or systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or sellers.

§ 58.1-623. Sales or leases presumed subject to tax; exemption certificates.

A. All sales or leases are subject to the tax until the contrary is established. The burden of proving that a sale~~,~~ *or* distribution~~,~~ *of taxable services or tangible personal property or the* lease, or storage of tangible personal property is not taxable is upon the dealer unless he takes from the taxpayer a certificate to the effect that the property is exempt under this chapter. However, the sale or distribution of cigarettes shall be subject to the provisions of § 58.1-623.2 and require a cigarette exemption certificate issued pursuant to § 58.1-623.2.

B. The certificate mentioned in this section shall relieve the person who takes such certificate from any liability for the payment or collection of the tax, except upon notice from the Tax Commissioner that such certificate is no longer acceptable. Such certificate shall be signed by and bear the name and address of the taxpayer; shall indicate the number of the certificate of registration, if any, issued to the taxpayer; shall indicate the general character of the *taxable service or* tangible personal property sold, distributed, leased, or stored, or to be sold, distributed, leased, or stored under a blanket exemption certificate; and shall be substantially in such form as the Tax Commissioner may prescribe. If an exemption pertains to a nonprofit organization, other than a nonprofit church, that has qualified for a sales and use tax exemption under § 58.1-609.11, the exemption certificate shall be valid until the scheduled expiration date stated on the exemption certificate.

C. If a taxpayer who gives a certificate under this section makes any use of the *taxable service or tangible personal* property other than an exempt use or retention, demonstration, or display while holding the property for resale, distribution, or lease in the regular course of business, such use shall be deemed a taxable sale by the taxpayer as of the time the property or service is first used by him, and the cost of the property *or service* to him shall be deemed the sales price of such retail sale. If the sole use of the property *or service* other than retention, demonstration, or display in the regular course of business is the rental of the property while holding it for sale, distribution, or lease, the taxpayer may elect to pay the tax on the amount of the rental charged, rather than the cost of the property *or service* to him.

D. If a taxpayer gives a certificate under this section with respect to the purchase of fungible goods and thereafter commingles these goods with other fungible goods not so purchased, but of such similarity that the identity of the constituent goods in the commingled mass cannot be

determined, sales or distributions from the mass of commingled goods shall be deemed to be sales or distributions of the goods so purchased until a quantity of commingled goods equal to the quantity of purchased goods so commingled has been sold or distributed.

E. If a taxpayer fails to give the dealer at the time of purchase an exemption certificate previously issued by the Department, no interest shall be paid on a subsequent refund claim for any period prior to the date the taxpayer makes a complete refund claim with the Department. This subsection shall not apply to transactions exempted under self-executing certificates of exemption not issued to a specific taxpayer by the Department.

§ 58.1-648. Imposition of sales tax; exemptions.

A. Beginning January 1, 2007, there is levied and imposed, in addition to all other taxes and fees of every kind imposed by law, a sales or use tax on the customers of communications services in the amount of 5% of the sales price of each communications service that is sourced to the Commonwealth in accordance with § 58.1-649.

B. The sales price on which the tax is levied shall not include charges for any of the following: (i) an excise, sales, or similar tax levied by the United States or any state or local government on the purchase, sale, use, or consumption of any communications service that is permitted or required to be added to the sales price of such service, if the tax is stated separately; (ii) a fee or assessment levied by the United States or any state or local government, including but not limited to, regulatory fees and emergency telephone surcharges, that is required to be added to the price of service if the fee or assessment is separately stated; (iii) coin-operated communications services; (iv) sale or recharge of a prepaid calling service; (v) provision of air-to-ground radiotelephone services, as that term is defined in 47 C.F.R. § 22.99; (vi) a communications services provider's internal use of communications services in connection with its business of providing communications services; (vii) charges for property or other services that are not part of the sale of communications services, if the charges are stated separately from the charges for communications services; (viii) sales for resale; (ix) charges for communications services to the Commonwealth, any political subdivision of the Commonwealth, and the federal government and any agency or instrumentality of the federal government; and (x) charges for communications services to any customers on any federal military bases or installations when a franchise fee or similar fee for access is payable to the federal government, or any agency or instrumentality thereof, with respect to the same communications services.

C. Communications services on which the tax is hereby levied shall not include the following: (i) information services; (ii) installation or maintenance of wiring or equipment on a customer's premises; (iii) the sale or rental of tangible personal property; (iv) the sale of advertising, including but not limited to, directory advertising; (v) bad check charges; (vi) billing and collection services; (vii) Internet access service, electronic mail service, electronic bulletin board service, or similar services that are incidental to Internet access, such as voice-capable e-mail or instant messaging; (viii) ~~digital products delivered electronically, such as software,~~

Also, those entities exempt from the tax imposed in accordance with the provisions of Article 4 (§ 58.1-3812 et seq.) of Chapter 38 ~~of Title 58.1~~, in effect on January 1, 2006, shall continue to be exempt from the tax imposed in accordance with the provisions of this chapter."

5. That the provisions of the fourth enactment of this act shall become effective on January 1, 2025, and that the Department of Taxation shall develop guidelines implementing the provisions of the fourth enactment of this act. 2) For the second year, an additional 3.0 percent salary increase effective July 1, 2025, for funded SOQ instructional and support positions. Sufficient funds are appropriated in this act to finance, on a statewide basis, the state share of up to an additional 3.0 percent salary increase effective July 1, 2025, to school divisions that certify to the Department of Education that an equivalent increase will be provided to instructional and support personnel the second year. The state share of funding provided to a school division in support of this compensation supplement shall be prorated for school divisions that provide less than an additional average 3.0 percent salary increase the second year; however, to access these funds, a school division must provide at least an additional average 1.5 percent salary increase the second year. School divisions that provided an average increase in excess of 3.0 percent in the first year may credit the excess portion of the increase toward the second year for the purpose of accessing these funds in the second year.

3) Payments in the second year to any school division shall be based on providing the funds needed to continue the first year increase actually provided by the division plus the increase provided by the division in the second year.

b. Out of this appropriation, $818,874 the first year and $1,699,942 the second year from the general fund is provided for the state share of the salary increases stated in paragraph a. above for Academic Year Governor's Schools, and $549,105 the first year and $1,255,326 the second year from the Lottery Proceeds fund is provided for the state share of these salary increases for Regional Alternative Education Programs.

c. It is the intent that the average instructional and support position salaries are increased in local school divisions throughout the state by at least 3.0 percent the first year, at least an additional 3.0 percent the second year, resulting in a combined increase of at least 6.09 percent during the biennium.

d. The state funds that the school division is eligible to receive shall be matched by the local government based on the composite index of local ability-to-pay. This local match shall be

calculated for funded SOQ instructional and support positions using an effective date of July 1, 2024, the first year and July 1, 2025, the second year. Local school divisions shall certify to the Department of Education that funds used as the local match are derived solely from local revenue sources.

e. This funding is not intended as a mandate to increase salaries."

