Each constituent index element for a locality is its sum per March 31 ADM, or per capita, expressed as a percentage of the state average per March 31 ADM, or per capita, for the same element. A locality whose composite index exceeds 0.8000 shall be considered as having an index of 0.8000 for purposes of distributing all payments based on the composite index of local ability-to-pay. Each constituent index element for a locality used to determine the composite index of local ability-to-pay for the current biennium shall be the latest available data for the specified official base year provided to the Department of Education by the responsible source agencies no later than November 15, 2023.

b. For any locality whose total calendar year 2021 Virginia Adjusted Gross Income is comprised of at least 3 percent or more by nonresidents of Virginia, such nonresident income shall be excluded in computing the composite index of ability-to-pay. The Department of Education shall compute the composite index for such localities by using adjusted gross income data which exclude nonresident income, but shall not adjust the composite index of any other localities. The Department of Taxation shall furnish to the Department of Education such data as are necessary to implement this provision.

c.1) Notwithstanding the funding provisions in § 22.1-25 D, Code of Virginia, additional state funding for future consolidations shall be as set forth in future Appropriation Acts.

2) In the case of the consolidation of Bedford County and Bedford City school divisions, the fifteen year period for the application of a new composite shall apply beginning with the fiscal year that starts on July 1, 2013. The composite index established by the Board of Education shall equal the lowest composite index that was in effect prior to July 1, 2013, of any individual localities involved in such consolidation, and this index shall remain in effect for a period of fifteen years, unless a lower composite index is calculated for the combined division through the process for computing an index as set forth above.

3) If the composite index of a consolidated school division is reduced during the course of the fifteen year period to a level that would entitle the school division to a lower interest rate for a Literary Fund loan than it received when the loan was originally released, the Board of Education shall reduce the interest rate of such loan for the remainder of the period of the loan. Such reduction shall be based on the interest rate that would apply at the time of such adjustment. This rate shall remain in effect for the duration of the loan and shall apply only to those years remaining to be paid.

d. When it is determined that a substantial error exists in a constituent index element, the Department of Education will make adjustments in funding for the current school year only in the division where the error occurred. The composite index of any other locality shall not be changed as a result of the adjustment. No adjustment during the biennium will be made as a result of updating of data used in a constituent index element.

e. In the event that any school division consolidates two or more small schools, the division shall continue to receive Standards of Quality funding and provide for the required local expenditure for a period of five years as if the schools had not been consolidated. Small schools are defined as any elementary, middle, or high school with enrollment below 200, 300 and 400 students, respectively.

5. "Required Local Expenditure for the Standards of Quality" - The locality's share based on the composite index of local ability-to-pay of the cost required by all the Standards of Quality minus its estimated revenues from the state sales and use tax dedicated to public education, and those sales tax revenues transferred to the general fund from the Public Education

Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this Item, both of which are returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, as specified in this Item, collected by the Department of Education and distributed to school divisions in the fiscal year in which the school year begins.

6. "Required Local Match" - The locality's required share of program cost based on the composite index of local ability-to-pay for all Lottery and Incentive programs, where required, in which the school division has elected to participate in a fiscal year.

7. "Planning District Eight" - The nine localities which comprise Planning District Eight are Arlington County, Fairfax County, Loudoun County, Prince William County, Alexandria City, Fairfax City, Falls Church City, Manassas City, and Manassas Park City.

8. "State Share of the Standards of Quality" - The state share of the Standards of Quality (SOQ) shall be equal to the total funded SOQ cost for a school division less the school division's estimated revenues from the state sales and use tax dedicated to public education based on the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, adjusted for the state's share of the composite index of local ability to pay.

9. Entitlements under this Item that use school-level or division-level Free Lunch eligibility percentages to determine the entitlement amounts are based on the most recent data available as of the biennial rebenchmarking calculations made for the current biennium. For schools that participate in the Community Eligibility Provision program, such entitlements are based on the most recent Free Lunch eligibility data available prior to that school's enrollment in the Community Eligibility Provision program.

10. In the event that the general fund appropriations in this Item are not sufficient to meet the entitlements payable to school divisions pursuant to the provisions of this Item, the Department of Education is authorized to transfer any available general fund funds between these Items to address such insufficiencies. If the total general fund appropriations after such transfers remain insufficient to meet the entitlements of any program funded with general fund dollars, the Department of Education is authorized to prorate such shortfall proportionately across all of the school divisions participating in any program where such shortfall occurred.

11. The Department of Education is directed to apply a cap on inflation rates in the same manner prescribed in § 51.1-166.B, Code of Virginia, when updating funding to school divisions during the biennial rebenchmarking process.

12. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to combine the end-of-year Average Daily Membership (ADM) for those school divisions who have partnered together as a fiscal agent division and a contractual division for the purposes of calculating prevailing costs included in the Standards of Quality (SOQ).

13. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to include zeroes in the linear weighted average calculation of support non-personal costs for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).

14. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to eliminate the corresponding and appropriate object code(s) related to reported travel expenditures included the linear weighted average non-personal cost calculations for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).

15. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to eliminate the corresponding and appropriate object code(s) related to reported leases and rental and facility expenditures included the linear weighted average non-personal cost calculations for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).

16. Notwithstanding any other provision in statute or in this Item, the Department of

Education is directed to fund transportation costs using a 15 year replacement schedule, which is the national standard guideline, for school bus replacement schedule for the purpose of calculating funded transportation costs included in the Standards of Quality (SOQ).

17. To provide additional flexibility, notwithstanding the provisions of § 22.1-79.1, Code of Virginia, any school division that was granted a waiver regarding the opening date of the school year for the 2011-2012 school year under the good cause requirements shall continue to be granted a waiver for the 2024-2025 school year and the 2025-2026 school year.

B. General Conditions

1. The Standards of Quality cost in this Item related to fringe benefits shall be limited for instructional staff members to the employer's cost for a number not exceeding the number of instructional positions required by the Standards of Quality for each school division and for their salaries at the statewide prevailing salary levels as printed below.

Instructional Position	First Year Salary	Second Year Salary

a.1) Payment by the state to a local school division shall be based on the state share of fringe benefit costs of 55 percent of the employer's cost distributed on the basis of the composite index.

2) A locality whose composite index exceeds 0.8000 shall be considered as having an index of 0.8000 for purposes of distributing fringe benefit funds under this provision.

3) The state payment to each school division for retirement, social security, and group life insurance costs for non-instructional personnel is included in and distributed through Basic Aid.

b. Payments to school divisions from this Item shall be calculated using March 31 Average Daily Membership adjusted for half-day kindergarten programs.

c. Payments for health insurance fringe benefits are included in and distributed through Basic Aid.

2. Each locality shall offer a school program for all its eligible pupils which is acceptable to the Department of Education as conforming to the Standards of Quality program requirements.

3. In the event the statewide number of pupils in March 31 ADM results in a state share of cost exceeding the general fund appropriation in this Item, the locality's state share of Basic Aid shall be reduced proportionately so that this general fund appropriation will not be exceeded. In addition, the required local share of Basic Aid shall also be reduced proportionately to the reduction in the state's share.

4. The Department of Education shall make equitable adjustments in the computation of indices of wealth and in other state-funded accounts for localities affected by annexation, unless a court of competent jurisdiction makes such adjustments. However, only the indices of wealth and other state-funded accounts of localities party to the annexation will be adjusted.

5. In the event that the actual revenues from the state sales and use tax dedicated to public education and those sales tax revenues transferred to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this Item (both of which are returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service) for sales in the fiscal year in which the school year begins are different from the number estimated as the basis for this appropriation, the estimated state sales and use tax revenues shall not be adjusted.

Funding in support of one hour of additional instruction per day based on the percent of students eligible for the federal free lunch program with a pupil-teacher ratio range of 18:1 to 10:1, depending upon a school division's combined failure rate on the English and Math Standards of Learning, is included in Remedial Education Payments (C 9).

b. No actions provided in this section signify any intent of the General Assembly to mandate an increase in the number of instructional personnel per 1,000 students above the numbers explicitly stated in the preceding paragraph.

c. Appropriations in this Item include programs supported in part by transfers to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund pursuant to Part 3 of this Act. These transfers combined together with other appropriations from the general fund in this Item funds the state's share of the following revisions to the Standards of Quality pursuant to Chapters 939 & 955 of the Acts of Assembly of 2004: five elementary resource teachers per 1,000 students; one support technology position per 1,000 students; one instructional technology position per 1,000 students; and a full daily planning period for teachers at the middle and high school levels in order to relieve the financial pressure these education programs place on local real estate taxes.

d. To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers required by the Standards of Quality to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these SOQ funds in this manner shall only employ instructional personnel licensed by the Board of Education.

e. To provide flexibility in the provision of reading intervention services, school divisions may use the state Early Reading Intervention initiative funding provided from the Lottery Proceeds Fund and the required local matching funds to employ reading specialists to provide the required reading intervention services. ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

make calculations at the start of the school year to ensure that school divisions have appropriated adequate funds to support their estimated required local expenditure for the corresponding state fiscal year. In an effort to reduce the administrative burden on school divisions resulting from state data collections, such as the one needed to make the aforementioned calculations, the requirements of § 22.1-97, Code of Virginia, pertaining to the adequacy of estimated required local expenditures, shall be satisfied by signed certification by each division superintendent at the beginning of each school year that sufficient local funds have been budgeted to meet all state required local effort and required local match amounts. This provision shall only apply to calculations required of the Department of Education related to estimated required local expenditures and shall not pertain to the calculations associated with actual required local expenditures after the close of the school year.

2) The Department of Education shall also make calculations after the close of the school year to verify that the required local effort level, based on actual March 31 Average Daily Membership, was met. Pursuant to § 22.1-97, Code of Virginia, the Department of Education shall report annually, no later than the first day of the General Assembly session, to the House Committees on Education and Appropriations and the Senate Committees on Finance and Appropriations and Education and Health, the results of such calculations made after the close of the school year and the degree to which each school division has met, failed to meet, or surpassed its required local expenditure. The Department of Education shall specify the calculations to determine if a school division has expended its required local expenditure for the Standards of Quality. This calculation may include but is not limited to the following calculations:

b. The total expenditures for operation, defined as total expenditures less all capital outlays, expenditures for debt service, facilities, non-regular day school programs (such as adult education, preschool, and non-local education programs), and any transfers to regional programs will be calculated.

c. The following state funds will be deducted from the amount calculated in paragraph a. above: revenues from the state sales and use tax (returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, as specified in this Item) for sales in the fiscal year in which the school year begins; total receipts from state funds (except state funds for non-regular day school programs and state funds used for capital or debt service purposes); and the state share of any balances carried forward from the previous fiscal year. Any qualifying state funds that remain unspent at the end of the fiscal year will be added to the amount calculated in paragraph a. above.

d. Federal funds, and any federal funds carried forward from the previous fiscal year, will also be deducted from the amount calculated in paragraph a. above. Any federal funds that remain unspent at the end of the fiscal year and any capital expenditures paid from federal funds will be added to the amount calculated in paragraph a. above.

e. Tuition receipts, receipts from payments from other cities or counties, and fund transfers will also be deducted from the amount calculated in paragraph a, then

f. The final amount calculated as described above must be equal to or greater than the required local expenditure defined in paragraph A. 5.

g. The Department of Education shall collect the data necessary to perform the calculations of required local expenditure as required by this section.

h. A locality whose expenditure in fact exceeds the required amount from local funds may not reduce its expenditures unless it first complies with all of the Standards of Quality.

9.a. Any required local matching funds which a locality, as of the end of a school year, has not expended, pursuant to this Item, for the Standards of Quality shall be paid by the locality into the general fund of the state treasury. Such payments shall be made not later than the end of the school year following that in which the under expenditure occurs.

b. Whenever the Department of Education has recovered funds as defined in the preceding paragraph a., the Secretary of Education is authorized to repay to the locality affected by that action, seventy-five percent (75%) of those funds upon his determination that:

1) The local school board agrees to include the funds in its June 30 ending balance for the year following that in which the under expenditure occurs;

2) The local governing body agrees to reappropriate the funds as a supplemental appropriation to the approved budget for the second year following that in which the under expenditure occurs, in an appropriate category as requested by the local school board, for the direct benefit of the students;

3) The local school board agrees to expend these funds, over and above the funds required to meet the required local expenditure for the second year following that in which the under expenditure occurs, for a special project, the details of which must be furnished to the Department of Education for review and approval;

4) The local school board agrees to submit quarterly reports to the Department of Education on the use of funds provided through this project award; and

5) The local governing body and the local school board agree that the project award will be cancelled and the funds withdrawn if the above conditions have not been met as of June 30 of the second year following that in which the under expenditure occurs.

c. There is hereby appropriated, for the purposes of the foregoing repayment, a sum sufficient, not to exceed 75 percent of the funds deposited in the general fund pursuant to the preceding paragraph a.

10. The Department of Education shall specify the manner for collecting the required information and the method for determining if a school division has expended the local funds required to support the actual local match based on all Lottery and Incentive programs in which the school division has elected to participate. Unless specifically stated otherwise in this Item, school divisions electing to participate in any Lottery or Incentive program that requires a local funding match in order to receive state funding, shall certify to the Department of Education its intent to participate in each program by July 1 each fiscal year in a manner prescribed by the Department of Education. As part of this certification process, each division superintendent must also certify that adequate local funds have been appropriated, above the required local effort for the Standards of Quality, to support the projected required local match based on the Lottery and Incentive programs in which the school division has elected to participate. State funding for such program(s) shall not be made until such time that the school division can certify that sufficient local funding has been appropriated to meet required local match. The Department of Education shall make calculations after the close of the fiscal year to verify that the required local match was met based on the state funds that were received.

11. Any sum of local matching funds for Lottery and Incentive program which a locality has not expended as of the end of a fiscal year in support of the required local match pursuant to this Item shall be paid by the locality into the general fund of the state treasury unless the carryover of those unspent funds is specifically permitted by other provisions of this act. Such payments shall be made no later than the end of the school year following that in which the under expenditure occurred.

12. The Superintendent of Public Instruction shall provide a report annually, no later than the first day of the General Assembly session, on the status of teacher salaries, by local school division, to the Governor and the Chairs of the Senate Finance and Appropriations and House Appropriations Committees. In addition to information on average salaries by school division and statewide comparisons with other states, the report shall also include information on starting salaries by school division and average teacher salaries by school.

13. All state and local matching funds required by the programs in this Item shall be appropriated to the budget of the local school board.

14. By November 1 of each year, the Department of Planning and Budget, in cooperation with the Department of Education, shall prepare and submit a preliminary forecast of Standards of Quality expenditures, based upon the most current data available, to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees. In odd-numbered years, the forecast for the current and subsequent two fiscal years shall be provided. In even-numbered years, the forecast for the current and subsequent fiscal year shall be provided. The forecast shall detail the projected March 31 Average Daily

Except as otherwise provided in this act, the Superintendent of Public Instruction shall provide guidelines for the distribution and expenditure of general fund appropriations and such additional federal, private and other funds as may be made available to aid in the establishment and maintenance of the public schools.

16. At the Department of Education's option, fees for audio-visual services may be deducted from state Basic Aid payments for individual local school divisions.

17. For distributions not otherwise specified, the Department of Education, at its option, may use prior year data to calculate actual disbursements to individual localities.

18. Payments for accounts related to the Standards of Quality made to localities for public education from the general fund, as provided herein, shall be payable in twenty-four semi-monthly installments at the middle and end of each month.

19. Notwithstanding § 58.1-638 D., Code of Virginia, and other language in this Item, the Department of Education shall, for purposes of calculating the state and local shares of the Standards of Quality, apportion state sales and use tax dedicated to public education and those sales tax revenues transferred to the general fund from the Public Education Standards of Quality/ Local Real Estate Property Tax Relief Fund in the first year based on the July 1, 2022, estimate of school age population provided by the Weldon Cooper Center for Public Service and, in the second year, based on the July 1, 2023, estimate of school age population provided by the Weldon Cooper Center for Public Service.

Notwithstanding § 58.1-638 D., Code of Virginia, and other language in this Item, the State Comptroller shall distribute the state sales and use tax revenues dedicated to public education and those sales tax revenues transferred to the general fund from the Public Education Standards of Quality/ Local Real Estate Property Tax Relief Fund in the first year based on the July 1, 2022, estimate of school age population provided by the Weldon Cooper Center for Public Service and, in the second year, based on the July 1, 2023, estimate of school age population provided by the Weldon Cooper Center for Public Service.

23.a. Any locality that has met its required local effort for the Standards of Quality accounts for FY 2025 and that has met its required local match for incentive or Lottery-funded programs in which the locality elected to participate in FY 2025 may carry over into FY 2026 any remaining state Direct Aid to Public Education fund balances available to help minimize any FY 2026 revenue adjustments that may occur in state funding to that locality. Localities electing to carry forward such unspent state funds must appropriate the funds to the school division for expenditure in FY 2026.

b. Any locality that has met its required local effort for the Standards of Quality accounts for FY 2026 and that has met its required local match for incentive or Lottery-funded programs in which the locality elected to participate in FY 2026 may carry over into FY 2027 any remaining state Direct Aid to Public Education fund balances available to help minimize any FY 2027 revenue adjustments that may occur in state funding to that locality. 24. Localities are encouraged to allow school boards to carry over any unspent local allocations into the next fiscal year. Localities are also encouraged to provide increased flexibility to school boards by appropriating state and local funds for public education in a lump sum.

25. The Department of Education shall include in the annual School Performance Report Card for school divisions the percentage of each division's annual operating budget allocated to instructional costs. For this report, the Department of Education shall establish a methodology for allocating each school division's expenditures to instructional and non-instructional costs in a manner that is consistent with the funding of the Standards of Quality as approved by the General Assembly.

26. It is the intent of the General Assembly that all school divisions annually provide their employees, upon request, with a user-friendly statement of total compensation, including contract duration if less than 12 months.

27. The Department of Education, in collaboration with the Virginia Community College System, will ensure that the same policies regarding the cost for dual enrollment courses held at a community college, are consistently applied to public school students and home-schooled students alike. These policies will clearly address the school division contributions and any student charges for dual enrollment courses, and will ensure that public school students and home-school students are treated in the same manner.

Each school division shall report each year to the Department of Education the individual uses for the prior year of the following funds prescribed by this item: (i) At-Risk Add-On and (ii) Early Reading Intervention. The Department shall prescribe the format and timeline required for the reporting of such information, which shall include, permitted categories of spending, personnel, both state and local contributions, and to the extent possible, the individual schools which these funds were expended. a.1) A state share of the Basic Operation Cost, which cost per pupil in March 31 ADM is established individually for each local school division based on the number of instructional personnel required by the Standards of Quality and the statewide prevailing salary levels (adjusted in Planning District Eight for the cost of competing) as well as recognized support costs calculated on a prevailing basis for an estimated March 31 ADM.

2) This appropriation includes funding to recognize the common labor market in the Washington-Baltimore-Northern Virginia, DC-MD-VA-WV Combined Statistical Area. Standards of Quality salary payments for instructional and support positions in school

divisions of the localities set out below have been adjusted for the equivalent portion of the Cost of Competing Adjustment (COCA) rates that are paid to local school divisions in Planning District Eight. For the counties of Stafford, Fauquier, Spotsylvania, Clarke, Warren, Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, the SOQ payments for instructional and support positions have been increased by 25 percent each year of the COCA rates paid to school divisions in Planning District Eight.

The support COCA rate is 18.0 percent.

b. The state share for a locality shall be equal to the Basic Operation Cost for that locality less the locality's estimated revenues from the state sales and use tax and the Supplemental General Fund Payment In Lieu of Sales Tax on Food and Personal Hygiene Products (returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, as specified in this Item), in the fiscal year in which the school year begins and less the required local expenditure.

c. For the purpose of this paragraph, the Department of Taxation's fiscal year sales and use tax estimates are as cited in this Item.

d. 1) In accordance with the provisions of § 37.2-713, Code of Virginia, the Department of Education shall deduct the locality's share for the education of handicapped pupils residing in institutions within the Department of Behavioral Health and Developmental Services from the locality's Basic Aid payments.

2) The amounts deducted from Basic Aid for the education of intellectually disabled persons shall be transferred to the Department of Behavioral Health and Developmental Services in support of the cost of educating such persons; the amount deducted from Basic Aid for the education of emotionally disturbed persons shall be used to cover extraordinary expenses incurred in the education of such persons. The Department of Education shall establish guidelines to implement these provisions and shall provide for the periodic transfer of sums due from each local school division to the Department of Behavioral Health and Developmental Services and for Special Education categorical payments. The amount of the actual transfers will be based on data accumulated during the prior school year.

e. 1) The apportionment to localities of all driver education revenues received during the school year shall be made as an undesignated component of the state share of Basic Aid in accordance with the provisions of this Item. Only school divisions complying with the standardized program established by the Board of Education shall be entitled to participate in the distribution of state funds appropriated for driver education. The Department of Education will deduct a designated amount per pupil from a school division's Basic Aid payment when the school division is not in compliance with § 22.1-205 C, Code of Virginia. Such amount will be computed by dividing the current appropriation for the Driver Education Fund by actual March 31 ADM.

2) Local school boards may charge a per pupil fee for behind-the-wheel driver education provided, however, that the fee charged plus the per pupil basic aid reimbursement for driver education shall not exceed the actual average per pupil cost. Such fees shall not be cause for a pro rata reduction in Basic Aid payments to school divisions.

f. Textbooks

1) The appropriation in this Item includes $108,042,215 the first year and $107,777,357 the second year from the general fund as the state's share of the cost of textbooks based on a per pupil amount of $160.14 the first year and $160.14 the second year. A school division shall appropriate these funds for textbooks or any other public education instructional expenditure by the school division. The state's distributions for textbooks shall be based on adjusted March 31 ADM. These funds shall be matched by the local government, based on the composite index of local ability-to-pay.

2) School divisions shall provide free textbooks to all students.

3) School divisions may use a portion of this funding to purchase Standards of Learning instructional materials. School divisions may also use these funds to purchase electronic textbooks or other electronic media resources integral to the curriculum and classroom

instruction and the technical equipment required to read and access the electronic textbooks and electronic curriculum materials.

4) Any funds provided to school divisions for textbook costs that are unexpended as of June 30, 2025, or June 30, 2026, shall be carried on the books of the locality to be appropriated to the school division the following year to be used for same purpose. School divisions are permitted to carry forward any remaining balance of textbook funds until the funds are expensed for a qualifying purpose.

g. The one-cent state sales and use tax earmarked for education and the sales tax revenues transferred to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this Item which are distributed to localities on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service as specified in this Item shall be reflected in each locality's annual budget for educational purposes as a separate revenue source for the current fiscal year.

h. The appropriation for the Standards of Quality for Public Education (SOQ) includes amounts estimated at $571,700,000 the first year and $595,100,000 the second year from the amounts transferred to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund pursuant to Part 3 of this act which are derived from the 0.375 cent increase in the state sales and use tax levied pursuant to § 58.1-638, Code of Virginia. These additional funds are provided to local school divisions and local governments in order to relieve the financial pressure education programs place on local real estate taxes.

i. From the total amounts in paragraph h. above, an amount estimated at $381,200,000 the first year and $396,700,000 the second year (approximately 1/4 cent of sales and use tax) is appropriated to support a portion of the cost of the state's share of the following revisions to the Standards of Quality pursuant to Chapters 939 & 955 of the Acts of Assembly of 2004: five elementary resource teachers per 1,000 students; one support and one instructional technology position per 1,000 students; a full daily planning period for teachers at the middle and high school levels in order to relieve the pressure on local real estate taxes and shall be taken into account by the governing body of the county, city, or town in setting real estate tax rates.

j. From the total amounts in paragraph h. above, an amount estimated at $190,600,000 the first year and $198,400,000 the second year (approximately 1/8 cent of sales and use tax) is appropriated in this Item to distribute the remainder of the revenues collected and deposited into the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service as specified in this Item.

k. For the purposes of funding certain support positions in Basic Aid, a funding ratio methodology is used based upon 24 support positions per 1,000 ADM to funded SOQ instructional positions in the first year and in the second year. Such methodology shall not apply to the following SOQ support positions: division superintendent, school board members, pupil transportation positions, or specialized student support positions established in Chapter 454, 2021 Acts of Assembly, Special Session I.

6. Education of the Gifted Payments

a. An additional payment shall be disbursed by the Department of Education to local school divisions to support the state share of one full-time equivalent instructional position per 1,000 students in adjusted March 31 ADM.

b. Local school divisions are required to spend, as part of the required local expenditure for the Standards of Quality the established per pupil cost for gifted education (state and local share) on approved programs for the gifted.

7. Occupational-Vocational Education Payments

a. An additional payment shall be disbursed by the Department of Education to the local school divisions to support the state share of the number of Vocational Education instructors required by the Standards of Quality. These funds shall be disbursed on the same basis as the payment is calculated.

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

b. An amount estimated at $173,439,108 the first year and $174,563,383 the second year from the general fund included in Basic Aid Payments relates to vocational education programs in support of the Standards of Quality.

8. Special Education Payments

a. An additional payment shall be disbursed by the Department of Education to the local school divisions to support the state share of the number of Special Education instructors required by the Standards of Quality. These funds shall be disbursed on the same basis as the payment is calculated.

b. Out of the amounts for special education payments, general fund support is provided to fund the caseload standards for speech pathologists at 68 students for each year of the biennium.

