Now we quietly ask that You help us complete our work.

Give us renewed energy as we run the race this week to cross the finish line.

Give us clarity as we commit good ideas to law so that we can be proud and our people protected.

Give particular fortitude to our colleagues: John, William, Walter, Chuck, Edd, as they meet with conferees on the other side to reassemble our fiscal house for the year.

There are so many needs that often weigh on us. We pray for Your peace that we have done all that we could for the right reasons and the just cause.

We are not perfect servants, but we are servants nonetheless. And we are thankful for this opportunity. Amen.

Bless especially with these qualities our Governor, Lt. Governor, and the Senators and Delegates of this General Assembly, that they may continue in his example of selfless public service and so serve as faithful stewards of the great legacy he has bequeathed us.

And grant us all the grace to steadfastly seek the happiness and well-being of our fellow citizens, as well as those beyond our shores, that our Commonwealth and our Country, may be the beacons of benevolence and freedom for which Washington himself labored at our nation's birth. Amen.

The Senate met at 10:00 a.m. and was called to order by Lieutenant Governor Timothy M. Kaine.

The Reverend James J. Begley, Jr., Church of the Redeemer, Mechanicsville, Virginia, offered the following prayer:

Blessed are You, God of mercy. We gather in this hallowed hall today as members of many different faiths. We come together in prayer, as Your faithful servants. We acknowledge this morning that our unity in faith needs to be nourished and deepened.

We gather to follow Your example to love and forgive one another—to be citizens of a great State that look after those in need. Help us now to see the generations of men and women who our laws and policies this day will affect. Help us to see all Your children as equal and deserving of our hard work.

Send down Your blessing this day upon these Your servants who so generously devote themselves to helping others. When we are called on in times of need, let us faithfully serve You and our neighbors.

Let us pray for God's blessings on the members of this Senate. Through our prayers and our work together may we be united as Virginians.

We ask this in God's name. Amen.

Chaplain David E. Wolfe, Memorial Hospital, Martinsville, Virginia, offered the following prayer:

Most gracious and caring God, we pause as we enter the final hours of this session of our legislature. We come to You seeking wisdom as the last opportunity to pass legislation comes to a hectic close. We ask that our hearts carry an awareness of Your presence as these our elected representatives deliberate on the myriad of issues that call their attention. We are aware that we see through a glass darkly. We know that we do not have perfect knowledge. Still, You have given us the responsibility to serve one another. May this body be cloaked with Your spirit on this day—a day that You have given us as a gift. May we never forget the blessing that comes with being a free people—able to set our own destiny. May this blessing and responsibility never be taken for granted—even in the middle of so many distractions that are inherent in this our public domain.

Here our prayer, O God of our salvation. Amen.

The roll was called and the following Senators answered to their names:

SATURDAY, FEBRUARY 26, 2005

The Senate met at 12 m. and was called to order by Lieutenant Governor Timothy M. Kaine.

The Reverend George A. Williams, Retired Chief Deputy Clerk of the House of Delegates, Mechanicsville, Virginia, offered the following prayer:

O God, Creator and Sustainer! We praise You! We thank You!

The 2005 Session is hopefully coming to an end!

What a ride it has been . . . half a league, half a league, half a league onward,

All in the Valley of the Legislative Process rode the Senatorial Forty! Forward the women and the men of the Senate!

Ours to make reply, ours to reason why, ours to do and die!

O God, lobbyists to the right and the left of us,

Media to the left and the right of us,

Many billions here and many billions there,

Troubles and hanger-on-ers everywhere,

The Governor and the House of Delegates are always nigh,

And citizens pushing with anxious sighs,

Volley'd and thundered, O my!

Storm'd with words, letters, phone, fax, and e-mail,

But boldly we rode, and reasonably well.

The *January-February Charge* we made, while the Commonwealth wondered through all these days.

O God, we trust You will honor the ride we made—honor the tired but faithful Forty, the President, the Clerk, and the Staff! Now bless our life this day and when the budget is complete and our work is done, send us home! Let us go with the knowledge that You are with us, and that we have tried to do our best, always knowing that we never finish the work of serving our citizens and our Commonwealth!

May our endeavors here in Richmond this winter give life, hope, and strength to the people of Virginia. In Your name, Peace, Shalom, Salaam! Amen!

The roll was called and the following Senators answered to their names:

PARLIAMENTARY INQUIRY

Senator Cuccinelli propounded a parliamentary inquiry as to what would determine that a member of the Senate has ceased to be a member of the political party of which he was a member at the time of his election, pursuant to Senate Rule 20 (a).