Explanation:

(This amendment provides $178.1 million the first year and $361.0 million the second year from the general fund to provide the state's share of two 3.0 percent salary increases provided on July 1, 2024 and July 1, 2025.)

B. Child Care Subsidy Program

1. The Department of Education and the Department of Social Services shall determine the amount of nongeneral funds to be transferred to the Department of Social Services to address costs associated with administration of the Child Care and Development Fund each year.

2. The Department of Education, in collaboration with the Department of Social Services, shall prepare an annual Child Care and Development Fund (CCDF) report that reflects all CCDF expenditures from the previous fiscal year, current grant balances and obligation and liquidation deadlines, as well as all anticipated spending for the current and two subsequent fiscal years. Identified spending should, at a minimum, be broken down by subsidies (mandated and

discretionary), administrative costs, and quality efforts. The plan also shall include a certification from the Department that the maximum amount of federal funds were drawn down in the preceding fiscal year. Should the Department be unable to certify that maximum federal funds were drawn down, the Department shall identify strategies for Virginia to obtain the maximum amount of federal funds in the following fiscal year(s) as part of this plan. In addition, this plan should report, by locality, the number of subsidies (mandated and discretionary) provided, number of providers receiving CCDF dollars, the overall number of child care providers, and the waitlist for services. This information should be provided the previous fiscal year, current fiscal year, and two subsequent fiscal years. The plan shall also include an appendix with the most recently completed CCDF annual report as required by the federal Office of Child Care. The department shall submit the report by October 1 of each year to the Governor and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees. In addition, the department shall post this report on its website along with any reports from previous fiscal years.

3. Notwithstanding 8VAC-20-790, the Department of Education shall establish an annual target at the local level for the number of children that may be served by available funds and ensure that each locality has mechanisms in place for maintaining waitlists if family demand exceeds the targets.

4. Family copayment rates for the 2024-2026 biennium shall not exceed those that were in effect at the beginning of fiscal year 2024.

5. Parental work and job search requirements for the 2024-2026 biennium shall not exceed those that were in effect at the beginning of fiscal year 2024.

C. Mixed Delivery Grant Program

1. A Mixed-Delivery initiative is established to support public-private delivery of early learning services for birth to five-year-old children. Programs must provide full-day or half-day services. The Department of Education is authorized to prorate payment for this program so as not to exceed available appropriation. Actual funding provided to the Virginia Early Childhood Foundation shall be based on the actual use of allocated slots. Lead agencies shall report to the Virginia Early Childhood Foundation on actual use of allocated slots, and any funds allocated but not used on the actual provision of early childhood services shall be returned to the Department of Education.

a) The Department of Education shall establish academic standards that are in accordance with appropriate preparation for students to be ready to successfully enter kindergarten. These standards shall be established in such a manner as to be measurable for student achievement and success. Students shall be required to be evaluated in the fall and in the spring by each participating provider and grantees must certify that the Virginia Preschool Initiative standards are followed in order to receive the funding for quality preschool education and criteria for the service components. Such standards shall align with the Virginia Standards of Learning for Kindergarten.

b) The Department of Education shall require and ensure that all participating classrooms have

the quality of their teacher-child interactions assessed through a rigorous and research-based observation instrument in accordance with the statewide measurement and improvement system VQB5.

c) Any locality that desires to participate in this grant program must submit a proposal each year to the Virginia Early Childhood Foundation. The application must be submitted by May 15 to align with the Virginia Preschool Initiative timeline. Each application shall identify a lead agency for this program within the locality. The lead agency shall be responsible for developing a local plan for the delivery of quality preschool services to at-risk birth to five-year-old children in private settings that demonstrates the coordination of resources in an effort to serve the greatest number of at-risk children.

d) The proposal must demonstrate: (i) coordination with all parties necessary for the successful delivery of comprehensive services, including schools, child care providers, local social services agencies, Head Start, local health departments, and other groups identified by the lead agency, (ii) a plan for supporting inclusive practices for children with identified special needs, (iii) a plan to transition the Mixed-Delivery local model into a sustainable program, and (iv) a mechanism for annually measuring and reporting unmet parental demand and preference, including establishing waitlists.

e) Local plans must indicate the number of at-risk children to be served, and the eligibility criteria for participation in this program shall be consistent with the economic and educational risk factors stated in the current program guidelines that are specific to: (i) family income at or below 200 percent of federal poverty guidelines, (ii) homelessness, (iii) student's parents or guardians are school dropouts, or (iv) children with disabilities or delays who are eligible for special education services under the Individuals with Disabilities Education Act, regardless of household income. Up to 15 percent of slots may be filled based on locally established eligibility criteria so as to meet the unique needs of at-risk children in the community. Localities that can demonstrate that more than 15 percent of slots are needed to meet the needs of at-risk children in their community may apply for a waiver from the Superintendent of Public Instruction to use a larger percentage of their slots. Localities must demonstrate that increasing eligibility will enable the maximization of federal funds and will not have a negative impact on access for other individuals currently being served.

f) Notwithstanding any provisions of § 22.1-299, Code of Virginia, and in order to achieve the priorities of the Joint Subcommittee on Early Childhood Care and Education for exploring the feasibility of and barriers to mixed delivery preschool systems in Virginia, recipients of a Mixed-Delivery Preschool grant shall be provided maximum flexibility within their respective local initiative in order to fully implement the associated goals and objectives of Mixed-Delivery Models. Recipients of a Mixed-Delivery Preschool grant and divisions participating in such grant activities shall be exempted from all regulatory and statutory provisions related to teacher licensure requirements and qualifications when paid by public funds within the confines of the Mixed-Delivery Preschool initiative.

g) Children served by the Mixed-Delivery initiative shall be assigned student identification

numbers as provided in § 22.1-287.03 B of the Code of Virginia to evaluate program outcomes and to permit comparison with Virginia Preschool Initiative outcomes.

h) Mixed-Delivery providers shall provide information to the Department of Education as necessary to fulfill the reporting requirement established.

i) The Department of Education shall report to the Governor and the Chairs of the House Committee on Education and the Senate Committee on Education and Health by July 1, 2025, on the efficacy of the Mixed-Delivery Initiative since the inception of the program and compare its outcomes relative to the Virginia Preschool Initiative and the Child Care Subsidy Program.

2. Providers in the program may collect copayments from participating families. Such copayments shall be based on the same schedule provided for the Child Care Subsidy Program.

3. Parental work and job search requirements shall be the same as required for the Child Care Subsidy Program.

D. Virginia Preschool Initiative

1.a. Funds shall be disbursed by the Department of Education to schools and community-based organizations to provide quality preschool programs for at-risk four-year-olds who are residents of Virginia and unserved by Head Start program funding and for at-risk five-year-olds who are not eligible to attend kindergarten, or who did not have access to a sufficient preschool experience and whose families request preschool as the most appropriate placement. Final Virginia Preschool Initiative placement decisions for eligible children shall be based on family and program leader input.

b. These state funds and required local matching funds shall be used to provide programs for at-risk four-year-old children, which include quality preschool education, health services, social services, parental involvement and transportation. It shall be the policy of the Commonwealth that state funds and required local matching funds for the Virginia Preschool Initiative not be used for capital outlay, not be used to supplant any Head Start federal funds provided for local early education programs, and not be used until the local Head Start grantee certifies that all local Head Start slots are filled. Programs must provide full-day or half-day and, at least, school-year services.

