided in Titles 8.3A, 8.7, ~~and~~ 8.8A*, and 8.12*.

(b) Protection under Title 8.8A *and 8.12*. This title does not limit the rights of or impose liability on a person to the extent that the person is protected against the assertion of a claim under Title 8.8A *or 8.12*.

(c) Filing not notice. Filing under this title does not constitute notice of a claim or defense to the holders, or purchasers, or persons described in subsections (a) and (b).

§ 8.9A-332. Transfer of money, transfer of funds from deposit account.

(a) Transferee of *tangible* money. A transferee of *tangible* money takes the money free of a security interest ~~unless~~ *if* the transferee ~~acts~~ *receives possession of the money without acting* in collusion with the debtor in violating the rights of the secured party.

(b) Transferee of funds from deposit account. A transferee of funds from a deposit account takes the funds free of a security interest ~~unless~~ *if* the transferee ~~acts~~ *receives the funds without acting* in collusion with the debtor in violating the rights of the secured party.

(c) Transferee of electronic money. A transferee of electronic money takes the money free of a security interest if the transferee obtains control of the money without acting in collusion with the debtor in violating the rights of the secured party.

§ 8.9A-334. Priority of security interests in fixtures and crops.

(a) Security interest in fixtures under this title. A security interest under this title may be created in goods that are fixtures or may continue in goods that become fixtures. A security interest does not exist under this title in ordinary building materials incorporated into an improvement on land.

(b) Security interest in fixtures under real property law. This title does not prevent creation of an encumbrance upon fixtures under real property law.

(c) General rule; subordination of security interest in fixtures. In cases not governed by subsections (d) through (h), a security interest in fixtures is subordinate to a conflicting interest of an encumbrancer or owner of the related real property other than the debtor.

(d) Fixtures purchase-money priority. Except as otherwise provided in subsection (h), a perfected security interest in fixtures has priority over a conflicting interest of an encumbrancer or owner of the real property if the debtor has an interest of record in or is in possession of the real property and:

(1) the security interest is a purchase-money security interest;

(2) the interest of the encumbrancer or owner arises before the goods become fixtures; and

(3) the security interest is perfected by a fixture filing before the goods become fixtures or within twenty days thereafter.

(e) Priority of security interest in fixtures over interests in real property. A perfected security interest in fixtures has priority over a conflicting interest of an encumbrancer or owner of the real property if:

(1) the debtor has an interest of record in the real property or is in possession of the real property and the security interest:

(A) is perfected by a fixture filing before the interest of the encumbrancer or owner is of record; and

(B) has priority over any conflicting interest of a predecessor in title of the encumbrancer or owner;

(2) before the goods become fixtures, the security interest is perfected by any method permitted by this title and the fixtures are readily removable:

(A) factory or office machines;

(B) equipment that is not primarily used or leased for use in the operation of the real property; or

(C) replacements of domestic appliances that are consumer goods;

(3) the conflicting interest is a lien on the real property obtained by legal or equitable proceedings after the security interest was perfected by any method permitted by this title; or

(4) the security interest is:

(A) created in a manufactured home in a manufactured-home transaction; and

(B) perfected pursuant to a statute described in § 8.9A-311 (a) (2).

(f) Priority based on consent, disclaimer, or right to remove. A security interest in fixtures, whether or not perfected, has priority over a conflicting interest of an encumbrancer or owner of the real property if:

(1) the encumbrancer or owner has, in ~~an authenticated~~ *a signed* record, consented to the security interest or disclaimed an interest in the goods as fixtures; or

(2) the debtor has a right to remove the goods as against the encumbrancer or owner.

(g) Continuation of subdivision (f) (2) priority. The priority of the security interest under subdivision (f) (2) continues for a reasonable time if the debtor's right to remove the goods as against the encumbrancer or owner terminates.

(h) Priority of construction mortgage. A mortgage is a construction mortgage to the extent that it secures an obligation incurred for the construction of an improvement on land, including the acquisition cost of the land, if a recorded record of the mortgage so indicates. Except as otherwise provided in subsections (e) and (f), a security interest in fixtures is subordinate to a construction mortgage if a record of the mortgage is recorded before the goods become fixtures and the goods become fixtures before the completion of the construction. A mortgage has this priority to the same extent as a construction mortgage to the extent that it is given to refinance a construction mortgage.

(i) Priority of security interest in crops. A perfected security interest in crops growing on real property has priority over a conflicting interest of an encumbrancer or owner of the real property if the debtor has an interest of record in or is in possession of the real property.

(j) Subsection (i) prevails. Subsection (i) prevails over any inconsistent provisions of the following statutes.

§ 8.9A-341. Bank's rights and duties with respect to deposit account.

Except as otherwise provided in § 8.9A-340 (c), and unless the bank otherwise agrees in ~~an authenticated~~ *a signed* record, a bank's rights and duties with respect to a deposit account maintained with the bank are not terminated, suspended, or modified by:

(1) the creation, attachment, or perfection of a security interest in the deposit account;

(2) the bank's knowledge of the security interest; or

(3) the bank's receipt of instructions from the secured party.

§ 8.9A-404. Rights acquired by assignee; claims and defenses against assignee.

(a) Assignee's rights subject to terms, claims, and defenses; exceptions. Unless an account debtor has made an enforceable agreement not to assert defenses or claims, and subject to subsections (b) through (e), the rights of an assignee are subject to:

(1) all terms of the agreement between the account debtor and assignor and any defense or claim in recoupment arising from the transaction that gave rise to the contract; and

(2) any other defense or claim of the account debtor against the assignor which accrues before the account debtor receives a notification of the assignment ~~authenticated~~ *signed* by the assignor or the assignee.

(b) Account debtor's claim reduces amount owed to assignee. Subject to subsection (c) and except as otherwise provided in subsection (d), the claim of an account debtor against an assignor may be asserted against an assignee under subsection (a) only to reduce the amount the account debtor owes.

(c) Rule for individual under other law. This section is subject to law other than this title which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.

(d) Omission of required statement in consumer transaction. In a consumer transaction, if a record evidences the account debtor's obligation, law other than this title requires that the record include a statement to the effect that the account debtor's recovery against an assignee with respect to claims and defenses against the assignor may not exceed amounts paid by the account debtor under the record, and the record does not include such a statement, the extent to which a claim of an account debtor against the assignor may be asserted against an assignee is determined as if the record included such a statement.

(e) Inapplicability to health-care-insurance receivable. This section does not apply to an assignment of a health-care-insurance receivable.

§ 8.9A-406. Discharge of account debtor; notification of assignment; identification and proof of assignment; restrictions on assignment of accounts, chattel paper, payment intangibles, and promissory notes ineffective.

(a) Discharge of account debtor; effect of notification. Subject to subsections (b) through (i) *and subsection (m)*, an account debtor on an account, chattel paper, or a payment intangible may discharge its obligation by paying the assignor until, but not after, the account debtor receives a notification, ~~authenticated~~ *signed* by the assignor or the assignee, that the amount due or to become due has been assigned and that payment is to be made to the assignee. After receipt of the notification, the account debtor may discharge its obligation by paying the assignee and may not discharge the obligation by paying the assignor.

(b) When notification ineffective. Subject to ~~subsection~~ *subsections* (h) *and (m)*, notification is ineffective under subsection (a):

(1) if it does not reasonably identify the rights assigned;

(2) to the extent that an agreement between an account debtor and a seller of a payment intangible limits the account debtor's duty to pay a person other than the seller and the limitation is effective under law other than this title; or

(3) at the option of an account debtor, if the notification notifies the account debtor to make less than the full amount of any installment or other periodic payment to the assignee, even if:

(A) only a portion of the account, chattel paper, or payment intangible has been assigned to that assignee;

(B) a portion has been assigned to another assignee; or

(C) the account debtor knows that the assignment to that assignee is limited.

(c) Proof of assignment. Subject to ~~subsection~~ *subsections* (h) *and (m)*, if requested by the account debtor, an assignee shall seasonably furnish reasonable proof that the assignment has been made. Unless the assignee complies, the account debtor may discharge its obligation by paying the assignor, even if the account debtor has received a notification under subsection (a).

(d) Term restricting assignment generally ineffective. *In this subsection, "promissory note" includes a negotiable instrument that evidences chattel paper.* Except as otherwise provided in subsection (e) and §§ 8.2A-303 and 8.9A-407, and subject to subsection (h), a term in an agreement between an account debtor and an assignor or in a promissory note is ineffective to the extent that it:

(1) prohibits, restricts, or requires the consent of the account debtor or person obligated on the promissory note to the assignment or transfer of, or the creation, attachment, perfection, or enforcement of a security interest in, the account, chattel paper, payment intangible, or promissory note; or

(2) provides that the assignment or transfer or the creation, attachment, perfection, or enforcement of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the account, chattel paper, payment intangible, or promissory note.

(e) Inapplicability of subsection (d) to certain sales. Subsection (d) does not apply to the sale of a payment intangible or promissory note, other than a sale pursuant to a disposition under § 8.9A-610 or an acceptance of collateral under § 8.9A-620.

(f) Legal restrictions on assignment generally ineffective. Except as otherwise provided in §§ 8.2A-303 and 8.9A-407 and subject to subsections (h) and (i), a rule of law, statute, or regulation that prohibits, restricts, or requires the consent of a government, governmental body or official, or account debtor to the assignment or transfer of, or creation of a security interest in, an account or chattel paper is ineffective to the extent that the rule of law, statute, or regulation:

(1) prohibits, restricts, or requires the consent of the government, governmental body or official, or account debtor to the assignment or transfer of, or the creation, attachment, perfection, or enforcement of a security interest in the account or chattel paper; or

(2) provides that the assignment or transfer or the creation, attachment, perfection, or enforcement of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the account or chattel paper.

(g) Subsection (b) (3) not waivable. Subject to ~~subsection~~ *subsections* (h) *and (m)*, an account debtor may not waive or vary its option under subsection (b) (3).

(h) Rule for individual under other law. This section is subject to law other than this title which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.

(i) Inapplicability to health-care-insurance receivable. This section does not apply to an assignment of a health-care-insurance receivable.

(j) Inapplicability of subsection (d) to certain transactions. Subsection (d) does not apply to:

(1) a claim or right to receive compensation for injuries or sickness as described in 26 U.S.C. § 104(a) (1), as amended from time to time; or

(2) a claim or right to receive benefits under a special needs trust as described in 42 U.S.C. § 1396p (d) (4), as amended from time to time.

(k) Inapplicability to partnership and limited liability company interests. This section does not apply to an interest in a partnership or limited liability company.

(l) No inference regarding structured settlements. This section shall not be construed or interpreted to relieve or exempt any person or entity from any duties, obligations or rights imposed or provided by the Structured Settlement Protection Act (§ 59.1-475 et seq.), as amended from time to time.

(m) Subsections (a), (b), (c), and (g) do not apply to a controllable account or controllable payment intangible.

§ 8.9A-408. Restrictions on assignment of promissory notes, health-care-insurance receivables, and certain general intangibles ineffective.

(a) Term restricting assignment generally ineffective. Except as otherwise provided in subsection (b), a term in a promissory note or in an agreement between an account debtor and a debtor which relates to a health-care-insurance receivable or a general intangible, including a contract, permit, license, or franchise, and which term prohibits, restricts, or requires the consent of the person obligated on the promissory note or the account debtor to, the assignment or transfer of, or creation, attachment, or perfection of a security interest in, the promissory note, health-care-insurance receivable, or general intangible, is ineffective to the extent that the term:

(1) would impair the creation, attachment, or perfection of a security interest; or

(2) provides that the assignment or transfer or the creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the promissory note, health-care-insurance receivable, or general intangible.

(b) Applicability of subsection (a) to sales of certain rights to payment. Subsection (a) applies to a security interest in a payment intangible or promissory note only if the security interest arises out of a sale of the payment intangible or promissory note, other than a sale pursuant to a disposition under § 8.9A-610 or an acceptance of collateral under § 8.9A-620.

(c) Legal restrictions on assignment generally ineffective. A rule of law, statute, or regulation that prohibits, restricts, or requires the consent of a government, governmental body or official, person obligated on a promissory note, or account debtor to the assignment or transfer of, or creation of a security interest in, a promissory note, health-care-insurance receivable, or general intangible, including a contract, permit, license, or franchise between an account debtor and a debtor, is ineffective to the extent that the rule of law, statute, or regulation:

(1) would impair the creation, attachment, or perfection of a security interest; or

(2) provides that the assignment or transfer or the creation, attachment, or perfection of the security interest may give rise to a default, breach, right of recoupment, claim, defense, termination, right of termination, or remedy under the promissory note, health-care-insurance receivable, or general intangible.

(d) Limitation on ineffectiveness under subsections (a) and (c). To the extent that a term in a promissory note or in an agreement between an account debtor and a debtor which relates to a health-care-insurance receivable or general intangible or a rule of law, statute, or regulation described in subsection (c) would be effective under law other than this title but is ineffective under subsection (a) or (c), the creation, attachment, or perfection of a security interest in the promissory note, health-care-insurance receivable, or general intangible:

(1) is not enforceable against the person obligated on the promissory note or the account debtor;

(2) does not impose a duty or obligation on the person obligated on the promissory note or the account debtor;

(3) does not require the person obligated on the promissory note or the account debtor to recognize the security interest, pay or render performance to the secured party, or accept payment or performance from the secured party;

(4) does not entitle the secured party to use or assign the debtor's rights under the promissory note, health-care-insurance receivable, or general intangible, including any related information or materials furnished to the debtor in the transaction giving rise to the promissory note, health-care-insurance receivable, or general intangible;

(5) does not entitle the secured party to use, assign, possess, or have access to any trade secrets or confidential information of the person obligated on the promissory note or the account debtor; and

(6) does not entitle the secured party to enforce the security interest in the promissory note, health-care-insurance receivable, or general intangible.

(e) Inapplicability of subsection (a) to certain payment intangibles. Subsection (a) does not apply to:

(1) the sale of a claim or right to receive compensation for injuries or sickness as described in 26 U.S.C. § 104 (a) (2), as amended from time to time, provided that no inference shall be drawn regarding the enforceability or nonenforceability under other law or any term in an agreement which prohibits, restricts, or requires consent to the sale of such claim or right described in 26 U.S.C. § 104 (a) (2);

(2) a claim or right to receive compensation for injuries or sickness as described in 26 U.S.C. § 104 (a) (1), as amended from time to time; or

(3) a claim or right to receive benefits under a special needs trust as described in 42 U.S.C. § 1396p (d) (4), as amended from time to time.

(f) Inapplicability of subsection (c) to certain payment intangibles. Subsection (c) does not apply to:

(1) a claim or right to receive compensation for injuries or sickness as described in 26 U.S.C. § 104 (a) (1) or (2), as amended from time to time; or

(2) a claim or right to receive benefits under a special needs trust as described in 42 U.S.C. § 1396p (d) (4), as amended from time to time.

(1) the debtor authorizes the filing in ~~an authenticated~~ *a signed* record or pursuant to subsection (b) or (c); or

(2) the person holds an agricultural lien that has become effective at the time of filing and the financing statement covers only collateral in which the person holds an agricultural lien.

(b) Security agreement as authorization. By ~~authenticating~~ *signing* or becoming bound as debtor by a security agreement, a debtor or new debtor authorizes the filing of an initial financing statement, and an amendment, covering:

(1) the collateral described in the security agreement; and

(2) property that becomes collateral under § 8.9A-315 (a) (2), whether or not the security agreement expressly covers proceeds.

(c) Acquisition of collateral as authorization. By acquiring collateral in which a security interest or agricultural lien continues under § 8.9A-315 (a) (1), a debtor authorizes the filing of an initial financing statement, and an amendment, covering the collateral and property that becomes collateral under § 8.9A-315 (a) (2).

(d) Person entitled to file certain amendments. A person may file an amendment other than an amendment that adds collateral covered by a financing statement or an amendment that adds a debtor to a financing statement only if:

(1) the secured party of record authorizes the filing; or

(2) the amendment is a termination statement for a financing statement as to which the secured party of record has failed to file or send a termination statement as required by § 8.9A-513 (a) or (c), the debtor authorizes the filing, and the termination statement indicates that the debtor authorized it to be filed.

(e) Multiple secured parties of record. If there is more than one secured party of record for a financing statement, each secured party of record may authorize the filing of an amendment under subsection (d).

§ 8.9A-513. Termination statement.

(c) Other collateral. In cases not governed by subsection (a), within twenty days after a secured party receives ~~an authenticated~~ *a signed* demand from a debtor, the secured party shall cause the secured party of record for a financing statement to send to the debtor a termination statement for the financing statement or file the termination statement in the filing office if:

(1) except in the case of a financing statement covering accounts or chattel paper that has been sold or goods that are the subject of a consignment, there is no obligation secured by the collateral covered by the financing statement and no commitment to make an advance, incur an obligation, or otherwise give value;

(2) the financing statement covers accounts or chattel paper that has been sold but as to which the account debtor or other person obligated has discharged its obligation;

(3) the financing statement covers goods that were the subject of a consignment to the debtor but are not in the debtor's possession; or

(4) the debtor did not authorize the filing of the initial financing statement.

(d) Effect of filing termination statement. Except as otherwise provided in § 8.9A-510, upon the filing of a termination statement with the filing office, the financing statement to which the termination statement relates ceases to be effective. Except as otherwise provided in § 8.9A-510, for purposes of §§ 8.9A-519 (g), 8.9A-522 (a), and 8.9A-523 (c), the filing with the filing office of a termination statement relating to a financing statement that indicates that the debtor is a transmitting utility also causes the effectiveness of the financing statement to lapse.

(4) A secured party shall account to and pay a debtor for any surplus, and the obligor is liable for any deficiency.

(b) No surplus or deficiency in sales of certain rights to payment. If the underlying transaction is a sale of accounts, chattel paper, payment intangibles, or promissory notes, the debtor is not entitled to any surplus, and the obligor is not liable for any deficiency.

§ 8.9A-615. Application of proceeds of disposition; liability for deficiency and right to surplus.

(a) Application of proceeds. A secured party shall apply or pay over for application the cash proceeds of disposition under § 8.9A-610 in the following order to:

(1) the reasonable expenses of retaking, holding, preparing for disposition, processing, and disposing, and, to the extent provided for by agreement and not prohibited by law, reasonable attorney's fees and legal expenses incurred by the secured party;

(2) the satisfaction of obligations secured by the security interest or agricultural lien under which the disposition is made;

(3) the satisfaction of obligations secured by any subordinate security interest in or other subordinate lien on the collateral if:

(A) the secured party receives from the holder of the subordinate security interest or other lien ~~an authenticated~~ *a signed* demand for proceeds before distribution of the proceeds is completed; and

(B) in a case in which a consignor has an interest in the collateral, the subordinate security interest or other lien is senior to the interest of the consignor; and

(4) a secured party that is a consignor of the collateral if the secured party receives from the consignor ~~an authenticated~~ *a signed* demand for proceeds before distribution of the proceeds is completed.

(b) Proof of subordinate interest. If requested by a secured party, a holder of a subordinate security interest or other lien shall furnish reasonable proof of the interest or lien within a reasonable time. Unless the holder does so, the secured party need not comply with the holder's demand under subsection (a) (3).

(c) Application of noncash proceeds. A secured party need not apply or pay over for application noncash proceeds of disposition under § 8.9A-610 unless the failure to do so would be commercially unreasonable. A secured party that applies or pays over for application noncash proceeds shall do so in a commercially reasonable manner.

(d) Surplus or deficiency if obligation secured. If the security interest under which a disposition is made secures payment or performance of an obligation, after making the payments and applications required by subsection (a) and permitted by subsection (c):

(1) unless subsection (a) (4) requires the secured party to apply or pay over cash proceeds to a consignor, the secured party shall account to and pay a debtor for any surplus; and

(2) the obligor is liable for any deficiency.

(e) No surplus or deficiency in sales of certain rights to payment. If the underlying transaction is a sale of accounts, chattel paper, payment intangibles, or promissory notes:

(1) the debtor is not entitled to any surplus; and

(2) the obligor is not liable for any deficiency.

(f) Calculation of surplus or deficiency in disposition to person related to secured party. The surplus or deficiency following a disposition is calculated based on the amount of proceeds that would have been realized in a disposition complying with this part to a transferee other than the secured party, a person related to the secured party, or a secondary obligor if:

(1) the transferee in the disposition is the secured party, a person related to the secured party, or a secondary obligor; and

(2) the amount of proceeds of the disposition is significantly below the range of proceeds that a complying disposition to a person other than the secured party, a person related to the secured party, or a secondary obligor would have brought.

§ 8.9A-616. Explanation of calculation of surplus or deficiency.

(a) Definitions. In this section:

(1) "Explanation" means a ~~writing~~ *record* that:

(A) states the amount of the surplus or deficiency;

(B) provides an explanation in accordance with subsection (c) of how the secured party calculated the surplus or deficiency;

(C) states, if applicable, that future debits, credits, charges, including additional credit service charges or interest, rebates, and expenses may affect the amount of the surplus or deficiency; and

(D) provides a telephone number or mailing address from which additional information concerning the transaction is available.

(2) "Request" means a record:

(A) ~~authenticated~~ *signed* by a debtor or consumer obligor;

(B) requesting that the recipient provide an explanation; and

(C) sent after disposition of the collateral under § 8.9A-610.

(b) Explanation of calculation. In a consumer-goods transaction in which the debtor is entitled to a surplus or a consumer obligor is liable for a deficiency under § 8.9A-615, the secured party shall:

(1) send an explanation to the debtor or consumer obligor, as applicable, after the disposition and:

(A) before or when the secured party accounts to the debtor and pays any surplus or first makes ~~written~~ demand *in a record* on the consumer obligor after the disposition for payment of the deficiency; and

(B) within fourteen days after receipt of a request; or

(2) in the case of a consumer obligor who is liable for a deficiency, within fourteen days after receipt of a request, send to the consumer obligor a record waiving the secured party's right to a deficiency.

(c) Required information. To comply with subsection (a) (1) (B), ~~a writing~~ *an explanation* must provide the following information in the following order:

(1) the aggregate amount of obligations secured by the security interest under which the disposition was made, and, if the amount reflects a rebate of unearned interest or credit service charge, an indication of that fact, calculated as of a specified date:

(A) if the secured party takes or receives possession of the collateral after default, not more than thirty-five days before the secured party takes or receives possession; or

(B) if the secured party takes or receives possession of the collateral before default or does not take possession of the collateral, not more than thirty-five days before the disposition;

(2) the amount of proceeds of the disposition;

(3) the aggregate amount of the obligations after deducting the amount of proceeds;

(4) the amount, in the aggregate or by type, and types of expenses, including expenses of retaking, holding, preparing for disposition, processing, and disposing of the collateral, and attorney's fees secured by the collateral which are known to the secured party and relate to the current disposition;

(6) the amount of the surplus or deficiency.

(d) Substantial compliance. A particular phrasing of the explanation is not required. An explanation complying substantially with the requirements of subsection (a) is sufficient, even if it includes minor errors that are not seriously misleading.

(e) Charges for responses. A debtor or consumer obligor is entitled without charge to one response to a request under this section during any six-month period in which the secured party did not send to the debtor or consumer obligor an explanation pursuant to subsection (b) (1). The secured party may require payment of a charge not exceeding twenty-five dollars for each additional response.

§ 8.9A-619. Transfer of record or legal title.

(a) "Transfer statement." In this section, "transfer statement" means a record ~~authenticated~~ *signed* by a secured party stating:

(1) that the debtor has defaulted in connection with an obligation secured by specified collateral;

(2) that the secured party has exercised its postdefault remedies with respect to the collateral;

(3) that, by reason of the exercise, a transferee has acquired the rights of the debtor in the collateral; and

(4) the name and mailing address of the secured party, debtor, and transferee.

(b) Effect of transfer statement. A transfer statement entitles the transferee to the transfer of record of all rights of the debtor in the collateral specified in the statement in any official filing, recording, registration, or certificate-of-title system covering the collateral. If a transfer statement is presented with the applicable fee and request form to the official or office responsible for maintaining the system, the official or office shall:

(1) accept the transfer statement;

(2) promptly amend its records to reflect the transfer; and

(3) if applicable, issue a new appropriate certificate of title in the name of the transferee.

(c) Transfer not a disposition; no relief of secured party's duties. A transfer of the record or legal title to collateral to a secured party under subsection (b) or otherwise is not of itself a disposition of collateral under this title and does not of itself relieve the secured party of its duties under this title.

§ 8.9A-620. Acceptance of collateral in full or partial satisfaction of obligation; compulsory disposition of collateral.

(a) Conditions to acceptance in satisfaction. Except as otherwise provided in subsection (g), a secured party may accept collateral in full or partial satisfaction of the obligation it secures only if:

(B) any other person, other than the debtor, holding an interest in the collateral subordinate to the security interest that is the subject of the proposal;

(3) subsection (e) does not require the secured party to dispose of the collateral or the debtor waives the requirement pursuant to § 8.9A-624.

(b) Purported acceptance ineffective. A purported or apparent acceptance of collateral under this section is ineffective unless:

(A) sends to the debtor after default a proposal that is unconditional or subject only to a condition that collateral not in the possession of the secured party be preserved or maintained;

(B) in the proposal, proposes to accept collateral in full satisfaction of the obligation it secures; and

(C) does not receive a notification of objection ~~authenticated~~ *signed* by the debtor within twenty days after the proposal is sent.

(d) Effectiveness of notification. To be effective under subsection (a) (2), a notification of objection must be received by the secured party:

(2) in other cases:

(A) within twenty days after the last notification was sent pursuant to § 8.9A-621; or

(B) if a notification was not sent, before the debtor consents to the acceptance under subsection (c).

(e) Mandatory disposition of consumer goods.

A secured party that has taken possession of collateral shall dispose of the collateral pursuant to § 8.9A-610 within the time specified in subsection (f) if:

(2) within any longer period to which the debtor and all secondary obligors have agreed in an agreement to that effect entered into and ~~authenticated~~ *signed* after default.

(g) No partial satisfaction in consumer transaction. In a consumer transaction, a secured party may not accept collateral in partial satisfaction of the obligation it secures.

§ 8.9A-621. Notification of proposal to accept collateral.

(a) Persons to which proposal to be sent. A secured party that desires to accept collateral in full or partial satisfaction of the obligation it secures shall send its proposal to:

(1) any person from which the secured party has received, before the debtor consented to the acceptance, ~~an authenticated~~ *a signed* notification of a claim of an interest in the collateral;

(2) any other secured party or lienholder that, ten days before the debtor consented to the acceptance, held a security interest in or other lien on the collateral perfected by the filing of a financing statement that:

§ 8.9A-624. Waiver.

(b) Waiver of mandatory disposition. A debtor may waive the right to require disposition of collateral under § 8.9A-620 (e) only by an agreement to that effect entered into and ~~authenticated~~ *signed* after default.

(c) Waiver of redemption right. Except in a consumer-goods transaction, a debtor or secondary obligor may waive the right to redeem collateral under § 8.9A-623 only by an agreement to that effect entered into and ~~authenticated~~ *signed* after default.

§ 8.9A-628. Nonliability and limitation on liability of secured party; liability of secondary obligor.

(a) Limitation of liability of secured party for noncompliance with title. ~~Unless~~ *Subject to subsection (f), unless* a secured party knows that a person is a debtor or obligor, knows the identity of the person, and knows how to communicate with the person:

(1) the secured party is not liable to the person, or to a secured party or lienholder that has filed a financing statement against the person, for failure to comply with this title; and

(2) the secured party's failure to comply with this title does not affect the liability of the person for a deficiency.

(b) Limitation of liability based on status as secured party. ~~A~~ *Subject to subsection (f), a* secured party is not liable because of its status as secured party:

(1) to a person that is a debtor or obligor, unless the secured party knows:

(c) Limitation of liability if reasonable belief that transaction not a consumer-goods transaction or consumer transaction. A secured party is not liable to any person, and a person's liability for a deficiency is not affected, because of any act or omission arising out of the secured party's reasonable belief that a transaction is not a consumer-goods transaction or a consumer transaction or that goods are not consumer goods, if the secured party's belief is based on its reasonable reliance on:

(1) a debtor's representation concerning the purpose for which collateral was to be used, acquired, or held; or

(2) an obligor's representation concerning the purpose for which a secured obligation was incurred.

(d) Limitation of liability for statutory damages. A secured party is not liable to any person under § 8.9A-625 (c) (2) for its failure to comply with § 8.9A-616.

(e) Limitation of multiple liability for statutory damages. A secured party is not liable under § 8.9A-625 (c) (2) more than once with respect to any one secured obligation.

(f) Limitation of liability under subsections (a) and (b) does not apply. Subsections (a) and (b) do not apply to limit the liability of a secured party to a person if, at the time the secured party obtains control of collateral that is a controllable account, controllable electronic record, or controllable payment intangible or at the time the security interest attaches to the collateral, whichever is later:

TITLE 8.12.

CONTROLLABLE ELECTRONIC RECORDS.

§ 8.12-101. Title.

This title shall be known and may be cited as Uniform Commercial Code--Controllable Electronic Records.

§ 8.12-102. Definitions.

(a) Title 8.12 definitions. In this article:

(1) "Controllable electronic record" means a record stored in an electronic medium that can be subjected to control under Section 8.12-105. The term does not include a controllable account, a controllable payment intangible, a deposit account, an electronic copy of a record evidencing chattel paper, an electronic document of title, electronic money, investment property, or a transferable record.

(2) "Qualifying purchaser" means a purchaser of a controllable electronic record or an interest in a controllable electronic record that obtains control of the controllable electronic record for value, in good faith, and without notice of a claim of a property right in the controllable electronic record.

(3) "Transferable record" has the meaning provided for that term in:

(A) Section 201(a)(1) of the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. Section 7021(a)(1), as amended; or

(B) Section 59.1-494 of the Uniform Electronic Transactions Act (§§ 59.1-479 et seq.).

(4) "Value" has the meaning provided in Section 3-303(a), as if references in that subsection to an "instrument" were references to a controllable account, controllable electronic record, or controllable payment intangible.

(b) Definitions in Article 9. The definitions in Article 9 of "account debtor," "controllable account," "controllable payment intangible," "chattel paper," "deposit account," "electronic money," and "investment property" apply to this article.

(c) Article 1 definitions and principles. Article 1 contains general definitions and principles of construction and interpretation applicable throughout this article.

§ 8.12-103. Relation to Article 9 and consumer laws.

(a) Article 9 governs in case of conflict. If there is conflict between this article and Article 9, Article 9 governs.

(b) Applicable consumer law and other laws. A transaction subject to this article is subject to any applicable rule of law that establishes a different rule for consumers and (i) any other statute or regulation that regulates the rates, charges, agreements, and practices for loans, credit sales, or other extensions of credit and (ii) any consumer-protection statute or regulation.

§ 8.12-104. Rights in controllable account, controllable electronic record, and controllable payment intangible.

(a) Applicability of section to controllable account and controllable payment intangible. This section applies to the acquisition and purchase of rights in a controllable account or controllable payment intangible, including the rights and benefits under subsections (c), (d), (e), (g), and (h) of a purchaser and qualifying purchaser, in the same manner this section applies to a controllable electronic record.

(b) Control of controllable account and controllable payment intangible. To determine whether a purchaser of a controllable account or a controllable payment intangible is a qualifying purchaser, the purchaser obtains control of the account or payment intangible if it obtains control of the controllable electronic record that evidences the account or payment intangible.

(c) Applicability of other law to acquisition of rights. Except as provided in this section, law other than this article determines whether a person acquires a right in a controllable electronic record and the right the person acquires.

(d) Shelter principle and purchase of limited interest. A purchaser of a controllable electronic record acquires all rights in the controllable electronic record that the transferor had or had power to transfer, except that a purchaser of a limited interest in a controllable electronic record acquires rights only to the extent of the interest purchased.

(e) Rights of qualifying purchaser. A qualifying purchaser acquires its rights in the controllable electronic record free of a claim of a property right in the controllable electronic record.

(f) Limitation of rights of qualifying purchaser in other property. Except as provided in subsections (a) and (e) for a controllable account and a controllable payment intangible or law other than this article, a qualifying purchaser takes a right to payment, right to performance, or other interest in property evidenced by the controllable electronic record subject to a claim of a property right in the right to payment, right to performance, or other interest in property.

(g) No-action protection for qualifying purchaser. An action may not be asserted against a qualifying purchaser based on both a purchase by the qualifying purchaser of a controllable electronic record and a claim of a property right in another controllable electronic record, whether the action is framed in conversion, replevin, constructive trust, equitable lien, or other theory.

(h) Filing not notice. Filing of a financing statement under Article 9 is not notice of a claim of a property right in a controllable electronic record.

§ 8.12-105. Control of controllable electronic record.

(a) General rule: control of controllable electronic record. A person has control of a controllable electronic record if the electronic record, a record attached to or logically associated with the electronic record, or a system in which the electronic record is recorded:

(1) gives the person:

(A) power to avail itself of substantially all the benefit from the electronic record; and

(B) exclusive power, subject to subsection (b), to:

(i) prevent others from availing themselves of substantially all the benefit from the electronic record; and

(ii) transfer control of the electronic record to another person or cause another person to obtain control of another controllable electronic record as a result of the transfer of the electronic record; and

(2) enables the person readily to identify itself in any way, including by name, identifying number, cryptographic key, office, or account number, as having the powers specified in paragraph (1).

(b) Meaning of exclusive. Subject to subsection (c), a power is exclusive under subsection (a)(1)(B)(i) and (ii) even if:

(1) the controllable electronic record, a record attached to or logically associated with the electronic record, or a system in which the electronic record is recorded limits the use of the electronic record or has a protocol programmed to cause a change, including a transfer or loss of control or a modification of benefits afforded by the electronic record; or

(2) the power is shared with another person.

(c) When power not shared with another person. A power of a person is not shared with another person under subsection (b)(2) and the person's power is not exclusive if:

(1) the person can exercise the power only if the power also is exercised by the other person; and

(2) the other person:

(A) can exercise the power without exercise of the power by the person; or

(B) is the transferor to the person of an interest in the controllable electronic record or a controllable account or controllable payment intangible evidenced by the controllable electronic record.

(d) Presumption of exclusivity of certain powers. If a person has the powers specified in subsection (a)(1)(B)(i) and (ii), the powers are presumed to be exclusive.

(e) Control through another person. A person has control of a controllable electronic record if another person, other than the transferor to the person of an interest in the controllable electronic record or a controllable account or controllable payment intangible evidenced by the controllable electronic record:

(1) has control of the electronic record and acknowledges that it has control on behalf of the person; or

(2) obtains control of the electronic record after having acknowledged that it will obtain control of the electronic record on behalf of the person.

(f) No requirement to acknowledge. A person that has control under this section is not required to acknowledge that it has control on behalf of another person.

(g) No duties or confirmation. If a person acknowledges that it has or will obtain control on behalf of another person, unless the person otherwise agrees or law other than this article or Article 9 otherwise provides, the person does not owe any duty to the other person and is not required to confirm the acknowledgment to any other person.

§ 8.12-106. Discharge of account debtor on controllable account or controllable payment intangible.

(a) Discharge of account debtor. An account debtor on a controllable account or controllable payment intangible may discharge its obligation by paying:

(1) the person having control of the controllable electronic record that evidences the controllable account or controllable payment intangible; or

(2) except as provided in subsection (b), a person that formerly had control of the controllable electronic record.

(b) Content and effect of notification. Subject to subsection (d), the account debtor may not discharge its obligation by paying a person that formerly had control of the controllable electronic record if the account debtor receives a notification that:

(1) is signed by a person that formerly had control or the person to which control was transferred;

(2) reasonably identifies the controllable account or controllable payment intangible;

(3) notifies the account debtor that control of the controllable electronic record that evidences the controllable account or controllable payment intangible was transferred;

(4) identifies the transferee, in any reasonable way, including by name, identifying number, cryptographic key, office, or account number; and

(5) provides a commercially reasonable method by which the account debtor is to pay the transferee.

(c) Discharge following effective notification. After receipt of a notification that complies with subsection (b), the account debtor may discharge its obligation by paying in accordance with the notification and may not discharge the obligation by paying a person that formerly had control.

(d) When notification ineffective. Subject to subsection (h), notification is ineffective under subsection (b):

(1) unless, before the notification is sent, the account debtor and the person that, at that time, had control of the controllable electronic record that evidences the controllable account or controllable payment intangible agree in a signed record to a commercially reasonable method by which a person may furnish reasonable proof that control has been transferred;

(2) to the extent an agreement between the account debtor and seller of a payment intangible limits the account debtor's duty to pay a person other than the seller and the limitation is effective under law other than this article; or

(3) at the option of the account debtor, if the notification notifies the account debtor to:

(A) divide a payment;

(B) make less than the full amount of an installment or other periodic payment; or

(C) pay any part of a payment by more than one method or to more than one person.

(e) Proof of transfer of control. Subject to subsection (h), if requested by the account debtor, the person giving the notification under subsection (b) seasonably shall furnish reasonable proof, using the method in the agreement referred to in subsection (d)(1), that control of the controllable electronic record has been transferred. Unless the person complies with the request, the account debtor may discharge its obligation by paying a person that formerly had control, even if the account debtor has received a notification under subsection (b).

(f) What constitutes reasonable proof. A person furnishes reasonable proof under subsection (e) that control has been transferred if the person demonstrates, using the method in the agreement referred to in subsection (d)(1), that the transferee has the power to:

(1) avail itself of substantially all the benefit from the controllable electronic record;

(2) prevent others from availing themselves of substantially all the benefit from the controllable electronic record; and

(3) transfer the powers specified in paragraphs (1) and (2) to another person.

(g) Rights not waivable. Subject to subsection (h), an account debtor may not waive or vary its rights under subsections (d)(1) and (e) or its option under subsection (d)(3).

(h) Rule for individual under other law. This section is subject to law other than this article which establishes a different rule for an account debtor who is an individual and who incurred the obligation primarily for personal, family, or household purposes.

§ 8.12-107. Governing law.

(a) Governing law: general rule. Except as provided in subsection (b), the local law of a controllable electronic record's jurisdiction governs a matter covered by this article.

(b) Governing law: Section 8.12-106. For a controllable electronic record that evidences a controllable account or controllable payment intangible, the local law of the controllable electronic record's jurisdiction governs a matter covered by Section 12-106 unless an effective agreement determines that the local law of another jurisdiction governs.

(c) Controllable electronic record's jurisdiction. The following rules determine a controllable electronic record's jurisdiction under this section:

(1) If the controllable electronic record, or a record attached to or logically associated with the controllable electronic record and readily available for review, expressly provides that a particular jurisdiction is the controllable electronic record's jurisdiction for purposes of this article or the Uniform Commercial Code, that jurisdiction is the controllable electronic record's jurisdiction.

(2) If paragraph (1) does not apply and the rules of the system in which the controllable electronic record is recorded are readily available for review and expressly provide that a particular jurisdiction is the controllable electronic record's jurisdiction for purposes of this title or the Uniform Commercial Code, that jurisdiction is the controllable electronic record's jurisdiction.

(3) If paragraphs (1) and (2) do not apply and the controllable electronic record, or a record attached to or logically associated with the controllable electronic record and readily available for review, expressly provides that the controllable electronic record is governed by the law of a particular jurisdiction, that jurisdiction is the controllable electronic record's jurisdiction.

(4) If paragraphs (1), (2), and (3) do not apply and the rules of the system in which the controllable electronic record is recorded are readily available for review and expressly provide that the controllable electronic record or the system is governed by the law of a particular jurisdiction, that jurisdiction is the controllable electronic record's jurisdiction.

(5) If paragraphs (1) through (4) do not apply, the controllable electronic record's jurisdiction is the District of Columbia.

(d) Applicability of Title 8.12. If subsection (c)(5) applies and Title 8.12 is not in effect in the District of Columbia without material modification, the governing law for a matter covered by this article is the law of the District of Columbia as though Title 8.12 were in effect in the District of Columbia without material modification. In this subsection, "Title 8.12" means Article 12 of Uniform Commercial Code Amendments (2022).

(e) Relation of matter or transaction to controllable electronic record's jurisdiction not necessary. To the extent subsections (a) and (b) provide that the local law of the controllable electronic record's jurisdiction governs a matter covered by this article, that law governs even if the matter or a transaction to which the matter relates does not bear any relation to the controllable electronic record's jurisdiction.

(f) Rights of purchasers determined at time of purchase. The rights acquired under Section 12-104 by a purchaser or qualifying purchaser are governed by the law applicable under this section at the time of purchase.

Except as provided in Part 3, a transaction validly entered into before the effective date of this act and the rights, duties, and interests flowing from the transaction remain valid thereafter and may be terminated, completed, consummated, or enforced as required or permitted by law other than the Uniform Commercial Code or, if applicable, the Uniform Commercial Code, as though this act had not taken effect.