The Chair stated that he was unable to render a hypothetical advisory opinion on all of the circumstances that would determine that matter, but that there was one circumstance that would unequivocally trigger it: an individual's unilateral and unequivocal declaration that he was ceasing to be a member of the political party of which he was a member at the time of his election.

Out of this appropriation, \$586,870 and six positions from the general fund are provided in recognition of the increased role that the State Council of Higher Education must play in: (i) coordinating Virginia's system of higher education; (ii) aligning statewide enrollment demand with institutional enrollment projections; (iii) providing guidance and oversight in the development and routine update of six-year financial, academic, and enrollment plans; and (iv) making policy recommendations to the Governor and General Assembly that ensure the Commonwealth's needs with respect to higher education are met consistently.

2. Specifically, these funds are provided to enhance the agency's capacity to: (i) collect and analyze data; (ii) conduct rigorous policy reviews, as needed; and (iii) evaluate and make recommendations related to resource needs, allocations, and systemwide funding policies. In addition to these funds, existing agency resources shall be reallocated and reprioritized in order to meet the needs of the Governor and General Assembly for routine assessments of the academic program and strategic planning efforts of Virginia's colleges and universities.

3. In addition, the State Council of Higher Education is charged with conducting a higher education affordability study. The purpose of the study shall be to address the extent to which cost is a barrier to access for students wishing to attend a public or private, nonprofit college or university in the Commonwealth. In addressing this issue, the study shall include, but is not limited to, identifying: (i) the economic diversity of students attending Virginia's public and private institutions of higher education; (ii) the extent to which students and families rely on grant aid, loans, savings, and supplemental employment to cover the cost of attendance; (iii) the extent to which state-funded need-based student financial aid mitigates any cost barrier for students in attending public colleges and universities or reduces reliance on loans, savings, and supplement employment; (iv) the extent to which state funding for the tuition assistance grant enables students to attend private, nonprofit colleges and universities in the Commonwealth; and (v) the comparative affordability and dependence on grants, loans, savings, and supplemental employment between Virginia's system of public and private institutions and that of similar states. The study shall be completed and transmitted to the Chairmen of the House Appropriations and Senate Finance Committees prior to the first day of the regular Session of the 2006 General Assembly."

5. The General Assembly determines that time is of the essence in making available the facilities described herein, and the Department of General Services is directed to initiate the project as soon as practical following the enactment of this chapter.

6. The Governor shall report periodically to the Chairmen of the Senate Finance and House Appropriations Committees on the plans and status of this project for their review and comment.

“§ 58.1-615. Returns by dealers.

A. Every dealer required to collect or pay the sales or use tax shall, on or before the twentieth day of the month following the month in which the tax shall become effective, transmit to the Tax Commissioner a return showing the gross sales, gross proceeds, or cost price, as the case may be, arising from all transactions taxable under this chapter during the preceding calendar month, and thereafter a like return shall be prepared and transmitted to the Tax Commissioner by every dealer on or before the twentieth day of each month, for the preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

Notwithstanding any other provision of this chapter, a dealer may be required by the Tax Commissioner to file sales or use tax returns on an accounting period less frequent than monthly when, in the opinion of the Tax Commissioner, the administration of the taxes imposed by this chapter would be enhanced. If a dealer is required to file other than monthly, each such return shall be due on or before the twentieth day of the month following the close of the period. Each such return shall contain all information required for monthly returns.

A sales or use tax return shall be filed by each registered dealer even though the dealer is not liable to remit to the Tax Commissioner any tax for the period covered by the return.

B. 1. In addition to the amounts required under the provisions of this section and § 58.1-616, any dealer as defined by § 58.1-612 or direct payment permit holder pursuant to § 58.1-624, with taxable sales and purchases of \$1,300,000 or greater for the 12-month period beginning July 1, and ending June 30 of the immediately preceding calendar year, shall be required to make a payment equal to 90 percent of the sales and use tax liability for the previous June. *Beginning July 1, 2005, for the payment required in 2006, the payment required under this subdivision shall only apply to such dealers or direct payment permit holders with taxable sales and purchases of \$50,000,000 or greater for such period of time and the payment required shall equal 20 percent of the sales and use tax liability for the previous June.*

Such tax payments shall be made on or before the 30th day of June, if payment is made by electronic funds transfer, as defined in § 58.1-202.1. If payment is made by other than electronic funds transfer, such payment shall be made on or before the 25th day of June. For purposes of this provision, taxable sales or purchases shall be computed without regard to the number of certificates of registration held by the dealer. Every dealer or direct payment permit holder shall be entitled to a credit for the payment under this subsection on the return for June of the current year due July 20.