The Department of Education shall establish academic standards that are in accordance with appropriate preparation for students to be ready to successfully enter kindergarten. These standards shall be established in such a manner as to be measurable for student achievement and success. Students shall be required to be evaluated in the fall and in the spring by each participating school division and the school divisions must certify that the Virginia Preschool Initiative program follows the established standards in order to receive the funding for quality preschool education and criteria for the service components. Such standards shall align with the Virginia Standards of Learning for Kindergarten.

4) a) Grants shall be distributed based on an allocation formula providing the state share of a $9,968 per pupil grant in the first year and a $9,968 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program. Grants to

half-day programs shall be funded based on the state share of $4,984 in the first year and $4,984 in the second year per unserved at-risk four-year-old in each locality.

For Planning District Eight localities, grants shall be distributed based on an allocation formula providing the state share of a $10,701 per pupil grant in the first year and a $10,701 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program; grants to half-day programs for these localities shall be funded based on the state share of $5,351 in the first year and $5,351 in the second year per unserved at-risk four-year-old in each locality.

For the counties of Stafford, Fauquier, Spotsylvania, Clarke, Warren, Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, grants shall be distributed based on an allocation formula providing the state share of a $10,151 per pupil grant in the first year and a $10,151 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program; grants to half-day programs for these localities shall be funded based on the state share of $5,076 in the first year and $5,076 in the second year per unserved at-risk four-year-old in each locality.

The number of unserved at-risk four-year-olds in each locality shall be based on the projected number of kindergarten students, updated once each biennium for the Governor's introduced biennial budget. The Department of Education shall biennially rebenchmark the Virginia Preschool Initiative per pupil amounts using a formula similar to the current formula supporting public K-12 education in Virginia.

For slots filled as of September 30 each year, grants shall be based on the state share of 100 percent of the per pupil amount for a full-day or half-day program. For slots filled between October 1 and December 31 each year, grants shall be based on the state share of the per pupil amount for a full-day or half-day program prorated for the portion of the school year each child is served. Following the Department of Education's fall student record collection each year, the Department shall project the number of additional slots that may be filled between October 1 and December 31 each year. The Department of Education is authorized to prorate state funding for slots filled between October 1 and December 31 each year if demand exceeds available appropriation.

b) VPI Expansion funds are provided to serve at-risk three-year-olds who are residents of Virginia and unserved by Head Start funding using criteria determined by the Department of Education and subject to available appropriation. Localities may apply to participate by May 15 each year and shall be selected on a competitive basis. Localities shall be required to: (i) demonstrate broad stakeholder support, (ii) track outcomes for participating children, (iii) demonstrate how they will maximize federal and state funds to preserve existing birth to five slots, including certifying that all local Head Start slots are filled, (iv) support inclusive practices of children with identified special needs, and (v) collaborate among the school division, local department of social services, programs accepting child care subsidy payments, and providers for Head Start, private child care, and early childhood special education and early intervention programs. Localities that meet the following characteristics shall be prioritized for

participation: (i) communities with limited child care options; (ii) programs serving children in private, mixed-delivery settings; or (iii) communities that demonstrate full support of public and private providers. Grants shall be distributed based on an allocation formula providing the state share of the per pupil amounts as provided for four-year old slots.

c) Full-day programs shall operate for a minimum of five and one-half instructional hours, excluding breaks for meals, and half-day programs shall operate for a minimum of three hours of classroom instructional time per day, excluding breaks for lunch. Virginia Preschool Initiative programs may include unstructured recreational time that is intended to develop teamwork, social skills, and overall physical fitness in any calculation of total instructional time, provided that such unstructured recreational time does not exceed 15 percent of total instructional time or teaching hours. No additional state funding is provided for programs operating greater than three hours per day but less than five and one-half hours per day. In determining the state and local shares of funding, the composite index of local ability-to-pay is capped at 0.5000.

d) For new programs in the first year of implementation only, programs operating less than a full school year shall receive state funds on a fractional basis determined by the pro-rata portion of a school year program provided. In determining the prorated state funds to be received, a school year shall be 180 days or 990 teaching hours.

e) To ensure children with special needs have equitable opportunity to enter kindergarten ready, all Virginia Preschool Initiative programs are expected to be inclusive of children with disabilities. Specifically, programs shall meet or exceed a target inclusion rate, such that 10 percent of all children participating in the Virginia Preschool Initiative are children with disabilities, defined as those with an Individualized Education Plan, and are served in inclusive classrooms that include children who do not have an Individualized Education Plan. A program that is unable to meet this target shall provide reasons a 10 percent inclusion rate was not achieved in the given school year in its annual comprehensive report.

b.1) Any locality that desires to participate in this grant program must submit a proposal through its chief administrator (county administrator or city manager) by May 15 of each year. The chief administrator, in conjunction with the school superintendent, shall identify a lead agency for this program within the locality. The lead agency shall be responsible for developing a local plan for the delivery of quality preschool services to at-risk children, which demonstrates the coordination of resources and the combination of funding streams in an effort to serve the greatest number of at-risk four-year-old children and, if applicable, to serve at-risk three-year-old children. The plan shall also include a mechanism for annually measuring and reporting unmet parental demand and preference, including establishing waitlists.

2) The proposal must demonstrate coordination with all parties necessary for the successful delivery of comprehensive services, including the schools, child care providers, local social services agency, Head Start, local health department, and other groups identified by the lead agency. The proposal must identify which entities were consulted and how the locality will

ensure that federal funds are preserved and maximized including demonstrating compliance with Title I of the federal Elementary and Secondary Education Act to ensure that a Local Educational Agency receiving Title I funding coordinates with Head Start programs and other early learning programs receiving federal funds by developing Memorandums of Understanding with such agencies to coordinate services. The proposal must also demonstrate a plan for supporting inclusive practices for children with identified special needs.

3) A local match, based on the composite index of local ability-to-pay, shall be required. For purposes of meeting the local match, localities may use local expenditures for existing qualifying programs, however, at least fifty percent of the local match will be cash and no more than fifty percent will be in-kind. In-kind contributions are defined as cash outlays that are made by the locality that benefit the program but are not directly charged to the program. The value of fixed assets cannot be considered as an in-kind contribution. Philanthropic or other private funds may be contributed to the locality to be appropriated in their local budget and then utilized as local match. Localities shall also continue to pursue and coordinate other funding sources, including child care subsidies. Funds received through this program must be used to supplement, not supplant, any funds currently provided for programs within the locality. However, in the event a locality is unable to continue the previous level of support to programs for at-risk four-year-olds from Title I of the federal Elementary and Secondary Education Act (ESEA), the state and local funds provided in this grants program may be used to continue services to these Title I students. Such inability may occur due to adjustments to the allocation formula in the reauthorization of ESEA as the Every Student Succeeds Act of 2015, or due to a percentage reduction in a locality's Title I allocation in a particular year. Any locality so affected shall provide written evidence to the Superintendent of Public Instruction and request his approval to continue the services to Title I students.

c. Local plans must provide clear methods of service coordination for the purpose of reducing the per child cost for the service, increasing the number of at-risk children served and/or extending services for the entire year.