9. At Risk Add-On

a. Out of this appropriation, $616,036,160 the first year and $648,037,570 the second year from the general fund and $225,180,150 the first year and $192,396,464 the second year from the Lottery Proceeds Fund is provided to distribute the state share of funds for the At-Risk Program. These payments shall be distributed based on the estimated number of At-Risk students, based on (1) the most recent three-year average Identified Student Percentage, applying a 1.25 multiplier factor , and (2) including one quarter of students identified as English language learners.

b. The At-Risk Program shall provide each school division the state share of an 11.0 percent basic-aid add-on per estimated At-Risk student. In addition, the program shall provide each school division the state share of a payment equal to a 0.0 to 37.0 percent basic-aid add-on per estimated At-Risk student, with each school division's add-on percentage determined based upon the school division's concentration of At-Risk students relative to all other school divisions. Funding shall be matched by the local government based on the composite index of local ability-to-pay.

c. These funds may be used for the purposes established in general law, including supporting programs and services for students who are educationally at risk, including prevention, intervention, or remediation activities required pursuant to Standard 1 (§ 22.1-253.13:1); teacher recruitment programs and incentives; targeted compensation adjustments to assist in recruiting and retaining experienced teachers in high poverty schools; Dropout Prevention; community and school-based truancy officer programs; Advancement Via Individual Determination (AVID); Project Discovery; programs for English language learners; the hiring of additional school counselors, testing coordinators, and licensed behavior analysts; programs relating to increasing the success of disadvantaged students in completing a high school degree and providing opportunities to encourage further education and training; and programs designed to reduce chronic absenteeism.

d. If the Board of Education has required a local school board to submit a corrective action plan pursuant to § 22.1-253.13:3, Code of Virginia, either for the school division pursuant to a division level review, or for any schools within its division that have been designated as not meeting the standards as approved by the Board of Education, the Superintendent of Public Instruction shall determine and report to the Board of Education whether each such local school board has met its obligation to develop and submit such corrective action plan(s) and is making adequate and timely progress in implementing the plan(s). Additionally, if an academic or other review process undertaken pursuant to § 22.1-253.13:3, Code of Virginia, has identified actions for a local school board to implement, the Superintendent of Public Instruction shall determine and report to the Board of Education whether the local school board has implemented required actions. If the Superintendent certifies that a local school board has failed or refused to meet any of those obligations as referenced in a memorandum of understanding between the local school board and the Board of Education, the Board of Education shall withhold payment of some or all At-Risk Add-On funds otherwise allocated to the affected division pursuant to this allocation for the pending fiscal year. In determining the amount of At-Risk Add-On funds to be withheld, the Board of Education shall take into consideration the extent to which such funds have already been expended or contractually obligated. The local school

board shall be given an opportunity to correct its failure and, if successful in a timely manner, may have some or all of its At-Risk Add-On funds restored at the Board of Education's discretion.

10. Regional Alternative Education Programs

a. An additional state payment of $10,680,318 the first year and $11,247,727 the second year from the Lottery Proceeds Fund shall be disbursed for Regional Alternative Education programs. Such programs shall be for the purpose of educating certain expelled students and, as appropriate, students who have received suspensions from public schools and students returned to the community from the Department of Juvenile Justice.

b. Each regional program shall have a small student/staff ratio. Such staff shall include, but not be limited to education, mental health, health, and law enforcement professionals, who will collaborate to provide for the academic, psychological, and social needs of the students. Each program shall be designed to ensure that students make the transition back into the "mainstream" within their local school division.

c.(i) Regional alternative education programs are funded through this Item based on the state's share of the incremental per pupil cost for providing such programs. This incremental per pupil payment shall be adjusted for the composite index of local ability-to-pay of the school division that counts such students attending such program in its March 31 Average Daily Membership. It is the intent of the General Assembly that this incremental per pupil amount be in addition to the basic aid per pupil funding provided to the affected school division for such students. Therefore, local school divisions are encouraged to provide the appropriate portion of the basic aid per pupil funding to the regional programs for students attending these programs, adjusted for costs incurred by the school division for transportation, administration, and any portion of the school day or school year that the student does not attend such program.

(ii) In the event a school division does not use all of the student slots it is allocated under this program, the unused slots may be reallocated or transferred to another school division.

(a) A school division must request from the Department of Education the availability and possible use of any unused student slots. If any unused slots are available and if the requesting school division chooses to utilize any of the unused slots, the requesting school division shall only receive the state's share of tuition for the unused slot that was allocated in this Item for the originally designated school division.

(b) However, no requesting school division shall receive more tuition funding from the state for any requested unused slot than what would have been the calculated amount for the requesting school division had the unused slot been allocated to the requesting school division in the original budget. Furthermore, the requesting school division shall pay for any remaining tuition payment necessary for using a previously unused slot.

(c) The Department of Education shall provide assistance for the state share of the incremental cost of Regional Alternative Education program operations based on the composite index of local ability-to-pay.

d. Out of the appropriation included in paragraph C.38. of this item, $549,105 the first year and $1,113,010 the second year from the Lottery Proceeds Fund is provided for a compensation supplement payment equal to 3.0 percent of base pay on July 1, 2024, and 3.0 percent of base pay on July 1, 2025, for Regional Alternative Education Program instructional and support positions.

e. In the second year, the Department of Education shall conduct a biennial application process to determine the slot allocation of the regional alternative education program for the subsequent biennium. Each school division, or the fiscal agent for each regional program, shall apply for the desired number of student slots from the statewide total number of slots funded in the state formula. The approved number of slots shall be set for both years of the biennium. The Department of Education shall prorate initial application requests if the initial application demand for slots exceeds the number of slots available. In each fiscal year, the Department of Education shall reallocate any unused student slots as prescribed in this item.

11. Remedial Summer School

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

a. This appropriation includes $36,359,040 the first year and $34,291,832 the second year from the general fund for the state's share of Remedial Summer School Programs. These funds are available to school divisions for the operation of programs designed to remediate students who are required to attend such programs during a summer school session or during an intersession in the case of year-round schools. These funds may be used in conjunction with other sources of state funding for remediation or intervention. School divisions shall have maximum flexibility with respect to the use of these funds and the types of remediation programs offered; however, in exercising this flexibility, students attending these programs shall not be charged tuition and no high school credit may be awarded to students who participate in this program.

b. For school divisions charging students tuition for summer high school credit courses, consideration shall be given to students from households with extenuating financial circumstances who are repeating a class in order to graduate.

12. K-3 Primary Class Size Reduction Payments

a. An additional payment estimated at $163,843,284 the first year and $164,595,097 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education as an incentive for reducing class sizes in the primary grades.

b. The Department of Education shall calculate the payment based on the incremental cost of providing the lower class sizes based on the lower of the division average per pupil cost of all divisions or the actual division per pupil cost.

c. Localities are required to provide a match for these funds based on the composite index of local ability-to-pay.

d. By October 15 of each year school divisions must provide data to the Department of Education that each participating school has a September 30 pupil/teacher ratio in grades K through 3 that meet the following criteria:

Qualifying School Percentage of Students Approved Eligible for Free Lunch, Three-Year Average	Grades K-3 School Ratio	Maximum Individual K-3 Class Size
30% but less than 45%	19 to 1	24
45% but less than 55%	18 to 1	23
55% but less than 65%	17 to 1	22
65% but less than 70%	16 to 1	21
70% but less than 75%	15 to 1	20
75% or more	14 to 1	19

e. School divisions may elect to have eligible schools participate at a higher ratio, or only in a portion of grades kindergarten through three, with a commensurate reduction of state and required local funds, if local conditions do not permit participation at the established ratio and/or maximum individual class size. In the event that a school division requires additional actions to ensure participation at the established ratio and/or maximum individual class size, such actions must be completed by December 1 of the impacted school year. Special education teachers and instructional aides shall not be counted towards meeting these required pupil/teacher ratios in grades kindergarten through three.

f. The Superintendent of Public Instruction may grant waivers to school divisions for the class size requirement in eligible schools that have only one class in an affected grade level in the school.

13. Literary Fund Subsidy Program Payments

a. The Department of Education and the Virginia Public School Authority (VPSA) shall provide a program of funding for school construction and renovation through the Literary Fund and through VPSA bond sales. Notwithstanding 8VAC-20-100, the program shall be used to provide funds, through Literary Fund loans and subsidies, and through VPSA bond sales, to fund a portion of the projects submitted by localities during the annual open

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

enrollment process, or other critical projects that may receive priority as identified by the Board of Education. Interest rate subsidies will provide school divisions with the present value difference in debt service between a Literary Fund loan and a borrowing through the VPSA. To qualify for an interest rate subsidy, the school division's project must be eligible for a Literary Fund loan and shall be subject to the same restrictions. The VPSA shall work with the Department of Education in selecting those projects to be funded through the interest rate subsidy/bond financing program, so as to ensure the maximum leverage of Literary Fund moneys and a minimum impact on the VPSA Bond Pool.

b. Notwithstanding §§ 22.1-146.1 through 22.1-153, Code of Virginia, and 8VAC-20-100, the Board of Education shall: 1) issue loans from the designated and uncommitted balances of the Literary Fund to the school boards of local school divisions that apply for such loans, authorized by the governing body and the school board, for the purposes of a) erecting, altering, or enlarging school buildings in local school divisions, or b) refinancing or redemption of negotiable notes, bonds, and other evidences of indebtedness or obligations incurred by a locality on behalf of a school division which has an application for a Literary Fund loan for an approved school project pending before the Board of Education; 2) establish a maximum Literary Fund loan amount per project of $25.0 million; 3) in consultation with the Department of Treasury, establish loan interest rates that are benchmarked to a market index on an annual basis for all tiers of localities and provide interest rates that are reasonably below such market index; 4) replace the existing First Priority and Second Priority waiting lists with an annual open enrollment process for loans, with priority based on the local composite index of ability-to-pay; and 5) offer a loan add-on not to exceed $5.0 million per loan for projects that will result in school consolidation and the net reduction of at least one existing school. The Department of Education, in cooperation with the Department of the Treasury, shall provide an update on Literary Fund loan issuance to the Governor and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by October 1 each year. This report shall include detail of: 1) loan applications received in the prior fiscal year by locality, project, and amount; 2) loans issued in the prior fiscal year by locality, project, and amount; 3) the schedule of loan interest rates and the basis for those rates; 4) loans issued for school consolidation projects and the projected impact of those school consolidations; and 5) the impact of loans issued to date on the Literary Fund cash balance, outstanding loan balance, and projected asset base.

c. The Board of Education may offer up to $200,000,000 the first year and up to $50,000,000 the second year from the Literary Fund in school construction loans, subject to the availability of funds. Amounts designated for school construction loans that are not obligated in the first year may be obligated in the second year. In addition, the Department of Education may offer Literary Fund loans from the uncommitted balances of the Literary Fund after meeting the obligations of the interest rate subsidy sales and the amounts set aside from the Literary Fund for Debt Service Payments for Education Technology and Security Equipment in this Item.

d. 1) In the event that on any scheduled payment date of bonds of the Virginia Public School Authority (VPSA) authorized under the provisions of a bond resolution adopted subsequent to June 30, 1997, issued subsequent to June 30, 1997, and not benefiting from the provisions of either § 22.1-168 (iii), (iv), and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the sum of (i) the payments on general obligation school bonds of cities, counties, and towns (localities) paid to the VPSA and (ii) the proceeds derived from the application of the provisions of § 15.2-2659, Code of Virginia, to such bonds of localities, is less than the debt service due on such bonds of the VPSA on such date, there is hereby appropriated to the VPSA, first, from available moneys of the Literary Fund and, second, from the general fund a sum equal to such deficiency.

2) The Commonwealth shall be subrogated to the VPSA to the extent of any such appropriation paid to the VPSA and shall be entitled to enforce the VPSA's remedies with respect to the defaulting locality and to full recovery of the amount of such deficiency, together with interest at the rate of the defaulting locality's bonds.

e. The chairman of the Board of Commissioners of the VPSA shall, on or before November 1 of each year, make and deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds of the VPSA issued and projected to be issued during such biennium pursuant to the bond resolution referred to in paragraph a above. The Governor's budget submission each year

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

shall include provisions for the payment of debt service pursuant to paragraph 1) above.

14. Educational Technology Payments

a. Any unobligated amounts transferred to the educational technology fund shall be disbursed on a pro rata basis to localities. The additional funds shall be used for technology needs identified in the division's technology plan approved by the Department of Education.

b. The Department of Education shall authorize estimated amounts as indicated in Table 1 from the Literary Fund to provide debt service payments for the education technology grant program conducted through the Virginia Public School Authority in the referenced years.

Table 1

Grant Year	FY 2025	FY 2026
2020	$11,392,500	
2021	$11,356,600	$11,351,600
2022	$12,068,000	$12,066,750
2023	$12,040,000	$12,044,750
2024	$12,894,859	$12,894,859
2025		$12,939,920

c. It is the intent of the General Assembly to authorize sufficient Literary Fund revenues to pay debt service on the Virginia Public School Authority bonds or notes authorized for education technology grant programs. In developing the proposed 2026-2028, 2028-2030, and 2030-2032 biennial budgets for public education, the Department of Education shall include a recommendation to the Governor to authorize sufficient Literary Fund revenues to make debt service payments for these programs in fiscal years 2027, 2028, 2029, 2030, and 2031.

d. 1) An education technology grant program shall be conducted through the Virginia Public School Authority, through the issuance of equipment notes in an amount estimated at $56,054,800 in fiscal year 2025 and $56,215,600 in fiscal year 2026. Proceeds of the notes will be used to establish a computer-based instructional and testing system for the Standards of Learning (SOL) and to develop the capability for high speed Internet connectivity at high schools followed by middle schools followed by elementary schools. School divisions shall use these funds first to develop and maintain the capability to support the administration of online SOL testing for all students with the exception of students with a documented need for a paper SOL test.

2) Grant funds from the issuance of $56,054,800 in fiscal year 2025 and $56,215,600 in fiscal year 2026 in equipment notes are based on a grant of $26,000 per school and $50,000 per school division. For purposes of this grant program, eligible schools shall include schools that are subject to state accreditation and reporting membership in grades K through 12 as of September 30, 2024, for the fiscal year 2025 issuance, and September 30, 2025, for the fiscal year 2026 issuance, as well as regional vocational centers, special education centers, alternative education centers, regular school year Governor's Schools, CodeRVA Regional High School, and the School for the Deaf and the Blind. Schools that serve only pre-kindergarten students shall not be eligible for this grant.

3. a.) Supplemental grants shall be allocated to eligible divisions to support schools that are not fully accredited in accordance with this paragraph. Schools that include a ninth grade that administer SOL tests in Spring 2024 and that are not fully accredited for the second consecutive year, based on school accreditation ratings in effect for fiscal year 2024 and fiscal year 2025 will qualify to participate in the Virginia e-Learning Backpack Initiative in fiscal year 2025 and receive: (1) a supplemental grant of $400 per student reported in ninth grade fall membership in a qualifying school for the purchase of a laptop or tablet for that student and (2) a supplemental grant of $2,400 per qualifying school to purchase two content creation packages for teachers. Schools eligible to receive this supplemental grant in fiscal year 2025 shall continue to receive the grant for the number of subsequent years equaling the number of grades 9 through 12 in the qualifying school up

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

to a maximum of four years. Schools that administer SOL tests in Spring 2025 and that are not fully accredited for the second consecutive year based on school accreditation ratings in effect for fiscal year 2025 and fiscal year 2026 will qualify to participate in the initiative in fiscal year 2026. Schools eligible for the supplemental grants in previous fiscal years shall continue to be eligible for the remaining years of their grant award. Schools eligible to receive this supplemental grant in fiscal year 2026 shall continue to receive the grant for the number of subsequent years equaling the number of grades 9 through 12 in the qualifying school up to a maximum of four years. Grants awarded to qualifying schools that do not have grades 10, 11, or 12 may transition with the students to the primary receiving school for all years subsequent to grade 9. Schools are eligible to receive these grants for a period of up to four years and shall not be eligible to receive a separate award in the future once the original award period has concluded. Schools that are fully accredited or that are new schools with conditional accreditation in their first year shall not be eligible to receive this supplemental grant.

b.) Supplemental grants allocated to school divisions for participation in the Virginia e-Learning Backpack Initiative prior to fiscal year 2017 shall be used in eligible schools for (1) the purchase of a laptop or tablet for a student reported in ninth grade fall membership, and (2) the purchase of two content creation packages for teachers per grant. The amounts for such grants shall remain unchanged.

4) Required local match:

a) Localities are required to provide a match for these funds equal to 20 percent of the grant amount, including the supplemental grants provided pursuant to paragraph g. 5). At least 25 percent of the local match, including the match for supplemental grants, shall be used for teacher training in the use of instructional technology, with the remainder spent on other required uses. The Superintendent of Public Instruction is authorized to reduce the required local match for school divisions with a composite index of local ability-to-pay below 0.2000. The Virginia School for the Deaf and the Blind is exempt from the match requirement.

b) School divisions that administer 100 percent of SOL tests online in all elementary, middle, and high schools may use up to 75 percent of their required local match to purchase targeted technology-based interventions. Such interventions may include the necessary technology and software to support online learning, technology-based content systems, content management systems, technology equipment systems, information and data management systems, and other appropriate technologies that support the individual needs of learners. School divisions that receive supplemental grants pursuant to paragraph g.5) above shall use the funds in qualifying schools to purchase laptops and tablets for ninth grade students reported in fall membership and content creation packages for teachers.

5) The goal of the education technology grant program is to improve the instructional, remedial, and testing capabilities of the Standards of Learning for local school divisions and to increase the number of schools achieving full accreditation.

6) Funds shall be used in the following manner:

a) Each division shall use funds to reach a goal, in each high school, of: (1) a 5-to-1 student to computer ratio; (2) an Internet-ready local area network (LAN) capability; and (3) high speed access to the Internet. School connectivity (computers, LANs and network access) shall include sufficient download/upload capability to ensure that each student will have adequate access to Internet-based instructional, remedial and assessment programs.

b) When each high school in a division meets the goals established in paragraph a) above, the remaining funds shall be used to develop similar capability in first the middle schools and then the elementary schools.

c) For purposes of establishing or enhancing a computer-based instructional program supporting the Standards of Learning pursuant to paragraph g. 1) above, these grant funds may be used to purchase handheld multifunctional computing devices that support a broad range of applications and that are controlled by operating systems providing full multimedia support and mobile Internet connectivity. School divisions that elect to use these grant funds to purchase such qualifying handheld devices must continue to meet the on-line testing requirements stated in paragraph g. 1) above.

d) School divisions shall be eligible to receive supplemental grants pursuant to paragraph g.5) above. These supplemental grants shall be used in qualifying schools for the purchase of laptops and tablets for ninth grade students reported in fall membership and content creation packages for teachers. Participating school divisions will be required to select a core set of electronic textbooks, applications and online services for productivity, learning management, collaboration, practice, and assessment to be included on all devices. In addition, participating school divisions will assume recurring costs for electronic textbook purchases and maintenance.

e) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school divisions became one school division, whether by consolidation of only the school divisions or by consolidation of the local governments, such resulting division shall be provided funding through this program on the basis of having the same number of school divisions as existed prior to September 30, 2000.

7) Local school divisions shall maximize the use of available federal funds, including E-Rate Funds, and to the extent possible, use such funds to supplement the program and meet the goals of this program.

e. The Department of Education shall maintain criteria to determine if high schools, middle schools, or elementary schools have the capacity to meet the goals of this initiative. The Department of Education shall be responsible for the project management of this program.

f. 1) In the event that, on any scheduled payment date of bonds or notes of the Virginia Public School Authority (VPSA) issued for the purpose described in § 22.1-166.2, Code of Virginia, and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary Fund are less than the amounts authorized for debt service due on such bonds or notes of the VPSA on such date, there is hereby appropriated to the VPSA from the general fund a sum equal to such deficiency.

2) The Chairman of the Board of Commissioners of the VPSA shall, on or before November 1 of each year, make and deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds and notes of the VPSA issued and projected to be issued during such biennium pursuant to the resolution referred to in paragraph 1) above. The Governor's budget submission each year shall include provisions for the payment of debt service pursuant to paragraph 1) above.

g. Unobligated proceeds of the notes, including investment income derived from the proceeds of the notes may be used to pay interest on, or to decrease principal of the notes or to fund a portion of such other educational technology grants as authorized by the General Assembly.

h. 1) For the purposes of § 56-232, Code of Virginia, "Contracts of Telephone Companies with State Government" and for the purposes of § 56-234 "Contracts for Service Rendered by a Telephone Company for the State Government" shall be deemed to include communications lines into public schools which are used for educational technology. The rate structure for such lines shall be negotiated by the Superintendent of Public Instruction and the Chief Information Officer of the Virginia Information Technologies Agency. Further, the Superintendent and Director are authorized to encourage the development of "by-pass" infrastructure in localities where it fails to obtain competitive prices or prices consistent with the best rates obtained in other parts of the state.

2) The State Corporation Commission, in its consideration of the discount for services provided to elementary schools, secondary schools, and libraries and the universal service funding mechanisms as provided under § 254 of the Telecommunications Act of 1996, is hereby encouraged to make the discounts for intrastate services provided to elementary schools, secondary schools, and libraries for educational purposes as large as is prudently possible and to fund such discounts through the universal fund as provided in § 254 of the Telecommunications Act of 1996. The commission shall proceed as expeditiously as possible in implementing these discounts and the funding mechanism for intrastate services, consistent with the rules of the Federal Communications Commission aimed at

Proceeds of the notes will be used to help offset the related costs associated with the purchase of appropriate security equipment that will improve and help ensure the safety of students attending public schools in Virginia.

2) The Department of Education shall authorize estimated amounts as indicated in Table 1 from the Literary Fund to provide debt service payments for the security equipment grant programs conducted through the Virginia Public School Authority in the referenced years.

3) It is the intent of the General Assembly to authorize sufficient Literary Fund revenues to pay debt service on the Virginia Public School Authority bonds or notes authorized for this program. In developing the proposed 2026-2028, 2028-2030, and 2030-2032 biennial budgets for public education, the Department of Education shall include a recommendation to the Governor to authorize sufficient Literary Fund revenues to make debt service payments for these programs in fiscal years 2027, 2028, 2029, 2030, and 2031.

4) In the event that, on any scheduled payment date of bonds or notes of the Virginia Public School Authority issued for the purpose described in § 22.1-166.2, Code of Virginia, and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary Fund are less than the amounts authorized for debt service due on such bonds or notes on such date, there is hereby appropriated to the Virginia Public School Authority from the general fund a sum equal to such deficiency.

5) The Chairman of the Board of Commissioners of the Virginia Public School Authority shall, on or before November 1 of each year, deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds and notes issued and projected to be issued during such biennium. Furthermore, the Department of Education will have the authority to make such grant awards to such school divisions.

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

8) It is also the intent of the General Assembly that, beginning with fiscal year 2020, the total amount of the grant awards shall not exceed $60,000,000 over any ongoing revolving five year period.

9) Required local match:

a) Localities are required to provide a match for these funds equal to 25 percent of the grant amount. The Superintendent of Public Instruction is authorized to reduce the required local match for school divisions with a composite index of local ability-to-pay below 0.2000. The Virginia School for the Deaf and the Blind is exempt from the match requirement.

b) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school divisions became one school division, whether by consolidation of only the school divisions or by consolidation of the local governments, such resulting division shall be provided funding through this program on the basis of having the same number of school divisions as existed prior to September 30, 2000.

c) Local school divisions shall maximize the use of available federal funds, including E-Rate Funds, and to the extent possible, use such funds to supplement the program and meet the goals of this program.

16. Early Reading Intervention Payments

a. An additional payment of $42,597,923 the first year and $42,479,126 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education to local school divisions for the purposes of providing early reading intervention services to students in grades kindergarten through 3 who demonstrate deficiencies based on their individual performance on diagnostic tests which have been approved by the Department of Education. The Department of Education shall review the tests of any local school board that requests authority to use a test other than the state-provided test to ensure that such local test uses criteria for the early diagnosis of reading deficiencies that are similar to those criteria used in the state-provided test. The Department of Education shall make the state-provided diagnostic test used in this program available to local school divisions. School divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis at a time to be determined by the Superintendent of Public Instruction.

b. These payments shall be based on the state's share of the cost of providing two and one-half hours of additional instruction each week for an estimated number of students in each school division at a student to teacher ratio of five to one. The estimated number of students in each school division in each year shall be determined by multiplying the projected number of students reported in each school division's fall membership in grades kindergarten, 1, 2, and 3 by the percent of students who are determined to need services based on diagnostic tests administered in the most recent year that data is available in that school division.

c. These payments are available to any school division that certifies to the Department of Education that an intervention program will be offered to such students and that each student who receives an intervention will be assessed again at the end of that school year. At the beginning of the school year, local school divisions shall partner with the parents of those third grade students in the division who demonstrate reading deficiencies, discussing with them a developed plan for remediation and retesting. Such intervention programs, at the discretion of the local school division, may include, but not be limited to, the use of: special reading teachers; trained aides; full-time early literacy tutors; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; or extended instructional time in the school day or year for these students. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

d. In the event that a school division does not use the diagnostic test provided by the Department of Education in the year that serves as the basis for updating the funding formula for this program but has used it in past years, the Department of Education shall

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

use the most recent data available for the division for the state-provided diagnostic test.

e. The results of all reading diagnostic tests and reading remediation shall be discussed with the student and the student's parent prior to the student being promoted to grade four.

f. Funds appropriated for Standards of Quality Remedial Summer School or At-Risk Add-On may also be used to meet the requirements of this program.