PART 3.

§ 8.13-301. Savings clause.

(a) Pre-effective-date transaction, lien, or interest. Except as provided in this part, Title 8.9A as amended by this act and Title 8.12 apply to a transaction, lien, or other interest in property, even if the transaction, lien, or interest was entered into, created, or acquired before the effective date of this act.

(b) Continuing validity. Except as provided in subsection (c) and §§ 8.13-302 through 8.13-306:

(1) a transaction, lien, or interest in property that was validly entered into, created, or transferred before the effective date of this act and was not governed by the Uniform Commercial Code, but would be subject to Title 8.9A as amended by this act or Title 8.12 if it had been entered into, created, or transferred on or after the effective date of this act, including the rights, duties, and interests flowing from the transaction, lien, or interest, remains valid on and after the effective date of this act; and

§ 8.13-302. Security interest perfected before effective date.

(a) Continuing perfection: perfection requirements satisfied. A security interest that is enforceable and perfected immediately before the effective date of this act is a perfected security interest under this act if, on the effective date of this act, the requirements for enforceability and perfection under this act are satisfied without further action.

(b) Continuing perfection: enforceability or perfection requirements not satisfied. If a security interest is enforceable and perfected immediately before the effective date of this act, but the requirements for enforceability or perfection under this act are not satisfied on the effective date of this act, the security interest:

(1) is a perfected security interest until the earlier of the time perfection would have ceased under the law in effect immediately before the effective date of this act or the adjustment date;

(2) remains enforceable thereafter only if the security interest satisfies the requirements for enforceability under § 8.9A-203, as amended by this act, before the adjustment date; and

(3) remains perfected thereafter only if the requirements for perfection under this act are satisfied before the time specified in paragraph (1).

§ 8.13-303. Security interest unperfected before effective date.

A security interest that is enforceable immediately before the effective date of this act but is unperfected at that time:

(1) remains an enforceable security interest until the adjustment date;

(2) remains enforceable thereafter if the security interest becomes enforceable under Section 9-203, as amended by this act, on the effective date of this act or before the adjustment date; and

(3) becomes perfected:

(A) without further action, on the effective date of this act if the requirements for perfection under this act are satisfied before or at that time; or

(B) when the requirements for perfection are satisfied if the requirements are satisfied after that time.

§ 8.13-304. Effectiveness of actions taken before effective date.

(a) Pre-effective-date action; attachment and perfection before adjustment date. If action, other than the filing of a financing statement, is taken before the effective date of this act and the action would have resulted in perfection of the security interest had the security interest become enforceable before the effective date of this act, the action is effective to perfect a security interest that attaches under this act before the adjustment date. An attached security interest becomes unperfected on the adjustment date unless the security interest becomes a perfected security interest under this act before the adjustment date.

(b) Pre-effective-date filing. The filing of a financing statement before the effective date of this act is effective to perfect a security interest on the effective date of this act to the extent the filing would satisfy the requirements for perfection under this act.

(c) Pre-effective-date enforceability action. The taking of an action before the effective date of this act is sufficient for the enforceability of a security interest on the effective date of this act if the action would satisfy the requirements for enforceability under this act.

§ 8.13-305. Priority.

(a) Determination of priority. Subject to subsections (b) and (c), this act determines the priority of conflicting claims to collateral.

(b) Established priorities. Subject to subsection (c), if the priorities of claims to collateral were established before the effective date of this act, Title 8.9A as in effect before the effective date of this act determines priority.

§ 8.13-306. Priority of claims when priority rules of Title 8.9A do not apply.

(b) Established priorities. Subject to subsection (c), when the priority rules of Article 9 as amended by this act do not apply and the priorities of claims to Title 8.12 property were established before the effective date of this act, law other than Title 8.12 determines priority.

(c) Determination of certain priorities on adjustment date. When the priority rules of Article 9 as amended by this act do not apply, to the extent the priorities determined by this act modify the priorities established before the effective date of this act, the priorities of claims to Title 8.12 property established before the effective date of this act cease to apply on the adjustment date.

PART 4.

§ 8.13-401. Effective date.

This act shall take effect on July 1, 2025.

2. That this act may be referred to as the Uniform Commercial Code Amendments (2022).

CHAPTER 653

An Act to amend and reenact § 46.2-1232 of the Code of Virginia, relating to regulation of towing companies; local authority.

[H 1287]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1232 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1232. Localities may regulate removal or immobilization of trespassing vehicles.

A. The governing body of any county, city, or town may by ordinance regulate the removal of trespassing vehicles from property by or at the direction of the owner, operator, lessee, or authorized agent in charge of the property. In the event that a vehicle is towed from one locality and stored in or released from a location in another locality, the local ordinance, if any, of the locality from which the vehicle was towed shall apply.

B. No local ordinance adopted under authority of this section shall require that any towing and recovery business also operate as or provide services as a vehicle repair facility or body shop, filling station, or any business other than a towing and recovery business.

C. Any such local ordinance may also require towing and recovery operators to (i) obtain and retain photographs or other documentary evidence substantiating the reason for the removal; (ii) post signs at their main place of business and at any other location where towed vehicles may be reclaimed conspicuously indicating (a) the maximum charges allowed by local ordinance, if any, for all their fees for towing, recovery, and storage services and (b) the name and business telephone number of the local official, if any, responsible for handling consumer complaints; (iii) obtain at the time the vehicle is towed, verbal approval of an agent designated in the local ordinance who is available at all times; and (iv) obtain, at the time the vehicle is towed, if such towing is performed during the normal business hours of the owner of the property from which the vehicle is being towed, the written authorization of the owner of the property from which the vehicle is towed, or his agent. Such written authorization, if required, shall be in addition to any written contract between the towing and recovery operator and the owner of the property or his agent, except for vehicles being towed from a locality within Planning District 8 or Planning District 16, which shall not require written authorization if such written contract is in place. Any such written contract governing a property located within Planning District 8 or Planning District 16 shall clearly state the terms on which towing and recovery operators may monitor private lots on behalf of property owners. For the purposes of this subsection, "agent" shall not include any person who either (a) is related by blood or marriage to the towing and recovery operator or (b) has a financial interest in the towing and recovery operator's business.

D. Any such ordinance adopted by a locality within Planning District 8 may require towing companies that tow vehicles from the county, city, or town adopting the ordinance to other localities, provided that the stored or released location is within the Commonwealth of Virginia and within 10 miles of the point of origin of the actual towing, (i) to obtain from the locality from which such vehicles are towed a permit to do so and (ii) to submit to an inspection of such towing company's facilities to ensure that the company meets all the locality's requirements, regardless of whether such facilities are located within the locality or elsewhere. The locality may impose and collect reasonable fees for the issuance and administration of permits as provided for in this subsection. Such ordinance may also provide grounds for revocation,

suspension, or modification of any permit issued under this subsection, subject to notice to the permittee of the revocation, suspension, or modification and an opportunity for the permittee to have a hearing before the governing body of the locality or its designated agent to challenge the revocation, suspension, or modification. Any tow truck driver who removes or tows a vehicle, pursuant to any such ordinance, that is occupied by an unattended companion animal as defined in § 3.2-6500 shall, upon such removal, immediately notify the animal control office of the locality in which the vehicle is being removed or towed. Nothing in this subsection shall be applicable to public safety towing.

Nothing in this subsection shall restrict or modify the authority of a locality within Planning District 8 to require, by such ordinance, towing companies that tow and store or release vehicles within such county, city, or town to obtain from such locality a permit to do so.

CHAPTER 656

An Act to amend and reenact §§ 8.01-512.4, 34-4, 34-13, and 34-26 of the Code of Virginia, relating to exemptions from garnishment and lien; householder; total value.

[H 1339]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 8.01-512.4, 34-4, 34-13, and 34-26 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-512.4. Notice of exemptions from garnishment and lien.

No summons in garnishment shall be issued or served, nor shall any notice of lien be served on a financial institution pursuant to § 8.01-502.1, unless a notice of exemptions and claim for exemption form are attached. The notice shall contain the following statement:

Notice to judgment debtor

How to claim exemptions from garnishment and lien

The attached Summons in Garnishment or Notice of Lien has been issued on request of a creditor who holds a judgment against you. The Summons may cause your property or wages to be held or taken to pay the judgment.

The law provides that certain property and wages cannot be taken in garnishment. Such property is said to be exempted. A summary of some of the major exemptions is set forth in the request for hearing form. There is no exemption solely because you are having difficulty paying your debts.

If you claim an exemption, you should (i) fill out the claim for exemption form and (ii) deliver or mail the form to the clerk's office of this court. You have a right to a hearing within seven business days from the date you file your claim with the court. If the creditor is asking that your wages be withheld, the method of computing the amount of wages that are exempt from garnishment by law is indicated on the Summons in Garnishment attached. You do not need to file a claim for exemption to receive this exemption, but if you believe the wrong amount is being withheld you may file a claim for exemption.

On the day of the hearing you should come to court ready to explain why your property is exempted, and you should bring any documents that may help you prove your case. If you do not come to court at the designated time and prove that your property is exempt, you may lose some of your rights.

It may be helpful to you to seek the advice of an attorney in this matter.

CHAPTER 657

An Act to amend and reenact §§ 22.1-253.13:1, as it shall become effective, and 22.1-253.13:4 of the Code of Virginia, relating to high school graduation requirements; satisfaction of elective course credits with workforce credentials; development and maintenance of list of accepted credentials.

[H 1345]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-253.13:1, as it shall become effective, and 22.1-253.13:4 of the Code of Virginia are amended and reenacted as follows:

§ 22.1-253.13:1. (For effective date, see Acts 2022, cc. 549, 550, cl. 2) Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, § 1 of the Constitution of Virginia.

B. The Board shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade eight shall align with evidence-based literacy instruction and science-based reading research.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department shall make available and maintain a website, either separately or through an existing website utilized by the Department, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.

2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.

3. Career and technical education programs incorporated into the K through 12 curricula that include:

a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;

b. Career exploration opportunities in the middle school grades;

c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local comprehensive community colleges and shall be submitted to the Superintendent in accordance with the timelines established by federal law;

d. Annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23.1-204.1 and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college, or workforce center; and

e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median pay of program graduates. The Department shall annually compile such lists and provide them to each local school board.

4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § 22.1-200.03.

5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.

6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in the Commonwealth specifying the options for students to complete an associate degree or a one-year Uniform Certificate of General Studies from a comprehensive community college concurrent with a high school diploma. Local school divisions shall report the results of the diagnostic tests to the Department on an annual basis, at a time to be determined by the Superintendent. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

F. *The Board shall, in collaboration with the Virginia Community College System, Career and Technical Education directors, and industry partners, develop and maintain a current, comprehensive, and uniform list of industry-recognized workforce credentials that students may take as a substitute for certain credits required for graduation pursuant to 8VAC20-131-51 of the Virginia Administrative Code, including industry-recognized workforce credentials that students may take as a substitute for elective credits and industry-recognized workforce credentials completed outside of regular school hours. The Board, in collaboration with the Virginia Community College System, shall ensure that such list reflects the*

current credit requirements for graduation and the current credentials accepted as substitutes. The Board shall post such list in a publicly accessible location on its website. Each school board shall accept as a substitute for a required credit any credential listed as an accepted substitute for such required credit.

G. Each local school board may enter into agreements for postsecondary course credit, credential, certification, or license attainment, hereinafter referred to as College and Career Access Pathways Partnerships (Partnerships), with comprehensive community colleges or other public institutions of higher education or educational institutions established pursuant to Title 23.1 that offer a career and technical education curriculum. Such Partnerships shall (i) specify the options for students to take courses as part of the career and technical education curriculum that lead to course credit or an industry-recognized credential, certification, or license concurrent with a high school diploma; (ii) specify the credit, credentials, certifications, or licenses available for such courses; ~~and~~ (iii) *specify the industry-recognized credentials that are accepted as substitutes for certain credits required for high school graduation, consistent with the list developed and maintained by the Board pursuant to subsection F; and (iv)* specify available options for students to participate in pre-apprenticeship and apprenticeship programs at comprehensive community colleges concurrent with the pursuit of a high school diploma and receive college credit and high school credit for successful completion of any such program.

~~G.~~ *H.* Each local school board shall provide a program of literacy instruction that is aligned with science-based reading research and provides evidenced-based literacy instruction to students in kindergarten through grade eight and is consistent with the school board's literacy plan as required by subsection B of § 22.1-253.13:6. Pursuant to such program:

1. Each local school board shall provide reading intervention services to students in kindergarten through grade eight who demonstrate substantial deficiencies based on their individual performance on the Standards of Learning reading assessment or a literacy screener provided or approved by the Department. Such reading intervention services shall consist of evidence-based literacy instruction, align with science-based reading research, and be documented for each student in a written student reading plan, consistent with the requirements in subdivision 2 and the list developed by the Department pursuant to subdivision ~~H~~ *I* 2.

2. A reading specialist, in collaboration with the teacher of any student who receives reading intervention services pursuant to subdivision 1, shall develop, oversee implementation of, and monitor student progress on a student reading plan. The parent of each student who receives reading intervention services pursuant to subdivision 1 shall receive notice of and have the opportunity to participate in the development of the student reading plan. Each student reading plan (i) shall follow the Department template created pursuant to subdivision ~~H~~ *I* 3; (ii) shall document such reading intervention services; (iii) shall include, at a minimum, (a) the student's specific, diagnosed reading skill deficiencies as determined or identified by diagnostic assessment data or the literacy screener provided or approved by the Department; (b) the goals and benchmarks for student growth in reading; (c) a description of the specific measures that will be used to evaluate and monitor the student's reading progress; (d) the specific evidence-based literacy instruction that the student will receive; (e) the strategies, resources, and materials that will be provided to the student's parent to support the student to make reading progress; and (f) any additional services the teacher deems available and appropriate to accelerate the student's reading skill development; and (iv) may include the following services for the student: instruction from a reading specialist, trained aide, computer-based reading tutorial program, or classroom teacher with support from an aide, extended instructional time in the school day or school year, or, for students in grades six through eight, a literacy course, in addition to the course required by the Standards of Learning in English, that provides the specific evidence-based literacy instruction identified in the student's reading plan. In accordance with § 22.1-215.2, the parent of each student shall receive notice before services begin and a copy of the student reading plan.

3. Each student who receives such reading intervention services shall be assessed utilizing either the literacy screener provided or approved by the Department or the grade-level reading Standards of Learning assessment again at the end of that school year.

Funds appropriated for prevention, intervention, and remediation, summer school remediation, the at-risk add-on, or early intervention reading may be used to meet the requirements of this subsection.

~~H.~~ *I.* In order to assist local school boards to implement the provisions of subsection ~~G~~ *H*:

1. The Board shall provide guidance on the content of student reading plans;

The list shall be approved by the Board;

3. The Department shall develop a template for student reading plans that aligns with the requirements of subsection ~~G~~ *H*;

4. The Department shall develop and implement a plan for the annual collection and public reporting of division-level and school-level literacy data, at a time to be determined by the Superintendent, to include results on the literacy screeners provided or approved by the Department and the reading Standards of Learning assessments; and

5. The Department shall provide free online evidence-based literacy instruction resources that can be accessed by parents and local school boards to support student literacy development at home.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board and meet such other requirements as may be prescribed by the local school board and approved by the Board. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic

schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. Require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board.

School boards shall report annually to the Board the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications, or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements and the subsequent award of a high school diploma (i) upon the Board's initiative, (ii) at the request of a local school board, or (iii) upon the request of the parent of any high school senior who died in good standing prior to graduation during the student's senior year. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

21. Permit any student to substitute elective credits for completion of any industry-approved workforce credential, provided that such credential is included on the list of credentials that are uniformly accepted as substitutes for such required credits developed and maintained by the Board pursuant to subsection F of § 22.1-253.13:1.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board; (ii) successfully completed an education and training program designated by the Board; (iii) earned a Board-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

"Critical Operation for a Disappeared Child Initiative Alert" or "Codi Alert" means the notice of a missing or endangered child provided to the public by the media or other methods under a Codi Agreement.

"Critical Operation for a Disappeared Child Initiative Alert Program" or "Codi Alert Program" or "Program" means the procedures and Codi Agreements to aid in the identification and location of missing or endangered children.

§ 52-34.3:2. Establishment of the Virginia Critical Operation for a Disappeared Child Initiative (Codi) Alert Program.

The Virginia State Police shall develop, in consultation with representatives of local law-enforcement agencies, including representatives from the Virginia Sheriffs' Association and the Virginia Association of Chiefs of Police, policies for the establishment of uniform standards for the creation of Codi Alert Programs throughout the Commonwealth. Codi Alert Programs may be local, regional, or statewide. They may include multiple localities or regions and may be expanded or compressed. The Virginia State Police may (i) inform local law-enforcement officials of the policies and procedures for the Codi Alert Programs set by the Virginia State Police, (ii) assist in determining the geographic scope of a particular Codi Alert, and (iii) establish procedures and standards by which a local law-enforcement agency may verify a child is missing or endangered and report such information to the Virginia State Police.

The establishment of a Codi Alert Program by a locality and the media is voluntary, and nothing in this chapter shall be construed to be a mandate that local officials or the media establish or participate in a Codi Alert Program. Existing Codi Agreements and Codi Alert Programs shall not be altered by the act of assembly creating this chapter.

§ 52-34.3:3. Activation of the Virginia Critical Operation for a Disappeared Child Initiative (Codi) Alert Program upon incident of a missing or endangered child.

A. Upon receipt of a notice of a missing or endangered child from a law-enforcement agency, the Virginia State Police shall confirm the accuracy of the information and provide assistance in the implementation of the Codi Alert Program as the investigation dictates.

B. Codi Alerts may be local, regional, or statewide. The initial decision to make a local or regional Codi Alert shall be at the discretion of the local or regional law-enforcement officials. Prior to making a local or regional Codi Alert, the local or regional law-enforcement officials shall confer with the Virginia State Police and provide information regarding the missing or endangered child to the Virginia State Police. The initial decision to make a statewide Codi Alert shall be at the discretion of the Virginia State Police. The Missing Children Information Clearinghouse operated by the Virginia State Police shall serve as a central repository for information related to a missing or endangered child.

C. In those situations where appropriate, the Virginia State Police shall send the Codi Alert to Virginia's emergency alert system. Participating media are encouraged to issue the Codi Alert at designated intervals as specified by the Codi Alert Program.

D. In those situations where appropriate and an existing system is available, the Virginia State Police shall contact the operator of the existing automatic dialing-announcing device system to target residents in the geographic location where the missing or endangered child was most recently seen. For purposes of this section, "automatic dialing-announcing device system" means a device that (i) selects and dials telephone numbers and (ii) working alone or in conjunction with other equipment, disseminates a prerecorded or synthesized voice message to the telephone number called.

E. The Codi Alert shall include such information as the law-enforcement agency deems appropriate that will assist in the safe recovery of the missing or endangered child.

F. The Codi Alert shall be canceled under the terms of the Codi Agreement. Any local law-enforcement agency that locates a child who is the subject of a Codi Alert shall notify the Virginia State Police immediately that the child has been located.

2. That the Virginia State Police shall ensure the Virginia Critical Operation for a Disappeared Child Initiative Alert Program, or Codi Alert Program, as created by this act, is available and operational no later than July 1, 2025.

2. For taxable years beginning on or after January 1, 2021, but before January 1, 2025, a taxpayer shall be allowed a credit against the tax levied pursuant to § 58.1-320, 58.1-400, or 58.1-1202 in an amount equal to (i) 15 percent of the first $300,000 in Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year or (ii) 20 percent of the first $300,000 in Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year if the Virginia qualified research was conducted in conjunction with a public or private institution of higher education in the Commonwealth, to the extent the expenses exceed the Virginia base amount for the taxpayer.

C. 1. Effective for taxable years beginning on or after January 1, 2016, at the election of the taxpayer, the credit otherwise allowed under this section shall be computed under this subsection and shall equal 10 percent of the difference of (i) the Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year and (ii) 50 percent of the average Virginia qualified research and development expenses paid or incurred by the taxpayer for the three taxable years immediately preceding the taxable year for which the credit is being determined. If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

2. Applications must be received by the Department no later than September 1 of the calendar year following the close of the taxable year in which the expenses were paid or incurred. In the event that approved applications for the tax credits allowed under this section exceed the amount of credits specified in subsection D for the taxable year, the Department shall apportion the credits by dividing the amount of credits specified in subsection D by the total amount of tax credits approved, to determine the percentage of allowed tax credits each taxpayer shall receive. In the event that the total amount of approved tax credits under this section for all applications for any taxable year is less than the maximum amount of credits for the year as specified in subsection D, the Department shall allocate credits up to the maximum amount as specified in subsection D, on a pro rata basis, to taxpayers who are already approved for the tax credit for the taxable year, in the following amounts:

1. If the taxpayer computed the credit pursuant to subsection B, in an amount equal to 15 percent of the second $300,000 in qualified research expenses during the taxable year or 20 percent of the second $300,000 in qualified research expenses if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth; or

2. If the taxpayer computed the credit under subdivision C 1, in an amount equal to the excess of the limitation set forth in subdivision C 2, up to an additional $45,000 per taxpayer, or $60,000 per taxpayer if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth.

F. If the amount of the credit allowed exceeds the taxpayer's tax liability for the taxable year, the amount that exceeds the tax liability shall be refunded to the taxpayer, subject to the limitations set forth in the guidelines developed by the Department.

G. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

H. Effective for taxable years beginning on or after January 1, 2016, no taxpayer with Virginia qualified research and development expenses in excess of $5 million for the taxable year shall claim both the credit allowed pursuant to this section and the credit allowed under § 58.1-439.12:11 for such year.

I. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such entities or in accordance with a written agreement entered into by such individual partners, members, or shareholders, unless the partnership, limited liability company, or electing small business corporation (S corporation) elects for such credits not to be so allocated but to be received and claimed at the entity level by the partnership, limited liability company, or electing small business corporation (S corporation) pursuant to guidelines that shall be issued by the Department for purposes of such election.

J. The Department shall adopt guidelines to prescribe standards for determining when research and development is considered conducted in the Commonwealth for purposes of allowing the credit under this section. In adopting guidelines, the Department may consider (i) the location where the research and development is performed; (ii) the residence or business location of the taxpayer or taxpayers conducting the research and development; (iii) the location where supplies used in the research and development are consumed; and (iv) any other factors that the Department deems to be relevant.

The Department shall aggregate and summarize the information collected and make it available to the Governor and any member of the General Assembly upon request, regardless of the number of taxpayers applying for the credit.

M. No tax credit shall be allowed pursuant to this section if the otherwise qualified research and development expenses are paid for or incurred by a taxpayer for research conducted in the Commonwealth on human cells or tissue derived from induced abortions or from stem cells obtained from human embryos. The foregoing provision shall not apply to research conducted using stem cells other than embryonic stem cells.

If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

2. For taxable years beginning on or after January 1, 2021, but before January 1, ~~2025~~ *2023*, a taxpayer with Virginia qualified research and development expenses for the taxable year in excess of $5 million shall be allowed a credit against the tax levied pursuant to § 58.1-320, 58.1-400, or 58.1-1202 in an amount equal to 10 percent of the difference between (i) the Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year and (ii) 50 percent of the average Virginia qualified research and development expenses paid or incurred by the taxpayer for the three taxable years immediately preceding the taxable year for which the credit is being determined. If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

3. For taxable years beginning on or after January 1, 2023, but before January 1, 2025, a taxpayer with Virginia qualified research and development expenses for the taxable year in excess of $5 million shall be allowed a credit against the tax levied pursuant to § 58.1-320, 58.1-400, or 58.1-1202 in an amount equal to:

b. Five percent of the difference in excess of $1 million between (i) any Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year and (ii) 50 percent of the average Virginia qualified research and development expenses paid or incurred by the taxpayer for the three taxable years immediately preceding the taxable year for which the credit is being determined.

If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

The aggregate amount of credits allowed to each taxpayer under this subdivision 3 shall not exceed $300,000 for the taxable year, except that the aggregate amount of credits allowed to each taxpayer shall not exceed $400,000 for the taxable year if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth.

C. 1. For taxable years beginning before January 1, 2021, the aggregate amount of credits granted for each fiscal year of the Commonwealth pursuant to this section shall not exceed $20 million.

D. In the event that approved applications for the tax credits allowed under this section exceed the limit described in subsection C for any taxable year, the Department shall apportion the credits by dividing such limit by the total amount of tax credits approved, to determine the percentage of allowed tax credits each taxpayer shall receive.

E. The amount of the credit claimed for the taxable year shall not exceed 75 percent of the total amount of tax imposed by this chapter upon the taxpayer for the taxable year. Any credit not usable for the taxable year for which the credit was first allowed may be carried over for credit against the income taxes of the taxpayer in the next 10 succeeding taxable years or until the total amount of the tax credit has been taken, whichever is sooner.

F. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

G. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such entities or in accordance with a written agreement entered into by such individual partners, members, or shareholders.

H. The Department shall develop and publish guidelines under this section including guidelines for applying for the tax credit. Such guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.). The foregoing provision shall not apply to research conducted using stem cells other than embryonic stem cells.

CHAPTER 662

An Act to amend and reenact § 63.2-900.1 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 15 of Title 63.2 an article numbered 7, consisting of sections numbered 63.2-1531 through 63.2-1536, relating to kinship foster care; alternative living arrangements; Parental Child Safety Placement Program established.

[S 39]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 63.2-900.1 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Chapter 15 of Title 63.2 an article numbered 7, consisting of sections numbered 63.2-1531 through 63.2-1536, as follows:

§ 63.2-900.1. Kinship foster care.

A. *When placing a child, the local board shall first consider placement with a kinship foster parent.*

B. The local board shall, in accordance with regulations adopted by the Board, determine whether the child has any relative who may be eligible to become a kinship foster parent. Searches for relatives eligible to serve as kinship foster parents shall be conducted at the time the child enters foster care, at least annually thereafter, and prior to any subsequent changes to the child's placement setting. The local board shall take all reasonable steps to provide notice to such relatives of their potential eligibility to become kinship foster parents and explain any opportunities such relatives may have to participate in the placement and care of the child, including opportunities available through kinship foster care or kinship guardianship.

If a relative requests to become the child's kinship foster parent, the local board shall provide the relative with any forms or materials that must be submitted in order to become a kinship foster parent within no more than 15 days of such request. If the relative's request to become a kinship foster parent is denied, the local board shall provide to the relative (i) a clear and specific explanation of the reasons for such denial, (ii) a statement that such denial is appealable pursuant to § 63.2-915, and (iii) information regarding the procedure for filing such appeal.

~~B.~~ *C. If a local board does not place a child with an approved kinship foster parent, the local board shall file an exception report with the Commissioner within 72 hours of placement. For the purposes of this section, an exception report is defined as a report that has been approved by a director of a local department prior to placing a child in a non-kinship foster care placement and documents all known relatives and fictive kin of the child, all efforts of the local board to locate relatives and fictive kin of the child, and the reasons why the child was not placed with relatives.*

D. Kinship foster care placements pursuant to this section shall be subject to all requirements of, and shall be eligible for all services related to, foster care placement contained in this chapter. Subject to approval by the Commissioner, a local board may grant a waiver of the Board's standards for foster home approval, set forth in regulations, that are not related to safety. Training requirements may be waived for purposes of initial approval; however, such training requirements shall be completed within six months of the initial approval. If a local board determines that training requirements are a barrier to placement with a kinship foster parent and that placement with such kinship foster parent is in the child's best interest, the local board shall submit a waiver request to the Commissioner. Waivers granted pursuant to this subsection shall be considered and, if appropriate, granted on a case-by-case basis and shall include consideration of the unique needs of each child to be placed. Upon request by a local board, the Commissioner shall review the local board's decision and reasoning to grant a waiver and shall verify that the foster home approval standard being waived is not related to safety. If the Commissioner grants the waiver and allows approval of the home in accordance with Board regulations, the child may be placed in the home immediately. The approval or disapproval by the Commissioner of the local board's waiver shall not be considered a case decision as defined in § 2.2-4001.

~~C.~~ *E.* The kinship foster parent shall be eligible to receive payment at the full foster care rate for the care of the child.

~~D.~~ *F.* During the process of determining whether a person should be approved as a kinship foster parent, a local board shall not require that the child be removed from the physical custody of the kinship foster parent who is the subject of such approval process, provided the placement remains in the child's best interest.

~~E.~~ *G.* A child placed in kinship foster care pursuant to this section shall not be removed from the physical custody of the kinship foster parent, provided that the child has been living with the kinship foster parent for six consecutive months and the placement continues to meet approval standards for foster care, unless (i) the kinship foster parent consents to the removal; (ii) removal is agreed upon at a family partnership meeting as defined by the Department; (iii) removal is ordered by a court of competent jurisdiction; or (iv) removal is warranted pursuant to § 63.2-1517.

~~F.~~ *H.* For purposes of this section, "relative" means an adult who is (i) related to the child by blood, marriage, or adoption or (ii) fictive kin of the child.

"Program" means the Parental Child Safety Placement Program established pursuant to § 63.2-1532.

§ 63.2-1532. Parental Child Safety Placement Program; established.

The Parental Child Safety Placement Program is established to prevent unnecessary entry into foster care by promoting and supporting placements with relatives and fictive kin and requiring accountability for pre-court placements of children. A local department may facilitate a parental child safety placement arrangement in accordance with the provisions of this article if (i) a family assessment or investigation has been initiated in response to a valid complaint alleging that the child has been abused or neglected; (ii) the safety assessment conducted by the local department indicates that a child cannot remain safely in the home; and (iii) the child's parent, guardian, or legal custodian is in agreement with the parental child safety placement arrangement.

§ 63.2-1533. Parental child safety placement agreement; terms.

A. A parental child safety placement agreement shall include provisions describing the following:

1. The facts and circumstances that provide the basis for the safety assessment indicating that the child cannot remain safely in the home;

2. The responsibilities of the child's parent, guardian, or legal custodian and the caregiver, including a plan for how the caregiver will access necessary medical treatment, mental health services, and appropriate educational services for the child;

3. Visitation arrangements for the child's parent, guardian, or legal custodian, including supervised visitation as necessary, and other methods by which the child's parent, guardian, or legal custodian may contact the child;

4. The responsibilities of the local department, including (i) any services to be provided to the child, the child's parent, guardian, or legal custodian, and the caregiver and (ii) a requirement that the local department visits the caregiver's home (a) within two weeks of the placement and (b) thereafter in accordance with Board regulations;

5. The date on which the agreement will terminate unless terminated sooner or extended to a subsequent date as provided in this article; and

6. Any other terms the local department determines necessary for the safety and welfare of the child.

B. A parental child safety placement agreement shall contain the following:

1. A statement that the child's parent, guardian, or legal custodian voluntarily consents to the parental child safety placement arrangement and that such consent is not an admission of child abuse or neglect on such person's part;

2. A statement that the agreement may be terminated by any party, at any time, and for any reason and a statement that, upon such termination, the local department may take actions to protect the child, including the removal of the child pursuant to the provisions of this title;

3. A statement that the child's parent, guardian, or legal custodian and the caregiver may seek legal counsel prior to entering into the agreement;

4. A statement that the child's parent, guardian, or legal custodian and the caregiver have the right to refuse to enter into the agreement; and

5. A statement that the local department has notified the child's parent, guardian, or legal custodian and the caregiver of the alternative option for the child to enter foster care and the potential for the caregiver to become an approved kinship foster parent.

C. Prior to signing the parental child safety placement agreement, the local department shall notify the caregiver of any financial assistance available to the caregiver through the Program for the period of time that the agreement is in place.

D. A parental child safety placement agreement shall be in writing and signed by the child's parent, guardian, or legal custodian, the caregiver, and the local department.

E. The local department shall provide a written copy of the parental child safety placement agreement to the child's parent, guardian, or legal custodian and the caregiver.

F. The local department shall include a scanned copy of the parental child safety placement agreement in the case record.

G. The term of the parental child safety placement agreement shall be no more than 90 days from the date the agreement is signed, which shall, as applicable, run concurrently with the time necessary to complete the child protective services investigation or family assessment. A parental child safety placement agreement may be extended, but such extension shall not exceed one additional 90-day period and the reason for such extension shall be documented in the case record. Prior to any extension, the local department shall conduct a facilitated meeting and perform a safety assessment to determine whether (i) the child should be returned home, (ii) the agreement should be extended, or (iii) the local department should seek a child protective order or other court action.

H. The In-Home Services case shall remain open for the duration of the parental child safety placement agreement.

§ 63.2-1534. Caregiver assessment.

A. The local department shall assess the proposed caregiver and determine whether the proposed caregiver (i) is willing and qualified to receive and care for the child; (ii) is willing to have a positive, continuous relationship with the

child; and (iii) is willing and has the ability to protect the child from abuse and neglect. Such assessment shall include requirements for (a) inquiry into the criminal and child protective services history of each adult in the proposed caregiver's household and (b) an assessment of the caregiver's home environment in accordance with Board regulations.

B. The local department shall document the results of the assessment of the proposed caregiver and his home environment in the case record.

C. If, after conducting the assessment of the proposed caregiver, the local department determines that it is not in the child's best interests to be placed with the proposed caregiver, the local department shall notify the child's parent, guardian, or legal custodian and the proposed caregiver of the reasons for the local department's determination but may not disclose the results of any criminal or child protective services history unless the proposed caregiver consents to such disclosure.

§ 63.2-1535. Termination of the parental child safety placement agreement and the alternative living arrangement.

A. Prior to the conclusion of a parental child safety placement agreement, the local department shall reassess the safety of the child if the child were to be returned home.

B. If it is determined that the child can be safely returned home prior to or at the conclusion of the parental child safety placement agreement, the local department shall develop a safety plan with the child's parent, guardian, or legal custodian and the caregiver for the safe return of the child to the child's parent, guardian, or legal custodian or to another legal custodian. The local department may take the following actions if it is determined that continued services are required for the child to safely return home:

1. Maintain an open In-Home Services case for continued services with the agreement of the child's parent, guardian, or legal custodian; or

2. Seek a child protective order or other court action to order continued services if the child's parent, guardian, or legal custodian does not agree to the In-Home Services case remaining open for continued services.

C. If it is determined that the child cannot be safely returned home at the conclusion of the parental child safety placement agreement, the local department shall seek removal of the child from the child's parent, guardian, or legal custodian, upon a petition alleging abuse or neglect pursuant to § 16.1-251 or 16.1-252.

1. Prior to the first court hearing, the local department shall make reasonable efforts to convene a facilitated meeting that includes the child's parent, guardian, or legal custodian, the caregiver, and the child, if 12 years of age or older, to collaboratively develop an alternate living arrangement service plan. During such meeting, the local department shall notify the child's parent, guardian, or legal custodian and the caregiver of all possible options for the care of the child, to include foster care, kinship foster care, and the transfer of temporary custody to the caregiver.

2. If the court orders temporary custody of the child to the caregiver, the local department may continue to provide services to the caregiver and child through an In-Home Services case, consistent with the alternate living arrangement service plan. At the dispositional hearing of the local department's petition, if the child cannot be safely returned to the child's parent, guardian, or legal custodian, the local department shall either:

a. If reunification of the child with the child's parent, guardian, or legal custodian remains the plan, request that the court continue temporary custody of the child with the caregiver, if appropriate, and enter such terms and conditions that would promote the child's interest and welfare, provide ongoing services to the family, and provide for further court review of the child's placement in accordance with the court's authority in subdivision A 1 of § 16.1-278.2; or

b. If reunification of the child with the child's parent, guardian, or legal custodian is no longer the plan, request the court to enter a final order of custody to the caregiver. If further services are necessary to ensure the child's safety and welfare with the caregiver, the local department may keep the case open as an In-Home Services case until stability for the child is achieved.

3. If the court denies the removal of the child, the local department shall seek a child protective order to provide continued services for the child and the child's parent, guardian, or legal custodian to ensure the child's safety and welfare. If the child protective order is granted, the case shall remain open as an In-Home Services case.

4. The alternate living arrangement service plan shall include provisions describing the following:

a. The facts and circumstances that provide the basis for the safety assessment indicating that the child cannot remain safely in the home;

b. The responsibilities of the child's parent, guardian, or legal custodian and the caregiver;

c. Visitation arrangements for the child's parent, guardian, or legal custodian and conditions under which and methods by which the child's parent, guardian, or legal custodian may contact the child;

d. The responsibilities of the local department, including any services to be provided to the child, the child's parent, guardian, or legal custodian, and the caregiver; and

e. Any other term the local department determines necessary for the safety and welfare of the child.

§ 63.2-1536. General provisions.

A. Nothing herein shall be deemed to prohibit the local department from seeking any other appropriate court action at any time to protect the health and welfare of the child.

B. Nothing herein shall be deemed to prohibit a caregiver or other person with a legitimate interest from petitioning the court for custody of the child. If the caregiver petitions for custody, the local department shall make reasonable efforts to conduct a facilitated meeting to discuss the continuation of services for the child and family.

2. That the provisions requiring a local board to file an exception report, established pursuant to § 63.2-900.1 of the Code of Virginia, as amended by this act, shall become effective on January 1, 2025.

3. That the State Board of Social Services (the Board) shall promulgate regulations to implement the provisions of this act by January 1, 2025. Such regulations shall include provisions regarding the manner in which Parental Child Safety Placement Program payments are prioritized based on available funding. The Board's initial adoption of such regulations and any other regulations necessary to implement the provisions of this act shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia), except that the Board shall provide an opportunity for public comment on such regulations prior to adoption.

[S 199]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-253.13:1, as it shall become effective, and 22.1-253.13:4 of the Code of Virginia are amended and reenacted as follows:

§ 22.1-253.13:1. (For effective date, see Acts 2022, cc. 549, 550, cl. 2) Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, § 1 of the Constitution of Virginia.

B. The Board shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade eight shall align with evidence-based literacy instruction and science-based reading research.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department shall make available and maintain a website, either separately or through an existing website utilized by the Department, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division

superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.

2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.

c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local comprehensive community colleges and shall be submitted to the Superintendent in accordance with the timelines established by federal law;

d. Annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23.1-204.1 and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college, or workforce center; and

e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median pay of program graduates. The Department shall annually compile such lists and provide them to each local school board.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in the Commonwealth specifying the options for students to complete an associate degree or a one-year Uniform Certificate of General Studies from a comprehensive community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes; career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate Program and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement

13. Early identification, diagnosis, and assistance for students with mathematics problems and provision of instructional strategies and mathematics practices that benefit the development of mathematics skills for all students.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department. Local school divisions shall report the results of the diagnostic tests to the Department on an annual basis, at a time to be determined by the Superintendent. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical activity available to all students in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12 with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical activities deemed appropriate by the local school board. Each local school board shall implement such program during the regular school year. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

F. *The Board shall, in collaboration with the Virginia Community College System, Career and Technical Education directors, and industry partners, develop and maintain a current, comprehensive, and uniform list of industry-recognized workforce credentials that students may take as a substitute for certain credits required for graduation pursuant to 8VAC20-131-51 of the Virginia Administrative Code, including industry-recognized workforce credentials that students may take as a substitute for elective credits and industry-recognized workforce credentials completed outside of regular school hours. § 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board and meet such other requirements as may be prescribed by the local school board and approved by the Board. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named

diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. Require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board.

School boards shall report annually to the Board the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications, or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements and the subsequent award of a high school diploma (i) upon the Board's initiative, (ii) at the request of a local school board, or (iii) upon the request of the parent of any high school senior who died in good standing prior to graduation during the student's senior year. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

21. Permit any student to substitute elective credits for completion of any industry-approved workforce credential, provided that such credential is included on the list of credentials that are uniformly accepted as substitutes for such required credits developed and maintained by the Board pursuant to subsection F of § 22.1-253.13:1.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses

that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board; (ii) successfully completed an education and training program designated by the Board; (iii) earned a Board-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

CHAPTER 667

An Act to amend the Code of Virginia by adding in Title 52 a chapter numbered 7.1:1, consisting of sections numbered 52-34.3:1, 52-34.3:2, and 52-34.3:3, relating to alert for missing or endangered children; Virginia Critical Operation for a Disappeared Child Initiative (Codi) Alert Program.

[S 201]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Title 52 a chapter numbered 7.1:1, consisting of sections numbered 52-34.3:1, 52-34.3:2, and 52-34.3:3, as follows:

CHAPTER 7.1:1.

VIRGINIA CRITICAL OPERATION FOR A DISAPPEARED CHILD INITIATIVE (CODI) ALERT PROGRAM.

§ 52-34.3:1. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Critical Operation for a Disappeared Child Initiative Agreement" or "Codi Agreement" means the voluntary agreement between law-enforcement officials and members of the media whereby a child will be declared missing or endangered and the public will be notified, and includes all other incidental conditions of the partnership as found appropriate by the Virginia State Police.