The provisions of this subsection shall not apply to persons who are required to file only a Form ST-7, Consumer User Tax Return.

2. In lieu of the penalties provided in § 58.1-635, except with respect to fraudulent returns, failure to make a timely payment or full payment of the sales and use tax liability as provided in this subsection shall subject the dealer or direct payment permit holder to a penalty of six percent of the amount of tax underpayment that should have been properly paid to the Tax Commissioner. Interest will accrue as provided in § 58.1-15. The payment required by this subsection shall become delinquent on the first day following the due date set forth in this subsection if not paid.

The provisions of this subsection shall expire on August 1, 2006.

C. Any return required to be filed with the Tax Commissioner under this section shall be deemed to have been filed with the Tax Commissioner on the date that such return is delivered by the dealer to the commissioner of the revenue or the treasurer for the locality in which the dealer is located and receipt is acknowledged by the commissioner of the revenue or treasurer. The commissioner of the revenue or the treasurer shall stamp such date on the return, and shall mail the return to the Tax Commissioner no later than the following business day. The commissioner of the revenue or the treasurer may collect from the dealer the cost of postage for such mailing.”

COMMUNICATION

COMMONWEALTH OF VIRGINIA

Office of the Governor

February 27, 2005

TO THE MEMBERS OF THE GENERAL ASSEMBLY OF VIRGINIA:

When I delivered the State of the Commonwealth Address on January 12, 2005, I set forth several goals for this session of the General Assembly. I urged you to enact measures to strengthen the Commonwealth's system of transportation; to provide new resources for economic development in our rural and distressed communities; to grant our colleges and universities additional flexibility while requiring them to meet the state's long-term needs in student access, academic performance, assistance to our public schools, and economic development; and to continue the basic government reforms that have been a hallmark of this administration.

In what may have been the most important challenge facing us at the beginning of the year, I also urged you to stand firm in our shared commitment to fiscal discipline—to reject the calls of some Virginians who would have squandered our restored prosperity for political promises that couldn't be kept over the long-term. As I said then and will repeat now: how we respond to these increasingly prosperous times will say as much about us as how we dealt with the tough times. I am glad that this goal was so widely shared by the General Assembly.

As the 2005 session draws to a close, I am pleased to say that the General Assembly fulfilled the goals that I articulated in January. Your approval of my legislative program, and your continued adherence to fiscal discipline will help sustain the progress we have made and the rebounding economy Virginians now enjoy.

On the critical issue of transportation, you have approved the largest infusion of cash into transportation in the Commonwealth's history—\$847 million. These additional resources will promote new public private partnerships for transportation, strengthen rail and public transit, fund innovative local partnerships, and eliminate all remaining debt on completed construction projects. While these measures won't fix all of the transportation problems facing Virginia, they represent a major step forward and a victory for citizens who struggle daily with traffic congestion.

You also approved funding to protect and clean-up the Chesapeake Bay, as well as legislation granting more operational authority to our institutions of higher education, while requiring greater accountability. The modified charter legislation approved this year will help sustain excellence in our system of higher education, which is the envy of the United States. I commend you for approving our legislation to accelerate the phase-out of the food tax.

Finally, I am pleased that you approved measures to continue the progress we have made to reform and strengthen state government. At mid-session, we received the news that the Government Performance Project has rated Virginia as the best managed state in the nation. This exciting achievement is a credit to members of the General Assembly from both sides of the aisle, as well as our dedicated state workforce. During this session, you approved several measures I proposed to codify and continue the important reforms we have made.

I regret that the conferees on the budget did not approve full funding for our Virginia Works initiative. Virginia Works represents an innovative and creative approach to economic development in our rural and economically-distressed areas. The modest funding proposed for the initiative would have restored only a portion of the economic development funding that was reduced during the Commonwealth's fiscal crisis of the past 2 ½ years. The failure to fund Virginia Works fully is shortsighted. It will frustrate our work to create good jobs in rural Virginia, and it runs contrary to the professed desire of some members to ensure that all Virginians share in the prosperity of a growing economy.

Despite our difference on Virginia Works, this was on balance a productive session and I commend you.