Examples of these include:
1) "Wraparound Services" - methods for combining funds such as child care subsidy dollars administered by local social service agencies with dollars for quality preschool education programs.

2) "Wrap-out Services" - methods for using grant funds to purchase quality preschool services to at-risk four-year-old children through an existing child care setting by purchasing comprehensive services within a setting which currently provides quality preschool education.

3) "Expansion of Service" - methods for using grant funds to purchase slots within existing programs, such as Head Start, which provides comprehensive services to at-risk three- and four-year-old children.

d. Local plans must indicate the number of at-risk four-year-old children to be served, and the eligibility criteria for participation in this program shall be consistent with the economic and educational risk factors stated in the current program guidelines that are specific to: (i) family

income at or below 200 percent of federal poverty guidelines, (ii) homelessness, (iii) student's parents or guardians are school dropouts, or (iv) children with disabilities or delays who are eligible for special education services under the Individuals with Disabilities Education Act, regardless of household income. Up to 15 percent of a division's slots may be filled based on locally established eligibility criteria so as to meet the unique needs of at-risk children in the community. If applicable, local plans must also indicate the number of at-risk three-year-old children to be served using the same eligibility criteria listed above. Localities that can demonstrate that more than 15 percent of slots are needed to meet the needs of at-risk children in their community may apply for a waiver from the Superintendent of Public Instruction to use a larger percentage of their slots. Localities must demonstrate that increasing eligibility will enable the maximization of federal funds and will not have a negative impact on access for other individuals currently being served.

e.1) The Department of Education shall provide technical assistance for the administration of this grant program to provide assistance to localities in developing a comprehensive, coordinated, quality preschool program that prepares all participants for kindergarten.

2) The Department shall provide interested localities with information on models for service delivery, methods of coordinating funding streams, such as funds to match federal IV-A child care dollars, to maximize funding without supplanting existing sources of funding for the provision of services to at-risk three- and four-year-old children. A priority for technical assistance in the design of programs shall be given to localities where the majority of the at-risk three- and four-year-old population is currently unserved.

f. VPI Expansion funds are provided to support Virginia Preschool Initiative slots to serve children on wait lists. In each year, unused grants distributed as provided in for four-year old slots shall be redistributed based on guidelines established by the Department of Education subject to the appropriation available for this purpose. Such guidelines shall provide the criteria used to redistribute grants and provide for the notification of grants redistribution to programs no later than July 1 of each year. The Department shall conduct this process annually, and the redistribution shall not affect the allocation formula for the subsequent year.

g.1) VPI Expansion funds are provided to support an add-on grant per child for approximately 2,000 children to incentivize mixed-delivery of services through private providers. These add-on grants are intended to provide funds to minimize the difference between the amount of the per-pupil grant allocation and the per-pupil cost to serve a child in a community-based or private provider setting. Recipients of the add-on grants will be encouraged to support classrooms that support inclusive practices of children with special needs. Localities shall indicate in their plans submitted pursuant to this Item how many of their Virginia Preschool Initiative slots will be provided in community-based or private provider settings to receive the add-on grant. Community-based providers that are recipients of Virginia Preschool Initiative grants shall be exempted from all regulatory and statutory provisions related to teacher licensure requirements and qualifications when paid by public funds within the confines of the Virginia Preschool Initiative community-add-on partnerships and provided that the provider meets the expectations of the statewide measurement and improvement system.

2) The amount of these add-on grants for community-based providers shall be informed by the Department of Education's methodology to estimate the actual cost of providing high-quality early childhood education services in community-based settings. This is not intended as a mandate to increase the individual amounts of these add-on grants or to increase the state appropriation supporting these add-on grants. The amount of the add-on grant plus the Virginia Preschool Initiative per pupil amount shall not exceed prevailing child care market rates in a particular region and shall align with Child Care Subsidy Program rates. The Department of Education is authorized to prorate payments for these add-on grants so as not to exceed the available appropriation.

h. VPI Expansion funds are provided to support increased Virginia Preschool Initiative teacher to student ratios and class sizes, as follows:

1) Any classroom that exceeds benchmarks set by the Board of Education shall be staffed as follows: (i) one teacher shall be provided for any class of ten students or less; (ii) if the enrollment in any class exceeds ten students but does not exceed 20, a full-time teacher's aide shall be assigned to the class; and (iii) the maximum class size shall be 20 students.

2) All other classrooms shall be staffed as follows: (i) one teacher shall be employed for any class of nine students or less; (ii) if the enrollment in any class exceeds nine students but does not exceed 18, a full-time teacher's aide shall be assigned to the class; and (iii) the maximum class size shall be 18 students.

j.1.) The Department of Education shall collect information from local Virginia Preschool Initiative programs and from providers participating in the Virginia Early Childhood Foundation's Mixed-Delivery Preschool Initiative as needed to compile a comprehensive report on the usage of state funds detailing, but not limited to the number of calculated slots and funding allocated to each local program or provider, and the number of such slots that have been filled.

2.) Such comprehensive report shall be aggregated in a manner to identify: (i) funding and the number of slots used to serve a student in a public school and non-public school setting, (ii) the number of three-year olds served, (iii) waitlist slots requested, offered, and provided, (iv) the number of students served whose families are at or below 130 percent poverty, above 130 percent but at or below 200 percent of poverty, above 200 percent but at or below 350 percent of poverty, and above 350 percent of poverty.

3.) Such comprehensive report shall describe the Virginia Preschool Initiative programs' progress towards the target inclusion rate, such that 10 percent of all children enrolled in each program are children with disabilities, defined as those with an Individualized Education Plan. Virginia Preschool Initiative programs shall report the share of children with Individualized Education Plans in inclusive classrooms annually starting with the 2020-2021 school year. If the program's current inclusion rate falls below 10 percent, the program shall provide reasons a 10 percent inclusion rate was not achieved in the given school year and what actions the program could implement to increase its rate of inclusion in the next year.

4.) The Department shall submit such comprehensive report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than December 31 each year.

5.) The Department shall develop a plan for comprehensive public reporting on early childhood expenditures, outcomes, and program quality to replace this reporting requirement. Such plan and subsequent reports shall consider the components included in this reporting requirement, and include all publicly-funded providers as defined in Chapter 860 and Chapter 861, 2020 Acts of Assembly. The plan shall identify any fiscal, legislative, or regulatory barriers to implementing such public reporting, and shall consider integration with the Department's School Quality Profiles. The Department of Education shall submit an update on implementation of the plan to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1 each year. Once fully implemented, the Department of Education shall update and submit the report by December 1 of each year.