"Critical Operation for a Disappeared Child Initiative Alert" or "Codi Alert" means the notice of a missing or endangered child provided to the public by the media or other methods under a Codi Agreement.

"Critical Operation for a Disappeared Child Initiative Alert Program" or "Codi Alert Program" or "Program" means the procedures and Codi Agreements to aid in the identification and location of missing or endangered children.

"Media" means print, radio, television, and Internet-based communication systems or other methods of communicating information to the public.

"Missing or endangered child" means a child (i) who is 17 years of age or younger or is currently enrolled in a secondary school in the Commonwealth, regardless of age; (ii) whose whereabouts are unknown; and (iii) whose disappearance is under suspicious circumstances or poses a credible threat as determined by law enforcement to the safety and health of the child and under such other circumstances as deemed appropriate by the Virginia State Police.

§ 52-34.3:2. Establishment of the Virginia Critical Operation for a Disappeared Child Initiative (Codi) Alert Program.

The Virginia State Police shall develop, in consultation with representatives of local law-enforcement agencies, including representatives from the Virginia Sheriffs' Association and the Virginia Association of Chiefs of Police, policies for the establishment of uniform standards for the creation of Codi Alert Programs throughout the Commonwealth. Codi Alert Programs may be local, regional, or statewide. They may include multiple localities or regions and may be expanded or compressed. The Virginia State Police may (i) inform local law-enforcement officials of the policies and procedures for

the Codi Alert Programs set by the Virginia State Police, (ii) assist in determining the geographic scope of a particular Codi Alert, and (iii) establish procedures and standards by which a local law-enforcement agency may verify a child is missing or endangered and report such information to the Virginia State Police.

The establishment of a Codi Alert Program by a locality and the media is voluntary, and nothing in this chapter shall be construed to be a mandate that local officials or the media establish or participate in a Codi Alert Program. Existing Codi Agreements and Codi Alert Programs shall not be altered by the act of assembly creating this chapter.

§ 52-34.3:3. Activation of the Virginia Critical Operation for a Disappeared Child Initiative (Codi) Alert Program upon incident of a missing or endangered child.

A. Upon receipt of a notice of a missing or endangered child from a law-enforcement agency, the Virginia State Police shall confirm the accuracy of the information and provide assistance in the implementation of the Codi Alert Program as the investigation dictates.

B. Codi Alerts may be local, regional, or statewide. The initial decision to make a local or regional Codi Alert shall be at the discretion of the local or regional law-enforcement officials. Prior to making a local or regional Codi Alert, the local or regional law-enforcement officials shall confer with the Virginia State Police and provide information regarding the missing or endangered child to the Virginia State Police. The initial decision to make a statewide Codi Alert shall be at the discretion of the Virginia State Police. The Missing Children Information Clearinghouse operated by the Virginia State Police shall serve as a central repository for information related to a missing or endangered child.

C. In those situations where appropriate, the Virginia State Police shall send the Codi Alert to Virginia's emergency alert system. Participating media are encouraged to issue the Codi Alert at designated intervals as specified by the Codi Alert Program.

D. In those situations where appropriate and an existing system is available, the Virginia State Police shall contact the operator of the existing automatic dialing-announcing device system to target residents in the geographic location where the missing or endangered child was most recently seen. For purposes of this section, "automatic dialing-announcing device system" means a device that (i) selects and dials telephone numbers and (ii) working alone or in conjunction with other equipment, disseminates a prerecorded or synthesized voice message to the telephone number called.

E. The Codi Alert shall include such information as the law-enforcement agency deems appropriate that will assist in the safe recovery of the missing or endangered child.

F. The Codi Alert shall be canceled under the terms of the Codi Agreement. Any local law-enforcement agency that locates a child who is the subject of a Codi Alert shall notify the Virginia State Police immediately that the child has been located.

2. That the Virginia State Police shall ensure the Virginia Critical Operation for a Disappeared Child Initiative Alert Program, or Codi Alert Program, as created by this act, is available and operational no later than July 1, 2025.

CHAPTER 668

An Act to amend the Code of Virginia by adding a section numbered 59.1-21.11:2, relating to Virginia Petroleum Products Franchise Act; agreements between jobber/distributors and dealers; market valuation study.

[S 248]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 59.1-21.11:2 as follows:

§ 59.1-21.11:2. Required provisions pertaining to agreements between jobber/distributors and dealers.

A. A term of an initial agreement between a jobber/distributor and a dealer relating to specific marketing premises shall not be less than one year, and the term of all subsequent agreements between the jobber/distributor and the dealer relating to the same marketing premises shall not be for less than three years. The rental provisions in any such agreement or franchise shall be based on commercially fair and reasonable standards at a fair market value of the leased marketing premises. If a dealer believes the terms of the agreement offered do not meet a fair market value, such dealer may hire, at his expense, an independent third-party appraisal company from a list of appraisal companies provided by the jobber/distributor to provide a market valuation study. Such study shall (i) be for informational purposes only, (ii) not require either party to disclose confidential business information, and (iii) not bind either party.

B. The provisions of this section shall be limited to Planning District 8 and shall apply to initial franchise agreements and renewals of franchise agreements entered into after July 1, 2024.

CHAPTER 669

An Act to amend and reenact § 2.2-3704 of the Code of Virginia, relating to Virginia Freedom of Information Act; charges for production of public records; report.

[S 324]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-3704 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-3704. Public records to be open to inspection; procedure for requesting records and responding to request; charges; transfer of records for storage, etc.

A. Except as otherwise specifically provided by law, all public records shall be open to citizens of the Commonwealth, representatives of newspapers and magazines with circulation in the Commonwealth, and representatives of radio and television stations broadcasting in or into the Commonwealth during the regular office hours of the custodian of such records. Access to such records shall be provided by the custodian in accordance with this chapter by inspection or by providing copies of the requested records, at the option of the requester. The custodian may require the requester to provide his name and legal address. The custodian of such records shall take all necessary precautions for their preservation and safekeeping.

B. A request for public records shall identify the requested records with reasonable specificity. The request need not make reference to this chapter in order to invoke the provisions of this chapter or to impose the time limits for response by a public body. Any public body that is subject to this chapter and that is the custodian of the requested records shall promptly, but in all cases within five working days of receiving a request, provide the requested records to the requester or make one of the following responses in writing:

1. The requested records are being entirely withheld. Such response shall identify with reasonable particularity the volume and subject matter of withheld records, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

2. The requested records are being provided in part and are being withheld in part. Such response shall identify with reasonable particularity the subject matter of withheld portions, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

3. The requested records could not be found or do not exist. However, if the public body that received the request knows that another public body has the requested records, the response shall include contact information for the other public body.

4. It is not practically possible to provide the requested records or to determine whether they are available within the five-work-day period. Such response shall specify the conditions that make a response impossible. If the response is made within five working days, the public body shall have an additional seven work days or, in the case of a request for criminal investigative files pursuant to § 2.2-3706.1, 60 work days in which to provide one of the four preceding responses.

C. Any public body may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search, and a response by the public body within the time required by this chapter will prevent the public body from meeting its operational responsibilities. Before proceeding with the petition, however, the public body shall make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

D. Subject to the provisions of subsection G, no public body shall be required to create a new record if the record does not already exist. However, a public body may abstract or summarize information under such terms and conditions as agreed between the requester and the public body.

E. Failure to respond to a request for records shall be deemed a denial of the request and shall constitute a violation of this chapter.

F. *1.* Except with regard to scholastic records requested pursuant to subdivision A 1 of § 2.2-3705.4 that must be made available for inspection pursuant to the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g) and such requests for scholastic records by a parent or legal guardian of a minor student or by a student who is 18 years of age or older, a public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for the requested records and shall make all reasonable efforts to supply the requested records at the lowest possible cost*, except that (i) for the first hour of the first request made by a requester to a public body during a calendar year, a public body shall not charge a requester for any costs incurred during the first hour spent accessing, duplicating, supplying, or searching for the requested records and (ii) for any additional time spent accessing, duplicating, supplying, or searching for such records, or for any additional record requests, the public body shall not charge an hourly rate for accessing, duplicating, supplying, or searching for the records exceeding the lesser of the hourly rate of pay of the lowest-paid individual capable of fulfilling the request or $40 per hour.*

2. With regard to clause (ii) of subdivision 1, a public body may petition the appropriate court for relief from the fee cap imposed by such clause upon showing by a preponderance of the evidence that there is no qualified individual capable of fulfilling the request for $40 per hour or less. Any such petition shall be heard within seven days of the date when the same is made, provided that the public body has sent and the requester has received a copy of the petition at least three working days prior to filing. The hearing on any petition made outside of the regular terms of the circuit court of a locality that is included in a judicial circuit with another locality or localities shall be given precedence on the docket of such court over all cases that are not otherwise given precedence by law. The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between the requester's receipt of a copy of the petition and a final disposition of the court. A public body shall not pass along to the requester or otherwise incorporate into allowable charges any court costs or fees resulting from such petition.

3. The Office of the Attorney General and any local public body, including local school boards, are exempt from the fee cap imposed by clause (ii) of subdivision 1 and from the provisions of subdivision 2.

4. A public body shall document all requests for electronic public records that take longer than 30 minutes to fulfill and shall include the number of hours spent accessing or searching for the requested records.

5. No public body shall impose any extraneous, intermediary, or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the public body. Any duplicating fee charged by a public body shall not exceed the actual cost of duplication. The public body may also make a reasonable charge for the cost incurred in supplying records produced from a geographic information system at the request of anyone other than the owner of the land that is the subject of the request. However, such charges shall not exceed the actual cost to the public body in supplying such records, except that the public body may charge, on a pro rata per acre basis, for the cost of creating topographical maps developed by the public body, for such maps or portions thereof, which encompass a contiguous area greater than 50 acres. Prior to conducting a search for records, the public body shall notify the requester in writing that the public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for requested records and inquire of the requester whether he would like to request a cost estimate in advance of the supplying of the requested records. The public body shall provide the requester with a cost estimate if requested. The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between notice of the cost estimate and the response of the requester. If the public body receives no response from the requester within 30 days of sending the cost estimate, the request shall be deemed to be withdrawn. Any costs incurred by the public body in estimating the cost of supplying the requested records shall be applied toward the overall charges to be paid by the requester for the supplying of such requested records. Any local public body that charges for the production of records pursuant to this section may provide an electronic method of payment through which all payments for the production of such records to such locality may be made. For purposes of this subsection, "electronic method of payment" means any kind of noncash payment that does not involve a paper check and includes credit cards, debit cards, direct deposit, direct debit, electronic checks, and payment through the use of telephonic or similar communications.

G. Public records maintained by a public body in an electronic data processing system, computer database, or any other structured collection of data shall be made available to a requester at a reasonable cost, not to exceed the actual cost *and the costs permitted to be charged by a public body* in accordance with *the provisions of* subsection F. When electronic or other databases are combined or contain exempt and nonexempt records, the public body may provide access to the exempt records if not otherwise prohibited by law, but shall provide access to the nonexempt records as provided by this chapter.

Public bodies shall produce nonexempt records maintained in an electronic database in any tangible medium identified by the requester, including, where the public body has the capability, the option of posting the records on a website or delivering the records through an electronic mail address provided by the requester, if that medium is used by the public body in the regular course of business. No public body shall be required to produce records from an electronic database in a format not regularly used by the public body. However, the public body shall make reasonable efforts to provide records in any format under such terms and conditions as agreed between the requester and public body, including the payment of reasonable costs. The excision of exempt fields of information from a database or the conversion of data from one available format to another shall not be deemed the creation, preparation, or compilation of a new public record.

H. In any case where a public body determines in advance that charges for producing the requested records are likely to exceed $200, the public body may, before continuing to process the request, require the requester to pay a deposit not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the requested records. The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between notice of the advance determination and the response of the requester.

I. Before processing a request for records, a public body may require the requester to pay any amounts owed to the public body for previous requests for records that remain unpaid 30 days or more after billing.

J. In the event a public body has transferred possession of public records to any entity, including but not limited to any other public body, for storage, maintenance, or archiving, the public body initiating the transfer of such records shall remain the custodian of such records for purposes of responding to requests for public records made pursuant to this chapter and shall be responsible for retrieving and supplying such public records to the requester. In the event a public body has transferred public records for storage, maintenance, or archiving and such transferring public body is no longer in existence, any public body that is a successor to the transferring public body shall be deemed the custodian of such records. In the event no successor entity exists, the entity in possession of the public records shall be deemed the custodian of the records for purposes of compliance with this chapter, and shall retrieve and supply such records to the requester. Nothing in this subsection shall be construed to apply to records transferred to the Library of Virginia for permanent archiving pursuant to the duties imposed by the Virginia Public Records Act (§ 42.1-76 et seq.). In accordance with § 42.1-79, the Library of Virginia shall be the custodian of such permanently archived records and shall be responsible for responding to requests for such records made pursuant to this chapter.

2. That the provisions of the first enactment of this act shall not become effective unless reenacted by the 2025 Session of the General Assembly.

3. That the Virginia Freedom of Information Advisory Council (the FOIA Council) shall study whether the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq. of the Code of Virginia) allowing public bodies to charge requesters for the production of public records should be permanently amended to make access to

public records easier for requesters. In conducting its study, the FOIA Council shall convene a work group consisting of citizens of the Commonwealth, representatives of state and local government entities, broadcast, print, and electronic media sources, open government organizations, and other interested parties, to examine the current FOIA provisions on charges and make recommendations on ways to amend such provisions to make the assessment of charges by public bodies for the production of public records more uniform, more transparent, easier to understand, and less costly. Technical assistance shall be provided to the FOIA Council by the Division of Legislative Services. All agencies of the Commonwealth shall provide assistance to the FOIA Council for this study, upon request. The work group shall complete its meetings by November 30, 2024, and present its findings and recommendations for consideration by the FOIA Council at its meeting in December 2024. The chairman of the FOIA Council shall submit to the Division of Legislative Automated Systems an executive summary of the work group's findings and recommendations with any additional comments by the FOIA Council no later than the first day of the 2025 Regular Session of the General Assembly. The executive summary shall state whether the FOIA Council intends to submit to the General Assembly and the Governor a report of its findings and recommendations for publication as a House or Senate document. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.

CHAPTER 670

An Act to amend and reenact §§ 33.2-373, 46.2-208, and 46.2-882.1 of the Code of Virginia, relating to photo speed monitoring devices; high-risk intersection segments.

[S 336]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 33.2-373, 46.2-208, and 46.2-882.1 of the Code of Virginia are amended and reenacted as follows:

§ 33.2-373. Virginia Highway Safety Improvement Program.

A. The Board shall establish the Virginia Highway Safety Improvement Program (the Program) to reduce motorized and nonmotorized fatalities and severe injuries on highways in the Commonwealth, whether such highways are state or locally maintained. The Board shall use funds set aside pursuant to § 33.2-358 *and any funds deposited pursuant to § 46.2-882.1* for the Program.

B. Beginning in fiscal year 2024, the Board shall, after program administration costs, allocate the funds in accordance with its adopted investment strategy pursuant to subsection C as follows:

1. At least 54 percent for infrastructure projects that address a hazardous road location or feature and address an identified highway safety problem;

2. At least 29 percent for strategies and activities to address behavioral causes of crashes that result in fatalities and severe injuries; and

3. The remaining amount for eligible purposes under this section pursuant to the investment strategy adopted pursuant to subsection C.

C. The Board shall adopt an investment strategy to guide the investments of the Program. The strategy shall cover a period of at least five years and seek to achieve a significant reduction in the anticipated number of fatalities and severe injuries over the covered period and shall give priority to projects, strategies, and activities based on the expected reduction in fatalities and severe injuries relative to cost, including improvements that are widely implemented based on a high-risk roadway feature that is correlated with a particular crash type, rather than crash frequency.

§ 46.2-208. Records of Department; when open for inspection; release of privileged information.

A. The following information shall be considered privileged and unless otherwise provided for in this title shall not be released except as provided in subsection B:

1. Personal information as defined in § 2.2-3801;

2. Driver information, defined as all data that relates to driver's license status and driver activity;

3. Special identification card information, defined as all data that relates to identification card status; and

4. Vehicle information, including all descriptive vehicle data and title, registration, and vehicle activity data, but excluding crash data.

B. The Commissioner shall release such information only under the following conditions:

1. Notwithstanding other provisions of this section, medical information included in personal information shall be released only to a physician, a physician assistant, or an advanced practice registered nurse in accordance with a proceeding under §§ 46.2-321 and 46.2-322.

2, 3. [Repealed.]

4. Upon the request of (i) the subject of the information, (ii) the parent of a minor who is the subject of the information, (iii) the guardian of the subject of the information, (iv) the authorized agent or representative of the subject of the information, or (v) the owner of the vehicle that is the subject of the information, the Commissioner shall provide him with the requested information and a complete explanation of it. Requests for such information need not be made in writing or in

person and may be made orally or by telephone, provided that the Department is satisfied that there is adequate verification of the requester's identity. When so requested in writing by (a) the subject of the information, (b) the parent of a minor who is the subject of the information, (c) the guardian of the subject of the information, (d) the authorized agent or representative of the subject of the information, or (e) the owner of the vehicle that is the subject of the information, the Commissioner shall verify and, if necessary, correct the personal information provided and furnish driver, special identification card, or vehicle information. If the requester is requesting such information in the scope of his official business as counsel from a public defender's office or as counsel appointed by a court, such records shall be provided free of charge.

5. Upon the written request of any insurance carrier or surety, or authorized agent of either, the Commissioner shall furnish to such requester information in the record of any person subject to the provisions of this title. The transcript shall include any record of any conviction of a violation of any provision of any statute or ordinance relating to the operation or ownership of a motor vehicle or of any injury or damage in which he was involved and a report filed pursuant to § 46.2-373. No such report of any conviction or crash shall be made after 60 months from the date of the conviction or crash unless the Commissioner or court used the conviction or crash as a reason for the suspension or revocation of a driver's license or driving privilege, in which case the revocation or suspension and any conviction or crash pertaining thereto shall not be reported after 60 months from the date that the driver's license or driving privilege has been reinstated. The response of the Commissioner under this subdivision shall not be admissible in evidence in any court proceedings.

6. Upon the written request of any business organization or its authorized agent, in the conduct of its business, the Commissioner shall compare personal information supplied by the requester with that contained in the Department's records and, when the information supplied by the requester is different from that contained in the Department's records, provide the requester with correct information as contained in the Department's records. Personal information provided under this subdivision shall be used solely for the purpose of pursuing remedies that require locating an individual.

7. Upon the written request of any business organization or its authorized agent, the Commissioner shall provide vehicle information to the requester. Disclosures made under this subdivision shall not include any personal information, driver information, or special identification card information and shall not be subject to the limitations contained in subdivision 6.

8. The Department shall require the requesting entity to specify the purpose authorized pursuant to this title that forms the basis for the request and provide the permissible purpose as defined under 18 U.S.C. § 2721(b). Privileged information requested by an entity that has been altered or aggregated may be used only for the original purposes specified in the written agreement consistent with this title. The requesting entity shall disseminate privileged information only to third parties subject to the original purpose specified in the written agreement consistent with this title. Any agreement that does not allow third-party distribution shall include a statement that such distribution is prohibited. Such agreement may limit the scope of any authorized distribution consistent with this title. Privileged information distributed to any third party shall only be further distributed by such third party subject to the original purpose specified and consistent with this title, or unless such third party is the subject of the information, the parent of a minor who is the subject of the information, the guardian of the subject of the information, the authorized agent or representative of the subject of the information, or the owner of the vehicle that is the subject of the information.

The provisions of this subsection shall not apply to (a) requests for information made pursuant to subdivision B 4; (b) a request made by an entity authorized to receive privileged information pursuant to subsection B, provided that such request is made on a form provided by the Department, other than a written agreement, that requires the requester to certify that such entity is entitled to receive such information pursuant to this title, state the purpose authorized pursuant to subsection B that forms the basis for the request, explain why the information requested is necessary to accomplish the stated purpose, and certify that the information will be used only for the stated purpose and the information received shall not be disseminated to third parties unless there is authorization to do so; or (c) the release of information to a law-enforcement officer or agency during an emergency situation, provided that (1) the requesting entity is authorized to receive such information pursuant to subdivision B 9, (2) the timely release of such information is in the interest of public safety, and (3) the requesting entity completes the form required pursuant to clause (b) within 48 hours of the release of such information.

F. Any person that receives any privileged information that such person knows or has reason to know was received in violation of this title shall not disseminate any such information and shall notify the Department of the receipt of such privileged information.

G. The Department shall conduct audits annually based on a risk assessment to ensure that privileged information released by the Department pursuant to this title is being used as authorized by law and pursuant to the agreements entered into by the Department. If the Department finds that privileged information has been used in a manner contrary to law or the relevant agreement, the Department may revoke access.

H. Any request for privileged information by an authorized agent of a governmental entity shall be governed by the provisions of subdivision B 9.

§ 46.2-882.1. Use of photo speed monitoring devices in highway work zones, school crossing zones, and high-risk intersection segments; civil penalty.

A. For the purposes of this section:

"High-risk intersection segment" means any highway or portion thereof located not more than 1,000 feet from the limits of the property of a school that is part of or adjacent to an intersection containing a marked crosswalk that is identified in the manner provided in this section as one in which a traffic fatality has occurred since January 1, 2014.

"Highway work zone" has the same meaning ascribed to it in § 46.2-878.1.

"Photo speed monitoring device" means equipment that uses radar or LIDAR-based speed detection and produces one or more photographs, microphotographs, videotapes, or other recorded images of vehicles.

"School crossing zone" has the same meaning ascribed to it in § 46.2-873.

"Vehicle speed violation" means a violation of this title resulting from the operation of a vehicle in excess of the speed limit, including a violation of § 46.2-873 or 46.2-878.1.

B. A state or local law-enforcement agency may place and operate a photo speed monitoring device in school crossing zones for the purposes of recording violations of § 46.2-873 and in highway work zones for the purposes of recording violations of § 46.2-878.1.

A state or local law-enforcement agency may place and operate a photo speed monitoring device at a high-risk intersection segment located within the locality for the purpose of recording vehicle speed violations, provided that such law-enforcement agency certifies that a traffic fatality has occurred since January 1, 2014, in such segment.

~~1.~~ *C.* The operator of a vehicle shall be liable for a monetary civil penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a photo speed monitoring device, to be traveling at speeds of at least 10 miles per hour above the posted ~~school crossing zone or highway work zone~~ speed limit ~~within such school crossing zone or highway work zone~~ *in the zone monitored by the photo speed monitoring device*. Such civil penalty shall not exceed $100, and any prosecution shall be instituted and conducted in the same manner as prosecution for traffic infractions. Civil penalties collected under this section resulting from a summons issued by a local law-enforcement officer shall be paid to the locality in which such violation occurred. Civil penalties collected under this section resulting from a summons issued by a law-enforcement officer employed by the Department of State Police shall be paid into the Literary Fund. *However, all civil penalties collected under this section resulting from a summons issued based on evidence obtained from a photo speed monitoring device placed and operated at a high-risk intersection segment shall be paid to the Commonwealth Transportation Board to be used for the Virginia Highway Safety Improvement Program established pursuant to § 33.2-373.*

~~2.~~ *D.* If a photo speed monitoring device is used, proof of a ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation* shall be evidenced by information obtained from such device. A certificate, or a facsimile thereof, sworn to or affirmed by a law-enforcement officer, based upon inspection of photographs, microphotographs, videotapes, or other recorded images produced by a photo speed monitoring device, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotapes, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation*.

~~3.~~ *E.* In the prosecution for a ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation* in which a summons was issued by mail, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in ~~violation of § 46.2-873 or 46.2-878.1~~ *a manner constituting a vehicle speed violation*, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation*, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

~~4.~~ *F.* Imposition of a penalty pursuant to this section by mailing a summons shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage. However, if a law-enforcement officer uses a photo speed monitoring device to record a ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation* and personally issues a summons at the time of the violation, the conviction that results shall be made a part of such driver's driving record and used for insurance purposes in the provision of motor vehicle insurance coverage.

~~5.~~ *G.* A summons for a ~~violation of § 46.2-873 or 46.2-878.1~~ *vehicle speed violation* issued by mail pursuant to this section may be executed pursuant to § 19.2-76.2. Notwithstanding the provisions of § 19.2-76, a summons issued by mail pursuant to this section may be executed by mailing by first-class mail a copy thereof to the owner, lessee, or renter of the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of or accessible to the Department. In the case of a vehicle lessee or renter, the copy shall be mailed to the address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in ~~subdivision 3~~ *subsection E* and (ii) instructions for filing such affidavit, including the address

to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. If the summons is issued to an owner, lessee, or renter of a vehicle with a registration outside the Commonwealth and such person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons will be eligible for all legal collections activities. Any summons executed for a ~~violation of~~ § ~~46.2-873 or 46.2-878.1~~ *vehicle speed violation* issued pursuant to this section shall provide to the person summoned at least 30 days from the mailing of the summons to inspect information collected by a photo speed monitoring device in connection with the violation. If the law-enforcement agency that was operating the photo speed monitoring device does not execute a summons for a ~~violation of~~ § ~~46.2-873 or 46.2-878.1~~ *vehicle speed violation* issued pursuant to this section within 30 days from the date of the violation, all information collected pertaining to that suspected violation shall be purged within 60 days from the date of the violation.

~~6.~~ *H.* A private vendor may enter into an agreement with a law-enforcement agency to be compensated for providing a photo speed monitoring device and all related support services, including consulting, operations, and administration. However, only a law-enforcement officer may swear to or affirm the certificate required by this ~~subsection~~ *section*. Any such agreement for compensation shall be based on the value of the goods and services provided, not on the number of violations paid or monetary penalties imposed. Any private vendor contracting with a law-enforcement agency pursuant to this section may enter into an agreement with the Department, in accordance with the provisions of subdivision B 31 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that committed a ~~violation of~~ § ~~46.2-873 or 46.2-878.1~~ *vehicle speed violation*. Any such information provided to such private vendor shall be protected in a database.

~~7.~~ *I.* Information collected by a photo speed monitoring device operated pursuant to this section shall be limited exclusively to that information that is necessary for the enforcement of ~~school crossing zone and, highway work zone speeding~~ *vehicle speed* violations. Information provided to the operator of a photo speed monitoring device shall be protected in a database and used only for enforcement *of vehicle speed violations and enforcement* against individuals who violate the provisions of this section ~~or~~ § ~~46.2-873 or 46.2-878.1~~. Notwithstanding any other provision of law, all photographs, microphotographs, videotapes, or other recorded images collected by a photo speed monitoring device shall be used exclusively for enforcing ~~school crossing zone and highway work zone speed limits~~ *vehicle speed violations* and shall not be (i) open to the public; (ii) sold or used for sales, solicitation, or marketing purposes; (iii) disclosed to any other entity except as may be necessary for the enforcement of ~~school crossing zone and highway work zone speed limits~~ *a vehicle speed violation* or to a vehicle owner or operator as part of a challenge to the violation; or (iv) used in a court in a pending action or proceeding unless the action or proceeding relates to a *vehicle speed violation or a* violation of this section ~~or~~ § ~~46.2-873 or 46.2-878.1~~, or such information is requested upon order from a court of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be purged and not retained later than 60 days after the collection of any civil penalties. Any law-enforcement agency using photo speed monitoring devices shall annually certify compliance with this section and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any person who discloses personal information in violation of the provisions of this ~~subdivision~~ *subsection* shall be subject to a civil penalty of $1,000 per disclosure.

~~8.~~ *J.* A conspicuous sign shall be placed within 1,000 feet of any school crossing zone ~~or~~*,* highway work zone*, or high-risk intersection segment* at which a photo speed monitoring device is used, indicating the use of the device. There shall be a rebuttable presumption that such sign was in place at the time of the commission of the speed limit violation.

~~9.~~ *K.* Any state or local law-enforcement agency that places and operates a photo speed monitoring device pursuant to the provisions of this section shall report to the Department of State Police, in a format to be determined by the Department of State Police, by January 15 of each year on the number of traffic violations prosecuted, the number of successful prosecutions, and the total amount of monetary civil penalties collected. The Department of State Police shall aggregate such information and report it to the General Assembly by February 15 of each year.

The following information contained in a public record is excluded from the mandatory disclosure provisions of this chapter but may be disclosed by the custodian in his discretion, except where such disclosure is prohibited by law.

Redaction of information excluded under this section from a public record shall be conducted in accordance with § 2.2-3704.01.

1. Confidential information, including victim identity, provided to or obtained by staff in a rape crisis center or a program for battered spouses.

2. Information that describes the design, function, operation, or access control features of any security system, whether manual or automated, which is used to control access to or use of any automated data processing or telecommunications system.

3. Information that would disclose the security aspects of a system safety program plan adopted pursuant to Federal Transit Administration regulations by the Commonwealth's designated Rail Fixed Guideway Systems Safety Oversight agency; and information in the possession of such agency, the release of which would jeopardize the success of an ongoing investigation of a rail accident or other incident threatening railway safety.

4. Information concerning security plans and specific assessment components of school safety audits, as provided in § 22.1-279.8.

Nothing in this subdivision shall be construed to prevent the disclosure of information relating to the effectiveness of security plans after (i) any school building or property has been subjected to fire, explosion, natural disaster, or other catastrophic event or (ii) any person on school property has suffered or been threatened with any personal injury.

5. § 37.2-810. Transportation of person in the temporary detention process.

In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall specify in the temporary detention order the law-enforcement agency of the jurisdiction in which the person resides, or any other willing law-enforcement agency that has agreed to provide transportation, to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. However, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located shall execute the order and provide transportation.

B. The magistrate issuing the temporary detention order shall (i) specify the law-enforcement agency to execute the order and (ii) designate a transportation provider. In determining the transportation provider, the magistrate shall authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the temporary detention order, a representative of the community services board, an employee of or person providing services pursuant to a contract with the Department, or other transportation provider with personnel trained to provide transportation in a safe manner. Upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that an alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner, the magistrate shall designate such alternative transportation provider to provide transportation of the person. *An alternative transportation provider shall be deemed to be available if the alternative transportation provider states that it is available to take custody of the individual from law enforcement within six hours of issuance of the temporary detention order or an order changing the transportation provider pursuant to subsection E.* If *(a)* no alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner *or (b) the law-enforcement agency elects to provide transportation*, the magistrate shall designate the primary law-enforcement agency and jurisdiction designated to execute the temporary detention order to provide transportation of the person.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. The primary law-enforcement agency may transfer custody of the person to the alternative transportation provider immediately upon execution of the temporary detention order based on the availability of alternative transportation providers. The alternative transportation provider shall maintain custody of the person from the time custody is transferred to the alternative transportation provider by the primary law-enforcement agency until such time as custody of the person is transferred to the temporary detention facility, including during any period prior to the initiation of transportation of the person from the facility to which he was transported pursuant to § 37.2-808 and while transportation is being provided pursuant to this section.

In such cases, a copy of the temporary detention order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the temporary detention facility. The temporary detention facility shall return a copy of the temporary detention order to the court designated by the magistrate as

soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

The order may include transportation of the person to such other medical facility as may be necessary to obtain further medical evaluation or treatment prior to placement as required by a physician at the admitting temporary detention facility. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section. Such medical evaluation or treatment shall be conducted immediately in accordance with state and federal law.

C. If an alternative transportation provider providing transportation or maintaining custody of a person who is the subject of a temporary detention order becomes unable to continue providing transportation or maintaining custody of the person at any time after taking custody of the person, the primary law-enforcement agency for the jurisdiction in which the alternative transportation provider is located at the time he becomes unable to continue providing transportation or maintaining custody shall take custody of the person and shall transport the person to the facility of temporary detention. In such cases, a copy of the temporary detention order shall accompany the person being transported and shall be delivered to and returned by the temporary detention facility in accordance with the provisions of subsection B.

D. In cases in which an alternative facility of temporary detention is identified and the law-enforcement agency or alternative transportation provider identified to provide transportation in accordance with subsection B continues to have custody of the person, the local law-enforcement agency or alternative transportation provider shall transport the person to the alternative facility of temporary detention identified by the employee or designee of the community services board. In cases in which an alternative facility of temporary detention is identified and custody of the person has been transferred from the law-enforcement agency or alternative transportation provider that provided transportation in accordance with subsection B to the initial facility of temporary detention, the employee or designee of the community services board shall request, and a magistrate may enter an order specifying, an alternative transportation provider or, if no alternative transportation provider is available, willing, and able to provide transportation in a safe manner, the local law-enforcement agency for the jurisdiction in which the person resides or, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located, to provide transportation.

E. The magistrate may change the transportation provider specified in a temporary detention order at any time prior to the initiation of transportation of a person who is the subject of a temporary detention order pursuant to this section. If the designated transportation provider is changed by the magistrate at any time after the temporary detention order has been executed but prior to the initiation of transportation, the transportation provider having custody of the person shall transfer custody of the person to the transportation provider subsequently specified to provide transportation. For the purposes of this subsection, "transportation provider" includes both a law-enforcement agency and an alternative transportation provider.

F. A law-enforcement officer may lawfully go to or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing any temporary detention order pursuant to this section. Law-enforcement agencies may enter into agreements to facilitate the execution of temporary detention orders and provide transportation.

G. An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.

H. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

I. For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733.

CHAPTER 681

An Act to amend and reenact § 36-106 of the Code of Virginia, relating to Uniform Statewide Building Code; violations; fines.

[S 538]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 36-106 of the Code of Virginia is amended and reenacted as follows:

§ 36-106. Violation a misdemeanor; civil penalty.

A. It shall be unlawful for any owner or any other person, firm, or corporation, on or after the effective date of any Code provisions, to violate any such provisions. Any such violation shall be deemed a misdemeanor and any owner or any

other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $2,500. ~~In addition, each day the violation continues after conviction or the court-ordered abatement period has expired shall constitute a separate offense.~~ If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate or remedy the violation within six months of the date of conviction. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense. Any person*, firm, or corporation* convicted of a second offense committed within less than five years after a first offense under this chapter shall be punished by a fine of not less than $1,000 nor more than $2,500. Any person*, firm, or corporation* convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $500 nor more than $2,500. Any person*, firm, or corporation* convicted of a third or subsequent offense ~~involving the same property~~ committed within 10 years of an offense under this chapter after having been at least twice previously convicted shall be punished by confinement in jail for not more than 10 days and a fine of not less than ~~$2,500~~ *$5,000* nor more than ~~$5,000~~ *$10,000*, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

B. Violations of any provision of the Building Code, adopted and promulgated pursuant to § 36-103, that results in a dwelling not being a safe, decent and sanitary dwelling, as defined in § 25.1-400, in a locality where the local governing body has taken official action to enforce such provisions, shall be deemed a misdemeanor and any owner or any other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $2,500. In addition, each day the violation continues after conviction or the expiration of the court-ordered abatement period shall constitute a separate offense. If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate or remedy the violation within six months of the date of conviction. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense. Any person convicted of a second offense, committed within less than five years after a first offense under this chapter shall be punished by confinement in jail for not more than five days and a fine of not less than $1,000 nor more than $2,500, either or both. Provided, however, that the provision for confinement in jail shall not be applicable to any person, firm, or corporation, when such violation involves a multiple-family dwelling unit. Any person convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $500 nor more than $2,500. Any person convicted of a third or subsequent offense involving the same property, committed within 10 years of an offense under this chapter after having been at least twice previously convicted, shall be punished by confinement in jail for not more than 10 days and a fine of not less than $2,500 nor more than $5,000, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

C. *Violations of any provision of the Building Code, adopted and promulgated pursuant to § 36-103, at a dwelling unit of a multifamily property that the local governing body has declared blighted pursuant to § 36-49.1:1 or 36-105.1:1, and where the local governing body has taken official action to enforce such provisions, shall be deemed a misdemeanor and any owner or any other person, firm, or corporation convicted of such a violation shall be punished by a fine of not more than $10,000. If the violation remains uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in order to comply with the Code within a time period that is determined by the court and appropriate considering the circumstances of the violation. The abatement period shall not be longer than six months. If the court fails to define an abatement period, the period shall be seven calendar days. Each day during which the violation continues after the court-ordered abatement period has ended shall constitute a separate offense.*

Any person, firm, or corporation convicted of a second offense committed within less than five years after a first offense under this chapter shall be punished by confinement in jail for not more than five days and a fine of not less than $2,500 nor more than $10,000, either or both.

Any person, firm, or corporation convicted of a second offense committed within a period of five to 10 years of a first offense under this chapter shall be punished by a fine of not less than $1,000 nor more than $10,000. Any person, firm, or corporation convicted of a third or subsequent offense committed within 10 years of an offense under this chapter after having been at least twice previously convicted shall be punished by confinement in jail for not more than 10 days and a fine of not less than $5,000 nor more than $10,000, either or both. No portion of the fine imposed for such third or subsequent offense committed within 10 years of an offense under this chapter shall be suspended.

D. Any locality may adopt an ordinance which establishes a uniform schedule of civil penalties for violations of specified provisions of the Code which are not abated, or otherwise remedied through hazard control, promptly after receipt of notice of violation from the local enforcement officer.

This schedule of civil penalties shall be uniform for each type of specified violation, and the penalty for any one violation shall be a civil penalty of not more than $100 for the initial summons and not more than $350 for each additional summons. Each day during which the violation is found to have existed shall constitute a separate offense. However, specified violations arising from the same operative set of facts shall not be charged more frequently than once in any 10-day period, and a series of specified violations arising from the same operative set of facts shall not result in civil penalties which exceed a total of $4,000. Designation of a particular Code violation for a civil penalty pursuant to this section shall be in lieu of criminal sanctions, and except for any violation resulting in injury to persons, such designation shall preclude the prosecution of a violation as a misdemeanor.

Any person summoned or issued a ticket for a scheduled violation may make an appearance in person or in writing by mail to the department of finance or the treasurer of the locality prior to the date fixed for trial in court. Any person so appearing may enter a waiver of trial, admit liability, and pay the civil penalty established for the offense charged. Such persons shall be informed of their right to stand trial and that a signature to an admission of liability will have the same force and effect as a judgment of court. As a condition of waiver of trial, admission of liability, and payment of a civil penalty, the violator and a representative of the locality shall agree in writing to terms of abatement or remediation of the violation within six months after the date of payment of the civil penalty.

If a person charged with a scheduled violation does not elect to enter a waiver of trial and admit liability, the violation shall be tried in the general district court in the same manner and with the same right of appeal as provided for by law. In any trial for a scheduled violation authorized by this section, it shall be the burden of the locality to show the liability of the violator by a preponderance of the evidence. An admission of liability or finding of liability shall not be a criminal conviction for any purpose.

If the violation concerns a residential unit, and if the violation remains uncorrected at the time of assessment of the civil penalty, the court shall order the violator to abate, or otherwise remedy through hazard control, the violation in order to comply with the Code. Except as otherwise provided by the court for good cause shown, any such violator shall abate, or otherwise remedy through hazard control, the violation within six months of the date of the assessment of the civil penalty.

If the violation concerns a nonresidential building or structure, and if the violation remains uncorrected at the time of assessment of the civil penalty, the court may order the violator to abate, or otherwise remedy through hazard control, the violation in order to comply with the Code. Any such violator so ordered shall abate, or otherwise remedy through hazard control, the violation within the time specified by the court.

~~D.~~ *E.* Any owner or any other person, firm or corporation violating any Code provisions relating to lead hazard controls that poses a hazard to the health of pregnant women and children under the age of six years who occupy the premises shall, upon conviction, be guilty of a misdemeanor and shall be subject to a fine of not more than $2,500. If the court convicts pursuant to this subsection and sets a time by which such hazard must be controlled, each day the hazard remains uncontrolled after the time set for the lead hazard control has expired shall constitute a separate violation of the Uniform Statewide Building Code.

The landlord shall maintain the painted surfaces of the dwelling unit in compliance with the International Property Maintenance Code of the Uniform Statewide Building Code. The landlord's failure to do so shall be enforceable in accordance with the Uniform Statewide Building Code and shall entitle the tenant to terminate the rental agreement.

Termination of the rental agreement or any other action in retaliation against the tenant after written notification of (i) a lead hazard in the dwelling unit or (ii) that a child of the tenant, who is an authorized occupant in the dwelling unit, has an elevated blood lead level, shall constitute retaliatory conduct in violation of § 55.1-1258.

~~E.~~ *F.* Nothing in this section shall be construed to prohibit a local enforcement officer from issuing a summons or a ticket for violation of any Code provision to the lessor or sublessor of a residential dwelling unit, provided a copy of the notice is served on the owner.

~~F.~~ *G.* Any prosecution under this section shall be commenced within the period provided for in § 19.2-8.