17. Standards of Learning Algebra Readiness Payments

a. An additional payment of $18,646,449 the first year and $18,604,551 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education to local school divisions for the purposes of providing math intervention services to students in grades 6, 7, 8 and 9 who are at-risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on diagnostic tests which have been approved by the Department of Education. These amounts reflect $200,000 the first year and $200,000 the second year apportioned to each school division to account for the cost of the diagnostic test. The Department of Education shall review the tests to ensure that such local test uses state-provided criteria for diagnosis of math deficiencies which are similar to those criteria used in the state-provided test. The Department of Education shall make the state-provided diagnostic test used in this program available to local school divisions. School divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis at a time to be determined by the Superintendent of Public Instruction.

b. These payments shall be based on the state's share of the cost of providing two and one-half hours of additional instruction each week for an estimated number of students in each school division at a student to teacher ratio of ten to one. The estimate number of students in each school division shall be determined by multiplying the projected number of students reported in each school division's fall membership by the percent of students that qualify for the federal Free Lunch Program.

c. These payments are available to any school division that certifies to the Department of Education that an intervention program will be offered to such students and that each student who receives an intervention will be assessed again at the end of that school year. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

18. English Learner Teacher Payments

A payment of $165,982,653 the first year and $170,304,480 the second year from the general fund shall be disbursed by the Department of Education to local school divisions to support the state's share of professional instructional positions for English Learner teachers. Local school divisions shall provide a local match based on the composite index of local ability-to-pay. The number of such English Learner teacher positions required pursuant to the Standards of Quality are as established below:

EL Student Proficiency Level	SOQ Staffing Required
One	1 position per 20 EL students
Two	1 position per 30 EL students
Three	1 position per 40 EL students
Four	1 position per 50 EL students
All Other Identified EL Students	1 position per 100 EL students

To provide flexibility in implementing this new staffing standard in the first year, the number of English Learner teachers required for each school division for the first year shall be equal to the number of such teachers that were required during the 2023-2024 school year, plus one half of the additional positions required in the above table for the first year.

subject to implementation by the Superintendent of Public Instruction, an amount estimated at $93,967,863 the first year and $98,967,863 the second year from the Lottery Proceeds Fund for the purpose of the state's share of the tuition rates for approved public Special Education Regional Tuition school programs. Notwithstanding any contrary provision of law, the state's share of the tuition rates shall be based on the composite index of local ability-to-pay.

c. Out of the amounts for Financial Assistance for Categorical Programs, $41,386,161 the first year and $44,570,183 the second year from the general fund is appropriated to permit the Department of Education to enter into agreements with selected local school boards for the provision of educational services to children residing in certain hospitals, clinics, and detention homes by employees of the local school boards. The portion of these funds provided for educational services to children residing in local or regional detention homes shall only be determined on the basis of children detained in such facilities through a court order issued by a court of the Commonwealth. The selection and employment of instructional and administrative personnel under such agreements will be the responsibility of the local school board in accordance with procedures as prescribed by the local school board. State payments for the first year to the local school boards operating these programs will be based on certified expenditures from the fourth quarter of FY 2024 and the first three quarters of FY 2025. State payments for the second year to the local school boards operating these programs will be based on certified expenditures from the fourth quarter of FY 2025 and the first three quarters of FY 2026.

A base allocation of $2,000 each year shall be available for all divisions, with the remainder of the funding distributed on the basis of student enrollment in secondary vocational-technical courses. State funds received for secondary vocational-technical equipment must be used to supplement, not supplant, any funds currently provided for secondary vocational-technical equipment within the locality. Local school divisions are not required to provide a local match in order to receive these state funds.

c.1) This appropriation includes an additional $2,000,000 the first year and $2,000,000 the second year from the Lottery Proceeds Fund to update vocational-technical equipment to industry standards providing students with classroom experience that translates to the workforce.

27. Governor's School Payments

a. Out of the amounts for Governor's School Payments, the Department of Education shall provide assistance for the state share of the incremental cost of regular school year Governor's Schools based on each participating locality's composite index of local ability-to-pay. Participating school divisions must certify that no tuition is assessed to students for participation in this program.

b.1) Out of the amounts for Governor's School Payments, the Department of Education shall provide assistance for the state share of the incremental cost of summer residential Governor's Schools and Foreign Language Academies to be based on the greater of the state's share of the composite index of local ability-to-pay or 50 percent. Participating school divisions must certify that no tuition is assessed to students for participation in this program if they are enrolled in a public school.

2) Out of the amounts for Governor's School Payments, $41,000 the first year and $41,000 the second year is provided to support the Hanover Regional Summer Governor's School for Career and Technical Advancement, which was established pursuant to Chapter 425, 2014 Acts of Assembly, and Chapter 665, 2015 Acts of Assembly.

c. For the Summer Governor's Schools and Foreign Language Academies programs, the Superintendent of Public Instruction is authorized to adjust the tuition rates, types of programs offered, length of programs, and the number of students enrolled in order to maintain costs within the available state and local funds for these programs.

d. It shall be the policy of the Commonwealth that state general fund appropriations not be used for capital outlay, structural improvements, renovations, or fixed equipment costs associated with initiation of existing or proposed Governor's schools. State general fund appropriations may be used for the purchase of instructional equipment for such schools, subject to certification by the Superintendent of Public Instruction that at least an equal amount of funds has been committed by participating school divisions to such purchases.

e. The Board of Education shall not take any action that would increase the state's share of costs associated with the Governor's Schools as set forth in this Item. This provision shall not prohibit the Department of Education from submitting requests for the increased costs of existing programs resulting from updates to student enrollment for school divisions currently participating in existing programs or for school divisions that begin participation in existing programs.

f.1) Regular school year Governor's Schools are funded through this Item based on the state's share of the incremental per pupil cost for providing such programs for each student attending a Governor's School up to a cap of 1,800 students per Governor's School in the first year and a cap of 1,800 students per Governor's School in the second year. This incremental per pupil payment shall be adjusted for the composite index of the school division that counts such students attending an academic year Governor's School in their March 31 Average Daily Membership. It is the intent of the General Assembly that this incremental per pupil amount be in addition to the basic aid per pupil funding provided to the affected school division for such students. Therefore, local school divisions are encouraged to provide the appropriate portion of the basic aid per pupil funding to the Governor's Schools for students attending these programs, adjusted for costs incurred by the school division for transportation, administration, and any portion of the day that the student does not attend a Governor's School.

2) Students attending a revolving Academic Year Governor's School program for only one semester shall be counted as 0.50 of a full-time equivalent student and will be funded for only fifty percent of the full-year funded per pupil amount. Funding for students attending a revolving Academic Year program will be adjusted based upon actual September 30th and January 30th enrollment each fiscal year. For purposes of this Item, revolving programs shall mean Academic Year Governor's School programs that admit students on a semester basis.

3) Students attending a continuous, non-revolving Academic Year Governor's School program shall be counted as a full-time equivalent student and will be funded for the full-year funded per pupil amount. Funding for students attending a continuous, non-revolving

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

Academic Year Governor's School program will be adjusted based upon actual September 30th student enrollment each fiscal year. For purposes of this Item, continuous, non-revolving programs shall mean Academic Year Governor's School programs that only admit students at the beginning of the school year. Fairfax County Public Schools shall not reduce local per pupil funding for the Thomas Jefferson Governor's School below the amounts appropriated for the 2003-2004 school year.

g. All regional Governor's Schools are encouraged to provide full-day grades 9 through 12 programs.

h. Out of the appropriation included in paragraph C.38. of this item, $818,874 the first year and $1,699,942 the second year from the general fund is provided in the Academic Year Governor's School funding allocation to increase the per pupil amount as an add-on for a compensation supplement equal to 3.0 percent of base pay on July 1, 2024, and 3.0 percent of base pay on July 1, 2025, for Academic Year Governor's School instructional and support positions.

i. Each Academic Year Governor's School shall set diversity goals for its student body and faculty, develop a plan to meet said goals in collaboration with community partners at public meetings, and such goals and plan shall be published on the school's website. Each school shall submit a report to the Governor by October 1 of each year on its goals and status of implementing its plan, and such report shall be published on the school's website. The report shall include, but not be limited to the following: utilization of universal screenings in feeder divisions; admission processes in place or under consideration that promote access for historically underserved students; and outreach and communication efforts deployed to recruit historically underserved students. The report shall include the racial/ethnic make-up and socioeconomic diversity of its students, faculty, and applicants.

28. School Nutrition Payments

It is provided that, subject to implementation by the Superintendent of Public Instruction, no disbursement shall be made out of the appropriation for school nutrition to any locality in which the schools permit the sale of competitive foods in food service facilities or areas during the time of service of food funded pursuant to this Item.

29. School Breakfast Payments

a. Out of this appropriation, $11,246,873 the first year and $12,437,264 the second year from the Lottery Proceeds Fund is included to continue a state funded incentive program to maximize federal school nutrition revenues and increase student participation in the school breakfast program. These funds are available to any school division as a reimbursement for breakfast meals served that are in excess of the baseline established by the Department of Education. The per meal reimbursement shall be $0.28; however, the department is authorized, but not required to reduce this amount proportionately in the event that the actual number of meals to be reimbursed exceeds the number on which this appropriation is based so that this appropriation is not exceeded.

b. In order to receive these funds, school divisions must certify that these funds will be used to supplement existing funds provided by the local governing body and that local funds derived from sources that are not generated by the school nutrition programs have not been reduced or eliminated. The funds shall be used to improve student participation in the school breakfast program. These efforts may include, but are not limited to, reducing the per meal price paid by students, reducing competitive food sales in order to improve the quality of nutritional offerings in schools, increasing access to the school breakfast program, or providing programs to increase parent and student knowledge of good nutritional practices. In no event shall these funds be used to reduce local tax revenues below the level appropriated to school nutrition programs in the prior year. Further, these funds must be provided to the school nutrition programs and may not be used for any other school purpose.

c.1) Out of this appropriation, $1,074,000 the first year and $1,074,000 the second year from the general fund is provided to fund an After-the-Bell Model breakfast program available on a voluntary basis to elementary, middle, and high schools where student eligibility for free or reduced lunch exceeds 45.0 percent for the participating eligible school, and to provide additional reimbursement for eligible meals served in the current traditional school breakfast

program at all grade levels in any participating school. The Department of Education is directed to ensure that only eligible schools receive reimbursement funding for participating in the After-the-Bell school breakfast model. The schools participating in the program shall evaluate the educational impact of the models implemented that provide school breakfasts to students after the first bell of the school day, based on the guidelines developed by the Department of Education and submit the required report to the Department of Education no later than August 31 each year.

2) The Department of Education shall communicate, through Superintendent's Memo, to school divisions the types of breakfast serving models and the criteria that will meet the requirements for this State reimbursement, which may include, but are not limited to, breakfast in the classroom, grab and go breakfast, or a breakfast after first period. School divisions may determine the breakfast serving model that best applies to its students, so long as it occurs after the instructional day has begun. The Department of Education shall monthly transfer to each school division a reimbursement rate of $0.05 per breakfast meal that meets either of the established criteria in elementary schools and a reimbursement rate of $0.10 per breakfast meal that meets either of the established criteria in middle or high schools.

3) No later than July 1 each year, the Department of Education shall provide for a breakfast program application process for school divisions with eligible schools, including guidelines regarding specified required data to be compiled from the prior school year or years and for the upcoming school year program. The number of approved applications shall be based on the estimated number of sites that can be accommodated within the approved funding level. The Department of Education shall set criteria for establishing priority should the number of applications from eligible schools exceed the approved funding level. The reporting requirements must include: chronic absenteeism rates, student attendance and tardy arrivals, office discipline referrals, student achievement measures, teachers' and administrators' responses to the impact of the program on student hunger, student attentiveness, and overall classroom learning environment before and after implementation, and the financial impact on the division's school food program. Funded schools that do not provide data by August 31 are subject to exclusion from funding in the following year. The Department of Education shall collect and compile the results of the breakfast program and shall submit the report to the Governor and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than November 1 following each school year.

These funds shall be matched by the local government, based on the composite index of local ability-to-pay. Further, in order to receive this funding, the locality in which the school division is located shall appropriate these funds solely for educational purposes and shall not use such funds to reduce total local operating expenditures for public education below the amount expended by the locality for such purposes in the year upon which the 2020-2022 biennial Standards of Quality expenditure data were based; provided however that no locality shall be required to maintain a per-pupil expenditure which is greater than the per pupil amount expended by the locality for

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

such purposes in the year upon which the 2020-2022 biennial Standards of Quality expenditure data were based. The Department of Education is authorized each year to temporarily suspend Infrastructure and Operations Per Pupil Allocation payments made to school divisions from Lottery funds to ensure that any shortfall in Lottery revenue can be accounted for in the remaining Infrastructure and Operations Per Pupil Allocation payments to be made for the year.

b. From the amounts listed above, funds are provided to ensure that small school divisions receive an Infrastructure and Operations payment of at least $200,000 each year. Divisions receiving additional funds for a payment of at least $200,000 shall only be required to provide the local match on the per pupil amount distributed in paragraph C.35.a.

c. Of the amounts listed above, no more than 60 percent shall be used for recurring costs and at least 40 percent shall be spent on nonrecurring expenditures by the relevant school divisions. Nonrecurring costs shall include school construction, additions, infrastructure, site acquisition, renovations, school buses, technology, and other expenditures related to modernizing classroom equipment, and debt service payments on school projects completed or initiated during the last 10 years. The Department of Education shall consider such nonrecurring expenses by school divisions from local funds to be credited toward their required local match under this program.

d. Any funds provided to school divisions that are unexpended as of June 30, 2025, and June 30, 2026, shall not revert to the Commonwealth but shall be carried on the books of the locality in local escrow accounts pursuant to § 22.1-175.5, to be appropriated to the school division for use for the same purpose.

Applicants shall be graduates of a regionally accredited college or university.

b. The award of such grants shall be made by the Department of Education, and the number of awards during any one year shall depend upon the amounts appropriated by the General Assembly for this purpose. The amount awarded for each traineeship shall be $600 for a minimum of three semester hours of course work in areas required for the special education endorsement to be taken by the applicant during a single semester or summer session. Only one traineeship shall be awarded to a single applicant in a single semester or summer session.

year. The state share of funding provided to a school division in support of this compensation supplement shall be prorated for school divisions that provide less than an additional average 3.0 percent salary increase the second year; however, to access these funds, a school division must provide at least an additional average 1.5 percent salary increase the second year. School divisions that provided an average increase in excess of 3.0 percent in the first year may credit the excess portion of the increase toward the second year for the purpose of accessing these funds in the second year.

3) Payments in the second year to any school division shall be based on providing the funds needed to continue the first year increase actually provided by the division plus the increase provided by the division in the second year.

b. d. The state funds that the school division is eligible to receive shall be matched by the local government based on the composite index of local ability-to-pay. This local match shall be calculated for funded SOQ instructional and support positions using an effective date of July 1, 2024, the first year and July 1, 2025, the second year. Local school divisions shall certify to the Department of Education that funds used as the local match are derived solely from local revenue sources.

School Division	Grant Award Amount
School divisions with a local composite index value below .3000, or contained in a locality designated with high fiscal stress	30 percent of project costs
School divisions with a local composite index value at or above .3000 and below .4000, or contained in a locality designated with above average fiscal stress	20 percent of project costs
All other school divisions	10 percent of project costs

3. A minimum qualifying score shall be met for a project to qualify for a grant award based on Board-developed scoring criteria. The Board shall set such minimum score at a level to ensure funds are reserved for critical school construction projects. Such scoring criteria shall provide appropriate weight to the following categories for the award of grants:

a.) Commitment, which may be demonstrated by factors such as: (i) an agreement by the local governing body to maintain or increase the percentage of local revenues dedicated to public education throughout the duration of the financing proposed for the project and (ii) the extent of project design and site acquisition for such project that has been completed prior to application of anticipated grant funds.

c.) Poor school building conditions, which may consider factors such as: (i) the condition of the facilities proposed to be replaced or upgraded using these funds, including the current level of compliance of the existing facility with the Americans with Disabilities Act of 1990 (42 U.S.C. § 12101 et seq.) and the facilities potential threat to the health or safety of building occupants; (ii) the school division maintenance reserve tool established pursuant to Chapter 650 of the 2022 General Assembly; and (iii) the overall condition of other facilities within the school division.

4. If qualifying grant award requests exceed the amount of funds available, grants shall be awarded based on ranked project scores, and shall not be prorated.

5. The release of funds to grant awardees shall be reasonably aligned with the timing of incurred expenses.

6. A specific project shall only receive one grant award. The total project cost eligible to receive a grant shall be up to $100,000,000. Grant awards shall not be amended for any additional reasonable project costs after the Board awards a grant to a division.

ITEM 125.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

c. For the purpose of this program, "project costs" shall include reasonable project construction costs as defined by the Board, including planning, design, site acquisition and construction, and not to include financing costs, outdoor facilities predominantly used for extracurricular athletic activities, loose equipment, and furniture.

d. The Board of Education shall submit an executive summary of the program, including details on projects funded each year and any necessary legislative or budget recommendations to improve the program, no later than December 1 of each year to the Chairs of the House Education Committee, Senate Education and Health Committee, House Appropriations Committee, and Senate Finance and Appropriations Committee.

These funds represent the reduction of sales tax distributions to school divisions resulting from the exemption of the state sales and use tax on food for human consumption and essential personal hygiene products. These payments shall be applied in the same manner as sales tax payments to offset the state and local shares of basic aid and shall require no local match.

B. Child Care Subsidy Program

1. The Department of Education and the Department of Social Services shall determine the amount of nongeneral funds to be transferred to the Department of Social Services to address costs associated with administration of the Child Care and Development Fund each year.

2. The Department of Education, in collaboration with the Department of Social Services, shall prepare an annual Child Care and Development Fund (CCDF) report that reflects all CCDF expenditures from the previous fiscal year, current grant balances and obligation and liquidation deadlines, as well as all anticipated spending for the current and two subsequent fiscal years. Identified spending should, at a minimum, be broken down by subsidies (mandated and discretionary), administrative costs, and quality efforts. The plan also shall include a certification from the Department that the maximum amount of federal funds were drawn down in the preceding fiscal year. Should the Department be unable to certify that maximum federal funds were drawn down, the Department shall identify strategies for Virginia to obtain the maximum amount of federal funds in the following fiscal year(s) as part of this plan. In addition, this plan should report, by locality, the number of subsidies (mandated and discretionary) provided, number of providers receiving CCDF dollars, the overall number of child care providers, and the waitlist for services. This information should be provided the previous fiscal year, current fiscal year, and two subsequent fiscal years. The plan shall also include an appendix with the most recently completed CCDF annual report as required by the federal Office of Child Care. The department shall submit the report by October 1 of each year to the Governor and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees. In addition, the department shall post this report on its website along with any reports from previous fiscal years.

3. Notwithstanding 8VAC-20-790, the Department of Education shall establish an annual target at the local level for the number of children that may be served by available funds and ensure that each locality has mechanisms in place for maintaining waitlists if family demand exceeds the targets.

4. Family copayment rates for the 2024-2026 biennium shall not exceed those that were in effect at the beginning of fiscal year 2024.

5. Parental work and job search requirements for the 2024-2026 biennium shall not exceed those that were in effect at the beginning of fiscal year 2024.

C. Mixed Delivery Grant Program

1. A Mixed-Delivery initiative is established to support public-private delivery of early learning services for birth to five-year-old children. Programs must provide full-day or half-day services. The Department of Education is authorized to prorate payment for this program so as not to exceed available appropriation. Actual funding provided to the Virginia Early Childhood Foundation shall be based on the actual use of allocated slots. Lead agencies shall report to the Virginia Early Childhood Foundation on actual use of allocated slots, and any funds allocated but not used on the actual provision of early childhood services shall be returned to the Department of Education.

a) The Department of Education shall establish academic standards that are in accordance with appropriate preparation for students to be ready to successfully enter kindergarten. These standards shall be established in such a manner as to be measurable for student achievement and success. Students shall be required to be evaluated in the fall and in the spring by each participating provider and grantees must certify that the Virginia Preschool Initiative standards are followed in order to receive the funding for quality preschool education and criteria for the service components. Such standards shall align with the Virginia Standards of Learning for Kindergarten.

b) The Department of Education shall require and ensure that all participating classrooms have the quality of their teacher-child interactions assessed through a rigorous and research-based observation instrument in accordance with the statewide measurement and improvement system VQB5.

c) Any locality that desires to participate in this grant program must submit a proposal each

ITEM 125.10.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

year to the Virginia Early Childhood Foundation. The application must be submitted by May 15 to align with the Virginia Preschool Initiative timeline. Each application shall identify a lead agency for this program within the locality. The lead agency shall be responsible for developing a local plan for the delivery of quality preschool services to at-risk birth to five-year-old children in private settings that demonstrates the coordination of resources in an effort to serve the greatest number of at-risk children.

d) The proposal must demonstrate: (i) coordination with all parties necessary for the successful delivery of comprehensive services, including schools, child care providers, local social services agencies, Head Start, local health departments, and other groups identified by the lead agency, (ii) a plan for supporting inclusive practices for children with identified special needs, (iii) a plan to transition the Mixed-Delivery local model into a sustainable program, and (iv) a mechanism for annually measuring and reporting unmet parental demand and preference, including establishing waitlists.

e) Local plans must indicate the number of at-risk children to be served, and the eligibility criteria for participation in this program shall be consistent with the economic and educational risk factors stated in the current program guidelines that are specific to: (i) family income at or below 200 percent of federal poverty guidelines, (ii) homelessness, (iii) student's parents or guardians are school dropouts, or (iv) children with disabilities or delays who are eligible for special education services under the Individuals with Disabilities Education Act, regardless of household income. Up to 15 percent of slots may be filled based on locally established eligibility criteria so as to meet the unique needs of at-risk children in the community. Localities that can demonstrate that more than 15 percent of slots are needed to meet the needs of at-risk children in their community may apply for a waiver from the Superintendent of Public Instruction to use a larger percentage of their slots. Localities must demonstrate that increasing eligibility will enable the maximization of federal funds and will not have a negative impact on access for other individuals currently being served.

f) Notwithstanding any provisions of § 22.1-299, Code of Virginia, and in order to achieve the priorities of the Joint Subcommittee on Early Childhood Care and Education for exploring the feasibility of and barriers to mixed delivery preschool systems in Virginia, recipients of a Mixed-Delivery Preschool grant shall be provided maximum flexibility within their respective local initiative in order to fully implement the associated goals and objectives of Mixed-Delivery Models. Recipients of a Mixed-Delivery Preschool grant and divisions participating in such grant activities shall be exempted from all regulatory and statutory provisions related to teacher licensure requirements and qualifications when paid by public funds within the confines of the Mixed-Delivery Preschool initiative.

g) Children served by the Mixed-Delivery initiative shall be assigned student identification numbers as provided in § 22.1-287.03 B of the Code of Virginia to evaluate program outcomes and to permit comparison with Virginia Preschool Initiative outcomes.

h) Mixed-Delivery providers shall provide information to the Department of Education as necessary to fulfill the reporting requirement established.

i) The Department of Education shall report to the Governor and the Chairs of the House Committee on Education and the Senate Committee on Education and Health by July 1, 2025, on the efficacy of the Mixed-Delivery Initiative since the inception of the program and compare its outcomes relative to the Virginia Preschool Initiative and the Child Care Subsidy Program.

2. Providers in the program may collect copayments from participating families. Such copayments shall be based on the same schedule provided for the Child Care Subsidy Program.

3. Parental work and job search requirements shall be the same as required for the Child Care Subsidy Program.

D. Virginia Preschool Initiative

1.a. Funds shall be disbursed by the Department of Education to schools and community-based organizations to provide quality preschool programs for at-risk four-year-olds who are residents of Virginia and unserved by Head Start program funding and for at-risk five-

year-olds who are not eligible to attend kindergarten, or who did not have access to a sufficient preschool experience and whose families request preschool as the most appropriate placement. Final Virginia Preschool Initiative placement decisions for eligible children shall be based on family and program leader input.

b. These state funds and required local matching funds shall be used to provide programs for at-risk four-year-old children, which include quality preschool education, health services, social services, parental involvement and transportation. It shall be the policy of the Commonwealth that state funds and required local matching funds for the Virginia Preschool Initiative not be used for capital outlay, not be used to supplant any Head Start federal funds provided for local early education programs, and not be used until the local Head Start grantee certifies that all local Head Start slots are filled. Programs must provide full-day or half-day and, at least, school-year services.

c. The Department of Education shall establish academic standards that are in accordance with appropriate preparation for students to be ready to successfully enter kindergarten. These standards shall be established in such a manner as to be measurable for student achievement and success. Students shall be required to be evaluated in the fall and in the spring by each participating school division and the school divisions must certify that the Virginia Preschool Initiative program follows the established standards in order to receive the funding for quality preschool education and criteria for the service components. Such standards shall align with the Virginia Standards of Learning for Kindergarten.

d.(i) Grants shall be distributed based on an allocation formula providing the state share of a $9,968 per pupil grant in the first year and a $9,968 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program. Grants to half-day programs shall be funded based on the state share of $4,984 in the first year and $4,984 in the second year per unserved at-risk four-year-old in each locality.

For Planning District Eight localities, grants shall be distributed based on an allocation formula providing the state share of a $10,701 per pupil grant in the first year and a $10,701 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program; grants to half-day programs for these localities shall be funded based on the state share of $5,351 in the first year and $5,351 in the second year per unserved at-risk four-year-old in each locality.

For the counties of Stafford, Fauquier, Spotsylvania, Clarke, Warren, Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, grants shall be distributed based on an allocation formula providing the state share of a $10,151 per pupil grant in the first year and a $10,151 per pupil grant in the second year for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program; grants to half-day programs for these localities shall be funded based on the state share of $5,076 in the first year and $5,076 in the second year per unserved at-risk four-year-old in each locality.

The number of unserved at-risk four-year-olds in each locality shall be based on the projected number of kindergarten students, updated once each biennium for the Governor's introduced biennial budget. The Department of Education shall biennially rebenchmark the Virginia Preschool Initiative per pupil amounts using a formula similar to the current formula supporting public K-12 education in Virginia.

For slots filled as of September 30 each year, grants shall be based on the state share of 100 percent of the per pupil amount for a full-day or half-day program. For slots filled between October 1 and December 31 each year, grants shall be based on the state share of the per pupil amount for a full-day or half-day program prorated for the portion of the school year each child is served. Following the Department of Education's fall student record collection each year, the Department shall project the number of additional slots that may be filled between October 1 and December 31 each year. The Department of Education is authorized to prorate state funding for slots filled between October 1 and December 31 each year if demand exceeds available appropriation.