G. Notwithstanding 8VAC-20-780, or any other requirement in state law or regulation, the Superintendent of Public Instruction shall have the authority to alter staff-to-child ratios and group sizes for licensed child day centers and child day centers that participate in the Child Care Subsidy Program or Mixed Delivery Grant Program by increasing the number of children per staff by (1) one child for groups of children from birth to the age of eligibility to attend public school, and (2) two children for groups of children from the age of eligibility to attend public school through 12 years. Child day centers that take advantage of this flexibility must notify families in writing of the temporary increase in ratios and group size. This authority and any resultant waiver of state law or regulation shall expire June 30, 2026. The Superintendent of Public Instruction shall ensure that any action taken under this provision is permissible under federal requirements.

H. The Early Childhood Care and Education Commission shall review and recommend updates to the current copayment schedule, parental work requirements, and attendance expectations applicable to the Child Care Subsidy Program and Mixed Delivery Grant Program. In its review, the Commission shall consider: (i) leveraging state general funds to minimize the fiscal cliff as family income increases beyond program eligibility, (ii) use of reasonable family copayments to minimize the need for additional general funds. No later than December 1, 2024, the Commission shall submit its recommendations to the to the Governor and the Chairmen of the House Committee on Appropriations, the Senate Committee on Finance and Appropriations, the House Committee on Commerce and Energy, the Senate Committee on Commerce and Labor, the House Committee on Education, and the Senate Committee on Education and Health."

"I.1. As a condition of this appropriation, $12,000,000 the first year and $14,500,000 the second year from the general fund is designated for the Innovative Internship Fund and Program, § 23.1-903.4, Code of Virginia. The funding is designed to expand paid or credit-bearing student internship and other work-based learning opportunities in collaboration with Virginia employers. In furtherance of the goal of providing all postsecondary students in Virginia with one or more paid internships during their undergraduate course of study, funding shall be used for: (a) institutional grants to enhance engagement with employers related to internship placement and to assist students in securing and successfully completing internships, including students that traditionally do not participate in such programs; (b) matching grants to small and midsize Virginia-based employers to enable increased paid internship participation by small and midsize businesses and nonprofit organizations; (c) promotional expenditures to encourage expansion of internship programs and participation by business and nonprofit organizations in Virginia and to increase recruitment and retention of students; and (d) administrative and other expenditures to accomplish the purposes of the Innovative Internship Fund and Program and this paragraph.

2. Institutional grants shall be awarded to support initiatives that are expected to produce a demonstrated increase in student participation in paid internship programs and work-based learning opportunities. Institutions shall be eligible for grants upon demonstrating that it is a key priority of the institution and its senior academic and administrative leadership to have a coordinated plan to expand internship participation by students, to incorporate internships in curricula, to report completion of internships and courses that include internships on student transcripts, and to remove administrative and financial barriers to internship opportunities. The

plan shall include: (i) an implementation timeline, (ii) the allocation of resources and funding strategies to support internships, (iii) the assignment of dedicated personnel to facilitate placement of students in internships and engage with employers, (iv) the identification of how the institution will support students that are less likely to participate in internships and work-based learning opportunities, to be employed in an occupation related to their major upon completion of their certificate or degree, or to earn at or above the average earnings of graduates in their program major; (v) opportunities to align existing student employment opportunities on campus to include best practices of an internship program; and (vi) metrics for measuring, reporting, and regularly reviewing progress on the plan. Institutions that have not developed a plan may be eligible for planning grants as long as the planning grants are led by senior academic and administrative leadership. In determining the amount of grant awards, the Council shall consider the number of undergraduate students enrolled at the institution, the number of students at the institution who participate in internships, and the numerical and percentage increase in internship participation expected to result from the initiative. In addition, the Council shall increase grant awards based upon the following factors: (i) an institution's emphasis on internships that are part of pathways to full-time employment with Virginia-based employers; (ii) the institutional initiative's alignment with specific state or regional programs or partnerships related to economic growth and diversification or workforce development in Virginia; (iii) an institution's strength of commitment as reflected in its reallocation of institutional funds or solicitation of philanthropic support or business partnerships to support the initiative. This funding is intended to be recurring for institutions that demonstrate substantial yearly progress in achieving the objectives of the initiative as measured by the number of internships successfully completed by students.

3. Matching grants may be provided to small and midsize Virginia-based employers that agree to provide paid internships according to criteria established by the Council in consultation with the Virginia Department of Workforce Development and Advancement and the Virginia Talent and Opportunity Partnership. Such criteria shall include: (i) a limitation of eligibility to for-profit business and nonprofit organizations, excluding institutions of higher education, with physical operations and facilities in Virginia and 150 or fewer Virginia-based employees; (ii) certification of employer eligibility by the Council following a training program of reasonable duration and agreement by the employer to reasonable mentoring and reporting obligations; (iii) a limitation of grant awards to reimbursement, not to exceed $7,500 per internship, for a maximum of one-half of wages, including FICA, and workplace subsidies, including transportation, housing, and other internship-related expenses, paid to or for the benefit of a student participating in a qualifying internship; (iv) the minimum and maximum number of hours required to ensure the student gains valuable work experience; (v) a limitation of the qualifying number of internships per employer; and (vi) the maximum timeframe for employers to be eligible to receive the grants. Prioritization of grant awards may consider employers of 50 or fewer employees. Funding may also be used to support staffing agency services related to intern recruitment for employers with 250 or fewer Virginia-based employees who are not otherwise eligible for matching grants under this paragraph.

4. The Council, through the Virginia Talent and Opportunity Partnership, and in consultation

with the Virginia Department of Workforce Development and Advancement and other stakeholders, shall develop and execute a promotional plan to raise awareness and foster expanded internship programs and participation by business and nonprofit organizations. The plan shall highlight the Commonwealth's goal to provide paid internship opportunities to all postsecondary students and shall provide for public recognition of employers based on their level of participation in internship programs. The plan shall include continued development of regional collaboratives among employers, educational organizations, and other regional stakeholders for the purpose of expanding internships in alignment with regional growth and diversification strategies and state and regional economic and workforce development initiatives. The plan also shall address the objective of encouraging secondary students in Virginia and outside Virginia to attend Virginia-based institutions of higher education and remain in the Commonwealth after completion through paid internships and pathways to full-time Virginia-based employment.

5. In administering the program authorized in this paragraph, the Council shall (i) engage stakeholders from business and industry, secondary and higher education, economic development, and state agencies and entities that are successfully engaging employers or successfully operating internship programs; (ii) explore strategies in Virginia and elsewhere on successful institutional, regional, statewide or sector-based internship programs; (iii) gather data on current institutional internship practices, scale, and outcomes; (iv) develop internship readiness educational resources, delivery methods, and outreach and awareness activities for employer partners, students, and institutional career development personnel; (v) pursue shared services or other efficiency initiatives, including technological solutions; and (vi) create a process to prioritize industry sectors and track key measures of performance in collaboration with the Virginia Office of Education Economics."