On a personal note, I want to thank members from both sides of the aisle for their hard work this session, and for their continued adherence to bipartisanship. As I said during the State of the Commonwealth Address, together we have demonstrated that here in Virginia, Democrats and Republicans can come together to balance our budget and strengthen our economic future. Thank you.

Sincerely,

/s/ Mark R. Warner

WEDNESDAY, APRIL 6, 2005

The Senate met at 12 m. in Reconvened Session of the 2005 Regular Session and was called to order by Lieutenant Governor Timothy M. Kaine.

The Reverend C. Douglas Smith, Virginia Interfaith Center for Public Policy, Richmond, Virginia, offered the following prayer:

Our God, in the quiet of this time, help us not to be overwhelmed by others' expectations. Though critical voices are always upon us, we pray that at the end of the day we can proclaim that it is compassion which drives our demeanor.

Give safety to our sisters and brothers down the hall as they travel their districts, and safety to our statewide candidates as they traverse our Commonwealth. It takes a lot of miles, God, to describe a vision for tomorrow, and as You know, too many of those miles are treacherous.

Forgive them, and us all, when we trespass upon the honor of others by speaking ill of one another. Lead us not into the temptation of this world, but deliver us to consider the greater good.

Finally, our God, we pray for this great building, the Virginia Capitol. As we strip her of her years and restore her of her glory, we pray that someday soon this hill might speak again of our great history and challenge us to chart a bold future. Help her shine again as a beacon to those who hunger for democracy, the rich and the poor, as she proclaims that justice can never be absent, nor compassion failing, for our Commonwealth's survival. Amen.

The roll was called and the following Senators answered to their names:

Bell, Blevins, Bolling, Chichester, Colgan, Cuccinelli, Deeds, Devolites Davis, Edwards, Hanger, Hawkins, Houck, Howell, Locke, Marsh, Martin, Miller, Newman, Norment, Obenshain, O'Brien, Potts, Puckett, Puller, Quayle, Rerras, Reynolds, Ruff, Saslaw, Stolle, Ticer, Wagner, Wampler, Watkins, Whipple, Williams.

TO THE SENATE OF VIRGINIA

SENATE BILL NO. 1054

Pursuant to Article V, Section 6, of the Constitution of Virginia, I veto Senate Bill 1054. This legislation requires the Virginia Liaison Office to work with the state's congressional delegation and executive agencies to promote legislation or executive action that would provide an exemption to the existing moratorium on offshore natural gas exploration and development activities.

Senate Bill 1054 has two fundamental deficiencies. First, it encroaches on the role of the Governor to direct the activities of the Virginia Liaison Office. Second, it directs the Commonwealth to advocate for federal legislation that has yet to be introduced.

The Virginia Liaison Office is part of the Office of the Governor and its staff members report directly to the Governor. The current statutory duties of the Virginia Liaison Office are general in nature and involve keeping the state's congressional delegation informed of the Governor's priorities. Even the most important issues are left to the discretion of the Governor. For example, there is no statutory requirement for the Virginia Liaison Office to advocate for more federal transportation funding for Virginia or federal assistance in cleaning up the Chesapeake Bay. The office can and does advocate for these priorities even in the absence of a statutory mandate. This has always been left to the discretion of the Governor.

Senate Bill 1054 would permanently place in the Code of Virginia a requirement to advocate for lifting the moratorium on offshore exploration and development of natural gas. There is nothing to prevent individual legislators or groups of legislators from advocating for these or other policies.

That said, the federal legislation referenced in Senate Bill 1054 remains in draft form and has not yet been introduced in Congress. It is impossible to adequately form an opinion on federal legislation that does not yet exist. We need consensus on a national energy policy, and the contemplated federal legislation raises significant public policy issues on which I am willing to keep an open mind. However, it is inappropriate for the state to commit to a position on the legislation until such time as it has actually been introduced.

The General Assembly acknowledged the need for further study of these issues in passing House Joint Resolution 625. This study, which was approved with administration support, requests the Secretary of Commerce and Trade to examine state legislation that might be needed in response to contemplated federal action on these issues. I will ask the Secretary, as part of his study, to monitor federal developments on domestic energy production and needed state responses, if any. I have every confidence in the ability of my Secretary of Commerce and Trade to do a comprehensive study of these important issues. At the same time, I am uncomfortable with legislation predetermining the outcome of this effort.

For the reasons stated above, I am returning Senate Bill 1054 without my signature.