(ii) VPI Expansion funds are provided to serve at-risk three-year-olds who are residents of Virginia and unserved by Head Start funding using criteria determined by the Department of Education and subject to available appropriation. Localities may apply to participate by May 15 each year and shall be selected on a competitive basis. Localities shall be required to: (i)

ITEM 125.10.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

demonstrate broad stakeholder support, (ii) track outcomes for participating children, (iii) demonstrate how they will maximize federal and state funds to preserve existing birth to five slots, including certifying that all local Head Start slots are filled, (iv) support inclusive practices of children with identified special needs, and (v) collaborate among the school division, local department of social services, programs accepting child care subsidy payments, and providers for Head Start, private child care, and early childhood special education and early intervention programs. Localities that meet the following characteristics shall be prioritized for participation: (i) communities with limited child care options; (ii) programs serving children in private, mixed-delivery settings; or (iii) communities that demonstrate full support of public and private providers. Grants shall be distributed based on an allocation formula providing the state share of the per pupil amounts as provided for four-year old slots.

(iii) Full-day programs shall operate for a minimum of five and one-half instructional hours, excluding breaks for meals, and half-day programs shall operate for a minimum of three hours of classroom instructional time per day, excluding breaks for lunch. Virginia Preschool Initiative programs may include unstructured recreational time that is intended to develop teamwork, social skills, and overall physical fitness in any calculation of total instructional time, provided that such unstructured recreational time does not exceed 15 percent of total instructional time or teaching hours. No additional state funding is provided for programs operating greater than three hours per day but less than five and one-half hours per day. In determining the state and local shares of funding, the composite index of local ability-to-pay is capped at 0.5000.

(iv) For new programs in the first year of implementation only, programs operating less than a full school year shall receive state funds on a fractional basis determined by the pro-rata portion of a school year program provided. In determining the prorated state funds to be received, a school year shall be 180 days or 990 teaching hours.

(v) To ensure children with special needs have equitable opportunity to enter kindergarten ready, all Virginia Preschool Initiative programs are expected to be inclusive of children with disabilities. Specifically, programs shall meet or exceed a target inclusion rate, such that 10 percent of all children participating in the Virginia Preschool Initiative are children with disabilities, defined as those with an Individualized Education Plan, and are served in inclusive classrooms that include children who do not have an Individualized Education Plan. A program that is unable to meet this target shall provide reasons a 10 percent inclusion rate was not achieved in the given school year in its annual comprehensive report.

2.a. Any locality that desires to participate in this grant program must submit a proposal through its chief administrator (county administrator or city manager) by May 15 of each year. The chief administrator, in conjunction with the school superintendent, shall identify a lead agency for this program within the locality. The lead agency shall be responsible for developing a local plan for the delivery of quality preschool services to at-risk children, which demonstrates the coordination of resources and the combination of funding streams in an effort to serve the greatest number of at-risk four-year-old children and, if applicable, to serve at-risk three-year-old children. The plan shall also include a mechanism for annually measuring and reporting unmet parental demand and preference, including establishing waitlists.

b. The proposal must demonstrate coordination with all parties necessary for the successful delivery of comprehensive services, including the schools, child care providers, local social services agency, Head Start, local health department, and other groups identified by the lead agency. The proposal must identify which entities were consulted and how the locality will ensure that federal funds are preserved and maximized including demonstrating compliance with Title I of the federal Elementary and Secondary Education Act to ensure that a Local Educational Agency receiving Title I funding coordinates with Head Start programs and other early learning programs receiving federal funds by developing Memorandums of Understanding with such agencies to coordinate services. The proposal must also demonstrate a plan for supporting inclusive practices for children with identified special needs.

c. A local match, based on the composite index of local ability-to-pay, shall be required. For purposes of meeting the local match, localities may use local expenditures for existing

ITEM 125.10.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

qualifying programs, however, at least fifty percent of the local match will be cash and no more than fifty percent will be in-kind. In-kind contributions are defined as cash outlays that are made by the locality that benefit the program but are not directly charged to the program. The value of fixed assets cannot be considered as an in-kind contribution. Philanthropic or other private funds may be contributed to the locality to be appropriated in their local budget and then utilized as local match. Localities shall also continue to pursue and coordinate other funding sources, including child care subsidies. Funds received through this program must be used to supplement, not supplant, any funds currently provided for programs within the locality. However, in the event a locality is unable to continue the previous level of support to programs for at-risk four-year-olds from Title I of the federal Elementary and Secondary Education Act (ESEA), the state and local funds provided in this grants program may be used to continue services to these Title I students. Such inability may occur due to adjustments to the allocation formula in the reauthorization of ESEA as the Every Student Succeeds Act of 2015, or due to a percentage reduction in a locality's Title I allocation in a particular year. Any locality so affected shall provide written evidence to the Superintendent of Public Instruction and request his approval to continue the services to Title I students.

3. Local plans must provide clear methods of service coordination for the purpose of reducing the per child cost for the service, increasing the number of at-risk children served and/or extending services for the entire year.

Examples of these include:

a. "Wraparound Services" - methods for combining funds such as child care subsidy dollars administered by local social service agencies with dollars for quality preschool education programs.

b. "Wrap-out Services" - methods for using grant funds to purchase quality preschool services to at-risk four-year-old children through an existing child care setting by purchasing comprehensive services within a setting which currently provides quality preschool education.

c. "Expansion of Service" - methods for using grant funds to purchase slots within existing programs, such as Head Start, which provides comprehensive services to at-risk three- and four-year-old children.

4. Local plans must indicate the number of at-risk four-year-old children to be served, and the eligibility criteria for participation in this program shall be consistent with the economic and educational risk factors stated in the current program guidelines that are specific to: (i) family income at or below 200 percent of federal poverty guidelines, (ii) homelessness, (iii) student's parents or guardians are school dropouts, or (iv) children with disabilities or delays who are eligible for special education services under the Individuals with Disabilities Education Act, regardless of household income. Up to 15 percent of a division's slots may be filled based on locally established eligibility criteria so as to meet the unique needs of at-risk children in the community. If applicable, local plans must also indicate the number of at-risk three-year-old children to be served using the same eligibility criteria listed above. Localities that can demonstrate that more than 15 percent of slots are needed to meet the needs of at-risk children in their community may apply for a waiver from the Superintendent of Public Instruction to use a larger percentage of their slots. Localities must demonstrate that increasing eligibility will enable the maximization of federal funds and will not have a negative impact on access for other individuals currently being served.

5.a. The Department of Education shall provide technical assistance for the administration of this grant program to provide assistance to localities in developing a comprehensive, coordinated, quality preschool program that prepares all participants for kindergarten.

b. The Department shall provide interested localities with information on models for service delivery, methods of coordinating funding streams, such as funds to match federal IV-A child care dollars, to maximize funding without supplanting existing sources of funding for the provision of services to at-risk three- and four-year-old children. A priority for technical assistance in the design of programs shall be given to localities where the majority of the at-risk three- and four-year-old population is currently unserved.

6. VPI Expansion funds are provided to support Virginia Preschool Initiative slots to serve children on wait lists. In each year, unused grants distributed as provided in for four-year old

ITEM 125.10.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

slots shall be redistributed based on guidelines established by the Department of Education subject to the appropriation available for this purpose. Such guidelines shall provide the criteria used to redistribute grants and provide for the notification of grants redistribution to programs no later than July 1 of each year. The Department shall conduct this process annually, and the redistribution shall not affect the allocation formula for the subsequent year.

7.a. VPI Expansion funds are provided to support an add-on grant per child for approximately 2,000 children to incentivize mixed-delivery of services through private providers. These add-on grants are intended to provide funds to minimize the difference between the amount of the per-pupil grant allocation and the per-pupil cost to serve a child in a community-based or private provider setting. Recipients of the add-on grants will be encouraged to support classrooms that support inclusive practices of children with special needs. Localities shall indicate in their plans submitted pursuant to this Item how many of their Virginia Preschool Initiative slots will be provided in community-based or private provider settings to receive the add-on grant. Community-based providers that are recipients of Virginia Preschool Initiative grants shall be exempted from all regulatory and statutory provisions related to teacher licensure requirements and qualifications when paid by public funds within the confines of the Virginia Preschool Initiative community-add-on partnerships and provided that the provider meets the expectations of the statewide measurement and improvement system.

b. The amount of these add-on grants for community-based providers shall be informed by the Department of Education's methodology to estimate the actual cost of providing high-quality early childhood education services in community-based settings. This is not intended as a mandate to increase the individual amounts of these add-on grants or to increase the state appropriation supporting these add-on grants. The amount of the add-on grant plus the Virginia Preschool Initiative per pupil amount shall not exceed prevailing child care market rates in a particular region and shall align with Child Care Subsidy Program rates. The Department of Education is authorized to prorate payments for these add-on grants so as not to exceed the available appropriation.

8. VPI Expansion funds are provided to support increased Virginia Preschool Initiative teacher to student ratios and class sizes, as follows:

a. Any classroom that exceeds benchmarks set by the Board of Education shall be staffed as follows: (i) one teacher shall be provided for any class of ten students or less; (ii) if the enrollment in any class exceeds ten students but does not exceed 20, a full-time teacher's aide shall be assigned to the class; and (iii) the maximum class size shall be 20 students.

b. All other classrooms shall be staffed as follows: (i) one teacher shall be employed for any class of nine students or less; (ii) if the enrollment in any class exceeds nine students but does not exceed 18, a full-time teacher's aide shall be assigned to the class; and (iii) the maximum class size shall be 18 students.

9.a. The Department of Education shall collect information from local Virginia Preschool Initiative programs and from providers participating in the Virginia Early Childhood Foundation's Mixed-Delivery Preschool Initiative as needed to compile a comprehensive report on the usage of state funds detailing, but not limited to the number of calculated slots and funding allocated to each local program or provider, and the number of such slots that have been filled.

b. Such comprehensive report shall be aggregated in a manner to identify: (i) funding and the number of slots used to serve a student in a public school and non-public school setting, (ii) the number of three-year olds served, (iii) waitlist slots requested, offered, and provided, (iv) the number of students served whose families are at or below 130 percent poverty, above 130 percent but at or below 200 percent of poverty, above 200 percent but at or below 350 percent of poverty, and above 350 percent of poverty.

c. Such comprehensive report shall describe the Virginia Preschool Initiative programs' progress towards the target inclusion rate, such that 10 percent of all children enrolled in each program are children with disabilities, defined as those with an Individualized Education Plan. Virginia Preschool Initiative programs shall report the share of children with Individualized Education Plans in inclusive classrooms annually starting with the

ITEM 125.10.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

2020-2021 school year. If the program's current inclusion rate falls below 10 percent, the program shall provide reasons a 10 percent inclusion rate was not achieved in the given school year and what actions the program could implement to increase its rate of inclusion in the next year.

d. The Department shall submit such comprehensive report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than December 31 each year.

e. The Department shall develop a plan for comprehensive public reporting on early childhood expenditures, outcomes, and program quality to replace this reporting requirement. Such plan and subsequent reports shall consider the components included in this reporting requirement, and include all publicly-funded providers as defined in Chapter 860 and Chapter 861, 2020 Acts of Assembly. The plan shall identify any fiscal, legislative, or regulatory barriers to implementing such public reporting, and shall consider integration with the Department's School Quality Profiles. The Department of Education shall submit an update on implementation of the plan to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1 each year. Once fully implemented, the Department of Education shall update and submit the report by December 1 of each year.

G. Notwithstanding 8VAC-20-780, or any other requirement in state law or regulation, the Superintendent of Public Instruction shall have the authority to alter staff-to-child ratios and group sizes for licensed child day centers and child day centers that participate in the Child Care Subsidy Program or Mixed Delivery Grant Program by increasing the number of children per staff by (1) one child for groups of children from birth to the age of eligibility to attend public school, and (2) two children for groups of children from the age of eligibility to attend public school through 12 years. Child day centers that take advantage of this flexibility must notify families in writing of the temporary increase in ratios and group size. This authority and any resultant waiver of state law or regulation shall expire June 30, 2026. The Superintendent of Public Instruction shall ensure that any action taken under this provision is permissible under federal requirements.

H. The Early Childhood Care and Education Commission shall review and recommend updates to the current copayment schedule, parental work requirements, and attendance expectations applicable to the Child Care Subsidy Program and Mixed Delivery Grant Program. In its review, the Commission shall consider: (i) leveraging state general funds to minimize the fiscal cliff as family income increases beyond program eligibility, (ii) use of reasonable family copayments to minimize the need for additional general funds. No later than December 1, 2024, the Commission shall submit its recommendations to the to the Governor and the Chairmen of the House Committee on Appropriations, the Senate Committee on Finance and Appropriations, the House Committee on Commerce and Energy, the Senate Committee on Commerce and Labor, the House Committee on Education, and the Senate Committee on Education and Health.

a. The appropriation to support payments to school divisions from federal program grant funds is contained in this Item. Such federal program grant funds are based on the latest estimates available to the Department of Education and are provided here for informational purposes and are subject to change within each state fiscal year by the awarding federal agency. The Department of Education is directed to update the estimated federal program grant fund amounts contained in the table in this item on a periodic basis throughout the biennium.

b. The Department of Education will encourage localities to apply for Medicaid reimbursements for eligible special education expenditures which will help to increase available state and local funding for other educational activities and expenditures.

c. It is the intent of the General Assembly that in any fiscal year when revenues received or

budgeted by the Commonwealth, applicable to any public education program, which were derived from a federally funded grant or program and subsequently realize a decrease in such funding levels, that the Commonwealth will not supplant any of the decreased federal funding received or budgeted with any general fund revenues from the Commonwealth.

In furtherance of the goal of providing all postsecondary students in Virginia with one or more paid internships during their undergraduate course of study, funding shall be used for: (a) institutional grants to enhance engagement with employers related to internship placement and to assist students in securing and successfully completing internships, including students that traditionally do not participate in such programs; (b) matching grants to small and midsize Virginia-based employers to enable increased paid internship participation by small and midsize businesses and nonprofit organizations; (c) promotional expenditures to encourage expansion of internship programs and participation by business and nonprofit organizations in Virginia and to increase recruitment and retention of students; and (d) administrative and other expenditures to accomplish the purposes of the Innovative Internship Fund and Program and this paragraph.

The plan shall include continued development of regional collaboratives among employers, educational organizations, and other regional stakeholders for the purpose of expanding internships in alignment with regional growth and diversification strategies and state and regional economic and workforce development initiatives. The plan also shall address the objective of encouraging secondary students in Virginia and outside Virginia to attend Virginia-based institutions of higher education and remain in the Commonwealth after completion through paid internships and pathways to full-time Virginia-based employment.

Physicians on the committee shall be licensed in Virginia, one of whom shall be a psychiatrist, and one of whom specializes in care for the aging. Pharmacists on the committee shall be licensed in Virginia, one of whom shall have clinical expertise in mental health drugs, and one of whom has clinical expertise in community-based mental health treatment. In developing and maintaining the preferred drug list, the cost effectiveness of any given drug shall be considered only after it is determined to be safe and clinically effective.

b. The Pharmacy and Therapeutics Committee shall schedule meetings at least semi-annually and may meet at other times at the discretion of the chairperson and members. 5. The Preferred Drug List program shall generate savings as determined by the department that are net of any administrative expenses to implement and administer the program.

6. Notwithstanding § 32.1-331.12 et seq., Code of Virginia, to implement these changes, the Department of Medical Assistance Services shall promulgate emergency regulations to become effective within 280 days or less from the enactment of this Act. In addition, the department shall work with the Department of Behavioral Health and Development Services to consider utilizing a Preferred Drug List program for its non-Medicaid clients.

7. The Department of Medical Assistance Services shall (i) continually review utilization of behavioral health medications under the State Medicaid Program for Medicaid recipients; and (ii) ensure appropriate use of these medications according to federal Food and Drug Administration (FDA) approved indications and dosage levels. The department may also require retrospective clinical justification according to FDA approved indications and dosage levels for the use of multiple behavioral health drugs for a Medicaid patient. For individuals 18 years of age and younger who are prescribed three or more behavioral health drugs, the department may implement clinical edits that target inefficient, ineffective, or potentially harmful prescribing patterns in accordance with FDA-approved indications and dosage levels.

8. The Department of Medical Assistance Services shall ensure that in the process of developing the Preferred Drug List, the Pharmacy and Therapeutics Committee considers the value of including those prescription medications which improve drug regimen compliance, reduce medication errors, or decrease medication abuse through the use of medication delivery systems that include, but are not limited to, transdermal and injectable delivery systems.

DD.1. The Department of Medical Assistance Services may amend the State Plan for Medical Assistance Services to modify the delivery system of pharmaceutical products to include a specialty drug program. 2. In developing the specialty drug program to implement appropriate care management and control drug expenditures, the department shall contract with a vendor who will develop a methodology for the reimbursement and utilization through appropriate case management of specialty drugs and distribute the list of specialty drug rates, authorized drugs and utilization guidelines to medical and pharmacy providers in a timely manner prior to the implementation of the specialty drug program and publish the same on the department's website.

3. In the event that the Department of Medical Assistance Services contracts with a vendor, the department shall establish the fee paid to any such contractor based on the reasonable cost of services provided. The department may not offer or pay directly or indirectly any material inducement, bonus, or other financial incentive to a program contractor based on the denial or administrative delay of medically appropriate prescription drug therapy, or on the decreased use of a particular drug or class of drugs, or a reduction in the proportion of beneficiaries who receive prescription drug therapy under the Medicaid program. Bonuses cannot be based on the percentage of cost savings generated under the benefit management of services.

5. The department shall have authority to enact emergency regulations under § 2.2-4011 of the Administrative Process Act to effect these provisions.

EE. In the event that the Department of Medical Assistance Services decides to contract for pharmaceutical benefit management services to administer, develop, manage, or implement Medicaid pharmacy benefits, the department shall establish the fee paid to any such contractor based on the reasonable cost of services provided. The department may not offer or pay directly or indirectly any material inducement, bonus, or other financial incentive to a program contractor based on the denial or administrative delay of medically appropriate prescription drug therapy, or on the decreased use of a particular drug or class of drugs, or a reduction in the proportion of beneficiaries who receive prescription drug therapy under the Medicaid program. Bonuses cannot be based on the percentage of cost savings generated under the benefit management of services.

FF. The Department of Medical Assistance Services, in cooperation with the Department of Social Services' Division of Child Support Enforcement (DSCE), shall identify and report third party coverage where a medical support order has required a custodial or noncustodial parent to enroll a child in a health insurance plan. The Department of Medical Assistance Services shall also report to the DCSE third party information that has been identified through their third party identification processes for children handled by DCSE.

GG.1. Notwithstanding the provisions of § 32.1-325.1:1, Code of Virginia, upon identifying that an overpayment for medical assistance services has been made to a provider, the Director, Department of Medical Assistance Services shall notify the provider of the amount of the overpayment. 2. Notwithstanding the provisions of § 32.1-325.1, Code of Virginia, the director shall issue an informal fact-finding conference decision concerning provider reimbursement in accordance with the State Plan for Medical Assistance, the provisions of § 2.2-4019, Code of Virginia, and applicable federal law. The informal fact-finding conference decision shall be issued within 180 days of the receipt of the appeal request, except as provided herein. If the agency does not render an informal fact-finding conference decision within 180 days of the receipt of the appeal request or, in the case of a joint agreement to stay the appeal decision as detailed below, within the time remaining after the stay expires and the appeal timeframes resume, the decision is deemed to be in favor of the provider. An appeal of the director's informal fact-finding conference decision concerning provider reimbursement shall be heard in accordance with § 2.2-4020 of the Administrative Process Act (§ 2.2-4020 et seq.) and the State Plan for Medical Assistance provided for in § 32.1-325, Code of Virginia. The Department of Medical Assistance Services and the provider may jointly agree to stay the deadline for the informal appeal decision or for the formal appeal recommended decision of the Hearing Officer for a period of up to sixty (60) days to facilitate settlement discussions. If the parties reach a resolution as reflected by a written settlement agreement within the sixty-day period, then the stay shall be extended for such additional time as may be necessary for review and approval of the settlement agreement in accordance § 2.2-514 of the Code of Virginia. Once a final agency case decision has been made, the director shall undertake full recovery of such overpayment whether or not the provider disputes, in whole or in part, the informal fact-finding conference decision or the final agency case decision. Interest charges on the unpaid balance of any overpayment shall accrue pursuant to § 32.1-313, Code of Virginia, from the date the Director's agency case decision becomes final.

report for provider fiscal years ending in state fiscal year 2018. New Virginia-based residential psychiatric facilities must submit proforma cost report data, which will be used to set the initial per diem rate for up to two years. After this period, the department shall establish a per diem rate based on an audited cost report for a 12-month period within the first two years of operation. Providers that do not submit cost reports shall be paid at 75% of the established rate ceiling. If necessary to enroll out-of-state providers for network adequacy, the department shall negotiate rates. If there is sufficient utilization, the department may require out-of-state providers to submit a cost report to establish a per diem rate. In-state and out-of-state provider per diem rates shall be subject to a ceiling based on the statewide weighted average cost per day from fiscal year 2018 cost reports. The department shall have the authority to implement these changes effective July 1, 2021, and prior to the completion of any regulatory process undertaken in order to effect such change.

2. The Department of Medical Assistance Services shall have the authority to establish rebasing of PRTF rates every three years. The first rebasing of rates shall take effect July 1, 2023. All PRTF and Addiction and Rehabilitation Treatment Services (ARTS) providers who offer qualifying services under 12VAC30-70-418(C) shall be required to submit cost reports as a part of rebasing. Out of state providers with more than 1,500 paid days for Virginia Medicaid members in the most recently completed state fiscal year shall also be required to submit a cost report. A rate ceiling shall be established based on a statewide weighted average cost per day. Rate ceilings shall be established independently for PRTFs and participating ARTS residential services. The department shall have the authority to implement these changes effective July 1, 2022 and prior to the completion of any regulatory process to effect such change.

3. DMAS shall also establish inflation increases for each non-rebasing fiscal year for both PRTF and qualifying ARTS providers. Inflation rates shall be tied to the Nursing Facility Moving Average as established by IHS Markit (or its successor). The most recent four quarters will be averaged to create the PRTF inflation rate. The department shall have the authority to implement these changes effective July 1, 2023, and prior to the completion of any regulatory process to effect such change.

4. Effective July 1, 2022, the department shall adjust PRTF rates by 8.89% to account for inflation since the last audited cost report of fiscal year 2018. The rate ceiling shall increase to $460.89 per day. The department shall have the authority to implement these changes effective July 1, 2022, and prior to the completion of any regulatory process to effect such change.

5. The department shall revise reimbursement methodologies for PRTF rates to implement inflation increases for each fiscal year to be effective July 1, 2024. Inflation rates shall be tied to the Nursing Facility Moving Average as established by IHS Markit (or its successor). The most recent four quarters will be averaged to create the PRTF inflation rate. The department shall have the authority to implement these changes prior to the completion of any regulatory process to effect such change.

The committee shall also include representatives from each of the department's contracted managed care organizations and a representative from the Virginia Association of Health Plans. The committee will work with the department to investigate the implementation of quality, cost-effective health care initiatives, to identify means to increase provider participation in the Medicaid program, to remove administrative obstacles to quality, cost-effective patient care, and to address other matters as raised by the department or members of the committee. The committee shall establish an Emergency Department Care Coordination work group comprised of representatives from the committee, including the Virginia College of Emergency Physicians, the Medical Society of Virginia, the Virginia Hospital and Healthcare Association, the Virginia

2. The Department of Medical Assistance Services shall have the authority to implement reimbursement changes deemed necessary to meet the requirements of this paragraph prior to the completion of any regulatory process in order to effect such changes.

KK. The Department of Medical Assistance Services shall submit a report annually on all supplemental payments made to hospitals through the Medicaid program. This report shall include information for each hospital and by type of supplemental payment (Disproportionate Share Hospital, Graduate Medical Education, Indirect Medical Education, Upper Payment Limit program, and others). The report shall include total Medicaid payments from all sources and calculate the percent of overall payments that are supplemental payments. Furthermore, it shall include a description of each type of supplemental payment and the methodology used to calculate the payments. Each report shall reflect the data for the prior three fiscal years and shall be submitted to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees by September 1 each year.

LL. The Department of Medical Assistance Services shall have the authority to amend the state plan for medical assistance services and associated regulations to remove any obsolete provider supplemental payments that were authorized prior to July 1, 2021. This includes any supplemental payments that have no qualifying providers, have sunset or for which no payments have ever been made. The department shall have the authority to promulgate emergency regulations to implement these amendments within 280 days or less from the enactment of this Act.

MM. The Department of Medical Assistance Service shall have the authority to amend the State Plan for Medical Assistance to implement a supplemental disproportionate share hospital (DSH) redistribution methodology for DSH funds that allows the redistribution of excess DSH payments to other eligible DSH hospitals that have not met their uncompensated care costs. This supplemental redistribution shall be budget neutral and not use state funds in excess of those already appropriated for DSH payments. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

NN. The Disproportionate Share Hospital (DSH) per diem for Type One hospitals shall be 17 times the DSH per diem for Type Two hospitals. The department shall have the authority to implement these reimbursement changes effective July 1, 2014, and prior to completion of any regulatory process in order to effect such changes.