Explanation:

(This amendment eliminates language setting aside $1.0 million from the general fund each year from the Behavioral Health Loan Repayment Program for licensed behavioral health providers who are school-based. It also reduces funding contained in the introduced budget by $750,000 from the general fund each year for the program. Together with actions contained in Chapter 1, 2023 Special Session I, the program will have $4.8 million more each year for loan repayments over the fiscal year 2023 appropriation. The amendment expands the program to: (i) add child and adolescent psychiatry Fellows to the list of Tier 1 providers eligible for the program, (i) add Tier III providers who are mental health professionals as defined in § 54.1-2400.1 who do not already qualify for the program, and (iii) adds academic medical centers as a preferred practice site. Child and adolescent psychiatry fellows are licensed psychiatrists in other states, but it generally takes six months or more to become licensed in Virginia. This change will help efforts to recruit these practitioners to Virginia, with the goal of retaining them in Virginia's behavioral healthcare workforce. The amendment also replaces language contained in the introduced budget which proposed to change the minimum term of practice from two to three years, returning it to the original two-year requirement.)

Explanation:

(This amendment directs the Department of Medical Assistance Services to develop program guidelines for the Collaborative Care Model, in which behavioral health services are delivered in primary care practices. This amendment is a recommendation of the Joint Commission on Health Care (JCHC) and supported by findings from a 2023 JCHC report including that Virginia primary care practices' need for integrating behavioral health services is growing, but practices are struggling to meet the demand without additional resources. Health care professionals consistently indicated that limited insurance coverage for integrated primary care was a significant barrier to increase these services for patients in their practices, and, in 2023, Virginia was one of 26 states that had not yet implemented Medicaid coverage of the Collaborative Care Model.)

C. 1. Notwithstanding any other provision of law, the tobacco products tax imposed under § 58.1-1021.02 of the Code of Virginia shall be imposed on liquid nicotine, as defined in § 58.1-1021.01 of the Code of Virginia, at the rate of $0.066 per milliliter beginning July 1, 2020 for taxable sales or purchases occurring on and after such date, until July 1, 2024 for taxable sales occurring before such date.

2. Notwithstanding any other provision of law, the tobacco products tax imposed under § 58.1-1021.02 of the Code of Virginia shall be imposed on liquid nicotine, as defined in § 58.1-1021.01 of the Code of Virginia, at the rate of $0.11 per milliliter beginning July 1, 2024 for

taxable sales or purchases occurring on and after such date."

D. Notwithstanding any other provision of law, the tobacco products tax imposed under § 58.1-1021.02 of the Code of Virginia shall be imposed on any heated tobacco product, as defined in § 58.1-1021.01 of the Code of Virginia, at the rate of 20 percent of the wholesale price beginning July 1, 2024, for taxable sales or purchases occurring on and after such date."

Explanation:

(This amendment increases the tax on liquid nicotine from $0.066 per milliliter to $0.11 per milliliter effective July 1, 2024. This generates $10.9 million in fiscal year 2025 and $13.1 million in fiscal year 2026 in revenue to the Health Care Fund, which offsets general fund spending for the state's Medicaid match. Additionally, this amendment modifies the definition and tax on heated cigarettes consistent with House Bill 1099, 2024 Session.)

Charges for meals will be determined by the agency. Such charges shall be not less than the value of raw food and the cost of direct labor and utilities incidental to preparation and service. Each agency shall maintain records as to the calculation of meal charges and revenues collected. Except where appropriations for operation of the food service are from nongeneral funds, all revenues received from such charges shall be paid directly and promptly into the general fund. issue certificates of registration to such persons. The terms "retail sale" and a "sale at retail" also specifically include the separately stated charge made for supplies used during automotive repairs whether or not there is transfer of title or possession of the supplies and whether or not the supplies are attached to the automobile. If the price is attributable to services or property that are subject to tax at different tax rates under this chapter or Chapter 6.2 (§ 58.1-645 et seq.), the total price may be treated as attributable to the products subject to tax at the highest tax rate unless, at the dealer's option, the dealer can reasonably identify the portion of the sales price attributable to the products subject to tax at the lower rate from its books and records kept in the regular course of business.

§ 58.1-609.5. Service exemptions.

Warranty plans issued by an insurance company, which constitute insurance transactions, are subject to the provisions of subdivision 1 ~~above~~.

B. Notwithstanding the provisions of subsection A, the tax imposed by this chapter or pursuant to the authority granted in § 58.1-605 or 58.1-606 shall apply to digital personal property and taxable services, as those terms are defined in § 58.1-602.

§ 58.1-609.11. Exemptions for nonprofit entities.

A. For purposes of this section, "nonprofit organization" or "nonprofit entity" means an entity that meets the requirements of subsection D. "Nonprofit organization" or "nonprofit entity" includes a single member limited liability company whose sole member is a nonprofit organization.

B. Any nonprofit organization that holds a valid certificate of exemption from the Department of Taxation, or any nonprofit church that holds a valid self-executing certificate of exemption, that exempts it from collecting or paying state and local retail sales or use taxes as of June 30, 2003, pursuant to § 58.1-609.4, 58.1-609.7, 58.1-609.8, 58.1-609.9, or 58.1-609.10, as such sections are in effect on June 30, 2003, shall remain exempt from the collection or payment of such taxes under the same terms and conditions as provided under such sections as such sections existed on June 30, 2003, until: (i) July 1, 2007, for such entities that were exempt under § 58.1-609.4; (ii) July 1, 2008, for such entities that were exempt under § 58.1-609.7; (iii) July 1, 2004, for the first one-half of such entities that were exempt under § 58.1-609.8, except churches, which will remain exempt under the same criteria and procedures in effect for churches on June 30, 2003; (iv) July 1, 2005, for the second one-half of such entities that were exempt under § 58.1-609.8; and (v) July 1, 2006, for such entities that were exempt under § 58.1-609.9 or under § 58.1-609.10. At the end of the applicable period of such exemptions, to maintain or renew an exemption for the period of time set forth in subsection G, each entity must follow the procedures set forth in subsection C and meet the criteria set forth in subsection D. Provided, however, that any entity that was exempt from collecting sales and use tax shall continue to be exempt from such collection, and any entity that was exempt from paying sales and use tax for the purchase of services, as of June 30, 2003, shall continue to be exempt from such payment, provided that it follows the other procedures set forth in subsection C and meets the criteria set forth in subsection D. Provided further, however, that an educational institution doing business in the Commonwealth which provides a face-to-face educational experience in American government and was exempt pursuant to subdivision 4 of § 58.1-609.4 from paying sales and use tax for the purchase of services, as of June 30, 2003, shall continue to be exempt from such payment, provided that it follows the other procedures set forth in subsection C and meets the criteria set forth in subsection D.