CHAPTER 682

An Act to amend and reenact §§ 37.2-808 and 37.2-809 of the Code of Virginia, relating to emergency custody and temporary detention orders; evaluations; presence of others.

[S 546]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-808 and 37.2-809 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-808. Emergency custody; issuance and execution of order.

A. Any magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion, or a court may issue pursuant to § 19.2-271.6, an emergency custody order when he has probable cause to believe that any person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, or the court may pursuant to § 19.2-271.6, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if

the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate or the court considers relevant to the determination of whether probable cause exists to issue an emergency custody order.

B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate or court issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate or court shall authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate or court, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate or court deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate or court shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate or the court that issued the emergency custody order as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate or court shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate or court shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

H. A law-enforcement officer who is transporting a person who has voluntarily consented to be transported to a facility for the purpose of assessment or evaluation and who is beyond the territorial limits of the county, city, or town in which he serves may take such person into custody and transport him to an appropriate location to assess the need for hospitalization or treatment without prior authorization when the law-enforcement officer determines (i) that the person has revoked consent to be transported to a facility for the purpose of assessment or evaluation, and (ii) based upon his observations, that probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until (i) a temporary detention order is issued in accordance with § 37.2-809, (ii) an order for temporary detention for observation, testing, or treatment is entered in accordance with § 37.2-1104, ending law enforcement custody, (iii) the person is released, or (iv) the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed eight hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection C of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809. *The (i) evaluator conducting the evaluation pursuant to subsection B and § 37.2-809 or (ii) hospital emergency department and treating physician or other health care provider designated by the physician shall allow a family member or legal guardian of the individual subject to evaluation who is present, and who may provide support and supportive decision-making, to be present with the individual unless the individual objects or the evaluator or treating physician determines that the presence of any such person would create a medical, clinical, or safety risk to the patient or health care provider or interferes with patient care. No provision of this section shall delay the process of the patient receiving treatment.*

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

P. Payments shall be made pursuant to § 37.2-804 to licensed health care providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

Q. An employee or contractor of an entity providing alternative transportation services pursuant to a contract with the Department who has completed training approved by the Department in the proper and safe use of restraint may use restraint (i) if restraint is necessary to ensure the safety of the person or others or prevent escape and (ii) if less restrictive techniques have been determined to be ineffective to protect the person or others from harm or to prevent escape.

R. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

S. For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733, except for the purposes of subsection G.

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

"Employee" means an employee of the local community services board who is skilled in the assessment and treatment of mental illness and has completed a certification program approved by the Department.

"Investment interest" means the ownership or holding of an equity or debt security, including shares of stock in a corporation, interests or units of a partnership, bonds, debentures, notes, or other equity or debt instruments.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician, clinical psychologist, clinical social worker, or licensed professional counselor treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) is in need of hospitalization or treatment; and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. The magistrate shall also consider, if available, (a) information provided by the person who initiated emergency custody and (b) the recommendations of any treating or examining physician licensed in Virginia either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician, psychologist, clinical social worker, or licensed professional counselor licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention in accordance with the provisions of § 37.2-809.1 for all persons detained pursuant to this section. An employee or designee of the local community services board may change the facility of temporary detention and may designate an alternative facility for temporary detention at any point during the period of temporary detention if it is determined that the alternative facility is a more appropriate facility for temporary detention of the person given the specific security, medical, or behavioral health needs of the person. In cases in which the facility of temporary detention is changed following transfer of custody to an initial facility of temporary custody, transportation of the person to the alternative facility of temporary detention shall be provided in accordance with the provisions of § 37.2-810. The initial facility of temporary detention shall be identified on the preadmission screening report and indicated on the temporary detention order; however, if an employee or designee of the local community services board designates an alternative facility, that employee or designee shall provide written notice forthwith, on a form developed by the Executive Secretary of the Supreme Court of Virginia, to the clerk of the issuing court of the name and address of the alternative facility. Subject to the provisions of § 37.2-809.1, if a facility of temporary detention cannot be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808, the person shall be detained in a state facility for the treatment of persons with mental illness and such facility shall be indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6 or in subsection C of § 37.2-813 for persons prior to transfer to the facility of temporary detention, the person shall remain in the custody of law enforcement until either (i) the person is detained within a secure facility or (ii) custody has been accepted by the appropriate personnel designated by either the initial facility of temporary detention identified in the temporary detention order or by the alternative facility of temporary detention designated by the employee or designee of the local community services board pursuant to this subsection. The person detained or in custody pursuant to this section shall be given a written summary of the temporary detention procedures and the statutory protections associated with those procedures.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed 72 hours prior to a hearing. If the 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or, if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or, if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed. The person may be released, pursuant to § 37.2-813, before the 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. § 22.1-253.13:1. (For effective date, see Acts 2022, cc. 549, 550, cl. 2) Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, § 1 of the Constitution of Virginia.

B. The Board shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade eight shall align with evidence-based literacy instruction and science-based reading research.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department shall make available and maintain a website, either separately or through an existing website utilized by the Department, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as

set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

In accordance with § 22.1-215.2, the parent of each student shall receive notice before services begin and a copy of the student reading plan.

3. Each student who receives such reading intervention services shall be assessed utilizing either the literacy screener provided or approved by the Department or the grade-level reading Standards of Learning assessment again at the end of that school year.

Funds appropriated for prevention, intervention, and remediation, summer school remediation, the at-risk add-on, or early intervention reading may be used to meet the requirements of this subsection.

H. In order to assist local school boards to implement the provisions of subsection G:

1. The Board shall provide guidance on the content of student reading plans;

2. The Department shall develop a list of core literacy curricula, supplemental instruction practices and programs, and intervention programs that consist of evidence-based literacy instruction aligned with science-based reading research for students in kindergarten through grade eight. The list shall be approved by the Board;

3. The Department shall develop a template for student reading plans that aligns with the requirements of subsection G;

4. The Department shall develop and implement a plan for the annual collection and public reporting of division-level and school-level literacy data, at a time to be determined by the Superintendent, to include results on the literacy screeners provided or approved by the Department and the reading Standards of Learning assessments; and

5. The Department shall provide free online evidence-based literacy instruction resources that can be accessed by parents and local school boards to support student literacy development at home.

Such guaranteed admissions agreements may provide for the guaranteed admission of a student who earns an associate degree concurrently with a high school diploma through a dual enrollment program, in addition to any guaranteed admission for a student who earns an associate degree post-high school.

B. The System, in cooperation with the Council and each public institution of higher education, and consistent with the guidelines developed pursuant to subdivision 20 of § 23.1-203, shall establish a one-semester Passport Program and a one-year Uniform Certificate of General Studies Program. 5. That the Secretary of Education, the Superintendent of Public Instruction, and the Chancellor of the Virginia Community College System shall make such amendments to their *Governing Principles for Dual Enrollment between Virginia Public Schools and the Virginia Community College System* as they deem necessary to comply with the provisions of this act.

CHAPTER 686

An Act to amend and reenact § 59.1-542 of the Code of Virginia, relating to enterprise zones; extension.

[S 679]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 59.1-542 of the Code of Virginia is amended and reenacted as follows:

§ 59.1-542. Enterprise zone designation.

A. Upon the Department's announcement of periodic zone designation competitions, the governing body of any county or city may make written application to the Department to have an area or areas declared an enterprise zone. Such application shall include a description of the area or areas to be included, the development potential of these areas, the need for special state incentives, the local incentives that shall be provided to support new economic activity, and other information that the Department deems necessary to assess requests for designation.

B. Two or more adjacent localities may file a joint application for an enterprise zone. Localities applying for a joint zone shall demonstrate a regional need for an enterprise zone and a regional impact that could not be achieved through a single jurisdiction zone. Applicants for a joint zone shall also specify what mechanisms will be used to ensure that the economic benefits of such a zone are shared among the applicant localities.

C. An enterprise zone may consist of no more than three noncontiguous areas. The aggregate size of these noncontiguous zone areas shall be as follows:

1. For cities, the minimum size of an enterprise zone shall be one-quarter square mile and the maximum size of an enterprise zone shall be one square mile or seven percent of the jurisdiction's land area or an area that includes seven percent of the population, whichever is largest.

2. For towns designated as enterprise zones under former §§ 59.1-272 through 59.1-278, 59.1-279.1, or 59.1-280.2 through 59.1-284 of the Enterprise Zone Act (§ 59.1-270 et seq.), the size of an enterprise zone shall conform to the size requirements for cities in subdivision 1.

3. For unincorporated areas of counties, the minimum size of an enterprise zone shall be one-half square mile and the maximum size of an enterprise zone shall be six square miles.

4. For consolidated cities the enterprise zones in cities for which the boundaries were created through the consolidation of a city and county or the consolidation of two cities, the enterprise zone shall conform substantially to the size requirements for unincorporated areas of counties in subdivision 3.

In no instance shall a zone consist only of a site for a single business firm. Localities shall be limited to three enterprise zone designations.

D. A joint enterprise zone shall consist of no more than three noncontiguous zone areas for each participating locality. The aggregate size of these noncontiguous areas shall be specified by regulation.

E. Upon recommendation of the Director of the Department, the Governor may designate up to 30 enterprise zones in accordance with the provisions of this chapter. Such designations are to be done in coordination with the expiration of existing zones designated under earlier Enterprise Zone Program provisions. The initial round of six zone designation applications and approval may be conducted prior to adoption of final program regulations provided that the process is consistent with the provisions of this chapter. Enterprise zones shall be designated for an initial 10-year period except as provided for in subsections A and B of § 59.1-546. Upon recommendation of the Director of the Department, the Governor may renew zones designated on or after July 1, 2005, for up to ~~three~~ *four* five-year renewal periods and zones designated prior to July 1, 2005, for ~~one~~ *up to two* five-year renewal ~~period~~ *periods*. Recommendations for five-year renewals shall be based on the locality's performance of its enterprise zone responsibilities, the continued need for such a zone, and its effectiveness in creating jobs and capital investment. *Notwithstanding any provision to the contrary, any enterprise zone in effect as of June 30, 2024, shall be extended for an additional four-year period, in addition to any renewal periods provided by this section.*

F. Localities that have zone designations are responsible for providing the local incentives specified in their applications, providing timely submission of enterprise zone reports and evaluations as required by regulation, verifying that businesses and properties seeking enterprise zone incentives are physically located within their zones, and implementing an active local enterprise zone program within the context of overall economic development efforts.

CHAPTER 687

An Act to amend and reenact § 15.2-1804.1 of the Code of Virginia, relating to Department of Energy; building standards for certain local buildings.

[H 151]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-1804.1 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-1804.1. (For applicability, see Acts 2021, Sp. Sess. I, c. 473, cl. 2) Building by locality; high performance standards.

A. As used in this section:

"Appropriate resilience features" means features that are included to prepare for, by reducing risk or enabling recovery, acts of nature, failures of systems, or adversarial acts that could cause a major disruption to building functionality. A locality maintains the responsibility for identifying those potential hazards for which a project should prepare and for determining the sufficiency of the incorporated features to address the potential hazard, following consideration of any guidance pursuant to subsection E.

"Commissioning" means the process of ensuring functional performance of mechanical equipment, water heating equipment, lighting, automated control systems, and building envelope, including the steps described in the ICC G4-2018 "Guideline for Commissioning" or successor guidelines and additional guidelines as may be applicable to such systems.

"Design phase" means the design of a building construction or renovation project, *which, until July 1, 2025, shall be* inclusive of the issuance of a request for proposal and the project budget approval*, and after July 1, 2025, shall be based on the effective execution date of the contract with the design team*.

"EV" means an electric vehicle.

"High performance building certification program" means a public building design, construction, and renovation program that achieves certification using the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) green building rating standard or the Green Building Initiative's "Green Globes" building standard~~, or meets the requirements of VEES~~. *For buildings 50,000 square feet and smaller, Earthcraft Light Commercial at the silver level may instead be used for certification under this section.*

"Locality" means a county, city, or town, inclusive of a school division.

"Major disruption" means a disturbance that interrupts the normal activities that are conducted in a building for a duration of time that would require that building to temporarily or permanently cease operations. Localities may define the parameters that would constitute a major disruption based on the nature and duration of a disrupting event, as well as on building typology, consistent with any guidance pursuant to subsection E.

"Sufficient ZEV charging and fueling infrastructure" means the provision of ~~ZEV charging or fueling infrastructure, including EV-ready charging electrical capacity and pre-wiring, (i) sufficient to support every passenger-type vehicle owned by the locality and available for use by the locality that will be located at such building upon full occupancy, meet projected demand for such infrastructure during the first 10 years following building occupancy, or (ii) that achieves the current ZEV or EV charging credit for a high performance building certification program~~ *EV supply equipment, EV-ready charging electrical capacity and pre-wiring, or fueling infrastructure for other ZEVs that is deemed sufficient based on meeting relevant guidelines or recommendations available during the design phase of a project from either the Virginia Department of Energy pursuant to subsection E or the U.S. Department of Energy.*

~~"VEES" means the Virginia Energy Conservation and Environmental Standards developed by the Department considering the U.S. Green Building Council (LEED) green building rating standard, the Green Building Initiative "Green Globes" building standard, and other appropriate requirements as determined by the Department.~~

"ZEV" means a zero-emissions vehicle.

B. Any locality entering the design phase for the construction of a new building greater than 5,000 gross square feet in size, or the renovation of a building where the cost of the renovation exceeds 50 percent of the value of the building, shall ensure that such building:

1. Is designed, constructed, verified, and operated to comply with a high performance building certification program;

2. Has sufficient ZEV charging and fueling infrastructure~~. In making a sufficiency determination, the locality may also consider the interest of the Commonwealth in providing infrastructure for nearby locations, geographical gaps in ZEV charging infrastructure, availability of incentives, and other factors~~;

3. Has features that permit the agency or institution to measure the building's energy consumption ~~and associated carbon emissions~~, including metering of all electricity, gas, water, and other utilities; and

4. Incorporates appropriate *onsite renewable energy generation, energy storage, and* resilience ~~and distributed energy~~ features *as determined by the locality and following consideration of any guidance pursuant to subsection E*.

C. Notwithstanding the provisions of subsection B, for any such construction or renovation of a building that is less than 20,000 gross square feet in size, the locality may instead ensure that such building achieves the relevant ENERGY STAR certification and implement ~~mechanical, electrical, plumbing, and envelope~~ commissioning. *In the event that the specific building type is not eligible for ENERGY STAR certification, then the locality shall demonstrate, using energy modeling, that the project has been designed to perform at least as well as the ENERGY STAR Target Finder value for that building type or that the project has been designed to meet equivalent standards for such building types as provided in guidance pursuant to subsection E.*

D. Upon a finding that special circumstances make the construction or renovation to the standards impracticable, the governing body of such locality may, by resolution, grant an exemption from any such design and construction standards. Such resolution shall be made in writing and shall explain the basis for granting the exemption. If the local governing body cites cost as a factor in granting an exemption, the local governing body shall include a comparison of the cost the locality will incur over the next 20 years or the lifecycle of the project, whichever is shorter, if the locality does not comply with the standards required by subsection B versus the costs to the locality if the locality were to comply with such standards.

E. The Department of Energy shall upon request provide technical assistance related to subsections A, B, and C to localities subject to available budgetary resources. Such technical assistance may include the issuance of guidance.

~~E.~~ *F.* Any local governing body may, by ordinance, adopt its own green design and construction program ~~that includes standards that are~~. *When a local program includes standards that address all of the requirements in subsection B and is equal in stringency to or* more stringent than ~~any equivalent standard~~ *the standards* in subsection B~~. While such program remains in effect~~, the locality shall be deemed compliant with the provisions of this section.

CHAPTER 688

An Act to amend and reenact § 2.2-4302.2 of the Code of Virginia, relating to Virginia Public Procurement Act; competitive negotiation; exceptions to contractual terms.

[H 242]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4302.2 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4302.2. Process for competitive negotiation.

A. The process for competitive negotiation shall include the following:

1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal, indicating whether a numerical scoring system will be used in evaluation of the proposal, and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities, specifications or qualifications that will be required. Except with regard to contracts for architectural, professional engineering, transportation construction, or transportation-related construction services, a public body may include as a factor that will be used in evaluating a proposal the proposer's employment of persons with disabilities to perform the specifications of the contract. In the event that a numerical scoring system will be used in the evaluation of proposals, the point values assigned to each of the evaluation criteria shall be included in the Request for Proposal or posted at the location designated for public posting of procurement notices prior to the due date and time for receiving proposals. No Request for Proposal for construction authorized by this chapter shall condition a successful offeror's eligibility on having a specified experience modification factor;

2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by posting on the Department of General Services' central electronic procurement website or other appropriate websites. Public bodies may also publish in a newspaper of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Posting on the Department of General Services' central electronic procurement website shall be required of (i) any state public body and (ii) any local public body if such local public body elects not to publish notice of the Request for Proposal in a newspaper of general circulation in the area in which the contract is to be performed. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities. In addition, proposals may be solicited directly from potential contractors. Any additional solicitations shall include certified businesses selected from a list made available by the Department of Small Business and Supplier Diversity; and

3. For goods, nonprofessional services, and insurance, selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. ~~In the case of a proposal for information technology, as defined in § 2.2-2006, a public body shall not require an offeror to state in a proposal any exception to any liability provisions contained in the Request for Proposal.~~ Negotiations shall then be conducted with each of the offerors so selected. The offeror shall state any exception to any *contractual terms or conditions, including any* liability provisions contained in the Request for Proposal in writing ~~at the beginning of negotiations~~ *at the time of responding to such Request for Proposal if so requested by the public body*~~, and such~~. *Such* exceptions shall be considered during negotiation *but shall not be used as a basis for scoring or evaluating which offerors are selected for negotiations*. Price shall be considered, but need not be the sole or primary determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal and provides the best value, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror; or

4. For professional services, the public body shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. In addition, offerors shall be informed of any ranking criteria that will be used by the public body in addition to the review of the professional competence of the offeror. The Request for Proposal shall not, however, request

that offerors furnish estimates of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. In accordance with § 2.2-4342, proprietary information from competing offerors shall not be disclosed to the public or to competitors. For architectural or engineering services, the public body shall not request or require offerors to list any exceptions to proposed contractual terms and conditions, unless such terms and conditions are required by statute, regulation, ordinance, or standards developed pursuant to § 2.2-1132, until after the qualified offerors are ranked for negotiations. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable and pursuant to contractual terms and conditions acceptable to the public body, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

B. Multiphase professional services contracts satisfactory and advantageous to the completion of large, phased, or long-term projects may be negotiated and awarded based on a fair and reasonable price for the first phase only, where the completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to entering into any such contract, the public body shall (i) state the anticipated intended total scope of the project and (ii) determine in writing that the nature of the work is such that the best interests of the public body require awarding the contract.

d. The ex-officio members will be selected by their respective organizations.

3. The Commission may remove any member of the Executive Committee as provided in the Commission's bylaws.

4. The Executive Committee shall meet at least annually.

a. Executive Committee meetings shall be open to the public, except that the Executive Committee may meet in a closed, non-public meeting as provided in subsection F 2 below.

b. The Executive Committee shall give seven (7) days' notice of its meetings, posted on its website and as determined to provide notice to persons with an interest in the business of the Commission.

c. The Executive Committee may hold a special meeting in accordance with subsection F.1.b. below.

E. The Commission shall adopt and provide to the Member States an annual report.

F. Meetings of the Commission:

1. All meetings shall be open to the public, except that the Commission may meet in a closed, non-public meeting as provided in subsection F 2 below.

a. Public notice for all meetings of the full Commission of meetings shall be given in the same manner as required under the Rulemaking provisions in Section 12, except that the Commission may hold a special meeting as provided in subsection F 1 b below.

b. The Commission may hold a special meeting when it must meet to conduct emergency business by giving 48 hours' notice to all commissioners, on the Commission's website, and other means as provided in the Commission's Rules. The Commission's legal counsel shall certify that the Commission's need to meet qualifies as an emergency.

2. The Commission or the Executive Committee or other committees of the Commission may convene in a closed, non-public meeting for the Commission or Executive Committee or other committees of the Commission to receive legal advice or to discuss:

a. Non-compliance of a Member State with its obligations under the Compact;

b. The employment, compensation, discipline, or other matters, practices, or procedures related to specific employees;

c. Current or threatened discipline of a Licensee by the Commission or by a Member State's Licensing Authority;

i. Investigative records compiled for law enforcement purposes;

j. Information related to any investigative reports prepared by or on behalf of or for use of the Commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the Compact;

k. Matters specifically exempted from disclosure by federal or Member State law; or

l. Other matters as promulgated by the Commission by Rule.

3. If a meeting, or portion of a meeting, is closed, the presiding officer shall state that the meeting will be closed and reference each relevant exempting provision, and such reference shall be recorded in the minutes.

4. The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release only by a majority vote of the Commission or order of a court of competent jurisdiction.

G. Financing of the Commission:

1. The Commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

2. The Commission may accept any and all appropriate revenue sources as provided in subsection C 13.

3. The Commission may levy on and collect an annual assessment from each Member State and impose fees on Licensees of Member States to whom it grants a Multistate License to cover the cost of the operations and activities of the Commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount for Member States shall be allocated based upon a formula that the Commission shall promulgate by Rule.

4. The Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Commission pledge the credit of any of the Member States, except by and with the authority of the Member State.

5. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the financial review and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the Commission.

H. Qualified Immunity, Defense, and Indemnification:

1. The members, officers, executive director, employees, and representatives of the Commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the Commission shall not in any way compromise or limit the immunity granted hereunder.

2. The Commission shall defend any member, officer, executive director, employee, and representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or as determined by the Commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

3. The Commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the Commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

4. Nothing herein shall be construed as a limitation on the liability of any Licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable State laws.

5. Nothing in this Compact shall be interpreted to waive or otherwise abrogate a Member State's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other State or federal antitrust or anticompetitive law or regulation.

6. Nothing in this Compact shall be construed to be a waiver of sovereign immunity by the Member States or by the Commission.

Section 11.
Data System.

A. The Commission shall provide for the development, maintenance, operation, and utilization of a coordinated Data System.

B. The Commission shall assign each applicant for a Multistate License a unique identifier, as determined by the Rules of the Commission.

C. Notwithstanding any other provision of State law to the contrary, a Member State shall submit a uniform data set to the Data System on all individuals to whom this Compact is applicable as required by the Rules of the Commission, including:

1. Identifying information;

2. Licensure data;

3. Adverse Actions against a license and information related thereto;

4. Non-confidential information related to Alternative Program participation, the beginning and ending dates of such participation, and other information related to such participation not made confidential under Member State law;

5. Any denial of application for licensure, and the reason(s) for such denial;

6. The presence of Current Significant Investigative Information; and

7. Other information that may facilitate the administration of this Compact or the protection of the public, as determined by the Rules of the Commission.

D. The records and information provided to a Member State pursuant to this Compact or through the Data System, when certified by the Commission or an agent thereof, shall constitute the authenticated business records of the Commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial or administrative proceedings in a Member State.

E. Current Significant Investigative Information pertaining to a Licensee in any Member State will only be available to other Member States.

It is the responsibility of the Member States to report any Adverse Action against a Licensee and to monitor the database to determine whether Adverse Action has been taken against a Licensee. Adverse Action information pertaining to a Licensee in any Member State will be available to any other Member State.

F. Member States contributing information to the Data System may designate information that may not be shared with the public without the express permission of the contributing State. Any information submitted to the Data System that is subsequently expunged pursuant to federal law or the laws of the Member State contributing the information shall be removed from the Data System.

Section 12.
Rulemaking.

A. The Commission shall promulgate reasonable Rules in order to effectively and efficiently implement and administer the purposes and provisions of the Compact. A Rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the Rule is invalid because the Commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the Compact, or the powers granted hereunder, or based upon another applicable standard of review.

B. The Rules of the Commission shall have the force of law in each Member State, provided however that where the Rules of the Commission conflict with the laws of the Member State that establish the Member State's laws, regulations, and applicable standards that govern the practice of Social Work as held by a court of competent jurisdiction, the Rules of the Commission shall be ineffective in that State to the extent of the conflict.

C. The Commission shall exercise its Rulemaking powers pursuant to the criteria set forth in this Section and the Rules adopted thereunder. Rules shall become binding on the day following adoption or the date specified in the rule or amendment, whichever is later.

D. If a majority of the legislatures of the Member States rejects a Rule or portion of a Rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within four (4) years of the date of adoption of the Rule, then such Rule shall have no further force and effect in any Member State.

E. Rules shall be adopted at a regular or special meeting of the Commission.

F. Prior to adoption of a proposed Rule, the Commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

G. Prior to adoption of a proposed Rule by the Commission, and at least thirty (30) days in advance of the meeting at which the Commission will hold a public hearing on the proposed Rule, the Commission shall provide a Notice of Proposed Rulemaking:

1. On the website of the Commission or other publicly accessible platform;

2. To persons who have requested notice of the Commission's notices of proposed rulemaking; and

3. In such other way(s) as the Commission may by Rule specify.

H. The Notice of Proposed Rulemaking shall include:

1. The time, date, and location of the public hearing at which the Commission will hear public comments on the proposed Rule and, if different, the time, date, and location of the meeting where the Commission will consider and vote on the proposed Rule;

2. If the hearing is held via telecommunication, video conference, or other electronic means, the Commission shall include the mechanism for access to the hearing in the Notice of Proposed Rulemaking;

3. The text of the proposed Rule and the reason therefor;

4. A request for comments on the proposed Rule from any interested person; and

5. The manner in which interested persons may submit written comments.

I. All hearings will be recorded. A copy of the recording and all written comments and documents received by the Commission in response to the proposed Rule shall be available to the public.

J. Nothing in this Section shall be construed as requiring a separate hearing on each Rule. Rules may be grouped for the convenience of the Commission at hearings required by this Section.

K. The Commission shall, by majority vote of all members, take final action on the proposed Rule based on the Rulemaking record and the full text of the Rule.

1. The Commission may adopt changes to the proposed Rule provided the changes do not enlarge the original purpose of the proposed Rule.

2. The Commission shall provide an explanation of the reasons for substantive changes made to the proposed Rule as well as reasons for substantive changes not made that were recommended by commenters.

3. The Commission shall determine a reasonable effective date for the Rule. Except for an emergency as provided in Section 12 L, the effective date of the Rule shall be no sooner than 30 days after issuing the notice that it adopted or amended the Rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency Rule with 48 hours' notice, with opportunity to comment, provided that the usual Rulemaking procedures provided in the Compact and in this Section shall be retroactively applied to the Rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the Rule. For the purposes of this provision, an emergency Rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or Member State funds;

3. Meet a deadline for the promulgation of a Rule that is established by federal law or rule; or

4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted Rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a Rule. A challenge shall be made in writing and delivered to the Commission prior to the

end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

N. No Member State's rulemaking requirements shall apply under this compact.

Section 13.

Oversight, Dispute Resolution, and Enforcement.

A. Oversight:

1. The executive and judicial branches of State government in each Member State shall enforce this Compact and take all actions necessary and appropriate to implement the Compact.

2. Except as otherwise provided in this Compact, venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a Licensee for professional malpractice, misconduct, or any such similar matter.

3. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the Compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the Commission service of process shall render a judgment or order void as to the Commission, this Compact, or promulgated Rules.

B. Default, Technical Assistance, and Termination:

1. If the Commission determines that a Member State has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated Rules, the Commission shall provide written notice to the defaulting State. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the Commission may take, and shall offer training and specific technical assistance regarding the default.

2. The Commission shall provide a copy of the notice of default to the other Member States.

C. If a State in default fails to cure the default, the defaulting State may be terminated from the Compact upon an affirmative vote of a majority of the delegates of the Member States, and all rights, privileges, and benefits conferred on that State by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending State of obligations or liabilities incurred during the period of default.

D. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting State's legislature, the defaulting State's State Licensing Authority and each of the Member States' State Licensing Authority.

E. A State that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

F. Upon the termination of a State's membership from this Compact, that State shall immediately provide notice to all Licensees within that State of such termination. The terminated State shall continue to recognize all licenses granted pursuant to this Compact for a minimum of six (6) months after the date of said notice of termination.

G. The Commission shall not bear any costs related to a State that is found to be in default or that has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting State.

H. The defaulting State may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

I. Dispute Resolution:

1. Upon request by a Member State, the Commission shall attempt to resolve disputes related to the Compact that arise among Member States and between Member and non-Member States.

2. The Commission shall promulgate a Rule providing for both mediation and binding dispute resolution for disputes as appropriate.

J. Enforcement:

1. By majority vote as provided by Rule, the Commission may initiate legal action against a Member State in default in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or the defaulting Member State's law.

2. A Member State may initiate legal action against the Commission in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

3. No person other than a Member State shall enforce this compact against the Commission.

Section 14.

Effective Date, Withdrawal, and Amendment.

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the seventh Member State.

1. On or after the effective date of the Compact, the Commission shall convene and review the enactment of each of the first seven Member States ("Charter Member States") to determine if the statute enacted by each such Charter Member State is materially different than the model Compact statute.

a. A Charter Member State whose enactment is found to be materially different from the model Compact statute shall be entitled to the default process set forth in Section 13.

b. If any Member State is later found to be in default, or is terminated or withdraws from the Compact, the Commission shall remain in existence and the Compact shall remain in effect even if the number of Member States should be less than seven.

2. Member States enacting the Compact subsequent to the seven initial Charter Member States shall be subject to the process set forth in Section 10 C 21 to determine if their enactments are materially different from the model Compact statute and whether they qualify for participation in the Compact.

3. All actions taken for the benefit of the Commission or in furtherance of the purposes of the administration of the Compact prior to the effective date of the Compact or the Commission coming into existence shall be considered to be actions of the Commission unless specifically repudiated by the Commission.

4. Any State that joins the Compact subsequent to the Commission's initial adoption of the Rules and bylaws shall be subject to the Rules and bylaws as they exist on the date on which the Compact becomes law in that State. Any Rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that State.

B. Any Member State may withdraw from this Compact by enacting a statute repealing the same.

1. A Member State's withdrawal shall not take effect until 180 days after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing State's Licensing Authority to comply with the investigative and Adverse Action reporting requirements of this Compact prior to the effective date of withdrawal.

3. Upon the enactment of a statute withdrawing from this compact, a State shall immediately provide notice of such withdrawal to all Licensees within that State. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing State shall continue to recognize all licenses granted pursuant to this compact for a minimum of 180 days after the date of such notice of withdrawal.

C. Nothing contained in this Compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a Member State and a non-Member State that does not conflict with the provisions of this Compact.

D. This Compact may be amended by the Member States. No amendment to this Compact shall become effective and binding upon any Member State until it is enacted into the laws of all Member States.

Section 15.

Construction and Severability.

A. This Compact and the Commission's rulemaking authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration of the Compact. Provisions of the Compact expressly authorizing or requiring the promulgation of Rules shall not be construed to limit the Commission's rulemaking authority solely for those purposes.

B. The provisions of this Compact shall be severable and if any phrase, clause, sentence, or provision of this Compact is held by a court of competent jurisdiction to be contrary to the constitution of any Member State, a State seeking participation in the Compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this Compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

C. Notwithstanding subsection B of this Section, the Commission may deny a State's participation in the Compact or, in accordance with the requirements of Section 13.B, terminate a Member State's participation in the Compact, if it determines that a constitutional requirement of a Member State is a material departure from the Compact. Otherwise, if this Compact shall be held to be contrary to the constitution of any Member State, the Compact shall remain in full force and effect as to the remaining Member States and in full force and effect as to the Member State affected as to all severable matters.

Section 16.

Consistent Effect and Conflict with Other State Laws.

A. A Licensee providing services in a Remote State under a Multistate Authorization to Practice shall adhere to the laws and regulations, including laws, regulations, and applicable standards, of the Remote State where the client is located at the time care is rendered.

B. Nothing herein shall prevent or inhibit the enforcement of any other law of a Member State that is not inconsistent with the Compact.

C. Any laws, statutes, regulations, or other legal requirements in a Member State in conflict with the Compact are superseded to the extent of the conflict.

D. All permissible agreements between the Commission and the Member States are binding in accordance with their terms.

2. That applicants for a Multistate License shall pay for the cost of fingerprinting required by the Social Work Licensure Compact, as entered into by this act.

CHAPTER 691

An Act to amend and reenact § 15.2-961.1 of the Code of Virginia, relating to conservation of trees during land development process in certain localities.

[H 459]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-961.1 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-961.1. Conservation of trees during land development process in localities belonging to a nonattainment area for air quality standards.

A. For purposes of this section, "tree canopy" or "tree cover" includes all areas of canopy coverage by self-supporting and healthy woody plant material exceeding five feet in height, and the extent of planted tree canopy at 20-years maturity.

B. Any locality within Planning District 8 that meets the population density criteria of subsection A of § 15.2-961 and is classified as an eight-hour nonattainment area for ozone under the federal Clean Air Act and Amendments of 1990, in effect as of July 1, 2008, may adopt an ordinance providing for the conservation of trees during the land development process pursuant to the provisions of this section. In no event shall any local tree conservation ordinance adopted pursuant to this section also impose the tree replacement provisions of § 15.2-961.

C. The ordinance shall require that the site plan for any subdivision or development provide for the preservation or replacement of trees on the development site such that the minimum tree canopy or tree cover percentage 20 years after development is projected to be as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;

2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;

3. Fifteen percent tree canopy for a residential site zoned more than eight but less than 20 units per acre;

4. Twenty percent tree canopy for a residential site zoned more than four but not more than eight units per acre;

5. Twenty-five percent tree canopy for a residential site zoned more than two but not more than four units per acre; and

6. Thirty percent tree canopy for a residential site zoned two or fewer units per acre.

In meeting these percentages, (i) the ordinance shall first emphasize the preservation of existing tree canopy where that canopy meets local standards for health and structural condition, and where it is feasible to do so within the framework of design standards and densities allowed by the local zoning and other development ordinances; and (ii) second, where it is not feasible in whole or in part for any of the justifications listed in subsection E to preserve existing canopy in the required percentages listed above, the ordinance shall provide for the planting of new trees to meet the required percentages.

D. Except as provided in subsection E, the percentage of the site covered by tree canopy at the time of plan submission shall equate to the minimum portion of the requirements identified in subsection C that shall be provided through tree preservation. This portion of the canopy requirements shall be identified as the "tree preservation target" and shall be included in site plan calculations or narratives demonstrating how the overall requirements of subsection C have been met.

E. The ordinance shall provide deviations, in whole or in part, from the tree preservation target defined in subsection D under the following conditions:

1. Meeting the preservation target would prevent the development of uses and densities otherwise allowed by the locality's zoning or development ordinance.

2. The predevelopment condition of vegetation does not meet the locality's standards for health and structural condition.

3. Construction activities could be reasonably expected to impact existing trees to the extent that they would not likely survive in a healthy and structurally sound manner. This includes activities that would cause direct physical damage to the trees, including root systems, or cause environmental changes that could result in or predispose the trees to structural and health problems.

If, in the opinion of the developer, the project cannot meet the tree preservation target due to the conditions described in subdivision 1, 2, or 3, the developer may request a deviation from the preservation requirement in subsection D. In the request for deviation, the developer shall provide a letter to the locality that provides justification for the deviation, describes how the deviation is the minimum necessary to afford relief, and describes how the requirements of subsection C will be met through tree planting or a tree canopy bank or fund established by the locality. Proposed deviations shall be reviewed by the locality's urban forester, arborist, or equivalent in consultation with the locality's land development or licensed professional civil engineering review staff. The locality may propose an alternative site design based upon adopted land development practices and sound vegetation management practices that take into account the relationship between the cost of conservation and the benefits of the trees to be preserved as described in ANSI A300 (Part 5) — 2005 Management: Tree, Shrub, and Other Woody Plant Maintenance — Standard Practices, Management of Trees and Shrubs During Site Planning, Site Development, and Construction, Annex A, A-1.5, Cost Benefits Analysis (or the latest version of this standard). The developer shall consider the alternative and redesign the plan accordingly, or elect to satisfy the unmet

portion of the preservation threshold through on-site tree planting or through the off-site planting mechanisms identified in subsection G, so long as the developer provides the locality with an explanation of why the alternative design recommendations were rejected. Letters of explanation from the developer shall be prepared and certified by a licensed professional engineer as defined in § 54.1-400. If arboricultural issues are part of explanation then the letter shall be signed by a Certified Arborist who has taken and passed the certification examination sponsored by the International Society of Arboriculture and who maintains a valid certification status or by a Registered Consulting Arborist as designated by the American Society of Consulting Arborists. If arboricultural issues are the sole subject of the letter of explanation then certification by a licensed professional engineer shall not be required.

F. The ordinance shall provide for deviations of the overall canopy requirements set forth in subsection C to allow for the preservation of wetlands, the development of farm land or other areas previously devoid of healthy and/or suitable tree canopy, or where the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer.

G. The ordinance shall provide for the establishment of a tree canopy bank or fund whereby any portion of the tree canopy requirement that cannot be met on-site may be met through off-site tree preservation or tree planting efforts. Such provisions may be offered where it can be demonstrated that application of the requirements of subsection C would cause irresolvable conflicts with other local site development requirements, standards, or comprehensive planning goals, where sites or portions of sites lack sufficient space for future tree growth, where planting spaces will not provide adequate space for healthy root development, where trees will cause unavoidable conflicts with underground or overhead utilities, or where it can be demonstrated that trees are likely to cause damage to public infrastructure. The ordinance may utilize any of the following off-site canopy establishment mechanisms:

1. A tree canopy bank may be established in order for the locality to facilitate off-site tree preservation, tree planting, stream bank, and riparian restoration projects. Banking efforts shall provide tree canopy that is preserved in perpetuity through conservation easements, deed restrictions, or similar protective mechanisms acceptable to the locality. Projects used in off-site banking will meet the same ordinance standards established for on-site tree canopy; however, the locality may also require the submission of five-year management plans and funds to ensure the execution of maintenance and management obligations identified in those plans. Any such bank shall occur within the same nonattainment area in which the locality approving the tree banking is situated.

2. A tree canopy fund may be established to act as a fiscal mechanism to collect, manage, and disburse fees collected from developers that cannot provide full canopy requirements on-site. The locality may use this fund directly to plant *and maintain* trees on public *or private* property, or the locality may elect to disburse this fund to community-based organizations exempt from taxation under § 501(c)(3) of the Internal Revenue Code with tree planting*, stewardship,* or community beautification missions ~~for tree planting programs~~ that benefit the community at large. For purposes of establishing consistent and predictable fees, the ordinance shall establish cost units that are based on average costs ~~to establish 20-year canopy areas using~~ *of* two-inch caliper nursery stock trees. Any funds collected by localities for these purposes shall be spent within a five-year period established by the collection date~~, or the locality shall return such funds to the original contributor, or legal successor~~.

H. The following uses shall be exempt from the requirements of any ordinance promulgated under this section: bona fide silvicultural activity as defined by § 10.1-1181.1 and the areas of sites included in lakes, ponds, and the normal water elevation area of stormwater retention facilities. The ordinance shall modify the canopy requirements of dedicated school sites, playing fields, and other nonwooded active recreation areas by allowing these and other facilities and uses of a similar nature to provide 10 percent tree canopy 20 years after development.

I. 1. In recognition of the added benefits of tree preservation, the ordinance shall provide for an additional tree canopy credit of up to one and one-quarter times the canopy area at the time of plan submission for individual trees or the coalesced canopy of forested areas preserved from the predevelopment tree canopy.

2. The following additional credits may be provided in the ordinance in connection with tree preservation:

a. The ordinance may provide canopy credits of up to *(i)* one and one-half times the actual canopy area for the preservation of forest communities that achieve environmental, ecological, and wildlife conservation objectives set by the locality *and (ii) two times the actual canopy credits if a site developer provides a stand assessment before development plans are created, for review by the local jurisdiction, and protects identified trees for conservation on the submitted site plans*. The ordinance may establish minimal area, dimensional and viability standards as prerequisites for the application of credits. Forest communities shall be identified using the nomenclature of either the federal National Vegetation Classification System (FGDC-STD-005, or latest version) or the Natural Communities of Virginia Classification of Ecological Community Groups, Second Approximation (Version 2.2, or latest version).

b. The ordinance may provide canopy credits of up to three times the actual canopy area of trees that are officially designated for preservation in conjunction with local tree conservation ordinances based on the authority granted by § 10.1-1127.1.

J. The following additional credits shall be provided in the ordinance in connection with tree planting:

1. The ordinance shall provide canopy credits of one and one-half the area normally projected for trees planted to absorb or intercept air pollutants, tree species that produce lower levels of reactive volatile organic compounds, or trees that act to reduce air pollution or greenhouse gas emissions by conserving the energy used to cool and heat buildings.

2. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for trees planted for water quality-related reforestation or afforestation projects, and for trees planted in low-impact development and bioretention water quality facilities. The low-impact development practices and designs shall conform to local standards in order for these supplemental credits to apply.

3. The ordinance shall provide canopy credits of one and one-half the area normally projected for native tree species planted to provide food, nesting, habitat, and migration opportunities for wildlife. These canopy credits may also apply to cultivars of native species if the locality determines that such a cultivar is capable of providing the same type and extent of wildlife benefit as the species it is derived from.

4. The ordinance shall provide canopy credits of one and one-half the area normally projected for use of native tree species that are propagated from seed or tissue collected within the mid-Atlantic region.

5. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for the use of cultivars or varieties that develop desirable growth and structural patterns, resist decay organisms and the development of cavities, show high levels of resistance to disease or insect infestations, or exhibit high survival rates in harsh urban environments.

K. Tree preservation areas and individual trees may not receive more than one application of additional canopy credits provided in subsection I. Individual trees planted to meet these requirements may not receive more than two categories of additional canopy credits provided in subsection J. Canopy credits will only be given to trees with trunks that are fully located on the development site, or in the case of tree banking projects only to trees with trunks located fully within easements or other areas protected by deed restrictions listed in subsection G.

L. All trees planted for tree cover credits shall meet the specifications of the American Association of Nurserymen and shall be planted in accordance with the publication entitled "Tree and Shrub Planting Guidelines," published by the Virginia Cooperative Extension.

M. In order to provide higher levels of biodiversity and to minimize the spread of pests and diseases, or to limit the use of species that cause negative impacts to native plant communities, cause damage to nearby structures, or possess inherent physiological traits that prone trees to structural failure, the ordinance may designate species that cannot be used to meet tree canopy requirements or designate species that will only receive partial 20-year tree canopy credits.

N. The locality may allow the use of tree seedlings for meeting tree canopy requirements in large open spaces, low-density residential settings, or in low-impact development reforestation/afforestation projects. In these cases, the ordinance shall allow the ground surface area of seedling planting areas to equate to a 20-year canopy credit area. Tree seedling plantings will be comprised of native species and will be planted in densities that equate to 400 seedlings per acre, or in densities specified by low-impact development designs approved by the locality. The locality may set standards for seedling mortality rates and replacement procedures if unacceptable rates of mortality occur. The locality may elect to allow native woody shrubs or native woody seed mix to substitute for tree species as long as these treatments do not exceed 33 percent of the overall seedling planting area. The number of a single species may not exceed 10 percent of the overall number of trees or shrubs planted to meet the provisions of this subsection.

O. The following process shall be used to demonstrate achievement of the required percentage of tree canopy listed in subsection C:

1. The site plan shall graphically delineate the edges of predevelopment tree canopy, the proposed limits of disturbance on grading or erosion and sedimentation control plans, and the location of tree protective fencing or other tree protective devices allowed in the Virginia Erosion and Sediment Control Handbook.

2. Site plans proposing modification to tree canopy requirements or claiming supplemental tree canopy credits will require a text narrative.

3. The site plan shall include the 20-year tree canopy calculations on a worksheet provided by the locality.

4. Site plans requiring tree planting shall provide a planting schedule that provides botanical and common names of trees, the number of trees being planted, the total of tree canopy area given to each species, variety or cultivars planted, total of tree canopy area that will be provided by all trees, planting sizes, and associated planting specifications. The site plan will also provide a landscape plan that delineates where the trees shall be planted.

P. The ordinance shall provide a list of commercially available tree species, varieties, and cultivars that are capable of thriving in the locality's climate and ranges of planting environments. The ordinance will also provide a 20-year tree canopy area credit for each tree. The amount of tree canopy area credited to individual tree species, varieties, and cultivars 20 years after they are planted shall be based on references published or endorsed by Virginia academic institutions such as the Virginia Polytechnic Institute and State University and accepted by urban foresters, arborists, and horticulturalists as being accurate for the growing conditions and climate of the locality.

Q. The ordinance shall establish standards of health and structural condition of existing trees and associated plant communities to be preserved. The ordinance may also identify standards for removal of trees or portions of trees that are dead, dying, or hazardous due to construction impacts. Such removal standards may allow for the retention of trunk snags where the locality determines that these may provide habitat or other wildlife benefits and do not represent a hazardous condition. In the event that existing tree canopy proposed to be preserved for tree canopy credits dies or must be removed because it represents a hazard, the locality may require the developer to remove the tree, or a portion of the tree and to replace the missing canopy area by the planting of nursery stock trees, or if a viable alternative, by tree seedlings. Existing

trees that have been granted credits will be replaced with canopy area determined using the same supplemental credit multipliers as originally granted for that canopy area.

R. Penalties for violation of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

S. In no event shall any local tree conservation ordinance adopted pursuant to this section exceed the requirements set forth herein; however, any local ordinance adopted pursuant to the provisions of § 15.2-961 prior to July 1, 1990, may adopt the tree conservation provisions of this section based on 10-year minimum tree canopy requirements.

T. Nothing in this section shall invalidate any local ordinance adopted pursuant to § 15.2-961.

U. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

[H 617]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 1 of Chapter 13 of Title 22.1 a section numbered 22.1-212.2:4 as follows:

§ 22.1-212.2:4. Interscholastic athletics; student-athletes; compensation and representation for name, image, or likeness.

"Attorney" means an attorney licensed to practice law in the Commonwealth.

"Compensation" means any type of remuneration or anything of value. "Compensation" does not include any (i) scholarship provided to a student-athlete that covers some or all of the cost of attendance at a high school at which the student-athlete is enrolled or (ii) benefit a student-athlete may receive in accordance with the rules of the relevant athletic association or conference.

"High school" means any public or private high school in the Commonwealth.

"Student-athlete" means an individual enrolled at a high school who participates in interscholastic athletics.

2. Prohibit or prevent a student-athlete from obtaining professional representation by an athlete agent or legal representation by an attorney in connection with issues related to name, image, or likeness; or

3. Declare a student-athlete ineligible for interscholastic athletic competition because he earns compensation for the use of his name, image, or likeness or obtains professional representation by an athlete agent or legal representation by an attorney in connection with issues related to name, image, or likeness.

C. No athletic association, athletic conference, or other organization with authority over interscholastic athletics shall prohibit or prevent a high school from becoming a member of the association, conference, or organization or participating in interscholastic athletics sponsored by such association, conference, or organization as a consequence of any student-athlete earning compensation for the use of his name, image, or likeness or obtaining representation by an athlete agent or attorney in connection with issues related to name, image, or likeness.

CHAPTER 695

An Act to amend and reenact §§ 16.1-338 and 16.1-339 of the Code of Virginia, relating to parental admission of minors for inpatient treatment.

[H 772]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-338 and 16.1-339 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-338. Parental admission of minors younger than 14 and nonobjecting minors 14 years of age or older.

A. A minor younger than 14 years of age may be admitted to a willing mental health facility for inpatient treatment *related to mental illness, which may include substance abuse as described in § 16.1-336,* upon application and with the consent of a parent. A minor 14 years of age or older may be admitted to a willing mental health facility for inpatient treatment *related to mental illness, which may include substance abuse as described in § 16.1-336,* upon the joint application and consent of the minor and the minor's parent.

B. Admission of a minor under this section shall be approved by a qualified evaluator who has conducted a personal examination of the minor within 48 hours after admission and has made the following written findings:

1. The minor appears to have a mental illness*, which may include substance abuse as described in § 16.1-336,* serious enough to warrant inpatient treatment and is reasonably likely to benefit from the treatment; and

2. The minor has been provided with a clinically appropriate explanation of the nature and purpose of the treatment; and

3. If the minor is 14 years of age or older, that he has been provided with an explanation of his rights under this Act as they would apply if he were to object to admission, and that he has consented to admission; and

4. All available modalities of treatment less restrictive than inpatient treatment have been considered and no less restrictive alternative is available that would offer comparable benefits to the minor.

If admission is sought to a state hospital, the community services board serving the area in which the minor resides shall provide, in lieu of the examination required by this section, a preadmission screening report conducted by an employee or designee of the community services board and shall ensure that the necessary written findings have been made before approving the admission. A copy of the written findings of the evaluation or preadmission screening report required by this section shall be provided to the consenting parent and the parent shall have the opportunity to discuss the findings with the qualified evaluator or employee or designee of the community services board.

C. Within 10 days after the admission of a minor under this section, the director of the facility or the director's designee shall ensure that an individualized plan of treatment has been prepared by the provider responsible for the minor's treatment and has been explained to the parent consenting to the admission and to the minor. The minor shall be involved in the preparation of the plan to the maximum feasible extent consistent with his ability to understand and participate, and the minor's family shall be involved to the maximum extent consistent with the minor's treatment needs. The plan shall include a preliminary plan for placement and aftercare upon completion of inpatient treatment and shall include specific behavioral and emotional goals against which the success of treatment may be measured. A copy of the plan shall be provided to the minor and to his parents.

D. If the parent who consented to a minor's admission under this section revokes his consent at any time, or if a minor 14 or older objects at any time to further treatment, the minor shall be discharged within 48 hours to the custody of such consenting parent unless the minor's continued hospitalization is authorized pursuant to § 16.1-339, 16.1-340.1, or 16.1-345. If the 48-hour time period expires on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the 48 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed. If a minor 14 or older objects to further treatment, the mental health facility shall (i) immediately notify the consenting parent of the minor's objections and (ii) provide to the consenting parent a summary, prepared by the Office of the Attorney General, of the procedures for requesting continued treatment of the minor pursuant to § 16.1-339, 16.1-340.1, or 16.1-345.

E. Inpatient treatment of a minor hospitalized under this section may not exceed 90 consecutive days unless it has been authorized by appropriate hospital medical personnel, based upon their written findings that the criteria set forth in subsection B of this section continue to be met, after such persons have examined the minor and interviewed the consenting parent and reviewed reports submitted by members of the facility staff familiar with the minor's condition.

F. Any minor admitted under this section while younger than 14 and his consenting parent shall be informed orally and in writing by the director of the facility for inpatient treatment within 10 days of his fourteenth birthday that continued voluntary treatment under the authority of this section requires his consent.

G. Any minor 14 years of age or older who joins in an application and consents to admission pursuant to subsection A, shall, in addition to his parent, have the right to access his health information. The concurrent authorization of both the parent and the minor shall be required to disclose such minor's health information.

H. A minor who has been hospitalized while properly detained by a juvenile and domestic relations district court or circuit court shall be returned to the detention home, shelter care, or other facility approved by the Department of Juvenile Justice by the sheriff serving the jurisdiction where the minor was detained within 24 hours following completion of a period of inpatient treatment, unless the court having jurisdiction over the case orders that the minor be released from custody.

§ 16.1-339. Parental admission of an objecting minor 14 years of age or older.

A. A minor 14 years of age or older who (i) objects to admission or (ii) is incapable of making an informed decision may be admitted to a willing facility for up to 120 hours, pending the review required by subsections B and C, upon the application of a parent. If admission is sought to a state hospital, the community services board serving the area in which the minor resides shall provide the preadmission screening report required by subsection B of § 16.1-338 and shall ensure that the necessary written findings, except the minor's consent, have been made before approving the admission. *A temporary detention order under § 16.1-340.1 shall not be required for a minor to be admitted to a willing facility upon the application of a parent pursuant to this section.*

B. A minor admitted under this section shall be examined within 24 hours of his admission by a qualified evaluator designated by the community services board serving the area where the facility is located. If the 24-hour time period expires on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the 24 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. The evaluator shall prepare a report that shall include written findings as to whether:

1. The minor appears to have a mental illness*, which may include substance abuse as described in § 16.1-336*, serious enough to warrant inpatient treatment and is reasonably likely to benefit from the treatment;

2. The minor has been provided with a clinically appropriate explanation of the nature and purpose of the treatment; and

3. All available modalities of treatment less restrictive than inpatient treatment have been considered and no less restrictive alternative is available that would offer comparable benefits to the minor.

The qualified evaluator shall submit his report to the juvenile and domestic relations district court for the jurisdiction in which the facility is located.

C. Upon admission of a minor under this section, the facility shall file a petition for judicial approval no sooner than 24 hours and no later than 120 hours after admission with the juvenile and domestic relations district court for the jurisdiction in which the facility is located. To the extent available, the petition shall contain the information required by § 16.1-339.1. A copy of this petition shall be delivered to the minor's consenting parent. Upon receipt of the petition and of the evaluator's report submitted pursuant to subsection B, the judge shall appoint a guardian ad litem for the minor and counsel to represent the minor, unless it has been determined that the minor has retained counsel. A copy of the evaluator's report shall be provided to the minor's counsel and guardian ad litem. The court and the guardian ad litem shall review the petition and evaluator's report and shall ascertain the views of the minor, the minor's consenting parent, the evaluator, and the attending psychiatrist. The court shall conduct its review in such place and manner, including the facility, as it deems to be in the best interests of the minor. Based upon its review and the recommendations of the guardian ad litem, the court shall order one of the following dispositions:

1. If the court finds that the minor does not meet the criteria for admission specified in subsection B, the court shall issue an order directing the facility to release the minor into the custody of the parent who consented to the minor's admission. However, nothing herein shall be deemed to affect the terms and provisions of any valid court order of custody affecting the minor.

2. If the court finds that the minor meets the criteria for admission specified in subsection B, the court shall issue an order authorizing continued hospitalization of the minor for up to 90 days on the basis of the parent's consent.

Within 10 days after the admission of a minor under this section, the director of the facility or the director's designee shall ensure that an individualized plan of treatment has been prepared by the provider responsible for the minor's treatment and has been explained to the parent consenting to the admission and to the minor. A copy of the plan shall also be provided to the guardian ad litem and to counsel for the minor. The minor shall be involved in the preparation of the plan to the maximum feasible extent consistent with his ability to understand and participate, and the minor's family shall be involved to the maximum extent consistent with the minor's treatment needs. The plan shall include a preliminary plan for placement and aftercare upon completion of inpatient treatment and shall include specific behavioral and emotional goals against which the success of treatment may be measured.

3. If the court determines that the available information is insufficient to permit an informed determination regarding whether the minor meets the criteria specified in subsection B, the court shall schedule a commitment hearing that shall be conducted in accordance with the procedures specified in §§ 16.1-341 through 16.1-345. The minor may be detained in the hospital for up to 120 additional hours pending the holding of the commitment hearing.

D. A minor admitted under this section who rescinds his objection may be retained in the hospital pursuant to § 16.1-338.

E. If the parent who consented to a minor's admission under this section revokes his consent at any time, the minor shall be released within 48 hours to the parent's custody unless the minor's continued hospitalization is authorized pursuant to § 16.1-340.1 or 16.1-345. If the 48-hour time period expires on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the 48 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

F. A minor who has been hospitalized while properly detained by a juvenile and domestic relations district court or circuit court shall be returned to the detention home, shelter care, or other facility approved by the Department of Juvenile Justice by the sheriff serving the jurisdiction where the minor was detained within 24 hours following completion of a period of inpatient treatment, unless the court having jurisdiction over the case orders that the minor be released from custody.

CHAPTER 696

An Act to amend and reenact §§ 37.2-809, 37.2-809.1, 37.2-815, 37.2-816, and 37.2-817 of the Code of Virginia, relating to civil commitments and temporary detention orders; definition of mental illness; neurocognitive disorders and neurodevelopmental disabilities; Secretary of Health and Human Resources to evaluate placements for certain individuals; report.

[H 888]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-809, 37.2-809.1, 37.2-815, 37.2-816, and 37.2-817 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

"Employee" means an employee of the local community services board who is skilled in the assessment and treatment of mental illness and has completed a certification program approved by the Department.

"Investment interest" means the ownership or holding of an equity or debt security, including shares of stock in a corporation, interests or units of a partnership, bonds, debentures, notes, or other equity or debt instruments.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician, clinical psychologist, clinical social worker, or licensed professional counselor treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) is in need of hospitalization or treatment; and (iii) is unwilling to volunteer or incapable of volunteering for

hospitalization or treatment. *Behaviors or symptoms that manifest from a neurocognitive disorder, including dementia, or a neurodevelopmental disability, including a developmental disability or intellectual disability, such as autism spectrum disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association are not sufficient, in themselves, to justify a finding of mental illness within the meaning of this section.* The magistrate shall also consider, if available, (a) information provided by the person who initiated emergency custody and (b) the recommendations of any treating or examining physician licensed in Virginia either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician, psychologist, clinical social worker, or licensed professional counselor licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention in accordance with the provisions of § 37.2-809.1 for all persons detained pursuant to this section. An employee or designee of the local community services board may change the facility of temporary detention and may designate an alternative facility for temporary detention at any point during the period of temporary detention if it is determined that the alternative facility is a more appropriate facility for temporary detention of the person given the specific security, medical, or behavioral health needs of the person. In cases in which the facility of temporary detention is changed following transfer of custody to an initial facility of temporary custody, transportation of the person to the alternative facility of temporary detention shall be provided in accordance with the provisions of § 37.2-810. The initial facility of temporary detention shall be identified on the preadmission screening report and indicated on the temporary detention order; however, if an employee or designee of the local community services board designates an alternative facility, that employee or designee shall provide written notice forthwith, on a form developed by the Executive Secretary of the Supreme Court of Virginia, to the clerk of the issuing court of the name and address of the alternative facility. Subject to the provisions of § 37.2-809.1, if a facility of temporary detention cannot be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808, the person shall be detained in a state facility for the treatment of persons with mental illness and such facility shall be indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6 or in subsection C of § 37.2-813 for persons prior to transfer to the facility of temporary detention, the person shall remain in the custody of law enforcement until either (i) the person is detained within a secure facility or (ii) custody has been accepted by the appropriate personnel designated by either the initial facility of temporary detention identified in the temporary detention order or by the alternative facility of temporary detention designated by the employee or designee of the local community services board pursuant to this subsection. The person detained or in custody pursuant to this section shall be given a written summary of the temporary detention procedures and the statutory protections associated with those procedures.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed 72 hours prior to a hearing. If the 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or,

if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or, if the individual has been admitted to a facility of temporary detention, day or part of a day on which the clerk's office is lawfully closed. The person may be released, pursuant to § 37.2-813, before the 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. Each community services board shall provide to each general district court and magistrate's office within its service area a list of its employees and designees who are available to perform the evaluations required herein.

K. For purposes of this section, a health care provider or designee of a local community services board or behavioral health authority shall not be required to encrypt any email containing information or medical records provided to a magistrate unless there is reason to believe that a third party will attempt to intercept the email.

L. If the employee or designee of the community services board who is conducting the evaluation pursuant to this section recommends that the person should not be subject to a temporary detention order, such employee or designee shall (i) inform the petitioner, the person who initiated emergency custody if such person is present, and an onsite treating physician of his recommendation; (ii) promptly inform such person who initiated emergency custody that the community services board will facilitate communication between the person and the magistrate if the person disagrees with recommendations of the employee or designee of the community services board who conducted the evaluation and the person who initiated emergency custody so requests; and (iii) upon prompt request made by the person who initiated emergency custody, arrange for such person who initiated emergency custody to communicate with the magistrate as soon as is practicable and prior to the expiration of the period of emergency custody. The magistrate shall consider any information provided by the person who initiated emergency custody and any recommendations of the treating or examining physician and the employee or designee of the community services board who conducted the evaluation and consider such information and recommendations in accordance with subsection B in making his determination to issue a temporary detention order. The person who is the subject of emergency custody shall remain in the custody of law enforcement or a designee of law enforcement and shall not be released from emergency custody until communication with the magistrate pursuant to this subsection has concluded and the magistrate has made a determination regarding issuance of a temporary detention order.

M. For purposes of this section, "person who initiated emergency custody" means any person who initiated the issuance of an emergency custody order pursuant to § 37.2-808 or a law-enforcement officer who takes a person into custody pursuant to subsection G of § 37.2-808.

N. In any case in which a person subject to an evaluation pursuant to this section is receiving services in a hospital emergency department, the treating physician or his designee and the employee or designee of the local community services board shall disclose to each other relevant information pertaining to the individual's treatment in the emergency department.

§ 37.2-809.1. Facility of temporary detention.

A. In each case in which an employee or designee of the local community services board as defined in § 37.2-809 is required to make an evaluation of an individual pursuant to subsection B, G, or H of § 37.2-808, an employee or designee of the local community services board shall, upon being notified of the need for such evaluation, contact the state facility for the area in which the community services board is located and notify the state facility that the individual will be transported to the facility upon issuance of a temporary detention order if no other facility of temporary detention can be identified by the time of the expiration of the period of emergency custody pursuant to § 37.2-808. Upon completion of the evaluation, the employee or designee of the local community services board shall convey to the state facility information about the individual necessary to allow the state facility to determine the services the individual will require upon admission.

B. If upon notification from the employee or designee of the local community services board a state facility has reason to believe that the individual's behaviors or symptoms are solely a manifestation of a neurocognitive disorder or neurodevelopmental disorder, the state facility may require that a licensed psychiatrist or other licensed mental health professional reevaluate the individual's eligibility for a temporary detention order under § 37.2-809 before the individual is admitted. If the licensed psychiatrist or other licensed mental health professional determines the individual's behaviors or symptoms are solely a manifestation of a neurocognitive or neurodevelopmental disorder, the state facility shall promptly authorize the release of the person held under a temporary detention order pursuant to § 37.2-809 and the employee or a designee of the local community services board shall provide a discharge plan.

~~B.~~ *C.* A state facility may, following the notice in accordance with subsection A, conduct a search for an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual, which may include

another state facility if the state facility notified in accordance with subsection A is unable to provide temporary detention and appropriate care for the individual. Under no circumstances*, other than those specified in this section,* shall a state facility fail or refuse to admit an individual who meets the criteria for temporary detention pursuant to § 37.2-809 unless an alternative facility that is able to provide temporary detention and appropriate care agrees to accept the individual for temporary detention and the individual shall not during the duration of the temporary detention order be released from custody except for purposes of transporting the individual to the state facility or alternative facility in accordance with the provisions of § 37.2-810. If an alternative facility is identified and agrees to accept the individual for temporary detention, the state facility shall notify the community services board, and an employee or designee of the community services board shall designate the alternative facility on the prescreening report.

~~C.~~ *D.* A state facility may conduct a search for an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual in accordance with subsection B if the individual is in the custody of an alternative transportation provider.

~~D.~~ *E.* The facility of temporary detention designated in accordance with this section shall be one that has been approved pursuant to regulations of the Board.

§ 37.2-815. Commitment hearing for involuntary admission; examination required.

A. Notwithstanding § 37.2-814, the district court judge or special justice shall require an examination of the person who is the subject of the hearing by a psychiatrist or a psychologist who is licensed in Virginia by the Board of Medicine or the Board of Psychology and is qualified in the diagnosis of mental illness or, if such a psychiatrist or psychologist is not available, a mental health professional who (i) is licensed in Virginia through the Department of Health Professions as a clinical social worker, professional counselor, marriage and family therapist, or psychiatric advanced practice registered nurse; (ii) is qualified in the assessment of mental illness; and (iii) has completed a certification program approved by the Department. The examiner chosen shall be able to provide an independent clinical evaluation of the person and recommendations for his placement, care, and treatment. The examiner shall (a) not be related by blood or marriage to the person, (b) not be responsible for treating the person, (c) have no financial interest in the admission or treatment of the person, (d) have no investment interest in the facility detaining or admitting the person under this chapter, and (e) except for employees of state hospitals, the U.S. Department of Veterans Affairs, and community service boards, not be employed by the facility. For purposes of this section, the term "investment interest" shall be as defined in § 37.2-809.

B. The examination conducted pursuant to this section shall be a comprehensive evaluation of the person conducted in-person or, if that is not practicable, by two-way electronic video and audio communication system as authorized in § 37.2-804.1. Translation or interpreter services shall be provided during the evaluation where necessary. The examination shall consist of (i) a clinical assessment that includes a mental status examination; determination of current use of psychotropic and other medications; a medical and psychiatric history; a substance use, abuse, or dependency determination; and a determination of the likelihood that, as a result of mental illness, the person will, in the near future, suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) a substance abuse screening, when indicated; (iii) a risk assessment that includes an evaluation of the likelihood that, as a result of mental illness, the person will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; (iv) an assessment of the person's capacity to consent to treatment, including his ability to maintain and communicate choice, understand relevant information, and comprehend the situation and its consequences; (v) a review of the temporary detention facility's records for the person, including the treating physician's evaluation, any collateral information, reports of any laboratory or toxicology tests conducted, and all admission forms and nurses' notes; (vi) a discussion of treatment preferences expressed by the person or contained in a document provided by the person in support of recovery; (vii) an assessment of whether the person meets the criteria for an order authorizing discharge to mandatory outpatient treatment following a period of inpatient treatment pursuant to subsection C of § 37.2-817.01; (viii) an assessment of alternatives to involuntary inpatient treatment; and (ix) recommendations for the placement, care, and treatment of the person.

C. All such examinations shall be conducted in private. The judge or special justice shall summons the examiner who shall certify that he has personally examined the person and state whether he has probable cause to believe that the person (i) has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (ii) requires involuntary inpatient treatment. *Behaviors or symptoms that manifest from a neurocognitive disorder, including dementia, or a neurodevelopmental disability, including a developmental disability or intellectual disability, such as autism spectrum disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association are not sufficient, in themselves, to justify a finding of mental illness within the meaning of this section.* The judge or special justice shall not render any decision on the petition until the examiner has presented his report. The examiner may report orally at the hearing, but he shall provide a written report of his examination prior to the hearing. The examiner's written certification may be accepted into evidence unless objected to by the person or his attorney, in which case the examiner shall attend in person or by electronic communication. When the examiner attends the hearing in person or by electronic communication, the examiner shall not be excluded from the hearing pursuant to an order of sequestration of witnesses.

§ 37.2-816. Commitment hearing for involuntary admission; preadmission screening report.

The district court judge or special justice shall require a preadmission screening report from the community services board that serves the county or city where the person resides or, if impractical, where the person is located. The report shall be admitted as evidence of the facts stated therein and shall state (i) whether the person has a mental illness and whether there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) whether the person is in need of involuntary inpatient treatment, (iii) whether there is no less restrictive alternative to inpatient treatment, and (iv) the recommendations for that person's placement, care, and treatment including, where appropriate, recommendations for mandatory outpatient treatment. The board shall provide the preadmission screening report to the court prior to the hearing, and the report shall be admitted into evidence and made part of the record of the case. In the case of a person who has been sentenced and committed to the Department of Corrections and who has been examined by a psychiatrist or clinical psychologist, the judge or special justice may proceed to adjudicate whether the person has mental illness and should be involuntarily admitted without requesting a preadmission screening report from the community services board. *Behaviors or symptoms that manifest from a neurocognitive disorder, including dementia, or a neurodevelopmental disability, including a developmental disability or intellectual disability, such as autism spectrum disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association are not sufficient, in themselves, to justify a finding of mental illness within the meaning of this section.*

§ 37.2-817. Involuntary admission.

A. The district court judge or special justice shall render a decision on the petition for involuntary admission after the appointed examiner has presented the report required by § 37.2-815, and after the community services board that serves the county or city where the person resides or, if impractical, where the person is located has presented a preadmission screening report with recommendations for that person's placement, care, and treatment pursuant to § 37.2-816. These reports, if not contested, may constitute sufficient evidence upon which the district court judge or special justice may base his decision. The examiner, if not physically present at the hearing, and the treating physician at the facility of temporary detention shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1.

B. Any employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Where a hearing is held outside of the service area of the community services board that prepared the preadmission screening report, and it is not practicable for a representative of the community services board that prepared the preadmission screening report to attend or participate in the hearing, arrangements shall be made by the community services board that prepared the preadmission screening report for an employee or designee of the community services board serving the area in which the hearing is held to attend or participate on behalf of the community services board that prepared the preadmission screening report. The employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report or attending or participating on behalf of the community services board that prepared the preadmission screening report shall not be excluded from the hearing pursuant to an order of sequestration of witnesses. The community services board that prepared the preadmission screening report shall remain responsible for the person subject to the hearing and, prior to the hearing, shall send the preadmission screening report through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means with documented acknowledgment of receipt to the community services board attending the hearing. Where a community services board attends the hearing on behalf of the community services board that prepared the preadmission screening report, the attending community services board shall inform the community services board that prepared the preadmission screening report of the disposition of the matter upon the conclusion of the hearing. In addition, the attending community services board shall transmit the disposition through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means with documented acknowledgment of receipt.

At least 12 hours prior to the hearing, the court shall provide to the community services board that prepared the preadmission screening report the time and location of the hearing. If the representative of the community services board that prepared the preadmission screening report will be present by telephonic means, the court shall provide the telephone number to the community services board. If a representative of a community services board will be attending the hearing on behalf of the community services board that prepared the preadmission screening report, the community services board that prepared the preadmission screening report shall promptly communicate the time and location of the hearing and, if the representative of the community services board attending on behalf of the community services board that prepared the preadmission screening report will be present by telephonic means, the telephone number to the attending community services board.

C. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, including whether the person recently has been found

unrestorably incompetent to stand trial after a hearing held pursuant to subsection E of § 19.2-169.1, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (b) all available less restrictive treatment alternatives to involuntary inpatient treatment that would offer an opportunity for the improvement of the person's condition have been investigated and determined to be inappropriate, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to a facility for a period of treatment not to exceed 30 days from the date of the court order. *Behaviors or symptoms that manifest from a neurocognitive disorder, including dementia, or a neurodevelopmental disability, including a developmental disability or intellectual disability, such as autism spectrum disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association are not sufficient, in themselves, to justify a finding of mental illness within the meaning of this section.* Such involuntary admission shall be to a facility designated by the community services board that serves the county or city in which the person was examined as provided in § 37.2-816. If the community services board does not designate a facility at the commitment hearing, the person shall be involuntarily admitted to a facility designated by the Commissioner. Upon the expiration of an order for involuntary admission, the person shall be released unless (A) he is involuntarily admitted by further petition and order of a court, which shall be for a period not to exceed 180 days from the date of the subsequent court order, (B) he makes application for treatment on a voluntary basis as provided for in § 37.2-805, or (C) he is ordered to mandatory outpatient treatment following a period of inpatient treatment pursuant to § 37.2-817.01.

2. That the Secretary of Health and Human Resources shall convene a work group of relevant stakeholders, including representatives from local community services boards, the Virginia Hospital and Healthcare Association, and the Office of the Executive Secretary of the Supreme Court of Virginia to (i) evaluate the current availability of placements for individuals with neurocognitive disorders and neurodevelopmental disabilities who would otherwise be placed in state psychiatric hospitals; (ii) identify and develop placements and services other than state psychiatric hospitals that would better support such individuals, especially individuals whose behaviors or symptoms are solely a manifestation of such disorders and disabilities, including through enhanced Medicaid reimbursements and a Medicaid waiver for individuals with neurocognitive disorders; (iii) specify any additional funding or statutory changes needed to prevent inappropriate placements of such individuals in state psychiatric hospitals; (iv) provide recommendations for training of magistrates and community services boards related to the implementation of this act; and (v) report the work group's findings and recommendations to the Chairmen of the House Committee on Appropriations, the Senate Committee on Finance and Appropriations, the House Committee on Health and Human Services, and the Senate Committee on Education and Health by November 1, 2024.

3. That the provisions of the first enactment of this act shall not become effective unless reenacted by the 2025 Session of the General Assembly.

In no event shall any local tree conservation ordinance adopted pursuant to this section also impose the tree replacement provisions of § 15.2-961.

C. The ordinance shall require that the site plan for any subdivision or development provide for the preservation or replacement of trees on the development site such that the minimum tree canopy or tree cover percentage 20 years after development is projected to be as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;

2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;

3. Fifteen percent tree canopy for a residential site zoned more than eight but less than 20 units per acre;

4. Twenty percent tree canopy for a residential site zoned more than four but not more than eight units per acre;

5. Twenty-five percent tree canopy for a residential site zoned more than two but not more than four units per acre; and

6. Thirty percent tree canopy for a residential site zoned two or fewer units per acre.

In meeting these percentages, (i) the ordinance shall first emphasize the preservation of existing tree canopy where that canopy meets local standards for health and structural condition, and where it is feasible to do so within the framework of design standards and densities allowed by the local zoning and other development ordinances; and (ii) second, where it is not feasible in whole or in part for any of the justifications listed in subsection E to preserve existing canopy in the required percentages listed above, the ordinance shall provide for the planting of new trees to meet the required percentages.

D. Except as provided in subsection E, the percentage of the site covered by tree canopy at the time of plan submission shall equate to the minimum portion of the requirements identified in subsection C that shall be provided through tree preservation. This portion of the canopy requirements shall be identified as the "tree preservation target" and shall be included in site plan calculations or narratives demonstrating how the overall requirements of subsection C have been met.

E. The ordinance shall provide deviations, in whole or in part, from the tree preservation target defined in subsection D under the following conditions:

1. Meeting the preservation target would prevent the development of uses and densities otherwise allowed by the locality's zoning or development ordinance.

2. The predevelopment condition of vegetation does not meet the locality's standards for health and structural condition.

3. Construction activities could be reasonably expected to impact existing trees to the extent that they would not likely survive in a healthy and structurally sound manner. This includes activities that would cause direct physical damage to the trees, including root systems, or cause environmental changes that could result in or predispose the trees to structural and health problems.

If, in the opinion of the developer, the project cannot meet the tree preservation target due to the conditions described in subdivision 1, 2, or 3, the developer may request a deviation from the preservation requirement in subsection D. In the request for deviation, the developer shall provide a letter to the locality that provides justification for the deviation, describes how the deviation is the minimum necessary to afford relief, and describes how the requirements of subsection C will be met through tree planting or a tree canopy bank or fund established by the locality. Proposed deviations shall be reviewed by the locality's urban forester, arborist, or equivalent in consultation with the locality's land development or licensed professional civil engineering review staff. The locality may propose an alternative site design based upon adopted land development practices and sound vegetation management practices that take into account the relationship between the cost of conservation and the benefits of the trees to be preserved as described in ANSI A300 (Part 5) — 2005 Management: Tree, Shrub, and Other Woody Plant Maintenance — Standard Practices, Management of Trees and Shrubs During Site Planning, Site Development, and Construction, Annex A, A-1.5, Cost Benefits Analysis (or the latest version of this standard). The developer shall consider the alternative and redesign the plan accordingly, or elect to satisfy the unmet portion of the preservation threshold through on-site tree planting or through the off-site planting mechanisms identified in subsection G, so long as the developer provides the locality with an explanation of why the alternative design recommendations were rejected. Letters of explanation from the developer shall be prepared and certified by a licensed

professional engineer as defined in § 54.1-400. If arboricultural issues are part of explanation then the letter shall be signed by a Certified Arborist who has taken and passed the certification examination sponsored by the International Society of Arboriculture and who maintains a valid certification status or by a Registered Consulting Arborist as designated by the American Society of Consulting Arborists. If arboricultural issues are the sole subject of the letter of explanation then certification by a licensed professional engineer shall not be required.

F. The ordinance shall provide for deviations of the overall canopy requirements set forth in subsection C to allow for the preservation of wetlands, the development of farm land or other areas previously devoid of healthy and/or suitable tree canopy, or where the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer.

G. The ordinance shall provide for the establishment of a tree canopy bank or fund whereby any portion of the tree canopy requirement that cannot be met on-site may be met through off-site tree preservation or tree planting efforts. Such provisions may be offered where it can be demonstrated that application of the requirements of subsection C would cause irresolvable conflicts with other local site development requirements, standards, or comprehensive planning goals, where sites or portions of sites lack sufficient space for future tree growth, where planting spaces will not provide adequate space for healthy root development, where trees will cause unavoidable conflicts with underground or overhead utilities, or where it can be demonstrated that trees are likely to cause damage to public infrastructure. The ordinance may utilize any of the following off-site canopy establishment mechanisms:

1. A tree canopy bank may be established in order for the locality to facilitate off-site tree preservation, tree planting, stream bank, and riparian restoration projects. Banking efforts shall provide tree canopy that is preserved in perpetuity through conservation easements, deed restrictions, or similar protective mechanisms acceptable to the locality. Projects used in off-site banking will meet the same ordinance standards established for on-site tree canopy; however, the locality may also require the submission of five-year management plans and funds to ensure the execution of maintenance and management obligations identified in those plans. Any such bank shall occur within the same nonattainment area in which the locality approving the tree banking is situated.

2. A tree canopy fund may be established to act as a fiscal mechanism to collect, manage, and disburse fees collected from developers that cannot provide full canopy requirements on-site. The locality may use this fund directly to plant *and maintain* trees on public *or private* property, or the locality may elect to disburse this fund to community-based organizations exempt from taxation under § 501(c)(3) of the Internal Revenue Code with tree planting*, stewardship,* or community beautification missions ~~for tree planting programs~~ that benefit the community at large. For purposes of establishing consistent and predictable fees, the ordinance shall establish cost units that are based on average costs ~~to establish 20-year canopy areas using~~ *of* two-inch caliper nursery stock trees. Any funds collected by localities for these purposes shall be spent within a five-year period established by the collection date~~, or the locality shall return such funds to the original contributor, or legal successor~~.

H. The following uses shall be exempt from the requirements of any ordinance promulgated under this section: bona fide silvicultural activity as defined by § 10.1-1181.1 and the areas of sites included in lakes, ponds, and the normal water elevation area of stormwater retention facilities. The ordinance shall modify the canopy requirements of dedicated school sites, playing fields, and other nonwooded active recreation areas by allowing these and other facilities and uses of a similar nature to provide 10 percent tree canopy 20 years after development.

I. 1. In recognition of the added benefits of tree preservation, the ordinance shall provide for an additional tree canopy credit of up to one and one-quarter times the canopy area at the time of plan submission for individual trees or the coalesced canopy of forested areas preserved from the predevelopment tree canopy.

2. The following additional credits may be provided in the ordinance in connection with tree preservation:

a. The ordinance may provide canopy credits of up to *(i)* one and one-half times the actual canopy area for the preservation of forest communities that achieve environmental, ecological, and wildlife conservation objectives set by the locality *and (ii) two times the actual canopy credits if a site developer provides a stand assessment before development plans are created, for review by the local jurisdiction, and protects identified trees for conservation on the submitted site plans*. The ordinance may establish minimal area, dimensional and viability standards as prerequisites for the application of credits. Forest communities shall be identified using the nomenclature of either the federal National Vegetation Classification System (FGDC-STD-005, or latest version) or the Natural Communities of Virginia Classification of Ecological Community Groups, Second Approximation (Version 2.2, or latest version).

b. The ordinance may provide canopy credits of up to three times the actual canopy area of trees that are officially designated for preservation in conjunction with local tree conservation ordinances based on the authority granted by § 10.1-1127.1.

J. The following additional credits shall be provided in the ordinance in connection with tree planting:

1. The ordinance shall provide canopy credits of one and one-half the area normally projected for trees planted to absorb or intercept air pollutants, tree species that produce lower levels of reactive volatile organic compounds, or trees that act to reduce air pollution or greenhouse gas emissions by conserving the energy used to cool and heat buildings.

2. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for trees planted for water quality-related reforestation or afforestation projects, and for trees planted in low-impact development and bioretention water quality facilities. The low-impact development practices and designs shall conform to local standards in order for these supplemental credits to apply.

3. The ordinance shall provide canopy credits of one and one-half the area normally projected for native tree species planted to provide food, nesting, habitat, and migration opportunities for wildlife. These canopy credits may also apply to cultivars of native species if the locality determines that such a cultivar is capable of providing the same type and extent of wildlife benefit as the species it is derived from.

4. The ordinance shall provide canopy credits of one and one-half the area normally projected for use of native tree species that are propagated from seed or tissue collected within the mid-Atlantic region.

5. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for the use of cultivars or varieties that develop desirable growth and structural patterns, resist decay organisms and the development of cavities, show high levels of resistance to disease or insect infestations, or exhibit high survival rates in harsh urban environments.

K. Tree preservation areas and individual trees may not receive more than one application of additional canopy credits provided in subsection I. Individual trees planted to meet these requirements may not receive more than two categories of additional canopy credits provided in subsection J. Canopy credits will only be given to trees with trunks that are fully located on the development site, or in the case of tree banking projects only to trees with trunks located fully within easements or other areas protected by deed restrictions listed in subsection G.

L. All trees planted for tree cover credits shall meet the specifications of the American Association of Nurserymen and shall be planted in accordance with the publication entitled "Tree and Shrub Planting Guidelines," published by the Virginia Cooperative Extension.

M. In order to provide higher levels of biodiversity and to minimize the spread of pests and diseases, or to limit the use of species that cause negative impacts to native plant communities, cause damage to nearby structures, or possess inherent physiological traits that prone trees to structural failure, the ordinance may designate species that cannot be used to meet tree canopy requirements or designate species that will only receive partial 20-year tree canopy credits.