MESSAGE FROM THE HOUSE

A message was received from the House of Delegates by Delegate Callahan, who informed the Senate that the House had agreed to all amendments with the exception of amendments Nos. 14 and 19 in accordance with the recommendation of the Governor to **H.B. 1500** (one thousand five hundred).

HOUSE BILL WITH GOVERNOR'S RECOMMENDATIONS

H.B. 1500 (one thousand five hundred) was taken up together with the following communication from the Governor:

COMMONWEALTH OF VIRGINIA
Office of the Governor

March 29, 2005

TO THE HOUSE OF DELEGATES
HOUSE BILL NO. 1500

I approve the general purpose of this bill, but I am returning it without my approval with the request that the attached 30 amendments be adopted.

I begin this message by expressing my appreciation to the members of the House of Delegates and the Senate for all that was accomplished in the past session in a bipartisan spirit of cooperative action. Our collaborative efforts resulted in an appropriation bill that goes far in addressing unmet requirements of state government. We were fortunate that additional funds were available for this purpose.

The budget that was adopted fully funds the state share of the cost of meeting the Standards of Quality, and provides additional resources for higher education. It takes an important first step in addressing our pressing needs in transportation, with the largest cash infusion of funds in Virginia's history. It makes significant progress on our commitments to clean up the Chesapeake Bay. And, it funds capital projects on a pay-as-you-go basis without the issuance of tax-supported bonds. On these and many other fronts, the bill that you passed moves Virginia forward.

In general, our joint efforts reflected our shared purpose that appropriations made in this session should sustain the long-term financial stability of the Commonwealth. This is crucial if we are to avoid creating again the kind of serious budget shortfall that we spent more than two years addressing. As a result of our collective actions, Virginia stands recognized as the best financially managed state in the nation. Our challenge now is to maintain that standing.

The amendments I am proposing are concentrated on economic investment and missed opportunities. Several amendments address what I believe are unintended consequences, include issues which should not wait until the next session, or make technical corrections to the budget which was enacted.

Economic Development and Investment Opportunities (Item 506)

I have proposed that funding be added to Item 506 in the Central Appropriations section of the enrolled budget, which now contains \$48.1 million in general fund appropriations for several distinct activities and purposes. Item 506 currently includes funds for the Governor's Development Opportunity Fund, post-secondary educational opportunities in Southside Virginia, the microelectronic endowment at Virginia Commonwealth University, the Virginia Horse Center, rent and telecommunication increases for state agencies, review of the enterprise-wide technology PPEIA proposals, legal defense, and dredging of the Appomattox River. I am recommending that funding in this item be increased by \$15.8 million to provide state support for the following purposes:

- Compression Pay for State Police, Capitol Police, Sheriffs, and Deputy Sheriffs;
- Life insurance premiums for deployed members of the Virginia National Guard;
- Virginia Modeling, Analysis and Simulation Center;
- Land acquisition and related costs at the Virginia Biotechnology Research Park;
- Career and technical training, testing, and certification;
- Federal revenue maximization for the school nutrition program;
- Rural and cultural economic development and tourism;

- Appomattox River dredging;
- Virginia Horse Center;
- Grace E. Harris Leadership Institute;
- Salem Civic Center sales tax language; and
- Improvements to Route 30 for the State Fair

Part of the funds required to support these amounts is provided through language provisions that identify general fund savings in Medicaid, to account for projected Health Care Fund increases, and in the Treasury Board, to account for anticipated debt service savings.

The most significant of these actions are:

Compression Pay for State Police, Capitol Police, Sheriffs, and Deputy Sheriffs. The General Assembly attempted to help address pay inequity issues for state and state-supported local employees in proposed additions to the budget, but did not include this additional funding for law enforcement officers under the State Police, Capitol Police, and Sheriffs. I believe this omission exacerbates the problem law enforcement agencies are having in retaining seasoned law enforcement officers. Thus, I am including additional funding to increase the salaries of those officers in the funding provided in this item. This will help law enforcement agencies maintain staffing levels and improve operational effectiveness.

Life insurance premiums for deployed members of the Virginia National Guard. This action would provide funding for the state to pay the military life insurance premium for all Virginia National Guard soldiers deployed as part of Operation Enduring Freedom, Operation Noble Eagle, or Operation Iraqi Freedom. Currently, members of the guard must pay out-of-pocket the premiums on life insurance policies up to \$250,000. Given that some National Guard soldiers may forego insurance coverage due to its cost, this action would ensure that the coverage is provided, and that every soldier's family is protected financially. Finally, this action would help in the recruitment and retention of National Guard soldiers.