C. 1. On and after July 1, 2004, in addition to the organizations described in subsection B, and except as restricted in subdivision 2, the tax imposed by this chapter or pursuant to the authority

granted in §§ 58.1-605 and 58.1-606 shall not apply to purchases of *taxable services or* tangible personal property for use or consumption by any nonprofit entity that, pursuant to this section, (i) files an appropriate application with the Department of Taxation, (ii) meets the applicable criteria, and (iii) is issued a certificate of exemption from the Department of Taxation for the period of time covered by the certificate.

2. If the entity that is exempt under this section is exempt from federal income tax under § 501(c)(19) of the Internal Revenue Code, or has annual gross receipts of less than $5,000 and is organized for at least one of the purposes set forth in § 501(c)(19) of the Internal Revenue Code, then the exemption under this section for such entity shall not apply to purchases of *taxable services or* tangible personal property that are used primarily (i) for social and recreational activities for members or (ii) for providing insurance benefits to members or members' dependents.

D. To qualify for the exemption under subsection C, a nonprofit entity must meet the applicable criteria under this subsection as follows:

1. a. The entity is exempt from federal income taxation (i) under § 501(c)(3) of the Internal Revenue Code; (ii) under § 501(c)(4) of the Internal Revenue Code and is organized for a charitable purpose; or (iii) under § 501(c)(19) of the Internal Revenue Code; or

b. The entity has annual gross receipts of less than $5,000, and the entity is organized for at least one of the purposes set forth in § 501(c)(3) of the Internal Revenue Code, one of the charitable purposes set forth in § 501(c)(4) of the Internal Revenue Code, or one of the purposes set forth in § 501(c)(19) of the Internal Revenue Code; and

2. The entity is in compliance with all applicable state solicitation laws and, where applicable, provides appropriate verification of such compliance; and

3. The entity's annual general administrative costs, including salaries and fundraising, relative to its annual gross revenue, under generally accepted accounting principles, is not greater than 40 percent; and

4. If the entity's gross annual revenue was at least $750,000 in the previous year, then the entity must provide a financial review performed by an independent certified public accountant. However, for any entity with gross annual revenue of at least $1 million in the previous year, the Department may require that the entity provide a financial audit performed by an independent certified public accountant. If the Department specifically requires an entity with gross annual revenue of at least $1 million in the previous year to provide a financial audit performed by an independent certified public accountant, then the entity shall provide such audit in order to qualify for the exemption under this section, which audit shall be in lieu of the financial review; and

5. If the entity filed a federal 990 or 990 EZ tax form, or the successor forms to such forms, with the Internal Revenue Service, then it must provide a copy of such form to the Department of Taxation; and

6. If the entity did not file a federal 990 or 990 EZ tax form, or the successor forms to such forms, with the Internal Revenue Service, then the entity must provide the following information:

a. A list of the Board of Directors or other responsible agents of the entity, composed of at least two individuals, with names and addresses where the individuals physically can be found; and

b. The location where the financial records of the entity are available for public inspection.

E. On and after July 1, 2004, in addition to the criteria set forth in subsection D, the Department of Taxation shall ask each entity for the total taxable purchases made in the preceding year, unless such records are not available through no fault of the entity. If the records are not available through no fault of the entity, then the entity must provide such information to the Department the following year. No information provided pursuant to this subsection (except the failure to provide available information) shall be a basis for the Department of Taxation to refuse to exempt an entity.

F. Any entity that is determined under subsections C, D, and E by the Department of Taxation to be exempt from paying sales and use tax shall also be exempt from collecting sales and use tax, at its election, if (i) the entity is within the same class of organization of any entity that was exempt from collecting sales and use tax on June 30, 2003, or (ii) the entity is organized exclusively to foster, sponsor, and promote physical education, athletic programs, and contests for youths in the Commonwealth.

G. The duration of each exemption granted by the Department of Taxation shall be no less than five years and no greater than seven years. During the period of such exemption, the failure of an exempt entity to maintain compliance with the applicable criteria set forth in subsection D shall constitute grounds for revocation of the exemption by the Department. At the end of the period of such exemption, to maintain or renew the exemption, each entity must provide the Department of Taxation the same information as required upon initial exemption and meet the same criteria.

H. For purposes of this section, the Department of Taxation and the Department of Agriculture and Consumer Services shall be allowed to share information when necessary to supplement the information required.

§ 58.1-612. Tax collectible from dealers; "dealer" defined; jurisdiction.

A. The tax levied by §§ 58.1-603 and 58.1-604 shall be collectible from all persons that are dealers, as defined in this section, and that have sufficient contact with the Commonwealth to qualify under (i) subsections B and C or (ii) subsections B and D.

B. As used in this chapter, "dealer" includes every person that:

1. Manufactures or produces *taxable services or* tangible personal property for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;

2. Imports or causes to be imported into this Commonwealth *taxable services or* tangible

personal property from any state or foreign country, for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;

3. Sells at retail, or that offers for sale at retail, or that has in its possession for sale at retail, or for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth, *taxable service or* tangible personal property;

4. Has sold at retail, used, consumed, distributed, *furnished,* or stored for use or consumption in this Commonwealth, *taxable services or* tangible personal property and that cannot prove that the tax levied by this chapter has been paid on the sale at retail, the use, consumption, distribution, or storage of such *taxable services or* tangible personal property;

5. Leases or rents tangible personal property for a consideration, permitting the use or possession of such property without transferring title thereto;

6. Is the lessee or rentee of tangible personal property and that pays to the owner of such property a consideration for the use or possession of such property without acquiring title thereto;

7. As a representative, agent, or solicitor, of an out-of-state principal, solicits, receives and accepts orders from persons in this Commonwealth for future delivery and whose principal refuses to register as a dealer under § 58.1-613; or

8. Becomes liable to and owes this Commonwealth any amount of tax imposed by this chapter, whether it holds, or is required to hold, a certificate of registration under § 58.1-613.

C. A dealer shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if it:

1. Maintains or has within this Commonwealth, directly or through an agent or subsidiary, an office, warehouse, or place of business of any nature;

2. Solicits business in this Commonwealth by employees, independent contractors, agents or other representatives;

3. Advertises in newspapers or other periodicals printed and published within this Commonwealth, on billboards or posters located in this Commonwealth, or through materials distributed in this Commonwealth by means other than the United States mail;

4. Makes regular deliveries of tangible personal property within this Commonwealth by means other than common carrier. A person shall be deemed to be making regular deliveries hereunder if vehicles other than those operated by a common carrier enter this Commonwealth more than 12 times during a calendar year to deliver goods sold by him;

5. Solicits business in this Commonwealth on a continuous, regular, seasonal, or systematic basis by means of advertising that is broadcast or relayed from a transmitter within this Commonwealth or distributed from a location within this Commonwealth;

6. Solicits business in this Commonwealth by mail, if the solicitations are continuous, regular,

seasonal, or systematic and if the dealer benefits from any banking, financing, debt collection, or marketing activities occurring in this Commonwealth or benefits from the location in this Commonwealth of authorized installation, servicing, or repair facilities;

7. Is owned or controlled by the same interests which own or control a business located within this Commonwealth;

8. Has a franchisee or licensee operating under the same trade name in this Commonwealth if the franchisee or licensee is required to obtain a certificate of registration under § 58.1-613;

9. Owns tangible personal property that is for sale located in this Commonwealth, or that is rented or leased to a consumer in this Commonwealth, or offers tangible personal property, on approval, to consumers in this Commonwealth;

10. Receives more than $100,000 in gross revenue, or other minimum amount as may be required by federal law, from retail sales in the Commonwealth in the previous or current calendar year, provided that in determining the amount of a dealer's gross revenues, the sales made by all commonly controlled persons as defined in subsection D shall be aggregated; or

11. Engages in 200 or more separate retail sales transactions, or other minimum amount as may be required by federal law, in the Commonwealth in the previous or current calendar year, provided that in determining the total number of a dealer's retail sales transactions, the sales made by all commonly controlled persons as defined in subsection D shall be aggregated.