N. The locality may allow the use of tree seedlings for meeting tree canopy requirements in large open spaces, low-density residential settings, or in low-impact development reforestation/afforestation projects. In these cases, the ordinance shall allow the ground surface area of seedling planting areas to equate to a 20-year canopy credit area. Tree seedling plantings will be comprised of native species and will be planted in densities that equate to 400 seedlings per acre, or in densities specified by low-impact development designs approved by the locality. The locality may set standards for seedling mortality rates and replacement procedures if unacceptable rates of mortality occur. The locality may elect to allow native woody shrubs or native woody seed mix to substitute for tree species as long as these treatments do not exceed 33 percent of the overall seedling planting area. The number of a single species may not exceed 10 percent of the overall number of trees or shrubs planted to meet the provisions of this subsection.

O. The following process shall be used to demonstrate achievement of the required percentage of tree canopy listed in subsection C:

1. The site plan shall graphically delineate the edges of predevelopment tree canopy, the proposed limits of disturbance on grading or erosion and sedimentation control plans, and the location of tree protective fencing or other tree protective devices allowed in the Virginia Erosion and Sediment Control Handbook.

2. Site plans proposing modification to tree canopy requirements or claiming supplemental tree canopy credits will require a text narrative.

3. The site plan shall include the 20-year tree canopy calculations on a worksheet provided by the locality.

4. Site plans requiring tree planting shall provide a planting schedule that provides botanical and common names of trees, the number of trees being planted, the total of tree canopy area given to each species, variety or cultivars planted, total of tree canopy area that will be provided by all trees, planting sizes, and associated planting specifications. The site plan will also provide a landscape plan that delineates where the trees shall be planted.

P. The ordinance shall provide a list of commercially available tree species, varieties, and cultivars that are capable of thriving in the locality's climate and ranges of planting environments. The ordinance will also provide a 20-year tree canopy area credit for each tree. The amount of tree canopy area credited to individual tree species, varieties, and cultivars 20 years after they are planted shall be based on references published or endorsed by Virginia academic institutions such as the Virginia Polytechnic Institute and State University and accepted by urban foresters, arborists, and horticulturalists as being accurate for the growing conditions and climate of the locality.

Q. The ordinance shall establish standards of health and structural condition of existing trees and associated plant communities to be preserved. The ordinance may also identify standards for removal of trees or portions of trees that are dead, dying, or hazardous due to construction impacts. Such removal standards may allow for the retention of trunk snags where the locality determines that these may provide habitat or other wildlife benefits and do not represent a hazardous condition. In the event that existing tree canopy proposed to be preserved for tree canopy credits dies or must be removed because it represents a hazard, the locality may require the developer to remove the tree, or a portion of the tree and to replace the missing canopy area by the planting of nursery stock trees, or if a viable alternative, by tree seedlings. Existing trees that have been granted credits will be replaced with canopy area determined using the same supplemental credit multipliers as originally granted for that canopy area.

R. Penalties for violation of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

S. In no event shall any local tree conservation ordinance adopted pursuant to this section exceed the requirements set forth herein; however, any local ordinance adopted pursuant to the provisions of § 15.2-961 prior to July 1, 1990, may adopt the tree conservation provisions of this section based on 10-year minimum tree canopy requirements.

T. Nothing in this section shall invalidate any local ordinance adopted pursuant to § 15.2-961.

U. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

CHAPTER 703

An Act to amend and reenact § 58.1-3242.1 of the Code of Virginia, relating to Forest Sustainability Fund; fund allocation.

[S 129]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3242.1 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3242.1. Forest Sustainability Fund.

A. There is hereby created in the state treasury a special nonreverting fund to be known as the Forest Sustainability Fund, referred to in this section as "the Fund." The Fund shall be established on the books of the Comptroller. All funds appropriated for such purpose and any gifts, donations, grants, bequests, and other funds received on its behalf shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for the purposes set forth in subsection B. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the State Forester.

B. Any locality that has adopted an ordinance to provide for the use value assessment and taxation for real estate devoted for forest use pursuant to this article may apply for an annual allocation of funds from the Fund. A locality shall submit by November 15 of each year (i) a copy of its ordinance and (ii) the total revenue forgone by the locality in the prior fiscal year due to the use value assessment and taxation for real estate devoted for forest use. The State Forester shall allocate ~~funds from the Fund on a proportional basis, based on the amount of revenues forgone by the applicant localities~~ *moneys from the Fund proportionally to each locality that submitted an approved application. No locality shall receive more moneys from the Fund than such locality forwent in the prior fiscal year. Notwithstanding the foregoing, no locality shall receive an allocation of more than four percent or less than one-half of one percent of available funds*. Any funds received by a locality shall be used solely for public education generally or for projects related to outdoor recreation or forest conservation.

C. Upon issuance of a Multistate License, the Home State Licensing Authority shall designate whether the Regulated Social Worker holds a Multistate License in the Bachelor's, Masters, or Clinical category of Social Work.

D. A Multistate License issued by a Home State to a resident in that State shall be recognized by all Compact Member States as authorizing Social Work Practice under a Multistate Authorization to Practice corresponding to each category of licensure regulated in each Member State.

Section 6.

B. Nothing in this Compact shall affect the requirements established by a Member State for the issuance of a Single State License.

C. Nothing in this Compact, nor any Rule of the Commission, shall be construed to limit, restrict, or in any way reduce the ability of a Member State to take Adverse Action against a Licensee's Single State License to practice Social Work in that State.

D. Nothing in this Compact, nor any Rule of the Commission, shall be construed to limit, restrict, or in any way reduce the ability of a Remote State to take Adverse Action against a Licensee's Multistate Authorization to Practice in that State.

E. Nothing in this Compact, nor any Rule of the Commission, shall be construed to limit, restrict, or in any way reduce the ability of a Licensee's Home State to take Adverse Action against a Licensee's Multistate License based upon information provided by a Remote State.

Section 7.

Reissuance of a Multistate License by a New Home State.

A. A Licensee can hold a Multistate License, issued by their Home State, in only one Member State at any given time.

B. If a Licensee changes their Home State by moving between two Member States:

1. The Licensee shall immediately apply for the reissuance of their Multistate License in their new Home State. The Licensee shall pay all applicable fees and notify the prior Home State in accordance with the Rules of the Commission.

2. Upon receipt of an application to reissue a Multistate License, the new Home State shall verify that the Multistate License is active, unencumbered, and eligible for reissuance under the terms of the Compact and the Rules of the Commission. The Multistate License issued by the prior Home State will be deactivated and all Member States notified in accordance with the applicable Rules adopted by the Commission.

3. Prior to the reissuance of the Multistate License, the new Home State shall conduct procedures for considering the criminal history records of the Licensee. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that State's criminal records.

4. If required for initial licensure, the new Home State may require completion of jurisprudence requirements in the new Home State.

5. Notwithstanding any other provision of this Compact, if a Licensee does not meet the requirements set forth in this Compact for the reissuance of a Multistate License by the new Home State, then the Licensee shall be subject to the new Home State requirements for the issuance of a Single State License in that State.

C. If a Licensee changes their primary State of residence by moving from a Member State to a non-Member State, or from a non-Member State to a Member State, then the Licensee shall be subject to the State requirements for the issuance of a Single State License in the new Home State.

D. Nothing in this Compact shall interfere with a Licensee's ability to hold a Single State License in multiple States; however, for the purposes of this Compact, a Licensee shall have only one Home State, and only one Multistate License.

E. Nothing in this Compact shall interfere with the requirements established by a Member State for the issuance of a Single State License.

Section 8.

Military Families.

An Active Military Member or their spouse shall designate a Home State where the individual has a Multistate License. The individual may retain their Home State designation during the period the service member is on active duty.

Section 9.

Adverse Actions.

A. In addition to the other powers conferred by State law, a Remote State shall have the authority, in accordance with existing State due process law, to:

1. Take Adverse Action against a Regulated Social Worker's Multistate Authorization to Practice only within that Member State, and issue subpoenas for both hearings and investigations that require the attendance and testimony of

witnesses as well as the production of evidence. Subpoenas issued by a Licensing Authority in a Member State for the attendance and testimony of witnesses or the production of evidence from another Member State shall be enforced in the latter State by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing Licensing Authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the State in which the witnesses or evidence are located.

2. Only the Home State shall have the power to take Adverse Action against a Regulated Social Worker's Multistate License.

B. For purposes of taking Adverse Action, the Home State shall give the same priority and effect to reported conduct received from a Member State as it would if the conduct had occurred within the Home State. In so doing, the Home State shall apply its own State laws to determine appropriate action.

C. The Home State shall complete any pending investigations of a Regulated Social Worker who changes their Home State during the course of the investigations. The Home State shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of the investigations to the administrator of the Data System. The administrator of the Data System shall promptly notify the new Home State of any Adverse Actions.

D. A Member State, if otherwise permitted by State law, may recover from the affected Regulated Social Worker the costs of investigations and dispositions of cases resulting from any Adverse Action taken against that Regulated Social Worker.

E. A Member State may take Adverse Action based on the factual findings of another Member State, provided that the Member State follows its own procedures for taking the Adverse Action.

F. Joint Investigations:

1. In addition to the authority granted to a Member State by its respective Social Work practice act or other applicable State law, any Member State may participate with other Member States in joint investigations of Licensees.

2. Member States shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the Compact.

G. If Adverse Action is taken by the Home State against the Multistate License of a Regulated Social Worker, the Regulated Social Worker's Multistate Authorization to Practice in all other Member States shall be deactivated until all Encumbrances have been removed from the Multistate License. All Home State disciplinary orders that impose Adverse Action against the license of a Regulated Social Worker shall include a statement that the Regulated Social Worker's Multistate Authorization to Practice is deactivated in all Member States until all conditions of the decision, order, or agreement are satisfied.

H. If a Member State takes Adverse Action, it shall promptly notify the administrator of the Data System. The administrator of the Data System shall promptly notify the Home State and all other Member States of any Adverse Actions by Remote States.

I. Nothing in this Compact shall override a Member State's decision that participation in an Alternative Program may be used in lieu of Adverse Action.

J. Nothing in this Compact shall authorize a Member State to demand the issuance of subpoenas for attendance and testimony of witnesses or the production of evidence from another Member State for lawful actions within that Member State.

K. Nothing in this Compact shall authorize a Member State to impose discipline against a Regulated Social Worker who holds a Multistate Authorization to Practice for lawful actions within another Member State.

Section 10.

E. The Commission shall adopt and provide to the Member States an annual report.

F. Meetings of the Commission:

1. All meetings shall be open to the public, except that the Commission may meet in a closed, non-public meeting as provided in subsection F 2 below.

a. Public notice for all meetings of the full Commission of meetings shall be given in the same manner as required under the Rulemaking provisions in Section 12, except that the Commission may hold a special meeting as provided in subsection F 1 b below.

b. The Commission may hold a special meeting when it must meet to conduct emergency business by giving 48 hours' notice to all commissioners, on the Commission's website, and other means as provided in the Commission's Rules. The Commission's legal counsel shall certify that the Commission's need to meet qualifies as an emergency.

2. The Commission or the Executive Committee or other committees of the Commission may convene in a closed, non-public meeting for the Commission or Executive Committee or other committees of the Commission to receive legal advice or to discuss:

a. Non-compliance of a Member State with its obligations under the Compact;

k. Matters specifically exempted from disclosure by federal or Member State law; or

l. Other matters as promulgated by the Commission by Rule.

3. If a meeting, or portion of a meeting, is closed, the presiding officer shall state that the meeting will be closed and reference each relevant exempting provision, and such reference shall be recorded in the minutes.

4. The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release only by a majority vote of the Commission or order of a court of competent jurisdiction.

G. Financing of the Commission:

1. The Commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

2. The Commission may accept any and all appropriate revenue sources as provided in subsection C 13.

3. The Commission may levy on and collect an annual assessment from each Member State and impose fees on Licensees of Member States to whom it grants a Multistate License to cover the cost of the operations and activities of the Commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount for Member States shall be allocated based upon a formula that the Commission shall promulgate by Rule.

4. The Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Commission pledge the credit of any of the Member States, except by and with the authority of the Member State.

5. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the financial review and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the Commission.

H. Qualified Immunity, Defense, and Indemnification:

1. The members, officers, executive director, employees, and representatives of the Commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission

employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the Commission shall not in any way compromise or limit the immunity granted hereunder.

2. The Commission shall defend any member, officer, executive director, employee, and representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or as determined by the Commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

3. The Commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the Commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

4. Nothing herein shall be construed as a limitation on the liability of any Licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable State laws.

5. Nothing in this Compact shall be interpreted to waive or otherwise abrogate a Member State's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other State or federal antitrust or anticompetitive law or regulation.

6. Nothing in this Compact shall be construed to be a waiver of sovereign immunity by the Member States or by the Commission.

Section 11.

Data System.

A. The Commission shall provide for the development, maintenance, operation, and utilization of a coordinated Data System.

B. The Commission shall assign each applicant for a Multistate License a unique identifier, as determined by the Rules of the Commission.

C. Notwithstanding any other provision of State law to the contrary, a Member State shall submit a uniform data set to the Data System on all individuals to whom this Compact is applicable as required by the Rules of the Commission, including:

1. Identifying information;

2. Licensure data;

3. Adverse Actions against a license and information related thereto;

4. Non-confidential information related to Alternative Program participation, the beginning and ending dates of such participation, and other information related to such participation not made confidential under Member State law;

5. Any denial of application for licensure, and the reason(s) for such denial;

6. The presence of Current Significant Investigative Information; and

7. Other information that may facilitate the administration of this Compact or the protection of the public, as determined by the Rules of the Commission.

D. The records and information provided to a Member State pursuant to this Compact or through the Data System, when certified by the Commission or an agent thereof, shall constitute the authenticated business records of the Commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial or administrative proceedings in a Member State.

E. Current Significant Investigative Information pertaining to a Licensee in any Member State will only be available to other Member States.

It is the responsibility of the Member States to report any Adverse Action against a Licensee and to monitor the database to determine whether Adverse Action has been taken against a Licensee. Adverse Action information pertaining to a Licensee in any Member State will be available to any other Member State.

F. Member States contributing information to the Data System may designate information that may not be shared with the public without the express permission of the contributing State. Any information submitted to the Data System that is subsequently expunged pursuant to federal law or the laws of the Member State contributing the information shall be removed from the Data System.

Section 12.

Rulemaking.

A. The Commission shall promulgate reasonable Rules in order to effectively and efficiently implement and administer the purposes and provisions of the Compact. A Rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the Rule is invalid because the Commission exercised its rulemaking authority in a manner that is

beyond the scope and purposes of the Compact, or the powers granted hereunder, or based upon another applicable standard of review.

B. The Rules of the Commission shall have the force of law in each Member State, provided however that where the Rules of the Commission conflict with the laws of the Member State that establish the Member State's laws, regulations, and applicable standards that govern the practice of Social Work as held by a court of competent jurisdiction, the Rules of the Commission shall be ineffective in that State to the extent of the conflict.

C. The Commission shall exercise its Rulemaking powers pursuant to the criteria set forth in this Section and the Rules adopted thereunder. Rules shall become binding on the day following adoption or the date specified in the rule or amendment, whichever is later.

D. If a majority of the legislatures of the Member States rejects a Rule or portion of a Rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within four (4) years of the date of adoption of the Rule, then such Rule shall have no further force and effect in any Member State.

E. Rules shall be adopted at a regular or special meeting of the Commission.

F. Prior to adoption of a proposed Rule, the Commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

G. Prior to adoption of a proposed Rule by the Commission, and at least thirty (30) days in advance of the meeting at which the Commission will hold a public hearing on the proposed Rule, the Commission shall provide a Notice of Proposed Rulemaking:

1. On the website of the Commission or other publicly accessible platform;

2. To persons who have requested notice of the Commission's notices of proposed rulemaking; and

3. In such other way(s) as the Commission may by Rule specify.

H. The Notice of Proposed Rulemaking shall include:

1. The time, date, and location of the public hearing at which the Commission will hear public comments on the proposed Rule and, if different, the time, date, and location of the meeting where the Commission will consider and vote on the proposed Rule;

2. If the hearing is held via telecommunication, video conference, or other electronic means, the Commission shall include the mechanism for access to the hearing in the Notice of Proposed Rulemaking;

3. The text of the proposed Rule and the reason therefor;

4. A request for comments on the proposed Rule from any interested person; and

5. The manner in which interested persons may submit written comments.

I. All hearings will be recorded. A copy of the recording and all written comments and documents received by the Commission in response to the proposed Rule shall be available to the public.

J. Nothing in this Section shall be construed as requiring a separate hearing on each Rule. Rules may be grouped for the convenience of the Commission at hearings required by this Section.

K. The Commission shall, by majority vote of all members, take final action on the proposed Rule based on the Rulemaking record and the full text of the Rule.

1. The Commission may adopt changes to the proposed Rule provided the changes do not enlarge the original purpose of the proposed Rule.

2. The Commission shall provide an explanation of the reasons for substantive changes made to the proposed Rule as well as reasons for substantive changes not made that were recommended by commenters.

3. The Commission shall determine a reasonable effective date for the Rule. Except for an emergency as provided in Section 12 L, the effective date of the Rule shall be no sooner than 30 days after issuing the notice that it adopted or amended the Rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency Rule with 48 hours' notice, with opportunity to comment, provided that the usual Rulemaking procedures provided in the Compact and in this Section shall be retroactively applied to the Rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the Rule. For the purposes of this provision, an emergency Rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or Member State funds;

3. Meet a deadline for the promulgation of a Rule that is established by federal law or rule; or

4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted Rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a Rule. A challenge shall be made in writing and delivered to the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

N. No Member State's rulemaking requirements shall apply under this compact.

Section 13.

Oversight, Dispute Resolution, and Enforcement.

A. Oversight:

1. The executive and judicial branches of State government in each Member State shall enforce this Compact and take all actions necessary and appropriate to implement the Compact.

2. Except as otherwise provided in this Compact, venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a Licensee for professional malpractice, misconduct, or any such similar matter.

3. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the Compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the Commission service of process shall render a judgment or order void as to the Commission, this Compact, or promulgated Rules.

B. Default, Technical Assistance, and Termination:

1. If the Commission determines that a Member State has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated Rules, the Commission shall provide written notice to the defaulting State. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the Commission may take, and shall offer training and specific technical assistance regarding the default.

2. The Commission shall provide a copy of the notice of default to the other Member States.

C. If a State in default fails to cure the default, the defaulting State may be terminated from the Compact upon an affirmative vote of a majority of the delegates of the Member States, and all rights, privileges, and benefits conferred on that State by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending State of obligations or liabilities incurred during the period of default.

D. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting State's legislature, the defaulting State's State Licensing Authority and each of the Member States' State Licensing Authority.

E. A State that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

F. Upon the termination of a State's membership from this Compact, that State shall immediately provide notice to all Licensees within that State of such termination. The terminated State shall continue to recognize all licenses granted pursuant to this Compact for a minimum of six (6) months after the date of said notice of termination.

G. The Commission shall not bear any costs related to a State that is found to be in default or that has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting State.

H. The defaulting State may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

I. Dispute Resolution:

1. Upon request by a Member State, the Commission shall attempt to resolve disputes related to the Compact that arise among Member States and between Member and non-Member States.

2. The Commission shall promulgate a Rule providing for both mediation and binding dispute resolution for disputes as appropriate.

J. Enforcement:

1. By majority vote as provided by Rule, the Commission may initiate legal action against a Member State in default in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or the defaulting Member State's law.

2. A Member State may initiate legal action against the Commission in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

3. No person other than a Member State shall enforce this compact against the Commission.

Section 14.

Effective Date, Withdrawal, and Amendment.

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the seventh Member State.

1. On or after the effective date of the Compact, the Commission shall convene and review the enactment of each of the first seven Member States ("Charter Member States") to determine if the statute enacted by each such Charter Member State is materially different than the model Compact statute.

a. A Charter Member State whose enactment is found to be materially different from the model Compact statute shall be entitled to the default process set forth in Section 13.

b. If any Member State is later found to be in default, or is terminated or withdraws from the Compact, the Commission shall remain in existence and the Compact shall remain in effect even if the number of Member States should be less than seven.

2. Member States enacting the Compact subsequent to the seven initial Charter Member States shall be subject to the process set forth in Section 10 C 21 to determine if their enactments are materially different from the model Compact statute and whether they qualify for participation in the Compact.

3. All actions taken for the benefit of the Commission or in furtherance of the purposes of the administration of the Compact prior to the effective date of the Compact or the Commission coming into existence shall be considered to be actions of the Commission unless specifically repudiated by the Commission.

4. Any State that joins the Compact subsequent to the Commission's initial adoption of the Rules and bylaws shall be subject to the Rules and bylaws as they exist on the date on which the Compact becomes law in that State. Any Rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that State.

B. Any Member State may withdraw from this Compact by enacting a statute repealing the same.

1. A Member State's withdrawal shall not take effect until 180 days after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing State's Licensing Authority to comply with the investigative and Adverse Action reporting requirements of this Compact prior to the effective date of withdrawal.

3. Upon the enactment of a statute withdrawing from this compact, a State shall immediately provide notice of such withdrawal to all Licensees within that State. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing State shall continue to recognize all licenses granted pursuant to this compact for a minimum of 180 days after the date of such notice of withdrawal.

C. Nothing contained in this Compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a Member State and a non-Member State that does not conflict with the provisions of this Compact.

D. This Compact may be amended by the Member States. No amendment to this Compact shall become effective and binding upon any Member State until it is enacted into the laws of all Member States.

Section 15.

Construction and Severability.

A. This Compact and the Commission's rulemaking authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration of the Compact. Provisions of the Compact expressly authorizing or requiring the promulgation of Rules shall not be construed to limit the Commission's rulemaking authority solely for those purposes.

B. The provisions of this Compact shall be severable and if any phrase, clause, sentence, or provision of this Compact is held by a court of competent jurisdiction to be contrary to the constitution of any Member State, a State seeking participation in the Compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this Compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

C. Notwithstanding subsection B of this Section, the Commission may deny a State's participation in the Compact or, in accordance with the requirements of Section 13.B, terminate a Member State's participation in the Compact, if it determines that a constitutional requirement of a Member State is a material departure from the Compact. Otherwise, if this Compact shall be held to be contrary to the constitution of any Member State, the Compact shall remain in full force and effect as to the remaining Member States and in full force and effect as to the Member State affected as to all severable matters.

Section 16.

B. Nothing herein shall prevent or inhibit the enforcement of any other law of a Member State that is not inconsistent with the Compact.

C. Any laws, statutes, regulations, or other legal requirements in a Member State in conflict with the Compact are superseded to the extent of the conflict.

D. All permissible agreements between the Commission and the Member States are binding in accordance with their terms.

2. That applicants for a Multistate License shall pay for the cost of fingerprinting required by the Social Work Licensure Compact, as entered into by this act.

CHAPTER 705

An Act to amend and reenact § 2.2-4302.2 of the Code of Virginia, relating to Virginia Public Procurement Act; competitive negotiation; exceptions to contractual terms.

[S 242]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4302.2 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4302.2. Process for competitive negotiation.

A. The process for competitive negotiation shall include the following:

1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal, indicating whether a numerical scoring system will be used in evaluation of the proposal, and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities, specifications or qualifications that will be required. Except with regard to contracts for architectural, professional engineering, transportation construction, or transportation-related construction services, a public body may include as a factor that will be used in evaluating a proposal the proposer's employment of persons with disabilities to perform the specifications of the contract. In the event that a numerical scoring system will be used in the evaluation of proposals, the point values assigned to each of the evaluation criteria shall be included in the Request for Proposal or posted at the location designated for public posting of procurement notices prior to the due date and time for receiving proposals. No Request for Proposal for construction authorized by this chapter shall condition a successful offeror's eligibility on having a specified experience modification factor;

2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by posting on the Department of General Services' central electronic procurement website or other appropriate websites. Public bodies may also publish in a newspaper of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Posting on the Department of General Services' central electronic procurement website shall be required of (i) any state public body and (ii) any local public body if such local public body elects not to publish notice of the Request for Proposal in a newspaper of general circulation in the area in which the contract is to be performed. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities. In addition, proposals may be solicited directly from potential contractors. Any additional solicitations shall include certified businesses selected from a list made available by the Department of Small Business and Supplier Diversity; and

3. For goods, nonprofessional services, and insurance, selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. ~~In the case of a proposal for information technology, as defined in § 2.2-2006, a public body shall not require an offeror to state in a proposal any exception to any liability provisions contained in the Request for Proposal.~~ Negotiations shall then be conducted with each of the offerors so selected. The offeror shall state any exception to any *contractual terms or conditions, including any* liability provisions contained in the Request for Proposal in writing ~~at the beginning of negotiations, and such~~ *at the time of responding to such Request for Proposal if so requested by the public body. Such* exceptions shall be considered during negotiation *but shall not be used as a basis for scoring or evaluating which offerors are selected for negotiations*. Price shall be considered, but need not be the sole or primary determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal and provides the best value, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror; or

4. For professional services, the public body shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. In addition, offerors shall be informed of any ranking criteria that will be used by the public body in addition to the review of the professional competence of the offeror. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. In accordance with § 2.2-4342, proprietary information from competing offerors shall not be disclosed to the public or to competitors. For architectural or engineering services, the public body shall not request or require offerors to list any exceptions to proposed contractual terms and conditions, unless such terms and conditions are required by statute, regulation, ordinance, or standards developed pursuant to § 2.2-1132, until after the qualified offerors are ranked for negotiations. At the conclusion of discussion, outlined in this subdivision, on the basis of

evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable and pursuant to contractual terms and conditions acceptable to the public body, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

B. Multiphase professional services contracts satisfactory and advantageous to the completion of large, phased, or long-term projects may be negotiated and awarded based on a fair and reasonable price for the first phase only, where the completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to entering into any such contract, the public body shall (i) state the anticipated intended total scope of the project and (ii) determine in writing that the nature of the work is such that the best interests of the public body require awarding the contract.

For the purposes of subdivision A 1, "experience modification factor" means a value assigned to an employer as determined by a rate service organization in accordance with its uniform experience rating plan required to be filed pursuant to subsection D of § 38.2-1913.

CHAPTER 706

An Act to amend and reenact § 15.2-1804.1 of the Code of Virginia, relating to Department of Energy; building standards for certain local buildings.

[S 245]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-1804.1 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-1804.1. (For applicability, see Acts 2021, Sp. Sess. I, c. 473, cl. 2) Building by locality; high performance standards.

A. As used in this section:

"Appropriate resilience features" means features that are included to prepare for, by reducing risk or enabling recovery, acts of nature, failures of systems, or adversarial acts that could cause a major disruption to building functionality. A locality maintains the responsibility for identifying those potential hazards for which a project should prepare and for determining the sufficiency of the incorporated features to address the potential hazard, following consideration of any guidance pursuant to subsection E.

"Commissioning" means the process of ensuring functional performance of mechanical equipment, water heating equipment, lighting, automated control systems, and building envelope, including the steps described in the ICC G4-2018 "Guideline for Commissioning" or successor guidelines and additional guidelines as may be applicable to such systems.

"Design phase" means the design of a building construction or renovation project, *which, until July 1, 2025, shall be* inclusive of the issuance of a request for proposal and the project budget approval*, and after July 1, 2025, shall be based on the effective execution date of the contract with the design team*.

"EV" means an electric vehicle.

"High performance building certification program" means a public building design, construction, and renovation program that achieves certification using the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) green building rating standard or the Green Building Initiative's "Green Globes" building standard~~, or meets the requirements of VEES~~. *For buildings 50,000 square feet and smaller, Earthcraft Light Commercial at the silver level may instead be used for certification under this section.*

"Locality" means a county, city, or town, inclusive of a school division.

"Major disruption" means a disturbance that interrupts the normal activities that are conducted in a building for a duration of time that would require that building to temporarily or permanently cease operations. Localities may define the parameters that would constitute a major disruption based on the nature and duration of a disrupting event, as well as on building typology, consistent with any guidance pursuant to subsection E.

"Sufficient ZEV charging and fueling infrastructure" means the provision of ~~ZEV charging or fueling infrastructure, including EV-ready charging electrical capacity and pre-wiring, (i) sufficient to support every passenger-type vehicle owned by the locality and available for use by the locality that will be located at such building upon full occupancy, meet projected demand for such infrastructure during the first 10 years following building occupancy, or (ii) that achieves the current ZEV~~

~~or EV charging credit for a high performance building certification program~~ *EV supply equipment, EV-ready charging electrical capacity and pre-wiring, or fueling infrastructure for other ZEVs that is deemed sufficient based on meeting relevant guidelines or recommendations available during the design phase of a project from either the Virginia Department of Energy pursuant to subsection E or the U.S. Department of Energy.*

~~"VEES" means the Virginia Energy Conservation and Environmental Standards developed by the Department considering the U.S. Green Building Council (LEED) green building rating standard, the Green Building Initiative "Green Globes" building standard, and other appropriate requirements as determined by the Department.~~

"ZEV" means a zero-emissions vehicle.

B. Any locality entering the design phase for the construction of a new building greater than 5,000 gross square feet in size, or the renovation of a building where the cost of the renovation exceeds 50 percent of the value of the building, shall ensure that such building:

1. Is designed, constructed, verified, and operated to comply with a high performance building certification program;

2. Has sufficient ZEV charging and fueling infrastructure~~. In making a sufficiency determination, the locality may also consider the interest of the Commonwealth in providing infrastructure for nearby locations, geographical gaps in ZEV charging infrastructure, availability of incentives, and other factors~~;

3. Has features that permit the agency or institution to measure the building's energy consumption ~~and associated carbon emissions~~, including metering of all electricity, gas, water, and other utilities; and

4. Incorporates appropriate *onsite renewable energy generation, energy storage, and* resilience ~~and distributed energy~~ features *as determined by the locality and following consideration of any guidance pursuant to subsection E.*

C. Notwithstanding the provisions of subsection B, for any such construction or renovation of a building that is less than 20,000 gross square feet in size, the locality may instead ensure that such building achieves the relevant ENERGY STAR certification and implement ~~mechanical, electrical, plumbing, and envelope~~ commissioning. *In the event that the specific building type is not eligible for ENERGY STAR certification, then the locality shall demonstrate, using energy modeling, that the project has been designed to perform at least as well as the ENERGY STAR Target Finder value for that building type or that the project has been designed to meet equivalent standards for such building types as provided in guidance pursuant to subsection E.*

D. Upon a finding that special circumstances make the construction or renovation to the standards impracticable, the governing body of such locality may, by resolution, grant an exemption from any such design and construction standards. Such resolution shall be made in writing and shall explain the basis for granting the exemption. If the local governing body cites cost as a factor in granting an exemption, the local governing body shall include a comparison of the cost the locality will incur over the next 20 years or the lifecycle of the project, whichever is shorter, if the locality does not comply with the standards required by subsection B versus the costs to the locality if the locality were to comply with such standards.

E. The Department of Energy shall upon request provide technical assistance related to subsections A, B, and C to localities subject to available budgetary resources. Such technical assistance may include the issuance of guidance.

~~E.~~ *F.* Any local governing body may, by ordinance, adopt its own green design and construction program ~~that includes standards that are~~. *When a local program includes standards that address all of the requirements in subsection B and is equal in stringency to or* more stringent than ~~any equivalent standard~~ *the standards* in subsection B~~. While such program remains in effect~~, the locality shall be deemed compliant with the provisions of this section.

CHAPTER 710

An Act to amend and reenact §§ 16.1-338 and 16.1-339 of the Code of Virginia, relating to parental admission of minors for inpatient treatment.

[S 460]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-338 and 16.1-339 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-338. Parental admission of minors younger than 14 and nonobjecting minors 14 years of age or older.

A. A minor younger than 14 years of age may be admitted to a willing mental health facility for inpatient treatment *related to mental illness, which may include substance abuse as described in § 16.1-336,* upon application and with the consent of a parent. A minor 14 years of age or older may be admitted to a willing mental health facility for inpatient treatment *related to mental illness, which may include substance abuse as described in § 16.1-336,* upon the joint application and consent of the minor and the minor's parent.

B. Admission of a minor under this section shall be approved by a qualified evaluator who has conducted a personal examination of the minor within 48 hours after admission and has made the following written findings:

1. The minor appears to have a mental illness*, which may include substance abuse as described in § 16.1-336,* serious enough to warrant inpatient treatment and is reasonably likely to benefit from the treatment; and

2. The minor has been provided with a clinically appropriate explanation of the nature and purpose of the treatment; and

3. If the minor is 14 years of age or older, that he has been provided with an explanation of his rights under this Act as they would apply if he were to object to admission, and that he has consented to admission; and

4. All available modalities of treatment less restrictive than inpatient treatment have been considered and no less restrictive alternative is available that would offer comparable benefits to the minor.

If admission is sought to a state hospital, the community services board serving the area in which the minor resides shall provide, in lieu of the examination required by this section, a preadmission screening report conducted by an employee or designee of the community services board and shall ensure that the necessary written findings have been made before approving the admission. A copy of the written findings of the evaluation or preadmission screening report required by this section shall be provided to the consenting parent and the parent shall have the opportunity to discuss the findings with the qualified evaluator or employee or designee of the community services board.

C. Within 10 days after the admission of a minor under this section, the director of the facility or the director's designee shall ensure that an individualized plan of treatment has been prepared by the provider responsible for the minor's treatment and has been explained to the parent consenting to the admission and to the minor. The minor shall be involved in the preparation of the plan to the maximum feasible extent consistent with his ability to understand and participate, and the minor's family shall be involved to the maximum extent consistent with the minor's treatment needs. The plan shall include a preliminary plan for placement and aftercare upon completion of inpatient treatment and shall include specific behavioral and emotional goals against which the success of treatment may be measured. A copy of the plan shall be provided to the minor and to his parents.

D. If the parent who consented to a minor's admission under this section revokes his consent at any time, or if a minor 14 or older objects at any time to further treatment, the minor shall be discharged within 48 hours to the custody of such consenting parent unless the minor's continued hospitalization is authorized pursuant to § 16.1-339, 16.1-340.1, or 16.1-345. If the 48-hour time period expires on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the 48 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed. If a minor 14 or older objects to further treatment, the mental health facility shall (i) immediately notify the consenting parent of the minor's objections and (ii) provide to the consenting parent a summary, prepared by the Office of the Attorney General, of the procedures for requesting continued treatment of the minor pursuant to § 16.1-339, 16.1-340.1, or 16.1-345.

E. Inpatient treatment of a minor hospitalized under this section may not exceed 90 consecutive days unless it has been authorized by appropriate hospital medical personnel, based upon their written findings that the criteria set forth in subsection B of this section continue to be met, after such persons have examined the minor and interviewed the consenting parent and reviewed reports submitted by members of the facility staff familiar with the minor's condition.

F. Any minor admitted under this section while younger than 14 and his consenting parent shall be informed orally and in writing by the director of the facility for inpatient treatment within 10 days of his fourteenth birthday that continued voluntary treatment under the authority of this section requires his consent.

G. Any minor 14 years of age or older who joins in an application and consents to admission pursuant to subsection A, shall, in addition to his parent, have the right to access his health information. The concurrent authorization of both the parent and the minor shall be required to disclose such minor's health information.

H. A minor who has been hospitalized while properly detained by a juvenile and domestic relations district court or circuit court shall be returned to the detention home, shelter care, or other facility approved by the Department of Juvenile Justice by the sheriff serving the jurisdiction where the minor was detained within 24 hours following completion of a period of inpatient treatment, unless the court having jurisdiction over the case orders that the minor be released from custody.

§ 16.1-339. Parental admission of an objecting minor 14 years of age or older.

A. A minor 14 years of age or older who (i) objects to admission or (ii) is incapable of making an informed decision may be admitted to a willing facility for up to 120 hours, pending the review required by subsections B and C, upon the application of a parent. If admission is sought to a state hospital, the community services board serving the area in which the minor resides shall provide the preadmission screening report required by subsection B of § 16.1-338 and shall ensure that the necessary written findings, except the minor's consent, have been made before approving the admission. *A temporary detention order under § 16.1-340.1 shall not be required for a minor to be admitted to a willing facility upon the application of a parent pursuant to this section.*

B. A minor admitted under this section shall be examined within 24 hours of his admission by a qualified evaluator designated by the community services board serving the area where the facility is located. If the 24-hour time period expires on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the 24 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. The evaluator shall prepare a report that shall include written findings as to whether:

1. The minor appears to have a mental illness*, which may include substance abuse as described in § 16.1-336,* serious enough to warrant inpatient treatment and is reasonably likely to benefit from the treatment;

2. The minor has been provided with a clinically appropriate explanation of the nature and purpose of the treatment; and

3. All available modalities of treatment less restrictive than inpatient treatment have been considered and no less restrictive alternative is available that would offer comparable benefits to the minor.

The qualified evaluator shall submit his report to the juvenile and domestic relations district court for the jurisdiction in which the facility is located.

C. Upon admission of a minor under this section, the facility shall file a petition for judicial approval no sooner than 24 hours and no later than 120 hours after admission with the juvenile and domestic relations district court for the jurisdiction in which the facility is located. To the extent available, the petition shall contain the information required by § 16.1-339.1. A copy of this petition shall be delivered to the minor's consenting parent. Upon receipt of the petition and of the evaluator's report submitted pursuant to subsection B, the judge shall appoint a guardian ad litem for the minor and counsel to represent the minor, unless it has been determined that the minor has retained counsel. A copy of the evaluator's report shall be provided to the minor's counsel and guardian ad litem. The court and the guardian ad litem shall review the petition and evaluator's report and shall ascertain the views of the minor, the minor's consenting parent, the evaluator, and the attending psychiatrist. The court shall conduct its review in such place and manner, including the facility, as it deems to be in the best interests of the minor. Based upon its review and the recommendations of the guardian ad litem, the court shall order one of the following dispositions:

1. If the court finds that the minor does not meet the criteria for admission specified in subsection B, the court shall issue an order directing the facility to release the minor into the custody of the parent who consented to the minor's admission. However, nothing herein shall be deemed to affect the terms and provisions of any valid court order of custody affecting the minor.

2. If the court finds that the minor meets the criteria for admission specified in subsection B, the court shall issue an order authorizing continued hospitalization of the minor for up to 90 days on the basis of the parent's consent.

Within 10 days after the admission of a minor under this section, the director of the facility or the director's designee shall ensure that an individualized plan of treatment has been prepared by the provider responsible for the minor's treatment and has been explained to the parent consenting to the admission and to the minor. A copy of the plan shall also be provided to the guardian ad litem and to counsel for the minor. The minor shall be involved in the preparation of the plan to the maximum feasible extent consistent with his ability to understand and participate, and the minor's family shall be involved to the maximum extent consistent with the minor's treatment needs. The plan shall include a preliminary plan for placement and aftercare upon completion of inpatient treatment and shall include specific behavioral and emotional goals against which the success of treatment may be measured.

3. If the court determines that the available information is insufficient to permit an informed determination regarding whether the minor meets the criteria specified in subsection B, the court shall schedule a commitment hearing that shall be conducted in accordance with the procedures specified in §§ 16.1-341 through 16.1-345. The minor may be detained in the hospital for up to 120 additional hours pending the holding of the commitment hearing.

D. A minor admitted under this section who rescinds his objection may be retained in the hospital pursuant to § 16.1-338.

E. If the parent who consented to a minor's admission under this section revokes his consent at any time, the minor shall be released within 48 hours to the parent's custody unless the minor's continued hospitalization is authorized pursuant to § 16.1-340.1 or 16.1-345. If the 48-hour time period expires on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the 48 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

F. A minor who has been hospitalized while properly detained by a juvenile and domestic relations district court or circuit court shall be returned to the detention home, shelter care, or other facility approved by the Department of Juvenile Justice by the sheriff serving the jurisdiction where the minor was detained within 24 hours following completion of a period of inpatient treatment, unless the court having jurisdiction over the case orders that the minor be released from custody.

In the event counsel is appointed to defend an indigent charged with a felony that is punishable as a Class 1 felony, each attorney appointed shall continue to receive compensation as provided in this paragraph for defending such a felony, regardless of whether the charge is reduced or amended to a lesser felony, prior to final disposition of the case. In the event counsel is appointed to defend an indigent charged with any other felony, such counsel shall receive compensation as provided in this paragraph for defending such a felony, regardless of whether the

charge is reduced or amended to a misdemeanor or lesser felony prior to final disposition of the case in either the district court or circuit court.