OO.1.a. There is hereby appropriated sum-sufficient nongeneral funds for the Department of Medical Assistance Services (DMAS) to pay the state share of supplemental payments for qualifying private hospital partners of Type One hospitals (consisting of state-owned teaching hospitals) as provided in the State Plan for Medical Assistance Services. Qualifying private hospitals shall consist of any hospital currently enrolled as a Virginia Medicaid provider and owned or operated by a private entity in which a Type One hospital has a non-majority interest. The supplemental payments shall be based upon the reimbursement methodology

ITEM 288.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

established for such payments in Attachments 4.19-A and 4.19-B of the State Plan for Medical Assistance Services. DMAS shall enter into a transfer agreement with any Type One hospital whose private hospital partner qualifies for such supplemental payments, under which the Type One hospital shall provide the state share in order to match federal Medicaid funds for the supplemental payments to the private hospital partner. The department shall have the authority to implement these reimbursement changes consistent with the effective date in the State Plan amendment approved by the Centers for Medicare and Medicaid Services (CMS) and prior to completion of any regulatory process in order to effect such changes.

b. The department shall adjust capitation payments to Medicaid managed care organizations for the purpose of securing access to Medicaid hospital services for the qualifying private hospital partners of Type One hospitals (consisting of state-owned teaching hospitals). The department shall revise its contracts with managed care organizations to incorporate these supplemental capitation payments and provider payment requirements. DMAS shall enter into a transfer agreement with any Type One hospital whose private hospital partner qualifies for such supplemental payments, under which the Type One hospital shall provide the state share in order to match federal Medicaid funds for the supplemental payments to the private hospital partner. The department shall have the authority to implement these reimbursement changes consistent with the effective date approved by the Centers for Medicare and Medicaid Services (CMS). No payment shall be made without approval from CMS.

2.a. The Department of Medical Assistance Services shall promulgate regulations to make supplemental payments to Medicaid physician providers with a medical school located in Eastern Virginia that is a political subdivision of the Commonwealth. The amount of the supplemental payment shall be based on the difference between the average commercial rate approved by CMS and the payments otherwise made to physicians. The department shall have the authority to implement these reimbursement changes consistent with the effective date in the State Plan amendment approved by CMS and prior to completion of any regulatory process in order to effect such changes.

b. The department shall increase payments to Medicaid managed care organizations for the purpose of securing access to Medicaid physician services in Eastern Virginia, through higher rates to physicians affiliated with a medical school located in Eastern Virginia that is a political subdivision of the Commonwealth subject to applicable limits. The department shall revise its contracts with managed care organizations to incorporate these supplemental capitation payments, and provider payment requirements, subject to approval by CMS. No payment shall be made without approval from CMS.

c. Funding for the state share for these Medicaid payments is authorized in Item 171.

3.a. The Department of Medical Assistance Services (DMAS) shall have the authority to amend the State Plan for Medical Assistance Services (State Plan) to implement a supplemental Medicaid payment for local government-owned nursing homes. The total supplemental Medicaid payment for local government-owned nursing homes shall be based on the difference between the Upper Payment Limit of 42 CFR §447.272 as approved by CMS and all other Medicaid payments subject to such limit made to such nursing homes. There is hereby appropriated sum-sufficient funds for DMAS to pay the state share of the supplemental Medicaid payment hereunder. However, DMAS shall not submit such State Plan amendment to CMS until it has entered into an intergovernmental agreement with eligible local government-owned nursing homes or the local government itself which requires them to transfer funds to DMAS for use as the state share for the supplemental Medicaid payment each nursing home is entitled to and to represent that each has the authority to transfer funds to DMAS and that the funds used will comply with federal law for use as the state share for the supplemental Medicaid payment. If a local government-owned nursing home or the local government itself is unable to comply with the intergovernmental agreement, DMAS shall have the authority to modify the State Plan. The department shall have the authority to implement the reimbursement change consistent with the effective date in the State Plan amendment approved by CMS and prior to the completion of any regulatory process undertaken in order to effect such change.

schedule pursuant to 42 C.F.R. § 438.6(c)(1)(iii) for local government-owned nursing homes participating in Cardinal Care Managed Care (Cardinal Care) at the same level as and in lieu of the supplemental Medicaid payments authorized in Section OO.3.a., then DMAS shall: (i) exclude Medicaid recipients who elect to receive nursing home services in local government-owned nursing homes from Cardinal Care; (ii) pay for such excluded recipient's nursing home services on a fee-for-service basis, including the related supplemental Medicaid payments as authorized herein; and (iii) prohibit Cardinal Care contracted health plans from in any way limiting Medicaid recipients from electing to receive nursing home services from local government-owned nursing homes. The department may include in Cardinal Care Medicaid recipients who elect to receive nursing home services in local government-owned nursing homes in the future when it has secured federal CMS approval to use a minimum fee schedule as described above.

4. The Department of Medical Assistance Services shall have the authority to amend the State Plan for Medical Assistance Services to implement a supplemental payment for clinic services furnished by the Virginia Department of Health (VDH) effective July 1, 2015. 6.a. The department shall amend the State plan for Medical Assistance to implement a supplemental inpatient and outpatient payment for Chesapeake Regional Hospital based on the difference between reimbursement with rates using an adjustment factor of 100% minus current authorized reimbursement subject to the inpatient and outpatient Upper Payment Limits for non-state government owned hospitals, and for managed care claims based on the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims for non-state government hospitals and the maximum managed care directed payment supported by the department's calculations and allowed by CMS, subject to CMS approval under 42 C.F.R. section 438.6(c). The department shall include in its contracts with managed care organizations a percentage increase for Chesapeake Regional Hospital consistent with the approved managed care directed percentage increase. The department shall adjust capitation payments to Medicaid managed care organizations to fund this percentage increase. Both the contract changes and capitation rate adjustments shall be compliant with 42 C.F.R. 438.6(c)(1)(iii) and subject to CMS approval.

7.a. There is hereby appropriated sum-sufficient nongeneral funds for the department to pay the state share of supplemental payments for nursing homes owned by Type One hospitals (consisting of state-owned teaching hospitals) as provided in the State Plan for Medical Assistance Services. The total supplemental payment shall be based on the difference between the Upper Payment Limit of 42 CFR § 447.272 as approved by CMS and all other Medicaid payments subject to such limit made to such nursing homes. DMAS shall enter into a transfer agreement with any Type One hospital whose nursing home qualifies for such supplemental payments, under which the Type One hospital shall provide the state share in order to match federal Medicaid funds for the supplemental payments. The department shall have the authority to implement these reimbursement changes consistent with the effective date in the State Plan amendment approved by CMS and prior to completion of any regulatory process in order to effect such changes.

b. The department shall adjust capitation payments to Medicaid managed care organizations to fund a minimum fee schedule compliant with requirements in 42 C.F.R. § 438.6(c)(1)(iii) at a level consistent with the State Plan amendment authorized above for nursing homes owned by Type One hospitals. The department shall revise its contracts with managed care organizations to incorporate these supplemental capitation payments and provider payment requirements. DMAS shall enter into a transfer agreement with any Type One hospitals whose nursing home qualifies for such supplemental payments, under which the Type One hospital shall provide the state share in order to match federal Medicaid funds for the supplemental payments. The department shall have the authority to implement these reimbursement changes consistent with the effective date approved by CMS. No payment shall be made without approval from CMS.

8. The department shall amend the State plan for Medical Assistance to implement a supplemental inpatient payment for Lake Taylor Transitional Care Hospital based on the difference between Medicaid reimbursement and the inpatient Upper Payment Limit for non-state government owned hospitals, and for managed care claims based on the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims for non-state government hospitals and the maximum managed care directed payment supported by the department's calculations and allowed by CMS, subject to CMS approval under 42 C.F.R. section 438.6(c). The department shall include in its contracts with managed care organizations a percentage increase for Lake Taylor Transitional Care Hospital consistent with the approved managed care directed fee for service supplemental payment percentage increase. The department shall adjust capitation payments to Medicaid managed care organizations to fund this percentage increase. Both the contract changes and capitation rate adjustments shall be compliant with 42 C.F.R. 438.6(c)(1)(iii) and subject to CMS approval. Prior to submitting the State Plan Amendment or making the managed care contract changes, Lake Taylor Transitional Care Hospital shall enter into an agreement with the department to transfer the non-federal share for these payments. The department shall have the authority to implement these reimbursement changes consistent with the effective date(s) approved by the Centers for Medicare and Medicaid (CMS). The originating funding for this program will come entirely from Lake Taylor.

9.a. The Department of Medical Assistance Services shall develop a State Plan for Medical Assistance amendment to make supplemental payments to private hospitals and related health systems who intend to execute affiliation agreements with public entities that are capable of transferring funds to the department for purposes of covering the non-federal share of the authorized payments. Virginia community colleges, Virginia public institutions of higher education, local governments, and instrumentalities of local government are public entities that are authorized to transfer funds to the department for purposes of covering the non-federal share of the authorized payments. Such public entities would enter into an Interagency Agreement with the department for this purpose. The department shall develop a plan, that could take effect July 1, 2023, for making managed care directed payments or supplemental payments as follows: Physician fee-for-service (FFS) supplemental payments through a state plan amendment and physician managed care directed payments through managed care contracts up to the Average Commercial Rate for practice plans that are a component of the participating hospitals or

ITEM 288.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

health system. The plan shall identify the public entity who will transfer funds to the department, the amount and duration of such transfers, the purpose and amount of any supplemental payment or managed care direct payments made to private hospitals and related health systems, and the impact, if any, on other supplemental payment programs currently in effect. The plan shall also include the appropriate references that provide authority for such payments.

b. The department shall have the authority to amend the State Plan for Medical Assistance and managed care contracts to make supplemental payments and managed care directed payments to private hospitals for physician services effective July 1, 2024. Reimbursement changes shall be effective prior to completion of any regulatory process in order to effect such changes. No payment shall be made without approval from CMS and an Interagency Agreement with a public entity capable of transferring the non-federal share of authorized payments to the department. The funds to be transferred must comply with 42 CFR 433.51 and 433.54. Such funds may not be paid from any private agreements with public entities that are in excess of fair market value or that alleviate pre-existing financial burdens of such public entities. Public entities are authorized to use general fund dollars to accomplish this transfer. As part of the Interagency Agreements the department shall require the public entities to attest to compliance with applicable CMS criteria. The department shall also require any private hospital and related health systems receiving payments under this Item to attest to compliance with applicable CMS criteria. Upon notification by the Department of any deferral or disallowance issued by CMS regarding the supplemental or managed care directed payment arrangement, the hospital provider will return the entire balance of the payment to the Department within 30 days of notification. If the hospital does not return the entire balance of the payment to the Department within the specified timeframe, a judgement rate of interest set forth in Title 6.2-302 will be applied to the entire balance, regardless of whatever portion has been repaid. In addition, the non-federal share of the agency's administrative costs directly related to administration of the programs authorized in this paragraph, including staff and contractors, shall be funded by participating public entities. These funds shall be deposited into a special fund created by the Comptroller and used to support the administrative costs associated with managing this program. Any funds received for this purpose but unexpended at the end of the fiscal year shall remain in the fund for use in accordance with this provision.

c. The purposes to which the additional payments authorized in paragraph OO.9.b. of this Item shall be applied include: (i) increasing and enhancing access to outpatient care for Medicaid recipients; (ii) stabilizing and supporting critical healthcare workforce needs; and (iii) advancing the department's health and quality improvement goals; these shall contain specific measurable outcomes that will be approved, and monitored by the Department quarterly. Payment shall be dependent on progress towards goal attainment on all three purposes. Participating organizations must submit quarterly updates and annual reports on programs no later than October 1. The department, with the assistance of the participating organizations, shall report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1 of each year on the impact of this initiative.

10. The Department of Medical Assistance Services shall have the authority to amend the State Plan for Medical Assistance to make supplemental payments through an adjustment to the formula for indirect medical education (IME) reimbursement, using managed care discharge days, for an acute care hospital chain with a level one trauma center in the Tidewater Metropolitan Statistical Area (MSA) in 2020, upon the execution of affiliation agreements with public entities that are capable of transferring funds to the department for purposes of covering the non-federal share of the authorized payments. Such public entities would enter into an Interagency Agreement with the department for this purpose. Public entities are authorized to use general fund dollars to accomplish this transfer. The funds to be transferred must comply with 42 CFR 433.51 and 433.54. As part of the Interagency Agreements the department shall require the public entities to attest to compliance with applicable CMS criteria. The department shall also require any private hospital and related health systems receiving payments under this Item to attest to compliance with applicable CMS criteria. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

11. The Department of Medical Assistance Services shall periodically assess the quality measures that are submitted to the Centers for Medicare and Medicaid Services for

ITEM 288.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

supplemental payments to ensure that appropriate quality measures are being included for supplemental payments such that the additional funding is improving the Medicaid program's quality and delivery of health care services. The department shall report on quality measures and outcomes for the programs to the Joint Subcommittee for Health and Human Resources Oversight no later than November 15, 2024.

PP.1. Effective July 1, 2017, the Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to increase the formula for indirect medical education (IME) for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 as a substitute for disproportionate share hospital (DSH) payments. The formula for these hospitals for IME for inpatient hospital services provided to Medicaid patients but reimbursed by capitated managed care providers shall be identical to the formula for Type One hospitals. The IME payments shall continue to be limited such that total payments to freestanding children's hospitals with greater than 50 percent Medicaid utilization do not exceed the federal uncompensated care cost limit to which DSH payments are subject, excluding third party reimbursement for Medicaid eligible patients. The department shall have the authority to implement these changes effective July 1, 2017, and prior to completion of any regulatory action to effect such changes.

2. The Department of Medical Assistance Services (DMAS) shall have the authority to create additional hospital supplemental payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 to replace payments that have been reduced due to the federal regulation on the definition of uncompensated care costs effective June 2, 2017. Effective July 1, 2024, these new payments shall equal the greater of what would have been paid to the freestanding children's hospitals under the current disproportionate share hospital (DSH) formula or $16,000,000 annually, the average DSH that CHKD was due by formula prior to Medicaid expansion without regard to the uncompensated care cost limit. These additional hospital supplemental payments shall take precedence over supplemental payments for private acute care hospitals. If the federal regulation is voided, DMAS shall continue DSH payments to the impacted hospitals and adjust the additional hospital supplemental payments authorized in this paragraph accordingly. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effectuate such change.

QQ. The Department of Medical Assistance Services shall have the authority to amend the State Plan for Medical Assistance to adjust the formula for indirect medical education (IME) reimbursement for managed care discharges for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 by increasing the case mix adjustment factor to the greater of 3.2962 or the most recent rebasing. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the hospital's Medicaid costs. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

RR. The Department of Medical Assistance Services shall implement managed care directed payments for physician services for practice plans affiliated with a freestanding children's hospital with more than 50 percent Medicaid utilization in fiscal year 2009 for $11,050,000 annually but not to exceed the average commercial rate. The department shall have the authority to implement this reimbursement change effective July 1, 2023, and prior to the completion of any regulatory process undertaken in order to effect such changes. The agency shall implement this by determining at the beginning of each year the percent of Medicaid that will result in estimated payments of $11,050,000 annually.

SS. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to implement a supplemental disproportionate share hospital (DSH) payment for Chesapeake Regional Hospital up to its hospital-specific disproportionate share hospital limit (OBRA '93 DSH limit) as determined pursuant to 42 U.S.C. Section 1396r-4. The payment shall be made annually based upon the hospital's disproportionate share limit for the most recent year for which the disproportionate share limit has been calculated subject to the availability of DSH funds under the federal allotment of such funds to the department. Prior to submitting the State Plan amendment, Chesapeake Regional Hospital shall enter into an agreement with the department to transfer the non-

ITEM 288.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

federal share of the supplemental DSH payment. Payment of the supplemental DSH payment is contingent upon receipt of intergovernmental transfer of funds or certified public expenditures from Chesapeake Regional Hospital. In the event that Chesapeake Regional Hospital is ineligible to transfer or certify necessary funds pursuant to federal law, the department may amend the State Plan for Medical Assistance to terminate the supplemental DSH payment program. The department shall have the authority to implement these reimbursement changes consistent with effective date(s) approved by the Centers for Medicare and Medicaid Services (CMS). No payments shall be made without CMS approval. In the event that CMS recoups supplemental DSH hospital funds from the department, Chesapeake Regional Hospital shall reimburse such funds to the department.

TT. The Department of Medical Assistance Services (DMAS) is authorized to amend the State Plan for Medical Assistance Services to implement a supplemental Medicaid payment for Department of Veterans Services (DVS) state government-owned nursing facilities. The total supplemental Medicaid payment for DVS state government owned nursing homes shall be based on the difference between the Upper Payment Limit of 42 CFR 447.272, as approved by the Centers for Medicare and Medicaid Services (CMS), and all other Medicaid payments subject to such limit made to such nursing homes. DMAS shall not submit any State Plan amendment to CMS that implements this payment until DMAS enters into an intergovernmental agreement with DVS. This agreement shall include the following provisions: 1) DVS shall transfer funds to DMAS for use as the state share of the full cost of the supplemental Medicaid payment for which each nursing home is entitled; 2) DVS must demonstrate that it has the authority and ability to transfer the necessary funds to DMAS; and, 3) DVS shall attest that any funds provided for state match will comply with federal law for use as the state share for the supplemental Medicaid payment. If DVS is unable to enter into or comply with the provisions of such an intergovernmental agreement, then DMAS shall immediately modify the Medicaid State Plan and adjust any supplemental payments accordingly. DMAS shall have the authority to implement the reimbursement changes consistent with the effective date in the State Plan amendment approved by CMS and prior to the completion of any regulatory process undertaken in order to effect such change.

UU.1.a. Out of this appropriation, $5,850,000 the first year and $5,850,000 the second year from the general fund and $5,850,000 the first year and $5,850,000 the second year from nongeneral funds shall be used for supplemental payments to fund graduate medical education for 3 residents who began their residencies in July 2021; 19 residents who began their residencies in July 2022; 30 residents who began their residencies in July 2024.

b. Of the amounts appropriated in UU.1.a., $1,000,000 the first year and $1,000,000 the second year from the general fund and $1,000,000 the first year and $1,000,000 the second year from nongeneral funds shall be used for supplemental payments to fund graduate medical residencies for 20 psychiatric residents who began their residencies in July 2024. The Department of Medical Assistance Services shall pursue available administrative processes to initiate these residencies in FY 2025.

c. Of the amounts appropriated in UU.1.a., $500,000 the first year and $500,000 the second year from the general fund and $500,000 the first year and $500,000 the second year from nongeneral funds shall be used for supplemental payments to fund graduate medical residencies for 10 obstetric-gynecological residents. The Department of Medical Assistance Services shall work with the Virginia Health Workforce Development Authority to pursue available administrative processes to initiate these residencies in fiscal year 2025. Two of these residencies shall be awarded to Johnston Memorial Hospital contingent on the hospital's intent to apply for and accept the residencies.

2. The supplemental payment for each qualifying residency slot shall be $100,000 annually minus any Medicare residency payment for which the sponsoring institution is eligible. For any residency program at a facility whose number of residency slots are above the cap set by the Centers for Medicare and Medicaid Services or have exceeded the Upper Payment Limit (UPL) set by CMS, the supplemental payments for each qualifying residency slot shall be $50,000 from the general fund annually minus any Medicare residency payments for which the residency program is eligible. Supplemental payments shall be made for up to four years for each qualifying resident. Payments shall be made quarterly following the same schedule used for other medical education payments.

3.a. By July 1 of each year, the Department of Medical Assistance Services shall determine

ITEM 288.	Item Details($) First Year FY2025	Item Details($) Second Year FY2026	Appropriations($) First Year FY2025	Appropriations($) Second Year FY2026

the number of residency slots that could be funded in the next two fiscal years within the resources provided in this Item. In addition, DMAS shall issue a call for applications to all hospitals in the Commonwealth to determine the number of residency slots, by hospital, that could be filled in the following fiscal year.

b. The Department of Medical Assistance Service, in cooperation with the Virginia Health Workforce Development Authority, shall determine which new residency slots to fund based on priorities developed by the authority. Preference shall be given for residency slots located in underserved areas. Applications for slots that involve multiple medical care providers collaborating in training residents and that involve providing residents the opportunity to train in underserved areas are encouraged. A majority of the new residency slots funded each year shall be for primary care. The department shall adopt criteria for primary care, high need specialties and underserved areas as developed by the Virginia Health Workforce Development Authority. The department shall also review and consider applications from non-hospital sponsoring institutions, such as Federally Qualified Health Centers (FQHCs).

c. By August 15 of each year, the Department of Medical Assistance Services shall develop a prioritized list of hospitals for which residencies are recommended. Using this list, DMAS shall request budget authorization for those residencies that can be supported with the funds as appropriated in this Item.

4. The sponsoring institution will be eligible for the supplemental payments as long as it maintains the number of residency slots in total and by category as a result of the increase. The sponsoring institutions must certify by June 1 each year that they continue to meet the criteria for the supplemental payments and report any changes during the year to the number of residents.

5. The department shall require all sponsoring institutions receiving Medicaid medical education funding to report annually by September 15 on the number of residents in total and by specialty/subspecialty. Medical education funding includes payments for graduate medical education (GME) and indirect medical education (IME). The department shall make the report available to the Virginia Health Workforce Development Authority to assist in their efforts to set priorities for and manage graduate medical education programs overseen by the Commonwealth.

The department shall adjust the medical necessity criteria to reflect advances in medical treatment, new technologies, and use of integrated care models including behavioral supports. The department shall have the authority to amend the necessary waiver(s) and the State Plan under Titles XIX and XXI of the Social Security Act to include changes to services covered, provider qualifications, medical necessity criteria**,** and rates and rate methodologies for private duty nursing. The adjustments to these services shall meet the needs of members and maintain budget neutrality by not requiring any additional expenditure of general fund beyond the current projected appropriation for such nursing services.

2. The department shall have authority to implement these changes to be effective July 1, 2022. The department shall also have authority to promulgate any emergency regulations required to implement these necessary changes within 280 days or less from the enactment date of this Act. Authority: Title 2.2, Chapter 2, Article 8, and § 2.2-201, Code of Virginia.

A. The Secretary of Public Safety and Homeland Security shall present revised six-year state and local juvenile and state and local responsibility adult offender population forecasts to the Governor, the Chairs of the House Appropriations and Senate Finance and Appropriations Committees, and the Chairs of the House Courts of Justice and Senate Judiciary Committees by October 15 of each year. The secretary shall ensure that the revised forecast for state-responsible adult offenders shall include an estimate of the number of probation violators included each year within the overall population forecast who may be appropriate for alternative sanctions.

B. The secretary shall continue to work with other secretaries to (i) develop services intended to improve the re-entry of offenders from prisons and jails to general society and (ii) enhance the coordination of service delivery to those offenders by all state agencies. The secretary shall provide a status report on actions taken to improve offender transitional and reentry services, as provided in § 2.2-221.1, Code of Virginia, including improvements to the preparation and provision for employment, treatment, and housing opportunities for those being released from incarceration. The report shall be provided to the Governor and the Chairs of the House Appropriations and Senate Finance and Appropriations Committees no later than November 15 of each year.

C.1. The proposal shall: (i) recommend five to eight juvenile detention centers for consolidation, identifying the five to eight facilities recommended for closure and alternative facilities recommended to house youth impacted by the closures; (ii) describe the criteria used to identify such facilities including, but not limited to, distance between the facilities recommended for closure and the recommended alternative sites of incarceration, funded and licensed capacity, historical and projected average daily population by region, age and condition of facilities and their electronic security systems, outstanding debt service, deferred maintenance and annual maintenance reserve as a percentage of the replacement asset value, potential for repurposing or sale of facilities recommended for closure, regional distribution of juvenile detention centers, and availability of programming; (iii) estimate the state savings that would result from elimination of juvenile detention center block grant funding for facilities recommended for closure, net any expected increase in block grant or per diem funding for facilities recommended to house additional youth; and (iv) recommend two to five options for reinvesting the net savings in services for youth involved or at-risk of becoming involved in the juvenile justice system.

2. In addition, the report shall assess alternative delivery models for education services at juvenile detention centers, including: (i) determining the extent to which each juvenile detention center currently implements or could further implement cost effective staffing methods, including strategies identified in the 2021 Board of Education report entitled “Recommendations for Appropriate Staffing and Funding Levels Necessary for State Operated Programs (SOPs) in Regional and Local Detention Centers"; (ii) continuing to develop an alternative to the statutorily required 1:12 teacher to student staffing ratio; (iii) utilizing full-time special education teachers to coordinate, plan, and substitute for part-time

E. The Secretary of Public Safety and Homeland Security shall complete a review and assessment of the sufficiency of fire and emergency medical services funding in the Commonwealth. The review and assessment shall include, but not be limited to, (i) identification of local, state, and federal funding provided to support local fire and emergency medical services by locality or region, and to the extent possible, trends in funding by source; (ii) consideration of identifiable fire or emergency medical service funding needs by locality or region; (iii) identification of factors that influence or differentiate the ability of localities or regions to meet the funding needs of local and regional fire and emergency medical services; (iv) factors influencing the ability of localities or regions to meet fire and emergency medical services funding needs; and, (v) consideration of the costs and benefits of consolidation state-level administration of fire and emergency medical services funding and oversight, to include an assessment of administrative models used in other states. D. Notwithstanding the provisions of § 16.1-322.1 of the Code of Virginia, the department shall apportion to localities the amounts appropriated in this Item.

E.1. The appropriation for Financial Assistance for Community Based Alternative Treatment Services includes $10,379,926 the first year and $10,379,926 the second year from the general fund for the implementation of the financial assistance provisions of the Juvenile Community Crime Control Act (VJCCCA), §§ 16.1-309.2 through 16.1-309.10, Code of Virginia. Notwithstanding § 16.1-309.6, Code of Virginia, localities participating in this program and contributing through their local match an amount of local funds which is greater than they receive from the Commonwealth under this program are authorized, but not required, to provide a contribution greater than the state general fund contribution. In no case shall their local match be less than their state share.