D. A dealer is presumed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 (unless the presumption is rebutted as provided herein) if any commonly controlled person maintains a distribution center, warehouse, fulfillment center, office, or similar location within the Commonwealth that facilitates the delivery of tangible personal property sold by the dealer to its customers. The presumption in this subsection may be rebutted by demonstrating that the activities conducted by the commonly controlled person in the Commonwealth are not significantly associated with the dealer's ability to establish or maintain a market in the Commonwealth for the dealer's sales. For purposes of this subsection, a "commonly controlled person" means any person that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered, as the dealer or any other entity that, notwithstanding its form of organization, bears the same ownership relationship to the dealer as a corporation that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered.

E. Notwithstanding any other provision of this section, the following shall not be considered to determine whether a person that has contracted with a commercial printer for printing in the Commonwealth is a "dealer" and whether such person has sufficient contact with the Commonwealth to be required to register under § 58.1-613:

1. The ownership or leasing by that person of tangible or intangible property located at the Virginia premises of the commercial printer which is used solely in connection with the printing contract with the person;

2. The sale by that person of property of any kind printed at and shipped or distributed from the Virginia premises of the commercial printer;

3. Activities in connection with the printing contract with the person performed by or on behalf of that person at the Virginia premises of the commercial printer; and

4. Activities in connection with the printing contract with the person performed by the commercial printer within Virginia for or on behalf of that person.

F. In addition to the jurisdictional standards contained in subsections C and D, nothing contained in this chapter other than in subsection E shall limit any authority that this Commonwealth may enjoy under the provisions of federal law or an opinion of the United States Supreme Court to require the collection of sales and use taxes by any dealer that regularly or systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or sellers.

§ 58.1-623. Sales or leases presumed subject to tax; exemption certificates.

A. All sales or leases are subject to the tax until the contrary is established. The burden of proving that a sale~~;~~ *or* distribution~~;~~ *of taxable services or tangible personal property or the* lease, or storage of tangible personal property is not taxable is upon the dealer unless he takes from the taxpayer a certificate to the effect that the property is exempt under this chapter. However, the sale or distribution of cigarettes shall be subject to the provisions of § 58.1-623.2 and require a cigarette exemption certificate issued pursuant to § 58.1-623.2.

B. The certificate mentioned in this section shall relieve the person who takes such certificate from any liability for the payment or collection of the tax, except upon notice from the Tax Commissioner that such certificate is no longer acceptable. Such certificate shall be signed by and bear the name and address of the taxpayer; shall indicate the number of the certificate of registration, if any, issued to the taxpayer; shall indicate the general character of the *taxable service or* tangible personal property sold, distributed, leased, or stored, or to be sold, distributed, leased, or stored under a blanket exemption certificate; and shall be substantially in such form as the Tax Commissioner may prescribe. If an exemption pertains to a nonprofit organization, other than a nonprofit church, that has qualified for a sales and use tax exemption under § 58.1-609.11, the exemption certificate shall be valid until the scheduled expiration date stated on the exemption certificate.

C. If a taxpayer who gives a certificate under this section makes any use of the *taxable service or tangible personal* property other than an exempt use or retention, demonstration, or display while holding the property for resale, distribution, or lease in the regular course of business,

such use shall be deemed a taxable sale by the taxpayer as of the time the property or service is first used by him, and the cost of the property *or service* to him shall be deemed the sales price of such retail sale. If the sole use of the property *or service* other than retention, demonstration, or display in the regular course of business is the rental of the property while holding it for sale, distribution, or lease, the taxpayer may elect to pay the tax on the amount of the rental charged, rather than the cost of the property *or service* to him.

D. If a taxpayer gives a certificate under this section with respect to the purchase of fungible goods and thereafter commingles these goods with other fungible goods not so purchased, but of such similarity that the identity of the constituent goods in the commingled mass cannot be determined, sales or distributions from the mass of commingled goods shall be deemed to be sales or distributions of the goods so purchased until a quantity of commingled goods equal to the quantity of purchased goods so commingled has been sold or distributed.

E. If a taxpayer fails to give the dealer at the time of purchase an exemption certificate previously issued by the Department, no interest shall be paid on a subsequent refund claim for any period prior to the date the taxpayer makes a complete refund claim with the Department. This subsection shall not apply to transactions exempted under self-executing certificates of exemption not issued to a specific taxpayer by the Department.

§ 58.1-647. Definitions.

Terms used in this chapter shall have the same meanings as those used in Chapter 6 ~~of this title~~ *(§ 58.1-600 et seq.)*, unless defined otherwise, as follows:

"Communications services" means the electronic transmission, conveyance, or routing of voice, data, audio, video, or any other information or signals, including cable services, to a point or between or among points, by or through any electronic, radio, satellite, cable, optical, microwave, or other medium or method now in existence or hereafter devised, regardless of the protocol used for the transmission or conveyance. ~~The term~~ *"Communications services"* includes, but is not limited to, (i) the connection, movement, change, or termination of communications services; (ii) detailed billing of communications services; (iii) sale of directory listings in connection with a communications service; (iv) central office and custom calling features; (v) voice mail and other messaging services; and (vi) directory assistance.

"Customer" means the person who contracts with the seller of communications services. If the person who utilizes the communications services is not the contracting party, the person who utilizes the services on his own behalf or on behalf of an entity is the customer of such service. "Place of primary use" means the street address representative of where the customer's use of the communications services primarily occurs, which must be the residential street address or the primary business street address of the customer. "Postpaid calling service" means the communications service obtained by making a payment on a call-by-call basis either through the use of a credit card or payment mechanism such as a bank card, travel card, debit card, or by a charge made to a telephone number that is not associated with the origination or termination of the communications service.

"Prepaid calling service" means the right to access exclusively communications services, which must be paid for in advance and which enables the origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars that decrease in number with use.

"Service address" means, (i) the location of the telecommunications equipment to which a customer's call is charged and from which the call originates or terminates, regardless of where the call is billed or paid. If the location is not known in clause (i), "service address" means (ii) the origination point of the signal of the telecommunications system or in information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.