Support for the Virginia Modeling, Analysis and Simulation Center. The use of mathematical modeling and computer simulation to explore complex problems, particularly in defense and homeland security, has grown enormously in recent years. States which are well positioned to take advantage of that growth benefit substantially. The economic contribution of this sector to Virginia for FY 2004 is estimated at \$413 million. The Virginia Modeling, Analysis and Simulation Center at Old Dominion University is the focal point of Virginia's activity. We recently became aware of an opportunity to make Virginia preeminent in this field and further enhance the economic benefits to the state. I am therefore recommending that we strengthen Virginia's capacity in modeling and simulation by adding funding to support focused research efforts and collaborative projects with the U.S. Joint Forces Command headquartered in Norfolk.

Support for rural and cultural economic development and tourism. While the General Assembly adopted some actions to strengthen cultural and economic development in rural Virginia, I am proposing certain additional strategies for that purpose. My amendments are targeted to those strategies and will produce measurable results in Southside and Southwest Virginia. The funding I am recommending is focused on boosting tourism, providing regional grants to support identified workforce training requirements of existing businesses in distressed regions, and providing funds to assist localities in acquiring and developing closed industrial sites. Language requires that I submit a spending plan to you before committing this additional funding.

Support to maximize federal revenue for the school nutrition program. The introduced budget included additional state funding to support school nutrition, in the form of a 5-cent per meal state subsidy for school breakfasts. The enacted budget did not include that appropriation. I remain convinced, however, that the need is pressing and the case for additional state support is compelling. Numerous studies have documented the clear connection between nutrition and student learning, and between nutrition and future health.

I believe we have a unique opportunity to improve student nutrition and at the same time increase federal funds that support school nutrition programs. In this item, I am recommending a 20-cent reimbursement incentive available only to schools which increase the number of breakfasts served. Local divisions may not use this additional state support to supplant funds they are already spending on nutrition programs. This additional state support will provide a return of up to 6 to 1 in additional federal funding for every state dollar spent. We can and should maximize federal revenue for this important purpose.

Career and technical training, testing, and certification. The economic vitality of the Commonwealth relies, in large measure, on the education and skill level of our citizens. In order to encourage high school students who are not college-bound to continue working toward high school graduation and pursue technical training for an industry certification, we need funding to support the costs of technical training, testing, and certification. My amendments provide funding to public schools and community colleges to pay the cost of training and testing which leads to industry certification in specific trades.

Other Spending Amendments

I am also submitting amendments to cover the cost of training and travel for veterans service representatives, in accordance with the new guidelines stipulated in House Bill 2851 (2005). My amendments also restore funding and positions for the Department of Minority Business Enterprise to enable the agency to fulfill its mission, address the findings of the recent disparity study, and to effectively implement the Small, Women, and Minority-owned (SWAM) business procurement initiative. I also added a total of \$3.5 million in state support for cultural and historic attractions, to recognize the role they play in stimulating tourism and improving the quality of life for Virginians across the Commonwealth.

Language Amendments

Finally, I am including 23 language amendments to clarify existing provisions or language in the enrolled House Bill No. 1500, as enrolled. Many of these provide technical clarification to provisions adopted during the 2005 session. Some provide additional administrative flexibility in addressing issues on which we agree, such as the 2005 transportation initiative. These language amendments are listed below:

- Site flexibility for a Virginia School for the Deaf and the Blind replacement facility;
- Flexibility for Virginia State University in the use of equipment and capital funds;
- Clarification of Non-participating Tobacco Manufacturers escrow incentive payment language to reflect Senate Bill 1332;
- Maintenance of FY 2005 formula for distribution of Older Americans Act funding;
- Submission of tuberculosis samples by Virginia Department of Health to Division of Consolidated Laboratories;
- Clarification of Department of Medical Assistance Services language on provider overpayment;
- Transfer of Council on Indians funding to the Office of Natural Resources;
- Department of Historic Resources support for Base Realignment and Closure activities;
- Authority for Department of Fire Programs to set minimum payment levels to localities;

- Elimination of VITA deficit loan repayment;
- Authorization of VDOT land exchange with Lehigh Cement Company;
- Elimination of State Police exemption from VITA;
- Use of transportation residue property;
- Extension of Local Partnership Program in VDOT;
- Use of rest stop funding on I-81;
- Clarification of the scope of a Virginia Port Authority capital project;
- Grandfathering current energy performance contracts;
- Correction of delegated authority for nongeneral fund capital projects;
- Restoration of existing policy for graduate student financial assistance;
- Revisions to Transportation Initiative of 2005 language to provide greater flexibility in designation of funding (four separate amendments)