2. Notwithstanding the provisions of §§ 16.1-309.2 through 16.1-309.10, Code of Virginia, the Board of Juvenile Justice shall establish guidelines for use in determining the types of programs for which VJCCCA funding may be expended. The department shall establish a format to receive biennial or annual requests for funding from localities, based on these guidelines. 3.a. Notwithstanding the provisions of § 16.1-309.7 B, Code of Virginia, unobligated VJCCCA funds must be returned to the department by each grantee locality no later than October 1 of the fiscal year following the fiscal year in which they were received, or a similar amount may be withheld from the current fiscal year's periodic payments designated by the department for that locality. The Director, Department of Planning and Budget, may increase the general fund appropriation for this Item up to the amount of unobligated VJCCCA funds returned to the Department of Juvenile Justice.

b. All such unobligated and reappropriated balances shall be used by the department for the purpose of awarding short-term supplementary grants to localities, for programs and services which have been demonstrated to improve outcomes, including reduced recidivism, of juvenile offenders. Such programs and services must augment and support current VJCCCA-funded programs within each affected locality. The grantee locality shall submit an outcomes report to the department, in accord with a written memorandum of agreement which shall accompany the supplementary grant award. This provision shall apply to funds obligated to and in the possession of the department and its grant recipients. The entity which returns unobligated funds under this provision shall not have a presumptive entitlement to a supplementary grant.

c. The Department of Juvenile Justice, with the assistance of the Department of Corrections, the Virginia Council on Juvenile Detention, juvenile court service unit directors, juvenile and domestic relations district court judges, and juvenile justice advocacy groups, shall provide a report on the types of programs supported by the Juvenile Community Crime Control Act and whether the youth participating in such programs are statistically less likely to be arrested, adjudicated or convicted, or incarcerated for either misdemeanors or crimes that would otherwise be considered felonies if committed by an adult.

F. A. The Department of Juvenile Justice shall retain all funds paid for the support of children committed to the department to be used for the security, care, and treatment of said children.

B.1. The Director, Department of Juvenile Justice, (the “Department”) shall develop a transformation plan to provide more effective and efficient services for juveniles, using data-based decision-making, that improves outcomes and safely reduces the number of juveniles housed in state-operated juvenile correctional centers, consistent with public safety. To accomplish these objectives, the Department will provide, when appropriate, alternative placements and services for juveniles committed to the Department that offer treatment, supervision and programs that meet the levels of risk and need, as identified by the Department's risk and needs assessment instruments, for each juvenile placed in such placements or programs. Prior to implementation, the plan shall be approved by the Secretary of Public Safety and Homeland Security.

2. The Department shall reallocate any savings from the reduced cost of operating state juvenile correctional centers to support the goals of the transformation plan including, but not limited to: (a) increasing the number of male and female local placement options, and post-dispositional treatment programs and services; (b) ensuring that appropriate placements and treatment programs are available across all regions of the Commonwealth; and (c) providing appropriate levels of educational, career readiness, rehabilitative, and mental health services for these juveniles in state, regional, or local programs and facilities, including but not limited to, community placement programs, independent living programs, and group homes. The goals of such transformation services shall be to reduce the risks for reoffending for juveniles supervised or committed to the Department and to improve and promote the skills and resiliencies necessary for the juveniles to lead successful lives in their communities.

3. No later than November 1 of each year, the Department of Juvenile Justice shall provide a report to the Governor, the Chairs of the House Appropriations and Senate Finance and Appropriations Committees, the Secretary of Public Safety and Homeland Security and the Director, Department of Planning and Budget, assessing the impact and results of the transformation plan and its related actions. The report should also include the average length of stay for juveniles in each placement option.

4. The Director, Department of Planning and Budget, is authorized to transfer appropriations between items and programs within the Department of Juvenile Justice to reallocate any savings achieved through transformation to accomplish the goals of transformation.

Authority: Title 2.2, Chapter 2, Article 10, § 2.2-201, and Titles 33, 46, and 58, Code of Virginia.

A. The transportation policy goals enumerated in this act shall be implemented by the Secretary of Transportation, including the secretary acting as Chairman of the Commonwealth Transportation Board.

1. The maintenance of existing transportation assets to ensure the safety of the public shall be the first priority in budgeting, allocation, and spending. The highway share of the Transportation Trust Fund shall be used for highway maintenance and operation purposes prior to its availability for new development, acquisition, and construction.

2. It is in the interest of the Commonwealth to have an efficient and cost-effective transportation system that promotes economic development and all modes of transportation, intermodal connectivity, environmental quality, accessibility for people and freight, and transportation safety. The planning, development, construction, and operations of Virginia's transportation facilities will reflect this goal.

3. To the greatest extent possible, the appropriation of transportation revenues shall reflect planned spending of such revenues by agency and by program.

B. The maximization of all federal transportation funds available to the Commonwealth shall be paramount in the budgetary, spending, and allocation processes.

1. Notwithstanding any provision of law to the contrary, the secretary and all agencies within the transportation secretariat are hereby authorized to take all actions necessary to ensure that federal transportation funds are allocated and utilized for the maximum benefit of the Commonwealth, whether such actions or funds or both are authorized under P.L. 117-58 of the 117th Congress, or any successor or related federal transportation legislation, or regulation, rule, or guidance issued by the U.S. Department of Transportation or any federal agency. The secretary and agencies within the transportation secretariat shall utilize, to the maximum extent practicable, the flexibility provided in federal law, regulation, rule, or guidance to use federal funds in a manner consistent with the Code of Virginia. However, neither the secretary nor an agency in the transportation secretariat may materially delay a project selected pursuant to § 33.2-214.1, Code of Virginia, under the authority in this paragraph.

2. The secretary shall ensure that the allocation of transportation funds apportioned and for which obligation authority is expected to be available under federal law shall be in accordance with such laws and in support of the transportation policy goals enumerated in section A. of this Item. Furthermore, the secretary is authorized to take all actions necessary to allocate the required match for federal highway funds to ensure their appropriate and timely obligation and expenditure within the fiscal constraints of state transportation revenues and in support of the efforts addressed in B.1. By June 1 of each year, the secretary, as Chairman of the Board, shall report to the Governor and General Assembly on the allocation of such federal transportation funds and the actions taken to provide the required match.

3. The board shall only make allocations providing the required match for federal Regional Surface Transportation Block Grant Program funds to those Metropolitan Planning Organizations in urbanized areas greater than 200,000 that, in consultation with the Office of Intermodal Planning and Investment, have developed regional transportation and land use performance measures pursuant to Chapters 670 and 690 of the 2009 Acts of Assembly and have been approved by the board.

4. Projects funded, in whole or part, from federal funds referred to as congestion mitigation

and air quality improvement, shall be selected as directed by the board. Such funds shall be federally obligated within 12 months of their allocation by the board and expended within 36 months of such obligation. If the requirements included in this paragraph are not met by such agency or recipient, then the board shall use such federal funds for any other project eligible under 23 USC 149.

5. Funds made available to the Metropolitan Planning Organizations known as the Regional Surface Transportation Block Grant Program for urbanized areas greater than 200,000 shall be federally obligated within 12 months of their allocation by the board and expended within 36 months of such obligation. If the requirements included in this paragraph are not met by the recipient, then the board may rescind the required match for such federal funds.

6. Notwithstanding paragraph B.2. of this Item, the required matching funds for Transportation Alternatives projects are to be provided by the project sponsor of the federal-aid funding.

7. Federal transportation funds as well as the required state matching funds may be allocated by the Commonwealth Transportation Board for transit purposes under the same rules and conditions authorized by federal law in a manner consistent with the Code of Virginia. The Commonwealth Transportation Board, in consultation with the appropriate local and regional entities, may allocate state revenues to local and regional public transit operators, for operating and/or capital purposes.

8. If a regional area (or areas) of the Commonwealth is determined to be not in compliance with Clean Air Act rules regarding conformity and as a result federal and/or state allocations, apportionments or obligations cannot be used to fund or support transportation projects or programs in that area, such funds may be used to finance demand management, conformity, and congestion mitigation projects to the extent allowed by federal law. Any remaining amount of such allocations, apportionments, or obligations shall be set aside to the extent possible under law for use in that regional area.

9. Appropriations in this act related to federal revenues outlined in this section may be adjusted by the Director, Department of Planning and Budget, upon request from the Secretary of Transportation, as needed to utilize and allocate additional federal funds that may become available.

10. The secretary shall ensure that any bonds issued pursuant to Article 4, Chapter 15 of Title 33.2 shall be programmed to projects eligible for funding through the Interstate Operations and Enhancement Program or to the High Priority Projects Program pursuant to § 33.2-370 or the Construction District Grant Program pursuant to §33.2-371.

C. The secretary may ensure that appropriate action is taken to maintain a minimum cash balance and/or cash reserve in the Highway Maintenance and Operating Fund.

D.1. The Office of Intermodal Planning and Investment shall recommend to the Commonwealth Transportation Board all allocations of funds made available in subsections A. and B. of Item 437. The planning and evaluation may be conducted or managed by the Department of Transportation, Department of Rail and Public Transportation, or another qualified entity selected and/or approved by the Commonwealth Transportation Board.

2. The office shall be responsible for implementing the statewide prioritization processes pursuant to §§ 33.2-214.1 and 33.2-372 for the Commonwealth Transportation Board.

3. The office shall work directly with affected Metropolitan Planning Organizations to develop and implement quantifiable and achievable goals relating to congestion reduction and safety, transit and HOV usage, job/housing ratios, job and housing access to transit and pedestrian facilities, air quality, and/or per-capita vehicle miles traveled pursuant to Chapters 670 and 690 of the 2009 Acts of Assembly.

4. For allocation of funds under Paragraph 1, the office may give a higher priority for planning grants to (i) regional organizations to analyze various land development scenarios for their long range transportation plans, (ii) local governments to revise their comprehensive plans and other applicable local ordinances to designate urban

Such analyses, plans, and ordinances shall be shared with the regional planning district commission or metropolitan planning organization and the Commonwealth Transportation Board.

E.1. The Commonwealth Transportation Board is hereby authorized to apply for, execute, and/or endorse applications submitted by private entities or political subdivision of the Commonwealth to obtain federal credit assistance for one or more qualifying transportation infrastructure projects or facilities to be developed pursuant to the Public-Private Transportation Act of 1995, as amended. Any such application, agreement and/or endorsement shall not financially obligate the Commonwealth or be construed to implicate the credit of the Commonwealth as security for any such federal credit assistance.

2. The Commonwealth Transportation Board is hereby authorized to pursue or otherwise apply for, and execute, an agreement to obtain financing using a federal credit instrument for project financings otherwise authorized by this Act or other Acts of Assembly.

F. Revenues generated pursuant to the provisions of § 58.1-3221.3, Code of Virginia, shall only be used to supplement, not supplant, any local funds provided for transportation programs within the localities authorized to impose the fees under the provisions of § 58.1-3221.3, Code of Virginia.

G. The Director, Department of Planning and Budget, is authorized to adjust the appropriation of transportation agencies in order to utilize proceeds from the sale of Commonwealth of Virginia Transportation Capital Projects Revenue Bonds which were authorized in a prior fiscal year but not issued, pursuant to Section 2 of Enactment Clause 2 of Chapter 896 of the 2007 General Assembly Session.

H. The Director, Department of Planning and Budget, is authorized to adjust the appropriation of transportation agencies in order to utilize proceeds from the sale of Commonwealth of Virginia Federal Transportation Grant Anticipation Revenue Notes.

I. All revenues generated under Chapter 896 of the Acts of Assembly of 2007 (HB 3202) and Chapter 766 of the Acts of Assembly of 2013 (HB 2313), Chapters 837 and 846 of the 2019 Acts of Assembly, and Chapters 1230 and 1275 of the 2020 Acts of Assembly that were dedicated to transportation-related funds have been appropriated in conformity with the requirements of those respective chapters.

J. Notwithstanding § 33.2-502, Code of Virginia, the high-occupancy requirement for a HOT lane facility that is constructed as a result of the Public-Private Transportation Act (§ 33.2-1800 et. seq.) (i) with an initial construction cost in excess of $3 billion and whose operation, maintenance, or financing is not a result of the same comprehensive agreement that resulted in the facility's construction shall be not less than two, or (ii) that is located on the same Interstate corridor and partially located within the same urbanized areas.

K. It is the intent of the General Assembly that state funds in the Commonwealth Transportation Fund and federal funds provided on a recurring, non-one-time basis, for surface transportation be distributed and allocated at the discretion of the entities responsible for such funds based on the policy direction and requirements set forth in the Code of Virginia.

L. Notwithstanding the provisions of § 33.2-3603, Code of Virginia, the I-81 Advisory Committee shall be required to meet at a minimum of two times a year, with additional meetings called at the discretion of the Chair.

The standards upon which the public institutions of higher education are deemed certified to receive the payment of interest earnings from the tuition and fees and other nongeneral fund Educational and General revenues shall be based upon the standards provided in § 4-9.01 of this act, as approved by the General Assembly.

B. The estimated interest earnings and other revenues shall be distributed to those specific public institutions of higher education that have been certified by the State Council of Higher Education for Virginia as having met the standards provided in § 4-9.01 of this act, based on the distribution methodology developed pursuant to Chapter 933, Enactment 2, Acts of Assembly of 2005 and reported to the Chairmen of the House Appropriations Committee and Senate Finance and Appropriations Committee.

C. In accordance with § 23.1-1002, Code of Virginia, this Item provides $7,906,831 the first year and $7,906,831 the second year from the general fund, and $12,157,622 from nongeneral funds in the first year and $12,157,622 from nongeneral funds in the second year for the estimated total payment to individual institutions of higher education of the interest earned on tuition and fees and other nongeneral fund Education and General Revenues deposited to the state treasury. Upon certification by the State Council of Higher Education of Virginia that all available performance benchmarks have been successfully achieved by the individual institutions of higher education, the Director, Department of Planning and Budget, shall transfer the appropriation in this Item for such estimated interest earnings to the general fund appropriation of each institution's Educational and General program.

D. This Item also includes $2,560,188 in the first year and $2,560,188 the second year from the general fund for the payment to individual institutions of higher education of a pro rata amount of the rebate paid to the State Commonwealth on credit card purchases not exceeding $5,000 during the previous fiscal year. The State Comptroller shall determine the amount owed to each certified institution, net of any payments due to the federal government, using a methodology that equates a pro rata share based upon the total transactions of $5,000 or less made by the institution using the state-approved credit card in comparison to all transactions of $5,000 or less using said approved credit card. By October 15, or as soon thereafter as deemed appropriate, following the year of certification, the Comptroller shall reimburse each institution its estimated pro rata share.

E. Once actual financial data from the year of certification are available, the State Comptroller and the Director, Department of Planning and Budget, shall compare the actual data with estimates used to determine the distribution of the interest earnings, nongeneral fund Educational and General revenues, and the pro rata amounts to the certified institutions of higher education. In those cases where variances exist, the Governor shall include in his next introduced budget bill recommended appropriations to make whatever adjustments to each institution's distributed amount to ensure that each institution's incentive payments are accurate based on actual financial data.

L. The purpose of this paragraph is to provide a transitional severance benefit, under the conditions specified, to eligible city, county, school division or other political subdivision employees who are involuntarily separated from employment with their employer.

1.a. "Involuntary separation" includes, but is not limited to, terminations and layoffs from employment with the employer, or being placed on leave without pay-layoff or equivalent status, due to budget reductions, employer reorganizations, workforce downsizings, or other causes not related to the job performance or misconduct of the employee, but shall not include voluntary resignations. As used in this paragraph, a "terminated employee" shall mean an employee who is involuntarily separated from employment with his employer.

b. The governing authority of a city, county, school division or other political subdivision electing to cover its employees under the provisions of this paragraph shall adopt a resolution, as prescribed by the Board of Trustees of the Virginia Retirement System, to that effect. An election by a school division shall be evidenced by a resolution approved by the Board of such school division and its local governing authority.

2.a. Any (i) “eligible employee” as defined in § 51.1-132, (ii) “teacher” as defined in § 51.1-124.3, and (iii) any “local officer” as defined in § 51.1.124.3 except for the treasurer, commissioner of the revenue, attorney for the Commonwealth, clerk of a circuit court, or sheriff of any county or city, and (a) for whom reemployment with his employer is not possible because there is no available position for which the employee is qualified or the position offered to the employee requires relocation or a reduction in salary and (b) whose involuntary separation was due to causes other than job performance or misconduct, shall be eligible, under the conditions specified, for the transitional severance benefit conferred by this paragraph. The date of involuntary separation shall mean the date an employee was terminated from employment or placed on leave without pay-layoff or equivalent status.

b. Eligibility shall commence on the date of involuntary separation.

b. Transitional severance benefits shall be computed by the terminating employer's payroll department. Partial years of service shall be rounded up to the next highest year of service.

c. Transitional severance benefits shall be paid by the employer in the same manner as normal salary. In accordance with § 60.2-229, transitional severance benefits shall be allocated to the date of involuntary separation. The right of any employee who receives a transitional severance benefit to also receive unemployment compensation pursuant to § 60.2-100 et seq. shall not be denied, abridged, or modified in any way due to receipt of the transitional severance benefit; however, any employee who is entitled to unemployment compensation shall have his transitional severance benefit reduced by the amount of such unemployment compensation. Any offset to a terminated employee's transitional severance benefit due to reductions for unemployment compensation shall be paid in one lump sum at the time the last transitional severance benefit payment is made.

d. For twelve months after the employee's date of involuntary separation, the employee shall continue to be covered under the (i) health insurance plan administered by the employer for its employees, if he participated in such plan prior to his date of involuntary separation, and (ii) group life insurance plan administered by the Virginia Retirement System pursuant to Chapter 5 (§ 51.1-500 et seq.) of Title 51.1, or such other group life insurance plan as may be administered by the employer. During such twelve months, the terminating employer shall continue to pay its share of the terminated employee's premiums. Upon expiration of such twelve month period, the terminated employee shall be eligible to purchase continuing health insurance coverage under COBRA.

e. Transitional severance benefit payments shall cease if a terminated employee is reemployed or hired in an individual capacity as an independent contractor or consultant by the employer during the time he is receiving such payments.

f. All transitional severance benefits payable pursuant to this section shall be subject to applicable federal laws and regulations.

4.a. In lieu of the transitional severance benefit provided in subparagraph 3 of this paragraph, any otherwise eligible employee who, on the date of involuntary separation, is also (i) a vested member of a defined benefit plan within the Virginia Retirement System, including the hybrid retirement program described in § 51.1-169, and including a member eligible for the benefits described in subsection B of § 51.1-138, and (ii) at least fifty years of age, may elect to have the employer purchase on his behalf years to be credited to either his age or creditable service or a combination of age and creditable service, except that any years of credit purchased on behalf of a member of the Virginia Retirement System, including a member eligible for the benefits described in subsection B of § 51.1-138, who is eligible for unreduced retirement shall be added to his creditable service and not his age. The cost of each year of age or creditable service purchased by the employer shall be equal to fifteen percent of the employee's present annual compensation. The number of years of age or creditable service to be purchased by the employer shall be equal to the quotient obtained by dividing (i) the cash value of the benefits to which the employee would be entitled under subparagraphs 3.a. and 3.d. of this paragraph by (ii) the cost of each year of age or creditable service. Partial years shall be rounded up to the next highest year. Deferred retirement under the provisions of subsection C of §§ 51.1-153 and disability retirement under the provisions of § 51.1-156 et seq., shall not be available under this paragraph.

b. In lieu of the (i) transitional severance benefit provided in subparagraph 3 of this paragraph and (ii) the retirement program provided in this subsection, any employee who is otherwise eligible may take immediate retirement pursuant to §§ 51.1-155.1 or 51.1-155.2.

c. The retirement allowance for any employee electing to retire under this paragraph who, by adding years to his age, is between ages fifty-five and sixty-five, shall be reduced on the actuarial basis provided in subdivision A. 2. of § 51.1-155.

d. The retirement program provided in this subparagraph shall be otherwise governed by policies and procedures developed by the Virginia Retirement System.

Funds, other than the reappropriations referred to above, for the preparation of capital project proposals must come from the affected agency's existing resources.

2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design choices.

E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property, plant, and equipment as defined in § 4-4.01 c. of this act to the extent that funds included in the appropriation to the agency for this purpose in Part 1 of this act are insufficient.

2. Agencies and institutions of higher education can expend up to $2,000,000 for a single repair or project, and up to $4,000,000 for a roof replacement project, through the maintenance reserve appropriation. Such expenditures shall be subject to rules and regulations prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds this threshold, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.

3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations. Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.

F. Conditions Applicable to Bond Projects

1. The capital projects listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this act for the indicated agencies and institutions of higher education are hereby authorized and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized interest for any project listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this act is hereby authorized.

2. The issuance of bonds for any project listed in the 9(C) Revenue Bonds section in Part 2 of this act is to be separately authorized pursuant to Article X, Section 9 (c), Constitution of Virginia.

In the event that the cost of any capital project listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this act shall exceed the amount appropriated therefore, the Director, Department of Planning and Budget, is hereby authorized, upon request of the affected institution, to approve an increase in appropriation authority of not more than ten percent of the amount designated in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in part 2 of this act for such project, from any available nongeneral fund revenues, provided that such increase shall not constitute an increase in debt issuance authorization for such capital project. Furthermore, the Director, Department of Planning and Budget, is hereby authorized to approve the expenditure of all interest

5. The interest on bonds to be issued for these projects may be subject to inclusion in gross income for federal income tax purposes.

6. Inclusion of a project in this act does not imply a commitment of state funds for temporary construction financing. In the absence of such commitment, the institution may be responsible for securing short-term financing and covering the costs from other sources of funds.

7. In the event that the Treasury Board determines not to finance all or any portion of any project listed in the 9(C) Revenue Bonds section in Part 2 of this act with the issuance of bonds pursuant to Article X, Section 9 (c), Constitution of Virginia, and notwithstanding any provision of law to the contrary, this act shall constitute the approval of the General Assembly to finance all or such portion of such project under the authorization of the 9(D) Revenue Bonds section in Part 2 of this act.

8. The General Assembly further declares and directs that, notwithstanding any other provision of law to the contrary, 50 percent of the proceeds from the sale of surplus real property pursuant to § 2.2-1147 et seq., Code of Virginia, which pertain to the general fund, and which were under the control of an institution of higher education prior to the sale, shall be deposited in a special fund set up on the books of the State Comptroller, which shall be known as the Higher Education Capital Projects Fund. Such sums shall be held in reserve, and may be used, upon appropriation, to pay debt service on bonds for the 21st Century College Program as authorized in Item C-7.10 of Chapter 924 of the Acts of Assembly of 1997.

9. Notwithstanding any other provision of law, a public institution of higher education may participate in the United States Department of Education Historically Black College and University Capital Financing Program (HBCU Program), and use federal grant and contract funds as permitted by the Program.

§ 3-5.14 PROVIDER COVERAGE ASSESSMENT

A. The Department of Medical Assistance Services (DMAS) is authorized to levy an assessment upon private acute care hospitals operating in Virginia in accordance with this Item. Private acute care hospitals operating in Virginia shall pay a coverage assessment beginning on or after October 1, 2018. For the purposes of this coverage assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.

B.1. The coverage assessment shall be used only to cover the non-federal share of the “full cost of expanded Medicaid coverage" for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the coverage assessment and implementing and operating the coverage for newly eligible adults which includes the costs of administering the provisions of the Section 1115 waiver.

2.a. The “full cost of expanded Medicaid coverage" shall include: 1) any and all Medicaid expenditures related to individuals eligible for Medicaid pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including any federal actions or repayments; and, 2) all administrative costs associated with providing coverage, which includes the costs of administering the provisions of the Section 1115 waiver, and collecting the coverage assessment.

b. The “full cost of expanded Medicaid coverage” shall be updated: 1) on November 1 of each year based on the official Medicaid forecast and latest administrative cost estimates developed by DMAS; 2) no more than 30 days after the enactment of this Act to reflect policy changes adopted by the latest session of the General Assembly; and 3) on March 1 of any year in which DMAS estimates that the most recent non-federal share of the “full cost of expanded Medicaid coverage” times 1.08 will be insufficient to pay all expenses in 2.a. for that year.

C.1. The “coverage assessment amount" shall equal the non-federal share of the “full cost of expanded Medicaid coverage" times 1.02.

2. The “coverage assessment percentage" shall be calculated quarterly by dividing (i) the “coverage assessment amount" by (ii) the total “net patient service revenue" for hospitals subject to the assessment. The coverage assessment amount used in the quarterly calculation of the “coverage assessment percentage” shall include a reconciliation of the Health Care Coverage Assessment Fund prescribed in D.1 and subtract all prior quarterly assessments paid for that fiscal year before dividing the remainder by the remaining quarters in the fiscal year.

3. Each hospital's “net patient service revenue” equals the amount reported in the most recent Virginia Health Information (VHI) “Hospital Detail Report.” Hospitals shall certify that the net patient service revenue is hospital revenue and this amount shall be the assessment basis for the following fiscal year.

4. Each hospital's coverage assessment amount shall be calculated by multiplying the quarterly “coverage assessment percentage” times each hospital's net patient service revenue.

D.1. DMAS shall, at a minimum, update the “coverage assessment amount” whenever the “full cost of expanded Medicaid coverage” is updated in section B.2.b or to ensure amounts are sufficient to cover the full cost of expanded Medicaid coverage based

on the latest estimate. Hospitals shall be given no less than 15 days' notice prior to the beginning of the quarter with associated calculations supporting the change in its coverage assessment amount. Prior to any change to the coverage assessment amount, DMAS shall perform and incorporate a reconciliation of the Health Care Coverage Assessment Fund through the most recent complete quarter. Any estimated excess or shortfall of revenue shall be deducted from or added to the "coverage assessment amount."

2. DMAS shall be responsible for collecting the coverage assessment amount. Hospitals subject to the coverage assessment shall make quarterly payments due no later than July 1, October 1, January 1 and April 1 of each state fiscal year.