Counsel appointed to represent an indigent accused in a criminal case, who are not public defenders, may request an additional waiver exceeding the amounts provided for in this section. The request for any additional amount shall be submitted to the presiding judge, in writing, with a detailed accounting of the time spent and the justification for the additional amount. The presiding judge shall determine, subject to guidelines issued by the Executive Secretary of the Supreme Court of Virginia, whether the request for an additional amount is justified in whole or in part, by considering the effort expended and the time reasonably necessary for the particular representation, and, if so, shall forward the request as approved to the chief judge of the circuit court or district court for approval. If the presiding judge determines that the request for an additional amount is not justified in whole or in part, such presiding judge shall provide to the requesting attorney, in writing, the reasons for such determination and shall, if such request has been approved in part, include a copy of such writing when forwarding the request as approved to the chief judge of the circuit court or district court for approval. If the chief judge of the circuit court or district court, upon review of the request as approved, determines, subject to the guidelines issued by the Executive Secretary of the Supreme Court of Virginia, that any part of the request for an additional amount is not justified, such chief judge shall provide to the requesting attorney and to the presiding judge, in writing, the reason for such determination.

If at any time the funds appropriated to pay for waivers under this section become insufficient, the Executive Secretary of the Supreme Court of Virginia shall so certify to the courts and no further waivers shall be approved.

The circuit or district court shall direct the payment of such reasonable expenses incurred by such court-appointed counsel as it deems appropriate under the circumstances of the case. Counsel appointed by the court to represent an indigent charged with repeated violations of the same section of the Code of Virginia, with each of such violations arising out of the same incident, occurrence, or transaction, shall be compensated in an amount not to exceed the fee prescribed for the defense of a single charge, if such offenses are tried as part of the same judicial proceeding. The trial judge shall consider any guidelines established by the Supreme Court but shall have the sole discretion to fix the amount of compensation to be paid counsel appointed by the court to defend a felony charge that is punishable as a Class 1 felony.

The circuit or district court shall direct that the foregoing payments shall be paid out by the Commonwealth, if the defendant is charged with a violation of a statute, or by the county, city, or town, if the defendant is charged with a violation of a county, city, or town ordinance, to the attorney so appointed to defend such person as compensation for such defense.

Counsel representing a defendant charged with a Class 1 felony may submit to the court, on a monthly basis, a statement of all costs incurred and fees charged by him in the case during that month. Whenever the total charges as are deemed reasonable by the court for which payment has not previously been made or requested exceed $1,000, the court may direct that payment be made as otherwise provided in this section.

When such directive is entered upon the order book of the court, the Commonwealth, county, city, or town, as the case may be, shall provide for the payment out of its treasury of the sum of money so specified. If the defendant is convicted, the amount allowed by the court to the attorney appointed to defend him shall be taxed against the defendant as a part of the costs of prosecution and, if collected, the same shall be paid to the Commonwealth, or the county, city, or town, as the case may be. In the event that counsel for the defendant requests a waiver of the limitations on compensation, the court shall assess against the defendant an amount equal to the pre-waiver compensation limit specified in this section for each charge for which the defendant was convicted. An abstract of such costs shall be docketed in the judgment docket and execution lien book maintained by such court. *Notwithstanding any provision to the contrary, no person found indigent pursuant to § 19.2-159 shall have fees assessed against him for any amount paid for his legal representation pursuant to this article in an amount greater than the amount such defendant would have owed if the assessment took place on or before June 30, 2024.*

Any statement submitted by an attorney for payments due him for indigent representation or for representation of a child pursuant to § 16.1-266 shall, after the submission of the statement, be forwarded forthwith by the clerk to the Commonwealth, county, city, or town, as the case may be, responsible for payment. *Notwithstanding any provision to the contrary, if the court has determined such child's parents or other persons responsible for his care to be indigent pursuant to § 19.2-159, no fee shall be taxed by the clerk against any such child in an amount greater than the amount the clerk would have taxed against such child if the assessment took place on or before June 30, 2024.*

For the purposes of this section, the defense of a case may be considered conducted through to its conclusion and an appointed counsel entitled to compensation for his services in the event an indigent accused fails to appear in court subject to a capias for his arrest or a show cause summons for his failure to appear and remains a fugitive from justice for one year following the issuance of the capias or the summons to show cause, and appointed counsel has appeared at a hearing on behalf of the accused.

Effective July 1, 2007, the Executive Secretary of the Supreme Court of Virginia shall track and report the number and category of offenses charged involving adult and juvenile offenders in cases in which court-appointed counsel is assigned. The Executive Secretary shall also track and report the amounts paid by waiver above the initial cap to court-appointed counsel. The Executive Secretary shall provide these reports to the Governor, members of the House Committee on Appropriations, and members of the Senate Committee on Finance and Appropriations on a quarterly basis.

2. That the provisions of this act shall become effective on January 1, 2025.

CHAPTER 715

An Act to amend and reenact § 56-594.3 of the Code of Virginia, relating to shared solar programs; Phase II Utility; minimum bill; capacity.

[H 106]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 56-594.3 of the Code of Virginia is amended and reenacted as follows:

§ 56-594.3. Shared solar programs; Phase II Utility.

A. As used in this section:

"Administrative cost" means the reasonable incremental cost to the investor-owned utility to process subscribers' bills for the program.

"Applicable bill credit rate" means the dollar-per-kilowatt-hour rate used to calculate the subscriber's bill credit.

"Bill credit" means the monetary value of the electricity, in kilowatt-hours, generated by the shared solar facility allocated to a subscriber to offset that subscriber's electricity bill.

"Dual-use agricultural facility" means agricultural production and electricity production from solar photovoltaic panels occurring simultaneously on the same property.

"Gross bill" means the amount that a customer would pay to the utility based on the customer's monthly energy consumption before any bill credits are applied.

"Incremental cost" means any cost directly caused by the implementation of the shared solar program that would not have occurred absent the implementation of the shared solar program.

"Low-income customer" means any person or household whose income is no more than 80 percent of the median income of the locality in which the customer resides. The median income of the locality is determined by the U.S. Department of Housing and Urban Development.

"Low-income service organization" means a nonresidential customer of an investor-owned utility whose primary purpose is to serve low-income individuals and households.

"Low-income shared solar facility" means a shared solar facility at least 30 percent of the capacity of which is subscribed by low-income customers or low-income service organizations.

"Minimum bill" means an amount determined by the Commission under subsection D that ~~subscribers are~~ *a subscriber is* required to, at a minimum, pay on ~~their~~ *the subscriber's* utility bill each month after accounting for any bill credits.

"Net bill" means the resulting amount a customer must pay the utility after deducting the bill credit from the customer's monthly gross bill.

"Phase II Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Shared solar facility" means a facility that:

1. Generates electricity by means of a solar photovoltaic device with a nameplate capacity rating that does not exceed 5,000 kilowatts of alternating current;

2. Is ~~located in the service territory of an investor-owned electric utility~~ *interconnected with a Phase II Utility's distribution system within the Commonwealth*;

3. ~~Is connected to the electric distribution grid serving the Commonwealth;~~

~~4.~~ Has at least three subscribers;

~~5.~~ *4.* Has at least 40 percent of its capacity subscribed by customers with subscriptions of 25 kilowatts or less; and

~~6.~~ *5.* Is located on a single parcel of land.

"Shared solar program" or "program" means the program created through the adoption of rules to allow for the development of shared solar facilities.

"Subscriber" means a retail customer of a utility that (i) owns one or more subscriptions of a shared solar facility that is interconnected with the utility and (ii) receives service in the service territory of the same utility in whose service territory the shared solar facility is ~~located~~ *interconnected*.

"Subscriber organization" means any for-profit or nonprofit entity that owns or operates one or more shared solar facilities. A subscriber organization shall not be considered a utility solely as a result of its ownership or operation of a shared solar facility. *A subscriber organization licensed with the Commission shall be eligible to own or operate shared solar facilities in more than one investor-owned utility service territory.*

"Subscribed" means, in relation to a subscription, that a subscriber has made initial payments or provided a deposit to the owner of a shared solar facility for such subscription.

"Subscription" means a contract or other agreement between a subscriber and the owner of a shared solar facility. A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's average annual bill for the customer account to which the subscription is attributed.

"Utility" means a Phase II Utility.

B. The Commission shall establish by regulation a program that affords customers of a Phase II Utility the opportunity to participate in shared solar projects. Under its shared solar program, a utility shall provide a bill credit for the proportional output of a shared solar facility attributable to that subscriber. The shared solar program shall be administered as follows:

1. The value of the bill credit for the subscriber shall be calculated by multiplying the subscriber's portion of the kilowatt-hour electricity production from the shared solar facility by the applicable bill credit rate for the subscriber. Any amount of the bill credit that exceeds the subscriber's monthly bill, minus the minimum bill, shall be carried over and applied to the next month's bill.

2. The utility shall provide bill credits to a shared solar facility's subscribers for not less than 25 years from the date the shared solar facility becomes commercially operational.

3. The subscriber organization shall, on a monthly basis~~,~~ *and* in a standardized electronic format, and pursuant to guidelines established by the Commission, provide to the utility a subscriber list indicating the kilowatt-hours of generation attributable to each of the subscribers participating in a shared solar facility in accordance with the subscriber's portion of the output of the shared solar facility.

4. Subscriber lists may be updated monthly to reflect canceling subscribers and to add new subscribers. The utility shall apply bill credits to subscriber bills within two billing cycles following the cycle during which the energy was generated by the shared solar facility.

5. Each utility shall, on a monthly basis and in a standardized electronic format, provide to the subscriber organization a report indicating the total value of bill credits generated by the shared solar facility in the prior month, as well as the amount of the bill credit applied to each subscriber.

6. A subscriber organization may accumulate bill credits in the event that all of the electricity generated by a shared solar facility is not allocated to subscribers in a given month. On an annual basis and pursuant to guidelines established by the Commission, the subscriber organization shall furnish to the utility allocation instructions for distributing excess bill credits to subscribers.

7. ~~All~~ *A subscriber organization that registers a shared solar facility in the program within the first 200 megawatts alternating current of awarded capacity shall own all* environmental attributes associated with a shared solar facility, including renewable energy certificates~~,~~. *At such subscriber organization's direction, such environmental attributes may be distributed to subscribers, sold to load-serving entities with compliance obligations or other buyers, accumulated, or retired. For a shared solar facility registered in the program after the first 200 megawatts alternating current of awarded capacity, the registering subscriber organization* shall ~~be distributed to the subscribers~~ *transfer renewable energy certificates to a Phase II Utility to be retired for compliance with such Phase II Utility's renewable portfolio standard obligations pursuant to subsection C of § 56-585.5.*

8. Projects shall be entitled to receive incentives when they are located on rooftops, brownfields, or landfills, are dual-use agricultural facilities, or meet the definition of another category established by the Department of Energy pursuant to this section.

C. Each subscriber shall pay a minimum bill, established pursuant to subsection D, and shall receive an applicable bill credit based on the subscriber's customer class of residential, commercial, or industrial. Each class's applicable credit rate shall be calculated by the Commission annually by dividing revenues to the class by sales, measured in kilowatt-hours, to that class to yield a bill credit rate for the class ($/kWh).

D. The Commission shall establish a minimum bill, which shall include the costs of all utility infrastructure and services used to provide electric service and administrative costs of the shared solar program. The Commission may modify the minimum bill over time. In establishing the minimum bill, the Commission shall (i) consider further costs the Commission deems relevant to ensure subscribing customers pay a fair share of the costs of providing electric services and *generation sufficient to meet customer needs at all times,* (ii) minimize the costs shifted to customers not in a shared solar program*, and (iii) calculate the benefits of shared solar to the electric grid and to the Commonwealth and deduct such benefits from other costs. The Commission shall explicitly set forth its findings as to each cost and benefit, or other value used to determine such minimum bill.* Low-income customers shall be exempt from the minimum bill.

E. The Commission shall approve *part one of* a shared solar ~~facility~~ program *with an aggregate capacity* of ~~150~~ *200* megawatts ~~with a minimum requirement of 30 percent low-income customers~~. ~~The~~ *Upon a determination that at least 90 percent of the megawatts of the aggregate capacity of such program have been subscribed and that project construction is substantially complete, the* Commission shall approve *up to* an additional ~~50~~ *150* megawatts of capacity *as part two of such program,* ~~upon determining that at least 45~~ *75* megawatts of ~~the aggregated shared solar capacity in the Commonwealth have been subscribed to by~~ *which shall serve no more than 51 percent* low-income customers. Subscriber organizations shall be allowed to demonstrate compliance with the low income requirement using either project capacity or project savings methodology. The Commission, in collaboration with the Department of Energy, may adopt mechanisms to ensure low-income customer participation.

F. The Commission shall establish by regulation a shared solar program that complies with the provisions of subsections B, C, D, and E by ~~January~~ *March* 1, ~~2021~~ *2025*, and shall require each utility to file any tariffs, agreements, or forms necessary for implementation of the program ~~within 60 days of the utility's full implementation of a new customer information platform or~~ by ~~July~~ *December* 1, ~~2023, whichever occurs first~~ *2025*. *Any tariffs, agreements, and forms currently in effect at the time of enactment shall remain in effect until such revisions are approved by the Commission.* Any rule or utility implementation filings approved by the Commission shall:

1. Reasonably allow for the creation of shared solar facilities;

2. Allow all customer classes to participate in the program;

3. Create a stakeholder working group including low-income community representatives and community solar providers to facilitate low-income customer and low-income service organization participation in the program;

4. Encourage public-private partnerships to further the Commonwealth's clean energy and equity goals, such as state agency and affordable housing provider participation ~~in the program~~ as subscribers of *a* shared solar ~~projects~~ *program*;

5. Not remove a customer from its otherwise applicable customer class in order to participate in a shared solar facility;

6. Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a shared solar facility if the subscriber moves within the same utility's service territory;

7. Establish standards, fees, and processes for the interconnection of shared solar facilities that allow the utility to recover reasonable interconnection costs for each shared solar facility;

8. Adopt standardized consumer disclosure forms;

9. Allow the utility the opportunity to recover reasonable costs of administering the program;

10. Ensure nondiscriminatory and efficient requirements and utility procedures for interconnecting projects;

11. Address the co-location of two or more shared solar facilities on a single parcel of land and provide guidelines for determining when two or more *such* facilities are co-located;

12. Include a program implementation schedule;

13. Prohibit credit checks as a means of establishing eligibility for residential customers to become subscribers;

14. *Prohibit early termination fees and credit reporting for any low-income customer;*

15. Require a customer's affirmative consent by written or electronic signature before providing access to customer billing and usage data to a subscriber organization;

16. Establish customer engagement rules and minimum rules for education, contract reviews, and continued engagement;

17. Require net crediting functionality ~~as part of any new customer information platform approved by the Commission~~. Under net crediting, the utility shall include the shared solar subscription fee on the customer's utility bill and provide the customer with a net credit equivalent to the total bill credit value for that generation period minus the shared solar subscription fee as set by the subscriber organization. The net crediting fee shall not exceed one percent of the bill credit value. Net crediting shall be optional for subscriber organizations, and any shared solar subscription fees charged via the net crediting model shall be set to ensure that subscribers do not pay more in subscription fees than they receive in bill credits; and

~~15.~~ *18.* Allow the utility to recover as the cost of purchased power pursuant to § 56-249.6 any difference between the bill credit provided to the subscriber and the cost of energy injected into the grid by the subscriber organization.

G. Within 180 days of finalization of the Commission's adoption of regulations for the shared solar program, a utility shall~~, provided that the utility has successfully implemented its customer information platform,~~ begin crediting subscriber accounts of each shared solar facility interconnected in its service territory, subject to the requirements of this section and regulations adopted thereto.

2. That, pursuant to subdivision B 8 of § 56-594.3 of the Code of Virginia, as amended by this act, the Department of Energy (the Department) shall convene a stakeholder work group to determine the amounts and forms of project incentives and shall document the proceedings of the stakeholder work group, submit a written report to the Chairmen of the House Committee on Labor and Commerce and the Senate Committee on Commerce and Labor no later than November 30, 2024, and make such report publicly available on the Department's website at the same time as its submission to the House and Senate Committees. In establishing such project incentives, the Department shall give special consideration to projects seeking to leverage funding from the Virginia Brownfield and Coal Mine Renewable Energy Grant Program established pursuant to Article 7 (§ 45.2-1725) of Chapter 17 of Title 45.2 of the Code of Virginia.

3. That the State Corporation Commission shall initiate a proceeding to recalculate the minimum bill in accordance with § 56-594.3 of the Code of the Virginia, as amended by this act, within 30 days of its final order in the proceeding required by § 56-594 of the Code of Virginia.

CHAPTER 716

An Act to amend the Code of Virginia by adding a section numbered 56-594.4, relating to shared solar programs; Phase I Utility; minimum bill; capacity.

[H 108]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-594.4 as follows:

§ 56-594.4. Shared solar programs; Phase I Utility.

A. As used in this section:

"Administrative cost" means the reasonable incremental cost to the investor-owned utility to process subscribers' bills for the program.

"Applicable bill credit rate" means the dollar-per-kilowatt-hour rate used to calculate the subscriber's bill credit.

"Bill credit" means the monetary value of the electricity, in kilowatt-hours, generated by the shared solar facility allocated to a subscriber to offset that subscriber's electricity bill.

"Dual-use agricultural facility" means agricultural production and electricity production from solar photovoltaic panels occurring simultaneously on the same property.

"Gross bill" means the amount that a customer would pay to the utility based on the customer's monthly energy consumption before any bill credits are applied.

"Incremental cost" means any cost directly caused by the implementation of the shared solar program that would not have occurred absent the implementation of the shared solar program.

"Minimum bill" means an amount determined by the Commission under subsection D that a subscriber is required to, at a minimum, pay on the subscriber's utility bill each month after accounting for any bill credits.

"Net bill" means the resulting amount a customer must pay the utility after deducting the bill credit from the customer's monthly gross bill.

"Phase I Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Shared solar facility" means a facility that:

1. Generates electricity by means of a solar photovoltaic device with a nameplate capacity rating that does not exceed 5,000 kilowatts of alternating current;

2. Is interconnected with the distribution system of an investor-owned electric utility within the Commonwealth;

3. Has at least three subscribers;

4. Has at least 40 percent of its capacity subscribed by customers with subscriptions of 25 kilowatts or less; and

5. Is located on a single parcel of land.

"Shared solar program" or "program" means the program created through the adoption of rules to allow for the development of shared solar facilities.

"Subscriber" means a retail customer of a utility that (i) owns one or more subscriptions of a shared solar facility that is interconnected with the utility and (ii) receives service in the service territory of the same utility in whose service territory the shared solar facility is interconnected.

"Subscriber organization" means any for-profit or nonprofit entity that owns or operates one or more shared solar facilities. A subscriber organization shall not be considered a utility solely as a result of its ownership or operation of a shared solar facility. A subscriber organization licensed with the Commission shall be eligible to own or operate shared solar facilities in more than one investor-owned utility service territory.

"Subscription" means a contract or other agreement between a subscriber and the owner of a shared solar facility. A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's average annual bill for the customer account to which the subscription is attributed.

"Utility" means a Phase I Utility.

B. The Commission shall establish by regulation a program that affords customers of a Phase I Utility the opportunity to participate in shared solar projects. Under its shared solar program, a utility shall provide a bill credit for the proportional output of a shared solar facility attributable to that subscriber. The shared solar program shall be administered as follows:

1. The value of the bill credit for the subscriber shall be calculated by multiplying the subscriber's portion of the kilowatt-hour electricity production from the shared solar facility by the applicable bill credit rate for the subscriber. Any amount of the bill credit that exceeds the subscriber's monthly bill, minus the minimum bill, shall be carried over and applied to the next month's bill.

2. The utility shall provide bill credits to a shared solar facility's subscribers for not less than 25 years from the date the shared solar facility becomes commercially operational.

3. The subscriber organization shall, on a monthly basis and in a standardized electronic format, and pursuant to guidelines established by the Commission, provide to the utility a subscriber list indicating the percentage of shared solar capacity attributable to each of the subscribers participating in a shared solar facility in accordance with the subscriber's portion of the output of the shared solar facility.

4. Subscriber lists may be updated monthly to reflect canceling subscribers and to add new subscribers. The utility shall apply bill credits to subscriber bills within two billing cycles following the cycle during which the energy was generated by the shared solar facility.

5. Each utility shall, on a monthly basis and in a standardized electronic format, provide to the subscriber organization a report indicating the total value of bill credits generated by the shared solar facility in the prior month, as well as the amount of the bill credit applied to each subscriber.

6. A subscriber organization may accumulate bill credits in the event that all of the electricity generated by a shared solar facility is not allocated to subscribers in a given month. On an annual basis and pursuant to guidelines established by the Commission, the subscriber organization shall furnish to the utility allocation instructions for distributing excess bill credits to subscribers.

7. Any renewable energy certificates associated with a shared solar facility shall be distributed to a Phase I Utility to be retired for compliance with such Phase I Utility's renewable portfolio standard obligations pursuant to subsection C of § 56-585.5.

8. Projects shall be entitled to receive incentives when they are located on rooftops, brownfields, or landfills, are dual-use agricultural facilities, or meet the definition of another category established by the Department of Energy pursuant to this section.

C. Each subscriber shall pay a minimum bill, established pursuant to subsection D, and shall receive an applicable bill credit based on the subscriber's customer class of residential, commercial, or industrial. Each class's applicable credit rate shall be calculated by the Commission annually by dividing revenues to the class by sales, measured in kilowatt-hours, to that class to yield a bill credit rate for the class ($/kWh).

D. The Commission shall establish a minimum bill, which shall include the costs of all utility infrastructure and services used to provide electric service and administrative costs of the shared solar program. The Commission may modify the minimum bill over time. In establishing the minimum bill, the Commission shall (i) consider further costs the Commission deems relevant to ensure subscribing customers pay a fair share of the costs of providing electric services, (ii) minimize the costs shifted to customers not in a shared solar program, and (iii) calculate the benefits of shared solar to the electric grid and to the Commonwealth and deduct such benefits from other costs. The Commission shall explicitly set forth its findings as to each cost and benefit, or other value used to determine such minimum bill.

E. The Commission shall approve a shared solar program of 50 megawatts or six percent of peak load, whichever is less.

F. The Commission shall establish by regulation a shared solar program that complies with the provisions of subsections B, C, D, and E by January 1, 2025, and shall require each utility to file any tariffs, agreements, or forms necessary for implementation of the program by July 1, 2025. Any rule or utility implementation filings approved by the Commission shall:

1. Reasonably allow for the creation of shared solar facilities;

2. Allow all customer classes to participate in the program;

3. Encourage public-private partnerships to further the Commonwealth's clean energy and equity goals, such as state agency and affordable housing provider participation as subscribers of a shared solar program;

4. Not remove a customer from its otherwise applicable customer class in order to participate in a shared solar facility;

5. Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a shared solar facility if the subscriber moves within the same utility's service territory;

6. Establish standards, fees, and processes for the interconnection of shared solar facilities that allow the utility to recover reasonable interconnection costs for each shared solar facility;

7. Adopt standardized consumer disclosure forms;

8. Allow the utility the opportunity to recover reasonable costs of administering the program;

9. Ensure nondiscriminatory and efficient requirements and utility procedures for interconnecting projects;

10. Allow for the co-location of two or more shared solar facilities on a single parcel of land and provide guidelines for determining when two or more such facilities are co-located;

11. Include a program implementation schedule;

12. Prohibit credit checks as a means of establishing eligibility for residential customers to become subscribers;

13. Require a customer's affirmative consent by written or electronic signature before providing access to customer billing and usage data to a subscriber organization;

14. Establish customer engagement rules and minimum rules for education, contract reviews, and continued engagement;

15. Require net financial savings for low-income customers, as that term is defined in § 56-594.3, of at least 10 percent, relative to the subscription fee throughout the life of the subscription; and

16. Allow the utility to recover as the cost of purchased power pursuant to § 56-249.6 any difference between the bill credit provided to the subscriber and the cost of energy injected into the grid by the subscriber organization.

G. Within 180 days of finalization of the Commission's adoption of regulations for the shared solar program, a utility shall begin crediting subscriber accounts of each shared solar facility interconnected in its service territory, subject to the requirements of this section and regulations adopted thereto.

2. That, pursuant to subdivision B 8 of § 56-594.4 of the Code of Virginia, as created by this act, the Department of Energy (the Department) shall convene a stakeholder work group to determine the amounts and forms of project incentives and shall document the proceedings of the stakeholder work group, submit a written report to the Chairs of the House Committee on Labor and Commerce and the Senate Committee on Commerce and Labor no later than November 30, 2024, and make copies of such report publicly available on the Department's website at the same time as submission to the House and Senate Committees. In establishing such project incentives, the Department shall give special consideration to projects seeking to leverage funding from the Virginia Brownfield and Coal Mine Renewable Energy Grant Program established pursuant to Article 7 (§ 45.2-1725) of Chapter 17 of Title 45.2 of the Code of Virginia.

3. That the State Corporation Commission shall initiate a proceeding to recalculate the minimum bill in accordance with § 56-594.4 of Code of Virginia, as created by this act, within 30 days of its final order in the proceeding required by § 56-594 of the Code of Virginia.

C. Except as limited by subsection B, the provisions of § 55.1-1226 shall govern the terms and conditions of security deposits for rental agreements under this chapter.

D. No landlord shall charge a tenant for late payment of rent unless such charge is provided for in the written rental agreement. No such late charge shall exceed the lesser of 10 percent of the periodic rent or 10 percent of the remaining balance due and owed by the tenant.

The notice required by this section may be sent concurrently with the notice of intent to sell required by § 55.1-1308.2.

§ 55.1-1311. Other provisions of law applicable.

Section 55.1-1202, subsection A of § 55.1-1204, §§ 55.1-1207, 55.1-1208, 55.1-1216, 55.1-1224, 55.1-1226, 55.1-1228, 55.1-1234 through ~~55.1-1249, 55.1-1251,~~ 55.1-1252, and 55.1-1259 shall, insofar as they are not inconsistent with this chapter, apply, mutatis mutandis, to the rental and occupancy of a manufactured home lot*, including termination of a lot lease if a tenant commits a remediable breach and, after remedying such breach, intentionally commits a subsequent breach of a like nature, during the same lease term*.

[H 731]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-298.1, as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 22.1-298.1. (For effective date, see Acts 2022, cc. 549 and 550, cl. 2) Regulations governing licensure.

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection N or regulations issued by the Board ~~of Education~~.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a ~~Board of Education-approved~~ *Board-approved* industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the ~~Board of Education's~~ *Board's* regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board ~~of Education~~.

"Provisional license" means a nonrenewable license issued by the Board ~~of Education~~ for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the ~~Board of Education's~~ *Board's* regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board ~~of Education~~ for 10 years to an individual who meets the requirements specified in the ~~Board of Education's~~ *Board's* regulations.

B. The Board ~~of Education~~ shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders on grounds established by the Board, in accordance with law, notice of which shall be made by the Superintendent ~~of Public Instruction~~ to division superintendents or their designated representatives; and (iii) the immediate and thorough investigation by the division superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. At a minimum, such procedures for investigations contained in such regulations shall require (a) the division superintendent to petition for the revocation of the license upon completing such investigation and finding that there is reasonable cause to believe that the license holder has engaged in conduct that forms the basis for revocation of a license; (b) the school board to proceed to a hearing on such petition for revocation within 90 days of the mailing of a copy of the petition to the license holder, unless the license holder requests the cancellation of his license in accordance with Board regulations; and (c) the school board to provide a copy of the investigative file and such petition for revocation to the Superintendent ~~of Public Instruction~~ at the time that the hearing is scheduled. The Board ~~of Education~~ shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § 63.2-1526 have been exhausted. In the case of a teacher who is the subject of a founded complaint of child abuse or neglect and whose license has been revoked pursuant to this subsection, in the event that a court reverses such finding of abuse or neglect and the individual submits to the Department an application for the reinstatement of his license as a teacher, the Board shall consider and act upon such application no later than 90 days after the date of submission. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board ~~of Education~~ shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board ~~of Education~~ shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. 4. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille;

5. Every teacher seeking an initial license in the Commonwealth with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. E. No teacher who seeks a provisional license shall be required to meet any requirement set forth in subdivision D 1, 3, 6, or 8 as a condition of such licensure, but each such teacher shall complete each such requirement during the first year of provisional licensure.

F. The Board shall issue a license to an individual seeking initial licensure who has not completed professional assessments as prescribed by the Board, if such individual (i) holds a provisional license that will expire within three months or, at the discretion of the school board and division superintendent, within six months if the individual has received a satisfactory mid-year performance review in the current school year; (ii) is employed by a school board; (iii) is recommended for licensure by the division superintendent; (iv) has attempted, unsuccessfully, to obtain a qualifying score on the professional assessments as prescribed by the Board; (v) has received an evaluation rating of proficient or above on the performance standards for each year of the provisional license, and such evaluation was conducted in a manner consistent with the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents; and (vi) meets all other requirements for initial licensure.

G. Each local school board or division superintendent may waive for any individual whom it seeks to employ as a career and technical education teacher and who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education any applicable requirement set forth in subsection C or subdivision D 2, 4, or 6.

H. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

I. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations. Such alternate routes shall include eligibility for any individual to receive, notwithstanding any provision of law to the contrary, a renewable one-year license to teach in public high schools in the Commonwealth if he has:

general curriculum kindergarten through grade 12, special education deaf and hard of hearing preschool through grade 12, or special education blindness/visual impairments preschool through grade 12 or as a reading specialist shall include a rigorous test of science-based reading research and evidence-based literacy instruction; and

4. Met the requirements set forth in subdivisions D 1 and 3.

J. Notwithstanding any provision of law to the contrary, the Board (i) may provide for the issuance of a provisional license, valid for a period not to exceed three years, pursuant to subdivision D 5 or to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law; (ii) shall provide for the issuance of a provisional license, valid for a period not to exceed three years, to any former member of the Armed Forces of the United States or the Virginia National Guard who has received an honorable discharge and has the appropriate level of experience or training but does not meet the requirements for a renewable license; and (iii) may provide for the issuance of a provisional license, valid for a period not to exceed three years, to any individual who has held within the last five years a valid and officially issued and recognized license or certification to teach issued by an entity outside of the United States but does not meet the requirements for a renewable license if the individual's license or certification to teach has been evaluated and verified by an entity approved by the Department.

K. The Board's licensure regulations shall also provide for licensure by reciprocity:

1. With comparable endorsement areas for those individuals holding a valid out-of-state teaching license and national certification from the National Board for Professional Teaching Standards or a nationally recognized certification program approved by the Board ~~of Education~~. The application for such individuals shall require evidence of such valid licensure and national certification and shall not require official student transcripts;

2. For any spouse of an active duty or reserve member of the Armed Forces of the United States or a member of the Virginia National Guard who has obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department. Each such individual shall establish a file in the Department by submitting a complete application packet, which shall include official student transcripts and an official copy of the military permanent assignment orders of the individual's spouse. No service requirements or licensing assessments shall be required for any such individual. The Department shall determine and communicate such individual's eligibility for licensure by reciprocity within 15 business days of receipt of the complete application packet; and

3. For individuals who have obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department. Each such individual shall establish a file in the Department by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preschool through grade six and an alternate route to licensure for special education general curriculum kindergarten through grade 12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to subsection K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

N. The Board shall develop guidelines that establish a process to permit a school board or any organization sponsored by a school board to petition the Board for approval of an alternate route to licensure that may be used to meet the requirements for a provisional or renewable license or any endorsement. Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

2. That the Board of Education shall eliminate the requirement for any individual to take and receive a passing score on the Virginia Communication and Literacy Assessment as a condition of the initial award or renewal of a renewable license as a teacher in the Commonwealth.

1. *§ 1. The Department of Law's Division of Consumer Counsel (the Division) shall convene a work group to examine and make recommendations regarding the practice of persons receiving compensation for preparing, presenting, prosecuting, advising, consulting, or assisting any individual regarding any veterans' benefits matter before the U.S. Department of*

CHAPTER 731

An Act to amend and reenact § 15.2-901 of the Code of Virginia, relating to civil penalties for certain local property violations; industrial and commercial areas.

[H 755]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-901 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-901. Locality may provide for removal or disposal of trash and clutter, cutting of grass, weeds, and running bamboo; penalty in certain counties; penalty.

A. Any locality may, by ordinance, provide that:

1. The owners of property therein shall, at such time or times as the governing body may prescribe, remove therefrom any and all trash, garbage, refuse, litter, clutter, except on land zoned for or in active farming operation, and other substances that might endanger the health or safety of other residents of such locality, or may, whenever the governing body deems it necessary, after reasonable notice, have such trash, garbage, refuse, litter, clutter, except on land zoned for or in active farming operation, and other like substances that might endanger the health of other residents of the locality removed by its own agents or employees, in which event the cost or expenses thereof shall be chargeable to and paid by the owners of such property and may be collected by the locality as taxes are collected. For purposes of this section, "clutter" includes mechanical equipment, household furniture, containers, and similar items that may be detrimental to the well-being of a community when they are left in public view for an extended period or are allowed to accumulate.

2. Trash, garbage, refuse, litter, clutter, except on land zoned for or in active farming operation, and other debris shall be disposed of in personally owned or privately owned receptacles that are provided for such use and for the use of the persons disposing of such matter or in authorized facilities provided for such purpose and in no other manner not authorized by law.

3. The owners of occupied or vacant developed or undeveloped property therein, including such property upon which buildings or other improvements are located, shall cut the grass, weeds, and other foreign growth, including running bamboo as defined in § 15.2-901.1, on such property or any part thereof at such time or times as the governing body shall prescribe, or may, whenever the governing body deems it necessary, after reasonable notice as determined by the locality, have such grass, weeds, or other foreign growth cut by its agents or employees, in which event the cost and expenses thereof shall be chargeable to and paid by the owner of such property and may be collected by the locality as taxes are collected. For purposes of this provision, one written notice per growing season to the owner of record of the subject property shall be considered reasonable notice. No such ordinance adopted by any county shall have any force and effect within the corporate limits of any town. No such ordinance adopted by any county having a density of population of less than 500 per square mile shall have any force or effect except within the boundaries of platted subdivisions or any other areas zoned for residential, business, commercial, or industrial use. No such ordinance shall be applicable to land zoned for or in active farming operation. However, in any locality located in Planning District 6 or in Planning District 22, no such ordinance shall be applicable to land zoned for agricultural use unless such lot is one acre or less in area and used for a residential purpose. In any locality within Planning District 23, such ordinance may also include provisions for cutting overgrown shrubs, trees, and other such vegetation.

4. The owners of any land, regardless of zoning classification, used for the interment of human remains shall cut the grass, weeds, and other foreign growth, including running bamboo as defined in § 15.2-901.1, on such property or any part thereof at such time or times as the governing body shall prescribe, or may, whenever the governing body deems it necessary, after reasonable notice as determined by the locality, have such grass, weeds, or other foreign growth cut by its agents or employees, in which event the cost and expenses thereof shall be chargeable to and paid by the owner of such property and may be collected by the locality as taxes are collected. For purposes of this provision, one written notice per growing season to the owner of record of the subject property shall be considered reasonable notice. No such ordinance shall be applicable to land owned by an individual, family, property owners' association as defined in § 55.1-1800, or church.

B. Every charge authorized by this section with which the owner of any such property shall have been assessed and which remains unpaid shall constitute a lien against such property ranking on a parity with liens for unpaid local real estate taxes and enforceable in the same manner as provided in Articles 3 (§ 58.1-3940 et seq.) and 4 (§ 58.1-3965 et seq.) of Chapter 39 of Title 58.1. A locality may waive such liens in order to facilitate the sale of the property. Such liens may be waived only as to a purchaser who is unrelated by blood or marriage to the owner and who has no business association with the owner. All such liens shall remain a personal obligation of the owner of the property at the time the liens were imposed.

C. The governing body of any locality may by ordinance provide that violations of this section shall be subject to a civil penalty, not to exceed $50 for the first violation, or violations arising from the same set of operative facts. The civil penalty for subsequent violations not arising from the same set of operative facts within 12 months of the first violation shall not exceed $200. Each business day during which the same violation is found to have existed shall constitute a separate offense. In no event shall a series of specified violations arising from the same set of operative facts result in civil penalties that exceed a total of $3,000 in a 12-month period *or, in the case of property that is zoned or utilized for industrial or commercial purposes, $6,000 in a 12-month period*.

D. Except as provided in this subsection, adoption of an ordinance pursuant to subsection C shall be in lieu of criminal penalties and shall preclude prosecution of such violation as a misdemeanor. The governing body of any locality may, however, by ordinance provide that such violations shall be a Class 3 misdemeanor in the event three civil penalties have previously been imposed on the same defendant for the same or similar violation, not arising from the same set of operative facts, within a 24-month period. Classifying such subsequent violations as criminal offenses shall preclude the imposition of civil penalties for the same violation.

CHAPTER 732

An Act to amend and reenact §§ 2.2-3705.3, 4.1-1602, and 4.1-1603 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 16 of Title 4.1 a section numbered 4.1-1606, relating to medical cannabis program; product expiration; confidentiality; penalty.

[H 815]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

The application for such permit shall be made on a form provided by the Authority and signed by a pharmacist who will be in full and actual charge of the pharmaceutical processor's dispensing area or cannabis dispensing facility. The Board shall establish an application fee and other general requirements for such application.

B. Each permit shall expire annually on a date determined by the Board in regulation. The number of permits that the Board may issue or renew in any year is limited to one pharmaceutical processor and up to five cannabis dispensing facilities for each health service area established by the Board of Health. Permits shall be displayed in a conspicuous place on the premises of the pharmaceutical processor and cannabis dispensing facility.

C. The Board shall adopt regulations establishing health, safety, and security requirements for pharmaceutical processors and cannabis dispensing facilities. Such regulations shall include requirements for (i) physical standards; (ii) location restrictions; (iii) security systems and controls; (iv) minimum equipment and resources; (v) recordkeeping; (vi) labeling and packaging; (vii) routine inspections no more frequently than once annually; (viii) processes for safely and securely dispensing and delivering in person cannabis products to a patient, his registered agent, or, if such patient is a minor or a vulnerable adult as defined in § 18.2-369, such patient's parent or legal guardian; (ix) dosage limitations for cannabis products that provide that each dispensed dose of a cannabis product not exceed 10 milligrams of total tetrahydrocannabinol, except as permitted under § 4.1-1603.2; (x) a process for the wholesale distribution of and the transfer of usable cannabis, botanical cannabis, cannabis oil, and cannabis products between pharmaceutical processors, between a pharmaceutical processor and a cannabis dispensing facility, and between cannabis dispensing facilities; (xi) an allowance for the sale of devices for administration of dispensed cannabis products and hemp-based CBD products that meet the applicable standards set forth in state and federal law, including the laboratory testing standards set forth in subsection N; (xii) an allowance for the use and distribution of inert product samples containing no cannabinoids for patient demonstration exclusively at the pharmaceutical processor or cannabis dispensing facility, and not for further distribution or sale, without the need for a written certification; (xiii) a process for acquiring industrial hemp extracts and formulating such extracts into cannabis products; and (xiv) an allowance for the advertising and promotion of the pharmaceutical processor's products and operations, which shall not limit the pharmaceutical processor from the provision of educational material to practitioners who issue written certifications and patients. The Board shall also adopt regulations for pharmaceutical processors that include requirements for (a) processes for safely and securely cultivating cannabis plants intended for producing cannabis products, (b) the disposal of agricultural waste, and (c) a process for registering cannabis products.

D. The Board shall require pharmaceutical processors, after processing and before dispensing any cannabis products, to make a sample available from each batch of cannabis product for testing by an independent laboratory that is located in Commonwealth and meets Board requirements. A valid sample size for testing shall be determined by each laboratory and may vary due to sample matrix, analytical method, and laboratory-specific procedures. A minimum sample size of 0.5 percent of individual units for dispensing or distribution from each homogenized batch of cannabis oil is required to achieve a representative cannabis oil sample for analysis. A minimum sample size, to be determined by the certified testing laboratory, from each batch of botanical cannabis is required to achieve a representative botanical cannabis sample for analysis. Botanical cannabis products shall only be tested for the following: total cannabidiol (CBD), total tetrahydrocannabinol (THC), terpenes, pesticide chemical residue, heavy metals, mycotoxins, moisture, and microbiological contaminants. If a batch of botanical cannabis fails retesting after remediation, it shall be considered usable cannabis and may be processed into cannabis oil. Stability testing shall not be required for any cannabis product with an expiration date assigned by the pharmaceutical processor of ~~six~~ *12* months or less from the date of the cannabis product registration approval. Stability testing required for assignment of an expiration date longer than ~~six~~ *12* months shall be limited to microbial testing, on a pass/fail basis, and potency testing, on a 15 percent deviation basis, of total THC and total CBD. No cannabis product shall have an expiration date longer than ~~six~~ *12* months from the date of the cannabis product registration approval unless supported by stability testing.