The most significant language amendments are detailed below:

Consolidated Virginia School for the Deaf, Blind and Multi-Disabled. Language in the enrolled bill requires the consolidation of the Hampton and Staunton Schools for the Deaf, Blind and Multi-Disabled to be at a new facility location to be determined by the required study. My amendment allows existing facilities to also be considered for the location of the consolidated school. The study may find renovations and additions at an existing campus to be more cost effective than relocating to a new site.

FY 2005 funding formula for Older Americans Act. My amendment requires the Department for the Aging to continue using the existing distribution formula for Area Agencies on Aging (AAAs) until a special task force can evaluate the impact of the 2000 census and report to the Governor and General Assembly. FY 2006 budgets are in place for many local agencies, and changing the distribution formula at this time would disrupt services.

Base Realignment and Closure (BRAC) support at the Department of Historic Resources. The language requires that DHR work collaboratively with state military facilities to expedite the inventory of historic properties and to assist installation commanders in meeting Department of Defense requirements for environmental assessments. State agency cooperation is one factor used in the BRAC process for assessing the continued use of military bases.

Minimum amount of aid that Department of Fire Programs may pay to localities. Currently, state statute authorizes the Fire Services Programs Board to provide a minimum of \$4,000 for towns and \$10,000 for cities and counties. In 2001, the Office of the Attorney General advised the Board that it had the power to increase these minimums to \$6,000 and \$12,000, given increases in revenues, and payments have been made at that level since that time. A recent re-interpretation from the Office of the Attorney General concludes that the Board cannot pay these higher amounts without additional legislative authority. I am offering an amendment that would give the Board the authority to continue providing aid payments at the higher minimums until amendments can be made to the *Code of Virginia*.

Virginia Information Technologies Agency (VITA) deficit loan repayment requirement. The enrolled budget includes language requiring VITA to increase its rates in order to recover \$6.1 million in start up costs which VITA has incurred, which were funded in the introduced bill through a general fund appropriation. The rate increase necessary to recover these costs represents a budget cut to all affected agencies, whose budgets were not funded to absorb the increase. Moreover, some of these costs cannot be charged to the federal government.

I have submitted a language amendment striking the repayment language, thereby eliminating the implicit budget cut for state agencies. Funds to cover the start-up costs will come from unobligated year-end balances, or will be addressed in next year's budget bill.

Extend Local Partnership Program. This amendment extends by one year the eligibility period for transportation projects for the Local Partnership Program. The extension will ensure full utilization of the funds provided by the General Assembly to encourage local governments to assume the responsibility for the management and administration of the design, acquisition, and construction of all non-interstate transportation facilities within their boundaries.

Rest stop funding on I-81. Language in the enrolled budget bill gives priority to the I-95 and I-64 corridors in using \$20 million in funding provided for rest stop improvements. Given the heavy volume of traffic on Route I-81, I am providing an amendment to allow the Commonwealth Transportation Board to consider the needs of Route I-81 rest stops when determining the use of the \$20 million.

Energy performance contracts. The enrolled budget includes language I proposed to treat energy performance projects as capital projects, if the cost of the project is greater than \$3 million. I am proposing a clarifying amendment to this language that provides a grandfather clause allowing energy performance projects underway before July 1, 2005, to continue to be treated as operating expenses so as not to negatively impact present project negotiations.

Graduate student financial aid. High quality graduate students are the lifeblood of our research institutions. A 1999 SCHEV study estimated that two-thirds of all graduate students remain in Virginia. For years, it has been state policy to allow institutions to use up to 50 percent of the funds designated for graduate grants for out-of-state students. The enrolled budget bill reverses this policy by prohibiting institutions from using general fund appropriations for any new grant awards for non-Virginia graduate students. The Council of Presidents has advised me that Virginia’s research institutions will not be able to attract top graduate students and compete nationally with such an extreme limitation on graduate financial aid. The enrolled bill directs a study of this issue, which I believe is warranted. Therefore, I am offering an amendment to restore the past policy of 50 percent, pending completion of the study.

Flexibility for implementing transportation initiative. I am offering four related amendments that provide flexibility to the Department of Transportation regarding the fund source and distribution of funding between fiscal years in implementing the program objectives approved by the General Assembly. Without this language, about \$ 84 million in federal funds freed up by eliminating project deficits will be severely restricted in their use.