3. Hospitals that fail to make the coverage assessment payments within 30 days of the due date shall incur a five percent penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid coverage assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

E. DMAS shall submit a report, due September 1 of each year, to the Director, Department of Planning and Budget and Chairs of the House Appropriations and Senate Finance and Appropriations Committees, and the Virginia Hospital and Healthcare Association. The report shall include, for the most recently completed fiscal year, the revenue collected from the coverage assessment, expenditures for purposes authorized by this Item, and the year-end coverage assessment balance in the Health Care Coverage Assessment Fund. The report shall also include a complete and itemized listing of all administrative costs included in the coverage assessment.

F. All revenue from the coverage assessment excluding penalties, shall be deposited into the Health Care Coverage Assessment Fund. Proceeds from the coverage assessment, excluding penalties, shall not be used for any other purpose than to cover the non-federal share of the full cost of expanded Medicaid coverage. Notwithstanding any other provision of law, the net state share of any prior year recovery of Medicaid expansion costs that were paid with coverage assessment revenue shall be deposited into the Health Care Coverage Assessment Fund.

G. Any provision of this Item is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.

H. The Hospital Payment Policy Advisory Council shall meet to consider the implementation and provisions of the Provider Coverage and Payment Rate Assessments in order to consider and make recommendations to ensure the collection and use of such funds are appropriate and consistent with the intent of the General Assembly. Specifically, the Council shall consider the level of detail and format necessary to develop the report pursuant to paragraph E. The Council shall recommend a format and associated level of detail, to be included in the report to the Joint Subcommittee for Health and Human Resources Oversight. The Joint Subcommittee shall approve the final format and associated level of detail of the report to be submitted by the Department of Medical Assistance Services.

§ 3-5.15 PROVIDER PAYMENT RATE ASSESSMENT

A. The Department of Medical Assistance Services (DMAS) is hereby authorized to levy a payment rate assessment upon private acute care hospitals operating in Virginia in accordance with this item. Private acute care hospitals operating in Virginia shall pay a payment rate assessment beginning on or after October 1, 2018 when all necessary state plan amendments are approved by the Centers for Medicare and Medicaid Services (CMS). For purposes of this assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.

B. Proceeds from the payment rate assessment shall be used to (i) fund an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the “upper payment limit gap"; and (ii) fill the “managed care organization hospital payment gap" for care provided to recipients of medical assistance services. Payments made under the provisions i and ii of this paragraph shall be referred to as “private acute care hospital enhanced payments".

C.1. The Department of Medical Assistance Services (DMAS) shall calculate each hospital's “payment rate assessment amount” by multiplying the “payment rate assessment percentage" times “net patient service revenue" as defined below.

2. The “payment rate assessment percentage" for hospitals shall be calculated as (i) the non-federal share of funding the “private acute care hospitals enhanced payments" divided by (ii) the total “net patient service revenue" for hospitals subject to the assessment.

3. Each hospital's “net patient service revenue” equals the amount reported in the most recent Virginia Health Information (VHI) “Hospital Detail Report." Hospitals shall certify that the net patient service revenue is hospital revenue and this amount shall be the assessment basis for the following fiscal year.

D. DMAS is authorized to update the payment rate assessment amount and payment rate assessment percentage on a quarterly basis to ensure amounts are sufficient to cover the non-federal share of the full cost of the private acute care hospital enhanced payments based on the department's quarterly claims and encounter data. Hospitals shall be given no less than 15 days prior notice of the new assessment amount and be provided with calculations. Prior to any change to the payment rate assessment amount, DMAS shall perform and incorporate a reconciliation of the Health Care Provider Payment Rate Assessment Fund. Any estimated excess or shortfall of revenue since the previous reconciliation shall be deducted from or added to the

calculation of the private acute care hospital enhanced payments.

E.1. The "upper payment limit" means the limit on payment for inpatient services for recipients of medical assistance established in accordance with 42 C.F.R. § 447.272 and outpatient services for recipients of medical assistance pursuant to 42 C.F.R. § 447.321 for private hospitals. DMAS shall complete a calculation of the “upper payment limit" for each state fiscal year with a detailed analysis of how it was determined. The "upper payment limit payment gap" means the difference between the amount of the private hospital upper payment limit and the amount otherwise paid pursuant to the state plan for inpatient and outpatient services. The "managed care organization hospital payment gap" means the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims and the amount that would be included when the projected hospital services furnished by private acute care hospitals operating in Virginia are priced for the contract year equivalent to the maximum managed care directed payment amount as allowed by CMS subject to CMS approval under 42 C.F.R. section 438.6(c). As part of the development of the managed care capitation rates, the DMAS shall calculate a “Medicaid managed care organization (MCO) supplemental hospital capitation payment adjustment". This is a distinct additional amount that shall be added to Medicaid MCO capitation rates to fund supplemental payments under this section to private acute care hospitals operating in Virginia for services to Medicaid recipients.

2. DMAS shall contractually direct Medicaid MCOs to disburse supplemental hospital capitation payment funds consistent with this section and 42 C.F.R. § 438.6(c), to ensure that all such funds are disbursed to private acute care hospitals operating in Virginia. In addition, DMAS shall contractually prohibit MCOs from making reductions to or supplanting hospital payments otherwise paid by MCOs.

3. DMAS shall make available quarterly a report of the additional capitation payments that are made to each MCO pursuant to this item. Further, DMAS shall consider recommendations of the Medicaid Hospital Payment Policy and Advisory Council in designing and implementing the specific elements of the payment rate assessment and private acute care hospital supplemental payment program authorized by this item.

F.1. DMAS shall be responsible for collecting the payment rate assessment amount. Hospitals subject to the payment rate assessment shall make quarterly payments due no later than August 15, November 15, February 15 and May 15 of each state fiscal year.

2. Hospitals that fail to make the payment rate assessment payments on or before the due date in subsection F.1. shall incur a five percent penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid payment assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

G. DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairs of the House Appropriations and Senate Finance and Appropriations Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the payment rate assessment, expenditures for purposes authorized by this item, and the year-end assessment balance in the Health Care Provider Payment Rate Assessment Fund.

H. All revenue from the payment rate assessment shall be deposited into the Health Care Provider Payment Rate Assessment Fund, a special non-reverting fund in the state treasury. Proceeds from the payment rate assessment, excluding penalties, shall not be used for any other purpose than to fund (i) an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the private hospital “upper payment limit" and “managed care organization hospital payment gap" for care provided to recipients of medical assistance services, and (ii) the administrative costs of collecting the assessment and of implementing and operating the associated payment rate actions.

I. Any provision of this Section is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.

§ 4-1.00 APPROPRIATIONS

§ 4-1.01 PREREQUISITES FOR PAYMENT

a. The State Comptroller shall not pay any money out of the state treasury except pursuant to appropriations in this act or in any other act of the General Assembly making an appropriation during the current biennium.

b. Moneys shall be spent solely for the purposes for which they were appropriated by the General Assembly, except as specifically provided otherwise by § 4-1.03 Appropriation Transfers, § 4-4.01 Capital Projects, or § 4-5.01 a. Settlement of Claims with Individuals. Should the Governor find that moneys are not being spent in accordance with provisions of the act appropriating them, he shall restrain the State Comptroller from making further disbursements, in whole or in part, from said appropriations. Further, should the Auditor of Public Accounts determine that a state or other agency is not spending moneys in accordance with provisions of the act appropriating them, he shall so advise the Governor or other governing authority, the State Comptroller, the Chairman of the Joint Legislative Audit and Review Commission, and Chairmen of the Senate Finance and Appropriations and House Appropriations Committees.

c. Exclusive of revenues paid into the general fund of the state treasury, all revenues earned or collected by an agency, and contained in an appropriation item to the agency shall be expended first during the fiscal year, prior to the expenditure of any general fund appropriation within that appropriation item, unless prohibited by statute or by the terms and conditions of any gift, grant or donation.

§ 4-1.02 WITHHOLDING OF SPENDING AUTHORITY

a. For purposes of this subsection, withholding of spending authority is defined as any action pursuant to a budget reduction plan approved by the Governor to address a declared shortfall in budgeted revenue that impedes or limits the ability to spend appropriated moneys, regardless of the mechanism used to effect such withholding.

b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees.

2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations have been specifically presented in writing to the General Assembly at its next regularly scheduled session.

c. Increased Nongeneral Fund Revenue:

1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or intellectually disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program, following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations, which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

d. Reduced General Fund Resources:

1. The term “general fund resources” as applied in this subsection includes revenues collected and paid into the general fund of the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, and all unexpended balances brought forward from the previous biennium.

2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance and Appropriations, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of the House Appropriations, House Finance, and Senate Finance and Appropriations Committees.

b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the just-completed fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance and Appropriations, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal year.

5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees. Subsequent modifications to the approved reduction plan also must be submitted to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees, prior to withholding allotments of appropriations.

b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees concurrently with that budget reduction plan.

6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to $500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

c) The payments for care of graves of Confederate and historical African American dead.

d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board.

e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the Executive Department.

h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting revenues for such appropriation are estimated to be insufficient to pay the appropriation.

7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations; however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance and Appropriations, House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation Trust Fund.

9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

a) The Governor shall declare in writing to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer within five calendar days of the transfer;

b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of Virginia, debt service funds, or federal funds; and

c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the amount transferred from each account or fund and recommendations for restoring such amounts.

10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority withheld under the provisions of this subsection to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation item.

11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General Assembly.

e) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in workload such as enrollment, caseload or like factors, or unanticipated costs, or

f) to address unanticipated business or industrial development opportunities which will benefit the state's economy, provided that any such appropriations be used in a manner consistent with the purposes of the program as originally appropriated.

6. An appropriation transfer shall not occur except through properly executed appropriation transfer documents designed specifically for that purpose, and all transactions effecting appropriation transfers shall be entered in the state's computerized budgeting and accounting systems.

7. The Director, Department of Planning and Budget, may transfer from any other agency, appropriations to supplement any project of the Virginia Public Building Authority authorized by the General Assembly and approved by the Governor. Such appropriations shall be increased only when the expenditure of moneys is authorized elsewhere in this act or is required to:

1) address a threat to life, safety, health or property or

2) provide for unbudgeted increases in costs for services required by statute or services mandated by the federal government, in order to continue those services at the present level or implement compensation adjustments approved by the General Assembly, or

6) realize cost savings in excess of the additional funds provided, or

7) permit a state agency or institution to use a donation, gift or grant for the purpose intended by the donor, or

Expenditures from any gift, grant or donation shall be in accordance with the purpose for which it was made; however, expenditures for property, plant or equipment, irrespective of fund source, are subject to the provisions of §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects General, and 4-5.03 b Services and Clients-New Services, of this act.

4. Any nongeneral fund cash balance recorded on the books of the Department of Accounts as unexpended on the last day of the fiscal year may be appropriated for use in the succeeding fiscal year with the prior written approval of the Director, Department of Planning and Budget, unless the General Assembly shall have specifically provided otherwise. Revenues deposited to the Virginia Health Care Fund shall be used only as the state share of Medicaid, unless the General Assembly specifically authorizes an alternate use. It is the intent of the General Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund appropriations for the Department of Corrections.

§ 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS

a. GENERAL FUND OPERATING EXPENSE:

1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of the first year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of Virginia, where necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable, in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial incentives to reduce spending to effect current or future cost savings. With the exception of the unexpended general fund appropriations of agencies in the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium or the last day of the first year of the current biennium shall revert to the general fund.

b) General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent Agencies shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund appropriations shall also be reappropriated for institutions of higher education, subject to § 23.1-1002, Code of Virginia.

c) To improve the stability in institutional planning and predictability for students and families to prepare for the cost of higher education, public higher education institutions are encouraged to employ the financial management strategy of establishing an institutional reserve fund supported by any unexpended education and general appropriations of the institution at the end of the fiscal year. The establishment of such a fund is designed to foster more long-term planning, promote efficient resource utilization and reduce the need for substantial year-to-year increases in tuition, thereby increasing affordability for Virginians. Independent of the provisions of § 23.1-1001, institutions are authorized to carry over education and general unexpended balances to establish and maintain a reserve fund in an amount not to exceed six percent of their general fund appropriation for educational and general programs in the most recently-completed fiscal year. Any use of the reserve fund shall be approved by the Board of Visitors of the affected institution, and the institution shall immediately report the details of the approved plan for use of the reserve fund to the Governor, the Secretary of Education, the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees. Any reserve fund shall be subject to the provisions of § 23.1-1303.B.11.

2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees on the reappropriated amounts for each state agency in the Executive Department. He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report on or before December 20 to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees.

b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring costs.

3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction over the agency or institution, acting jointly.

4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be reappropriated by language in the Appropriation Act.

5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees showing the amount reverted for each agency and the total amount of such reversions.

b. NONGENERAL FUND OPERATING EXPENSE:

Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general fund. If it is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred, the Director,

Department of Planning and Budget shall include repayment in the next budget bill submitted to the General Assembly. This provision does not apply to funds held in trust by the Commonwealth.

c. CAPITAL PROJECTS:

1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall revert to and become part of the fund balance of the general fund during the current biennium as of the date the Director, Department of Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with the intent of the appropriation or reappropriation and there are no known unpaid obligations related to the project. The State Comptroller shall return the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source from which said nongeneral funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or reappropriation of said nongeneral funds.

3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he shall subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for which an unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he may likewise restore any portion of such amount under the same conditions.

§ 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

a. LIMITED CONTINUATION OF APPROPRIATIONS.

Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last day of the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be necessary in order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of business on such date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of the last day of the previous biennium, against such unexpended balances.

b. LIMITATIONS ON CASH DISBURSEMENTS.

Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30, the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars ($3,000,000) from the general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in accordance with bond documents, trust indentures, and/or escrow agreements.

§ 4-1.07 ALLOTMENTS

Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority, 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia, and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and Budget, under this section.

§ 4-2.00 REVENUES

§ 4-2.01 NONGENERAL FUND REVENUES

a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

1. a) No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds, except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less than $5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War Memorial in consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the

Virginia War Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland Security.

b) The limits on solicitation and acceptance of donations, gifts, grants, and contracts stated in paragraph 1.a) above shall not apply to donations, gifts, grants, and contracts associated with support and/or response to the needs and impacts of the COVID-19 pandemic provided that acceptance of such does not create any ongoing commitments against general or nongeneral fund resources of the Commonwealth.

2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a separately incorporated foundation or corporation.

3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution through a lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the lease purchase agreement, provided that the lessor is the Virginia College Building Authority.

4.The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects-General and 4-5.03 Services and Clients of this act.

5. Notwithstanding any other provision of law, public institutions of higher education may enter into agreements or contracts with nonprofit organizations that provide funding for research or other mission related activities and require use of binding arbitration or application of the laws of another jurisdiction, upon approval of the Office of the Attorney General.

b. HIGHER EDUCATION TUITION AND FEES

1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of higher education, including collections from the sale of dairy and farm products, shall be deposited in the state treasury in accordance with § 2.2-1802, Code of Virginia, and expended by the institutions of higher education in accordance with the appropriations and provisions of this act, provided, however, that this requirement shall not apply to private gifts, endowment funds, or income derived from endowments and gifts.

2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates, provided that the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided that: i) the tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at least 100 percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and periodically amended, by the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual tuition and fee increases for nonresident students that would discourage their enrollment.

d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent, unless: i) such enrollment is intended to support workforce development needs within the Commonwealth of Virginia as identified in consultation with the Virginia Economic Development Partnership, and ii) the number of in-state undergraduate students does not drop below fall 2018 full-time equivalent census levels as certified by the State Council of Higher Education for Virginia. Norfolk State University, Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction. Any such increases shall be limited to no more than a one percentage point increase over the prior year.

3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as well as the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities to citizens of Virginia is served, while recognizing the material contributions provided by the presence of nonresident students. The State Council of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student enrollments and the domiciliary status of students.

b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees no later than August 1 of each year the annual change in total charges for tuition and all required fees approved and allotted by the Board of Visitors. As it deems appropriate, the State Council of Higher Education for Virginia shall provide comparative national, peer, and market data with respect to charges assessed students for tuition and required fees at institutions outside of the Commonwealth.

c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003 Acts of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the institutions of higher education.

d) Except for those public institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, each institution shall work with the State Council of Higher Education for Virginia and the Virginia College Savings Plan to determine appropriate tuition and fee estimates for tuition savings plans.

5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its educational and general program closely approximate the anticipated annual budget each fiscal year.

6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants and paid at an annual contract rate of $4,000 or more may be considered resident students for the purposes of charging tuition and fees.

7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of Virginia Educational Facilities Bond Act of 2002.

8. a) Except for those public institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, mandatory fees for purposes other than educational and general programs shall not be increased for Virginia undergraduates beyond three percent annually, excluding requirements for wage, salary, and fringe benefit increases, authorized by the General Assembly. Fee increases required to carry out actions that respond to mandates of federal agencies are also exempt from this provision, provided that a report on the purposes of the amount of the fee increase is submitted to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees by the institution of higher education at least 30 days prior to the effective date of the fee increase.

b) This restriction shall not apply in the following instances: fee increases directly related to capital projects authorized by the General Assembly; fee increases to support student health services; and other fee increases specifically authorized by the General Assembly.

c) Due to the small mandatory non-educational and general program fees currently assessed students in the Virginia Community College System, increases in any one year of no more than $15 shall be allowed on a cost-justified case-by-case basis, subject to approval by the State Board for Community Colleges.

9. Any institution of higher education granting new tuition waivers to resident or nonresident students not authorized by the Code of Virginia must absorb the cost of any discretionary waivers.

10. Tuition and fee revenues from nonresident students taking courses through Virginia institutions from the Southern Regional Education Board's Southern Regional Electronic Campus must exceed all direct and indirect costs of providing instruction to those students. Tuition and fee rates to meet this requirement shall be established by the Board of Visitors of the institution.

c. HIGHER EDUCATION PLANNED EXCESS REVENUES:

An institution of higher education, except for those public institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, may generate and retain tuition and fee revenues in excess of those provided in § 4-2.01 b Higher Education Tuition and Fees, subject to the following:

1. Such revenues are identified by language in the appropriations in this act to any such institution.

2. The use of such moneys is fully documented by the institution to the Governor prior to each fiscal year and prior to

allotment.

3. The moneys are supplemental to, and not a part of, ongoing expenditure levels for educational and general programs used as the basis for funding in subsequent biennia.

4. The receipt and expenditure of these moneys shall be recorded as restricted funds on the books of the Department of Accounts and shall not revert to the surplus of the general fund at the end of the biennium.

5. Tuition and fee revenues generated by the institution other than as provided herein shall be subject to the provisions of § 4-1.04 a.3 Gifts, Grants, and Other Nongeneral Funds of this act.

However, the State Comptroller is authorized to transfer to the general fund of the state treasury, out of the credits under § 4-1.04 a.1 Unappropriated Nongeneral Funds – Sale of Surplus Materials of this act, sums derived from the sale of materials originally purchased with general fund appropriations. The State Comptroller may authorize similar transfers of the proceeds from the sale of property not subject to § 2.2-1124, Code of Virginia, if said property was originally acquired with general fund appropriations, unless the General Assembly provides otherwise.

a. Without regard to § 4-2.02 a.1 above, payments to the Treasurer of Virginia assessed to insurance companies for the safekeeping and handling of securities or surety bonds deposited as insurance collateral shall be deposited into the Insurance Collateral Assessment Fund to defray such safekeeping and handling expenses.

Notwithstanding any contrary provision of law, for purposes of subsection C of § 58.1-3524 and subsection B of § 58.1-3536, Code of Virginia, the term general fund revenues, excluding transfers, is defined as (i) all state taxes, including penalties and interest, required and/or authorized to be collected and paid into the general fund of the state treasury pursuant to Title 58.1, Code of Virginia; (ii) permits, fees, licenses, fines, forfeitures, charges for services, and revenue from the use of money and property required and/or authorized to be paid into the general fund of the treasury; and (iii) amounts required to be deposited to the general fund of the state treasury pursuant to § 4-2.02 a.1., of this act. However, in no case shall (i) lump-sum payments, (ii) one-time payments not generated from the normal operation of state government, or (iii) proceeds from the sale of state property or assets be included in the general fund revenue calculations for purposes of subsection C of § 58.1-3524 and subsection B of § 58.1-3536, Code of Virginia.

c. DATE OF RECEIPT OF REVENUES:

All June general fund collections received under Subtitle I of Title 58.1, Code of Virginia, bearing a postmark date or electronic transactions with a settlement or notification date on or before the first business day in July, when June 30 falls on a Saturday or Sunday, shall be considered as June revenue and recorded under guidelines established annually by the Department of Accounts.

d. RECOVERIES BY THE OFFICE OF THE ATTORNEY GENERAL

1. As a condition of the appropriation for Item 49 of this Act, there is hereby created the Disbursement Review Committee (the "Committee"), the members of which are the Attorney General, who shall serve as chairman; two members of the House of Delegates appointed by the Speaker of the House; two members of the Senate appointed by the Chairman of the Senate Committee on Rules; and two members appointed by the Governor.

2. Whenever forfeitures are available for distribution by the Attorney General through programs overseen by either the U.S. Department of Justice Asset Forfeiture Program or the U.S. Treasury Executive Office for Asset Forfeiture, by virtue of the Attorney General's participation on behalf of the Commonwealth or on behalf of an agency of the Commonwealth, the Attorney General shall seek input from the Committee, to the extent permissible under applicable federal law and guidelines, for the preparation of a proposed Distribution Plan (the "Plan") regarding the distribution and use of money or property, or both. If a federal entity must approve the Plan for such distribution or use, or both, and does not approve the Plan submitted by the Attorney General, the Plan may be revised if deemed appropriate and resubmitted to the federal entity for approval following notification of the Committee. If the federal entity approves the original Plan or a revised Plan, the Attorney General shall inform the Committee, and ensure that such money or property, or both, is distributed or used, or both, in a manner that is consistent with the Plan approved by the federal entity. The distribution of any money or property, or both, shall be done in a manner as prescribed by the State Comptroller and consistent with any federal authorization in order to ensure proper accounting on the books of the Commonwealth.

§ 4-2.03 INDIRECT COSTS

a. INDIRECT COST RECOVERIES FROM GRANTS AND CONTRACTS:

Each state agency, including institutions of higher education, which accepts a grant or contract shall recover full statewide and agency indirect costs unless prohibited by the grantor agency or exempted by provisions of this act.

b. AGENCIES OTHER THAN INSTITUTIONS OF HIGHER EDUCATION:

The following conditions shall apply to indirect cost recoveries received by all agencies other than institutions of higher education:

1. The Governor shall include in the recommended nongeneral fund appropriation for each agency in this act the amount which

the agency includes in its revenue estimate as an indirect cost recovery. The recommended nongeneral fund appropriations shall reflect the indirect costs in the program incurring the costs.

2. If actual agency indirect cost recoveries exceed the nongeneral fund amount appropriated in this act, the Director, Department of Planning and Budget, is authorized to increase the nongeneral fund appropriation to the agency by the amount of such excess indirect cost recovery. Such increase shall be made in the program incurring the costs.

3. Statewide indirect cost recoveries shall be paid into the general fund of the state treasury, unless the agency is specifically exempted from this requirement by language in this act. Any statewide indirect cost recoveries received by the agency in excess of the exempted sum shall be deposited to the general fund of the state treasury.

c. INSTITUTIONS OF HIGHER EDUCATION:

The following conditions shall apply to indirect cost recoveries received by institutions of higher education:

1. Seventy percent shall be retained by the institution as an appropriation of moneys for the conduct and enhancement of research and research-related requirements. Such moneys may be used for payment of principal of and interest on bonds issued by or for the institution pursuant to § 23.1-1106, Code of Virginia, for any appropriate purpose of the institution, including, but not limited to, the conduct and enhancement of research and research-related requirements.

2. Thirty percent of the indirect cost recoveries for the level of sponsored programs authorized in the appropriations in Part 1 of Chapter 1042 of the Acts of Assembly of 2003, shall be included in the educational and general revenues of the institution to meet administrative costs.

3. Institutions of higher education may retain 100 percent of the indirect cost recoveries related to research grant and contract levels in excess of the levels authorized in Chapter 1042 of the Acts of Assembly of 2003. This provision is included as an additional incentive for increasing externally funded research activities.

d. REPORTS

The Director, Department of Planning and Budget, shall make available via electronic means a report to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees and the public no later than September 1 of each year on the indirect cost recovery moneys administratively appropriated.

e. REGULATIONS:

The State Comptroller is hereby authorized to issue regulations to carry out the provisions of this subsection, including the establishment of criteria to certify that an agency is in compliance with the provisions of this subsection.

§ 4-3.00 DEFICIT AUTHORIZATION AND TREASURY LOANS

§ 4-3.01 DEFICITS

a. GENERAL:

1. Except as provided in this section no state agency shall incur a deficit. No state agency receiving general fund appropriations under the provisions of this act shall obligate or expend moneys in excess of its general fund appropriations, nor shall it obligate or expend moneys in excess of nongeneral fund revenues that are collected and appropriated.

2. The Governor is authorized to approve deficit funding for a state agency under the following conditions:

a) an unanticipated federal or judicial mandate has been imposed,

b) insufficient moneys are available in the first year of the biennium for start-up of General Assembly-approved action, or

c) delay pending action by the General Assembly at its next legislative session will result in the curtailment of services required by statute or those required by federal mandate or will produce a threat to life, safety, health or property.

d) Such approval by the Governor shall be in writing under the conditions described in § 4-3.02 a Authorized Deficit Loans of this act and shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees within five calendar days of deficit approval.