F. Every pharmaceutical processor's dispensing area or cannabis dispensing facility shall be under the personal supervision of a licensed pharmacist on the premises of the pharmaceutical processor or cannabis dispensing facility unless all cannabis products are contained in a vault or other similar container to which only the pharmacist has access controls. The pharmaceutical processor shall ensure that security measures are adequate to protect the cannabis from diversion at all times, and the pharmacist-in-charge shall have concurrent responsibility for preventing diversion from the dispensing area.

Every pharmaceutical processor shall designate a person who shall have oversight of the cultivation and production areas of the pharmaceutical processor and shall provide such information to the Board. The Board shall direct all communications related to enforcement of requirements related to cultivation and production of cannabis and cannabis products by the pharmaceutical processor to such designated person.

G. The Board shall require the material owners of an applicant for a pharmaceutical processor or cannabis dispensing facility permit to submit to fingerprinting and provide personal descriptive information to be forwarded along with his fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding the applicant's material owners. The cost of fingerprinting and the

criminal history record search shall be paid by the applicant. The Central Criminal Records Exchange shall forward the results of the criminal history background check to the Board or its designee, which shall be a governmental entity.

J. A pharmaceutical processor to whom a permit has been issued by the Board may (i) establish up to five cannabis dispensing facilities, subject to the permit requirement set forth in subsection B, for the dispensing of cannabis products that have been cultivated and produced on the premises of a pharmaceutical processor permitted by the Board and (ii) establish, if authorized by the Board, one additional location at which the pharmaceutical processor may cultivate cannabis plants. Each cannabis dispensing facility and the additional cultivation location shall be located within the same health service area as the pharmaceutical processor.

N. A pharmaceutical processor may acquire from a registered industrial hemp handler or processor industrial hemp extracts that (i) are grown and processed in Virginia in compliance with state or federal law, and (ii) notwithstanding the tetrahydrocannabinol limits set forth in the definition of "industrial hemp extract" in § 3.2-5145.1, contain a total tetrahydrocannabinol concentration of no greater than 0.3 percent. A pharmaceutical processor may process and formulate such extracts into an allowable dosage of cannabis product. Industrial hemp extracts acquired and formulated by a pharmaceutical processor are subject to the same third-party testing requirements that may apply to cannabis plant extract. Testing shall be performed by a laboratory located in Virginia and in compliance with state law governing the testing of cannabis products. The industrial hemp handler or processor shall provide such third-party testing results to the pharmaceutical processor before industrial hemp extracts may be acquired.

O. Product labels for all cannabis products and botanical cannabis shall be complete, accurate, easily discernable, and uniform among different products and brands. Pharmaceutical processors shall affix to all cannabis products and botanical cannabis a label, which shall also be accessible on the pharmaceutical processor's website, that includes:

1. The product name;

2. All active and inactive ingredients, including cannabinoids, terpenes, additives, preservatives, flavorings, sweeteners, and carrier oils;

3. The total percentage and milligrams of tetrahydrocannabinol and cannabidiol included in the product and the number of milligrams of tetrahydrocannabinol and cannabidiol in each serving;

4. The amount of product that constitutes a single serving and the amount recommended for use by the practitioner or dispensing pharmacist;

5. Information regarding the product's purpose and detailed usage directions;

6. Child and safety warnings in a conspicuous font; and

7. Such other information required by the Board.

P. A pharmaceutical processor or cannabis dispensing facility shall maintain an adequate supply of cannabis products that (i) contain cannabidiol as their primary cannabinoid and (ii) have low levels of or no tetrahydrocannabinol.

Q. With the exception of § 2.2-4031, neither the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) nor public participation guidelines adopted pursuant thereto shall apply to the adoption of any regulation pursuant to this section. Prior to the initial dispensing of cannabis products pursuant to each written certification, a pharmacist or pharmacy technician employed by the pharmaceutical processor or cannabis dispensing facility shall make and maintain, on site or remotely by electronic means, for two years a paper or electronic copy of the written certification that provides an exact image of the document that is clearly legible; shall view, in person or by audiovisual means, a current photo identification of the patient, registered agent, parent, or legal guardian; and shall verify current board registration of the corresponding registered agent if applicable. Thereafter, an initial dispensing may be delivered to the patient, registered agent, parent, legal guardian, or designated caregiver facility. Prior to any subsequent dispensing of cannabis products pursuant to each written certification, an employee or delivery agent shall view a current photo identification of the patient, registered agent, parent, or legal guardian and the current board registration issued to the registered agent if applicable. No pharmaceutical processor or cannabis dispensing facility shall dispense more than a 90-day supply, as determined by the dispensing pharmacist or certifying practitioner, for any patient during any 90-day period. A pharmaceutical processor or cannabis dispensing facility may dispense less than a 90-day supply of a cannabis product for any patient during any 90-day period; however, a pharmaceutical processor or cannabis dispensing facility may dispense more than one cannabis product to a patient at one time. No more than four ounces of botanical cannabis shall be dispensed for each 30-day period for which botanical cannabis is dispensed. D. The concentration of total tetrahydrocannabinol in any cannabis product on site may be up to 15 percent greater than or less than the level of total tetrahydrocannabinol listed in the approved cannabis product registration. A pharmaceutical processor and cannabis dispensing facility shall ensure that such concentration in any cannabis product on site is within such range. A pharmaceutical processor producing cannabis products shall establish a stability testing schedule of cannabis products that have an expiration date of longer than ~~six~~ *12* months.

§ 4.1-1606. Confidentiality of reports, information, and records; penalty.

A. Except as otherwise provided in this section, any reports, information, or records received or maintained by the Board regarding active investigations or disciplinary proceedings for violations of this chapter shall be strictly confidential. The Board may only disclose such confidential information:

1. In a disciplinary proceeding before a health regulatory board or in any subsequent trial or appeal of an action or order;

2. To the permittee when entering into a confidential consent agreement;

3. To regulatory authorities tasked with granting, limiting, or denying licenses, certificates, or registrations to practice a health profession;

4. Pursuant to a court order for good cause arising from extraordinary circumstances;

5. To qualified personnel for bona fide research or educational purposes, provided that identifying information is redacted and the information is released pursuant to a written agreement that ensures compliance with this section;

6. To the Health Practitioners' Monitoring Program within the Department of Health Professions for the purpose of evaluating health practitioners who have applied to or participate in the Program; or

7. To the Joint Legislative Audit and Review Commission pursuant to § 30-59.

B. In no event shall confidential information received, maintained, or developed by the Board or disclosed by the Board to others pursuant to this section be available for discovery or court subpoena or introduced into evidence in any civil action. This section shall not, however, be construed to inhibit an investigation or prosecution under Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2.

C. Any claim of a practitioner-patient privilege shall not prevail in any investigation or proceeding by the Board when acting within the scope of its authority. However, the disclosure of any information pursuant to this section shall not be deemed a waiver of such privilege in any other proceeding.

D. This section shall not prohibit the Board, after consultation with the relevant health regulatory board president or his designee, from disclosing to the Attorney General, or the appropriate attorney for the Commonwealth, investigatory information that indicates a possible violation of any provision of criminal law, including the laws relating to the

manufacture, distribution, dispensing, prescribing, or administration of drugs, other than drugs classified as Schedule VI drugs and devices, by any individual regulated by the Board or any health regulatory board.

E. This section shall not prohibit the Board from (i) disclosing information regarding any (a) disciplinary action taken against a person holding a permit issued pursuant to this chapter in another state or in a federal health institution or any voluntary surrender of a license in another state while under investigation; (b) malpractice judgment against a person holding a permit issued pursuant to this chapter; or (c) settlement of a malpractice claim against a person holding a permit issued pursuant to this chapter or (ii) making any report of aggregate, non-identifying information.

F. This section shall not prohibit the Board, following consultation with any relevant health regulatory board president or his designee, from (i) disclosing information about a suspected violation of state or federal law or regulation to agencies within the Health and Human Resources Secretariat or to state or federal law-enforcement agencies having jurisdiction over the suspected violation or (ii) requesting an inspection or investigation of a permittee by such state or federal agency when the Board has reason to believe that a possible violation of state or federal law has occurred. Such disclosure shall not exceed the minimum information necessary to permit the state or federal agency having jurisdiction over the suspected violation of state or federal law or regulation to conduct an inspection or investigation. Disclosures by the Board pursuant to this subsection shall not be limited to requests for inspections or investigations of permittees. However, nothing in this subsection shall be construed to require the Board to make any disclosure or to permit any agency to which the Board makes a disclosure to re-disclose any information, reports, records, or materials received from the Board.

G. Whenever a complaint has been filed about a permittee under this chapter, the Board shall provide information to the source and the subject of the complaint regarding investigative and disciplinary procedures. Prior to interviewing a permittee who is the subject of a complaint, or at the time that the permittee is first notified in writing of the complaint, whichever occurs first, the Board shall provide the permittee with a copy of the complaint and any records or supporting documentation, unless such provision would materially obstruct a criminal or regulatory investigation. If the Board concludes that a disciplinary proceeding will not be instituted, the Board may send an advisory letter to the person who was the subject of the complaint. The Board may also inform the source of the complaint (i) that an investigation has been conducted, (ii) that the matter was concluded without a disciplinary proceeding, (iii) of the process the Board followed in making its determination, and (iv) if appropriate, that an advisory letter from the Board has been communicated to the person who was the subject of the complaint. In providing such information, the Board shall inform the source of the complaint that he is subject to the requirements of this section relating to confidentiality and discovery.

H. Orders and notices of the Board relating to disciplinary actions, other than confidential exhibits described in subsection I, shall be disclosed. The Board shall provide to the source of the complaint (i) information regarding the date and location of any disciplinary proceeding, allegations against the permittee, and the list of statutes and regulations the permittee is alleged to have violated prior to the proceeding and (ii) notice of the disposition of the disciplinary case.

I. In disciplinary actions in which a practitioner is or may be unable to practice with reasonable skill and safety to patients and the public because of a mental or physical disability, the Board shall consider whether to disclose and may decide not to disclose the practitioner's health records or services. Such information may be considered by the Board in a closed hearing and included in a confidential exhibit to a notice or order. The public notice or order shall identify, if known, the practitioner's mental or physical disability that is the basis for its determination. In the event that the Board determines that information should be withheld pursuant to this subsection, information contained in the confidential exhibit shall remain part of the Board's confidential record and is subject to court review under the Administrative Process Act (§ 2.2-4000 et seq.) and to release in accordance with this section.

J. This section shall not prohibit investigative staff authorized under § 54.1-2506 or investigative staff of any other agency to which disclosure of information about a suspected violation of state or federal law or regulation is authorized by subsection F from interviewing fact witnesses, disclosing to fact witnesses the identity of the subject of the complaint, or reviewing with fact witnesses any portion of records or other supporting documentation necessary to refresh the fact witnesses' recollection.

K. The provisions of this section shall apply only to information collected or maintained by the Board pursuant to the provisions of this chapter.

L. Any person that discloses confidential information of the Board in violation of this section is guilty of a Class 1 misdemeanor.

It shall not exclude any such committee, subcommittee, or entity because it has private sector or citizen members. Corporations organized by the Virginia Retirement System are "public bodies" for purposes of this chapter.

For the purposes of the provisions of this chapter applicable to access to public records, constitutional officers and private police departments as defined in § 9.1-101 shall be considered public bodies and, except as otherwise expressly provided by law, shall have the same obligations to disclose public records as other custodians of public records.

"Public records" means all writings and recordings that consist of letters, words, or numbers, or their equivalent, set down by handwriting, typewriting, printing, photostatting, photography, magnetic impulse, optical or magneto-optical form, mechanical or electronic recording, or other form of data compilation, however stored, and regardless of physical form or characteristics, prepared or owned by, or in the possession of a public body or its officers, employees, or agents in the transaction of public business.

"Regional public body" means a unit of government organized as provided by law within defined boundaries, as determined by the General Assembly, which unit includes two or more localities.

"Remote participation" means participation by an individual member of a public body by electronic communication means in a public meeting where a quorum of the public body is otherwise physically assembled.

"Scholastic records" means those records containing information directly related to a student or an applicant for admission and maintained by a public body that is an educational agency or institution or by a person acting for such agency or institution.

"Trade secret" means the same as that term is defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.).

2. That the provisions of this act are declarative of existing law.

1. *§ 1. The State Board of Social Services (the Board) is authorized to promulgate regulations to allow applications for the Home Energy Assistance Program to be submitted over an application period that provides adequate time for individuals to apply and is extended beyond the current application period in effect as of July 1, 2024, provided adequate funding is available to extend such application period. CHAPTER 735

An Act to amend and reenact § 19.2-354.1 of the Code of Virginia, relating to deferred or installment payment agreements; certain benefits; maximum amounts to be paid.

[H 896]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-354.1 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-354.1. Deferred or installment payment agreements.

A. For purposes of this section:

"Deferred payment agreement" means an agreement in which no installment payments are required and the defendant agrees to pay the full amount of the fines and costs at the end of the agreement's stated term.

"Fines and costs" means all fines, court costs, forfeitures, and penalties assessed in any case by a single court against a defendant for the commission of any crime or traffic infraction. "Fines and costs" includes restitution unless the court orders a separate payment schedule for restitution.

"Installment payment agreement" means an agreement in which the defendant agrees to make monthly or other periodic payments until the fines and costs are paid in full.

"Modified deferred payment agreement" means a deferred payment agreement in which the defendant also agrees to use best efforts to make monthly or other periodic payments.

B. The court shall give a defendant ordered to pay fines and costs written notice of the availability of deferred, modified deferred, and installment payment agreements and, if a community service program has been established, the availability of earning credit toward discharge of fines and costs through the performance of community service work. The court shall offer any defendant the opportunity to enter into a deferred payment agreement, modified deferred payment agreement, or installment payment agreement.

C. The court shall not deny a defendant the opportunity to enter into a deferred, modified deferred, or installment payment agreement solely (i) because of the category of offense for which the defendant was convicted or found not innocent, (ii) because of the total amount of all fines and costs, (iii) because the defendant previously defaulted under the terms of a payment agreement, (iv) because the fines and costs have been referred for collections pursuant to § 19.2-349, or (v) because the defendant has not established a payment history.

D. In determining the length of time to pay under a deferred, modified deferred, or installment payment agreement and the amount of the payments, a court shall take into account the defendant's financial resources and obligations, including any fines and costs owed by the defendant in other courts. In assessing the defendant's ability to pay, the court shall use a written financial statement, on a form developed by the Executive Secretary of the Supreme Court, setting forth the defendant's financial resources and obligations or conduct an oral examination of the defendant to determine his financial resources and obligations. The length of a payment agreement and the amount of the payments shall be reasonable in light of the defendant's financial resources and obligations and shall not be based solely on the amount of fines and costs. The court may offer a payment agreement combining an initial period during which no payment of fines and costs is required followed by a period of installment payments.

E. No court shall require a defendant to make a down payment upon entering a deferred, modified deferred, or installment payment agreement, other than a subsequent payment agreement, in which case the court may require a down payment pursuant to subsection I. Nothing in this section shall prevent a defendant from voluntarily making a down payment upon entering any payment agreement.

F. All fines and costs that a defendant owes for all cases in any single court may be incorporated into one payment agreement, unless otherwise ordered by the court in specific cases. A payment agreement shall include only those outstanding fines and costs for which the limitations period set forth in § 19.2-341 has not run.

G. Any payment received within 10 days of its due date shall be considered to be timely made.

H. At any time during the duration of a payment agreement, the defendant may request a modification of the agreement in writing on a form provided by the Executive Secretary of the Supreme Court, and the court may grant such modification based on a good faith showing of need.

I. A defendant who has defaulted on a payment agreement may petition the court for a subsequent payment agreement. In determining whether to approve the request for a subsequent payment agreement, the court shall consider any change in the defendant's circumstances. A court may require a down payment to enter into a subsequent payment agreement, provided that the down payment required to enter into a subsequent payment agreement shall not exceed (i) if the fines and costs owed are $500 or less, 10 percent of such amount or (ii) if the fines and costs owed are more than $500, five percent of such amount or $50, whichever is greater. When a defendant enters into a subsequent payment agreement, a court shall not require a defendant to establish a payment history on the subsequent payment agreement before restoring the defendant's driver's license.

J. In any case in which a defendant owes fines and costs and where such defendant's sole financial resource is a Social Security benefit or Supplemental Security Income, then such defendant shall be exempt from making payments at least until such time that such defendant has a resource other than a Social Security benefit or Supplemental Security Income. If such defendant informs the court that his sole financial resource is a Social Security benefit or Supplemental Security Income, the case shall not be referred to collections pursuant to § 19.2-349. Courts shall include in payment plan policies developed in accordance with §§ 19.2-354 and 19.2-354.1 that where the court is informed that a defendant receives a Social Security benefit or Supplemental Security Income, no payment toward fines and costs shall be taken from such exempt resource.

No Social Security benefit or Supplemental Security Income shall be considered an available resource in determining the length of time to pay under a deferred, modified deferred, or installment payment agreement and the amount of payments, if any, pursuant to subsection D.

CHAPTER 736

[H 994]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-241, 16.1-331, 16.1-333, 16.1-334, 20-45.1, 20-48, 20-89.1, and 20-90 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-241. Jurisdiction; consent for abortion.

The judges of the juvenile and domestic relations district court elected or appointed under this law shall be conservators of the peace within the corporate limits of the cities and the boundaries of the counties for which they are respectively chosen and within one mile beyond the limits of such cities and counties. Except as hereinafter provided, each juvenile and domestic relations district court shall have, within the limits of the territory for which it is created, exclusive original jurisdiction, and within one mile beyond the limits of said city or county, concurrent jurisdiction with the juvenile court or courts of the adjoining city or county, over all cases, matters and proceedings involving:

A. The custody, visitation, support, control or disposition of a child:

1. Who is alleged to be abused, neglected, in need of services, in need of supervision, a status offender, or delinquent except where the jurisdiction of the juvenile court has been terminated or divested;

2. Who is abandoned by his parent or other custodian or who by reason of the absence or physical or mental incapacity of his parents is without parental care and guardianship;

2a. Who is at risk of being abused or neglected by a parent or custodian who has been adjudicated as having abused or neglected another child in the care of the parent or custodian;

3. Whose custody, visitation or support is a subject of controversy or requires determination. In such cases jurisdiction shall be concurrent with and not exclusive of courts having equity jurisdiction, except as provided in § 16.1-244;

4. Who is the subject of an entrustment agreement entered into pursuant to § 63.2-903 or 63.2-1817 or whose parent or parents for good cause desire to be relieved of his care and custody;

5. Where the termination of residual parental rights and responsibilities is sought. In such cases jurisdiction shall be concurrent with and not exclusive of courts having equity jurisdiction, as provided in § 16.1-244;

6. Who is charged with a traffic infraction as defined in § 46.2-100; or

7. Who is alleged to have refused to take a blood test in violation of § 18.2-268.2.

In any case in which the juvenile is alleged to have committed a violent juvenile felony enumerated in subsection B of § 16.1-269.1, and for any charges ancillary thereto, the jurisdiction of the juvenile court shall be limited to conducting a preliminary hearing to determine if there is probable cause to believe that the juvenile committed the act alleged and that the juvenile was 16 years of age or older at the time of the commission of the alleged offense, and any matters related thereto. In any case in which the juvenile is alleged to have committed a violent juvenile felony enumerated in subsection C of § 16.1-269.1, and for all charges ancillary thereto, if the attorney for the Commonwealth has given notice as provided in subsection C of § 16.1-269.1, the jurisdiction of the juvenile court shall be limited to conducting a preliminary hearing to

determine if there is probable cause to believe that the juvenile committed the act alleged and that the juvenile was 16 years of age or older at the time of the commission of the alleged offense, and any matters related thereto. A determination by the juvenile court following a preliminary hearing pursuant to subsection B or C of § 16.1-269.1 to certify a charge to the grand jury shall divest the juvenile court of jurisdiction over the charge and any ancillary charge. In any case in which a transfer hearing is held pursuant to subsection A of § 16.1-269.1, if the juvenile court determines to transfer the case, jurisdiction of the juvenile court over the case shall be divested as provided in § 16.1-269.6.

In all other cases involving delinquent acts, and in cases in which an ancillary charge remains after a violent juvenile felony charge has been dismissed or a violent juvenile felony has been reduced to a lesser offense not constituting a violent juvenile felony, the jurisdiction of the juvenile court shall not be divested unless there is a transfer pursuant to subsection A of § 16.1-269.1.

The authority of the juvenile court to adjudicate matters involving the custody, visitation, support, control or disposition of a child shall not be limited to the consideration of petitions filed by a mother, father or legal guardian but shall include petitions filed at any time by any party with a legitimate interest therein. A party with a legitimate interest shall be broadly construed and shall include, but not be limited to, grandparents, step-grandparents, stepparents, former stepparents, blood relatives and family members. A party with a legitimate interest shall not include any person (i) whose parental rights have been terminated by court order, either voluntarily or involuntarily, (ii) whose interest in the child derives from or through a person whose parental rights have been terminated by court order, either voluntarily or involuntarily, including, but not limited to, grandparents, stepparents, former stepparents, blood relatives and family members, if the child subsequently has been legally adopted, except where a final order of adoption is entered pursuant to § 63.2-1241, or (iii) who has been convicted of a violation of subsection A of § 18.2-61, § 18.2-63, subsection B of § 18.2-366, or an equivalent offense of another state, the United States, or any foreign jurisdiction, when the child who is the subject of the petition was conceived as a result of such violation. The authority of the juvenile court to consider a petition involving the custody of a child shall not be proscribed or limited where the child has previously been awarded to the custody of a local board of social services.

A1. Making specific findings of fact required by state or federal law to enable a child to apply for or receive a state or federal benefit. For the purposes of this subsection only, when the court has obtained jurisdiction over the case of any child, the court may continue to exercise its jurisdiction until such person reaches 21 years of age, for the purpose of entering findings of fact or amending past orders, to include findings of fact necessary for the person to petition the federal government for status as a special immigrant juvenile, as defined by 8 U.S.C. § 1101(a)(27)(J).

B. The admission of minors for inpatient treatment in a mental health facility in accordance with the provisions of Article 16 (§ 16.1-335 et seq.) and the involuntary admission of a person with mental illness or judicial certification of eligibility for admission to a training center for persons with intellectual disability in accordance with the provisions of Chapter 8 (§ 37.2-800 et seq.) of Title 37.2. Jurisdiction of the involuntary admission and certification of adults shall be concurrent with the general district court.

C. Except as provided in subsections D and H, judicial consent to such activities as may require parental consent may be given for a child who has been separated from his parents, guardian, legal custodian or other person standing in loco parentis and is in the custody of the court when such consent is required by law.

D. Judicial consent for emergency surgical or medical treatment for a child who is neither married nor has ever been married, when the consent of his parent, guardian, legal custodian or other person standing in loco parentis is unobtainable because such parent, guardian, legal custodian or other person standing in loco parentis (i) is not a resident of the Commonwealth, (ii) has his whereabouts unknown, (iii) cannot be consulted with promptness, reasonable under the circumstances, or (iv) fails to give such consent or provide such treatment when requested by the judge to do so.

E. Any person charged with deserting, abandoning or failing to provide support for any person in violation of law.

F. Any parent, guardian, legal custodian or other person standing in loco parentis of a child:

1. Who has been abused or neglected;

2. Who is the subject of an entrustment agreement entered into pursuant to § 63.2-903 or 63.2-1817 or is otherwise before the court pursuant to subdivision A 4; or

3. Who has been adjudicated in need of services, in need of supervision, or delinquent, if the court finds that such person has by overt act or omission induced, caused, encouraged or contributed to the conduct of the child complained of in the petition.

G. Petitions filed by or on behalf of a child or such child's parent, guardian, legal custodian or other person standing in loco parentis for the purpose of obtaining treatment, rehabilitation or other services that are required by law to be provided for that child or such child's parent, guardian, legal custodian or other person standing in loco parentis. Jurisdiction in such cases shall be concurrent with and not exclusive of that of courts having equity jurisdiction as provided in § 16.1-244.

H. Judicial consent to apply for a work permit for a child when such child is separated from his parents, legal guardian or other person standing in loco parentis.

I. The prosecution and punishment of persons charged with ill-treatment, abuse, abandonment or neglect of children or with any violation of law that causes or tends to cause a child to come within the purview of this law, or with any other offense against the person of a child. In prosecution for felonies over which the court has jurisdiction, jurisdiction shall be limited to determining whether or not there is probable cause.

J. All offenses in which one family or household member is charged with an offense in which another family or household member is the victim and all offenses under § 18.2-49.1.

In prosecution for felonies over which the court has jurisdiction, jurisdiction shall be limited to determining whether or not there is probable cause. Any objection based on jurisdiction under this subsection shall be made before a jury is impaneled and sworn in a jury trial or, in a nonjury trial, before the earlier of when the court begins to hear or receive evidence or the first witness is sworn, or it shall be conclusively waived for all purposes. Any such objection shall not affect or be grounds for challenging directly or collaterally the jurisdiction of the court in which the case is tried.

K. Petitions filed by a natural parent, whose parental rights to a child have been voluntarily relinquished pursuant to a court proceeding, to seek a reversal of the court order terminating such parental rights. No such petition shall be accepted, however, after the child has been placed in the home of adoptive parents.

L. Any person who seeks spousal support after having separated from his spouse. A decision under this subdivision shall not be res judicata in any subsequent action for spousal support in a circuit court. A circuit court shall have concurrent original jurisdiction in all causes of action under this subdivision.

M. Petitions filed for the purpose of obtaining an order of protection pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1, and all petitions filed for the purpose of obtaining an order of protection pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10 if either the alleged victim or the respondent is a juvenile.

N. Any person who escapes or remains away without proper authority from a residential care facility in which he had been placed by the court or as a result of his commitment to the Virginia Department of Juvenile Justice.

O. Petitions for emancipation of a minor pursuant to Article 15 (§ 16.1-331 et seq.).

P. Petitions for enforcement of administrative support orders entered pursuant to Chapter 19 (§ 63.2-1900 et seq.) of Title 63.2, or by another state in the same manner as if the orders were entered by a juvenile and domestic relations district court upon the filing of a certified copy of such order in the juvenile and domestic relations district court.

Q. Petitions for a determination of parentage pursuant to Chapter 3.1 (§ 20-49.1 et seq.) of Title 20. A circuit court shall have concurrent original jurisdiction to the extent provided for in § 20-49.2.

R. [Repealed.]

S. Petitions filed by school boards against parents pursuant to §§ 16.1-241.2 and 22.1-279.3.

T. Petitions to enforce any request for information or subpoena that is not complied with or to review any refusal to issue a subpoena in an administrative appeal regarding child abuse and neglect pursuant to § 63.2-1526.

U. Petitions filed in connection with parental placement adoption consent hearings pursuant to § 63.2-1233. Such proceedings shall be advanced on the docket so as to be heard by the court within 10 days of filing of the petition, or as soon thereafter as practicable so as to provide the earliest possible disposition.

V. Petitions filed for the purpose of obtaining the court's assistance with the execution of consent to an adoption when the consent to an adoption is executed pursuant to the laws of another state and the laws of that state provide for the execution of consent to an adoption in the court of the Commonwealth.

W. Petitions filed by a juvenile seeking judicial authorization for a physician to perform an abortion if a minor elects not to seek consent of an authorized person.

After a hearing, a judge shall issue an order authorizing a physician to perform an abortion, without the consent of any authorized person, if he finds that (i) the minor is mature enough and well enough informed to make her abortion decision, in consultation with her physician, independent of the wishes of any authorized person, or (ii) the minor is not mature enough or well enough informed to make such decision, but the desired abortion would be in her best interest.

If the judge authorizes an abortion based on the best interests of the minor, such order shall expressly state that such authorization is subject to the physician or his agent giving notice of intent to perform the abortion; however, no such notice shall be required if the judge finds that such notice would not be in the best interest of the minor. In determining whether notice is in the best interest of the minor, the judge shall consider the totality of the circumstances; however, he shall find that notice is not in the best interest of the minor if he finds that (a) one or more authorized persons with whom the minor regularly and customarily resides is abusive or neglectful and (b) every other authorized person, if any, is either abusive or neglectful or has refused to accept responsibility as parent, legal guardian, custodian or person standing in loco parentis.

The minor may participate in the court proceedings on her own behalf, and the court may appoint a guardian ad litem for the minor. The court shall advise the minor that she has a right to counsel and shall, upon her request, appoint counsel for her.

Notwithstanding any other provision of law, the provisions of this subsection shall govern proceedings relating to consent for a minor's abortion. Court proceedings under this subsection and records of such proceedings shall be confidential. Such proceedings shall be given precedence over other pending matters so that the court may reach a decision promptly and without delay in order to serve the best interests of the minor. Court proceedings under this subsection shall be heard and decided as soon as practicable but in no event later than four days after the petition is filed.

An expedited confidential appeal to the circuit court shall be available to any minor for whom the court denies an order authorizing an abortion without consent or without notice. Any such appeal shall be heard and decided no later than five days after the appeal is filed. The time periods required by this subsection shall be subject to subsection B of § 1-210. An order authorizing an abortion without consent or without notice shall not be subject to appeal.

No filing fees shall be required of the minor at trial or upon appeal.

If either the original court or the circuit court fails to act within the time periods required by this subsection, the court before which the proceeding is pending shall immediately authorize a physician to perform the abortion without consent of or notice to an authorized person.

Nothing contained in this subsection shall be construed to authorize a physician to perform an abortion on a minor in circumstances or in a manner that would be unlawful if performed on an adult woman.

A physician shall not knowingly perform an abortion upon an unemancipated minor unless consent has been obtained or the minor delivers to the physician a court order entered pursuant to this section and the physician or his agent provides such notice as such order may require. However, neither consent nor judicial authorization nor notice shall be required if the minor declares that she is abused or neglected and the attending physician has reason to suspect that the minor may be an abused or neglected child as defined in § 63.2-100 and reports the suspected abuse or neglect in accordance with § 63.2-1509; or if there is a medical emergency, in which case the attending physician shall certify the facts justifying the exception in the minor's medical record.

For purposes of this subsection:

"Authorization" means the minor has delivered to the physician a notarized, written statement signed by an authorized person that the authorized person knows of the minor's intent to have an abortion and consents to such abortion being performed on the minor.

"Authorized person" means (i) a parent or duly appointed legal guardian or custodian of the minor or (ii) a person standing in loco parentis, including, but not limited to, a grandparent or adult sibling with whom the minor regularly and customarily resides and who has care and control of the minor. Any person who knows he is not an authorized person and who knowingly and willfully signs an authorization statement consenting to an abortion for a minor is guilty of a Class 3 misdemeanor.

"Consent" means that (i) the physician has given notice of intent to perform the abortion and has received authorization from an authorized person, or (ii) at least one authorized person is present with the minor seeking the abortion and provides written authorization to the physician, which shall be witnessed by the physician or an agent thereof. In either case, the written authorization shall be incorporated into the minor's medical record and maintained as a part thereof.

"Medical emergency" means any condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of the pregnant minor as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create a serious risk of substantial and irreversible impairment of a major bodily function.

"Notice of intent to perform the abortion" means that (i) the physician or his agent has given actual notice of his intention to perform such abortion to an authorized person, either in person or by telephone, at least 24 hours previous to the performance of the abortion or (ii) the physician or his agent, after a reasonable effort to notify an authorized person, has mailed notice to an authorized person by certified mail, addressed to such person at his usual place of abode, with return receipt requested, at least 72 hours prior to the performance of the abortion.

"Perform an abortion" means to interrupt or terminate a pregnancy by any surgical or nonsurgical procedure or to induce a miscarriage as provided in § 18.2-72, 18.2-73, or 18.2-74.

"Unemancipated minor" means a minor who has not been emancipated by (i) entry into a valid marriage *entered into prior to July 1, 2024, or lawfully entered into in another state or country prior to being domiciled in the Commonwealth*, even though the marriage may have been terminated by dissolution; (ii) active duty with any of the Armed Forces of the United States; (iii) willingly living separate and apart from his or her parents or guardian, with the consent or acquiescence of the parents or guardian; or (iv) entry of an order of emancipation pursuant to Article 15 (§ 16.1-331 et seq.).

X. Petitions filed pursuant to Article 17 (§ 16.1-349 et seq.) relating to standby guardians for minor children.

Y. Petitions involving minors filed pursuant to § 32.1-45.1 relating to obtaining a blood specimen or test results.

CHAPTER 738

An Act to amend and reenact §§ 24.2-653.01, 24.2-671, and 24.2-678 of the Code of Virginia, relating to conduct of elections; local electoral boards; certification and abstract of results; deadline.

[H 998]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That §§ 24.2-653.01, 24.2-671, and 24.2-678 of the Code of Virginia are amended and reenacted as follows:

§ 24.2-653.01. Provisional ballots; electoral boards to make determination as to validity.

A. The electoral board shall meet on the day following the election and determine whether each person having submitted a provisional vote pursuant to § 24.2-653 was entitled to do so as a qualified voter in the precinct in which he offered the provisional vote. In the case of persons voting provisionally pursuant to § 24.2-653.3, the electoral board shall determine of which district the person is a qualified voter. At the meeting, the voter may request an extension of the determination of the provisional vote in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions that it deems reasonable to determine the status of a provisional vote.

If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension, the meeting shall stand adjourned, not to exceed ~~seven~~ *10* calendar days from the date of the election, until the board has determined the validity of all provisional ballots offered in the election.

B. The electoral board shall permit one authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the electoral board a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

C. If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct or district in which he offered the provisional vote, is unable to determine his right to vote, or has not been provided one of the forms of identification specified in subsection B of § 24.2-643, or the signed statement that the voter is the named registered voter he claims to be, the envelope containing his ballot shall not be opened and his vote shall not be counted. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

The provisional vote shall be counted if (i) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (ii) the Department of Elections or the voter presents proof that indicates the voter submitted an application for registration to a state-designated voter registration agency or the voter's information was transmitted by the Department of Motor

Vehicles to the Department of Elections pursuant to § 24.2-411.3 prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection B of § 24.2-652.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted, the envelope shall be opened, and the ballot shall be placed in a ballot container without any inspection further than that provided for in § 24.2-646.

D. On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote. However, any voter who cast a provisional ballot and is determined by the electoral board to have been entitled to vote shall have his name included on the list of persons who voted that is submitted to the Department of Elections pursuant to § 24.2-406.

E. The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

§ 24.2-671. Electoral board to meet and ascertain results; conclusiveness of results.

A. Each electoral board shall meet at the clerk's or general registrar's office of the county or city for which they are appointed at or before 5:00 p.m. on the day after any election. The board may adjourn to another room of sufficient size in a public building to ascertain the results, and may adjourn as needed, not to exceed ~~seven~~ *10* calendar days from the date of the election unless an extension has been granted to accommodate a risk-limiting audit conducted pursuant to § 24.2-671.2. Written directions to the location of any room other than the clerk's or general registrar's office where the board will meet shall be posted at the doors of the clerk's and general registrar's offices prior to the beginning of the meeting.

~~The board shall open the returns delivered by the officers.~~

If the electoral board has exercised the option provided by § 24.2-668 for delivery of the election materials to the office of the general registrar on the night of the election, the electoral board shall meet at the office of the general registrar at or before 5:00 p.m. on the day after any election.

B. The board shall *open the returns delivered by the officers and* ascertain from the returns the total votes in the county or city, or town in a town election, for each candidate and for and against each question and complete the abstract of votes cast at such election, as provided for in § 24.2-675. For any office in which no person was elected by write-in votes, and for which the total number of write-in votes for that office is less than (i) 10 percent of the total number of votes cast for that office and (ii) the total number of votes cast for the candidate receiving the most votes, the electoral board shall ascertain the total votes for each write-in candidate for the office within one week following the election. For offices for which the electoral board issues the certificate of election, the result so ascertained, signed and attested, shall be conclusive and shall not thereafter be subject to challenge except as specifically provided in Chapter 8 (§ 24.2-800 et seq.).

Once the result is so ascertained, the secretary of the electoral board shall deliver one copy of each statement of results to the general registrar to be available for inspection when his office is open for business. The secretary shall then return all pollbooks, any printed inspection and return sheets, and one copy of each statement of results to the clerk.

~~Beginning with the general election in November 2007, a~~ *C. A* report of any changes made by the local electoral board to the unofficial results ascertained by the officers of election or any subsequent change to the official abstract of votes made by the local electoral board shall be forwarded to the State Board of Elections and the explanation of such change shall be posted on the State Board website.

D. Each political party and each independent candidate on the ballot, or each primary candidate, shall be entitled to have representatives present when the local electoral board meets to ascertain the results of the election. Each such party and candidate shall be entitled to have at least as many representatives present as there are teams of officials working to ascertain the results, and the room in which the local electoral board meets shall be of sufficient size and configuration to allow the representatives reasonable access and proximity to view the ballots as the teams of officials work to ascertain the results. The representatives and observers lawfully present shall be prohibited from interfering with the officials in any way. It is unlawful for any person to knowingly possess any firearm as defined in § 18.2-308.2:2 within 40 feet of any building, or part thereof, used as a meeting place for the local electoral board while the electoral board meets to ascertain the results of an election, unless such person is (a) any law-enforcement officer or any retired law-enforcement officer qualified pursuant to subsection C of § 18.2-308.016; (b) occupying his own private property that falls within 40 feet of a polling place; or (c) an armed security officer, licensed pursuant to Article 4 (§ 9.1-138 et seq.) of Chapter 1 of Title 9.1, whose employment or performance of his duties occurs within 40 feet of any building, or part thereof, used as a meeting place for the local electoral board while the electoral board meets to ascertain the results of an election.

§ 24.2-678. Law-enforcement officer to be sent for abstracts not forwarded.

If the State Board has not received the abstracts of votes from any county or city within ~~seven~~ *10* days after any election, it shall dispatch a law-enforcement officer to obtain a copy of the abstract from the official having charge thereof. That official shall immediately, on demand of the officer, make out and deliver to him the copy required, and the officer shall deliver the abstract to the State Board without delay.

[H 1247]

Approved April 8, 2024

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:2, as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:2. (For effective date, see Acts 2022, cc. 549 and 550, cl. 2) Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors or certain other licensed individuals as set forth in subdivision H 4, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support ~~(i)~~ ~~18.5~~ ~~full-time~~ ~~equivalent~~ ~~instructional~~ ~~positions~~ ~~in the~~ ~~2020-2021~~ ~~school~~ ~~year~~ ~~for each~~ ~~1,000~~ ~~students~~ ~~identified as having limited English proficiency~~ ~~and~~ ~~(ii)~~ ~~20~~ ~~full-time~~ ~~equivalent~~ ~~instructional~~ ~~positions~~ ~~in the~~ ~~2021-2022~~ ~~school~~ ~~year and thereafter~~ ~~for each~~ ~~1,000~~ ~~students~~ ~~identified as having limited English proficiency~~ *ratios of instructional positions to English language learner students, based on each such student's English proficiency level, as established in the general appropriation act*, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ one reading specialist for each 550 students in kindergarten through grade five and one reading specialist for each 1,100 students in grades six through eight. Each such reading specialist shall have training in science-based reading research and evidence-based literacy instruction practices. In addition, each such reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board. Local school divisions that employ a sufficient number of reading specialists to meet this staffing standard may assign reading specialists to grade levels according to grade levels with greatest need, regardless of the individual staffing standards established for grades kindergarten through five and six through eight.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to student enrollment:

1. Principals, one full-time in each elementary school, middle school, and high school, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors, one full-time equivalent position per 325 students in grades kindergarten through 12.

However, in order to meet the staffing requirements set forth in this subdivision, any local school board (i) may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, any professional counselor licensed by the Board of Counseling, clinical social worker licensed by the Board of Social Work, psychologist licensed by the Board of Psychology, or other licensed counseling professional with appropriate experience and training, provided that any such individual makes progress toward completing the requirements for full licensure as a school counselor during such period of employment or (ii) in the event that the school board does not receive any application from a licensed school counselor, professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training to fill a school counselor vacancy in the school division, may enter into an annual contract with another entity for the provision of school counseling services by a licensed professional counselor, clinical social worker, or psychologist or another licensed counseling professional with appropriate experience and training. Local school boards that employ a sufficient number of individuals to meet the staffing requirements set forth in this subdivision may assign such individuals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors or certain other licensed individuals as set forth in subdivision H 4, and shall be based on the school's total enrollment. The Board may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified.

Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

In order to fill vacant school psychologist positions, any local school board may employ, under a provisional license issued by the Department for three school years with an allowance for an additional two-year extension with the approval of the division superintendent, clinical psychologists licensed by the Board of Psychology, provided that any such individual makes progress toward completing the requirements for full licensure as a school psychologist during such period of employment.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.