Summary

The set of amendments I have proposed improves on a budget that otherwise accomplishes most of our major purposes. I respectfully request your adoption of these amendments at the reconvened session.

§ 58.1-3833. County food and beverage tax.

A. Any county is hereby authorized to levy a tax on food and beverages sold, for human consumption, by a restaurant, as such term is defined in subdivision 9 of § 35.1-1, not to exceed four percent of the amount charged for such food and beverages. Such tax shall not be levied on food and beverages sold through vending machines or by any person described in subdivisions 1, 2, 3, and 5 of § 35.1-25, as well as nonprofit cafeterias in public schools, nursing homes, and hospitals. Grocery stores and convenience stores selling prepared foods ready for human consumption at a delicatessen counter shall be subject to the tax, for that portion of the grocery store or convenience store selling such items.

This tax shall be levied only if the tax is approved in a referendum within the county which shall be held in accordance with § 24.2-684 and initiated either by a resolution of the board of supervisors or on the filing of a petition signed by a number of registered voters of the county equal in number to 10 percent of the number of voters registered in the county, as appropriate on January 1 of the year in which the petition is filed with the court of such county. The clerk of the circuit court shall publish notice of the election in a newspaper of general circulation in the county once a week for three consecutive weeks prior to the election. If the voters affirm the levy of a local meals tax, the tax shall be effective in an amount and on such terms as the governing body may by ordinance prescribe. If such resolution of the board of supervisors or such petition states for what projects and/or purposes the revenues collected from the tax are to be used, then the question on the ballot for the referendum shall include language stating for what projects and/or purposes the revenues collected from the tax are to be used.

The term "beverage" as set forth herein shall mean alcoholic beverages as defined in § 4.1-100 and nonalcoholic beverages served as part of a meal. The tax shall be in addition to the sales tax currently imposed by the county pursuant to the authority of Chapter 6 (§ 58.1-600 et seq.) of this title. Collection of such tax shall be in a manner prescribed by the governing body.

B. Notwithstanding the provisions of subsection A of this section, Roanoke County, Rockbridge County, Frederick County, Arlington County, and *Montgomery County*, are hereby authorized to levy a tax on food and beverages sold for human consumption by a restaurant, as such term is defined in § 35.1-1 and as modified in subsection A above and subject to the same exemptions, not to exceed four percent of the amount charged for such food and beverages, provided that the governing body of the respective county holds a public hearing before adopting a local food and beverage tax, and the governing body by unanimous vote adopts such tax by local ordinance. The tax shall be effective in an amount and on such terms as the governing body may by ordinance prescribe.

C. Nothing herein contained shall affect any authority heretofore granted to any county, city or town to levy a meals tax. The county tax limitations imposed pursuant to § 58.1-3711 shall apply to any tax levied under this section, mutatis mutandis. All food and beverage tax collections and all meals tax collections shall be deemed to be held in trust for the county, city or town imposing the applicable tax. The wrongful and fraudulent use of such collections other than remittance of the same as provided by law shall constitute embezzlement pursuant to § 18.2-111.

D. No county which has heretofore adopted an ordinance pursuant to subsection A of this section shall be required to submit an amendment to its meals tax ordinance to the voters in a referendum.

E. Notwithstanding any other provision of this section, no locality shall levy any tax under this section upon alcoholic beverages sold in factory sealed containers and purchased for off-premises consumption or food purchased for human consumption as "food" is defined in the Food Stamp Act of 1977, 7 U.S.C. § 2012, as amended, and federal regulations adopted pursuant to that act, except for the following items: sandwiches, salad bar items sold from a salad bar, prepackaged single-serving salads consisting primarily of an assortment of vegetables, and nonfactory sealed beverages.

2. That any transient occupancy tax lawfully being imposed by any county in excess of two percent pursuant to subsection A of § 58.1-3819 immediately prior to and on and after July 1, 2004, is ratified retroactive to July 1, 2004; and any such county is authorized to continue to impose such tax except as the General Assembly may alter such authority by an act passed after July 1, 2004.

3. That any food and beverage tax lawfully being imposed by any county pursuant to subsection B of § 58.1-3833 immediately prior to and on and after July 1, 2004, is ratified retroactive to July 1, 2004; and any such county is authorized to continue to impose such tax except as the General Assembly may alter such authority by an act passed after July 1, 2004.