3. Deficits shall not be authorized for capital projects.

4. The Department of Transportation may obligate funds in excess of the current biennium appropriation for projects of a capital nature not covered by § 4-4.00 Capital Projects, of this act provided such projects a) are delineated in the Virginia Transportation Six-Year Improvement Program, as approved by the Commonwealth Transportation Board; and b) have sufficient cash allocated to each such project to cover projected costs in each year of the Program; and provided that c) sufficient revenues are projected to meet all cash obligations for such projects as well as all other commitments and appropriations approved by the General Assembly in the

biennial budget.

b. UNAUTHORIZED DEFICITS: If any agency contravenes any of the prohibitions stated above, thereby incurring an unauthorized deficit, the Governor is hereby directed to withhold approval of such excess obligation or expenditure. Further, there shall be no reimbursement of said excess, nor shall there be any liability or obligation upon the state to make any appropriation hereafter to meet such unauthorized deficit. Further, those members of the governing board of any such agency who shall have voted therefor, or its head if there be no governing board, making any such excess obligation or expenditure shall be personally liable for the full amount of such unauthorized deficit and, at the discretion of the Governor, shall be deemed guilty of neglect of official duty and be subject to removal therefor. Further, the State Comptroller is hereby directed to make public any such unauthorized deficit, and the Director, Department of Planning and Budget, is hereby directed to set out such unauthorized deficits in the next biennium budget. In addition, the Governor is directed to bring this provision of this act to the attention of the members of the governing board of each state agency, or its head if there be no governing board, within two weeks of the date that this act becomes effective. The governing board or the agency head shall execute and return to the Governor a signed acknowledgment of such notification.

c. TOTAL AUTHORIZED DEFICITS: The amount which the Governor may authorize, under the provisions of this section during the current biennium, to be expended from loans repayable out of the general fund of the state treasury, for all state agencies, or other agencies combined, in excess of general fund appropriations for the current biennium, shall not exceed one and one-half percent (1 1/2%) of the revenues collected and paid into the general fund of the state treasury as defined in § 4-2.02 b. of this act during the last year of the previous biennium and the first year of the current biennium.

d. The Governor shall report any such authorized and unauthorized deficits to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees within five calendar days of deficit approval. By August 15 of each year, the Governor shall provide a comprehensive report to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees detailing all such deficits.

§ 4-3.02 TREASURY LOANS

a. AUTHORIZED DEFICIT LOANS: A state agency requesting authorization for deficit spending shall prepare a plan for the Governor's review and approval, specifying appropriate financial, administrative and management actions necessary to eliminate the deficit and to prevent future deficits. If the Governor approves the plan and authorizes a state agency to incur a deficit under the provisions of this section, the amount authorized shall be obtained by the agency by borrowing the authorized amount on such terms and from such sources as may be approved by the Governor. At the close of business on the last day of the current biennium, any unexpended balance of such loan shall be applied toward repayment of the loan, unless such action is contrary to the conditions of the loan approval. The Director, Department of Planning and Budget, shall set forth in the next biennial budget all such loans which require an appropriation for repayment. A copy of the approved plan to eliminate the deficit shall be transmitted to the Chairmen of the House Appropriations and the Senate Finance and Appropriations Committees within five calendar days of approval.

b. ANTICIPATION LOANS: Authorization for anticipation loans are limited to the provisions below.

1.a) When the payment of authorized obligations for operating expenses is required prior to the collection of nongeneral fund revenues, any state agency may borrow from the state treasury the required sums with the prior written approval of the Secretary of Finance or his designee as to the amount, terms and sources of such funds; such loans shall not exceed the amount of the anticipated collections of such revenues and shall be repaid only from such revenues when collected.

§ 4-3.03 LONG-TERM LEASES

a. GENERAL:

1. As part of their capital budget submission, all agencies and institutions of the Commonwealth proposing building projects that may qualify as long-term lease agreements, as defined in Generally Accepted Accounting Principles (GAAP), and that may be supported in whole, or in part, from appropriations provided for in this act, shall submit copies of such proposals to the Directors of the Departments of Planning and Budget and General Services, the State Comptroller, and the State Treasurer based on guidelines promulgated by the Secretary of Finance. In addition, the Secretary of Finance may promulgate guidelines for the review and approval of such requests.

2. The proposals shall be submitted in such form as the Secretary of Finance may prescribe. The Comptroller and the Director of the Department of General Services shall be responsible for evaluating the proposals to determine if they qualify as long-term lease agreements. The State Treasurer shall be responsible for incorporating existing and authorized long-term lease agreements meeting the approved parameters into the annual Debt Capacity Advisory Committee reports.

b. APPROVAL OF FINANCINGS:

1. For any project which qualifies as a long-term lease, as defined in the preceding subdivisions a. 1 and 2, and which is financed through the issuance of securities, the Treasury Board shall approve the terms and structure of such financing pursuant to § 2.2-2416, Code of Virginia.

2. For any project for which costs will exceed $5,000,000 and which is financed through a long-term lease transaction, the Treasury Board shall approve the financing terms and structure of such long-term lease in addition to such other reviews and approvals as may be required by law. Prior to consideration by the Treasury Board, the Department of Accounts shall notify the Treasury Board of any transaction determined to be a long-term lease. Additionally, the Departments of General Services and Planning and Budget shall notify the Treasury Board upon their approval of any transaction which qualifies as a long-term lease under the terms of this section. The State Treasurer shall notify the Chairs of the House Appropriations and Senate Finance and Appropriations Committees of the action of the Treasury Board as it regards this subdivision within five calendar days of its action.

d. This section shall not apply to long-term leases that are funded entirely with nongeneral fund revenues and are entered into by public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly. Furthermore, the Department of General Services is authorized to enter into long-term leases for executive branch agencies provided that the resulting long-term lease is funded entirely with nongeneral funds, is approved based on the requirements of § 4-3.03 b.1 and 2 above, and would not be considered tax supported debt of the Commonwealth.

§ 4-4.00 CAPITAL PROJECTS

§ 4-4.01 GENERAL

a. Definition:

1. Unless defined otherwise, when used in this section, "capital project" or "project" means acquisition of property and new construction and improvements related to state-owned property, plant or equipment (including plans therefor), as the terms "acquisition", "new construction", and "improvements" are defined in the instructions for the preparation of the Executive Budget. "Capital project" or "project" shall also mean any improvements to property leased for use by a state agency, and not owned by the state, when such improvements are financed by public funds, except as hereinafter provided in subdivisions 3 and 4 of this subsection.

2. The provisions of this section are applicable equally to acquisition of property and plant by purchase, gift, or any other means, including the acquisition of property through a lease/purchase contract, regardless of the method of financing or the source of funds. Acquisition of property by lease shall be subject to § 4-3.03 of this act.

3. The provisions of this section shall not apply to property or equipment acquired by lease or improvements to leased property and equipment when the improvements are provided by the lessor pursuant to the terms of the lease and upon expiration of the lease remain the property of the lessor.

4. The provisions of this section shall not apply to property leased by state agencies for the purposes described in §§ 2.2-1151 C and 33.2-1010, Code of Virginia.

b. Notwithstanding any other provisions of law, requests for appropriations for capital projects shall be subject to the following:

1. The agency shall submit a capital project proposal for all requested capital projects. Such proposals shall be submitted to the Director, Department of Planning and Budget, for review and approval in accordance with guidelines prescribed by the director. Projects shall be developed to meet agency functional and space requirements within a cost range comparable to similar public and private sector projects.

2. Except for institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, financings for capital projects shall comply, where applicable, with the Treasury Board Guidelines issued pursuant to § 2.2-2416, Code of Virginia, and any subsequent amendments thereto.

3. As part of any request for appropriations for an armory, the Department of Military Affairs shall obtain a written commitment from the host locality to share in the operating expense of the armory.

c. Each agency head shall provide annually to the Director, Department of Planning and Budget, a report on the use of the maintenance reserve appropriation of the agency in Part 2 of this act. In the use of its maintenance reserve appropriation, an agency shall give first priority to the repair or replacement of roof on buildings under control of the agency. The agency head

shall certify in the agency's annual maintenance reserve report that to the best of his or her knowledge, all necessary roof repairs have been accomplished or are in the process of being accomplished. Such roof repairs and replacements shall be in accord with the technical requirements of the Commonwealth's Construction and Professional Services Manual.

d. The Department of Planning and Budget shall review its approach to capital outlay planning and budgeting from time to time and make available via electronic means a report of any proposed change to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees and the public prior to its implementation. Such report shall include an analysis of the impact of the suggested change on affected agencies and institutions.

e. Nothing in §§ 2-0 and 4-4.00 of this act shall be deemed to override the provisions of §§ 2.2-1132 and 62.1-132.6, Code of Virginia, amended by Chapter 488, 1997 Acts of Assembly, relating to Virginia Port Authority capital projects and procurement activities.

f. Legislative Approval: It is the intent of the General Assembly that, with the exceptions noted in this paragraph and paragraph m, all capital projects to be undertaken by agencies of the Commonwealth, including institutions of higher education, shall be pursuant to approvals by the General Assembly as provided in the Six-Year Capital Outlay Plan established pursuant to § 2.2-1515, et seq., Code of Virginia. Otherwise, the consideration of capital projects shall be limited to:

1. Supplementing projects which have been bid and determined to have insufficient funding to be placed under contract, and

2. Projects declared by the Governor or the General Assembly to be of an emergency nature, which may avoid an increase in cost or otherwise result in a measurable benefit to the state, and/or which are required for the continued use of existing facilities.

3. This paragraph does not prohibit the initiation of projects authorized by § 4-4.01 l hereof, or projects included under the central appropriations for capital project expenses in this act.

g. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to this act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or is considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need for other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and specifications for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for the purposes intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or construction of such project can and will be obtained at reasonable cost; and (4) to determine whether or not the project conforms to a site or master plan approved by the agency head or board of visitors of an institution of higher education for a program approved by the General Assembly.

h. Initiation Generally:

1. No architectural or engineering planning for, or construction of, or purchase of any capital project shall be commenced or revised without the prior written approval of the Governor or his designee.

2. The requirements of § 10.1-1190, Code of Virginia, shall be met prior to the release of funds for a major state project, provided, however, that the Governor or his designee is authorized to release from any appropriation for a major state project made pursuant to this act such sum or sums as may be necessary to pay for the preparation of the environmental impact report required by § 10.1-1188, Code of Virginia.

3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the appropriation.

4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or activity.

i. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the agency or institution, shall be reviewed as follows:

1. By August 15 of each year, requests for inclusion in the Executive Budget of capital projects to be financed with 9(c) general obligation bonds shall be submitted to the State Treasurer for evaluation of financial feasibility. Submission shall be in accordance with the instructions prescribed by the State Treasurer. The State Treasurer shall distribute copies of financial feasibility studies to the Director, Department of Planning and Budget, the Secretary for the submitting agency or institution, the Chairmen of the House

Appropriations and Senate Finance and Appropriations Committees, and the Director, State Council of Higher Education for Virginia, if the project is requested by an institution of higher education.

2. By August 15 of each year, institutions shall also prepare and submit copies of financial feasibility studies to the State Council of Higher Education for Virginia for 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the institution. The State Council of Higher Education for Virginia shall identify the impact of all projects requested by the institutions of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost to students in institutions of higher education and the impact of the project on the institution's need for student financial assistance. The State Council of Higher Education for Virginia shall report such information to the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees no later than October 1 of each year.

3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed by the State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9 (c), of the Constitution of Virginia.

j. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04 a.3, and 4-4.01 l of this act.

k.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any capital project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond the plans and justification which were the basis for the appropriation or reappropriation in this act or for the Governor's authorization pursuant to § 4-4.01 l of this act. However, this prohibition is not applicable to changes in size and scope required because of circumstances determined by the Governor to be an emergency, or requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. Furthermore, this prohibition shall not apply to minor increases, beyond five percent, in square footage determined by the Director, Department of General Services, to be reasonable and appropriate based on a written justification submitted by the agency stating the reason for the increase, with the provision that such increase will not increase the cost of the project beyond the amount appropriated; nor to decreases in size beyond five percent to offset unbudgeted costs when such costs are determined by the Director, Department of Planning and Budget, to be reasonable based on a written justification submitted by the agency specifying the amount and nature of the unbudgeted costs and the types of actions that will be taken to decrease the size of the project. The written justification shall also include a certification, signed by the agency head, that the resulting project will be consistent with the original programmatic intent of the appropriations.

2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approved by the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.

l. Projects Not Included In This Act:

1. Authorization by Governor:

a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not specifically included in this act or provided for a program approved by the General Assembly through appropriations, under one or more of the following conditions:

1) The project is required to meet an emergency situation.

2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be fully funded by revenues of auxiliary enterprises or sponsored programs.

3) The project is to be operated as an educational and general program in an institution of higher education and will be fully funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.

4) The project consists of plant or property which has become available or has been received as a gift.

5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission or the Virginia Tobacco Settlement Foundation.

b) The foregoing conditions are subject to the following criteria:

1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03) without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.

2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.

3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated operating costs, and the fund sources for the project and its operating costs.

4) The Chairmen of the House Appropriations and Senate Finance and Appropriations Committees shall be notified by the Governor prior to the authorization of any capital project under the provisions of this subsection.

5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.

2. Authorization by Director, Department of Planning and Budget:

a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia College Building Authority, or from reserves created by refunding of bonds issued by those Authorities.

3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:

a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in § 4-4.01 l 1 of this act.

b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and Chairmen of the House Appropriations and Senate Finance and Appropriations Committees and must provide a life-cycle budget analysis of the project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.

c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher education in accordance with this provision.

m. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject to the following policies:

1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for acquisition, construction, maintenance, operation, and repairs.

2. For new campuses to be established within the Virginia Community College System, expenditures for land acquisition, site preparation beyond five feet from a building, and the construction of additional outdoor lighting, sidewalks, outdoor athletic and recreational facilities, and parking lots in the Virginia Community College System shall be made only from appropriated federal funds, Trust and Agency funds, including local government allocations or appropriations, or the proceeds of indebtedness authorized by the General Assembly.

3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all colleges and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking facilities.

4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks, and other infrastructure facilities may be made from any appropriated funds.

5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a community college campus as of July 1, 1988.

6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any repair, renovation, or new construction project costing up to $3,000,000 shall be exempt from the capital outlay review and approval process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would exceed the $3,000,000 maximum.

2. All state agencies and institutions of higher education shall be exempt from the capital review and approval process for repair, renovation, or new construction projects costing up to $3,000,000.

b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to $3,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the threshold.

7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as a priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant"

subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and Budget, or his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees.

n. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the opinion of the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his judgment may be necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in accordance with § 4-8.00, Reporting Requirements.

o. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project beyond that anticipated when the project was initially approved by the General Assembly except to comply with requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not be reallocated to expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall not apply to transfers from projects for which reappropriations have been authorized.

p. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as owner or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.

q. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure, landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the comments of that department shall be submitted to the Governor through the Department of General Services for use in making a final determination.

r.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the Commonwealth to the educational or real estate foundation of any institution of higher education where he finds that such property was acquired with local or private funds or by gift or grant to or for the use of the institution, and not with funds appropriated to the institution by the General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of Virginia, and any other statute concerning conveyance, transfer or sale of state property. If the foundation conveys any interest in the property or any improvements thereon, such conveyance shall likewise be exempt from compliance with any statute concerning disposition of state property. Any income or proceeds from the conveyance of any interest in the property shall be deemed to be local or private funds and may be used by the foundation for any foundation purpose.

2. This section shall not apply to public institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act.

s.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state-owned property controlled by an institution of higher education, where the lease has been entered into consistent with the provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the lease agreement was developed.

2. This section shall not apply to public institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act.

t. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as follows:

1. Such improvements shall be considered an operating expense, provided that:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Energy;

d) the total cost does not exceed $3,000,000; and

e) if the total cost exceeds $3,000,000, but does not exceed $7,000,000, the energy savings from the project offset the total cost of the project, including debt service and interest payments.

2. If (a) the total cost of the improvement exceeds $7,000,000 or (b) the total cost exceeds $3,000,000, but does not exceed $7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the following conditions must be met:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Energy;

d) the project has been reviewed by the Department of Planning and Budget; and

e) the project has been approved by the Governor.

3. If the total project exceeds $250,000, the agency director will submit written notification to the Director, Department of Planning and Budget, verifying that the project meets all of the conditions in subparagraph 1 above.

The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of § 2.2-1132, Code of Virginia, shall not apply to energy conservation projects that qualify as capital expenses.

4. As used in this paragraph, “improvement” does not include (a) constructing, enlarging, altering, repairing or demolishing a building or structure, (b) changing the use of a building either within the same use group or to a different use group when the new use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or disturbing any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures, If the projected scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay process as set out in this section.

5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.

u. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional facility or for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves acquisition or new construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth on January 1, 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution supporting the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit expenditures for site studies, real estate options, correctional facility design and related expenditures.

v. Except for institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, any alternative financing agreement entered into between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed and approved by the Treasury Board.

w. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget development process and shall be evaluated by the Governor prior to submitting his proposed budget.

x. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process when the state procurement process is utilized, except for those projects with both an estimated cost of $3,000,000 or less and are 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects that would be eligible for such funding in future fiscal years.

§ 4-4.02 PLANNING AND BUDGETING

a. It shall be the intent of the General Assembly to make biennial appropriations for a capital improvements program sufficient to address the program needs of the Commonwealth. The capital improvements program shall include maintenance and deferred maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the programs of state agencies and institutions.

b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the

Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the Commonwealth's investment in its property and plant.

§ 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

§ 4-5.01 TRANSACTIONS WITH INDIVIDUALS

a. SETTLEMENT OF CLAIMS: Whenever a dispute, claim or controversy involving the interest of the Commonwealth is settled pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor, to the state agency(ies) which is (are) party to the settlement.

b. STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:

1. General:

a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at least one-half time in a degree, certificate, industry-based certification and related programs that do not qualify for other sources of student financial assistance or diploma program; grants to full-time graduate students; graduate assistantships: grants to students enrolled full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these appropriations for the purpose of supporting work study programs. The institution is required to transfer to educational and general appropriations all funds used for work study or to pay graduate assistantships. Institutions may also contribute to federal or private student grant aid programs requiring matching funds by the institution, except for programs requiring work. The State Council of Higher Education for Virginia shall annually review each institution's plan for the expenditures of its general fund appropriation for undergraduate student financial assistance prior to the start of the fall term to determine program compliance. The institution's plan shall include the institution's assumptions and calculations for determining the cost of attendance, student financial need, and student remaining need as well as an award schedule or description of how funds are awarded. For the purposes of the proposed plan, each community college shall be considered independently. No limitations shall be placed on the awarding of nongeneral fund appropriations made in this act to state institutions of higher education within the Items for student financial assistance other than those found previously in this paragraph and as follows: (i) funds derived from in-state student tuition will not subsidize out-of-state students, (ii) students receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on financial need, and (iv) institutions should make larger grant and scholarship awards to students taking the number of credit hours necessary to complete a degree in a timely manner.

b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset all, or portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) hereof, the cost of books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to the remaining need of individual students, with students with higher levels of remaining need receiving grants before other students. No criteria other than the need of the student shall be used to determine the award amount. Because of the low cost of attendance and recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified approach and minimum award amount for the neediest VGAP student should be implemented for community college and Richard Bland College students based on remaining need and the combination of federal and grant state aid. Student financial need shall be determined by a need-analysis system approved by the Council.

c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the Council.

2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly, each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.

d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the percentage used for federal Return to Title IV program purposes.

e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according to the size of comparable awards made in that institution's regular session.

f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to (1) the soil scientist scholarships authorized under § 23.1-615, Code of Virginia and (2) need-based financial aid programs for industry-based certification and related programs that do not qualify for other sources of student financial assistance, which will be subject to guidelines developed by the State Council of Higher Education for Virginia.

g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.

h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional

baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.

i) In determining financial need for student financial assistance, the institution shall recognize the federal Student Aid Index at no less than zero.

j) Students receiving student financial assistance in 2023-2024 may be considered for Virginia Student Financial Assistance Program awards based on the Expected Family Contribution demonstrated in 2023-2024, or appropriately adjusted need as determined by the institution, for as long as the student maintains continuous enrollment, unless granted an exception for cause by the State Council of Higher Education for Virginia, until current degree completion or current degree program eligibility limits have otherwise expired, whichever comes first.

k) Notwithstanding any other provision of law to the contrary, the Student Aid Index as calculated according to federal Title IV financial aid methodology shall be deemed an approved replacement of any mention or use of the precedent federal Expected Family Contribution for purposes of administrating state higher education financial aid programs.

l) Notwithstanding any other provision of law to the contrary, private institutions admitted on or after January 1, 2024 in any state program of higher education financial assistance shall (i) be a nonprofit private institution of higher education whose primary purpose is to provide collegiate, graduate, or professional education and not to provide religious training or theological education; (ii) be formed, chartered, established, or incorporated within the Commonwealth; (iii) have their principal place of business within the Commonwealth; (iv) conduct their primary educational activity within the Commonwealth; and (v) be accredited by a nationally recognized regional institutional accrediting agency.

2. Grants To Undergraduate Students:

a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend such sums as approved for that purpose by the Council.

b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the institution making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes of eligibility under Title IV of the federal Higher Education Act, as amended.

c)1) It is the intent of the General Assembly that students eligible under the Virginia Guaranteed Assistance Program (VGAP) authorized in Title 23.1, Chapter 4.4:2, Code of Virginia, shall receive grants before all other students at the same institution with equivalent remaining need from the appropriations for undergraduate student financial assistance found in Part 1 of this act (service area 1081000 - Scholarships). In each instance, VGAP eligible students shall receive awards greater than other students with equivalent remaining need.

2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required fees and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the VGAP award will be determined by the proportionate award schedule adopted by each institution; however, those students with the greatest financial need shall be guaranteed an award at least equal to tuition.

3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic performance and to consider higher education an achievable objective in their futures.

4) Students may not receive a VGAP and a Commonwealth grant in the same semester.

d) Of the amount allocated for undergraduate need-based financial aid, up to one percent may be used for emergency assistance programs for students facing a financial emergency that puts them at risk of dropping out. The Council shall establish reporting guidelines and approve criteria for making student awards.

3. Grants To Graduate Students:

a) An individual award may be based on financial need but may, in addition to or instead of, be based on other criteria determined by the institution making the award. The amount of an award shall be determined by the institution making the award; however, the Council shall annually be notified as to the maximum size of a graduate award that is paid from funds in the appropriation.

b) A student receiving a graduate award paid from the appropriation must be duly admitted into a graduate degree program at the institution making the award.

c) Not more than 50 percent of the funds designated by an institution as graduate grants from the appropriation, and approved as such by the Council, shall be awarded to persons not eligible to be classified as Virginia domiciliary resident students except in cases where the persons meet the criteria outlined in § 4-2.01b.6.

4. Matching Funds: Any institution of higher education may, with the approval of the Council, use funds from its appropriation for fellowships and scholarships to provide the institutional contribution to any student financial aid program established by the federal government or private sources which requires the matching of the contribution by institutional funds, except for programs requiring

work.

5. Discontinued Loan Program:

a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional share was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the Department of Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the funds shall be used according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

b)1) An institution of higher education may discontinue its student loan fund established pursuant to Title 23.1, Chapter 4.01, Code of Virginia. The full amount of cash in such discontinued loan fund shall be paid into the state treasury into a nonrevertible nongeneral fund account. Prior to such payment, the State Comptroller shall verify its accuracy, including the fact that the cash held by the institution in the loan fund will be fully depleted by such payment. The loan fund shall not be reestablished thereafter for that institution.

2) The cash so paid into the state treasury shall be used only for grants to undergraduate and graduate students in the Higher Education Student Financial Assistance program according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

3) Payments on principal and interest of any promissory notes held by the discontinued loan fund shall continue to be received by the institution, which shall deposit such payments in the state treasury to the nonrevertible nongeneral fund account specified in subdivision (1) preceding, to be used for grants as specified in subdivision (2) preceding.

6. Reporting: The Council shall collect student-specific information for undergraduate students as is necessary for the operation of the Student Financial Assistance Program. The Council shall maintain regulations governing the operation of the Student Financial Assistance Program based on the provisions outlined in this section, the Code of Virginia, and State Council policy.

7. Waivers and Related Stipends

a) Notwithstanding any other provision of law, individuals eligible for any financial aid waivers and related stipends contained in § 23.1, Chapter 6 shall:

2) Complete the Free Application for Federal Student Aid (FAFSA) or equivalent state financial aid application.

3) Make satisfactory academic progress as defined by the institution for the purposes of eligibility under Title IV of the federal Higher Education Act, as amended.

Eligibility is restricted to a combined total of no more than four years or its equivalent.

c) 1) Waivers granted under this section shall cover the last-dollar cost of the in-state undergraduate tuition, mandatory Education & General Program (E & G) fees and mandatory non-E & G fees after applying, in the following order: (i) all federal aid under 38 USC Part III dollar-for-dollar; (ii) all state grants and scholarships dollar-for-dollar; and (iii) a proportion of all federal gift aid (Pell) and expected family contribution (EFC) or its equivalent under FAFSA Simplification as determined by SCHEV.

2) The proportion in c)1) (iii) shall be determined by SCHEV based on undergraduate tuition, mandatory Education & General Program (E & G) fees and mandatory non-E & G fees as a percentage of the total cost of attendance.

3) Mandatory non-E & G fees in c) 1) are fees charged to all students regardless of degree program or as defined by SCHEV. Mandatory non-E & G fees do not include room and board.

d) Students enrolled in the Program in 2023-2024 or who formally committed to the institution to enroll in Summer or Fall 2024 courses by May 15, 2024 shall not be subject to the provisions of a) 1), b), c) 1) and c) 2) of this section.

c. PAYMENTS TO CITIZEN MEMBERS OF NONLEGISLATIVE BODIES:

b) For purposes of this act, "attorney" shall be defined as an employee or contractor who represents an agency before a court, board or agency of the Commonwealth of Virginia or political subdivision thereof. This term shall not include members of the bar employed by an agency who perform in a capacity that does not require a license to practice law, including but not limited to, instructing, managing, supervising or performing normal or customary duties of that agency.
